

COLORADO HAS 24 BLOCKS PAVING IN BUSINESS DIST.

With completion of the street paving program here Saturday, Colorado now has one of the most attractive business districts of any city in this part of the State. The last of the Warrenite bitulithic topping material was laid on Third street Saturday by the West Texas Construction Company and it is understood that the work will be approved by the city engineer and ultimately approved by the city.

With completion of the paving on Third street, Colorado has a total of 24 blocks of the same type paving in the business district. From both an engineering and construction viewpoint, the entire job is regarded by critics as being without a parallel in West Texas. The type of paving used throughout the city is considered the best obtainable and no pains nor expense were spared in making the work one to combine both civic beauty and permanency.

About two years ago the citizens of Colorado authorized the city council to negotiate paving contracts through adoption of the general paving laws of Texas. There were only 44 votes polled against the measure. Within a short time F. F. DuBose, then assistant State bridge engineer and here in charge of construction of the new Colorado river bridge, was employed by the city to supervise the work. In August of last year the first contract, calling for seven blocks on Second street and two blocks on Oak, was awarded to the West Texas Construction Company of Fort Worth. Before this contract had been completed an additional contract, affecting nine additional blocks in the business district had been let. Subsequent contracts placed the total to cover 24 blocks.

Through activities of the Chamber of Commerce, in co-operation with the city, county and engineer, financial aid of approximately \$20,000 was obtained from the State Highway Commission to apply to the expense of paving on Second street, over which the Bankhead Highway passes through the city. Aid on this project was granted, largely, because it would connect the Colorado river and Lone Wolf Creek bridges, two projects in which the commission had already participated.

In connection with the street paving, the city has constructed a beautiful "white way" street lighting system over the 24 blocks paved. The system consists of large ornamental light standards, carrying five large lights at each street intersection. The light standards represent a cost of \$100 each. Entire cost of the paving is placed at approximately \$225,000, about one-third of which was paid by the city and two-thirds by the owners of abutting property. The light standards, together with cost of installation, were paid for jointly by the city and local business interests. The paving was laid on seven different streets in or near the business district, as follows:

Main, 2 blocks; Second, 11 blocks; Oak, 3 blocks; Walnut, 2 blocks; Elm, 2 blocks; Chestnut, 1 block; Third, 3 blocks, making a total of 24.

Much credit has been given the Colorado Lions Club for success of the extensive paving program. This civic organization, appreciating the need of street improvement at Colorado, took the initiative in sponsoring the paving program and lent the city officials valued support in creating a demand for a city of paved streets.

Visitors to Colorado usually note the paved streets and well illuminated white way before any other of the recent municipal improvements here. That Colorado is receiving more favorable comment because of its paved streets than of any other improvement is easily conceded.

It is understood that the Lions club will shortly direct its attention to plans for erection of a modern city hall at Colorado. Need of a larger and more adequately appointed building as the home of the city government and fire department has been stressed on several occasions during the past year.

MASONS AUTHORIZE SALE OF OLD LODGE BUILDING

Sale of the old Masonic building, corner Second and Oak streets to I. Colichman for consideration of \$10,000 cash has been authorized by membership of the fraternity. In addition to the terms agreed upon in the transfer, Colichman is to assume cost of repairing the building which will approximate \$2,500. Contractors have recently rebuilt a portion of the west end wall and made other needed repairs to the building.

Sale of this building is considered as definite indication that the Masonic fraternity will build a new temple at Colorado. Such has been advocated by a number of members of the organization for several months. Last year plans drafted by a Colorado architect specifying a building to cost \$25,000 were submitted and technically approved but no further action was taken at that time, some of the members desiring to make repairs to the old structure.

The Masonic hall is one of the landmarks of Colorado. The building was erected during the days when this city was booming into a city of large proportions in the eighties and for many years it stood near the heart of the business district, one block south from the court house square. The Colorado National Bank formerly occupied the building just across the street north of the Masonic building and several of the best buildings of the city stood in that vicinity.

Just what the plans of Colorado Masons may be is not yet definitely known. The order has retained a lease of six months on the upper floor of the old building, with option of one year. It is expected that a new Masonic temple, in keeping with the progress of Colorado, will be erected before expiration of the lease.

CHAMBER OF COMMERCE TO HOLD NOVEMBER MEETING

The November executive session of the Colorado Chamber of Commerce was scheduled to be convened at the Barcroft Hotel Thursday of this week at 6:15 p. m., according to announcement from the office of the chamber Tuesday morning. Every member of the directorate is urged to attend.

FERGUSON HAS STRONG LEAD IN MITCHELL CO.

Mrs. Miram A. Ferguson, democratic nominee for governor, carried ten of the eleven voting precincts in Mitchell county in the general election Tuesday, rolling up a majority of almost two to one over Dr. George Butte, republican candidate. McKenzie, the box lost by the democratic nominee, went solid for Butte, the nine votes polled there being all in the republican column.

Voting throughout the county was light and the election passed off quietly. Only 1,361 votes were registered for governor at the eleven boxes. Of this number Mrs. Ferguson received 886 and Dr. Butte 473. There are more than 3,000 qualified voters in the county.

Mrs. Ferguson carried Colorado by a vote of 443 to 294. Loraine, 223 to 96, Westbrook, 32 to 27, Carr 29 to 10, Buford, 63 to 9, Cuthbert, 33 to 12, Spade, 19 to 15, Iatan, 8 to 3 and Landers 32 to 1; Hyman, 3 to 4.

STORES AND OFFICES WILL BE CLOSED ARMISTICE DAY

H. P. Ragan, commander, Oran C. Hooker Post, American Legion, stated Thursday morning that the stores, banks and offices in Colorado would be closed throughout the day Tuesday out of recognition of Armistice Day. Business and professional interests of the city are co-operating most liberally with former service men in causing adequate recognition of the sixth anniversary of Armistice to be observed here, it was stated. Officials of the local legion post have repeatedly announced their most sincere appreciation of the support given the former service men by Colorado.

Dr. C. J. Parrish of New Castle arrived this week to spend a visit with Rev. J. E. Chase.

GIN RECEIPTS AT COLORADO REACH 7,500 BALE MARK

Continuation of ideal Indian Summer weather the past week has been a boon to the farmers of the Colorado territory. They could not wish for a more favorable fall season in which to harvest and market their cotton crop. With this courtesy extended a few more days by the weather man the bulk of the 1924 cotton will be gathered. Many of the cotton planters have about completed the harvest at this date, others are well over half through, while still others are just beginning to move their crop from the field.

Thursday at noon receipts at the six gins at Colorado had reached 7,500 bales. During the past two weeks the staple has been received at the rate of 1,500 bales per week. Ginners announced Wednesday afternoon that no change had been posted for several days in the local seed market, the price of \$30 per ton at the gin still prevailing.

Street prices offered for the staple has hovered around 22 cents middling basis, during the past two weeks, with small bullish and bearish inclinations causing inflation and reductions of little note almost daily. Wednesday a price of 22 cents to 22 1/2 cents was the dominant price offered for the staple.

The Farmers Gin Company plant at Buford had received 1,250 bales up to Wednesday night, indicating that this gin was maintaining a slight margin in receipts over either of the company plants at Colorado. At the same time Gin No. 1 at Colorado had received 1,018 bales and Gin No. 2 1,180 bales.

Up to Wednesday night the four gins at Loraine had received 4,250 bales and the staple was reported to be moving in large volume there. For several days during the early part of the season Loraine held first place in the county as to gin receipts, on account of the crop maturing earlier in that vicinity. Indications now point to a crop not far below that of the average in recent years at Loraine. The town is affording a strong street market and the Farm Bureau cotton association has shipping connection there.

MITCHELL COUNTY COTTON RECEIPTS ARE RUNNING LOW

According to a report issued by the Department of Commerce and showing gin receipts in Texas prior to October 18, Mitchell county had received less than half the number of bales reported ginned at the same date last year. This year total gin receipts in the county were given at 7,405 bales, as compared with 17,000 bales October 18, 1923.

Receipts for the State are shown to be slightly above figures for the same period one year ago. Prior to October 18 the State had ginned 3,274,508 bales. At the same date last year the total was 3,216,108 bales. Williamson county and Ellis county which led the State in cotton production last year, are shown to be holding this record. Ellis county was leading October 18th with 93,765 bales. Williamson county had ginned 89,975 bales.

HALLOWEEN PRANKS DIRECTED LARGELY TO PILES OF BRICK

Colorado youngsters evidently found more sport in scattering building material than any other innovation of Halloween. At any rate brick and other building material assembled on a number of building sites in the city were torn down and scattered about the premises and into the streets.

The usual inclination to move gates, store signs and the like also received attention of the youngsters.

AMERICAN LEGION RECEIVE FLAGS SOLD IN COLORADO

The sixty-five American flags sold a few weeks ago to the business interests of Colorado through Oran C. Hooker Post, American Legion, were received last week and delivered. The flags will be used on all National flag days, of which there are eleven during the year, in decorating the city.

THREE NEW WELLS NEARING COMPLETION IN OIL FIELD

Coleman No. 1 of the Col. A. E. Humphreys interests, on the P. C. Coleman ranch 20 miles northwest of Colorado, was to have been given a nitro shot of 240 quarts Thursday afternoon, according to plans of the drilling contractor, Fred Carey. The quib was being placed in the hole Wednesday afternoon. Carey declared that the well was making an excellent showing and believed a good producer would be brought in. The sand will be shot between 3150 feet and 3200 feet.

Keynard No. 1 of Rowe-Morrison, in Section 15, one mile north of producing wells on the Sloan Oil Company Miller lease, was on top of the sand Thursday afternoon at below 2,900 feet. S. A. Sloan of the Sloan Oil Company visited the well Thursday morning and stated that it was showing up entirely satisfactory. Wells on the Miller lease are among the best producers in the field and it was believed in local oil circles Thursday that the Keynard well would prove up as good as any of these.

The third test which is down to near the pay level is Gist One of G. E. Eddleman et al, on the A. C. Gist survey three miles north of Colorado. The crew has resumed drilling after completing a fishing job of several days. The well is down near 3,000 feet, with formation considered most favorable. The test, which is expected to be completed within the next week, will be watched with considerable interest, as it is the first to be drilled in that sector.

Should the Gist well be brought in for production it will be the direct cause of large drilling operations extending between there and Loraine, a shallow sand having recently been discovered in tests on the S. E. Brown lease near Loraine. The intervening territory of about ten miles has recently been carefully surveyed by geologists.

DE MOLAY CHAPTER FOR COLORADO IS PETITIONED

Members of Colorado Chapter No. 175, R. A. M., will seek to have a chapter of De Molays organized here, it was learned Tuesday afternoon. The De Molay is the Masonic organization for boys between the ages of 16 and 21 and is not confined exclusively to boys whose fathers are Masons.

De Molay chapters have been organized in a number of Texas cities and larger towns within the past few years and are credited as having proven successful. Petition requesting W. J. Chesney, high priest, and other officials of the Royal Arch chapter to take such steps as may be necessary to organize the boys fraternity here was being liberally endorsed by Colorado Masons Tuesday afternoon.

COUNTY COURT CONVENES MONDAY; JURY CASES SET

County court was convened Monday morning by Judge J. C. Hall and aside from preliminaries for the term no business of importance was transacted during the first day. Tuesday was devoted to setting trial dates for a number of cases on the docket. Friday of this week probate cases are to be heard. Cases in which a trial by jury has been requested are set down for trial next week.

FATHER MRS. C. R. EARNEST DIED SUDDENLY SATURDAY

Rev. T. W. Boynton, associational missionary for the Nacogdoches Baptist church, died suddenly at his home in Nacogdoches Saturday night. He was the father of Mrs. C. R. Earnest of Colorado and Mr. and Mrs. Earnest left Colorado Saturday night for Nacogdoches to attend the funeral. Rev. Mr. Boynton was 60 years of age and was prominent as a minister. He formerly lived at Mineral Wells.

FRUIT AND SHADE TREES.

I will be in Colorado all next week selling Stark trees and shrubs. Want to set up a big order. See me at City National Bank.—J. S. Longley. 1tp

COLORADO AMONG BEST CITIES OF WEST TEXAS

"Colorado is one of the best small cities in West Texas," in substance sums up an address delivered at the Lions Club Friday at noon by J. W. Rockwell, Houston lumberman, who was in Colorado looking after his business interests here. The visitor noted the steady growth of Colorado during the past few years, declaring that on the occasion of every visit here, he found a much better and larger Colorado than the hustling small city he visited a few months before.

Rev. J. E. Chase, pastor of the First Christian Church, and Rev. W. M. Elliott, pastor of the First Presbyterian church, were other visitors to deliver addresses. Rev. Mr. Elliott spoke of the recent Y. M. C. A. conference at Big Spring and of the work of the Buffalo Trail Council Boy Scouts of America, during the fiscal year just ending, declaring the two agencies had done much toward the goal of arousing the men of this section of the State to their duty of co-operating to make good men of the boys.

