FRAUD CHARGED IN TENNESSEE ELECTION

NASHVILLE, Tenn., July 21 (AP)—Charging that "the grossest possible fraud" was perpetrated in Memphis and Nashville in yesterday's referendum on the Eighteenth amendment, John F. Baggett, chairman of the prohibition campaign, said in a statement today that the vote is being "very carefully studied with a view to contesting the election."

FOUR KILLED AS CAR RUNS IN CREEK

OKOLONA, Miss., July 21 (AP)—Four persons were killed today when the automobile in which they were riding ran into a creek eight miles north of here. The dead: Winston Jordan, John Rubel, Miss Ernestine Caldwell, and Miss Rachel McShann.

BRITISH NETTERS BEAT AMERICANS TWICE

ROLAND GARROS STADIUM, AUTEUIL, July 21. (AP)—The British Davis Cup tennis forces put their American rivals to rout today in the inter-zone finals with two spectacular straight-set singles victories. Fred Perry, British No. 1, conquered Wilmer Allison, 6-1, 7-5, 6-4, after Henry W. (Bunny) Austin, second ranking Englishman, sprang a sensational upset by trouncing Ellsworth Vines, the American champion, 6-1, 6-1, 6-4.

Public Asked To Join Industrial Recovery Drive

AGREEMENTS WILL BE SENT TO EMPLOYERS BY ROOSEVELT

(By The Associated Press)

WASHINGTON, July 21.—Every citizen today was summoned to a covenant with President Roosevelt to re-employ the jobless millions by labor day.

To more than 5,000,000 employers was addressed a request from the president to join his national recovery administration in a mass attack on the depression by voluntary agreements to lift wages and shorten hours.

Open Appeal Made

To the public went an open appeal for cooperation "by supporting and patronizing employers and workers who are members of the N. R. A."—signers of the presidential agreements for boosting national purchasing power.

Powerfully driving this war-like plan for unifying the country in creating "re-employment was a carefully mapped "campaign of education" that brusque Hugh S. Johnson said will "saturate the country with the dope on this thing."

President Roosevelt himself will take to the people the plan he and Johnson agreed upon finally late last night.

"I'm just as certain it will work as I am sitting here," said Johnson, back at his desk after the presidential conference. "I'm staking everything on it."

The heart of the plan:

To Send Out Agreements

Every employer will receive through the mail July 27 an agreement addressed to him by President Roosevelt. Upon signing, this binds him to maintain a fixed minimum wage and not to exceed a fixed maximum work week during "the president's emergency re-employment drive" from August 1 to December 1.

The basic hours, labor and wages: Child labor outlawed.

$14 to $15 a week minimum and a 40-hour week for so-called white collar labor.

30 to 40 cents an hour minimum for a 35-hour week and an 8-hour day maximum for factory and mechanical labor.

Equitable readjustment of pay above the minimum.

Badges To Be Issued

Every signer receives a certificate and government badge showing the seal of N. R. A. (National Recovery Administration) and the words: "Member N. R. A. We do our part." This badge may be displayed on all equipment, goods, communications and premises. The signer may appeal for adjustments if a hardship is worked.

For every consumer who wishes to cooperate and become a member of the N. R. A. there will be a badge

Home-Made Chair Works Perfectly

SANTA FE, N. M., July 21 (AP)—New Mexico's home-made electric chair, used for the first time today, functioned perfectly in executing Tom Johnson, 43, a negro, and Santiago Garduno, 40, a Spanish-American.

The executioner was R. E. Owens of the Oklahoma state prison.

Johnson was convicted of slaying Angelina Jaramillo, an 18-year-old Santa Fe girl, after she was assaulted last fall. Garduno was sentenced to death for poisoning his step-son this this spring. He was a resident of Truchas, N. M.

FIGHT IS MADE ON KIDNAPING

ANTI-CRIME CAMPAIGN PRODUCING RESULTS, OFFICIALS CLAIM

(By The Associated Press)

A concerted anti-kidnaping drive was producing results in various sections of the country, officials claimed today.

Captain Daniel Gilbert, chief investigator for the Cook county state's attorney's office in Chicago, asserted he had reliable information that three of four members of the gang of Roger Tuohy of Chicago, arrested in Elkhorn, Wis., were involved in the recent abduction of John Factor, the speculator.

Prisoners Identified

The police at Elkhorn said the prisoners were identified as Tuohy, Willie Sharkey, "Gloomy Gus" Schaeffer and Ed. McFadden. They added that Schaeffer had $1,200 in $10 bills in his possession. Reports at the time Factor was released were that his ransom, reputed to be from $50,000 to $200,000, was paid in $10 and $20 bills.

The suspects were returned to Chicago to be questioned about Factor's abduction as well as about the kidnaping of William Hamm, jr., St. Paul brewer.

At the same time progress was claimed by officials in their investigation of the abduction and subsequent release of August Luer, Alton, Ill., banker, with the announcement that one of five suspects—Percy Migerald—had confessed participation in the crime. Mayors of fifteen municipalities near Alton met to formulate plans to rid their localities of undesirable persons.

Racketeering Probed

Almost simultaneously with these developments came an announcement from Senator Louis Murphy of Iowa that the federal government was investigating all forms of major racketeering, and especially kidnaping, with the idea of strengthening laws to cope with the situation. Two other members of a senate subcommittee are engaged in investigations in Michigan and New York. They are Senators Vandenburg of Michigan and Copeland of New York.

Meanwhile, however, kidnapers still held young John J. O'Connell, jr., who was snatched by abductors in Albany, N. Y., July 7.

WILEY POST CONTINUES WORLD FLIGHT

AIRMAN TAKES OFF TOWARD FAIRBANKS

GETS NEEDED REST AS PLANE IS REPAIRED AFTER NOSING OVER

(By The Associated Press)

FLAT, Alaska, July 21—Wiley Post, Oklahoman flier, resumed his aerial jaunt around the world today at 7:28 a. m., Fairbanks time (12:28 p. m. Eastern Standard time).

Joe Crosson, who brought a new propeller for Post's plane from Fairbanks, circled over the field here at 7:25 a. m., and three minutes later Post joined him in the air. Both planes headed east for Fairbanks where Post will refuel for his flight to Edmonton.

The weather was good.

Flier Gets Rest

Fairly well rested, Post said, after between six and seven hours of sleep during the night, following his arrival from Khabarovsk, Siberia, yesterday afternoon, he superintended the final repairs to his plane, which was damaged when it nosed up on the small landing field, in a cross wind.

Post expressed the opinion he would still "break that record" of eight days, 15 hours and 51 minutes which he and Harold Gatty set in their 1931 globe-circling flight. He hopped off from New York at 4:10 a. m., (Eastern Standard time) last Saturday, July 15.

The Oklahoman was only 4,000 miles from his goal, New York, when he landed after a 22-hour battle with the elements on his flight from Siberia.

For a long time after sighting land, he said, he had been "lost following some river." Sighted first over Nome seven hours previously at 1:30 p. m. (Eastern Standard time), in the interval he was seen twice over Ruby and as far east as Tanana, within 125 miles of Fairbanks.

Rain fell throughout the day over central Alaska, however, and he became confused, fighting the heavy clouds. He finally landed here, on the Iditarod river in western Alaska, about 300 miles southeast of Nome.

On being pulled out he promptly

WEST TEXAS ROAD PROJECTS TALKED

ABILENE, July 21 (AP)—Discussion of West Texas road projects, under both the regular and the federal unemployment relief programs, was under way in Abilene today between division engineers and W. R. Ely, state highway commissioner. Engineers in the meeting were from nine districts centering on Abilene, Amarillo, Lubbock, Childress, Wichita Falls, San Angelo, Brownwood, El Paso and Pecos. Gibb Gilchrist, state engineer, and T. J. Kelly, designs engineer, were here from Austin.

The highway commission, Ely said, has plenty of work ahead in integrating its regular construction and maintenance projects with the government's industrial recovery program of highway work in which Texas will receive nearly $25,000,000, every county getting an allotment. Division engineers throughout the state are collecting project requests under the federal program from commissioners courts in their districts, and these will be referred to the highway commission.

Three Are Injured As Plane Crashes

CHICAGO, July 21. (AP)—Three marine corps aviators were injured today when their amphibian crashed 50 feet to a field south of the municipal airport, whence they had just taken off for Los Angeles.

The injured were:

Lieut. Theodore Millard, pilot, of Great Barrington, Mass., stationed at Quantico, Va.

Capt. C. T. Brooks, Connecticut Ave., Washington, D. C.

Chief Gunner's Mate Michael Wodarezyk.

MAN GIVES LIFE TRYING TO SAVE BOY FROM DEATH

GRAND LAKE, Colo., July 21 (AP)—One man gave his life and another made heroic efforts yesterday in an unavailing effort to save 6-year-old Louis William Lipscomb, jr., from drowning in the glacier-fed waters of Grand Lake.

The boy, member of a prominent San Antonio, Tex., family, was crossing the lake in a boat rowed by a houseman, Antonio Basanio. A toy boat slipped from the boy's hands. As he reached for it he slipped into the water. Basanio plunged after him. Neither was seen again.

George Peak, Des Moines attorney, bathing near his own summer cottage a few yards away, heard Basanio's shouts, swam to the spot and began diving. Twice he went down into the icy water and succeeded in grasping both the boy and Basanio but was unable to bring either to the surface. Other persons were attracted to the scene and attempted to reach the bodies but failed.

The lake, fed by glaciers and snowbanks, is icy cold and very deep.

WILL FORWARD WORK PLANS

ROOSEVELT TO SUBMIT FEDERAL BUILDING PROGRAM SOON

(By The Associated Press)

WASHINGTON, July 21—A big program for constructing federal buildings throughout the country, of which about $35,000,000 worth already have been approved, probably will be forwarded to President Roosevelt by his cabinet board in charge of public works within a few days.

The size of the total program depends upon future action of the board, and may run to nearly $100,000,000.

Report Submitted

The projects are being selected on the basis of a report submitted by the budget bureau on the huge estimates submitted by the treasury department.

The budget bureau divided the projects into six groups depending upon their desirability. The recommendation of projects involving a total cost of about $35,000,000 was tentatively approved by the board at its last meeting.

