120,000 Reds Held At Bay By Raider Teams

Surveying Site of Colorado River Dam

A survey party for the Colorado River Municipal Water District inspecting the Conrad peoperty near Vincent, on the Scurry-Howard County line are photographed above. Making the trip yesterday were, left to right, R. L. Cook, Big Spring member of the water district board; Col. E. V. Spence, general manager of the board; R. T. Piner, board president; George White, board member from Big Spring and Louis Conrad, owner of the ranch where most of the proposed lake site lies.—(Joe Dave Scott photograph).

Peiping Regime Turns Down Five-Point Cease Fire Plan

TOKYO, Thursday, Jan. 18. (AP)—Peiping radio said today the Chinese Communist regime had rejected the latest United Nations Korean cease-fire proposal.

It said the UN five-point proposals for peace in Korea and other Far Eastern issues was "impossible."

The broadcast in Chinese was monitored here by the Japanese Kyodo News Agency.

TO OWEN

The broadcast said the message was sent by Premier Chou En-lai to David Owen, acting secretary-general of the UN in New York for transmission to Roberto Urdaneta Arbalaey, chairman of the political committee of the U. N. General Assembly.

(In New York, UN headquarters said no reply had been received there at the time of the Pngis there at the time of the Peiping broadcast).

PROVISIONS

The latest UN-cease fire plan called for:

1—An immediate cease fire with safeguards "insuring that it will not be used as a screen for mounting a new offensive."

2—When a cease fire is obtained "advantage should be taken of it to pursue consideration of further steps to be taken for the restoration of peace."

3—All non-Korean forces to be withdrawn with arrangements to be made for the Korean people to express their wishes for a future government.

4—An interim administration to be set up in the meantime.

5—As soon as a cease fire agreement is reached, a UN-designated group including representatives of the U. S., Britain, Soviet Russia and Communist China to consider Far East problems, among them Formosa and China's representation in the UN.

The five point plan was approved Jan. 13 by the United Nations Political Committee by a vote of 50 to 7.

District Court Bill Before The Legislature

A bill asking for the creation of a new district court here is pending before the state legislature, having been introduced in the house Monday by Sterling Williams, state representative from Snyder.

The bill, proposed last year by the Scurry County Bar Association, requests that the new court have jurisdiction over Scurry and Borden Counties and that the present district court be limited in jurisdiction to Nolan and Mitchell Counties. The present court, that of the 32nd judicial district, has jurisdiction over Nolan, Mitchell, Scurry, and Borden Counties.

The new court is considered essential because of the vast increase in the county's population and the number of cases filed in district court since the oil boom. The other counties have also increased in population, but not nearly so much as Scurry County, although all court dockets in the district have become more crowded.

More than 500 cases, including both civil and criminal, are pending on the dockets in this county, where court is held only four times a year, and for only four weeks each session.

A. S. Mauzey, of Sweetwater district judge, has stated on several previous occasions that he favored the creation of the new district and that such a new court would greatly relieve the crowded dockets here and in Mitchell and Nolan Counties. Borden County's docket is usually not crowded because of the small population there.

The proposed new district, if created, will be known as the 132nd judicial district.

Korean War In Brief

(By The Associated Press)

KOREAN FIGHTING FRONT — UN troops pull back from Suwon and three other towns south of Seoul after policing deep into enemy lines. Probing attacks in past two days caught an enemy battalion by surprise in Suwon, killing half of them. Withdrawal to defense positions nearby keeps forces within striking distance of 120,000 Chinese south of Seoul. Withering air and tank assaults and bitter cold said to be taking heavy toll of Reds.

PARIS — French Premier Rene Plevin to visit President Truman in Washington Jan. 29 and 30 to talk over wide scope of cold and hot war subjects mutually interesting to both countries.

LISBON — Eisenhower arrives in Portuguese capital but finds promise of only limited force there to add to his proposed Atlantic pact army. Observers say Portugal won't offer much unless Spain is included.

Testing Enemy Strength At Some Points

General Collins Sees Suwon Fall To Tanks, Troops and Warplanes

TOKYO, Jan. 17. — Allied tank-infantry raider team held firmly today to three western Korean outposts within striking range of 120,000 Chinese Red troops.

The scouting forces are on the third day of a mission to test enemy strength south of Seoul.

They ran into their toughest fight Tuesday at Suwon.

The U. S. Army chief of staff, Gen. J. Lawton Collins, watched allied tanks, troops and warplanes rout a 1,000 man Red garrison force there.

Suwon is 17 air miles south of Seoul and closer still to the massing area of three Chinese armies south of the Han River and the old Korea capital.

500 CASUALTIES

The allied raiders swept into Suwon and — with allied warplanes strafing the fleeing Reds — inflicted 500 casualties in an hour-long skirmish.

On the central front, a spokesman said allied forces still occupied Yongwol, 30 miles southeast of Wonju.

Two other Washington Pentagon generals visited the front Wednesday. They are Lt. Gen. Walter Bedell Smith, central intelligence agency chief, and Maj. Gen. Alexander R. Bolling, U. S. Army intelligence head.

All four arrived in Tokyo Sunday for high-level conferences and on-the-spot views of the Korean war.

CHINESE SURPRISED

An A.P. field dispatch said, leading attack columns swept on Suwon from two directions and mowed down many of the surprised Chinese in the open. Some were caught without their guns.

"They came scurrying like rats out of houses in all directions," a lieutenant said.

Then 10 allied tanks took up the fight inside the city. Their guns blazed at Red hideouts for an hour.

Other allied scouting forces which had entered Osan, 28 air miles south of Seoul, and Kumyangjang, 25 air miles southeast of the old Korean capital, withdrew by plane at dusk Tuesday to positions just south of the two towns.

Greer Resigns As Hospital Administrator

Bruce L. Greer today announced his resignation as administrator of the Snyder Hospital Clinic. The resignation will become effective March 1, but Greer has already ceased to be associated with the hospital.

He will remain in Snyder for at least several weeks.

At the same time Miss Louise Metz, secretary to the administrator, announced that she had also given her resignation to Dr. W. R. Newton, owner of the hospital.

Greer has been administrator of the hospital since June of last year. He was formerly administrator of the Cogley Clinic in Council Bluffs, Ia., and resigned that position to accept the one here.

Before going to Council Bluffs, Greer had been administrator for the Furman Clinic at Fort Worth. He is a native of Oklahoma, and attended the University of Oklahoma and later worked in the field of clinic administration for 12 years.

Greer is president of the Snyder Kiwanis Club, and a member of the Masonic lodge, of the executive council of the National Association of Clinic Managers, and a member of the Methodist Church.

He lives at 603 Twenty - ninth Street with his wife and 4-year-old son, Alwyn Greer.

Mrs. Pauline Harris, of the physiotherapy department of the hospital, is resigning to return to Dallas with her husband, George F. Harris, who is being transferred to work there. They came here from Dallas and reside now at the Flare Motel. With the hospital since Sept. 1, Mrs. Harris was at first in charge of the maintenance department.

Air Chief Says We Can Strike Back Quickly

TOKYO, Jan. 17. (AP)—Gen. Hoyt S. Vandenberg said today the Air Forces likely would be able to strike back quickly against any unheralded air assault against the United States mainland.

"Even in undeclared war," the Air Force chief of staff told a news conference, "there would be certain indications which, if properly utilized, should put us in a position to retaliate almost immediately."

He explained that a long-range air attack "cannot be launched instantly."

BACK TO U. S.

Vandenberg said he and Gen. J. Lawton Collins, Army chief of staff, would return to Washington Wednesday night after their visits to the Korean front.

He was asked if the United States, being a democracy, likely would not be hit by a surprise air attack if a Communist enemy undertook direct assault on the United States. He answered:

"Yes, probably."

Vandenberg said it was an Air Force maxim that offense was the best defense.

"The whole proof of defense against an enemy power is attrition and destruction on the other end," Vandenberg said. "The American strategic air force is small but very efficient."

He said the so-called "radar fence" guarding air approach to the United States was just going in.

The Air Force chief, asked how long he believed the Korean war would last, replied: "I see no crystal ball here."

Vandenberg said night intruder and armed reconnaissance missions are making it very difficult for Chinese Communists to get their supplies down to the fighting front in Korea.

"And as the enemy moves farther south his difficulty will be greater," he said.

Murder Count Is Brought On State Attorney

SAN ANGELO, Jan. 17. (Spl.) —A man who had prosecuted many defendants on murder charges, himself stood charged here today with murder.

O'Neal Dendy, 119th district attorney since 1939, was at liberty under $5,000 bond. His co-worker, Ralph Logan, 51st district attorney, last night filed the charge against Dendy.

RAY E. CANADA KILLED

Dead was Ray Elmo Canada, 38-year-old father of five children, painter and tenant on the Dendy suburban farm on Cauley Lane between the Fairgrounds and the north end of the North Concho dam.

Canada died in the emergency room of a local hospital about an hour after he was shot in the stomach as he and Dendy struggled in the home of A. T. Owens, another tenant on the Dendy place.

Dendy said at the courthouse last night that he had words with Canada last Sunday. Dendy said he ordered Canada then to get off his (Dendy's) property by the end of the month.

RITES PENDING

This morning the Dendy, Canada and Owens houses out on the isolated suburban road were deserted.

The funeral home which held Canada's body said the widow had been by alone this morning to discuss preliminary arrangements. She said she was awaiting the arrival of relatives from Oklahoma.

No. 1 Whatley Tests Porous Zone At 6,042

The Wilshire Oil Co. No. 1 Whatley, Northwest Scurry County wildcat, three miles south of Fluvanna and about seven miles northwest of the nearest Canyon Reef lime production in the Kelley-Snyder or Diamond M field, had indicated the possibilities of a discovery from an unidentified formation.

That project entered the porous lime at 6,042 feet on an elevation of 2,640 feet. That gives it a datum of minus 3,372 feet on that marker.

The lime section was penetrated to 6,070 feet. Samples showed oil porosity and signs of oil and gas. There was some bleeding oil in the section.

Operator is now running a drillstem test.

Location is 660 feet from north and east lines of section 406, bock 97, H&TC survey.

This wildcat was started out to go to 8,000 feet to explore the Ellenburger unless it developed commercial production before reaching that level.

It has already shown signs of making an oil well in two different zones of the Permian. One of those sections was at 5,339-5,619 feet, and the other was at 5,695-5,755 feet.

WELL CLEARS OUT

Brinkerhoff Drilling Co. No. 1 Jones, indicated new field opener in Northwest Howard County, is flowing to clean out, test and complete as a producer from the Pennsylvanian.

The possible producer flowed an average of 12.8 barrels of oil per hour for 10 hours through open two-inch tubing.

The petroleum came from acidized open hole at 9,465-9,716 feet. That interval had been treated with 1,000 gallons of mud acid and 9,000 gallons of regular acid.

Tubing pressure was 75 pounds during the 10-hour flow. A considerable amount of gas was made with the oil.

