De Gaulle Talks Peace In Moscow

MOSCOW (AP) — President Charles de Gaulle said today he hoped his visit to the Soviet Union will make it possible to agree upon action to provide European security and assure general peace.

The French president was given an enthusiastic reception on arrival for an 11-day visit that will take him to Novosibirsk, Lenin, Kiev and the site of the World War II battle of Stalingrad.

SIGNIFICANT Soviet President Nikolai V. Podgorny said this country "attaches great significance to the coming talks." The Soviet Union and France "have a common approach to a number of problems of international affairs," he said.

Podgorny and Premier Alexei N. Kosygin greeted De Gaulle at the airport. De Gaulle said in his airport address his visit "will give a chance to our two countries not only to join in ties that are economic, scientific and cultural" but also to exchange opinions and concert actions on political subjects.

"Today we know as well as France and the Soviet Union and Europe and the whole world what is the significance of the visit which I have the honor to make," the French president declared.

SECURITY In Moscow and while traveling with Kosygin, De Gaulle is expected to discuss European security problems, primarily the German question, and other subjects.

He will make his first major speech tonight at a dinner in his honor at the Kremlin. Authoritative sources in Paris said De Gaulle would sign no treaties, during his talks with Kremlin leaders. But some French sources predicted that the Soviet Union and France might reach new agreements in the cultural and technical fields.

After an opening round of talks with Soviet President Nikolai V. Podgorny and Premier Alexei N. Kosygin, De Gaulle was to make his first major speech tonight at a dinner in his honor at the Kremlin. Moscow newspapers all carried an official statement Sunday welcoming the French president and praising his government for making an independent effort to establish East-West bonds. A formal portrait of De Gaulle appeared on all front pages.

The Soviet press has long praised De Gaulle for blocking the movement within the Common Market toward a United States of Europe and for his opposition to military integration of the members of the North Atlantic Treaty Organization.

French diplomats have stressed that De Gaulle will devote considerable attention to the problem of Germany, which he regards as the crux of European security.

NEUTRAL Sources close to the French president say he favors a neutral, reunified Germany which would be denied access to any nuclear weapons. This echoes the Kremlin's views.

Washington and Bonn want Germany to remain allied to the West and insist it should be allowed some share of control over nuclear weapons.

French sources have said new scientific and cultural agreements might come from the visit, but there will be no treaty that need worry the Western allies.

NO HUGGING Wearing his World War II uniform of a brigadier general, De Gaulle first saluted and then shook hands with Podgorny at the foot of his plane's ramp.

The French president smiled but there was none of the traditional French hugging and kissing on both cheeks. Then De Gaulle saluted and shook hands with Kosygin and other Soviet officials.

A 21-gun salute sounded as the Moscow military band played the Marseillaise, the French national anthem. The French tricolor waved in the warm breeze of a sunny day beside the Red Russian banner with a gold hammer and sickle.

Retroactive Suits On Confessions Barred

Rights Cases Due For State Courts

WASHINGTON (AP) — The Supreme Court ruled today civil rights prosecutions may be removed from state to federal courts only in limited circumstances.

To rule otherwise, Justice Potter Stewart said, would "work a wholesale dislocation of the historic relationships between the state and federal courts in the administration of criminal law."

In the case in which Stewart spoke, the court by a 5-4 vote said 29 persons arrested on various local charges in 1964 in LeFlore County, Miss., cannot have their trials transferred from state to federal court.

NO ABSOLUTE RIGHT Stewart said, "no federal law confers an absolute right on private citizens—on civil rights advocates, on Negroes, or on anybody else—to obstruct a public street, to contribute to the delinquency of a minor, to drive an automobile without a license, or to bite a policeman."

Further, Stewart said, no federal law confers immunity from state prosecution on such charges.

Justice William O. Douglas dissented in the Mississippi case, joined by Chief Justice Earl Warren and Justices Wil- Fortas.

Douglas quoted from James Madison and Chief Justice John Marshall to support his argument that since the republic was established "the federal regime was designed...to afford some protection against local passions and prejudices by the important pretrial federal remedy of removal."

Joining in Stewart's opinion were Justices Hugo L. Black, Tom C. Clark, John M. Harlan and Byron White.

SOME CASES BARRED In a companion decision, the court held unanimously that if rights to equal accommodations set forth in the 1964 civil rights law are involved, there can be no prosecution—in either federal or state courts.

Justice Stewart also announced this decision, which was in the case of 29 persons arrested in the spring of 1963 when they tried to obtain service in privately owned restaurants in Atlanta, Ga.

Here the Supreme Court directed the U.S. District Court in Atlanta to hold a hearing to see if the 29 persons were ordered to leave for racial reasons only.

Stewart said this would make out a case for removal from state to federal court, and at the same time would call for dismissal of the prosecution by federal court.

"In the narrow circumstances of this (Atlanta) case," said Stewart, "any proceedings in the courts of the state will constitute a denial of the rights conferred by the civil rights act of 1964...if the allegations of the removal petition are true."

CASE REVERSED The ruling in the Mississippi case reversed the U.S. Circuit Court in New Orleans. The Circuit Court had called for a hearing in U.S. District Court in Greenville, Miss., on the defendants' claim that they were entitled to removal under the 1964 federal civil rights law.

Stewart said in the Mississippi case if the 29 civil rights workers were prosecuted solely because of their race "then there has been an outrageous denial of their federal rights, and the federal courts are far from powerless to redress the wrongs done to them."

But, the justice said, no federal law provides immunity from state prosecution on local ordinances and federal removal law "does not require and does not permit the judges of the federal courts to put their brethren of the state judiciary on trial."

Rule Applies Only To Cases After Decision

BULLETIN WASHINGTON (AP) — The Supreme Court today barred retroactive application of its new rules strictly limiting trial use of confessions.

With the decision, written by Chief Justice Earl Warren, the high court affirmed the first degree murder conviction of two New Jersey men awaiting execution in the 1958 slaying of a Camden merchant.

Justices Hugo L. Black and William O. Douglas dissented, saying the New Jersey men, Sylvester Johnson and Stanley Cassidy, were entitled to the constitutional protections spelled out by the court last Monday and in another landmark ruling in 1964.

Warren wrote that the strict limit on use of confessions, set down by the court in its 5-4 decision last Monday, "applies only to cases in which the trial began" after that date.

Further, he said the 1964 Escobedo ruling, in which the Supreme Court extended the right to counsel for the first time to suspects undergoing police questioning, "affects only those cases in which the trial began after June 22, 1964, the date of that decision."

REMEDIES LISTED Stewart went on to list federal remedies that eventually could become available, including federal review of the state court decisions and even damage suits against state officials who violate defendants' federal constitutional and legal rights.

RIGHT TO KNOW Information Bill Is Due Passage

WASHINGTON (AP) — The House is expected to vote final congressional approval today of a bill that would strengthen the right of Americans to find out what their government is doing.

The measure, termed a freedom of information or "right to know" bill, would establish the basic policy that government records should be available to the public unless specific reasons exist for maintaining secrecy.

It comes before the House under a procedure that requires a two-thirds vote for approval, limits debate to 40 minutes and permits no amendments. Since the bill is in the same form passed by the Senate last year, House approval would send it to the White House.

EXPECTS APPROVAL Rep. John E. Moss, D-Calif., chief sponsor of the bill, said he knows of no opposition to the measure which enjoys broad bipartisan backing. Asked if he expected President Johnson to sign it, Moss said: "I do indeed."

There has been opposition to the measure within some government agencies. Neither the administration nor the House Democratic leadership has taken an official stand on it. The House Republican leadership has endorsed it.

The bill would permit persons denied information to seek a federal court injunction forcing its disclosure and place the burden of proof in such cases on the agency rather than on the individual.

"I think that the provision for court review is by far the most important single thing in the bill," Moss told a reporter.

Existing information statutes are vague, and supporters of the new legislation claim present provisions intended to permit disclosure of information instead have been used to withhold it. The bill lists specific grounds on which information can be withheld.

LIGHT WEEK The rest of the week's congressional calendar is somewhat sparse with action only on some minor bills scheduled in the Senate. House consideration of two important measures depends on approval early in the week by the Rules Committee.

The House bills are a three-year, \$132-million program to train annually some 4,000 medical technologists and other health workers and a battered version of an administration proposal to overhaul unemployment compensation programs.

LOS ANGELES (AP) — Football Coach Paul Bryant of Alabama collapsed today just as he began a speech at the annual Pepperdine College coaching clinic.

He clutched his chest and cried out: "I don't know what it is — is there a doctor in the house?" Then he collapsed.

Bryant was taken to the college infirmary, then to View Park Community Hospital.

A doctor who examined Bryant at the hospital said that he "seems to be doing well."

LONGVIEW, Tex. (AP) — The Texas Water Development Board opened its hearings on the proposed \$3.5 billion water plan in East Texas today in Longview.

Last week the board's hearing in Lubbock brought criticism of the absence of plans to transport water from East Texas to the parched West Texas and South Plains regions.

Gov. John Connally has called the plan "bold and imaginative" and "the most comprehensive and far-reaching in the world."

The hearings will transfer to Orange Wednesday.

Under the plan the state would build 53 reservoirs in the coming 50 years. Another feature would be a north-south diversion system.

Two teams from the development board, headed by director Joe G. Moore Jr., and general counsel Donald B. Yarbrough, conducted today's hearings. Officials from the Texas Water Pollution Control Board also heard testimony on the quality of water in the Sabine River basin.

Services are still pending for Santos Martinez Jr., 17, 211 NE 7th, who drowned about 3:30 p.m. Sunday while on a family swimming outing at Lake J. B. Thomas, about 25 miles northwest of Big Spring.

He was pronounced dead on arrival at a local hospital. Doctors said that the boy apparently had been in water 20-25 minutes before being recovered.

The youth was reported swimming off the Mobil point southeast of Sportsman's Paradise, and rescue units from Sportsman's Paradise and the Colorado River Municipal Water District rushed quickly to the spot to drag for him.

