Sue's Views

By Sue Cannon

In Monday's Amarillo paper, Paul Harvey had a column written about farmers that we thought was excellent. We decided to reprint it here, so that those who make their living at the thankless job of providing the world with food might enjoy it too.

"A farmer is a man who wears out two pairs of overalls growing enough cotton for one.

A farmer can shape an ax handle from a persimmon sprout and shoe a horse with a hunk of car tire.

A farmer starts every year with nothing, loses everything he grows and at the end of the year comes out even. Nobody knows how he does it. He doesn't even know himself.

"What are farmers made of?

"Farmers are made of bent nails, rusty horsehoes, barbed wire and are held together with calluses.

"During planting time and harvest season, he finishes his 40-hour week by Tuesday noon; then, painin' from tractor-back, he puts in another 72.

"He can make a harness out of hay wire, feed sacks and shoe scraps. He grows corn and melons mostly to make fat crows.

"He loads his planter with $1,500 worth of seed, fertilizer, herbicide and insecticide. That's one hour's worth. In a normal farm afternoon, 1 p.m. to 10 p.m., he'll bury $13,500 in the ground.

"Odds are it'll get too wet or too dry, or there'll be hail, wind, early frost, early snow, bugs, brickbats and bureaucrats. And, if he gets a good crop, he won't meet expenses.

"Yet, the only lines of a farmer's face are from grinning.

"You look at his unattended chores, unpainted buildings, unsharpened tools and untidy barnlot and you say, "The smartest man in the world would starve trying to do all that!"

"And you're right! The smartest man would starve.

"But not the farmer.

"His wife won't let him. She has a basic menu; she serves what she has. In good years, that may be six vegetables at one meal. In lean years, she jumps from poke salad to black-eyed peas.

"The farmer orders a 17-inch John Deere disc - $4,300. By the time it's delivered, it's $6,500.

"He's got a $40,000 machine needing repair. It's 5:30 p.m. and the company-owned stores are closed. And he's got 5 hours daylight he can't let go to waste. So he borrows a machine from a neighbor, is moving it down the highway when he's run into a ditch by some joker pulling a boat.

"Yet he remains the world's most stubborn optimist.

"He believes that the fact he's come this far proves he can go the rest of the way. He buries last year's disappointments with springtime plowing because his faith is not in himself alone. He'll finish a hard week's work with a 5-mile drive to church.

"He plants in hope, cultivates in faith and ends in debt; then starts over with greater hope and stronger faith.

"Heaven help the family that depends on a farmer for support. Heaven help the nation that doesn't have him to support it."

Olton's Growth Shown By P.O.

"Postal receipts help guage what a town is doing," says Postmaster D.M. "Bub" Holt, and according to local post office records, Olton is not experiencing the declining state of many other small towns in the nation.

Holt points out that many large corporations, businesses, the National Chamber of Commerce and others look to a city's postal receipts for an indication of "what the town is doing."

"They (postal receipts) reflect the economy of the local area. Our records began showing in 1971 just how we are growing. When this office was built in 1964, we had 564 boxes and that was plenty - we had empty boxes."

That number, Holt said, was a projected total which was believed sufficient for a 10 year period with growth allowance.

"Instead, we had to add another 90 boxes in 1967. We had 654 then which was enough and some excess boxes but by 1970, we ran out again."

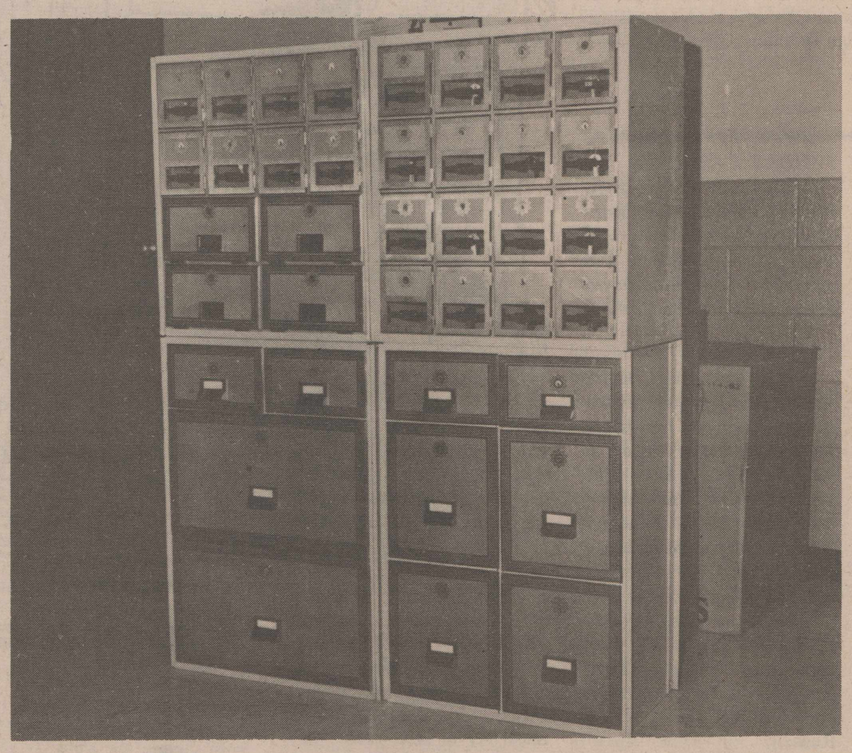

Holt said he began requesting additional boxes in 1970 and 1971 but the national trend indicated that small town postal receipts were declining the postal department "couldn't believe we really needed them."

"They were real hesitant and came and looked our situation over. We had every box rented. Finally, about two years ago, they agreed we needed more boxes."

"We had general deliveries running out our ears because we didn't have boxes to rent," Holt recalls. "Then the company that manufactured the boxes went out of business before we could get them. But we found another company and finally, we have them here. All we're waiting for now is for them to get them installed for us."

Presently there are 150 families receiving mail through the general delivery service and a number of boxes are accomodating the mail of more than one family.

Holt said the additional 275 boxes (25 fewer than he had requested) will be installed in the very near future.

LOTS OF MAIL can be placed in the new and larger boxes which are to be installed in the very near future at the local post office. Shown here are a portion of the new boxes which will include two different sized boxes which are larger than any offered here previously. (Staff Photo)

Olton's perspective, as reflected in the postal receipts, is a bright spot which disclaims the gloom of pessimists. With the exception of one year, the past five have shown a steady climb upwards.

