STRICKLER NEAR BIG LIMESTONE

CASING HAS ARRIVED AND WORK IS BEING SPEED-ED AS THEY NEAR LIME

Work at Strickler No. 1, S. W. ¼, Sec. 579, is again being pushed at top speed, as the eight inch casing has been received and set, and the bit is nearing the big Mississippi lime under which, it is expected, lies the big oil pool, for which drillers have been seeking all over the Panhandle field.

The showing of oil reported last week is still strong when the bit or baller comes up out of the big hole. This showing is what is called "farmer's oil" which is said to be a good indication of oil further down. At present they are underreaming at the Strickler.

Boren No. 1, N. W. ¼, Sec. 923, is still shut down, awaiting a supply of casing which has failed to arrive.

Wamble No. 1, S. W. ¼, Sec. 144 has been spudded and is now drilling, making the fourth well in this county to begin operations.

It has been reported that drilling operations have been resumed at the two wells in the Range neighborhood, but this report could not be verified.

Snyder-Barton No. 1, Sec. 504, Lipscomb county, and Moore No. 1, Sec. 471, Ochiltree county are both drilling but their depth could not be learned.

ENID BOOSTERS HERE ALL NIGHT, SEPT 14

D. T. Meek, secretary of the Enid, Okla., Chamber of Commerce, and W. R. Johnston, grain buyer of Enid, were in Perryton, Wednesday, making arrangements for a booster trip through the Panhandle.

According to their plans, the Enid trade trippers will be in Perryton, September 14, for supper and to stay all night, and for breakfast the next morning.

They are expecting about 100 Enid boosters on the trip. They will have a band and an orchestra along with them, and are looking forward to a big time in Perryton.

HIGH POWERED SALESMEN AND GRAFT ADVERTISING SCHEMES

(An Editorial)

A gyp advertising schemer slipped into Perryton last week end, and in a day and a half sold advertising spaces on a small card, 7 inches by 14 inches, to be hung on the back of hotel doors, and slipped out again, with \$255.00 in his pocket, clear profit for his day and a half spent in Perryton.

The advertising spaces actually amounted to \$262.00. It cost him \$7.00 to have the cards printed. His net profit was \$255.00. He had 100 of these cards printed. Each card cost him 7 cents. He received for each card, \$2.62. Figuring his profit in per centage it amounted to 3743 per cent profit.

This is not so startling. The same thing is happening in Perryton every day. Merchants complain that nearly every day some "advertising specialist" pays them a visit, always with some new scheme. Many take the space merely to get rid of the pest. Others are actually high powered into believing that the graft is valuable.

Such grafts as this, or as signs hung up in tent shows, or as spaces over the gateway to carnivals, or as pocket business directories and the like have absolutely no advertising value. They are "fakes." It is just another way to get something for as little as possible.

These gyp salesmen know that they are worthless. No doubt they count over the money they "cleaned up" and laugh up their sleeve as they leave their "last town" in a cloud of dust behind their car.

But it does hurt the home newspaper, the paper that is trying to build up a town, that is boosting and working to put out a better paper. They lose that money that could be spent by the merchant in real advertising. Worse than that, the merchant can easily get the idea that advertising does not pay, after taking spaces on a few such schemes. He can also come to the conclusion that he is spending too much money on advertising, and will shut down on the home town newspaper.

The home newspaper does not try to high power you into advertising. It uses only straightforward argument and actual results to obtain advertising. It cannot use the grafters method for it is permanent, it is looking for business week after week.

The gyper can only "pull his stunt" once. Then it is time to move. The home newspaper comes around every week, it can look every merchant in the eye and know that that merchant got his money's worth when he took an advertisement in the paper, last week or the year before.

Think of this when the next grafter comes around with an advertising scheme. There will be more of them, plenty of them. Turn him down when he comes and spend the money at home on real advertising.

WOODWARD MAKES ANOTHER VISIT

DROPPED IN AGAIN ON BOOSTER TRIP—MADE DAYS TOUR BY SPECIAL TRAIN

Again Woodward boosters visited Perryton, this time coming by special train, arriving here at 5:30 Tuesday evening and staying in our city for forty-five minutes, repeating the same error they made on their former trip, of not even notifying Perryton people that they were coming until a few hours before their arrival.

On their other trip, several months ago, they made a two days tour of the Panhandle country, staying in Perryton overnight. At that time no information was received locally until the evening before they were expected. Hurried preparations were made to house the visitors, but the time was not sufficient to enable

Perryton to offer anything in the way of entertainment.

No word was received in Perryton regarding their recent visit until Agent W. F. Maxwell received a wire Monday evening that a special train would be in Perryton the following evening. The next morning a few dodgers were received and scattered around the business district but that was the extent of the publicity the trip received.

Woodward has a live-wire bunch of boosters, and about sixty of them made the trip, with a band, and lots of novelties and pep. We like to have them visit Perryton, but we wish they would tell us when they are coming the next time.

The special train left Woodward at seven o'clock Tuesday and made a run down the mainline to Canadian There they returned and went back to Shattuck and covered all of the towns on the Perryton branch. They turned around at Spearman and returned back to Woodward late Tuesday night.

ANNOUNCE NEW FACULTY FOR INDEPENDENT SCHOOL DIST.

TRUCK ROUTES ARE SCHEDULED TO MAKE FIRST RUN, MONDAY MORNING, SEPTEMBER 6, THE OPENING DAY OF SCHOOL

Arrangements for the opening of the 1926-27 school year in the Perryton Independent School District are nearly complete according to Supt. W. B. Irvin.

Many former teachers are included among the faculty members, although there have been several new additions. The following is the faculty for the Perryton Independent School District for the coming session.

DOLLAR DAY IN PERRYTON SAT.

MERCHANTS AND BUSINESS MEN ARE OFFERING BIG LIST OF SPECIALS ON DAY

Perryton's First Dollar Day will be held Saturday, August 28, and the stores are overflowing with bargains for the visitors who will be here on that day.

Many extra copies of this week's issue of the Herald have been sent out in this immediate trade territory, to advise the people of the specials that the stores are advertising.

On some of the articles you will find on the Dollar Day counters in the stores, the merchants have actually cut the price to below cost and are suffering a loss on it. Most of the other specials have been reduced down to the very cost, not allowing even the smallest margin of profit.

The trader in Perryton, Saturday, will reap the profit in savings.

The Herald office is also offering a Dollar Day bargain, in announcing that for the one day only, it will receive new subscribers in this trade territory only, for one dollar in place of the regular subscription price. This reduction is made only to bona fide new subscribers and only in the Perryton territory.

A large crowd is expected for the day, and it will be well to come in early and do your shopping before the specials are all sold.

Will Awbrey, Lubbock, and Mr. and Mrs. Greenhouse, Wheeler visited in the Lloyd South and J. W. Barker home, Tuesday. Mrs. Barker, Mrs. Greenhouse and Mr. Awbrey are brothers and sisters and had not seen each other for twenty-one years.

by Mr. Cudd's place, and west to Perryton. The truck will be driven by Newton Melton.

The route into Perryton from the southeast will be the same as last year, except that it has been extended to include the Hedgepeth children and the Zirkle children, coming west into Perryton one mile north of the former route. This route will be handled by L. B. Wilson.

FIRST HOME TALENT LYCEUM NEXT WEDNESDAY

The entire program will take about two hours to present, and will fill the whole evening. One fourth of the proceeds will go to the Parent-Teachers' Association for sponsoring the performance, and the other three-fourths, after expenses are paid, will be used by the league in purchasing new chairs for the league room.

A high class entertainment is promised and all are urged to attend, this first number of the home talent lyceum.

Miss Myrtle Rogers
Mrs. Jas. W. Wilson and Mr. Geo. Hyde will conduct private classes for pupils in piano and in band and orchestra work, respectively.

All school trucks will start Monday morning, September 6 on their routes, which will be as follows.

A new route will be established to transport the children from the enterprise community to Farnsworth school. The truck will be driven by Mr. Koehn and will start at his place and run as follows: four miles west to Enterprise school house, then three miles south, then three miles east and one mile north, two miles east and then into Farnsworth, making a route of 16½ miles.

The truck that comes from the south into Farnsworth will be driven by Dale Smith and will follow the route taken by Mr. Brady last term.

The truck that comes into Perryton from the west and known heretofore as the chambers route, will also follow practically the same route as has been followed, except that the truck will start at Mr. Tevis' place, go one half mile north, one mile east and make the jog around the north of Mr. Norwood's place, then south three quarters of a mile, east three quarters of a mile on the north of the Chambers place, then south one and a half mile to the north east corner of the Odell section, then back

Seven Years Ago——and Today

AUGUST 22, 1919

Seven years ago Perryton was an acorn, the seed of an idea. In the seven years since its opening on August 22, 1919, it has grown into the sturdy oak, a substantial prosperous city.

AUGUST 22, 1926

Today, with its excellent municipal light and water system, its splendid schools, its five elevators, banks, ice plant, churches, and business houses, it is a humming, up-to-date city, filled with beautiful homes and friendly, progressive citizens.

In the waters of the English channel for 21 1/4 hours, swimming more than 40 miles and within 2 miles of French soil, Miss Clara-belle Barrett, 33, of N. Y., was forced to give up due to a dense fog on August 2. The nearest any man has ever come to making the swim.

