Minority Plans Of Republicans Are Presented

Texan Hops To The Defense Of FDR Claiming Criticism Does Not Offer Any Solution

(By The Associated Press)

WASHINGTON, May 11—Republican denunciations of the Roosevelt spending-lending program drew from Rep. Maverick (D-Tex) the reply today that "violent criticism of the president" does nothing to solve economic problems.

Defending the measure as "much better" than previous relief bills, the Texan said the most vehement critics had no proper program of their own to offer.

Make No Suggestions

The chamber of commerce and other business associations "view with alarm," he said, but make no suggestions except to "repeal the Wawner labor relations act and throw labor to the wolves."

Republican suggestions that relief be turned back to the communities, he added, would result in a "saturnalia of mismanagement and corruption throughout the country." He urged the creation of a federal department of public welfare to handle the relief problem.

Warnings Are Sounded

He spoke after Republicans warned colleagues that there were serious dangers in the pending bill, which would appropriate some $3,000,000,000, major part of the $4,500,000,000 program of loans and direct expenditures to combat the depression.

A Republican minority report, prepared by Representatives Taber and Bacon of New York, and Wigglesworth of Massachusetts, members of the appropriation committee, presented a counter-program of 12 points. Among them was:

Federal Bi-Partisan Board

"Administration of relief by a federal bi-partisan board aided by local bi-partisan boards, federal grants to be limited to 80 per cent of each state's relief needs."

They also demanded: an inquiry into charges that WPA money has been used politically; outright re-

Brazil's Chief Pulls Gun To Fight Rebels

President Vargas Proclaims Martial Law After Many Are Killed In Firing

(By The Associated Press)

RIO DE JANEIRO, Brazil, May 11. President Getulio Vargas crushed an armed revolt of Brazil's greenshirted fascists today and apparently strengthened his position as dictator.

There were many dead.

Pistol in hand, Vargas helped fight off greenshirts attempting to invade his presidential palace. A few hours later he started military and police court action to smash the outlawed integralist greenshirts organization.

Hundreds Arrested

The revolt, apparently wholly Brazilian in character, was crushed by police and army thrusts. Rebels were killed and wounded in abortive assaults against government buildings and residences of army generals. Hundreds were arrested.

The three-and-one-half hour uprising ended at 5:30 a. m. with the arrest of roaming fascists. Vargas then began to clean up the situation politically.

He declared martial law, which took effect at noon. Plans were said to have been started to have the national security court, the nation's highest, hear charges against those implicated. The maximum penalty is death.

Purge Is Predicted

Presidential palace spokesmen predicted a "purge" in the navy.

It was pointed out that Admiral Eduardo Taveres was arrested as a participant in the uprising.

Belmiro Valdeverde, field commander of the rising by fascist integralists whose organization was outlawed by President Vargas after he grasped authoritarian control of Brazil last Nov. 10, was lodged in jail.

Plinio Salgado, leader of the integralists, was said to be the leader. He has been a fugitive since the government announced March 18 that a greenshirt plot had been smashed.

Eight Bodies Removed

Eight bodies were removed from the presidential palace courtyard, the scene of spirited gunfighting in which Vargas took part.

Vargas' household staff gave warning of the attempt on the presidential palace. Greenshirts dressed as soldiers and sailors marched up to the palace as regular relief for the palace guard.

The "strong man" president called for help from the war, navy and police departments, and handed out guns and ammunition to his family and the staff.

Without waiting for reinforcements to arrive, Vargas opened fire on the disguised rebels. Soon military and police detachments arriv-

Queen Cotton To Reign At Carnival Here

The brown-eyed miss who appears to be blossoming from a cotton boll is Elray Lewis, who will reign as Queen Cotton at the annual Cotton carnival to be conducted May 20 under auspices of the Texas Technological college chapter of Phi Psi, national textile fraternity. Miss Lewis, a sophomore, is the daughter of a Brownfield cotton merchant, Clyde Lewis.

College Student Reported Near Death Today

Rufus Singer, 20, Is Seriously Injured; One Man Being Held In Jail For Investigation

FIVE persons were injured, one critically, and one held in the city jail as the result of a head-on automobile accident about two miles east of Lubbock late Wednesday night.

Rufus Singer, about 20, of 2414 Fourteenth street and a sophomore arts and science student at Texas Technological college, suffered a severe fracture of the head and concussion, authorities at Lubbock sanitarium said at midnight. Medical authorities doubted his recovery and said he might not live until morning. He was conscious on arrival at the sanitarium, but lapsed into a coma shortly afterward. He also suffered from shock.

Parents Are Notified

His parents, Mr. and Mrs. S. E. Singer of Littlefield were informed by telephone of the crash and started immediately for Lubbock to be at the bedside of their son.

The accident happened shortly before 11 o'clock Wednesday night on the upgrade of the highway on the east side of the canyon immediately east of Lubbock.

A Ropesville man, about 28, was arrested by Melvin Alvey and O. E. Rush of the police department for investigation of driving when intoxicated or possibly more severe charges.

Others Are Identified

Others identified tentatively at midnight by officers who investigated were:

F. G. Follis, about 26, resident of east of Lubbock and a salesman for Butler-Fuller Motor company, severe gash beneath the left eye and bruises and contusions. He was admitted to West Texas hospital for treatment and further examination and observation. Physicians said they believed there were no fractures.

Miss Lillian Toth, about 21 of Dallas, shock, lacerations of the face, and bruises. She was given emer-

New Bill To Ease Tax Burden

Final Action Is Taken To Send Plan To FDR

(By The Associated Press)

WASHINGTON, May 11. — The new tax bill, reducing the much criticized undistributed profits tax to a tattered remnant of its self, received final congressional approval today but house Republicans opposed that remnant to the very end.

The measure now goes to the White House for President Roosevelt's signature.

