Joe Hester is a raiser of good big onions but Max Caswell is the champion around here so far.

Joe brought us an onion that we thought was a whopper—and it was. It weighed 10 ounces and was perfectly shaped. After we wrote about Joe's onion, Max Caswell brought in one that weighed 1 pound 2 ounces. Then along comes Jack Brewer, also a raiser of onions, with three that weighed exactly 2 pounds.

With onion being raised here like those the thought occurred that perhaps farmers with irrigation wells might do well to put out a small patch of onions to try the crop next year. We have no idea what such a crop might pay but it might be worth looking into.

One thing about it, the onion crop could be gotten off the land early enough for a crop of something else. And it seems to me that with irrigation costing what it does to equip for it, the farmer needs to grow everything he can on his land to make it pay well.

Jim S. Martin Found Dead At Home

Funeral services were held at the First Baptist Church in Loraine Sunday afternoon at three o'clock for James Sherman Martin, 60, who died at his home North of Loraine of gunshot wounds some time Friday afternoon.

Mrs. Martin returned home late Friday after spending the afternoon with her father, T. J. Newton, and found her husband dead in the house.

Mr. Martin had been ill for some time and was unable to work. He took Mrs. Martin to the home of her father Friday afternoon and was to come to Loraine to secure a hand to help with the field work. Instead, he returned home and ended his life by shooting himself with a shotgun, according to Justice of the Peace Homer Hart, who made an investigation.

Born October 11, 1894, at Bonham, Texas, Mr. Martin came to Mitchell County in 1914. He served in the United States Army during World War 1, more than a year of the time in France and Germany.

After returning from the Army, he married Myrtle Mae Newton on February 6, 1924, at Colorado City. They have made their home near Loraine since their marriage..

He is survived by his wife; a daughter, Mrs. Lucille Brown of Silverton; two grandchildren, Pax and Ronnie Brown of Silverton; two brothers, George Martin of Roscoe, and Silas Martin of Port Lavaca; and a sister, Mrs. Alfred Kidd of Loraine.

Pallbearers were Cline Taylor, Raymond Wheeler, Leonard Coldewey, E. C. Gale, Arthur Peiper and Walter Stirl.

Interment was in the Loraine Cemetery under the direction of Wells Funeral Home of Roscoe.

Conical Stock Tanks Recommended bySCS

Conical shaped or deep round stock tanks are gaining wide recognition with farmers and ranchers in Mitchell County Soil Conservation District.

The latest conical tanks laid out by the Soil Conservation Service technicians at Colorado City were for J. C. Barkley, Frances Winn, R. P. Ainsworth, Tom Morrison, Jimmie Maddox, and Spade Ranch.

They are staked by a circle of stakes averaging in width from 125 feet to 175 feet in diameter and a depth from 18 feet to 22 feet, placing the dirt usually on the lower side of the circle, forming a semicircle, or horseshoe shape. The pit is usually built with approximately 3 to 1 side slope, eliminating a lot of bog around the edges of the tank in most types of soil. The livestock will not wade around as much in a deeper tank, thus preventing a lot of muddy water.

The conical tanks have several advantages in this area, even though they are smaller in size. They are deeper and less susceptible to so much evaporation. About six feet of evaporation takes place each year in this area. It is better to have ½ acre 20 feet deep than to have 2 acres only five feet deep. These tanks are below the ground level, and are deeper and somewhat cooler. They are usually located on a drainage area of 50 to approximately 250 acres, preferably with as much grass as possible, to cut down silting of the pond.

Emmett Erwin, a cooperator with Mitchell SCD, who ranches in the Cuthbert Community, says his two ponds caught full on the first rain.

Heavy Rain Damages Crops North of Town

Rain has continued to fall at regular intervals in this territory all through the month of June to give this section the best moisture it has had in a long time.

Last Thursday, .45 of an inch fell in Loraine. South of town, however, the fall measured as much as an inch or more in some places, and was light north of town.

In the early hours of Monday this week Loraine received. 85 of an inch and the fall got lighter south of town. North of town, however, measurements ranged from an inch to three inches. Some fields were badly washed north of town and some crops covered so badly with sand it will be necessary to replant. Only a few farms suffered severe losses in this manner.

Aside from having sand damage to crops this section has been very fortunate in that no severe hail storms or wind storms have visited here this spring.

Rainfall for the month of June up to the 20th measured 2.90 at the government gauge here in town. Some areas in the territory have received much more.

May was the next wettest month with 5.75. Rainfall this year up to June 20 measured 11 inches at the government gauge This is only 1.85 inches less than the amount received during the entire year of 1954 when 12.85 inches were recorded.

Get into the Fine-Car Class...

STAR CHIEF CUSTOM CATALINA

. . . at a cost you can easily afford!

What *is* a fine car? What sets a certain few apart in the world's esteem . . . wins them first place in most people's desire?

