Thousands of words have been written by this columnist during the past years and hundreds of other editors throughout the country joined in urging citizens to trade at home. But during the past few years, good roads, good cars and an urge to go somewhere, and the advent of chain stores and discount stores that bait customers with a few cheap items, far too many citizens have left their home town to trade in other cities. The result of this is empty and decaying store buildings in the home town (every small town) and those merchants who remain suffering from the loss of business.

According to George Parks in his "Pickin's" column last week, a Roscoe citizen came up with what editors have been emphasizing for years. Said the Roscoe citizen in telling what really is the key to improvement of Roscoe: "Just one simple little thing," he said. "All that is necessary is for Roscoe people to buy everything they can in Roscoe."

"There is no improvement program that could match that one thing."

"Stores would prosper," he said, "and would automatically improve their buildings and facilities. As more customers traded at home, more items would be found in local stores, because the wider demand for those articles. Volume selling would enable prices to be lowered. Empty store buildings would be remodeled and new business would come in. Without any artificial stimulating effort, the entire problem would take care of itself."

The same would apply to Loraine and those of us who really care and want to improve Loraine will do just that.

Uncle Charlie is very concerned about world problems...

We're very concerned about Uncle Charlie!

You see, being concerned is about as far as Uncle Charlie ever goes. He worries about this...he grieves about that...but actually getting out and doing something to solve some of those problems...well...that never occurs to him. So, the problems remain...some get worse...new ones arise...and good old Uncle Charlie always has plenty to voice concern about.

At Lone Star Gas, we believe in concern plus action. And we put that belief to work in the communities we serve, and for our more than one million customers. There are over 6000 of us at Lone Star Gas, and we like to think there isn't an "Uncle Charlie" among us!
