NUMBER 25

Prevailing Rate for Combining Is \$2.50

While no meeting of farmers has been held this year to determine pay rates for harvest work, the prevailing custom combining rate seems to be \$2.50 per acre, as near as the Herald can determine. Pay for single hands is \$8 per day with room and board and \$10 per day without. Very little demand for custom combines has been found this year, although a number of crews that have made this area for many years are back again in spite of the short crop.

Nine Men Go For Induction On June 24

Nine men from local board No. 99 will be sent for induction on June 24, including four from Perryton.

The induction call for July is for three men to be inducted on July 27, according to Mrs. Norma G. Phelps, clerk of the board. No physical examination call has been received for July, Mrs. Phelps said.

Scheduled for induction are Freddie Dendy of Perryton, a volunteer; Johnny Farnsworth, Canadian; Linden Dale Pratt, Higgins; Ronnie E. Melthraffer, Farnsworth; Garland R. Rogers, Canadian; Kenneth R. Slaughter, Perryton; Tommy H. Wooton, Canadian; Lowell K. Buxton, Perryton; and Donald Moore, Higgins.

Social Worker Committee Is Formed by CWA

A social worker committee has been formed by the Christian Women's Alliance to investigate cases and secure aid thru the churches, county and civic clubs.

The organization has investigated a proposal to secure a full time worker for the county, but found that too much expense was involved.

The committee, composed of women from various churches, will make trips to homes of needy families to determine the amount and kind of aid needed. Anyone desiring to contribute clothing, bedding or any other articles that can be used by less fortunate families may leave the articles at any church.

Mrs. D. R. Gaither of the First Baptist church has been elected president of the group. Members are Mrs. A. J. Eudy, Mothers Club; Mrs. Bernard Bryan, First Christian church; Mrs. Jack Wooster, People's Chapel; Mrs. B. R. Pletcher, Mennonite church; Mrs. M. S. Hummer, Waka Church of the Brethren; Mrs. J. R. Russell, Nazarene church; Mrs. Harry Evins, Full Gospel Church.

Area Swelters In Record Heat; One Day Below 100 Degrees

Although there are no records to compare against, even the old timers can't remember such hot weather as this area has had during the past few days.

And the hottest week of all has just passed, with the thermometer rocketing up to 108 degrees Monday after passing the 100-degree mark for a week. It cooled off Tuesday, when only 97 degrees were recorded.

Annual Meeting Of Red Cross Set for June 30

The annual meeting of the Ochiltree Red Cross chapter will be held Tuesday, June 30, at 8:30 p. m. in the courthouse annex.

Officers will be elected for the coming year and annual reports will be heard from chairmen of all committees.

Dr. D. B. Pearson, Jr. is county chairman; Virgil Olmstead is vice chairman; Leola Jennrich is secretary, and Mrs. Clifford Phelps is treasurer.

Anyone interested in the Red Cross organization is invited to attend the annual meeting.

Sumpter Buys McLain-Thomas

Announcement has been made of the purchase of the McLain and Thomas Insurance Agency by the F. B. Sumpter Insurance Agency.

All policies issued by McLain and Thomas will remain in effect and will be promptly serviced, Sumpter said.

The McLain and Thomas agency was owned by T. P. McLain and the late J. R. Thomas.

Wheat Harvest Gets Started With Low Yields Reported In Most County Fields

HARVEST TIME—M. L. Kershman of the Huntoon community shows a load of wheat which he harvested Tuesday, and which is making about the same yield as other fields in the county—four bushels per acre. He secured this load of wheat by cutting around the fences and in the high spots of his field. The wheat tested 58 pounds with low moisture content. He delivered it to the Huntoon Equity elevator.

Freeze and Drought Take Toll of Crop

Harvest of Ochiltree county's disappointing wheat crop is under way, with yields even less than expected a few weeks ago. Most reports of the wheat now being harvested range from 3.4 bushels, with an occasional five and six bushel per acre yield reported.

Even the wheat in the Huntoon area, which has looked good all spring, is disappointing. Three and four bushel yields are common there as in the rest of the county.

The heads of wheat in many fields look good, but upon examination, only a few grains of wheat are found in each head. The late freeze, the dry growing season, and the unusually hot and dry winds during the latter part of May and the first of June are held responsible for the shrinking crop.

Some farmers have pulled into fields and have pulled their combines out after failing to get enough wheat to pay for cutting. Wheat that was left for harvest is being plowed under in many cases.

The late wheat may yield a little better than the early wheat, provided the hot weather hasn't damaged it too much.

Most grain men expect the 1953 wheat crop to surpass the 1950 failure, but it will go down as the second or third poorest crop in Ochiltree county history. The other failure was in 1933.

An estimated 100,000 bushels of grain were harvested in 1950 for the lowest production recorded since the county started growing wheat.

The Equity elevators are shipping in CCC wheat from other points for storage in elevators from Perryton west. They are holding plenty of space open for the current crop, however.

Most of the wheat being harvested is being put into farm storage and for seed. Little activity has been noted around the elevators thus far.

J. H. Neufeld holds probably the record thus far for low production. He said he cut about three pecks off one field and then moved to the "good" wheat which made from four to five bushels per acre.

It is estimated that well over half of the wheat acreage in the county this year was plowed up or abandoned prior to harvest.

First Big Trades Day Event Set June 27 by Perryton Merchants; Ten Valuable Prizes

Over \$5,000 in prizes will be given away by Perryton merchants in a series of trades days which will see the awarding of ten valuable prizes to shoppers of this trade territory, beginning Saturday, June 27.

A bedroom suite from the Good Furniture Co. will be the prize next week, valued at \$300. Other prizes include a living room suite, York air conditioner, radio console, Deepfreeze, electric stove, automatic washer, home freezer and television set.

The biggest prize of all, a new 1953 Chevrolet Powerglide from the Perryton Motor Co., will be given away at the end of the series to climax the retail promotion.

Club Presidents Meet Tonight For '400 Club'

A meeting of club presidents has been called for tonight, Thursday, by John Mayfield, secretary of The 400 Club.

A membership report will be heard from the presidents and the appointment of the six-man steering committee of the club will be discussed.

Membership in The 400 Club is steadily increasing, but has not yet reached the goal of 400 members, Mayfield said. However, there are enough members that some work can be started on the Veterans Memorial Building by August, he added.

Anyone desiring to join The 400 Club can do so by contacting the Chamber of Commerce office or the president of any civic club in town.

ME Pastor to World Meeting

Rev. and Mrs. A. B. Cockrell and family of the First Methodist church will leave Monday for Philadelphia, where he will attend the World Methodist Convocation on Evangelism on June 26-28.

The 250th anniversary of the birth of John Wesley is being observed. Over 1,000 conversions are expected.

Enroute to Philadelphia, the family will visit Lt. Ben Cockrell and family in Wilmington, Ohio.

Plan Reunion of PHS Students

Plans are being made for a reunion of Perryton high school students during the North Plains Fair and a committee has been formed to work out arrangements.

Committee members are Mrs. H. P. Richardson, Mrs. Sam Justice, Mrs. Pat Ragsdale and Mrs. Clifford Burns.

The committee would like to have suggestions as to the type of program to plan for the reunion.

