## Railroad Officials Kill Each Other in Office

(By Associated Press)  
BALTIMORE, Sept. 23.—Maxwell C. Byers, president of the Western Maryland Railroad, was shot dead, and Dudley D. Gray, vice-president of the same road, seriously wounded, in a pistol fight in the company's offices in the Standard Oil Company building here today.

The two men were locked in the president's office, police battering down the doors to get in.

Gray was found unconscious, having been shot twice in the back. Byers had been shot once, his death apparently being instantaneous.

## Pipe Arrives for Dean Oil Well No. 1

The first shipment of pipe for the Dean No. 1 arrived here Monday and was unloaded at the well. About 500 feet of large casing was in the first consignment trucked here from near McCamey and other loads are expected Tuesday.

As soon as enough pipe is on the ground to fill the hole to 1,250 feet, Driller C. R. Dutton will begin setting casing to the bottom of the hole so that drilling can be resumed. Enough pipe to complete the contract on the well has been arranged for and will be trucked here and placed on the ground within the next few days.

A strong flow of gas is still noticeable in the well that bubbles all the time. This gas flow was noticed several months ago at the time drilling was suspended and arranged started for securing casing for the well. There has been some increase in the gas pressure for several weeks and those in charge of the operations expect to find some showing within a few hundred feet of the present depth.

## Ginnings to Sept. 16 Reported by Bureau

(By Associated Press)  
WASHINGTON, Sept. 23.—The census bureau today announced the 1930 growth cotton ginned before September 16th aggregated 3,729,683 running bales, including linters. The comparative figure for last year was 3,351,613 bales.

Texas ginnings to this date this year were 1,842,126 running bales.

## OFFICER KEPT BUSY BY "KNIGHTS OF THE ROAD"

(By Associated Press)  
MARSHALL, Sept. 23.—N. F. Adams, special officer of the Texas & Pacific railroad here, believes he has a record all his own for one month's work.

He is credited with removing 426 "knights of the road" from trains passing through Marshall during August.

The officer is a firm believer in the time-honored expression that "birds of a feather flock together," by reason of the fact that he sometimes finds as many as thirty persons in a single freight car. On one occasion 25 men were chased off a flat car while on another, fifteen were on an improvised "pullman," and seven on planks thrown across the rods under the cars.

Again he discovered twenty in hiding in sewer pipes on a flat car.

Crotalaria, a new legume, grows well in southern states.

## Hornsby to Manage Chicago Cubs in '31

(By Associated Press)  
CHICAGO, Sept. 23.—William Wrigley, Jr., owner of the National League champion Chicago Cubs, today announced that Rogers Hornsby would replace Joe McCarthy next year as manager of the Cubs.

There has been no disagreement, Wrigley said, he simply has his heart set on a world championship.

## Runnels Wins First Prize at Angelo

Runnels county was awarded first place in the county agricultural exhibits at the West Texas Exposition in San Angelo. The awards were made Tuesday at noon, soon after judging was completed in that division.

The grading was done by experts from the extension service of A & M College, and the total score made by the Runnels county booth indicates that the quality of the produce was even better than in former years. Following is the standing of the counties which exhibited:

First—Runnels, 960 points  
Second—Taylor, 945 points  
Third—Mason, 928 points  
Fourth—Callahan, 923 points  
Fifth—Glasscock, 722 points.

News of Runnels county winning first place was phoned here at 1:00 o'clock Tuesday afternoon by County Agent C. W. Lehmsberg, who has remained with the exhibit since it was placed in the building Sunday. By winning first place the prize of \$125 will be awarded to Mr. Lehmsberg and the booth will be taken to Abilene next Sunday where it will be on display all next week at the West Texas Fair. From there it will be taken to Coleman and entered in the fair at that place.

The West Texas Exposition at San Angelo opened Monday, showing to the biggest opening day crowd in the history of the fair. Crowds started thronging the gates early in the afternoon and reached the high peak soon after supper Monday night when many thousand visited the grounds to see the exhibits and the grandstand program.

Judging started soon after noon Monday in the departments but the agricultural judges did not get to the county booths but expected to start on them early Tuesday morning and have their awards ready during the day.

The big crowd Monday night witnessed the big musical revue and was well satisfied with the grandstand program. Horse races will be on the afternoon program for two days this week, terrapin races one day and Saturday afternoon football fans will have the opportunity to see two college teams in action. Sul Ross Teachers College at Alpine will meet the team from Schreiner Institute at Kerrville. These two teams are old rivals and will stage a grudge battle for the winning score. A large number of former Ballinger players are attending Sul Ross this year and several will be seen in action at San Angelo Saturday.

A large crowd of Ballinger people plan to attend the fair on Saturday and witness the entire exhibition.