Shakeout was 11.6 per cent acid water.

The No. 1 Jones is 660 feet from north and east lines of the northeast quarter of section 18, block 34, T-2-N, T&P survey. That makes it 14 miles northwest of Big Springs.

Corrected total depth of the project is 9,716 feet.

DAWSON COMPLETION

Sunray Oil Corp. & Associates No. 1 Brown, Pennsylvanian reef lime discovery in Southeast Dawson County, officially completed for a 24-hour natural flowing potential of 302 barrels of oil per day through a 24-64-inch choke.

The producer was completed through perforation at 9,496-9,524

(See OIL NEWS, Page 8)

Premier Rene Pleven Coming To Washington To See Truman

WASHINGTON, Jan. 17. (AP)—Premier Rene Pleven of France will come to Washington Jan. 29 for a two-day policy conference with President Truman.

Announcing this today, the State Department said Pleven suggested the conference and that Mr. Truman welcomed him to confer on "important questions of mutual interest."

Informed government officials said Pleven wants to discuss cold war strategy, particularly the problems of French Indochina and western European rearmament. Presumably, too, the agenda will include discussion of the atomic bomb.

During similar talks with British Prime Minister Attlee early in December, Mr. Truman promised to keep Britain "at all times informed" before he would make a decision to use the atomic bomb.

The announcement of Pleven's forthcoming visit came as a surprise even to the French embassy here. Such a visit had been rumored two weeks ago but American and French officials said they knew of no such plans.

POINTS OF INTEREST

American officials said that the Truman-Pleven talks probably will be sweeping in scope, probably including these points:

1. France's desire for more American military supplies to the French and loyal Indochinese forces who are battling Communist-led guerrillas.

2. Plans for boosting arms production in France so as to make it possible for the French to create 20 new army divisions in Europe by the end of 1953.

3. Closer French-American controls over strategic exports to eastern Europe and Communist China.

4. Steps to allocate raw materials needed by France for military output and its civilian needs and control their prices.

5. A new big four foreign ministers meeting.

6. France's future attitude toward recognition of Communist China. Thus far France has not recognized the Peiping regime but there has been speculation from Paris she might do so.

France's President Vincent Auriol also is planning a visit to the United States. Accompanied by Mme. Auriol, he will make a good-will trip as a guest of President Truman, probably during the week of March 28-April 3.

Total of 1,726 Poll Taxes Have Been Paid

Poll taxes were paid yesterday for 86 persons, bringing the total receipts issued to 1,726, and the total number of exemption certificates issued was increased from 150 to 168.

Only 12 days remain in which receipts and exemption certificates may be issued for the voting period from Feb. 1, this year through Jan. 31, 1952. The receipts and certificates being issued now will not become effective until Feb. 1.

Poll tax receipts issued from Oct. 1, 1949, through last Jan. 31, 1950, will be used for voting in the water district election Jan. 27.

All persons 60 years old or older are privileged to vote without having paid poll taxes, but they are required to obtain exemption certificates from the county tax assessor-collector's office not later than Jan. 31.

Last year exemption certificates were not required, but 70 were issued, and 3,915 poll taxes were paid.

Big Increase In Crude For State Ordered

HOUSTON, Jan. 17. (AP) — The Texas Railroad Commission today ordered an immediate increase of 170,323 barrels daily in the state's crude oil production. The increase will apply to the remainder of January and throughout February.

The order boosts January's statewide daily output allowable to 2,750,292 barrels a day and places the February average at 2,758,953 barrels.

Two days were added to the general January production schedule with no increases in the East Texas, Fullerton and Willimar Fields.

The general February production schedule will be 20 days, with 17 in East Texas and Fullerton and 11 days in Willimar.

The statewide average allowable last Saturday was 2,588,630 barrels.

The new orders were announced immediately after the commission's February statewide proration hearing.

Sweetwater Mayor In Washington For Steel

WASHINGTAN, Jan. 17. (AP) — Mayor Lester Reeves is making the rounds seeking priority for steel pipe needed for Sweetwater, Tex., water purposes.

Sen. Johnson of Texas arranged a meeting with National Production Authority officials.

Reeves said work is going on at a $1,500,006 dam and reservoir 30 miles southeast of Sweetwater. He said a 30-inch pipeline is needed to deliver the water. A lake used for Sweetwater's water supply has proved inadequate.

To Call Bids For Airport

The Snyder office of Ash, Wilson & Associates, engineers on the county airport project, received official orders today from the Civil Aeronautics Administration to advertise for bids on the construction of the project at Winston Field, about a mile from the southwest city limits.

Bonds will be issued for the construction in accordance with an election held April 1, 1950, in which voters authorized the issuance of up to $200,000 for the project, which will also be given federal aid in large amounts.

Development of the field will include the building of hangars, a main north-south runway 100 feet wide and 4,800 feet long, which will be paved and flanked on the east with a parallel 40-foot paved taxiway, airplane parking and tie-down areas, automobile parking areas and road, an administration building, and beacons and other signal equipment.

In addition there will be other runways situated in different directions and turfed. The administration building will include offices for both administration and airline service, rest rooms, a waiting room, and a cafe.

Cancel Home Talent Show for Youth Center

The Television Home Talent Show, scheduled for presentation Friday night at the high school auditorium, under the sponsorship of the American Legion and Veterans of Foreign Wars, has been cancelled because of numerous other activities slated for that evening.

Before the too-crowded agenda for that evening was discovered, the program had been arranged as, another of the numerous features of the Youth Center Week drive, to raise funds for the maintenance and operation of the Youth Center.

Brink's Job Pulled A Year Ago Is Still Big Mystery Today

By JOHN B. KNOX
(Associated Press Staff)

BOSTON, Jan. 17. — Five men working in the Brink's strong room will talk tensely tonight of what they can never forget: How they were robbed just a year ago of $1,700,000.

For the five men still work at Brink's money express, still do the same tasks. And they'll be remembering the clown-masked robbers' faces that suddenly stared through a grill, and the black pistols. They'll remember how they were tied, their mouths taped. And how the bandits dragged out laundry bags heavy with money— $1,219,000 in small bills plus a half million in checks — and melted away in the night.

DON'T KNOW NUMBER

Twelve months' search by thousands of police the country over have failed to find the six, or seven, or eight bandits (the police don't even know how many or their facial appearance). And so the robbers now seem even further from capture than they were on that nightmarish Jan. 17, 1950.

They came in through six locked doors, presumably with passkeys, and hooded in Halloween masks; dressed in visored caps, pea jackets, dark trousers to resemble Brink's drivers; rubber-shod to muffle footsteps; wearing gloves to veil fingerprints. And they left no useful clue. Only these picked up here and there over a period of weeks:

Brink's, 32 pieces of cord for tying the Brink's men, a Brink's pistol taken from the strongroom and hurled down a riverbank in suburban Somerville, a cut-to-pieces light panel truck stolen months earlier and found scattered on a suburban dump, an acetylene torch that might have helped chop up the truck.

NO PRINTS

But there was never a fingerprint, nor even enough description to show whether the men were white, black or yellow. Nor even an intonation of voice that could ring a bell in any Brink man's memory.

A vast police dragnet dredged from the underworld all who, policemen thought, might be suspects. Their alibis were checked. Their subsequent movements were watched. Six hundred were questioned.

Detectives traveled from Boston to far parts of the country checking more than 5,000 clues, calls, letters—some from amateur detectives, or clairvoyants hoping for an $180,000 reward.

None of these happened. The crime is as big a mystery today as the night it happened.

Railway Union Heads Asked To See Steelman

WASHINGTON, Jan. 17. (AP)—The White House said today representatives of the railroad unions have asked for a conference with John R. Steelman, assistant to the President, and will meet with him at noon tomorrow.

The unions recently rejected a White House-sponsored plan for settlement of their long wage dispute with the carriers. It fell through Dec. 19 when unit chairmen in the field declined to approve it.

Probe Opens On Airliner Crash

EDWALL, Wash., Jan. 17. (AP) — Jagged pieces of airplane metal ticking up through snow on an eastern Washington wheat field were the only visible evidence today that 10 persons died there.

Investigators began to probe the now and question witnesses today. They are looking for the reason behind the crash of a Northwest Airlines plane shortly after noon yesterday.

There were seven passengers and a crew of three aboard. Coroner Fred Campbell stood out in a raging blizzard for hours probing through the snow and later last night said four victims had been identified from personal effects. He said fingerprints would be necessary to identify others.

The plane, a twin-engined Martin 202, was torn to shreds. No shape to indicate it had been an airplane remained. The largest pieces left were an engine, a wheel and a few pieces of metal.

The plane was on a flight from Chicago to Seattle, when it stopped at Spokane to pick up passengers. Thirteen minutes after it took off the pilot messaged by radio that he was "in trouble and losing altitude." Moments later the plane smashed into the ground near the L. E. Bundy farmhouse 3½ miles north of Edwall.

Low of 31 Recorded

West Texas is slated for another warm temperate day, in which the mercury may reach yesterday's high of 73. An early morning low of 31 was the Snyder temperature yesterday, according to Mrs. D. P. Strayhorn, weather observer.

Tigers Whip Wolves, Take Lead In 6-A

The Snyder Tigers broke the tie for first place in District 6-A basketball with Colorado City last night—and broke some hearts as well when they invaded Wolf territory to hand them a 28-20 trouncing.

"You're going to be hot tonight," was one of the last things Coach Ernest Kinney was heard saying to the Tigers as the game started, and they were. The Tigers drew first blood and jumped quickly to a 6-0 lead before the Colorado City boys scored. By the end of the first quarter the Tigers were leading 12-6.

When the whistle blew stopping play at the end of the first quarter the score was 11-6, but one of the Colorado City boys fouled W. G Birt, who was given a free throw during the time-out between quarters. He made it for a 12-6 lead.

HALF TIME

It was a slow scoring game during the second quarter, especially for Colorado City. They managed to make one free point during the quarter. At the half Snyder led 15-7.

Just as it had been until that time, it was a Tiger game all the way during the last half.

After the second half started the Tigers collected the ball off the Colorado City backboard on a missed field shot. In the melee Max Coffee ended flat on his back on the floor almost under the enemy goal. Bill Hanks who had the ball looked for a passer, and two towering Wolves were rushing him so that he had to get rid of the ball.

Coffee, prone and out of the game so far as spectators could tell was the only man open within passing range, so Hanks passed to him. Coffee, himself looking a little confused at first, grasped the situation as well as the ball, and passed it on to a Tiger in the clear from where it was taken to the Tiger end of the field for two more points.

Plying a tight defensive game last night, the Tigers dominated possession of the ball. All their passes were good. They had some trouble getting in for a close shot but they were sinking their long ones with clock-work regularity.