County Dam Survives Rain

The check dam which the county built at the Wolf Creek lake site several weeks ago as experiment survived the first test last week.

A two-inch rain along the Wolf Creek water shed put the creek on the rise, and the dam held up, although the creek washed around the end of it where work was unfinished on a waterway to carry off excess water.

Water is now about four feet deep in the small lake behind the dam and it is expected to be adequate for fishing purposes.

NOCTURNAL NUISANCE City Suffers Miller Invasion

The swarms of moths, which most people call "millers" are harmless, the experts say, but they sure are a nuisance right now.

Homes in Perryton have been filled with the insects for a week now, and the supply seems to be undiminished.

These moths are in the adult stage of the cutworms and army worms, the things that work under ground on plants. The moths

that are flying around right now have already done their damage by laying eggs that will hatch out in August.

It takes a strong solution of fly spray to kill these millers. A fly swatter is a good weapon, but it leaves a mess wherever the swatter hits a miller.

It won't be long before these millers die of old age, the experts say. Until then, we'll just have to put up with them.

Blue Sox Take Close One From Hooker Cards, 4-3

The league leading Blue Sox took a 4-3 decision from the class Hooker Cardinals Saturday night at Hooker, winning in the ninth inning after the two teams had played the first eight innings without a run.

Hooker scored a run in the eighth to go out front, 1-0, when Perryton came to bat for their last chance. Porky Holland rapped out a single. DeHass stroked a double to bring in Philley and tie the score. Williams walked. Dieball reached first on a fielder's choice and Glynn Braden hammered out a double to put the Sox ahead. Hargrove's single brought in Braden to make it 4-1.

Hooker scored twice in the last of the ninth but it was one run shy.

Only one error was made by each team. Langley of the Sox and Flanagan of Hooker tangled in a pitcher's duel which saw the Sox get 10 safeties while Langley was limiting the Cardinals to three hits. Langley struck out 7 and Flanagan 8.

Pay more? What for?

Fifty Years Forward on the American Road

You don't have to pay costly-car prices for costly-car comforts. Ford brings you everything [and we mean everything] you've ever wanted in a car, at a price that's well within your reach! And according to recent surveys, a Ford returns more of its original cost when sold than any other car at any price!

Here are a few of the "Worth More" advantages you'll find in the '53 Ford:

1. A V-8 engine—powerful and smooth!
Ford's famous high-compression V-8 is a leader in quiet, flexible, economical performance. Ford, remember, has built more V-8's than all other makers combined—over 13 million!
2. America's most economical Six engine!
If it's a Six you want, Ford offers you the high-compression, low-friction Mileage Maker... the engine which, with optional Overdrive, won over all other cars in this year's Mobilgas Economy Run!
3. America's finest and most versatile automatic drive!
Fordomatic Drive is the "automatic" which gives you both the get-up-and-go of automatic gears and the smoothness of a fluid torque converter.
4. Automatic gas savings!
Ford's Automatic Power Pilot (on Six and V-8) meters just the right amount of gas, times ignition precisely, burns fuel evenly and completely.
5. America's newest and finest power steering!
Ford's Master-Guide power steering gives you new ease, stability and safety in guiding your car on smooth roads or rough. Steering is up to 75% easier.
6. Largest choice of models in the low-price field!
Ford alone gives you a choice of

- 18 different models... a SIX or V-8... Fordomatic, Conventional or Overdrive... the widest variety of body, color and upholstery combinations.
7. A body that's the style-setter!
Only Ford in its field gives you the advantages of a hull-tight Crestmark Body... the trend-maker in design and beauty. Ford's body is the longest and Ford's trunk, the largest.
8. New driving conveniences!
Ford's first in its field with "Worth More" features like... easier-acting, suspended pedals that eliminate floor holes... foam rubber cushions on front and rear seats in all models... and convenient Center-Fill Fueling.
9. An automatically controlled ride!

The Man Down' Stirring Color Saga of Fighting Men

The popular novel by "Bule" the Man Down' is a spectacular story of the war of the 1890s, on the Ellis Theatre on Tuesday, June 23-25. The story is by Barbara Britton and Rod Cameron, and is the feature in the feature.

The regeneration of the town's sheriff in the course of meting out justice, figures in the dramatic action which follows, resulting in the return of the rich grazing lands to the rightful Hatchet owners.

Canadian Is Ready for July 4 Rodeo

CANADIAN, Texas, June 15—This scenic town located near the Canadian River in the northern part of the Panhandle will again be filled with scenes from the old days of the Wild West at its annual rodeo which takes place here July 4-5. The two days of holiday excitement, looked forward to eagerly by the natives of this area, as well as by rodeo enthusiasts throughout the north Panhandle, promise to excel even the excellent performances of past years in their display of bucking horses that really buck, cowboys that really ride, and in the bulldozing, calf roping, and other events which exemplify the features of a former style of life which is slowly disappearing from the face of the earth.

Canadian is a typically western small town, but its smallness does not prevent it from offering one of the better rodeos to be seen in this area. Since the first efficiently organized show given on the old Anvil Park Rodeo grounds in 1920, the rodeo has been progressively improved until it ranks high among the summer entertainment features of the Panhandle. Two afternoons of rodeo at the rodeo grounds; two exciting evenings in town, with dances and other events to please the crowds; and in the intervals when the visitor may want to seek seclusion and a surcease from the crowds, there is ample camping facilities along the wooded section of the north side of the Canadian River. Canadian is busily preparing for its 1953 rodeo, and the committees have been working for weeks to take care of the many details which make the show successful. No guest of Canadian will be disappointed by the entertainment nor the reception given him in the Canadian River valley. The Canadian rodeo will be a truly western show, put on by cowmen, and the old time life of the west will once more exist in Canadian July 4-5, when there will be an opportunity to enjoy a rapidly paced week-end in this old Texas town.

The rodeo is sponsored by the Canadian Roping Club jointly with the Chamber of Commerce, and is produced and directed by Claude Hays of Weatherford, Oklahoma, who is furnishing the livestock.

Top Thriller Here Friday

A sensational color spectacle comes to the Ellis Theatre on Friday and Saturday. It is "Invaders from Mars," a science fiction thriller from way back.

With emphasis on spine-chilling episodes, the story relates the discovery of a strange spaceship whose eight-foot giant occupants have come to destroy the earth. While it wouldn't be fair to reveal the entire plot, it can be said that the crisis of the gripping drama is brought about in the contamination of U. S. citizens by the invading Martians. The destruction of the spaceship and its inhabitants, who are a terrible threat to all mankind, is finally accomplished by the U. S. Army.

Buck Is Back In 'Call Of Wild'

One of the most fondly remembered movie animals, "Buck" a huge St. Bernard dog, can be seen once again in the encore triumph, "Call of the Wild," starring Clark Gable, Loretta Young and Jack Oakie in the Ranger Theatre. In the film, "Buck" is rescued from being killed by Gable who subsequently takes the animal on a trek to the North country in the famous Jack London story. The animal "plays" several comedy scenes with Jack Oakie, as well.