Born April 4, 1949 in Raymondville, Santos had been a resident of Big Spring for three years, he had moved here in 1963 from Colorado. He was formerly employed with his father in operating Lopez Car Salvage and had gone to work at Webb AFB about a week ago.

Survivors include the parents Mr. and Mrs. Santos Martinez, Big Spring; three brothers, Eddie Martinez, Able Martinez and Pete Martinez, all of Big Spring; three sisters, Elaine Martinez and Evelyn Martinez, both of Big Spring, and Mrs. Edna Gonzales, Garden City; the paternal grandparents, Mr. and Mrs. Refino Martinez, and the maternal grandparents, Mr. and Mrs. Inacia Sandoval, all of Raymondville.

Leadership Called Need CANTON, S.D. (AP) — Sen. Karl Mundt, R-S.D., said today the world "desperately needs a more dynamic and constructive manifestation of American leadership."

He told the Republican Women's Club: "President Johnson has failed to manifest that leadership while growing dissension and confusion become evident among those whose existence we support and whose freedoms we defend."

"The penchant of this administration to rely primarily on military action in Viet Nam and on economic and military aid for neutral and friendly countries is bringing fewer and fewer results with greater and greater costs."

The time has come, he said, when the President should call a Free World trade-aid conference.

Ky Forces Hold Buddhist Post

SAIGON, South Viet Nam (AP) — Premier Nguyen Cao Ky's troops tightened their hold on Hue today and sealed off the hospital room where the leader of the northern Buddhist revolt continued his antigovernment, anti-American fast for a 13th day.

While the rebellion led by militant monk Thich Tri Quang appeared to lose more ground, Ky's military regime pushed ahead toward promised civilian elections Sept. 11 on a wave of confidence voiced by Ky as he began his second year in office.

Chief of State Nguyen Van Thieu signed a decree setting the election date and providing for a 106-seat constituent assembly to draft a constitution. The government, as expected, rejected the proposal of its electoral commission to allow the assembly to transform itself into a governing parliament.

TO KEEP POWER The decree also showed the junta's determination to remain in power well into 1967 by requiring a second round of voting for a national legislature three to six months after the generals approve the constitution.

American forces continued to shoulder the major fighting, U.S. 101st Airborne Division units locked in a heavy fire fight with a Communist force of undetermined strength that attacked the paratroopers near Tuy Hoa, 240 miles northeast of Saigon, this morning.

Helicopters brought in more American troops as the fighting continued into the afternoon. There was no report on Communist losses but American casualties were described as light.

BOMBERS STRIKE U.S. Air Force B52s spearheaded the air war by returning to jungles northwest of Saigon to pound a suspected Viet Cong troop and headquarters area. However, the Communists' "Liberation Radio," an objective of Sunday's B52 raid, was still heard broadcasting.

Rains Make Crop Outlook Excellent

Off the Mekong Delta south of Saigon, U.S. Coast Guard cutters intercepted the second gun-running trawler of the month and the third this year. A boarding party seized a large store of ammunition and weapons, apparently bound for the Viet Cong, after the unidentified trawler was driven aground in flames.

Within hours of Ky's anniversary prediction of final victory over the Communists in the next year, Viet Cong guerrillas made two attacks in the northern provinces.

A suicide squad of about 50 guerrillas hurled itself against a U.S. Marine artillery position nine miles northwest of the Marine base at Chu Lai, 360 miles northeast of Saigon.

However, this is not a maximum fall — because part of the county have had much more rain than that this month.

The rains have occurred on three days and on one other day when a trace was reported. Saturday, the station showed 28

inch for the rains which fell during the night. Some areas reported half an inch or more. The 65-year average rain for June is 2.76 inches which could easily be attained if the moisture conditions hold for the rest of the month.

Cotton is flourishing in most areas, Helbig said. So far the only insects reported are plant lice and careless weed worms.

Helbig said that both of these are controllable. In the past they have not been too much of a menace. The worms move into the cotton when the careless weeds become tough and unsavory.

Weeds are causing some concern in cotton growers since the same slush season which has so benefited the cotton has also caused the weed crop to flourish.

DEAD AFTER 64-YEAR STINT Won title of "Perfect Fool"

Cancer Claims Comic Ed Wynn

HOLLYWOOD (AP) — "During his last three months, he wouldn't let his three young granddaughters come to see him. His appearance had changed, and he couldn't talk. He wanted them to remember him as the roly-poly funnyman."

This was a son's remembrance of Ed Wynn, the great comedian-actor who died in his sleep Sunday at 79, a victim of cancer.

The son, actor Keenan Wynn, said his father had been in failing health for a year, although he remained active until a few months ago. Earlier this year, he appeared on Red Skelton's television show, made a candy commercial and played a role in Walt Disney's "The Gnomobile."

"In March dad went to Washington for the American Parkinson's Disease Association, his favorite charity," Keenan said. When he came home from that trip, he began to show the results of the cancer.

The elder Wynn had been operated on for a tumor in his neck, and the tumor was found to be malignant. He spent the last three months in his Wilshire Boulevard apartment. He was visited there Saturday night by Keenan and his wife and Keenan's sons, Tracy and Ned.

"Dad had the Dodger game going on the radio," said Keenan, "and he was excited because his boy, Sandy Koufax, brought in another victory. He couldn't talk, but he held up his fingers indicating the score, 3 to 1."

He died at 7:45 the next morning. Ed Wynn's 64 years as an entertainer brought him triumphs in every medium of show business. For half a century he evoked the laughter of millions as "the perfect fool." Then, when it seemed the vogue had passed him by, he turned serious and became a fine character actor.

Among his roles: Uncle Samson in "Marjorie Morningstar," the crotchety dentist in "The Diary of Anne Frank" — for which he was nominated for an academy award — the blind man in "The Greatest Story Ever Told."

The Abilene firm bid was \$25,709.31.

# Priests Denounced For Joining Strike

MISSION, Tex. (AP)—Msgr. Dan Lansing of St. Paul's Roman Catholic Church said in the pulpit Sunday that priests from San Antonio, who have participated in a melon strike and protests at nearby Rio Grande City are "impostors" and "infiltrators" who "do not speak for the church."

Starr County is in the Brownsville Diocese.

**MOST ACTIVE**

Two San Antonio Diocese priests who have been most active in Starr County demonstrations are the Revs. Sherrill Smith and William Killian. Both spoke at a rally Friday in front of the Starr County courthouse.

Incidents began June 1, when a new farm workers union struck melon growers in an effort to obtain a \$1.25 an hour minimum wage for field hands.

The strike has been virtually stifled by a court injunction but backers continue the movement as a Mexican-American civil rights protest.

**INDIVIDUALS**

"The dispute is out of the church province," said Msgr. Lansing. "These priests have given the impression that the Catholic Church is supporting and sponsoring the strike. But this is not true. They are there simply as individuals."

Msgr. Lansing said he was told that Archbishop Robert Lucey of the San Antonio Dio-

## Appeal Made For Boys Ranch Funds

West Texas Boys Ranch, west of San Angelo, has put out an emergency appeal for its building fund. Fire recently burned the recreation hall and maintenance building to the ground, taking with it furnishings that were to go into the new dormitory.

Joseph Vander Stucken, board president, broadcast an area appeal, saying that \$58,750 was needed urgently to put the ranch operations back on even keel. West Texas Boys Ranch is maintained to provide a home for boys from broken homes or who need a second chance. Funds may be sent to Box 1624, San Angelo.

The Abilene company said it would begin work as soon as county road and bridge crew gets the new ready. This will take a week, or perhaps longer, according to Billy Paul Thomas, county road supervisor.

The road to be paved in the West Knott extension which covers six miles.

The roads to be seal coated are:

West Knott, 6 miles; Robinson Road, 7 miles; Newton Road, 5 miles; Old Highway 80, 6 miles; Wallace Road, 8 miles; 23th Street 5 mile and Mountain Road, 1 mile.

## Car Hits Pole, None Injured

A late Saturday night accident, in which a automobile struck a street pole, injured no one, officers said. Involved was the car of Jerry Thomas Wal-

ton, 1006 W. 6th, Apt. 4, which struck the pole at Fourth and San Jacinto.

Only one wreck was recorded Sunday. It involved the car of Geneva Anderson Gipson, Route 1, Box 326-A, and Atha Norton Hardin, 2001 N. Monticello, at Eleventh and College Avenue.

## Youth Is Saved From Drowning

Police said today that Tom Woodson, 18, 1905 Lancaster, evidently was drowning Sunday in the City Park pool when Don-

Osborne, life guard, pulled him from the water and administered artificial respiration.

The Big Spring Ambulance Service was called to the scene at 4:30 p.m., but when the ambulance arrived, the youth had recovered. Police returned him to his home.

What do you bid now?

A.—One spade. We sometimes stretch a point to make a jump rebid in no trump with only 15 instead of the prescribed 16 high card points. But we are not inclined to do so when it involves suppressing a good four card major. The risk in rebidding only one spade is ever so slight, for, if partner must pass, chances for game may be regarded as negligible.

Q. 3—Both vulnerable, as South you hold:

The bidding has proceeded:

North East South West

Pass Pass 1 ♣ Pass

1 ♠ Pass 1 NT Pass

2 ♣ Pass ?

What do you bid now?

A.—Three spades. Up until now you have sounded like a person with a very minimum opening bid and, while your values do fall within the limits of the one no trump rebid, your points are of the ill-edged variety and include an excellent fit for both of partner's suits. A jump bid is necessary to convey this message to North.

Q. 4—As South, vulnerable, you hold:

♠AQ53 ♣KQJ94 ♢8763

The bidding has proceeded:

North East South West

1 ♣ Pass 1 ♣ Pass

2 ♠ Pass ?

What do you bid now?

A.—Two spades. The normal procedure at this point would be to announce the club fit by offering a jump raise, but that would interfere with the proper and orderly investigation for bigger things on the hand. In the interests of prob-

ing for a slam, therefore, another investigating call is in order. Partner's next call may clarify the picture considerably.

