

Missionaries Visit Church

Rev. and Mrs. Carlos Welch, missionaries to India shown here with their children, were guest speakers Sunday evening at First Methodist Church. The couple, now attending Perkins School of Theology, Southern Methodist University, for a year of graduate study, accompanied Dr. J. B. Holt, director of missions at Perkins, who spoke at the Sunday morning service. Rev. Welch is a native of Louisiana with degrees and special training at 4 institutions. Mrs. Welch is a native of Jabalpur, India, with college degrees from India and U. S. universities.

Birthday Party Honors Bowles Boy

By MRS. ROY WELLS
Record Correspondent

LORRAINE — A party Saturday night complimented Carol Bowles on his 14th birthday.

Scene for the party was the home of the honoree's grandparents, Mr. and Mrs. Ted Lefevre.

After games were played the group was served birthday cake and soft drinks.

Those attending were Carolyn Schroeder, Linda Roan, James Mabon, Keith Hamilton, Harold Preston, Jerry Finley, Ronnie Blair, Byron Mote, Donnie Bowles, Mr. and Mrs. Royce Beights and Renee.

MARCH—

Continued from pg. 1
ference room will map plans for the march.

Mrs. Gary pointed out Thursday that the March of Dimes is not a participating agency in Mitchell County United Fund.

"This separate drive for the March of Dimes," Mrs. Gary said, "has been decided upon because leaders of The National Foundation believe a separate campaign is the best way to let you know about matters of health, disease symptoms, precautions and the development of preventives."

"A separate drive lets you select wisely and give directly to a cause that you can understand and believe in."

"Our message is more than a plea for funds," she said. "It is also your opportunity to play an important role in meeting the research and health problems of your community and country."

PARADE—
Continued from pg. 1
Assoc. is financing the \$20,000 trip.

Tuesday, the band played for the inaugural ceremonies at the State Capital in Austin. That night the Longhorn Concert Band presented a concert at the Inaugural Ball Reception honoring Governor Price Daniel and the other Texas officials.

Club Observes Arbor Day

Colorado City Garden Club members, in accordance with Arbor Day, planted five trees this week at Lake Colorado City Park. Shown above, from left to right, are Mrs. Roy Davis Coles, Mrs. R. D. Bridgford and Mrs. Ruth Airhart. This is the 5th year the club has participated in tree-planting for this occasion.

WITH PLANTING OF TREES

Colorado City Garden Club Members Observe Arbor Day

Colorado City Garden Club members along with many other clubs and individuals in the state will conduct their annual observance of Arbor Day Friday.

This annual event will mark the 5th year the local club has participated in the planting of trees in or in the vicinity of our city.

Arbor Day is the international tree-planting day, first observed in Nebraska in the year 1872, when a newspaperman, J. Morton Sterling, urged the people of his city and state to replace the alarming number of trees that had been cleared from the once abundant forests.

More than a million trees were planted in accordance with the day and since that time, it has been a holiday in some states throughout the country.

Arbor Day is now observed in all states either by legislation or by proclamation of state officials. It has become an occasion for impressing upon all people their responsibility to make their yards, neighborhoods, parks and public grounds more attractive.

Time of celebration varies in different states — some times even in different localities of the state — but April and early May is the rule for states of the north and February, January and December are months in which southern states generally observe the event. In Texas, Arbor Day is the third Friday in January.

This year, five trees donated by Miss Hennie Meriwether and Mrs. W. M. Elliott, who reside together at 708 E. 6th St., were planted by club members at Lake Colorado City Park.

The China mott trees were planted in the general picnic area of the park to provide shade as well as beauty to an area which is almost bare of plants and shrubbery, club members said.

Serving on the committee in charge of the Arbor Day planting were Mrs. R. D. Bridgford, Mrs. Ruth Airhart and Mrs. Will Berry.

Defending Champs Slug Wolf Cagers 93 to 46

By JERRY MCKAY
Record Staff Writer

Defending state champions, Lamesa crushed the Wolves Tuesday night by a score of 93-46.

Although the Wolves led for the first three and a half minutes, Lamesa's rebounding, Wolf wild passes, and a few intercepted tosses started the comeback.

Lamesa overcame the slow start to forge a 21-14 lead at the end of the first quarter.

The Hometown boys weren't finished yet, though. The Wolves fought to within 5 points of Lamesa, 18-23, and

again to within 4, 26-22 in the second period. The same old story, bad passes, few rebounds, stolen passes, took command of the C-City team, however, and Lamesa pulled away to 40-27 halftime lead, never again to be contested by the Wolves.

