Storms Leave 31 Dead, 100 Hurt In South

MEMPHIS, Tenn. (AP) — Deadly tornadoes ripped through three Midsouth states yesterday, leaving 31 dead and about 100 injured along their haphazard path.

The storms, probing from the furious clouds of a squall line, struck in Arkansas and Alabama—with a bloody jackpot in Mississippi. Extensive property damage was reported.

Twenty-eight were killed near Commerce Landing, Miss., about 30 miles south of here, including an unidentified young girl who died today in a Memphis hospital. Three perished in another twister at Olive Branch, Miss., 18 miles south of Memphis.

Hop - scotching tornadoes also caused considerable damage near Marianna, Ark., and Huntsville, Ala., but no one was seriously injured.

Many of the Mississippi dead and injured were schoolchildren. Each twister had an elementary school dead center in its path.

National Guardsmen patrolled the Commerce Landing area today as survivors searched the Leatherman plantation's splintered tenant houses for possible additional victims.

Most of the damage at Olive Branch centered at Wiggins Negro elementary school. Twenty-three students were at their desks when the twister struck. A teacher and two children were killed.

Ambulances from towns in the surrounding delta area moved the injured to hospitals in Memphis and Tunica, Miss.

The 25-bed hospital at Tunica, about 15 miles south of Commerce Landing, was soon jammed. Volunteers, some of them pretty girls in party dresses, were organized to help the staff. A school was converted into a makeshift dormitory for the homeless.

The Commerce Landing tornado cut a swath 200 feet wide through the 8,000-acre Leatherman plantation, destroying a row of tenant houses, a Negro church, a school and a cotton gin.

W. V. France said the school was whipped away before his eyes, as if a giant hand had snatched it up and tossed both wreckage and bodies into the boiling clouds.

"Afterward men and women came to the spot," he said. "They would find a child and come crying up the road with it in their arms. It doesn't seem possible anybody got out, but they say two little boys did."

The school had an enrollment of 45. No one knew how many of the children were in the school when the tornado struck. The teacher was among the battered dead.

New Norther Due Thursday

By The Associated Press

Dense fog shrouded the Texas coast early Wednesday, grounding airplanes. It began lifting after sunrise.

The murk cut visibility to 1-16 mile at many points. Planes were grounded at the Corpus Christi airport.

A norther heading in from the West promised scattered showers for the state and possible snow in the Panhandle.

The Pacific cold front, described as not severe, was due in West Texas Thursday. Scattered showers and colder weather was forecast for the state. Snow might fall in the Panhandle Thursday, forecasters said.

The lowest reported visibility was 2-16 mile at Victoria, Palacios and Galveston. Shortly after dawn the visibility at Palacios had gone up to ¼ mile, and the upper Gulf Coast was just about clear.

No rain has been reported in 24 hours. Patchy clouds cover most of the state.

Overnight temperatures ranged from 20 degrees at Dalhart to 60 at Corpus Christi.

COGDELL HOSPITAL ANNIVERSARY

Mrs. D. M. Cogdell is shown above cutting Cogdell Memorial Hospital's first birthday cake last night at a joint meeting of the governing board and the medical staff and wives. During the first year of operation the county sponsored hospital has had 1,757 patients. From left are: Mrs. R. B. Fulcher, wife of the administrator; Mrs. Harry Ward, wife of one of the staff doctors; Mrs. Cogdell; Mrs. Edgar Taylor, wife of the county judge; and Mrs. Nolan Watson, wife of the chairman of the hospital's board of directors. About 30 persons attended the informal celebration and dinner. (Lee Watson photograph)

President Says Stand On Formosa 'Crystal Clear'

Red China Sends Secret Note To Nehru On Cease-Fire Plan

By TOM OCHILTREE

LONDON (AP)—Indian sources said today Communist China has delivered a secret message about a Formosa cease-fire to Prime Minister Nehru.

This development came as Red China appeared to be casting about for a face saving way to go to the U.N. Security Council to discuss the Formosa situation.

The Indian informants denied reports published abroad that the Peiping message to Nehru demanded the surrender of Formosa, the the price for a cease-fire in the Chinese Nationalist stronghold, as China coast fighting. They would not disclose the contents of the message.

Peiping's top diplomatic representative in London, Charge d'Affaries Husan Hsiang, called on Nehru yesterday. The meeting took place at the home of Nehru's sister Mrs. Vijaya Lakshmi Pandit, India's high commissioner in London. Nehru is here for a conference of British Commonwealth prime ministers.

The leader of Asia's neutralist bloc received Peiping's ambassador in New Delhi just before leaving for London last week.

An atmosphere of diplomatic maneuvering was apparent in London.

British diplomats interpreted repeated broadcasts from Peiping as meaning the Chinese Reds want to try to place the United States in the role of defendant before the world.

These diplomats say such a Chinese Communist move has grave propaganda dangers for the West and fails to meet the idea of cease-fire talks envisaged in the New Zealand U.N. resolution. The broadcasts condemned New Zealand's resolution as trickery, while lauding Russian moves to get Red China a role in the Security Council's debate.

Significance was placed here on the fact the Chinese Communists have left themselves a loophole to go to New York. This was regarded as having a certain negative value in lessening the tension over Formosa.

British Foreign Secretary Sir Anthony Eden is understood to have explained this slightly hopeful sign to the Commonwealth prime ministers assembled here, basing his information on diplomatic advices from the British missions at Moscow and the United Nations.

New Zealand's resolution, adopted by the Security Council Monday, invited Communist China to send a representative to council discussions of a cease-fire in Chinese coastal areas. It placed no blame on the Chinese Communists, the Chinese Nationalists or the United States for the existing situation.

Russia has introduced items extending a similar invitation, but also accusing the United States of acts of aggression against the Chinese Reds.

The Peiping radio said all newspapers in the Chinese Communist capital carried the Soviet drafts "to invite a representative of (Communist) China to take part in the consideration of United States acts of aggression."

It appeared the Russians and the Chinese Communists were synchronizing their tactics.

McCarthy Protests Panel Staff Change

By G. MILTON KELLY

WASHINGTON (AP) — Sen. McCarthy (R-Wis) protested as "cheap, dirty politics" today what he said was the action of "the Democrats on the Senate Investizations subcommittee in asking seven staff members to resign.

It is not unusual for committees to have a staff shakeup when party control of Congress shifts, but McCarthy said the present case violates a rule adopted by the subcommittee last year—at the Democrats' insistence, he said.

He said he has advised the staff members not to resign, and that he will resist any effort to vote them out of their jobs when the subcommittee meets next, presumably late this week or early next week.

Chairman McClellan (D-Ark) said in an interview that "the chairman (McClellan himself) has advised some members of the staff he would not submit their names for confirmation" to continue in their jobs, "and offered them the opportunity, if they cared to, to resign." He declined to name them.

McClellan said that if they decide not to resign, the matter will be submitted to the full subcommittee for a vote on whether to replace them.

McCarthy said those asked to resign are Thomas LaVenia, Daniel Buckley and C. George Anastos, his appointees as assistant counsel; Charles Tracy and Robert McElroy, staff investigators; Miss Rosemary Engel, assistant clerk; and Miss Regina Roman, research assistant. All seven are holdovers from McCarthy's administration as the subcommittee's chairman in the last Congress.

None of the seven was reached for comment.

In a telephone call to reporters from Lambertville, N.J., McCarthy said he views it as a case of "the Democrats having waited in cowardly fashion until I got out of town for a day or two" to raise the issue. He said he was not consulted in advance, and added:

"This is cheap and petty politics at its lowest and dirtiest ebb—a cowardly attempt to get at me through people who can't strike back."

LAMBERTSVILLE, N. J. (AP)—Sen. McCarthy (R-Wis) today expressed "absolute confidence" that Roy M. Cohen never "worked with" Harvey M. Matusow to prepare false testimony against 13 second-string Communist leaders, as Matusow has sworn.

McCarthy said that Cohn, chief counsel to the Senate Investigations subcommittee when McCarthy was chairman, always has been "meticulous" in complying with the legal profession's ethical standards. "He would not allow testimony that was not true," said McCarthy. "I have absolute confidence in this."

The senator, visiting friends here, made the comment in response to a newsman's inquiry.

Matusow swore in an affidavit filed Monday in New York federal court that he lied repeatedly as a witness against the 13 Communists. He claimed Cohn had "worked with me" in getting ready his testimony. Matusow is an admitted former Communist who has appeared as a government witness at antisubversive proceedings.

Reached at his New York law office Monday, Cohn said he would not "dignify any statement by this individual with a comment in this Communist move." Cohn said he interviewed Matusow "in the presence of FBI agents" and others and that he left for Europe "before I even knew he was to be a witness."

Bills Introduced To Curb Land Deals, Provide Natural Gas Tax

AUSTIN (AP) — Bills to thwart cheaters in the veteran's land program and to raise 35 million dollars a year from natural gas pipe lines were introduced in the Legislature today.

A Senate subcommittee worked on compromise legislation to solve Texas' crucial water problems. Water has been called by many the session's main issue.

Rep. Dolph Briscoe of Uvalde offered a bill with eight hard-hitting sections aimed at correcting abuses in the veteran's land program, now under investigation by two legislative committees.

The Briscoe bill was endorsed by Atty. Gen. John Ben Shepperd as one that would stop practices which have gotten the veteran's land program into hot water.

The tax bills by Rep. Curtis Ford of Corpus Christi were modelled on measures originally drafted by the attorney general after the U.S. Supreme Court knocked out a 1951 Texas long line natural gas tax law. Ford said he thought these bills would stand up.

Ford called his natural gas bill the "answer to Texas' needs" and better than a two-cent boost on gasoline taxes.

Another effort to give the aged, the needy blind and dependent children an immediate increase in state aid was started in the Senate. Doyle Willis of Fort Worth introduced a bill to put into immediate effect a seven million dollar boost as authorized by the amendment voted in November.

The first two water proposals were sent to a Senate subcommittee last night in an apparent effort to put down a clash brewing between urban and rural interests.

Soil conservation leaders had opposed one measure, by Sen. Dorsey Hardeman of San Angelo, because they said it apparently subjected soil conservation dams and terraces to control of a proposed state water commission.

They urged a measure, by Sen. Crawford Martin of Hillsboro, which restricted commission control to "public waters."

Hardeman said he had no idea of interfering with standard soil conservation practices and would accept an amendment to his bill to exempt such practices.

He and Martin agreed to a two-week subcommittee study of their measures.

Hardeman's proposal was the first of nine water-reform measures proposed by the interim Water Study Committee set up by the last Legislature. The first proposes replacing the board of water engineers with a 6-member, part-time, appointive water commission.

