Would Be US Highway 366

Seek Designation of Highway 203 On Amarillo-Chickasha Route

Designation of State Highway 203 through Wellington and Quail as a federal highway and part of a route extending from Amarillo to Chickasha, has been asked by the Highway Commissions of both Texas and Oklahoma.

The application is made with the American Highway Association and a ruling is expected at the next meeting, probably some time in the fall, according to L. M. Sion, a leader in the move to have the highway given a federal number.

The designation would mean this to Wellington: travel around the route would increase if it were marked as a federal highway, with one number to identify it rather than the differing state numbers. The road is already in good condition, and there would be no need for improvement.

It would put emphasis on the fact that Wellington lies on a route from Amarillo to Oklahoma City that shorter than the now maintained Highway 66.

It would mean a certain increase in business for both Quail and Wellington. The proposed Highway 366 would follow U. S. Highway 287 from Amarillo to Hedley, then turn onto State Highway 203 through Quail and Wellington, and become Oklahoma State Highway 9 at the state line, extending on through Mangum and Hobart to Chickasha.

The Leader was unable to contact Mr. Tittle, as he was away from Mangum this week. Likewise, John Sherman, president of the Wellington Chamber of Commerce, could not be reached, as to any action that group might take in connection with the proposed designation.

Ultimate planning is for U. S. 366 to be extended both east and west and become another coast-to-coast route. No recommendations nor applications have been made concerning the routing of the proposed US 366 east of Chickasha nor west of Amarillo, according to information from Mr. Tittle during the week end.

Mrs. F. S. Little Dies Saturday At Age of 81

Mrs. F. S. Little, 81, a Wellington resident for 29 years, died in the King Rest Home Saturday evening, July 31, after having been critically ill for several weeks.

Funeral services were held at the Methodist Church Monday at 3:30 p. m., with the Rev. J. F. Michael, pastor, in charge, assisted by the Rev. Chester O'Brien of the First Baptist Church.

Pall bearers were O. B. Raburn, Walter Franks, Henry Sullivan, Temple Slay, Douglas Little and Dick Little. Burial was in the Wellington cemetery under the direction of the Kelo Funeral Home.

Mrs. Little was born Nola Wilkerson in Franklin, Ky., January 18, 1873.

She was married to Mr. Little January 18, 1904 at Rhame. Later the couple lived at Quanah, and it was from there they moved to Wellington.

A devoted christian, she had been a member of the Methodist Church 56 years. Her neighbors and friends found in her one who put this religion in practice in her every day life.

Surviving are her husband; a twin sister, Mrs. Nora Suttle of Long Beach, Calif., and several nieces and nephews.

CAMERON BEAM RETURNS FROM VISIT WITH SON IN BREMUDA

Cameron Beam, manager of the Wellington office of the West Texas Utilities Company, returned July 24 following a ten-day visit in Bermuda with his son, Cameron Beam, Jr. and wife. The younger Beam is stationed at the U. S. Naval Station there.

Beam left Fort Worth from Amon Carter Field on July 24 and flew to New York City. There he boarded another airliner for Bermuda.

During his stay, he saw many

interesting sights and he also stayed in Hamilton, which has a population for 30,000, and that figure represents the total population for the some 300 island British possession. Seventy-five per cent of the population is Negro and the refer to themselves as "British Subjects." It is interesting to note that they speak the same as the typical Londoner might," Mr. Beam laughed.

He expressed confidence, however that all the state highway commissions along a proposed route would join the move to seek the designation.

Electric Scoreboard For Powell Field Ordered

An electric scoreboard for Powell football field is a joint project of the Wellington Rotary and Kiwanis Clubs, announced this week by the two presidents, D. C. McKinney and Cicero Gully.

The scoreboard has been ordered and will be installed in time for the first game September 10. This is an improvement which county football fans have wanted for several seasons, and all of these will be given an opportunity to help on the project.

The kickoff on the drive is August 11, when a committee of five Rotarians and five Kiwanis begin work. These include Zook Thomas,

"This way, we think we can distribute the cost over the entire group of football fans, all of whom, we feel, are anxious to help with the project.

The scoreboard which works automatically, is 17 feet and four and one-half inches in length, and 9 feet, five and a half inches high. The clock is of the Naden dial type.

The cost installed is \$1,470. The board will be put up at the southwest corner of the football field and will operate from the press box by underground cable. It can be operated from the 50 yard line also. It will be mounted on steel poles set in concrete, and will be completely weatherproof.

R. T. Savage Named Acting Postmaster For Wellington

R. T. Savage, a lifelong resident of the county and an employee of the Postal Department for more than 7 years, has been appointed Acting Post Master for Wellington, to succeed R. F. Curry.

