FIFTY-NINTH YEAR

Sonora, Texas, Friday, January 14, 1949

THIRTEENTH WEEK

The appointment of J. A. Gray as animal husbandman for the Texas A&M College Extension Service was announced Tuesday.

He will specialize in sheep and goat, wool and mohair production with headquarters at San Angelo. The appointment is in line with the Extension Service policy of providing field representatives - insofar as funds are available - to work with farmers and ranchmen on specialized commodities.

Gray is at present associate professor of the Texas A&M animal husbandry department. He was born in Spokane, Washington and received BS and MS degrees from the University of Wyoming. The latter degree was in wool technology.

The new extension animal husbandman carried on wool research and supervised the Wyoming wool laboratory before coming to Texas A&M in 1940 as an instructor.

He will work with county agents throughout the sheep and goat area.

—(???)—

There is a saying that history repeats itself. And that's just what it will do this year, unless Texas stockmen do something.

About a year ago, a number of West Texas cattle feeders had trouble. Their cattle lost their appetites and didn't gain as well as they should have. The blame went to the late summer drought of the year before, says Dr. W. C. Banks, extension veterinarian of Texas A&M College.

Texas had a good share of dry summer ranges this past year, so history may repeat itself again this year unless Texas stockmen keep a good eye on their cattle. Cattle are facing a tough winter. They have spent a lot of time on droughty ranges, and now there is little green feed in the winter green feed - and lots of it - to keep the cattle in shape. Good quality alfalfa hay is one of the best sources of vitamin A there is, says Dr. Banks. Two to four pounds per day supply enough vitamin A to keep the cattle in good shape.

Cattle that don't get plenty of green hay will soon become night blind. After that, if they still don't get their vitamin A, they will have convulsions and later become totally blind.

Here's a recent report from Paul T. Marion, assistant animal husbandman of the Spur Experiment Station. On the night of December 22, one Hereford steer in a pen of five was found to be completely night blind. Two others had affected night vision. These steers had not had any vitamin A in their ration 44 days. They came from grass pastures that had dried out back in August and September. They just didn't have any green feed to furnish them vitamin A.

Other steers just like these - on the same pastures - have been fed the same ration plus alfalfa hay and silage. All this group had normal night vision.

If nothing is done to correct the vitamin A deficient ration, all the steers in this group will become night blind. They will soon lose their appetites, some may fall to the ground and have convulsions. Later they may become totally day blind.

Last year, reports Marion, steers from these same pastures showed more severe symptoms of vitamin A deficiency after 84 days on the ration that didn't have green feed. Before the end of the experiment it was necessary to feed vitamin A to them so they would recover their appetites and be able to finish the experiment.

Now is the time to see that your cattle get plenty of high quality alfalfa hay or silage, says Dr. Banks.

This will keep them off the sick list later on.

—(???)—

Twenty-five years have made a big change in Texas agriculture. A quarter of a century ago, Texas farmers received a large share of their income from cotton - around 70 percent, according to the figures. Today, livestock is taking the place of cotton as the basis of income. It isn't quite up to the 70 percent mark, however. At the present time, the income of Texas farmers from livestock and livestock products runs about 40 percent of the total income.

In 1924, the total sales from livestock and livestock products were only 20 percent of the total income. By 1944, returns from these sources had risen to almost one-half the total income - up to 46 percent. The same year, receipts from cotton and cottonseed had dropped to only 25 percent of the total farm income. It ran about the same as this again last year. Sales from other Texas crops - wheat, rice, sorghum, citrus, flax

HI-YO, LITTLE BEAVER! — Eleven-year-old Don K. Reynolds of Van Nuys, Calif., will do trick riding and roping at the South Western Exposition and Fat Stock Show rodeo in Fort Worth Jan. 28 through Feb. 6. The rodeo and movie star, who will play "Little Beaver" in forthcoming Red Ryder films, is shown here astride his two matched Palominos.

Impersonations Of Famous Stage Characters To Be Given Here

A new, and unusual type of theatrical entertainment is offered by Hal and Ruby Holbrook in famous impersonations entitled "Personality Portraits from Literature and Life," to be presented at the High School auditorium Tuesday afternoon, January 18, at 2 o'clock. Their varied repertoire brings to life on the stage such fascinating figures as Mark Twain, Queen Victoria and Prince Albert, Elizabeth and Robert Browning, Hamlet and the Queen, Macbeth and Lady Macbeth, Queen Elizabeth and Lord Essex, and those effervescent young lovers of Shakespeare's "As You Like It," Rosalind and Orlando. The Holbrooks emphasize comedy in their program, but this lighter touch is effectively balanced with such tragic figures as Hamlet and his Queen mother. All of their scenes are colorfully costumed and characterizations are vividly aided by a series of clever make-ups.

Hal and Ruby Holbrook (who are Mr. and Mrs. in real life) have had a wide theatrical background despite their youth. Holbrook's theatrical heritage comes to him from his mother, who was in musical comedy under Ziegfeld's management, and his uncle, whose association with the theatre as actor, director, and playwright covered a period of twenty years around the turn of this century.

While stationed in Newfoundland during the war, Holbrook met his wife-to-be, who was at that time the country's most popular young actress. There they played together in both service and civilian productions. Shortly after arriving in the United States they were married at the Little Church Around the Corner in New York and carried on their theatrical teamwork in such radio features as "The Army Engineer Show," on a Coast-to-Coast hook-up, until still continuing to entertain camps and hospitals.

Following Holbrook's discharge from the service, they completed their education at Denison University and appeared together in summer stock theatre.

SONORAN'S SISTER KILLED IN AUTO ACCIDENT

Funeral services for Mrs. E. M. Mills, sister of Mrs. Tom Tice of Sonora, were pending this week, awaiting the arrival of a son and daughter from California. They had been unable to leave because of the weather. Services were tentatively planned at Brownwood, where Mrs. Mills and her husband had made their home for some 20 years.

Mrs. Mills was killed Sunday morning, when the car in which she and her husband were riding overturned 4 miles west of Brownwood. He husband is recovering from injuries in a Brownwood hospital. The couple had left California January 2, to visit relatives in Texas and were on their way to San Angelo when the accident occurred.

Ervin Willman is recovering from a broken ankle received Monday, when he stepped off the bed of a truck.

Neil Rouche is at home this week after receiving a sprained ankle Monday night when he stepped off the back of his truck at the station. He is improving.

Sutton People Spend \$107,317 On Savings Bonds

The people of Sutton County bought \$107,317.50 worth of U. S. Savings Bonds during 1948, according to a year-end report of Harry Owens of Dallas, state director for Savings Bonds, to George H. Neill, County Savings Bonds chairman. During the same period, the people of Texas bought \$196,488,587.50 worth of these securities.

Owens said that Texans now own more than \$1.5 billion worth of Savings Bonds which earned \$42,372,000 in interest during the year.