Before submitting the program to the president, however, the board is carefully scrutinizing the list of projects to choose the more worthy items.

The six classifications submitted by the budget were, roughly, projects needed now and economically sound; needed now, but which can be deferred; desirable, but not necessary; not needed now, but economically sound; needed, but economically unsound on the basis of present estimates; and not needed and economically unsound.

Border Guarded In Hunt For Robbers

SAN ANTONIO, July 21. (AP)—All roads leading to the Mexican border were guarded today as officers sought to apprehend two men who robbed the First State bank at Somerset of approximately $6,000. Somerset is about 15 miles south of San Antonio.

The robbers escaped after the robbery yesterday afternoon in a sedan. Officers trailed them to near Von Ormy, where they were believed to have turned toward the Laredo highway, possibly with the intention of reaching the border.

Balbo And Fliers Back In New York

NEW YORK, July 21 (AP)—General Italo Balbo, Italian flying ace, and more than 30 of his flying companions, arrived here at 8:58 Eastern Standard time today after an overnight train trip from Washington.

The party returned in three special pullman cars and were taken to their hotel to freshen up in preparation for their parade and reception at city hall later today.

SLIGHT HOPES ARE HELD BY DRY FORCES

TENNESSEE VOTES TO REPEAL PROHIBITION BY NARROW MARGIN

(By The Associated Press)

Tennessee became today the 19th state to approve repeal of the 18th amendment as Oregon proceeded to ballot on the problem.

The margin of victory for anti-prohibitionists in Tennessee was smaller than in any of the other states which have held popular elections o nthe proposed constitutional change.

Lead Is Maintained

As returns from yesterday's election neared completion today, the repeal lead was approximately 10,000. Tennessee, the third southern state to vote on and approve repeal, had been dry for years, the legislature having passed a dry law in 1909. This year 3.2 beer was legalized. Returns from 1,962 precincts out of 2,232 gave: for repeal 122,416; against repeal 112,703.

In Oregon today, leaders of the repeal movement predicted 2 to 1 victory. Dry leaders seemed agreed that they had no more than a "fighting chance." Oregon jabooed liquor in 1915.

The polls open at 8 a. m. for a popular vote on the 18th amendment and the remaining state constitutional prohibition statutes.

State Acts Repealed

Last November by a vote of 206,619 to 138,775, the enforcing acts of state prohibition were repealed. This, in fact, nullified the constitutional provisions which remained.

Voters will elect 116 delegates to a constitutional convention on repeal of the 18th amendment.

Engineer Is Found Mortally Wounded

FORT WORTH, July 21 (AP)—John J. Mead, 68, division engineer for the state highway department for six years, was found mortally wounded on the floor of his garage today a few minutes after he had told his wife, "don't hurry breakfast."

A pistol was beside him. A note, fastened to the door of his automobile, said:

"My darling: I am doing this because I love you. Love to all my friends. I'll be with you in the glorious kingdom."

He died an hour later.

Wichita Jail Break Plot Is Frustrated

WICHITA FALLS, July 21. (AP)—Carefully laid plans of three prisoners to escape from the Wichita county jail were frustrated when jailers discovered improvised weapons and other equipment in their bunks.

Prisoners involved in the plot were Luther Milton Furr, charged with murder for the shooting of C. S. Carlisle, Wichita Falls policeman; Clyde Harrington, under five-year prison sentence for robbery with firearms in connection with a drug store holdup here; and James F. Williams, charged with forgery.

Mattern Awaiting Word From Backers

NOME, Alaska, July 21 (AP)—Greeted by his relief expedition, Jimmie Mattern, round-the-world flier, today awaited further word from his New York backers about his future activities, at the same time seeking further news of the progress of his rival, Wiley Post.

In a big Soviet seaplane flown by Pilot Levanovsky, a Russian flier, Mattern made the 600-mile flight here yesterday from Anadyr, Siberia, near where he crashed on June 14 on his globe-girdling flight.

RUTH GOOGINS, ELLIOTT ROOSEVELT WEDDING PLANS ANNOUNCED TODAY

Elliott Roosevelt, son of the president, and Miss Ruth Googins of Fort Worth are to be married tomorrow, it was learned today.

Son Of President Is To Marry Fort Worth Girl, Associated Press Learns

MRS. ANNA DALL WILL BE ONLY ATTENDANT FOR TEXAS BRIDE

BY ROY P. PORTER
Associated Press Staff Writer

BURLINGTON, Iowa, July 21 (AP)—Elliott Roosevelt, son of the president, and Miss Ruth Googins of Fort Worth, Texas, will be married here tomorrow under present arrangements, the Associated Press learned from an unimpeachable source today.

Young Roosevelt will arrive here by plane today, accompanied by his sister, Mrs. Anna Curtis Dall. Mrs. Dall will be Miss Googins' only attendant.

Who will attend Mr. Roosevelt was not ascertained. Only immediate members of the two families will be present at the wedding in the home of George C. Swiler, brother of Mrs. J. B. Googins, mother of the bride to be.

Hour Not Given

The hour for the wedding has not yet been set, the Associated Press was told. No formal statement will be issued until after the wedding and the couple has departed for a honeymoon "in the west," it was asserted.

Miss Googins and her mother rested this morning at the home of J. W. Swiler, father of George Swiler.

Mrs. Googins refused to make a statement. Interrupted at breakfast, she came to the porch of her brother's home, talked for a few minutes with newspapermen and returned to her breakfast.

She returned again shortly, nibbling at a doughnut in her hand, and asserted: "Nope, we won't talk."

"Newspapermen and publicity drove us out of Chicago" she asserted. "I'll tell you all about it Sunday."

KELLY FIELD OFFICER KILLED

SAN ANTONIO, July 21 (AP)—Second Lieut. Keith A. Thompson, Kelly field student officer, was killed last night in the vicinity of Hallettsville when his plane crashed after the motor quit while he was returning from a cross-country flight to Galveston.

The officer's body, in the cockpit of the plane, was found today by a searching party of six Kelly field planes.

Lieut. Thompson's home was in Elano, Wis.

HULL TRIES TO SAVE TRUCE

NEW RESOLUTION PUT FORWARD TODAY AT WORLD PARLEY

(By The Associated Press)

LONDON, July 21.—In a last minute effort to save the principle of a truce in economic warfare, Cordell Hull, American secretary of state, introduced a new resolution in the world economic conference today under which the United States might take such action as would be necessitated by the raising of wages and shortening of hours of labor.

Mr. Hull's proposal, presented in a statement designed chiefly to be a basis for study during the recess of the parley which will begin next Thursday, was presented to the economic commission after extensive exchange of views with Washington.

"The governments represented at the world economic conference," it said, "being desirous of abandoning economic conflict and collaborating in seeking general economic improvement through mutually possible exchange of goods, undertake to reach an agreement, first in a negative way of ceasing to erect new barriers, and then in a positive way of progressive reduction of existing barriers."

In an accompanying letter the American chief delegate said that his document advocated the immediate undertaking of reductions of existing barriers by the encouragement of bilateral and of practical multilateral agreements.

Two Convicts Are Granted Pardons

AUSTIN, July 21. (AP)—Governor Miriam A. Ferguson today gave conditional pardons to two convicts. They were Raymond Armstrong, serving five years for burglary and theft, and Martin Lambert, convicted last October for child desertion and given 18 months imprisonment.

SELLING WAVE AGAIN HITS MARKETS

LEADING SHARES FALL OFF FROM $3 TO $12 AS COTTON SLUMPS

(By The Associated Press)

NEW YORK, July 21.—Stocks crashed downward today in the wildest market since 1929. Extreme losses generally ranged from $3 to more than $12 a share for shares of the country's latest corporations. The break came after cotton tumbled more than $5 a bale.

Trading in many issues was demoralized due to the absence of supporting orders. Pools liquidated stocks in enormous volume and there was tremendous selling from speculative margin accounts that had collapsed.

Closing Report Denied

Reports that the New York stock exchange planned to close were denied by the exchange, which also said that dealings had not been suspended in any issue, despite the chaotic condition of the market. The tape at one time fell half an hour behind floor transactions.

By 2:55 o'clock the market had rallied from the lows. The rebound for some leaders was substantial, American Telephone snapping back to $119 from $114, reducing its loss by half. United States Steel common, which had collapsed under $50 for a loss of about $8, veered back to above $52, while New York Central after losing $11 cut its decline by $5.

Indications were that the turnover would exceed 9,000,000 shares. At 3 o'clock, the usual closing hour, the tape was half an hour late.

COTTON DROPS $10 A BALE IN 3 DAYS

NEW ORLEANS, July 21 (AP)—Cotton prices broke sharply for the third successive session on fresh waves of selling today as feverish activity followed a calm and rather steady morning.

With stocks rather firm and the grain markets closed, traders said there was no apparent incentive for the further liquidation save reports of beneficial rains in the western belt.

Drops $4 A Bale

After erratic fluctuations at the start had been followed by net gains futures dived $4.75 a bale from the morning tops to show a net loss for the day of about $4 a bale from

NEW OIL PLAN SUBMITTED

TRADE PLAN OFFERED HUGH JOHNSON BY MARKETING BODY

WASHINGTON, July 21 (AP) — Recognition of the marketing section of the oil industry on an independent footing was asked today in a trade plan submitted to Hugh S. Johnson, industrial administrator, by the independent and individually branded petroleum markets association.

The organization, composed of independent sellers of petroleum products in 22 states, presented its views as the national emergency committee of the industry gathered to go over the proposed trade code fixing wages and hours on which hearings will open before Johnson Monday.

Would Supplement Code

The marketing association proposed its ideas as a supplement to the code of practices for the petroleum industry approved in 1929 by the federal trade commission.

The marketing association asked that:

The minimum wage scale for marketing division employes in the south be $12 weekly, and $14 in the north, with a 42-hour week maximum.

No petroleum product be sold for less than the combined commodity and handling cost.

The producing, transportation, refining and marketing divisions of the industry be separated and the pipe lines segregated.

An administration advisory committee of 28 members, selected by the president, be set up to represent all branches of the industry.