President E. H. Winn of the club spoke of the Big Spring conference and expressed regret that every member of the club had not attended. Rev. Mr. Elliott, who is president of the scout council, embracing Mitchell, Scurry, Nolan and Fisher counties, has stated on several occasions that the Boy Scout movement has a strong supporter in the Colorado Lions club.

CELEBRATION AT LUBBOCK

Dr. P. C. Coleman, president of the Colorado Chamber of Commerce and who was prominently associated with leading citizens of West Texas in the several year's fight to have the legislature create a West Texas A. & M. college, will attend the ceremonies memorializing laying of the corner stone of the first building of the Texas Technological College at Lubbock November 11th.

Dr. Coleman will attend the ceremonies as a special guest of the city of Lubbock and with Dr. Horn, president of the college, Governor Neff and other prominent Texans, will have a part on the day's program.

DIST. ATTORNEY BROOKS REDUCES HOMICIDE BOND

District Attorney Jas. T. Brooks of Big Spring concluded an investigation of the charges of negligent homicide against four Colorado men late Thursday of last week and dismissed charges previously preferred against three of them and reduced the bond in the case of the other defendant from \$1,000 to \$500. The parties involved were L. A. Key, Vernon O'Neal, G. O. Davis and Buster Arnold.

After concluding his investigation the district attorney recommended that the charges against O'Neal, Davis, and Arnold be dismissed and the bond of Key, previously set at \$1,000, be reduced to \$500. Charges were filed against the four men by County Attorney R. H. Ratliff October 26, following death of Luisa Pares, Mexican girl of Fort Stockton who died of injuries received in an automobile wreck near Colorado a week previous. The original bonds were set by County Judge J. C. Hall and Justice C. S. Thomas.

ROTAN DEFEATS COLORADO IN GAME HERE FRIDAY

The Colorado High school eleven came up for another decisive defeat Friday afternoon when the locals met Rotan at the old ball park in South Colorado. It was evident from the start that Colorado was outclassed by the visitors, who registered more weight and had the additional advantage of several years playing. Rotan ran up a score of 44 and managed to completely shut out Colorado. Some of the best men on the local team were out of the game.

Dr. C. J. Pirtle of New Castle and Rev. J. E. Chase, C. R. Farris and Jim Cooper left Wednesday for the Eagle Mountains near Sierra Blanca on a hunting expedition.

DEMOCRATIC VICTORY MAY REACH 150,000 MAJORITY

The democratic victory in the gubernatorial contest Tuesday is expected to reach a majority of 150,000 votes and may go to 175,000, the Texas Election Bureau at Dallas announced Thursday morning. Wednesday the bureau announced that no additional returns would be announced until complete returns from the election could be received and tabulated. These returns are being gathered from county clerks throughout the State and it will probably be Saturday before the standing of the two candidates, Mrs. Miram A. Ferguson and Dr. George Butte, is known.

At eight o'clock Wednesday night the Bureau reported approximately 300,000 votes tabulated and placed the lead of Mrs. Ferguson at around 50,000. Republican leaders in Texas were investigating the counting of ballots in Tuesday's election, according to information received at Colorado Thursday. W. E. Talbot of Dallas, campaign manager for Dr. Butte, was credited as having charged that election irregularities possibly were permitted in several Texas counties, naming El Paso, Galveston, Limestone, Bexar, Harris and Eastland counties as among those pending investigation by the republicans.

At the same time Dr. Butte, defeated republican nominee for governor, gave out a statement for the press at Austin in which he stated he did not contemplate any contest of the election. In referring to action of the Texas Election Bureau in ceasing to tabulate returns until complete reports had been received from over the State, Dr. Butte stated:

"The statement that Mrs. Ferguson has been elected is based on a wrong assumption," he told the Associated Press. "It is not true that most of the vote so far tabulated is from districts where I am strong. On the contrary, most of the vote returns up to this morning have come from sections where Mrs. Ferguson is strong."

"On the basis of these incomplete returns, with only one-third of the vote counted, I most emphatically refuse to concede defeat. I am confident that Mrs. Ferguson will not have a lead over me if all ballots legally cast are counted. "It is amazing that the tabulation should cease with only a third of the vote counted. I shall await until the full vote is known before conceding anything."

To the contrary, democratic leaders, basing their claims upon statements verified by the election bureau and the Western Union, declare that the returns already tabulated largely from the larger cities and towns over the State, conceded republican strongholds. Ferguson has always held a strong rural support. It was declared and as the vote yet to be accounted for is largely rural, majority of the democratic standard bearer is expected to mount to almost landslide proportions.

CONTRACT IS AWARDED FOR CONSTRUCTION OF CHURCH

Rev. H. N. Turner of Abilene, pastor of the Baptist church at Payne nine miles south of Colorado, stated Monday that funds with which to finance the proposed new church building there had been subscribed. Monday a total of \$1,255 of the pledges had been collected, material for the building purchased and contract let for its erection.

The building is to be 34 by 48 feet in size and among the modern rural church properties of the county.

COLORADO WELL SUPPLIED WITH TENT ATTRACTIONS

Last week the G. Bert Davis Players gave nightly programs in Colorado. This week Brunk's Comedians are here a solid week and next week Harley Sadler and his company of entertainers are to give a round of six nightly programs. All three of the theatrical organizations show under tent and will occupy the same lots while here.

Jones Dry Goods Co.

Special Sale of Ladies' Hats

Friday, Saturday and all next week we will sell you any Ladies' Hat in the house For Only **\$1.95**

Our stock is complete and we have many beautiful patterns to select from.

We have 6 doz. House Aprons, \$1.25 values to go at only.....69c

SPECIAL FOR FRIDAY, SATURDAY AND ALL NEXT WEEK.

- Best Grade 36 inch Outing21c yard
- Best grade 27 inch Outing18c yard
- 36 inch Brown Domestic10c yard
- 81 inch wide Brown Sheeting37c yard
- Mens good Heavy Overalls only98c pair
- Good Heavy Khaki Shirt only90c each
- Ladies Hose, good grade, only10c pair
- Mens Grey Work Sox10c pair

We can save you MONEY on anything in the Dry Goods line and you will find our prices LOWER than others are quoting in their big sales. Come see for yourself.

SURVEY SAYS BIGGER ACREAGE IN WEST TEXAS GO IN COTTON

A survey by the Santa Fe Railroad shows that a substantial acreage of new cotton land will be brought under cultivation next year in Western and Northwestern Texas, where large cattle ranches are being cut up into small farms, according to a report issued by the company's agricultural development department. Bankers and others interviewed place this new cotton area at from 125,000 to 200,000 acres. The western districts have been raising cotton only a short time, but have progressed rapidly.

"Cotton picking in Texas is about 80 per cent completed," the report says, "and the total yield will be about 4,225,000 bales, generally of good quality. Central, Southern and Eastern Texas are not showing disposition to increase their cotton acreage, but they are getting ready to increase their acreage in melons, fruit and vegetables. They have been doing remarkably well with these lines in the last few years. Their products now are known, and are in demand."

"Excellent rains recently in the western sections assure good fall and winter wheat pasturage. Wheat is in a thriving condition. The acreage is much larger than last year. Broom corn has been harvested. Little has been moved. Sorghum grains are making heavy yield. Generally the financial situation in the State is good. Building activities have shown a satisfactory increase."

"The outbreak of foot and mouth disease is well under control, having been confined to a limited area. Prompt action by Federal and State authorities kept the trouble from spreading. If no more cases developed quarantine will be raised in the next three weeks."

The report contains this paragraph about conditions in Southwestern Louisiana: "In spite of a dry summer, Louisiana reports small to fair yields of its crops. As dry summers are so few and far between, farmers are not discouraged. An interesting phase of the development in Southwestern Louisiana is the showing made this year by settlers who do truck farming on the outcrop pine lands. They have done well with their crops, although the drouth has been severe, and are preparing for taking care of a very greatly increased acreage next year."

Regarding Oklahoma the report

says: "Late estimates place Oklahoma's cotton crop at 1,220,575 bales. The crop is safe from frost and picking is well under way. The boll weevil caused damage in a few spots, but the loss was small. Corn matured in good shape and will make 70,000,000 bushels. From 85 to 90 per cent of the State's wheat crop of 55,000,000 bushels has been marketed, and planting of the 1925 crop, which shows a slightly higher acreage, is practically completed. Oklahoma produced this year \$28,000,000 worth of grain sorghums, \$25,000,000 worth of cotton seed, \$15,000,000 worth of oats, \$10,000,000 worth of broom corn, \$7,000,000 worth of potatoes. Hay crops have been immense and pasture, especially new wheat, is good, giving an upturn to the cattle business."

New Mexico, the report says, shows much activity in land settlement in the several irrigated districts—the Pecos, Rincon and Mesilla Valleys, Albuquerque, Las Vegas, Colmor, Springer, French and Maxwell. "Diversified farming is the program in these districts," it is pointed out. "Farmers are buying small tracts from large holdings and will devote their energies to cotton, alfalfa, truck and fruit growing, dairying and poultry raising. Cotton and truck acreages in New Mexico next year will be the largest in the history of the State. Head lettuce in the Las Vegas district—a comparatively new crop—made a fair yield this year. Sugar beets in the Maxwell districts did well and a new factory at Maxwell is handling the production. There is a good crop of beans. Fall wheat is up, a good stand."

ANCIENT HISTORY.

A certain dissipated young ruler conquered most of his world over two thousand years ago and we find him in history books under the name of Alexander the Great; a certain epileptic Roman conquered Gaul and established Roman imperialism, and we read of the exploits of Julius Caesar; another epileptic young man, a little more than a hundred years ago, turned Europe upside down and left the bleaching bones of his deluded followers all the way from Moscow to Waterloo; still another, popularly supposed to be in the grip of that same disease which is often allied with genius, saw a vision and became the flaming sword which carried Christianity to the Romans.

MITCHELL CO. PASTORS RETURNED BY M. E. MEET

Rev. J. F. Lawlis, pastor of the Methodist church at Colorado; Rev. H. W. Hanks, pastor at Loraine, and Rev. R. O. Bailey, pastor at Westbrook, were all returned for another year by Bishop Dickey at close of Northwest Texas Conference session at Abilene Sunday night. Rev. R. A. Stewart, presiding elder of the Sweetwater district, was also returned for another year.

Rev. W. M. Lane, formerly pastor of the Colorado church and for the past four years presiding elder of the Abilene district, was transferred to the Amarillo district. Rev. W. E. Lyons, another former pastor here, is the new presiding elder of the Abilene district. Rev. C. E. Jameson, pastor at Snyder last year, was transferred to the pastorate at Memphis. Rev. A. B. Davidson is the new pastor at Snyder.

Appointments for the Sweetwater district were as follows:

R. A. Stewart, P. E.; Big Spring, M. Phelan; Big Spring Circuit, M. D. King; Blackwell, A. D. Jameson; Camp Spring, M. L. Moody; Colorado J. F. Lawlis; Dunn, M. Dupree; Fluvanna, B. A. Moores; Gail, A. D. Hill; Supply; Hamlin, G. T. Palmer; Hermleigh, J. A. Scoggins; Loraine, H. W. Hanks; McCauley, M. H. Hudson; Plasterco, F. O. Garner, supply; Roby, J. O. Boyd; Roscoe, S. J. Upton; Rotan, R. N. Huckabee; Snyder, A. B. Davidson; Slaton, J. R. Bright; Stanton, S. H. Young; Sweetwater, J. R. Henson; Sylvester, R. V. Toolsey; Westbrook, R. O. Bailey.

TEXAS TEACHERS TO MEET IN SAN ANTONIO NOV. 27-29

There will be programs of interest to every teacher when the Texas State Teachers Association Convention is held in San Antonio Nov. 27, 28 and 29. Kindergarten teachers, grade teachers, high school teachers, and supervisors, principals and superintendents will hold group meetings. In addition, English, Latin, music, agriculture, mathematics, commercial, geography, home economics and all other individual subject teachers will have special programs intended to be of direct help in their classroom work back home.

Nationally important educators have been engaged to make addresses before the groups. But perhaps the most important phase of the meeting will be the round-table discussions. Under the leadership of the chairman, each group will take up important questions and hear opinion expressed by teachers who are meeting and solving these problems. These meetings have been found to have great value for the school that has a representative there.

Superintendents and principals will have one of the most important section meetings, Thursday Nov. 27. Thomas J. Yoe, superintendent of Brownsville schools, is chairman and George H. Wells of Cisco is secretary. Dr. James F. Hoscic of Columbia University, New York; Supt. G. M. Sims of Port Arthur; Mrs. Laura Warren, dean of women in El Paso; Dr. B. F. Pittenger of the University of Texas, and Supt. J. J. Godbey of Cisco schools will make the address.