To illustrate the practical aspects of thrift, as represented by the Savings Bonds program, Owens pointed out that the annual interest from bonds held by Texans, if converted into residential construction, would build 4,237 homes costing \$10,000 each, or, if considered in terms of higher education or wages and salaries, would give a four-year college education to 14,124 students at the rate of \$750 per year, or provide an income of \$225 per month for a full year for 15,693 persons.

Owens stated that of the state's total bond sales last year, Series E, the "people's bond," accounted for \$139,591,216.25, or 71 per cent.

"There are more Savings Bonds in the hands of the people today than ever before," he said. "Almost 70 per cent of all bonds ever issued are still in the possession of their original owners. The sale of Series E bonds in Texas alone during 1948 was \$4,940,447.50 more than for 1947."

Annual Stock Show Tuesday In Brownwood

Launching the 1949 season of major livestock shows in Texas will be the sixth annual Brownwood Livestock Show, which will open Tuesday for an eight-day run.

The show will be held at the 74-acre showground at Block 2400, Camp Bowie, recently purchased by the stock show association.

Top cattle, sheep, hogs, goats, poultry and horses from a wide area of Central Texas will be exhibited. Entries have been received from 40 cities and towns in Central and West Texas.

Opening the show Tuesday, January 18, will be the district club boys pig, sheep and goat shows with FFA and 4-H boys from the 19-county district competing for prizes. January 19 there will be the poultry show and breeder sheep show. On tap for January 20 are the boys' fat steers and open class fat steer events, turkey division of the poultry show and B and C type goat show.

Hereford breeding cattle, quarter horse halter classes and the club boys' sheep and hog sale are scheduled for Friday, January 21. The Hereford breeding cattle show will continue and there will be palomino pleasure, halter and stock horse shows and the Shetland pony show on Saturday, January 22.

Performance events of the horse show will be held Sunday, January 23.

The annual sale of the Brown County Hereford Breeders Association will be held at 1 p. m. Monday, while the auction of the Brown County Polled Hereford Association will get under way at 9 a. m., Tuesday, January 25.

In addition, there will be many commercial exhibits, two nights of special square dancing events at Memorial Hall, carnival concessions by the Junior Chamber of Commerce and the world's largest draft horses.

There will be a cafe in operation at the showgrounds for meals, coffee and cold drinks.

Attend SOME Church Sunday

LINDA'S THANKS

Domestic Water Right Protection West Texas C. Of C. Goal For '49

Protection of the domestic water rights of West Texas today was termed by President John Mitchell of the West Texas Chamber of Commerce, as the most important task for 1949. Mitchell, who is president of the First National Bank of Odessa stopped in Abilene for a conference with General Manager D. A. Bandeen.

"We are launching on all fronts a very comprehensive and constructive program as worked out by our executive board, eight district meetings and board of director action during October and November," Mitchell said.

"Our first and most important task is to protect our municipal and domestic water rights now being seriously threatened by legislation requiring that all big power dams be first filled with water before our West Texas towns can get water.

"My town of Odessa would be foolish to participate in a \$12 million tri-city water project if our water supply on the Colorado is first dependent on the big power dams around Austin being filled before we can have water. The same applies to all West Texas towns."

To assure action on this before the legislature the Municipal Legal Rights and Defense Committee meeting has been called for Amarillo 10 a. m. Monday, Jan. 17, in the office of Mayor Lawrence Hagy, who is co-chairman with Charles South of Coleman of this important committee. Other members are Preston Kors, manager of the Odessa Chamber of Commerce, secretary; Charles E. Coombes, Stamford, legal consultant.

WASHINGTON NEWS LETTER

With many new faces and many new solutions for the ills of the day in the offing, the wheels of the 81st Congress began to grind last week.

In the House there are now 263 Democrats, 171 Republicans and one American Laborite.

The old bromide about "moss-backs" running Congress can keep talking, the average age of the new membership being one year older than the old Congress. The average age jumped from 51 to 52 years. Seven of the Members are over 75, while 13 have not yet reached their 35th birthday.

Speaking of ages, one of Texas' two new members shares honors with one other Member in being the youngest in the House. He is Lloyd Benston of McAllen, successor to the late and lamented Milton West. Benston is 27, has been serving as a County Judge, and indications are he will be a sound and valuable Congressman.

New Look

There's a new look in alignments and in committee make-ups. It's quite different from what it was in the 80th Congress, which the Republicans controlled, and also different from the 78th and 79th, both under Democratic direction. The main difference stems from expected increased influence of Labor on legislation.

Capital dopesters are saying Labor leaders will throw a lot of weight around in this Congress. That is, they're saying Labor will control more individual Members than in the past. Phil Murray CIO President called on House leaders a few days before Congress met and was reported to have demanded that no new Members had voted for the Taft-Hartley labor law be added to the Ways & Means Committee.

Murray's wishes were respected, only one of six new Members added to the Committee having voted for the labor law.

The Ways & Means Committee assigns new Members to other committees, and Labor leaders naturally want to be able to have

ant; Mayor Lance M. Davis, Rottan; Mayor A. C. Humphrey, Stamford; Mayor A. F. Little, Jacksboro and R. M. Wagstaff, Abilene, who was one of the authors of the WTCC-Wagstaff-Woodward act which is the law which now gives domestic users prior rights to water.

Proposed new legislation would place a vested right to water that falls on West Texas water sheds with present appropriation holders, which include power dams, thus depriving municipalities of their rights to recapture this water for domestic use, under the present law, according to Mitchell.

At the same time he pointed to the importance of another committee, which will meet in San Angelo, Jan. 10. This is the legislative enactment committee of the Soil Conservation Commission, and is headed by W. R. Cusenbary of Sonora and Wendell Mayes, Brownwood. Other members are Paul Counts, Fort Stockton Chamber of Commerce manager, secretary; Sterling Williams, Snyder; Judge L. M. West, Channing; Judge Robert Herring, Breckenridge and J. Walter Hammond Tye.

It is the duty of this committee to assist in passage by the 51st session of the legislature an enabling act prescribing terms and conditions of use by the respective counties of the state general fund ad valorem as constitutionally diverted to the counties. Under this bill the counties are assured the maximum of local self government in the expenditure of these funds within the counties for soil conservation, farm-to-market roads and water conservation purposes.

a direct voice in the make-up of other committees where legislation must originate. An attempt to put Rep. Stanley of Virginia, a farmer, on the Committee, failed in the Democratic caucus, evidently largely because he did not have the blessing of Labor.

The President Speaks

President Truman in his State of the Union message, appealed for harmony and cooperation. His report was generally well received, much more so than on a similar occasion a year ago. Along with man's constructive proposals, the President set the stage for some hot battles by urging some measures sure to be controversial.