SPENCER TAKES UP COLLECTION FOR BECK

A. D. Spencer, representing the Methodist church, took up a collection for the Beck family that camped in the tourist park for several weeks, last Monday, August 16, and was successful in collecting \$58.00.

However upon going to the camp grounds they found that Beck had already left, having also received a collection taken up by the Salvation Army.

Sheriff Sid Talley was called upon and he was successful in locating the family at Beaver, Okla., and the money was transmitted to them at that point.

The following letter was received by Sheriff Talley:

Beaver, Oklahoma,
August 17, 1926

Mr. Sid Talley,
Dear Friend:

I received the money that was sent me by the people of Perryton. I am thanking you all for the kindness shown me. I will never forget the people of Perryton.

Yours respectfully,
E. W. D. Beck.

JUNIOR CHRISTIAN ENDEAVOR

The Junior Christian Endeavor will meet Sunday, August 29th at 5:30 p. m. at the Christian Church. Following is the program to be rendered.

Topic—Better Americans

School Supplies

The Stewart Printing Company Announces
 The Introduction Of The Famous HY-
 GRADE Premium Series of School
 Supplies.

Everything included in this fine line of school equipment carries a coupon for the full value of the article. These coupons are redeemable for valuable awards, in the way of flags, pictures, both framed and unframed, and other articles for the school room.

When these coupons are saved by the entire classroom, it is surprising how fast they will accumulate and it is but a short time until enough have been saved to exchange for one of the valuable premiums.

Beautiful Premiums Given Free

We have just received a big shipment of this new line of goods, and more of it will arrive before the opening of school. If each class room will adopt this series as the standard for the room, it will not be long until the rooms are filled with beautiful pictures and flags at NO EXTRA COST.

Our stock includes such articles as note book covers and folders, pencils, pen points, composition books, water-colors, crayons, spelling books, note-books in several sizes, drawing pads, penmanship tablets, pencil tablets, theme tablets, examination tables, and many other items.

The coupons may be exchanged for valuable premiums, a few of which follows:

National Bunting Flags, size 3x5 feet, sewed on stars on both sides, fast colors \$30.00 in Coupon
 Cotton Bunting Flags, size 5x8 feet, sewed on stars on both sides, fast colors \$65.00 in Coupon
 Pictures of Presidents, size 16x20, Sepia only \$45.00 in Coupon
 Reprints from famous paintings, varying in size, from \$2.00 to \$25.00 in Coupons.
 Frames may be obtained in Coupons for any of the pictures mentioned above, but no charge is made for framing.

THE HY-GRADE PREMIUM SCHOOL SERIES COST NO MORE THAN ANY OTHER LINE OF SCHOOL SUPPLIES! HELP DECORATE THE SCHOOL ROOMS BY SAVING THE COUPONS AND EXCHANGE THEM FOR THE PREMIUMS!

SPENCER—THURMAN

Miss Gladys Spencer and Robert Thurman were united in the bonds of matrimony last Wednesday evening at 6 o'clock at the home of the bride, Mr. and Mrs. F. C. Spencer, south of town, by Judge J. M. Grigsby.

Miss Spencer wore a copen blue taffeta dress with basque effects and with yellow, rose and blue roses at the waist. She carried a large bouquet of pink and white roses.

Mr. Thurman was dressed in a very pleasing dark blue suit.

Vona Mabel Spencer, the bride's sister, acted as flower girl.

After the ceremony a wedding supper was served to the following relatives who were present:

Mr. and Mrs. Ross Thurman, parents of the groom; Miss Aline Thurman, Mr. and Mrs. Rex Clark, Mr. and Mrs. Ed Whippo, Mr. and Mrs. Clyce Rogers, and Mr. and Mrs. F. C. Spencer and family.

Immediately afterwards the newly married couple left for Amarillo, where they spent a few days.

They will make their home on the Loveless place, seven miles south-west of Perryton.

HATCHER FOR STATE TREAS.

IS OPPOSED FOR RE-ELECTION
BY JIM FERGUSON'S CANDIDATE, J. R. BALL, OF FANNIN CO.

The Houston Post-Dispatch in their August 11th issue has the following to say concerning the run-off race between W. Gregory Hatcher, the present State Treasurer, and J. R. Ball, the Ferguson candidate:

"J. R. Ball, candidate for state treasurer against W. Gregory Hatcher, the incumbent, is quoted in news dispatches from Austin as saying that 'If James E. Ferguson is supporting my candidacy I am grateful for his support, but I am running my own race and will go into office under obligations to no one in particular, but with a feeling of gratitude to the thousands of people who supported me.'

Mr. Ball tries to convey the impression that he is in doubt whether to be grateful to the Fergusons or not, since, as he intimates, he doesn't really know whether Farmer Jim is backing his candidacy.

Yet every precinct henchman of the Fergusons knows that Ball is the hand-picked candidate of the Temple family. Every follower of the Fergusons has been apprised of Ball's good standing. The Ferguson Forum flew to Ball's defense and lambasted State Treasurer Hatcher. It carried a marked ballot in its issues just preceding the July 24 primary, and on this ballot Ball's name was left uncratched.

With seven candidates in the race for state treasurer, Ball received nearly all the Ferguson vote. The anti-Ferguson vote was split to a big enough extent to keep Hatcher from winning a majority in the first primary.

Ball, having won a place in the run-off by virtue of the Ferguson support, would like very well for the citizens of Texas to forget his political affiliations.

At the same time, he says, he will be grateful to the Fergusons for any help they may be able to give.

His effort to play both ends against the middle is scarcely impressive. He is Jim Ferguson's candidate for state treasurer, and he will go into the run-off primary on that basis."

Mrs. J. A. McWilliams left Monday for Hitchcock, Okla., where she will spend a week visiting her mother.

Mr. and Mrs. Frank Dodson, Jr., are parents to twins, a boy and a girl, born at the Shattuck, Okla., hospital, Wednesday morning.

ISSUE MARRIAGE LICENSES

Cupid has been busy during the past week, in Perryton. Five marriage licenses have been issued by County Clerk David D. Shanks.

August 18, Robert Thurman and Gladys Spencer, Perryton.

August 21, David Tice and Minnie Ford, Spearman.

August 21, W. L. Benge and Mabel Allspach, Borger.

August 23, Jack Henry Casey and Dr. Ethel Mae Turner, Perryton.

August 24, R. E. Carley, Wawaka, and Lizzie Bell Hutchinson, Texhoma, Oklahoma.

ENDEAVOR PARTY

A social hour was given for the Juniors Thursday evening by their Supt. Miss Berniece Allen. She was assisted by Mrs. Oren Allen and Mrs. Chas. Callaway. The Juniors enjoyed a pleasant evening. Before leaving refreshments were served to 26 members.

ISSUE HUNTING LICENSES

At least five hunters are getting ready for the opening of the chicken season, September 1, according to County Clerk Dave Shanks, who is offering hunting licenses for sale.

Resident hunting licenses cost only \$2.00, but the non-residence fee has been raised to \$25.00. Trapping licenses will still remain at \$1.00.

J. B. Cartwright and J. H. Norwood left Thursday for Colorado Springs, Colorado, on business.

S. P. Cullen, Tulsa, Oklahoma, is in Perryton this week on business. Mr. Cullen owns land in Ochiltree and Hansford counties.

Miss Blanche Hurn, Higgins, is assisting her cousin, R. P. Hurn, in the Hurn Dry Goods store.

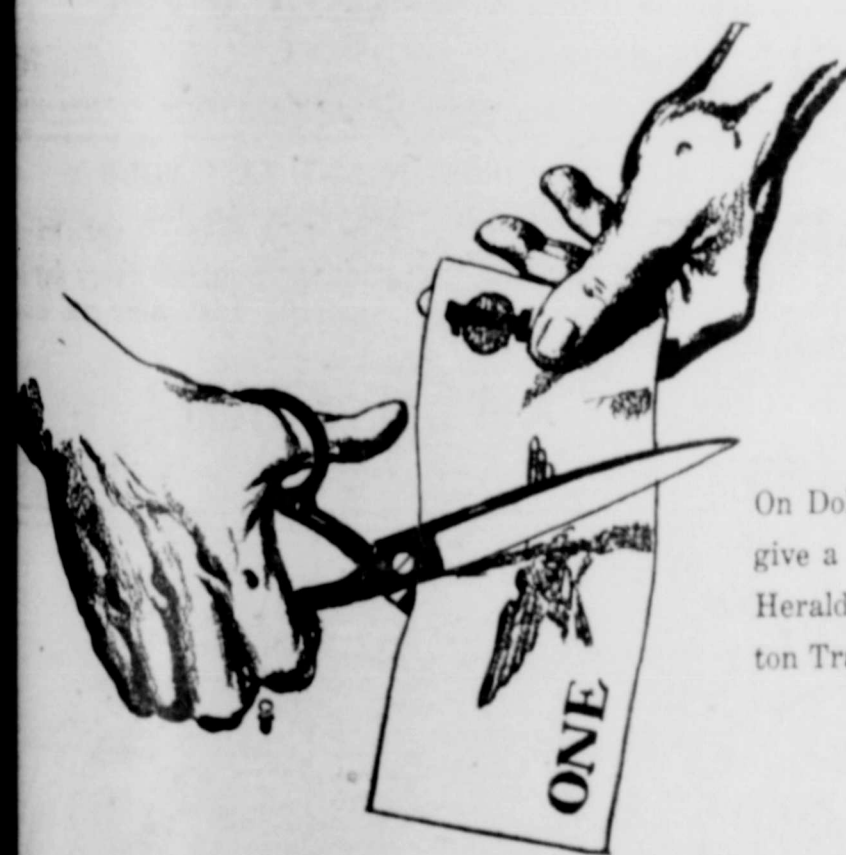

Mr. and Mrs. Lawrence Lamb and children left Tuesday for a visit with relatives in Illinois.