"In 1973 when so many post offices showed a decline -- you know, that was when we'd had the bad crop because of the early freeze -- our receipts didn't go down, we held our own and were even up a little bit."

Postal department fiscal year is July 1 through June 30. Receipts at the local post office for that period ending June 30, 1971 showed a total of $45,124.55. Year end total the next year was up to $52,623.37 and $52,769.25 with the close of the 1973 postal year.

Receipts for the year ending June 30, 1975 indicated $65,278.63 for a $20,000 plus increase over the same period five years ago.

"Postal receipts" are a combination of stamp sales, second and third class mailings, money order receipts and box rentals.

Contrary to what might be expected, the quarter including December with its accompanying Christmas mailings is not the "big" period of the year. Over the past five years, the largest quarter has been the first each year. Also a bit unexpected, the only quarter that indicated a decline during that five year period was the Christmas time period of the 1972-73 year.

The new boxes will be available in larger sizes than ever offered in Olton. All will be key boxes.

"Olton's just got to be growing," Holt says, "cause more people are getting mail here."

Homecoming Is October 10

Homecoming 1975 is not long away even though one week of classes has passed for the school year.

Recent years have brought notes to the Enterprise from exes away from home with the common plea, "Let us know earlier when homecoming is, so that we might make plans to attend."

So Exes of OHS, and former students of Olton schools, here's your notice. Homecoming is Oct. 10 and the Mustangs will host the Idalou Wildcats in the 1975 Homecoming football game.

Plans have been in the making for some time by loyal Oltonites to do their part,, in working hand-in-hand with local schools, to see that this time be an extra special homecoming.

Former Oltonites, "Y'all come! Let's have a grand celebration!"

Reserve Ducats Go On Sale

Season tickets for reserve seats at local football games go on sale Monday, Sept. 1, according to Joe Turner, school superintendent.

Persons who have held seats in past seasons are advised that they will be given a priority for former seats until Sept. 15. After that date, all seats will be offered to the public, Turner said.

Reserve seats for the season's five home games are priced at $11.50 for adults, $6.50 for children.

$50 Grand Prize Offered In Contest

Football fans, take note!

The Olton Enteprise's annual football guessing game begins in this issue and the fun competition could earn you weekly prizes or the grand prize of $50.

The contest is fun and cost nothing to enter. Anyone may enter but only one entry is allowed per person. Entire families may compete against each other; employer may challenge employee and friend may battle friend.

No football "expertise" is necessary - just the good fortune of making the correct guess and doing so with consistency. Football teams have "upsets" and so will the persons who predict their wins and losses. All in all, it's fun.

Weekly prizes are given to the top three guessers. The contestant who picks the most correct games each week will receive a check for $5. Runner-up contestant gets $3 with the third place guesser earning $2. In case of ties, the tie-breaker will determine the winner. If there is still a tie, the money will be divided.

Contestants' correct guesses will be complied each week and the person with the most points at the end of the season will receive the grand prize of $50. There will be no runner-up prize this year. In past years, grand prize was two tickets to the Cotton Bowl game and $20 with the runner-up receiving two tickets to the Sun Bowl. Few winners were able to use the game tickets so this year's contest offers a new and more valuable prize to the best pigskin predictor.

Look for the contest pages in this issue. Each ad of a sponsoring merchant contains a football game with each team numbered. Select the team you think will win and circle that team's number of the entry blank provided on that page. Then predict a score for the tie-breaker contest - this game is also counted in the win-loss totals. Finally, be sure to fill in your name and address. Each year a number of entry blanks are submitted without names or with numbers uncircled and the loss of one week makes it harder to be a season winner.

Entry blanks must be deposited with one of the sponsoring merchants by noon Fridays. When you're in their place of business, tell them you appreciate their making the contest possible. They'll appreciate your thanks and they value your business.

Parent Orientation Night To Be Held For PTA

Parent Orientation Night has been planned for Thursday Sept. 11 at 8 p.m. to launch a new year for Olton Parent-Teacher Association. The meeting will be held in the school cafeteria.

Introduced last year, the parent orientation program takes parents through an imaginary day of school. Parents thus become better acquainted with the activities of their children, according to program chairman, Carl McClure.

All parents are urged to attend. A fellowship time will conclude the meeting.

An executive meeting will be held at 2 p.m. Monday, Sept. 8 in the cafeteria.

Annual Broom Sale Scheduled By Lions Club

Salesmanship will be the "name of the game" Tuesday when Olton Lions conduct their annual broom sale. Membership of the club is being divided into teams with the challenge for each to be the best. The team coming in with the least amount in sales will received unwanted reward.

Olton Lions Club annually conducts a broom and other products sale which aids not only the local club but also benefits the Lighthouse of the Blind, providing a livelihood for the blind.

Displays of some of the items which are available have been set up at Southwestern Public Service and Higginbothan-Bartlett. Persons who plan to be out of town Tuesday or those living in the country are asked to stop by these places and place orders for the products they need.

Orders will be taken, along with the money for the purchases, and the merchandise will be left with those businesses. Persons are asked to then pick up their orders as soon as possible.

The Lighthouse for the Blind truck will be parked "on the square" west of Leon's Grocery all day Tuesday for persons to stop by and look at the available merchandise and make purchases. A member of the Lions Club will be stationed

Boosters To Go Behind Scenes

Football fans are being given the opportunity to see "behind the scenes." A meeting of the Mustang Booster Club has been set for 8 p.m. Tuesday with parents and other interested supporters being taken on a tour of the dressing rooms. Coaches will also show equipment and explain how it is designed to protect the players.

Mothers and fathers and other other Mustang supporters are urged to attend.

Vaccination Of Dogs Set September 6

A canine vaccination clinic has been set for Saturday, Sept. 6 for the convenience of pet owners, according to an announcement made by Berniece Smith, city secretary.

Dr. Howard Head DVM will be at the local fire station that day from 2 to 4:30 p.m.

Dogs must be on a leash and accompanied by an adult.

Offer Loyalty To Our Nation

Metal serving trays, depicting events of Revolutionary War days, are on sale at the office of Chamber of Commerce and Agriculture.