Among these was his demand that Texas and other coastal States be stripped of any claim to the minerals under the adjacent tidelands. All of this oil along the Texas gulf goes to our State school fund, and was expressly reserved to our State when we were admitted to the Union. Last year the House passed a bill expressly quieting a Federal claim to such minerals, but it died in the Senate. Prospects for such legislation being enacted this year are not good.

Among other measures for which the President plugged, which are not acceptable to many of us, included socialized medicine, socialized housing; Federal control over lynching, poll taxes, racial segregation, and alleged employment discrimination because of race or religion. Opponents insist these matters are for the States to handle.

Mr. Truman called for \$4 billion in new taxes, and for repeal of the Taft-Hartley law. He asked that the old Wagner Act be revived, with a few amendments.

On the brighter side, the President favored a strong national security program, a balanced budget, a vigorous foreign policy in the struggle for peace, sound farm legislation, REA expansion, water and soil conservation and development of our water power and other natural resources for the common good.

Attending the sale Saturday in San Angelo were Libb Wallace and son, Gene, and Shelly Lowe.

Services Today For John Cooper

Reburial services for the late Pfc. John B. Cooper, killed at Barrakpore, India, April 10, 1943, will be held at 3 o'clock Friday afternoon from St. Ann's Catholic Church. The Rev. Cyril Herman, O. F. M., will officiate. The body, accompanied by a military escort, will arrive here Friday morning.

The Sam C. Merck Post of the American Legion will be in charge of graveside services at the Sonora Cemetery, and pallbearers are Gus Love, Louie Trainer, O. C. Ogden, Vernon Hamilton, A. B. Hightower and G. H. Davis.

John B. (Pete) Cooper was born in Sonora October 1, 1905, the son of the late Mr. and Mrs. Don Cooper. He attended Sonora schools and later moved to New Mexico to make his home. He was engaged in oil field work.

He volunteered for army duty in May, 1941, and was serving with an engineering unit in India at the time of his death. He is survived by four children, Jerry, Molly, Nell and Tommy, all of Maljamar, New Mexico; three brothers, Tom of Glendale, California, Pat of Fort Stockton, and Alfred of Sonora; and a sister, Mrs. Edith Phillips of Alpine.

Winter's First Cold Spell Hits Here Monday

TRAVEL, COMMUNICATIONS CUT OFF TWO DAYS

Sutton County's first taste of winter weather arrived Monday in the form of a freezing rain driven by a chilling north wind. Temperatures went down to the high twenties and most communications were out. Tuesday, only one long distance line remained open to San Angelo and bus service from all directions was cut off due to ice on the roads.

The highway department put out warning signs and sprinkled sand on narrow bridges and sidewalks. Telegraph service was cut off Tuesday and Wednesday, and long distance telephone service was restored Wednesday.

Busses began to run again Wednesday as the freeze thawed, and by Thursday the mercury had climbed to 45 in Sonora.

Plenty of butane gas was held in storage by both the Home Gas and Sonora Gas Companies, and no evidence of a shortage was in sight.

During the week, the Sonora Wool and Mohair Company measured a total of .25 inches of moisture.

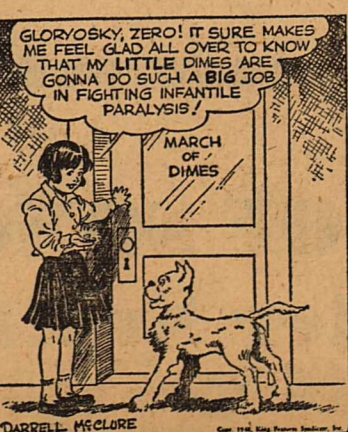

FOOTBALL PLAYERS GET NEW JACKETS TUESDAY

Bright scarlet satin jackets, emblazoned with a large S, were awarded football players, coaches and pep squad leaders Tuesday afternoon at an assembly program at the high school.

Special awards of silver footballs with a raised letter S were given to J. T. Ratliff and S. M. Kerbow in appreciation for their services as officials at the junior and B games.

Those winning jackets included the following: Pat Carroll, Robert Mata, Billy Gene Kring, Pedro Galindo, Felipe Virgen, Salvador Cardona, Johnny Smith, George Hamilton, Scotty Walters, Wayne Ogden, Darrell Alley, Rudy Biddle, A. Z. Joy, John Wesley Joy, Joe Kile, Bobby Allen, Bobby Joe Granger, Delma Odom, Clay Odom, Joe Dee Cook, Earl Johnson, Hayden Barker, Orville Anthony, Henry Berlanga, Charles Lee Haines, Gene Henderson, Norva Smith, Onita Smith, Peggy Willman, Coaches Bud Moody, Edwin Thompson and D. D. McKnight.

The condition of Mrs. Dee Word, who underwent an operation in a San Angelo hospital last week, is reported to be fair.

SWING OF SOUTHWEST MARKETS

Southwest farm markets experienced widely varying trends during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Cattle markets closed Monday's trade \$1 lower to \$1 or more higher for the week. Calves lost \$1 at Houston with common and medium grades selling at \$19 to \$24. Similar kinds brought \$17.50 to \$22 at San Antonio and Fort Worth. Good and choice vealers sold up to 72¢ at Oklahoma City, \$28 at Wichita and Denver and

\$30 at Kansas City. Wichita paid \$22 to \$24 for good and choice calves.

Sheep prices recorder only minor changes for the week. Good and choice clipped lambs brought \$23.50 at Kansas City and \$23 at Fort Worth. Oklahoma City and Wichita paid \$23 to \$23.50 for food and choice natives. Aged goats held steady at San Antonio. Kids lost 75 cents to \$1 to sell mainly at \$3.50 to \$4 each.

Good scoured 6-months Texas wools sold in Boston around \$1.30 a pound. Little 12-months wool was available, but good lengths quoted up to \$1.75.

FOR SALE: Divan with matching platform rocker. Call 21871.

Attending the Area Council Scout Meeting Monday night in San Angelo were Joe Brown Ross, Lea Roy Aldwell, A. E. Wells and E. S. Mayer. The group heard Herb Petrie, former Lions Club governor, deliver the main address on Scouting and its part in making citizens of the future.

FOUND: Boston bulldog, black with white markings. Owner dial 2-7171 and identify. 4tp13

R. C. Vicars fell Tuesday morning on the icy streets and received a painful cut on his elbow.

Bernard Genrich, who is employed by the Robert Ray Co. of Houston, arrived Saturday afternoon to visit his brother, Dr. M. E. Genrich, and family.

The practical food freezer for town and farm homes—with new advantages in convenience, economy, and dependability! You'll instantly approve its "easy-to-reach" food shelves, generous capacity, and long-life hermetically sealed mechanism. See for yourself—today!