A number of times during the game there were more than the 10-players and two officials on the court, because spectators crowded into every inch of the gymnasium. There were probably a few more Colorado City fans at the game than Snyder fans, but it was almost a toss up. Both teams had their pep squads and cheer leaders, and both teams had a big crowd of ardent spectator supporters as proven by the loud boosting.

By the end of the third quarter the Tigers had expanded their lead to 22-11.

During the last quarter three Colorado City men fouled off the court. Snyder didn't foul off a man during the game, but Max Coffee had four fouls when the game ended.

One interesting aspect of the last quarter was that Don Williams replaced one of the Colorado City men who fouled off. Williams had played a fine game on the B team earlier scoring 14 points to be high man for the game. In his four minutes of play in the A game he tied for high point man on the Colorado City A team with six points.

John Gary for the Tigers was high point man in the A game, scorng nine poins.

followed by Bill Hanks with eight, Coffee with six, Ned Underwood with four, and Birt with one.

Scoring for Colorado City was Williams, six; Nathan Corbell, six; Charles Currie, four; Wayne Hulme, two; Milton Wilbanks and Steve Scott with one each.

B TEAM LOSES

Things didn't go so well for Coach Hal Battles' B team. They started slow, and trailed 20-11 at half-time, but had narrowed the margin to 26-23 at the game's end in favor of the Colorado City B team.

They were seriously threatening to overtake the Colorado City B team when the whistle blew on the photo finish.

During the third quarter they did not permit the Colorado City boys to score, but the last quarter ended before the boys could overcome the three point lead.

Next game for the Tigers is a conference game here Thursday night with Roscoe. Originally scheduled to be played Friday night, the game was moved up to Thursday night so the teams could enter a tournament at Big Lake Friday and Saturday.

The Tigers now lead the district and have won nine games against seven lost, for the season, and have won all four of their conference games.

Coach Ernest Kinney has taken the Tigers cold this year and with very little previous experience. He has concentrated much experience and playing ability into only a few weeks of training. He is an ex-Oklahoma Aggie, and the Oklahoma team is now the nation's top basketball team.

Plan Flight From Chile To Easter Island And Then On To Australia

SANTIAGO, Chile, Jan. 17. (AP) — Chile's air force plans a 2,000-mile flight Friday to Easter Island as the first step toward what may become an air route between Chile and Australia, 7,000 miles across the Pacific.

Gen. Aurelio Celedon Palma, Air Force head, told a news conference last night an amphibious plane would make the flight from La Serena City, on the northern coast of Chile, to the island, a Chilean possession.

Texan Heading AAU

NEW YORK, Jan. 17. (AP) — Seymour Lieberman of Houston heads the AAU Junior Olympics Committee. He was one of 35 chairmen announced by the Amateur Athletic Union yesterday.

Aggies May Lose Coach

ATLANTA, Jan. 17. (AP) — Freshman Coach Perron Shoemaker of Texas A&M will be Georgia's new end coach, the Atlanta Constitution said today.

The newspaper said Coach Wallace Butts will recommend him and the athletic board will approve. Shoemaker was an end at Alabama. He would replace Jim Whatley, who is basketball and baseball as well as football end coach.

Shoemaker went to the Texas school in 1949. He played at Alabama in 1938.

Hialeah Opens With Improved Racing, Crowds

By GENE PLOWDEN
(Associated Press Staff)

MIAMI, Fla., Jan. 17. (AP)—Hialeah race course opens its 40-day meeting today with prospects of better racing, bigger crowds and more betting than last year.

The better racing prediction is based on 20 thoroughbreds entered in the six furlong Inaugural Handicap, to be run in two divisions with a $7,500 purse in each. An opening day crowd of 20,000 is expected.

It will be the first time since 1946 and the second time in its 21-year history that the inaugural was run in two sections.

Woolford Farm's delegate, winner in 1948 and 1949, heads the field in the second division. He will carry 122 pounds, including Jockey Ovie Scurlock.

H. H. Hecht's The Pincher, winner of two Maryland stakes last fall, heads the first division, also at 122 pounds. Each section will have 10 entries, barring late scratches.

Hialeah spent nearly $1 million in preparation for the 1951 season, including a new grandstand roof, 1,800 additional seats and a plush new press box.

The opening of Hialeah follows a highly successful 41-day meeting at Tropical Park, which closed yesterday. Betting at Tropical Park totaled $23,230,602 compared with only $17,998,332 last season, an increase of 29.07 per cent. Attendance was 346,293 against 342,656 last year.

Predicts Good Year In Texas League Play

DALLAS, Jan. 17. (AP) — The Texas League is ready for the 1951 season and President J. Alvin Gardner sees no reason why it can't have a big year.

"Most of the players on the reserve lists are veterans of the last war and not likely to be drafted so we should have plenty of men," Gardner declared. "travel should present no problem. The railroads tell us they have more equipment than ever before. The hotel situation is adequate."

All managers for 1951 have been named. Tommie Tatum was announced as skipper of Oklahoma City to complete the list.

Other managers will be Dallas, L. D. Meyer; Tulsa, Al Vincent; San Antonio, Joe White; Houston, Al Hollingsworth; Beaumont, Harry Craft; Fort Worth, Bobby Bragan; Shreveport, Francis (Salty) Parker.

Spring training plans also have been announced by the eight clubs. They are:

Oklahoma City at Monroe, La., opening March 10; Dallas, at Daytona Beach, Fla., opening March 10; Tulsa at Alexandria, La., opening March 10; San Antonio, at McAllen opening March 12; Houston at Harlingen, March 12; Houston Beaumont, at Brownsville, opening March 1; Fort Worth, at Vero Beach, Fla., opening March 8; Shreveport at Shreveport, opening March 8.

Club owners have predicted a total attendance of more than 2,250,000, which would be a new league record.

Rules Committee Of NCAA To Vote Today On Any Changes

GALVESTON, Jan. 17. (AP) — The National Football Rules Committee decides today what — if any — changes will be made in the playing code.

The group has discussed rules and possible changes for two days. The vote today will wind up the annual meeting.

Yesterday there was considerable discussion on returning the fair catch rule to the books.

Other matters discussed at the meeting yesterday included what Chariman H. O. (Fritz) Crisler of Michigan said was a "lot of technical stuff." Most wouldn't mean much to the ordinary fan.

The fair catch rule was eliminated last year because it had fallen into disuse. But the American College Football Coaches Association requested that it be put back.

Many coaches felt that receivers didn't have a chance when four or five men could get down under a high kick.

The main point in the complicated wording of the old rule was that by raising one arm the safety man could catch the ball without being tackled. He, however, could move forward no more than one step.

Other matters discussed yesterday included the matter of an eligible pass receiver who goes out of bounds then returns; a pair of conflicting rules on passes to ineligible men and a question of simplifying the infliction of penalties for fouls on incomplete forward passes.

Tigers After First Baseman

DETROIT, Jan. 17. (AP) — Manager Red Rolfe of the Detroit Tigers discloses that the club has made "a fabulous offer" in an effort to buy First Baseman Ferris Fain of the Philadelphia Athletics.

This confirms gossip of the recent major league meetings in St. Petersburg, Fla.

Rolfe told the Tigers' annual press and radio dinner last night that Detroit will go all-out to get Fain.

"We do not want to part with any players, but we're willing to spend a considerable amount of money. Walter O. Briggs, Sr. (owner of the Tigers) has given us the okay to go after Fain," Rolfe said.

There was no indication as to the amount involved, but a usually well informed source said it was in the neighborhood of $100,000.

In Philadelphia General Manager Art Ehlers of the A's admitted the Tigers had tried for a deal for Fain.

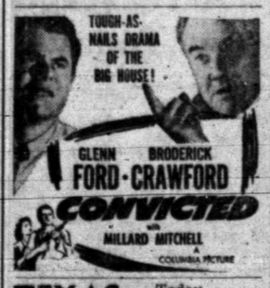

"I imagine they would be willing to go as high as $100,000," he said. "but they wanted to give us farm club players and money. We want established ball players."

Harriman To Pilot Sweetwater Team

SWEETWATER, Jan. 17. (AP) — Earl Harriman, veteran West Texas-New Mexico League infielder, has been named playing manager of Sweetwater in the Class C Longhorn League.

Directors also announced appointment of Joe Bratcher of Fort Worth as business manager.

Balloon Believed To Be Floating Over State

GROUNDS, N. M., Jan. 17. (AP) — A balloon loosed at this guided missile center is believed floating across Texas today.

It looks like a flying saucer. As it floated east, flying saucer reports sprung up from Southwest Texas and Southeast New Mexico.

An ordnance conference of 25 leading military men and federal officials turned the balloon loose early yesterday.

Golf Match Staged At Night By New Country Club In California

LONG BEACH, Calif., Jan. 17. (AP) — Golf under the stars made its debut last night at Lakewood Park Country Club and Jack Burke, Jr., Houston, won the novel $1,000 nine-hole event with a one-below-par 34.

The innovation was a prelude to the $10,000 Lakewood Open which starts tomorrow.

Inventor Jim Walker's portable spotlight followed the flight of the ball with unerring accuracy and not a single ball was lost.

Lloyd Mangrum was runner-up with 38. Jim Ferrier carded 39 and Henry Ransom 40.

Seeking Football Coach

PLAINVIEW, Jan. 17. (AP) —Plainview High School is in the market for a new football coach. The school board yesterday did not renew the contract of W. C. O. Harris, but instead named him a history teacher. Harris said he was undecided whether to accept the teaching post.

Longhorns Are Undefeated In Title Playoff

(Associated Press Staff)

The Texas Longhorns sped along at the head of the Southwest Conference basketball parade today and will remain there for several weeks.

The Longhorns, rated far down in pre-season speculations, are the only undefeated team left in the title drive.

Southern Methodist, fighting to stay in the race, whipped Texas A&M 51-44 last night at Dallas and that handed Texas the undisputed leadership.

A&M fell into a tie with Texas Christian for second place, each showing a 3-1 record.

Baylor finally got out of the cellar regions by licking Rice 69-55 It was the Bears' first victory of the title drive and sent Rice into the dank regions with a 0-4 record. Arkansas is next to last with 0-3.

Baylor hit 53 per cent of its chances for field goals and led all the way. The Bears got more chances at the basket than the Owls. A crowd of 2,500 saw the game — making 5,500 for the two contests played last night. There were 3,000 at Dallas.

Texas doesn't play another game until Jan. 31 when the Longhorns meet Texas A&M.

Two games are scheduled Saturday night with Southern Methodist playing Rice at Houston and Baylor journeying to Fayetteville to engage Arkansas.

Ed Reulbach, pitching for the Cubs in 1908, shut out Brooklyn in both ends of a double-header on Sept. 26.

Tigers Matched With Andrews, Filling An Open Date for Football

An open date in the 1951 Snyder Tiger football schedule was filled last week end when arrangements were completed to play Andrews, Speedy Moffett, coach, said.

The game will be a home game for Snyder to be played here Oct. 5. Andrews is a member of a pretty rough football circuit, but their strength for the coming season is not known.