Useful as serving pieces, or beautiful as a souvenir of the Bicentennial Year, they are priced at $2 each.

The small profit involved in the sale is to be used in the Bicentennial fund to help defray expenses of correspondence. Patriotic citizens are invited to drop by to see and/or purchase.

Everything But The Kitchen Sink

The voices of doom are playing that song again! "Ingredient x causes cancer."

Remember the alarming proclamation about cyclamates? Well, it's about the same thing they've come up with now concerning plastic packaging products!

You'd better watch it! That soft spread margarine that spreads so dreamily on your toast may get you with its handy little carton!

Why, even your pills and vitamins may be double crossers. While making you well and strong, they may be silently filling you with little cancer makers.

That's what the news releases are telling us. Plastics used to package food and even medicine may contain cancer causing elements --- the rats are proving it.

Science is great but crying "wolf" at the first sign of fur could be embarrassing. It might turn out that you were seeing Miss Matilda's French poodle.

I am not making fun of science nor am I belittling medical research. I am completely, whote-heartedly back of every cent that's spent by researchers trying to conquer our most feared enemies - cancer, heart disease, lung disease, muscular dystrophy, arthritis, cystic fibrosis and all those other vicious killers and cripplers.

But, I am against sending the American public into panic by premature theories.

Americans are the most well fed victims of malnutrition in the world, I'll agree. We still need to use more common sense to combat our self-indulgences.

Yet it seems to me those three little monkeys hiding their eyes and ears and mouths have a message we should heed more often. Funny, how I always overlook the last one.

DINNER GUESTS

Sunday dinner guests of Mr. and Mrs. Malcom Ogletree were her sisters, Mrs. Mary Wilson of Lubbock and Miss Theo Hackler. Other guests were Mrs. Wilson's daughter and family, Mr. and Mrs. Lewis Kimes, Gwen, Teresa and Mary Lou of Lubbock.

TO PENNSYLVANIA

Mr. and Mrs. Dick Watson recently went to Johnstown, Pa. Enroute they visited her cousins, Mr. and Mrs. L.S. Jaggers at Elizabethtown, Ky. Other relatives visiting the Jaggers were Mrs. Watson's uncle and aunt, Mr. and Mrs. H.R. Jeffries of Houston and another aunt, Mrs. Minnie Reeves of O'Donnell.

Letter To The Editor

Dearest friends,

Do any of your boys and girls participate in the athletic programs in our schools?

Then this letter is for you and of course, all others interested in our youth!

Next Tuesday night at 8 p.m., you and I will have the opportunity to see the inside of a dressing room! (Can you believe THAT, mothers?) The coaches of our school are going to show everyone exactly what happens to our kids when they step behind those doors.

They plan to have some of our boys there, dress them for games and explain each piece of equipment as they put it on and tell us why and how it protects our "Pride and Joy."

I've always heard that next to parents, coaches have the most direct influence on our children's lives. You should KNOW THESE COACHES....personally!

Just think how important these men ae to us as parents. We should also all support them!

Come to Booster Club Tuesday night at 8 and keep coming!

We will meet in the gymnasium for a short meeting, then see the film from the scrimmage with Ralls. Then our tour and see everything! Do plan to come.

Sincerely,
Mrs. Jim Brown

Hybrid Performance From Dekalb: the real payoff.

● *Bigger Yield* Testing in the major wheat producing areas has shown a yield advantage of 20 to 25% over commonly grown wheat varieties.

● *Vigorous Root Systems* Hybrids can make better use of available moisture and nutrients.

● *Better Drought Resistance* Roots are more fibrous and can go deeper for available moisture than common varieties.

● *Greater Overall Plant Vigor* Hybrid plants seem to show more strenth and vigor than common varieties.

● *Superior Standability* Stronger straw means better standability. That helps minimize lodging under the pounding of heavy rains, wind or hail.

● *Reduced Seeding Rates* Seeding rates differ greatly by area, but hybrids generally perform quite well at lower seeding rates.

Bob Willis Bicentennial Coin To Be Displayed

The First Medal of the Bob Wills Series, the official bicentennial coin of Hall County, Texas will be on permanent display in the Country Music Hall of Fame in Nashville, Tenn.

The commerative medal was created as a memorial to the country music great, Bob Wills and donated to the Hall of Fame by the Memphis, Texas Chamber of Commerce and the Bob Wills Foundation of Turkey, Texas. Hall County is the home of Bob Wills where he created and first played his famous "Western Swing" style of music.

According to Country Music Hall of Fame Cureator, Diana Johnson, the coin display is a complete four coin set, serial number 9, in an engraved case which consists of: a 24 karat gold on .999 fine silver medal, .999 fine silver medal, antique silver on bronze medal, and antique bronze medal. The coins are of silver dollar size and minted in high relief with the bust drawing of Bob Wills.

The first issue and 1975 limited edition of the Bob Wills Series is available from the Memphis Chamber of Commerce in a complete four coin set $105.00; three coin set (silver, antique silver, and bronze) $52.50; two coin set (antique silver and bronze) $15.75; single gold coin $52.50; single silver $26.25; single antique silver coin $5.25; and single bronze coin $3.68.

The First Medal of the Bob Wills Series has acquired nation-wide popularity and demand both by country music fans and coin collectors. The 1975 limited issue is expected to be a collector's item and keepsake with proceeds from the coin sales to be used for the development of the Bob Wills Monument and Park in Turkey, and other related bicentennial activities in Hall County.

More information and coin orders may be sent to: Hall County Bicentennial Foundation, Memphis Chamber of Commerce, P.O. Box 789, Memphis, Texas 79245.

SWEEP, MOP, DUST AND CLEAN - Olton Lions have the products to help with those tasks. Broom Sale

Continued From Page 1 at the truck throughout the day.

A door-to-door canvass of the town and the Ninth Street and Highway 70 additions will be made from 5 to 7 p.m. In addition to seeking customers for products made by the blind, the Lions will also be asking for usuable eye glass frames so that needy persons may be provided with the visual aids they might not otherwise be able to afford.

Old frames are vitally needed and Olton Lions are eager to help in this cause.

Lighthouse for the Blind products feature many items in addition to the well known and well made brooms which give the sale its name. The household broom sells for $3.25 plus tax. Other brooms available are the poly sweep, toy and warehouse brooms. A number of mops are also available.

