Senate Viet Debate Due For Showdown

Reforms In OAS Face Rocky Road

PANAMA (AP) — A U.S. proposal to give broad new powers to the Council of the Organization of American States to settle disputes appears headed for tough sledding in a special 20-nation committee which opens a four-week meeting here today.

The committee is to draw up reforms to the OAS Charter to revitalize the inter-American system's political, economic and cultural action.

The draft amendments will be taken up by a special meeting of inter-American foreign ministers to be held in Buenos Aires in July.

The United States sent the committee a series of amendments Sunday to empower the presently powerless OAS Council to take up disputes between member states.

A dispute could be put before the council by one of the nations involved or by any member of the OAS. The council could recommend provisional measures to prevent aggravation of a dispute, conduct fact-finding investigations in the territory of nations which agreed to that, and recommend procedures for settling the dispute.

At present the council can not act in a dispute. It can only call a consultation meeting of foreign ministers to consider urgent problems.

Ecuador, which has a long border dispute with Peru, also has proposed a series of charter amendments which would enable the council to take up "any situation or controversy between two or more member states, either on its own initiative or when asked by one of the interested parties or by a resolution of a foreign ministers' meeting.

Delegates from some other Latin-American nations view the proposals with concern. They fear they might give the council too much power which could lead to the reopening of old controversies, such as border disputes.

Another series of U.S. proposals would give the secretary-general of the OAS power to bring before the council or a proposed annual assembly of inter-American foreign ministers any matter which he considers of danger to the peace and security of the hemisphere.

The secretary-general at present is mainly an administrative officer.

TREE-POINT LANDING — John Barrett, 31, of Hamburg, N.Y., climbed down with only minor cuts after his small plane crash landed in a tree shortly after taking off from the Hamburg Airport. (AP Wirephoto)

2 Astronauts Die In Crash

ST. LOUIS, Mo. (AP) — U.S. astronauts Elliot M. See Jr. and Charles A. Bassett II, who were scheduled to fly into space in May, were killed today when their twin-jet plane crashed into the plant here where their space capsule was built.

See, 38, and Bassett, 33, were flying to the McDonnell Aircraft Corp. when their T38 fighter-trainer crashed into the roof of the space center at McDonnell's huge complex. McDonnell makes the Gemini spacecraft as well as Phantom jet fighter planes used in Viet Nam.

Ten persons working on a Phantom fighter were injured when the plane crashed at 9 a.m. (CST) into the top of the building, skidded over the roof and then crashed into a construction parking area below.

The plane burst into flames an was destroyed.

Witnesses, who heard a series of booms before the plane exploded, said both bodies were thrown out by the impact. Flames and smoke then towered into the air.

None of the 10 injured was believed hurt seriously.

The plane was making an instrument landing in light fog when it crashed. Another T38 fighter-trainer, also circling the airport, landed safely.

The Federal Aviation Agency said the cause of the crash was not known. The Weather Bureau said visibility was 1½ miles and the ceiling 800 feet.

The astronauts were on their way from the Manned Spacecraft Center in Houston, Tex.

See and Bassett were to ride into space this summer aboard Gemini 9. See was scheduled to be the command pilot, while Bassett was scheduled to take a 90-minute walk in space. Neither had made space flights before.

"There were a series of quick booms and then flames," said a workman near the crash site.

He and other workmen were in the area constructing a new building for McDonnell.

Firemen extinguished the flames with foam. All that remained of the plane was charred wreckage.

Astronatus regularly fly to McDonnell in the two-place T38 jets for work with factory technicians in preparation for Gemini flights.

Report On Downtown Plan Made

County commissioners this morning got a progress report on preliminary studies which may lead to a downtown improvement project.

Meeting with the court were Jay Rogers, who has headed up most of the preliminary studies as a representative of the Chamber of Commerce Trade Promotion Committee; George Patterson, city manager, and J. D. Hinton, local architect.

Rogers gave a brief account of steps taken to date, including a public meeting several weeks ago of downtown property owners and merchants, negotiations with the city council and a committee session with landscape architects. Rogers said that a formal survey which would give an indication of possible costs appears to be the next step. The survey would be arranged by the city.

Rogers said that property owners and others interested who had expressed themselves so far had indicated that they preferred a local city assesment program to finance any project that might develop, rather than Federal assistance.

Patterson said the progress report was being brought to the commissioners because the county is the largest single property owner in the area which would be included in the study.

Hinton presented a report on some possible ideas for a general plan of improvement, including a tentative sketch which had attracted the interest of a committee made up of property owners and city councilmen. The committee met with landscape architects last week.

Cross Is Moved To Huntsville

AUSTIN (AP) — James C. Cross Jr. left the Travis County jail at about 8:30 a.m. today for the state penitentiary at Huntsville.

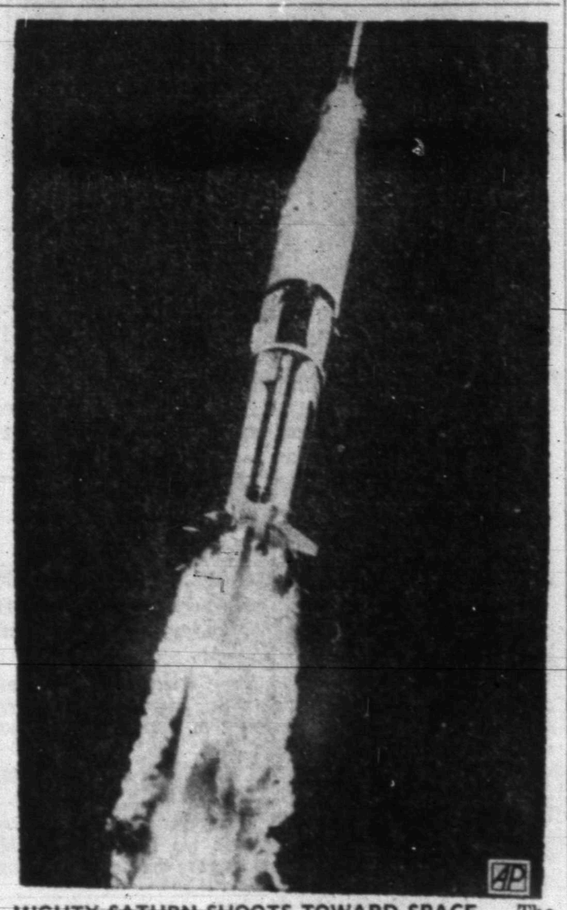

Cross, convicted of murder last week in the sex-strangulation slaying of two pretty University of Texas coeds, was handcuffed and chained to Ed Gullion, convicted and sentenced to prison on a charge of sodomy.

A lone deputy sheriff accompanied the two prisoners in a private car for the ride to Huntsville.

"I want to start serving my sentence and do something good in the future," said Cross, 23, son of a Fort Worth executive.

Cross was assessed a life sentence by an Austin jury in the slaying of Susan Rigsby July 18. Dist. Atty. Tom Blackwell said the indictment on a charge of murder in the slaying of Shirley Ann Stark would be kept pending. Both girls were 21 and from Dallas.

Cross will be eligible for consideration for parole when he has credit for serving 15 years. By good behavior, serving as a trusty, and other means Cross' sentence actually can be reviewed after he has served only about 7½ years.

MIGHTY SATURN SHOOTS TOWARD SPACE — The United States mightiest rocket, the Saturn 1B, flies high in the sky above Cape Kennedy, Fla., hurling the first unmanned Apollo Moonshot over a blazing reentry course. (AP Wirephoto)

Flight Bolsters Moonshot Plans

CAPE KENNEDY, Fla. (AP) —The spectacularly successful maiden launching of an unmanned Apollo moonship has strengthened hopes that three men can ide one of the ships into earth orbit late this year and to the moon within two or three years.

A Saturn 1B, most powerful rocket ever launched by this nation, roared flawlessly through its initial launching Saturday and drilled the Apollo 310 miles into space.

The spacecraft made a fiery dive back through the atmosphere and was protected from searing temperatures up to 5,000 degrees by a heat shield.

The 11,000-pound cabin section, the part in which astronauts will ride toward the moon and back to earth, separated and rode three 83-foot parachutes to a gentle landing in the South Atlantic Ocean 5,300 miles southeast of Cape Kennedy. The flight lasted 39 minutes.

The cabin landed only 20 miles from the aiming point and the aircraft carrier Boxer had it aboard slightly more than two hours later. The carrier was returning the craft for more detailed examination.

Preliminary study showed the spaceship came through in excellent condition.

Two more unmanned Saturn 1B launchings are to precede the first manned Apollo trip. The first, in June, is to hurl an Apollo ship two-thirds of the way around the world to subject the heat shield to a longer period of high temperatures. The second will boost the second stage into orbit to study the effect of long weightlessness on liquid hydrogen fuel.

If these two unmanned shots are successful, a trio of astronauts will take an earth orbit trip of 8 to 14 days in November or December.

The first unmanned launching of the man-to-the-moon Saturn 5, which is five times more powerful than the Saturn 1B, is scheduled next January.

The present U.S. goal is to land astronauts on the moon by 1970. If all launchings are as successful as Saturday's, the historic adventure could be attempted on the fourth Saturn 5 —presently scheduled in January 1968.

However, less optimistic NASA officials feel there will be normal development problems and delays and that 1969 is a more likely date.