- CORRECT TEMPERATURES—for proper quick-freezing and safe frozen storage.
- LARGE CAPACITY—10.3 cu. ft. of usable space. Room for 360 or more lbs. of foods.
- FOODS VISIBLE AND ACCESSIBLE—Divided shelf compartments with transparent doors.
- DEPENDABLE PERFORMANCE—Sealed cold-making unit for efficiency and long life.

Home Gas Company, Inc.

what's cheaper than dirt?

Safe and palatable water from a public water supply system is literally cheaper than dirt. A ton of it (240 gallons) costs less than 10 cents. A ton of earth, dumped in front of your home would cost many times 10 cents for trucking alone. This low cost of water is the more remarkable when you consider it includes collection, purification and delivery right to your faucet.

Water supply service is generally "out of sight and out of mind" of the public, and, too often, taken for granted. But it is America's largest industry, operated with great efficiency, 24 hours a day, 365 days in the year.

(SEAL) MARY BELLE BEIN, Notary Public.

YOUR HEALTH

Every citizen of Texas should be greatly interested in the over-all health picture in the State as indicated by the morbidity report just released by Dr. Geo. W. Cox, State Health Officer, showing the year's total of communicable diseases.

Comparing the 1948 figures with the totals of 1947, a great reduction is shown in some of the major health hazards. For instance, in 1947 there were 1,125 cases of diphtheria, while in 1948 the total had dropped to 924. This was 924 cases too many, since none of them need have occurred if the persons had been immunized. This same statement applies to smallpox, in which the total dropped from 15 cases to 4. Vaccination would have prevented the incidence of even one case of smallpox. Typhoid fever remained at a comparative standstill, with 317 cases being reported in 1947 and 318 in the past year. These typhoid cases could also have been prevented by immunization.

The results of malaria and typhus control work throughout the State is reflected in the total number of cases for 1947 and 1948. Malaria dropped from 4,729 to 3,577, and typhus was cut nearly in half with the total falling from 310 to 344.

Dysentery continues to be a serious problem in public health in Texas. The incidence of this disease jumped from 15,863 in 1947 to 20,920 during the past year. Influenza dropped off from 116,564 to 76,823, and mumps was reduced by nearly half, from 17,202 in 1947 to 9,898 in the past year.

Dr. Cox emphasized that while there are many diseases like poliomyelitis against which there is no specific protection, it is a tragic mistake for any person to be allow-

ed to have diphtheria, smallpox or typhoid fever, when he can be completely protected through the simple means of immunization.

AUXILIARY TO PRESENT PROGRAM AT FIREMEN'S CONVENTION IN FEBRUARY

Mr. and Mrs. Lee Patrick and Gomer Minnick spent Sunday in Eden, where they attended a meeting to plan a program for the Hill Country Firemen's Association convention to be held February 8 at Mason.

It was decided at the meeting to include the Firemen's Auxili-

ary on the program. This will be the first year that the ladies have participated in the convention program.

Mr. and Mrs. C. C. Smith and Freddie Adkins returned Wednesday morning from a twelve-day visit in Cedartown, Georgia, where they visited relatives.

Pat Lyles and daughter, June, recently flew to Dallas on business.

THE DEVIL'S RIVER NEWS

THIS TASTES GOOD IN TEXAS

Chicken or Turkey Pie
3 tablespoons fat
4 tablespoons flour
1 teaspoon salt
1/4 teaspoon pepper
2 cups milk
2 cups hot mashed potatoes
Left-over Roast chicken or turkey slices
1 cup cooked, sliced carrots
1 cup cooked or canned peas, drained
Melt fat in saucepan; blend in flour, salt and pepper. Add milk gradually, while stirring. Cook over low heat, stirring until mixture thickens. Spread the mashed potatoes in a layer in a greased baking dish about 12 x 7 x 2". Then cover with a layer of left-over turkey slices. Add carrots and peas to white sauce and pour over turkey. Bake in hot oven, 450 degrees F. until brown. Serve at once in same dish. Makes 6 servings.

Claudette Colbert

most often to the "Screen Guild Players" program. Her recent appearance in "Michael and Mary," with last year's Oscar winner Ronald Colman, brought to twelve the number of Miss Colbert's performances on the NBC, Thursday program. Hollywood's foremost luminaries volunteer their talents, donating their fees to the Motion Picture Relief Fund, for the needy of the industry.

Barks Earlier

Lassie has "moved up in the world." The NBC "Lassie Show," starring the M-G-M collie wonder, is now heard on Saturdays three-quarters of an hour earlier than last year. Rudd Weatherwax, owner-trainer of the famous dog, is narrator of the dramas.

Young Oldsters

Chet Lauck and Norris Goff, "Lum n' Abner" on CBS Sundays, are a "natural" pair for television — but it will take them hours to look natural for video. Both are young chaps, and it takes a long time for them to apply white wigs, wrinkles and other touches for their elderly roles. Teamed for many years, they've never had a quarrel. "If we ever do," quips Goff, "I'll know that Lauck's against me!"

Protean Star

Leonard Warren, who studies five barrels-full of music each season to sing his twenty-two starring roles at the Metropolitan—more than any

other artist essays—now is busy rehearsing a new one: the title role of "Falstaff," which he'll sing here early in 1949.

True Thriller

John Payne of the screen will appear on "Cavalcade of America" Monday, Jan. 17, over NBC to star in an exciting real-life drama titled "Secret Operation." Mr. Payne will portray the famous Dr. John Erdmann, one of America's great surgeons, who is now a retired octogenarian. "Cavalcade" will dramatize the little-known story of a daring operation, performed long ago by Dr. Erdmann with great secrecy on board a ship, on one of the Presidents of the United States.

Laugh of the Week

Errol Flynn, who allegedly kicked a New York policeman on the shin, says Bob Hawk, must go for corn on the cob!

Good Bad Boy

When he is good, he is very, very good — and when he is bad, he is marvelous! Walter Tetley, who can play any juvenile role in any dialect, is best known as radio's outstanding "brat." He wins chuckles galore as "Julius," the smart-aleck delivery boy on the Faye-Harris Show, Sundays over NBC. Walter also portrays "The Great Gildersleeve's" problem nephew, and has been heard tormenting Fred Allen and Eddie Cantor.

MRS. TRAINER HOSTESS TO THURSDAY BRIDGE CLUB

The Thursday Bridge Club was entertained last week by Mrs. J. W. Trainer.

Mrs. H. V. Morris won high club prize, Mrs. J. H. Brasher won high guest prize and Mrs. Robert Rees won the deuce prize.

A salad plate was served to Mesdames O. G. Babcock, John Bunnell, Joe Berger, George Barrow, Rees, Morris, Lee Labenske, R. C. McGilvary, Brasher, Robert Kelley, W. L. Davis and R. G. Nance.

Mr. and Mrs. Tom Collins are visiting friends and relatives in Sterling City and San Angelo this week.