Dish towels, dish cloths, dust cloths, ironing board covers, oven mitts, mesh washing bags, bar-b-q brushes, rubber gloves, lint remover brushes, mops and door mats are other items available.

TEXAS TALK

By Billy Davis

With one farm bill dead as a result of veto, Washington lawmakers are now at work on a second one. Members of the Senate and House Agricultural committees are predicting early fall as the time the new bill should be ready for formal consideration. From reports which have come out so far the consensus is that the measure will be pretty much a rewrite of the emergency bill earlier this year. Higher dairy, grain and cotton supports are considered a priority along with a target price program for rice. Some sort of new approach for a commodity reserve system is reported to be under consideration and there may be some changes in the disaster payment program. Perhaps the most extensive part of the bill will be indirectly related to agriculture since support is said to be heavy for an expanded food stamp program.

Senator Bentsen Says

Deep in the heart of the Washington bureaucracy, there is a little-known largely-inactive agency called the Federal Metal and Non-Metallic Mine Safety Board.

Its only task is to hear appeals on the shut-down of mines. other than coal mines. There have been 4000 such shut-downs in this agency's 4-year history, but not one has been appealed to the Mine Safety Board.

And, in the absence of anything better to do, the Executive Director candidly says he whiles away the time by reading books and listening to Beethoven day after day.

American tax dollars support this agency to the tune of $60,000 a year.

And, although Congress is now moving to abolish it, the Mine Safety Agency is but one very minor example of the type of bureaucratic waste that pervades the Federal government. And it is one of the cheapest.

As a matter of very solemn protocol no bureaucrat, however lowly, moves into his predecessor's office without completely refurbishing it. The upshot of this is that literally millions of dollars each year are spent by government agencies to re-decorate and re-furnish offices so that they fit the personalities of new directors.

As the new Social and Rehabilitation Administrator, James S. Dwight, a stern critic of welfare abusers, lavished $120,000 installing plush carpets and tinted glass throughout his suite of offices.

For the Bureau of Standards Director Richard Roberts, the cost of remodeling soared to $55,000; for Postal Service Chief Elmer Klassen, the tab was more than $60,000. Alexander Butterfield became head of the Federal Aviation Administration and promptly installed new drapes and furniture at a cost of $5,400. The new Secret Service Director H. Stewart Knight spent over $11,000.

It sometimes seems that the bigger and more prestigious the agency, the more flagrant the waste. The Law Enforcement Administration Agency or LEAA spent hundreds of thousands of dollars renovating and redecorating its offices in a privately owned building. The pity is that the agency's lease only runs three years.

Other law enforcement agencies across the country are guilty of another form of waste. As they pay upwards of $100,000 for new police helicopters, hundreds of other perfectly airworthy helicopters are shuttled to the scrap heap of a Tucson, Arizona air force base.

Yet, the cost of converting these combat vehicles for police use would only come to a few thousand dollars.

There is no reason to allow this type of extravagance to continue. During a time when over eight and one half million Americans are out of work, during a time when food and housing are being priced beyond the reach of many average citizens, such excess spending on the part of the Federal government simply cannot be defended.

Beyond this lavish spending, the Federal government also wastes enormous sums in duplication. The purpose of some agencies are so similar that very often two or more of them find themselves locked in conflict, as each one tries to justify its continued existence.

In one Southwestern city, a large and modern job-training center was built with a massive block of Health, Education and Welfare funds. Only three blocks away, an identical center was subsidized by the Department of Labor for exactly the same purpose.

The duplication was discovered too late to avoid the waste. And each department claimed it had no knowledge of the other's plans.

The Department of Agriculture employs thousands of inspectors on a permanent basis in egg, milk and meat plants. Yet the Food and Drug Administration regularly sends its own team of inspectors to check the very same plants.

And the waste goes on and on, with examples too numerous to list.

In Congress, we've already taken initial steps against some of this waste, but much remains to be done. I introduced legislation creating the Federal Paperwork Commission, which is right now working on the problem of excessive and costly bureaucratic paperwork and red tape. And we've set up the Congressional Budget Committees, charge with making sure that all proposed expenditures in any given year are considered against income. In past years there was no mechanism for matching expenses against income.

But, these steps are only a beginning. A much broader and more concerned effort is going to be needed before we make a noticeable dent in the waste pervading the Federal bureaucracy.

This effort must come hand-in-hand with a real committment--from the President, from his Administration, from all the agencies working under him, and from Congress--before we can again assure taxpayers in Texas and across the country that their tax dollars are not being wasted.

We must demand an end to waste. And then we must work to see that demand carried out.

Patriotic Ameri•Cran Flag Cake

America's very own native cranberry is a perfect choice to create a cake that colorfully sparkles with both patriotism and goodness for a July 4th barbecue party.

Along with your cake serve a Cranberry Rocket Punch, easily prepared for twelve with two quarts of Ocean Spray cranberry juice cocktail, chilled, 1/4 cup of grenadine syrup and 2 quarts of club soda. Simply add ruby-red cranberry rocks to keep cold. Make your berry-colored cubes by pouring undiluted cranberry juice right into your ice trays instead of water. This punch is a super thirst-quencher that will go along with your barbecued foods and your fabulous dessert.

AMERI•CRAN FLAG CAKE
(Makes 1 - 9 x 13 x 2 inch cake)

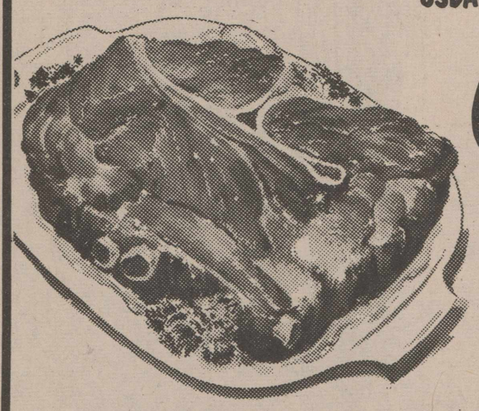

1 package (18 1/2 ounces) yellow cake mix
1 teaspoon ground nutmeg
3 squares (3 ounces) semi-sweet chocolate, grated
1 package (9 ounces) frozen whipped topping, thawed
1 can (1 pound) Ocean Spray jellied cranberry sauce
1/2 cup fresh or frozen dry-pack blueberries

Prepare cake mix according to package directions adding nutmeg and grated chocolate to cake batter. Pour batter into a greased and floured 9 x 13 x 2 inch baking pan. Bake as directed on package. Remove from pan and cool on a rack. Place on a serving platter. Spread top and sides with whipped topping. Chill until ready to serve. Just before serving cut jellied cranberry sauce lengthwise into 1/2 inch thick slices. Cut slices lengthwise into strips 1 inch wide. Drain strips well on absorbent paper. Place blueberries in rows in upper left hand corner of the cake to resemble the stars on the flag. Place canberry strips across cake to resemble stripes on the flag. It will be necessary to piece cranberry strips to make stripes long enough for cake. Place strips close together to hide joining.