The Texas Grade Teachers Association will have a large meeting, opening with a banquet Friday noon. Miss Mary J. Byrne of Fort Worth is president; Mrs. Ira B. Simmons, Houston, vice president; Miss Lena Dulaney, Ft. Worth, secretary, and Miss Merle Brazelton, Paris, treasurer of the group. Miss Evalyn Sterling of San Antonio; State Supt. of Schools S. M. N. Marrs; Miss Eula Hunter, Fort Worth; Miss Bess Robinson and Miss Rebecca Henry of Houston and Dr. James F. Hoscic of New York will provide the program.

THREE DIE IN 24 HOURS IN SAN ANGELO ACCIDENTS

SAN ANGELO, Nov. 2.—Traffic accidents within twenty-four hours had claimed three victims here early Saturday night. Mrs. S. Walters, 56 years old, was struck while crossing North Chadbourn street by a service car driven by Lee Davis, dying at 9 p. m. A few hours earlier Geo. W. Fetter, 60 years old, cabinet-maker, was found beside the Christoval pike, seventeen miles south of San Angelo. His car went into a ditch throwing him onto a rock pile. He sustained concussion of the brain, dying after being brought to his home here.

The first of the three fatalities was on Friday night when Jack Edmonston, 24 years old, local service car driver, was killed near Rowena when his car went into a ditch.

Worst Coughs Yield Quickly to Good Old Pine Tar and Honey

One of the best cough medicines that was ever compounded, according to specialists, is good old pine tar and honey. It often stops a bad cough in 14 hours, and another advantage is that it can be given to young and old alike, as it contains no narcotics or opiates. Doctors say the pine tar quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing, also healing soreness, while the honey both soothes irritation and gives a pleasant taste. The kind that has been used in thousands of families for many years for coughs, chest colds, hoarseness, spasmodic croup, etc., is Dr. Bell's Pine-Tar Honey, which was the original compound. It has had many imitations, but still remains the best, as it is scientifically compounded of just the right proportions of pine tar, honey and other healing ingredients which the best doctors have found to aid in giving quick relief. If you want the best, get the original Dr. Bell's Pine-Tar Honey and no other. Only 50c. at any good druggist.

DR. BELL'S PINE-TAR-HONEY FOR COUGHS

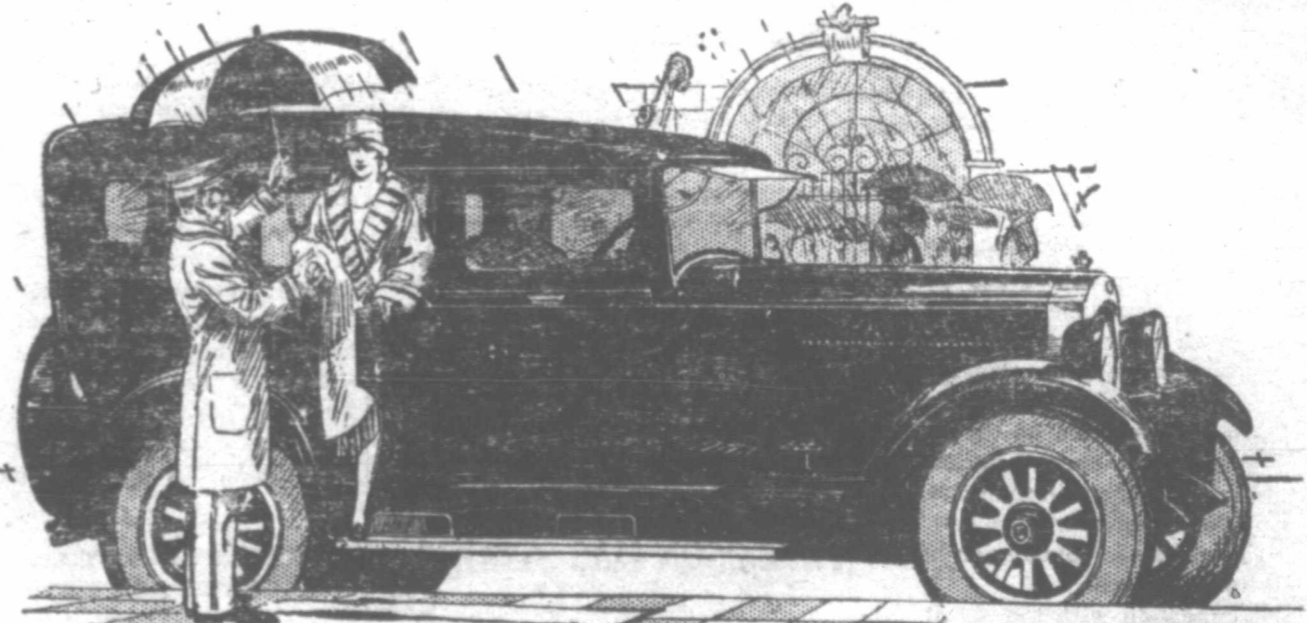

With Eyes of Youth

In middle life, if eyes grow weak, sight is again made youthful by bifocal lenses. We can show you Ulter or Kryptok bifocals. They give clear vision, both near and far, and yet avoid the ugly seam of common double vision lenses.

The New Studebaker Special Six Duplex-Phaeton

Open car when you want it —an enclosed car in 30 seconds

WITH the new-type Studebaker Duplex you may take your choice—ride in an open car if you like—enjoy the cool, fresh air and healthful sunshine.

Then in 30 seconds—without even leaving your seat—it can be changed to a deeply cushioned, richly appointed, fully protected enclosed car. It's no fuss or bother at all—simply lower the roller enclosures—it's so easy a child can do it.

No more hurried efforts to put up curtains in the wind and rain.

No more hunting for the right one while the storm beats in.

No more exposure through holes torn in

them while trying to obtain for the emergency the protection given by a closed car.

For in the Duplex the side enclosures are instantly accessible—yet rolled up safely out of the way when not in use.

If this two-fold utility were the only feature of the new Studebaker cars they would still be a sensational value—but there are many others.

New body lines—new beauty—more powerful engines—new ease of gear shifting—genuine balloon tires—and the easiest steering car you ever drove.

In justice to yourself—see this car today.

THIS IS A STUDEBAKER YEAR

BUYING GROCERIES FROM THIS STORE IS A PLEASANT ECONOMY

By pleasant economy, we mean that you are always assured the utmost in quality at the lowest possible prices. Buying supplies for your table because the price is low is not always economy. But buying Quality Groceries from this store where the margin of profit is always low, is a real saving, for there is no waste to what you get.

IN SOCIETY AND AT THE CLUBS

Presbyterian Auxiliary.
The regular monthly meeting of the Presbyterian Auxiliary was held with Mrs. Milwee and Mrs. Plaster Monday, November 3. After the devotional exercises and report of former meeting, Mrs. Elliott gave a very interesting account of the district conference at Midland which was attended by some five or six of our members. Time, place of meeting and leaders for your Week of Prayer for home missions beginning Nov. 16th were arranged for. Plans were made to forward at once our promised contribution for Red Cross material to be sent to China for the Elizabeth Blake hospital. Mrs. Van Tuyl gave a brief resume of the first chapter of our new mission study "Romance of Home Missions." At the close of the meeting the ladies served us a delicious salad course.

Harmony Club.
The Harmony club met with Mrs. McKenzie Tuesday. Her guests were Mesdames F. B. Whiukey, Robert Terrell, J. L. Allen, John Daniels, Jack Grant and Ross Dixon. The hostess served a salad and an ice course. The favors were little baskets of bon bons. The meeting next week will be with Mrs. W. R. Mitchell at Mrs. Sam Majors'.

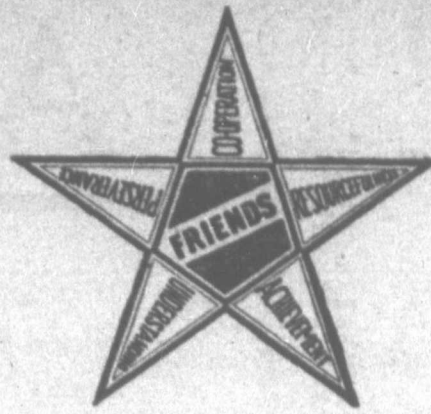

Delphian
The Delphian chapter met last Thursday in the Tax Assessor's office. The program on drama was led by Mrs. J. G. Merritt, Mrs. Dobbs gave the lecture on civics.

All-Day Meeting.
The all-day county meeting of the Mitchell county Baptist women was held with the Bethel church Wednesday. After the interesting and helpful program a bounteous feast the organization was made permanent, meetings to be held quarterly over the county. The officers are Mrs. Charles Reeder, Loraine, president; Mrs. D. McCollum, Bethel, secretary and treasurer; Miss Violet Moeser, Colorado, corresponding secretary. The chairmen of committees are:

Missions, Mrs. Gray Taylor, Pleasant Valley; Education, Mrs. Ford Morris, Colorado; Benevolent, Mrs. Robert Terrell, Colorado; Mission Study, Mrs. J. W. Walker, Loraine; White Cross, Mrs. G. Miller, Loraine; Personal Service, Miss Lura Taylor, Bethel; Program, Mrs. C. H. Lasky, Colorado.

The next meeting will be in Loraine in February. Those going from Colorado were: Mesdames McKenzie, F. B. Whipkey, Lee Jones, C. H. Lasky, Way, Bush, Logan, Robert Terrell, C. L. Seale, W. H. Moeser, Green Delaney, Ford Morris, B. F. Wilson, Misses Violet Moeser, Myrtle Seale and little Catherine Nell Delaney.

Saturday Market.
The Saturday Markets given by the Auxiliary to the American Legion will continue through November. Mrs. J. B. Pritchett and Mrs. J. B. Dobbs will have charge next Saturday at Gordon's Confectionery. Mrs. Dozier and Mrs. Whipkey wish to thank those who patronized last Saturday.

Pioneers of Progress

There was a time in the early pioneer days of this state when the services of a bank were used only for occasional important transactions.

Since then, the ever-increasing demands of modern business have made the various functions of the bank a necessary part of every-day life.

Banks are truly Pioneers of Progress in their relation to the up-building and advancement of every community.

The City National Bank
Colorado, Texas

Civic League.

The Civic League met with Mrs. P. C. Coleman last Saturday with the vice president, Mrs. Roy Dozier, presiding. Besides the usual business, November was taken as membership month. Mrs. Coleman is chairman of this committee and plans to district the town and give every one an opportunity to become a member. The funds this year will be used to beautify the T. & P. park. Those having charge of it want to put out good trees at the proper time so as to insure their growth and otherwise make it an attractive spot. The membership dues are only 50 cents but if every one who is interested in making this the "city beautiful" will pay this small amount. Much can be accomplished in beautifying public places. Pay your dues now. Also steps were taken to see if the removal of bill boards on the highway could not be effected.

Entertained Mah-Jong Club.

Miss Louise Hardison entertained the Mah-Jong club on Hallowe'en night. The decorations, score card and refreshments were in keeping with the hour. The refreshments were pressed chicken sandwiches, fruit salad in orange cups, olives, cake and coffee.

Special News.

The lovers of good pictures will have a wonderful treat this next week. The Palace has booked the new picture, "The Side Show of Life," starring Ernest Lawrence and Anna Q. Nelson. A wonderful picture which will be shown special for Armistice Day, Nov. 11th. Then on Thursday and Friday, November 13th and 14th they have "Monsieur Beaucaire" starring Rudolph Valentino and Bebe Daniels. This is Valentino's first picture since returning to the screen, and it is pronounced the best he has ever made. Don't fail to see these two great pictures.

CASH VALUE OF EDUCATION.

Prof. Everett Lord, dean of the Boston University College of Business Administration, after a long and thorough investigation, places a money value of \$33,000 on a high school education, and a value of \$72,000 on a college education.

Mr. Lord arrives at this conclusion by comparing the average earnings of uneducated men from the age of 14 until they have reached the age of 60 years, with that of good high school graduates during the same term of years, but deducting the four years of time given to the high school course. The high school man earns \$33,000 more than the average uneducated man, and this is credited as the cash value of the high school education. The college of technically trained man goes not generally to work until 22 years of age, but by the time he has reached 50 years of age he has earned \$72,000 more than the high school graduate. Mr. Lord contends this figure represents the cash value of a college education.

This is the first practical effort to definitely fix a cash valuation on education, and it will no doubt be subjected to many criticisms. But the basic facts tell their own story and will be difficult to materially disapprove. It also offers a serious thought to parents who permit boys to leave school to go to work, for the records show that less than half of the grammar grade students enter high school, and only 17 of every 100 who do enter complete the four year course.