The Tornadoes whipped up 24 points in the third quarter. Their defense held the C-City to 7, making a score of 68-34.

Fourth quarter was pretty grim, unless you happened to be from Lamesa, because the visitors dominated this period. The final score read 93-46.

BY 65-52 COUNT

Revenge! Wallace Bops Abilene '5'

The Wallace Wildcats, behind the accurate shooting of Curtis Scott, David Miles, Tony Jones, Henry Burton, Jerry Williams, beat Abilene here Monday night.

The score was 65-52.

Wallace started out very fast leading 20-6 at the end of the first quarter. While Tony Jones and David Miles continued to pop the nets, the cold Abilene starters failed in their many attempts.

Perhaps Abilene would have made more points if Tony Jones, David Miles, and Curtis Scott had let them have a few rebounds. The Wallace rebounders controlled the backboards the entire first half as Wallace led 40-22.

The Abilene Coach must have stuck a match to his cold team, and they came back hot as a firecracker in the third frame. They made 18

points in that frame while Wallace could muster only nine. The score at the end of the third quarter Wallace 49; Abilene 40.

Curtis Scott, personally, kept Abilene from getting any closer. His eight points in the fourth quarter along with D. Miles' and T. Jones' rebounds, posted Abilene's fifth loss of the year.

Wallace lost twice and that's what made the victory so sweet. Wallace knocked Wallace into defeat earlier in the season.

Abilene boys won a squeaker from Colorado City here Monday night edging the Wallace team 31-29. The game was a tight one because one team was never over five points higher than the opponent.

Wallace hosts Odessa here Thursday night at the Wallace gym.

Figuring prominently in the victory were Gene Westmoreland with 16 points, Leslie Williams with 16, Bruce Ashton with 13, and Ken Crouch with 11.

High for the hosts were Perry Loveless and Jon Moore with 11 points apiece. Steve Hillhouse, whose injured mouth-protector gave him the appearance of the Lone Ranger, hit 9 points, 7 of which were charity tosses.

Auto Owners Urged to Get Stickers

Colorado City and all Mitchell County motorists are urged to secure their 1961 vehicle inspection stickers before the time gets short and the lines get long.

The Texas Department of Public Safety reported Thursday approximately half of the inspection period has expired and only about one-third of the vehicles in the state have been inspected.

Unless the number of inspections is increased appreciably soon, waiting lines will be forming at inspection stations when the April 15 deadline approaches.

After that date, vehicles not displaying the new inspection sticker will be operating in violation of the law.

The 4,800 authorized inspection stations over the state are ready and capable of handling the inspection of Texas registered vehicles without delay if owners will not wait until just a few days before the deadline, the department reported.

The state agency called attention to the fact that since the beginning of the inspection program, vehicles having a defect that was a causative factor in fatal accidents decreased from 13 per cent to 5 per cent.

The purpose of the motor vehicle inspection program is to discover any maladjustment which might become a link in a cycle of events leading to an accident and, by removing the link, prevent the accident," he department emphasized.

Snyder Nips 8th Graders By 28-24

By JERRY MCKAY
Record Staff Writer

Eighth Grade Wolves dropped a close one to Snyder Travis Monday night by a score of 28-24.

The Wolves were behind all the first half but battled back in the third quarter.

In the first quarter, Travis doubled C-City's score, 5-0. Both teams scored 4 points in the second period.

Then came C-City's big move. They held Snyder to 3 points and put in 8 of their own to tie the game.

A furious fourth quarter saw Travis come out on top, by scoring 11 points to 7 for the visitors.

Two Wolves led the futile assault. They were Ronnie Preston and David McKay. See SNYDER Pg. 4

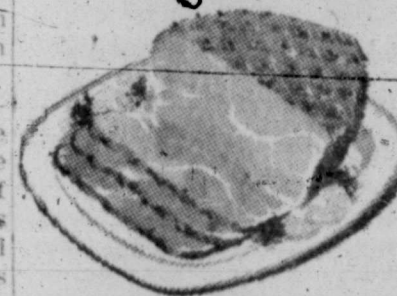

Finger Painting Masterpiece

Some critics say this pointing is just being palmed off as art. Others, including its owner, Mrs. Thea Tanner, who displays it in Stockholm, Sweden, think it's great. The piece was executed by painter Stellan Morner, who first pressed his hands in point, then onto the canvas.

