# The Rockport Pilot

THE ONLY NEWSPAPER PUBLISHED IN ARANSAS COUNTY

Vol. No. 90 | ROCKPORT, ARANSAS COUNTY, TEXAS, THURSDAY, MARCH 17, 1960 | NO. 50

## Along The *Waterfront*

Effective April 1, 1960, boats of more than ten horsepower operated on the navigable waters of the United States Must be numbered under the Federal Boating Act of 1958. Vessels documented by the Bureau of Customs are exempted from this Act.

Applicants for Federal Certificates of Number may obtain application forms at local Post offices. The completed application form and a $3 Federal Boating Stamp will be affixed to the application and a temporary certificate will be returned to the applicant to serve as proof of compliance with the law until the application has been processed by the Coast Guard.

The permanent Certificate of Number to be issued the boat owner will be an embossed plastic card similar to a gasoline credit card. The certificate will show the Coast Guard number to be affixed to each side of the bow of the boat by the owner and must be on board whenever the vessel is in use. A number awarded by the Coast Guard will be valid from the date of issuance and 3 years from the date of the owner's birthday next occurring after the certificate is issued. Documentary proof of title and ownership is not required by the Coast Guard with application for number. Application blanks may also be obtained from any Coast Guard Marine Inspection Office, but the fees must be paid at the Post Office.

Even though boats have been previously numbered by the Coast Guard prior to March 31, 1960, application must be made for a new number on April 1, under the Federal Boating Act; however, the previous number and certificate may be retained for temporary identification until the new number is issued. Boat owners may continue to operate their craft legally if they have applied for renumbering, paid the required fee and retained proof of payment.

For further background information, as of March 10, 1960, the U.S. Coast Guard has approved the numbering systems adopted in Texas.

Taylor Oaks guests Jerry Hodges, of Eastland, and John Belt, of Lockney, Texas, have been having good luck this past week, according to Mrs. Tom Roper.

The Game and Fish Commission says that many boats are not displaying the metal license plates that were issued to them at the time their license was purchased.

House bill 12 requires that each "Commercial Bay Bait Shrimp Boat" display prominently on each side of the wheelhouse (outside) the license tags.

Also, many bay bait boat license holders are oystering and using their boats for other types of commercial fishing, other than shrimping, without purchasing a "Commercial Fishing Boat" license which is required if these boats are used for other commercial fishing operations.

A "Commercial Fishing Boat" is any boat or vessel which is required to be numbered or registered by and under the laws of the United States or the State of Texas, and which is used for the purpose of taking, catching or assisting in taking or catching fish, oysters, or any other edible aquatic life from the tidal waters of the State of Texas for pay or for purpose of sale, barter, or exchange. The fee for such license is $6.00.

## Sewer Line On Live Oak Held Up For Survey

At the regular meeting of the City Council Dick Fox and Gilbert Hill presented the city fathers with an estimate of $300 on needed repairs for the fire station. This the councilmen approved and granted the necessary funds.

Fox, during the discussion answered a question on the cost to the city of the Bushart Building fire in 1959, and he said that it would amount to about $4,000 a year in premiums on insurance, because the key rate credit was considerably less than before the blaze.

Ellis Clark, navigation district attorney, appeared before the board, in connection with the waterline from the city limits to the district's new harbor at the Cove, asking the city's permission to install water meters at the harbor, rather than at the city limits.

This was conditionally granted, and instructions given City Attorney Richard Hatch to work out an arrangement with Clark.

The council then passed a sign ordinance, limiting sizes and locations in the ctiy; approved an ordinance annexing the J. W. Paup Survey, adjoining Shadyside Addition on the west.

Extension of a sewer line down Live Oak Street was held up because Councilman Dullye wanted a master plan of the entire city's sewage before approving it. Other councilmen pointed out that this would probably be an expensive and long drawn out proposition, but on Dullye's insistence, they agreed to a meeting with McLendon and Associate engineers to explore costs and time needed.

TEXAS LAWMEN

**Ranger Captain Bill McDonald**

*"No man in the wrong can stand up against a fellow that's in the right and keeps on comin'"*

A Texas Ranger, tradition has it, must ride like a Mexican, trail like an Indian, shoot like a Tennesseean and fight like a devil. William Jesse McDonald was just such a man. He was the lone lawman who answered the call for a company of Rangers with, "You ain't got but one mob, have you?" Born in "Bloody Kemper" County, Mississippi, 1852, McDonald's first 33 years were restless, roving. But on the rolling plains of Hardeman county in 1885, he came into his own. As Deputy Sheriff he established a reputation for fearless law enforcement, expert marksmanship and lightning quick disarming of opponents. Soon he was a special Ranger, then a U. S. Deputy Marshal — and the McDonald legend was a-building. Governor Hogg made him Captain of Co. B, Frontier Battalion, in 1891. And it was Bill McDonald who was chosen to guard and go wolf hunting with President Teddy Roosevelt in 1905. Later he guarded Woodrow Wilson on a trip to Texas. The salty-talking Captain Bill delighted them both. With a good fighting Scots name, he had a fine face lined with sun, wind and character, mild blue eyes, soft voice — and a "suddenness" that made him irresistible to friend or enemy. Since 1918 Ranger Captain Bill McDonald has been at peace — in Quanah Cemetery.

Respected and honored, the Texas lawman today still safeguards our lives and liberty. And in this vigorous and freedom minded homeland, where "Beer Belongs," the United States Brewers Foundation works constantly, in conjunction with brewers, wholesalers and retailers, to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of Texans, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials.

## TELEPHONE TALK

*by Bob Freeman, Manager*

### THE TELEPHONE GOES TO SEA

In all probability many of us think that when a small vessel leaves it's port all communication by telephone stops. However, this is not the case since many of the boats calling Rockport their home are equipped with radios which link them with the Southwestern Bell Telephone marine operator at Galveston.

From that point on the marine operator can establish connection to any land telephone, airplane, or ship at sea that is properly equipped to receive and transmit telephone messages.

The world is rapidly approaching the point where our day contacts with our fellow man are made easier and more convenient through the use of the telephone in every corner of the earth.

### IMPROVING SERVICE IN ROCKPORT

Remember what the Red Queen said to Alice during her stay in Wonderland?

It went something like this: "You have to run fast to stay exactly where you are."

With a little manipulating, this can be applied to a business. It could mean that "telephone service is good now, but it must be constantly improved in order to stay good."

That's exactly what's happening, too. Telephone service is improving. Many improvements are behind the scenes—you'll never see them as you use your phone. But they are there, nevertheless. They're necessary, too, if we're to keep telephone service "as modern as today."

Improvements in telephone service don't just happen. It takes planning—a "bet-on-the-future" type of planning. It takes telephone people—from the local installed to the scientist in a far-away laboratory—to make sure that telephone service continues to improve.

### PICK-A-PHONE

"Sure be nice when the spring flowers start blooming," a fellow down the block said the other day. "Just looking at their colors makes me feel good."

"Say," I said, "since you like color so much, I have a suggestion."

"What's that?" he asked.

"A color phone. You have a wide choice. Red, white, green—nine altogether." Almost as an afterthought I added, "You can pick your phone from . . . a garden of colors!"

That did it. "Now you're talking my language," said my garden-loving friend. He chuckled. "Colors of the garden in my house with color phones. Think I'll get one—maybe even two."

Why don't you do as he did? Treat yourself to color phones.