PLANT PECANS

In front of the Colorado Chamber of Commerce may be found two pecan trees, one of them six years old and the other planted four years ago. Last year the larger of the two trees bore about a dozen choice paper-shell pecans and during 1924 produced, in spite of the dry year, sixty pecans of good size.

These trees have not been given unusual care and they have not been watered during the year. This would indicate that with little trouble pecans can be grown in Mitchell county. Why not plant a few choice trees this fall?

How To End a Cough Quickly

Specialists say to actually end a cough in the shortest possible time the medicine should not only soothe and heal the soreness and irritation, but should also loosen and remove the phlegm and congestion which are the real cause of the coughing. When this is done the worst cough quickly disappears.

This "double-action" method has been brought to perfection in the prescription known as Dr. King's New Discovery for Coughs. A few drops stop the coughing spells almost instantly, and people who have hardly been able to sleep at night for coughing usually get their full night's rest even after the first dose. It has been very successful, too, for children's spasmodic croup, for bronchitis, laryngitis, bronchial asthma, and hoarseness. On sale at all good druggists. Ask for

HOW GREAT MEN MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(© by Wheeler Syndicate, Inc.)

MICHELANGELO AND VITTORIA COLONNA

UNTIL almost his allotted three score years and ten had passed Michelangelo held aloof from the intimate society of women. His was a lofty genius and few women could climb up to his pinnacle. Or perhaps he did not let them.

At sixty-three he met Vittoria Colonna and from then on until he died he worshiped her. Colonna was the widow of the marquis of Pescara and lived in magnificent state in a palace on a bewitching island called Ischia. She adored her husband and when he died he left a void in her heart which was so deep that only a man of the intellect and genius of a Michelangelo could fill.

Below is one of the poetical addresses the artist made to his ideal:

Better plea,
Love cannot have than that, in loving thee,
Glory to that eternal peace is paid,
Who such a divinity to thee imparts,
As hallowa and makes fine all gentle hearts,
His hope is treacherous only whose love dies,
With beauty which is varying every hour,
But in chaste hearts, uninfluenced by the power
Of outward changes, there blooms a deathless flower.
That breathes on earth the air of Paradise.

Michelangelo painted only two portraits in his life. One of these was of Vittoria Colonna. The portrait shows the features of a woman possessing more intellectual power than beauty.

Better Baked Goods

Day after day and week after week we do nothing but bake, so isn't it reasonable to expect that we can do your baking better and more economically than you can? If you have never tried our Cakes you have a real treat in store for you and your family.

Order Hurd's Blue Ribbon Bread from your grocer.

SUBSCRIBERS.

You must pay. We have been running nearly a year on a credit and now you must pay. We do not get out on the street and "dun" you for your paper. We leave it to you honor to come in and pay.

Beggars and other indigent characters evidently are finding Colorado good picking these days. Rarely a day passes but that one or more of these unfortunates—if they are all unfortunates—are to be seen on the street requesting alms.

Cotton pickers are not scarce and hard of obtaining, by any means, just now. As they continue to come into the county from districts in which the cotton is gathered, and a number of local cotton planters are about through with the harvest, there is developing a surplus of this labor.

Completion of the Mitchell County gap on the Bankhead Highway would mean more to the county than another trunk line of railway. This county will continue to receive criticism and note detours in automobile traffic until we make adequate repairs to the highway.

The election is over and with it has gone the storm of confusion and political slush which politicians saw fit to deluge upon the people of Texas. After all, so much of strife and personal bickering accounts for nothing, in so far as changing the attitude of the masses is concerned.

Colorado and Mitchell County are proud of "The Grand Old Man of West Texas," who will represent us at the Tech corner stone laying ceremonies at Lubbock on Armistice Day. Had it not been for the fighting qual-

ities of Dr. Coleman and the wonderful initiative he possesses as a leader, celebration of that event might have been several years in the future. It was Dr. Coleman who presided at the first mass meeting held in the West Texas demanding proper recognition by the State Legislature in the way of educational facilities.

RED CROSS IS URGING BETTER-HEALTH BATTLE

Tireless in Services Advancing Cause of Freedom from Human Suffering.

Not alone in preparedness for emergencies, but in a tireless offensive battle for better health is the American Red Cross nurse maintaining in peace time the high tradition of her war service. As in war, the same self-effacing service for humanity goes on its quiet, effective way content in its accomplishments, seeking no public acclaim.

In the Government services 3,117 enrolled Red Cross nurses are on duty with the Army, Navy, Public Health Service and the Veterans Bureau, while the entire active enrollment is maintained as a reserve for the Army Nurse Corps and available to the Navy in a national defense emergency. Nine hundred nurses were added to the roll last year.

The policy of the American Red Cross to establish under Chapter control public health nursing services in communities lacking such facilities has been justified and this pioneering work is everywhere endorsed by authorities who are quick to take it over as a proper municipal function and a duty of taxpayers.

As good health depends upon right eating the Red Cross Nutrition Service continued to promote individual and community health, particularly the health of mothers and children. This service reached nearly 150,000 persons during the year and found work to do for several thousand Red Cross volunteer workers.

Red Cross Fighting First Aid Battle To Conserve Life

Reliable records establish the fact that more than 75,000 accidental deaths occur every year in the United States. The records show that 206 American citizens are killed every day; that 23 of these deaths are due to automobiles, 35 to falls, 19 to drownings, 16 to burns.

mind and teaching approved methods which assure that competent hands will care for injured persons until the arrival of doctors. Trained service in the first few minutes is vital in serious accidents and saves many precious lives.

One of the most encouraging signs of the past year is the record of the Red Cross First Aid Insurance Car No. 1 which traveled 9,700 miles along trunk lines, stopping at 137 places. The car's staff of surgeons gave 911 demonstrations to audiences composed of 43,150 railroad men, 71,000 high school and college students, 13,000 industrial workers, 3,000 members of clubs, and nearly 10,000 policemen, firemen, and other municipal employees, a total of 147,000.

Red Cross First Aid certificates were conferred upon 13,845 persons who took the course last year, an increase of 4,000 over 1923. Telephone gas and electric companies, public service corporations and other large employers of the country adopted the Red Cross course, and their team contests everywhere were witnessed by huge crowds with as much interest as develops at popular athletic games.

In the industrial field the growth of First Aid practice to fight to reduce preventable accidents and unnecessary loss of life has received wide recognition. The promise of an unprecedented advance in this fine cause lies in the evidence of the great strides systematic instruction in First Aid has made throughout the country through the Red Cross Chapters and the work of the experts in this service under direction of the national organization.

Sign the American Red Cross roll this year for humanity's sake.

HOW GREAT MEN MAKE LOVE AS REVEALED BY THEIR LOVE LETTERS By JOSEPH KAYE (© by Wheeler Syndicate, Inc.) THE HAWTHORNES

OF ALL the world's love letters those that passed between Nathaniel Hawthorne and his wife, who was Sophia Peabody, are among the most delightful.

The following is one of these amatory gems, and was written by Hawthorne a short time before his marriage:

"Salem, June 20, 1842. "True and Honourable—You have not been out of my mind a moment since I saw you last—and never will be as long as we exist.

"Can you say as much? Dearest, do you know that there are but ten days more in this blessed month of June? And do you know what is to happen within those ten days? Poor little Sophie! Now you begin to tremble and shrink back and fear that you have acted too rashly in this matter. Now you say to yourself:

"Oh, that I could prevail upon this wretched person to allow me a month or two longer to make up my mind, for after all he is but an acquaintance of yesterday, and unwise am I to give up father, mother and sisters for the sake of such a questionable stranger!"

"Ah, it is too late! Nothing can part us now; for God himself hath ordained that we shall be one. So nothing remains but to reconcile yourself to your destiny. Year by year we shall grow closer to each other, and a thousand ages hence we shall only be in the honeymoon of our marriage. But I cannot write to you. The time for that species of communion is past."

ARE YOU ILL?

DO YOU HAVE AN ACHE OR PAIN OF ANY KIND?

Would you like to get relief and have the cause of your ailment removed by harmless natural means? If so, THEN BE NOT DECEIVED, but remember that

Our Service is Second to None

If your ailment is one of an old chronic character, then a reasonable period of time will be essential in perfecting the equation of things; however, if you have my attention for ten days in succession and you are not pleased, I will be glad to return every cent you shall have paid me. BE YOUR OWN JUDGE. Give nature a chance and you will not regret it.

SWEETWATER ATTORNEY TO DELIVER LEGION ADDRESS

Hon. James H. Beall, Jr., prominent Sweetwater attorney, will deliver the principal address at a memorial service at the Legion Memorial building Tuesday morning. Judge Beall is a former service man and has been prominent in American Legion circles, both state and National, for several years. He was one of the leaders in organizing the post at Sweetwater five years ago. Beall is president of the Sweetwater Luncheon Club and considered an orator of unusual ability among the younger attorneys of West Texas.

Announcement that Judge Beall would deliver the principal address was made Thursday morning by Mrs. J. G. Merritt, president of the Women's Auxiliary of Oran C. Hooker Post, and who is directing plans for the Armistice Day program here Tuesday. The services are to be held at the American Legion building, beginning at 10:30 a. m. The following program will be observed.

Call to order, by W. S. Cooper, master of ceremonies.

Invocation—Rev. W. M. Elliott. Claironet solo—Raymond Jones.

Roll call of Mitchell County service men who have "gone west" since the first Armistice Day.

Reading—"Flanders Field and Its Reply"—Samuel Womack and Paul Thompson.

Address—Hon. James H. Beall, Jr. Vocal Solo—Mrs. Roy Buchanan. Song—"Star Spangled Banner"—Assembly.

Benediction—Rev. Jno. E. Chase.

At 11 o'clock the gavel will sound, calling the assembly to their feet and for one-half a second every one present will stand in silent reverence to the memory of World War veterans who paid the supreme sacrifice.

Ladies of the Auxiliary and men of the Post will appreciate co-operation of the public in making this service all that it should be. This will be the first Armistice program to be rendered in the new American Legion Memorial building. A cordial invitation to attend is extended the general public.

The second memorial service of the day will be observed Tuesday afternoon at four o'clock at the First Baptist church under direction of club women of the city. This program, like the one to be given at the Legion building in the forenoon, will be of unusual interest. Both the Baptist church and legion building auditoriums are to be decorated appropriately for the patriotic programs.

The following program will be given at the church:

Mrs. P. C. Coleman, presiding. America.

Invocation—Rev. M. C. Bishop. Piano Solo (selected)—Mrs. Earl Powell.

Will Texas Forget? (original poem)—Mrs. J. E. McCleary. American Citizenship—Mrs. S. H. Millwee.

Music (selected)—Shakespeare Club.

Eulogy to the American Soldier—Mrs. J. G. Smith.

Pageant of the Allied Nations—Standard Club.

Star Spangled Banner. Public cordially invited.

Colorado will be decorated with its recently acquired battery of 65 large American flags for the first time Tuesday. Under supervision of the American Legion these flags were recently sold to business and professional interests.

The Electric Way is Best

For all manner of housework there is some electric utensil that will help you to do it more easily and more quickly. Let us show you the splendid array of appliances we have to help with your work.

West Texas Electric Comp'y.

Week of Prayer Program.

To be observed by the Junior children at the Methodist church Friday afternoon 4:15. All invited to attend:

Hymn 6:80. Bible lesson "Jesus Answering prayer"—Irene Dorn.

BIBLE IN THE UNIVERSITY.

Students of the University of Texas are interested in the study of the Bible, as shown by the large enrollment this year in the courses taught at the University. There are 500 students enrolled in the Bible classes taught by the Association of Religious Teachers, an organization uniting six denominations for the purpose of teaching the Bible to University students. Although conducted independently of the University, credit toward a degree is allowed for the work.

Instructors are maintained by the various religious denominations, and the classes are taught in religious buildings near the University campus. Sophomore standing is required for admission into the Bible classes, and the work is given according to the University scholastic requirements. Historical and literary interpretation of the Bible is emphasized, according to Dr. Frank L. Jewett, who was the first to teach Bible classes at the university under the auspices of the Christian church. He is now at the head of the Association of Religious Teachers. The denominations offering Bible instruction are the following: Christian, Baptist, Methodist, Presbyterian, Catholic and Episcopalian.

Go to Gordon's for hot drinks.

JUNIOR AMERICAN RED CROSS ARMY 5,596,663

Children of 29,942 Schools Now Enrolled in Movement of Service to Humanity.

The American Junior Red Cross, which was organized as a children's auxiliary during war-times especially to help the young refugees in Europe, and to exemplify in peace-time the Red Cross ideal of service, has now a membership of 5,596,663 in the schools of the United States and the insular possessions.