There's A Valuable Place For You

Ours is the richest land on earth. It is a fertile nation where the seeds of progress flourish as in no other land. It is so because we nurture the beginnings of progress with free competition and keep surging ever forward by our strong desire to make a better world for ourselves and our children.

The measure of progress in our community, our nation and the world depends on the action of the people — it depends on You.

Make plans now to do your part toward helping our community make greater progress — by taking part in the civic affairs of this community during 1961. Contact your local Chamber

of Commerce now for details on how you can help.

There is no better way to serve the interests of Colorado City than with an objective, working interest in our Chamber of Commerce.

Capable leaders, elected by the Chamber's own membership and directed by the president, Dr. Seth Cowan, already are enlisting business and professional personnel for key roles within this community structure for progress.

And the initiative of eager, forward citizens is certainly a step ahead of the drafted. So, join hands now for worthy, while cultural and business progress by offering your ideas and talents.

Significance In Population Trend

As the year 1960 comes to its end, population trends in Texas confirmed by the Federal decennial census have now given some study and evaluation.

What the findings in general add up to are that the thinly populated, open-country areas of the State are becoming even more thinly populated while more people are flocking to counties which already are thickly populated.

Over-all, in round numbers, the total Texas population increased from 7,700,000 in 1950 to 9,500,000 in 1960, a rate of growth amounting to 23 per cent against the national increase of 17 per cent. Only two states outstripped the 1,800,000 gain in Texas: California, which had an increase of about 5,000,000, and Florida, which grew by slightly more than 2,000,000.

But despite the over-all gain in Texas out of the State's 254 counties showed losses in population. This was an approximate follow-up of trends established in the decade from 1940 to 1950, with the losses in total population confined largely to counties which have no sizeable towns or cities and which offer little in the way of industry.

However, there were some exceptions to the movement away from rural counties. Some of these counties, main-

ly in West Texas and in the Panhandle, showed steady gains in population. In general, these were counties which have developed farming by irrigation, are devoted largely to cotton and grain cultivation, and have resources of oil and gas.

Three of the older, comparatively thickly settled counties showed the heaviest losses in population. These were Lamar County in Northeast Texas, which lost 9,000 during the decade, Hill and Fannin counties in the old Blackland Belt, which lost 8,000 and 7,600 respectively. Then there were Rusk, Red River, Navarro, Cherokee, Falls and Limestone counties, all of which had losses of at least 5,000.

The trend of the past two decades projects an outlook something along these lines: Rural counties that are in fairly close range of future job opportunities probably will hold their populations at a fairly stable level. Suburban and open-country areas not far removed from work opportunities can expect to grow fairly rapidly. However, until the anticipated population explosion actually arrives, open-country, strictly rural counties far removed from industrial areas may become even more rural before growth overflows in their direction.

WASHINGTON REPORT

Unparalleled Task Facing Kennedy

By CLINTON DAVIDSON

When John F. Kennedy takes the oath of office as President of the United States next week he will become the temporal leader of what is generally called the Christian world at a critical time in the history of mankind.

The United States is the Good Samaritan to which Christian people in many lands look for strength, understanding, compassion, freedom and guidance. If we fail, and Communism takes over, Christianity may face its darkest days in almost 2,000 years.

As President of the most powerful, prosperous and generous nation on earth, Mr. Kennedy will have a great responsibility, not a lone to the United States but to the peoples of all nations who aspire to freedom and peace.

Communist leaders are atheists who reject Christian principles and teachings. Their only "religion" is power and force, ruthlessly used to stamp out freedom and deny Christ's teaching that in the sight of God there is no distinction of class, wealth, race, color, position or power.

They talk of "peace," but the peace they seek is a world in which there no longer is any opposition to communism and domination by communist leaders. Communism is the antithesis of Christianity.

The great world struggle for the minds and the souls of men is between Christian freedom and pagan dictatorship.

Mr. Kennedy becomes President at a time of unprecedented world crisis; at a time when the Free World must match force with force, and pray that it will not have to be used.

It is a terrible responsibility that requires both wisdom and patience. We walk on the brink of disaster, where just one mistake could plunge the whole world into an unthinkable catastrophe.

Four out of every ten people in the world live under the domination of ruthless communist leaders. The spread of communist influence threatens to engulf another four of the ten in Asia, South America and Africa, as it already has in Cuba.