Mrs. Jacob Keller and Miss Dorothy Woods, Greensburg, Kansas, were in Perryton, Sunday, visiting their daughter and sister, Mrs. Aubin Allen.

Miss Beatrice Fulton is quite ill with typhoid fever.

Restaurants should be sprayed with Fly-Tox regularly. 31-ltc

LONE TREE BREEZES

The Sweigart children went to Perryton Sunday afternoon to visit with their sister, Laura, who is working in the Jarvis home.

Mrs. Paul Pletcher is reported quite ill.

Miss Clara Oliver is working in the Oliver home.

Miss Alice Roberts had the misfortune to burn a finger quite severely with hot grease, one day last week.

F. J. Koch motored to Canadian Friday to see a brother-in-law who has been very sick. He is reported to be improving very slowly.

T. B. Oliver and daughter, Fays, were up from their home near Wolf Creek, Sunday, to attend the revival services at Lone Tree.

Miss Lucille Holdeman is suffering from a very sore finger. The burn which is very deep was caused by hot grease.

Mr. and Mrs. Keith of Perryton visited in the Roberts home last Sunday.

Ola Mae Roberts and Lucille Francis spent Sunday evening with Leta Wagner.

Mr. and Mrs. Joe Sweigart, who have been visiting in the J. Sweigart home left Monday for their home in Amarillo.

Ticie and Emery Koch motored to Farnsworth Sunday.

Jacob Sweigart purchased a new Chevrolet truck last week.

F. J. Koch was transacting business in Perryton Thursday.

Mr. Wimber purchased a new Fordor Ford sedan Saturday.

The revival services conducted at Lone Tree by the boy evangelists, Hookland and Sanders, closed Sunday afternoon. Rev. Hookland delivered some very inspiring and touching messages. Bro. Sanders is a singer and the songs he sang were full of meaning and very beautiful. An all day meeting was held Sunday. At noon a fine dinner was spread and everyone enjoyed it immensely.

The evangelists began a meeting at Alfalfa Sunday night. Our prayers will surely follow them there for we know they are out to win souls for Christ.

There will be preaching by a Menonite preacher next Saturday night and Sunday morning.

LEAVE IT TO US

Few people can tell at a glance whether a Used Car is as good as it appears to be. Which makes it doubly important to patronize a dealer who has a reputation for giving honest facts and honest values.

A USED CAR IS ONLY AS DEPENDABLE AS THE DEALER WHO SELLS IT

Rev. Hookland preaches the third Sunday each month.

Sunday School at 10:30 Sunday mornings, at 10:00 on preaching Sundays.

Bible Readings at 8:30 Sunday evenings.

Prayer Meetings at 8:30 Wednesday evenings.

Everyone is cordially invited to come to Lone Tree.

FAIRVIEW ITEMS

Misses Bertha and Elsie Garner spent Saturday night and Sunday with Misses Merle and Vita Stewart.

Misses Marie and Verner Gray returned home last Wednesday from Goodnight, Texas, where they have been visiting their uncle, John Gray.

Frank Easdon and family spent Sunday with Harry Vogt.

J. D. Williams and family spent Sunday with Mr. and Mrs. Tedder at Beaver City.

Misses Bertha and Elsie Garner and Merle and Vita Stewart visited Miss Ethel Collins Saturday evening.

W. L. Bowen and family left Sunday for Merima, Okla., where they will visit with Mr. Bowen's sister for a few days.

Miss Veneta Collins spent last week-end in the Thomas home at Canadian where Mrs. Thomas is very ill.

Miss Ruth Easdon attended the circus at Canadian.

H. A. Blank came in last Thursday from Granite City, Illinois. Mr. Blank is a brother of our fellow-townsmen, Dr. O. E. Blank, and is a skilled carpenter and builder. He is now located with Ed Birt.

CITY MEAT MARKET INSTALLS DISPLAY CASE

A large freezer display case has been installed recently in the City Meat Market by Geo. Rupprecht, and much remodeling work has been done. The old counter and screen has been torn out and the new case put in instead.

The case is of white enamel, both inside and out with natural wood trimmings. It has two large ice containers, one on each end, with a capacity of 600 pounds of ice.

PERRYTON—SPEARMAN BANDS IN CONCERT LAST SUNDAY

A joint concert was held, Sunday, by the Perryton and Spearman Municipal bands, and an excellent program given to the large crowd of listeners who attended the concert.

Geo. L. Hyde, director of the two organizations has combined them into one band. The Sunday before they played in concert at Spearman and last Sunday at Perryton. The combination makes a better band possible, than would be had if each band played separately.

Norma Talmadge
in
"KIKI"

"Kiki" was probably the most popular of any play that David Belasco ever produced. It ran for several seasons on Broadway and has had a run in almost every city of any size in the entire United States. Before that it was the favorite play of the Parisian boulevards. The American version "made" Lenore Ulric. It doesn't have to "make" Norma Talmadge because she has fame already. But it is going to increase it to heights unheard of. Norma touches the pinnacle of her career in this picture.

A Good Name

priceless and therefore
jealously upheld

Dodge Brothers have kept the faith. Year after year their motor car has continued to mature into a better and better product.

Beauty has been added to dependability, comfort and silence to beauty. Endless refinements have been made, and the basic sources of Dodge Brothers quality maintained in every detail.

As a consequence, the NAME Dodge Brothers is even more valuable than the great Dodge Brothers plant itself, and eminently worthy of the public confidence it everywhere inspires.

The public may rest assured that a Good Name so priceless will be safeguarded jealously by those who hold its destinies in their hands.

THE ALARMING PREVALENCE OF HEART DISEASE

Let my reader bear in mind that I am speaking from my own experience, not from the authorities. My opinion is, that throat infections lead in causing serious heart affections. Influenza is a most dangerous and deadly thing if neglected. Tonsillitis may cause either valvular disease or myocarditis. No throat infection should go untreated for a single hour.

Colitis, accompanied by putrefaction in the colon, is a potent source of heart disease. The presence of indican in the urine tells us that we have the making of serious cardio-vascular trouble, unless we attend to that colon and diet accordingly. Once heart disease is set up, every hearty meal aggravates the circulatory disorder. If you happen to have a large abdomen, out of proportion to your general build, you are putting up with something that will make you trouble some day. Watch the colon.

Of course pneumonia and rheumatism often leave defective hearts, both of them bearing disease-germs from the respiratory organs. With such a heart it is utter foolishness to give heart stimulants with the idea of effecting a cure, until you are rid of the germs that are causing the weakened heart. In my experience, vaccines are the most rational treatment for infections, though many physicians seem to believe differently. When failure occurs, the diagnosis is probably inaccurate.

Two valuable suggestions for the heart are,—do not neglect your throat and, take care of the colon—do not overeat. In this way you may lessen your chances for heart disease.

OIL MAN PREDICTS FUTURE FOR PERRYTON

David W. Humphrey, who has been in Perryton recently looking after the interests of the Ochiltree Oil Company which is the Boren test, four miles south on a four thousand acre tract, predicts a bright future for Perryton.

"Perryton is a wide awake town," said Mr. Humphrey, "and I see a great future in the substantial growth of this city. I predict a new oil field in the near future with Perryton as its hub, with all the rush and boom that usually comes with a new field."

Mr. Humphrey says that he never met finer people than in and around Perryton. He said that they were willing to listen to his proposition and seemed interested in seeing his company make a success of the Boren well.

HIGHWAY COMMISSION ALLOTS CARSON CO. \$545,246

Austin, August 17—Allotments of \$645,139 in state aid were made and contracts involving expenditures of \$256,246 were awarded Tuesday by the State Highway Commission.

Carson County was allotted \$545,156, available in 1927 for work on highways number 33 and 75 and on a highway recently designated between Panhandle and Spearman in Hansford County, which cuts through

For Fall

Laura La Plante—in a costume which will be very popular for all Fall sport occasions. The coat, cut on straight lines, is of striped cloth in brick color, which shades from light to dark, and has a handsome collar of brown fox fur. The Vagabond hat is of velour, matching the deepest shade of the coat.

Announcing A Change In Management

I have purchased the City Bakery from Mr. Eugene Barnett, and will strive to keep up the high quality of the bakery products to which you have been accustomed.

I hope that you will find me deserving of your patronage.

CITY BAKERY

Why does

The Greater OAKLAND SIX Hold the Center of the Stage?

Why do people everywhere display such extraordinary interest in the Greater Oakland Six? Why are they so eager to see it, and to drive and ride in it? Why are they placing orders for it, in such unprecedented volume?