Mr. Savage received his appointment Sunday, August 1, and it became effective with the opening of the office Monday morning.

Mr. Curry, veteran postmaster here, resigned from that post in May, but at the request of the Post Office Department, remained in that capacity until an acting postmaster could be selected.

Mr. Savage began his career with the department in 1947 as carrier on Star Route 5. Two years later, in May 1949, he transferred to work in the office.

He was reared here and is the son of J. R. Savage and the late Mrs. Savage. He attended Wellington high school. During World War II, he served in the Infantry of the 44th Division, with service in Germany, Austria and France. Upon returning home, he operated a radio repair shop two years. In 1949, he moved to the farm that is now the family home. Mr. and Mrs. Savage have a son, Wesley, 15.

He is junior warden of the Masonic Lodge and Sentinel in the Eastern Star, of which both he and Mrs. Savage are members. He holds the office of King of the Masonic Chapter and Council. His affiliation with a veterans organization is the Veterans of Foreign Wars, which he is serving as trustee.

"I will try to be everybody's postmaster, and by that I mean I will endeavor to give everybody the same service, regardless of politics, race or creed," Mr. Savage said Monday morning.

"I am very happy to have been appointed and I appreciate the fact I appreciate what my friends have done to have me appointed. "It will not be easy to follow a man such as Mr. Curry in this work. He has done an outstanding job as postmaster, and I think everyone knows it. If they don't know it, they should, but I will do my best to come up to the high standard he has set."

First Graders Must Have Birth Certificate Photostat

Six-years-olds starting to school for the first time this year must bring with them when they enroll photostatic copies of their birth certificates, to be placed in the school's permanent files, Supt. Bennett Goodloe, announced this week.

This is required by the state school law, and is one of the things on which the school will be checked by auditors from the State Department of Education.

If the child was born in Texas, these photostatic copies can be obtained by sending 50 cents to the Bureau of Vital Statistics. The parent must send along with the name of the child, the date of birth, place of birth, maiden name of mother and full name of

Wellington Exes Gather For Reunion Saturday

Ex-Students of Wellington high school will come from all over Texas and from a dozen or more other states to meet with classmates and relive school days in the fourth annual Homecoming

Friday night and Saturday, August 6 and 7.

"We are confident this will be the most successful reunion we have ever had," Sandy Parsons, president of the Ex-Students Association, said.

Collingsworth Voters Win Citizens Medal

Voters of Collingsworth County have won the Amarillo Daily News Citizenship Medal, offered to the County having the highest percentage vote in the recent primary election.

The county had a total of 2,282 votes cast. Records in the office of County Clerk Robinson show there are 1889 poll taxes paid. No record is kept of exemptions, and this accounts for the 120.8 percent of voter participation.

The medal, in the form of a plaque, will be presented by a representative of that newspaper at the meeting of the Commissioners Court Monday, August 9, at 10:00 a. m. All county officials will be present and will participate in the presentation.

"We feel that the plaque belongs to the voters of Collingsworth County, and we hope that as many of you as can will attend the presentation," Judge R. L. Templeton said.

David Robinson, county clerk, had charge of getting the information to the Amarillo News that enabled the county to be named winner.

It is believed that late interest that developed in contested county and precinct races, plus more than usual interest in the governors race, accounted for the heavy vote.

Brisco county was second to Collingsworth in the voting contest, with a record of 1,247 votes compared to 1,098 poll tax payers, or a percentage of 113.5

County Convention Harmonious

Uninstructed Delegates Named to Convention

Collingsworth County will send an uninstructed delegation to the State Democratic Convention in Mineral Wells on September 14. Compared to many in other parts of the state, the meeting was unusually harmonious although the cleavage between Shivers and Yarobrough supporters was sharply defined. The actual balance of power was held by a small handful of delegates who voted for individuals rather than as a member of either faction.

Dick Sweat called the meeting to order and announced that the first order of business would be the appointment of a temporary chairman and a temporary secretary. Judge Luther Gribble was named temporary chairman and Dick Sweat temporary secretary. After the delegates had been seated and an order of business established, the same two were named permanent chairman and permanent secretary.

Upon a motion by Orville Cunningham, the convention voted to elect eight delegates to the state convention and no alternates. Upon a motion by Deskins Wells, the convention voted to elect each delegate by place with the chair being given instructions to allow time to permit at least two nominations for each place.