Friday night a real wedding will be staged in front of the grandstand in connection with the musical comedy show for that night. The name of the couple to take part will not be announced until that time but the wedding will be a real one and legal in every particular.

Rodeo fans are receiving a real treat afternoon and night at San Angelo as some of the outstanding performers in this line in the county appear on the programs.

There are 1,237 farms in what is called "greater Atlanta."

St. Kitts is the mother colony of the British West Indies.

## Kincheloe is Named For Treasury Job

(By Associated Press)  
WASHINGTON, Sept. 23.—President Hoover today announced the appointment of Representative David H. Kincheloe, Democrat, of Kentucky, to the federal customs court, and former Assistant Secretary of the Treasury Eliot Wadsworth, of Boston, to represent the United States in the Santo Domingo conferences seeking ways and means to reconstruct the hurricane swept district of the island republic.

## WORK ON COLORADO RIVER DAM STARTED

Dr. Ray Lyman Wilbur, secretary of the interior, driving the last spike on the railroad from Las Vegas, Nev., to the site of the Hoover dam. The spike, made of silver, signified beginning of construction work on the \$165,000,000 Colorado river project. Left to right: Rep. William Eaton of Colorado, Sen. Key Pittman of Nevada, Secretary Wilbur and Senator Shortridge (holding up hat).

## Crews Road Helped By Caliche Surfacing

County Commissioner R. J. Deens has completed surfacing bad places in the Crews road as far as his precinct extends and at present is engaged in placing caliche on the river road one mile west of town.

A large part of the Crews road is over caliche hills and only a small portion of it was bad in wet weather. Strips through valleys is black dirt and when wet was hard for traffic to get through. For a distance of about 13 miles from Ballinger Mr. Deens has hauled caliche and covered all spots that get wet so that this from now on will be an all weather road. A rain will be needed now in a few days to soak the loose caliche a thorough soaking and keep it from blowing away in high winds.

The portion of the river road receiving treatment this week extends from the highway in South Ballinger to the Santa Fe right-of-way. It is only a short distance but is dirt that becomes very bad each fall during rainy weather. The remainder of this road extending towards Spring Hill is of a sandy nature and does not get sticky. Mr. Deens plans other improvement work on lateral roads between now and January 1st, when his term of office expires. He has had one of the best years of his career in improving roads in this section and all roads leading from Ballinger and into state highways have been helped by his work during the last few months.

R. A. Perry, commissioner of the Miles precinct, is busy at present with some cement work. Mr. Perry is working on a few bad crossings in roads in his precinct and hopes to have them in good shape for the heavy fall traffic.

Other commissioners are busy dragging roads and keeping them in the best condition possible. The long continued dry weather has been hard on dirt roads and it has been hard for commissioners to keep them in good shape.

Canadians plan to ship wheat by the Hudson Bay route, which was used for a shipment in 1859.

There are 200 golf clubs in and adjacent to Chicago.

California is seeking to exterminate the Asiatic Mina, a fruit-destroying bird.

## Aviators Prepare For London Flight

(By Associated Press)  
CHARLOTTETOWN, Prince Edward Isle, Sept. 23.—Captain Errol Boyd and Lieutenant Harry Connor flew their monoplane Columbia from here today for Harbor Grace, Newfoundland, whence they plan a transatlantic flight to London.

The first carload of mohair ever shipped from the "Big Bend" section of Texas was marketed recently.

A. W. Petnecky, justice of the peace in Gillespie county, Texas, for 40 years, seeks reelection.

## Wife, Mistaken for Burglar, is Shot

(By Associated Press)  
SHERMAN, Tex., Sept. 23.—Mrs. P. L. Burke, 75, who was mistaken for a burglar by her husband at the Burkes' home at Van Alstyne and shot in the thigh with a double-barrel shot-gun last night, is in a serious condition in a hospital here today.

## Ninety Year Old Veteran is Dead

(By Associated Press)  
WASHINGTON, Sept. 23.—Representative Charles Manly Stedman, 90, Democrat, of North Carolina, the only Civil War veteran in congress, died here today.

## Salvation Army to Stage Drive Soon

W. E. Hutchings, general campaign manager for the Salvation Army, arrived here Tuesday and immediately called on members of the Runnels county advisory council of that organization to discuss plans for staging the annual drive for finances. This county is located in the southwest division of the organization and each year a quota is assessed against each county and a financial campaign started to raise that amount. For the past several years the campaign here has been very successful and the full quota has been raised within one day's time.

"It is generally conceded," said Mr. Hutchings, "that the Salvation Army comes nearer meeting every phase of human need than any other organization in the world. Its practical, common sense, direct method of going straight to the heart of a difficulty dealing with it with unflinching courage, intense earnestness and refreshing humility has made the Salvation Army a household word, significant of hope and help over the world."