Meeting at the church weekly, the group will be studying the book of Mark, with Mrs. Sherman Lawson, wife of the minister, as teacher.

MRS. JULIAN PEREZ

Julian Perez-Laurie Gallagher Wed In St. Peter's Church

St. Peter's Catholic Church was the setting Saturday afternoon for the solemnization of wedding vows between Miss Laurie Gallagher and Julian Perez.

Officiating the double ring ceremony before an altar adorned with lighted tapers in brass candelabra and baskets of white gladioli was the Rev. Clarence Huber.

Mr. and Mrs. James Gallagher are parents of the bride. The groom is the son of Mr. and Mrs. Carlos Hidalgo.

Jennie Lynn Gunter, organist, presented nuptial selections including "Ave Maria" and accompanied Barbara Driver, who sang "Twelfth of Never."

Given in marriage by her father, the bride wore a formal gown of silk organza over bridal taffeta. Fashioned with an Empire silhoutte, the dress featured a scooped neckline outline with lace flowerette. Appliques of lace adorned the full bishop sleeves and accented the high-rise waistline.

Appliques of lace and a band of matching lace flowerettes enhanced the cathedral length train. Her waist length veil of illusion was edged with matching lace and held by a lace headpiece. She carried a nosegay of white roses, blue and pink carnations and baby's breath.

Kim Barnett was maid of honor. Bridesmaids were Susie Culwell, Barbara Driver and Evelyn Diaz. They wore formal sleeveless gowns of pastel printed voile fashioned with scooped necklines outlined with deep ruffles. The fitted bodices dipped to a V at the waistlines with gathered skirts encircled with deep ruffles. They wore matching floppy hats and carried long stemmed pastel flowers. Misses Barnett and Culwell were dressed in blue; Miss Driver and Mrs. Diaz, in pink.

Little Miss Janet Miller was flower girl, wearing a floor length dress of white fashioned like that of the maid of honor and bridesmaids. Jeff Miller was ring bearer.

Robert Baze of Lubbock was best man. Groomsmen were Herbie Perez, Ralph Perez and Santos Diaz. They wore black tuxedoes with pastel shirts to match their feminine escorts.

Guests were registered by Miss Charla Shipley and seated by the bride's brothers, Bob and Jerry Gallagher.

A reception was held in the parish hall following the ceremony. Laid with white, the bride's table was decorated with the bride's bouquet. Serving the three tiered wedding cake and fruit punch were Sylvia Saldivar, Jan Burkhalter, Kay Givens, Suzette Gallagher of Amarillo, Elaine Rodriguez and Gussie Porch.

Following a wedding trip to Ruidoso, N.M., the newlyweds are at home in Slaton. Their address is Holiday Mobile Park, Lot 50.

The bride is a 1975 graduate of Olton High School and has been employed at the Dairy Mart.

Perez is an ag instructor, doing spraying with Slaton Flying Service.

WITH A MIGHT CRASH -- A freak accident Friday at Olton Grain Co op proved to be good luck in the fact that there were no injuries in what might easily have resulted in a fatality or very serious injury. Wind apparently caught the five large rings of a tank which were being lifted onto the already placed rings. The crane toppled with its burden, falling onto a truck and crushing it. The impact created a terrific sound and vibrated the office building of the firm, spokesmen said.

DINNER GUESTS

Thursday evening dinner guests of Mrs. Inez Yates were her sister, Mrs. Ruth Gautier and Mrs. Lola Bell Griffin, now of Lubbock, formerly of Olton.

OVERNIGHT GUESTS

Recent guests of Mr. and Mrs. R.W. Schaefer were their daughter and family, Mr. and Mrs. Roy Mull, Jason and John David of Lubbock.

"Yes, he's here."

GOOD CITIZENSHIP

WHAT OTHERS ARE DOING. HOW YOU CAN HELP

A GOOD DEAL FOR AMERICANS

Even with today's prices, good citizenship can still be a bargain.

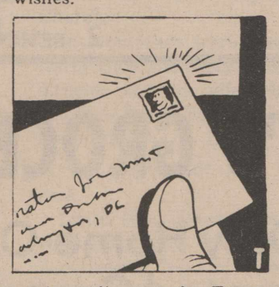

One of the best buys on the marketplace is the first class postage stamp, because that stamp can carry a letter to your congressman or senators.

The citizens who belong to the Teamsters Union believe that it is one thing to register and vote, it is quite another to communicate regularly with your elected officials.

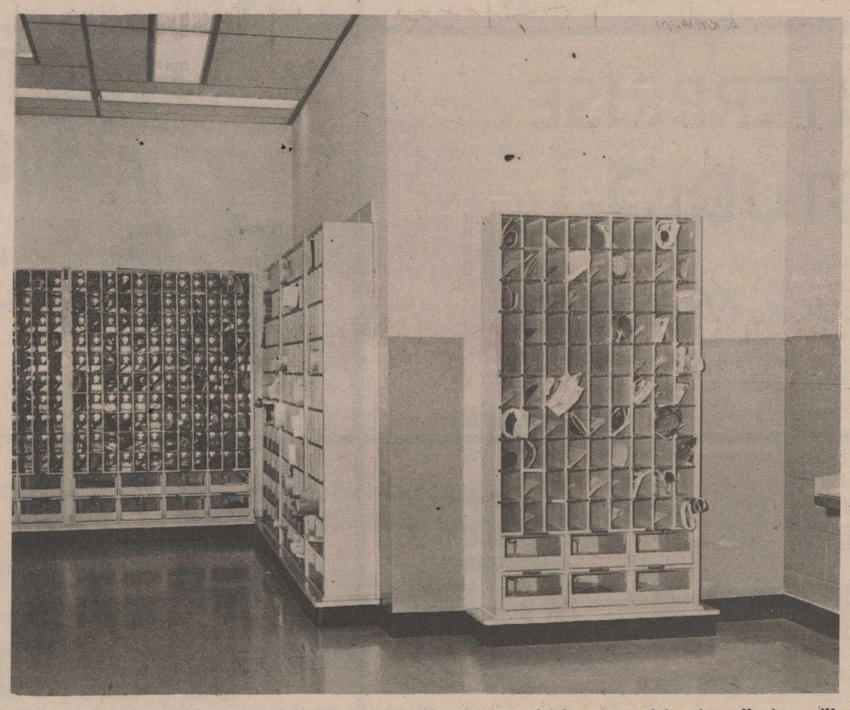

If we are to be a nation of self-governed people, they say, we have to work at it.