Sheridan, Hayden Seen In Lusty Frontier Hit

A combination of lusty humor, action, music and romance is brought to the screen in "Take Me to Town," which comes Sunday and Monday to the Ellis Theatre with Ann Sheridan and Sterling Hayden in the starring roles.

Ann Sheridan is seen in the role of a colorful frontier dance-hall entertainer who is unwittingly adopted by three small motherless boys, whose father is Sterling Hayden, rugged lumberjack, part-time preacher and father of the three waifs.

He attempts to make a place in the community society for the dancer and succeeds after Miss Sheridan is eventually accepted by the townspeople after she stages a gigantic fund-raising show for the new community church.

It shall be unlawful and an offense for any person, firm or corporation having registered in its or his name or owning or operating or having in charge any vehicle, to allow, or suffer or permit same to remain or be placed in any parking space alongside of or next to which any parking meter is displayed a signal showing that such vehicle shall have been parked beyond the period of the time fixed by the ordinances of the City of Perryton, for such a parking space, or when said parking meter, by change of signal or some other mechanical operation indicates expiration of parking time.

SECTION 6. When any vehicle shall be parked next to a parking meter the owner or operator of said vehicle shall park within the area designated by the curb or street marking lines for parallel or diagonal parking, and upon entering said parking space shall immediately deposit in said meter only coins of the United States, being the proper coin or coins. It shall be unlawful for a person to park a vehicle at any place within a parking meter space, or except as otherwise provided for by ordinance. Said parking meter space may be used by such vehicle during the legal parking limit but said vehicle shall be considered as unlawfully parked if it remains in said space beyond such legal parking limit and or when said parking meter by change of signal or some other mechanical operation indicates expiration of said parking period. It shall be unlawful for any person to cause or permit any vehicle registered in his name to be unlawfully parked as set out in this section.

SECTION 7. It shall be unlawful to deposit or cause to be deposited in any parking meter, additional coins for the purpose of extending the parking time beyond the maximum time fixed by the ordinance of the City of Perryton and/or as shown by the instructions on said meters.

SECTION 8. It shall be unlawful to deposit or cause to be deposited in any parking meter, any slug, device, metallic or other substitute for a coin of the United States.

SECTION 9. It shall be unlawful for any person to tamper with, remove, open, break, destroy, impair or attempt to impair the usefulness of any parking meter.

SECTION 10. It shall be the duty of the police officers of the City of Perryton acting in ac-

cordance with the instructions issued by the City Commission, to report:

A. The number of each parking meter which indicated that the vehicle occupying the parking space adjacent to such parking meter is or has been parked in violation of any of the provisions of this ordinance.

B. The state license number of such vehicle.

C. The time when such vehicle was parked in violation of any of the provisions of this ordinance.

D. Any other facts, a knowledge of which is necessary to a thorough understanding of the circumstances attending such violation.

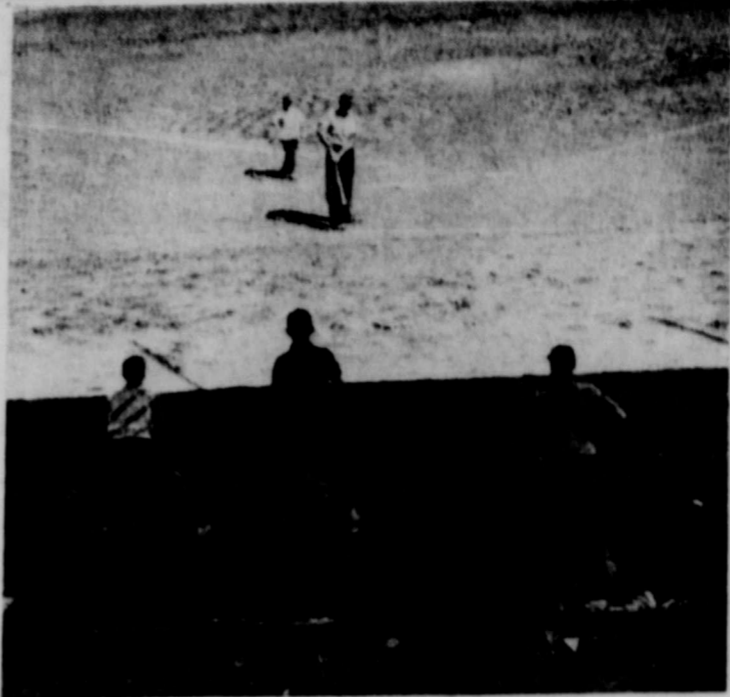

Each such police officer shall also attach to such vehicle a notice to the owner or operator thereof that such vehicle has been parked in violation of a provision of this ordinance and instructing such owner or operator to report to the Corporation Clerk of the City of Perryton, in regard to such violation. Each such owner or operator may, within 48 hours of the time when violation notice was attached to such vehicle, pay to the Judge of Corporation Court or other designated City employee as a penalty for and in full satisfaction of such violation the sum of one dollar (\$1.00). The failure of such owner or operator to make payment within 48 hours following such violation shall render such owner or operator subject to the penalties therein after provided for violation of such provisions of this ordinance.

SECTION 11. Any person, firm, or corporation who shall violate the provisions of any of the provisions of Section No. 3, or Section No. 5, or Section No. 6, or Section No. 7 of this ordinance shall upon conviction be fined not more than twenty-five (\$25.00) dollars and not less than one dollar (\$1.00) and costs for each violation. The judge presiding, upon conviction of any section of this ordinance, shall have the authority to remit any portion of the fine assessed as he in his judgement shall see fit.

SECTION 12. Any person who shall violate or assist in violation of Section No. 8 or Section No. 9 or Section No. 10 of the ordinance shall upon conviction be fined not more than two hundred dollars (\$200.00) and costs for each violation.

SECTION 13. The fee required to be deposited in said meters is hereby levied as police regulation and inspection fee to cover the cost of providing parking spaces, parking meters, and installation, and maintenance thereof, the cost of regulation and inspection, operation, control and use of the parking meter space and zones created herein, for the regulation and control of traffic moving in and out of, and parking in, said parking spaces and zones so created, and for the costs of any resultant traffic administration expenses, and for such other legal purposes and uses as may be designated by the City officials of the City of Perryton, Texas.

SECTION 14. All laws, ordinances or parts thereof in conflict herewith, are hereby repealed.

Ft. Worth Cattle Market Shows Steady Prices

FORT WORTH—Some improve- ment in the activity on cattle and calves, and considerably better prices on sheep and lambs were the rule at Fort Worth Monday. Stronger demand from buyers from outside the state as well as the local buyers made the difference. Lighter supplies of livestock around the market circle also were a favorable factor. Good and choice fed steers and yearlings cashed at \$17 to \$23, some choice fed steers averaging about 850 lbs. from McClung Land and Cattle Company, Johnson County at \$23, and some 596 lbs. yearlings from W. W. Gilbreath of Dublin (Erath Co.) at \$23. B. T. Hill, Martin County, had a load of well fitted 818 lb. yearlings at \$22.50 and I. S. Scott, Castro County, had a similar load averaging 676 lbs. at \$22.50. Common and medium slaughter steers and yearlings sold from \$9 to \$16, a load of fleshy feeders at 1,030 lbs. from Herman Mitchell of Wichita County at \$15. About three loads of 725 lb. brahman sold for \$10.50. D. L. Powers, Jack County, had a load of 758 lbs. at \$13.50. Rannie yearlings ranged at \$5 to \$8.