Because this remarkable car embodies many other important

refinements, including Oakland's epochal and exclusive Rubber-Silenced Chassis; smart new Bodies by Fisher, in new and strikingly beautiful two-tone Duo coloring; and vital engine developments, plus Oakland's many other advanced features—all without the slightest increase in prices.

Oakland Six, \$1225 to \$1295. Pontiac Six, comparison to Oakland Six, \$875 to \$895. All prices at factory. Easy to pay on the liberal General Motors Time Payment Plan.

COUNTY BUYS SEED TREATER

COUNTY AGENT WILL TREAT
SEED WHEAT BY LATEST
PROCESS FOR ELIMI-
NATION OF SMUT

This disease of wheat, known to
farmers in some sections as bunt or
"bust," has caused severe losses in
wheat-growing states during recent
years. The damage caused by stink-
ing smut is three-fold:

(1) Wheat, which is attacked in
the field, is actually destroyed so
that an infestation of 4 to 8 per cent
means a material reduction in yield.

(2) An excessive amount of bunt
in threshed wheat destroys its use-
fulness for certain purposes, and this
is directly reflected in dockage at the
elevator or mill.

(3) Wheat which grades smutty
requires special processing at the
mill, thus adding to the expense of
milling.

(4) Separator explosions at thresh-
ing time, due to ignition of clouds of
smut dust released in the separator
may result in heavy property damage.

Seed treatments for control of this
disease with formaldehyde and cop-
per sulphate have been applied for a
number of years and the Western
farmers in certain sections have
made a regular practice of disinfect-
ing their seed wheat. More recent-
ly the use of copper-carbonate as a
seed disinfectant has been developed.

This means of disinfecting seed im-
mediately became popular among the
farmers in the West where seed
treatment was an accepted practice.
In the state of Washington, for ex-
ample, where the work started with
ten 1-acre demonstrations in 1921, the
copper-carbonate treatment was
found so satisfactory that by 1924,
over 1,500,000 acres were sown with
grain treated by this method.

Reports of 1925 from men over the
wheat-growing states clearly indi-
cate that the copper-carbonate dust
as a seed disinfectant is rapidly re-
placing other methods of controlling
wheat smut for the following rea-
sons:

(1) This treatment is effective to
a high degree, resulting in increased
yields.

(2) Its use gives less seed injury
and retarding growth than the wet
treatments, thus reducing the amount
of seed used per acre.

(3) Application of the dust treat-
ment is a more convenient process
than is the case with the wet treat-
ments.

(4) Seed can be treated some
time before planting, thus making it
possible to do the work in the slack
seasons.

(5) Treated seed is safer from re-
infestation in the soil than that
treated by the bluestone method.
This is very important in some sec-
tions where the disease lives over in
the soil.

After surveying the losses over
Ochiltree County during the past
season it is concluded that the dam-
age from smut will run into thou-
sands of dollars. This is due to the
dockage in price at the elevators, the
loss in test and the decrease in yield
on those fields infested with smut.

Treating seed wheat against smut
is the cheapest insurance that can be
put on a wheat crop. It is not un-
common to insure against hail at the
rate of \$1.20 per acre for a fifty per
cent protection, while on the other
hand taking it over a period of years
the losses from smut will probably be
more than the damage from hail and
the insurance against smut can be
had at about 3 or 4 cents per acre,
for almost a total protection.

To facilitate the carrying on of this
work and getting the treatment of
seed wheat practiced more in this
County, a machine has been ordered
and will be here most any day now,
to apply copper-carbonate dust to
planting seed, thus insuring a more

thorough mixing than could be effec-
ted by hand or other improvised meth-
ods. This machine would not only
apply the dust but will first run the
wheat through a fanning mill and
give it a good cleaning before the
dust is applied, thus insuring good
clean seed will be planted.

Arrangements are being perfected
whereby this machine will be placed
on a truck and in this way it will be
possible to bring it out to the place
possible to bring it out to the place
where the seed is to be treated and
treat the seed right on the farm, thus
eliminating the necessity of bringing
the wheat to town to have it clean-

ed or treated. The cost of treat-
ment will be actual cost, that if the
cost of the dust plus the cost of
operation, this will probably run
from five to eight cents per bushel,
depending upon the cost of the dust
by the time it is delivered here.

It may be that there will be two
of these machines in the County, but
then it will be a big job to treat sev-
eral thousand bushels of wheat, so
it will be best for various commu-
nities to get together and notify the
County Agent of those in that com-
munity who want wheat treated and
the amounts so that the work can be

systematized in the various sections
of the County.

Any one desiring more informa-
tion about the treatment of wheat
by this method, will kindly call me
and I will be glad to give any assist-
ance that is possible.

Chas. J. Hutchinson,
County Agent

AROUND THE CORNER AND GONE FOREVER AND EVER

(An Editorial)

Once again fall is approaching, and like the van-
guard in advance of the army, comes a flood of mail
order catalogues, out-of-town peddlers and door
bell ringers, selling everything from memoranda
pads to a suit of clothes.

Of course, they have heard that there are pros-
perous times in the Panhandle. They are constant-
ly looking for such places and they fly from one to
the other.

But certainly they are not getting orders from
Perryton people! Aren't they? What a foolish
question.

With a few dollars jingling in his pocket, the
average American will forget the merchant that
pulled him through a hard winter, and maybe car-
ried him the whole year previous to that when the
crops were poor. It is easy to forget—when one
has a few dollars ahead.

Did you ever send in an order to a mail order
house and in place of the usual remittance, simply
write "charge it?" You should try that the next
time you run a little low on cash. Or did you ever
say to the peddler, "I haven't the cash right now.
Will you carry me over until the first of the
month?" That would make another nice experi-
ment. Yet when cash is at hand, you don't hesi-
tate to give him the order. You can always buy
at home when the cash is gone.

And the home town merchant sighs and takes
your order, knowing that he will have to wait for
the pay. "But," he argues, "the family must live
and must have clothes to wear." The home town
merchant is the only one that is interested in you.
The mail order house or the peddler don't care
whether you live or have clothes to wear. He is
after your cash.

Such is the peddler, the canvasser, the self-styled
traveling representative, the field manager, who
comes at any hour, rings your doorbell, gives you
his high-powered line, takes your money—and once
around the corner, is gone forever.

Compare that type with your home town mer-
chants. They are here to serve you at your con-
venience, to back up the merchandise they sell to
you, to share taxes and civic responsibilities, to help
make community life happier and more prosperous,
to rejoice in your joys, to be neighborly, to sorrow
with you when trouble comes—and to stand by you
when in need.

The home town merchant is not here today—and
gone tomorrow.

Not rushing into town, grabbing all the business
to be had and out again.

Not by extravagant talk and over-statements
forcing inferior merchandise on to you.

Not dodging taxes, civic responsibilities and all
duties of citizenship.

Not a parasite. Not an insidious town destruc-
tionist.

The future of Perryton hinges absolutely on com-
munity loyalty from it's citizens. Toss the mail
order catalogue into the junk heap. When the
next peddler knocks at your door, tell him you will
buy your shoes, or silk hose, or suit of clothes, or
shirts, or what-not, in Perryton, from your own
merchants.

thorough mixing than could be effec-
ted by hand or other improvised meth-
ods. This machine would not only
apply the dust but will first run the
wheat through a fanning mill and

DRAW BIG CROWD AT MOODY RALLY

SPEAKERS FAIL TO APPEAR AS
WEATHER GETS BAD BUT
LOCAL MEN FILL
VACANCY

The Dan Moody for Governor Ra-
lly that was staged Saturday night
proved a big drawing crowd in Per-
ryton, even though rain and the
threatening weather kept the out-of-
town speakers from appearing.

The meeting was held at the band
stand, and a big crowd was present.
The meeting opened with a short
concert by the Perryton Municipal
Band, followed by a rousing address
by Jack Allen. Another fine talk
by R. T. Correll concluded the pro-
gram.

Although everyone regretted the
fact that the speakers who were ad-
vertised to appear were not present,
yet they felt fully repaid for their
attendance.

A great deal of the enthusiasm
that the two speakers carried was
gotten across to the listeners and
undoubtedly changed a number of
votes and strengthened the conviction
of others.

Although Ochiltree County has al-
ways been strictly anti-Ferguson,
yet this step on the part of the Dan
Moody for Governor Club was not
at all uncalled for. The election
has not yet been won, and in the
final run, every vote will count. A
big majority in Ochiltree County
may help make-up for some coun-
ty that is a little weak.

RECOVER ESSEX STOLEN FROM GARDEN CITY

An Essex Coach, belonging to P.
J. Means, Garden City, Kansas, was
discovered Saturday morning in a
field belonging to Mrs. C. A. King,
south of Perryton, and was report-
ed to Sheriff Sid Talley.

The car had been badly used and
a connecting rod had been knocked
out before it was deserted. It is
thought that it was left in the field
Thursday night.

The Kansas license plate caused
Sheriff Talley to get in touch with
the Kansas authorities who found
the owner at Garden City, on Mon-
day afternoon.