The following were selected as delegates in the order named: Dick Sweat, W. R. Breeding, Bonnie Willis, Dr. Carter Holcomb, Dee Coleman, Judge Luther Gribble, Tom Cunningham and Alfred

Knoll. At the close of the meeting the following resolution was adopted by a unanimous vote:

Whereas, the county chairman the county secretary and the five members of the Executive Committee of the Democratic Party in Collingsworth have labored faithfully and well in performing their many duties, therefore, BE IT RESOLVED by this Democratic County Convention that we commend them for their faithfulness, fairness and diligence in carrying on their work in keeping with the law and the rulings of the Democratic Party of Texas.

We also wish to commend this body on their diligence in sending out full and complete instructions concerning meetings and other affairs of the party, and we hereby tender them a vote of thanks.

Mr. Deskins Wells,
Editor,
Wellington Leader,
Wellington, Texas

Dear Deskins:

My apologies for this delay in answer to your letter requesting information on "Exes". Have been out of town and I realize this is possible too late to be included in your special edition.

A brief run down of what has

transpired since that night when we received our "sheepskins". (Came off on said white graduating trousers too.)

Graduated 1927 and came to Oklahoma City and entered Hill's Business University for their 14 months course and then down to Norman. Did not get to graduate as a little thing like a depression came along. Went with the South-western Life Insurance Company 1940. In November of 1940 Presi-dent Roosevelt mobilized the 36th Division and in April 1946 I received my honorable discharge from service. Am still in reserve as a Major.

Since the war I have been af-filiated with fire and casualty insurance and am now with Ellis, Nicholson & Cramer, General Agents, Fire and Casualty Insurance, 610 Hightower Building, Oklahoma City 2, Oklahoma. Came with them as a special agent and now doing various trouble shoot-

ing jobs as they come up. Deskins, wonder if you have Budge Harle's address down in Durant. Would like to drop him a line and see how they are. Re-

gret that it will possibly not be feasible for me to attend the reunion. Sincerely,
James O. Chastain

Mr. and Mrs. John Sherman and children and Mr. and Mrs. Bill Hughes are spending two weeks vacation in Chama, New Mexico at the Danded Peak Ranch.

TAMALES

Look at the 3-way bonus you get in the car that's sweeping the nation!

1. You get the car that's styled for tomorrow —

and for just a few dollars more than the so-called "low-price three"!