Two Bills In Balance

WASHINGTON (AP) — The Senate argument over Viet Nam rolls toward a showdown today as administration forces seek to free a pair of embattled bills.

They appear to have the votes to carry both issues — an emergency $414-million foreign aid measure for Viet Nam now pending before the Senate Foreign Relations Committee and the $4.8-billion Viet Nam military authorization waiting action on the Senate floor.

The senators also may get a chance late today to vote on a proposal to rescind or modify the 1964 Gulf of Tonkin resolution cited by President Johnson as giving him the authority to take any steps necessary to combat Communist aggression in Southeast Asia.

One of the leading critics of the Johnson Viet Nam policies, Sen. Wayne Morse, D-Ore., has promised to introduce the proposal in an amendment to the Viet Nam money bill.

If he does, Sen. Richard B. Russell, D-Ga., chairman of the Armed Services Committee, said he would counterattack with a substitute proposal to reaffirm the resolution. Russell said he has the votes to win.

Vice President Hubert H. Humphrey and Sen. Robert F. Kennedy tangled further Sunday over a possible future role for the Viet Cong in the South Vietnamese government.

Kennedy, a New York Democrat, suggested again that in order to negotiate a peace in South Viet Nam, the United States "must understand that the Communists. . .might end up in some way or another within the governmental structure of Viet Nam."

Humphrey, who initially attacked Kennedy's proposal as being equivalent to putting "a fox in a chicken coop," said on ABC's television-radio program "Issues and Answers" that his first assessment might have been "a little too genteel.

"The Viet Cong is not a fox," Humphrey said. "It has a more rapacious nature."

"The Viet Cong is not an Asian version of the Americans for Democratic Action or the liberal wing of the Republican or Democratic party," he said. "They engage in assassination, murder, pillage, conquest and I can't, for the life of me, see why the United States would want to propose that such an outfit be part of any government."

Kennedy, appearing on CBS' radio-television program "Face the Nation," said he thought his Viet Nam position and that of the Johnson administration, as spelled out by presidential aide Bill D. Moyers, are essentially the same.

But he added there is a great difference between what he believes and the statements made by such administration spokesmen as Humphrey, Secretary of State Dean Rusk and Undersecretary of State George W. Ball.

Bearden Rites Set Tuesday

Funeral for Mrs. Rocia Blanche Bearden, 91, former longtime Scurry County resident, will be held at 2 p.m. Tuesday in the First Methodist Church with the Rev. Harvey Carroll of Carlsbad, N.M. and Dr. John A. English, pastor, officiating. Burial will follow in Snyder Cemetery under the direction of Bolger Funeral Home.

Mrs. Bearden died at 11:15 p.m. Saturday in Medical Hospital in Greenville. She had resided with her children since 1950, although she was a longtime resident of Scurry County, having moved here in 1919.

Born Nov. 25, 1874, in Arkansas, she married C. C. Bearden. He preceded her in death in 1943. She was a member of the First Methodist Church of Snyder.

Surviving are five daughters, Mrs. J. I. Almon, Lone Oak; Mrs. E. L. Jetton, Greensville; Mrs. C. N. Rowell, Odessa; Mrs. Denver Arnold, Perryton; and, Miss Esther Bearden, Dallas; one son, W. L. Bearden, Pyote; one sister, Mrs. Joe Price, Napa, Calif.; 16 grandchildren and 27 great-grandchildren.

MRS. J. M. DOAK

Funeral For Mrs. Doak Here Today

Funeral for Mrs. J. M. Doak, 86, a resident of the county since 1881, was to be held at 3 p.m. today in the First Baptist Church with Dr. A. B. Lightfoot, the pastor, officiating. Burial was to follow in Snyder Cemetery under the direction of Bell-Seale Funeral Home.

Mrs. Doak died at 6:30 p.m. Saturday in Snyder Hospital after a lengthy illness.

Born Aug. 7, 1879, in Tom Green County, she moved to Scurry County from Menard with her parents, Mr. and Mrs. J. M. Ellis, when she was two years of age. Her husband preceded her in death in 1938. She was a Baptist. Mrs. Doak made her home at 100 E. Thirty-seventh.

Surviving are four daughters, Mrs. Atha White, Denison; Mrs. Alene Bailey, Lipan; Mrs. Ruth Sawyer, Garland; and Mrs. Melba Cooper, Snyder, three sisters, Mrs. A. E. Webb, Ft. Worth; Mrs. Ilva Eckhardt, Kerrville; and, Mrs. Fern Stevens, Phoenix, Ariz.; five grandchildren and nine great-grandchildren.

Marines Battle Cong Main Force

By THOMAS A. REEDY

SAIGON, South Viet Nam (AP)—Three companies of U.S. Marines lifted into action by helicopter battled a Vie' Cong main-force unit today 55 miles from the North Viet Nam border.

The fight still raged at nightfall after more than six hours of shooting. A Marine spokesman at Da Nang said 40 Communists were killed, against light Leatherneck losses. The Marines also captured 40 weapons, including one crew-served piece of equipment.

The new outbreak of fighting in the northernmost province followed a fierce action before dawn in which 470 South Vietnamese infantry troops and militiamen with the help of fighter-bombers and artillery turned back a stiff attack by a Communist force twice their number on a refugee settlement area 75 miles northeast of Saigon.

Only 17 miles from the 17th-Parallel frontier with the Communist North, battalions of government troops on a weeklong hunt for the Reds in Quang Tri Province were reported in heavy fighting. A government spokesman said the South Vietnamese soldiers were encircling 200 Viet Cong, elements of two Communist battalions they had hit earlier.

Another 54 Viet Cong were killed in the day's fighting, bringing the total Communist dead since last Tuesday to 344, the spokesman said. The U.S. 7th Fleet has supported the government operations with coastal shelling.

The Marines called for artillery and air strikes after they landed on a peninsula about six miles southeast of the Marine enclave at Phu Bai near the old imperial capital of Hue, 400 miles northeast of Saigon. The enemy was described as a hard-core force of about 400 troops.

The Marines are part of a task force, including a battalion of Vietnamese troops, that has been hunting the Viet Cong since Friday.

WEATHER

SNYDER TEMPERATURES: High Saturday, 62 degrees; low, 38 degrees; reading at 7 a.m. Sunday, 44 degrees; precipitation, .44 inch. High Sunday, 60 degrees; low, 33 degrees; reading at 7 a.m. today, 33 degrees.

Northwest Texas: Fair tonight and Tuesday. Cooler tonight, warmer Tuesday. Low tonight 22 to 32. High Tuesday 55 to 65.

Coast: North winds 8 to 16 knots tonight and Tuesday.

South Central and Southeast Texas: Fair tonight and Tuesday. Cooler tonight, low 35 to 48, 45 to 50 in south. High Tuesday 65 to 75.

Southwest Texas: Fair today and Tuesday. A little cooler in most sections tonight, low 30 to 40 in north, 40 to 45 in south. High Tuesday 62 to 72.

New ESSA 2 Completes World-wide Weather Watch

By HOWARD BENEDICT

CAPE KENNEDY, Fla. (AP) — ESSA 2, a mechanical meteorologist designed to snap and transmit cloud and storm pattern photos almost in the twinkling of its camera eyes, soared into orbit today to complete the world's, first operational space weather reporting network.

Together with the earlier ESSA 1, the new weather watcher will provide a combination of global coverage every day and instant pictures to local forecasters in 22 nations.

Dubbed "everyman's satellite" because of its potential usefulness to all countries, the new weather observatory thundered away from Cape Kennedy right on schedule at 8:58 a.m. (EST) atop a Douglas Delata rocket that drilled it into orbit about 850 miles above the earth.

The National Aeronautics and Space Administration announced the success of the flight and officially named the satellite ESSA 2, for environmental survey satellite. Ground stations planned to activate its cameras on Wednesday, after first checking out all payload systems.

Each of the two cameras is to take and transmit a picture every six minutes.

ESSA 1, launched Feb. 3, also carries two cameras which photograph all areas of the globe at least once every day, storing the pictures on board until the payload is over one of two receiving stations in the United States.

These pictures are distributed to interested weather agencies around the world.

The instant pictures can be used to improve local weather forecasts, to issue warnings of severe weather and to help select the safest routes for aircraft in flight and ships at sea.

APT receiving sets cost up to $30,000. But some amateurs have put workable sets together for as low as $600.

Some television stations in the United States plan to feed ESSA 2 pictures directly onto home screens during weather programs.

A station can receive pictures from the satellite whenever it is within a range of 2,100 miles. On each pass, ESSA 2 can relay two or three pictures, each showing weather patterns over an area of four million square miles.

Living Cost Climb Stops

WASHINGTON (AP) — The rise in consumer prices halted in January for the first time since last summer, the Labor Department announced today.

The consumer price index leveled off at 111 per cent of the 1957-59 average, where it stood in December. This was 1.9 per cent above a year ago.

Labor Department officials said the report was "gratifying after four consecutive months of increase."

Arthur Ross, commissioner of the Bureau of Labor Statistics, told reporters: "I would caution you not to make too much of this; we do not believe it is too significant."

Snyder Teacher Earns High Honors

A surprise honor came to Ronald Foy, Industrial Arts Teacher at Snyder High School, over the weekend.