Whatever your concern may be—inflation, high unemployment, taxes, energy, national health care, no-fault auto insurance or a mass transit system—tell it to your congressman and senators.

Take advantage of one of the few bargains left—the postage stamp—and let the decision makers know your wishes.

According to the Teamsters Union's more than two million men and women (the union is ranked close to the top as far as extending its membership to women is concerned), it's just one more way to be a good citizen.

HERE'S WHERE THEY'LL GO - New post office boxes which are awaiting installation will be placed alongside these shown at the center of this picture with the partition at right being moved back to accommodate the additional 275 boxes. (Staff Photo)

by Larry Swaim

JESUS—
DIVINE OR HUMAN?

Dear Mr. Swaim: Was Jesus really divine, or just another man? Is it necessary to believe Him to be the Son of God in order to follow His teachings?

Jesus asked His disciples, "Whom do you say that I am?" Peter said, "Thou are the Christ, the Son of the living God." And Jesus said, upon this rock, or the fact that He was God's Son, He would build his church. (Matthew 16:15—18) Jesus stands unique in history because of His divinity. His birth marks His divinity. Seven centuries before Isaiah prophesied, "A virgin shall conceive and bear a son, and shall call his name Immanuel." (Isaiah 7:14) In Luke 1:26—35, we read that Mary, a virgin, conceived by the power of God and bore the Son, called Jesus. His sinless life is another proof of His supernatural power and divinity. "He did no sin, neither was there guile found in his mouth." (I Peter 2:21—22) His manner and speech spelled divinity in no uncertain terms. "People were astonished at his teaching, for he taught them as one having authority." (Matthew 7:29) Enemies confessed, "Never a man so spoke." (John 7:46)

Jesus claimed to be divine. His enemies charged, "He called God his own father, making himself equal with God." (John 5:18) I personally believe that only a divine person could have done the works that He did. He changed water into wine, walked on the sea, stilled the tempest, healed the sick, and raised the dead. No mortal man could have done this.

There were many who witnessed Jesus' life and testified to His divinity. John the Baptist did so (John 1:29). God testified of Jesus' divinity, Matthew 17:5. The apostles, and even the soldier who crucified Him also recognized His divinity. (Matthew 27:54) Yes, Jesus is divine, and it definitely makes a difference whether one believes He is or not. He was not just a good man, though He was that. He was much more. He was, and is, the Son of God.

For a confidential and Biblical answer to your questions, write Larry Swaim, 985 Ponce de Leon Avenue, N.E., Atlanta, Georgia 30306.

Mrs. C.T. Lokey reports that her son, H.T. Barnes Jr. of Lenexa, Ks. will resume his work Sept. 1. Barnes suffered a stroke March 29 and has not been able to work since that time.

MRS. PAT FUENTEZ

Cook Of The Week

Cakes that are family favorites are the recipes shared this week by Mrs. Pat Fuentez. They are "special" desserts, ones made for birthdays, holidays or "when I know company's coming."

Mary Jo grew up on a ranch, and in her words, "graduated to a farm." She and Pat were married not long after she moved to Olton in 1955. "We've been married 20 years and I still don't know one end of a tractor from another," she laughs.

Mary Jo and Pat are parents of six children. Kay is 18; Brenda, 16; Jackie, 15; Alfred, 12; Tammy, seven and Sarah Lee, four.

Dancing tops the list of Mary Jo's hobbies. She also loves listening to the radio and says she keeps it on from morning till the kids come home. She enjoys plants and likes to "Collect old things." She has an old cast iron, chuckwagon pan which was once used to bake bread in campfires.

Mary Jo just recently took her first airplane ride - a flight home from California where she had visited her mother and other relatives. The plane fare was a gift from her uncles and the flight was dreaded at first. "I prayed all the way home," she laughs but adds, "it was wonderful, it's the way to travel."

The Fuentez family attends St. Peter's Catholic Church.

EMPLOYEE OF THE WEEK

Two young men both members of the senior class of Olton High School, are gaining practical experience as employees of Olton State Bank.

Greg Burgess, son of Mr. and Mrs. Kenneth Burgess, and Daryl Bley, son of Mr. and Mrs. Winston Bley, are working members of the Vocational-Ag Co-op Program of the school in cooperation with the bank.

During assigned hours at the bank the boys will be called upon to place numbers on checks and deposits, film both checks and deposits, sort mail, affix postage to outgoing mail and deliver to post office; secure old records from storage room or attic when needed; and help in folding and mailing statements.

Burgess has worked at the bank intermittently since his freshman year. He is a member of National Honor Society; member of Mustang Band, in which he plays cornet; and attends the Methodist Church.

His hobbies include water skiing, baseball, tennis, and swimming. He likes karate. With plans to major in architecture at Texas Tech University, Greg is presently learning how banking works and the many processes money undergoes after being deposited.

Bley is working at the bank for the first time this school term. He, also, is a member of the Mustang Band, playing the cornet; and a member of the International Thespian Society. He is member of First Baptist Church. He lists his hobbies as water skiing and tennis.

He, also, has plans to attend Texas Tech University as a Business Finance major. With this future in mind, he states that he feels the experience of this job will be a great asset.

4-H Trail Ride Slated, Cookout And Vespers

By Stacy Meador

Instead of the regular second Thursday meeting of September, the Olton 4-H Club will have a trail ride for members and guests.

