On The BEAM

by J. W. King, Sr.

The writer of his column and also the Linotype operator, has been experiencing some difficulty this week trying to get enough type set for the paper.

The keyboard on the Linotype got dirty and the letters refused to fall. We had to stop and give it a good cleaning.

Speaking of Linotypes, I do not see why more boys and girls do not learn to operate it. Linotype operators draw good wages and the work is pleasant (except when the keyboard gets dirty or some other mechanical failure occurs).

To be a good Linotype operator one needs to have nimble fingers and be a good speller.

Fay's Beauty Shop Undergoes Extensive Remodeling

Fay's Beauty Shop is in the process of being remodeled and undergoing interior changes this week.

The door of the building which was set in several feet, has been reset flush with the front wall, making the entire front of glass. New venetian blinds will be installed at the two large windows and door. The front of the building has a new coat of white paint.

The booths in the front of the building have been removed and the large entrance will be used as a reception room. This room and the operators booths is divided by half walls and decorative shelves with a planter on one side. The reception room is furnished with tables, seats and magazine racks, etc.

Another operator booth and chair has been added which includes shampoo lavatory, mirror, drawers for equipment and a sterilizer section.

Between the booths and reception room is an area for desk and telephone on one side and a table with coffee urn and Coke box on the opposite wall. The interior of the building has been painted in natural.

Fay's shop, which has operated in this building since 1947, has since its opening 14 years ago, kept abreast of the times with improvements and addition of the newest equipment and has been acclaimed one of the nicest and best equipped shops in this section. She operated two years in the McGee building before building the present building.

Two new operators, Mrs. Yvonne Turnbull and Miss Wanda Wells, together with Mrs. McCollum, Mrs. Troy Jones, who has worked for the shop since its opening 14 years ago, and Mrs. Bill Bowles who has been operator most of the time the past 12 years, gives the shop an adequate number of operators on duty at all times to take care of the business in Loraine and community.

"What's meant by a banking signature?"
 When you open an account with us, you leave a specimen signature on file. You then use the same form of signature on all checks and other official papers relating to the account; use it nowhere else; safeguard papers bearing it. Signatures on checks or withdrawal orders presented for payment we compare with the specimen signature; do not honor items when signatures don't match. Your banking signature is just one of the multiple "keys" that lock the door of safety on your funds deposited with us—ask us about all of them. Then, open your account!

for you or your spouse, the 3% provision does not apply to you. The deduction is subject to limitations of \$2,500 per exemption for old age and blindness, and subject to the following further limitations, unless you are over 65 and disabled, then "D" applies:

A. \$5,000 if the taxpayer is single and not a head of household or a qualifying surviving widow or widower.

B. \$5,000 if the taxpayer is married and files a separate return.

C. \$10,000 if the taxpayer files a joint return, or is a head of household or a qualifying widow or widower.

D. \$15,000 if you or your spouse are over 65 years of age and disabled or \$30,000 if you and your spouse are both over 65 years of age and are both disabled. You are disabled if you are unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration.

You can deduct any sums that you spent for . . . the diagnosis, cure, mitigation, treatment, or prevention of disease, or for the purpose of affecting any structure or function of the body (including amounts paid for accident or health insurance), or for transportation primarily for and essential to medical care. . . .

Deductible as medical expense are your costs for drugs and medicines to the extent that they exceed 1% of your adjusted gross income, costs of travel, transportation, rental of special sickroom equipment, etc., as well as doctor's bills, nurses, hospital costs and other expenses directly connected with your illness or accident.

These costs can be for yourself or any of your dependents. The dependent does not have to have been your dependent at the time that the costs were incurred but must be your dependent at the time they were paid. You can deduct medical costs you paid for a dependent even though you may not be able to claim the dependent as a tax exemption.

For instance: You help support your mother who worked part time and made over \$600. Because she made over \$600 you cannot claim her as a dependent. However, if you furnished over one-half of her support, you can still deduct the medical costs you paid for her.

It does not matter when these costs were incurred. They are deductible in the year paid. You cannot deduct costs that you owe. They must be paid to get the deduction.

If part of your medical costs were reimbursed; that is, if your insurance company paid a part of them, then you can deduct only the part you actually paid and that was not reimbursed to you.

F. F. A. NEWS

"Is there a job for me on the farm?" What's your answer to a farm boy who asks you that question? Fact is, two-thirds of the boys now growing up on farms will not have a farm. But, as Dean Earl Butz, Purdue University, says, "American agriculture is an expanding industry in every important respect except one—the number of people required to run our farms." If they can't find a farm, many boys can still find a job in agricultural industry. Recent surveys show there are two jobs for every one agriculture college graduate. Encourage those boys who want to stay in ag. to go to college. They'll do better on the farm—or off—if they do go on to school.

The following could apply to any organization, as well as our FFA chapter:

Who Makes Any Organization a Success

Xvxn though my typewrite is an old model, it works quite well, except for onx or two wxyx. I havx wishd many tixx that it workd prfctly. Our Thought—There is always room for the man who can be relied upon to deliver the goods when he said he would.

THANKS AND APPRECIATION

We wish to thank each and everyone who offered prayers and those who sent gifts, cards and letters of well wishes and every act of kindness during our illness and hospitalization.

We are taking this method of thanking you as it would almost be an impossibility to thank all personally. May the Heavenly Father reward each of you openly.
