CISCO, TEXAS, THURSDAY, AUGUST 28, 1952

NUMBER 193

The Gay Philosopher

By J. W. S.

A CISCO YOUTH has been given a letter of commendation by the commanding officer of the USS Boxer, an aircraft carrier operating in the Korean war zone. He is William J. Eudy and his mother, Mrs. J. M. Eudy, showed as a recent letter from him.

The letter of commendation was given to Eudy, a member of the Boxer's crew, as the result of his work when the ship had a bad fire and lost several airplanes and a number of men were killed and injured.

Writing his mother from Yokosuka, Japan, Eudy wrote: "The first indication I had of a fire was smoke coming out of the catwalk. It was about 6:15 a. m. We first thought it was a small fire in the catwalk caused by the jet there turning up. I ran over and put the engine and ran to the danger deck. A jet and a Corsair were burning and 50 calibre shells started going off. I made last tracks back."

Eudy said a bomb soon went off and all they found of one man was a few pieces. He said he never worked as hard in his life. They battled the blaze all day before they finally got things under control. He enclosed the letter of commendation for his mother to keep.

COMES A LETTER from Eva May Hopson of Kansas City, Mo., to say: "I'm sending you a clipping from the Star. It may be of interest to your readers, as Mrs. Kimball is the daughter of Mr. and Mrs. N. C. Buchanan, 101 West 8th Street, Cisco."

And the clipping told how Mrs. Kimball, whose husband is Dr. M. H. Kimball of St. Mary's Hospital in KC, has read about a 10-year old boy. The lad found a package containing \$500. He took it to the police station and they gave him \$1. The boy's mother scolded him and the boy ran off from home. Mrs. Kimball, reading about it, sent a \$10 bill to the police to give to the boy.

OUR SCOUTS report that you don't have to be very old to be a good scout with a rifle. For example, the Cisco Kid Junior Rifle Club has youngsters who are coming along nicely in the shooting business. The other night, little Miss Karen Taylor, 9, shot a perfect score at the club meeting. She finished with a better score than her mother, Mrs. Archie Taylor.

MR. M. W. COTTON, who umpired a good many baseball games at the local park this summer, reports that some of the boys were giving him a bit of advice about where the base umpire was supposed to stand. So Cotton wrote a sports writer at Fort Worth.

Rule 9:09 (a) was quoted as follows: "The duties of the field umpire shall be to take such position on the playing field as in his judgment is best suited for the rendering of impending decisions on the bases."

The writer went on to add "I see nothing wrong with the base umpire working between the mound and second base with runners on."

THE CIRCUS NETTED the sum of \$119.70 for the Lions Club, Chairman W. E. Dean reported. A good crowd turned out for the night show. Only 16 people showed up for the matinee and it was called off.

Mr. Allen, the manager of the circus, spoke at the Lions Club at their luncheon on Wednesday. He said this was their 162nd one-day stand. They started in Texas last March and have been to Canada and back. Once this season, a storm flattened the big tent.

The circus carries 62 people on the payroll and feeds them in a portable kitchen. Mr. Allen said their grocery bill runs around \$350 per week. Compared with last year, the show's profits are off. They moved from Cisco to Abilene for performances today and tonight.

The elephant at the circus is 50 years old. It weighs 10,000 pounds. Elephants don't give off heat. They catch pneumonia if the temperature gets under 50 degrees. The elephants eat mostly hay with an occasional round of grain. Most elephants are pretty easy to manage, Mr. Allen says.

Girl Scout Rally Planned To Open Program For Fall

A Girl Scout Rally for all Cisco scouts and all girls interested in scouting was planned as the opening event of the fall scouting program in the city as a meeting of the local Girl Scout Association Board at the home of Mrs. Don Choate, association president, Thursday morning.

Tentative plans call for holding the rally at 7:30 p. m. Tuesday, September 9, with the place and complete plans to be announced later. The board urged all Girl Scouts, Brownies and those interested in becoming Scouts or Brownies to plan to attend the rally. Refreshments will be served and an interesting program arranged.