It is thought that two boys stole
the car from Garden City. Night-
watchman R. H. Gamel reported two
young fellows driving an Essex
Coach through Perryton at about
three o'clock Thursday night. Be-
coming suspicious(he questioned the
lads but could find nothing to hold
them on. It is thought that in
their hurry to get out of Perryton
they neglected to get oil and their
car broke down.

No trace of the boys has been
found. One is said to be a small
fellow, about fifteen years of age.
The other is said to be heavy set
and about eighteen years of age.

REGISTER 810 CARS AND 168 TRUCKS

According to Sheriff Sid Talley,
810 cars have been registered in Oc-
hiltree county already this year, and
168 truck licenses have been issued.

In comparison with previous years
this shows a considerable growth for
the county. During the entire year
of 1925, only 742 cars and 75 trucks
were registered. This great in-
crease in the eight months of this
year will probably be added to in
the next few months very materially.

Rev. J. S. Huckabee left Tuesday,
going after Mrs. Huckabee and Mrs.
Jas. E. Barbour, who have been chap-
eroning the Methodist girls at the
summer camp on the Palo Duro can-
yon south of Amarillo.

systematized in the various sections
of the County.

Any one desiring more informa-
tion about the treatment of wheat
by this method, will kindly call me
and I will be glad to give any assist-
ance that is possible.

Chas. J. Hutchinson,
County Agent

SQUAD OUT FOR EARLY PRACTICE

ORDER NEW SUITS AND EQUIP-
MENT FOR SEASON, TO
ISSUE UNIFORMS
SOON

Fall football practice started, Mon-
day afternoon with a fine turn-out
on the part of the high school boys.
Some snappy exercise and drill was
taken and a stiff workout to limber
up long neglected muscles.

Fifteen new suits have been or-
dered in addition to much other new
equipment and when it arrives, there
will be plenty of equipment to out-
fit about forty players. Some of
this will probably be issued to the
boys who are going out to practice,
this week.

The fundamentals of football are
being given the lads, and those who
are turning out now will be in much
better shape for making the squad
then the players who will not show
up until the opening of school. "A
few extra days of practice makes a
lot of difference in a player," Coach
Holderman says.

The trip that was planned this
week for the football squad had to
be postponed on account of the heavy
rains last week end and the threat-
ening weather. Although it was to
be regretted that they were unable
to make the trip, yet just about as
much can be accomplished in town,
if the boys will turn out.

Although Coach Holderman will
have to leave on August 30 for the
Teachers' Institute at Canyon, yet
football practice will be held every
evening, the work being left in charge
of Captain Si Smith.

All men who are interested in this
pre-school training are urged to be
present at every practice period, at
4:30 daily. They will learn a lot
about football, and at the same time
get in a physical shape so that they
can start in with a real stiff practice
with the opening of school.

Coach Holderman says that there
is not going to be a first team and a
second team this year. There is
not going to be such a thing as a
substitute. Those players showing
enough ability will be put on the
football squad, and the line-up for
the games will not be announced un-
til the day of the game.

"It does not follow," said Coach
Holderman, "that the same line-up
will be used the following game. I
intend to use a number of arrange-
ments, depending on the way the ma-
terial looks a little later in the sea-
son, and depending considerably on
the type of team we will meet. Be-
cause one line-up worked well against
one team would not mean that it
would work equally well against all
teams."

Much interest is being created
among the boys in regards to the
game with Liberal for October 2,
which will be the first game of the
season. It will be played at Lib-
eral. Although dope would give the
larger school the game, yet Coach
Holderman feels confident that Lib-
eral is going to have a harder fight
than it is expecting.

Mr. and Mrs. Russell Bray and
Mrs. Bray's mother and Miss Mar-
jorie Bray were in town last Tues-
day from the Bray ranch, visiting
with relatives and friends.

Mr. and Mrs. R. P. Ellis and Mr.
and Mrs. J. T. Adams of Atlanta,
Georgia, came in the latter part of
last week for a few days visit in the
home of their kinsman, E. C. Cudd.

WILD HORSES AND TAME DRINKS FEATURE OF OLD TIMERS' PICNIC

"We want hard ridin' and soft drinks," is the cry of the cowboys who are gathering from the four corners for the big Jines Springs Old Settlers' Picnic and Rodeo, next Thursday and Friday, September 2 and 3.

Some real outlaws are being imported in the way of riding ponies,

and they will no doubt give the boys some pretty tough practice.

A whole carload of Mexican long-horn steers are being brought in for the rodeo, and they should afford some real excitement and amusement.

Special privileges are to be given to old settlers who will be present for the picnic. Just what these privileges are have not been announced, but we judge that they will include such things as listening with attention to all the stories of the days when the west was wild, and believing the cowboy and Indian stories that will probably be told.

There will be swimming, horse races, dancing, aeroplane, exhibition flight, steer dogging, bronc riding, contests and many other forms of

amusement.

There will be all kinds of red lemonade stands and concessions. Plenty of nice shade to rest or camp

under, the famous Jines Springs pool for swimming, a big platform with a red-hot orchestra from Kansas City for dancing in the evenings.

A big crowd is expected for the 2-day event and plans are being made to take care of them. With the heavy harvest work finished, it is about the time of year when a fellow feels like taking a day or so off from work and getting out and enjoying himself.

CARD OF THANKS

We wish to thank all of our dear friends and our once neighbors who so kindly assisted us in our great sorrow in the loss of our dear husband and father and hope all may receive the same help, love and sympathy in time of sorrow and need.

Mrs. J. H. Cooper and Sons

HENRY WILHELM'S CAR BURNS MONDAY EVENING

Fire starting in the top of the Chevrolet sedan, belonging to Henry Wilhelm, completely destroyed the car Monday evening, just west of town, at about 8 o'clock.

It is not known how the fire started, but after it was once discovered, it seemed but a few minutes until the whole car was blazing.

Mr. Wilhelm received a badly burned hand in trying to extinguish the blaze in which he was unsuccessful.

SWIMMING PARTY

A number of young folks motored to the W. M. Good home on Wolf Creek, Sunday and enjoyed a swimming party, the guests of Miss Opal Good.

Those in the party were Misses Pay Branham, Eva Christopher, Johnnie and Lucille Gray, and Roy Christopher, Carroll Dodd, Earl Shrigley, Tom Branham and Lucian Morrison.

Misses Johnnie and Lucille Gray were the guests of Miss Good over the week-end.

Dr. and Mrs. F. L. Nelson of Otuma, Iowa, F. A. Nelson of Doods, Iowa and E. A. Nelson of Goodwell, Oklahoma were here las Friday visiting with their niece, Mrs. Letha Bartley.

Dr. and Mrs. W. J. Brewer and Mrs. Letha Bartley and two sons, left last Saturday on a vacation trip to th mountains.

Mr. and Mrs. R. C. Johnson and children and Mr. and Mrs. W. B. Irvin drove to Pampa, Sunday.

THE FACE A MIRROR OF THE MIND

Beauty does not consist in possessing any specific qualities. It depends on a thousand intangible assets. The number of women who are dazzling beauties is very small indeed, but in every woman, be she ever so plain, is some beauty, which, if developed, will greatly enhance her attractiveness. Natural beauty, with its regularity of features and physical proportions, is the gift of the Gods, and must of course be born, but beauty of facial expression and of character and soul are priceless, and they may be cultivated and acquired by any woman.

An artist once said to me of a certain girl—"Her face is constantly changing. She has glances that are fleeting and vanish before you can analyze them. An interesting face—her beauty comes and goes and is infinitely more alluring than static loveliness."

Beautiful moments are possible to all. Some of us make it very difficult for beauty to make any headway at all with our faces. We do this, chiefly, by having the wrong thoughts and the wrong attitude toward life. All the massages and creams and lotions and powders in the world will not do a particle of good if our minds do not furnish some spiritual assistance. We may not have been gifted at the start with anything particularly lovely in the way of faces, and then we make the situation practically hopeless by developing minds that are quite the opposite of beautiful.

Think beautiful thoughts of hope, joy, love and good cheer, and you cannot miss reaping satisfactory results. One who is depressed and unhappy shows those thoughts and feelings in the lines of the face, in

the expression of the eyes, and in the general physical appearance. Any one who has fine clean thoughts is far different looking from one who is not experiencing the joy of happiness. Patience, good temper, humor, tolerance—a little time apart each day for mental relaxation—these will pay us back a hundredfold in visible beauty that will be imprinted on our faces.

This is the first rule of beauty.

BROOMCORN HARVEST WELL UNDER WAY AT LINDSAY

Interest in broomcorn now is centered in the Lindsay district where harvesting is well along, baling is general and marketing has commenced at the principal shipping points according to a report released by G. B. Alguire of the Hay, Feed and Seed Division, Bureau of Agricultural Economics, U. S. Department of Agriculture.

Receipts of broomcorn on the street market at Lindsay for the week ending August 13th averaged slightly over four carloads per day. Some few farmers are storing rather than accept street bids but the tendency appears to be to sell rather than store. Most of the offerings were marketed each day at prices offered by dealers.

Shipments for the week were 41 carloads. Practically all of these shipments were made from Lindsay. Warehouse storage of new broomcorn for the district amounted to about 34 carloads. Most of this is held by dealers. Considering that this is practically the opening week for the district, the broomcorn movement has exceeded expectations.