Fat cows sold for \$8.50 to \$11.50, a few heiferettes to \$12 and above. Silas Byrd, Blanket, Texas, had some odd cows including a fancy fat one at 1,245 lbs. at \$12.50. Geo. M. Rucker, Montague Co., had a load of \$17.50 yearlings at 437 lbs. and some odd cows including odds at \$10, \$11 and \$12. Canners and cutters drew \$5 to \$8.50. Bulls sold from \$7 to \$12.50, a few to \$13, like the top bulls sent in by Don Mitchell of Bryson, O. L. Matlock of Antelope, and Chas. Blackman of Clay County.

Good and choice fat calves drew \$14 to \$18, a few baby beef kinds over 500 lbs. to \$20 and above. Common and medium kinds \$8 to \$13, with culis \$5 to \$8. Stocker steer calves drew \$10 to \$17, three loads at \$19 from Naud Burnett of Greenville averaging 467 lbs. the day's top. Heifers off these averaged 457 drew \$17.50 for slaughter. Yearlings sold around \$15 down.

Edward Stairs, who taught school for the past year in Arizona, is spending the summer working in the vicinity of Perryton.

Most of South Carolina's cotton textile industry is located in its piedmont area.

Mrs. Teeter's Father Dies

Edwin Mills Beum, father of Mrs. Pearl Teeter of Perryton, died June 8 at his home in Arnett, Okla., at the age of 82 years 5 months and 8 days.

Mr. Beum had been ill for the past seven years.

He had been a resident of Ellis county since 1901, homesteading about six miles west of Arnett. Mr. Beum was a Baptist preacher in the early days of the county and later took the auction business.

In 1908 he and the late Elmer V. Jessee established the Ellis County Capital, weekly newspaper of Arnett. He took over publication in 1909 and continued until 1914, when he sold to Mrs. Elizabeth Seward.

Sanford Hospital and Clinic

Johnson Hurt In Fall at Booker

B. A. "Speedy" Johnson was injured at the Booker Equity elevator Monday morning when he fell 30 feet into a storage pit at the elevator.

Johnson was carrying some bolts and screws to the top of the elevator when his hand slipped and he fell to the bottom of the pit. He landed on his left heel, breaking the bone and also injured his right foot. He is reported to be recovering satisfactorily, although he will be in the hospital for several weeks.

Johnson, a former Perryton high school football player, weighs 265 pounds. He has lived at Booker for a number of years.

Mr. and Mrs. Fred Turner were in Canadian Sunday, June 7, to attend a family party honoring her parents, Mr. and Mrs. J. A. Keim, on their Golden Wedding anniversary.

Booker Man Burned From Explosion

Olton Paine, 48, Booker, was seriously burned Wednesday morning at his ranch home 11 miles southeast of Booker, when he attempted to light a water heater in his basement.

He was rushed to Perryton Hospital by his wife and son, Jerry shortly after the 6 a. m. explosion. Hospital authorities say that he is suffering from second degree burns from the forehead to the knees.

Jerry Paine said that his father thought that he had turned off all the gas in the basement Tuesday afternoon after the water heater had blown out. He said vents in the basement had been opened overnight and that they thought all of the gas had blown out, until the match was lighted.

The following explosion, besides injuring Paine, caused considerable damage to walls of the bathroom, kitchen and bedroom. No fire resulted from the explosion.

Miss Schoonover Is Bride Of James Peterson

The marriage of Miss Joyce Schoonover, daughter of Mr. and Mrs. John Schoonover of Gravette, Arkansas, formerly of Perryton, and James A. Peterson, son of Mrs. Elmer Peterson and the late Mr. Peterson of Bentonville, Arkansas, was solemnized last Saturday morning at 10 o'clock in the home of the officiating minister, the Rev. Robert Fell, pastor of the First Christian Church.

For the double ring ceremony, the bride chose a pale blue linen suit with which she wore pink accessories. Her only attendant, Mrs. Euvonne Williams, was attired in a rose nylon frock and navy blue accessories.

The bride attended Perryton high school and graduated from the Gravette high school with the class of 1951. She was a member of the Rainbow Assembly for Girls at Perryton, her former home.

Mr. Peterson is a graduate of Bentonville high school. He served overseas with the Army during World War II and in Korea with the National Guard. He is now employed in Sunflower, Kansas.

The couple was honored at wedding dinner Saturday evening at the home of Mrs. Verlin Peterson. Guests were members of the immediate families. Following dinner, residents of the Mount Pleasant community gave a gift shower at the Schoonover home.

Mr. and Mrs. Peterson left Sunday for Sunflower, where they will make their home.

Courtesy Honors Recent Bride

FOLLETT—Mrs. Monte Roach, nee Miss Mildred Bourquin, was honored at a bridal shower, Friday afternoon, June 12, from 2 until 5 o'clock in the basement of the Methodist Church of Follett.

Burton-Meller Nuptials Are Read In Impressive Service Sunday

A beautiful arch of fern topped by a large white bell, and flanked by floor baskets of white chrysanthemums and candelabra holding white tapers decorated the altar of the First Methodist Church, Darrouzett, Sunday evening for the marriage of Miss Edna Zell Burton of Darrouzett, daughter of Mr. and Mrs. E. B. Burton to Harold Meller, son of Mr. and Mrs. Henry F. Meller of Logan, Oklahoma.

The Rev. Mr. H. O. Rhode, pastor of the Lutheran Church, read the double-ring service at six o'clock. Miss Anna Ruth Johnson played a piano prelude and accompanied Robert L. Green and Don Travis who sang "Forever and Ever." As the benediction, Mr. Travis sang "The Lord's Prayer." The traditional marches were used for the processional and recessional.

Attending the bride as matron of honor was her sister, Mrs. Bob Swope, who was attired in a floor-length dress of lavender and yellow organdy; her corsage was of lavender carnations. Bridesmaids were Miss Jeanette Meller, sister of the groom, who wore a ballerina length gown of lavender net over taffeta fashioned with a strapless bodice. Misses Evelyn Miller, cousin of the groom, and Shirley Ann Laurie wore gowns of Nile green of the same pattern as Miss Meller's. Their corsages were of yellow chrysanthemums.

Lee Herber was best man and groomsmen were Bob Swope, Joe Burton, and Russell Altmiller. Melvin Miller was usher.

The candles were lighted by Martha Nell Koch, who wore a floor-length gown of emerald green with a wristlet of yellow chrysanthemums, and Charlie Gene Meier; both cousins of the groom.

The bride, given in marriage by her father, chose a floor-length gown of white embroidered organdy, designed with a tightly molded bodice and a scalloped neckline. Long fitted sleeves tapered to petal points over her hands. Double flounces accented the full skirt.

Her veil of illusion, was attached to a tiny halo of scalloped embroidered organdy. She carried a small white Bible topped with a single lavender orchid and a shower of white satin streamers.

For her daughter's marriage, Mrs. Burton chose a street-length dress of aqua nylon with white accessories; her gown was complemented with a corsage of white carnations. The bridegroom's mother was attired in a white corde street dress with black accessories. A corsage of yellow carnations completed her ensemble.