As President of the most powerful of the so-called Christian nations, Mr. Kennedy faces a challenge and a responsibility perhaps unparalleled since the pagan hordes of Asia crushed civilization into the Dark Age.

EVERYONE GOT DIFFERENT TIME

Singing The Blues Over Your Budget? So's The Legislature

By VERN SANFORD

Texas Press Association

Texas' 57th Legislature began on a note that's likely to continue for some time—difficultly over money.

Many House members felt their colleagues had made an awkward start in an awkward situation when they voted themselves salary raises as the first item of business. House voted 97-45 to put into effect the \$4,800 a year legislative salaries made possible when the people approved a constitutional amendment last November.

Objectors were quick to point out that (1) the state general revenue fund was at that moment \$85,249,951 in the red and (2) many lawmakers campaigned on an "economy in government" platform.

Rep. Raymond Bartram of New Braunfels said he felt the people would rather let lawmakers take care of their salary raises and medical assistance for the aged before spending extra money on themselves.

H. B. 1, the legislative salary and expense bill, would divert some \$2,600,000 from the cigarette tax and drivers license funds. Money had to be "found," since the general revenue fund, as fast as it comes in, has to be used to pay the state's "hot checks."

Down the road are even more fireworks as the legislature searches for \$200,000,000-plus to take care of the wants of other state agencies and services.

TURMAN SPEAKER—Farmers and teachers have one of their own in one of the most important of state offices.

Rep. James Turman of Gober was elected Speaker of the House by a vote of 83-66. Rep. Wade Spilman of McAllen, whose support was largely from conservative House members, was the losing candidate.

Turman and his family operate a 103-acre farm in Fannin County. He is a former grade school teacher and worked his way to a doctor of philosophy degree in education. For a time he was assistant to the president of Texas Women's University at Denton.

As Speaker, Turman's first big job is appointing House committees, due to go into action about January 23. By his selections, he can influence to a considerable degree how certain legislation will be handled.

ROBERTS HONORED—Sen. Ray Roberts of McKinney is president pro tempore of the Senate for the present session.

His job, largely honorary, is to preside over the Senate in the absence of the lieutenant governor. Also, he is second in line of succession of the governorship.

By tradition, during each presidential term, the governor and lieutenant governor leave the state so the senate president can serve as "governor for a day."

GRIST FOR MILL—Texas Legislative Council, an influential joint House-Senate study group, will offer a

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

mass of proposals for new legislation.

Among recommendations: 1. Some streamlining, but not a wholesale re-writing of the state constitution. This will be a disappointment to groups working for steps toward a new constitutional convention.

2. Limitations on the annexation powers of cities and towns.

3. Increased facilities for juvenile guidance and care, including a home for dependent Negro children, facilities for mentally ill juveniles and regional training centers for delinquent youths.

4. Higher minimum coverage requirements for automobile insurance. Present minimum is \$5,000. A raise to \$10,000 or \$20,000 was suggested.

Another study group, a special Senate committee, recommends removal of some of the restrictions on investment of the permanent school fund. It suggests investments in corporate securities and real estate mortgages, guaranteed by the federal government.

COLLEGE REJECTED—Commission on Higher Education does not favor making Del Mar College in Corpus Christi a senior college.

Commission has agreed to study requests for senior college status and state support for Pan American College at Edinburg and San Angelo College.

On Del Mar, the Commission will make its negative recommendation to the Legislature which will have the final say. In the past, the Legislature has approved more such requests than the Commission.

NEW BUILDING—Contracts have been awarded for construction of a second new State Office Building just north of the Capitol.

It will be a four-story granite building with 147,205 square feet. Cost is to be \$2,076,102. It will be known as State Office Building No. 2, and will house the Game scattered over Austin.

This is one of six buildings in the current program to create a unified government center, clustered around the State Capitol. Already in use are State Office Building No. 1, the State Courts Building and the Texas Employment Commission Building. Archives Building is to be finished soon, and a new Insurance Building is due to start this year.

SHINNERY PHILOSOPHER

Russia Must Wait On Johnson Grass

Editor's note: The Shinnery Flats Philosopher on his Johnson grass farm on Bone Hollow Creek looks at the Cuban situation this week, but does no more than look.

Dear editor:

A man in town cornered me the other day after I'd finished drinking a cup of coffee and also right after I'd paid for it and said, "You like to write letters about things, when you gonna write one on what to do about the Cuban situation?"