Could Form Unions

The proposal also provided that employes could form unions or join them and be free from coercion of employers, suggested a standardized accounting system, and asked that the following items be include in figuring a minimum price:

Cost of material, freight, taxes, operating expense per unit of sale and a pro rata share of the general overhead.

It asked that applying profits or losses of one branch of the industry to another be prohibited and urged that the president initiate before the interstate commerce commission proceedings to prescribe regulations controlling operations and rates of pipe lines and agencies transporting oil by water.

85-Year-Old Bethel College Is Closed

RUSSELVILLE, Ky., July 21 (AP) —Bethel college, once a famous educational institution of the south, has closed its doors after 85 years, beset on the one hand by the extending curricula of high schools and on the other by larger and growing universities.

Bethel college gave rise to many distinguished educators, business leaders, professional men and politicians. Perhaps its most brilliant period was after the Civil war, when most of its faculty were former confederate soldiers.

FERTILIZER SALES GAIN

NEW YORK (AP)—Although May is an unimportant fertilizer month, Moody's points out that tag sales in the nine principal cotton growing states amounted to 174,000 tons as compared to 95,000 tons in May, 1932, 129,000 tons in May, 1931, and 153,000 tons in May, 1930.

The American school savings-bank system is now in operation in 15,000 schools of the country.

ROAD WORK TO BE AWARDED

HIGHWAY COMMISSION WILL HOLD MEETING ON JULY 31ST

AUSTIN, July 21 (AP)—The Texas highway commission announced that it was prepared to award contracts for highway construction estimated to cost approximately $1,000,000 at a meeting set for July 31. Gibb Gilchrist, state highway engineer, explained that the construction program contemplated immediately is not a part of the national recovery program for 1933. He said the projects would be financed under the emergency relief and reconstruction act of 1932.

Immediate projects include 20 1-2 miles of pavement on highway 4 in Hemphill and Childress counties. In Hemphill county it is planned to contract for 8.3 miles of pavement to extend from the intersection of highway 33 south. The Childress county project calls for 12.2 miles of pavement extending from the Red river to the Collingsworth county line.

Other July 31 projects are: Houston county, 9.8 miles of pavement on highway 21 from nine miles north of Crockett to 7.3 miles south of the Cherokee county line and Bexar county, 16.2 miles grading and drainage structures on highway 66 from San Antonio to the Comal county line.

THREE INDICTED IN SLAYING CASE

FORT WORTH, July 21 (AP)—The Tarrant county grand jury late Thursday returned nine indictments charging O. D. Stevens, W. D. May and M. T. Howard with murder for the killing of three men whose bodies were found in the Trinity river here last Friday.

Three murder charges against M. D. (Blackie) Howard, fourth member of the alleged crime ring, remain pending before the grand jury.

Each of the trio is charged with slaying Jack Sturdivant and Harry and J. B. Rutherford, whose disappearance on the night of July 8 led officers first to their bloody clothing and later to their bodies in Trinity river.

CHURCH WON'T 'COMPETE'

MACON, Ga. (AP)—The Church should not compete with private business which pays taxes, says the Rev. L. Boyd Hamm, pastor of the Lutheran Church of the Redeemer, who henceforth his congregation will shew all sorts of benefit luncheons and entertainments designed to raise funds.

The Iowa state weather and crop bureau reports a decrease of 29.2 per cent in farm-owned radio receiving sets during 1932.

Speeds Program

Appointed temporary administrator of public works under the act providing a $3,300,000,000 public works program, Colonel Donald H. Sawyer is shown at his desk in Washington as he began drafting, for Presidential approval, a list of projects on which work can be started at once.

Envoy To Greece

Lincoln MacVeagh of New Canaan, Conn., was named American ambassador to Greece.

TWO GIVEN LIFE

LAWTON, Okla., July 21 (AP)—Life sentences were meted out here yesterday afternoon to Finley Chappell and Eugene Fields of Enid by District Judge Eugene Rice of Duncan when the pair pleaded guilty to robbing a grocery here the night of July 8. Five persons, including the robbers, were wounded during the raid.

Beethoven was expert at playing the violin, organ, viola and clavier.

FARM LEADERS ARE PRAISED

CONGRATULATIONS ON SUCCESS OF ACREAGE PLAN GIVEN BY FDR

WASHINGTON, July 21 (AP)—President Roosevelt today congratulated farm administratorss, extension forces and volunteer workers in the south who carried out the cotton acreage reduction campaign which Secretary Wallace has pronounced a success.

In a message made public by Wallace, the president said: "The whole-hearted response of the cotton growers to the first test of the administration's program for agriculture is not only deeply gratifying but is also evidence of an intelligent determination on the part of farmers to take the necessary steps to improve the price and buying power of their product.

Support Pledged

"I wish to offer the forces who are putting the cotton program into effect my heartiest congratulations upon the initial success achieved and at the same time to urge the farmers that nothing be left undone to make the program completely successful."

Wallace announced that county agents in cotton states will begin issuing permits today and Saturday, making it possible for farmers who have agreed to reduce this year's crop to plow up the acreage they offered to take out of production in return for cash payments and options on government-held cotton. Administrators have accepted all contracts which have been approved by county agents and county committees but have not completed tabulation of them.

Beer Election In Arkansas Planned

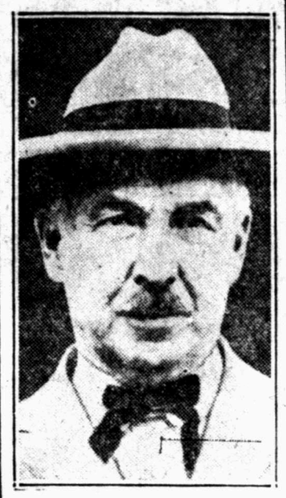

LITTLE ROCK, Ark., July 21 (AP)—Governor Futrell today announced he would call a special session of the legislature to legalize beer just as soon as a working majority in both houses had agreed on a bill.

The governor's action was taken as late returns from Tuesday's election showed the state favored repeal of the prohibition amendment by a majority of 21,000 votes.

With an estimated 10,000 votes still to be reported the count for repeal stood at 62,176 to 41,232 for retention of prohibition.

Relics have been placed in the little brick house where James K. Polk lived in Columbia, Tenn., before he became president of the United States.

Named Senator

William M. Thompson, above, is Nebraska's new U. S. senator, appointed by Gov. Charles Bryan to the seat of the late Senator R. B. Howell.

Arizona Legion To Lead Large Parade

CHICAGO, July 21 (AP)—For the third consecutive year Arizona legionnaires have won first honors for membership among all state departments of the American Legion and as a result will hold first position in the big parade at the legion convention here next October 3.

Parade positions, as well as convention seats and housings, are determined by state membership standings based on a four-year average. Arizona is one of four departments to have exceeded 100 per cent of its four-year quota average, showing 120.03 per cent. California has 117.08; Mississippi 109.74, and Tennessee 102.90.

PHILLIPS HEADS DRUGGIST GROUP

ABILENE, July 21 (AP)—Shine Phillips of Big Spring was elevated from vice president to president of the West Texas Pharmaceutical association at the closing session of a two-day convention here Thursday. He succeeds Floyd Bowen of Lubbock.

Other officers chosen were: Frank M. Myers of Abilene, vice president, and E. E. Smith of San Angelo, secretary and treasurer. Members of the new executive committee are J. W. Bryan, Lamesa; Carl Phillips, Rotan; Cecil R. Fitch, Abilene, and Bowen. The committee will name the next convention city.

A maximum 66-hour week and minimum salary schedule were included in a code adopted by the association.

Electricity Tried In War On Beetles

PORTLAND, Ore., July 21 (AP)—Seeking a more effective and less expensive method of exterminating the western pine beetle which was blamed for destroying $3,000,000 of Oregon timber last year, forest service officials are experimenting with electricity.

Research scientists are working on the type of current which will be required. The insects would be electrocuted by shooting current through them on dead or heavily infected trees by means of portable apparatus.

Use of parasites to prey on the beetle are difficult to breed in sufficient numbers and the method is costly.

Water spots on waxed floors can be removed by rubbing in circles with a flannel cloth dampened in turpentine.

Fifty-Two Jobs In Year Set As Goal

KANSAS CITY, July 21 (AP)—At a time when getting one job is proving a hard enough problem for several million Americans, a young woman of Kansas City has set out to work at 52 jobs in 52 weeks, in all the states of the union and a few of the United States' possessions.

She is Miss Lyra Ferguson, reader and entertainer, whose travels already have enabled her to build a fireplace with stones from all 48 states and several foreign countries.

Some of the jobs already obtained range from waiting tables in a northwestern lumber camp to hostess on a boat plying between the mainland and the Virgin Islands. She says she likes "every kind of work."

Tournament Set To Open Sunday

SPYING ON SPORTS

BY COLLIER PARRIS

There is a slight delay, gentlefolk, in connection with starting dates for the second annual Avalanche-Journal Invitation baseball tournament, but it'll be with us soon, and with it lots of fast baseball. So get set for the opening games Sunday afternoon, at 2:30 o'clock.

• • •

Some of the prospective entrants have requested for more time in which to round up their players and talk tournament to 'em. But at least eight powerful ball clubs, probably including the best talent of the Plains territory, are pretty certain to tee off. Drawings for first round games will be held Saturday afternoon at the J. & J. & H. sporting goods store, so all you managers drop around about 3 o'clock.

• • •

The Lamesa club, tournament champion last year, appears to be having a little difficulty in getting itself lined up, but it's pretty sure to be here. There's an unusual lot of baseball interest in that town, and it would be nothing less than a shame if the team couldn't come back to defend its championship. Tahoka, Enochs and Amherst also want a little more time to think it over and round up their ball clubs. Wolfforth is a bit doubtful, but that's one club that the tournament management, the other teams and the fans want in. Manager Fred Rich's club is one of the liveliest teams of this section. The boys play for the sport of it, and they have a larger following, we venture to say, than any club in a town of its size, or almost any other town on the Plains. The fans want Wolfforth because of its pep and ginger, and they'll come out to see the club perform with the hopes of seeing another little scrap. That bout last Sunday, whether a "frame-up" or not, and the resultant publicity served to boost baseball here more than anything else this season. Baseball needs more of that, and when the fans can have it, they'll start patronizing the sport again. Remember what happened at Washington after the player tangle this spring? The Yanks and Senators pack the stands when they get together.