Q. 5—As South, vulnerable, you hold:

♠AJ ♣AKQJ ♢AKQ65 ♣AQ4

The bidding has proceeded:

South West North East

2 ♣ Pass 2 ♠ Pass

3 ♣ Pass 3 ♠ Pass

What do you bid now?

A.—Four clubs. The future is slightly uncertain at this stage due to the apparent lack of a fit and another bid is indicated. If partner rebids his suit once more, we recommend a raise to five. If the texture of his suit is good enough this should induce him to contract for slam.

Q. 6—Neither vulnerable, as South you hold:

♠10843 ♣KQ1087 ♢10865 ♣A

The bidding has proceeded:

North East South West

1 ♠ Pass 1 ♣ Pass

1 NT Pass ?

What do you bid now?

A.—Two hearts. With your unbalanced holding a no trump contract is not especially appealing and, in addition, hopes for game should not be entirely abandoned in spite of partner's mild rebid. If he is able to offer a delayed raise of the hearts you can proceed to four.

Q. 7—East-West vulnerable, as South you hold:

♠A ♣AKJ7 ♢KJ5 ♣107654

The bidding has proceeded:

North East South West

Pass 1 ♣ Pass 1 NT Pass

2 ♣ 2 ♣ ?

What do you bid now?

A.—Double. Your hand figures to take six or seven tricks and anything partner can contribute will be just gravy. This double is clearly for penalties for, had it been your desire to hear from partner, you would have doubled one heart.

Q. 8—East-West vulnerable, as South you hold:

♠83 ♣J8763 ♢Q10965 ♣A

The bidding has proceeded:

West North East South

1 ♠ 1 ♣ Pass ?

What do you bid?

A.—Four diamonds. This hand presents great potential playing strength for your partner's overall and strong inducement should be offered him to proceed. The reason for the jump all the way to four is to crowd the opposition right out of the bidding. They might have the cards to score heavily in one of the black suits and now be unable to find out safely.

### Prelate Turns Down Rivalry Buildup Plan

OLSZTYN, Poland (AP) — Archbishop Boleslaw Kominek Sunday night rejected the Polish Communist regime's attempt to build him up as a rival to Stefan Cardinal Wyszynski, the Roman Catholic primate of Poland.

"Pope Paul VI and all the world appreciate and have confidence in the primate of Poland," Archbishop Kominek of Wroclaw told a crowded service at the Cathedral of Olstyn, the former East Prussian city of Allenstein.

The archbishop said the Polish bishops are completely united on vital questions and that recent press charges that Cardinal Wyszynski is against an accord between church and state are false.

The newspaper Warsaw Life said in an editorial June 8 which all Polish newspapers reprinted that Cardinal Wyszynski "has demonstrated that he is incapable of bringing about a normalization of church-state relations." The editorial suggested that the clergy should follow leaders who favor church-state coexistence and cited Archbishop Kominek as an example.

The archbishop said the cardinal and all the Polish bishops are united in favor of a "sincere dialogue" in an open-handed spirit leading to normalization of relations.

Cardinal Wyszynski said in a sermon Sunday at Frombork, on the Baltic Sea coast, that the church is offering an open hand of peace but must have its freedom.

Archbishop Kominek disclosed that he had written a reply June 13 to Warsaw Life and asked the government-controlled newspaper to publish it. The letter has not been published.

### Chou Pursues Romania Tour

EFORIE, Romania (AP) — Red Chinese Premier Chou En-lai continued his tour of southern Romania today after an unexpected day of political talks with Romanian leaders in this tourist-crowded Black Sea Resort.

Chou was closeted with Romanian Communist party chief Nicolae Ceausescu and Premier Ion Gheorghe Maurer at a government guest house here Sunday for what officials described as an impromptu continuation of discussions of international problems.

Western newsmen accompanying Chou and Ceausescu were told the exchanges in Bucharest and Eforie had been "successful," but Romanian officials declined to disclose details.

A high-ranking Communist source said the two delegations dealt with "every subject of common interest," apparently including the Chinese-Soviet feud, the current purges in China and the Viet Nam crisis.

Asked whether a possible mediation effort had been discussed to end the war in Viet Nam, a Romanian official said:

"Our position on this matter is well-known. Since we support North Viet Nam and the National Liberation Front we shall be ready to offer our services if our allies demand it."

The premier was due to return to Bucharest Tuesday to resume formal talks with Ceausescu. He leaves Bucharest Friday, presumably for his announced visit to Albania.

### Abatement Need

COLLEGE PARK, Md. (AP) — The need for assistance to industry by the federal government in stream pollution abatement is highly apparent, says Sen. Jennings Randolph, D-W.Va.

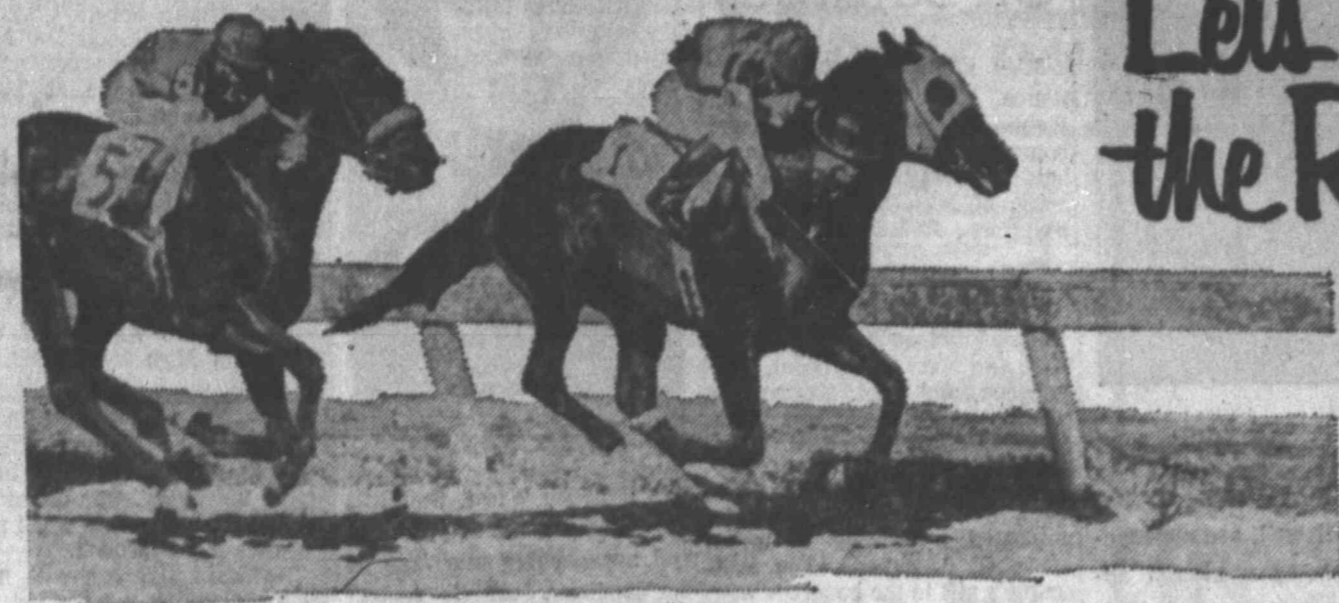

Randolph, chairman of the Senate Public Works Committee, said at a seminar here that Congress cannot ignore the problem very long. He said it is becoming so urgent that in some instances industrial waste is given higher priority than municipal waste treatment in the clearing of streams.

### Unexpected Frill

FLAGSTAFF, Ariz. (AP) — A group of visitors touring the Navajo Army Ordnance Depot was escorted into an 80-foot igloo that holds some 500,000 pounds of explosives.

As the group gazed at a stockpile of 3,000-pound bombs, a highway construction crew working five miles away set off a dynamite blast. The startled Army guests, somewhat shaken, recovered and continued on their tour.

## A LOVELIER YOU

### Noticed Your Nails? Other People Do

By MARY SUE MILLER  
A lovely writes: I have a nail problem. My nails are spatulate — they grow very wide at the top. So that they would appear more oval, I have tried filing the corner. But when I do that, my nails bend over the tops of my fingers, claw-like. How can the trouble be overcome?

To answer a question with a question: Have you had a medical check-up lately? When your nails get the "bends," you may have a dietary deficiency. You may need an increased intake of protein and B-vitamins. But, since many physical factors contribute to ailing nails, a doctor's advice is the shortest route to improvement.

Proper external care of the nails is also important to the strengthening process. In filing and shaping them, you must take care not to insert the file between nail and flesh. The selva is frayed and the nail is weakened by filing the covered portions.

### Three People Said Missing

Newlyweds Again

Don Allen, 32, recently renewed his horseback courtship of Tina Edmunds Chadwick, 27, and now for the second time since 1963 she is Allen's bride. They first married in 1963, divorced 18 months later, and remarried. After their mates died several months ago, Allen again rode his mare from nearby McAndrews to court his ex-wife. They were remarried May 31 by a Williamson, W.Va., judge. (AP WIREPHOTO)

She was wearing, when last seen, a "lead-colored" dress and gold shoes. Charles Lea Stokes, 24, was reported missing Sunday at 2 p.m. The five foot, eleven inch tall oilfield roughneck, who works at the Forsan Oil Well Service Co., is said to have been missing since Thursday. He has long, black, curly hair and brown eyes. Police said he lives at 103 1/2 W. 15th. At 6 p.m. Sunday, Mrs. Beatrice Perkins, 805 E. 14th, reported her husband, Johnny L. Perkins, missing. Perkins is 36, stands five feet, eight inches, weighs 135 pounds, and has brown, curly hair and blue eyes. ## Trial Set Of 17 In March Deaths

MERIDIAN, Miss. (AP) — The federal government will prosecute 17 men accused in the slaying of three civil rights workers in U.S. District Court here Sept. 26.

Judge Harold Cox, who previously dismissed charges against the defendants, will hear the case based on two century-old laws.

The U.S. Supreme Court ruled March 28 the government could prosecute those accused in the 1964 deaths of Michael Schwerner, Andrew Goodman and James Chaney under two laws enacted in 1866 and 1870.