To Yield Billions

The bill, reenacting much of the existing law, is estimated to yield revenues of $5,000,000,000 annually. It exempts corporations with incomes of less than $25,000 from the tax on undistributed profits. Corporations with income above that figure would pay an income tax of 19 per cent if all profits were redisbursed to its stockholders and of 19 per cent if all profits were retained. For a partial disbursement of profits the rate is graduated between the 16 and 19 per cent figures.

While the smaller corporations are exempted by the new law from the operations of the undistributed profits tax, they are required to pay a flat corporate income tax of 12 1-2 to 16 per cent, graduated in accordance with the extent of their profits.

The new bill also drastically revised the tax on capital gains—which also has been blamed for depression ills. Instead of the present graduated tax on capital gains, it would impose the regular income tax rates upon gains from assets held no longer than 18 months. A flat 20 per cent would be levied upon gains from assets held from 18 to 24 months and a 15 per cent rate would be applied to gains from assets held longer than two years.

Mother Fears Missing Child Is Victim Of Kidnapers; Wide Search Being Conducted

(By The Associated Press)

BRADFORD, Pa., May 11—The mother of four-year-old Marjory West, missing since she wandered into the woods to pick violets last Sunday, expressed fear today the child had been kidnaped and promised "no questions will be asked" if the girl is returned.

Pennsylvania and West Virginia police pressed a search for an unidentified man and a small girl who stopped early Monday at a hotel in Thomas, W. Va., while haggard, sleepy-eyed men and boys doggedly doubled back through the northern Pennsylvania woods they had searched fruitlessly for three days.

The man and a small dark haired girl wearing a blue dress, red hat and dark coat similar to Marjory's left the Thomas hotel without registering and hurried away in a green sedan.

Corp L. V. Minnick of the West Virginia state police, said he received a report a similar sedan stopped today at a gasoline filling station near Thomas and refueled. On the rear seat of the car, Minnick said the station agent told him, lay a bundle wrapped in a gray blanket. A description of the driver tallied with the appearance of the man who stopped at the hotel, Minnick said.

Flood Control Program To Include Denison Project

(By The Associated Press)

WASHINGTON, May 11 — The house flood control committee agreed today upon a flood control bill authorizing construction of the $54,000,000 Denison reservoir and a $46,000,000 appropriation to construct Arkansas and White river basin reservoirs.

The bill provided for government acquisition of all lands, easements and rights-of-way connected with development of the electricity producing features of the Denison reservoir.

Local Contribution

The committee provided for local contribution for the flood control portion of the Denison project to be in form of direct monetary contribution from states or political subdivisions amounting to 30 per cent of the estimated value of lands and easements.

The bill would authorize a $21,000,000 appropriation to start construction of seven reservoirs in the Arkansas basin and $25,000,000 to initiate construction of the six reservoirs in the White basin.

It left to the discretion of the engineers the selection of the reservoirs to be started first.

The reservoirs included the Mannford, Colcagh, Pensacola, Ten-Killer ferry and Wister in Oklaho-

Oil States Slash Production In Effort To Halt Price Collapse

(By The Associated Press)

OKLAHOMA CITY, May 11.—Two major mid-continent oil states cut petroleum production drastically today to prevent a price collapse but revolt was stirred by some independent operators resentful over curtailment orders.

First to act in the face of threatened price cut was Texas, the nation's No. 1 oil state, with an order shutting down wells Saturdays as well as Sundays, effecting a 16 2-3 per cent production cut.

Meeting Is Called

Independent oil operators called a meeting at Gladewater, Tex., tonight to "thoroughly" discuss the shutdown order. Some operators asserted it was a "ruinous act," but declined to be quoted by name.

Following Texas was Oklahoma with an emergency order to cut May production 81,000 barrels daily to 405,000 barrels. The new order was 70,000 barrels a day less than allowed production in April.

Four other states—Kansas, New Mexico, Colorado and Illinois were ready to fall in line said Art Walker, secretary of the interstate commerce commission which synchronizes oil production problems between state. None had taken definite action, however.

Governor E. W. Marland of Oklahoma said in the speed with which the states moved to stabilize production "the removal of a possible threat of federal regulation."

"This act proves," Marland said,

Texas Pension Fund Is Low

(By The Associated Press)

AUSTIN, May 11.—Immediate repayment of funds for pensions, borrowed by the old age assistance commission from a Dallas bank, appeared remote today.

Claude Teer, chairman of the board of control, which administers the assistance, said more than $1,300,000 still was owed on the $1,627,000 loan made to carry pensions through the winter of 1936-37.

Don't Have The Revenue

"We don't have the revenue," Teer said, "to properly meet this obligation. In spite of cutting our staff to far below the number really necessary and other economies, our revolving fund has dropped from $750,000 to about $400,000 the past few months."

Teer said rising costs of food and other necessities had worked hardships on pensioners, who receive a state-wide average of $13.70 a month as compared to $19 over the nation.

Pension funds are derived mainly from liquor, beer and cigarette taxes.

The pension administration started mailing 112,000 May checks totaling $1,539,048, as compared to 111,960, aggregating $1,538,599 last month.

Jealousy Over Woman Fatal

(By The Associated Press)

PRESCOTT, Ariz., May 11.—County Attorney Ewing said jealousy over a woman caused a fight early today in which Marcus Jay Lawrence, 35, wealthy cattle rancher and former resident of Washington, D. C., was fatally beaten.

Ewing said Ernesto Lira, musician and former manager of John Henry Lewis, world's light-heavyweight boxing champion, was in jail. The woman, Odessa Webb, was severely beaten. She was taken to the home of a friend.

Details Are Unknown

Investigators said she was unable to relate details of the fight which left the interior of Lira's home in wreckage.

The county attorney said Lira told him the fight occurred after a birthday party in honor of Mrs. Webb, who Lira said, had lived in his home two years. Ewing said Lira told him he objected to attentions he said Lawrence was paying to Mrs. Webb.

Lira called a doctor and Lawrence was removed to a hospital, where he died. Ewing said Lira told him he did not remember using a blood-stained shotgun barrel found on the floor.