• • •

Taking off of the ten-dollar entrance fee may draw more clubs into the fray. The purse won't be as large, but some of the teams are experiencing a little difficulty in scraping up the cash.

• • •

These softball league games are getting hot, eh Axcel? And they're having a lot of fun. After yesterday's game, this department is checking himself out, so far as actual playing is concerned until they start charging admission and splitting the purse between the players. There was a lot of razzing and taking and giving over around the sporting store yesterday following Wednesday's upset victory by the J. & J. team over Jim Holt's City Hall. Jim is reported to have said, after that 15 to 4 licking, that he was almost afraid to go home to his family. They were trying to sell him a flock of fishing net apparatus yesterday with which to equip his fielders.

• • •

The first half in the National League ends next week, but the American league first half extends three weeks longer. It may be that affairs can be worked out so as to end the second half in each league at approximately the same time, so a Little World Series may be played off.

• • •

OPENING DELAYED TO ALLOW TEAMS MORE TIME TO ENTER

Baseball clubs desiring to enter the second annual Avalanche-Journal Invitation tournament have until Saturday afternoon to let it be known. Opening day is Sunday, instead of today, the tournament having been postponed at the request of several teams who needed more time in which to prepare for the joust.

The opening double header is now slated for Sunday afternoon at 2:30 o'clock. Two games will be played daily, with the tournament due to end on Saturday. All games will be played at the College Avenue park, home of the Hubbers.

No Entry Fee

Acting on the suggestion of several managers who have entered, the tournament management has rescinded the entry fee rule, and has thrown the gates open for any team desiring to enter who will post a $10 forfeit bond—a pledge to play out the schedule—which will be returned in full as the teams are eliminated from the running. First announcement was that a $10 entry fee would be taxed each club, the money going into the purse, as well as part of the gate receipts. As the result of consultations yesterday, it was agreed that a wiser step would be to return the fee provided the teams played out the schedule.

Managers of all entering teams are to meet here Saturday afternoon at 3 o'clock for drawings for first round games. Two games will be played daily, and each team must be defeated twice before it is out of the running.

The "purse" to the winning club and runner up, as well as to third place winner, will accrue from the gate receipts, enough of the total being held out for actual expenses.

All teams who have not entered are requested to do so before 3 o'clock Saturday afternoon.

Some Mystery Here

Probable entries thus far are Lorenzo, Abernathy, Post, Lamesa, Tahoka, Enochs, Amherst, Levelland, Wolfforth and Lubbock. At least five of these are definite, together with a sixth which was entered yesterday by Dee Puckett, local cafe proprietor who kept the identification of his team in dark mystery. It was rumored that it was an out of town team, registering under a local name.

VINES BEATEN BY AUSTIN

BRITISH STAR TAKES STRAIGHT SETS FROM AMERICAN CHAMP

ROLAND GARROS STADIUM, AUTEUIL, France, July 21. (AP)—Henry W. (Bunny) Austin, 26-year-old British tennis star, handed the American Davis Cup forces a terrific jolt today by trouncing Ellsworth Vines, United States champion, in straight sets in the first singles match of the Davis cup inter-zone competition. The scores were 6-1, 6-1, 6-4.

Austin, the second ranking player of the English team and considered the "weak" link in the singles, outplayed Vines from start to finish in one of the biggest tennis upsets of recent years. He pounded the American's backhand to pieces in the first two sets, during which he broke through Vines' service five out of seven times, and had sufficient reserve to beat back his rival's last desperate attempt to stem the tide in the third set.

Vines Form Poor

Vines never looked like a champion after winning the first game of the first set. He was wild, he double-faulted frequently and seemed altogether baffled by the Briton's splendid control and keen tactics. Once he found Vines uncertain, Austin never relaxed the pressure.

The outcome stunned the Americans as well as a near-capacity crowd, which saw the British gain an unexpected lead, before their No. 1 ace, Fred Perry, tackled Wilmer Allison in the second singles match.

Now, and for the past eight or nine years, Morley is athletic director at Baylor university . . . he is a member of the Hot Springs (Ark.) coaching school staff . . . which also is drawing Howard Jones, Hunk Anderson, Frank Carideo and some other notables . . . but it won't compare in size and prestige with Pete Cawthon's and Dutchy Smith's Texas Tech school, which starts the last day of this month. . . . Loy Tidwell "Brack" Barksdale, coach at Canyon high school last year, will be at Littlefield this season . . . he's attending the second half of Texas Tech's summer session . . . and will be a student at the coaching school. . . .

CUBS SEEN AS REAL THREAT FOR TITLE

BABE HERMAN REGAINS BATTING EYE TO HIT OUT THREE HOMERS

BY HUGH S. FULLERTON, JR.
Associated Press Sports Writer

A prodigious burst of hitting by Babe Herman, benched only last Saturday for hitting weakness, again has pointed out that the Chicago Cubs may be the team the other four National league pennant contenders will have to beat to win the flag.

Herman got his chance yesterday because Riggs Stephenson was laid up with a cold, and walloped three home runs and a single and drove in eight runs in a 10 to 1 triumph over the Phillies. Kiki Cuyler contributed a triple, double and a single, and Lyle (Bud) Tinning pitched effectively in the pinches to become the 16th Chicago pitcher to go the route in the last 23 games.

Only 2 1-2 Games Behind

The Cubs have won 17 of their 23 contests since June 28 and are only 2 1-2 games behind the New York Giants, who dropped a 6-5 decision to the Pittsburgh Pirates yesterday. Pittsburgh remained only a half game behind Chicago.

The Boston Braves drew up to a spot only a game and a half behind the fourth place St. Louis club by beating the Cardinals 3 to 2 when a homer by Pinky Whitney and a triple by Rabbit Maranville brought in the eighth.

The American league duel between the New York Yankees and Washington Senators remained in status quo when both leaders dropped tough games to second division clubs.

Yanks, Sens Lose

Mel Harder of Cleveland limited the Yanks to three hits to give the Indians a 3-1 triumph and Tommy Bridges of Detroit bested Alvin Crowder of Washington in a 1 to 0 flinging duel as each team got only four hits.

The Cincinnati Reds drew up a half game behind Brooklyn and Philadelphia, which are virtually tied for sixth place in the National league by defeating the Dodgers 1 to 0.

More good pitching cropped up in the American league as George Pipgras limited the Chicago White Sox to five blows while the Boston Red Sox won 5-0. Lefty Grove of Philadelphia and Roland Stiles of St. Louis yielded four runs apiece in the first inning, then settled down for a fine mound duel that ended in the tenth when Pinky Higgins singled with the bases filled and gave the Athletics a 6 to 5 victory.

FIVE HUNDRED ENTER MEET

LEADING AMATEURS OF NATION TO COMPETE IN TOURNAMENT

NEW YORK, July 21 (AP)—Approximately 500 players, including virtually every leading simon-pure in the land, have entered the National amateur golf championship, to be decided at the Kenwood club, Cincinnati, starting Sept. 11.

Thirty-six hole qualifying rounds in 22 districts Aug. 8 will cut the starting field at Cincinnati to 150 including C. Ross Somerville, Canadian holder of the title who is exempt from the qualifying test.

Other leading entrants include Johnny Goodman of Omaha, American open champion, Francis Ouimet of Boston and Chick Evans of Chicago, former winners of the title, Walter Emery of Oklahoma, 1933 intercollegiate champion, Johnny Fischer, George T. Dunlap, jr., Jack Westland, Gus Moreland, Don Moe and Dr. Oscar F. Willing.

MRS. MOODY SEES PERRY AS THREAT

NEW YORK, July 21. (AP)—Whether the United States or England wins the interzone Davis cup finals starting at Auteuil today, Helen Wills Moody thinks France is doomed to lose the international tennis trophy in the challenge round next week.

"Fred Perry is playing splendid tennis and will give both Ellsworth Vines and Wilmer Allison hard matches," the woman's champion said on her arrival from England yesterday, "but unless Jean Borotra plays singles, which he may do, France scarcely seems able to hold the cup. Henri Cochet is not playing as well this year as he did last."

Mrs. Moody's own immediate tennis plans will take her into the Wightman cup matches Aug. 4 and 5 and the national championships later in that month. She will be seeking her eighth American title. She also may play in the Maidstone club invitation tournament at East Hampton late this month.

Thirteen cities and towns in the United States bear the name of Mansfield.

TWO SOFTBALL GAMES TODAY

QUICKSALL-PRYOR TO MEET ICEMEN; AUTO TEAM VS. UTILITIES

Quicksall-Pryor meets the Icemen in the American league and Texas Utilities take on the Lubbock Auto company team in the National league for today's softball contests. The games will be played at the 22nd street and Fair Park fields, respectively, both beginning at 6:15 o'clock.

History almost repeated itself yesterday when the Hilton Hotel softball team registered a 15 to 0 victory over the Weiss-Truck Terminal team at the Avenue K park, in an American League game.

It was the second no-run game of the season for either league, the Federal Employees having defeated the Weiss-Truckers, 14 to 0, more than a week ago.

Pitcher Shultz for the Hotel ten was almost invincible, and he was supported by almost perfect play in the field, and also at bat.

Huie-Ribble Wins

In another American league game yesterday, Huie-Ribble defeated Dee's Coffee Shop, 10 to 7, in an exciting game. Seth Bertram allowed nine hits, keeping them well scattered over the seven-inning route. The Huie-Ribble team went on a batting rampage in the third inning to score eight runs, after tallying once in the first. The tenth score was added in the sixth inning. Dee's men were held scoreless until the fourth when they went across for one run; they made three in the fifth and three in the sixth.

In the National league game, Kuykendall Chevrolet had two big innings to defeat the Avalanche-Journal club, 17 to 9. Faulty fielding and weak hitting accounted largely for the victory. The Chevrolet salesmen scored three runs in the fourth, after taking a two-run lead in the first; five in the fifth and five in the sixth. The Reporters tallied once in the first, took a lead with five runs in the second and scored again in the third. Scoreless for the next three, they crossed one in the seventh.