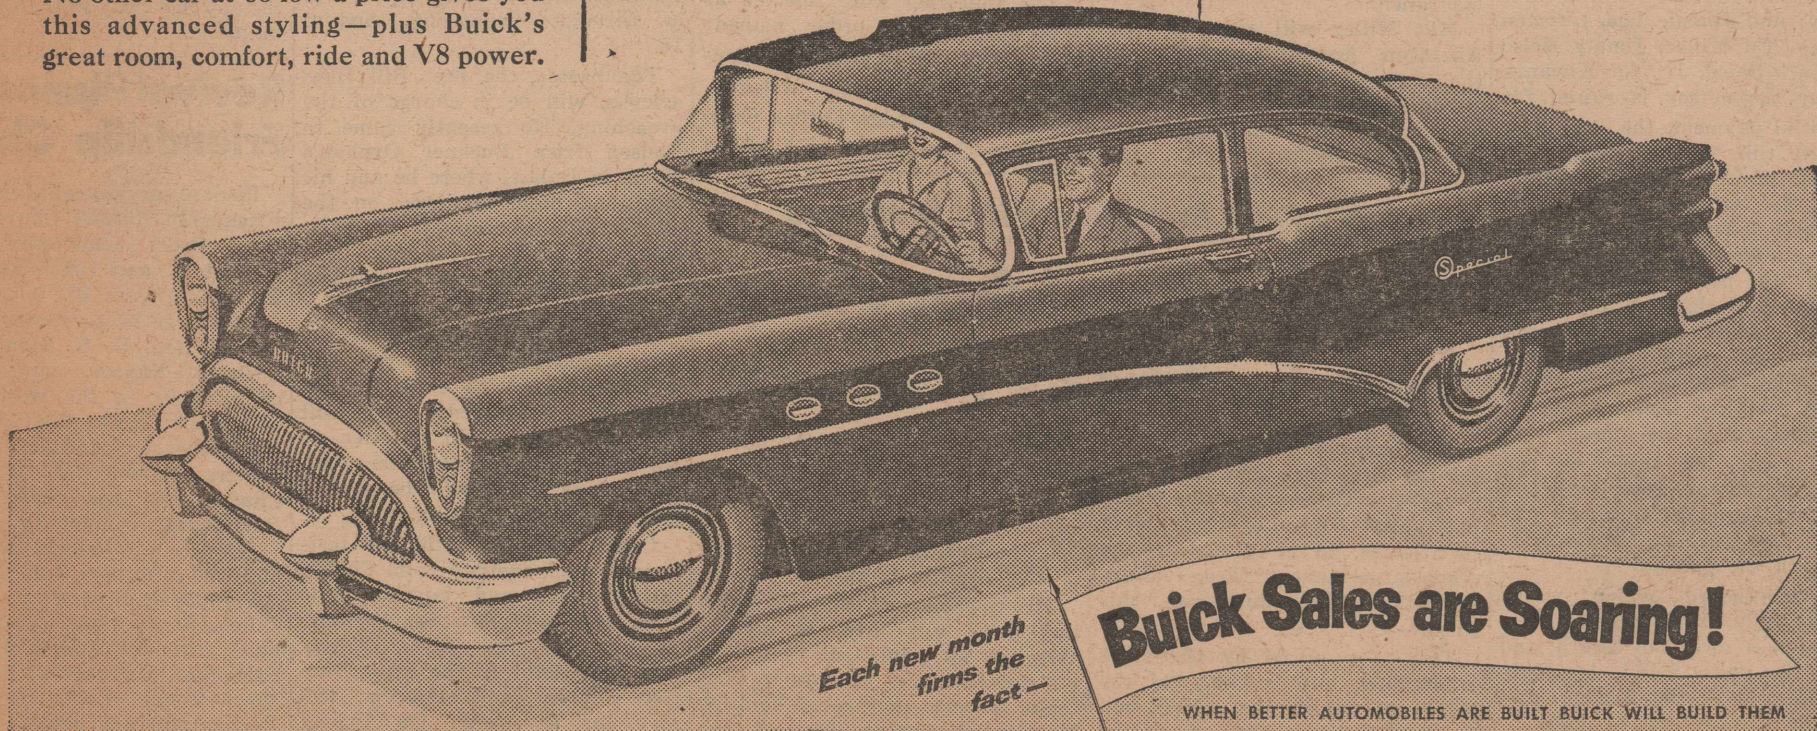

In Buick today you find the fresh modern beauty that will pattern the styling of other cars yet to come. That's a major reason for Buick's soaring success this year. But the clincher is Buick's low delivered price—lower than you think. No other car at so low a price gives you this advanced styling—plus Buick's great room, comfort, ride and V8 power.

2. You get the car that's a sure high resale value

Of this you can be sure: the new Buick you buy today will look modern next year, too—because that broad panoramic windshield will be appearing on other cars as a 1955 feature. So with the new Buick you buy now, you'll stay right up in the style parade for years to come—and command a higher resale price when you trade it in.

3. You get a bigger allowance from our volume business

Regardless of price class, Buick today is outselling all other cars in America except two of the "low-price three." That's fact. So with this tremendous sales volume, we can offer you a higher trade-in allowance when you buy a new Buick. Come in, see and drive Buick the beautiful buy. Then see for yourself how our volume business means a far bigger allowance for you.

EDITORIAL COMMENT — THE WELLINGTON LEADER

Collingsworth Wins a Grade of A in Patriotic Citizenship

Every person who voted in the last election is to be congratulated upon his citizenship. We have a special salute for the people of Collingsworth County. By their vote the town won The Amarillo News trophy for having the highest percentage vote of any county in the panhandle of Texas in the recent primary election.

Collingsworth people won the plaque when 2,282 of us cast our ballots when there were only 1,867 poll taxes paid. In Collingsworth as in most Panhandle counties, no record of exemptions is kept and this accounts for the whopping total of 120.8 percent according to The News in announcing the award.

Brisco County was second with a percentage of 113.5 with several other counties running well above the 100 percent mark on poll taxes paid. Some went as low as 38 percent, but part of this may be that they were reserving their vote as Republican.

The plaque has been engraved and presentation ceremonies will be held in the courthouse in Wellington soon.

The Leader is very proud of our people in winning this award, for it is our people as a whole who won it. A heavy vote in a mark of sound government in our representative form of government with its system of checks and balances between the legislative, the administrative and the judiciary. There is hope for our form of government as long as all the people get out and vote every time they have a chance to vote.

There are countries behind the iron curtain and the bamboo curtain where the vote is heavier year after year. But these are the countries where they vote on only one set of candidates, and armed men come and ask why no vote was cast. In our country we vote as we please and feel free to cuss out anybody who dares question our vote.

But oftentimes our vote is so small that it does not represent the true will of the people. It is in such times that the political manipulator, the pressure groups who have a special axe to grind, and the plain political crooks move into a position of power that they could not have possibly achieved if all the people had gone to the polls and registered their real beliefs and convictions.