At the meeting Mrs. R. P. Brashear was appointed camp chairman, Mrs. J. H. Latson was made organization chairman and Mrs. Sidney Spain training chairman. The appointment of the three new board members filled vacancies caused by recent resignations. The post of nominating chairman remained to be filled.

Plans for the monthly activity program for the scouts were discussed and it was decided to continue holding the meetings each month with the time to be set later.

Attending the meeting were Mrs. Choate, Mrs. Brashear, Mrs. Latson, Mrs. John Christopher and Elsworth Mayer.

Sergeant Brawley Is Home From Korea War

Sgt. Doyle O. Brawley, son of Mrs. J. W. Brawley of Nimrod, arrived in Cisco Sunday night after some time spent in Korea. Sgt. Brawley went into the Air Force in April, 1950, and served 12 months in the Korean theater. He enlisted in the Air Force after attending high school in Scranton.

He reported that even the hot, dry weather failed to detract from his pleasure at being home. He will report to a base in New Mexico at the end of his leave on October 26.

H-SU PLANS TO OFFER SENIOR COLLEGE EXTENSION WORK HERE

Hardin - Simmons University will offer extension courses for junior college graduates and others interested at Cisco Junior College during the 1952-53 school year, President O. L. Stamey of the local school announced today. The courses will be offered at night.

The H-SU courses are being made available here by invitation of Cisco Junior College for the benefit of many veterans who have completed two years of college work and desire further education under the GI program. Anyone else interested in college work may enroll.

TELEGRAM PICKS STEPHENVILLE TEAM TO WIN DISTRICT TITLE

The Fort Worth Star-Telegram has picked Stephenville to win the district 2A-10 football championship this fall. A story on the district's outlook, prepared by the paper's Phil Collier, follows:

When an observer attempts to forecast the outcome of a particular football race, one studies the teams' 1951 records, their returning lettermen, previous scores current schedules, strengths and weaknesses, then reaches a decision.

Two other factors figure prominently in every title battle, and were it not for them, picking the winners in August would be easy. One such factor, of course, is luck. The other is reputation—the sort of reputation that has been credited with enabling the New York Yankees to beat seemingly superior teams at times.

This latter element weighed heavily in the Star-Telegram's selection of Stephenville to win the forthcoming 2A-10 schoolboy grid title.

Temperature Has Nose Dive To 98

The temperature stayed below the 100 degree mark Wednesday for the first time since August 1 when the reading was 97 degrees. The high for Wednesday was a cool 98 and the possibilities were good that it would remain in the upper 90s Thursday.

The 98 reading followed 102 on grip that 100 degrees or better had held for the past 25 days. Weathermen were quick to warn that there was no immediate indication of a break in the heat wave or the drought but the little relief might hold for a while.

The 98 reading followed 102 on Tuesday, 104 on Monday, 103 on Sunday and 102 last Saturday.

There had been only .16 inches of rain recorded in August and the last appreciable amount of rain fell on July 4 when as high as three inches fell in parts of the city and area.

DRIVE AN OLDSMOBILE Before You Buy!

Mr. Stamey said the extension program would be explained in full at a meeting to be announced soon. Meanwhile, any information concerning the courses may be obtained by calling at the college. The courses to be offered will depend on the demand, Mr. Stamey added.

The college will begin the new school year on Monday, Sept. 8, with enrollment for both the day and night classes. The H-SU program will begin a week later.

Charles Masseege, 140-pound left halfback letterman who suffered a broken leg in November and missed the state playoff game with Winters, is Ranger's fastest runner and may be the "long gainer" the club seeks.

Gerald Bagwell, 145-pound holdover regular at quarterback, promises to give the Bulldogs improved T-formation passing and Warden expects to throw up a stiffer defense.

Dr. Cox Calls For Action In State Health Program

AUSTIN, Aug. 28. — State Health Officer George W. Cox has called for "less concern about so-called federal domination" of the state's business and "more positive action" to prevent it.

In a written statement to the Dallas Times-Herald, the veteran of 18 years of fighting the battle for public health said his position on the propriety of receiving federal money was clear.

"I want my state to maintain its prestige, dignity, authority and ownership of the state public health program," he said.