Foy went to Texas A&M University to attend the annual conference of the Texas Industrial Arts Association, an organization composed of over 800 teachers in the state, and learned that he had been named the outstanding industrial arts teacher in the state.

This is the third such award made by the Texas Industrial Arts Association, and two of the three recipients have had Snyder connections. The first outstanding teacher award went to W. A. Mayfield of Bryan the first year after he left Snyder High School. Now the third annual award has gone to Foy, Mayfield's successor at the local school.

Foy came to Snyder High from Ballinger where he had twice been named outstanding industrial arts teacher in this region. Announcement of his selection as the state award winner came without any prior word.

The state association will send Foy to the national convention at San Francisco in April. He will be recognized there, along with winners of similar awards from other states.

Accompanying Foy to the conference at A&M were Ed Raborn and Bob Bowden, industrial arts teachers at Lamar and Travis Junior High Schools, respectively, and two high school students, Johnny Nix and Fred Wiman. Nix is state secretary of the student division of the Texas Industrial Arts Association, and Wiman is secretary of the student division of the national association.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: If you were a trusted friend and family physician would you tell the parents of a 16-year-old girl that their daughter came to you requesting a prescription for for birth control pills?

MADISON, M. D.

DEAR M. D.: I would not. But I would do everything within my power, short of betraying the girl, to open the lines of communication between the parents and their daughter. I invite other physicians to answer this intelligent question. Your names will be withheld on request.

* * *

DEAR ABBY: At 28, I married a man 12 years my senior. He had been married previously, but his wife died. (They had no children.) After 14 years of marriage, my husband still insists on keeping in touch with a former sister-in-law. This young woman is definitely lacking in morals, having lived with five different men that I know of, whithout being married to any of them. Thruout our marriage my husband visited this woman about twice a week after work. (He gets off at 1 p.m.)

He insists that their relationship is platonic, but I find it hard to believe because of her reputation. He says they just sit and talk. Would I be wise to ask him to invite HER to our home to "talk?" I really don't want her in my home, Abby, but what else can I do?

WHAT TO DO

DEAR WHAT? Don't be a hypocrite. If you don't want her in your home, don't suggest that your husband invite her. Tell him that for him to call regularly on this woman, knowing the kind of reputation she has, is damaging to his own. Let him know that you disapprove, and unequivocally. It may not stop the "talks"—but at least he'll know you weren't born yesterday.

* * *

DEAR ABBY: A relative came to my home for Sunday supper at noon. She ate, helped with the dishes, and played cards until 10 o'clock that evening. She did all this with her hat on. I have never heard of anything like that being done. Is this an old custom?

FARM FOLKS

DEAR FOLKS: If it is an "old custom," it is news to me. Maybe it was a new hat.

* * *

DEAR ABBY: At a party while being introduced to a woman, I said routinely, "How do you do?" She replied sharply, "What do you mean, 'How do you do—we've met before!"

I wasn't prepared for that kind of response, so I just stood there, feeling foolish. Finally she told me where we had met, and then I vaguely recalled having met her. Naturally I was very uncomfortable and couldn't wait to get away from her.

Please tell me, what is the proper way to handle a situation of this kind? I am sure we have all "met" people we've met before.

EMBARRASSED

DEAR EMBARRASSED: When one is introduced to someone he has met before, he should acknowledge the introduction as tho it were the first. If later there is an opportunity to remind the person privately you've met before, do so. But a well-bred person never embarrasses anyone with such a display.

Critically Hurt In Attack By Stallion

FORT WORTH (AP)—Joel H. Reaves, 49, of Grand Prairie was critically hurt Sunday when attacked by a stallion in a field five miles southeast of Rio Vista in Hill County.

Part of a hand was severed and doctors at a Fort Worth hospital sought to save a mangled leg.

TIME IS SHORT — Robert F. Allen, a Tucson insurance broker, chats with his sons, Tracy, 6 (left), and Dougy, 5. Allen has only two to six months left to live because of cancer. His only hope to live is a rare tumor transplant treatment and he must find someone with the same type cancer and blood in order to get treatment. (AP Wirephoto)

Southland Play Ends

By The Associated Press

Arkansas State and Arlington State clash at Arlington tonight to wind up play in the Southland Conference basketball campaign, the championship of which already rests in the Abilene Christian trophy room.

Arkansas State can tie Lamar Tech for second if it closes out with a victory. Otherwise there will be no change in the final standings.

Abilene Christian beat Trinity 69-48 last week to finish with an undefeated record in conference play and 19-6 for the season.

Abilene Christian, Lamar Tech and Arkansas State will compete in the NCAA college division regional tournaments. Abilene Christian and Arkansas State (15-8) will be in the tournament at Jonesboro, Ark. Lamar Tech (16-8) plays in the Great Lakes Regional at Carbondale, Ill.

Lamar Tech beat Arkansas State 90-82 last week to clinch at least a tie for second place in the conference race.

South Korea Votes To Send More Men

SEOUL, Korea (AP) — The South Korean Cabinet voted today to send about 20,000 more troops to South Viet Nam.

The Cabinet approved a government proposal to send a regiment in April and a division in July.

South Korea already has 20,000 troops in South Viet Nam.

The government is expected to ask the National Assembly to approve the troop movement.

Supreme Court Hears Dr. Sheppard's Plea

WASHINGTON (AP) — The Supreme Court heard today counsel for Dr. Samuel Sheppard, former Cleveland osteopath convicted in the 1954 slaying of his first wife, argue that newspaper publicity deprived him of a fair trial.

Sheppard, accompanied by his German-born second wife and his son, Samuel, 12, looked on intently from the first row of spectators in the packed chamber as the arguments began.

Finds New Ray Of Hope In Search For 'Right Person'

TUCSON, Ariz. (AP) — Robert F. Allen is still seeking the "right person" today who might save his life. In the past two days a ray of hope has brightened his search.

Allen, 28, a Tucson insurance executive, has osteogenic sarcoma, a rare type of bone cancer, and has been given two to six months to live by his doctors.

Allen, who has had one leg amputated, has received about 90 telephone calls from the people wanting to help.

A spokesman for Allen and his wife said this in itself is remarkable, since only those who suffer from the same type of cancer can help the stricken man.

The person Allen seeks must also have O-positive blood.

Allen said 10 of the volunteers may be able to help him and he will discuss their offers with his doctors.

If the donor meets the requirements, and agrees with Allen to undergo a new cancer treatment, both of them may live.

Dr. Sigmund H. Nadler and Dr. George E. Moore, of the Roswell Park Memorial Institute in Buffalo, N.Y., have performed a successful tumor transplant operation.

The doctors said they have found that antibodies can be generated to combat tumors by transplanting them from one patient to another.

White blood cells, which carry the antibodies, can be withdrawn from one patient and given to the other to destroy his cancer and vice versa.

Moore and Nadler said their treatment worked in the case of a woman with skin cancer. Although Allen has bone cancer, Nadler has agreed to perform the treatment on him and another patient.

"I don't care if the chances are 100 to 1 against it," Allen said. "It would be better than the 100-to-nothing odds I am facing now."

State Weather Ranges Wide

By The Associated Press

Texas weather presented a contrasting picture today, ranging from a mantle of snow in the upper Panhandle to drizzling rain, thundershowers and fog in other sections.

Skies were mostly fair in the western half of the state and a Pacific front, pushing eastward, was expected to help clear skies in the eastern half of the state during the day.

A surprise snowfall early Sunday dumped five inches of snow on Dalhart in the upper Panhandle. Early today two inches remained on the ground but bright sunshine was expected to remove the snow mantle by nightfall.

Scattered thunderstorms persisted in the north and east portions of North Central Texas. A heavy cloudy cover, drizzling rain and fog were reported in the eastern part of the state.

Overnight minimum readings ranged from 26 degrees at Dalhart to 53 degrees at Galveston.

The forecasts called for generally cooler weather today and tonight. A warming trend was predicted for Tuesday with clear to partly cloudy skies.

Texan Killed In Oklahoma Crash

ATOKA, Okla. (AP) — Mrs. Louise Pepper, 42, of Sulphur Springs, Tex., was killed Sunday in a two-car crash on U.S. 75 near this southern Oklahoma town.

Her daughter, Mrs. Phyllis McDaniel, 17, of Sulphur Springs, driver of one car, was in serious condition at an Atoka hospital.

SMALL FARMS IN 1936

Thirty years ago when my father electioneered in precinct 2 for commissioner. A farm home then consisted of several large stacks of feed, twelve to twenty head of good milk cows and at least six good head of horses and mules, also about 250 good laying hens. Many times a little ragged child would be playing in the yard, who would lead my father to his parents. People enjoyed hearing my father tell such things as going to a three day picnic in 1908 when the RS&P Railroad was completed.

AT MEXICAN DINNER — Approximately 225 persons attended the Mexican dinner served at the First Presbyterian Church Friday evening. The delicious meal was prepared by the ladies of the church and was open to the public. The menu consisted of a delicious salad, homemade chili, beans, homemade pastries, coffee and tea. Above are some of those attending.

Candy Stripers To Meet On Second Tuesday

The Candy Stripers of Cogdell Memorial Hospital met recently in the hospital dining room with 12 members present.

A discussion was held and it was emphasized that members should work only on her scheduled day. Workers should also ask the nurses for any chore they need done. It was moved and passed that the Candy Stripers would have their meetings on the second Tuesday of each month. The orientation of new members was also discussed.