Prices paid, for the most part, are not at all uniform or based on U. S. Grades for broomcorn but rather represent individual trades between buyers and sellers. The bulk of the

offerings, however, were U. S. Grade No. 4 or broomcorn in which the 'C' and 'D' quality brush combined equalled the 'A' quality or exceeded the 'A' quality in the bale by as much as 20 per cent—the percentages being on all qualities in the bales. For this grade, the prices ranged from \$80.00 to \$110.00 per ton. The extreme range on all grades offered was from \$40.00 to \$130.00 per ton. U. S. Grade No. 3 represented the best street offering for the week.

Based on the extreme range of prices, the following quotations would be about in line with market sales at Lindsay for the week ending August 13th.

U. S. Grade No. 3 Broomcorn \$110.00 to \$130.00 per ton.
U. S. Grade No. 4 Broomcorn 80.00 to 110.00 per ton.
U. S. Grade No. 5 Broomcorn 70.00 to 80.00 per ton.
U. S. Grade No. 6 Broomcorn 60.00

to 70.00 per ton.
U. S. Grade No. 7 Broomcorn 50.00 to 60.00 per ton.
Sample (Account heating) 40.00 to 50.00 per ton.
Coarse fibre, shelf burn, and stain were the predominating defects which lowered the quality of the offerings.

WILSON-REED

Miss Eva Wilson and Joe Reed, both of Spearman, were united in marriage Friday afternoon by Judge J. M. Grigsby.

Mrs. J. W. Pennington and Miss Essie Todd left Sunday for Greeley, Colorado. At Denver they will meet Mr. Pennington and take a short trip to the mountains. Miss Todd will attend Colorado Teachers College at Greeley this fall. Mrs. Pennington has been visiting in the home of her parents, Mr. and Mrs. B. H. Murphy.

"HOW IT REALLY HAPPENED"

An original 1 act farce presented in a delightful way

DON'T MISS THIS PROGRAM

Every number is a delightful combination of new and original ideas, produced by the best talent to be found in Perryton. The play and comedy skit were both written by members of the League. All of the acts, the stage and lighting effects are produced by Home Talent. You will be well pleased with the program.

ADMISSION 25¢-35¢

LOVE IS THE BINDING TIE

Whoever put the words "Till death do us part" into the marriage ceremony understood life.

Whoever it was understood the difference between love and passion. Passion may be for a day, and usually is, and is often succeeded by indifference or contempt. Love is a different sort of thing.

Love is based upon other things than mere physical attraction. It is something composed of esteem, regard, and many other things that depend upon something else than proximity alone.

Human nature is so constituted that a man swears to love a woman till death do them part is reasonably sure that if he behaves himself and controls himself love will be co-terminous with his life. It is upon this law that the promise rests.

When passion has disappeared after a few weeks or months, love remains. It is more than the residuum of passion. It is something built upon character, and with reasonable culture it can be depended upon to endure.

In fact love is one of the most enduring things in the world. It outlives hate. It is tough, and the more storms that blow upon it the stronger it grows.

This is noticeable in mother love which can endure and outlive the greatest disappointments. Long after a child has proved himself unworthy, mother love will continue unabated.

Love does not depend altogether upon the action of the other party, but it is inherent in the character of the person himself. Many a wife or husband keeps on loving in spite of all that is done to destroy that love.

If love were what many people understand it to be, a mere gust of passion or a wayward sentiment, there would be no sense in promising to cherish one another forever. Most of the objections to marriage are based upon the wrong conception of what makes marriage beautiful. It is not passion, but it is love.

Love often endures long after the fires of passion have expired.

Those who think that love is merely infatuation are apt to flit from flower to flower, while those who conceive of love as a child of loyalty will be stable and dependable.

CITATION BY PUBLICATION ON FINAL ACCOUNT

THE STATE OF TEXAS,
TO ALL PERSONS INTERESTED IN THE ESTATE OF Helen Pomeroy, Deceased: C. E. McLarty, Administrator of the Estate of said Helen Pomeroy, Deceased, has filed in the County Court of Ochiltree County his Final Account of the condition of said estate, together with an application to be discharged as administrator thereof, which will be heard by our said Court on the Third Monday in September, A. D. 1926, same being the 20th day of September A. D. 1926, at the Court House of said Ochiltree County, in Perryton, at which time and place all persons interested in said estate are required to appear and contest said Final Account and application, if they see proper.

Witness, Dave Shanks, Clerk of the County Court of Ochiltree County.

Given under my hand and the seal of said Court, at my office in Perryton, Texas, on this, the 24th day of August A. D. 1926.

(SEAL) Dave Shanks, Clerk County Court, Ochiltree County, Texas. 30-4t-c

Boy or Girl?

Several aristocratic mammas of Wentworth-by-the-Sea, N. H., objected to the rough way the good looking swimming instructor handled their daughters during their lessons. The "male" instructor turned out to be the famous Aileen Riggins with a boyish bob.

About Your Health Things You Should Know

by John Joseph Gaines, M. D.

REST

Rest is in no way related to laziness. One cannot be said to rest unless weary. Rest is the antidote for intensive action; it is our best reconstructive, and, like most valuable, should be earned to be enjoyed.

There is no equal for rest in the restoration of tired nerves or flagging energies. Medicines are poor substitutes for rest, if indeed they are substitutes at all. Often have I recalled the prescription of the meek and lowly Nazarene, when he beheld the tempest raging and said, "Peace, be still." When the nerves are taxed to the uttermost, sleep impossible, the mind, urged beyond its capability, totters on its throne, then rest—rest—unless rest is secured disaster is imminent. The well-ordered man will not permit anything to disturb his rest hour.

In these hurry-scurry days we seem to forget that rest is essential to human life and happiness. We forget that a worn-out mind is even worse than a worn-out body, as we swing in our swivel-chairs and order a "bromo" for the headache. What rebels we are, turning night into day and day into default! We ignore the law of rest and wonder why we do not feel well.

Some very ignorant, unthinking people seek simulants when tired. This puts off the crisis for a time, but not for long. No break-down comes without warning in time. We should heed the call of rest, even though it is only a whisper. To evade it is to hear at some critical time the shout of outraged Nature "Fool, take thy penalty fully earned!"

Abstract

By "Those Who Know" the Public Record
SHANKS & K

Sunny South Addition IS NOW OPEN and GOING FAST

Sunny South Addition is the most desirable location left in Perryton for a residential addition.

With its close proximity to the schools and churches, it's close-in location from the down-town district, it makes an especially good location for a home.

BUY NOW! Perryton real estate will never be cheaper. Many of the choice lots are already sold and reserved. There are a lot of good sites left. Make it a point to get one of these.

ACT NOW! You cannot lose. Property must increase in value. Perryton is bound to grow. Even if you do not intend to build, a lot in Sunny South is a good investment.

See us at once!

Perryton Land & Loan Co.

ECONOMY— is Easy to Misinterpret

It's surprising how cheaply a house can be put up and it's just as surprising how quickly the thing can deteriorate until it looks more like a shack than a new home, built only a year or two before.

IT'S FALSE ECONOMY

Not to use the BEST grade of building materials throughout, even though you may not be able to build a house as large as you would like. The wiser course is to be content with a smaller house than to use any inferior materials.

A home is like an auto—buy a cheap one and the upkeep will soon surpass the first cost. Buy a good one and the upkeep is small.

There is Quality in Lumber

The Same as There is in Any Other Commodity.

We specialize in quality lumber and mill work and every kind of builders' supplies the home builder needs

If you have in mind some remodeling or repair work this summer, you'll make no mistake by coming here for what you need, because you can be assured in advance that everything will be correct in detail.

We are representatives for nationally known brands and can give you EVERY service that the builder needs.

DURN THOSE FLIES!

Many persons are asking A. and M. College what to do about flies, R. R. Reppert, Extension Entomologist, is replying by giving the Kansas Agricultural College formula, as follows:

Resin (pulverized) 2 parts
Soap shavings 1 part
Fish oil 1 part
Water 1-2 part
Boil together until the resin is dissolved.

Add three parts more of water and boil for two minutes longer.

Then add:
Oil of Tar 1 part
Kerosene 1 part
Thoroughly mix and boil for 15 minutes longer.

After cooling apply to the animal as a spray. To further increase the effectiveness, apply 1-2 part each of crude carbolic acid and of sulfur. This may be irritating to animals that have been working or are overheated, and under such conditions may blister or cause the hair to fall out. This must be taken into account when applying.

It must be remembered that the control of cattle flies is very difficult and that no remedy will give perfect satisfaction. The above formula is a repellent only, and its effectiveness lessens the longer it has been sprayed on the animal. Ordinarily one application a day will give fair results but in especially bothersome times more frequent spraying is recommended.