The original indictments against the 17 men, including three law officers, had been obtained under Reconstruction-era laws.

An 1866 law made it a misdemeanor to act "under cover of law" to deprive anyone of his

constitutional rights, setting maximum punishment of a \$1,000 fine and one year in prison. An 1870 statute made it a felony to conspire to deprive anyone of his 14th Amendment rights without due process of law. It set maximum punishment at 10 years imprisonment and a \$5,000 fine.

Judge Cox had dismissed the felony indictments against all defendants and had left misdemeanor indictments standing against Sheriff Lawrence A. Rainey of Neshoba County, Deputy Cecil Price, and police officer Richard W. Willis of Philadelphia, Miss.

The three civil rights workers disappeared June 21, 1964, after being released from the Neshoba County jail in Philadelphia, about 35 miles northwest of here. Their bodies were found Aug. 4, 1964, at the base of a dirt levee.

Chaney was a 21-year-old Meridian Negro. Goodman, 20, and Schwerner, 24, both white, were from New York City.

## Planting To Protect Port

Herb Helbig, county farm agent, Monday recommended the county commissioners plant some sort of forage grass between the runways at the Howard County Airport as a method of preventing the erosion of the land by wind and rain.

The county agent had been called before the court Monday to discuss the problem. He pointed out that it is now too late in the season to plant regular grass, but sudan grass seed, for example, can be planted in the space. This, he said, will grow at this late season and will be effective in curbing erosion.

Next spring, permanent sodding can be undertaken. He suggested the sudan be allowed to grow to its full height and that the only mowing be to top the growth to halt the seed from maturing.

The county commissioners accepted his proposal and will work out details soon.

## WTCC Panel To Talk Of Water

GRAHAM — How can West Texans of today plan for the water needs of tomorrow with its expanding population, the advent of more industry and the demands of agriculture?

That's the topic for discussion as the West Texas Chamber of Commerce holds a special idea and planning meeting on water resources Wednesday at Lake Eddie, near Graham.

The water resources meeting is the third in a series of nine "brainstorming" sessions set up by W.T.C.C. President John Ben Sheppard of Odessa to give best possible ideas and suggestions as it develops its new program of work.

The water resources meeting will deal with the statewide water plan as developed by the Texas Water Development Board; the forthcoming vote on state constitutional amendments relating to water; adjudication of water rights legislation; whether Texas will be included in the Lower Colorado River Basin Study Act; interstate water plans for the transfer of surface waters; the re-use of water; water pollution; and how best to develop water for the future.

# Palmer Says He May Try Diet Of Buffalo

By BOB GREEN  
Associated Press Sports Writer

SAN FRANCISCO (AP) — "I'll be eating buffalo meat before long," Arnold Palmer said. He had just blown a seven-stroke lead in the final round of the U.S. Open Golf Championship and fallen into a tie at 278 with Billy Casper, the one-time fat man who lost 50 pounds on an exotic diet of bear meat, buffalo steaks and blueberries.

They meet in an 18-hole playoff, the fourth in the last five years for the Open title, starting at 12:30 p.m., CST, today. Palmer, the 1960 champion, has been involved in two previous Open playoffs, losing to Jack Nicklaus and Julius Boros. Casper, the 1959 champ, has not been in an Open playoff.

Both Palmer and Casper, who were playing head-to-head, pointed to the 15th hole as the key in the weird final round Sunday. Palmer, playing with the verve and fire of old, birdied the first two holes, charged out to a seven-stroke lead and appeared on his way of breaking Ben Hogan's Open record score of 276.

With seven holes to go, he had a six-stroke margin "and I was playing for second," Casper said. "I was looking at the scoreboard to see how Nicklaus and Tony Lema were doing.

"Arnold thought he was going to shoot a 274 and I did, too. It looked like he had come and gone with the tournament." But he hadn't.

"When we made the turn, I started thinking about shooting a 274 and that's when I made my first mistake," Palmer said. "When we'd finished the 15th I began to wonder. I knew what could happen, and that's what did happen."

What happened was this: The muscular Palmer, golf's all-time leading money winner,

dropped a stroke with a bogey at 15. On 15, Casper ran in a 20-foot birdie putt and Palmer was in a trap, wedged out and two-putted for a bogey.

That cut it back to three, and it went to one on 16 with another

Casper birdie and another Palmer bogey. Billy dropped in a 15-foot putt, while Palmer hit a tree, was in a trap and two-putted.

Casper parred the 17th and Palmer was in the left rough,

## More Than 100 Entries Likely In Car Races

A Ford vs. Chevrolet battle will be a feature attraction of the July 9-10 Tumbleweed Races at Pyle.

The sports car races, sponsored by the West Texas Region, Sports Car Club of America and Wayne Long, owner of Pyle Raceway, are expected to attract more than 100 competitors.

Top drivers from Texas, Oklahoma, Colorado, Louisiana, Arkansas, New Mexico and Arizona are expected to participate and vie for divisional and regional honors.

A Ford vs. Chevrolet battle is shaping up for the feature race Sunday. Representing Ford will be Rod Lambeth from Dallas, driving a 427 Shelby Cobra which is capable of speeds up to 180 m.p.h.

Upholding Chevrolet honors will be Joe Starkey, also from Dallas, in an Elva-McLaren which has reportedly been clocked at near 200 m.p.h. Starkey has won eight out of nine feature races in his Chevy-powered car this season.

A past divisional champion, Ed Tucker from Dallas, will also be among the leading competitors in a Lotus Elan.

Many area drivers have submitted entries. From Lubbock will be Bob Conners, a past national champion sports car racer, in a Porsche; Whitford Lynn in an MGA and Kent Clark in a Triumph Spitfire.

Representing Abilene will be Chuvolo Favored NEW YORK (AP) — George Chuvolo, the Canadian champion who went 15 rounds with heavyweight champion Cassius Clay, was made an 8-5 favorite today over Argentina's Oscar Bonavena for their 10-round bout at Madison Square Garden Thursday night.

## B. Campaneris Is Big Factor In A's Sweep

By MURRAY CHASS  
Associated Press Sports Writer

Bert Campaneris, who stepped into Ginger Rogers' class last year, now has danced all over the California Angels.

Campaneris scored the only run in the opener, then came back and scored the tying and winning runs in the nightcap Sunday as the Kansas City Athletics swept the Angels 1-0 and 3-2 and stopped their seven-game winning streak.

Although the 24-year-old Cuban isn't one of the top hitters in the majors, he certainly is among the most versatile fielders. Owner Charles O. Finley of the Athletics put that versatility on display in a game last September.

Campaneris, Finley decided, would play all nine positions in a single game. But before the regular shortstop performed the feat against the Angels Sept. 8, Finley insured him for \$1 million. Explained the owner: "Movie producers insured the legs of Marlene Dietrich and Ginger Rogers for \$1 million. I'm going that one better. I'm insuring all of him, not just his legs."

With the policy spread among four insurance companies, Campaneris spread himself all over the field, becoming the first player in the majors ever to play all nine positions in one game.

Campaneris stuck to short Sunday, but it was his hitting and running that cooled off the Angels.

In the ninth inning of the scoreless opener, he beat out an infield single, was sacrificed to second and dashed home on Danny Cater's single.

The Athletics trailed 2-1 in the second game until Campaneris reached first on Frank Malzone's error in the eighth and raced home on Mike Hershberger's double.

Then, with two out in the 18th, Campaneris lashed a double to left field and continued all the way around when Willie Smith threw wildly trying to get him at second.

Elsewhere in the American League, Baltimore defeated Boston 5-3 before bowing 5-2. Washington nipped Cleveland 2-1. Detroit edged New York 3-1. Minnesota trimmed Chicago 6-4.

Two errors by Boston third baseman Joe Foy gave Baltimore three unearned runs in the opener, two in the second on Dave Johnson's sacrifice fly and Dave McNally's double and one in the third on Boog Powell's single.

San Angelo's Angels and Texas Tech dealt a double baseball defeat to the Big Spring Gage Oilers here Sunday afternoon, leaving the locals with a 9-10 over-all record.

San Angelo shaded the locals, 1-0, despite a six-hitter thrown by Bobby Suggs. Tech then edged the resident nine by a score of 3-2.

San Angelo scored its lone run in the fifth inning when Gil Velez singled into center field, was sacrificed to second by Taco Montelongo and Henry Velez followed with a one-baser into right.

In the fourth, Big Spring seemed intent on breaking the game wide open when Reggie Tredaway tripled but Jimmy Roger was out on an infield ground ball and Charles Spieker, the San Angelo hurler, settled to fan Jack Blizzard and Dean Christian.

In the seventh, Christian singled to center with one out and Bernard McMahon followed with a double that sent Christian to third. The Oilers tried a couple of sacrifices that didn't pan out, however.

Danny Valdes and Suggs teamed up to pitch for Big Spring in the second game, surrendering only six hits between them.

Tech scored a run in the second when Max Martin doubled and went to third on a boble. Eddie Styles followed with a Texas Leaguer that plated Martin.

The visitors counted their other two runs in the fifth when

## No More Dog House For Slugging Willie

By MIKE RATHET  
Associated Press Sports Writer

Harry Walker didn't take to Willie Stargell's puppy but he certainly doesn't mind his being top dog.

Stargell was just that today after his leadoff homer in the 11th inning gave the Pittsburgh Pirates a 2-1 victory over Atlanta and gave him the National League batting lead over three teammates with a .328 average.

But it wasn't long ago that Stargell was in Walker's doghouse because of his puppy.

The Pittsburgh manager takes exception to a number of things, among them dogs at spring training. And he was particularly disturbed when Stargell went to meet Baron — his German shepherd — at the airport.

"The pup's only five months old," Stargell explained. "He might forget me if he doesn't see me for seven weeks."

So Stargell had arranged for the pup to be shipped to spring training. And Walker arranged for a conference with Stargell. The battle eventually ended in a draw when Stargell boarded the dog with a veterinarian.

Stargell has avoided the doghouse ever since by taking steps toward the National League throne room.