"As the citizens of Ballinger and Runnels county have always been rather generous in their consideration of the army, it is still hoped all will cooperate in the campaign this year," Mr. Hutchings said.

The county has a strong advisory board that will meet with Mr. Hutchings within the next few days and plan for the campaign here. The Salvation Army makes one appeal for finances each year and never allows other soliciting in its name to be done in towns and counties that cooperate in their financial campaigns.

Further announcements will be made within a few days giving the exact date for raising the quota in the county.

The first carload of mohair ever shipped from the "Big Bend" section of Texas was marketed recently.

The Canadian province of Manitoba is 60 years old.

## Utility Construction Includes Work Here

Current construction work being carried forward by the company includes the extension of lines to new customers, the rebuilding and improving of city distribution systems, and the installation of street lighting equipment.

Important new lines under construction are: a 6600 volt line from Ovalo to Bradshaw, a distance of approximately eight miles, to form the third phase of the system connecting the two towns; the running of a three phase 11 kv line to the W. D. Swan oil lease in Jones county to supply service to the C. C. Julian Royalty Company for its drilling operations; the extension of a three phase primary line to the new Santa Fe Railroad Terminal north of San Angelo to serve the shops with power for electrical equipment, and the extension of a primary line to a new residential district in McCamey.

In Abilene, 20 street lighting standards will be erected on Sayles Boulevard, from South Ninth St. to South Fourteenth St. Lighting equipment will also be installed on the Colorado River bridge at Ballinger.

Distribution systems will be improved in Apermont and Anson. A new line will be built to serve the new Apermont High School and an extension will be run to the city pump station and water wells at Anson.

Seventy-five new grounds are being installed on the 17-mile transmission line between Vernon and the town of Harrod.

Anticipating an early recovery from the current depression, the company is extending and improving present equipment in order to be ready for the increased activity which always follows subnormal conditions in West Texas.

Short sightseeing flights cost 50 cents a person at the Fresno, Cal., airport.

## Panthers Winner Of Dixie Series

(By Associated Press)  
FT. WORTH, Sept. 23.—Bringing the Dixie championship back to Texas the Ft. Worth Cats yesterday took the fifth and final game of the Dixie Series from the Memphis, Southern Association, team, 13 to 6, before a small crowd.

The victory gave the Texas League nine of the eleven championships since the series was inaugurated.

## Butte Out of Governor's Race; Will Name Others

## Convict Confesses Attack on Girl, 8

(By Associated Press)  
SOUTH BEND, Ind., Sept. 23.—George Myers, 40, ex-convict, today confessed to kidnapping, assaulting and murdering Marvin Apple, 8 years old.

The slayer's arrest followed references the little girl made to her playmates before her death of her friend "George."

## Youths Tell of Murdering Black

(By Associated Press)  
FT. WORTH, Sept. 23.—The story of four Dallas youths relating robbery and the fatal shooting of a negro atop the Ringling Brothers-Barnum & Bailey circus train between State Fair Park and Dallas union terminal which was originally discounted by the officers, received more attention here today when circus gang bosses said Frank Sutton, 33, Chicago negro, who usually rode on top of the cars, was missing.

The police are investigating.

## Senator Oddie will Present New Bill

(By Associated Press)  
WASHINGTON, Sept. 23.—Senator Tasker L. Oddie, Republican, of Nevada, today announced that he would introduce a bill to exclude from entrance into the United States of all Soviet manganese, coal, lumber, wood pulp, gelatine, wheat and glue.

R. A. Wagner, of San Angelo was here Tuesday attending to business and reported a big crowd in that city Monday to attend the opening of the West Texas Exposition.

More than 15,000 persons are engaged in commercial fishing in North Carolina.

## WEATHER REPORT

(By Associated Press)  
West Texas—Partly cloudy tonight and Wednesday; cooler in the north portion Wednesday.

East Texas—Occasional light showers tonight and Wednesday.

(By Associated Press)  
DALLAS, Sept. 23.—Dr. George C. Butte, of Austin, assistant solicitor general of the United States, today withdrew as the Texas Republican gubernatorial nominee, explaining that he believed a more effective candidate is available.

The candidate's withdrawal was given to the state Republican executive committee, meeting here today. The committee will name a nominee to succeed Butte, also nominees for attorney general, railroad commissioner, lieutenant governor and comptroller, as the primary nominees have declined to make the race.

Paul G. Silber, of San Antonio, spent the week-end here looking over the new city hall. A few alterations were made after the architect's inspection which will require but a short time to complete.

## Rains and Twister Hits Near Coast

(By Associated Press)  
DALLAS, Sept. 23.—Rains today and a twister yesterday featured the weather in Texas.