Martin's proposal was a wrap-up of all the other nine measures but differing in various aspects. Besides restricting the commission's authority, it also proposed the commission should be full-time and elective.

Ten witnesses clashed over makeup of the board.

The committee set a hearing for Monday night on seven other bills proposed by the interim water committee. The final measure, a proposed amendment to authorize up to a three-cent tax to finance a bond program for building dams and reservoirs, has been set for public hearing before another Senate committee Feb. 15.

Identical bills to require a written examination for legal reserve life insurance agents were sent to subcommittees yesterday in both houses. One week study was ordered for both.

Three other insurance proposals were heard by the House committee and referred to the subcommittee. They would place regulation of insurance securities sales in the hands of the insurance commission, prohibit insurance companies from reducing their capital to zero, and require licensing of life insurance counselors.

Opposition began forming to a proposed two-cent increase in state gasoline taxes for financing an expanded highway program.

Three oil marketing associations pledged their opposition to the tax. They suggested a tax on trade stamps and premiums.

Represented were the Texas Service Stations Associated, Texas Oil Jobbers Assn., and the Petroleum Marketers Assn. of Texas.

Boys Club Operation To Be Discussed Here

Operation of boys clubs will be discussed in a meeting of the city Parent-Teacher Association council to be held at 8 o'clock tomorrow night in the junior high school auditorium.

The public has been urged to attend this meeting, especially those interested in possible organization of a boys club here. These clubs provide planned year-round recreation for all boys.

Thomas J. Craighead of Dallas, area representative for the Boys Clubs of America for Texas, Oklahoma, Louisiana, and Arkansas, will meet with the group and discuss boys clubs as operated in other cities. He will show a 15-minute film.

Mrs. Amon Weaver heads the council.

Accidents In U.S. Last Year Killed 91,000

CHICAGO (AP)—Accidents in the United States last year took a staggering toll, killing 91,000 persons and injuring 9,200,000. The estimated economic loss was nearly 10 billion dollars.

The nation's No. 1 accident killer, as in the last several years, was the motor vehicle.

The National Safety Council, which today reported the various mishaps in 1954, said 36,300 lost their lives in traffic. That was a reduction of 5 per cent from the 38,300 motor fatalities in 1953 and the lowest total since 1950. The all-time record high was 39,969 in 1941.

Traffic accidents last year also caused about 1,250,000 nonfatal injuries.

The 1954 over-all accident death toll compared to 95,000 in 1953, a decrease of 4 per cent. The 1954 death rate for accidents of all types was 56.5 per 100,000 population. That was the lowest rate on record and 26 per cent under the 1941 rate.

However, the council said one in every 17 persons in the United States suffered a disabling injury last year.

The estimated economic loss of $9,700,000,000 from mishaps in 1954 covered both fatal and nonfatal accidents. The total included wage losses, medical expenses and overhead costs of insurance, production delays, damage to equipment in work mishaps and property damage from traffic accidents and fires.

The value of property destroyed and damaged by 1954 motor vehicle crashes was estimated at $1,600,000,000. All costs, including medical expense, overhead costs of insurance and motor vehicle property damage, were $4,350,000,000.

Accidents in the home claimed the second largest number of lives, 28,000, a decrease of 1,000 over 1953. The council, which said all figures are estimates, said another 16,000 persons lost their lives in public (not motor vehicles) accidents, the same number as in 1953, and 14,000 were killed in mishaps at work, a decrease of 1,000 over 1953.

In a breakdown of the mishaps, the council said there were 19,800 persons killed in falls—always a heavy killer; 6,500 died from burns; 6,600 drowned, and firearms deaths decreased 8 per cent to 2,300.

Two catastrophes caused more than 50 deaths each in 1954—the tornadoes on the Atlantic Coast and in the New England states. But, the council said, as in past years the bulk of the accident total was made up of one or two-death mishaps.

In traffic, 1954 was marked by the first continuous downward trend in deaths since World War II. In every month except November there were fewer deaths than the corresponding month of 1953. The December 1954 traffic death toll was 3,730, a decrease of 5 per cent from December 1953.

Court Ruling On Anti-Trust Suit Reversed

AUSTIN (AP)—The Supreme Court reversed itself today and agreed to take another look at the state's six-year-old anti-trust suit against 10 major oil companies.

In October the court ruled that the 3rd Court of Civil Appeals was correct in saying the state had shown enough cause for action to justify full trial court development.

Today's action in effect rules out the October decision.

The oil companies challenged the state's theory that uniformity of prices was sufficient to establish an agreement or conspiracy in violation of the anti-trust laws. This was one of the points on which the supreme court granted its review.

The suit was originally brought by Atty. Gen. Price Daniel, now a senator, in 1949, charging the oil companies conspired to fix and maintain uniform and non-competitive tank wagon prices on gasoline.

The state sought an injunction and heavy cash penalties.

The anti-trust case was never actually tried pending the various appeals challenging the sufficiency of the state's evidence.

Today's action once more takes the suit out of district court. The oil companies' appeal was set for oral arguments in the supreme March 2.

Defendants were Arkansas Fuel Oil Co., Cities Service, Continental Oil, Gulf, the Texas Co., Humble, Magnolia, Standard Oil of Texas, Sinclair and Phillips.

135 Vehicles Get New License Plates Here

By noon today, the county tax office registered 135 vehicles for 1955 since the new license plates went on issue yesterday morning.

The total includes 105 passenger cars, nine farm trucks, 14 trailers, and seven commercial trucks.

Princess Margaret Rose stands in the doorway of her plane at London airport and waves goodbye before taking off on her first transatlantic flight and a month's goodwill tour of the Calypso Isles of the British West Indies.

No Plans Brewing To Halt Army Cut

By MARVIN L. ARROWSMITH

WASHINGTON (AP)—President Eisenhower said today the United States has made it crystal clear it does not intend to let Formosa fall to international communism.

He said at a news conference he believes this country's defend-Formosa declaration, voted by Congress last week, insures against any miscalculation by the Chinese Communists about American determination.

The President said there has been no commitment to use American ground forces in defense of Formosa. But he declined to go into any details as to how this country intends to protect that main Chinese Nationalist island and the Pescadores.

Eisenhower specifically refused to say whether the Nationalists' offshore outpost islands of Quemoy and Matsu would be defended by the United States.

He said he was not going to provide any blueprint for the Reds.

The news conference, filmed for possible later use on television and in theaters, covered a wide range of topics. They included:

Army strength—The President said that at this moment he sees no reason to alter plans for a cut in Army strength. He made that remark in response to a request for comment on the statement by Gen. Matthew Ridgway, Army chief of staff, that the planned cut of 140,000 men might jeopardize national security "to a degree."

Supreme Court—Eisenhower said it is unfortunate the Senate has delayed action on his nomination of John Harlan to be an associate justice.

Dixon-Yates — Eisenhower said crisply in response to a question that he does not intend to withdraw the controversial Dixon-Yates power contract as a result of Democratic opposition in Congress.

As for the resolution adopted by the ten Democrats on the Senate-House Atomic Energy Committee calling for cancellation of the contract, the President said he had no comment other than to say the resolution was drawn along party lines.

Censorship—The President said he didn't see how anyone could rightly raise the cry of censorship with respect to the filming and subsequent release of portions of his news conferences for use on TV and in the theaters. He said he understood that about 28 minutes of the first Presidential news conference to be filmed, that of Jan. 19, was released for public viewing.

Eisenhower added that he had received no protests from any broadcasting company contending there was censorship.

Bipartisan consultation — Responding to a question, Eisenhower said there had been consultation, so far as he knows, with the Democrats in Congress with respect to both the administration's highway construction program and the projected cut in Army strength. Secretary of Defense Wilson, the President added, conferred with Democrats about the Army cut, and Sen. Byrd (D-Va) has been consulted with respect to the highway program.

The whole purpose, the President said, is to keep the Democrats informed.

Standby Controls—The President said there might be some advantage to enactment by Congress of standby wage and price control power in order to have such authority on the books for use in case of emergency.

Federal Housing — Eisenhower said he hopes the investigation of Federal Housing Administration scandals can be cleaned up quickly for the good of the people of the country. He said a report to him about two weeks ago indicated progress was being made in that direction.

Officers Squabble Over Bomb Probe

SAN ANGELO (AP)—One of two Houston men accused of the auto bomb murder of wealthy Mrs. Harry E. Weaver was freed from jail yesterday.

And the dismissal of charges against Carl Heninger touched off an argument between Houston and San Angelo authorities over why he was jailed in the first place.

Dist. Atty. Aubrey D. Stokes of San Angelo said Heninger will appear as a material witness at the examining trial of Harry L. Washburn, former son-in-law of Mrs. Weaver, the second man charged in the slaying. The hearing is set tentatively for Feb. 9.

Stokes said Heninger had explained that "he was a victim of circumstances." Stokes added that he was satisfied with Heninger's story and had held him while it could be checked at Houston.

That brought a reply from Houston Police Capt. Cecil Priest that he didn't know what Stokes referred to.

"We didn't want them (San Angelo authorities) to take Heninger up there in the first place," Priest said.

"They had absolutely no reason to take him up there to begin with," said Houston Det. H. K. Thompson, who headed the investigation that led to the arrests of both Heninger and Washburn.

Priest also said: "While Stokes was here he didn't know anything about the Washburn case until we dropped the written statements in his lap. He nearly jumped out the window when we told him what we had."

Stokes' reply to this was: "I don't know why he made that statement."

He added that he had discussed fully with Priest and other Houston police officials what to do with Heninger and Washburn.

"I said to them, 'You broke this thing and I'm open for suggestions,'" Stokes said. He added: "There are no differences between me and the Houston police."

Stokes has followed a policy of releasing as little information as possible about the case.

In fact, it wasn't learned that Heninger had been released until a San Angelo reporter saw him on the street.

Heninger, reached at the airport just before he took a plane to Houston said: "I am just an innocent man, a victim of circumstances. I am a man with a clear conscious that has nothing to worry about."

Heninger added that Houston police "are going to see me again. I'll have a good one for you." He didn't explain that remark.

Meanwhile, Houston police said they were questioning two men identified only as "important links" in the case. They also said a 30-year-old woman and two other men who might have important information are being hunted.

Priest identified the men who were questioned as a 58-year-old barber and a 31-year-old marine engineer.

The barber volunteered information about a visit Washburn and two other men made to his shop.

He said the two men were John McKinnis and James Fife, who made statements to officers Saturday that resulted in the arrest of Washburn and Heninger.

McKinnis and Fife said Washburn furnished them money, guns and a car last March in a plot to kill Mrs. Weaver's husband. They said they took the money but made no attempt to put Weaver on the spot.