Such is the significance of Collingsworth County winning the plaque offered by The Amarillo News and Globe-Times.

Congratulations again to all who voted in Collingsworth County on July 24.

Busy Children vs Delinquency

Youngsters don't always do as you

say, but they'll do as you do every time. Literally, they follow in your footsteps. If you violate a safety—especially if it's one you've warned them about—they'll try it the next time. If you get away with it, they figure so can they. If you're careless, they will be, too. People get killed that way.

Friend of ours has a little boy—Billy, age five and sharp as a tack. Billy's had considerable pre-school safety training because his parents want to be sure he'll be able to take care of himself when he walks to school next year in an area where there's lots of traffic.

Billy knows what speed limit signs are for he knows, when he sees one, to look at the speedometer and see if the figure the needle is undging checks with the sign.

One afternoon not long ago Billy and his mother were in a hurry to get home. The speedometer eased up to 40 in a 30-mile zone—not much over the limit, but "Say, Mommy," piped Billy peering seriously at the dashboard, "that sign said 30 and we're going 40. How can you do that?"

They trust you. You are their rock and their salvation, the source for them of the most high wisdom. If you do something, it must be right—to them.

Don't let them down by getting sloppy with your motor manners. It's as much a blow against their personal safety as telling them to cross against traffic when the light is red.

The Sylacauga (Ala.) Advance

It's Up To You To Set Example

Idle children often become delinquent children and the big job for parents and for the community (because delinquents are a community problem) is to keep them busy.

If every child could be kept busy during off school hours, part of the time working and part of the time at an enjoyable recreational activity... then there would be no cases such has happened. We refer to the three 15 to 17-year-old Weiser boys who were arrested for committing burglaries.

A recreation program such as conducted by the City of Weiser, although one of the best in the state, is no cure-all for delinquency. But it goes a long way toward keeping children occupied at healthful, enjoyable activities.

We believe most people realize the program's value and will predict that results of the survey to be made by the newly-organized recreational survey committee will bear that out.

Mr. Deskins Wells, Editor
Wellington Leader
Wellington, Texas

Dear Deck:

I graduated from WHS in 1929 (does that year ring a bell with you) which at that time was the largest graduating class WHS had ever graduated. My father, the late J. A. Lucas, was as you know connected with two of your banking institutions. My mother, who is still living, resides in Reseda, California. I married the former Miss Eddie Mae Phillips who attended WHS for some two years. We have one child at this time, Durelle, who was born in Wellington in 1940 and are expecting another in October. Durelle attends Pomona High School and will be a Junior there this coming school year. She has studied dancing for the past five years and has danced before many groups such as the USO, women clubs, masonic clubs, Los Angeles County Fair and various other organizations.

I attended North Texas State Teachers College at Denton for two years before entering business college in Dallas where I finished my education. For the past twelve and one-half years I have been with the Pacific Electric Ry. Co. in Los Angeles which company is a subsidiary of the Southern Pacific Co. I commenced working as a stenographer and am now Chief Clerk in charge of freight rates and divisions which work I find very interesting. My work requires me to attend freight rate meetings in San Francisco with the other Western Railroad representatives in addition to the same type of meetings in Los Angeles.

Some six years ago I bought my house in Pomona, Cal. which is some twenty seven miles from Los Angeles and commute to and from work each day. Nomona is located not too distant from the San Bernardino Mountains and about twenty miles from the Pacific Ocean.

Due to a business trip to San Francisco during August, will be unable to attend this year's Homecoming however some of the years soon will manage to attend.

Am enclosing my check for renewal of my subscription to the Leader which I permitted to elapse. If this is not the correct amount, please advise and I will take care of the balance.

With best wishes to you and your fine staff and trusting your Homecoming is a huge success.

The Wellington Leader
Wellington, Texas
Editor:

As much as I would like to attend the Ex-Student Homecoming this summer I am sorry to say that it will be impossible for me to attend. I would enjoy seeing and talking to all of my old friends, many of whom I have not seen for a number of years. I left Wellington in 1935 and have not been back only on short visits with my family.

I am married to James E. Haygood, who is an ex-student of Itasca High School. I graduated with the class of 1921, which at that time was the largest class that had ever graduated from Wellington High School, and as I remember we were all very

proud of our class that year. My parents were Mr. and Mrs. J. W. Savage, both of whom are now deceased.

I completed 3 1/2 years of college work, one of which I did at

Denton and the remainder of my work was done at Canyon. I am now employed by the Lincoln Income Life Insurance Company. I have been in the insurance business for 12 years and like it very much.