Immediately after the exchange of vows, a reception was held in the basement of the Lutheran Church. Miss Leona Miller, cousin of groom, was in charge of the bride's book. The bride's table was draped with a lace cloth. In the center was a three-tiered wedding cake topped by a tiny bride and groom. Baskets of chrysanthemums flanked the table.

Indian Discusses Red Trouble

NEW DELHI (AP)—The Nehru government is restricting the number of Indians visiting the iron curtain countries in the interests of internal peace and tranquility, Home Minister Kailash Nath Katju said.

He was replying to the Communist members' criticisms during the budget debate in the lower house of parliament that the government was discriminating in the issue of passports to the "new democracies in Europe and Asia."

Katju replied: "We do not want people to go out to learn the techniques of sabotaging the government here."

New Chain-Letter

CHICAGO (AP)—The chain-letter fad has bobbed up in a new form.

A high school girl in a Chicago suburb received one of the letters recently. She was instructed to:

Send a picture post card to the youngster whose name was listed in the letter.

Then make four copies of the letter and send them to young friends in the U. S. or abroad.

In so doing, omit the name of the youngster whose name was listed first, copy the other three listed names and addresses and add her own name and address at the bottom.

The letter set forth:

"Within four weeks you may be sent 256 post cards from all over the world. This should improve your knowledge of geography."

Trimmers at Work

While it's a little late for a word of warning, it may be well to point out to home owners the wave of phony tree trimmers that have passed through the country this year, and in all likelihood will come again.

Several reports of having trees treated at a fancy sum, and with no discernible results, have been forthcoming from local citizens. Some of the jobs were left unfinished, most were unsatisfactory and all were costly.

"Investigate before you invest," is always a good motto — and especially good when it comes to tree trimming.

Is the Bomb Guilty?

Blame for the floods and tornadoes which have plagued the nation for the past two months has been credited by some to the atomic bomb tests set off in Nevada.

The U. S. Weather Bureau says they are caused by another phenomenon, discovered during World War II, the culprit being the high-rising "planetary wave stream" whose core often hits speeds of 300 miles an hour.

We wouldn't argue with the experts, but nothing would suit us better than to call a halt to the whole thing. We don't like tornadoes and neither do we like the 100 degree temperatures we've had here the past few weeks. Whether it's bombs or "wave streams," something has thrown our weather out of kilter.

What is the most valuable thing General Electric ever built?

Is it the jet engine? In 1942, General Electric gave America's air arm its first jet muscles. Would you say that is our most valuable product?

Or would you elect the fluorescent lamp? We placed the first ones on sale in 1938. With the growth of fluorescent lighting Americans are using 3½ times more light than even 10 years ago.

Maybe you would say our star performer is the steam turbine. All you do is flip a switch, and a turbine somewhere instantly responds to provide the power to pump for you, or push or lift.

How about x-ray? Your doctor holds a negative up to the light and peers at bones he says are really yours. Who can say how many lives the x-ray tube has saved?

Important as these products are, more valuable to us—and to you—is something these products have helped to build. Something born quietly in 1878, when electricity was still a curious toy. And something that has grown steadily through the years.

The most valuable thing we ever built is your good will. For your year-after-year confidence in the things we make has given us the means to serve you better. Better engineering, research, manufacturing—all have come from your belief in us. It returns to you in a constantly improving and expanding way of life.

From the SIDELINE with HAROLD HUDSON

This department spent last week end in Mineral Wells attending the Texas Press Association annual convention, and can report that outside of an air-conditioned room in the hotel, the weather downtown is even hotter than here. The trip home last Sunday was a scorcher and we don't relish traveling that far on a sun-baked highway any more—for a while at least.

The Herald won only one award in the newspaper contests this year—a third place in column writing. Last year the Herald did much better, indicating that we have slipped or that a different set of contest judges don't see things the same as the judges did last year.

One outstanding speaker on the program was to our mind about as spell binding as any we've ever heard. He was Dr. Kenneth McFarland of Topeka, Kansas, now associated with the American Trucking Association, who spoke at a noon luncheon. He started speaking along at the tail end of a program, but spoke for an hour and twenty minutes and no one stirred. Quite an accomplishment.

He had made an extensive study into why individuals fail in their jobs and why businesses fail. Oddly enough, skill in one's job ranked ninth in the list of reasons why individuals get fired or don't like their jobs. Eight other factors weighed more heavily than the ability to perform the job. Some of these factors are working surroundings, personalities of the boss and fellow workers, a sense of accomplishment, and pay.

When it comes to why businesses fail, lack of skill ranks at the top, McFarland says. Underfinancing also is a big factor, but he found that the businesses who practice the Golden Rule are most successful. It is good business not to lie to a customer and not to cheat him, and whether a businessman likes people or not, it is to his advantage to carry on his business as though he did.

Wolf Creek Philosopher How About Cow Price Supports?

(Ed. note: The Wolf Creek Philosopher is trying to be helpful on the cattle price situation, but we can't see that he succeeds.)

Dear editor: I have been reflecting on the cattle market situation out here, and as you know the market has been pretty rough, not only on the cattlemen but also the bankers, as any banker who had a hundred dollars loaned on a two hundred dollar cow is now about

was runner up. Dean Blank won third in C flight.

This department has been asked if there is something the people can do about that stretch of slick pavement near Waka. This piece of road, you may know, extends just west of Waka and in recent years there have been at least eight accidents and two persons killed there. There is a sign warning that the pavement is slick when wet, but that doesn't always do the job. Isn't there some kind of topping that could be put on this pavement to make it less dangerous?

Latest victims of the slick pavement were Mr. and Mrs. Delbert Trew, whose car went out of control and overturned. Many of us have experienced an uneasy feeling when crossing this pavement in wet weather. What will it take to get it fixed?

We quote this from Douglas Meador, editor of the Matador Tribune: "All men are afraid, but not of the same things. The truly prudent man should fear wealth with the same uneasiness that he regards poverty, since both possess the power to destroy the comfortable estate of friendship."

More from the same: "Marriage is like any other sport, and wives are more apt to prize the small fish which put up a struggle than the big one dipped out with a net. There is also a spirit of sportsmanship evidenced by those who throw back a few to help re-stock the stream."

The Herald has stressed from time to time the necessity for keeping the city clean. The city employees are doing a good job in keeping the streets and alleys clean, but of course they can't go into yards to gather up trash. When the alleys are sprayed for flies and

come to the rescue of us cattlemen and bankers, especially us cattlemen, and I don't know of anybody who's better equipped or had more experience than the government in Washington.

Now I've been thinking over how the government can do it, and it's not easy. A price support deal on grass might help, and I suppose there are experts in Washington who could work out a system where buffalo grass could be supported at so much, Johnson grass at so much, lake grass at so much, etc., but the thing will be complicated as there's not much way to determine how much grass a pasture has been producing over the years except to take my word for it, and some experts might not consider that reliable evidence. I always judge my pasture by the shape of my cows, when the bones begin showing I know the grass is playing out and if a neighbor's fence doesn't give before long the situation will get serious.