Expert Says It Is Absurd To Teach Child That He's Born With Right To Be Happy

(By The Associated Press)

NEW YORK, May 11—Parents who teach children that they have a right to be happy teach a "current slogan and a current falsehood," Dr. Foster Kennedy, a Cornell university nerve specialist, said tonight.

In an address prepared in connection with the 132nd annual meeting of the Medical Society of the state of New York, Dr. Kennedy, a professor of neurology, said youngsters should be made to face whatever may come.

Birth, he added, conferred only one real right—"the right to die, and what lies between must be won hardly, but with laughter, by ourselves."

Outlining a program for bringing up children to possess and exercise "emotional control," Dr. Kennedy said a just sense of values should be instilled in a child not by the "often unreasonable 'moral code method'", but by a system of teaching based partly to "satisfy the child's curiosity and

THE TAOS ARTIST

WE'VE never seen Regina Tatum Cooke, Taos artist who is to be honor guest at a tea in the West Texas Museum this afternoon, but we know we'll like her because we have a few things in common. Take the matter of getting an A. B. degree, for instance.

Of the harrowing experience she writes: "I barely got my sheepskin . . . and that after a second trial on a final exam." Three courses in mathematics, which subjects she had carefully avoided in other schools, almost became her Waterloo when the artist was a senior.

SHE is described by friends as an attractive woman. She is small of stature, has a round face, prominent eyes and raven black hair. She designs her own clothes, which are not "arty," but conventional and refined. She loves a good time, and thoroughly enjoys herself at parties. Rare perfume and antique jewelry she covets but dislikes Indian jewelry on herself. She likes to cook. PROGRAM WITH APPEAL

LITTLE JACK LITTLE and his band, sponsored by the Tech Artists course, packed Senior high school auditorium to the ceiling Tuesday night, which wasn't a surprise to the artists course chairman, R. A. Mills, who has known all along an undeniable bait for the college youngsters would be a jazz orchestra. We're of the opinion several of the students saw the auditorium for the first time Tuesday night although the artists course has offered an unusually attractive program this season.

We're not belittling Jack Little (is that a pun?). No one enjoyed his numbers more than we did, especially those that offered him an opportunity to display his marvelous piano technique. As Miss Margaret Huff said of him, "he's an artist in his line. What more could one ask of a man?" What more indeed!

What puzzles us is the thought perhaps the programs for the students should be formed around dance orchestras and the Bauers and Kubeliks and the like left to the civic music associations. And, yet, before you agree the students may be lowbrow in their tastes, consider that there were many town people at the Little concert who have never been interested in programs of a more classical type.

LEFT TO ONESELF

"THERE I sat for thirty minutes without a thing to do." There was such a tragic note in the young man's voice we turned as we hurried by to glimpse at him. Apparently a college student, he was a handsome fellow although just then a frown was marring his even features.

We wondered what great upset could have caused him to have thirty minutes left on his hands "without a thing to do." Perhaps his date wasn't ready, maybe the bus was late or the dentist couldn't get to him at the appointed time. Thirty minutes out of a young man's life isn't such a loss, the tragedy to us is that that young man felt the way he did with having to entertain himself for half an hour.

What is the matter with youth if it is bored with itself, even to the point of exasperation, when left alone? Shouldn't the educational curricula include training one to live with or by oneself if need be? How uninteresting a person must be who finds himself dull.

Thompson Lectures In City Postponed

Dr. John Thompson, director of the Kansas City, Mo., Conservatory of Music, has canceled his engagement to lecture here Friday and Saturday because of illness his local sponsor, the South Plains Music store, was informed last night.

Doctor Thompson, who was on a lecture tour in Texas, became ill after completing his series in Dallas this week and was taken to his home in Kansas City. As soon as he is sufficiently recovered, he will resume the tour and appear in Lubbock, the store was informed. He was to have addressed South Plains Music teachers Friday and Saturday mornings and pupils and the general public Saturday afternoon at Hotel Lubbock.

"When I eat the wrong kind of food, or when my stomach turns sour, I often have the worst colic pains. And do I yell! But my mama is a smart mama and she gives me Teethina, because Teethina is a mild, gentle laxative. It cleanses my tiny bowels of irritating waste. This relieves my pain and relaxes me too, and I'm all set to go back to sleep. Teethina tastes good and you get twelve powders for only 30c. Charlotte Ratliff To Marry In June

To announce the approaching marriage of her daughter, Miss Charlotte Ratliff, to Russell F. Redding of LaGrange, Ga., Mrs. John L. Ratliff entertained with a tea from 3:30 until 6:30 o'clock Wednesday afternoon at her home, 2413 Nineteenth street.

The marriage will take place at the First Baptist church June 7. Mr. Redding, former member of the Texas Technological college engineering faculty, is a member of the technical staff of Callaway Mills in LaGrange where the couple will live.

One hundred fifty guests called. They were greeted by Mrs. George Walton and presented to Mrs. Ratliff, the honoree, Mrs. C. M. Stanley, jr., Miss Wilma Redding, sister of the bridegroom-elect, and Mrs. Jeanne Winn. The guests registered in a white bride's book.

An entirely white motif was featured in the party appointments. The tea table was covered with a white transparent oiled silk cloth and centered with a large bouquet of calla lilies in a crystal bowl. The service was of crystal and silver and plate favors were cape jasmine.

Mesdames J. T. Hutchinson, R. M. Chitwood and W. B. Atkins presided alternately at the table. Others in the house party were Misses Lyall Pickett of Post, Mary Alice Maedgen, Joni Bundy, Vondelle Prideaux, Nell Montague, Mesdames Troy Dale Lawrence Bacon, Marcus Halsey, jr., C. E. Maedgen and Leroy T. Patton.

Swatches of white cloth attached to cards bearing the announcement in "textile terms" were presented to the guests.

Musical entertainment was provided by Doris Kolb, piano; Douglas Hardy, violin, and Virginia Belle Gamble, cello, throughout the afternoon.