This Junior movement gives opportunity for the children to share in Red Cross effort parallel to that of the parent organization. Juniors are therefore identified in varying degree with the health services, disaster relief work, salvage and other suitable activities of value to the operations of the Red Cross.

It is a valiant host marching on under its "I Serve" banner in the cause of happier childhood everywhere and particularly wherever the American flag flies. The enrollment embraces 29,942 schools and 147,486 school rooms, a gain over 1923 of 5,655 schools and 22,414 school rooms. The year's gain in membership was 769,402 children, or nearly 80,000 for each month of the school year.

The educational and social values of the Junior Red Cross movement is thus evidencing the firm and cordial endorsement of school authorities. The government has added the weight of recognition by extending the Junior Red Cross in the schools for American Indian children. The American Red Cross is also planning to develop the Junior program in 600 rural schools in isolated sections.

There is no abatement of the exchange of correspondence between schools in the United States and schools in the insular possessions and foreign lands. During the year the Junior Red Cross in part supported operations in twelve European countries. It is a potent influence for the cultivation of international goodwill and its example has been the means of stimulating the formation of Junior Red Cross societies in more than thirty countries.

RED CROSS RAISES \$10,000,000 IN 21 DAYS FOR RELIEF

Terrible catastrophes, such as the Japanese earthquake, prove the wisdom of the people in maintaining the American Red Cross as their national and international relief agency. The readiness of the Red Cross for duty in the greatest of emergencies was also proved by test.

The record shows: Sept. 3, President Coolidge assigns the duty of raising \$5,000,000 to the American Red Cross; Sept. 4, Red Cross Chapters in over 3,500 communities given fund allotments; Sept. 12, fund totals \$5,563,000; Sept. 17, fund nearly \$5,000,000 and President announces formal closing of campaign; Sept. 27, fund passes \$10,000,000 mark.

In 21 business days the Red Cross doubly performed the duty entrusted to it—all the while keeping a steady flow of relief supplies going out from many Pacific ports to the stricken areas in Japan. Thus was the confidence of the American people in their Red Cross justified and the wisdom of Red Cross preparedness to cope with an unprecedented relief emergency confirmed.

Everybody can ride now. Good used cars are easy to buy. Come and see our used cars at A. J. Herringtons; Ed Jackson, Salesman.

STUDEBAKER CAR HAS GOOD CHANCE TO WIN

(Edited by E. H. Winn, local dealer)
Earl Cooper, by taking second place at the opening 250-mile classic in Charlotte, N. C. speedway, is within 355 points of the national championship of the American Automobile Association for 1924.

One more sanctioned race remains to be driven, at Los Angeles, Calif., on Nov. 27th. The winner of that race will add 500 points to his score. The driver coming in second will get 260 points and 140 points are awarded for third.

Thus, if Cooper can drive the swift Studebaker Special with which he has won all his points thus far, fast enough to win this race he will become, for the third time in his career, the crowned speed king of the year.

No other living driver has achieved such a record.

Cooper's standing now is 1,240. Jimmy Murphy, at time of his death at Syracuse, N. Y., had won 1,595 points, which remains the high score. At that time it was believed no other driver had a chance to overcome the enormous lead which Murphy had established.

STOP THAT ITCHING

COLORADO DRUG CO.

MITCHELL DIST. COURT TO CONVENE NOV. 17TH

The district court of Mitchell county is scheduled to be convened at Colorado on Monday, November 17, with Hon. W. P. Leslie, judge of the 32nd judicial district on the bench. This will be the first time for the court to convene in the new court house, completed a few months ago.

Attention to tax suits is expected to demand considerable time of the court at this term, in view of the fact a large number of suits seeking to recover delinquent taxes have been filed.

BIG MEN IN SMALL TOWNS.

Long ago America's great philosopher, Emerson, wrote: "It is a man preaches a better sermon than his neighbor, writes a better book, or builds a better mousetrap; and though he live in the woods the world will beat a path to his door."

The careers of the Mayo Brothers in Rochester, Minnesota, of the Garver Brothers with their store in Strasburg, Ohio, and of other able men and women in small towns of the United States prove the truth of this aphorism.

Many of America's greatest men did not go to the city in search of fame and fortune—they brought the city to their doors. There is no question as to where opportunity is to be most easily grasped—in the big city or in the small town.

A few become rich in the city, but they win their fortunes at a price. Broken health, unstrung nerves, and an early old age tell the story of keen, competitive strife. But the vast majority of young people who are lured out of their home towns by the attractions of the big city simply join that great tide of humanity. They become known only to a few associates, swallowed up in the sea of people.

There is not a life to be envied. Many of them might have been big toads in their own little puddles, if they had remained at home, but instead they have become little toads in the big puddle.

It is a fact that most of our great merchants, lawyers, statesmen, authors, and many great doctors have achieved fame and fortune in small towns.

TEXAS ECONOMICAL WITH EXPERIMENT STATION FUNDS

Probably few people in Texas realize that the State spends on its agricultural experiment station system \$1.00 for every 558 acres of land in the State; whereas, Ohio spends \$1 for every 65 acres and Indiana \$1 for every 50 acres and that California spends three and one-half times and Arizona nearly fifteen times as much per farm as does Texas.

TEXAS VERSUS NEW YORK CITY

(By Phebe K. Warner)
When you think about it for a minute, Texas and New York City have many things in common. In the first place they are both the biggest places of their kind in America. Both have shipyards and seaports and seacoast. Both occupy an extreme location in the Nation. Both have home trade and foreign trade. But the one thing in which they are nearest alike is their population. In this respect there are a half million more people in the largest city in America than in the largest State. In round, easy numbers to remember, Texas has 5,000,000 population and New York City has five and a half million souls on her city roll call.

It is this last item of human interest that we of Texas should think more about. Think of it. Five million human beings scattered about over more than 256,000 square miles in Texas. Five and a half millions of human beings crowded and squeezed and packed and piled on top of one another in New York City that covers less than one of our ordinary-sized counties in Texas. The population of New York City represents almost, if not every, nation of the earth. More than a hundred different kinds of tongues babbling within a few blocks. The newspapers printed in more than a half, hundred different languages so that the foreign citizenship may know who is running for President in their adopted country and who is running for the city offices in their home city. Compare this condition with big, broad, American Texas, with ONE language and one tongue and ONE big print shop, the American press. And this, too, with Texas bordering for hundreds and hundreds of miles on a foreign nation with only a river between.

Yes, Texas has her foreign problem and she has her foreign press on a

very small scale, but there are not many foreigners in Texas that do not know something about the English language and the State in which they live.

But it is not the foreign problem we would compare in Texas and New York City, but our own American problems. West Texas is classified as the purest Anglo-Saxon group of citizens in the Nation. What should that mean for us and the future of our part of this Nation?

Which of these two greatest places in America is most advertised? Which does the world know the most about? Which offers the greatest opportunity to own your own home and live a life of freedom and independence? Which is the best place to rear a family? Which is the real producer of wealth? Which is the greatest consumer of wealth and health and personality and true values? Which offers the greatest commercial and educational opportunities? Toward which of these two places are the most people drifting? Wonder why?

Are we of Texas keeping the wonderful advantages of Texas before the world as much as New York City is advertised to the world? Are we even holding on to our own youth or do we let the brightest and sometimes the best get away and wander off to New York City to find or to seek a place to invest their brains and time and talent? Are we matching New York City with social and recreational attractions for our five million people? A few years ago New York City spent \$600,000,000 for one section of land to make into a park for her five and a half million people. They say they would not take a billion dollars for that park now.

A few months ago New York City gave seven million for three city blocks of land to make another little park. What has Texas done with her natural native, God-made parks? So far Texas has not even built a road to her natural and her great scenic wonders so that her five million people might get within sight of them and spend an hour or a day under the magic influence of their spiritual power. Which of these two great places is best known, and in the greater demand? Why? If you owned Texas, would you be willing to trade it for New York City? Are we all doing our best to let the world know about the greatness of our own home State?

Carbon Paper at Record Office.

COOLIDGE ELECTORIAL VOTE EXPECTED TO REACH 357

Calvin Coolidge and Gen. Charles Dawes have been swept into the presidency and vice presidency, respectively, on the crest of a republican victory that is comparable only to the Harding-Coolidge landslide four years ago. The republican electoral vote was placed at 357 late Wednesday with prospects of going higher. The only difference between the republican triumph of four years ago and that of Tuesday is that in 1920 the republican national ticket carried with it an overwhelming majority of both houses, while the election this week indicates a material loss by the republicans to the democratic party. Dispatches from New York outline the republicans are five short of house control.

TAKE A LOOK AT THIS.

It is said that between 80,000 and 90,000 fight fans paid more than \$1,000,000 for the privilege of seeing a recent prize fight which lasted four minutes. A prominent writer says that "most of the seats cost from \$25 to \$100 each and the fight was over in four minutes, and it was well worth the money and we do not believe that many begrudged what he paid because of the thrills while it lasted." Many "high society" people were present, including hundreds of expensively dressed women. The prize fight offered "thrills" and took in a million dollars for affording these thrills to nearly a hundred thousand people. Perhaps there was never so much hunting for thrills in all our history as there is now. Modern civilization boasts of its culture and refinement. The World War came along and revealed the ugly nakedness of this tinsel-draped but callous culture. One of the saddest things about this insatiable appetite for gross and sensuous thrills is the light which it throws upon the character of the masses of the people. Certainly education has largely failed to do for them what was hoped, and with equal certainty they have never really tried Christianity. We are developing some very exalted Christian characters in the churches today, but evil is growing as well as the good, just as the Savior said it would. This does not fit in with popular world opinion, but it keeps close company with the facts.

PROTECTION

Have you ever considered what PROTECTION would mean to your loved ones in case of your death if you were a member of your local Life and Accident Association?

This is a local Association and we want every family in Mitchell County represented, hence we are inaugurating a campaign for a larger membership and would be glad to have you join us. This is by far the cheapest insurance you can buy, and remember—

A ROLL OF HONOR.

On Armistice Day, November 11, the annual Red Cross Roll Call will begin, when millions of Americans will again renew their allegiance to the greatest relief agency in the world.

Communities that have not known sweeping disaster have no idea of what the timely aid given by this great organization means.

Whether it be the unhappy victims of a world war, of a West Indian hurricane, of a Galveston flood, a San Francisco fire or a Japanese earthquake—the Red Cross is always ready to give them aid and usually is the first on the scene.

A dollar will make you a member of this pre-eminent agency of mercy, whose roster is indeed a roll of honor.

DIED.

Mrs. Nancy Hines, wife of A. G. Hines of near Colorado, died Wednesday morning after a lingering illness. She is survived by her husband and two daughters. The body was buried Thursday with Rev. J. F. Lawlis acting as officiating minister. Funeral arrangements were directed by J. H. Greene.

Just arrived California galzed fruit candy at John L. Doss Pharmacy.

To have an objective in life, think soberly, act intelligently and love humanity with a passionate love is both the privilege and duty of all men.

COLORADO MASONS PLAN ATTEND FALL CEREMONIAL

Colorado Shriners plan attending the Fall Ceremonial at Fort Worth in large number, according to tentative plans announced this week. Among the delegation from here will be about ten candidates for the ceremonial rites and their friends here plan accompanying them to see that the initiatory program is well put on.

Moslah Temples' fall ceremonial will be held Saturday, November 22 and will be attended by Imperial Potentate James E. Chandler, Kansas City, Missouri; James E. Burger, Imperial Deputy Potentate, Denver, Colorado; David W. Crosland, Imperial Chief Rabban, Montgomery, Alabama and Frank C. Jones, Imperial High Priest and Prophet, Houston, Texas, according to latest advices received by Potentate Frank Taylor. In addition Potentates Geo. S. Dowell, Ben Hur Temple, Austin, Texas and E. S. Burchett, Karem Temple, Waco, Texas have also accepted Moslah Temple's invitation to attend the ceremonial. It is expected there will be several other members of the Imperial Council who will be present and several other Potentates from other Texas and adjoining states in attendance who have not yet been heard from.

The presidential suite at the Texas Hotel has been reserved for the Imperial Potentate and his party who will spend the day in Fort Worth as the guests of Moslah Temple's spectacular fall ceremonial.

Entertainment for Nobles and Novices will be provided both Friday and Saturday, November 21 and 22, respectively, on which dates Novices will be registered that they may attend all the entertainment being planned. Arrangements are being made to take care of 5000 or more Shriners who are expected to attend the ceremonial.

Director of work, Billy Southwell, and his staff of assistants are busy building the scenery and placing the wiring for the lighting effects at the Coliseum, where the ceremonial will be held, beginning at 7:30 o'clock in the evening according to Potentate Frank Taylor. Never before has there been staged such a spectacle as will be placed before the view of the Nobility upon this occasion.