McKinnis said Washburn approached them four days before Mrs. Weaver's death Jan. 19 with a plan to trap Weaver with a bomb explosion. McKinnis said he refused to take part in the plot and quoted Washburn as saying: "I'll do it myself, then."

Low Reading Here 29

Yesterday afternoon's maximum temperature of 68 degrees melted down rapidly after sunset. A low of 29 degrees was registered overnight, David Strayhorn, acting weather observer said. At 7:30 this morning the temperature was 32 degrees.

Young Woman Hurt In Fall From Moving Car

Mrs. Kenneth Ashley was injured shortly after noon today when she fell from a moving automobile as it turned the corner from Thirty-seventh Street onto Austin Avenue, near the high school.

Mrs. Ashley, reported to be a high school student, was taken to Battenfield-Jones Clinic-Hospital by ambulance. Attendants at the hospital said soon afterward that X-ray pictures were being taken and that extent of her injuries was not known at that time.

A city policeman said afterward his department had not received a report of the accident and had not investigated. A deupty sheriff who was at the scene when Mrs. Ashley was placed in the ambulance said he had not learned any further details. The car involved was not at the scene at that time.

WEATHER

NORTH CENTRAL TEXAS: Partly cloudy this afternoon and tonight. Warmer tonight. Thursday, scattered showers and turning colder.

WEST TEXAS: Partly cloudy through Thursday. Cooler Thursday, except colder with possibly some snow in Panhandle.

EAST TEXAS: Increasing cloudiness this afternoon and tonight. Slightly warmer tonight. Thursday, scattered showers and thunderstorms, turning cooler in interior. Gentle to moderate variable winds, becoming fresh to locally strong Thursday.

New Production Drive Set By Soviet Party's Central Panel

By STANLEY JOHNSON

MOSCOW (AP)—The Soviet Communist party's powerful Central Committee has ordered an all-out drive to increase production of grain, livestock, milk, wool, poultry and eggs in the Soviet Union.

But a committee decree, published today, said the party still "regards as its major duty a further increase of heavy industry, which forms a solid basis for the whole economy and for the indestructible defenses of our country."

The decree followed up a Jan. 24 editorial in the party newspaper Pravda denouncing recent emphasis on production of consumer goods at the expense of heavy industry as a distortion of previous decrees and dangerous to the defense of the country.

The Central Committee meeting was held Jan. 25-31, in advance of tomorrow's opening of the Supreme Soviet (Parliament). The first word of the session was given to American correspondents yesterday at the Kremlin. Today's editions of Moscow newspapers carried long reports on the meeting.

Although the committee gathering came as the Far Eastern crisis gathered steam and Russia's campaign against West German rearmament hit full stride, neither the decree nor the newspapers mentioned any foreign policy decisions.

Based on a report presented to the meeting by Party Secretary Nikita Khrushchev, the decree said the nation's grain harvest must hit "no less than 10 billion poods" (180 million tons) by 1960.

The Soviet grain harvest in 1952 was officially announced as eight billion poods (144,448,000 tons).

The decree said there also must be a "marked increase in the production of meat and animal fats, production of milk must be doubled and there must be approximately twice as much production of eggs and wool."

The committee ordered the output of pork hiked 40-50 per cent and said poultry production on collective and state farms "must be trebled." No present production figures were given in the decree.

The committee called on government ministries to step up production of such equipment as combines and tractors and urged that more grain be devoted to feeding animals. It set April 1 as a deadline for submission of plans to accomplish these aims and ordered an improvement in managerial staffs.

Western observers reading Moscow newspaper reports of the committee meeting noted that although Khrushchev's report received prominent play, no mention was made of other Soviet leaders, such as Premier Georgi Malenkov. As party secretary, Khrushchev has been the dominant figure in a drive to step up Soviet farm production.

AREA OIL ROUNDUP

North Scurry To Get New Wildcat

Diamond Drilling Co. of Abilene has announced plans to drill the No. 1 Vernon B. Cox as a 7,500-foot wildcat in north Scurry County.

Location has been made 330 feet from north and east lines of the southwest quarter of 699-97-H&TC, about 17 miles north of Snyder. Operations are to begin immediately.

The new well will be one location west of the one-well Vernon Cox field, which produces from pay at 7,120 feet. The discovery well of the field is Imperial Production No. 1 Cox, finaled in 1951 for a flowing potential of 242 barrels of oil from the Canyon reef.

COLEMAN RANCH

J. K. Wadley of Texarkana, Ark., No. 2 Smallwood-McCarty has been staked for immediate drilling in the North Coleman Ranch-Clear Fork field four and a half miles south of Ira. The drilling application does not locate the project in Mitchell or Scurry County.

Drillsite is 1,650 feet from south and 1,864.2 feet from east lines of 96-97-H&TC, and on a 100.2-acre lease. Rotary contract is to 3,400 feet.

GAINES WILDCAT

Placid Oil Co. of Shreveport, La., is to drill the No. 1 Mrs. Ida Dalmont as a 14,000-foot wildcat in Gaines County.

Location, 15 miles east of Seminole, is 1,980 feet from south and 660 feet from west lines of 70-H-D&W. Drilling will begin immediately.

MAKES SLIGHT SHOW

Rheay & Reynolds Drilling Co. of Abilene No. 1 Charles Brasher, southwest Fisher County exploration, developed slight shows of gas on a drillstem test in the Canyon from 5,130-192 feet.

The tool was open four hours, recovering 282 feet of free gas in the drillpipe and three feet of slightly gas-cut drilling mud. The well is projected to 6,250 feet.

Drillsite, four and a half miles northeast of Claytonville, is in 187-3-H&TC.

SPRABERRY OILER

J. E. Jones Drilling Co. No. 3-A Miller has been completed as a producer in the Jo-Mill-Spraberry field of Borden County.

The well flowed 296 barrels of 39.2-gravity oil through a 16-64th-inch tubing choke on the 24-hour potential test. No water was present. Production is through perforations at 7,160-198 feet where 500 gallons of acid had been used.

Location is 660 feet from east and 2,331.8 feet from north lines of 12-33-t4n-T&P.

DRILLING REPORT

Tennessee Gas Transmission No. 1 Fambrough, Borden wildcat, is at total depth of 9,063 feet and moving off the rotary rig. Operator swabbed 11 barrels of fluid, about 30 per cent acid water and salt water with the remainder oil, in 23 hours.

In east Borden County, Magnolia No. 1 Jesse York is drilling below 4,732 feet in lime and sand after a one-hour drillstem test from 4,660-676 feet. Recovery was 500 feet of salt water with no shows of oil, gas or water. Flowing pressure was zero, with 15-minute shut-in pressure 1,715 pounds. An earlier test from 4,438-468 feet had a good blow of air throughout and recovered 2,100 feet of salt water with no shows of oil or gas.

Poll Taxes Up In Some Areas

By The Associated Press

A healthy increase in Texas poll tax payments and exemption certificates is shown in a spot check survey made Tuesday.

As usual, the figures are far short of poll tax payments made in recent years when a president or governor is to be elected. No statewide elections are set in the state in 1955.

Final tabulations are expected to show an increase over the last off-year, 1953, in Harris (Houston), Dallas, Tarrant (Fort Worth) and Jefferson (Beaumount) counties.

Estimated totals indicate that Nueces (Corpus Christi) and Bexar (San Antonio) may fall below 1953.

Here are some comparative figures (first figure this year's estimated total, second figure for 1954 and third for 1952): Harris 130,872, 195,905, and 272,199; Dallas 135,000, 147,410, and 180,050; Jefferson 50,000, 54,881 and 65,357.

Totals for the last previous off-year payments (first figure) and this year's estimated totals include:

Dallas 127,221 and 135,000; Harris 121,312 and 130,872; Nueces 33,379 and 31,500; Tarrant 38,704 and 38,900; Jefferson 49,114 and 50,000, and Bexar 85,290 and 80,000.

Forgery Count Is Filed Here

A felony complaint alleging the defendant made a forged check was filed yesterday against Carey ("Bird Dog") Byrd, about 18, of Lamesa.

Bill Love, chief deputy sheriff, was to return sometime today from Greenville with Byrd, who was arrested there yesterday on request of officers here.

A 16-year-old Lamesa girl who signed a written statement admitting she passed the $15 check to Ohlenbusch General Store at Inadale was in county jail here. Any case that may be filed against her is to be in juvenile court.

The girl said she and Byrd and another young man were together when Byrd made the check and asked her to cash it. The check was written as payable to a Jim D. Berry and signed with the name of C. J. Hughes.

Assessment Is Paid In County Court Here

An assessment was paid in county court this morning for W. K. Washburn of Midland, charged with swindling by worthless check. The assessment totaled $40, of which $6.50 was for mileage from Midland, $10 was fine, and $23.50 was regular court cost.

The charge was filed Jan. 27, after the defendant's wife appeared before the court on a similar charge against her, to which she pleaded guilty at that time, according to the docket, which lists no assessment but notes "paid $15."

Mrs. Washburn was returned here from Midland by Howard Gibbons, deputy sheriff.

Both charges were based on checks given Harris Pharmacy.

Two Fires Extinguished Without Heavy Damage

Two minor fires yesterday were put out by the fire department before serious damages were caused.

First of the fires was about 12:45 o'clock yesterday afternoon at the home of Mr. and Mrs. E. L. Fikes, Jr., 903 Twenty-third Street. Curtains and a bed spread in a bedroom were damaged when the curtains caught fire from a heating stove.

About 7:30 o'clock last night a fire in the cafeteria of the Abraham Lincoln School resulted from a pot of meat being left on a stove too long.

Few Attend Dimes Meet

Ten persons met at the junior high school cafeteria last night and made tentative plans for the annual March of Dimes drive for the National Foundation for Infantile Paralysis.

Plans made included work of clubs and the Parent-Teacher Associations, which are to conduct a "mothers march" to homes in solicitation of funds.

Don Ramage, now stationed with the U.S. Armed Forces Institute at Honolulu, Hawaii, has recently been promoted to the rank of personnelman third class. He is the son of Mrs. Bessie Ramage, 1512 Avenue R, and a graduate of Snyder High School. He has been in the Navy two years and served 18 months aboard the USS Electron AKS-27 before reporting to Honolulu.

Panel Okays Court Switch

AUSTIN — Rep. Robert Patterson of Snyder Tuesday voted with Galveston in a 7 to 7 tie over transfer of the First Court of Civil Appeals from Galveston to Houston. The tie was broken when House Judiciary Committee chairman, James W. Yancey Jr. of Houston, voted for the move.

The move is authorized in House Bill 56. Advocates of keeping the court headquarters in Galveston cited the fact that it was the first appellate court organized in Texas and is in the same building it first occupied.