Right now he's at the top but in a tight battle with three other Pirates — Matty Alou at .325, Manny Mota at .324 and Roberto Clemente, the titlist the last two years, tied with Houston's Joe Morgan at .321.

AVOIDED AT SINCE Stargell's homer, his 13th, lifted the Pirates to within 1 1/2

## Budding Politician Seeks Win In Pittsburgh Scrap

PITTSBURGH (AP) — Carlos Ortiz, the lightweight boxing champion of the world, and Carlos Ortiz, the budding politician, will be out campaigning for votes tonight against challenger Johnny Bizzarro of Erie, Pa.

Ortiz, a Puerto Rican-born New Yorker, hopes to convince two judges and a referee at the Civic Arena that he deserves to retain his 135-pound crown in 15 rounds or less.

As a candidate for the New York State Senate in the 29th District, Ortiz wants to remind the television viewers back home that he is on the June 28 primary ballot.

The bout will be on national home television on Sports Network with the Pittsburgh area blacked out. It also will be heard in Spanish and in English on radio hook-ups. Ring time is 9 p.m., Big Spring time.

Ortiz, a 29-year-old boxer-puncher who is both a talented ring artist and a knockout puncher, is a 2-1 favorite in the first defense of the title he won back from Ismael Laguna last Nov. 13 in San Juan.

The 29-year-old champion who has a 45-5-1 record has been guaranteed \$41,000 and 50 per cent of the television receipts. Bizzarro, 27, with a 54-9-2 record, gets only \$5,000 flat, plus expenses and a crack at the title.

## Jim Bob Darnell Reached Base On Misplay, Chris Galonas Followed With a Double, Jim Haggard Hit to Right Field to Plate Darnell and Galonas Tallied on an Error.

The Oilers counted one run in the initial round on a base on balls to Don Finkenbinder and a throwing error.

In the fifth, Big Spring counted again when Reggie Tredaway walked, Jimmy Roger walked and Blizzard followed with a one-baser.

## Games of National League Leader San Francisco with their fourth straight victory and their seventh in the last nine games. The Giants were beaten by Los Angeles 2-1.

Elsewhere, St. Louis swept Philadelphia 1-0 and 5-1, Cincinnati took two from the New York Mets 5-0 and 4-2 and the Chicago Cubs crushed Houston in both ends of a doubleheader 9-8 and 8-2.

Bob Veale got the victory for the Pirates, his seventh against five losses, with a five-hitter. He had a shutout until the eighth when Hank Aaron tied the game 1-1 with his 23 homer.

DRYSDALE STARTS IT The Dodgers won it in the eighth when pitcher Don Drysdale started the decisive rally with a pinch-hit single. Maury Willis' sacrifice and a single by Willie Davis rought the winning run home.

CUBS FLASTER ASTROS The Cubs showed their power against the Astros with Billy Williams driving in four runs in the first game with a double and homer and adding another homer in the nightcap.

Glenn Beckert's sacrifice fly brought in the winning run in the eighth inning of the opener. The Cubs broke the nightcap open with a six-run fifth built on two-run doubles by Lee Thomas and Byron Browne and a two-run homer by Randy Hundley.

## ABC Rallies For Victory

McMahan's got off to a good start Saturday evening in a Hi-Junior baseball game, but it was too good to last. ABCub kept pecking away with pairs of runs, climaxed by a four-run outburst in the seventh, to win easily 11-4.

Singles by Felix Martinez and Johnny Hedges, followed by Junior Alamanzone's homer gave McMahan's a 3-0 lead in the bottom of the first. Successive singles helped ABC catch up in the third, and from then on it was no contest. Russell had a pair of doubles and Meeks had one for ABC. Winning pitcher was Walling, losing pitcher Martinez.

## Anti-Infiltration Barrier Going Up Across Korea

SEOUL, South Korea (AP)—American and South Korean forces are building anti-infiltration barriers across Korea to impede the flow of Communist agents through the no man's land between North and South Korea, a United Nations Command spokesman said today.

The spokesman said work on the barriers—barbed wire—had started with the approach of summer. He said wide areas of thick undergrowth used as cover by clandestine agents were being cleared.

Communist infiltrators step up their activity every summer when the undergrowth is thickest. The U.N. Command spokesman said Korean and American sentinels along the 155-mile

truce line had been alerted to intensify their surveillance.

The barriers are something new. They have never before been tried to the extent now being attempted.

Apparently the war in Viet Nam, the dispatch of thousands of South Korean soldiers to fight there, and rumors that the

### Girl Shoplifting Gang Broken Up In South Texas

BEAUMONT (AP)—A shoplifting ring involving eight teenage girls was broken up by police here recently.

The girls admitted stealing fashionable dresses, swimsuits, coats and jewelry from quality stores.

The parents of the girls said they had failed to question their daughters about where they had obtained the expensive clothes. All said they would have given the girls the money to purchase the clothes had they been asked.

The girls each told the same story when asked by friends where they had gotten the clothes:

They had traded clothes with girlfriends who had gained weight and could no longer wear the clothes.

"Any time a teenager brings home something of value—no matter how reasonable an explanation he has—a discreet inquiry by the parent could prevent trouble later," said L. W. A. Robbins, head of the juvenile division of the Police Department.

Directed by Dr. Bruno Zolinski, the project develops theoretical procedures for predicting physical, chemical and spectroscopic information on hydrocarbons and certain sulphur and nitrogen compounds found in petroleum.

## Shiny Balloon Orbiting Near

VANDENBERG AIR FORCE BASE, Calif. (AP)—A big shiny balloon—if it's successfully orbited this week—will help answer the old question: Where on earth...?

The aluminum-plastic ball, 100-feet in diameter when inflated, is scheduled for launch not later than Thursday, National Aeronautics and Space Administration spokesmen said. It's called PAGEOS.

Orbiting 2,600 miles above the earth, it will serve as a target for cameras at 41 points around the earth. It carries no instruments.

PAGEOS' bright skin, scientists said, should reflect enough light to help plot the exact location of points on earth.

The project is a part of the U.S. National Geodetic Survey's mapping program. PAGEOS stands for Passive Geodetic Earth-Orbiting Satellite.

### API Contract Is Awarded A&M

COLLEGE STATION, Tex. (AP)—The American Petroleum Institute has awarded a \$73,000 contract for research at Texas A&M University.

## Fire-Line Set To Halt Blaze

SANTA BARBARA, Calif. (AP)—Firemen have established a line on the 123-mile perimeter of a week-old mountain fire, containing the blaze that seared 92,000 acres of rugged brushland.

Fire crews announced containment Sunday, but didn't estimate when the blaze might be controlled.

The fire started June 11 when a single-engine light plane crashed in a remote, tinder-dry wilderness area of Los Padres National Forest. Two Air Force enlisted men were killed in the crash; two others were injured.

Fire officials reported that 15 men have been injured in treacherous terrain. One suffered a broken leg when a fire truck overturned.

Officials said the 1,800 men on the fireline would remain on duty until control appeared certain, especially after warm weather—temperatures near 100 degrees—hampers efforts Sunday.

## China Turns Down Nuclear Test Ban

TOKYO (AP)—Red China said today it rejected a U.S. proposal that any U.S. promise not to launch a nuclear attack be pinned to Chinese agreement to the limited nuclear test ban.

The Peking People's Daily also said China would boycott any disarmament talks now because such talks would help the United States expand the war in Viet Nam.

The Chinese Communist party paper said the U.S. proposal of a mutual no-first-strike nuclear agreement was "a fraud" to get China to sign the test ban treaty. The United States made the proposal at a meeting of the U.S. and Chinese ambassadors in Warsaw, Poland, on May 25. China had exploded its third nuclear device on May 9, and the Chinese claimed they were continuing nuclear tests because the United States had refused to agree not to strike first in a nuclear attack. Peking first made that proposal in 1964.

The United States insisted that a no-first-strike agreement be coupled with Chinese adherence to the 1963 U.S., British and Soviet treaty banning nuclear tests in the atmosphere and under water. China and France—the world's other two nuclear powers—have refused to sign the treaty.

"The so-called disarmament by the United States imperialists is military expansion," the People's Daily charged.

"The most acute problem in the world today is the Viet Nam problem and not the disarmament problem."

The U.N. General Assembly last fall called for a world disarmament conference including China. The United States expressed willingness to hold preliminary talks with Peking representatives but reserved decision on attending the full conference.

### Bad Weather Area Spotted

SAN JUAN, Puerto Rico (AP)—A disturbed weather area which forecasters say has little prospects of developing moved toward the Windward Islands and the eastern Caribbean Sea today.

The easterly wave was moving toward the west or west northwest at 15 to 20 miles per hour and was spotted about 500 miles east of Trinidad.

It had winds of 20 to 35 m.p.h. with gusts to 38 in shower and thundershower activity, but forecasters said the winds appeared to be diminishing and chances of storm development in that area this time of year were "pretty small."

Should the bad weather area develop into a storm, it would be named Becky.

Hurricane Alma developed in the western Caribbean Sea two weeks ago, swept across western Cuba and caused an estimated \$1.5 million insurable damage in Florida before moving out to sea off the Carolina coast.

## A Devotional For The Day

I praise thee, for thou art fearful and wonderful. Wonderful are thy works! Thou knowest me right well. (Psalm 139:14, RSV)

**PRAYER:** Our Father, we are grateful that Thou knowest each one of us right well, that Thou dost forgive what we have been and see us as we seek to become what Thou wouldst have us to be. In our work and witness, make us effective in accomplishing Thy purposes; through Christ our Savior. Amen.

(From the 'Upper Room')

## Curbing Federal Secrecy

The U. S. House of Representatives is expected to okay the Senate's unanimous approval of a highly desirable freedom of information bill designed to reduce unwarranted secrecy in federal agency operations.

President Johnson is not expected to veto the bill, though its passage was opposed by a full array of administration spokesmen. Should he do so, it would be on constitutional grounds. That is the so-called "executive privilege" to deny Congress (and the public) internal administrative information in order to preserve separation of powers among the three coordinate branches of the federal government. However, Congress and the press are virtually unanimously agreed that the bill would not abridge this long-respected (and much-abused) presidential privilege.