Miss Ratliff will be honored at numerous parties within the next three weeks.

Quarterly Meeting Held By League

Caldwell Women Have Cake Demonstration At Meet

ABERNATHY, May 11. (Special) A called meeting of the Caldwell Home Demonstration club was held Monday afternoon in the home of Mrs. R. F. Hess. Miss Clara Pratt, county agent, in demonstrating the mixing and baking of a sunshine cake told the women success depended upon beating of egg yolks as the cake contained no leavening agent.

Mrs. Hess gave a council report. Mrs. Ozro Dooley was selected to represent the club at council meeting May 28 when three women will be elected as council delegates for an annual short course at A. and M. college in July.

While the cake was baking Miss Pratt decorated an angel food cake and this, with a shower of handkerchiefs, was presented to Mrs. M. O. Pugh as a birthday greeting from the club.

A refreshment plate was served to Mesdames Dooley, Odie Hamilton, A. F. and R. F. Hess, Pat Nix, Pugh, R. S. Veazey, Ralph Young, C. S. Wales, R. A. Young, members, Miss Pratt, Mrs. Opal Duty and Mrs. W. F. Bell of Lubbock and Miss Jewel Hughes of Kress visitors.

Kentucky Primary To Be Weathervane Showing How Political Winds Blow

Barkley Seeks His Old Place

WASHINGTON, May 11. (AP) — Capital politicians expect coming senatorial primaries to demonstrate whether Senator Pepper's successful New Deal campaign in Florida was a reliable political weathervane, or only a straw in uncertain political winds.

Pepper's overwhelming renomination on a pledge of support for President Roosevelt has been acclaimed by Roosevelt followers as indicating administration candidates will have a head start in other senate races.

Due To Popularity

Others have contended Pepper's victory was due largely to his own personal popularity.

Interest is centering now on a half dozen Democratic races, but especially on the contest in Kentucky. There, Senator Barkley, the administration's floor leader, is seeking renomination at the August 6 primary in a nip-and-tuck race against Governor A. B. "Happy" Chandler.

Mr. Roosevelt already has spoken kindly of Barkley, saying he wanted Kentuckians to know "how much we think in Washington of their senior senator."

Chandler For FDR

Chandler, on the other hand, has declared friendship for the president. He has demonstrated autographed photographs of Mr. Roosevelt and Postmaster General Farley as evidence the administration bears him no ill will.

In Wisconsin, Senator Duffy has drawn a nod from the president in his race for renomination. Rumored is that the La Follettes' new Progressive party might name a candidate to run against Duffy in the election after the primary.

Two southern primary races—those of Senator George (D-Ga.) and Smith (D-SC)—are attracting attention because both legislators have opposed some administration measures.

Brownfield Pupils To Play In Recital This Evening

Regina Tatum Cooke, Former Texan, To Be Honored At Tea By Tech Art Institute

Regina Tatum Cooke, Taos artist who is to be honored at a tea at the West Texas museum this afternoon and who is exhibiting 26 oils and three drawings in the building, spent much of her girlhood in Texas, her father having moved to Dalhart when she was a baby.

Her first sight of "artists at work" was when a group of women would gather in her mother's home to practice the stylish and refined art of china painting. Pyrography took the place of this craze and was in turn succeeded by painting and it was through her mother's generosity in giving her child scraps of canvas, some paint and a brush that Mrs. Cooke was first inspired by the art that later was to mean so much to her.

Inspired By Professor

Her first two years of college were at Ward-Belmont in Nashville, Tenn. One of her professors, Olive Carter Ross, who taught English and art appreciation, was an inspiration to the shy, self-conscious Texas girl. She says of this woman: "She had the power to bring to life all the little dormant things within one: the love of beauty, the understanding of reality, the inspiration to create. No one has ever had the influence on me that Miss Ross did."

Her first year in a graduate school was spent at Bethany college, Lindsborg, Kas., where Mrs. Cooke studied with Birger Sandzen, Swedish artist who visited Tech college last year and one of whose paintings was purchased by the institute. She transferred to Colorado college, Colorado Springs, and was graduated with the A. B. degree.

Studied With Ufer

After her marriage Mrs. Cooke lived in Denver for a time, later dividing her time between that city and Dalhart. In 1933 she and her son, Reese, moved to Taos where she became a pupil of Walter Ufer. He knew his profession, was a master draftsman and a master of color. He once told friends that Mrs. Cooke was the most talented woman artist he had ever known. His sudden death in 1936 was a blow to his pupil as well as to the entire colony.

Mrs. Cooke became a member of the Taos Artist's association after being there a year. She has exhibited in museums in Santa Fe, Wichita, Kansas City; several times at the University of New Mexico; in the Dallas museum of Fine Arts, at the University of Texas in Austin and in the Taos Artist's Centennial exhibition.

She paints "Taos as Taos is" at all seasons of the year. She believes, even in its strange exotic way, it is a part of America just as the strong American subjects depicted by the brushes of Grant Wood, Thomas Benton and others.

She is said to be acutely sensitive to graduations in color and has an understanding of proportion and design, as well as atmospheric qualities. She strives continually to make her paintings more strong, for she despises weak, indefinite work.

Discovery Of Vast Wealth In Clay Of Tennessee Valley Is Being Reported

China Industry Being Started

By HOWARD W. BLAKESLEE
Associated Press Science Editor

NORRIS, Tenn., May 11. — The ceramic laboratory of TVA at Norris dam today reported discovery of vast wealth in 100,000,000-year old clay of the Tennessee valley, which promises a new American industry in making fine China.

The new wares have already been made in a unique electric furnace at the dam.

They do not compete with anything now made in American China and porcelain, and appear to match the translucent qualities of fine English dinner plate, and of the Japanese porcelains which combined hold about 50 per cent of the American China business.

To Supply Market

Through mass production methods, it is hoped, that the new techniques will enable American workmen to supply a market now held by cheap oriental labor.