I told him I'd think about it.

After thinking about it for a week, I have come to the conclusion that thinking about the Cuban situation, while it doesn't accomplish anything, is still about the only thing that can be done about it at the moment.

It's sort of like watching a flood carry your fence down the creek. If somebody had built a dam upstream years ago, maybe the fence wouldn't have washed out, but at the moment, the only thing left to do is to sit there and watch it float away.

A neighbor of mine was saying just this morning what a shame it is for President-Elect Kennedy to no more than get sworn in

January 20 when he has to face up to the Cuban crisis. No time to lean back and get the feel of the Chief Executive's chair in the White House, no time to wander around the place and get used to the idea that he's now the President. He has to work overtime the first day.

But I don't look at it that way. I have a notion that four years from now President Kennedy will review the situation and wish that all his problems had been no worse than the Cuban situation. When a man applies for the job of President in these days, he's got to be equipped to thrive on one crisis after another, each new one probably worse than the old one.

Therefore, don't be looking to me for a solution to the Cuban situation. That's what the President is hired for.

I will add though that trying to solve the Cuban problem is like trying to stop a flood after it reaches your place. What you've got to solve first is the Russian problem. And before I can do that, I've got to solve the problem of this Johnson grass farm. This puts Russia a long ways off on my list.

Yours faithfully,
J. A.

Aim at Home for Local Customers

By MADGE BELL
Record Staff Writer

For the past several years, around the first of the year, we have seen news releases from major retailers—and manufacturers telling of their plans to return to the bulk of their advertising to newspapers after experimenting with other media.

Reverts to newspapers this year include a major oil company and a famous cigar maker.

Gladiola flower begins a series of advertisements in this edition of The Record—part of an advertising campaign pinpointed to the interests of the hometown shopper.

with other forms of advertising will spend some \$70 million for newspaper space during 1961.

Although the typical Colorado City merchant may not regard the decisions of these national giants as significant to him, they are very closely connected with his problems.

The problems of retail selling do not vary greatly with store size. Sears and most local stores in the country are seeking the same customer. Sears correctly assumes that shopping will begin in a local newspaper.

The local retailer who does not make the same assumption never makes contact with many potential customers.

Men tend to blame fate for most accidents, but feel personally responsible for shooting a hole in one.

Never plan on meeting trouble half way. It can travel a lot faster than you can.

Why does it happen that by the time you struggle up to the level of the Joneses, the Joneses renege?

Among large retailers, the F. W. Woolworth Co. announced that it would increase its newspaper advertising by 20 per cent in 1961. This company will be devoting over 75 per cent of its advertising budget to newspaper advertising—or, a total of approximately \$10 million. The company describes the newspapers as its "strong advertising arm."

Changed Life in These 11 Words

Last we think that psychology is something new, let's turn to the Book of Proverbs.

Remember Chapter 15-17: "A soft answer turneth away wrath: But grievous words stir anger."

Here are 11 words that could change your life. Although the ancient writer never heard of the Psychology office, his advice could ease a thousand tensions of our 20th-century lives.

He says: "Little pieces of Christian 'psychology' could work better for you."

Let us imagine that you are sitting in the store here, a storekeeper, say, selling apples. The light is dim. The air is stale. All you have is a clock to tell you when to close the store.

A car coming through the intersection on the amber light is forced to slam on his brakes, stopping a few feet from your fender.

As he angrily pranks down his window you lean out to say: "Sorry, I didn't see you coming through."

Don't be surprised if it is going with: "Well, I guess I shouldn't have tried to make it, sorry."

No matter what he says, he is sure to change his attitude as you have changed yours.

Imagine what he could say if you had said: "Thank you for stopping. I was in a hurry."

The 11 words of Proverbs, that are an important part of our lives, are: "Soft answer, wrath, anger, words, stir, ease, tension, 20th-century, lives, pieces, Christian, psychology, could, work, better, for, you."

Boy Scout Committee Begins County Project

The Mitchell County Boy Scout Committee had its first meeting of the year in the County Court room of the Courthouse.

Time was spent organizing the committee chairman who will recruit others of Mitchell County to serve on the various committees with them.

Martin Weaver, who is Mitchell County chairman, Henry Lewis, vice chairman, and Loyd Brame, also a vice chairman of Loraine, have recruited persons who will head up the seven committees.