Anyone interested in becoming a Candy Stripers is asked to call Mrs. Withers at HI 3-4568.

Fish And Vegetable Stew

4 medium baking (mealy type) potatoes, peeled and quartered
2 medium onions, peeled and quartered
1 can (1 pound) solid - pack tomatoes, undrained
1 teaspoon salt and 1-16 teaspoon pepper
½ teaspoon each paprika and sugar
¼ teaspoon dried crushed thyme
1 large bay leaf
2 cloves garlic, crushed
1 pint water
4 small or 2 large fish steaks or bone-in slices (1¼ pounds)

Into a kettle, turn all the ingredients except the fish. Bring to a boil; cover and simmer until potatoes are tender —about 30 minutes. Add fish, halving steaks if large; cover and simmer until fish flakes easily — about 10 minutes. Correct seasoning. Serve in wide soup plates with spoons and forks. Makes 4 servings.

Defense Funds Vote Puts Domestic Plans In Doubt

By WILLIAM F. ARBOGAST

WASHINGTON (AP) — A "squeaker" vote in the House last week has given administration leaders cause for concern over the prospects for pushing costly domestic programs through Congress this year.

It came on a Republican-backed motion to strike from the President's emergency tax bill a provision restoring recent reductions in excise taxes on automobiles and telephone calls. The motion lost by a scant 20 votes out of 394 total votes. The margin of victory for the President's forces was 22 votes cast by Republicans against the motion. They were joined by 185 Democrats.

More significant was the fact that 76 Democrats joined 111 Republicans in support of the motion. This was one of the largest defections in some time and it came on the first major test vote of 1966 on an administration measure.

What has the President's congressional leaders worried is that the tax bill was labeled as a defense measure — its purpose was to raise money to help pay for the cost of the war in Viet Nam.

If they can win by only 20 votes on a proposal so closely related to the war, some administration leaders are asking themselves, what will happen when the chips are down on a purely domestic proposition?

House Republicans already have served public notice that they will fight all new and costly domestic programs which they consider nonessential, and they expect lots of help from conservative Democrats.

So long as the fighting in Viet Nam continues to drain heavily on federal revenues the Republicans insist, nonessential domestic spending must be held down to prevent inflation.

Most Republicans consider some of the President's "Great Society" programs as strictly nonessential. They apply that label to some of the existing programs and some of the proposed measures.

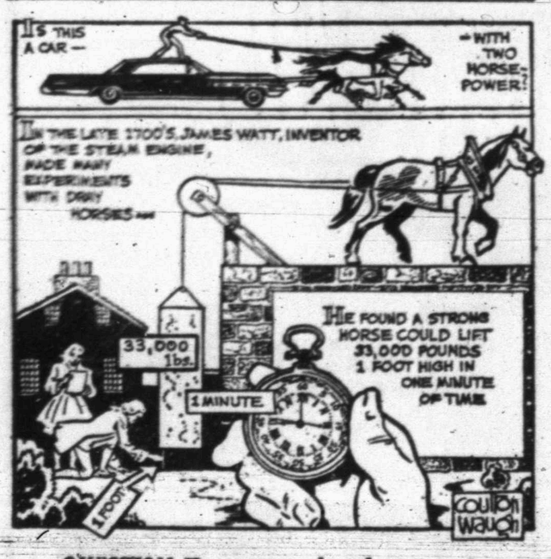

Republicans hope to make inflation, or the threat of inflation, a major issue in their bid to pick up seats in the congressional elections next November.

If the danger continues, they plan to blame the Democrats. If it lessens, they will claim the credit.

Perhaps the first real test of the domestic budget cutters' strength will come when the House considers Johnson's request for $30 million for rent subsidies and $13 million to finance the Teachers Corps.

Both projects were authorized last year as "Great Society" programs, but Congress refused to finance them. A bill to put up the money is before the House Appropriations Committee and will be coming to the House floor soon. What happens to them could be the tip-off to what will happen to some of the more costly measures to follow.

Junior Editors Quiz on HORSEPOWER

QUESTION: How can a car have horsepower?

• • •

ANSWER: Don't take the upper drawing seriously. Our artist was just using his imagination. The main picture shows why it is said that a car has a certain "horsepower." The word is used to tell how much power an engine has. One way to measure this was worked out in the late 1700's by James Watt. Watt wanted some way of measuring how much work an animal or engine might do. He experimented with strong horses to see how much weight they could lift in a certain time. Watt called one pound, raised one foot, a foot-pound. He found that a horse could raise 33,000 foot-pounds in one minute. He called the force exerted to do this one horsepower. A more powerful force, such as an engine, may have two or five or many more units of horsepower. In modern cars, pressure on the piston is multiplied by the piston's area, by the length of the piston's stroke and the number of strokes a minute—this gives food-pounds a minute. Divide this by 33,000 foot-pounds and you have the indicated horsepower. The "S.E.A. Rating" and "brake horsepower" measurement method are also used, giving different results.

• • •

FOR YOU TO DO: Find out how much horsepower your family car has. 2-28

(David Williams of Bellefonte, Pa., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Boyle Reads His Mail To Learn:

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Man's best friend it seems is slowly being eclipsed in popularity by his own most traditional enemy, the cat. America is reported to have 26 million dogs and 28 million cats, not counting strays.

Things are looking up for the ordinary housewife. She cooks about 1,000 meals a year. That formerly meant 5½ hours a day in the kitchen; today that figure has been cut to 1½ hours — it says here.

It is catching: The U.S. Public Health Service lists cigarette smoking as a "communicable disease."

Geographical oddity: Alaska claims it is farther north, farther west and farther east than any other U.S. state. Its brag that it is the **farthest east** comes from the fact that the Aleutian Islands reach so far west that they actually enter the Eastern Hemisphere.

Age has one advantage: The medicine you have to take for what ails you doesn't taste as bitter. This is because the 9,000 taste buds you probably had when young gradually decrease as you grow older.

Quotable notables: "Results! Why, man, I have gotten a lot of results. I know several thousand things that won't work" — Thomas A. Edison.

Safety tip: If you're going to walk, don't drink. Everyone knows the danger of driving a car after imbibing, but liquor is a danger to pedestrians, too. A 1964 study in Pennsylvania found that one out of every four pedestrians killed in traffic accidents had been drinking.

Folklore: If the first robin of spring you see is flying up, you'll have good luck the rest of the year. A child at maturity will weigh roughly 20 times its weight at birth. To cure a stitch in your side that comes from running too fast, lift up a stone, spit on it, and put the stone back in place.

History lesson: Thomas Jefferson was the first U.S. president to start the custom of shaking hands with White House visitors. His predecessors, George Washington and John Adams, usually bowed stiffly and formally to visitors.

Quickies: Americans use some 60 million decks of playing cards a year. Crocodiles are found within the United States only in southern Florida. About six cents out of every dollar goes for medical care. Despite the fact no other generation of teen-agers seemingly ever lived better, suicide is the third leading cause of death among our children in the 15-to-19 age group.

Held For Fatal Beating

SHREVEPORT, LA. (AP)—A Dallas, Tex., man, who officials said recently was released from a mental hospital, was held today in the fatal beating of his father.

Wiliam Jernigan, 31, was booked for murder in the death of Francis Jernigan, 63, of Dallas.

Dr. Stewart Delee, coroner, said the elder Jernigan was beaten to death with a chair in a friend's apartment. The father and son were guests in the apartment after coming to Shreveport to attend a wedding.

"He gave us no reason for the killing, and he is unable to give us a coherent statement," Dr. Delee said of the younger Jernigan.

Services Set For Minister To Indians

ELECTRA, Tex. (AP)—The Rev. M. P. Hines, 93, retired Methodist minister and at one time a missionary to the Kiowa and Comanche Indians, has died.

Services for the Rev. Mr. Hines, who died Saturday, were planned for today. He began his ministry in 1894 at the South Bonham Methodist Church in Fannin County.

Pretty Peg Is Heroine

By ANDREW BOROWIEC

DAVOS, Switzerland (AP) — Graceful Peggy Fleming, a 17-year-old high school student from Colorado Springs, Colo., is the hero... today of America's amazing comeback in world figure skating competition.

Miss Fleming captured the women's title in the World Figure Skating Championships Sunday with a thrilling free-skating performance that earned her first - place votes from all nine judges.

The pretty teen-ager was only 12 years old when America's 18-member figure skating team was wiped out in the tragic Brussels plane crash in 1961. Her victory here culminates the American comeback.

The Americans dominated the 13-nation competition here, winning five medals. Team Manager Norm E. Fuller was delighted with the showing.

"I believe we have a very strong team and excellent chances in the 1968 Olympics," said Fuller. "The performance was really great and we're all very, very happy."

Happiest of all was Miss Fleming, who had piled up an early lead in the compulsory figures which count for 60 per cent of each skater's final score, and then clinched the championship with a flawless free-skating show in the sun-drenched Davos rink.

Miss Fleming totaled 2,291.0 points and had a perfect score of nine ordinals based on judges' placings of one for first, two for seond, etc.

Miss Fleming finished with a 62.3-point edge over Gabriele Seyfort of East Germany. Defending champion Petra Burka of Canada slipped to third, the worst finish ever for a defending titleholder. Miss Syfort finished with 2,228.7 points and 22 ordinals and Miss Burka had 2,226.2 and 23.