Chairman Edgar Little of the novice committee states the class will be known as "Frank Taylor's 500" class and from present indications there will be over 500 novices to be initiated.

Novices M. H. Frank, postmaster, Grapevine; J. H. (Jimmie) Ferrell, Abilene; Carl C. Hardin, Senatorial nominee, Stephenville; Judge Victor Gilbert, Baird; Rev. G. W. Gwaltney, Menard, and R. H. Pearson, Fort Worth have filed their names with Chairman Roscoe Carnrike of the Shrine ring committee. All entrants must file their names not later than November 15th, in order for their names to appear on the official ballot.

Moslah Temple band under the direction of L. Cecil Meadows and Moslah Temple Chanters under the direction of Sam S. Losh will broadcast a joint program over WBAP, Ft. Worth Star-Telegram radio station, Monday evening, November 10, beginning at 9:30 o'clock for radio listeners. The program will be very unique and in addition to this will be the first program broadcasted by Moslah Temple Chanters, which is composed of over fifty male voices.

"POLLY," COE PARROT, DIES AFTER 30 YEARS IN CAGE

"Polly," the parrot frequenting the Coe residence and Hotel, is dead. She died some time during the night Thursday of last week of unknown causes. Members of the family found her body near the hotel building Friday morning.

Polly had been associated with the Coe household thirty years.

Mrs. E. Keathley left the first for several days stay with her parents, Mr. and Mrs. J. J. Robertson at Abilene.

NOLAN COUNTY FAIR BIG SUCCESS, VISITORS SAY

The Nolan County Fair, which closed at Sweetwater Saturday after three days, was a big success, according to local citizens who visited the show. Every department of the fair, including agriculture, commercial attractions were excellent. The fair was largely attended each of the three days.

An official of the fair association who was in Colorado this week stated that the fair had been a success from a financial standpoint. All expenses were paid and a surplus fund of several hundred dollars remained in the treasury, he stated. An admission fee of 25 cents was charged for admittance into the fair grounds.

MRS. WARNER WRITES ON DUTY WE OWE COMMUNITY

(Phebe K. Warner)

It matters not how small the community is in which you live, it has its problems that need to be worked out. If you would get at the source of all national and State problems, look for that source in your home community first.

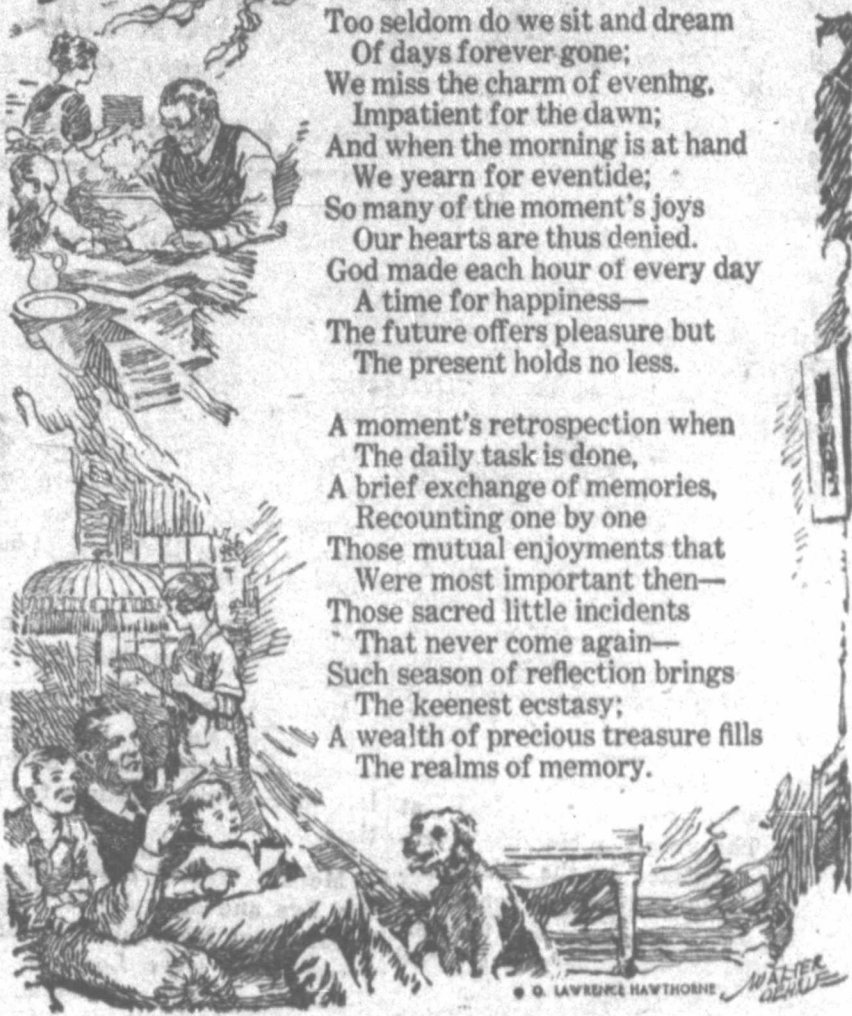

Take crime. Everybody is worrying over crime these days. But the trouble with most of us is we worry over the other fellow's crime instead of our own. And we worry over what other communities and other States are doing and not doing instead of looking into our own community to see if all is well there. Crime originates in the community and not the State at large. If we would clean up every community in this State, Texas would be a crimeless State. But the great majority of us do not want to be bothered with other folks' crime. We do not want to take time from our work or business or rest or pleasure to even take an interest in those things that lead to crime in our home community. Neither do we want to be bothered trying to find something better with which to substitute crime.

Most crime has its source in the social world. You may not believe this, but think about it before you deny it. Boys and girls too often get into trouble because there is nothing else for them to get into. And thousands of men and women are in trouble today because no one took any interest in their social welfare when they were children and they just naturally grew up to love the wrong kind of amusement. This drifted them into the wrong kind of company and following the wrong kind of company led them to the penitentiary. But there are more people in trouble out of the penitentiary than there are in it.

When a man or a woman, or a boy or a girl is sent to the "pen" from your community, do you ever ask yourself to what extent you are guilty and the convict is innocent? "Are you going to see the ball game?" was asked of the father of a son in a West Texas town the other day. "No, I haven't any time for that," was the answer. That man takes no interest in anything in his community but his lodge. And he is having a time to keep his boys out of the pen. The same question was asked of another father in another community. The answer was: "I don't believe in such foolishness." That father has a bootlegger son. No, those fathers are not guilty in their own estimation. They think they are model men but they are what we call community slackers, because they never take any interest in anything unless it has some special interest for them.

Do you live and occupy space in your home community? Do you have the advantage of school and church, postoffice, railroad, a court house and its officers, a doctor in time of sickness, a minister in time of sorrow, good roads to haul your products over to market; neighbors with whom you can trade when there is a job too big for one man? Do you? Then you OWE a part of your thought and time and interest to the welfare of that community just as truly as you owe your debts to those who have loaned you money or sold you something on credit. Would you stay where you are if you were the only fellow in a hundred miles? And this applies to women just the same as men. There are women in every

Memories

Too seldom do we sit and dream
Of days forever gone;
We miss the charm of evening,
Impatient for the dawn;
And when the morning is at hand
We yearn for eventide;
So many of the moment's joys
Our hearts are thus denied.
God made each hour of every day
A time for happiness—
The future offers pleasure but
The present holds no less.

A moment's retrospection when
The daily task is done,
A brief exchange of memories,
Recounting one by one
Those mutual enjoyments that
Were most important then—
Those sacred little incidents
That never come again—
Such season of reflection brings
The keenest ecstasy;
A wealth of precious treasure fills
The realms of memory.

community who never do a thing to keep up the school or the church or the recreational interests of their community but such folks are the very first ones to growl about the place in which they live.

If nobody were doing any more for your community than you are would you stay in it? Think of that before you criticize everyone who is big enough and unselfish enough to try to do his duty to his community. Most of us have noticed that those who do the least to build up their home town or school or church or county, and we might add the State, are the very ones who do the most fault finding. You can usually tell who the community slackers are if you listen to them talk a few minutes. They never boast. They always knock. And today there will be thousands and hundreds of thousands of people who will not take enough interest in their home county or State to go to the polls and vote. But they will growl about the way the election went for the next four years. You watch and see. The community slacker is the man or woman who knows how everything ought to be done but never does it.

THE OLDSMOBILE SIX

With the coming of the new year the Silver Jubilee Automobile Show will be held, celebrating the twenty-fifth year of the National Automobile Exhibitions.

In 1905 an Oldsmobile made the first cross-continent run ever accomplished by an automobile, traveling the 3500 miles from New York to Portland, Oregon in 44 days actual running time. This feat was considered marvelous. During the latter part of October this year another Oldsmobile, made a non-stop run of 5,310 miles in exactly one week. Not once during the entire 7 days or 167 hours was the engine allowed to stop.

An average gasoline mileage of 22 miles to the gallon was made during the run. This included time that the engine was idling for change of drivers, etc.

Only two pints of oil and three pints of water were used. Not an adjustment was made on the car.

The second day of the run was made in high gear the entire 24 hours, the gear shift lever having been removed.

See this wonderful car at the Pritchett Motor Co. sales room.

Jno. Garner, Lister Ratliff; Clayburn Davis and Ed Jones of Colorado and J. P. Majors of Sweetwater are on a hunting expedition in the Chisos Mountains. Garner promised that the party would bag bear and other large game while on the trip.

LIONS CLUB THANKED FOR COURTESIES SHOWN SCOUTS

The following resolution, passed at an executive session of the Buffalo Trail Council Boy Scouts of America, at Sweetwater, in which the organization expresses appreciation for the courtesies extended scouts and their leaders at Colorado recently, has been received at this office:

"Be it Resolved, That the Executive Board, Buffalo Trail Council, Boy Scouts of America, extend its thanks to the Colorado Lions Club for their generous entertainment of the boys of the council while in their city enroute to camp on August 12th.

"That a copy of this resolution be spread on the minutes of this meeting, a copy be sent to the Colorado Lions Club and a copy given to the press for publication.

W. B. Crockett, Chairman Camping Committee.
"Approved, W. M. Elliott, President."

BLACKMAIL LETTER WRITER WANTED BUY AUTOMOBILE

BRENHAM, Texas, Nov. 6.—Norris Robert Mayer, 18, was arrested Sunday morning by Sheriff Burney Parker and jailed on charges of attempted blackmail, having recently written two blackmail letters to H. F. Hohlt, prominent and wealthy merchant. He threatened to kill Hohlt and blow up his store unless \$1,000 was left in a designated place.

A package of paper placed there several days ago disappeared, and later Hohlt received a second letter repeating the threats. Another package was left in the same spot and after two night and a day of watching Sheriff Parker saw a man approach on horseback. A shot by the sheriff killed the horse and slightly wounded the rider, who was captured at the end of Burton highway near Greenville, where Mayer resides with his parents, Mr. and Mrs. Emil Mayer.

The prisoner dictated a lengthy statement admitting his guilt, saying he wanted the money to buy an automobile.

One letter was mailed in Brenham and one in Lagrange. The writer said he signed them "I. W. W." because he thought that would make the letters more effective.

Rev. and Mrs. J. T. Griswold of Clarendon were in Colorado Monday en route home from Abilene where they attended annual meeting of the Northwest Texas Conference, Methodist church, last week. Rev. Mr. Griswold was returned as presiding elder of the Clarendon district for another year.

ANNUAL RED CROSS ROLL CALL TO BE HELD NOV. 11TH

On next Tuesday, November 11th, sixth anniversary of signing of the armistice, the American Red Cross will open its annual membership drive. Local chapter officials and friends of the Red Cross at Colorado are planning to co-operate with district and national representatives in placing the claims of "The Greatest Mother of Them All" before the people.

It is believed that the quota assigned to Mitchell County will be easily subscribed. The citizenship, remembering the sorrow accorded suffering humanity in the wake of the disastrous storm here in May, 1923, will not be slow to register due recognition of appreciation again.

J. H. Greene of Colorado is chairman of the county chapter and as such will direct the annual membership drive. Payment of one dollar will entitle you to membership in the Red Cross for one year. Special membership payments of from five to \$150 have been made here in past years.

OIL NEWS REPORTED BY PAPERS NEARBY TOWNS

Nothing new to report from the Gulf Production Co.'s McDowell No. 3 except that drilling continues steadily and good progress is being made.—Big Spring Herald.

Oil Outlook Favorable.

"Conditions and the outlook for further development are very favorable," said H. F. Vane of San Francisco, referring Friday to the Reagan County oil field. "San Angelo is growing and should grow a lot more."

Mr. Vane is in charge of the land and geological department of the California Company. He conferred here with Leonard Orynski and J. M. Charlton, representatives of the company, with headquarters in Colorado, Mitchell County.