Pear Ridge, near Port Arthur, was struck by a twister yesterday, injuring three persons and causing an estimated damage of \$10,000. Several small homes were destroyed. About one-hundredths of an inch rain fell.

Austin, Corsicana and Dallas reported slight rains.

With compulsory physical education being taught in every school in the state the need of a gymnasium is being felt here. Classes in this work are being taken on the school campus for their physical work with the exception of one class each week which studies health methods from books. This is not bad at present but it will soon be winter and almost impossible for classes to meet outside the buildings. Other towns near us have looked forward to the need of this work and have recently built gymnasiums. Winters completed a new building for this purpose during the past summer and their physical education work is being taught in it this year. Brady has completed one of the largest and finest in this section of the country. Abilene, Coleman, San Angelo and other West Texas counties have had them for several years.

Parents with small children in school should know their teachers. A teacher has much to do with the moulding of character into small children and every parent interested in their child's success owes it to the child to know their teacher and lend every co-operation possible to them to achieve the best results. Your acquaintance with the teacher will help them to better understand the child and accomplish more with it in many ways. Teachers are anxious for home co-operation and realize that often too much is left up to them. Knowing them and being their friend will make them take a deeper interest in your child as they will feel that you really care and will appreciate any effort you put forth for them. If you have never visited the room where your child attends school, do so sometime and this will give you a better idea of how to help with outside school work.

At this time many people say "I cannot take the paper, times are too hard." These people do not stop to realize that in times of depression a paper is a very valuable asset. Careful reading of the county paper printed in the town where you trade will save you money each week which will amount to more than the entire cost of the paper for a whole year. Merchants are helping people live economically by offering each week, merchandise at special prices. Selecting these bargains that you need each week from the ads in the paper will bring about a big saving and make the paper worth much to the entire household. It is too easy to do without reading in good times but following a drought when many plans of relief are being discussed, better market systems, and many other matters that will help to reduce expenses, the need is bigger than ever.

## Makes Life Sweeter

Too much to eat—too rich a diet—or too much smoking. Lots of things cause sour stomach, but one thing can correct it quickly. Phillips Milk of Magnesia will alkalize the acid. Take a spoonful of this pleasant preparation, and the system is soon sweetened.

Phillips is always ready to relieve distress from over-eating, to check all acidity, or neutralize noxious. Remember this for your own comfort, for the sake of those around you. Endorsed by physicians, but they always say Phillips. Don't buy something else and expect the same results!

### PHILLIPS Milk of Magnesia

## HOW'S your HEALTH

Edited by DR. LAZO GALUSTOV, M.D., of the New York Academy of Medicine

### TREATMENT OF SNAKEBITE

The treatment of snakebite is divided into two parts, one designed to destroy and confine the spread of the poison, the other to neutralize it.

When one has been bitten by a snake suspected to have been of the poisonous variety, a ligature compressing bandage should be applied immediately at a point above the bite.

This ligature should be tight enough to prevent the return flow of the blood through the veins, but not tight enough to compress the arteries.

Then the wound made by the snake should be cut into freely and deeply, and bleeding should be encouraged. The larger wounds so caused should be washed out with a strong solution of potassium permanganate.

This must be done as expeditiously as possible—not more than two or three minutes should be consumed in the application of

the ligature and the scarification of the bitten area.

Care should be taken not to make the ligature unnecessarily tight, nor to keep it on for longer than 30 minutes. Serious damage may result from a more prolonged interference with the circulation.

Alcohol has no specific value in the treatment of snakebites, and in excessive quantities is harmful.

The only specifically effective treatments for the bite of poisonous snakes are the so-called anti-venins. To be effective they must be administered soon after the bite, and in sufficiently large quantities.

While administration of the anti-venins is a medical procedure requiring a certain amount of skill, the application of ligatures, scarification, and the use of potassium permanganate may be carried through by the person bitten or by those about him.

## SUNDOWN STORIES

### THE PUDDLE GAME

By Mary Graham Bonner

"I wonder what their favorite game may be," John asked, as he dressed himself in the raincoat and rubber boots and rubber that the raindrops had ready for him.

Peggy was all fixed up in her costume and so was the Little Black Clock.

"We'll find out in just a moment," said the Clock. "I rather imagine I have an idea—in fact I know I have an idea what the game is to be."

"Ready now," called the raindrops, as they pattered down to the earth.

"Follow us," they called. And John and Peggy and the Little Black Clock followed the

raindrops out of the woods, along a road until they came to an old dirt road, and now the raindrops began to come down in great numbers.

"Now let's see who can make the largest ones," they called.

"I'm going to watch you play," the Little Black Clock said.

"I don't know yet what we're going to play," John said.

"Neither do I," chimed in Peggy.

"Tell them, raindrops," said the Little Black Clock.

Several very large raindrops landed on Peggy's face, and several landed on John's face, and then they explained what they were going to play.