Gary Visconti of Detroit won a bronze medal in the men's competition with favorite Scott Allan of Smoke Rise, N.J., finishing a disappointing fourth. Emmerich Danzer of Austria won the event.

Cynthia and Ronald Kauffman of Seattle, Wash., finished third in the pairs event won by Ludmilla Belousova and Oleg Protopopov, the veteran Russian tandem.

NATIONAL LEAGUE HEAD TESTIFIES — Warren Giles (right), president of the National League, consults with his attorney, Bowie Kuhn, in Atlanta. Giles gave a deposition in a Wisconsin antitrust suit against the league and the Atlanta Braves baseball team. (AP Wirephoto)

Dampier Rips Wildcat Foes

By MURRAY CHASS
Associated Press Sports Writer

Louie Dampier, at only 6 feet almost a basketball oddity, is a prime reason why unbeaten Kentucky is headed for its 15th appearance in the NCAA tournament and a chance for an unprecedented fifth championship.

He scored 29 points Saturday night as the top-ranked Wildcats defeated Tennessee 78-64 for their 23rd victory and clinched at least a tie for the Southeastern Conference crown. He and Pat Riley, both juniors, lead Kentucky in scoring, each averaging about 21½ points a game.

Moving into the NCAA with Kentucky following Saturday's games were Davidson, Cincinnati and Miami of Ohio.

Davidson won its first Southern Conference title, defeating West Virginia in the tournament final 80-69 behind Dick Snyder's 27 points.

Cincinnati clinched the Missouri Valley crown by trimming Drake 56-49, and Miami grabbed the Mid-American Conference crown with a 79-72 triumph over Toledo.

Duke's second-ranked Blue Devils ended their regular season with a 77-63 victory over North Carolina. Now they get set for the Atlantic Coast Conference tournament, which they must win in order to get to the NCAA. Their first game is against Wake Forest Thursday.

Kansas, No. 6, took a half-game lead in the Big Eight by handing Nebraska, No. 8, its first league loss 110-72, while 10th-ranked Michigan held onto a one-game margin in the Big Ten, crushing Purdue 105-85.

Utah clinched a tie for the Western Athletic Conference title with a 97-85 triumph over New Mexico. Southern Methodist pulled into a first-place tie with Texas A&M in the Southwest Conference by edging Texas 71-69.

Oregon State retained a 1-game lead in the Pacific Athletic Conference with a 54-47 victory over Washington State while the University of Pacific snapped San Francisco's 34-game home - court winning streak 82-71 and grabbed a one-game lead over the Dons in the West Coast Athletic Conference.

Penn missed a chance at putting away the Ivy League crown, losing at Cornell 81-76.

Among the independents, seventh-ranked St. Joseph's, Pa., walloped Xavier of Ohio 101-83, ninth - ranked Providence downed Holy Cross 81-72, St. John's edged Marquette 70-68, Houston trampled Portland 109-84, Army stopped Navy 70-56 and Dayton nipped De Paul 76-73.

Bullets Find Celtic Mark

By The Associated Press

Five weeks ago the Boston Celtics were Bullet-proof. Today they're an entry on the ballistics report.

The Baltimore Bullets, triggered by Johnny Green and Gus Johnson, leveled Boston with a 40-point third-quarter volley Sunday and blasted the defending National Basketball Association kings 132-92.

The most one-sided loss absorbed by the Celtics in six years trimmed their Eastern Division lead to 1½ games over idle Philadelphia.

St. Louis, sparked by veteran Cliff Hgan, trimmed Detroit 125-114 in the only other game on Sunday's schedule.

Red Auerbach's Celtics, who swept their first six games against Baltimore this season, have been cannon-fodder for the Bullets in the last three — all on the Baltimore court. The Bullets whipped them 132-107 Jan. 22, followed up with a 113-94 decision Feb. 5 and riddled them Sunday in the nationally television game as six players hit for 14 points and up.

Lady Keglers Set Doubles Record

AUSTIN (AP)—Colleen Pope of Odessa and Joyce Eberhardt of Dallas rolled 1190 Sunday to set a record in Class D doubles of the women's bowling tournament by 40 mins.

This was among numerous changes made in the standings as the big tournament went through its third weekend.

One of the major changes was establishment of a new leader in Class A singles where Lucille Bonds of Waco rolled 619 to better the lead in all other categories.

Farmers Meats of Dallas held onto the lead in the team open class with 2681. Virginia Massey and Liz Barnett of Carthage and Longview stayed on top in open doubles with 1148.

Ponies, Aggies Tied For SWC Cage Lead

By The Associated Press

Southern Methodist aims at momentary lead in the Southwest Conference basketball race tonight when it takes on hapless but high scoring Texas Christian at Fort Worth.

Southern Methodist and Texas A&M face the final week of the hectic race in a deadlock for the top, each with a 9-3 record, and two games ahead of third place Texas Tech.

Tech is the only other team with even a chance of sharing the title, but then only if SMU and A&M lose both of their remaining games while the Red Raiders win theirs.

The SMU-TCU test is the only one scheduled tonight and SMU can take over the lead by a half-game should it beat the team that whipped it 97-89 in January.

Much has happened since then as the Methodists finally righted themselves and swept through eight straight to ride at the top beside Texas A&M.

But Southern Methodist has found the going very tough in recent games, having to win one by one point and two by two. Saturday's 71-69 triumph over Texas was almost in the category of a miracle.

The Methodists played for a last shot in that one with Denny Holman sinking it with only 12 seconds to go. Then Texas missed two chances to score the rest of the way.

The Aggies play Baylor at College Station Tuesday night and should SMU lose to TCU tonight could take a full-game lead.

Texas Tech is host to Rice and Arkansas meets Texas at Austin in other Tuesday night games.

The slam-bang race comes to a crashing close Thursday night as Texas A&M tries to topple Arkansas in the Ozarks and Southern Methodist plays vengeful Texas Tech at Dallas. Tech beat Southern Methodist 100-83 at Lubbock in January. The Aggies beat Arkansas 75-72 at College Station.

Other closeout games send Texas Christian to Houston to play Rice and Texas to Waco to battle Baylor.

John Beasley, Texas A&M's sharpshooter, appears to have the scoring championship nailed down. He has 587 points—an average of 27.9 per game—and is 112 points ahead of second place Gary Turner of Texas Christian. Beasley leads Dub Malaise of Texas Tech 348 points to 278 in conference scoring.

Willie Wins With Lucky

By The Associated Press

Lucky Debonair became the first Kentucky Derby winner to snare the Santa Anita Handicap when he closed fast in the stretch and won the $145,000-guaranteed Big 'Cap.

Ridden by Willie Shoemaker, who is now the only rider to win the Handicap five times, Lucky Debonair beat Cupid by one length after running the 1¼ miles in 2:00 1-5 Saturday.

Native Diver was third and Tom Cat fourth. It was Lucky Debonair's first stakes victory since he beat Dapper Dan by a neck in last year's Kentucky Derby at Churchill Downs.

Kentucky Jug won the $103,800 Hialeah Turf Cup at the Florida track and set a track record of 2:27 1-5 for the 1½ miles on the grass course.

HPC Makes NAIA Bid

By The Associated Press

Howard Payne, which won the Lone Star Conference basketball championship with a 12-2 record and a 3-game lead over the field, launches its bid for a national small college crown tonight.

The Yellow Jackets, with an 18-8 season record, tangle with East Texas Baptist, champion of the Big State Conference, at Brownwood in the first of a 3-game series to see which goes to the NAIA tournament at Kansas City next week.

All other members of the conference have wound up the season except Southwest Texas and Texas A&I, and they play tonight. Southwest Texas can clinch second place by beating A&I. A loss would drop the Bobcats into a three-way second place tie with East Texas and Sam Houston.

Field Set For State Tournament

By The Associated Press

Twenty-two teams, most of whom are making the trip for the first time, go to Austin this week for the 46th Texas schoolboy basketball tournament.

There are only two defending champions in the field and only five of the teams were there last year.

Everybody's new in the Class AAAA division where Lubbock Monterey (26-2), Dallas Samuell (29-3), Houston Memorial (32-4) and Austin McCallum (22-7) battle for the title Houston Jones held last year. Dallas Samuel is most likely to get the favorites tag.

Three of the four in Class AAA are making it for the first time —Andrews (26-3), Kilgore (25-4) and San Antonio Marshall (28-3). Only Clear Creek (26-3) is an old head at tournament play. It won the title in 1963. It might be the favorite this time.

Lake Worth of Fort Worth seeks a repeat with the championship in Class AA. Lake Worth has a 27-5 record and appears capable of again taking the championship. Crane (26-7), Rockdale (29-3) and Rockport (25-4) are the others in the tournament.

Class A has two returning teams. They are Woodsboro, which battled to the finals last year and is back with a 23-6 record, and Gruver, which failed to survive the first round but returns with a 23-4 mark. Gruver is the only former champion in the field, but its title was 16 years ago when it was Class B king.

Honey Grove (19-8) and Fairfield (24-6) are the others in the Class A field.

Class B, which sends six teams to the state tournament, has both its champion and runnerup back.

Snook arrives Thursday for the opening of the tournament with a gaudy 75-0 record. That's only three fewer than the state record. Deweyville, which finished second, returns with a 32-7 mark and a good chance of felling Snook despite its awesome record.