In the past three years the laboratory under direction of R. E. Gould, has completed in day and night work the equivalent of ten years or ordinary experiments. Three problems were presented. The first, to find the raw materials, is finished. The ancient clay comes from North Carolina in the vicinity of Spruce Pine.

Josiah Wedgewood, famous English China manufacturer, was the first to call attention to the deposits but they were supposed to be too limited for commercial use. Gould, in cooperation with Spruce Pine commercial companies, found that this single section of the Tennessee valley has enough clay to last the United States 100 years.

Impurity Is Added

The clay, almost pure white, comes from granite that literally dissolved over a period of many millions of years. It assays as the purest of its kind known in the world, indeed it is so pure that manufacturers had difficulty in making China. Some of them said it could not be done. The ceramic scientists solved this trouble by adding an impurity. They put in a few hundredth of one per cent of lignite.

Work on the second problem, mass production methods, is advanced so far that a skilled workman at the TVA laboratory needs only five minutes to cast intricate China plate designs that ordinarily require three quarters of an hour.

The third problem was a new kind of electric furnace for making China. This also has been partly solved in laboratory size. It is not necessary, Gould said today, to use electric furnaces, but if successful commercial electric furnace can be designed it will be a new tool for the ceramic industry.

Two Lubbock Girls Find That Their Joke Is Not So Funny; To Appear In Court

"Between a rock and a hard place" were two Lubbock girls who Tuesday night had their fun but Wednesday were hailed into court and are scheduled to reappear again today.

Butts of their Tuesday night jokes were the fire department, Lubbock physicians, taxi cabs, traffic officers, and messenger boys.

Today they will be taken before Judge E. L. Pitts of 99th district court.

A pretty 17-year-old brunette and a 20-year-old companion admitted to Walter Wharton, city recorder, they turned in a false fire alarm, called drug stores, taxis and messenger boys—sending all to an address in 1600-block Avenue L on an assortment of missions.

One said their malicious mischief had included the ordering of embarrassing articles to be delivered "as a joke."

Their antics were not a joke to the fire department, however, and before Chief W. E. Witty and his firemen had returned from a run to property which was not burning the telephone calls had been traced and police officials had been informed to get warrants and arrest the girls.

One of the girls admitted the two had telephoned four times to taxi cab companies, three times to drug stores, twice to doctors, once to a messenger boy and once to the fire station.

In the case of the fire department, said Chief Twitty, "we automatically get checks on all calls to run to fires. If the public expects to have its joke it should not do so at expense of life and limb. Everytime the fire equipment rolls there is patent danger to property and lives, despite attempts to drive carefully. The cost, too, is high everytime equipment is taken from the station.

"Like all cities, Lubbock protects its investment of equipment, and telephone operators have orders to check all calls to the station where fires are reported. The law is stringent when a person is found giving false alarms."

Personal Invitations Are To Be Sent To Legionnaires

Personal invitations intended to reach every member of the American Legion and the auxiliary in the 19th district, of whom there are approximately 2,500, to attend the district convention in Lubbock May 21-22 will be placed in the mails Thursday, according to information given this morning by Chas. Whitacre, chairman of the invitations committee.

The invitation, attached to a cartoon leaflet, explains that Daniel J Doherty, national commander, will speak here the night of May 21 and that a dance and chow line will be among entertainment features.

Meanwhile, according to announcement by J. A. Raley, jr., chairman of the reception committee, he is proceeding with the completion of that group. Every post in the district will be represented on the committee by two or more members, Raley said.

The fact that the convention is to be held here, members of the post learned, has received widespread publicity in the May issue of the American Legion News, official publication of the Texas department. The issue is delivered to all of the approximately 25,000 Legion members in the Texas department.

The first schooner was designed and built in Gloucester, Mass., in 1713.

New Water Supplies Being Added In City

Completion of a new water well about a half mile west of the city limits in the Maddox addition has added approximately 700,000 gallons daily to the city's water supply, according to information given at the city hall this morning.

Capacity of the well was described by city officials as about "average," but is substantially short of another well northeast of the new one which will produce in excess of 1,000,000 gallons daily.

Another well authorized by the city commission will be started immediately to complete the spring drilling program. It is the expectation of city officials that the new wells, in the aggregate, will add from 2,000,000 to 3,000,000 gallons daily to the city's supply, which will be more than adequate for any demand which may develop this summer.

Officials pointed out, however, that if Lubbock's growth continues at anything approximating the present pace, further and extensive expansion of the water system will come a vital necessity next spring.

Addition To School Building At Seminole Is Approved

SEMINOLE, May 11.—Voters of the Seminole common school district voted 2 to 1 in favor of issuance of $75,000 in school bonds for the erection of an addition to the present building. Official count of the ballots was made Monday by the board.

An 8-room addition to the present building, located west of the business section, is planned. Under an election agreement, not to exceed $45,000 will be spent for paint work. Opposition developed to spending the entire amount on the grounds that growth did not demand that all amount be spent.

Present architect is W. C. Heck of Fort Worth. Plans for the original structure were drawn by the former firm of Peters, Strange and Hshaw of Lubbock.

Texas Engineering Group Will Hold Fall Meeting In City

Texas section of American society of Civil Engineers autumn convention has been awarded to Lubbock and will be held in October on dates yet to be set, said Harry N. Roberts, Lubbock consulting engineer and a member of the association's board of directors Wednesday.

Lubbock was selected by a mail poll of the directors conducted by John Focht, secretary, who is professor of highway engineering at the University of Texas. J. T. L. McNew, professor of highway engineering at Texas A. and M. college, is president.

The convention, Roberts said, will bring to Lubbock 150 to 200 men outstandingly prominent in their profession. Speakers likely will include engineers of national prominence.

Cooperation of the chamber of commerce in preparing for the convention and entertaining visitors was assured.