Rotarians Defeat Junior ABC Team

The Rotarians defeated the American Business club team, 13 to 9, yesterday in a Junior baseball league game.

The game was featured by the heavy hitting of several Rotarians, including the home run by Miller, his second in successive games.

The Kiwanians and Lions play today, the Lions being the home club.

Yesterday's lineups:

Rotary: Haney, 2b; Tyson, 2b; Buckner, 3b, Sullivan, 3b; Miller, p; Campbell, c; Gantz, cf; Hill, ss; Smith, lf; Davidson, 1b.

A.B.C.: Elliott, ss; Holton, cf; Stroud, 3b; Mast, 1b; Warren, rf; Delhisnez, lf; Swann, lf; Linn, 2b; Grimer, 2b; Fann, c and Knight, p.

Steers. Minogue limited Dallas to five hits and received perfect support.

San Antonio and Beaumont were idle because of Wednesday's doubleheader which San Antonio won.

INDIANS LOSE TO HOUSTON

BUFFALOES SCORE 11 RUNS IN THE FIRST THREE INNINGS

BY BILL PARKER
Associated Press Sports Writer

Whip 'em quick and play 'em a friendly few innings later is the new motto of the league leading Houston Buffaloes. Thursday night at Oklahoma City, the Buffaloes accumulated eleven runs the first three innings. They won, 11 to 1.

Seven runs in the first, one in the second and three in the third smothered Oklahoma City's hope for victory. Ed "Caveman" Greer went the route for Houston to pitch his 19th complete game this season. It was his 17th victory against five defeats. It gave him the league lead in games won, complete games pitched and second in innings pitched with 191. Houston collected 14 hits off Kennedy, King and Coleman. Greer was rather big-hearted. He gave Oklahoma City 10 hits but was stingy with runs.

The Buccaneers of Galveston flashed sweet news back to the Island City with a 4 to 3 victory over Tulsa. Hutchinson, tried out by Dallas and found wanting, toiled for Galveston. He allowed eight hits against the nine bingles Galveston got off Cromer and Bivin.

Lefty Minogue, Dallas cast-off, out-pitched Joe Vance to give Fort Worth a 3 to 1 victory over the

Pro Tournament Fuss Continues

FLAREUP OVER DATES REACHES CONFERENCE STAGE TODAY

MILWAUKEE, July 21 (AP)—The most recent flareup in the ranks of the Professional Golfers' association, occasioned by the outspoken refusal by several members of the Ryder Cup squad to play in the annual title tournament at Blue Mound unless a change in dates is made, had reached the conference stage today.

Gene Sarazen, Walter Hagen, Denny Shute, the new British open champion: Craig Wood and Joe Kirkwood, started it by saying they would not play unless the tournament were shifted from August 8-13, to September.

To Withdraw Guarantee

C. B. Johnson, chairman of the Milwaukee committee which has arranged for a guarantee to underwrite prize money and expenses, yesterday countered by announcing the guarantee would be withdrawn unless the Ryder Cup stars compete, leaving the pros with the alternative of playing for shares of whatever might be taken in at the gate.

Johnson and Albert R. Gates, business manager of the P. G. A. and R. W. Treacy, secretary of the organization, planned to confer today on what to do about the situation. Johnson said there was no possibility that the dates would be altered, and that the P. G. A. either would produce Sarazen, Shute, Hagen, Kirkwood and Wood, or the tournament could get along without the $9,000 guarantee.

With Sarazen as its spokesman, the Ryder Cup group has made it plain that previous business arrangements, tours and exhibitions, made before the tourney dates were set, must be fulfilled regardless of the championship tournament. Sarazen's brisk comments, in which the P. G. A. management was severely criticized, had generated a long distance battle of words between the Ryder Cup squad spokesman, and Tommy Armour, who has held just about every major title.

Says Eggs Hatched

Armour charged Sarazen and his associates with "killing the goose that lays the golden eggs." Sarazen's comeback was that the eggs had been hatched and that Armour had broken one when he let the national open title slip from his grasp at the North Shore Country club last month.

Armour today agreed that he had dropped a golden opportunity at North Shore, but said he felt bound to point out that Sarazen had matched him on the fourteenth hole at St. Andrews where the British open was played.

SAME PERSON CAN PROMOTE BOXING, WRESTLING BOUTS

AUSTIN, July 21 (AP)—Permits to promote both boxing contests and wrestling matches can be held by the same person under Texas' new law legalizing and regulating those sports, the state attorney general's department has ruled.

He held though it would be necessary for the promoter dealing with both boxing and wrestling to pay a license fee for each.

Jack Flynn, commissioner of labor, who was designated by the legislature as regulator of boxing and wrestling in a quandary whether a single, individual company or corporation could serve in both capacities, and if so, should one or two licenses be necessary, called on the law department for a interpretation.

The law which gives Flynn his authority to regulate boxing and wrestling does not become effective until September 1. Meanwhile it is unlawful to promote boxing contests in this state. That sport was outlawed in 1895.

Overnight Camp Is Planned By Scouts

A stout-and-dad overnight camp and campfire court of honor is the major event on the Lubbock Boy Scout calendar, D. T. Jennings, South Plains Area council executive, has reminded.

The event will begin at 1 p. m Friday, July 28, and continue to 8 a. m. the next morning, on the S. A. Autry farm on the northern edge of Lubbock. A bulletin issued this week by Executive Jennings gives directions to the site.

Troops at the camp and court will be judged upon 10 points, announced earlier. Each troop is to supply its own equipment, food, and wood for cooking two meals.

The court of honor is to be from 8 to 9:30 p. m.

Secret's Out, Now They'll Part

Judith Allen, 21, featured film player, disclosed in Los Angeles that she is the wife of Gus Sonnenberg, heavyweight wrestler, and is considering a divorce. The former Boston society girl, Marie Eliot before her marriage, said she had used the name Allen and also Mari Colman in motion picture work. Sonnenberg's resentment over his wife's name being linked in film gossip with that of Gary Cooper, screen actor, led to the disclosure of her identity. (Associated Press Photo)

STIRRED BY CITY RIVALRY, PASSION PLAY TOOK ON NEW GRANDEUR IN 1600

Editor's Note: This is the third of six articles upon the history of the Passion play, which will be presented, in English, at Texas Technological college athletic field, Friday night, August 4, under auspices of the Avalanche-Journal newspapers.

A preceding article told how the scripts for the plays were prepared. As early as 1264, the Passion play received the acolade of the pope, when the head of the church selected the Freiburg presentation for special attention in undertaking the introduction of consistency and refinement into the Passion play ceremonial.

In the hands of city authorities, by 1600, the Passion play began to take on new grandeur. Civic pride stirred to outdo in intricacy of plot and splendor of presentation all rival communities. The guilds fought for the right to present the most important episode in the life of the saviour. Each member in the strict ranks of these haughty labor organizations had a character to portray in the portion of the sacred story allotted to his group. Many a grim burgher put his finances in a desperate plight to insure the magnificence of the early Passion play.

Staged On Wagons

The drama was unfolded during the height of its popularity in the 14th and 15th centuries, not on the stage, but on wagons. Each guild owned a platform with wheels that was drawn through the city streets, and upon which was enacted the particular episode granted by tradition to this group. The guild of the painters portrayed the devil, Adam and Eve, Cain and Abel; The guild of the beggars, the angels, the three shepherds; The guild of the tailors, the three holy kings, and astronomer and angels; the guild of the shoemakers, Joseph, Mary, King Herod, two physicians, four knights, and many innocent children.

The guild of the masons and carpenters, a mountain, the coronation, Jesus, Judas, John and Peter; the guild of the barrel makers, Pilate, four Hebrew priests, Caiaphas and Annas; the guild of the butchers, the crucifixion; the guild of the goldsmiths, trial before Pilate; the guild of the merchants, the virgin with the dragon; the guild of the blacksmiths, Mary and the children under the cloak. The brotherhoods each year spent much time preparing for their appearance in the procession, that wound around the town through narrow streets, jammed with excited spectators.

Through five centuries, the Passion play of Freiburg swung back and forth between the processional presentation on the wagon-platform, and the stage verson, as played in the square in front of the cathedral. By 1700, the religious urge, as a community event, had lost its original spontaneity. The Passion play had become a puppet Show. Tiny wax figures were used, and the words of the sacred story were spoken by the puppet master from behind the curtains. By the beginning of the 17th century, the nobles had entirely withdrawn.

Bet Is Settled

SAN DIEGO, Calif.—John Odom, wharfinger at Fisherman's pier, walked the plank because Arkansas did not go wet 3 to 1. He had bet Albert D. Olsen, who like Odom comes from Arkansas, that it would.

Odom, fully clothed and with a huge ball marked "350 lbs." tied to his neck walked off a ten foot plank and splashed to the water 30 feet below the steamer dock. The weight turned out to be an inflated rubber ball. But Olsen agreed that a tuna clipper, by pumping its bilges on the spot, evened things up satisfactorily.

THOUSANDS OF TEXANS TO BE UNABLE TO VOTE ON REPEAL ISSUE AUGUST 26

(EDITOR'S NOTE: This is the second of a series of three stories on prohibition in Texas).

* * *

By CHARLES E. SIMONS

AUSTIN, July 21. (AP)—Thousands of Texans have been disqualified and will be unable to cast ballots in the August 26 election on the controversial prohibition questions because they failed to pay their poll taxes.

Figures compiled with the aid of the state comptroller's department indicate the total vote will be one of the smallest cast in a Texas election in years notwithstanding that questions to be decided have usually brought more voters to the polls than any other issue.

At the Aug. 26 election, Texans will vote on amendment of the state constitution to permit the manufacture and sale of 3.2 per cent beer and on ratification of repeal of the Eighteenth amendment. Both were burning issues in the 43rd legislature and have stirred the electorate for years.

The comptroller's figures show that only 645,776 voters paid their poll taxes before Feb. 1 of this year. Another estimated 200,000 persons will be eligible to vote because of exemption from poll tax payments, making a total qualified electorate of approximately 845,000.

Calculations based on the ratio between the qualified voters and the ballots actually cast in previous elections indicate that the vote at the special election will probably not exceed 600,000. Some estimates place the vote as low as 500,000, but 600,000 was regarded as more likely.