Other Class B teams in the tournament are Channing (37-3), Kopperl (36-1), Alba-Golden (35-9) and Bronte (20-5).

The tournament runs Thursday, Friday and Saturday.

Our Friendly Personnel Desire To Serve You!

JOE ELLINGTON
Parts Man

I have 17 years experience in parts service which enables me to give you prompt, efficient service. I am happy to say our parts stock here at Wilson Motors and Tractors is second to none in this area. You can rest assured your car or tractor will always get the correct replacement parts it deserves when you bring it to . . .

SHOWDOWN LOOMS OVER LA CONTRACT

By HAL BOCK
Associated Press Sports Writer

Buzzy Bavasi isn't talking and he's got plenty of company today as baseball's battle of the pen reaches the showdown stage.

Bavasi, the Los Angeles Dodgers' general manager, continues to fight the good fight with ace pitchers Sandy Koufax and Don Drysdale but he won't say anymore about it.

"This is the last time I will discuss the Koufax-Drysdale affair with newsmen until I have had a chance to negotiate with them," Bavasi told reporters Sunday.

"I have no idea when I will talk to them," the Dodger GM added.

Koufax and Drysdale are holding out for reported identical three-year contracts that would cost the Dodgers a total of $1 million. Apparently the money involved isn't as much of an issue as the length of contract.

"Koufax and Drysdale are entitled to everything they can get," Bavasi said, "but under no circumstances would any player on this club get more than a one-year contract."

Joining Bavasi in silence was Cleveland pitcher Ralph Terry, who is battling Indians' General Manager Gabe Paul over some $7,000, and Cincinnati's assistant GM, Phil Seghi, who is after signatures from pitcher Jim Maloney and infielder Deron Johnson.

Terry is asking for $38,000 from the Indians, a boost of $7,000 over last year's salary, but he's having trouble convincing Paul.

"I'll wait all year at home if that is what Gabe wants," Terry said. "I wrote to him Saturday and the next move is up to him. He knows what it'll take to sign me." Terry was 11-6 last year.

Seghi said talks with Maloney and Johnson have reached an impasse. Maloney, who pitched two no-hitters and had a 20-9 record last year, and Johnson, the major leagues' runs-batted-in champ with 130, are seeking sizable boosts over their 1965 salaries.

"I haven't heard from either one today," Seghi said Sunday. "The next move is up to Jimmy and Deren."

Apparently communications have also broken down between the Atlanta Braves and ace right-hander Tony Cloninger, a 24-game winner in 1965. Braves' President John McHale said he hasn't heard from Cloninger in almost a week.

A cluster of other front-line pitchers including San Francisco's Juan Marichal and Bob Shaw, Jim (Mudcat) Grant of Minnesota, John Wyatt of Kansas City and Jack Fisher of the New York mets remained unsigned.

Snyder Thinlies Cop Fifth Place

The Snyder High School track team finished fifth out of a field of 20 teams entered in the class AAA division of the annual Comanche Relays at Ft. Stockton this past weekend. Snyder scored 37½ points.

Monahans copped the first place trophy. Dunbar of Lubbock was second, Andrews third, and Odessa Ector fourth. The fifth place finish by the Tigers was the best of any team in its district.

There were some pleasant surprises at the Relays. For instance, the 440 relay team, generally considered to be weak this year, placed third with a 42.3 clocking. The team includes Ronnie Hardwick, Jackie Rice, Teddy Brown and Curtis Clay.

Brown raised a few eyebrows with a second place finish in the 440 dash. His time was a respectable 51.6.

Leon Riggins took second in the 180 low hurdles with a 20.2 clocking.

Steve McMahan tied for fourth in the high jump with a leap of 5-8 on a wet field. Cold and generally unfavorable conditions prevailed during the early events.

Jackie Rice vaulted 12 feet for a fourth place tie. Jerry Simons copped 5th in the discus with a throw of 140 plus and 5th in the discus with a heave of 49-7.

McMahan also was timed at 15.5 for a sixth place showing in the high hurdles.

Coach James (Dutch) Stehley said the Snyder team looked "all right."

The annual Canyon Reef Relays will be unveiled here Saturday.

Sports Program Set By First Baptists

Snyder High School athletes will be guests of adult members and friends of the First Baptist Church tonight at a sports program in the church.

Claude (Chena) Gilstrap, popular former head football coach and present athletic director at Arlington State College, will be the main speaker for a banquet at 7 o'clock.

The program will include a film "Play Ball" at 6:30 p.m. in the auditorium.

AGAINST FT. STOCKTON

Bengal Netmen Hold Own, 4-4

The Snyder High School tennis team dueled to a 4-4 standoff at Ft. Stockton this weekend.

Gordon Stokes defeated Dee Broyles, 8-6, 1-6, and 6-1 in the No. 1 singles match. Jerry Bell lost to Milton Kellner, 4-6, 6-4, and 6-3.

Mickey Almond lost to Frank Hillin, 7-5 and 6-4 while Sandy Wellborn dropped his match with David Porter, 7-5 and 8-6.

Gary Sanders broke even in two singles matches. He defeated Marty Winkler, 6-2 and 6-1 after losing, 6-4 and 7-5 to Craig Williams.

Bell and Wellborn teamed up in the doubles to defeat Broyles and Kellner, 6-4 and 6-3. Stokes and Almond also were victorious, topping Hillin and Porter, 6-4 and 6-4.

There were three practice matches between Snyder girls and Ft. Stockton boys. Emily Kincaid defeated Marty Winkler, 6-3 and 6-3. Pam Cumbie lost, 9-7 and 6-4 to Jerry Fletcher.

Kincaid and Cumbie lost, 6-4 and 9-7, to Williams and Fletcher.

Coach Ken McAllister said Sweetwater would be here Tuesday for a match with Levelland coming here Thursday.

Tiger Golf Team Shines

Snyder's golf team came in about 8th among 29 teams entered in the annual golf match at Andrews this weekend.

First place was won by Permian High School of Odessa while Andrews was second with Midland Lee and Borger tying for third. It was a 54-hole tourney affair.

Scores of the Snyder boys for the three rounds: Don Copeland 81-76-77; Larry Anderson 78-80-75; Alex LeFeuvre 81-76-85; Mark Wilson 85-84-84; and, Bill Taylor 84-80-79.

The first annual Snyder golf tournament will be held here this weekend with 18 holes of competition slated Friday and the same number Saturday.

Snyder Boys Win Boxing Trophy

ABILENE—The Snyder Boys Club boxing team won the team trophy in the open division of the Golden Gloves tournament and will represent Abilene in the state tourney March 11 in Ft. Worth.

The Snyder lads won three titles. Adam Romero, a lightweight, decisioned Bill Klozik of Abilene. Adam got the nod over the veteran boxer when he knocked him down in the first round. Klozik recovered but it was too late.

Ruben Gonzales won a first round TKO over Abilene's Charles Hines. Two Snyder boys were unopposed: bantam Junior Corralez and flyweight Carroll Marsh.

Jesse Castillo, a featherweight, was a first round TKO victim of Rumaldo Gonzales of Abilene. Billy McClain, who won the high school trophy in the Odessa tourney last week, lost his middleweight bout to James Horn of Abilene.

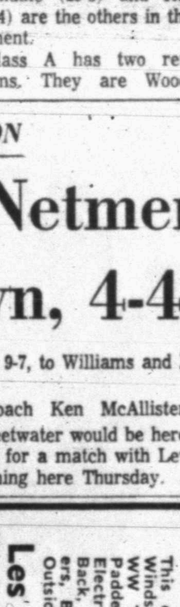

In the high school division, Eloy Benitez decisioned Frank Harris of Brownwood after getting off the canvas in the first round.

Few Changes To Be Seen Under Voter Registration

By LEE JONES

AUSTIN (AP) — Voters and election officials will find few differences between the new free annual voter registration system and the procedures they used under the poll tax.

The first phase of the new registration law, enacted last week, starts Thursday when a 15-day emergency voter sign-up period begins.

Voters who register during the 15-day period, as well as those qualified before Jan. 31 under the poll tax, may vote in all of this year's elections unless the U.S. supreme court upholds the $1.75 voting requirement. Such a ruling is believed unlikely.

Those registering in the emergency period, as well as during the first regular registration period from Oct. 1 to Jan. 31, will discover the process is virtually identical to that followed under the poll tax.

The big exception is that they won't have to pay $1.75.

Voters may register in one of three ways:

—By going to the county tax assessor-collector's office.

—By mail.

—By appearing before a deputy assessor-collector, who must operate at "fixed locations customarily open to the public" with their hours of operation specified by the assessor-collector.

The new law, signed by Gov. John Connally Thursday, wipes out the old system of so-called "roving deputies," used by the League of Women Voters, labor and ethnic organizations and other politically interested groups. That system allowed deputized individuals to go door-to-door signing up voters and receiving poll tax payments.

The mechanics of registration will be familiar.

During the emergency registration period, voters will be signed up on old poll tax receipt forms. Voter registrants will stamp each form "conditional voter registration certificate."

Voter registration forms will resemble poll tax receipts.

A voter must give his name, sex, occupation, address, voting precinct, state or county or birth, date of birth, the date he became a resident of Texas, his city and county, whether he is a naturalized or native-born citizen.