ART CLUB STUDIES INTERIOR DECORATION

Mrs. Dantes Reiley and Mrs. H. C. Kirby were hostesses Thursday night in the Reiley home to the Sonora Art Club.

Arrangements of carnations and gladioli were used about the living room, and following a short business meeting, Mrs. C. E. Scott and Mrs. Ariel Newton presented a program on "Interior Decoration."

A dessert course was served to Mesdames A. E. Prugel, Newton, Scott, J. T. Sellman, L. M. Roueche, Jr., Marion Elliott, L. P. Bloodworth, F. L. McKinney, Elmer Wilson and Lloyd McMullen.

DRIVE SAFELY! — Give the pedestrian the right-of-way.

Brr-r-r-r!

Challenging January northers and freezing temperature, model Betty Jones forecasts what girls will be wearing when the Texas sun runs the thermometer up to 100 degrees again. Summertime playsuit and dress styles will be paraded at the American Fashion Association meeting in Dallas, Jan. 23 to 27. Visitors will come from throughout the country to see Dame Fashion's predictions for 1949.

DEALER WANTED: 200 farm-home necessities - medicines, vitamins, spices, foods, DDT, etc., well known every county. For particulars write Rawleigh's, Dept. TXA-1730-142, Memphis, Tenn.

DRIVE SAFELY! — Give the pedestrian the right-of-way.

Mrs. Stubblefield Feted With Tea On Sunday

Mrs. Nelson Stubblefield, recent bride, was honored with a gift tea Sunday afternoon at the Sonora Woman's Club by Mrs. Raymond Morgan and Mrs. Tommy Thorp.

In the receiving line were Mesdames Stubblefield, Morgan, Thorp and G. B. Barker, sister of the honoree.

Mrs. J. H. Brasher presided at the bride's book. Mrs. E. F. Vander Stucken and Mrs. George H. Neill presided at the tea table the first hour and Mrs. S. H. Stokes and Miss Alice Karnes presided the second hour. Others in the house party were Misses Billy Joe Barker and Peggy Barker.

The table was laid with a cut-work madeira cloth. The centerpiece was of pink carnations and blue flocked plumosa in a silver bowl on a reflector. A color scheme of pink, blue and silver was carried throughout the party rooms including banks of silvered leaves centered with pink and blue candles. The pastel pink cake was topped with silver dragee.

Plate favors were blue book matches monogrammed in silver with the bride's initials.

Mrs. Louie Trainer played several piano selections, and about 75 guests called during the afternoon.

PFISTER - DAVIS MARRIAGE READ FRIDAY MORNING

Mrs. Lena K. Davis, daughter of Mr. and Mrs. W. J. Coates of Merton and Jack H. Pfister, son of Mrs. Buelah Pfister of Sonora were married Friday morning, December 31, at 11 o'clock in the Baptist parsonage.

The Reverend J. E. Eldridge performed the single ring ceremony, and guests were Mr. and Mrs. George D. Chalk and Mrs. Thelma Briscoe.

MRS. CUSENBARY SPEAKS ON NATIONAL HEALTH AT WOMAN'S CLUB MEET

"Safe Guarding Our National Health" was discussed by Mrs. Ben Cusenbary when the Sonora Woman's Club met Thursday in the club house.

Mrs. E. B. Keng, president, presided and hostesses were Mesdames C. T. Jones, Jr., L. E. Johnson, Sr. and Howard Millican.

Those present were Mesdames Keng, Clay Puckett, Cusenbary, C. A. Tyler, W. R. Cusenbary, J. F. Howell, Dan Cauthorn, M. E. Genrich and Leo Merrill.

WARD - GIBBINS WEDDING READ HERE DECEMBER 24

In a ceremony performed at 8 o'clock Friday evening, December 24, in the A. J. Ward home, Miss Billie Gibbins, daughter of Mr. and Mrs. Guy Young of Lubbock, became the bride of Linton Ward, son of Mrs. W. R. Akin of Bryan.

The Reverend J. E. Eldridge, pastor of the Baptist Church, officiated at the double ring ceremony.

Given in marriage by her father, the bride wore a gray street length dress with moss green accessories and a corsage of red roses. She carried a white Bible.

Miss Bobbie Young, sister of the bride was maid of honor and wore an aqua suit with black accessories. She wore a corsage of white carnations. Best man was Billy Crites.

Mrs. J. A. Letsinger played on the piano, "I Love You Truly" and traditional wedding music.

A reception was held following the ceremony. Out of town guests were Mr. and Mrs. Guy Young of Lubbock, Mr. and Mrs. W. J. Shurley and daughter, Glenda, of Levelland and Billy Crites, who is in the Navy stationed at San Diego.

The couple will be at home in Sonora.

WESLEYAN GUILD MEETS WITH MRS. C. P. DAVIS

Mrs. C. P. Davis and Mrs. J. Wray Campbell were hostesses Monday night when the Wesleyan Service Guild met in the Davis home.

Mrs. Leonard Caldwell gave the devotional which was followed by the group repeating the Lord's Prayer.

After a short business session games were played, and pecan pie and coffee were served to Mesdames Ervin Willman, Sid Rogge, Caldwell, Ellen Ray, Bob Baker and Thelma Briscoe.

Among the buyers at the Concho Hereford sale in San Angelo Saturday were Ben F. Meckel, Lavelle Meckel, Jimmie West, Sol Kelly and Bryan Hunt.

FOUND: A pair of ladies pink shell rimmed glasses that were left at the Sonora Electric Co. Owner please claim and pay for ad.

Congratulations To These New Parents

Mr. and Mrs. Andrew A. Moore became the parents of a daughter Friday morning in a San Angelo hospital. The baby weighed 7 pounds 2 ounces at birth and has been named Angie Neill.

Grandparents are Mr. and Mrs. R. E. Moore of Austin.

A son, John Robert, was born to Mr. and Mrs. S. M. Kerbow Tuesday afternoon in a San Angelo hospital. He weighed 8 pounds, 14 ounces at birth.

Paternal grandparents are Mr. and Mrs. W. H. Kerbow of Henrietta and maternal grandfather is A. L. Moon of LaPryor.

Mrs. Louella O'Leary is reported to be improving in a San Angelo hospital, where she was taken this week. Her condition was said to be good.

FIGHT INFANTILE PARALYSIS

THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS
FRANKLIN D. ROOSEVELT, FOUNDER

Stairway to Future

New York's newest glittering background for fashion and society photos is the Stainless Steel Stairway, fast becoming a famous rendezvous. Here are shown three pretty misses waiting for the bright lights to go on. Life, Vogue and other glamour magazines have started the trend and Mayfair's lens-conscious celebrities gaped when the Duke of Milford-Haven posed at the "Stairway to the Future" for first pictures on his recent American visit. The stainless steel background, chosen for its grace and beauty of appearance, is really part of a permanent industrial exhibit.