However the game will give Snyder fans another chance to see their team in action on a local gridiron, and win, lose, or draw, Moffett says that Andrews will give Snyder plenty of competition.

Games with tougher teams are being matched so that Snyder can become conditioned to the rougher competition which it is fast growing toward scholastically, Moffett said.

The New York municipal transit system, including subways, elevated trains, buses and trolleys, covers 819 route miles.

Texas And Mexican Golfers Plan Meet

AMARILLO, Jan. 17. (AP) — Top golfers from Mexico and Texas will meet in an international team match here during the annual Texas PGA Golf Tournament May 28-June 2.

George Aulbach, Amarillo Country Club professional, said Olin Dutra would probably captain the ten man Mexican team and that Byron Nelson would head the Texans.

TALK OF THE TOWN

BY FRANCES BIOW

"A boost for Snyder" is the motto HAROLD BENNETT of the Chamber of Commerce attaches to the motorcade leaving here at 1 o'clock, Feb. 2. Destination: Fort Worth, and the Southwestern Exposition and Fat Stock Show.

* * *

The Snyder cars will stop off at Roby, Anson, Breckenridge and land in the lobby of the Baker Hotel, Mineral Wells. JIM VERNER'S band will give a concert that afternoon in Mineral Wells, and full of refreshed vim and vigor, will leave the next morning for the Big Show.

* * *

Definitely planning to go along, and make a big week end of it are Mr. and Mrs. Carl Herod, Mr. and Mrs. Billy Boren, Mr. and Mrs. C. W. Popnoe, Mr. and Mrs. Bill Teaff, Mr. and Mrs. Jim O'Niell, Mr. and Mrs. Delma Baucum, Mr. and Mrs. Leon Younger, and Hugh C. Lowry.

* * *

The Chamber of Commerce holds 200 tickets for the show on Snyder day, Feb. 3, and they must go by Jan. 25.

Sans Souci Bridge Club Holds Meeting

Mrs. H. W. Sanders, 2412 Thirty-second Street, entertained the Sans Souci Bridge Club in her home yesterday afternoon.

Mrs. Charles Gay won high score prize; Mrs. Terry Holcomb second prize; and Mrs. G. C. Leffler, bingo prize.

Mrs. Sanders served a salad plate, coffee, and cake and gave as favors fancy, handmade pot holders.

A guest was Mrs. W. P. Bass, and two new members admitted to the club were Mrs. Wade Pipkin and Mrs. Leffler. Two members unable to attend were Mrs. H. D. Jones and Mrs. V. K. Benson.

Other members present were: Mrs. Joe Love, Mrs. Warren Richardson, Mrs. Lonnie Smith, Mrs. J. T. Burris, Mrs. W. W. Carey, and Mrs. Jack C. Morgan.

The bridge group will meet next time with Mrs. Gay, Lubbock highway.

Northwest P.-T.A. Plans Open House

Plans for a school open house for patrons and friends were made Thursday afternoon at a meeting of the Parent-Teacher's Association of the northwest elementary school.

The group will sponsor a social Feb. 16 in the school cafeteria. Games of bingo, a fishing pond and various other amusements will be offered, the proceeds to go to buying new equipment for the school. Pie, coffee, and hot chocolate will be sold at the function.

Harold Bennett of the Chamber of Commerce spoke on "Community Progress" before the business meeting.

A request has been made by the parent-teacher's association to the highway department for new zoning on the Lubbock highway near the school. At the present time there is no signal light for the children to cross the highway, and the speed limit is 30 miles an hour, according to Mrs. Lloyd Kownslar, president.

The school group will meet Feb. 8 at 3:30 o'clock.

Mr. and Mrs. Irving Wliss, 2109 Avenue S, are the parents of a seven pound, four ounce boy born Monday night at Snyder Hospital.

Mayburn Daugherty, a field representative of the Cardinal Chemical Co., Odessa visited in Snyder on business yesterday.

Plainview H-D Club Will Make Quilts For Institution Patients

Mrs. Doyle Pogue entertained the Plainview Home Demonstration Club in her home last Thursday.

The group voted to bring quilt scraps and thread to the next meeting to make up a box to send to some home for the aged or mental institutions.

The women answered roll call with "What I Like To Do on Cold Days," and sang two songs from the club song book.

The hostess served refreshments to the following: Mrs. J. E. Bryant, Mrs. Robert Chambers, Mrs. A. K. Murphy, Mrs. Bert O'Neal, Mrs. J. W Greene, Mrs. Vesta. Boothe, Mrs. Walton McMillan, Mrs. Alford Rosson, Mrs. J. H Rollins, Mrs. Lowell Thornburg and Mrs. Clarence Moore.

PERSONALS

Stewart Youngblood, a mud engineer with Permian Mud Service Inc., is in Carrizozo, N.M. on business for the firm. He is expected to be away two weeks.

Mr. and Mrs. Lee Nichols, 1711 Avenue T, spent several days in Big Spring last week with Mrs. Nichol's mother, Mrs. Earl Dodge, who underwent surgery at Monahans. A visitor in their home this week is Mrs. Ada Sober of Pasadena, Calif.

Mr. and Mrs. C. O. Holder, Jr., returned yesterday from Ville Platte, La., where Mrs. Holder has been for several weeks.

Mr. and Mrs. P. W. Holder, Holder Construction Co., returned this week from a vacation which began before Christmas.

Hollis Scarborough, the son of Mr. and Mrs. W. H. Scarborough, 2207 Thirty-second Street, is home on a visit before he receives his call for duty in the Navy. Mr. Scarborough was a freshman in Texas Technological College when he enlisted. Sunday the Scarborough family, accompanied by Mr. and Mrs. Leighton Griffin, went to San Angelo to visit with Mrs. Scarborough's sister, Mrs. J. V. Edwards.

Mrs. J. G. Martin of McCamey arrived here Saturday to join her husband, a new employee with the Humble Oil & Refining Co. here. The Martins are temporarily living at Sunset Courts while they await completion of their house at Justiceburg, Tex., the site of Mr. Martin's work as a gang pusher for the company.

Mr. and Mrs. W. C. Eades, 1104½ Twenty - fourth Street, had as week-end visitors Mrs. Eades cousws Joe McMurray, and the ush-Payne.

Newcomers to Snyder are Mr. and Mrs. Mack May, who arrived here from Odessa last week. Mr. May is employed as a mud engineer with the Permian Mud Service, Inc., 1807 Fourteenth Street.

Couple Married In Abilene Are At Home Here

Mr. and Mrs. Derrell Wohlford are at home at 1108 Thirtieth Street after their marriage Dec. 31 in Abilene. Mrs. Wohlford is the former Miss Melba Joyce McMurray, the daughter of Mr. and Mrs. J. O. McMurray of Abilene. Mr. Wohlford, the son of Mr. and Mrs. G. B. Wohlford, Granbury, Tex., is a field representative for the Oil Well Supply Co.

The couple were married in the Chapel of Memories, Abilene, by the Rev. Sterling Price. Attending the bride for the double ring ceremony were Mrs. Lee McMurray of Borger, the matron of honor, and Mrs. Harold McMurray and Miss Dean McGough of Abilene, attendants. The best man was Joe McMurray, and the ushers, Lee McMurray of Borger and Vernon Allmon of Abilene.

The bride wore a traditional gown of bridal satin and carried gladioli and carnations in an arm bouquet. Her attendants were gowned in chartreuse satin and carried gladioli bouquets.

Mrs. Wohlford graduated from Abilent High School and attended Abilene High School and attended after which she was credit manager of Lintz Department Store in Abilene until her marriage. Mr Wohlford, who has worked in Snyder over a year, expects to be located here with the oil firm permanently.

The couple took a brief wedding trip to San Antonio.

Woman's Calendar

WEDNESDAY

THURSDAY

Youth Center benefit showing of "Boomtown, U. S. A." and talent show at 10 and 11 a.m. at Palace Theatre.

Mary-Martha Circle of the First Methodist Church at 3 p.m. with Mrs. H. F. Clark, Jr., 1907 Thirty-first Street.

All-day open house at Youth Center.

FRIDAY

Halliburton employees' wives meeting to discuss plans for recreation hall, 1 to 4:30 p. m., 1605 Avenue Q.

Womens Golf Association, luncheon at 1 p.m. with all-day activities, Country Club.

Russian Made Mines Float Up To Japan

TOKYO, Jan. 17, (AP) — The Japanese Maritime Safety Board said today that the number of Russian-made floating mines washing ashore on Japan's west coast has increased sharply in recent weeks.

The mines aparently were carried by the current of the Japan Sea from Wonsan area on Korea's east coast

Recipes

FAMILY SUPPER

Sausage, Corn and Tomato Casserole — Baked Potatoes
Salad Bowl — Bread and Butter
Lemon Chiffon Pie — Beverage
(Recipe for Starred Dish Follows)

SAUSAGE, CORN AND TOMATO CASSEROLE

Ingredients: 8 link sausages, 3/4 cup diced onion, 1/2 cup diced green peppers, 2 tablespoons flour, 1 teaspoon salt, 1/4 teaspoon pepper, 2 1/2 cups canned whole grain corn with liquid, 2 1/4 cups canned tomatoes, 1 cup corn flakes (crushed).

Method: Brown sausage in large skillet; remove from pan. Add onion and green pepper to drippings and cook lightly. Stir in flour, salt and pepper. Stir in corn and tomatoes and continue stirring until mixture comes to a boil; simmer until liquid is partly reduced if necessary. Pour into casserole. Arrange sausages on top. Cover with crushed corn flakes. Bake in moderately hot (400°) oven about 15 minutes. Makes 8 servinges.

Principles Of Kiwanis Are Theme of Talk

Scoring communism as a menace to democracy and endorsement of the policies of the United Nations highlighted the address of Luman W. Holman, of Jacksonville, Tex., Kiwanis governor for Texas and Oklahoma, at the luncheon meeting of the Snyder club yesterday at the Longhorn cafe.

Denouncing communism as the very threat to our way of life and alluding to it as an octopus that raises its head to strike at our liberty and freedom, Holman called for all Kiwanians to uphold the United Nations.

Speaking on the topic, "The Challenge Facing 1951 Kiwanians," he pointed out that only two persons out of every 1,000 are civic minded, and it was up to them to lead the way for a free America.

Homan cited nine challenging objectives for Kiwanians to follow in 1951, which include the following:

"Uphold the United Nations in its efforts to enact, interpret and enforce international law, and in its battle to preserve the free nations of the world.

"Cultivate existing relationships between Canada and the United States and support all plans that will strengthen our common defense and welfare.

"Expose and combat communism, and proclaim the principles of our free nations.

"Promote economy, efficiency and integrity in government at all levels.

"Resist all trends toward socialization of any profession, business industry, or group of workers.

"Protect the public welfare by demanding legal rights and responsibilities for both management and labor.

"Foster safety, conservation of resources, and all constructive citizenship programs.