The trail ride will be held at 7 p.m. Saturday, Sept. 13. It will form at the Gordon Thomas farm, eight miles north of Olton, located on farm-to-market road 168.

Entertainment will include a vesper service and a cookout. Guests and members are asked to bring their own frankfurters to roast and the Olton 4-H Club will furnish other supplies and drinks.

This year, members and guests will be urged to support horsemanship safety rules. All horse used in the trailride will be cared for by their owners.

Many picturesque sites can be observed and 4-H Club members are urged to bring a guest for the early Autumn trail ride.

A large crowd is expect to attend the annual event.

Member-Guest Golf Tourney Slated Soon

Fall Member-Guest Tournament at Olton Recreation Center, slated for Saturday and Sunday, Sept. 13 and 14, has been announced by Harold Payne, club pro.

The tourney will include flights for both men and women. Entry fee has been set at $25 per team, which include dinner for each participant and one guest. Gift certificates will be awarded as prizes.

Payne is asking members to register as soon as possible, and also to invite golfing non-members and out of town guests to take part in the tourney.

Sept. 10 has been set as cut-off date for registrations.

Championship Playoffs Set

Play has reached the final matches in Club Championship Play at Olton Country Club, according to Harold Payne, pro.

Final match play will be held Sunday, Sept. 7 at 2 p.m. as follows:

Ladies championship flight - Sue Clark vs. Wroena Thurman.

Ladies First Flight - Leta Clevenger vs. Gladys Copeland.

Men's Championship - Deryl Machen vs Ray Kinnison.

Shermans Tour Eastern Canada

Mrs. Basil Sherman and her granddaughter, Miss Linda Featherngill who had been visiting in the Sherman home, left Aug. 3 for Willingboro, N.J., home of the Edward Featherngill family. Some two weeks later Basil Sherman joined them.

The Shermans and the Featherngills, a party of seven people, made a motor coach tour through the countryside to Niagra Falls and beyond to Montreal and Quebec. They visited along the St. Lawrence Seaway and from Halifax, Nova Scotia, Mr. and Mrs. Sherman emplaned for home. The Featherngill family remained in Canada for the rest of the week, before returning to their home.

Mrs. Sherman, skeptical of the pleasure of motor coach travel, stated that it was the finest trip they had made.

FROM AMARILLO

Mr. and Mrs. J.B. Kemp had as a guest several days recently, their grandson Brandon King, son of Mr. and Mrs. Jerry King of Amarillo.

FROM LUBBOCK

Visiting Sunday with Mr. and Mrs. Ray Gabehart were their daughter-in-law and grandson, Mrs. Preston Leggitt and Brett of Lubbock. Also visiting were Brett's maternal grandparents, Mr. and Mrs. Virgle Martin, also of Lubbock.

ATTEND REUNION.

Mr. and Mrs. Floyd Miller, Mr. and Mrs. Drexel Lawson, their grandson, Chris Lawson, Mr. and Mrs. Jim Lawson and Natalie and Mrs. Pink Lawson attended the annual Miller family reunion Sunday at Mackenzie State Park in Lubbock.

Decision...Decisions! A little girl walks up to a candy counter. Her little eyes are searching the racks. Her tongue is "tingling" with anticipation. Her tiny fingers are clenched around a quarter that belongs just to her. Mom and Dad said that she could buy some candy, and she gets to pick it out all by herself! She can only have one piece so she wants to make certain that is just the right piece. Which one to pick? Lemon...orange...tangerine...lime...tutti-fruitti...apple...licorice...strawberry ...mint? She has a decision to make.

Decisions...Decisions! We have to make them every day.

We have to make a choice on all kinds of things several times a day.

The choice of candy doesn't strain us much but we still have to make that decision.

What are we going to have for dinner? What about a date? Which girl? Which boy? What show are we going to see Saturday night? Do we even want to go to the show? Where are we going to go anyway? What are we going to wear? Should we stay home? What can we do there? What TV shows can we watch? We have a decision to make.

Decisions...Decisions!

They come in all shapes, sizes, colors, categories and arrangements. Each one is different, and yet they are all very much alike.

Everybody makes them, and everybody must live with them. Decisions not only come in different shapes and colors but in different levels of importance.

For example: the choosing of a candy bar by that little girl is not as important as the choosing of a car by a bigger girl. However that choosing of a car is not as "heavy" as the decision of that same girl concerning a husband.

The point is clear. There are some decision which are more significant than other.

Decisions...Decisions!

We are going to have to make some. They will effect what we eat, what we wear and what we do. They will effect how we spend our money, time and effort. They will effect our careers, mates and pastimes.

Decisions we will make, will determine not only our state of being in this world but in the world to come. We have a decision to make.

The decision concerning our eternal destiny is the ultimate choice. Our decision concerning our eternity is more significan thatn any other decision we must make. Bar none! All others become nothing more than trivia in view of our choice of eternity.

"Where will I spend eternity?" That question demands an answer, for we have a choice. We have a decision to make.

Jesus put it this way, "Go through the narrow gate. The gate is wide and the way is broad that leads to destruction and many are going that way. But the gate is small, and the way is narrow, that leads to life, and only a few are finding it." (Matthew 7:13)

Heaven or Hell? There are only two roads. Which will it be? We can choose either. If we refuse to make the decision, we have already made our choice - Hell. We have a decision to make.

Heaven or Hell? Which will it be?

We want to choosen heaven, but how? We choose heaven and decide against hell by obeying the gospel of the Lord Jesus. That's the key. Look at Hebrews 5:8-0 and Romans 6:17-18 and II Thessalonians 1:7-9. Those who obey the gospel are "made free from sin" and granted "eternal salvation". Those who "obey not the gospel" will "suffer punishment, even eternal destruction from the face of the Lord", because it is upon them that Jesus will render vengeance with "the angels of his power in flaming fire."

Have we obeyed the gospel or not?

Heaven or Hell?