NEW COMFORT FOR JUNIOR

Dad has nothing on Junior when it comes to the "cushion ride" of low-pressure tires—and mother can push the baby buggy about so easily that the daily stroll is a new found pleasure.

With the company manufacturing a full line of industrial tires for use on lawn mower, wheelbarrow, or just anything that runs on wheels, engineers of The General Tire & Rubber Company decided it was time to think of Mommy and Junior. The baby buggy with wide-base industrial tires was the result.

See You IN CHURCH Sunday

—Continued from Page 1—

and peanuts -- made up around 33 to 35 percent of Texas' farm income. And back in 1924, these miscellaneous sources provided only 10 percent of the income. By 1944, they had climbed to 28 percent.

This growth in sales from fruits and crops other than cotton brings out the increasing commercial importance of these parts of Texas agriculture. The big need for food and feed during the war and the years following was one main cause for this upward trend in these crops.

Examples of the industry building up in the areas of production are the vast processing plant at Corpus Christi for handling grain sorghum and cereals, and the expanding milling and feeding manufacturing plants in north and northwest Texas.

Also, markets for an increasing

volume of milk have developed from the rapid expansion of the industrial activity in the state. Population growth within Texas and the Southwest calls for an increased output of meats, poultry and dairy products. Prospects are that this growth will balance the economic pattern with more livestock on Texas farms.

Industrial markets, too, have aided in the shift from cotton farming to dairy and livestock farming, especially in the South and East Texas areas.

TO ATTEND CONFERENCE

The Sonora High School debate team will give a demonstration at a students' conference sponsored by the Interscholastic League and Odessa High School January 22, at Odessa. Students in journalism, extemporaneous speech, one act play, declamation and debate will also attend. They will be accompanied by W. W. Wendt.

Soil Conservation Chief Sights Permanent Agriculture Goal

H. H. Bennett, Chief of the Soil Conservation Service, said in his 1948 fiscal year report today the margin between land deterioration and land conservation in the United States has been so narrowed that the goal of a permanent agriculture is in sight "if we but speed up our efforts."

Contributing to the progress of the Service's work, he reviewed during the past 15 years in his report to Secretary of Agriculture Charles F. Brannan was still another record year of farm and range land conservation treatment in farmers' soil conservation districts. That was 21½ million acres on which soil conservation measures were applied to meet the needs of the land, or about 7 percent more than in the previous record year of 1947.

The report pointed out that during each of the 15 years of the life of the Soil Conservation Service, more conservation work was done per employee than during the preceding year.

"Moreover," the soil conservation chief observed, "increased experience on the part of Service technicians, together with increased experience and efficiency of the soil conservation districts and co-operating farmers, . . . collectively have made it possible for the Service to increase the work load per man each year without sacrificing quality or thoroughness of the conservation work done."

By sharply increasing present conservation operations on the land, he said, the United States can overcome and control erosion within 20 to 30 years. To this end, he advanced seven recommenda-

tions for getting the conservation job done on time:

1. Set up a timetable for the establishment of those basic measures needed for the conservation of our soil and water resources, according to capability of the land and availability and need of water.
2. Adjust research in conservation to specific problems encountered in field work and intensify research on those problems.
3. Encourage and promote a comprehensive program of conservation education through all available agencies and institutions.
4. Complete land capability surveys of the country and analyze the information to provide land facts needed for future farm planning and action.

New Markets are Born in a Test Tube

New products are developed, new uses are found for meat and by-products in Swift's Food Research Laboratories. Thus our "scientist-salesmen" help you find wider outlets for your livestock.

Many million head of livestock are marketed annually. Demand for meat from these animals has been increased by Swift research.

From livestock country to city counter, science blazes the trail for a thriving livestock-meat industry. Among these trail-blazers are 400 trained personnel in the Swift research laboratories and test kitchens. Pioneer-scientists, they develop new meat products—find new uses for more and more livestock by-products. Scientist-salesmen, they create new markets—better values for your livestock.

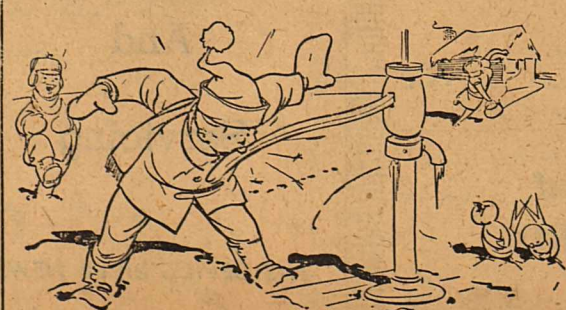

Yes, their work means money to you. . . millions! The average annual commercial slaughter for the last ten years was over 28½ million cattle and calves, nearly 65 million hogs, and over 22 million sheep and lambs. That's a lot of meat—and it's a lot of by-products, too! Cowhides, pigskins, and sheepskins, by the millions, for everyday leather goods. Well over 50 million pounds of pulled wool annually for cloth and clothing. Thousands of tons of lards and soaps for home and industry. Carloads of animal feeds. Tons of hair for upholstery. The list is almost endless.

Research found how to derive life-saving pharmaceuticals from animal by-products. Here numbers are important. For example, tiny glands from many thousands of animals must be saved to produce one pound of adrenalin, powerful heart stimulant. To yield one pound of crystalline insulin, vital in the treatment of diabetes, the pancreatic glands of 20,000 cattle are needed. Important, too, is albumin, tuberculosis "detector" recovered from cattle blood—and many more beneficial, all-important medicinal products derived from animal slaughter.

Now recent research has developed an entirely new line of important chemicals from fatty acids. One chemical from fat makes clothing water-repellent. Another is a flotation agent, useful in the separation of phosphates for fertilizers. Another prolongs the life of synthetic tires by causing them to run cooler. And detergents, "soap substitutes," have been recovered for use with hard water in the home and industry. So the list grows, from day to day.

Yes, science performs a direct, very valuable business service for you, the livestock producer. Through new products and new markets, it 1) maintains or improves the position of meat on the American menu; 2) often reduces the price we get for the meat to less than we pay for the live animal; 3) enables the meat packer to pay you more for all your livestock.

OUR CITY COUSIN

City Cousin, little chump—
Stuck his tongue on a frosty pump!

Business
Must Serve

life. These good citizens may be large operators or "little fellows." You do not rate them by the size of their operations but by their characters, abilities and what they contribute to the good of the community.

This same principle holds true in business. The business that performs worthwhile services to the community is an asset, whether it be a local concern or a big national organization.

In our livestock-meat industry both large and small meat packing plants are essential. Two-thirds of our country's livestock is raised and fed west of the Mississippi, where the great grainlands and grasslands are. . . Two-thirds of the meat is eaten east of the Mississippi, where most of the people live. Large packers are needed to handle the processing and distribution of meat for a nation of 145,000,000 people.