In the Democratic primaries of 1932, the highest vote polled by any candidate was 973,041. It was recorded for Lieutenant Governor Edgar E. Witt, who was unopposed. An estimated 1,235,803 persons were eligible to vote in this election, 1,035,803 on paid poll taxes. Slightly more than 21 per cent did not go to the polls.

Those familiar with election figures believe that the 1932 primaries attracted to the polls the largest percentage of the qualified voters of any election ever held. They predict that the vote in the prohibition election will fall far below the percentage in the 1932 primaries. It was figured that an average of 60 per cent of those qualified to vote actually take the trouble to mark a ballot.

The most reliable forecasts obtainable were that between 60 and 75 per cent would go to the polls in the prohibition election.

In the 1930 primaries, 1,275,791 persons were qualified but only 833,442 voted, or approximately 65 per cent.

Those who indulge in speculation upon election results believe the prohibition issue will not arouse the voters to the feverish heat of the 1930 or 1932 primary campaigns, when the state was closely divided between R. S. Sterling and James E. and Miriam A. Ferguson over the governorship.

Thought For Today

For I will give you a mouth and wisdom, which all your adversaries shall not be able to gainsay nor resist.—St. Luke 21:15.

Knowledge comes, but wisdom lingers.—Tennyson.

Divorce, Child Crime

A pertinent footnote to the never-ending controversy about divorce is contained in a survey of juvenile delinquents made recently by a sociology students at the University of Pittsburgh.

This survey showed that 50 per cent of all youngsters brought into court for theft, property destruction, etc., came from "broken homes." This is made more significant by the fact that only 18 per cent of the homes in Pittsburgh can be put into that classification.

When divorce is discussed we usually hear a great deal about the right of men and women to have freedom, their right to live their own lives, their right to quit one another legally if they can no longer get along. Many of the arguments along these lines are perfectly sound. But somehow it is hard to forget this citation of juvenile delinquency.

The child is apt to be the chief sufferer in a divorce case; its whole life, indeed, can be ruined by the selfishness of the incompetence of its parents in the marriage relation. Those who talk too glibly about easier divorce must remember the fact.

Though nobody was shot when Governor Murray called out state troops to delay the sale of beer in Oklahoma, it is probable that there were many who were half-shot after the ban was lifted.

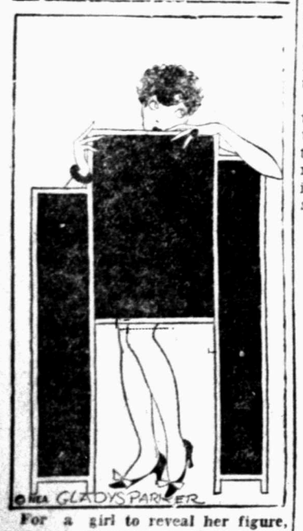

Seems this one of the reasons the London Economic Conference frittered out is because Europe found it couldn't stack the cards in Roosevelt's New Deal.

Bathing beach visitors have observed that the modern girl has a perfect back. Yes, and usually a perfect come-back.

Engineers have developed air-conditioning to the point where it now cools thousands of homes and business places. However it probably is too much to expect that science can ever eliminate hot air from political speeches.

The Plainsman disagrees with citizens who occasionally get so mad they want the state capitol burned to the ground.

It's wasteful and unnecessary to burn it to the ground but we will agree to an occasional fumigation.

THERE'S a lot of sense in the nonsense Arthur 'Bugs' Baer writes for the New York American and other Hearst papers. Witness his recent suggestion that now employment is picking up our Washington experts should discover the amount of our average natural loafers so the number may be subtracted from the total of unemployed.

Mr. Baer went on to show that even in the best of times there is a large number of citizens who decline to lift a hand to wipe their chins—and he's on the right track there.

* * *

There are millions of top notch Americans who are out of work today and who have been for too long a time.

They are entitled to all the city, state and federal employment aid they have received and probably more, too.

But there are among these deserving millions many 'natural loafers', as Mr. Baer characterizes them, who must be taken from the rolls when employment gets back to normalcy.

Horses ridden by Chicago's mounted policemen never fail to furnish a thrill for the admirer of finely trained equines.

While there is no record of their smoking Murads, they are nothing less than nonchalant, come what may.

And they represent one line of work in which man's old friend, the horse, can give the motor cards and spades and still win with game, big and little casino.

STANDING like Gibraltar in a maelstrom of honking trucks, speeding taxis and zipping private cars—with the elevated screeching overhead, the surface car rumbling along side—Chicago's police horses don't even bat an eye.

And a slight pressure of the rider's leg starts them moving right along, cutting between the lines of traffic and over to the side of the motorist who has aroused the ire of the officer.

The horses are so well trained that they go to the driver's side of the car without being guided—and they get right up against the running board so the officer has nothing more to do than lean over and start the verbal fireworks.

Standing on the busy corner of LaSalle and Madison recently, The Plainsman watched officer and horse perform their duties.

After a few minutes the horse stopped right at the corner and your humble servant engaged the policeman in conversation.

There is a rumor in Chicago that the police department employs a retinue of crack horse trainers for the mounted squad but according to the hardboiled 'mountie' The Plainsman questioned "that's the nertz!"

That officer said mounted patrolmen were issued the horses 'saddle broke' but all the rest of the training was done by the individual officer.

* * *

"TAKE this horse here", the officer said. "I've been riding him four years and he's ten now. He's as good as any horse in the department today but when I first got him he did everything but run up a building when he first got into the traffic".

The horses are almost perfectly matched—deep bays with practically no markings.

They wear combination shoes of cork and rubber, without calks.

Everything The Plainsman said yesterday about Collier Parris' second annual Avalanche-Journal Invitation Baseball tournament still holds good except for one thing—that is opening day.

There will be a twin bill at the same park every day, beginning at 2:30, at twobits admission per double-header.

Big Stick Not Yet Applied But Vigorously Waved To Spur Industry; Steel Code Produced Upon Roosevelt's Demand

BY RODNEY DUTCHER
Evening Journal's Washington Correspondent

WASHINGTON, July 21.— big stick hasn't been applied to industry, but it has been vigorously waved.

Gen. Hugh Johnson had been cursing under his breath at basic industries which wouldn't bring in codes under the recovery act. He carried in his pocket a stick of dynamite in the form of an ultimatum requiring submission of codes within two weeks—or else he'd promulgate codes of his own. Roosevelt told him to hold up on that though Johnson had letters indicating that the steel industry didn't intend to play ball.

Butcher

Then Roosevelt decided to act in his own way. He summoned Boss Myron Taylor of U. S. Steel and told him to snap into it. The steel code was ready the very next day and as word went out that there wasn't going to be any fooling, other large industries began to fall over themselves getting in their codes.

Johnson fumed again when he saw the lumber code, its 48-hour week and 22 1-2 cent minimum wage. He dictated a scorching statement, but slept on it overnight and substituted a more diplomatic one which merely called the lumbermen's terms "wholly unacceptable."

The first drastic step was taken when the government moved to put the milk industry on a license basis to force recalcitrant members into marketing agreements.

No "Super-Cabinet"

"Mack," said Roosevelt to his secretary, Marvin McIntyre, as he prepared to announce his new "council" of recovery and relief directors, "I'll bet some fellows will be calling this a 'super-cabinet'."

"Oh, no, they won't," replied McIntyre.

So everyone proceeded to call it a "super-cabinet." That's a poor name for it, since the administrator bloc is not more powerful than the cabinet. The principal directors nad administrators are under the supervision of cabinet members.

Diplomacy Via a Brewery

Acting Secretary of State William Phillips was miffed when he found himself announcing that negotiations for return of Jimmy Mattern to American soil in a Soviet plane were being carried on between the United States and Russian governments through a New York brewery backing the rescue of Mattern. Phillips hadn't paid much attention to the telegram from the Soviet asking permission for the foreign plane to land on American soil, or realized that the United States would be forced to reply through the brewery.

"This is puzzling," he admitted, when asked if the brewery were backing the rescue flight. An aide explained that it was.

"Why must we use the good offices of a brewery to permit a Soviet plane to land in Alaska?" he was asked for the fifth time. "Oh well, let it go!" exclaimed Phillips, throwing up his hands.

A Tardy President

A Washington newspaper semi-seriously demanded on behalf of correspondents that Roosevelt stop holding his press conferences from 20 to 30 minutes later than scheduled time.

The next day the president postponed his conference an hour and then let the correspondents wait 20 minutes more before calling them in. He was busy. His recent average of tardiness has been about 25 minutes.

With 'Whiz' BARRY Under The Capitol Dome

BY R. W. BARRY
Associated Press Staff Writer

AUSTIN, July 21. (AP)—Something new in Texas politics has happened. Former Governor James E. Ferguson made a political speech and did not mention former Governor Dan Moody's name. The next night Moody made a political address and did not bring Jim into the talk.

Ferguson enumerated all his old political enemies, but Moody was not among these listed. Moody called the names of many anti-prohibitionists but Ferguson was not included in the compilation.

Perhaps it was an element of the "new deal" heard about so much these days.

Decision Surprising

Ferguson's decision to enter into a prohibition debate with the Rev. Frank Norris, Fort Worth minister and giver of no quarter in any controversy concerning men and measures, came as a genuine surprise to everyone, even members of the former governor's family.

Hours after newspapers had carried announcements that "Jim Ferguson has accepted a challenge of Frank Norris to meet him in debate," Ferguson's long-time pal, C. C. McDonald of Wichita Falls, when told of the proposed debate, said:

"I'll betcha a suit of clothes Jim Ferguson isn't to debate with Frank Norris."

Ferguson and Norris met in debate, but it wasn't a meeting such as might be expected between those two. It was somewhat friendly, interesting, and without personal bitterness. One of the largest politically-minded audiences Austin has ever turned out listened to the exchange of arguments and virtually everyone stayed through two and one-half hours of it.

Now that Ferguson and Norris have debated, the obvious inquiry, "what about Ferguson and Moody?" is heard in circles that sees in every political enmity only fuel to keep the pot boiling.

upon signing of this state- t will cooperate in re-employ- by supporting and patronizing loyers and workers who are bers of N. R. A."