A federal freedom-of-information or "open records" bill—such as 37 states, unfortunately not including Texas, now have—was passed in 1946. That law was so weak and vague, however, that it actually gave federal bureaucrats added excuses for keeping secret more information the public is entitled to have.

The pending bill was developed over a dozen years by the House Govern-

ment Operations Committee's subcommittee headed by Rep. John E. Moss, D-Calif. It specifically exempts security and sensitive information in clear categories which the general public does not need to know or which would endanger the public interest to reveal.

Most important, the bill would shift the burden of proof. Now anyone seeking a court order to get withheld information must prove why it should be revealed and why he should be able to get it. The new bill would require a federal agency, in a court test, to prove why it has the legal right to withhold it. The courts, presumably, would adequately protect "executive privilege." Finally, the bill would require agencies to keep indexes of information open to the public, to prevent burial of merely embarrassing facts in Washington's mountains of filing cabinets.

The Moss bill can hardly guarantee disclosure of all the federal governmental information the public has a right to know. No conceivable legislation could do that. But it is a turn in the right direction toward a more democratic society, and the President is urged to sign it when it reaches his desk.

## The Smart Dolphin

There was kind of an interesting fairy tale out of Moscow the other day. It seems that when Soviet fishermen freed a dolphin tangled in their nets the creature was so grateful that it led them to large schools of herring and they caught twice their official quota. The same thing happened on several later expeditions; when the vessel appeared, there was the dolphin with the lowdown on where they were biting.

As we say, an interesting fairy tale.

Except that maybe, just maybe, it was not a fairy tale. Studies in the last few years have shown the dolphin to be an extraordinary creature, with a brain-to-body weight relationship similar to man's. There has been speculation that some day the dolphin might be trained to herd schools of fish and otherwise act as a sort of underwater handyman. Perhaps what it takes is not training but merely kindness and a hint as to what's wanted.

### Congress Wants A Vacation

WASHINGTON — Congress is getting tired and wants a vacation. President Johnson agrees with the idea but wishes to make it conditional on the willingness of both houses to pass or report out of committee certain important measures.

It looks now, however, as if, for the first time, Congress is going to get a lengthy recess in midsummer. In a formal sense, the vacation period will be only ten days, but this actually means two or three weeks, as members like to get away early and come back late.

BACK OF THE whole drive for a bit of rest is a peculiar set of circumstances. For neither house has been overworked. It has been a dull session thus far, and nothing has been acted upon that could possibly be pushed aside or held in committee.

Most of the bills involving the "great society" program have been kept away from the floor. Many members recently began to get restless and the vacation idea was given considerable support. The argument is that members do not get back home to their districts often enough and that they miss a chance to evaluate the sentiment of their constituents on

current issues. With reapportionment in many districts, most members feel much more campaigning is going to be required this summer than for years past.

PRESIDENT Johnson heard about the drive for a recess and figured that he might be able to take advantage of it by insisting that some of the important bills on the calendar be acted on at once. Certainly the prospect of a vacation has stepped up the tempo on both sides of the political aisle.

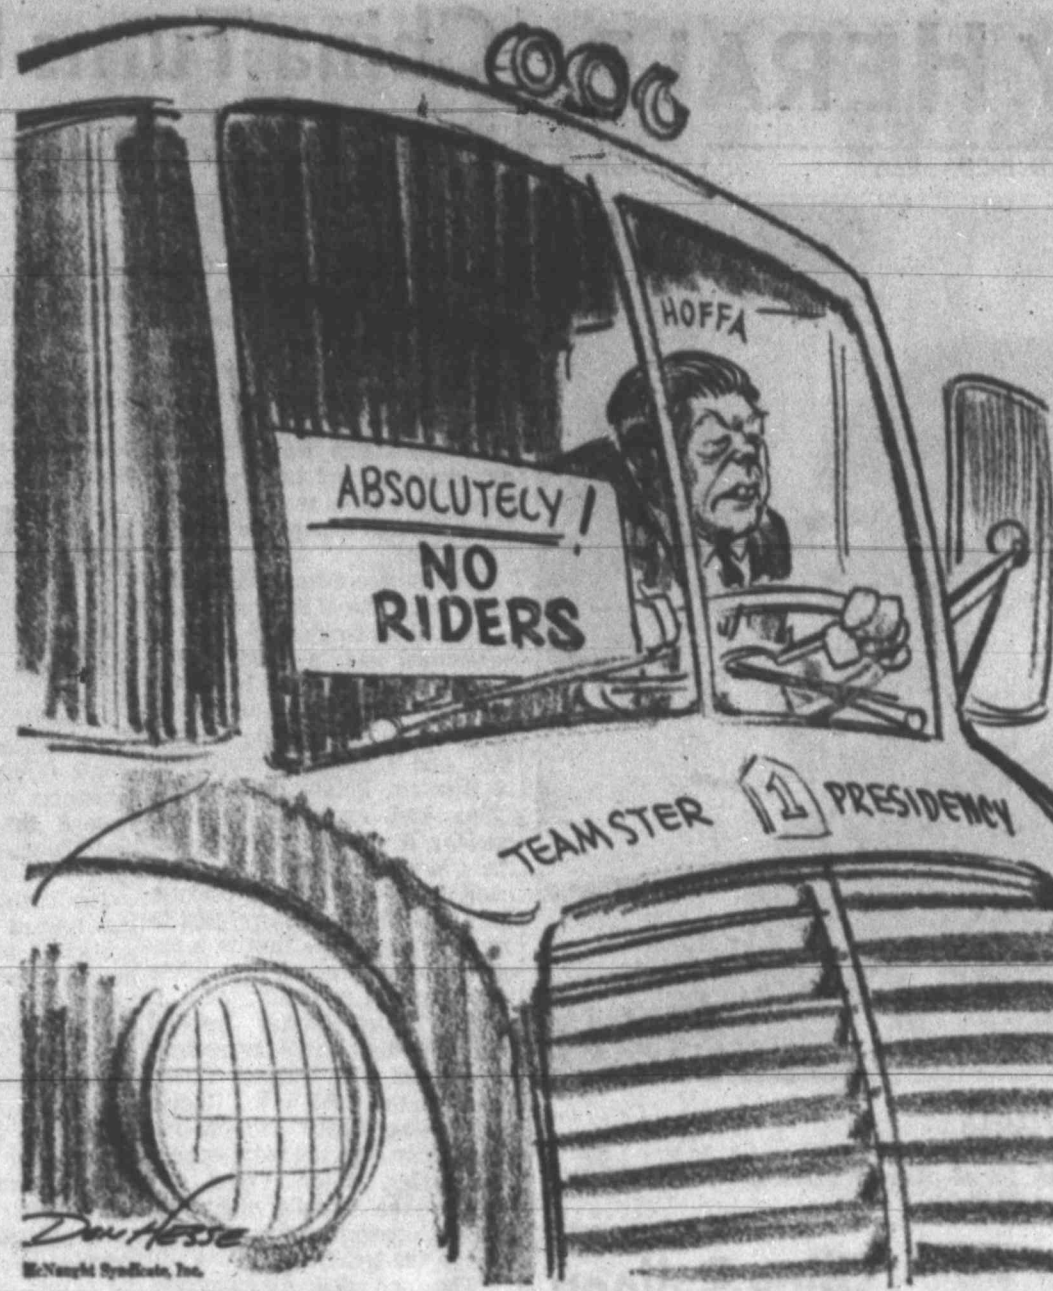

Thus, the foreign-aid bill is being reported out and the civil rights measure is emerging from the subcommittee of the House Judiciary Committee. A date has been set for the House Rules Committee to take a vote on the anti-poverty bill which it has been holding up. The auto-safety measures are being readied for floor action in both houses.

THE DIFFICULTY with the whole situation is not the large number of bills that are pending, but the pressures for and against them to which Congress appears to be very sensitive at present. The section of the civil-rights bill which is designed to prevent discrimination in the sale and rental of houses is a good example. It is stirring up lots of controversy, and the administration is well aware of the objections being raised. It does not seem probable that final action will be taken on this measure until close to the coming elections in November. In fact, many members would prefer to see this issue unresolved, so that they can argue its merits in the campaign.

THIS HAS been a session notable for group pressures. So far as the "fair housing" legislation is concerned, all sorts of suggestions for compromise are being made. It is being urged, for instance, that owner-occupied homes be exempted. But this doesn't satisfy the civil rights leaders, who feel there should be no exceptions. Real estate men throughout the country are up in arms over the whole proposal, and they may exercise a greater influence on the coming congressional elections than has hitherto been believed.

ODDLY ENOUGH, not many members want to see Congress adjourn too soon before the election, because a member always likes to give the impression that his presence is demanded in Washington. They find themselves embarrassed by being home too often when there is a war going on in Viet Nam and big decisions are being made. This is an additional reason why the midsummer recess has won widespread acclaim in the halls of Congress, as it is likely to raise less objections.

Now let's get to your eyes. At the pupil of each eye is the lens of the eye. You see things because light from an object travels to this lens of your eye. Perhaps you are looking at a

### Carmichael Is Hard To Pin Down

WASHINGTON (AP) — Stokely Carmichael, one of the Negro leaders of the march into Mississippi, was hard to pin down on a number of points when questioned on television.

And James H. Meredith, who began the march June 5, was shot, and now plans to resume the journey, was less than specific when asked if this time he would be armed, although 10 days ago he said he would be armed.

AT ONE point on the CBS radio-television program "Face the Nation," Carmichael, chairman of the Student Nonviolent Coordinating Committee, said government officials are saying all the time the only hope for Negroes is to go into the Army.

Asked to name any government official who said it, he replied "I can't think of it right now."

He questioned President Johnson's sincerity in wanting Negroes to vote under the 1965 voting rights law. He said if Johnson "is sincere about it, why doesn't he dispatch federal registrars where they are needed?"

The President has sent them to many counties.

CARMICHAEL took another crack at the President by explaining why he and his organization earlier this month refused to take part in Johnson's White House Conference on Civil Rights.