"Expand services to all youth and seek to eliminate the causes of juvenile delquency.

"And lastly to strengthen our social structure through intensified services to home, church and school." These he said are what the Kiwanians stand for.

He told the Kiwanians that freedom is not free, but that it costs and that the costs have not been paid yet.

"There are only kinds of leaderships—they are friendship, fellowship and leadership and a man is only worth what he has to give," said Holman.

The speaker stressed the importance of service to his fellowman, pointing out that is the foundation of the Kiwanis organization.

This is a Christian America and we should defend it, even though the price may be in blood and taxes, he said.

He cited the responsibilities of the Kiwanians to the youth of the nation who will be the leaers of tomorrow and praised the work of the Key Club, which is composed of outstanding youths of the community sponsored by the Kiwanians over the nation.

Holman was intryluced by Henry W. Smith of Big Spring, past lieutenant governor, of the Kiwanians.

Bert Mills of Lubbock, divisional chairman for the Kiwanians on education and fellowship, spoke briefly in connection with the introduction of three new members, J. R. Davis, Dr. William M. Smith and Ernest L. Kownslar.

The following out-of-town Kiwanians were guests: Sam Hill, Homer Cox, J. E. Greely, Ernest Yates Ben Gray, Lynn Johnson Garrett Gracey, Sherman Cox Garvin Beacham, and Mack Eplen all from Abilene club; Bernie Freeman and Smith from Big Spring and Mills from Lubbock.

The members from the Snyder Key Club were also special guests

Bruce L. Greer, new president opened the meeting and turned the gavel over to Smith of Big Spring.

Man Suffers Fracture In Oil Field Accident

James C. Louderback of 2808½ Avenue E, suffered a broken shoulder blade and severe nervous shock in an oilfield accident near Fluvanna yesterday.

Gaither Bell, employee of Bolger-Barnes Funeral Home, who brought Louderback from the scene of the accident to Snyder Hospital for treatment, said that a large cable, about three inches in diameter had either broken or slipped and wrapped around the mid-section of Louderbacks body and shoulers.

The accident occurred at the Wilshire No. 1 Whatley, a drilling operation near the home of Mrs. Edith W. McKanna.

Attendants at Snyder Hospital, said that Louderback would be confined to the hospital, but that his condition was not considered critical.

Quick Response To Theft Call

Thirty minutes after Robert H. Pulis, 37, of Fluvanna, employee of the West Texas Concrete Products Co., old Post Highway, reported yesterday to the sheriff's office that his car has been stolen, it was recovered by Big Spring authorities.

Eddie Meade, 32, Negro, of Snyder is being held in the county jail, charged with car theft, according to Lloyd Merritt, sheriff.

The 1949 Ford sedan of Pulis was stolen about 10 o'clock from its parking place at the concrete plant, but Pulis did not miss it until he got off of work about noon, when he was told by a friend that the car had been driven off by a Negro.

At 12:10 o'clock yesterday afternoon, Pulis went to the sheriff's office and gave Merritt a description of the vehicle, which information was put over the air to Homer Whisnand and Charles Youngblood, deputies, who were cruising on the Big Spring highway.

The officers told Merritt that they had seen the car a short time before, when two Negroes were fixing a flat on the car. Inasmuch as no car theft pickup at that time had been made, the deputies did not hold the men or car.

But when Merritt informed the deputies that it was a stolen car, they went into pursuit. In the meantime, Big Spring officers had found the men in the car, and the latter were turned over to Whisnand and Youngblood who returned them and the car to Snyder.

A 26-year-old Negro, who was with Meade at the time, is being held for investigation, the sheriff said.

Irrigation Pumps On Rio Grande To Rest

McALLEN, Jan. 17, (AP) — The Lower Rio Grande Valley's irrigation pumps will take a four-day holiday starting Thursday in an effort to conserve a dwindling supply of water for irrigation.

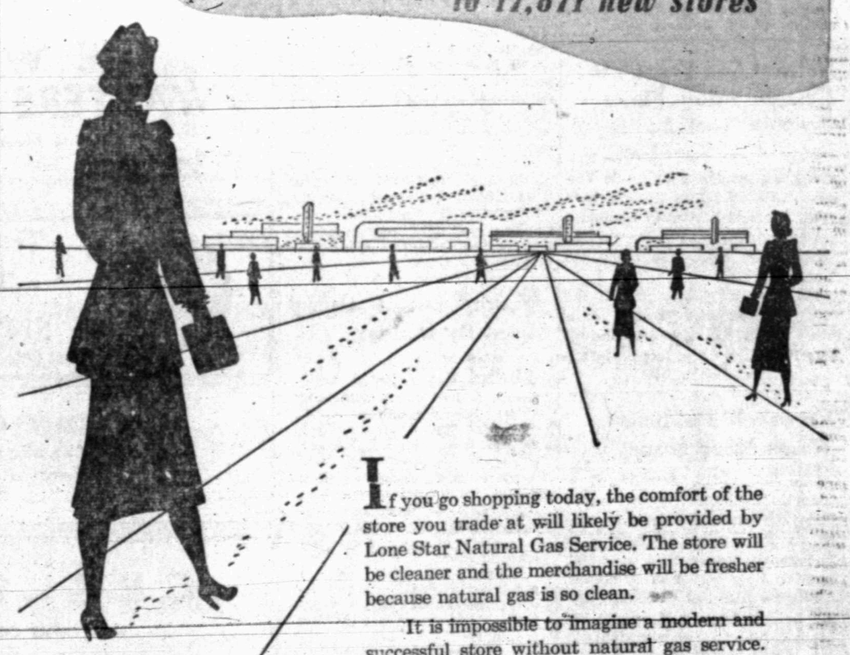

The Valley Water Conservation Assn. said the pumps would be off from 6 a.m. Thursday until 6 p.m. Sunday.

Lone Star delivers
comfort, cleanliness and convenience
to 17,871 new stores

If you go shopping today, the comfort of the store you trade at will likely be provided by Lone Star Natural Gas Service. The store will be cleaner and the merchandise will be fresher because natural gas is so clean.

It is impossible to imagine a modern and successful store without natural gas service. In the last five years 17,871 new stores have been opened in cities we serve. That's one of the reasons for our building program in which we have invested over 80 million dollars. Though virtually all materials and labor for building natural gas pipe lines, compressor stations and other facilities have gone up in price, our commercial rate has not been increased. The truth is, Lone Star commercial rate for stores is lower today than 10 years ago.

Lone Star is keeping abreast of the growth of every community it serves. At the same time we are keeping the price of natural gas service down.

Plans Complete For Snyder Day

Saturday, Feb. 3, is Snyder day at the Southwestern Exposition in Fort Worth and that afternoon's performance has been designated Snyder day perfofmance. Harold Bennett, Chamber of Commerce manager, said.

To make this a booster trip, a motorcade headed by the high school band is being organized to leave Snyder at 1 o'clock the afternoon of Feb. 2, making stops at Roby, Anson, Albany, Breckenridge, Palo Pinto and Mineral Wells.

The motorcade will spend the night at the Baker Hotel in Mineral Wells then make a brief stop in Weatherford before going on to the stock show in Fort Worth.

Mrs. Holman Odom, the former Betty Lou Thompson, has been chosen to represent Snyder as its "Cow Girl Sweetheart." Mrs. Odom will ride in the grand entry and be introduced at the afternoon performance. The Snyder high school band will play a concert in front of Will Rogers Memorial Coliseum.

Reservations have been made at the Baker Hotel in Minerals Wells for the band members, and those going on the motorcade who wish reservations for the night of Feb. 2 are asked to call the Chamber of Commerce, phone 12, Bennett said.

Tickets for the Snyder day performance are on sale at the Chamber of Commerce for $3 each, tax included. All unsold tickets must be returned to stock show officials by Jan. 25, so persons desiring tickets should purchase them before that date.

A number of persons have already called the chamber indicating their intentions of joining the motorcade, and it is hoped that several hundred Snyder citizens will go along, Bennett said.

Natural Gas From Rio Grande Valley Flows To New York State

NEW YORK, Jan. 17. (AP) — Natural gas from the Rio Grande Valley in Texas began flowing here yesterday and Benjamin Feinberg chairman of the Public Service Commission, lighted an outlet to signal its arrival.

The ceremony was held at the Manhattan metering station on a pier where the Transcontinental Gas Pipe Line Corp. has its terminal, on the Hudson River.

Roosevelt Publicist Wants More Money

LOS ANGELES, Jan. 17. (AP) — Russell Birdwell claims James Roosevelt owes him another $15,000 for his services as publicist in Roosevelt's unsuccessful campaign last fall for governor of California.

Birdwell filed suit yesterday, saying he had been paid $10,000 but believes his services worth $25,000.

Two-Year Suspended Sentence For Man Who Put Official In Water

TAMPICO, Mex., Jan. 17. (AP) — A Texas sailor, Robert M. Lynch of Brownsville, was given a two-year suspended sentence on charges of tossing a customs agent into the water last April.

Lynch, a member of a shrimp boat crew, was sentenced yesterday. If he doesn't run afoul Mexican laws during the next two years he won't have to serve the sentence.

TV Film For Center Benefit

Snyder residents will have an opportunity to take a cameraeye view of the familiar oil boom story at the Palace Theatre tomorrow and Thursday mornings, when "Boomtown, U.S.A." will be shown here for the fist time.

The film, complete with sound, was made by the television division of the National Broadcasting Co. last summer for use in a series of programs dealing with life in the United States. The film will be shown twice each day, with showings to start at 10 and 11 o'clock each morning. Proceeds from admission tickets will go to the Youth Center.

The film in its present form is concerned entirely with the Scurry County oil boom, which captured the interest of the nation and brought activity to an almost unbelievable level overnight. One sequence of shots shows a West Texas State Bank employee changing the bank deposit figures on the door, while the narrator commented that a shortage of paint, seemed more likely than a shortage of dollars.

The hastily constructed lodgings, trailer courts and movement of oil field equipment are also prominent in the film. The crowded streets, not built for the volume of traffic which they were forced to handle, are a sight still familiar.

A map just before the conclusion of the film illustrates the pipe lines already built and those under construction which are to carry Texas petroleum across the nation to the industrial centers of the Atlantic Coast.

Truth Serum Is Being Used By Dentists

DALLAS, Jan. 17. (AP) — It's the truth, said a dentist, truth serum is better than laughing gas to make a patient amiable.

Dr. Joy Roy Bourgoyne described the results of the use of sodium pentothal — the real name of truth serum — at a dental clinic yesterday. The University of Tennessee oral surgeon said the serum leaves the patient in a rather carefree state of mind.

He said a patient gets too much serum to tell all, and besides "he couldn't talk anyway with the instruments in his mouth."

Little Change Of Personnel In Store Chain

The J. M. McDonald Co., formerly Bryant - Link Department Store, has undergone little change since it changed hands the first of the year.