Swift & Company has grown with the expansion of the United States in the past 65 years. That's because we perform services of value to the people of America—to farmers, ranchers, meat dealers, and consumers of meats. We have to be efficient to provide these services. Meat packers have applied to meat products the economies of mass-production and mass-marketing. We have developed one of the lowest cost food distributing systems in the nation. By saving by-products and by reducing waste, we increase the value of producers' livestock.

But so keen is the competition—in both the buying and selling ends of our business—that these services have averaged us, over the years, earnings of only a fraction of a cent per pound of meat.

To all of our friends on the farms and ranches of America, we of Swift send our sincere best wishes for a happy, peaceful and prosperous New Year.

John Holmes
President, Swift & Company

Homemakers use more and more meat and livestock products, thanks to findings of Swift nutritionists.

Martha Logan's Recipe for

PORK AND NOODLES (Yield: 5 servings)
1 pound ground pork 1 4-oz. package noodles
1 egg 2 quarts boiling water
Seasoning ½ cup diced green pepper
Flour 1 cup diced cooked rutabaga
2 tablespoons shortening

Combine pork, egg, and seasoning. Form into 1-inch balls. Roll in flour. Brown in hot fat. Boil noodles in salted water 10 minutes. Drain. Combine noodles, green pepper, and rutabaga. Place in greased 2-quart casserole. Place pork balls on top. Bake in a moderate oven (350° F.) about 40 minutes or until pork is well done.

Soda Bill Sez:

New Year's resolutions are like eggs—they're made to be broken.
It's not the hours you put in, but what you put into your hours.

QUOTES OF THE MONTH

Animals have done more to make America great than any other one thing. Directly and indirectly, animals account for about 80 per cent of the jobs in the food industry, and the food industry accounts for about 55 per cent of the total employment in this country.
Chicago Daily Drivers Journal

Soil testing with the Illinois tests not only saves the average farmer \$50 for every \$1 spent on testing, but increases food production by using every ton of fertilizing material where it will do the most good.

Roger H. Bray and A. U. Thor,
University of Illinois

Crossbred or Fine-Wool?

by A. C. Esplin
Utah State Agricultural College,
Logan, Utah

Crossbreeding in Western Range herds has long been a discussion point among operators. The advantages of the crossbred over fine-wool are:

- 1) Crossbred ewes are better mothers;
- 2) they are more prolific breeders;
- 3) they produce lighter shrinkage wool;
- 4) they produce high percentage combing wool;
- 5) they produce better mutton lambs;
- 6) they are better rustlers on the range;
- 7) they are larger sheep.

The disadvantages reported for crossbred ewes are: 1) they are shorter lived than fine-wool ewes; 2) they lose wool on brush and do not hold fleece when past 3 years of age; 3) crossbred ewe lambs must be sold as feeders and ewes bought for replacement; 4) they are more difficult to herd than fine-wool ewes; 5) they are not as hardy as fine-wool ewes; 6) it is impossible to maintain standards of breeding and uniform wool grades with crossbred ewes; 7) annual death losses are more than with fine-wool ewes.

This, as a whole, expresses the range operator's thinking on problems of breeds of sheep and breeding operations. Length of life, density and quality of fleece, uniformity of herd, and herding instincts are considered by the largest number of operators.

New Chevrolet for 49

Tested and Proved...

ON THE WORLD'S TOUGHEST PROVING GROUND!

Mile after mile they put it through its paces . . .
proved its speed, its acceleration, its economy!

Proved on the toughest grades . . . the new Chevrolet takes hills in its stride. Its power will thrill you.

The punishing granite blocks of this "fortress trail" PROVED Chevrolet's ability to absorb punishment!

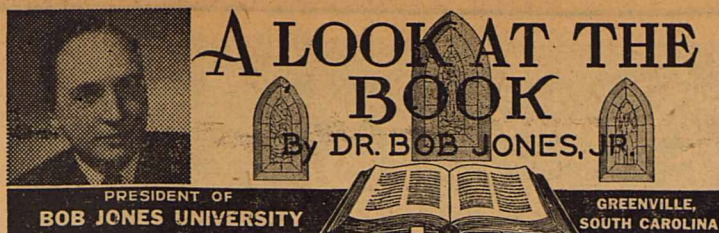

This is where Chevrolet for 1949 was PROVED to be weatherproof and waterproof!

At the General Motors Proving Ground there are men who are experts at ruining cars! "Find the flaws . . . get the facts" is their motto. And so, when Chevrolet for 1949 was delivered to their "tender" mercy, they put it through its paces so vigorously and so thoroughly that there was no chance for basic weaknesses to go undetected. What a break for the buyer

. . . instead of an experimental or untried car, he gets a car that has PROVED economy, PROVED stamina, PROVED comfort, PROVED handling-ease! Only Chevrolet, in the low-priced field, has passed through the rigors of the "World's Toughest Proving Ground" and comes to you thoroughly TESTED, thoroughly PROVED and thoroughly APPROVED!

Lamar Fuqua Chevrolet Co.
SONORA, TEXAS • PHONE 27921

Christ and the believer are joined together in an association and relationship as wonderful as it is blessed. There are seven points in which the Christian is associated with his Lord.

The Christian is crucified with Christ (Galatians 2:20). When Christ died on the cross He paid our death penalty there. Christ hung there for us and in God's sight we are crucified with Him.

The Christian is quickened together with Him (Ephesians 2:5). The believer is alive with Christ. This is what Paul meant when he said, "For me to live is Christ, and to die is gain" (Philippians 1:21). We are possessors of His eternal life. Because He lives, we live also (John 14:19).

The Christian is raised together with Christ (Ephesians 2:6). We are raised from the death of sin to walking in newness of life. When Christ rose from the tomb the resurrection of every child of God was as assured as if He had Himself already risen.

The Christian is seated together in heavenly places with Christ

(Ephesians 2:6). We enjoy heavenly privileges now, fellowship and communion with Him. We who are members of the body are represented in heaven by Christ who is Head of the church and while we are yet here in the body on the earth, we are present in Him in the Court of Glory.

The Christian is a joint-heir with Christ (Romans 8:17). He is the heir of all things and He is our elder brother. We share in the family possessions. His heritage is jointly our.

The Christian suffers with Christ (Romans 8:17). This is one phase of our relationship with Him which many of us would like to avoid, but the suffering which touches one member of a family touches all the family. No portion of the body suffers to itself and upon our relation with Christ in suffering depends our relation with Him in glory.

The Christian will be glorified together with Christ (Romans 8:17). Amazing mercy, love beyond our comprehension, that He who in heavenly places with Christ is worthy of all glory sees fit to

Son of a gun

Cover cropping and contour cultivation protect the top soil and save moisture. Ranchers of the Edwards Plateau Soil Conservation District are planning to use contour cultivation and cover crops of Hubam and Madrid clover on cultivated fields, as a part of their coordinated conservation plan.