No longer will a registrant be required to state his race. Occupation must be given except in counties where registration lists and records are compiled by electronic data processing equipment.

An innovation is the requirement that a voter's registration form contain a statement, to be signed by the voter or his agent, that "I certify that the information contained herein is true and correct."

The voter keeps the original certificate, the registrar retains a copy for his records, as under the poll tax system.

A voter's spouse, parents or adult children may register for him, as under the present system.

As under the poll tax, a voter who loses his registration certificate may vote after giving his precinct election judge an affidavit that the certificate was lost or misplaced.

The new law keeps the old provision that persons over 50 living in cities of 10,000 or less may vote without registering.

Commissioners Courts of counties with 500,000 or more population may, however, require such elderly voters to register.

Mail registration may be on any form prescribed by the county voter registrar. Such forms must include a statement to be signed by the voter, that "I understand the giving of false information to procure the registration of a voter is a felony."

A new provision requires the tax assessor-collector to prepare for each precinct alphabetical lists of registered voters a month earlier than was required under the poll tax. The new deadline is March 1—a month after the final date for annual registration.

The earlier date will insure that such lists are in the hands of precinct election judges before local bond elections, many of which are held in March.

Lawmakers wrote into the registration bill a new duty for registrars. They and their deputies are the only persons who may assist persons to register who are physically unable to do not read or write english.

Registrars also may send deputies to hospitals, rest homes, convalescent homes and similar institutions to register voters unable to register in person or by mail.

No registration deputy may be paid for his services unless county commissioners approves the expenditure.

Another new duty of registrars is to submit to the state comptroller each year a statement of the total number of voters registered in their counties. The statement will be the basis, if the legislature appropriates funds, for a 25 cents per voter state grant to each county. Under the poll tax, counties added 25 cents to the $1.50 state tax to cover registration costs.

Volunteer groups find the bill's main limitation on their voter registration activities in the prohibition on "roving deputies."

Members of such groups may be deputized, however, as assistant registrars to operate in fixed locations. Furthermore, there is no restriction on distribution of mail-in registration forms to prospective voters. A fine of from $50 to $500 is provided, however, for non-deputies who assist voters in completing registration forms.

Public Notice

The Snyder Public Schools board of trustees is accepting sealed bids for the sale of five acres of land. This acreage is located in the northeast corner of the northwest quarter of Sec. 245. The board will reserve all mineral rights. Bids will be due at 4 p.m. Tuesday, March 8, at the school business office. The board reserves the right to reject any or all bids and to waive any formalities pertaining to bids.

Firm Has Big Plans In Texas

HOUSTON (AP)—A Continental Oil Co. official says the firm expects to invest more than $27 million in Texas during '966.

Roy Mays, vice president and Southern Region general manager, estimated Conoco would contribute $58 million to the state's economy during the year.

Conoco has about 1,950 employes in Texas who get nearly $17 million a year.

For 1964, the latest year compiled, the company paid more than $14 million in state and municipal taxes, including excise taxes, Mays said.

Mays said nearly 80 per cent of the proposed $27 million investment will be spent on exploration and productive activities.

"Conoco plans to drill more than 190 exploratory and development wells in Texas during the year," he said. "The majority of these will be wells necessary to the development of existing fields. Together with miscellaneous project investments, we anticipate spending about $21 million in exploration and production operations."

He said the rest of the proposed 1966 investment will be spent primarily for natural gas activities, marketing facilities and miscellaneous equipment.

Conoco's wells in Texas produce 43,900 barrels a day, Mays said.

Ian Smith Demonstrates Toughness

By LYNN HEINZERLING

SALISBURY, Rhodesia (AP) — Optimistic white Rhodesians are saying that "good old Smitty" has pulled it off.

He hasn't quite pulled it off finally and beyond all possibility of disaster but Prime Minister Ian Douglas Smith has demonstrated that he is a very tough man.

The slim, stern former-prime minister, who snatched independence for Rhodesia from Great Britain in November, has taken everything Britain has thrown at him — trade sanctions, an oil embargo, seizure of Rhodesian assets and exclusion from the sterling bloc.

He hasn't budged an inch. He expresses willingness to talk it over, but only as prime minister of an independent Rhodesia.

One of the incalculable elements of the British program to crush the Smith government was the full extent of Rhodesia's determination to resist. It is becoming clear now.

Smith and his Rhodesian Front are prepared to go the limit. They frequently say it is "now or never" for independence. P.K. Van Der Byl, deputy minister of information, has even threatened a "scorched earth policy" if circumstances require it.

There should have been no uncertainty about the qualifications of the 46-year-old prime minister for resisting pressure. As a British fighter pilot in World War II, he was shot down twice, but still was fighting when victory came. The strong, determined face he presents to the public is partly the result of plastic surgery for his injuries.

Those who claim to see a streak of fascism in the present Rhodesian government will find no trace of Mussolini's gaudy trappings or Hitler's egomanical manners in Smith.

He works often in shirt-sleeves, in an unpretentious, cluttered ground floor office.

Rhodesia is a country in which 225,000 whites dominate four million blacks. Without setting a time limit, Britain has insisted there must be steady progress toward ultimate majority rule.

Brooke Asks Income Tax In Reverse

BOSTON (AP) — Atty. Gen. Edward Brooke, a Negro seeking the Republican nomination for the Senate, proposes a "reverse income tax" to raise family incomes to a minimum level.

Brooke outlined in Atlantic Magazine a wide-ranging program that he envisions as an alternative to President Johnson's great society.

"A reverse or negative income tax ought to be seriously considered as a means of raising income of the disadvantaged to an established minimum level," he said.

He explained his idea:

"A father of a family of six who earns $3,000 a year and has exemptions totaling $3,600 for that year, thus incurring no tax liability, would receive $600 from the federal government, which is the amount of his total exemptions over and above his total income."

Brooke called the Great Society program as "a potpourri of anti-poverty programs which were thrown together slapdash and bear no resemblance to a coordinated, controlled step-by-step series of actions that would constitute an authentic war on poverty."

Returns To SMU After Twenty Years

DALLAS (AP) — Civic leader James H. Stewart has returned to the staff of Southern Methodist University after a 20-year absence to become vice president for university relations, SMU President Willis M. Tate announced.

He replaces Dr. Keith Baker, who resigned to accept a bank job. Stewart retired as executive vice president and general manager of the State Fair of Texas at the first of the year after 13 years in that post.

BUSINESS and INDUSTRIAL NEWS

SPIC AND SPAN — Maxine Bush (left) and Thelma Ford are only two of the many employes of Snyder Laundry and Dry Cleaning, 1401 Twenty-sixth Street, who have the equipment and the "know how" to turn soiled articles out sparkling clean and fresh. The firm has a franchise on Sanitone — an odor-free cleaning fluid which protects color in clothing. (Staff Photo).

Snyder Laundry Keeps Up With Latest Innovations

Although Snyder Laundry and Dry Cleaning, 1401 Twenty-sixth, is one of the oldest firms in the City, it always a new ideas and keeps up with latest developments in its field.

Bentley Baize, a Snyder businessman for about 30 years, took over the company t e years ago this month. During that time, Snyder Laundry and Dry cleaning has undergone an expansion plan in which the building was enlarged and services increased.

The firm has a franchise for the use of Sanitone—a special cleaning fluid which makes clothes come out of the wash brighter, cleaner and fluffier.

Not only does this special cleaning fluid bring out the color in clothes, it also protects color. You can put your "whites" in Snyder Laundry and Dry Cleaning confident they will be the same color after they are washed. The Sanitone fluid protects all colors. There won't be any fading when you have your clothing Sanitone - cleaned at Snyder Laundry and Dry cleaning.

Moreover, this special cleaning fluid has another characteristic which housewives especially like—clothing cleaned with Sanitone is odor free. You cannot smell the cleaning fluid. The only smell detectable is t h a t "sunlight and wind" aroma of freshly laundered clothing.

Snyder Laundry and Dry Cleaning offers a complete service. No matter how dirty the clothing or how wrinkled t h e garments, the firm has the best equipment with which to fulfill your order.

Dial 3-3681 for prompt pickup or delivery. Of course, if you prefer to drop by the firm yourself, you'll receive the s a m e courteous treatment.

Texas Ranks High In Telephone Count

DALLAS (AP) — Southwestern Bell has 3,622,000 telephones operating in Texas and only eight nations have more telephones.

The nations which top that figure are Japan, United Kingdom, West Germany, Russia, Canada, France, Italy and the United States.

North America, with 95.5 million telephones, has as many as all the world had 10 years ago.

Asks Plan Of Self-Help Overseas

By WILBUR MARTIN

WASHINGTON (AP)—Secretary of Agriculture O r v i l l e Freeman says the United States will insist that foreign countries receiving U.S. farm aid do more to help themselves.

"We don't want to push people around," Freeman told the House Agriculture Committee Wednesday. But he added that this country can certainly set checkpoints to make sure that nations getting food help abide by agreements.

The most important of these agreements, he said, calls for recipient countries to increase their own farm production.

The house committee is considering the admnistration's new, five-year food aid program that would cost $3.3 billion a year.

The program has two main concepts, Freeman said: Self-help for recipient countries and the sale of U.S. products for dollars on a long-term basis rather than for local currencies which must be largely spent in the country of origin.

To make sure that countries undertake ambitious self - help plans, he said, the assistance pacts might not be made for more than one year at a time.