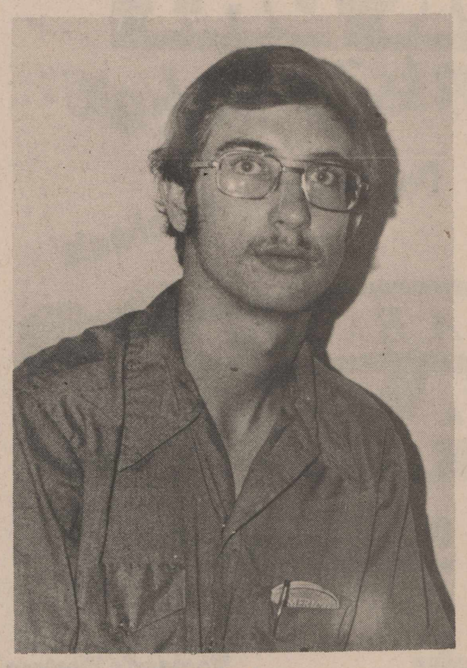

The Lord is waiting....We have a decision to make...

Smiths Return From Northwest

Mr. and Mrs. Tom Smith came home recently from a four week trip. They took their granddaughter, Tammy Johnson, to her home in Prineville, Ore. after she has been here several weeks with her grandparents, Mr. and Mrs. Smith and Mrs. Joe Johnson.

The Oltonites stopped in Albuquerque, N.M. with their son and family, Mr. and Mrs. Doug Smith, Dirk and Terece and in Durango, Colo, with Mrs. Smith's cousin and his wife, Mr. and Mrs. George Fuchs. They stayed a week at the meeting of the International Travel Trailer Club of America at Logan, Utah, where Smith was elected alternate Director for members at large. The Smiths remained a week in Prineville with their daughter and family, Mr. and Mrs. Bob Johnson, Jolissa, Tammy, Cody and BoJan and went on to the Oregon coast. They toured the factory which makes articles from Myrtle Wood trees which grow only in the Holy Land and two counties in Oregon. They were guests of Mrs. Smith's cousin, Mr. and Mrs. Fred Fuchs, Freddie and Danielle at Susanville, Calif.

TODAY'S LOGIC

By James W. Phelps

TIE HIS FEET

If you tie a man's feet together you shouldn't complain that he can't run fast enough.

And if you want him to run faster, take off the rope, don't tie another one around his knees.

That makes sense to you and me, but it doesn't seem to make sense to some politicians.

They complain that the free enterprise system isn't working. It has brought us the highest standard of living of any nation in the world. It has brought us the most material goods, the shortest working hours, and the most freedom.

It is working, but not as well as it could be.

Why? Because our politicians think it is better to confiscate the money people have earned and let them and government bureaucrats spend it.

Wouldn't it be better to let the people keep it and invest it themselves?

If past performance is any guide, the politicians will not invest the money. They will squander it.

They think they can do better with your money than you can. Do you agree?

In the beginning of our republic, the tax burden was almost non-existent. I would compare it to putting clothing on a naked man.

The taxes provided him with protection, just as clothes would. Taxes provided for national defense and very little else.

People could and did save much of what they made. Millions of people invested their savings in all kinds of businesses.

Capitalism rewarded these people for saving their money. But it also rewarded those who didn't save. The spenders had more things available to buy at better and better prices. Everyone came out ahead.

The poorest ten percent among us live better than ninety percent of the people in China, India and Africa.

Who says capitalism isn't working?

It's true that capitalism isn't making the progress it did in the past, but it isn't the fault of capitalism.

The naked man referred to above who was clothed with just enough taxes to give him needed protection is now loaded down with a heavy backpack. He can no longer run. He is even having trouble walking because of his enormous tax burden.

All of us waste money. All of us make mistakes. But none of us squanders money like the government does.

Tell your elected representatives to cut unnecessary government spending and reduce the tax burden that is hobbling our whole country.

Myasthenia Gravis Clinic Set Friday In Plainview

The Northwest Texas Chapter of the Myasthenia Gravis Foundation, announces the forth-coming Melba Bandy masters Memorial Clinic for Myasthenia Gravis patients, Friday September 5, 1975, beginning at 8 o'clock in the morning, at the Hi-Plains Hospital, Hale Center, Tex. This free patient clinic is being funded by a Trust given by the E.E. Masters family of Cotton Center, in memory of Mrs. Melba Masters who was a victim of myasthenia gravis. It is hoped that the fund will be maintained through donations, enabling this free clinic to become an annual event and hopefully semi-annual. The trust fund is set up at the First National Bank of Hale Center, and memorials or contributions may be made directly to the account at the Bank.

For the fifth time, Dr. J.E. Tether of Indianapolis, Indiana, will be in Hale Center to conduct the all day clinic. Assisting him will be the Medical staff of Hi-Plains Hospital. Dr. Tether is a noted authority on the diagnosis and management of myasthenia gravis, having been active in the field of MG for over 20 years. He is Professor of Neurology at the University of Indiana School of Medicine and is the physican in charge of the Myasthenia Gravis Clinic at the Indiana University Medical Center. He is a member of the National Foundation of Myasthenia Gravis and has served on the Medical Advisory Board since its inception. Dr. Tether is the author of several textbooks and articles on Myasthenia Gravis.

The Northwest Texas Chapter of the Myasthenia Gravis Foundation supports free patient clinics and a Drug Bank where the myasthenic can buy the medicine which is essential in the control of the disease, at less cost. The Chapter sends out educational material for patients, doctors, and nurses upon request. they also handle many letters regarding myasthenia gravis problems. Money is needed to carry on this work which benefits so many people. J.E. McVicker of Muleshoe is Chapter Chairman, and E.E. Masters of Cotton Center is Treasurer.

Myasthenia Gravis is a neuromuscular disease characterized by varying weakness of the voluntary muscles of the body. It is aggravated by exertion, emotion, infection, or any kind of stress. It is relieved, in part, by rest and anticholinesterase drugs. Onset may be insidious or sudden. The initial symptom may only be unusual fatigability. This may be accompanied by aching in the neck, back, or legs in milder cases. Ptosis of one of both eye lids, blurred vision due to difficult focus, or actual diplopia are the most frequent early signs and symptoms. slurring, nasal tones, jaw weakness, and fatique on chewing may occur early in more severe cases. Many complain of arm fatigue on reaching up, as in care of hair or in shaving. Legs tire on stairs or short walks and may collapse without warning.

If you are a victim of Myasthenia Gravis, or an interested person, you are urged to attend the Myasthenia Gravis Free Patient Clinic, Friday, September 5, 1975, beginning at 8 o'clock a.m. at the Hi-Plains Hospital, Hale Center, Texas. Appointments may be made by calling the hospital, (806) 839-2471, ext. 36.
