AN Invitation TO FAITH

"God forbid that I should glory, save in the cross of our Lord Jesus Christ, by whom (whereby) the world is crucified unto me, and I unto the world" (Galatians 6:14). The dictionary says of glory, "n. Praise, honor, or distinction. As a v.l., To exult with joy or triumph; to be proud or boastful. By this there are five things we would see today. (1) The glory of God is the Son; the glory of the Son is the cross. (2) This cross is not only the central theme of glory, but the one theme of glory for the saved (see I Cor. 1:31). (3) By this cross the world and the Christian have been separated: he still lives in the world but not of it. (4) Until one is crucified with Christ, one cannot live by the faith of Christ. "I am crucified with Christ, nevertheless I live; yet not I, but Christ liveth in me; and the life which I now live in the flesh I live by the faith of the Son of God, who loved me and gave himself for me" (Gal. 2:20). (5) Only the crucified to the world can glory in the cross, for they only have triumphed by the cross.

Therefore, God's lesson comes pointedly. Have you been crucified? Have you in repentance to God turned your back upon the resources of the world as the source of peace, security and joy? Do you suffer for sin? Have you put your trust in the Son of God on the Cross of Calvary? Be crucified today. God for Christ's sake invites you to have faith in Him now.

You will feel welcome at the Faith Baptist Church of Iowa Park. Bro. George Shroshire, pastor. adv

The Income Tax And Your Car

By Jeanne Smith, Dodge Safety Consultant

WHEN YOU'RE FIGURING your income tax this month, remember that certain automobile operating expenses are deductible.

Here's a summary of such deductions for both the housewife who will be helping her husband burn the midnight oil, and for career women who will be computing their own taxes.

Salesmen and women, and others who use their cars exclusively for business, may deduct the full cost of upkeep, including gasoline, oil, repairs, washes, garage rent, insurance and depreciation.

If the car is used for both work and pleasure, only the percentage of business use may be claimed. Figure this percentage by estimating the miles used for business and dividing by the total miles driven in 1957. Remember, however, that expenses of driving a car to and from work are not deductible. Some expenses incurred in operating an automobile for personal use also are deductible. (But be careful not to duplicate amounts claimed as business expenses.) If you plan to itemize your deductions on the long form, you may claim:

1. License fees and annual car registration fees.
2. State gasoline taxes. Estimate the total number of miles driven last year, divide by your car's average mileage per gallon, then multiply this figure by state tax per gallon.
3. State or local taxes on the total price of a car purchased in 1957.
4. Interest on automobile loans. If you are financing your car on the installment plan, you may deduct the interest on your contract.
5. Any casualty or theft loss not compensated for by insurance, and not caused by your willful negligence. Damage to your car from fire, lightning, storms, hail or flood also is deductible.

How, when and where to establish coastal bermuda grass will be the theme of the Field Tour, March 21, at 1:30, starting at Valley Farms Community House, according to Fenton Dale, chairman of the board of supervisors for Wilbarger-Wichita SCD.

The group will be shown slides of coastal bermuda at the Community House before going to the field, says Elvy Sargent, Iowa Park soil conservationist. Dr. Carl Gray of Midwestern university will assist Jack Martin, ranch owner, and Joe Price, ranch manager, at this stop.

If you have questions on land adaptation, machines for sprigging and sodding, fertilizing, sprig supply, quantity of sprigs or sod needed per acre, SCD officials suggest that you attend the tour. Men doing commercial establishment will be on hand to give you cost figures if you want to contract sprigging or sodding.

NEW FISHING BOOK IS PRIZE CATCH

The early bird not only catches the worm—she goes fishing with it. Pretty Pat Lee may be too early for the fishing season, but there's nothing like being prepared and making sure her tackle is in good condition.

As a further precaution, Miss Lee brings herself up to date on the latest fishing information by studying her advance copy of the first annual edition of the Fishermen's Digest.

The new book, to be published April 1, is the most complete book on fishing ever published. It contains more than 50 articles covering the whole field of angling, plus more than 300 photographs.

We're not sure what kind of fish Miss Lee will be after, but it makes no difference because there's an article in the Fishermen's Digest on any type of fishing she wants.

If she's after bass, the book's editor, Tom McNally, has contributed an article on "spoonging," the amazing new system that almost guarantees a prize catch of big bass, regardless of time of day or weather conditions. Other articles, all written by experts, tell how to catch trout, bluegills, minnows, muskies, shad, salmon, bluefish, sailfin, striped bass, yellowtail, steelhead, porgies, bonefish, and the giant gar.