"We're going to play the puddle game."

"We see how many of us can make a puddle in the shortest time. The ones who win are taken with the wind next time the wind goes racing."

"Come, we'll make a puddle in that little hole in the road over there."

The raindrops all started making puddles. John and Peggy splashed about in their rubber

clothes and cheered the others along. "We've won, we've won!" shouted one group of raindrops.

(Tomorrow—"The Winners' Prize")

## An American In Paris

By Hazel Reavis

PARIS, Sept. 23.—There are those who will tell you that Paris is not an easy place to work in.

An American illustrator who forgets about his annual earnings after they reach the \$20,000 mark recently arrived in town with mate, motor and mind made up to find a studio and do some intensive work anticipatory to two years of travel and loafing.

He found the studio in a street full of studios in Montparnasse. The rent was cheap, the place looked like it could be heated in winter as the family moved in and for a week work went forward without interruptions.

### Friends and Friends

Then news got around that Pat was at number 13 and his friends began to drop in. They came all the way from New York, Philadelphia and Washington, D. C., to say hello and invite Pat out for a drink. Failing to lure him from his drawing board they accepted a drink and stayed to spill the gossip.

Next day they came back with other friends who were dying to see old Pat and welcome him to the Quarter. A few cronies even located studios in the same street.

Pat, his mate and his motor began making week-end trips to country towns. The week-ends extended into weeks and the other day Pat announced he found he couldn't work in Paris and was going to Florence next winter.

### Sahara Solitude

## Ballinger Firemen Receive \$100 Check

M. C. Atkins, chief of the Ballinger Fire Department, received a letter Tuesday morning from H. W. Lynn, manager of the Ballinger Cotton Oil Mill, thanking the department for their services in the fire at that place Saturday and enclosing check for \$100 as a token of the company's appreciation.

Mr. Atkins stated that it was one of the largest donations ever received by the fire fighters and that it was deeply appreciated by every member of the department.

The men of the company, Mr. Atkins stated, are proud of their equipment, company and new home which they will soon occupy, but most of all they are proud of a good record as fire fighters. They plan to hold a school here in the near future to study fire fighting in a systematic way and try to become more efficient in their line. When they are successful in controlling without any big loss to the property owner they feel they have been well paid for their efforts.

Following is a copy of the letter received from Mr. Lynn: Mr. Marvin Atkins, Chief Ballinger Fire Department, Ballinger, Texas.

Dear Marvin:

We want to express to you and every member of your volunteer fire department our sincere appreciation for the most excellent work done in extinguishing the fire in our seed house on last Saturday, thereby preventing a very great loss. As you know within one hour from the time the alarm was turned in, and notwithstanding the fact that the fire was almost inaccessible, it was entirely out and your company was ready to return to the station. No better work could have been done by any volunteer

all the way from Chicago to do some serious work in Paris went clear to north Africa before they got relief from studio swarms. Down in the Sahara they found time and quiet for work.

or paid company. In this connection we would also like to commend the City Officials for their recent efforts to furnish Ballinger better protection in the form of the new pumper and the improvements recently made on the water system.

We are enclosing check for \$100 as a slight token of our appreciation.

Again assuring you and your company of the goodwill of our company and of the good wishes of the writer, we are

Yours very truly,  
Ballinger Cotton Oil Co., Inc.

## School Notes

### Juniors Hold Meeting

Eleanor Gates, president of the Junior class of Ballinger High, called a meeting of all the class members Monday afternoon for the purpose of electing the policemen for 1930-31. Those elected were Walter Atwell, Arthur Crockett and J. C. Cooper.

Cathryn Barnett, Mildred Fulcher and Minnie Ola Cox were appointed as the social committee by Aylene Cochran who is chairman of the committee. Plans are being made for an entertainment of some sort for the class.

The members of the Junior class for this school term are trying to make this the best known class of our school. Every one is interested in all that is being done for the betterment of the class and school.

Our sponsor, A. F. Ligon, is doing his part for the class and is

trying to help us in every way possible. He has the spirit that is necessary to make the students become interested and try to raise the standard of their class.

**"I Only Wish I Had Taken Konjola Sooner"**

Galveston Contractor Soon Relieved of Rheumatism and Kidney Trouble—Eager in Praise.

MR. JOE GONZALEZ

"Rheumatism and kidney trouble kept me in constant misery for two years," said Mrs. Joe Gonzalez, 90 Eighteenth street, Galveston. "The rheumatism centered in my arms and legs and the pains in my arms and hands were frightful. I could not close my hands at times and my hips and lower limbs were in such condition that I could not walk. My kidneys were terribly weak and frequent bladder actions robbed me of sleep at night. I always had a dull pain across the small of my back."