But the best system I've figured out is just a price support program for the cattle themselves. You buy a good Jersey steer for 18 cents a pound and keep it a year and sell it for 8 cents and there ain't no way on earth to come out ahead without going through Washington and picking up something on the way, and when it comes to a choice, Washington go in the hole or me. I always figured Washington was designed to bear the brunt.

Naturally, the program is gonna have to be a little different from the price support program for grain or cotton. The government can buy grain and hold it

for a better price, but you try storn a cow and you run into all kinds of complications.

But I believe Washington can do it, and if it can't, that's Washington's worry, not mine.

I hope Congress will turn up the air-conditioning and really give some heavy thought to this problem. Me and my cows can't hold out much longer.

land for oil development. What will that do? Will great production from the continental shelf cut down the demand for Texas (including tidelands) oil?

These are questions that remain to be answered, and they have considerable significance for Texas, because the oil industry is the state's greatest taxpayer.

If, for example, the tidelands produce heavily and provide a tremendous revenue to the state, other tax sources will not have to be tapped heavily.

If, on the other hand, the continental shelf becomes a major oil producer, the tax revenue will go to the federal government, and Texas taxpayers will suffer accordingly.

Answers to the questions posed here may be long in coming, but in the meantime there are bound to be many columns of newspaper space devoted to them.

Top issues are involved. For instance, if the tidelands yield sufficient tax revenue the teachers' pay can be increased—and therein lies one of the hottest governmental issues in Texas today.

It is an issue, by the way, that will certainly figure outstandingly in the political campaigns of next summer.

You may be certain that prospective candidates, who are writing their platforms now, are putting the question of teacher pay at the top of their lists.

There remains, of course, the possibility that a special session of the legislature may solve the problem by providing more money for teachers.

Even so, teacher pay will remain a political issue, both in state and local races.

Legislators seeking re-election may in some instances have a hard time if it is shown that they opposed the \$600 per month pay increase for teachers.

Current demand for Texas oil was boosted when the Exchange Crude Oil Purchasing Company of Dallas offered to buy from the state 15,000 barrels of oil per day for a price of two per cent or five cents a barrel above the top market price.

New Mexico already has accepted a similar proposal, which is part of an overall project to operate a pipeline from Midland to Los Angeles.

The West Coast Pipeline Company would operate the 960-mile facility, which would cost a billion dollars and carry a total of 300,000 barrels of crude per day.

Land Commissioner Bascom Giles said he would probably ask for more money for the Texas crude, and that a decision on the offer would be made in about two weeks.

The state supreme court upheld its former decision by ruling against rehearing two test cases attacking the natural gas "gathering" tax.

This tax was passed by the 1951 Legislature and immediately challenged by the gas companies. It has been in the courts ever since, and the revenue from the tax has been piling up, unspent.

If and when the court's decision becomes final, it is expected that Governor Shivers will call a special session of the Legislature to appropriate the money.

Governor Shivers has signed a bill that hits at beer taverns and undertakes to keep liquor gang-

THEY'VE GOT A BUZZ ON—John Sanders, 13, Marshall, Tex., junior high school student, removes a swarm of wild honey bees from a car parked in downtown Marshall. The bees swarmed into the car shortly after its owner left it to go to a beauty parlor. They remained for about two hours, stopping passersby and traffic until Sanders, whose hobby is bee keeping, came to remove them. Swarms entered two other cars and one unabashed teenager drove off, bees and all. No one was stung. Bee experts say that bees seldom sting while swarming.

sters out of Texas. The bill, sponsored by the state liquor control board and the liquor and beer associations, gives the board wider powers to close up beer and liquor establishments that are indecent or jeopardize the public safety.

Under the new law there are 31 causes for which the Liquor Control Board may suspend or cancel a beer retailer's permit, as compared with 15 in the present law.

It attempts to keep gangsters out of Texas by requiring that liquor establishments must be 51 per cent Texas-owned.

Another provision is that counties may vote to permit sale of alcoholic beverages for off-premise consumption only. That would put the beer tavern out of the picture.

Four illicit stills were seized by Texas Liquor Control Board agents during April, and Coke R. Stevenson, Jr., the board's administrator commented that high federal taxes on whiskey encourages moonshining.

The administrator recalled that the national conference of liquor administrators, recently held in Minneapolis passed a resolution asking the federal government to reduce taxes on whiskey so that it can be sold at a price that is more competitive with the moonshine.

Dr. J. M. Bethea assumed his duties as executive director of the state board for hospitals and special schools. Thus he will be in charge of the care and treatment of 30,000 persons in state institutions.

A retired army general, Dr. Bethea was formerly commanding officer of McCloskey General Hospital at Temple. Previously he was head of Brooke Army Medical Center, San Antonio.

Hunters will be interested in a law passed by the recent legislature and granting the state game commission power to regulate

seasons and bag limits in Gillespie, Kerr and Mason counties—in the hill country where deer abound.

Previously, the regulations were set by the legislature itself. One purpose of the new law was to bring about legalized killing of does which, game experts say, are getting too numerous.

A showdown test of the State Parks Board's powers to borrow \$3,000,000 to build three resort hotels in Texas is in motion.

Plans are drawn for three, one million dollar lodges and other facilities to be built with private capital in state parks at Lake Texoma, near Denison, Inks Lake near Burnet, and Possum Kingdom Lake near Mineral Wells.

A court test will undoubtedly be necessary to determine the validity of the financial plan. Attorney General John B. Shepperd advised a legislative committee that issuance of negotiable revenue bonds for the purpose would be illegal.

Representative Jack Fisk of Wharton tried unsuccessfully to have the 1953 Legislature pass a law prohibiting erection of the lodges. He threatens to file an injunction suit against the board if necessary to stop the construction.

Fisk contends that the resorts would compete with private tourist courts and hotels and that if the projects failed the state would be liable.

SHORT SNORTS: Ed Reichelt has resigned as an assistant attorney general to join a law firm in Fort Worth. Jefferson Davis' birthday was mighty quiet here; not only the banks but also most state offices were closed.

State employees will henceforth get seven cents per mile travel allowance on their cars, instead of the former six cents. The raise was provided for in a bill which the governor has signed.

State Health Officer George W. Cox announced that he had sent an observer to study the atomic blasts in Nevada. The expert will return and make a report on how to deal with radiation hazards.

Twenty-seven touring landowners from Mexico visited the capital, received certificates of honorary Texas citizenship, and visited several ranches in this area.

Heard About the Electric Weather Predictor?

Squint Smith built up quite a reputation last month by predicting the weather. What he said usually came true.

It got so that folks would sit around his little Antique Shop just to get his opinion.

Last Monday, though, he said he didn't know what the weather was going to be like next day. That surprised us and when we asked what happened, Squint said, "Slipped up on my electric bill and was turned off. I'll get to my radio again tomorrow though." Squint had been getting the weather over the radio—just like anyone else!

From where I sit, that's the way it goes with some "experts." They often don't have any more inside information than you can get for yourself. Like those who "know" cider is the only thirst-quencher after a day's work. Far as I'm concerned, I'll take a temperate glass of beer. But—I won't try to "predict" your choice for you.