A. C. Kincaid, who continues as manager of the store, reports that there are 98 per cent of the former employees still working at their old jobs.

There are two minor changes which have been made that are noticable. First is the store is now operated on a cash basis. Before charge accounts up to 30 days were allowed. Also several new lines have been added to the established lines of the store.

Kincaid said that prices in the lines he handles have changed little recently, and his suppliers have not indicated any immediate shortages.

Business has been good since the store opened up under the new name, Kincaid said. There has also been a good increase in business over that of last years, he added. He estimated that this year they are doing around 20 to 25 per cent more business than last. This does not take into account the fact that they were closed for remodeling two months of last year.

Kincaid had been with Bryant-Link 17 years before it changed hands.

Snyder Recruiter Is Called to Keesler Field

Master Sergeant William J. Wells, recruiter here has been reinstated in rank to that of First Lieutenant and received orders transferring him from here to Keesler Field, Miss.

Wells says that he held the rank of First Lieutenant during World War II, and was reduced to Master Sergeant when reenlisting for post war duty with the Air Force.

He has not received any official orders closing the Snyder Recruiting Station, but he says that he expects them any day, because of President Truman's new draft regulations outlined briefly in a press conference Monday.

According to the President's new draft and enlistment regulation, all enlistments will be handled through local draft boards, which would eliminate recruiting stations, it is assumed.

Wells is to report to Keesler Field Feb. 16.

Four men joined the armed services late last week and early this week through the recruiting station, Wells said. They were Joe E. Rose, 18 years old, of Hermleigh, who joined the army, John H. Brown, 24 years old, of Colorado City, who joined the Air Force; Arvil F. King, 22 years old, of Colorado City, who joined the Air Force; and James Buchannan, 18 years old, or Route 1, Snyder, who joined the Air Force.

Record Flight Just Happened

FORT WORTH, Jan. 17. (AP) — A B-36 that stayed in the air 51 hours and 22 minutes was on a test flight that "just happened to last 12 hours longer" than routine tests.

That's what one Convair official said after the reconnaissance type B-36 bomber landed yesterday.

The flight was a record for the giant bombers, but was not a new record for non-stop flights without refueling.

A Convair official said Air Force security restrictions prevented disclosure of the number of miles flown in the flight or the route of the plane.

B. A. Erickson, Convair test pilot, flew the plane on what he said was "a performance measuring mission as part of the B-36 development program."

Poll Tax Receipts Will Be Used in Election Of 3 City Officers

A city election to choose three aldermen and one city recorder (corporation court judge) will be held April 4.

The tenure of three aldermen will expire then.

Elected two years ago and now completing their two-year terms are: Ward No. 1, A. L. Martin; Ward No. 2, C. L. Williamson; and Ward No. 3 R. L. Terry.

The office of city recorder will also be filled in the same election. A. M. McPherson is present corporation court judge.

Other city officers elected last year and with one more year to serve on their present terms are R. B. Allen, aldermag, and Forest G. Sears, mayor.

Alderman offices pay $35 per month, the mayor's office $50, and the office of city recorder $150 per month.

No one has announced his candidacy for any of the vacancies to arise at the expiration of the terms of present city officials.

Poll tax receipts will be used in the election.

Supper Tonight Marks Opening of Methodists Educational Building

There will be a covered dish supper in the fellowship hall of the new educational building of the First Methodist Church at 7:30 o'clock tonight.

This is to be a celebration by the congregation and the friends of the church over the completion of the educational building. It was used last Sunday for the first time.

According to the most recent census, there are 6,335 hospitals in the United States with 1,423,520 beds and 87,596 bassinets.

Service At Cosden Station

Melvin Lee, service station attendant, looks up from a polish job given this 1951 Chevrolet just purchased by a customer of Bratton's Cosden Station, owned and operated by Austin Bratton at 912 Twenty-fifth Street.—(Staff photograph).

Same War Hazards

WASHINGTON, Jan. 17. (AP)—Rep. Potter (R-Mich) said today he would fight a Defense Department proposal to give one rate of extra-hazard pay to army officers and a lower rate to enlisted men.

Potter, who lost both legs fighting as an infantry officer in France in 1945, said "there should be no distinction between officers and GI's" in such pay.

Mrs. Anna M. Rosenberg, assistant secretary of defense, has said the Pentagon has approved a plan to pay $100 a month to officers and $50 to enlisted men serving in combat.

Geelong Wool Sales Set Four Records

WASHINGTON, Jan. 17. (AP)—The Reconstruction Finance Corp. loan to the Texmass Petroleum Co. of Dallas was paraded before the Senate again yesterday.

Sen. Fullbright (D-Ark) cited this as a "bail out" for creditors which did not serve the public interests. He introduced bills to abolish the five men RFC directorate and establish a single governor, and to clarify the RFC's lending responsibilities.

His bill would prohibit firms securing RFC loans to hire RFC people for two years. Fullbright said Allen Freeze who worked for RFC recently took a $25,000 a year job with Texmass.

Denver Rodeo Brings Texans Out On Top

DENVER, Jan. 17. (AP) — Royce Sewalt of Brownwood and Dan Poore of Hollywood tied last night in the first-go-round calf roping contest of the National Western Stock Show Rodeo.

Each won $844. Their times were 14.5 for the best on two animals.

During the afternoon, Toots Mansfield and Sonny Edwards, both of Big Spring, scored first and third in calf roping.

Mansfield scored in 18.7, Edwards in 21.9.

Sonny Lavenderm of Holliday was second in the saddle bronc riding. Dub Phillips of San Angelo was third in steer wrestling.

Michigan appeared in both the 1902 and 1948 Rose Bowl games and won both by the same score, 49-0.

Bridge To Be Opened Near the High School

Opening of the Twenty - eighth Street bridge near the high school campus is planned for Monday, Dwight Look, city engineer, said today.

The new bridge will be 44 feet wide and 33 feet long. It will have a 36-foot right of way with a four-foot walkway on each side, he said.

Howard County Wildcat Recovers Salt Water, No Show in Ellenburger

Norman & Roche No. 1 H. E. Martin, Northeast Howard County wildcat, 330 feet from south and 467 feet from west lines of section 2, block 31, T-1-N, T&P survey, recovered 9,150 feet of salt water with no shows on a one-hour drillstem test from 9,310-36 feet.

The test was in the Ellenburger, topped at 9,327 feet. Drilling was progressing below 9,374 feet in dolomite and lime.

The No. 1 Martin previously had recovered 1,260 feet of oil and gas-cut mud on a two and one-half-hour drillstem test from 8,940-56 feet in the Mississippian, which was topped at 8,845 feet, elevation 2,457 feet.

* * *

Runnels County Well Abandoned at 4,198

American Trading & Production Corp. No. 1-62 Otto Spreen, Southeast Runnels County wildcat, six miles east of Ballinger, has been abandoned and plugged on total depth of 4,198 feet in an unidentified lime after making salt water and no shows of oil or gas.

A drillstem test was taken at 4,160-98 feet. The tool was open 35 minutes. Recovery was 210 feet of salt water. There were no indications of oil or gas.

Location was 11,750 feet from north and 330 feet from west lines of the R. M. Williamson survey No. 232. It was five and one quarter miles south of the nearest production in the Beddo field.

* * *

Two Runnels Wildcats To Be Spudded Soon

Location for two new wildcats have been reported for Runnels County. Both explorations are to begin operations soon.

J. W. King of Ballinger and others, are to drill their No. 1 Emmie D. Michaelis as a 4,500-foot project. It will be one-half of a mile east of Hatchell in the central part of the county.

It is to be 330 feet from south and 2,260 feet from east lines of the H. G. Bliss survey No. 525.

Texas Trading Co. Inc., of Dallas, No. 1 H. A. Stephens, in Northeast Runnels County and 13 miles east of Winters is projected to 4,250 feet.

It is to be located 330 feet from north and west lines of section 12. That makes it two miles east of the Cree-Sykes field and one and one-half miles west of the Coleman County line.

* * *

Terry Exploration

Union Oil Co. of California No. 4 Christova Stitt is to be a new exploration to the Pennsylvanian lime reef on the outside of the proven area in the Brownfield, South-Canyon field in East-Central Terry County.

It is to be 660 feet from south and 1,980 feet from east lines of section 91, block T, D&W survey. That makes it four miles southeast of the town of Brownfield.

10,500 feet is to start soon. The project is one - quarter of a mile south of the nearest completed producer in the field.

* * *

Coke County Stepout

Union Oil Co. of California is to drill its No. 1 Jim McCutchen as a 1,320 - foot west offset to its No. 3 Jim McCutchen, which is now preparing to test and complete as a stepout to the Robert Lee-Cisco field, in Central Coke County.

Drillsite is to be 1,980 feet from south and 660 feet from west lines of section 44, block L-A, H&TC survey and two and three-quarter miles east of Robert Lee.

It will be drilled to around 4,000 feet to test the Cisco sand which is producing in the No. 3 McCutchen.

* * *

Plugged in Ellenburger

E. B. Fletcher No. 1 C. W. Adams, East Sutton County wildcat, has been plugged and abandoned on total depth of 4,260 feet in the Ellenburger.

A drillstem test from total depth did not develop any signs of production.

The project recovered 740 feet of gas-cut mud on a two-hour drillstem test from 3,960-90 feet.

Location of the failure is 660 feet from south and east lines of section 66, block A, GWT&P. sur-

Terry County Finds Reef Production In Spite of Being Low

Union Oil Co. of California No. 3 Christova Stitt, on the southwest side of the Brownfield, South-Canyon field in East-Central Terry County, has shown signs of production from the reef lime, despite the fact that it is extra low to the nearest producer.

It is understood that operator is to drill deeper at this project and it may be carried on down to the Strawn lime zone of the lower Pennsylvanian.

Top of the lime reef was called in No. 3 Stitt at 10,059 feet. Elevation is 3,271 feet.

It drilled to 10,130 feet and took a two and one-half hour drillstem test at 10,060-130 feet.

Recovery was 360 feet of oil and 1,350 feet of mud cut oil.

Location is 1,980 feet from south and west lines of section 91, block T, D&W survey. It is four miles southeast of the town of Brownfield.

* * *

Wildcat Staked In Old Toyah-Anthony Field

Bruce L. Hoover of San Antonio has staked location for a Delaware wildcat in the depleted Toyah-Anthony field on the west side of Reeves County.

The prospector will be drilled as the No. 1 Regan-State, 990 feet from west and 330 feet from south lines of section 9, block 59, psl survey.

The Toyah-Anthony field was the first oil field opened in West Texas. The deepest producer was around 1,700 feet in the Delaware Mountain. The field played out in 1935 and was re-opened in March 1939 by Far West Oil Co. No. 1 Richard-Shaw.

The Far West well was depleted Dec. 10, 1942.

The No. 1 Regan-State is slated to be drilled to 3,500 feet with cable and rotary tools. The drillsite is 990 feet north and slightly west of Far West No. 1 Richard-Shaw.