"A friend suggested this new medicine and I only wish that I had taken Konjola sooner. The results have been wonderful and I feel like a new person. The pains in my shoulders and arms have disappeared and I can walk about without discomfort. I got about as I formerly did and my kidneys are gain in normal condition. My appetite has increased and my general health has vastly improved."

Konjola is recommended for ailments of the stomach, liver, kidneys and bowels and rheumatism, neuritis and nervousness.

Konjola is sold in Ballinger, Texas, at the Weeks Drug Store, and by all the best druggists in all towns throughout this entire section.

**TEXAS HENS EQUAL BEST IN UNITED STATES**

(By Associated Press) COLLEGE STATION, Sept. 23.—Entries of Texas poultry breeders in the Texas National Egg-Laying Contest being conducted at Texas A. & M. are registering records equal to those made by hens of the best breeders in the United States. D. H. Reid, head of the poultry husbandry department at the college, has announced after a check of results for August, the tenth month of the present contest.

The high pen of the contest for the month is owned by a county agent, E. R. Duke, Channing. His birds laid an average of 233 eggs each during August. The ten high pens include those of the following Texas breeders: Sims Quality Farm, Whitesboro, 226 eggs; Ware Poultry Farm, Stockdale, C. C. Hampton, De Leon, R. O. Owen, Rotan, C. O. Davis, Rule.

An individual entry of George A. Stewart, Sherman, laid 29 days out of 31, and one of E. M. Chapman, Denton 23 days out of 31.

Oklahoma shipped nearly 2,700 carloads of Irish potatoes to market this year.

**SOUR STOMACH**

Gas Formed, Head Hurt, and Woman Had To Hold To Thighs When She Walked.

Kaufman, Texas.—"Two years ago, I began suffering with spells of indigestion," says Mrs. Marshall Smith, of this place. "It seemed like everything I ate disagreed with me. I had gas on the stomach, and often my head would hurt so bad I had to lie down."

"Everything would get black before my eyes, and I would be so dizzy when I would get upon my feet that I had to hold on to things, to walk around the room."

"My food soured on my stomach, and I was constipated."

"I had often read about Black-Draught, and my mother told me it was a good medicine to take, and so I began a course of it."

"It was not long until I was feeling better. I took a pinch after meals, and I soon found I was suffering much less. It relieved constipation, and I was not any longer troubled with indigestion."

"We try to keep it in the house, and I use Black-Draught now, whenever I feel a sick headache coming on. It is a fine medicine."

Theford's Black-Draught is prepared from medicinal roots and herbs, of highest quality, finely powdered, carefully combined and packaged by automatic machinery.

**Baylor Shifting Men for Opener**

(By Associated Press) WACO, Sept. 23.—Evidently convinced that the failure of the 1929 team was due to the fact that the proper offensive combination was never properly effected, Coach Morley Jennings Baylor Bears will be switched considerably when the Bruins take the field against the Denton Teachers Saturday, Sept. 27.

The outstanding change made by the Baylor coach has been the shifting of Captain Botchey Koch from his guard position to right end and the placing of Witcher, Koch's mate at guard last year, at tackle. In early season scrimmages, both these men have shown that they will be at home at their new places.

Other radical changes include the placing of Maurice Pierce, third string fullback in 1929, at end, and the shifting of Albert Leyter and Bill Barrett, letter men at ends last year, to half-back positions.

In signal practice this week the following line-up has been taking the field first: Pierce and Koch, ends; Morris and Witcher, tackles; Winton and Zachry, guards; Paradeaux, center; Wilson and Alford at quarter; Parker and Lewter at halfbacks and Barrett and Kathart at fullback.

**WINGATE NEWS**

Misses Lella and Grace Harter visited Miss Lorena Dean Sunday.

Mr. and Mrs. Dode Seth visited Mr. and Mrs. Walker of Shep Sunday.

Mr. and Mrs. Shortie Slason visited in the Sleiger home Sunday.

Sunday school was well attended Sunday morning with good lessons reported. Several went on to Crews for church services.

Mr. and Mrs. L. A. Faubin were guests of Mr. and Mrs. C. H. Miller Sunday.

The farmers are all busy picking cotton, which was very sorry this year. If this warm weather continues it will all be picked before long.

Mr. and Mrs. W. A. Hale and family visited in the home of Mr. and Mrs. J. T. Brandon Sunday.

Several of the young folks attended a party at the J. P. Boothe home at Blanton Saturday night.

Misses Ozella and Mona Avent

**What the Automobile has taught women about household lubrication**

Experience with motor cars has taught women that moving parts must be protected against wear by a film of oil. Many of them haven't learned, however, that moving parts of sewing machines, vacuum cleaners, lawn mowers, washers, and other mechanical devices must also be protected against dirt and rust.