Backers of the move said most cases handled in the court originate in Houston.

While Houston won the first round in committee, the bitter fight is sure to blossom again on the House floor when the matter comes up next week.

The Judiciary Committee also favorably reported House Bill 28, which concerns the bond required of a husband in estate matters when his wife is insane. The bill is designed to allow the county judge discretion as to bond required. Under present law the bond must be equal to the value of the total community estate.

The committee sent to the House a bill that would set up machinery for a summary sale by the tax collector of abandoned property without court action. The bill provides that property unrendered and on which taxes have been unpaid for seven years, and which is not a homestead and of value less than $700 may be sold summarily.

Its author said the new statute would "help clear tax rolls." It provides the tax collector of any political subdivision may initiate the action, giving notice of sale to other agencies and dividing money received from the property.

Local Officers Attend Safety Council Meet

Walter Suttle, police chief, and Prentis Smith, sergeant, attended a safety meeting sponsored by the National Traffic Safety Council yesterday in Abilene.

Snyder is a member city in the national organization.

Leaders of the meeting reported that the national death rate per 100,000 vehicle miles traveled has dropped from 19 in 1934 to 6.2 deaths per 100,000 miles now, Smith said.

Coed Puts In Her Bid For Prince's Hand

MONTE CARLO, Monaco (AP) — American coed Jo Ann Stork has met Monaco's ruling Prince Rainier III and says she'd "love to be a princess and live in this country" There was no indication today that bachelor Rainier would grant her wish.

The 20-year-old University of Illinois student flew to Monaco last week on the blind chance of meeting the handsome, 31-year-old prince after reading in a U.S. magazine that his subjects want him to get married and some would like the bride to be an American.

At first she couldn't get past the palace gates. Then the prince's Roman Catholic chaplain, the Rev. Francis Tucker, interceded and she visited Rainier for two hours yesterday afternoon. Father Tucker and Rainier's sister Princess Antoinette chaperoned.

Joan said they discussed football, yachting, music, the prince's private zoo and Joan's plans for the future. They toured "the Green Room, the Blue Room, the Throne Room, the corridors with pictures of his ancestors on the wall," and the terrace, which has a "marvelous view."

Rainier, she bubbled, was "a real prince charming . . . more handsome than all the pictures I have seen of him."

Joan didn't say what further plans she has. The prince wasn't available for comment.

Hearing Scheduled On Water Bond Proposal

AUSTIN (AP)—Hearings have been set on proposals for a 100 million dollar bond program for water projects and another 100 million dollars for the state veterans land program.

The Senate Committee on Constitutional Amendments set the water proposal yesterday for hearing at 7:30 p.m. Feb. 15.

The amendment by Sen. Dorsey Hardeman of San Angelo would authorize a state property tax up to 3 cents in setting up a bond program to help finance local dams and reservoirs.

The land program measure, by Sen. George Moffett of Chillicothe, was set for hearing March 1 at 7:30 p.m. It would authorize appropriation of state funds for advertising the state.

Fire Put Out Swiftly

Firemen were called this morning to the residence of A. L. Barnett, 501 Thirty-second Street, but the fire was out by time firemen arrived.

Firemen said the incident occurred when an automatic washing machine jammed, stopping the motor.

Too Much Fishing

LOS ANGELES (AP)—Her husband told her he was going fishing—five nights a week, Mrs. Betty Joan Graham, 25, told the court in winning a divorce yesterday from James M. Graham, 28, a mechanic. She said he also went fishing every weekend.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD-JONES

Admissions: Gordon S. Hunter, 2508½ Avenue R; Chester Dorman, 1106 Avenue R; Jane Ann Hickman, 3797 Avenue V; Mrs. Bama Clark, Snyder.

COGDELL MEMORIAL

Admissions: Mrs. John R. Covey, Jr., Snyder; Mrs. Dewey Everett, Snyder; Sammy Norman, 1819 Thirty-ninth Street; Lee Davis, 3301 Avenue K; Mrs. C. J. Dupree, Snyder; Olan Lovell, Snyder.

Dismissals: Mrs. Joyce Gorman, 2908 Avenue S; A. R. Moore, Snyder; Mrs. Robert Sinclair, 3009 Avenue W; Debra Townsend, Fluvanna; Mrs. J. H. Wood, 317 Twenty-ninth Street; Sammy Norman, 1819 Thirty-ninth Street; Walter Hales, 3749 Sunset; Mrs. Jewel Gilbreth, Snyder.

Throngs In Trinidad Welcome Margaret

PORT OF SPAIN, Trinidad (AP)—Princess Margaret rested this morning in breeze-swept Government House, gathering strength for her rigorous tour of Trinidad and nine other British islands of the new world.

Government authorities said they were "overwhelmed" by the public turnout which welcomed the radiant 24-year-old princess when the royal airliner Canopus landed her yesterday afternoon at sunny Port of Spain to start her month-long good will visit.

Officials estimated 40,000 to 50,000 people jammed the roadways and city streets to cheer and wave Union Jacks as the smiling princess drove by on her way to the home of the British governor, Sir Hubert Rance.

Local Soldier Promoted

Thomas M. E. Chauncey, Jr., the son of Thomas Chauncey, Sr., 417 Thirty-third Street, has recently been promoted to the rank of corporal at Fort Hood where he is assigned with the 1st Armored Division. Chuancey, a driver in Company A of the 634th Armored Infantry Battalion, entered the army in April, 1953.

Tidelands Oil Well Testing

HOUSTON (AP)—Gulf Oil Corp. said today it is testing a Texas tidelands oil well 9½ miles southeast of Port Aransas.

Gulf said three producing zones ranging in thickness from 21 to 154 feet were discovered on the State Lease 41,338, Oock 889 wildcat.

Drilled in 48 feet of water, the well is in Neuces County and is a little over four miles from the nearest production on Mustang Island.

The lower zone, from 11,386 to 11,540 feet, tested at a rate of 140 barrels of 47 gravity oil daily through a 10-64th inch choke. Gas-oil ratio was 10,000 to 1, tubing pressure 3,100 pounds. Test perforations were in the interval from 11,452-11,486 feet at or near the gas-oil content.

Gulf said the well will be closed in as soon as more testing is completed and that the rig will be removed. They said the well will be recompleted at a later date when plans for future development have been completed.

Moonshiners Thrive In Detroit, Philadelphia

DETROIT (AP) — Detroit and Philadelphia are running neck and neck for the title of moonshine capital of the north.

Ronald L. Greenberg, assistant United States attorney, says homestyle whisky making has increased so rapidly in the Detroit area that the staff of federal agents has been doubled since Jan. 1. He said 76 stills were seized in 1954, more than three times the number taken in 1953. Fifty persons were convicted.

Use Of Electric Power Doubles In Seven Years

NEW YORK (AP) — The nation reached a new milestone in the age of electrical living last week—output of 10 billion kilowatt hours in a single week.

Power production has doubled in a little more than seven years and has quadrupled in about 15 years, partially due to increased use of home electrical appliances.

Edison Electric Institute, trade association of the power companies, reported that electric output reached 2½ billion kilowatt hours for the first time in the second week of September 1939, just after the start of World War II.

BIRTHS

Mr. and Mrs. John R. Covey, Jr., Snyder, are the parents of a son weighing 10 pounds, one-half ounce, born at 7:36 a.m. today in Cogdell Memorial Hospital.

TASTY CROQUETTES
. . . made of kraut and frankfurters

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

Ring in National Kraut and Frankfurter Week, February 3-12, with something deliciously different in the way of a main dish. You'll relish every mouthful of these unusually good Kraut and Frankfurter Croquettes. They're easily assembled and yet have a wealth of flavor. Top them off with Mustard Cream Sauce—they are bound to prove popular.

KRAUT AND FRANKFURTER CROQUETTES

1 No. 2 can sauerkraut, thoroughly drained
1 medium-size onion
6 frankfurters
3 eggs
2 cups soft bread crumbs
1 cup grated Cheddar cheese, about ¼ pound
Salt and pepper to taste
2 tablespoons cold water
Fine, dry bread crumbs

Put sauerkraut, onion and frankfurters through food chopper. Beat two eggs and add to sauerkraut mixture with soft bread crumbs, cheese, salt and pepper. Mix until all ingredients are blended; divide mixture into eight parts and shape into croquettes. Beat remaining egg with cold water. Roll croquettes in dry bread crumbs and in egg; coat with additional dry bread crumbs. Fry in hot deep fat five or six minutes, or until browned. Serve with Mustard Cream Sauce.

MUSTARD CREAM SAUCE

¾ cup all-purpose flour
¼ cup sugar
¾ teaspoon paprika
1 teaspoon salt
1¼ tablespoons dry mustard
1 egg, beaten
1-3 cup light cream
2 tablespoons butter or margarine

Combine flour, sugar, paprika, salt and mustard. Gradually add vinegar and water. Mix well and cook over medium heat, stirring constantly, to boiling point. Boil one minute. Remove from heat. Beat in egg, cream and butter or margarine. Mix until well blended.

FOR DAY OR AFTER

Delightful scoop-necked princess style can be worn as a dress or jumper, has its own brief little collared bolero for cover-up moments. So pretty and practical!

No. 2072 is cut in sizes 10, 12, 14, 16, 18, 20. Size 16: Dress and Short-sleeved bolero, 5¼ yds. 39-in.

Send 30c for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Snyder Daily News, Box 42, Old Chelsea Station, New York 11, N.Y.

INTERNATIONAL DESIGNER PATTERN

S-252

BIKI
of Italy

Biki of Italy seems to possess a special knowledge of that certain something that makes a dress stand out in a crowd. In this afternoon model, she puts this knowledge to effective use with a clever manipulation of the peg pocket skirt. Buttoning it on to the bodice, which is cut long enough in front to make part of the pocket formation, she attaches the belt to the bust seams and buckles it in back. The cut out neckline, looking as if it had been done with crazy scissors (a very important feature this season), follows right into the sleeves, from the front as well as the back. The zipper closing is placed in the middle of the center back seam. A dress for a dressy occasion, it is best in a silk and of 39-inch variety or the new special 50-inch fabrics such as satin, peau de soie or heavy taffeta. This pattern is cut to designer measurements, not standard pattern measurements. Be sure to state waist, bust and hip measurements when you order this pattern to obtain the correct size. Size 12 requires 3½ yards of 39-inch material for dress and ½ yard of 39-inch material for interfacing. To order Pattern No. S-252, address International Designer Patterns, P.O. Box 993, G.P.O., Dept. SX-12, New York 1, N.Y. State size. Send $1.00. Airmail handling 25c extra. New International Designer Pattern Booklet "A" available for 25c. Make check or money order payable to International Designer Patterns and add 4c for bank clearance.