* * *

Runnels Wildcat Fails In the Caddo Lime

Arthel Henson of Abilene No. 1 R. H. Herring, wildcat seven miles northwest of Ballinger and in Central Runnels County, has been plugged and abandoned on total depth of 4,371 feet in Caddo lime.

That section was topped at 4,310 feet on an elevation of 1,745 feet.

The failure was 330 feet from south and east lines of section 34 H. C. Wylie survey, Abstract 935.

* * *

Location Staked South Of Germania Production

One and one-eighth miles southeast of the nearest producer in the Germania-Spraberry field of Northeast Midland County, Mid-Continent Petroleum Corp. staked location for a 7,500-foot test.

It will be drilled as its No. 1 Andrew Fasken, 660 feet from north and west lines of section 16, block 36, T-2-S, T&P survey.

The drillsite is 16 miles east of Midland.

Operations will start on the Spraberry test as soon as location is cleared and rotary tools moved in.

* * *

Upton County Location

Humble Oil & Refining Co. has staked location for its No. 1-B Ralph Pembrook, which is to be drilled one location north of its No. 1-B Ralph Pembrook, producer in the Pembrook field of East-Central Upton County.

The drillsite will be 660 feet from east and 1,980 feet from south lines of section 2, block O, EL&RR survey.

Contract depth is 7,200 feet to test the Spraberry, regular pay of the field.

Gaines Wells Get Deep Pay

New producers have been completed from deep pays outside of proven areas in two different regions of Gaines County.

Shell Oil Co. No. 1-C Jones, new producer in the North Russell-Devonian field of Northwest Gaines County, flowed six hours through a one inch choke and made a calculated 24-hour potential of 1,065.36 barrels of 37.2-gravity oil.

Gas-oil ratio was 124-1. No water was present.

Top of pay is 11,138 feet and total depth is 11,165 feet. Five and one-half inch casing is cemented at 11,144 feet. Pay section was treated with 2,500 gallons of acid.

Location is 660 feet from south and west lines of lease in section 496, block G, CCSD&GNG survey.

In the Doss-Canyon field of Central-Southeast Gaines County, Shell and Ralph Lowe No. 3 Cunningham made a potential of 166.92 barrels of 46-gravity oil.

This was based on a 24-hour flow through a one-half inch choke.

No water was present. Gas-oil ratio was 281-1.

Top of pay is 8,850 feet. Total depth is 8,910 feet. Production is coming from perforations in 5½-inch casing at 8,849-4,915 feet. Casing is cemented at 8,919 feet. Perforations were acidized with 500 gallons.

The new producer is located 660 feet from north and 1,980 feet from west lines of section 4, block A-24, psl survey.

* * *

Nolan County Wildcat Completed From Caddo

Sun Oil Co. has officially completed its No. 1 Eunice Parramore, wildcat discovery in Southwest Nolan County, for a 24 - hour pumping potential of 46 barrels of oil, and no water from pay in the Caddo lime of the lower Pennsylvanian at 6,998-7,038 feet.

The well showed a gas - oil ratio of 1,613-1, but it would not flow steadily and operator has installed a pump to produce the petroleum.

The production is through perforations in the casing which is cemented at the plugged back total depth of 7,050 feet.

Location is 660 feet from south and 560 feet from west lines of section 55, block 1-A, H&TC survey. It is six miles southwest of Maryneal.

The wildcat drilled to a total depth of 7,391 feet. That formation made salt water, with only slight signs of oil and gas.

Operator then plugged back to 7,050 feet for the completion in the Caddo.

* * *

Sutton County Offset

C. L. Norsworthy, Jr., and Lone Star Producing Co. have spotted a southeast offset to the same operator's No. 1 R. M. Thomson, upper Permian sand opener in Sutton County.

The groups' No. 1 R. M. Thomson will be drilled 330 feet from south and 990 feet from east lines of section 67, block A, HE&WT survey.

The contracted destination is 1,500 feet with cable tool.

* * *

Motley County Failure

Amerada Petroleum Corp. No. 1 Ollie Birnie, Northwest Motely County wildcat, nine miles northwest of Matador, and 1,980 feet from north and 660 feet from east lines of section 1, block GP, C&M survey, A-246, has been plugged and abandoned on total depth of 10,010 feet in granite.

This exploration did not develop any shows of commercial production in any zone it penetrated. It did not log any Ellenburger section.

8,000-Foot Wildcat Will Test Spraberry In North Glasscock

Amerada Petroleum Corp. No. 1 Bertie Boone is to be an 8,000-foot wildcat to explore the Spraberry sand in Northeast Glasscock County.

It is located 660 feet from south and west lines of section 45, block 36, T&P survey, T-2-S. Drilling is to be started soon.

The exploration will be three and one-quarter miles north of York & Harper, Inc., No. 1 K. S. Boone, recently completed three-quarter of a mile north extension to the northeast side of the Tex-Harvey field of Midland and Glasscock Counties.

The drillsite of Amerada No. 1 Bertie Boone is almost on the Midland County line.

* * *

Ochiltree County Test Fails in Mississippian

The Blackwood & Nichols Co. No. 1 Brunstetter, Southwest Ochiltree County wildcat, in section 22, B&B survey, has been plugged and abandoned at total depth of 9,521 feet in the lower Mississippian.

It ran a one hour and 12 minute drillstem test at 9,464-9,521 feet. Recovery was 560 feet of salt water. There were no shows of oil or gas.

This prospector was originally drilled by Walter Duncan and associates to a bottom of 9,010 feet in the Mississippian. It had logged slight shows of oil and gas above that point.

Blackwood and Nichols then took it over and deepened it to the latest total depth and in so doing failed to find any production and the plugging order followed.

* * *

Two Ector Failures

Stanolind Oil & Gas Co. has filed plugging reports on two wildcats in Central Ector County, south east of the Donnelly-San Andres field, and about two and one-quarter miles northeast of a twin strike by Eastland Oil Co. from the Holt and San Andres.

The concern's No. 1 J. L. Johnson, 660 feet from south and east lines of section 31, block 43, T-1-S, T&P survey, was quit on total depth of 5,917 feet in the Clear Fork.

The other dry hole, Stanolind No. 2 J. L. Johnson, was abandoned on total depth of 4,490 feet in the San Andres.

Its location was 330 feet from north and 422 feet from west lines of section 32; block 43, T-1-S, T&P survey.

Juvenile Crime Said On The Increase

HALIFAX, (AP)—After 25 years as crier at the Halifax County Court, James Granville says one of the big changes in the court in recent years has been the increasing number of young people in the prisoner's dock.

"Every year the boys appearing seem to become younger and they are charged with more serious crimes," says the crier, who is retiring at the age of 86. "I believe much more supervision at home is needed," he says. "Too many of these young boys are allowed to run the streets and then they end up in the prisoner's dock."

Texas Facing More Subnormal Rainfall

WASHINGTON, Jan. 17. (AP) — Drouth-sick Texas faced the prospect today of another month of subnormal rainfall.

The weather bureau in its 30-day forecast said:

"Precipitation is expected to equal or exceed normal values over the Midwest, northeast and west of the continental divide but subnormal amounts are predicted for the Southwest and the western plains."

The forecast called for warmer than usual weather until mid-February.

Extortion Is Charged

JERUSALEM, (AP) — Simon Saroum, a local witchcraftsman, has been charged with extortion by a magistrate here. The charge accuses Saroum of promising to cure a client of childlessness by saying a magic formula over a mysteriously describbied egg (which are rationed here), and over a sea shell and a pot filled with rags.

There is no prospect of a child for the client yet, but there is a strong prospect of a stiff jail term for Sorcerer Saroum, who charged 160 Israel pounds for his "treatment".

Named Oat Of Year

DES MOINES, (AP)—Shelby Oat has been named the oat variety of the year for Iowa by Iowa State College.

Crane Well Plugged

Jergins Oil Co. of San Antonio No. 1 A. K. Asbury, exploration in the McKee-Lower Clear Fork field of Southwest Crane County, has been plugged and abandoned at total depth of 4,197 feet.

It was located 1,980 feet from north and 467 feet from east lines of section 24, block 2, H&TC survey. That made it 18 miles southwest of the town of Crane.

Government Quiet On Reports That Mexican Labor To Be Imported

WASHINGTON, Jan. 17. (AP) — Government officials were cagey today on reports of plans to import 200,000-400,000 Mexican and other farm laborers.

The National Council of Agricultural Life and Labor made the claim and asserted this would "flood the labor markets."

Robert C. Goodwin, chief of the office of defense manpower, said only that the nation "is going to need to import quite a few" workers.

Dallas Clerk Gets A Part Of W. C. Field Estate In Ruling

WASHINGTON, Jan. 17. (AP) — A Dallas clerk was $15,000 richer today because he claimed to be the illegitimate son of Comedian W. C. Fields and Follies Beauty Bessie Poloe.

William Rexford Morris, 33, had asked a third of Fields' estate now valued at $556,000. Judge W. R. McKay, who announced the final settlement of the estate, said the ruling does not automatically establish Morris' paternity claim.

Meeting of 4-H Boys Called For Saturday

All 4-H boys and their fathers, interested in attending the Southwestern Exposition and Fat Stock Show Saturday, Jan. 27, are asked to attend a meeting at 10 o'clock Saturday morning in the office of Oscar Fowler, county agent.

Jan. 27 will be 4-H day at the Fort Worth exhibition and all 4-H members will be given passes.

Big Prize For Cure To Dread Diseases

WASHINGTON, Jan. 17. (AP) — Rep. Welch (D-Mo) said he would reoffer in the House today a bill to provide $100,000 a year for life to each of the individuals who discover cures for cancer, polio and heart disease.

Under his bill, the $100,000 would be tax exempt.

The surgeon general of the U. S. Public Health Service would be empowered to determine whether any researcher qualified by discovering a general cure for one of the diseases, his decision would be final and could not be challenged in court.

The authorized strength of West Point's corps of cadets is 2,496.

Marine Recruiter Here

Sgt. B. M. Fautheree, Marine corps recruiting officer from Lubbock, will be at the Snyder post office from 8:30 to 12 noon Friday, and is to be there at the same hours on each Friday thereafter. Information concerning enlistments and reserve training may be secured from him.

ADVERTISEMENT.

World War I Vet Praises Hadacol

HADACOL Supplies Vitamins B1, B2, Niacin and Iron Which His System Lacked.

This little space is to be read by those folks who are always wishing they'd feel better. Now, this business of wishing for "this" and wishing for "that" is all right. It sort of makes a person look to the future. But it is a mighty sorry state of affairs when folks keep wishing they would feel better. That just doesn't get the job done. Take Leo D. Fisher, 901 Charles Street, St. Joseph, Missouri, for example. He just didn't wish he would feel better—he did something about it. He took HADACOL, and says he feels just fine for Mr. Fisher found that taking HADACOL helped his system overcome deficiencies of Vitamins B1, B2, Niacin and Iron, which HADACOL contains.