The Fishermen's Digest will be sold in sporting goods, book and department stores, or can be ordered by mail from The Sun Digest Company, 227 W. Washington St., Chicago 6, Ill. Price is \$2.95 postpaid.

Reflections from the Bible

By Ray Marcum, Minister Iowa Park Church of Christ

The church of the New Testament has a grave responsibility in ministering to those of its own community as well as to those in foreign lands. First, we must be concerned about those we live among. Sin must be renounced. Men should be taught that there is eternal danger to engage in all works of iniquity. We commit sin when we play down the iniquity in the realm of religion. This is still humanity's greatest curse. It was the reason for our Lord's saying, "Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my Father which is in heaven" (Matt. 7:21). These were religious people. The Ethiopian was a religious man. He was riding in a chariot when God sent Philip unto him. Philip started at Isaiah 53 and preached unto him Jesus. The eunuch believed in Christ and confessed it to Philip. In preaching Christ, Philip preached how to get "into" Christ (Gal. 3:27) and when they came to a certain water, they stopped, and "they went down both into the water, both Philip and the eunuch and he baptizeth him" (Acts 8:38).

The eunuch became a Christian, he came a member of Christ's church (Matt. 18:18), he became a believer of the "one faith" and accepted the "one baptism" (Eph. 4:5). He didn't join anything, the Lord added him to His body, the church (Acts 2:47). The world wasn't confused about what kind of a Christian he was because he was just a CHRISTIAN. This was in answer to the Lord's prayer in John 17:20-21.

'SNUFF SAID

AMERICANS USED some 37,000,000 pounds of snuff last year. Curiously enough, the fair sex continue to take more than half the supply . . . as pretty Del Marks will attest. Often referred to as America's oldest tranquilizer, the powdered, blended tobacco favorite of our ancestors was first used by the American Indians and subsequently favored by some of the most prominent people in our history. George Washington was one of its proudest users, and even carried his own snuff mill when on a trip of any length. The figures accompanying Miss Marks, were fashioned from packages of 37 of the more than 60 brands of snuff marketed throughout the U.S.

Texas Cherry Pie Contest Champ

Mary Nell Card, 15, Cuero, Texas, who baked her way to the state championship, admires her cherry pie baked in an Admiral electric range. Here is her winning recipe:

Cherry Pie
1-1/2 (16 oz.) cans red, sour pitted cherries, drained (2-1/4 cups)
1/3 cup cherry juice
1-1/4 cups sugar
3 tablespoons cornstarch
1/4 teaspoon salt
1 tablespoon soft butter
1/2 teaspoon red food coloring
1/4 teaspoon almond extract

In a saucepan, combine sugar, cornstarch and salt; stir in cherry juice, butter and food coloring. Heat mixture until it comes to a boil. Add cherries and continue to heat for two minutes. Take from fire and add almond extract. Line 9 inch pie plate with pastry; fill with cherry mixture. Arrange pastry strips, lattice fashion, over filling. Flute edge. Cut a 2-1/2 inch strip of aluminum foil and fold it loosely around edge of pie. Bake in oven for 15 minutes at 450°. Reduce to 375° and continue to bake for 25 to 30 minutes. Remove foil for the last 5 minutes to give an even golden brown.

If frozen cherries are used, reduce sugar to 5/8 cup (1/2 cup plus 2 tablespoons.)

Crust
1-1/2 cups sifted flour
1/2 teaspoon salt
1/2 cup shortening
3 to 4 tablespoons water
Combine flour and salt in mixing bowl. Cut in shortening with two knives or pastry blender until mixture resembles coarse cornmeal. Sprinkle water over mixture, a tablespoon at a time, stirring with a fork until flour is moistened. Divide into two portions. With hands, shape dough into two flat balls. Roll pastry on a lightly floured pastry cloth to 1/8 inch thickness. Use short, light strokes from center to outer edges. Keep dough round and uniformly thin. Cut round 1-1/4 inch larger than pie plate. Line pie plate, being careful not to stretch dough. Pat into pan so no air bubbles are left between dough and pie plate.