WHAT'S GOING ON

Walter Hales, 3749 Sunset Drive, was transferred from Cogdell Memorial Hospital to Methodist Hospital in Lubbock yesterday by Bell ambulance.

R. C. Williams of Lubbock, who has been hospitalized here since he was injured in an automobile accident several weeks ago, was taken to Lubbock yesterday by Bell ambulance. Mrs. Williams, who was also injured in the accident, returned home earlier.

Visitors of Mrs. Bessie Ramage over the weekend were Mr. and Mrs. A. B. Thrasher of Alexandria, La.; Mrs. Horace Crumley and children, Alton, Clyde and Hilda, of San Marcos; Mr. and Mrs. Clint Sellars, Barbara, Clinton and Shirley, and Mr. and Mrs. Jed Randolph, Bruce and Beverly, all from Midway, and other guests from Snyder.

Dr. and Mrs. Robert H. Hargrove, 3718 Avondale, have returned from a business trip to Dallas.

Thomas Jordan, son of Mr. and Mrs. D. M. Jordan, Post road, returned home last Sunday after receiving his discharge from the U. S. Marine Corps.

Margaret Anger, who is a freshman at Texas Tech, spent the weekend with her family, Mr. and Mrs. Thomas Anger and children, 2701 Thirty-eighth Street.

Mrs. J. L. Weathers, 1705 Twenty-eighth Street, returned Friday from Conroe, where she visited Mr. and Mrs. Joe B. Smith, and Hamilton County where she visited Mr. and Mrs. Walter Weathers and Mr. and Mrs. Harley Smith.

Mrs. Myrtle McKnight, 1705 Twenty-eighth Street, recently visited in Texas City with Mr. and Mrs. E. M. Anthony and Clifford McKnight.

Mr. and Mrs. W. C. Brown, Lamesa highway, celebrated their thirty-seventh anniversary Sunday in the home of their daughter and her family, Mr. and Mrs. W. L. Coward and children, Lamesa highway. Visiting with them were Mr. and Mrs. J. E. Brown and children of Lubbock and Mr. and Mrs. Enis E. Mills and children of Denver City.

Mrs. Thelma McManus of San Antonio visited last week in the home of Mr. and Mrs. R. V. Gum, Thirty-first Street.

Mr. and Mrs. Carey O'Berg of Hobbs, N.M., have recently been transferred to Maricaibo, Venezuela.

Visiting last week with Mr. and Mrs. C. L. Banks, 1001 Twenty-sixth Street, were Mrs. Banks' niece, Mrs. J. H. Coker of Sweetwater and Mrs. Zela Hawkins of Colorado City.

Brownie Troop Works On Hospital Project

Brownie Troop 36 elected new officers at a meeting Monday afternoon with Mrs. Bill Schiebel, leader, 3004 Avenue T. Those elected were Evelyn Starnes, president; Judy Prude, treasurer; Earline Rhodes, secretary.

Troop members made pipe-cleaner plate favors to be given to hospitals for use on food trays on St. Valentine's day.

Mrs. Schiebel was assisted by Mrs. B. J. Nunley, co-leader, and Mrs. H. W. Hunt, committee member. Judy Prude was introduced as a new member. There were nine members present.

Mrs. Kincaid Hosts Presbyteran Circle

The Morning Circle of the Presbyterian Women's Organization met yesterday in the home of Mrs. James Kincaid, 3789 Dalton Drive.

A Bible study was given by Mrs. W. A. Smallwood. Mrs. Lonnie Kramer led a study on the "Christian Woman and Her Home."

Refreshments were served to nine members.

Mrs. Bowlin Honored With 'Housewarming'

Mrs. Glenn Bowlin was honored at a 'housewarming' Saturday morning at her new home on Fortieth Street.

Hostesses were Mrs. T. U. Pugh and Mrs. Bill Valentine.

Other attending and sending gifts were Mrs. J. C. Day, Mrs. Tom Fulton, Mrs. Elroy Miller, Mrs. Ted Masters and Mrs. R. H. Moses.

Standing at the refreshment table at the Art Guild Club's twenty-fifth anniversary tea last night are, from left to right, Mrs. Dell Smith, Mrs. Joe Caton, a charter member, Mrs. Ivan Gatlin, club president, and Mrs. Mabel Brock. Mrs. Smith and Mrs. Brock were chairmen of arrangements for the tea. (Lee Watson photograph)

Art Guild Club Celebrates Twenty-Fifth Anniversary

Approximately 90 club women attended the Art Guild Club's silver tea last night in the fellowship hall of the First Methodist Church. The tea was in observance of the club's twenty-fifth anniversary.

Mrs. Ivan Gatlin, president, Mrs. Silas Devenport, vice-president, and Mrs. Joe Caton, a charter member who organized the club, received the guests.

The program began with a welcome address by Mrs. Gatlin followed by an introduction of Robert Clinton, choral director for Snyder schools, and Mrs. Clinton. She accompanied at the piano as he sang "Aubande," by Lalo; "When I Bring to You Colored Toys," by Carpenter; "My Lady Walks in Loveliness," by Charles; "Without A Song," by Youmans and "The Gambler's Song," by Niles.

Mrs. Caton briefly reviewed the history of the club and read the list of members from a 1932 year book. Charter members and former members were recognized. Mrs. O. M. Fowler read a poem, "Greetings to Old Friends," which she dedicated to former members.

Mrs. John Casebier enacted an original monodrama, "Cleopatra," in costume.

Following the program, refreshments were served from a table laid with a white cutwork cloth. Centered on the table was an arrangement of pink carnations and silvered leaves in a crystal flower bowl. Crystal candelabra holding pink tapers sprayed with glitter flanked the centerpiece. Other table appointments were of silver. Presiding at the serving table were Mrs. Ben Thorpe, Mrs. Nolan von Roeder, Mrs. Robert White and Ethel Mae Sturdivant. Mrs. Maurice Pilcher and Mrs. Jack Phillips provided a musical background during the tea hour.

Out of town guests, former members, were Mrs. Hollis Browning of Plainview, Mrs. H. C. Michael, Jr., of Sweetwater, Mrs. Willard Jones of Hamlin and Mrs. Billy Mitchell of Lamesa.

Active members of the Art Guild are Mrs. Mabel Brock, Mrs. Devenport, Mrs. Gatlin, Mrs. Dan Hamil, Mrs. W. P. King, Mrs. Harry Lee, Katherine Northcutt, Mrs. Phillips, Mrs. C. W. Popnoe, Mrs. Myron Roe, Mrs. Dell Smith, Mrs. M. E. Stanfield, Miss Sturdivant, Mrs. Bill Teaff, Mrs. Ben Thorpe, Mrs. Von Roeder and Mrs. Fowler.

Active substitute members are Mrs. Robert White, Mrs. M. W. Pilcher and Mrs. Lida Rhoades. Associate members are Mrs. Joe Caton and Mrs. Tony Holcomb.

Mr. And Mrs. Caley At Home In Lubbock

Mr. and Mrs. James Arlan Caley are at home in Lubbock following their marriage recently in Petersburg.

The bride is the former Martha Carole Cocke, the daughter of Mr. and Mrs. T. A. Cocke of Petersburg. The bridegroom is the son of Mr. and Mrs. William J. (Bill) Caley of San Marcos, former Snyder residents.

The couple was married in the Petersburg First Methodist Church. Both are students at Texas Technological College, where Mrs. Caley is a sophomore and Mr. Caley is a senior.

Skating Party Held By Borden Students

GAIL — The Junior Class of Borden High School sponsored a high school Skating Party in Snyder Thursday night.

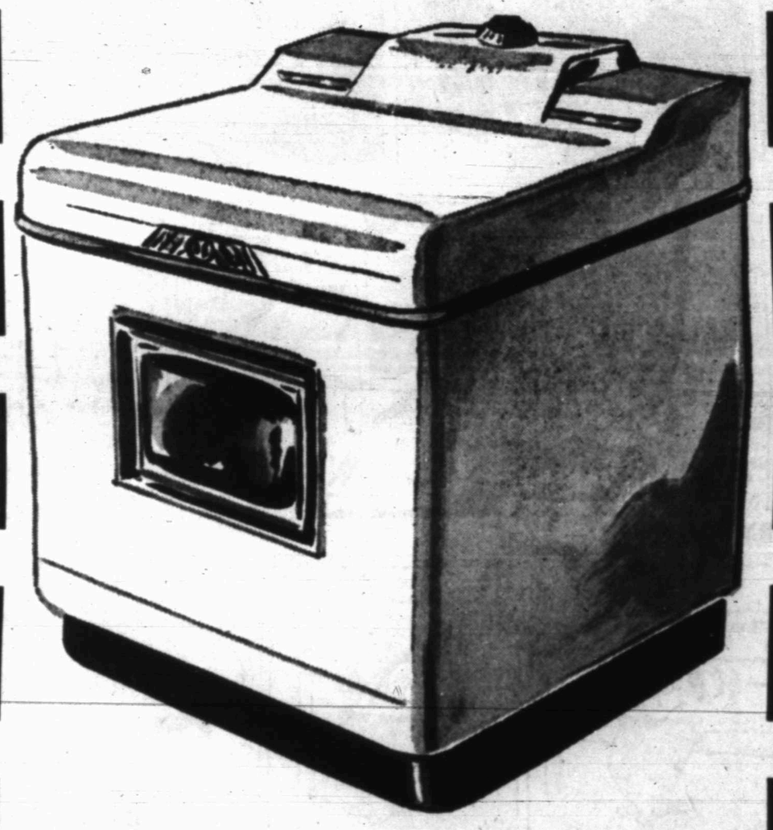

Those attending were Donald Reddell, Kenneth Williams, "Shorty" Farmer, Barbara Miller, Pat Shepherd, Larry Smith, June Creighton, Glen Kingston, Lonnis Doyle, E. L. Franklin, Pat Willingham, Mike Smith, "Chuck" Lewis, Melba Boggan, Janey Bradford, Anna Lou Bradford, Gail Rogers, Donna Rudd, Alvin Bradshaw, Edd Henderson, Rodney Love, Dortha Jean Kropp, Barbara Sharp, Don Dodd, Jerry Reddell, Travis Walker, Janice Ernst, Doris Franklin, Mary Lynn Staggs, Sidney Reeder, Raymond Walton, Leone Dodson, Jerry Smith, Yvonne Hollis, Nell Kingston, Mr. Hubert Walker, Mrs. Carole Denson, Mr. and Mrs. Eddie James, Sponsors.

Night Meeting Slated For Book Review Club

A night meeting of the Snyder Book Review Club is scheduled for Friday at 7:30 o'clock in the fellowship hall of the First Methodist Church.