Those persons who will head up the committees are: Ray Preston of Loraine on Advancement; J. C. Hill, also of Loraine, health & safety committee; T. J. Goss, leadership training; Maurice Kirschbaum, camping & activities; Bennie Franks, organization & extension; G. D. Foster, finance; Joe Bell, public relations.

Lester Mundy of Snyder, who is the Boy Scout executive of the Lone Buffalo District, of which Mitchell County is a part, attended the meeting & outlined to the committee chairman their responsibilities. Mundy reminded the group that National Boy Scout Week this year will be Feb. 7 thru 13, and that Boy Scout Sunday will be Feb. 12.

Mundy talked to the group of the responsibilities of the committee chairman.

He pointed out that each committee chairman is now to recruit his own helpers to serve on their particular committee.

General committee responsibilities for committee chairman, he said, are as follows:

1. Know and understand your years' work schedule and inform each of your committeemen.
2. Recruit needed manpower.
3. Set up training for your committee members.
4. Prepare for your own committee's meeting at the district committee meeting and be responsible for getting your own committee men there.
5. The next scheduled meeting for the County Committee is Monday, Feb. 13, in the Courthouse.

Not everyone fishes. But most people would like to fish occasionally. Usually the excuse is "I just don't seem to find the time."

Recently, over a period of several days, I asked everyone I chatted with—old friends and new friends—one question: "Do you ever go fishing?"

Answers ranged from "Never" to "Occasionally" to "I go as often as I can."

Invariably the person who said "NEVER" would add, in tones of wishfulness, "I just don't have the time." Lots of them seemed to have a guilty feeling about it. Sorta like "I know I oughta get out and away from everything... once in a while... but I just don't."

These are the fellows who need it most. I want to direct this message especially to them. Because I've been in their position, I know exactly how they feel, and I know that they need to go fishing, perhaps more than they realize.

Usually such persons go "all out" in anything and everything they do. They work night and day on the job. Or they devote 80 per cent of their waking hours to civic work. Or they take on too many extra-curricular assignments from the club or the church, or the multitude of other organizations in the hometown, or the district, sometimes even the state.

As long as it is fun to do these things, as long as they accomplish them without pushing themselves too hard, so long as they are just burning up excess energy—they are not hurting their minds.

or their bodies.

But there comes a time when everyone needs a little diversion. The farther the diversion can be from the routine activities of his everyday living, the better that diversion will be for him.

I firmly believe that that is why fishing is so popular as a recreation. Another factor, of course, is that it can be cheap recreation. It doesn't have to be costly.

Usually there's a place to fish that is not much farther away than the golf course. One does not have to wear fancy duds. That helps the budget a great deal.

He can rent a boat, if one is needed. Also a motor. So he doesn't necessarily have to buy either.

We can purchase as bait a lot, and a good bit of most of them. But there is nothing, may nothing, more relaxing to this scribe, than hunting or fishing... and especially the latter.

Like most everyone else... if we've tried it we want you to try it... and our best argument is that it's good for you.

Unfortunately the fellows who need relaxation the most usually do the smallest amount of it.

Take the doctor, for example, or the druggist, or the banker, or the retail merchant, or the executive of any business, firm or corporation— including the newspaper publisher. All of them work under tension every day—high, nervous tension.

Why?

Because they have the responsibility of serving lots of people... all kinds of people. They have greater responsibility than the average man. There are hundreds of such business men... and women...

Anyway, considering everything, fishing is about the cheapest pastime available. Of course one can go all out with fishing, or golfing, or bowling... in fact any participating sport. One big difference, however, is the great opportunity fishing affords for relaxation. It's the best tension-reliever ever discovered.

We've participated in most all sports, at one time or another— track, tennis, baseball, basketball, football—to name some of the more strenuous. We've done our share of bowling, golfing, swimming, even bicycling and motor cycling. You name it and we've done it, or tried to do

too... rushing hither and yon, tending their tedious tasks, selling their services, or peddling their products.

They need to stop this go-go-go life of theirs, long enough for a change of pace.

Okay. Then what's more relaxing than a complete reversal of activity?

A few hours' angling from the bank of a quiet stream, of a farm pond, or in a boat far out on some coastal bay, is the answer to the high-tension problem. It will ease the mind. The exercise that goes with it will do wonders for the body.

Surprising as it may seem to you who may not have tried this prescription, you'll get more work done than ever before... when you return to your job.