Hope everyone has a good time at Homecoming and maybe I can be there in 1955.

Sincerely yours,
Lelia Savage Haygood

Dear Deck:

So happy to receive your letter. My parents J. R. (better known as Dutch) and Lula Dennis moved to Wellington about 1920. I enrolled at West Ward School in September 1923 in first grade. Then in May 1934 I was a member of the largest class W. H. S. had turned out up to that time. I am sure there are a lot of people there yet who will remember my folks. My mother married Bob Killingsworth in 1937. My father passed away there in 1927. My mother and Bob live in Benicia, California about 20 miles from us. Bob Killingsworth was from Shamrock, Colorado. Then in 1940 we came to California and here we are. He is a machinist at More Island Naval Ship Yard at Vallejo 14 miles from Napa.

We have two boys. Robert Dennis whom we call Denny is 16 and will be in 11th grade in September. He is working on a dude ranch about 30 miles from here. This ranch is for children and he is on the Junior Staff. He has been in scouting since he was 9 years old and likes the outdoors very much. He thinks he would like to take up scouting as a job later on. He is also very interested in singing.

Raymond Lynn is 11 years of age and will be in the 6th grade in September. He is a real boy. Has had 3 years of music and plays very well but is just too much boy to practice. He leaves Saturday July 17 for 10 days in the High Sierra at Boy Scout Camp Silverado.

As you can guess my husband and I are scouts too. He took our troop to camp the past 2 years. He served as scoutmaster. We do some lodge and church work too, most of our activities are the children. We are very fond of Square dancing also.

For me I keep very busy being a housewife, mother serving and working as waitress and cashier at a very nice cafe not far from home.

I am very busy now getting Raymond ready for camp and trying to get everything going to come Home to Wellington.

We plan to leave here July 28 and be in Wellington the first weekend of August. See you August 7.

The former students of Wellington High School are coming back home next Saturday. We bid them welcome. This newspaper is grateful for the many letters expressing interest in the last weeks issue which was mailed to ex-students in all parts of the United States and to come far away places. A lot of old friends will be here and it should be a warm occasion with no pun intended on the prospective temperature.

This column will be very short this week on account of letters from the Exes. We are very grateful for them, but frankly we do not know when we will get them all published for they are still coming in. That is splendid. Keep sending them. We will get them published sometime even if it takes until frost.

Dear Mr. Wells:

Was very happy to hear of the coming special edition containing information about old friends and class mates of school days in Wellington.

My parents, Mr. and Mrs. Fred Caps are long-time residents of Wellington, having come there in 1920 from New Mexico. I graduated with the class of 1930, after which I attended Harding College in Searcy, Arkansas, taking a B. A. degree. Also did some work in Denton-Teacher's College. Taught for 4 years in the East Ward School under Miss Effie Childress, prior to marriage.

Married Walden W. Gardner of Santa Rosa, California in 1940. For the past 12 years we have made our home in Salinas, California, where my husband is chief chemist for Kaiser Aluminum and Chemical Corporation. We have two sons, Fred, who is 12 and Jimmy, who is 10. Fred is an 8th grader in Washington Junior High, where he takes an active part in chorus groups, doing solo parts. He has been in Little League for three years, where he has played first base and pitcher during the current year. He is a carrier for the local newspaper, The Salinas Californian. Jimmy is 5th grader at Santa Lucia school. He too, is active in singing groups as well as other activities.

At the present time I'm a housewife, although I have taught two years since marriage. Activities include those connected with a household, church work, and some work connected with school functions.

I shall be looking forward to receiving the special edition.

Sincerely,

Nola Gardner

I finished with the class of '30 and then finished my nursing training in 1934. I worked in Dallas at Baylor for two more years and then for two years at the Wellington Hospital.

IN 1938 I was married to William I. Rockett of Midlothian. We had one daughter, Evelyn, who is now 14. In 1948, Bill passed away. Since then I have been working here at Harris Hospital.

Am sorry to be unable to be at homecoming, but at that time I will be in process of changing positions. I will truly enjoy reading of everyone in The Wellington Leader.

Thanks so much for keeping all of us ex-students informed.

YARBOROUGH

Thanks, Friends; Predicts Victory

AUSTIN, Aug. 5, Democratic gubernatorial candidate Ralph Yarborough said this week he will win the August 28 second primary by a sweeping margin.

Said Yarborough, confidently: "678,000 Texas a majority of Texans—can't be wrong."

"678,000 Texans have hammered home their belief that integrity in their government in be achieved only by a change

"678,000 Texans have noted their distrust and disapproval of a third term for their governors.