Mrs. George W. Weiss of Brownfield is to be guest speaker. The night meeting is for members only, Mrs. Gene Dulaney, club president, said.

Automatic Gas Dryers

Save Walking 40 Miles a Year

The woman with an automatic Gas dryer saves walking **40 miles** each year carrying **2 tons** of clothes! And she gets the softest washes ever—clothes are *fluffed* dry . . . not wind-whipped, stiff, and sun-faded.

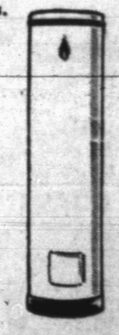

Gas dryers save time, too! You don't set aside a day or even a half-day for washday—any time, rain or shine, you can dry a load of clothes to perfection with automatic Gas!

So throw away your clothesline! Get an economical Gas dryer! For only 1½¢ per load, you can have the most convenient drying you've ever known! See your Gas appliance dealer or Lone Star Gas Company now!

Have plenty of rust-free hot water!
Get correct size for your family's needs.

Gas heats water 3 times faster!

Baugh Takes Over Reins Of Cowboys

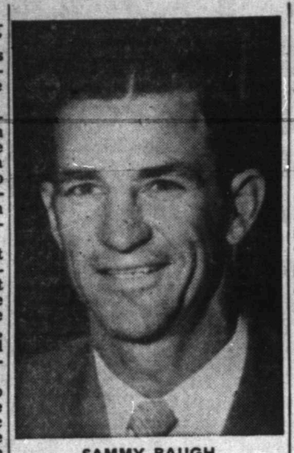

By CLAYTON HICKERSON

ABILENE, Tex. (AP)—Samuel Adrian Baugh, the "slingin' Sammy" of George Preston Marshall's old Washington Redskins, is coming back to football as a college head coach.

The gangling guy from Sweetwater, whose passing records with the old 'Skins may always be the goal of the youngsters, signed a 5-year contract Tuesday night to coach Hardin-Simmons University's Cowboys, an aggregation sometimes strong and always colorful.

H-SU officials said they thought it was Baugh's great love of football, not any financial gain, that brought about his decision to take the job. Only pressure from the athletic committee persuaded him, Baugh said, adding that he had been offered better salaried coaching jobs in the past.

He succeeds Murray Evans who resigned Sunday under what he termed pressure from the athletic committee. Baugh then said he wouldn't take the head coach job but would continue to "help out" as an associate.

SAMMY BAUGH
. . . H-SU coach

It was Baugh, who made Southwest Conference football history at Texas Christian as a standout passer, who first brought capacity crowds to Washington Stadium. He did it with explosive touchdown passes thrown from every corner of the field.

And it was Baugh, following such football greats as All-Americas Bobby Wilson of SMU and Harrison Stafford of Texas in the Southwest Conference, who brought Texas Christian up from an unknown denominational school to one of the nation's most widely known football powers.

Baugh never made All America, and redfaced sports writers have been explaining why ever since he left TCU.

Upon joining the Redskins in 1937 soon after Marshall moved the club from Boston, Baugh began a skein of records and accomplishments that still are talked about whenever football fans gather.

For six of the 16 years he played at Washington he was the National Football League's leading passer. Marshall credited him with making an otherwise mediocre team a feared professional outfit.

Time and again the lean, frail-looking Baugh stood behind a wavering line and fired touchdown passes amazing distances. Often they turned what seemed certain defeat into Redskin victories.

The Washington stands groaned as hefty linesmen pile-drived Baugh into Griffith Stadium's turf. But the durable Texas cowhand usually bounced up first—to pass and pass again.

In 1947, after a decade in the rough pro game, Baugh enjoyed his finest hour. He set league records for throwing the most passes (354), making the most yards passing (an amazing 2,988 yards), and for completing the most passes (210). Of the 354 thrown, he had only 15 intercepted.

Hardin-Simmons is a Border Conference member with an enrollment of approximately 1,700 students. With Evans as head coach and Baugh as an associate coach, dividing time between his nearby ranch and the campus, the Cowboys won 4 and lost 6 in the 1954 season.

Sheary's Holy Cross Team Is Doing Well

By SHELDON SAKOWITZ
The Associated Press

When Lester (Buster) Sheary began coaching basketball at Holy Cross in 1948, he had some mighty big shoes to fill. He replaced Alvin (Doggie) Julian, whose Crusaders had won 65 and lost 10 in his three seasons at Holy Cross.

But Sheary, in making the jump from high school to college coaching, has done a good job. Under him, the Crusaders have won 148 games against only 31 setbacks—including a 12-2 record this season.

Holy Cross won the Sugar Bowl and NIT tournaments last year, but the outlook didn't appear bright at the outset of the current campaign. Graduation had taken its toll with high-scoring Togo Palazzi and playmaker Ronnie Perry among the missing. In addition, last year's freshman squad was poor.

Nevertheless, with Tommy Heinsohn taking up the scoring slack, the Crusaders have been nearly as strong as ever.

Idle for the past two weeks because of midyear examinations, the Crusaders, ranked 14th in the weekly Associated Press poll, returned to action last night with an 82-56 triumph over St. Francis of Brooklyn. It was Holy Cross' sixth straight victory.

Heinsohn came off the bench and scored 20 points to break open a tight game.

Three others of the nation's top 20 teams, North Carolina State (No. 6), Dayton (No. 15) and Missouri (tied for No. 17), played last night.

Vic Molodet tallied 34 points as N. C. State came from behind to turn back Virginia 98-91 in an Atlantic Coast Conference game. Dayton, paced by big Bill Uhl's 23 points, bowled over Western Kentucky 73-67. Missouri moved into undisputed possession of second place in Big Seven with an 84-67 triumph over Iowa State.

In another Big Seven test, Kansas State put on a second-half surge to whip Oklahoma 71-60 as Dick Stone scored 25 points. Wichita, sinking 30 free throws, downed Detroit 80-75 in a Missouri Valley fray.

Murray Bailey set a Baylor season scoring record as his team trimmed North Texas State 88-73. Bailey scored 20 points to give him 350 for the season. The previous mark was 348, set by John Starkey in 1953.

Both Hobbs Teams Win

The Hobbs Panthers took McCaulley 60-54 in a district cage game last night in one overtime.

The close game was tied 49-49 at the end of regular playing time. The win gave Hobbs a 4-5 district record.

Doyle Hayes led scoring for the Hobbs team with 18 points, followed by Bobby Pullig with 15. J. McElyea lead McCaulley with 14, while R. McElyea had 13.

The Hobbs girls now have a 9-1 loop record after taking the McCaulley girls 60-33.

Delphene South paced Hobbs with 24 points, while Barbara Sellars had 22. Leading McCaulley was Lawlis with 18.

The Hobbs teams will finish regular district play Friday night when they go to Divide. The girls team, which is leading its division of the district, will then go into a two-out-of-three playoff with the second place team for the championship.

Frosh Meet Roscoe Five

The Snyder High School freshman basketball team will take a 6-3 record into play tomorrow afternoon.

The frosh will be playing at home, meeting a Roscoe team in a game starting at 5:30 tomorrow afternoon in the high school gym.

A few days ago this team took a one-point win over a Big Spring team which had downed the Snyder team by 20 points earlier in the season.

ABOVE THE BLEACHERS

By DALE WALTON

Plans are now underway for new athletic facilities to be built for the Snyder schools, as authorized last December in a bond election.

Included in those facilities will be a new field house, addition to bleachers in the football stadium, new lighting for the stadium, a 220-yard straightaway on the track, and a new pressbox.

The field house, coach John Conley said this week, will be located at the south end of the football stadium and will face south. It will have three dressing rooms of equal size; a training room for rubbing tables, heat lamps, a whirlpool bath, and other facilities used for sore muscles; two inside equipment storage rooms, two showers, two toilets, a coaches' office, and one outside storage room for track equipment.

The field house will face south. Now used for a field house is a temporary frame building on the football practice field.

Tentative plans on the lighting system call for three towers on each side of the stadium behind the stands. These will replace the poles which now stand between the bleachers and the field.

The straightaway will run off the present track and incorporate one side of the track. The pressbox, which is planned for the west side of the stadium, will be a two-decker housing two radio boothes, place for two movie cameramen representing the competing schools, and adequate room for working scouts, press, and public address system.

• • •

Reclassification is still the big topic in high school athletic circles about the state, and the University Interscholastic League may come up with a good idea yet. It now has a 10-man committee studying the athletic district situation, trying to figure out how to get even competition on basis of school enrollment while still keeping district members close together geographically. Another problem is provision of an orderly playoff to state championship, in other words, trying to keep the number of districts in multiples of eight so the playoffs will progress without some districts drawing byes.

Such an arrangement is nice, if it can be kept, but the committee has a big problem. For example, to relieve classes A and AA, which have numerous schools, enrollment requirements might have to change so they could move up to higher brackets. The ideal situation in Class AAAA, then, would be to have 16 districts in the state instead of eight. By the time 16 districts were set up in the highest bracket, there would be an unevenness in enrollment. Class AAAA enrollments now vary from 1,200 to 2,400.

To get enough schools to get 16 Class AAAA districts, the interscholastic league would have to lower enrollment requirements to 750. That would put 30 Class AAA schools up to AAAA, including Big Spring and Plainview out of Snyder's district. That would mean a school with enrollment of 750 competing at times with one with 2,400 students.

If that were done, it would leave only 28 schools in Class AAA, so more would have to be brought up from Class AA to get 16 districts. To get enough, AAA enrollment requirements would have to be dropped from a 550 minimum to one of 390. An enrollment spread such as this, however, would be much better than that in Class AAAA. In that kind of shuffle, such West Texas schools as Dumas, Hereford, Phillips, Colorado City, Brownfield, Kermit, Littlefield, and Pecos would move up.

That's the problem which faces the committee. What would you do?

Here's the number of schools now in the top four classes: 53 in AAAA, 58 in AAA, 180 in AA, and 217 in A.

Dumas, by the way, lacked only 35 students having enough to get into Class AAA at last report. It comes the nearest of any of the West Texas towns named. Hereford, Phillips, and Brownfield each lack about 100.

Volley Teams Lose First Season Tilts

Snyder High School's girl volleyball teams lost their first games of the season last night, but the teams were already showing more potential than they had last year.

The varsity squad lost its game to Midland 38-24, while the B team lost 43-31.

In the A game, Snyder was trailing by a score of only 14-13 at halftime. With four minutes to go in the game, Snyder was ahead by six points. One of the regulars, however, was slightly injured and did not play the rest of the game. She was Carla Swan, high scorer for the Snyder team with six points. Midland overtook Snyder and went on to take the 14-point win.