First and foremost, a fine car is a *style-setter*—a real advance in smart appearance.

Naturally, it's also a *pace-setter*—a fundamental forward step engineering-wise. At the wheel you should know that you've reached the peak of performance—experienced an all-new kind of flashing, vigorous, smoothly delivered power.

There's more, of course. It must be enviable for sheer luxurious comfort, for restful roadability, for thought-quick handling ease.

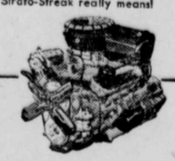

And it must, above all, be wholly dependable, for only a trustworthy car can be called "fine."

If this meets your definition of a fine car *and you want it*, there's nothing in your way. For this description is right off the Pontiac score sheet—a short but perfect picture of this big, powerful, future-fashioned car. *And Pontiac's prices fit comfortably into anybody's new-car buying plans!*

Come in for the rest of the reasons why this is the fastest-selling Pontiac in history—such as the inside story of America's most modern and efficient automotive power plant, the sensational Strato-Streak V-8. And get the trade-in appraisal this great success permits. We're sure we can prove that now's *your* time to move into the fine-car class!

THERE'S NO POWER LIKE STRATO-STREAK POWER!

Here is the heart of Pontiac's terrific performance—the all-new, ultramodern Strato-Streak V-8! This masterpiece of engine design will deliver up to 200 horsepower with Pontiac's 4-barrel carburetor, an extra-cost option. Come on in, take the wheel and see what Strato-Streak really means!

MONEY AND BANKING
In Everyday Living

U.S. GOVERNMENT CHECKS issued to veterans, Social Security pensioners, and others are generally considered "good as gold"; hence tempt thieves. If you receive such checks by mail it's a good idea to take precautions. If possible, equip your mailbox with a lock; arrange to have someone at home when you expect checks to be delivered.

★ ★ ★

One nice thing about hobbies is that so many of them lead to additional income. Photography, writing, painting, pottery—these and similar hobbies can and often do bring in extra checks. Even if sums so earned are small, a hobbyist can make the thrill that comes with each sale last and last — by depositing a part of each check in a savings account at the bank.

A doctor friend of ours stopped in the other day to talk with one of our officers. Seeing a patient who had recently been quite ill but now looked well and fit, the doctor smiled proudly. Our officer smiled proudly, too: The patient had been able to pay the doctor's bill promptly — thanks to a Personal Loan from our bank. We lend, at low cost, for all sound purposes. See us when you can use credit.

★ ★ ★

JUST SUPPOSE that there were *no banks*. Who'd supply currency and change; provide checking service, to make possible rapid, safe transfer of funds; perform the many other functions of a bank on which you depend? Meeting the daily financial needs of millions, banks are an integral part of America's national economy.

"Let us show you how easy it is to drive a CHRYSLER!"

Chrysler owners know it and we'd like you to know it— *Chrysler is winning performance honors, hands down!*

Come prove it to yourself by taking the "100-Million-Dollar Ride!" It's a driving thrill that no other car can give you . . . with America's finest family of V-8 engines to choose from . . . up to 300 hp; mightiest of all! Teamed, mind you, with PowerFlite automatic no-clutch drive . . . which for honey-smooth take-off power leaves even "second best" out of sight!

Chrysler is a big car. Low, long and sleek. It has fashion experts coining new terms to fit it, like "tailored steel." Yet, thanks to countless exclusive drive-features (all Chrysler-originated) it handles as easy as a wave of your hand. There's *Full-time* Power Steering, for one. Chrysler Power Brakes, for another. Extra large . . . extra easy to apply . . . extra safe stopping power!

That's why we say you're not only miles ahead in a Chrysler, but years ahead as well. Isn't now a good time to start pacing the field in the car that's the big news of 1955? We're ready to start you off—the minute you say when!

COME TAKE THE **CHRYSLER** "100-MILLION-DOLLAR RIDE!"

MOST Modern V8 FOR YOUR JOB!
NOW...THE SHORTEST STROKE V8's
IN ANY LEADING TRUCK!
Now new Chevrolet Task-Force trucks bring you the industry's most modern V8* engines with an ultra-short stroke for longer life—plus all these great advances.

Modern 12-volt electrical system
You get *double* the punch for quicker starting and more efficient ignition plus a greater electrical reserve.
Gas-saving high-compression ratio
With a high 7.5 to 1 compression ratio, Chevrolet's new V8 truck engines squeeze extra power out of every tankful of gas.
New aircraft-type valves
Each valve functions independently—as in modern aircraft engines. Valve action is more positive.
Floating oil intake . . . full-pressure lubrication
Intake selects the cleanest oil for full-pressure engine lubrication.
*V8 standard in the new L.C.F.'s, an extra-cost option in all other models except Forward-Control.