The question "Is the Universe, Including Man, Evolved by Atomic Force?"—which is the subject of this week's Lesson-Sermon in Christian Science churches—is answered by a vigorous "No!"

The Golden Text states, "The earth is the Lord's, and the fullness thereof; the world, and they that dwell therein" (Psalms 24:1). Isaiah admonishes (44:8), "Fear ye not, neither be afraid: have not I told thee from that time, and have declared it? ye are even my witnesses." And the Psalmist also says: "Know ye that the Lord he is God: it is he that hath made us, and not we ourselves; we are his people" (100:3).

Throughout the Bible are illustrations of God's government of the universe, and the Christian Science textbook says (p. 295), "God creates and governs the universe, including man." The creator is also called "God, who made all that was made and could not create an atom or an element the opposite of Himself" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 583).

CARD OF THANKS

With deepest gratitude we extend this word of thanks for the many kind acts of sympathy, expressed by thoughtful friends. Your kindnesses have meant much to us.

So the People May Know

Counties and incorporated cities and towns are required to publish the facts about proposed bond elections.

"Notice of such election," says the lawyer*, "shall be given by posting a substantial copy of the election order in each of the election precincts of such county, city, or town, and also at the county courthouse if for a county election and at the city hall if for a city election. Such notice shall be published on the same day in each of two (2) successive weeks in a newspaper of general circulation published within said county, city, or town, the date of the first publication to be not less than fourteen (14) days prior to the date set for said election. The provisions of this Article shall control over any city charter provisions to the contrary..."

The statutes specifically require publication of notice in connection with county road bond elections as follows: "If the proposed issue of bonds and levy of taxes is for the entire county, notice of the election shall be given by publication in a newspaper published in the county for three successive weeks, if there be one..."

EXECUTIVE DIRECTOR—Dr. J. M. Bethea (above) has arrived in Austin to assume his duties as executive director of the Texas State Board for Hospitals and Special Schools. (P) Photo

Veterans Forum

Q About two years ago, VA asked a veteran to come in for a physical examination on a claim he had filed for disability compensation. He never showed up. Now, he has decided he would like to follow through on his application. Can he do so?

A He can't follow through on his original claim. His failure to get into touch with VA within one year after he was asked to report for an examination constitutes an abandonment of his claim. In order to get further action, he'll have to file a new application. Should his claim finally be approved, compensation may begin from the date he filed his new application—not his original one.

Q I am drawing compensation, and I feel that my disability has taken a turn for the worse. Will VA accept a statement to that effect from my private physician, in considering my claim for increased compensation?

A Yes. A statement from your private physician may be accepted as evidence, but his findings must be verified by an official VA examination.

Q If a serviceman dies while on active duty, as of what date do indemnity payments to his beneficiaries begin?

A Indemnity payments begin as of the date of the death of the serviceman.

Q I am the widow of a World War I veteran, and I am applying for death pension from the VA. As of what date will the payments be effective, assuming VA approves my claim?

A If you file your claim within one year from the date of your

husband's death, the payments will begin as of the date following the date of death. If you wait longer than one year to file, the effective date will be the date you filed your application.

Mr. and Mrs. E. L. Cobb Friday for their home in Mo., after looking after the interests of Mr. Cobb's late A. E. D. Brooks.

DRIVE IT YOURSELF!

You want a car you'll both be happy with—one that performs for a man, handles easily for a woman. We believe Oldsmobile's the answer. That's why we're launching this special "Double-Date" campaign—inviting you to come in and drive the Super "88" or Classic Ninety-Eight together. See for yourself how the "Rocket" Engine rules the straightaway, how Hydra-Matic's Super Range levels the hills, how the Power-Ride chassis seems to iron out the roughest roads. Then...

LET HER DRIVE IT TOO!

You'll learn that Oldsmobile has a double appeal—to men and women alike. She's probably told you already how she loves Oldsmobile's long, sweeping lines and luxurious Custom-Lounge interiors. But at the wheel she'll discover that this big, powerful car is as obedient to her light touch as to yours—with Power Steering* and Power Brakes* taking the work out of driving. Come in soon. Discover the double appeal of Oldsmobile... together!

CONFEDERATE VETERAN HONORED—Thomas W. Riddle, 106, survivor of the battle of Gettysburg and one of four living Confederate veterans, receives a certificate of appreciation from the American Legion during a ceremony at State Confederate Home, Austin, June 1. Similar certificates were presented by the national office of the Legion to the lone survivor of the Grand Army of the Republic and the other three surviving Confederates. Representatives of five wars were represented at the presentation. Left to right: Paul Cook, Austin, World War I veteran; (standing) G. Ward, Jr., Austin, Korean War veteran, and Albert D. Brown, Jr., World War II veteran and state commander of the American Legion.

refers to himself as the senior congressman of all parties from Manhattan, and the first negro congressman to be elected in modern times from the Eastern Seaboard, with the President of the United States, in which he scored two members of the President's cabinet and Admiral Boone, Chief Medical Officer of the Veterans Administration.

He demanded a decision by the President concerning a rumor that Secretary of the Navy Bob Anderson intended to maintain segregation in the Charleston, South Carolina and Norfolk, Virginia Naval shipyards; that Oveta Culp Hobby, Secretary of Health, Education and Welfare, had issued a memorandum to the Secretary of Defense telling Mr. Wilson not to follow a presidential directive abolishing segregated schools on Army posts; that Admiral Boone had advised the Congressman that he would not change practices in veteran's hospitals but would maintain them on a "local customs" basis.

Congressman Powell requested a personal reply from the President. On June 9th, the Congressman received a letter from the President in compliance with his request, in which the President stated, and I quote: "I will carry out every pledge I have made with regard to segregation," and "I have made inquiries of the officials to whom you refer and learn that they are pursuing the purpose of eliminating segregation in federally controlled and supported institutions," and "To achieve our purpose we must plan and work together and with the victories 1 by 1, and not to be content until we have gained our goal."

On June 11th, the Congressman replied to the President in most complimentary terms for the reassurances contained in the President's letter. The Congressman also called upon the President in this last communication for executive action without waiting for any action by the legislative or judicial branches on five items: (1) Continuation and implementation of the Fair Employment Practices Commission established by Executive Order 9880; (2) Continuation and strengthening of the Committee on Government Contract Compliance; (3) A change in the naval policy of segregation in shore establishments; (4) Change of the policy of the Federal Housing and Home Finance Agency of giving aid to segregated housing; (5) That the State Department make changes in its foreign service employment policy, wherein the Congressman charges that of 6,000 employees only 50 are negroes.

To those of us who feel that the racial problems are matters that can be handled by the states and who believe fundamentally in the states' rights to handle these problems, the action of the Supreme Court and the administration is disturbing. The unceasing chipping away of states' rights by strained constructions of interstate commerce and other federal laws must inevitably result in a highly centralized government, a gainst which so many of us have continuously fought and will continue to fight.

VISITORS in Washington this past week included: Richard G. Hughes, Jr., of Pampa; Mildred Bennett, Stratford, Mo. and Mrs. Ken Bennett, Gladewater, formerly of Pampa; and H. A. Berry, Amartillo.