3-in-One Oil not only lubricates; it also cleans and protects. It is different from all others, because it is a scientific blend of three high grade oils—animal, mineral and vegetable. 3-in-One is the oil you should use on mechanical equipment if you want best results.

Don't risk your expensive household devices by using oil that does only half the job. Insist on the old reliable 3-in-One. It costs little more to buy and much less to use. At good stores everywhere, in 15c and 30c sizes. For your protection, look for the trade mark "3-in-One" printed in Red on every package.

visited the Brevard girls Sunday. Miss Myrtle Ruth Hale visited Arnold Alcorn Sunday.

Mr. and Mrs. Frank O'Dell, of the Dale community, visited Mrs. O'Dell's parents, Mr. and Mrs. John Fuller Sunday.

**COLEMAN FARMER HAS GOOD ROASTING EAR CROP**

(By Associated Press) COLEMAN, Sept. 22.—At least one Coleman county farmer, not to be outdone by cries from over the drought belt that this year means ruination for the farmer, has found a means of overcoming in part, his short crops.

B. F. Hamilton, who lives a few miles northwest of here, is busy marketing his roasting ear crop to merchants here. One day recently he brought in 45 dozen ears and the following day 43 dozen. From an acre and a half patch of corn, he expects to sell \$50 worth of fresh corn. The corn was planted July 1. Last year Hamilton planted corn September 1, and was selling roasting ears in November.

The German government has established a school in Schleswig-Holstein for training city boys for farm work.

**MOVIES**

Flame of Revolt Colors Picture, "Song of the Flame"

"Song of the Flame," a First National picture of the Hammerstein and Harbach operetta, was produced in full Vitaphone sound and Technicolor throughout. It paints in sound and color a spectacle of the Russian revolution more massive and impressive than anything heretofore shown on the screen.

There are armored motorcycles passing over shelled bridges; autos crashing into trains; escapes from castles, dashes on foot, horseback, auto and plane. In short, "Song of the Flame" is a stuntman's paradise.

Alan Crossland directed the picture, and heading the all-star cast are Alexander Gray, Bernice Claire, Noah Beery, Alice Gentle, Inez Courtney and Bert Roach. Some of the music of the operetta and much new music especially written for the production, is heard. All of the principals sing, and there are many groups of special choruses singing in Russian and English, in ensemble numbers.

The picture is not a "film operetta," for singing is introduced only at logical spots. Against the epic background panorama of a national revolt, a simple, appealing love story and a thrilling human drama is developed.

Be wise and advertise.

Be wise and advertise. **BAYER ASPIRIN is always SAFE** BEWARE OF IMITATIONS

UNLESS you see the name Bayer and the word genuine on the package as pictured above you can never be sure that you are taking the genuine Bayer Aspirin that thousands of physicians prescribe in their daily practice.

The name Bayer means genuine Aspirin. It is your guarantee of purity—your protection against imitations. Millions of users have proved that it is safe.

Genuine Bayer Aspirin promptly relieves:

- Headaches
- Neuritis
- Colds
- Neuralgia
- Sore Throat
- Lumbago
- Rheumatism
- Toothache

No harmful after-effects follow its use. It does not depress the heart. Aspirin is the trade-mark of Bayer manufacture of monoacetic acid ester of salicylic acid.

**"TODAY BUSINESS WORKS WITH SCIENCE"**

Says

**PHILIP D. ARMOUR**

First Vice-President of Armour and Company

one of the world's largest meat packing concerns, a purveyor of food to millions. The name "Armour" in connection with food products is known for the highest possible quality wherever these products are sold.

"Science and business working together in the packing industry are constantly bringing rapid changes in methods and quality, all of which are to the lasting benefit of the public at large. Your employment of the benefits of the Ultra Violet Ray Process in the 'Toasting' of tobaccos for LUCKY STRIKE is an impressive example of how science can be utilized for the benefit of millions. It is in pace with the finest spirit and devotion to quality in American industry."

*Philip D. Armour*

**LUCKY STRIKE**—the finest cigarette you ever smoked, made of the finest tobaccos —the Cream of the Crop—**THEN—"IT'S TOASTED."** Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating! Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray.

**"It's toasted"**

Your Throat Protection—against irritation—against cough

Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited Mr. Philip D. Armour to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of Mr. Armour appears on this page.

## Epworth Leaguers To Meet at Winters

Special to The Ledger:

**WINTERS, Sept. 23**—The first rally of the Epworth Leaguers, in the history of the west Brown-wood district will be held here September 28, with representatives of this district and nearby districts taking an active part on the program.

This is to be an all-day affair for Leaguers, opening at 8:00 a. m. and closing at 5:00 p. m. One of the special features of the rally will be the sermon at the eleven o'clock hour which will be delivered by Rev. Ray Johnson, of Abilene, who is known as the best boy evangelist in Southern Methodism. Rev. Johnson stated that his sermon would possibly be on a subject which has been stressed in League work this year "Making Life Count."