Johnson exhibited a chart he "the only significant chart is." It showed that values had far upward, leaving purchas- power behind.

Even as the new voluntary plan s completed, the industrial adnistration continued hearings on les proposed by different indus- es. Today's included lumber, coat suit, shipbuilding and electri- manufacturing, while steel has n set for July 31.

Johnson gave out two documents leaving the White House. One a copy of the agreement every loyer receives, the other a bulle- describing "the president's re- loyment program."

Signed By Roosevelt

The agreement began with a note every employer" and was sign- "Franklin D. Roosevelt." It read: 1. This agreement is part of a ion-wide plan to raise wages, ate employment and thus in- ase purchasing power and re- ore business. That plan depends olly on united action by all em- oyers. For this reason I ask you, an employer, to do your part by gning.

"2. If it turns out that the general greement bears unfairly on any roup of employers they can have hat straightened out by presenting romptly their proposed code of air competition."

The bulletin described the plan. explained an agreement would old until a code for the particular ndustry was approved, fixing wags and hours. It warned that for very trade or industry which has ot submitted a code by September the president will exercise his uthority and order hearings to roceed on the preparation of one.

"Swift Action Required"

"Swift-moving changes require swift action," the bulletin said. "A apid rise in prices and mass production is going on. Mass purchasng power must rise as fast. . . . n this national emergency we can ot delay broad re-employment while we wait for codes.

"Before labor day—six weeks away —it is possible to solve the probems of re-employment through individual agreements with the president. But to do this the country must act quickly, vigorously and boldly as one man—get together in one powerful effort—declare a truce on selfishness. . . .

"The employers' part is to act at once and all together to submit and scrupulously comply with agreements with the president to shorten hours and raise wages and to cooperate with employees in peaceful adjustment of differences.

"The employees' part is to do their best on the job and to cooperate with N. R. A. and employers in peaceful adjustment of differences. More can be done now for workers through this cooperation of 125,000,000 people than can ever be done by discord and dispute.

Support Is Urged

"The public's part—and especially the part of women (who control the bulk of buying)—is to support all those employers and employees who do their parts to put breadwinners back to work.

"There is no force here except conscience and opinion. . . . But this is not a ballyhoo campaign. . . .

"This is a test of patriotism."

Seven-membered recovery boards are created in each of the commerce department's 24 districts to supervise the work. A nine-membered recovery board is created for every state. All members will serve without compensation and will be named by the president to represent the various classes of society.

DAILY MARKETS

Cotton Market

NEW ORLEANS REPORT

NEW ORLEANS, July 21 (AP) — Cotton opened active and very irregular. Based on Liverpool, prices were due up, but instead October opened at 10.50, down 21 points from yesterday's close. Later months showed losses of only 7 to 9 points.

When this selling had been absorbed, the market rallied, October advancing to 10.84, up 34 points from the opening while December traded at 11.02, a recovery of 22 points. At these levels, prices were 13 points up from yesterday's close.

Near the end of the first hour the market quieted and prices held steady within 2 to 4 points of the highs.

Following the fresh liquidation of early trading the market rallied on firmness in stocks and covering by shorts. October rose to 10.86 and December to 11.05, or 22 to 36 points up from the lows and 15 to 16 points above yesterday's close.

Later in the morning, a fresh wave of liquidation appeared although no incentive was apparent, and before the new offerings were absorbed, October dropped to 10.37, and December to 10.57, or 48 to 49 points down from the highs and 32 to 34 points below yesterday's close.

Toward mid-session the market had a moderate recovery which carried prices of active months up 15 points from the lows to levels 17 to 19 points under the close of yesterday.

COTTON FUTURES

NEW ORLEANS, July 21 (AP)—Cotton futures closed barely steady at net declines of 40 to 46 points.

NEW YORK REPORT

NEW YORK, July 21 (AP)—Cotton opened steady, 4 lower to 7 higher with active outside liquidation offset by trade and Liverpool buying. July unquoted; Oct. 10.69; Dec. 10.89; Jan. 11.01; March 11.16; May 11.35.

Yesterday's big break had brought in a good many overnight selling orders, but the trade was a buyer of October, while houses with Liverpool and far eastern connections were credited with buying the later months, and there was some commission house buying as well as covering.

This proved sufficient to absorb the initial offerings and send the active months about 20 to 30 points net higher shortly after the call, with December selling up to 11.13. The unsettling effect on sentiment of yesterday's developments remained more or less in evidence, however, and offerings increased on the bulges. At the end of the first half hour, active months were ruling about 2 to 9 points net higher, with December selling at 10.99.

The early rally was followed by nervous and irregular fluctuations later in the morning. Both trade and speculative buying increased on the decline, but bulges met further liquidation and were not maintained. December contracts which had sold up from 10.88 to 11.13 on the early rally were ruling around 10.96 at midday when the general market showed net advances of 2 to 8 points.

Stock Market

WALL STREET REPORT

NEW YORK, July 21 (AP)—The wild and hysterial stock market, after racing madly in the first hours today, calmed down to such an extent that the financial doctors expressed hopes of a peaceful convalescence.

The opening was fast, with large blocks of shares changing hands at small gains or losses. Short covering, reinforced by "bargain hunte2Jers' soon brought an upturn of 1 to 3 or more points in many of the recently depressed leaders and some of the alcohols got back as much as 8 before retracing their steps.

While the grain markets were closed at Chicago, to enable commission houses dig out from under a mountain of work, Winnipeg wheat opened higher. It dropped back a little later but held fairly steady. Cotton improved. The dollar reacted sharply in foreign exchange markets, then rallied. Bonds were a trifle heavy.

Stocks that recovered 1 to around 5 or more points included National Distillers, U. S. Industrial Alcohol, American Commercial Alcohol, Standard Brands, Crown Cork, Liggett & Myers B, Western Union, Union Pacific, N. Y. Central, Consolidated Gas, Chrysler, American Smelting, Canada Dry, Cerro De Pasco, U. S. Smelting and United Aircraft. General Motors, U. S. Steel, American Telephone and other pivotal issues followed a rather narrow range.

GRAIN EXCHANGES SUSPENDED TODAY

(By The Associated Press)

Trading in grain and provision futures was suspended in the Chicago and Kansas City boards of trade for today following one of the wildest selling sessions in history.

The holiday, announced first by the directors of the Chicago board, and approved by Secretary of Agriculture Wallace at Washington as "a sound move in the right direction," was declared, the Chicago directors said, to give staffs of brokerage houses a deserved and needed rest.

Others Plan Action

At Minneapolis directors of the chamber of commerce called a meeting for this morning to decide their action on suspension of futures trading and a similar meeting was announced for the St. Louis Merchants' exchange by Thomas K. Martin, president.

Following the close of the market yesterday, which saw grains slip as much as 26 1-2 cents and July and September wheat toboggan to 90 cents at Chicago, speedy action was taken to impose stringent daily limits on price fluctuations.

Wheat and rye were limited to eight cents in either direction from the previous day's closing; corn to five cents and oats to four at Chicago, Minneapolis, Duluth and Kansis City.

Robert C. Boylan, vice president of the Chicago board, denied that today's closing order had been prompted by any word from Washington and said it was based solely to relieve commission house employes "who have worked loyally day and night for the last several weeks under what has been a record volume of business."

Disorder Sweeps Pit

In Chicago the break came just before the closing hour after a recovery from an earlier selling wave. Scenes of wild disorder occurred as messengers scurried about with selling orders of brokers anxious to unload at any price.

The urge to sell extended also to the New York stock exchange which had an 8,122,500 share day, the largest since May 5, 1930. Led by alcohol issues, which dropped from $7 to $20 a share, other stocks lost from $2 to $10.

Secretary Wallace said the closing of trading in grain and provision futures was without suggestion from him and said he viewed it as a "cooling off period in which to take stock of the situation."

The North Pole is shifting at the rate of seven inches a year.

It is estimated that motor vehicle production in 1933 will total more than 2,000,000 units.

Correction—Although the headline and body of the story were correct, the first paragraph of a story in Thursday's Evening Journal misquoted County Attorney Vaughn E. Wilson as a result of a typographical error, omission of the word "not." What the county attorney had said was that Lubbock county, because it had optional prohibition before state prohibition, could not have legal beer without a local option election favoring it, even though Texas voters passed a constitutional amendment to legalize beverages of an alcoholic content not exceeding 3.2 per cent.

Code Considered — Representing local beauty shop owners and operators, a committee, of which Mrs. Emma Phillips is chairman, met last night in the Hilton hotel to plan meetings in which drawing of a code of fair competition will be considered. A called meeting of all local operators will be conducted Tuesday night, and a region-wide meeting is scheuled for Tuesday, August 8. Other members of the committee are Jean Brewton, Billie Allred, Mrs. Beatrice Harvey, and Mrs. Annie Bishop.

Infant Child Dies — A daughter born Thursday morning to Mr. and Mrs. Marvin Brown, 2215 Fifth street, died Thursday afternoon. Burial was to be in Memorial Park cemetery at 10 o'clock this morning by Sanders Funeral home.

POST FLIGHT

(Continued from Page One)

ordered the repairs and then went to the United States army signal corps station where he was soon in a sound sleep.

Exhaustion Blamed

At Anchorage, other Alaskan fliers said they believed Post had become lost through his exhaustion, as flying conditions were not extremely bad, and other planes made flights in central Alaska during the day. He was considerably off a Nome-Fairbanks course when he came down to earth.

At Anchorage, Pilot Harry Blunt praised Post's landing as "wonderful work" on the small flat field, saying only his skill had prevented his striking nearby buildings and cracking up his ship entirely.

On getting out of his damaged plane Post appeared very blue and discouraged, with his face covered with oil. After asking for a wireless station, he wanted to know where he was, and refused all refreshment except a bottle of beer.

Post said that visibility over the Bering sea had been very poor, but was a little better near Nome. Storn, clouds inland, however, forced him to fly high and he lost his course.

Missed Radio Signals

He said he had not picked up any of the directional radio signals which Alaskan stations had been sending out to aid him in keeping on his course.

He blamed his exhaustion on the fighting of bad weather over Alaska during the seven hours he was "lost."