He said "we felt the President was calling the conference at that time when his international prestige was at a low ebb and he was going to use it to try to build up his prestige."

The fact is Johnson first disclosed his intention of calling the conference during a commencement address he made last June at Howard University.

IN MISSISSIPPI Carmichael has called for "black power" and most of the program was taken up with whether he meant force and violence. He wound up saying nonviolence and violence were "irrelevant" and that "When I myself decide to be violent, if that is my objec-

tive, then it becomes acceptable." But he explained he hasn't urged anyone to violence.

Before starting his march into Mississippi earlier this month Meredith explained his reasons for it: "First we want to tear down the fear that grips Negroes in Mississippi and we want to encourage the 450,000 Negroes remaining unregistered (as voters) in Mississippi."

BUT IN New York on June 9, three days after being shot,

Meredith said he would return to take up the march but this time would be armed. Asked Sunday on the NBC television program "Meet the Press" if he would be armed, he avoided a specific answer.

But the point is ironic: he started the march unarmed to help Negroes overcome the fear of being hurt. By saying he would return armed, he was admitting Negroes had a right to be afraid in Mississippi, as he found out.

### Odds Poor On Drinking Driver

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

If you drive after taking six drinks, there's a 1-in-20 chance you'll be involved in an accident. But if you try to drive after 20 drinks, according to the American Insurance Association, it's a 50-50 gamble whether you and the car will get home safely.

Kids today may call their dad anything from "Poppy" to "hey, you." But in early New Puritan children addressed their father as "honored sir."

The late William Randolph Hearst was a man who didn't like to be crowded. When he went to the theater alone, he always bought two seats — one for himself, the other for his hat.

Some octopuses are better quick-change color artists than chameleons. In the twinkling of an eye they can switch from chocolate brown to milky white or brick red.

College boys now have less and less desire to become tired businessmen. Only 14 per cent of the 1964 graduates from Harvard took business jobs, as compared with nearly 40 per cent of those graduating five years before.

Quotable notables: "Nothing in life is to be feared. It is only to be understood." — Marie Curie.

You probably never have seen an oyster eat corn on the cob, and you probably never will, but it has been found that small amounts of cornstarch in water help growing oysters put on 30 to 40 per cent more meat.

Prosperity certainly has its headaches. Americans gulped enough aspirin tablets last year to provide two a week for every man, woman and child in the country.

If the United States reaches a peak population of 432 million in the year 2010 — a statistical possibility — half of all Americans will be under 25.

If you spent less than \$129 for medical and dental care last year, you were healthier than the average person.

A Russian proverb advises: "Going to sea? Pray once. Going to war? Pray twice. Going to marry? Pray three times."

Folklore: You can bring bad luck to anyone by turning his picture upside down. If your house burns down and you build another in the same spot, it will burn down, too. Girls with long fingernails are likely to be spendthrifts. Eating bread crusts will make your cheeks rosier.

It was George Santayana who observed, "Those who disregard the past are bound to repeat it."

### Railroad Luxury Elsewhere

It pains me to read what they're doing to the passenger train in this country when I think of how they fight to upgrade such service in Europe and Japan.

Some of the rudest people I've ever known have been paid by the American railroads to deal with the public, employees who could never have been accused of going to 'charm school,' who never regarded customers as human beings but rather as so many bodies who dared to frequent their domain.

FOR SOME reason the railway chiefs seem felt compelled to retain and humor them, even while operators of other methods of public transportation were conspiring to court such business.

In a concentrated country like Japan, they say you can hop a train almost anywhere in the country within minutes after your plans firm up and travel in style at a nominal cost. Anyone who goes to Europe and misses out on the chance to see part of the country by rail loses out on half the fun.

TRAIN SERVICE in most parts of Europe is surprisingly luxurious something to be remembered.

First-class facilities on the railroads are as plush in their appointments as the finest hotels, and surprisingly cheap, especially if the passenger uses a thing called Eurailpass.

Eurailpass is a commutation ticket for first-class rail transportation through 13 Western European nations. A Eurailpass costs the equivalent of \$99 and is good for 21 days; \$130 for a month and \$295 for three months. You can ride as far and as often as you like within the period covered by your ticket.

UNDER SUCH conditions, the traveler can plan an itinerary, stopping where he likes. If he wants to alter those plans along the way, he can feel free to do it.

Railway travel agents are prepared to lead the customer assistance, with maps or with suggestions. Many of the great European railroads have offices in large U.S. cities where you can get complete information on routes and schedules.

AND WHEN you get to Europe, your hotel concierge can supply you travel information that will enable you to cut corners and save money. Europe's crack trains are unsurpassed for speed and luxury. Invariably, they are routed through the most scenic areas. Among the better ones are the German Rheingold, the Lightning trains of Scandinavia, France's famed Mistral and the Italian Settebello.

The American railroads have long used a slogan, "Next time take the train," or words to that effect. Someone must be kidding.

### No More Job-Hunting

WASHINGTON — "Have vanity case, will travel." Labor Secretary Wirtz, who last year cut off the import of Mexican and West Indian farm workers, has this year opened up inflowing traffic to English stenographers.

In New York City, which used to be the mecca of Southern charmers in search of office jobs and husbands, there is a shortage of working girls. The big law and financial firms have sent overseas for help. They are paying \$140 a week for talent.

WE HAVE HERE another indication of a disturbing truth—that many Americans, for various reasons, do not choose to work. The Bureau of Labor Statistics says there are two million wide-open jobs, with no takers, and this does not include job vacancies known to the private sector. A member of the Joint Economic Committee, who is researching this area, tells me that any time there are three million unemployed persons on record, there are 3.5 million job openings. Americans are disinclined to work if the job is away from home; is socially degrading, such as housework; is not as remunerative as unemployment insurance or relief, does not have a "future."

BUT THERE IS more to it than that. To the astonishment of the theoreticians, as well as many legislators who were misled by expert opinion, automation is not eliminating low-skill jobs—it is increasing the very kinds of jobs that many Americans scorn.

In a survey of 15 large cities, the U. S. Employment Services has found a big demand for practical nurses and hospital attendants, waiters and waitresses, chauffeurs and loaders,

clerks and typists. It is simply not true any longer that undereducated and undertrained persons are doomed to joblessness. A 1965 survey conducted by the National Industrial Conference Board, with Ford Foundation financing, had these revelations:

OF ALL THE job opportunities, almost 20 per cent were open to persons who had neither experience nor a high school diploma. About half of the jobs were open to beginners with no experience but with 12 years of schooling.

Some revision, it would seem, is due on the Employment Profile of the USA. In the past several years the federal government has produced numerous job-finding and job-making programs. There is the Manpower Development and Training Act, the Vocational Education Act, the Economic Opportunity Act (the war on poverty), as well as the Public Works and Economic Development Act. Each of these assumes some lack of "opportunity" for Americans who desire it.

BU THAT isn't the true picture by any means. The "opportunity" already exists. Something else is missing. A Labor Department official, probably at some risk to his own status, recently testified before a Congressional committee:

"Some desirable jobs at semi-skilled and even unskilled levels are currently hard to fill. They could serve as entry-level jobs for poverty group workers."

Well, the poverty groups and other groups aren't playing. Job-hunting, once a favorite American sport, is out of season in the Great Society. (Copyright, 1966, Publishers Newspaper Syndicate)

### Ladies Bargain-Hunt For Stocks

NEW YORK (AP) — Ladies with their built-in love for a bargain are eyeing the stock market more closely these days. Some Detroit women started an investment club in mid-May at the bottom of the stock market so far this year to take advantage of "irresistible bargains."

As a whole, amateur investors who have clubbed together to learn how to be professional stock traders have taken their knocks along with the rest this year. But most brag they've come out less scarred than the popular stock averages.

ONE POLL of investment clubs shows that the average loss in market value of their holdings from January 1 to June 1 was two per cent. The Dow-Jones average of 30 industrial stocks was 8.8 per cent lower June 1 than at the end of 1965. From its peak February 9 to its low May 17 the Dow's decline was 13.1 per cent.

Just as with individual stock traders, the showing of investment clubs this year has varied widely. Some of the clubs report a drop of 15 per cent or more. But one club in the St. Louis area boasts of a 20 per cent gain in value of its holdings so far this year.

A few investment clubs have folded, discouraged by declining prices of their stocks. But in April when the market was just so-so, 300 new clubs were formed. Members of the Super-Duper Investment Club in Detroit called their May meeting "bargain day" and doubled their usual contribution, thus investing more than in any previous month.

THERE ARE about 40,000 clubs in the nation with an estimated 1.5 million members. The National Association of Investment Clubs, with 8,000 member clubs, polls its members on how they had fared in this year's disturbing market. Answers from 12 regions representing 3,284 clubs showed an average loss in market value of two per cent this year, but paper values still were far ahead of the purchase price of their holdings.

Selling was mainly for switching into issues that look more attractive. A California club reports selling an

insurance stock to buy two radio issues, an airline and a copper. A Westport, Conn., club brags that a medical instrument issue bought in April is higher today. A St. Louis area club reports its members more enthusiastic about trading in a falling market than a rising one, because of bargain-hunting fever.

The older the club the more inclined to be calm. A Bellevue, Mo., member notes: "We've been through several periods when the market was acting as it is at present, so we're not disturbed." This is echoed by clubs in the Akron-Cleveland area in San Francisco and Portland, Ore.

BUT A NUMBER of amateur investors lost their drive for stock trading. A club in Michigan sold out completely and went into cash. A Missouri member club cut back its new buying by 50 per cent, holding up cash for better bargains.

Then there's the lady club leader in Plymouth, Ind., who says: "When I see stock prices down heavily, I look on them just as I do when I see dresses on sale. I figure stocks are on sale and the thing to do is to buy."

Old pros may or may not agree, but that's how some investment-conscious amateurs studying to be pros say they feel.

## Opinion Change

SPOKANE (AP) — Residents of the Shadle Park section of the city gathered around a steel water tower recently and the high school band played "You Made Me Love You."