Here is Mr. Fisher's own statement: "I am a veteran of World War I. I have had stomach distress and was nervous and could not sleep. I had no appetite and could not eat any fried foods. I started taking HADACOL. I have taken 8 small bottles and now I am on my second large bottle. I eat anything. I feel fine and sleep good, thanks to HADACOL. I have recommended HADACOL to many people and they are taking it. I am a booster, for I cannot do without it."

Texas History Written in Brands

By JOHN M. HENDRIX

The Two Circle Bar was founded by the noted Texas frontiersman Jess Hitson with a herd of South Texas cattle, in 1879. His headquarters were at the mouth of Rough Creek, on the Double Mountain Fork of the Brazos, in the present Clairmont country, in Kent, Stonewall, Fisher and Scurry Counties, but mainly in Kent. Hitson sold out to O. J. Wiren, in 1883, for $200,000.

Wiren's foreman at one time was the famous Jim Lane who for some good Western reason later went under the name of Jim Cook. Lane was rated as an excellent cowman. For the first few years of the Stamford show he appeared regularly with a camp wagon, a wife, and a number of children, telling tall tales and offering for sale several small books he had published on early West Texas history.

Jury in County Court Returns Guilty Verdict

A verdict of guilty was returned by a county criminal court jury yesterday afternoon against James Franklin Condron, 23, of Post, who was assessed a fine of $200 after an all-day trial on a charge of operating a motor vehicle while under the influence of intoxicating liquor.

The charge was filed against Condron after a pickup truck he was driving and a passenger car driven by Dr. Robert F. Wasson, 32-year-old Snyder physician, collided on U. S. Highway 84 a few miles north of Snyder Dec. 23 injuring five persons, Dr. Wasson most seriously.

INJURIES

Dr. Wasson suffered a fracture of the fifth cervical vertebra which he said was commonly termed a broken neck, a skull fracture and other injuries. Also injured were Robert Marler, 26 years old of 2114½ Thirty - second Street who suffered numerous bruises and lacerations including a severe facial cut; Carl Box, 57 of Post, who suffered a broken leg; Arlice J. Hubble, 26, also of Post, who suffered a dental injury; and Condron, who suffered an injured knee.

Witnesses for the prosecution included Dr. Wasson, Marler, who was a passenger in the Wasson car, Miss Nell Joiner, surgical supervisor and nurse at the Snyder Hospital, and two highway patrolmen, Bill Zimmerman and E W. Green, who investigated the accident. For the defense, Condron and Hubble testified.

First witness to testify was Dr. Wasson, still wearing a neck brace as he took the stand and told of the wreck which occurred just south of a railroad underpass about five miles north of here.

The Wasson car was demolished, the entire right side being ripped open, and the right front wheel and fender of the truck were damage heavily, according to testimony of investigating officers.

Dr. Wasson further stated that he was driving less than 50 miles an hour in a newly purchased 1950 Pontiac which had not yet been driven 600 miles.

In Marler's testimony, he stated he was positive that the truck was on Dr. Wasson's side of the highway at the time of the accident.

Green then took the witness stand and testified that during the investigation of the accident, he found a four-fifth quart bottle of whisky standing upright uncorked on the floorboard of the truck. Green said that in his opinion someone was drinking from the bottle at the time of the collision and that it had been set on the floor of the truck just after the wreck

NURSE TESTIFIES

Miss Joiner, fourth witness, said she rendered aid to Condron whom she said she believed intoxicated at the time because of his actions and the odor of his breath. She said Condron was conscious when she assisted him with first aid treatment about 30 minutes after the accident, but Condron stated in his testimony that he was unconscious until the following day.

Zimmerman testified that tire marks on the highway indicated that the truck was on the wrong side of the highway just prior to the accident and that it was apparently turned back toward its right side of the road about the time of the collision.

Condron, as the first witness for the defense, said he had taken a drink of whisky in Snyder shortly before leaving here to return to Post but that he was not intoxicated. He admitted owning the whisky found in the truck, which he said was in the glove compartment and had not been opened before the wreck

The defendant said the lights of the Wasson car blinded him and that it turned to his right and on the wrong side of the highway in front of him before the collision He said the impact threw him from the truck.

Hubble, testifying last, said Condron was not intoxicated.

In final arguments, Jack Kennedy ,assistant to Ben Thorpe, told the jury that the defendant was charged not with being intoxicated but with operating a motor vehicle while under influence of intoxicating liquor. Also arguing before the jury were Thrope, representing the state, and Bob Davie, representing the defendant.

Snyder Woman Among McMurry Choral Group

Miss Freida Davis of Snyder is among the McMurry College Chanters chorus who will start a tour of southwest Texas next Sunday. The 40-member chorus is directed by Dr. Von Ende. They will perform first at the Central Methodist Church in Brownwood and expect to make 15 appearances before concluding the tour.

Isolationism Hit By Byrnes

COLUMBIA, S.C., Jan. 17. (AP)—If Gov. James F. Byrnes can speak for the South — and many southerners say that he does — there is practically no isolationism left in this part of the United States.

Byrnes took a very strong line yesterday in the speech that followed his inauguration as governor of South Carolina.

He went all-out for military aid to western Europe, including the use of American troops. And he said bluntly that if the UN does not authorize the bombing of Red China then the American divisions (which constitute the bulk of the UN force) should be withdrawn from Korea.

It was, in fact, the latest voice in the great debate on American foreign and military policy. It contained words that appeared to be direct answers to statements of ex-President Herbert Hoover, Sen. Robert Taft and former Ambassador Joseph Kennedy.

Byrnes said: "It is said that western European governments have not raised armies for their own defense. In view of our record, we should not complain. In 1948, after Czechoslovakia had fallen, I made a speech urging that it was so clear the Soviets planned domination of the world we should cease all non-defense expenditures and immediately draft men to increase our military forces. Many others made similar pleas. Little was done."

On the matter of the later debate, concerning the dispatch of American troops to Europe, Byrnes said:

"The argument that additional troops should not be sent to Europe cannot be ignored. It cannot be answered by the statement that we must comply with our obligations. The Atlantic treaty and the UN do not require us to act except in case of aggression.

"But there is a requirement more urgent than these — the requirement of self-defense."

Snyder Teachers Attend Lubbock Conference

Mrs. Joel Hodges and Miss Vera Periman, high school home economics instructors, were in Lubbock yesterday afternoon to attend a conference on Future Homemakers of America degree work.

The meeting was under the direction of Miss Josephine Pazdral, state supervisor of F.H.A. work. The meeting was attended by home economics instructors from over the area.

Both Mrs. Hodges and Miss Periman attended an adult education discussion at Texas Technological College Saturday. The meeting was directed by Miss Martha Graves, home and family life education director in the home economics division.

Oil News

(Continued from Page 1)

feet, opposite the Pennsylvanian.

Gas-oil ratio on the potential test was 313-1. Gravity of the oil is 42 degrees.

During the test a packer was set in the casing, and tubing pressure was 165 pounds. The new well did not make water on the final test.

After the potential was found, operator took another 24-hour gauge through a 3-4-inch choke. On that test it made 272 barrels of oil per hour.

Well is now on production.

Location is 660 feet from north and east lines of Section 3, block 35-4-N, T&P survey.

LYNN WILDCAT

Standard Eryer Drilling Co. of Dallas and Max Pray and Elisha Walker, Jr., of Chicago, are to drill a 9,500-foot Ellenburger wildcat in West-Central Lynn County.

Drillsite will be 13 miles west and three miles north of Tahoka, and 660 feet from the south and east lines of section 4, block C42, ps' survey.

The prospector will be dug as the No. 1 Mrs. W. D. Nevels.

STRAWN OPENER

Sid Katz and R. H. Venable No. 1 H. D. Dozier and others, Strawn opener in Northeast Stonewall County, has been completed for a 24-hour potential of 132 barrels of 37.5 gravity oil.

Production was through a one-half inch choke and open hole from 4,817-4,834 feet.

Casing pressure was 120 pounds. Tubing pressure was 10 pounds.

The No. 1 Dozier is 467 feet from the south and west lines of Ruthy Campbell survey No. 50 and eight miles west of O'Brien.

NEAR HERMLEIGH

The Reef Oil Corp. No. 1 Carl Gray, Ellenburger exploration in Southeast Scurry County, was to test today in the interval between 6,909-6,937 feet.

Abilenians Pay Top Price For Hereford

DENVER, Jan. 17 (AP) — C. M. Caldwell and Son of Abilene, Tex., paid $11,500 yesterday for a purebred Hereford bull. It was one of the top prices at the Western Stock Show.

The beast is S. Avalon Carlos. It was sold by E. L. Scott of Gunnison, Colo.

Two Fined on Charge Of Possessing Liquor For Sale in Dry Area

Two Snyder men yesterday were assessed fines totaling $2,250 when they pleaded guilty in county court to charges of possessing liquor for purposes of sale in a legally dry area.

A fine of $750 plus court costs of $23.50 was assessed Anderson Davis, Jr., about 26, Snyder Negro, charged with unlawful liquor possession on Dec. 26. Fines totaling $1,547, including costs, were assessed his father, Anderson Davis, Sr., 48, when he pleaded guilty to two similar charges.

Funeral Tomorrow For Weldon H. Jeffress

Funeral services for 2nd Lt. Weldon H. Jeffress will be held at 3 o'clock tomorrow in the First Methodist Church.

Jeffress, who was killed during World War II, was the son of Mr. and Mrs. Hugh Jeffress, former residents of Snyder, now living in Carlsbad, N.M. His wife, the former Miss Ruby Lee Wooten, was also a resident of Snyder.

Burial will be in the Snyder cemetery under the direction of the Bolger-Barnes Funeral Home.

No Opposition To New Carrier

WASHINGTON, Jan. 17. (AP)—With no opposition in sight, House leaders called up for action today the Navy's proposal to build an aircraft carrier huge enough to act as a base for planes carrying atomic bombs.

This 57,000-ton carrier, which would be the largest in the fleet, is part of the $2 billion ship construction and modernization program for which the Navy is seeking authorization.

Prospects were the House would pass the bill and send it on to the Senate by nightfall. It is the first measure of any consequence to reach the floor of either House at the new session which started Jan. 3.

Chairman Vinson (D-Ga) of the House Armed Services Committee which unanimously approved the Navy program, said it contemplates building of 173 new ships and modernization of 291 existing vessels.

The actual money for this fleet-strengthening program will be sought in a third emergency appropriations supplement to the 1951 military budget. The request is expected on Capitol Hill this month. It will be separate from the military budget of $41,400,000,000 which President Truman has asked for the year starting July 1.

Vinson has said the new carrier would cost $235 million—about $46 million more than the proposed 65,000 ton carrier United States, work on which was stopped amid controversy by former Secretary of Defense Louis Johnson.