THE STATE OF TEXAS

To: LEROY GARRISON, Defendant,

Greeting:

You are hereby commanded to appear before the Honorable 78th District Court of Wichita County, at the Courthouse thereof, in Wichita Falls, Texas, by filing a written answer at or before 10 o'clock a.m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 7th day of April, A.D. 1958, to Plaintiff's Petition filed in said court, on the 14th day of February, A.D. 1958, in this cause, numbered 60,937-B on the docket of said court and styled JUANITA ANDERSON GARRISON, Plaintiff, vs. LEROY GARRISON, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: after alleging jurisdiction plaintiff further alleges that she and defendant were married on June 24th, 1954 and continued to live together as husband and wife until December 26, 1957, when defendant left and abandoned this plaintiff without cause or provocation and plaintiff alleges that defendant's actions and conduct toward her generally have been of such a nature as to render their further living

together as husband and wife insupportable; that there were no children born of this marriage and that there is no community property. Plaintiff would further show that her former name was Anderson. Plaintiff asks custody and control of two minor children, Gregg and Sally Garrison. Wherefore, plaintiff prays that defendant be cited to appear and answer herein, and that upon trial hereof, she have judgment for divorce, restoration of her former name, and for such other and further relief, in law or in equity, to which she may show herself justly entitled, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Wichita Falls, Texas, this 21st day of February, A.D. 1958.

ABUNDANT LIFE

by ORAL ROBERTS

LOYD W. WAS AN ALCOHOLIC

Man's most severe struggle for faith is within himself. This is because his own sins condemn him. They stand before him when he gropes for contact with the infinite. As long as this is true, faith cannot be very effective. But St. John said that "if our heart condemns us not, then have we confidence (faith) toward God" (1 John 3:21).

Now I imagine this question presents itself: "Does a person have faith whether he is right with God or not?" The answer is, "Yes, he does." For God gives a measure of faith to every man. But there must be a total commitment to God for faith to accomplish all that it could.

I am reminded of Loyd W. who for 15 years was an alcoholic. At various times through these years the measure of faith or God-consciousness within him would try to guide him aright. But the demon of alcohol would take control. Loyd's story is too long to relate here but I want to give a portion to illustrate how even a measure of faith will work in a human life.

"All through those harrowing years, deep within me, there was a God-consciousness. One time when I was in Red River Parish, Louisiana, I stopped in a town and rented a hotel room. I bought some liquor and went to my room to drink. I had taken only a few drinks when I fell asleep. Sometime during the night I had a vision of the Lord. He had a crown of thorns upon his head

and the blood was slowly oozing down his face. His eyes had a look of love mingled with pity.

"I felt so naked and ashamed and sinful. He never spoke a word to me; he just stood there pity and sadly shook his head. The look was so penetrating that I wanted to cry out to him for forgiveness.

"Often before, I had felt a desperate need to serve God and be free from the deadly clutch of drink. Somehow, that night, I felt that God in his infinite mercy would forgive me. But I needed something in addition to forgiveness. I needed complete deliverance from alcoholism. But I didn't know how, nor was I yet ready, to accept the deliverance I so desperately needed."

You see, Loyd found out what everyone else will find—faith cannot do its best work as long as there is sin in the person's life.

Sin is a dominating thing, and it produces a division in the soul. The body and mind are keenly responsive to the soul. It feels the impact of the soul's fears and weaknesses. This produces an easy prey for mental and physical ills. But when you turn from your sins and open your life completely to God, your faith will make you whole.

Loyd, I am happy to say, did yield his all to God. He was delivered in mind, soul and body. Today he is a sober, healthy and happy young man. Complete faith brought complete wholeness.

All Property Insurance Is the Same

... until you have to use it!

One property insurance policy is pretty much like another—at the time you buy it. When you have to use it, however, the differences become apparent. That's when you find out how comforting it is to have the counsel and services of an independent local agent and the peace-of-mind protection of reputable Capital Stock insurance companies. So be sure when you insure. Select an established, independent local agent to whom you're a neighbor, not a number. And make sure that he represents only Capital Stock "Standard Protection" companies. There's a big difference!

CHEVY'S NEW V8 LEVELS THE HIGHEST, HARDEST HIGHWAY OVER THE ANDES!

To prove the durability of Chevrolet's radical new Turbo-Thrust V8,* the tremendous flexibility of the new Turboglide transmission,* the incredible smoothness of Full Coil suspension, we tackled the most challenging transcontinental road in the world — the 1,000-mile General San Martin Highway. To make it harder, the Automobile Club of Argentina sealed the hood shut at Buenos Aires — no chance to add oil or water or adjust carburetors for high altitude.

So the run began — across the blazing Argentine pampas, into the ramparts of the forbidding Andes. Up and up the road climbed, almost 2½ miles in the sky! Drivers gasped for oxygen at 12,572 feet — but the Turbo-Thrust V8 never slackened its torrent of power, the Full Coil springs smothered every bump, the Turboglide transmission made play of grades up to 30 percent. Then a plunge to the Pacific at Valparaiso, Chile, a quick turn-around and back again. Time for the round trip: 41 hours 14 minutes — and the engine was never turned off!