Mr. Charlton accompanied Mr. Vane Friday afternoon to Reagan County, where the California Company is completing a rig for a well on Section 13, block 8. Just when spudding in will take place will depend a great deal upon transportation, said Mr. Vane, but barring delays, it is thought that drilling will be under way by November 1st. The California Company, operating in Mitchell County for the last two years has been one of the heaviest purchasers of acreage in Reagan County.—San Angelo Standard.

Sterling County Oil News.

County surveyor, W. F. Kellis, drave the stakes for a new drilling site last Monday. The location was made for Cogdell & Ford on section No. 34, Block No. 13, S. P. Ry Co. survey, five miles as the crow flies, southwest of Sterling City, and about 1200 varas south of west of Roy Foster's ranch home. It will be known as Foster No. 4, because W. L. Foster has two wells on his land near Iatan, and the Sterling Oil Company's well on Section No. 6, block No. 7, south of Sterling, so we will call the new well Foster No. 4. Just as the stakes were being driven by the surveyor, the first load of machinery arrived and was unloaded. Messrs Cogdell & Ford expect to spud in within the next two weeks. The location is on a bench of a dome which seems to swell up out of the surrounding terrain, especially on the south.

The writer was a visitor to Big Lake last week and noted the feverish activity that is going on there. Every body seems to be in a great hurry to go somewhere. A pipe line is almost in sight for this field.

The Marland company last week purchased the north half of section No. 14, block 11, University lands for \$60 per acre. This land lies four miles west of the town of Big Lake, and will be used as a tank farm and a depot of supplies. The town of Kemper was laid out on this land, but no further development has ever been made.

While in the vicinity of Big Lake last week, we had the pleasure of being a guest at a barbecue given to celebrate the spudding in of Coats well No. 1, of the University Oil Co. on section No. 17, block 10, in Reagan County.—Sterling City News-Record

COLORADO HAS FUTURE OF PROMISE, GEER DECLARES

Colorado is one of the very best small cities to be found anywhere in West Texas and possibly without a peer in the light of future possibilities, Lone A. Geer of Sweetwater, general manager of the West Texas Electric Company, stated Sunday when seen by a representative of The Record. Geer made the prediction that Colorado would develop into a city of from 7,000 to 10,000 population within the next few years.

"I never visit Colorado but that I am impressed with the modern ideas being carried out in every civic and industrial program there," Geer stated. "The court house, street paving, street lighting, new business and private buildings, Legion Memorial building and the many other good things coming to Colorado within the past three years are among the best I have seen in this part of the State and reflect with credit upon your entire citizenship."

Geer declared that since Colorado had completed its street paving program, at least for the present and had acquired many other good assets, there should be no letting up in development.

"My cooperation would be glad to pay its share of the tax necessary to finance the proposed new city hall there and to build a good road across the county over the Bank head Highway," he stated. "We may be rated as among the non-resident tax payers in your city and county, but we are most assuredly interested in your development plans and will always co-operate with Colorado along those lines."

The utilities manager recalled that Colorado, as the commercial center of one of the best cotton producing territories of West Texas and the Mitchell County oil field, will easily hold its own and continue to grow. "But," he continued, "the time has come when Colorado should reach out after manufactures. Smoke stacks and pay rolls are the foundations upon which our leading commercial centers have been build and I do not believe Colorado will overlook this important fact."

Taking bank deposits and general business conditions here into consideration, there are few small cities anywhere in the State surpassing Colorado, he declared.

RECORD HAS BEST PLANT IN WEST TEXAS, IS CLAIM

"Dock" Baker, of Dallas, representing the Miller Saw Trimmer Co., was in Colorado Monday. Baker, in calling on the trade over the State has the opportunity of noting equipment in the hundreds of newspaper and commercial printing offices. While here Monday he declared that the Colorado Record had the best equipped office in West Texas, in so far as the weekly newspaper was concerned, and there were a number of small daily papers being issued from plants not near so modernly equipped as this office.

13 NO JINX TO HIM.

A. J. Herrington, Ford distributor, stated Tuesday that he sold and delivered thirteen tin lizes Saturday. Thirteen may be a jinx to some people, but Mr. Herrington steadfastly declares such is not true in his case.

Hon. J. C. Beakley of Dunn spent several hours at Colorado Tuesday on business. Cotton is coming rapidly and business conditions are good at Dunn, he stated.

Reverend Mrs. H. M. Smith of San Antonio returned to her home Monday after spending a visit with her daughter, Mr. R. H. Ratliff.

NOTICE OF SALE

The Commissioners' Court will offer for sale Monday, November 10th, 1924, for cash, all the barns, lot fences, out-houses, coal bin and garage now belonging to Mitchell County located on the court house square. Reserving the right to reject any and all bids.

J. C. HALL,
County Judge, Mitchell County, Texas.

Mrs. Dean is also authorized to receive and receipt for all subscriptions for The Colorado Record and to transact all other business for the Whiskey Printing Company in Loraine and vicinity. See her and take your County paper

METHODIST CHURCH

Sunday school was well attended last Sunday, as was also Epworth League which rendered an interesting program. The adult and Young people's missionary societies observed the week of prayer with a splendid program and offering last Monday afternoon at the church. A number of our members attended services at Abilene Sunday, which was the closing day of annual conference, and heard Bishop Dickey preach a great sermon from the theme, "I am not ashamed of the Gospel of Christ." When the appointments were read Sunday night, Loraine circuit was assigned to Rev. H. W. Hanks. We welcome the return of Bro. and Sister Hanks as leaders of our church and trust this will be the greatest year

of the three which they will have spent in Loraine. S. S. will meet next Sunday at 10 a. m. Preaching at 11 a. m. by the pastor. Theme, "The Supremacy of the Spirit." Epworth League at 6:30 p. m. Preaching at 7:30. Theme, "The Seven Great Wonders of all Time." We urge you to attend Sunday school and preaching services of the day. A cordial welcome is extended to all to worship with us.—Reporter.

Baptist Church.

The pastor, Rev. W. A. Foster, preached to an unusually large congregation at the morning hour Sunday using "We are more than conquerors through Him that loved us" as a subject, he brought out what the members of the Southern Baptist

convention had accomplished during the past five years, or since the 75 Million campaign was launched. With few errors the work of the missionaries, churches, schools, hospitals and orphanages have gone forward in a great way. Only a few days remain before the campaign will be ended and there are \$26,000,000 yet to raise by all the States. Those who made pledges are urged to pay up and others are asked for cash contributions. An offering of \$130 was made at the close of the sermon. There were three additions to the church by letter, one was baptized in the afternoon and two more, one by letter and the other for baptism, joined at the evening service. Rev. V. W. Tatum preached a good sermon to a splendid audience at that hour. 196 are enrolled in S. S. with 175 present Sunday. The primary Department will occupy the two rooms reserved for them at the parsonage in the near future. Everyone welcome at every service.—Reporter.

Hallowe'en Social.

Wandering spooks found a suitable meeting place at the home of Mr. and Mrs. Ernest Meadows at the usual hour Friday night. Black cats crouched about the walls and many jack-o-lanterns lighted the way for spooks who continued to come throughout the evening. So cleverly were they disguised as green frogs, bo-peep, witches, ghosts, etc, that one could hardly imagine their coming to life. After the guessing contest of "who was who" the unmasking came and the spooks proved to be Mrs. Charlie Reeder's class of the Baptist S. S. and Mrs. Will Rowland's class of the M. E. S. S. together with all their husbands. The latter class mentioned furnished appropriate entertainment for the evening. Refreshments of hot chocolate and sandwiches were served with miniature witches as favors. Every spook pronounced it the merriest evening of the year.—A guest.

School Notes.

Last week was a busy one at school. The program Monday morning was furnished by the 7th grade. After singing and prayer conducted by the superintendent—the teacher, Miss Ethel Harkins, took charge and rendered a short but enjoyable program. The young men of the three upper grades have organized a Hi-Y club for the education and training of its members in Christian leadership and correct school spirit. The girls are contemplating organizing a scout troop under the leadership of our efficient foreign language teacher, Miss Alford. A large shipment of material arrived for our science department and the classes are looking forward to the time when this new material is ready for use. This will be ready next week and our principal Mr. Payne, who has charge is anxious to have the much needed apparatus in use for his classes. Everyone seems interested in school this year and the work is going forward in a satisfactory way in every department.

Mr. Fred P. Snelson of Grand Falls was a welcome visitor at the home of Mr. and Mrs. Hal Bennett Thursday night. He and Mr. Bennett were members of the same company while serving as soldiers in the world war. Mr. Snelson is at present a prosperous farm owner in the irrigated section of the Pecos valley. He had been to the Dallas fair and was on his way home in his new ord coupe. He planned to see Mr. I. W. Terry at Colorado and other "buddies" along the way as he motored home.

Messrs Roy and Virgil Williams arrived from Standard, California, Tuesday and are visiting their brother, Mr. Earl T. Williams and family.

Mrs. Monte M. Page and little son, Junior of Lorenzo, came in Tuesday to visit in the home of her mother, Mrs. S. E. Clement and family.

Mr. Arthur Honea and Miss Retha Yarbrough, went to O'Donnell Sunday and were accompanied home by Mrs. J. D. Yarbrough.

Messrs. Wiley Walker and wife and Clyde Smith and wife visited in the S. H. Hart home at Valley View Sunday.

Mr. and Mrs. B. W. Dorn visited in the J. F. Reeder home here Saturday and Sunday.

Mrs. B. W. Jones returned to her home in Roxton Tuesday night after a several weeks visit here in home of her daughter, Mrs. J. T. Ledbetter and family.

Messrs. A. C. Pratt and T. M. Blakley of Abilene were business visitors in Loraine Monday.

Mr. Leham Draper of Stanton was a visitor with home folks here first of the week.

Mr. Tom Kidd is in Lamesa where he is building a new home for his father.

A CHECKING ACCOUNT WILL HELP YOU SAVE ON YOUR DAILY EXPENSE.

SOME REASONS FOR A CHECKING ACCOUNT

- 1—Safety from loss of fire, theft or carelessness.
 - 2—Makes possible the exact change at any and all times.
 - 3—Classifies you as citizen.
 - 4—Convenient.
 - 5—Receipts for you for every transaction.
 - 6—The bank keeps your books.
 - 7—This service to you without cost.
- There are many other reasons but any one of them would well repay you for the effort. We wish we might have you with us.

W. D. McCarley made a business trip to Andrews Monday.

Mrs. W. M. Cardwell spent Sunday in Roscoe visiting in the O. L. Cardwell home.

Mrs. U. W. Forcher and little daughter, returned to their home in Wichita Falls Monday night after a two weeks visit here in the home of her parents, Mr. and Mrs. C. M. Black.

Mrs. S. M. Hallmark visited in the S. A. Farris home at Sweetwater over last week end.

Mesdames Jesse Garrett, A. E. Anderson and Mother Wheeler visited their daughter and sister, Mrs. W. H. Rogers at Big Spring Sunday.

Mr. and Mrs. A. C. Caswell and children of Andrews visited in the S. H. Hart home here last week-end.

Mr. Claud McCollum is a visitor in Fort Worth this week. He made the trip in his car.

Mrs. Virgil Walker was a visitor in Colorado Monday.

Born to Mr. and Mrs. A. E. Beck, on the 3rd, a boy.

Mr. and Mrs. Roy West and baby of Snyder visited Mrs. S. W. Thomas Sunday.

Mrs. Chancel Gunn visited in the Claude Swann home at Trent the latter part of last week. She was accompanied home by Mother Copeland who has been visiting there for some time.

Bill Mahoney made a business trip to Hermleigh Monday.

Ink stamp pads, all sizes and colors, Record office.

New Christmas Seals.

AUSTIN, Nov. 6.—The Christmas seal of 1924 departs from the usual type of design. Instead of stressing the health and educational appeal. The design depicts knowledge enlightening the world as to the dangers of tuberculosis. Resting her hand upon the shield of the double-barred cross she indicates that she is defending the world against tuberculosis. This is a happy symbolism of the tuberculosis movement in its preventative activities.

ARE YOU TIRED, ACHY—ALL RUN DOWN?