So, don't kid yourself into thinking that you can't afford the time off to go fishing. It just could be that you can't afford not to do so.

Why?

Because they have the responsibility of serving lots of people... all kinds of people. They have greater responsibility than the average man. There are hundreds of such business men... and women...

4 Enlistees Split Army, Air Duties

Two men, 1 from Colorado City and 1 from Maryneal, enlisted in the Air Force through the Air Force Recruiter, S/Sgt. Sidney R. Harp, and were sent to San Antonio before being sent to a Technical school of their choice.

Both men will be sent to electronics schools immediately upon completion of basic training.

Enlisting from C. City was Ivan Joe McKee, 20, son of Mr. and Mrs. Donley McKee Sr. of 1244 Walnut.

McKee attended Colorado City High School and his father works at the Producers Co-op Gin.

Also enlisting was Orville

Haile, 18, son of Mr. and Mrs. Ira Haile of the West 69 Ranch, Maryneal. Haile attended school at Maryneal.

The Air Force Recruiting Service has not previously had an Air Force recruiter in this area.

However, effective from last week, an Air Force Recruiter will be in Colorado City each Monday.

Anyone interested in career opportunities in the Air Force may contact him in the Court house or in the Post Office any Monday.

Robert Rees of Westbrook has enlisted in the United

States Army for a period of three years.

He enlisted for the Armored Forces and later assignment to United States Army Europe, according to Sgt. Ralph Linden, US Army Recruiter from Big Spring. Rees will take his basic training at Fort Hood.

Rex L. Free of Colorado City has reenlisted in the United States Army for a period of three years.

He reenlisted for the purpose of learning supply Procedures according to Sgt. Linden.

Free had served in the Army for 2 years and was discharged on last Nov. 4.

Band Serenades PTA Meeting at Loraine

By MRS. ROY WELLS
Record Correspondent

LORAIN — Loraine High band serenaded Loraine Parent-Teacher Association at the PTA meeting Thursday night. The meeting and concert were in the school cafeteria. Presented in the concert were Symbol of Honor, High Lights from South Pacific, Russian Carole, and Sunset. Joretta Hall, Joyce Furlow, Janie Lee and Carla Britton, the band's majorettes, were featured in a routine while the band played March Still King.

Mrs. Gene Britton PTA president was in charge of the business meeting. Mrs. Elwood Graham read the minutes of the last meeting. Mrs. Herbert Mearse gave the treasurer's report.

Motion was made and carried to have a 42 party. Date will be announced later.

It was voted to buy gifts for high scorers at the party. Mrs. Ray Preston was named to buy tally cards and plan table arrangements.

Mrs. Charles Maughon was appointed chairman for the party's refreshments.

The 7th grade and freshmen class won the room count.

Refreshments of punch, coffee, and cookies were served to the 36 PTA and band members attending. The Loraine vocational agriculture teacher, Raymond Holt will accompany a group of boys to the Sweetwater livestock show Friday and Saturday.

Entertaining the fat barrow event will be Linton Ray Webb, Wesley Craighead, Jerry Baumann.

Fat lamb division exhibitors will be Ben Clopton, Walter Clopton, Don Redwine and

Mie Dodds.

Mr. and Mrs. Ray Harmon of Odessa spent the weekend with her mother and brother, Mrs. Elba May Beaty and Maylon.

Mr. and Mrs. James Hickman of Abilene Christian College spent the weekend with her parents Mr. and Mrs. Jack Coffee.

"EVERY DAY IS A FRESH BEGINNING"

People who are sick can take comfort that their bodies have wonderful resources. Given the proper help most sickness can be cured and the few for which we still do not have positive cures can be lived with if the diagnosis is an early one.

Unfortunately too many people depend on self-treatments, often purchased from door-to-door peddlers, mail-order medicine men and stores with no health knowledge. Always secure any medicine, vitamin or health aid from a pharmacist. Ask us for our professional opinion of its merits and we will honestly tell you and advise when it is wiser to consult a physician.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

WHY NOT PHONE THEM? SO ECONOMICAL WHEN YOU CALL STATION-TO-STATION AND SAVE ONE THIRD. Now, call out-of-town relatives more often by taking advantage of the bargain rates of station-to-station (a call to a distant number instead of to a particular person). Why not call them right now? They'll enjoy it and so will you.

HERE'S HOW TO CALL: Give the operator the area code for the city you want to call... next, the number you're calling... and when the operator asks, give her the number you're calling from.