Freeman also said the only way the United States could help many nations meet their food crisis was to increase their agriculture output and help them, if desired, on population control programs.

Big Travel Plans For Colorado Man

AUSTIN (AP) — The Parks and Wildlife Department reports one Colorado man has a particularly ambitious travel program this year.

He wants "to take in the state, especially the Big Bend Country, the Rio Grande Valley and the Gulf Coast," a stretch of some 600 miles.

Israel Shapes To New Peace Era

By HAL MCCLURE

TEL AVIV, Israel (AP) — The Hebrew word for peace — "shalom" — has been taking on more significance in this country of 2.6 million persons.

Officials still talk of the danger of war, but there appears to be less tension here now than at any time in more than a year.

The reason?

The protagonists themselves, Western observers say.

The Arab-Israeli frontiers are relatively quiet — compared to a year ago.

The Arabs have slowed to a near standstill their projects to divert the headquarters of the Jordan River — Israel's major life-giving supply.

The Israelis seem to be more concerned with internal problems such as the spiraling cost of living and how to better enjoy that living.

The Hebrew stage has excellent productions of 'Fiddler on the Roof," "Who's Afraid of Virginia Woolf?" and "Oliver." The Theaters are doing a good business — along with other movie shows, nightclubs and restaurants. An exhibit of Picasso paintings and productions of opera have been packing them in. Tel Aviv streets are clogged with late mo l cars.

"It's a status symbol," moaned one hard-pressed taxi driver. "I know people wh are paying for driving lessons when they don't even own a car."

The Israeli Foreign Office takes a dimmer view of the "shalom" era here.

"Actually, the situation is causing us more concern now than it did a year ago," said one Israeli official.

Recent disclosures of arms deals in the Middle East show there is a definite buildup, he said, adding: "And we blame the entire buildup on the United Arab Command."

Earlier this month, the State Department disclosed it has sold Patton tanks to Israel. Jordan, Israel's neighbor, received Patton tanks last year.

The Soviet Union has made massive arms sales in the region — mainly to Egypt, Syria and Iraq. America also has sent antiaircraft missiles to Saudi Arabia and Is l. There are indications Iran also received Hawk ground-to-air missiles from the United States. Lebanon has purchased 12 French Mirage-III fighter-bombers, it is reported.

Ironically, the Israelis see their own military potential as helping to stabilize their neighbors' borders. One Israeli explained:

"One wonders what would happen to Jordan if Egyptian President Nasser's troops were to be sent there in any fight wi ael."

Therefore Israel must continue to arm itself to prevent the Arabs from attacking, he said. He added:

"What we want is peace. And the only way we can keep it is to be strong."

Expert Care Given To Famous Oak

BRAZORIA, Tex. (AP)—Expert care and much attention has kept alive the famous oak near where the first Texas Masonic organization took place.

The tree is called the "Masonic Oak," although the actual formation of the first lodge took place in a grove of laurels a short distance from the tree.

Birds still nest in the venerable, moss-draped boughs as they have for more than 300 years.

Five men gathered near the tree r Brazoria in South Texas in March of 1835 to plan the organization of a Masonic lodge.

The leader of the group was Anson Jones, who in less than 10 years was to become the last president of Texas, presiding as the Republic became one of the United States.

The other four were John Wharton, Asa Brigham, James Phelps and Alexander Russel.

The meeting at 10 a.m. drew up the charter application. The grove in which they met was a part of the family burying ground on the plantation of Gen. John Austin.

The tree, a sort of symbol for Texas Masons, has withstood two strikes by lightning, several major hurricanes and some early-day efforts to chop it down to make way for a road.

Texas A&M tree specialists have sort of taken the oak as a project, patching it when the need arose. Cement has been used to cover wounds on the trunk and limbs caused by the buffeting of nature and time.

If the tree ever succumbs, it will leave enough descendants for the Masons to have another oak or oaks.

For numerous small trees grow in the rich soil at its base, presumably from acorns which fell from the original.

Texas Retail Sales Drop

AUSTIN (AP) — Retail sales, which usually decline sharply in January after the big holiday season, dropped 28 per cent in Texas the first month this year, the Texas Bureau of Business Research says.

The bureau blamed the size of the drop on the unexpected heights reached by December sales.

Still, there was an increase in January sales over a year ago.

The index of total retail sales, adjusted for normal seasonal variation, went from December's 142 per cent of the 1957-59 monthly average to 128 per cent. The unadjusted increase over January a year ago was two per cent.

Total sales in January were estimated at $1.08 billion.

Ft. Hood Amazed At Private's Shooting

FT. HOOD, Tex. (AP)—Pvt. John C. Dixon, a 19-year-old truck driver from Scranton, Pa., recently fired a perfect score with the M14 rifle—the first time it had been done at this Central Texas fort. He was a trainee with the 2nd Armored Division.

Hardly anyone believed it possible, so Pvt. Dixon did it twice more. He had never shot a rifle until he entered the Army.

His practice rounds were terrible, but, said his sergeant, "When he found out that when he did everything we told him the M14 would deliver the bullet where he wanted it, then he really progressed."

Gets Limit—And More!

AUSTIN (AP) — The Texas Parks and Wildlife Department reports a Pleasanton man went a bit over the limit for mourning doves: He bagged 432. The possession limit is 20.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — Today we have a stack of letters from readers of the Memphis Commercial Appeal so let's start trying to make them happy, along with any others who might be thinking along the same lines.

A lady school teacher is going to bring her Spanish class down for a junket and needs route information. She also asks for elaboration on Mazatlan and a comparison with Acapulco, which she visited with a class last year.

Comparing two places like this is ticklish. Both are on the Pacific, both are resort cities and both offer first class facilities complete with fishing, water skiing and all the trimmings. I would say it boils down to a matter of personal taste rather than trying to prove the merits of either.

Look at it this way: you visited Acapulco last year and saw a beautiful place. Maybe you would like to visit Mazatlan this year to see a new spot. Mazatlan is clean and modern, not quite as jived - up as Acapulco. Check your map and you will see that you can follow highways from Laredo across Mexico to Durango and take the spectacular new road on in to Mazatlan. You'll see new country and go through some beautiful, rugged mountains. There will be new cities and towns along the way to stop in and nose around. Coming back you can make it via Tepic to Guadalajara, Morelia and on in to Mexico City.

Side trips from Mexico City to Taxco and other interesting places?

You have Cuernavaca, Toluca, Puebla, the Pyramids of San Juan Teotihuacan in addition to Taxco. You can make it a one day visit although staying overnight gives you more time to browse around and see the sights. For economy travel, I would recommend the big pullman buses or possibly taking one of the low - cost tours offered by the travel agencies here. Yes, there are plenty of small hotels and pensions which are not frequented by tourists. You may get the flavor of Mexico you are looking for in the right spot. Bus stations and tourists guides know all the inns.

Note to the Hernando, Miss. lady who wants the Ballet Folklorica record:

My spies here tell me that RCA Victor also puts out the record in the U.S. My suggestion would have a local music store order it for you rather than my trying to send it from here. There is chance of breakage because all packages are opened on both sides of the border — and not always repacked adequately.

Places to visit, sights to see in Mexico City?

Since you seem to be starting out cold, I might suggest you pick up a guide or take some of the city tours offered here. There are several excellent museums, the metropolitan cathedral, the National Palace, University City, Chapultepec Castle and of course the Sunday bullfights. Travel agencies offer their tours in all sorts of combinations so you get to see these and many other points of interest with practically no effort. A guide goes along to explain what you're looking at.

(Questions on Mexico? Write John Abney, Damas 106, Mexico City 19, Mexico.)

YOU CAN STILL HELP HEART FUND

Anyone who was missed in the regular canvass in behalf of the Heart Fund may make contributions at the school administration building, Doug F l y n n, treasurer of the Scurry County Heart Council, has announced.

Heart Sunday volunteers made their rounds in the city yesterday, and the results of their efforts still were being tabulated. There always are some who are m i s s e d in the canvass, Flynn said, and these are urged to send their contributions to him at the school administration building.

DeBakey Says Heart Will Be Replaced

NEW YORK (AP)—A mechanical heart will one day substitute for the human heart in cases where such a device is needed, a Texas heart surgeon predicts.

Dr. Michael E. DeBakey, professor of surgery at the Baylor University Medical School, Houston, made the observation Sunday on a taped television show of an open-heart operation he performed on a girl.

He said the natural heart was a "very efficient pump."

Dr. DeBakey added that medical science is getting nearer to perfecting a mechanical substitute for the heart.

Named Consultant On Texas Dialect

COMMERCE (AP)—Dr. Fred Tarpley, associate professor of English at East Texas State University, will serve as a consultant on Texas dialect for the book, "The American Dialect Dictionary."

Dr. Frederic Cassidy, University of Wisconsin, received a grant from the Office of Education to compile the dictionary and aske Dr. Tarpley to assist.

For his Ph.D. dissertation at Louisiana State University, Dr. Tarpley compiled "A Word Atlas of Northeast Texas." He was the first recipient of the earned Ph.D. degree in linguistics ever awarded at that university.

Farms Grow Larger

AUSTIN (AP)—The number of Texas farms declined to 196,000 this year from 216,000 in 1963, the Agriculture Department reports. The acreage in farming in the state remained steady at 154 million acres. The trend to larger farms is national.