Miss Evelyn Darden, student of McMurry College, of Abilene, also secretary of the St. Paul's Epworth League, will be with us for the day and will appear on the program during the afternoon. J. E. Shewbert, Jr., also of St. Paul's League at Abilene, is going to talk on the recreation standard of the Leaguers.

A special music program for the rally is being planned by Glenn Davis, director of the choir of the First Methodist Church of Winters. The program for the day will be put on by people of the League age, with the exception of the eats, which will be furnished by the members of the Women's Missionary Society.

The committee in charge of the arrangements is composed of the following: Miss Lucille Neely, district secretary; Paul Killam, president of Runnels County Union; Miss Maudie Bird, secretary of Runnels County Union; Lyle Defebach, vice-president of Central Texas Conference of Epworth Leaguers.

## Doctor's 3 RULES Big Help to Bowels

What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:

1. Drink a big tumblerful of water before breakfast, and several times a day.
2. Get plenty of outdoor exercise without unduly fatiguing yourself.
3. Try for a bowel movement at exactly the same hour every day.

Everyone's bowels need help at times, but the thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a thorough cleaning out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin and other helpful ingredients that couldn't hurt a child. But how it wakes up those lazy bowels! How good you feel with your system rid of all that poisonous waste matter.

Clean up that coated tongue, sweeten that bad breath, and get rid of those bilious headaches. A little Syrup Pepsin will soon free the bowels from all that waste matter that makes the whole system sluggish. You'll eat better, sleep better and feel better.

You'll like the way Dr. Caldwell's Syrup Pepsin tastes. The way it works will delight you. Big bottles—all drug-stores.

A Doctor's Family Laxative

# SPORTS

Ballinger Bearcats and Roscoe Plowboys at Fair Park Friday at 4:00, the two teams that played for the regional championship last year. This game should draw one of the largest crowds of the year. The Bearcats have gained some experience over the week-end and have learned to fight in a way that has gained favorable recognition from the mighty Blonny Cross.

McIntire, with another week's work should be able to show the fans here some good ball toting by Friday. Mac joined the team last Monday week and made a good showing in the San Angelo game with only four day's work with the local club. He will be put through the grind this week in an effort to acquaint him with all plays and have him in good shape to go good Friday.

The Bearcats know from last year's experience that they have to keep both eyes open and watch this Roscoe bunch. They have also realized one other thing since the Winters Blizzards defeated the Plowboys 7 to 0, and that is that Winters is a real contender for the district championship and will be hard to beat. The western end of the district this year offers several teams on a par with all others. Ballinger will have hard sledding with Eden, Coleman, and Winters and from the scores that Melvin is piling up they may meet a big obstacle there.

Night football will be on the program at Abilene Friday and Saturday nights of this week. Simmons University opens its season Friday night with John Tarleton College, of Stephenville, and on Saturday night the McMurry Indians will meet the Abilene Christian College in the first inter-city football game ever played in Abilene. They will also use the arc lights at Parramore Field at Simmons in an after-supper scrap.

The Bearcats will have one of the best passing attacks this year ever seen here. With two excel-

lent passers and a large number of good receivers in McIntire, Partridge, Flynt, Robinson, Marsh, Reneau and Jacobs there will be danger of them scoring on any team any minute. Coach Wright is giving his club plenty of the air route this year and every team will be constantly on the watch for passes which will weaken their secondary defense for running plays.

Fort Worth captured the final game of the Dixie Series Monday afternoon in a wild hitting spree. This brings another athletic honor to Texas and it was accomplished in short order, Memphis only winning one of the five games played. The rate the Cats were slugging the ball proved that they did not want to journey back to the Tennessee metropol-olis for another game.

## Crosby Farmers Are in Dire Need

(By Associated Press)  
**CROSBYTON, Sept. 23**—Seventy five percent of the chickens and hogs of Crosby county and more than twenty five percent of the dairy cattle have been sold by their owners in an effort to provide the necessities of life in the drought stricken districts of the county, a committee of bankers has estimated.

The committee estimated that there were 750 families in Crosby county that would need assistance to get through the winter until they had a crop in the spring. After a personal survey the committee said that farmers would need financial assistance to feed 3,000 horses, 3,000 mules, 2,000 dairy cows, 5,000 hogs and 40,000 chickens.

Farmers also will need some money to buy seed wheat and they also need feed, the committee continued. "If we can get seed wheat this fall, and the wheat comes up, we will be able to carry most of our cattle through until we can get feed in the spring."

Mrs. A. T. Buchanan and little son, Hoyt Smith, of Ft. Stockton are here visiting relatives and friends.