News From ANTHONY

By Mrs. Ralph Bobbitt

The Anthony 4-H club is beginning to get in the groove. The fifteen members present voted to have an ice cream and cake social in the near future in order to have some money in the treasury.

Most of the project captains gave their reports at their regular meeting Thursday at five o'clock at the recreation hall. The timely topics given by Judy Morris and Jerry Kirton were very well given. The team demonstrations given by Myrtle and Janet Bobbitt, Duane Ratzlaff and Lynn Bobbitt were good considering the length of time the club has been organized. Need was seen for more group practicing.

Grace Reynolds gave demonstration on making dish cloths and towels and tried to impress the importance of record books and the needs for fair exhibits. She also gave the date of Boiling Springs camp as August 18-19 at Woodward, Okla. The estimated cost per child is \$2.50.

Jerry Kirton led the group in a contest game called "Scoop 'Em Up." The tools used showed they were hand made and if laughter is a sign of enjoyment all enjoyed the game.

Visitors present were: Mrs.

Vernon Ratzlaff, Mr. and Mrs. Jay Pierce and daughter, Mr. and Mrs. George Kirton and daughter, Mrs. Glen Myers, Mrs. Lavern Davis, Mrs. Leroy Bobbitt. Members and leaders present were: Kay and Ann Myers, Jerry Kirton, Myrtle and Janet Bobbitt, Ronnie, Jimmie and Janet Pierce, Freddie Whittet, Duane Ratzlaff, Lynn and Joyce Bobbitt, Judy and Jack Morris, Karen Davis, Leon Morris and Mary Bobbitt.

The Anthony softball team finally got on the winning track Tuesday night with a 23-8 pounding of the B and B team at Beaver.

Pete Whittet was the winning pitcher. Others in the line-up were: Leroy Bobbitt, catcher; Wilson, first base; Howard Carter, second base; Morris, third base; Forrest Duff, shortstop; Wayne Wilson, Alvin Gregg and Ralph Bobbitt, outfielders.

The Anthony Rural Progress met Thursday evening at the recreational hall. During a short business session, Glen Myers and Leon Morris reported on roadside park and we seem to have many obstacles to overcome. The main ones are water and trees. The project is not dropped, however.

Fair committees were named to take care of a Rural Progress booth at the County fair in September. The collecting committee: Leslie Bobbitt, Leon Morris and Glen Myers. Decorating committee: Winifred Morris, Maxine Wilson and Mary Brown.

IT WAS A TIGHT FIT—Mrs. Betty Weisinger, 18, of Grapeland, Texas, rubs her neck as she thanks Patrolman Leonard Michalisen of the police emergency squad for freeing her head from between the rungs of a subway exit gate in New York. Mrs. Weisinger was enroute to her first day of work for a television concern when she somehow mistook an exit gate for an entrance turnstile. The floor-to-ceiling tree-like gate revolves to permit exit of one person at a time. How Mrs. Weisinger got her head caught between the rungs she could not explain. But she is satisfied she is going to have to learn more about subways. (U.P. Wirephoto)

The rest of the evening was spent viewing movies taken by Dean Barr, pastor of the First Christian Church at Beaver. We were able to travel by airplane over the city of Beaver as well as see a rodeo, various Beaver County ranches and various scenes in Colorado and Kentucky while sitting in the recreation hall.

Refreshments were served to the following: Rev. and Mrs. Dean Barr and daughters, Becky and Bernice of Beaver; Mr. and Mrs. Bill Wilson; Mr. and Mrs. Wayne Wilson and sons; Mr. and Mrs. J. L. Wallace; Mr. and Mrs. Leon Morris and children; Mr. and Mrs. Ray Hayden; Mr. and Mrs. Ralph Bobbitt and children; Mrs. Lavern Davis and daughter; Mr. and Mrs. Barr Brown; Mr. and Mrs. Floyd Myers; Mr. and Mrs. Glen Myers and children; Mr. and Mrs. Leroy Bobbitt and daughters; Mrs. Lester Janzen; Mrs. Eva Hoffman; Mrs. Davis.

Mr. and Mrs. Lavern Davis and children returned Monday from Odessa, Texas instead of Selden as stated previously. Mrs. J. O. Criswell of Selden, Kansas returned with them and is visiting in their home for a few days.

Mr. Adelman of Booker, Texas, Mrs. Floyd Myers' father is back in the Beaver hospital with bronchial pneumonia.

Rev. and Mrs. Dean Barr and daughters, Becky and Bernice had Thursday evening dinner in the Leon Morris home.

Steve and Robert Durbin of Beaver spent the first part of the week with their grand parents, Mr. and Mrs. Floyd Myers.

A helicopter aroused considerable interest in the neighborhood Thursday morning.

Gordon Barnes is home on a furlough and visiting friends and relatives.

Mrs. Lester Janzen went to Beaver hospital Friday afternoon for a tonsillectomy.

Myrtle and Janet Bobbitt spent Friday with Lynn and Joyce Bobbitt. They spent their time swimming.

Mrs. Floyd Myers, Mrs. Lavern Davis and Mrs. Ralph Bobbitt called in the Ray Hayden home Thursday afternoon.

Mrs. Floyd Myers was in Beaver Thursday afternoon transacting business.

Amarillo Captain Seeks Highway Patrol Applicants

Captain J. W. Blackwell, who commands the Amarillo District of the Texas Highway Patrol, told the Herald today that he is conducting a search for young men in the area who would like to become Texas Highway Patrolmen.

According to Captain J. W. Blackwell, about 50 vacancies now exist in the Patrol Division of the Texas Department of Public Safety, and examinations will be given during July to fill them. In the meantime, applicants have until midnight of June 30th to file for the positions.

Captain J. W. Blackwell said

that you are eligible for one of the positions if you can meet the following conditions: You must be a male, between the age of 21 and 35 years, inclusive; not less than 5 feet 8 inches in height; and weighing not less than 2 pounds or more than 3 1/2 pounds per inch of height.

You must have a high school education or its equivalent and must be a citizen of the United States and a resident of Texas for at least a year immediately prior to application. Finally, you must satisfactorily pass an exhaustive character and mental examination.

Salary of Patrolmen is \$305 per month with \$10 per month extra for each five years of service up to 15 years. An annual two-weeks paid vacation is afforded, and uniforms and equipment are provided to all members of the Patrol.

Captain J. W. Blackwell says that you can see him at 2200 E. 10th Street, Amarillo for an application blank, or you may write directly to W. J. Elliott, Chief, Texas Highway Patrol, Austin, and request one.

Successful applicants will begin a two months training school in Austin in September before receiving their assignments posts throughout the State.

Rev. and Mrs. J. S. Moran and son, Darrell, who have been visiting her mother, Mrs. Horan, returned to their home in Plainview, Texas on Monday.

Red Papers Not Mailed

HONG KONG (AP)—The Chinese Communists now have limited the number of newspapers that can be mailed to foreign countries. During the first year of the Red regime, Communist papers from most cities in China could be sent to Hong Kong and other outside points. They adhered to the party line but contained regional news which was not so closely censored.

Last year all papers except selected ones from Peiping, Shanghai and Canton were taken from the list. However, other papers still "leak" out of China into Hong Kong and it is possible to obtain a fair cross-section of information.