Other scorers for the A squad were Carol McKinney and Mickey Gillean with five each, Ramona Thompson with four, and Sandra Scott and Patsy Smith with three each. Lynda Smith and Dianne Kerley also played with the team.

The B team was behind in its game 30-12 at halftime but began to pick up, finally losing by 12 points. Dianne Kerley led scoring for the team with 11 points, followed by Paula Taylor with five.

Other playing with the team were Charlotte Chancey, Patsy Smith, Rita Grimmett, Jackie Dunn, Marsha Fisher, Oneta Forguson, Mollie Gillam, and Twila Sturdivant.

The B team and freshman team will play teams in Big Spring tomorrow afternoon. The varsity squad's next activity will be in the Midland tournament Feb. 11-12.

Junior High Teams Set To End Season

Snyder's two junior high basketball teams will end their season play tomorrow afternoon when they host Hamlin teams.

The seventh grade will start its game at 3:45 o'clock, while the eighth grade's game will follow.

Yesterday afternoon both teams took wins over Roscoe squads. The eighth grade won 45-25. It led all the way. At halftime, the team's lead was 22-10. Jimmy Allen led scoring with 13 points, followed by Mickey McGrew with 12 and Gale Courtney with 10. This team's record is now 8-1.

The seventh grade won its game 26-19. At halftime, it led 15-2. Leading scorer for that team was Dick Hayes with 12 points. This brought the seventh grade record to 7-2.

Guardsmen Stay At Top Of League

National Guard stayed at the top of the city basketball league and Hermleigh moved up near the top in games played last night.

The National Guard team, which is tied with Brooks Oil Well Service for top place, took Gail 49-23 in last night's game, while Hermleigh edged out Chuck Wagon 58-53. Those two teams had been tied for fourth place in the league. Hermleigh and D&H Super Market are now tied for third.

The Brooks team will try to stay on top tomorrow night when it meets Sunray, one of the cellar teams, in a 6:45 o'clock game. Hermleigh and Gail will meet in the night's second game.

Gail kept its game with National Guard close during the first half, with the guardsmen leading only 23-16 at halftime. During the second half, however, National Guard moved out to take an easy win.

Wendell Autry paced the guard team with 26 points, followed by George Richardson with eight. Gail's scoring leaders were Gene Adams with eight and Chuck Lewis with five.

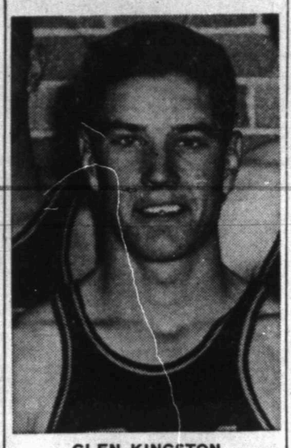

The Hermleigh - Chuck Wagon game was close all the way. At halftime, that game was tied up 25-25. Heading up Hermleigh scoring in the game were Ray Isaacs with 15 and Joe Galyean with 14. Overturf was high for Chuck Wagon with 17, while Bill Moore had 16.

LEAGUE STANDINGS

Dennis Vinzant To Staff At Midwestern

WICHITA FALLS (AP) — Dennis Vinzant, who won his greatest glory as basketball coach of the strong East Texas State Teachers College Lions in the early '40s, is joining the staff of Midwestern University. Coach Dick Todd said yesterday Vinzant would be his line coach next season. Vinzant has been assistant coach at Tulane U since 1946.

GLEN KINGSTON
. . . leads Gail

Gail Takes Ackerly

GAIL — The Gail Coyotes finished regular district play tied with Dawson for first place in their basketball district after downing Ackerly last night 50-46.

The game was close all the way, with Gail's lead not getting over five points. It was tied 21-21 at halftime. Glen Kingston led Gail scoring with 13 points, while Ray Weaver paced Ackerly with 20.

The Coyotes will now enter the district tournament, which will determine the loop champion. They drew a bye in the first round and will play in the second round at Dawson Friday night. Their district practice game record was 4-1.

The Gail girls lost last night in a close game. Ackerly came out on top 33-27. Like the boys game, that one never saw a margin of more than five points. At halftime, Ackerly led 14-13. A minute before the end of the game, Ackerly was ahead only 27-26, but a flare-up of Gail fouls put Ackerly ahead on free throws.

Melba Boggan was leading Gail scorer with 13 points. Sue Asberry led Ackerly with 17. The girls district tournament will be held Feb. 17-19 at Ackerly.

Brennan Marks One Year Heading Irish

By JERRY LISKA

SOUTH BEND, Ind. (AP)—It was just a year ago yesterday Terry Brennan, then 25, became Notre Dame's head football coach succeeding illness - plagued Frank Leahy.

Brennan hardly noted the fact. He's reading plane schedules more than calendars these days.

"I don't know how many banquets I've hit in the past two months, but it's two seasons of the knife and fork circuit crammed into one because I didn't appear at any banquets last winter," he said.

Take the past several weeks, for instance. On Jan. 16, he appeared at Owosso, Mich.; Jan. 18 at Appleton, Wis.; Jan. 19 at St. Paul, Minn.; Jan. 20 at Milwaukee; Jan. 22 at Louisville (as one of the nation's outstanding young men chosen by the National Junior Chamber of Commerce); Jan. 24 back at Milwaukee; Jan. 26 at San Diego; Jan. 28 at San Francisco; and Monday night at Philadelphia.

Brennan, to be sure, isn't making the rounds just to test his popularity. A very astute chap, he knows Notre Dame's national appeal to Catholic prep stars, and his eyes and ears are open on the road as a good will salesman of the Irish.

"You can never have too many good players on hand in the fall," is Terry's cryptic coaching philosophy. It's no secret around Notre Dame that a superior frosh group is needed and wanted.

His second Irish season next fall will be a sharper test than last fall's debut when—with a solid Leahy inheritance Brennan won won nine games and lost only to Purdue.

Brennan knows this, but with an absence of pessimism that is surprising in a protege of Leahy's, Terry comments: "It's still much too early to tell whether we're going to do a good job."

"Our big need for the future is linemen, from tackle to tackle," he continued. "We need help and we need it now. The freshman team last fall wasn't a great one and neither was the one the previous year."

Tech Takes Cowboys

ABILENE (AP)—Texas Tech used free throws here last night to beat Hardin-Simmons 72-59 for their third Border Conference victory against a lone defeat. Tech sank 30 of 32 free throws for the game-winning margin. Each team sank 21 field goals.

Phillies Could Have Contender This Year

By MAYO SMITH
Manager, Philadelphia Phillies
Written for The Associated Press

LAKE WORTH, Fla. (AP)—I think the Phillies are at least as strong as last year and perhaps even stronger because of two new pitchers, Jim Owens and Jack Meyer, and the prospect of having Herman Wehmeier with us all season.

There is still plenty of room for improvement and we hope to do that this year. We should be a contender if we can improve ourselves at second base and right field. Our chances for improvement hinge on 1) ability to make one or two helpful trades and 2) some of the borderline youngsters from triple-A coming through.

Lack of a steady double play combination, insufficient power at the plate and a not too sturdy bench hurt us last year. I plan to shift Granny Hamner back to short this season and if Louis Ortiz comes up to expectations at second, our double play output should be greatly improved.

Second base and right field appear now to be our weak positions. Ortiz is a good defensive player but has not been known to hit much. I have hopes, however, that he can hit enough with us to play regularly. There is no question about his fielding.

Two of our outfield spots are set with Del Ennis in left and Richie Ashburn in center. Mel Clark, fully recovered from last year's knee operation, may be okay in right. Danny Schell and Bob Bowman, a fine defensive player who hit .25 at Schenectady, are likely prospects. Stan Palys also has a chance.

I am looking forward to a three-way battle for the first base job. Earl Torgeson will have competition from two fine-looking prospects—Marv Blaylock, who hit .308 at Syracuse, and Jim Westlake, a brother of Wally, from San Francisco. Willie Jones and Bobby Morgan will fight it out for third. Willie will improve because he underwent an operation to have calluses removed from his feet.

Smokey Burgess and Stan Lopata will do most of the catching again. Joe Lonnett from Syracuse is a good prospect. Then there is Gus Niarhos, acquired from Louisville.

Pitching is our strong point. I plan to have five starters because I believe Murry Dickson needs extra rest. Right now the other starters look like Robin Roberts, Curt Simmons, Wehmeier and either Owens or Meyer. Bob Miller also could earn a place.

The Giants appear to be the club to beat. They are a well balanced club. Milwaukee could upset the Giants due to good pitching. Brooklyn will make a strong contender if Roy Campanella and Don Newcombe come back with good years. Cincinnati will also be very tough because of all their power. The league is very well balanced and anyone of six clubs could win the pennant.

Nationalists Bid For 50-50 Division Of Power In Algeria

By PRESTON GROVER

ALGIERS, French North Africa (AP)—Algiers was the last point I touched in a tour of French North Africa. It's almost wholly a French city now, though its history runs back into the ages.

Built above a harbor, the city climbs straight up the side of a steep hill which is almost a cliff. In some places you can flip a coin from one street to another 100 feet nearly straight down.

The Phoenecians were here several hundred years before Christ. Then came Romans, Vandals, Arabs, Egyptians, Portuguese and the Turks, who sold the country's crops and went in for piracy. Tired of piracy, the French sent a fleet and in 1830 Algiers was occupied.

Unlike Tunisia and Morocco, there was no existing government in Algeria when the French came. The Turks ruled only the city. So the French didn't make the place a protectorate. They conquered it outright and 50 years later, in 1881, they formally annexed it to France.

The native Algerians have never taken that very seriously, but the French have. French officials become furious if you suggest that Algeria is not really a part of France. Long ago they opened up schools jointly for Moslems and French alike. They have extended French citizenship to all Algerians.

"As between France and Algeria no secession is conceivable," Premier Pierre Mendes - France recently told the National Assembly. The whole Assembly applauded him, except of course the Communists.

Mendes-France made this declaration in telling the Assembly he had rushed troops to Algeria to put down a fellagha (outlaw) rebellion that broke out in November in the Aures Mountains, a perennial trouble spot in the interior.

Just as in Indochina, a few tough rebels in the hills can stand off a lot of troops. Two to four divisions were used in the Aures affair. Many French battalions are still on the spot although it is estimated only about 400 hillmen are still in rebellion. For the time being, it is "in control."

Coupled with the operation against the interior hillmen, the police closed in on extremists and terrorists in the big cities. The government outlawed the most radical of the nationalist political parties and arrested 1,500 possible agitators and terrorists.

The uprising was a shock to the French, who had considered Algeria "safe," and not like Tunisia and Morocco. Gov. Gen. Roger Leonard says there is no doubt France will preserve its authority here, but in response to questions he said that if trouble develops in Tunis and Morocco next spring there will be trouble here.