Madrid and Hubam clover are key plants in a system of cropping designed to provide cover and increase the organic matter in the soil. These clovers are well adapted to the soils of the Edwards Plateau Soil Conservation District, where production will be influenced by rainfall. These clovers may be expected to succeed in years when small grain does well. They provide good protection against soil loss, improve soil productivity and are good grazing and hay crops.

In rotation with small grain, these clovers reach deep into the subsoil and bring up minerals which have become limited in the surface soil. No other legume so well penetrates the subsoil and opens the soil for aeration and moisture penetration.

Madrid clover is a leafy fine stemmed biennial plant which produces seed the second year. It is drouth resistant and has a greater root system than annual clovers. It produces forage for grazing

from May to December the first year and early spring and summer the second year or may be harvested as hay.

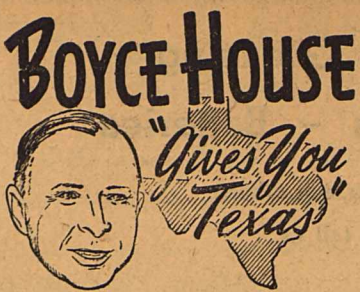

Hubam is an annual clover that can be grazed or harvested as hay. Both clovers may be planted in late February or March or in the fall of the year.

Prior to seeding, seed of these clovers should be inoculated with nitrogen fixing bacteria to insure the greatest soil building benefit. Clovers may also be turned under for use as a green manure crop.

The value of contour cultivation is illustrated by moisture penetration tests after a series of rains on the Concho River watershed. Land that was contour farmed held three and one-half times as much available moisture for plant growth than land of the same slope on which rows run downhill.

With rows on the contour or true water level, all rows in a field follow horizontal lines around a slope. During lighter rains the furrows and rows hold most of the rain water where it falls. This helps to bring a crop through long and sometimes drouthy periods.

Contour cultivation coupled with a sound rotation policy will control excessive erosion only on gentle, smooth slopes with a fall or not more than 1 foot in a 100. Any slopes steeper than this should be

In the good old days, the traveling men as they visited the towns could always be counted on for some dandy stories.

And if you'd like a few samples, in Howard Peak's book, "A Ranger of Commerce," (Naylor Company) he relates several that some of the knights of the grip, or drummers, as they were called, told.

As the group sat around the stove in the hotel lobby in a small town one led off with this:

"Over in Southwest Texas in a town in the Big Thicket, where I've been recently, the malaria is mighty bad, and as you know, this produces chills and fever. A case of chills lasts about three weeks. Every other day, the malady takes possession of you, causing your whole body to become acutely

chilled: this is followed by a severe agitation of the body, a chattering of the teeth, and a vibration similar to that of the apron of a threshing machine. This condition lasts for about an hour; then a burning fever possesses you and you commence taking quinine, which is about the most effective remedy.

"Now you know that East Texas is a great section for persimmon trees, and their fruit is, when thoroughly ripened very delicious. So the farmers have conceived an economical idea, which has developed very successfully, and is also proving remunerative. They take the children out to the persimmon grove on their chill day, tie one end of a rope to the fruit-bearing limbs of the trees, fasten the other end to the body, and when the chill comes on, the 'simmons are shaken to the ground."

Another spoke up: "Boys, you all know old Pat, the conductor on the jerkwater road running from

terraced in addition to contour cultivation and a rotation of grain with legumes.

Cooperators may receive further information and assistance in applying these practices from the Soil Conservation Service assisting the Edwards Plateau Soil Conservation District.

43 Years Ago

Jim Barton was in for the roping and as usual had a good time.

Mr. and Mrs. Joe Turney left for Comstock Tuesday on a visit to Mrs. Turney's mother.

Frank Wyatt and daughter, Miss May, were in from the ranch Thursday for supplies and visiting friends.

E. A. Earwood and son, G. C. Earwood, were in from the ranch Thursday for supplies and to attend the roping and dance.

Mr. and Mrs. Hop Wood left on Tuesday on a visit to friends in Brackett.

Bud Dail and his two sons were in from the ranch Thursday for supplies and took in the roping.

Carl Gunzer, the sheep and goat man, was in from the ranch Thursday for supplies.

Paul Perner, Bruce Drake, and Pascal Odom of Ozona came in Wednesday for the roping contest.

Bert Bellows is building himself a four-room residence to cost about \$500.

John Ward was up from his ranch Monday on business.

Born on Wednesday, Feb. 24, 1904, to Dr. and Mrs. A. L. Taylor, a boy.

Jim and Eli Kuykendall, the well known tank builders, came up from the Whitehead ranch Thursday to attend to some business.

Albert and Tom Bailey, prominent young stockmen of Schleicher County, were in Sonora several

was seated with him the other day in the train's single coach, and we were dropping down that forty-five degree grade, when an old sister came across the aisle. After glancing out the window toward the landscape a thousand or so feet below, and becoming as nervous as a hen about hatching time, she tossed the following question at Murph:

"Say, Mister Conductor, where would we go if this train was to break loose?"

"Well, Ma'am," old Pat replied, "it would all depend on what kind of life you have lived."

MISTER, WHICH WAY TO EASY STREET ?

WELL, THERE ARE A COUPLE of short cuts, but a lot of them pass through bad neighborhoods, and it's awfully easy to get lost.

But there's one route that's good and straight, and leads right where you want to go.

Here's how to get on it...

If you're employed by a firm, you can sign up on your company's Payroll Savings Plan. They'll see that you pile up bonds just as fast as you like.

You'll be surprised how easy and painless an operation it is—and you'll be amazed how soon you'll find yourself going along in the right direction.

Or, if you're not on a payroll, your bank has the equally simple Bond-A-Month Plan, that brings you a bond every month, charging the cost to your account.

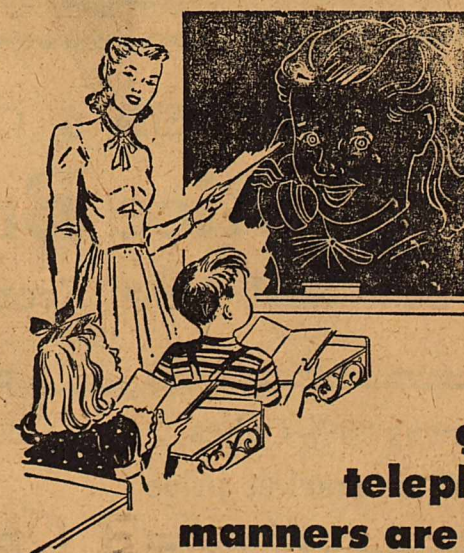

Then, in just ten years, when your bonds pay you back four dollars for every three, you'll know that Easy Street isn't very far away. You can't miss it.

What's that? Oh... you're welcome.

Automatic saving is
sure saving —