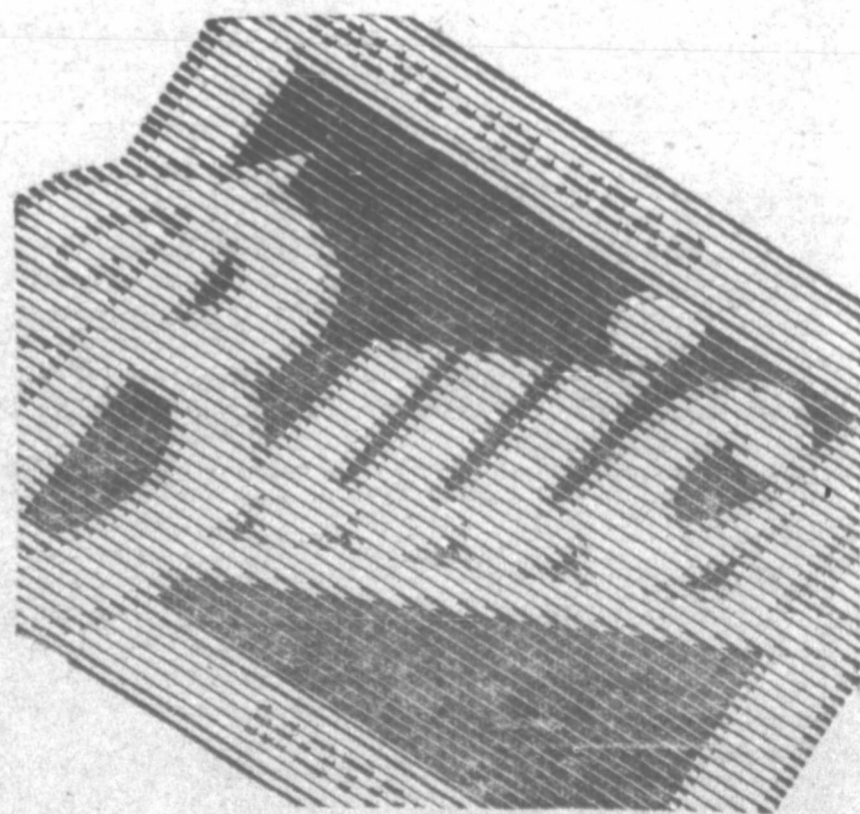

This Colorado Resident Tells You How to Get Well.

Tired all the time?
Lame, stiff and achy?
Tortured with nagging backache?
Knife-like twinges when you stoop or lift?

Miserable with headaches, dizzy spells and bladder irregularities?
All are signs of kidney sickness!
Use Doan's Pills—a stimulant diuretic to the kidneys.

Here's Colorado testimony:
Tom Goss, farmer and ranchman, says: "I can recommend Doan's Pills highly for I have used them on several occasions when my back had a tired, languid feeling. When I got up in the morning, my back felt sore and lame. I had severe headaches and a shooting pain across my temple. Doan's Pills gave me relief."

Price 60c, at all dealers. Don't simply ask for kidney remedy—get Doan's Pills—the same that Mr. Goss had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 17c

At points where lubrication is often neglected, such as fan hub and universal joint, Buick has automatic lubrication. Buick engineering has made Buick easy to lubricate. It is easier to care for a Buick.

SNYDER CITIZENS INSPECT COLORADO-ROSCOE PAVING

A delegation of Snyder folks visited Roscoe and Colorado Friday for the purpose of inspecting the quality and learning the cost of the paving that is now being laid in these two places.

The delegation first went to Roscoe where five blocks are now being laid. In fact, this live little city has just about finished its present paving program which consists of five blocks. The Roscoe contract calls for a certain grade, gutters, five inches of concrete, a sand cushion of several inches and paving brick laid flat with asphaltum run between the joints.

We next visited Colorado, which has a more extensive paving program, and which is using bitulthic instead of brick. Colorado is just finishing up its twenty-fourth block and those who had not been in Colorado since the principal streets were paved, were heard to remark: "It simply doesn't look like old Colorado."

There was considerable opposition to paving we were informed when some of the leading men of Colorado began to talk of paving even the principal street, but after that was done, some of those who first opposed paving took the lead in paving other streets, and with 27 blocks already paved, a move is now on foot to extend the paving into the residence sections.

As a result of an adequate water supply, a sewerage system and paved streets, the old town of Colorado is now forging toward the front as one of the leading small cities of West Texas.

Snyder has the natural resources for making a city of several thousand within the next few years. It is growing rapidly despite the fact that there is no concerted effort on the part of the people as a whole to make it a city. All Snyder needs is for men of means and influence to unite in one band to build a city commensurate with the great natural resources that lie about it and which have only just begun to be developed.—Scurry County Times.

Before marriage a man's life is largely what he makes it, but afterwards—well, he becomes more dependent to say the least of it.

"MA" FERGUSON SAYS TEXAS "LOYAL TO DEMOCRACY"

TEMPLE, No. 4.—Mrs. Miriam A. Ferguson of Temple, who on the face of early returns, in today's general election has been named governor of Texas, issued a statement to the Associated Press tonight in which she said "Texas is still loyal to the ideals of true democracy, despite the mouthings of political preachers and some school teachers seeking to lure democrats into betrayal of their honor."

She assailed the Ku Klux Klan for its alleged activity against her in the campaign and added that "the people have seen the slimy trail of the serpent along which these river bottom censors of morals and violators of ballot pledges have led their complacent and pliable tool and they have spoken in a voice not to be misunderstood."

"Hate has been the slogan of the opposition," Mrs. Ferguson said. "Venom is its pass word and slander, falsehood and misrepresentation its platform."

She expressed her gratitude to the "splendid and patriotic democrats" who supported her throughout the campaign and added that "as a daughter of Texas, to the manner born," she would work to the utmost for the best interest of my people and devote my talents and energies to the promotion of the cause of education from the rural school community to the university and other institutions of higher education."

Mrs. Ferguson said she would try to carry out every pledge in her platform.

TEXAS AND PACIFIC RAILWAY SEEKS TO ISSUE BONDS

WASHINGTON, No. 4.—The Missouri Pacific Railroad applied to the Interstate Commerce Commission today for authority to issue \$8,900,000 of equipment trust certificates to be issued in the purchase of fifty locomotives, 1,900 freight cars and other rolling stock at a total cost of \$5,212,000.

At the same time the Texas and Pacific Railroad asked the Interstate Commerce Commission for authority to issue \$3,285,000 of equipment trust certificates to be used in purchasing 2,000 freight cars and other rolling stock at a total cost of \$4,395,000.

Their Musical Romance

By JANE OSBORN

(Copyright)

JUANA MAPES had been "taken on" the staff of Smart Modes as an "associate editor," and the important title she bore did a good deal to make up for the fact that her salary, to begin with, amounted to but fifteen dollars a week. She had scrimped and scraped for four years to get her college degree and it did seem a bit of a hardship that now she should have to take less for her services than most girls did just after leaving high school. Still, she was doing the sort of work she wanted to do and she was an "associate editor."

"Of course, you won't expect to live on what you make for several years," said the editor in chief when she talked the situation over with Juana, "but what you make may at least pay your lunches and taxi fares."

"And one of the things that goes with your job," continued the editor, "is to write the musical reviews. My secretary will give you the tickets to concerts that come, and from them and the music magazines you can get together your review. Look up the sort of thing we run in the files—"

"But I'm not musical," said Juana, regretfully. "I don't know one note from another. I couldn't whistle 'Yankee Doodle' if I—"

"All the better," said the editor, with an air of having dismissed the matter. "If you were musical you might try to write high-brow reviews. All we want is the smart, snappy sort of thing. You'll see in the files—"

"But I never went to a concert in my life—"

"It's part of your job," said the editor. And that was the end of the discussion.

Juana was bewildered and discouraged at the first symphony concert she attended. She studied the program carefully to see whether it would offer any explanation of the performance. She turned around to regard the expressions of the audience. Their faces were practically expressionless—they all looked about as animated as patients waiting in a dentist's office. Perhaps, thought Juana, this betokened patience, that they were waiting for something to be played that would be different. But nothing did happen—nothing that gave Juana inspiration.

She observed, however, that the young man beside her occasionally jotted something down on a small notebook. He was listening intently. Apparently, thought Juana, he was one who understood. She wished that she might see what he wrote down, but that would be like cheating at examinations.

Two days later Juana went to another concert, occupying the same seat in the same auditorium, and to her distinct satisfaction found the same young man sitting beside her. She felt that if she could only get acquainted with him he might be able to help her to understand the music.

In the meantime she wrote her first review—she told in a light and readable manner of the musical outlook for the season, which she got very largely from the announcements of the press agents. And she described, in semi-humorous manner, the manners of a fashionable audience at a concert. "First-rate," praised the editor as she looked over the copy. "If you knew too much about music you couldn't do that."

The third time that Juana sat beside the music critic from the Evening Planet she noticed that he looked at her as if he would like to have her recognize him. After all there was no reason why she shouldn't. A girl didn't hesitate to speak to the man student she sat next to week after week in college lecture rooms. At the first intermission Juana looked at him and said: "Wonderful, isn't it?"

"You mean—the music?" queried the man. "Why, yes."

That was the introduction. Juana didn't tell her neighbor that she knew who he was. But she wanted to let him know that she admired his work, for she read it conscientiously every Saturday when it appeared in the Planet.

"There was a fine review last Saturday in the Planet," she said to her neighbor at the first intermission one day not long afterwards. "I read it every week."

"You do?" queried the man. "I write that stuff," he added rather demurely. "But if you want to read some really snappy musical criticism you ought to read what's been appearing in Smart Modes. That's the kind of stuff that the people want—but you can't write like that unless you've been eating and drinking music all your life. It's spontaneous."

"Well, I write that," said Juana. "I don't think it's very good, though."

Her companion stretched out a hand by way of congratulation and Juana shook it in return. On the strength of their community of interest they had ten together after the concert. Before long they were well acquainted. Then the young man—Bob Turner—asked Juana to marry him.

"But I must confess something," he said. "I don't know a blamed thing about music, really. I'm about as musical naturally as an alligator. But when they took me on as dramatic critic of the Planet they said I'd have to be the music critic, too. That was part of the job—so—"

"Then I'll marry you," said Juana. "You see I really am one of the most unmusical people in the world, naturally. We'll be lots more congenial this way."

Old Folks' Ailments
"I began taking Black-Draught over fifty years ago and my experience with it stretches over a good long time," says Mr. Joe A. Blake, a Civil War veteran and former Virginian, who is now a prominent citizen of Floyd, Texas. "It is the best laxative I know of for old people. A good many years ago, in Virginia, I used to get bilious and I found that
Thedford's BLACK-DRAUGHT
was the best and quickest relief I could get. Since I came to Texas I have these bilious attacks every now and then—a man will get bilious anywhere, you know—and I find that a little Black-Draught soon straightens me out. After a few doses, in little or no time I'm all right again."
Thedford's Black-Draught is a purely vegetable liver medicine, used in America for over eighty years. It acts on the stomach, liver and bowels in a gentle, natural way, assisting digestion and relieving constipation. Sold everywhere.

Held the American
Legion and Oran C.
Hooker Post.

Next Tuesday, November 11th, is Armistice Day, a National Holiday. All the stores in Colorado will be closed. This page is made possible by the following business firms and banks above, who are worthy of and will appreciate your business.

The Oran C. Hooker Post No. 127, American Legion, gives the following rules for displaying and flying the American Flag. Read and observe them and be better citizens

Do not permit disrespect to be shown to the flag of the United States. Do not drape the flag of the United States to any person or anything. The regimental colony, state flag, organization or institutional flag will render this honor. Do not drape the flag of the United States with the union down except as a signal of distress. Do not place any other flag or pennant above or to the right of the flag of the United States. Do not let the flag of the United States touch the ground or trail in the water. Do not place any object or emblem of any kind on or above the flag of the United States. Do not use the flag as drapery in any form whatever. Use bunting of blue, white and red. Do not fasten the flag in such manner as will permit it to be easily torn. Do not drape the flag over the hood, top, sides or back of a vehicle, or of a railway train, or of a boat. When the flag is displayed on a motor car, the staff should be affixed firmly to the chassis or clamped to the radiator cap. Do not display the flag on a float in a parade except from a staff. Do not use the flag as a covering for a ceiling. Do not use the flag as a portion of a costume or of an athletic uniform. Do not embroider it upon cushions or handkerchiefs or print it on paper napkins or boxes. Do not put lettering of any kind upon the flag. Do not use the flag in any form of advertising or fasten an advertising sign to a pole from which the flag of the United States is flying. Do not display, use or store the flag in such a manner as will permit it to be easily soiled or damaged.

Do you know the significance of the American Legion button? First, it is an evidence that there was a world war. Second, it is a badge of honor and evidence of your part in that war. It stands for God and country and for the highest rights of man. It consists of several parts and every part has its meaning. The rays of sun that form the background stand for the principles of the American Legion, freedom, democracy, dispelling darkness of violence, strife, and evil. The two gold rings around a field of blue bearing our name, and the two bronze rings around the wreath typifying our major allies. The wreath itself is for remembrance. Upon it is set a star reflecting the glory of those who died that liberty might live. The inscription demands that the wearer will ever guard the sanctity of home, country and free institutions.