AMERICA DISCOVERED BY PRIESTS FROM CHINA

Five Buddhist priests from China discovered America. This is the claim made by Scie Tou Ea, director of the Chinese information service in France. These priests in 458 discovered an "immense land" lying 3250 leagues east of China. They named it "Fou Chang," and according to Scie, from the description which they gave of it there is no possible doubt that it was the American continent. Nearly 40 years later Fou Chang was visited by a Buddhist priest named Hui Shen. Where he landed is not known; but there is a legend in Mexico about "Haipicocha," who, Scie, claims, was the Buddha priest who dressed in a long robe and taught the inhabitants a new religion and philosophy. In this connection Scie reminds the scholars of the subject that the first Spanish explorers who landed in South America and Mexico were struck by the resemblance of the native architecture to that of the Far East. For instance, one god had an elephant head, which certainly must have been of Asiatic origin. A figure of Buddha, says Scie, was found in Mexico; it was squatted in Oriental fashion. Even in Colorado Chinese legends were found.—Pathfinder.

Mr. and Mrs. J. W. Wilson and son, James Andrew, left Sunday for a vacation trip to Colorado Springs where they will visit Dr. and Mrs. Arthur. Mrs. Arthur and Mr. Wilson are brother and sister.

GRAIN INSURANCE

That covers fire loss from any cause, on cut or uncut grain, threshed grain or in stacks, or stored in bins on farm.

The cost for this grain insurance is very small, being approximately, \$5.00 per \$1,000.00 worth of insurance. You can't afford to take the chance of losing your crop. See us before it is too late!

WATER BREAKS THE BACK

Somebody has figured out that a woman living on a certain farm in Maryland walks 440 miles a year—as far as from Chicago to Omaha—in her daily journeys between her kitchen door and the farm pump, ignoring the question of expended energy which might be put to more profitable use, it is figured that the time she spends in her 440-mile annual pilgrimage between her hypothetical Chicago and her imaginary Omaha is easily worth \$50—and for \$50 a simple but efficient water supply system could be installed in this farm house. And \$50 a year for several years would put in something elaborate in the way of farm water systems.

The first steps toward such labor-saving systems are pictured in a new U. S. Department of Agriculture film, "Turn on the Water," which has been made through the cooperation of the rural engineering specialists of the Bureau of Public Roads. The films aims to give a general idea of the need and the problems involved. The need for such an effort is indicated by the department's statement that for every American farm possessing a modern system of water supply there are ten still using the old back-breaking methods.

R. M. Handly is here from Rich Hill, Mo., looking after business interests and visiting with his son, Sam Handly of the Wolf Creek country.

The Best Farm Hand You Ever Had

The Kohler Automatic Electric Plant is a hard worker. It will separate the cream, do the washing and ironing, and a dozen other tedious jobs.

It's a hard worker because it is not handicapped by storage batteries. (A small starting battery provides for fully automatic operation) Current is 110-volt, to insure a brilliant light and operate standard appliances.

Why buy an ordinary plant when you can get a Kohler on easy payments? Let us give you the facts.

How Much For Your Wheat?

How much are you going to get for your wheat? That depends upon when you sell it and how well you store it. The statistical situation this year indicates that the price at harvest time will be tempting. But the same factors that are making a comparatively high harvest time market are certain to make a much higher market all during the after-harvest period. Here is why:—

1. Stocks of old wheat on hand are very low. In no country is there a normal holdover of last year's crop.
2. World crops are short. Ours is the only country that really will have a surplus for export. Hence the export demand will fall upon America.
3. While our wheat crop promises to be large, it will not be much above the world shortage will need the market higher and higher after harvest.

Conditions were never more favorable for taking a big extra profit on the wheat crop, by holding it on the farm. But it must be properly stored. Piled on the ground, it will lose through shrinkage and waste will eat into the extra profits. Even if thrown into makeshift bins, almost as big a loss will result from rats and through lower quality caused by lack of ventilation. And the fire hazard always threatens a total loss. Such storage is poor business on any kind of market. There is no need of it.

Big Freight Car Shortage—Store Your Wheat Crop In a Columbian Red Top!

Even though the harvest time wheat market holds at a comparatively high level, and you are tempted to sell—will you be able to ship? The railroads have announced a big freight car shortage—cars are tied up in the East. This and the shortage of old wheat on hand is what is making the harvest time market hold up. These factors and the world shortage will need the market higher and higher after harvest.

Conditions were never more favorable for taking a big extra profit on the wheat crop, by holding it on the farm. But it must be properly stored. Piled on the ground, it will lose through shrinkage and waste will eat into the extra profits. Even if thrown into makeshift bins, almost as big a loss will result from rats and through lower quality caused by lack of ventilation. And the fire hazard always threatens a total loss. Such storage is poor business on any kind of market. There is no need of it.

Fire-Rat-Weather-Proof Storage

Improved Reinforced Triple Joint, Corrugated Construction
Automatic machinery forms extra strength into the sections of the Columbian Red Top Grain Bin. Sections of the body are joined by triple flanged joint. When bolted together a three-ply rib of steel encircles the body every 33 inches of its height. This and the corrugated side walls combine to make the strongest bin available except the famous Shagun Style A Columbian Bin. The roof is of square bolted-joint construction, bound Shagun Style A Columbian Bin. The roof is of square bolted-joint construction, bound Shagun Style A Columbian Bin. The roof is of square bolted-joint construction, bound Shagun Style A Columbian Bin.

Improves Quality of Grain
Thresh directly into the Red Top Bin from the chock. Will fit directly from the combine. Its scientific ventilating arrangement will cure grain—improve its quality. No need to stack. Shrinkage and waste less than 1% as compared to 1-2% when grain is piled in the open.

Low Delivered Prices—Quick Shipment
At these low delivered prices, no grain grower can afford to be without Red Top Bins. Nothing to add—freight is paid. Red Top Bins are already greater than last year. But the factory is prepared to make overnight shipment all during this season. Notwithstanding this, get your order in early to avoid freight competition.

500 Bu. \$82.00—1000 Bu. \$120.00
9 ft. 7 in. x 8 ft. 3 in.

25,000 Local Dealers—Twenty-five thousand dealers, hardware, lumber and other merchants in the wheat growing sections have been placed in a position to supply you with Red Top Grain Bins. Many of them are carrying bins on hand to take care of your needs. If your local dealer fails to offer you a Columbian Bin, write, wire or telephone your order direct to our experts.

COLUMBIAN STEEL TANK COMPANY
KANSAS CITY, MISSOURI

More Than 40,000 Columbian Grain Bins—The Columbian Grain Bin is the only grain bin in the world that is built of steel. It is the only grain bin that is fireproof, ratproof, and weatherproof.

**NEW SPORT ROADSTER
BY DODGE BROTHERS**

The new sport roadster with rumble seat which is now being displayed in the showrooms of Dodge Brothers dealers everywhere offers an unusual combination of beauty and service.

The dashing appearance and smart rakish lines of this new addition to Dodge Brothers line will win the instant admiration of everyone who takes pride in a touch of individuality in the appearance of the car he

drives.

There is a striking contrast between the tan colored top, the brilliant pheasant green lacquer of the body and hood and the lustrous black of the fenders and shields. The highly polished nickel of the bumpers, lamp rims, radiator shell, windshield stanchions and top bow trimming adds a distinctive touch.

The cushion and back of the rumble seat, like the front upholstery are of hand buffed gray Spanish genuine leather, constructed over spring frames to insure maximum

riding ease. The back is high and well pitched. The deck is so constructed that when the seat is folded the rear compartment is absolutely waterproof, even in the rainiest weather.

Exceptional space, easily accessible through a large covered opening behind the driver's seat, is provided for carrying golf clubs, tennis rackets, parcels or luggage.

Mrs. C. R. Nelson and little daughter, Virginia Ray, and Mrs. P. H. Sebastian are in Tucumcari, New Mexico, visiting relatives.

CALLS FROM THE FIELD

SERVICE is a big word these days. The field is a large one and the service to be given will be paid for in just the same proportion that SERVICE is rendered. Some complain that they do not get pay enough. Water seeks its level and it is said man finds his. Scarcely does one who renders unselfish SERVICE find the pay too small. Some time the word unselfish will reach home and there will find the source of treasury for the SERVANT.

If you work on salary, what do you expect? It depends on what is your line as to what your pay is at the end of the month.

Hundreds of boys and girls are writing us happy letters to tell us of their pay. They trained for a special work. It pays to be trained in a special way for a special work.

The training cost is low here as compared with old time prices. We have a fast growing school and need more boys and girls to send to the calls we get. Had just ten openings calling for help one day this week.

If you wish to make good at low cost to yourself, write us a letter.

AIMS FOR SUCCESS ARE ASTRAY

Mr. E. Andrus, Yonkers miller, recently said that ninety percent of the graduates of Columbia University are not successful in the professions. He said that these people ought to be sent to some hard school rather than to the various professions where they had better be sign

painters or farmers. This is an old criticism which has often been level at the colleges. There is some truth in it. Unfortunately almost all institutions of learning are engaged in the business of turning out professional men, that is, men for white collar jobs. Too many mothers regard the school as useful for their children in enabling them to escape from the necessity of manual labor. There is nothing inconsistent in

earning one's own living by one's own labor and at the same time being an educated man. To have an education or broad outlook upon life does not necessarily mean that we are to make a living by it. St. Paul mended sails and Jesus was a carpenter. It was the custom among the ancient Jews to teach all their children some handicraft so that all would be equipped to support themselves in an emergency. Among a vast number of people only a certain proportion are equipped

to make their living by their brainwork. Just how this proportion is to be determined no one knows. It is ultimately determined by nature, just as nature determines the relative number of the two sexes.