"678,000 Texas Democrats have made it crystal-clear they want a leader whose loyalty is unquestioned, who will never betray them."

Yarborough thanked "each and every one of the brave Texans who voted for and with me" in the first primary. He said he was "especially and particularly grateful to the citizens of Collingsworth County who have joined our common fight to restore decency and honor to Texas government."

Yarborough said the campaign issues now are sharply drawn. He said: "Texans can now choose for or against a tradition-breaking third term, for or against straightforward Democratic leadership and for or against integrity in their State Capital."

The Democratic candidate repeated his thanks to "his friends of Collingsworth County and urged their voting support—along with the votes of all other Texans—August 28."

Few WHS exes saw more action during World War II than Nolan C. Huffhines, '39, who returned to civilian life and for six years has been a salesman for Mead's Bakery in Lubbock.

He had complete tours of operation in two different theatres, three parachute jumps to save his life from washedout aircraft, a part in repelling the Japs at Dutch Harbor, a crew member of the first deck level raid which knocked out Jap radar on Kiska, two strikes against the Germans on D-Day, six minutes in the Bering Sea when the temperature was 4 below zero. He holds the air medal with 15 clusters.

Huffhines made 31 strike sorties and countless patrol mis-

sions against the Japanese in the Alaskan Theatre, where he served 21 months. He went to England in February 1944.

His first jump to save his life came in gunnery school, when an engine caught fire. The second was in Alaska when his B-25 was caught in a williwaw, the sudden vicious wind of that area. Wind carried him into the water, and by the time a Navy patrol boat reached him, blood circulation had stopped in his arm and legs, and it took two hours massage and controlled exposure to a red-hot stove to restore circulation.

The third time came in Europe, when the crew manage to wrestle the plane back to the English coast before they bailed out.

Lives in Quail Flat

Ira Morgan Finds Irrigation Is Help During Hot, Dry Days of Summer

Irrigation does make a difference. That is the opinion of Ira Morgan, who lives one and one-half miles east of Quail on the highway and the owner of the Leader Mystery farm No. 39.

Morgan, who owns 375 acres of land in the Quail flat, and has been a life-long resident, completed his irrigation well last fall. Although, he has not used the well to extensively, he has seen some of the effects that such a project can make for one's crop. Some 80 acres of his land can be irrigated by this well, and that includes both cotton and alfalfa.

Morgan's farm was first owned by Colonel Ellison, who in turn sold it to Jones and Blade of Memphis. This concern sold it to G. R. Morgan, father of the present owner, in 1917. Ira Morgan has lived on it since 1917, the year that he married Mrs. Morgan, and they bought it in 1947.

The old house burned in 1932 and the Morgans built the present structure, a six-room home. "I hope that some day we can build some rooms or do something else to the house," Mrs. Morgan said, when asked about future plans for the house.

The farm, which is 375 acres, has 130 acres of grassland. The rest of the farm is planted in one of the following crops. Cotton, peanuts, wheat, alfalfa, or sorghum all thrive on this farm and they bring Mr. Morgan a good return for the dollars that he invests into his yearly crop.

The farm is registered with the

Engineers Make Hopeful Report on Greenbelt Dam

Memphis—Optimistic reports on prospects for a dam on upper Salt Fork of Red River were made here Tuesday night, July 27, during a meeting of the Greenbelt Municipal and Industrial Water Association. C. B. Morris of Clarendon, association president, presided. S. W. Freese, of Freese & Nichols, consulting engineers of Fort Worth, told association representatives from several towns that if the dam is not built now one will be constructed sometime in the future. Quoting Freese to this effect was Clifford Farmer, alternate association delegate from Memphis.

Freese said he thinks the project is more feasible than a proposed Canadian River dam, because the Greenbelt District is much more compact and the cost of distributing water to towns in the district consequently would be less.

The Fort Worth engineer told his audience that he saw Salt Fork when it was on a rampage a few weeks ago. He said the water boiling down the stream made him more certain than ever that construction of a dam is justified, since he feels plenty of water will be available.

R. A. Underwood, of the Dallas investment firm of R. A. Underwood & Company, presented a comprehensive report on work done by his company since it entered into a contract with the Greenbelt association several months ago.

Underwood said surveys of water consumption and rates, and other matters have been made in all of the towns which comprise the association.

Outside industries which likely would be interested in water impounded by the proposed dam also have been contacted. Underwood said a utility company and a manufacturing firm are among those which have shown considerable interest in the project.

In discussing the financial background of dam projects, Under-

wood explained that after markets for water are found, no difficulty is experienced in floating revenue bonds to underwrite the projects.