Only Your Mileage Merchant OIL-PLATES YOUR ENGINE

Do you need any reminder of what oil you bought? Not if it delivers smooth long mileage that you can't forget! Then here's the real big value of the little drain tag you get from Your Mileage Merchant: he marks it with your mileage today as you change to his patented Conoco Germ Processed oil, and then you can keep tabs on how far you go before you ever need another quart in your OIL-PLATED engine.

OIL-PLATING is exclusive with Conoco Germ Processed oil. The patent-guarded Germ Process forces this oil to "magnetize" itself to the working parts in the form of *implanted* slippy OIL-PLATING. The parts that used to wear worst and make your oil "rub out" fastest, now possess this all-over, deep-seated OIL-PLATING. It can neither drain down while your engine is stopped, nor let loose in all the whirl of 4,000 revolutions a minute. Therefore OIL-PLATING, done only by Your Mileage Merchant, distinctly tells you why your Germ Processed oil and your car money won't be doing a "disappearing act." Continental Oil Co.

Chinese Report Conter-Attacks In Effort To Drive Japanese Out Of Amoy

Street Fighting Is Under Way

SHANGHAI, May 12. (Thursday) (AP)—Chinese reported today their forces had counter-attacked in an attempt to drive Japanese from the outskirts of Amoy, where a United States gunboat stood by to protect Americans.

Searchlights from Japanese warships stabbed the darkness as Japanese bluejackets and China's Cantonese detachments fought through narrow, winding streets for possession of the port, some 600 miles south of Shanghai.

Fighting On Island

Some dispatches referred to fighting on Kulangsu island, Amoy's foreign settlement. Foreign sources, however, had no reports of conflict on the island, which is located a half mile off Amoy island itself.

The U. S. gunboat Asheville and the British destroyer Diana were ready to evacuate Americans and Britons if necessary, and the U. S. destroyer Edsall and cruiser Marblehead were reported on their way to the island, where 26 Americans, including 15 missionaries, make their homes.

Japs Driven Back

Chinese dispatches asserted that one Japanese detachment broke through Chinese defenses and attacked Amoy's suburbans, but was driven back by a counter thrust.

During the day, 14 Japanese planes were said to have flown over Amoy, dropping bombs which started fires. Schools were turned into refugee centers, and other public buildings saw service as hospitals.

Along with the drive on Amoy, the first Japanese invasion of South China, Japanese announced they had renewed their general offensive on the central front.

gency treatment at West Texas hospital, then released. She is here visiting in the home of Mr. and Mrs. R. J. Swayder of 1301 Twenty-third street.

Suffers Shock And Bruises

Miss Mary Haynie, 20, resident of near Lubbock on the Slaton highway, shock and bruises. She was released from Lubbock sanitarium after emergency treatment.

Officers said Follis told them he was driving a light coach. The coach, officers said they believed, was occupied by Follis and Singer and Misses Toth and Haynie.

The man held, who suffered lacerations of the head, left arm and right leg, told officers he was the only occupant of a heavy coach. He was driving west toward Lubbock and persons in the light car were going east, investigators said.

The Ropesville man, Miss Toth and Follis were rushed to the West Texas hospital in a Sanders ambulance. The victims taken to the sanitarium were transferred there in a taxi cab.

Both automobiles were damaged considerably, witnesses said.

In the house, Rep Treadway (R-Mass) said the country was "in the midst of the Franklin D. Roosevelt depression," and that the pending bill offered no remedy for it.

Representative Hoffman (R-Mich) took Representative Woodrum (D-Va) to task for asserting that the Chamber of Commerce of the United States had not "dared" to criticize the spending program.

"Have we come to that?" he asked, "that people do not dare express their opinions."

Representative Short (R-Mo) said "the greatest need of today is relief from relief."

Representative Hook (D-Mich) defended the program, saying that there had been a public spending program in every administration since that of George Washington.

Two-Year Suspended Term Is Given In Swindling Trial

E. R. Phegley, charged by indictment with swindling over $50, late Wednesday was found guilty by a 99th district court jury and was given a two-year suspended sentence, according to Burton S. Burks, district attorney.

A charge of driving when intoxicated against J. A. Bell was passed.

Judge E. L. Pitts of that court was confronted with an unusual problem Wednesday after Herbert Aduddell of Lubbock had entered a plea of guilty of drunk driving and had made application for suspended sentence. Burks was "tipped" that the defendant had been given a three-year suspended sentence in 1933 in Hall county on a burglary charge, said court officials. Since the sentence has expired, there is an "open question" the courts presumably have not ruled on as to whether application again can be allowed. Judge Pitts will rule on the question this morning.

Dairy Students Honored Here

Honoring senior dairy manufacturing students in the club's fifth annual banquet, members of the Texas Tech Dairy club heard the quality of training and character of the school's graduates lauded by two leaders of the industry Wednesday night.

Approximately 85 persons including several out-of-town creamery men and alumni of the club attended the affair held in the dining hall of the women's dormitory.

Had To Train Men

"When we started pioneering in the cheese industry in the Southwest, we had to train men for our plants," A. J. Riddle of Denison, general manager of the southwestern division of Kraft-Phoenix corporation, said in the main address of the evening. "Now we look to schools such as Texas Tech for such trained men."

"There's one thing about Texas Tech men," J. D. Witter, manager of the Snow White Creamery in San Angelo, said prior to Riddle's talk, "they come to us knowing very definitely what quality is. They've had the training."

Climax To Activities

The banquet climaxed the club's activities fo the year. Bill Tinney of Bowie, president, opened the session and after invocation by Dean A. H. Leidigh, Arch Lamb of Fort Worth was toastmaster. L. G. Harmon, Tech creamery plant superintendent, introduced the seniors. They were: James Alexander, Breckenridge; Foy Boone, Tulia; Morris Hill, Waco; J. P. Kilgore, Brownwood; Tinney, Lawrence Sides, Jack Huber, Jack Jacob, all of Lubbock.

Brief reports on activities were made by Alexander, Boone, Jacobs and James Huffman of Grapevine, student president-elect.