Doubtless many people are following a professional life and gaining a meager livelihood who would be better off working with their hands. And perhaps some manual laborers could make a success as professionals.

As a rule, however these things take care of themselves. Every man finds his own level. Some are equipped by nature for manual work and some are properly endowed for intellectual work.

The college should be able to train both classes. It should not aim to make every man a teacher or professor, or even a doctor or lawyer. It should aim to give that education which would be the most satisfactory groundwork for any kind of life, whether that of a farmer, a storekeeper or a doctor.

DID YOU EVER STOP TO THINK

By Edson R. Waite, Secretary Shawnee, Okla., Board of Commerce WILLIAM L. BRICE, PUBLISHER OF THE WHEELING (WEST VIRGINIA REGISTER, SAYS:

THAT the public should be educated by the newspapers to the great service advertising performs in the promotion of national health, well being, progress and prosperity.

THAT advertising has revolutionized housekeeping; has promoted health by exploiting new foods; it has literally compelled people to take better care of themselves, and particularly their teeth by showing that certain dentifrices will prevent decay and improve their appearance; how it has introduced better ways of heating homes and directed attention to certain kinds of machines that cut the cost of production.

THAT if advertising should suddenly cease it would mean that hundreds of thousands of workmen in all parts of the world and particularly in the United States would be out of employment.

THAT a billion dollars annually is expended in all forms of advertising and that the business developed from these outlays has been variously estimated at from ten to sixty billions per annum.

THAT the public now thoroughly believes in what it sees in the advertising columns of reliable newspapers, and that 95 per cent of all

advertising is believable because of the success of the campaigns waged by newspapers, nation-wide refusing advertising copy of untruthful character.

ADVERTISING is the high point for sales quotas and the low point for sales cost and it is considered first by every sales executive. Copyright 1926

EYE TROUBLE? TRY CAMPHOR MIXTURE

For eye trouble there is nothing better than camphor, hydrastis, witchhazel, etc., as mixed in Lavoptik eye wash. One business man says it relieves aching eyes and improves

sight. Another man with red, watery eyes reports that Lavoptik helped wonderfully. One small bottle usually relieves ANY CASE weak, strained or sore eyes. Perryton Drug Co. (D-6)

infested trees since it is almost impossible, once the borer has attacked a tree, to find all of the grubs and destroy them individually as must otherwise be done (by probing the holes with a long, flexible wire.)

The use of an arsenical spray has been found successful in killing young borers, if it is applied in the spring just when the new growth begins to open at the tips of the twigs. It is necessary to apply the mixture so thoroughly as to cover all parts and crevices of the trunk and branches. The formula and preparation are as follows:

"Dissolve 1-4 pound of sodium arsenite or arsenate in 5 gallons of water. Add 1 quart of miscible oil and agitate thoroughly." When kerosene emulsion is used in place of miscible oil, prepare as follows: "Dissolve 1-4 pound of the arsenical in 4 gallons of water and add 1 gallon of stock solution, agitating thoroughly." This formula will have little or no effect if put on during the summer or fall. Neither will it prove satisfactory on trees that have been infested more than a few months. It is recommended for use on trees where the borer has not yet appeared and on trees that have just been attacked. A fresh ly attacked tree is indicated by the oozing of sap and boring dust from a small hole through the bark.

Spring spraying, religiously practiced should save trees not yet attacked.

There is little hope of saving trees now inhabited by the borer.

The rapid advance of the front line of borer attack makes it almost cer-

tain that within a few years few black locust trees will be left in West Texas.

Land owners should begin now to plant trees of insect resistant varieties. The following species are recommended for the plains regions: Chinese elm, green ash, Russian mulberry, American elm, Arizona cypress red cedar and Western yellow pine. The tree known scientifically as Gledisia triacanthos (common name Honey Locust) is also very desirable. In appearance it is very similar to the black locust, but is not subject to the attack of the borer.

MATINEE AT AMERICAN

The American Theatre will hold a Dollar Day matinee on Saturday, August 28, when the feature picture, "Ki-Ki" will be presented, starring Norma Talmage.

Another big feature, "The Pony Express," will be shown on September 1 and 2. "The Pony Express" is a James Cruze picture, and greater than the Covered Wagon.

Mrs. S. E. Sellers and daughter, Irene, McCloud, Okla., and Miss Mollie Lee Gamel arrived in Perryton Thursday. Miss Gamel has been visiting at the Sellers home for the past two weeks.

William B. McLarty has been dispensing free cigars at the Shindler Drug Store since the arrival, Saturday morning, August 21, of a fine baby boy at his home.

The Herald \$1.50 a year in advance.

LAND WANTED

We have buyers for good raw and improved land both farm and ranch, in Ochiltree and adjoining counties, if priced right.

If you want to sell or trade your property we be glad to hear from you, giving price, term and general description of same.

LOCUST BORER KILLING BLACK LOCUST TREES

By C. B. Webster, Texas Forestry Department, Extension Service of A. and M. College and United States Department of Agricultural Cooperating.

The borer, an insect known to entomologists as Cyllene robiniae, is causing widespread havoc with the black locust trees (Robinia pseudoacacia) of West Texas at the present time. Black Locust is widely planted in the plains country as a shade and decorative tree. When these trees are killed there is not only an aesthetic loss but a very considerable financial loss as well.

About 1918 or 1919 the black locust trees in Amarillo were destroyed by the borer. Since then the borer has advanced southwest year by year almost completely exterminating the locust trees in its path. It is now, at Plainview. Residents of regions not yet affected can expect this destructive insect to reach their trees within a very few years.

Trees attacked by the locust borer may live for several years. However, they become bushy and stunted and very unattractive. If on poor soil, or during a dry year they will usually die within a few months or a year.

There are no control measures that can be recommended as being entirely effective. When locust is grown in dense plantations where there is heavy shade the trees are seldom attacked. The adult borer emerges from the trees in the fall. Its principal food is the golden rod. Hence, the destruction of golden rod in the vicinity of the locust trees will reduce and may control the damage. Badly infested trees should be cut and burned. In fact, it is best to cut and burn all

AUCTION

I WILL SELL AT PUBLIC AUCTION AT MY PLACE, 8 MILES NORTH AND 2 MILES WEST OF PERRYTON, TEXAS AND 3 MILES SOUTH AND 1 MILE WEST OF GRAY, OKLAHOMA, ON

Wednesday, Sept. 1

THE FOLLOWING DESCRIBED PROPERTY

-HORSES-

- 1 BLACK MARE, age 9, with mule colt, wt. 1300
- 1 SORRELL MARE, age 7, wt. 1500
- 1 BLACK MARE, smooth, wt. 1500
- 1 BLACK MARE, with mule colt, wt. 1500 age 10
- 1 BLACK MARE, age 11, wt. 1300
- 1 BLACK MARE, age 6, wt. 1300
- 1 BLACK MARE, age 8, wt. 1200
- 1 ROAN MARE, age 12, wt. 1200
- 1 BROWN MARE, age 8, wt. 1300
- 1 GRAY MARE, age 5, wt. 1300
- 1 SORRELL MARE, age 9, wt. 1200
- 1 SORRELL MARE, smooth, wt. 100
- 1 BROWN MARE, age 9, wt. 1100
- 1 GRAY MARE, age 9, wt. 1000
- 1 BROWN MARE, age 3, well broke, wt. 1200
- 1 BLUE GRAY MARE, age 3, well broke, wt. 1100
- 4 YEARLING COLTS
- 3 GOOD YEARLING MULES
- 1 GRAY MARE, with mule colt, wt. 1000

1 REGISTERED BLACK PERCHEON

STALLION, wt. 1600

1 BLACK REGISTERED JACK

-COWS-

- 1 RED COW, age 5
- 1 HALF JERSEY and HALF HOLSTEIN CALF
- 1 JERSEY COW, age 4, giving milk
- 1 JERSEY COW, age 4, fresh Oct. 1
- 1 HOLSTEIN COW, age 4, fresh Sept. 25

-HOGS-

- 1 BOAR HOG, weight 350

-IMPLEMENTS-

- 1 Two Row Rock Island Lister
- 2 One Row Moline Listers
- 1 Twenty-hole Van Brunt Wheat Drill
- 1 Twelve-hole Van Brunt Wheat Drill
- 1 Five-hole Van Brunt Wheat Drill
- 2 Two section drag Harrows
- 2 Fourteen Disc Keystone Harrow
- 1 Two Row P & O Monitor
- 1 Two Disc Plow
- 1 Moline Gang Plow
- 1 John Deere Cultivator

1 McCormick Binder

- 1 Bird Sell, 3 1/4 inch, 12 foot box Wagon
- 1 Rock City, 3 inch Wagon
- 1 Iron Wheel Wagon
- 2 Header Boxes
- 1 McCormick Header, a good one

-HOUSEHOLD GOODS-

- 1 Range Stove
- 1 Quick Meal Oil Stove
- 1 New Perfection Oil Stove
- 2 Cupboards
- 2 Bedsteads
- 6 Chairs
- 1 Washing Machine
- 2 Tubs, almost new
- 1 Wringer

-MISCELLANEOUS-

- 1 Ford Engine, complete, in running
- 2 Scoops