Ben Parks, president of the Memphis Chamber of Commerce and Hall County Board of Development, said construction of the dam would constitute a turning point in the economy of this entire area. Revenue from new industries and recreational facilities which would result would help every businessman in the area.

Towns which currently form the membership of the water association are Memphis, Wellington, Glarendon, Hedley, Childress, Paducah and Quanah. McLean was represented for the first time at the meeting.

the salty sea, gave the Wellington man a great thrill. He caught 75 fish and included in this was 15 sharks, some Rock Bass and numerous other fish.

"The entire island is blended with the multi-colored flowering plants and the citrus groves. The green grass in the pastures give one good feeling. The temperature never gets above 89 degrees and the lowest average is 50 degrees, which would make ideal cotton weather. The rain there is used for drinking purposes. If it ever fails to rain, somebody might get thirsty. The warm weather can be attributed to the Gulf Stream, which flows around this island

paradise."

"Automobiles were not allowed on the island until 1946 and there are few of these today. However, motor-bikes are the chief source of transportation for the island's people. The ferrying of tourist to points of interest is a good income for the islanders. In fact, the tourist is the life of Bremuda, as far as, the economy picture is concerned. It outweighs the banana plantations, citrus orchards, and all other occupations by many hundreds of thousands of dollars."

While there, he visited on old English fort—Fort Saint Charles. It took over 100 years to build its 7 foot thick walls and in history is called the "Gibraltar of the West." During the early sea-faring days, it was an outpost in a trip between the Atlantic Coast and England.

Many missions that reach back far into history for their beginnings dot the island. Beam attended church services on the island in one of the old churches that is now a Presbyterian church. "The entire island is made up of harbors. From St. George's Harbor, which is the island's largest, I would watch the large ship and liners enter the harbor. That was interesting to watch the little togs move the large ships into position in the harbor," Mr. Beam stated.

"It was a wonderful vacation that was really enjoyable," he related in going over the moments of his trip.

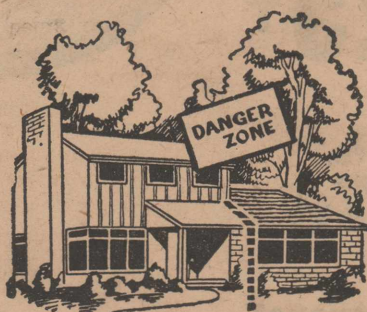

Duncan To Play In Greenbelt Classic Friday

Doug Duncan, Wellington's top fullback, will be among the 48 football stars from Texas and Oklahoma this Friday night, August 6, as they clash in the fifth Greenbelt Bowl game, which is to be played in Fair Park Stadium in Childress. Game time for this football contest of the season will be 8:30 p. m.

This year's game promised to be the best one yet. Besides the top brand of football, the Hardin Simmons University, Abilene, band will be on hand for a thrilling half-time performance. The queen contest was held Tuesday night, August 3, and a barbecue for the players and their parents will be held Friday night, August 6. This is prior to the game.

The coming gridiron battle will pit some of the best in these parts of the country and among them will be Duncan, the 195 pound hard-charging fullback. Duncan will be playing this game prior to his entering at Texas Tech in the fall where he will play football.

Duncan, a graduate with the class of 1954, made all district and all regional on the first teams for two years. He has also been selected by sports writers across the state on the all-state team as a second team member and on the honorable mention state. He was the highest scorer in the area in 1952.

Mr. and Mrs. T. C. Newkirk out on Elm Creek will soon have 1008 Leghorn hens laying in cages. They have just recently completed their new cage laying house and at the present time they have 524 Pullets in cages.

way to use a flashlight and cull after birds have gone to roost. Another way is to keep a hook handy, and to cull out a few birds every day.

Cut them off your payroll and turn them into cash while they're still in good flesh. We'll gladly give you suggestions on culling if you need help.

HEALTH HINT

Better not Ignore Sneezes

A sneeze in the laying house may be caused by dust, but don't ignore it. Check body weight, feed consumption and production of birds.

If they've lost weight and appetite, or if production has dropped, action is needed. We suggest:

1. Checking ventilation night and day.
2. Getting birds to eating quick.

Here's one good way: Substitute Purina Chek-R-Aid for regular mash for a 3 to 5 day period. Feed 1 1/2 lbs. of Chek-R-Aid per bird. Costs about 3 cents per bird more than regular ration.

One egg saved per bird usually more than pays the whole cost.

We're busy folks, but helping our customers is our first interest. We'll be glad to talk over your feeding and management plans with you. Or, if you prefer, our trained, experienced Feedind Advisor can drop in next time he's out your way.