When the tower was being constructed, petitions were circulated and hearings were held to protest it as a probable eyesore.

But the tower went up with 15 vertical cones around it and Sylvania Electric Products lighted it for a night as well as daylight spectacle.

And the community decided, at a recent ballgame, to express its change of opinion publicly.

# Crime Gains 6 Per Cent

WASHINGTON (AP) — A sharp increase in rape paced a 6 per cent increase in the nation's crime rate for the first quarter of this year over the corresponding quarter of 1965, the FBI reported today. The number of reported rapes jumped 14 per cent with a 22 per cent rise in the north central states and an 18 per cent in cities of more than 25,000 persons. Suburbia continued to record the sharpest crime rate increase — 9 per cent. Rural crime rose 8 per cent and big city crime 4 per cent. The violent crimes of murder (4 per cent), rape, robbery (4 per cent), and assault (9 per cent) increased an aggregate of 7 per cent, while the property crimes of burglary (4 per cent), larceny (11 per cent) and auto theft (5 per cent) rose an average of 6 per cent. All geographic regions of the nation registered crime rate increases with the north central and Southern states leading the rest with 8 per cent rises. The FBI figures were based on reports from 5,034 law enforcement agencies representing more than 143 million of the population.

# Mahon Leads Cut Of Jet Fuel Imports

Congressman George Mahon has taken the lead in persuading Defense Secretary Robert McNamara to reduce imports of jet fuel for military use in the U.S.

Mahon, chairman of the House Appropriations Committee and also chairman of its subcommittee on military appropriations, reports that he asked the Secretary to consider elimination of the 30,000 barrels daily of jet fuel imports. This was taken, Mahon reported, in view of this country's worsening balance of payments deficit.

The West Texas congressman reported:

"It is gratifying to have been advised that, in view of the seriousness of the balance of payments problem, Secretary McNamara has decided that during the first half of fiscal year 1967, the Department will not use its finished product import quota of 30,554 barrels daily—costing some \$120 million

annually—provided that substitute products can be obtained domestically.

"I am confident the domestic industry can and will make whatever adjustments are needed to supply these military requirements from domestic refineries and thus support fully the Department's determined effort to help alleviate our balance of payments problem.

"This action will significantly contribute toward correcting the deficit we have faced with respect to our international accounts. In addition, it will strengthen the security objectives of the oil import program administered by the Department of the Interior. It will provide encouragement to the domestic oil producing industry and incentive for additional domestic oil exploration and drilling which have been inadequate and declining for a number of years.

"Domestic oil producers, through the Independent Petroleum Association of America, repeatedly have advocated elimination of these military imports for use at military bases in this country. I have supported that position because of the necessity to eliminate our payments deficit, and the need to preserve a strong domestic petroleum industry and a position of strength as to our oil supplies. Secretary McNamara's action recognizes these needs, and reflects a determination to meet them."

## Taite Is New DAV Leader

AUSTIN, Tex. (AP)—Rellly W. Taite of Harlingen is the new state commander of the Texas Department of the Disabled American Veterans.

Taite was elected to the post Sunday as the DAV ended its four-day 1966 convention here.

Other officers elected included: Mrs. Paul Pettibon, Harlingen, auxiliary commander; Connie Smith, Fort Arthur, senior vice president; J. W. Martin, Wichita Falls, junior vice president; Johnny Goodman, Amarillo, chaplain, and R. L. Hargrave, Austin, judge advocate.

Next year's convention will be held in Nacogdoches, July 8-10.

## Skilled Worker Shortage Told By Rep. Brooks

BEAUMONT (AP)—A growing shortage of skilled manpower in the Beaumont-Port Arthur-Orange area was pointed up recently by U.S. Rep. Jack Brooks, D-Tex., at a meeting of area labor and management leaders.

"At this time one of the greatest problems we face here is providing the required number of skilled workers. To realize the growth we seek we must attract or train more skilled workers," the congressman declared.

"Unions have a responsibility to provide the journeyman and apprenticeship training programs which supply our highly skilled manpower. They, too, must recognize there must be full utilization of the available manpower," Brooks said.

Purpose of the conference was to lay groundwork for rapid settlement of possible future labor-management disagreements.

Seventy-five labor and industry leaders attended.

## Lynda Bird Has Quiet Weekend With George

KANAB, Utah (AP)—Lynda Bird Johnson spent a quiet weekend with movie actor George Hamilton in this southern Utah community. At various times George and Lynda were seen wading in a stream, eating at a drive-in ice cream store, walking hand in hand and in one intimate moment, she was seen whispering in his ear.

Most people who saw the President's eldest daughter described her as gay and unpretentious, though she rejected most requests for pictures.

A high spot of the weekend was a late dinner Sunday night.

Lynda and George joined actor Glenn Ford, actress Inger Stevens and friends about 9:45 p.m. in a motel restaurant.

Hamilton, Ford and Miss Stevens are on location for a Civil War film. Hamilton escorted Lynda to the camera site Saturday.

Kanab is a community of some 1,300 residents near the Utah-Arizona border. For more than 30 years its surrounding multicolored hills have formed the backdrop for Western movies. Townfolk pay scant attention to celebrities.

Lynda and George arrived in Kanab Saturday morning aboard a private jet plane.

They traveled 30 miles into the depths of Zion National Park's sheer cliffs. George was dressed in a gray Confederate officer's uniform for his movie role.

After a box lunch Lynda watched while Hamilton shot some scenes. Later, the two waded in a small, meandering stream.

## DEAR ABBY A Word On The Movies

DEAR ABBY: I have one big complaint. The movies they are making today are not fit to watch. Last night my husband and I went to a movie for the first time in nearly a year and the one we saw was a disgrace. It was the most vulgar movie I had ever seen. I spoke to several people about it and they said ALL the movies are that way now. Everyone says the morals of our teenagers are so low. What can we expect when we give them movies like that to look at? My children will be old enough to date in a few years, and I pray that something will happen to improve movies before then. Heaven knows, they can't get much worse.

DISGUSTED IN ENID, OKLA. DEAR DISGUSTED: The good Lord must have heard your prayers. The Motion Picture association, which controls movie censorship, has just made Jack Valenti its chief — and I'm sure we will all sleep a little better knowing that Valenti is its president.

DEAR ABBY: We have one child, 17, I'll call Angie. She is a normal, average child — a little spoiled, but she's never given us any trouble. She has never washed a pair of hosiery or ironed a blouse because her mother wouldn't let her. She's never even made her own bed. My wife was a personal maid for this child. Angie was never allowed to spend a night at a girl friend's house or a week at summer camp. Now the subject of college is at hand, and Angie has applied to several. My wife says, "She doesn't have to go out of town. The local college is good enough." Angie wants to go away to college, and I think she should, but her mother can't hear of it without bursting into tears. What should be done? IN BETWEEN DEAR IN: You appear to have one neurotic female on your hands. Do you want to try for two? Ask your clergyman, family doctor, or someone whose opinion your wife values to speak to her. She must be made to realize that her attachment to her daughter is unhealthy. Angie needs freedom to grow and develop an independent personality. And mother desperately needs to develop some outside interests.

DEAR ABBY: What do you think of beads on young men? DORIS DEAR DORIS: They sort of grow on you.

## Bell Strikers Return With New Contract

NIAGARA FALLS, N.Y. (AP)—One United Auto Workers local votes today and another Tuesday on proposed new labor contracts aimed at settling a dispute with Bell Aerosystems Co.

Negotiators for Bell and Locals 501 and 516, meeting with federal mediators, reached tentative agreement early Sunday, ending a one-day strike.

Union leaders said they would recommend approval of three-year pacts which were reported to contain similar economic formulas worth a little more than 64 cents over a three-year period.

The old contracts expired June 5, but the UAW locals, representing 1,800 Bell employees, remained on the job in response to a plea from the Federal Mediation and Conciliation Board, made because Bell is involved in \$100 million worth of defense contracts.

But after the negotiators failed to reach accord Friday night, the locals struck the Bell plant in nearby Wheatfield early Saturday morning.

A company spokesman said Bell offered a 64-cent package Friday. The agreement reached after a 15-hour bargaining session Saturday and Sunday was said to contain an amount slightly higher, retroactive to June 5.

Basic wage scales for members of Local 501 ranged from \$2.21 to \$3.30, an hour under the old contract. Workers represented by Local 516 received from \$2.36 to \$3.30 1/2 per hour.

Picket lines were withdrawn Sunday. The strike had little effect on Bell operations because of a light work schedule Saturday.

A company spokesman said the plant's 4,750 employees would resume "full, normal operations" by late today.

## 13 Midshipmen Win Licenses

COLLEGE STATION, Tex. (A)—Thirteen midshipmen from the Texas Maritime Academy have been awarded shipping licenses from the Coast Guard.

The class is the first to graduate from Texas A&M University's Galveston branch.

The graduates also qualified for a Bachelor of Science degree in either marine transportation or marine engineering.

## McNamara's Opposition To Callup Is Confirmed

WASHINGTON (AP)—Congressional testimony confirms that Secretary of Defense Robert S. McNamara has rejected recommendations of the Joint Chiefs of Staff to call up Army reserves for duty in Vietnam.

Sen. John C. Stennis, D-Miss., chairman of the Senate Armed Services Preparedness subcommittee, released Sunday night a heavily censored transcript of the Joint Chiefs' testimony during subcommittee hearings last May.

The transcript disclosed that the callup recommendation had been made three times since last spring by the four-star Joint Chiefs, although Gen. Harold K. Johnson, Army chief of staff, later conceded that McNamara's decision proved sound.

Johnson told the subcommittee that, although he had joined in the recommendations, he now believes the votes were "in the national interest" because "the declaration of an emergency and the mobilization of a powerful nation like the United States would send shivers and tremors throughout all the world."

Johnson also testified that McNamara was correct in assuming that the Soviet Union "would remain essentially non-belligerent" during the last year and a half.

The general also said the callup decision would have run counter to President Johnson's speech April 5, 1965, in Baltimore "that we seek no wider war." He said this policy still is in effect.