Awards of recent contests were announced by M. G. Pederson, coach of the dairy products team. In the freshman-sophomore division, George Wilson of Paradise was first place winner; Clayburn Harrell of Spur was high in the senior-junior judging and high junior and J. P. Kilgore was high senior. Kilgore also was winner of first in the vocational-non-teat member division.

Awards Are Presented

The senior and junior awards were presented by Witter of San Angelo.

Lamb and several of the student speakers paid special tribute to K. M. Rerier, head of the department, and Pderson.

Riddle traced the rise of the cheese industry in the Southwest and declared it was developing into a very definite source of income for the Texas farmer and has grown to be a vital business for the country. He said too much effort had been made on the part of the producer to obtain a higher price for his milk without trying to produce in a cheaper manner.

"The industry needs men who have had the kind of training you boys have gotten here at Texas Tech," he said.

Riddle was introduced by Renner who previously had presented visiting creamery men and alumni.

While Vargas was fighting the fascists personally, General Pedro Aurelio de Goes Monteiro, chief of staff of the army, was defending his own residence against fascist invaders. The hall of his home was covered with blood.

Hospitals Of Lubbock Are To Conduct Open House Today

From 2 to 4 o'clock this afternoon the three hospitals of Lubbock will conduct open house in observance of National Hospital day.

The mayor has proclaimed observance of the day, when opportunity will be offered to residents to secure first hand knowledge of hospitals.

Visitors will be directed through Lubbock sanitarium, West Texas hospital, and Plains hospital during the two hours.

Hospitals throughout the country will be open to visitors. National Hospital day was designated by the American Hospital association and governors and other officials are cooperating by urging persons to take the opportunity to see the type of medical service offered in their communities.

Texas Prison Board Favors Giving Convicts Overtime

HOUSTON, May 11. (AP)—The Texas prison board as a whole is unanimously in favor of continuation of its present policy of giving prisoners overtime to shorten their prison terms, Dr. S. M. Lister of Houston, a member of the board, said today.

Dr. Lister said he and other members of the board are very much distressed over a recent ruling that no more overtime could be given the prisoners.

CLAIMED BY DEATH

MONROE, La., May 11. (AP)—Mrs. Elizabeth Smith Wills, 59, president of the Louisiana synodical of the Presbyterian church for many years, died today after a long illness. Funeral services will be held here tomorrow, with interment Friday at Corsicana, Tex., where Mrs. Wills had lived before coming here 14 years ago. Survivvors are her husband and a daughter, Mrs. Leon Carroll, Tyler, Texas.

Pompoon Beaks Handicap Mrk

BALTIMORE, May 11. (AP) Pompoon, returned to the track where he ran the great War Admiral to a head decision in the 1937 Pimlico, turned in the finest race of his brilliant career today, whipping 11 other turf titans with a track record smashing performance in the 34th Dixie handicap at Pimlico.

Flying the silks of J. H. Louchheim of Philadelphia, the son of Pompey reeled off the mile and three sixteenths in 1:56 4-5, under 118 pounds, clipping three-fifths of a second off the track mark.

At the finish Pompoon had four lengths to spare over Mrs. P. de Lee Watts' Busy K. Masked General, Donald Ross' son of Pompey, lost runner-up honors in a photo finish while J. A. Manfuso's Aneroid was only another neck back in a blanket finish for second honors.

Two Minor Auto Accidents Are Reported On Wednesday

None were injured seriously in two minor automobile accidents in Lubbock Wednesday afternoon and night, according to reports at police headquarters.

One of the accidents was at Fifteenth street and Avenue U at 7:45 o'clock Wednesday night when Thurman White, 25, of 1613 Fifteenth street was driving west on Fifteenth street in a light coupe and Miss Jeanette Watson of 2511 Twenty-second street was driving north on Avenue U in a heavy sedan, reports said.

Melvin Alvey and O. E. Rush of the police department investigated.

An automobile driven by Louis Murfee, jr., 17, of 1615 Seventeenth street was in collision with a car parked in the 1400-block Nineteenth street at 5 o'clock Wednesday afternoon. The accident happened, according to police, when Murfee passed a wagon. Both he and the wagon were going east on Nineteenth street.

Ralph Goldwater and W. J. Tucker of the police investigated.

Man Declares He Did Not Know That He Had Shot His Friend

CORSICANA, May 11. (AP)—Jim Garrison testified today he did not know until the next day that he shot his friend, Aube Washburn, on Christmas eve of 1934.

On trial charged with the slaying, Garrison said he fired at what he thought was a masked man, armed with a knife, advancing toward him. He believed at the time that he was firing at someone else, with whom he had experienced a difficulty, Garrison testified.

Washburn was shot to death at Garrison's dinner table.

Hockley County Board Will Hold Open Session Tonight

LEVELLAND, May 11. — The Hockley County Board of Development will hold an open meeting Thursday night in the district courtroom for a discussion of progress being made on highway 51, a north and south highway.

Development of oil fields in Hockley and also Cochran and other counties has increased the interest in a north and south road. The Texas highway extends from the state line north of Dalhart, through Hartley, Old Tascosa, Hereford, Littlefield, Levelland, Brownfield and to Odessa, where it branches into the Big Bend country.

Executives Are Undecided On Paying Of Field Workers

HOUSTON, May 11. (AP)—Executives of Texas' major oil companies today studied field pay rolls to determine whether to pay workers their salaries during the Saturday and Sunday shutdowns ordered by the Texas railroad commission.

The practice in the past has been to pay the salaries during the Sunday shutdowns but the added day had the paymasters puzzled.

Walter Pyron, vice president of the Gulf, said his company had come to no decision. Executives of other companies, Humble, Shell and Texas company, said the suddenness of the order caught them unprepared and they had not come to any decision regarding the pay of thousands of workers in the fields.

The added day's pay would run into thousands of dollars if the oil companies decided to continue paying field workers.