A previous statement to the effect that he didn't see anything wrong with accepting federal funds "except that we don't get enough of it" had been widely circulated by the Associated Press. The Dallas Times-Herald editorialized on that view.

"Federal domination must inevitably develop as long as the state's public health money continues to supplement the federal public health money. The reverse should exist," he wrote, "with federal money supplementing that provided by the state."

"It is no less than like a stock company or corporation — the chap who owns the majority of stock will no doubt want to direct the operation. My position is that my state to maintain its prestige, dignity, authority, and ownership of the state public health program."

Dr. Cox has already made known his intention to wage a vigorous campaign for a \$50 per capita legislative appropriation when the legislature convenes. The department is now operating on about \$20 per capita, far beneath the national average of \$62 per capita.

"If the legislature agrees to appropriate \$50 per capita to operate on, then we'll be in a better position to use federal funds for supplementing the state program," he said.

Former Mayor Is Laid To Rest In Last Rites Here

J. T. Berry, 84, former mayor of Cisco and widely known in West Texas, was laid to rest in Oakwood Cemetery here late Wednesday after final rites were held at the First Baptist Church. The Rev. J. E. Harrell of Stanton conducted the services.

Mr. Berry, a Cisco lumberman and civic leader for more than 30 years before he went to Stanton to live with his only son in 1941, died early Tuesday after a long illness. He was buried beside his wife who preceded him in death by some 11 years.

Pallbearers were: William Reagan, Joe Clements, R. L. Ponsler, H. A. Bible, Dudley Lee and Charles Spears. Several members of the Cisco city commission attended the last rites in a body. The large group that came to pay respects to Mr. Berry included residents of Stanton, Abilene and other area cities.

Mr. Berry came to Cisco around 1920 and operated his own lumber yard. At one time he owned yards both here and in Rising Star. He sold out to the Burton-Lingo Company and served as a manager for them for a number of years. Mr. Berry served one year as a member of the city commission here and was mayor from 1931 to 1941. His wife died in 1941 and he moved to Stanton shortly thereafter.

Most of the city's business firms closed at 5 p. m. Wednesday in respect to Mr. Berry. Surviving him are his son and family Mr. and Mrs. Phil Berry and daughter, Betty, of Stanton, and a nephew, R. L. Bowyer, of Abilene.

Mr. Berry was born in Elizabethtown, Ky., in 1867, and came to Texas at the age of 9, moving to Abilene in 1879. He came to Cisco from Abilene.

TANDY LEE ALLEN
Mr. and Mrs. C. L. Allen, Jr., of Fullerton, Texas, are the parents of a son, Tandy Lee, born August 27. The infant weighed 7 pounds and 1 ounce at birth. The grand parents are Mr. and Mrs. C. L. Allen, Sr., and Mr. and Mrs. H. H. Harrellson, all of Cisco.

R. W. (Bob) Winston of Cisco was in a very serious condition at Graham Hospital Thursday.

Addressed to the citizens of Cisco and the surrounding area, Mr. Farrow issued a statement in connection with the year's program, as follows:

"Speaking for the Board of Directors and officers of the Cisco ABC Club and also for myself, I want to thank all of you for your fine support of our summer program."

"If we have given you any enjoyment as spectators at the baseball games or provided your children with a measure of good clean play in their recreational periods, we have been repaid for the effort put forth in the program."

"A special word of commendation is due those firms and individuals who gave of their time, material and finances to the program. Among others are Cisco Lumber & Supply, Latson Construction Company, Tom Smallwood Electric, West Texas Utilities Company, Henson Construction Company, Damron Tire & Supply, Cisco Rotary Club and Cisco Lion's Club. We especially appreciate John William Butts Post of the American Legion providing Lake Cisco Pool for free swimming and Cisco Public Schools for transportation to and from the pool."

PLANS COMPLETED FOR HOBBY FAIR HERE NEXT SATURDAY

Plans were complete Thursday for the holding of Cisco's first Hobby Fair Saturday, August 30, in the building formerly occupied by the J. C. Penney Company on Avenue D.

The fair will open at 9 a. m. and will close at 6 p. m. and every one in Cisco and the Cisco area was invited to exhibit the products of his or her hobby during that time.