"I should have landed at Nome," he said, "as soon as I sighted land, or a short time after that."

At one time, he said, he was all ready to "bail out" and during much of the time he was afraid he might have to make a landing in an isolated region, out of communication with the world.

HERE ARE ESSENTIAL POINTS IN THE PRESIDENT'S RE-EMPLOYMENT PROJECT

WASHINGTON, July 21 (AP)—Here are the essential points of the "president's re-employment agreement" which employers will be asked by President Roosevelt to sign:

The voluntary agreement will be in force until the last day of this year or until a code to which the signer is subject takes effect.

It prohibits manufacturing or mechanical employment of children under 16, and otherwise permits them to work only three hours daily, not conflicting with day school, and between 7 a. m. and 7 p. m.

Sets a 40-hour week limit for clerical, service and sales employes, with store or service operation hours kept up to 52 a week unless now below that limit, when they may not be reduced at all.

Fixes an absolute maximum eight hour day for factory and mechanical workers, on a 35 hour work week with leeway for six 40 hour weeks in the period from now to December 31, 1933.

Exempts from these limits establishments with less than three workers in towns under 2,500 population unless part of a large trade area, also registered pharmacists and professional people, managers and executives drawing now more than $35 a week; emergency workers and highly skilled persons employed on continuous processes. The latter must receive at least time and one-third for all hours over the maximum.

Sets minimum pay levels for clerical and similar workers at $15 a week in cities over 500,000; $14.50 in those over 250,000; $14 in those from 2,500 up; in communities under 2,500 a 20 per cent raise provided the minimum need not exceed $12.

Provide 40 cents an hour for factory and mechanical worker minimums unless they made less than that on July 15, 1929. In that case the level on that date shall prevail so long as it was not below 30 cents. Piece-workers are guaranteed the resulting minimum wage.

Prohibits reduction of wages now above the minimum despite reduction in the hours of employment and calls for increased pay for all "by an equitable readjustment of all pay schedules."

Bans use of subterfuges to frustrate the agreement's spirit and intent.

Prohibits profiteering, limits price increases over July 1 levels to those made necessary by actual increases in production or invoice costs, taking full account of prospects of increased volume.

Binds signers to patronize establishments which also have signed, and to help obtain a code of fair competition for the signer's industry quickly, and in any event before September 1.

Provides adjustment of contracts for fixed price delivery of goods, to meet increased costs to the seller who has signed the agreement or is bound by a wage-lifting code.

The agreement ceases upon approval of a code to which the signer is subject, or if the recovery administration elects, upon submission of such a code by substitution of its provisions.

It provides further that those wishing to cooperate but who feel circumstances will cause the agreement to work hardship upon them may sign, put its terms into effect, file a petition approved by a representative organization of their industry, and obtain a stay until the situation is investigated, provided they agree to abide by the decision of summary investigation.

Each signer must report the number of employes in his establishment at the date of signing.

Five of America's great wars began in April; Revolutionary on the 19th, Mexican on the 24th, Civil on the 12th, Spanish-American on the 19th, and World War on the 6th.

Envoy to Germany

William E. Dodd (above), professor of American history at the University of Chicago, has been named United States Ambassador to Germany by President Roosevelt. Dodd, 63, was a close friend and confident of Woodrow Wilson.

NEW HIGH SET IN SPINNING

COTTON MILLS REACH RECORD ACTIVITY DURING JUNE

WASHINGTON, July 21. (AP)—United States cotton spinning operations reached a new high record of activity during June.

They operated at 129.1 per cent of their capacity on a single shift basis. This was a sharp advance over activity in May which was at 112.3 per cent of capacity.

June's activity was more than twice that of the same thirty day period in 1932 according to the monthly report of the census bureau today.

Activity in June, 1932, was 57.6 per cent of capacity.

Based on an activity of 8.96 hours per day the average number of spindles operated during June was 39,917,475. Many of the mills ran at capacity around the clock with 25,540,504 spindles active during the month. These set up a new record by operating an aggregate of 9,299,175,026 spindle hours during the month or 301 hours average for each spindle in place.

Cotton growing states showed the most activity. They had 19,076,226 spindles in place of which 17,593,138 were active during the month whirling an aggregate of 7,046,039,942 spindle hours or an average of 360 hours for each spindle in place.

Search For Anton Boy Is Continued

A search for Woodrow Keen, 15-year-old son of W. R. Keen of near Anton, was continued this morning. The boy left his home Thursday.

The boy was described as weighing 120 pounds, dark complexioned, and wearing trousers, blue shirt, straw hat, and work shoes. Woodrow left a team in a field, his father said. Persons with information regarding the boy are asked to inform Constable Jack Anders of Anton.

Oil Investigators Arrive At Austin

AUSTIN, July 21 (AP).—J. Howard Marshall and Norman L. Meyers, representing Secretary Ickes of the interior department in an investigation of threatened violations of federal production regulations in the East Texas oil field, were here today.

Marshall and Meyers have been in the field several days running down reports that certain producers planned to bring injunction proceedings to restrain enforcement of the presidents plan to stop movement of oil produced in violation of state and federal proration rules.

LOAN PLAN IS EXPLAINED

SHAW REVEALS TERMS UNDER WHICH OWNERS MAY RECEIVE AID

DALLAS, July 14 (AP) — James Shaw, Texas manager of the Home Owners' Loan corporation, revealed today the terms under which harassed home owners might be aided by the government's plan establishing a $2,000,000,000 fund to refinance mortgages on small homes.

"Loans to be eligible must be upon homes of valuation not ... that can be loaned ... is $14,000."

Notice-
Prospective Home Buyers

Read these two extracts from an interview with James Shaw, Texas manager of the Home Owners' Loan Corporation.

Previous owners are rushing in to obtain loans to repossess their lost homes, those under danger of foreclosure are arranging to refinance their loans.

The day of "Low Priced Foreclosures" is about over. You will pay more for a home shortly.

I have for sale forty such foreclosure bargains today in Lubbock AT THE OLD PRICE for a short time only. Five room brick veneers as low as $949.00 and up to $1980 for the very best six room bricks.

"The law provides," said Shaw's statement, "also that in cases where citizens have lost their homes by foreclosure that the corporation may advance funds to redeem such homes . . .

If you are a SPOT CASH BUYER you will pay for putting off buying a home. Residents of Slaton, Plainview, Floydada, Levelland, Lamesa, O'Donnell: I have like bargains in your towns also. Write me for prices.

SHERIFF'S SALE

By virtue of a certain Alias Order of Sale issued by the Clerk of the District Court of Travis County, Texas, for the 126th Judicial District of Texas, on the 6th day of July, A. D., 1933, in a certain Cause No. 51,514, wherein Minnie Creutzfeldt is Plaintiff, and C. E. Donnell, Lou Donnell and N. C. Nix, trustee, are Defendants, in favor of said Plaintiff for the sum of $6,303.00, with interest on $973.00 thereof at 6 per cent per annum, and on the remainder at 10 per cent per annum, all from January 23rd, 1933, with all costs of suit, that being the amount of a judgment recovered by said Plaintiff against the defendant, C. E. Donnell, with foreclosure of vendor's lien and deed of trust liens against him and against all of said other defendants, in said cause on the 23rd day of January, A. D., 1933.

I have levied upon and will on the 1st day of August, A. D., 1933, it being the 1st Tuesday in said month, at the Courthouse Door of Lubbock County, Texas, in the City of Lubbock, between the hours of ten o'clock a. m. and four o'clock p. m. proceed to sell for cash, to the highest bidder, all of the right, title and interest of the said C. E. Donnell, Lou Donnell, and N. C. Nix, trustee, in and to the following described property, levied upon as the property of said defendants, to-wit:

East fifty (50) acres of the North Half of the Northwest Quarter of Section number Eleven (11), in Block C-K, surveyed by virtue of Certificate No. 2238 issued to G. C. and S. F. Ry. Co., and patented to Chas. H. Kent, assignee, by Patent No. 292, Vol. 39, and situated in Lubbock County, Texas.

The above sale to be made by me to satisfy the above described judgment for Sixty-three Hundred and Three ($6,303.00) Dollars, with interest as aforesaid, in favor of said Minnie Creutzfeldt, together with all costs of suit, and the proceeds applied to the satisfaction thereof.

CORN CROP IS GIVEN RELIEF

BENEFICIAL SHOWERS ARE REPORTED IN BELT PAST WEEK

(By The Associated Press)

WASHINGTON, July 21 — The weather bureau in its weekly crop bulletin said today that beneficial showers occurred during the past week in the western part of the corn belt from North Dakota to Kansas and that the corn crop made favorable progress.

Farther south it described conditions as remaining decidedly unfavorable, especially in Oklahoma, where it said "corn is mostly burnt up except on some bottom land.

Late Corn Deteriorated

In Texas late corn deteriorated, while in the western third of Kansas the crop was reported as poor and backward.

Moderate to somewhat low temperatures with general showers prevailed over the eastern half of the cotton belt, but over the western portion warm weather continued during most of the week and showers were generally light and scattered. The bureau said this made a rather favorable week from the Mississippi valley eastward, but unfavorable in the west.

It added plants are fruiting well in South Carolina and Georgia.

Slaton Woman Hurt When Hit By Auto

SLATON, July 21.—(Special)—Bruises and abrasions were suffered by Mrs. J. H. Edmondson when she was hit and dragged a short distance by an automobile here about 4 p. m. Thursday. She was taken to Mercy hospital.

The attending physician said her injuries were not serious. An automobile owned by J. W. Ward struck Mrs. Edmondson while she was crossing a street downtown. Mr. Ward's son was driving the car.

Former Angelo Man To Accompany Byrd

SAN ANGELO, July 21 (AP)—Captain Alan Innes Taylor, who resided in San Angelo for some time and became widely known throughout this section, will sail Sept. 1 with Admiral Richard E. Byrd to the Antarctic, it has been learned. Captain Taylor will be in charge of the dogs as he was on the last expedition.

The trip is to be one of purely scientific nature, the chief purpose to find out what resources are in the frozen area. Once that region was tropical, Captain Taylor said, and he believes great deposits of coal will be found.