Soon after arriving I talked to some members of the opposition camp in Algeria. They want a 50-50 division of power in the internal government. They said they would be satisfied with that even though there are 8½ million Moslems against a million French in the country.

At present, the French dominate the representation of Algeria in the National Assembly, they dominate the town councils, and they dominate in the Algerian Legislature, which has authority to help shape the budget and impose taxes.

That makes the nationalists pretty indignant.

They are angry about the schools too. They claim the schools were built mostly in areas predominately French, so Moslem youngsters don't get a chance to enter. French officials explain there are more schools in French area because for a long time very few Moslem children came to the public schools so fewer were built for them.

The population problem is crucifying the French. In Morocco, Tunisia and Algeria, the population is increasing more than a half million a year. Food is getting proportionately scarcer. Jobs, too. Perhaps two million men are jobless, or earn too little to live on.

The French pour in considerable capital in the form of government grants for roads, housing, reservoirs, sanitation and education. But they haven't got enough money. Mendes-France hopes to negotiate German and Italian capital into North Africa, but tightly under French control. That will take time, and the nationalists are pressing for more and more outside help right now.

France lost a controlled market in Indochina. Many French cotton mills and pharmaceutical manufacturers lived on it. France will hold North Africa for itself as long as it can, especially Algeria. To lose another "captive market" would be critical.

Stock Show At Houston Opens Today

HOUSTON (AP)—A Western parade headed by Gov. Allan Shivers and cowboy actor Gene Autry today opens the 23rd annual Houston Fat Stock Show.

The 12-day exposition and rodeo is being held in Sam Houston Coliseum.

While the parade is going on, prize fat steers will be parading before the judges in the coliseum arena where the grand champion steer will be chosen tomorrow night.

Boys' class steers were selected yesterday.

A 1,130-pound Hereford owned by Llie Lewter, 10, of Big Spring was judged champion of the boys' show. That made the 4-H Clubber's entry an early favorite to win the grand championship.

Llie's steer also won first in the Hereford heavyweight division.

An entry by Jimmy Ballow, 17, a Lampasas 4-H Club member, was reserve champion among boys' Herefords.

Leo Holloway, 19, Abilene 4-H Clubber, won first place with his entry in the medium weight class.

Breed champions of the boys' show meet the open class champions tomorrow. Open class judging is to be today.

Norman Burk, 13, of Tulia, Tex., broke into sobs of joy as his Black Angus named Buddy was named the junior breed champion. Before Norman had stopped crying, an Angus owned by his brother, Kinan, 16, was named reserve champion.

The champion Shorthorn was chocolate-colored Butchy, raised by Danny Lyons, 15, Pflugerville.

A brindle named Big Boy and owned by Charles Knipe, 17, Danbury, Tex., was named champion Brahman.

Junior reserve champion exhibitors included Buck Capps, 17, Lometa, Shorthorn, and Roy Grenwelge, 17, Llano, Brahman.

Three youths won prizes totaling $850 for top steers in the commercial steer feeding division, a new event at the 1955 show.

Donald Wanjura, Weimar, won $500 with his record on an 840-pound steer. Leslie Kahlden, 18, also of Weimar, took $200 for his report on a 750-pounder. Alfred Guerrero, 17, Luling, won $100.

Fire Wipes Out Navy Project In Shipyard

BAY CITY, Mich. (AP)—Fire swept through the main shed of the Defoe Shipbuilding Co. early today, destroying the plastic hull of an experimental 57-foot U.S. Navy minesweeper under construction.

Damage was not estimated officially but unofficial estimates placed it at several hundred thousand dollars.

The fire wiped out 10 months of work on the project. The minesweeper, known as the MSB23, was a prototype of a nonmagnetic vessel under development by the Navy.

A Navy official hinted that the loss of the hull may result in calling off further work on the experimental project valued roughly at 1½ million dollars. The project reportedly was half completed.

Cause of the blaze could not be learned.

Funeral Rites Held For Thomas K. Jones

Funeral services for Thomas K. Jones, 82, who died early Monday morning at his residence, were held yesterday afternoon in the Fluvanna Presbyterian Church. A retired farmer, he had been a resident of Scurry County for 60 years.

Burial was in Fluvanna Cemetery under the direction of Bolger Funeral Home.

Services Are Held Here For Mrs. Renfro

Funeral services for Mrs. Ada Beulah Renfro, 76, of 2509 Avenue Y, were held at 2 o'clock yesterday afternoon in the First Baptist Church. Burial was in Townsend Cemetery under the direction of Bell Funeral Home.

Mrs. Renfro, a Scurry County resident since 1932, died Monday morning at her home. Survivors include three daughters and two sons.

Adults Interested In Courses At School Asked To Attend Meet

Adults interested in enrolling in night classes at the high school have been asked to attend a meeting at the school tomorrow night at 7 o'clock.

T. D. Wiman, Jr., high school principal, said each night class held at the school has a minimum requirement of students and must have several enrolled before it can be conducted.

Enough adults have already signed up to insure starting a shop course, while others are asked to attend tomorrow night, along with those interested in other courses, especially those interested in typing, shorthand, and bookkeeping.

The meeting will be held in room 122 of the high school building.

Outlook For February Is Better In '55

By SAM DAWSON

NEW YORK (AP)—February has a chance this time to nix its reputation as a bearish month.

The forces that have often caused prices to drop in the second month of the year may be strong again this year. But traders point out that this time there are some counterforces that could make this February different.

Commodity prices—and stocks of some companies active in defense production—are under the influence of the cold war. It is considerably less chilly right now. The Formosa dispute—with its calculated risk of war—has sent some commodity prices up.

Here at home, the auto production race is sucking in large quantities of steel, other metals, rubber, glass, textiles. Fierce competition among the auto companies is holding February production schedules high.

More housing starts this spring than last are predicted by the Home Loan Board. The construction industry has been a big consumer of raw materials.

The price of farm products rose in January and Secretary of Agriculture Benson expects them to rise even higher in the spring. Expectation of a later rise may stave off "the February break" this time.

Export markets are improving. Europe's great industrial revival—boosted later perhaps by plans to rearm Western Germany—has created a rising demand for steel and copper and petroleum. That demand sustains prices for many other commodities.

There are some weak factors too. Some brokers say the stock market may still be in for a bigger correction that occurred early in January. The huge surpluses of farm commodities and the greatly increased capacity for producing many industrial commodities overhang the markets. And, then February does have that bad name.

One Snyder Man Is On Induction List

One Snyder man is included in a February induction call for five men from the Scurry-Nolan-Fisher County area, the selective service board announced this week.

He is Jerry Doyle Permenter, 1904 Seventeenth Street. Others being inducted are Carl Ernest Krueger of Colorado City, Frank R. Luna of Rotan, Lee David Mitchell of McCaulley, and James Allen Brotherton, a transfer from Tipton, Ind.

In March, three men are to be inducted. There will be no preinduction physical examination calls for February or March.

The board now has on file a total of 5,107 registrants living in the three counties, 5,077 of them classified. Of those 139 are under 18½ years old, the draft age. Those classified 1-A but not examined number 600, while 91 more have been examined and found acceptable.

Burglar Leaves Candy

GLEN BURNIE, Md. (AP) — A burglar broke into Bernard A. Dodge's home yesterday and took about $30. Later, police found a half-pound box of chocolates in a heart-shaped valentine box at the scene of the theft. Dodge said the candy didn't belong to him.

The Detroit Police Department was the first to install radios in patrol cars.

Old Money Fumes Low On Fragrance

By HAL BOYLE

NEW YORK (AP)—Money stinks.

Not all kinds of money, of course. Just old dirty, beat-up money—the kind a man would hesitate even to give to a relative.

This worn out currency is accumulated by the Federal Reserve banks before it is destroyed.

"One of our biggest problems recently was designing air-conditioning for two Federal Reserve vaults," said John Moser, executive vice president of the 107-year-old Mosler Safe Co. "They had to have fresh air ducts to take away the money fumes.

"Most people like the smell of crisp new money. But the smell of stacked old money will knock a horse over."

Getting rid of this repulsive fragrance is only one of the troubles with old money. It is also hard to get rid of the money itself. You may find money easily burns a hole in your own pocket, but the government has found it so difficult to destroy bundles of old bills that it now has a money shredder to chop it up before it is put to the torch.

There is so much cash in America today that the care and proper protection of it has boomed the safe-and-vault business into a 50-to-60-million-dollar-a-year industry.

It has also developed several new gimmicks to make the chore of depositing or withdrawing money easier for bank customers.

"Banking today is a highly competitive business," said Mosler. "Bankers, after all, are salesmen—they sell money for a price. And since they generally have the same price for it, they are learning they have to offer special services to get new business."

One of the new devices is the "snorkel" for drive-up banking. The snorkel sits at the curb outside the bank and looks like an automatic vending machine. The motorists drive up, reach out and put the deposit or the check they want cashed into an elevator tray which descends to the teller, who is beneath the pavement but can see the depositor through an overhead mirror. He completes the transaction by sending up the bankbook or cash in another elevator tray.

Another device is the pedestrian window, built in the walls of the bank. A shopper can do business without ever entering the building. The pedestrian windows are proving highly popular with housewives who find it hard to push their baby buggies through a revolving door, or don't feel they are dressed well enough to go into the bank.

"Women now are doing more and more banking," said Mosler. "And they are dictating many of the changes."

The latest wrinkle is "skytop banking." A suburban St. Louis bank soon will inaugurate this. The bank is built on a hillside and has two snorkel machines on the roof. Motorists will be able to drive from the hill onto the roof, make a deposit, and roll down the other side on a ramp.

At Eldorado, on Beaverlodge Lake in northern Saskatchewan, a main shaft descends 1,300 feet into one of Canada's largest uranium deposits.

Scurry Oil And Gas Association To Meet On Thursday Evening

The Scurry County Oil & Gas Association will meet for dinner at 6:30 Thursday evening at the B&B Steakhouse on the East Highway.

Jack Myers of Midland, division geologist for Lane-Wells Co., will be guest speaker following the dinner. He is to present a paper on radioactive tracer logs which he presented earlier at the AIME convention in San Antonio. The paper deals with the development of processes for the use of radioactive tracers as a means of locating zones of permeability and discusses the general techniques for the safe handling of radioactive materials as developed by Lane-Wells and Wells Surveys, Inc. The problems and successes with tracers in waterflood systems, fracture sand tracing, squeeze cement tracing, lost circulation and cement top location are also discussed.

Recent sample measurements indicate that 14-year-old American boys average 5.9 inches taller and 31.3 pounds heavier than 14-year-old boys in 1877.