Those desiring to enter exhibits at the fair were asked to bring the products to the building Friday morning in order that the exhibits may be properly arranged.

Legislative Work Outlined In New UofT Publication

AUSTIN, Aug. 27. — Texans can follow legislative activities more intelligently with a new University of Texas Institute of Public Affairs booklet.

"How Bills Become Laws in Texas" by Dr. Dick Smith is a revision of an earlier publication issued by the Institute's forerunner, the Bureau of Municipal Research. Dr. Smith also prepared the original study while at the University in 1945. He is now at Tarleton State College.

The new edition is brought up to date through the 1951 session of the Legislature. Based on rules of the Senate and House of Representatives, the booklet follows a bill's progress through each house from introduction to final passage. It outlines in detail procedure of first reading, committee consideration, second reading and third reading. The booklet tells when and how amendments may be made, what happens if the governor vetoes a bill, and procedures followed when the houses pass different versions of a certain bill.

"This publication has been one of the most popular the Institute has ever offered," Dr. Wilfred D. Webb, Institute acting director, commented. "The old publication was reprinted three times to supply the increasing demand, and we hope this completely new version will meet with equal success."

FOOTBALL

Comanche should be stronger than a year ago when it won five games and dropped five, but the Indians don't figure to contend for the title. Coach P. T. Galiga has back 12 lettermen and two reserve numeral winners. Eight of the veterans were regulars.

Key figure in Comanche's plans is Weldon Turner, 155-pound all-state candidate at quarterback. Cisco should be on a par with its 1951 club that won four, lost four and tied one. The Lobos, coached by Jack Everett, retained six regulars and four other lettermen.

The club may get away slowly this year, however, since it is changing from single wing to the T formation.

The 2A-10 chart:

Returning Regulars — Four: Kaufman, Jackson, McCullough and Terrell.

IT'S THE LAW in Texas

In most cases the seller wants the cash when the buyer buys the house. Then the problem to the buyer is, how to raise the money? The answer is, borrow it. Regulation X of the Federal Government requires the buyer to have a certain amount of his own money on hand for payment on the house, if it is not older than a certain age. However, even as to houses not under Regulation X, the buyer should have some cash of his own.

One term common to all loans is the promissory note. In this note, the borrower promises to re-pay to the lender the amount of money borrowed. Of course, the borrower agrees to pay the lender some interest for the use of the money.

The rate of interest can be as high as 10% and still be legal in Texas, but most lenders today charge about one-half of that rate. The rate of interest is usually lowest on those loans that are insured by an instrumentality of the Federal Government, such as Federal Housing Administration (F H A) and Veterans Administration (V A).

A note usually provides for the sum of money being re-paid to lender in installments — monthly installments probably being the most common. This portion of the note is very important to the borrower as he does not want the installments to exceed the amount he can afford to pay.

On the other hand, the borrower does not usually want the installments to be too small. Small installments mean that the principal is re-paid very slowly and, therefore, over the life of the loan, the borrower pays more interest.

In regard to re-payment, if the note contains a provision enabling the borrower to pay the loan in part or in full prior to the maturity of the note, ("payment privilege") then the borrower can use his extra cash to reduce his indebtedness. Also, a liberal prepayment privilege may be very useful to a borrower if and when he desires to sell his house.

In order for the lender to have something to fall back on in case the borrower does not fulfill his promise to re-pay the money, most borrowers are required to place a mortgage on the house and let it be buying. In Texas, the mortgage instrument used is a "Deed of Trust," a complicated instrument.

In its essentials, it is a conveyance of the real estate by the borrower to a third party (Trustee) for the benefit of and as security for the lender. If the borrower defaults in the payment of the note or defaults in the performance of certain promises made in the Deed of Trust, then the Trustee is authorized to sell the property and apply the proceeds to the satisfaction of the borrower's debt to the lender.

A free pamphlet containing useful information on legal problems involved in buying a home has been prepared by Texas lawyers. To obtain a copy, merely print your name and address on a postcard and mail to State Bar of Texas, Austin 15, Texas.

(Their column, based on Texas law, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)