Shriners Plan For Big Time

GALVESTON, May 11. (AP)—Red fezzed Shriners will take over Galveston and its oleander-lined thoroughfares May 13 to 15, for their annual All-Texas Shrine ceremonial. Gaily-colored Shrine banners will decorate streets of the business section and many blocks of the Broadway esplanade, one of the main arteries connecting with the beach front center.

Upon arrival each unit will march to El Mina shrine temple for registration. Degree work will occupy the Friday night ceremonial session and Saturday morning the uniformed bodies will execute drills on Seawall boulevard with the white-capped water of the gulf and beach front palms and cleanders for background.

Parade Scheduled

The public spectacle will be the parade Saturday afternoon with 1,500 members of the uniformed units from the several Texas temples in line of march. Eight bands, nine patrols, six drum crops and four sets of chanters will be included. Guests will dance Friday night at the three beachfront ball rooms overlooking the gulf.

The Masoat temple delegation from Wichita Falls, headed by Kindel Paulk, president of the all-state Shrine ceremonial association, will reach Galveston first. Other temples sending delegations are: Hella of Dallas; Ben Hur of Austin; Moslah of Fort Worth; Arabia of Houston; Alzafar of San Antonio; Karem of Waco, and Khiva of Amarillo.

Vocational Aggie Students To Present Play Tuesday

"The School at Cantaloupe Center," a three-act comedy drama, will be presented by vocational agricultural students of Roosevelt Rural High school in the auditorium there at 8 o'clock Tuesday night, according to announcement Wednesday by Roy F. Monk, vocational agricultural teacher.

The play will have 15 characters. Female roles will be played by boys. Proceeds from a 10-cent admittance charge will be used for purchase of a first aid kit and to build a reserve fund for members of the Roosevelt chapter of the Future Farmers of America who will leave May 25 on an educational tour to California.

Monk is director of the play.

State And County Tax Rolls For 1938 Being Completed

The 1938 tax rolls for the state and county and the Lubbock independent school district are nearing completion, according to information obtained from tax officials Wednesday.

Assessments for the city tax roll also are in progress but will not be completed for several weeks. The city tax rate usually is not set until several weeks after those of the state, county and school district have been established, it was explained.

First meeting of the county equalization board, who are members of the county commission, is scheduled late this month.

Texas-New Mexico Utilities Company

Man's Claim Of Job Is Denied

AUSTIN, May 11. (AP) — A workman who said his employer promised him a lifetime job if he would not file a compensation claim, then fired him some eight years later, was told by the supreme court today that he had no recourse.

The case was that of W. N. Woolsey vs the Panhandle Refining company, appealed from Wichita county. The alleged lifetime employment contract between Woolsey and the company was void, the court said, because injury settlements must be approved by the industrial accident board in order to be valid.

"It may be true," the court wrote, "that by refusing to enforce this contract an injury may result to the plaintiff. However, refusal to enforce the settlement involved here will be far less disastrous to the great army of employes under the workmen's compensation statute than to hold that under the law an employe and employer can contract away the rights of an employe.

"In line with the universally accepted rule, this court repeatedly has refused to enforce contracts which either are expressly or impliedly prohibited by statutes."

The court emphasized that the statutory requirement that injury settlements must be approved by the industrial accident board was for the protection of the worker.

Woolsey said officials of the refining company persuaded him against filing a compensation insurance claim on grounds that if he did so its insurance rates would be increased materially.

Reduction In Number Of Auto Deaths Seen In Pennsylvania

HARRISBURG, Pa., May 11. (AP)—A 37.9 per cent reduction in the number of automobile deaths in Pennsylvania during the first three months of 1938 as compared with the first quarter of 1937 was credited by state officials today to enforcement of traffic laws and a highway safety campaign.

There were 53 fewer deaths in January, 46 fewer in February, and 99 fewer in March than in the corresponding months last year.

Examination For Licenses Is Held At Short Course Here

A three-day milk sanitarian short course at Texas Technological college, which had attracted 36 milk inspectors and health officials besides dairy manufacturing students at the college, ended with an examination for registered milk sanitarians' licenses Wednesday afternoon.

W. E. Roberts, milk sanitarian of the state health department, directed the written examination. Eighteen examination papers turned in by milk inspectors and several Tech dairy manufacturing students will be taken to Austin to be graded by someone designated by the milk committee of the Texas Public Health association. Most men taking the examination were milk inspectors. General health officials of cities, counties, and districts over West Texas had attended the course, in addition to the inspectors.

Lubbock Siege Guns Batter Out 19 To 14 Win To Hold League's Top Rung

Six Circuit Clouts, Four Doubles And Triple Hit; Wink Holds Tie Role By Walloping Big Spring

Long-distance hitting got the Hubbers through to another victory Wednesday afternoon at Parris field as they clubbed out six home runs, four doubles, and a triple to beat Midland, 19 to 14.

It was the second win of the series for Lubbock. The third game will start at 3:30 o'clock this afternoon. Lefty Blanchard probably will hurl for Lubbock. Frank Nelson will start for Midland.

Al Carr and Malcolm Stevens continued their powerful slugging and other members of the club followed suit. Carr ran his string of circuit wallops into the fifth successive game with a pair over the rightfield fence Wednesday. Stevens, Pope Mize, Boyd Watkins, and Bob Hillin each hit one.

Carr On Homer Spree

Carr's phenomenal home run spurt started Saturday at Big Spring. Stevens has hit six since Friday's contest on the Baron diamond.

Charley Bryan started on the hill for Lubbock and held the visitors to a single safe hit in four innings, but a cramp in his wing forced his retirement in the fifth after the Cardinals had found the range against him. Kasimir Kaliski relieved him and fared poorly lasting only one round.

Marvin Gramly silenced the Redbird bats somewhat until the eighth and Johnny Taylor was brought in from third base to pitch. He gave up two successive hits then struck out Larry Battle and Jimmy Morris to end the eighth. After Nelson's double in the ninth, Taylor retired the Cards in order.

All Take Hand

The Hubbers started their scoring in the first stanza and counted in every inning except the eighth. Boyd Watkins bounced a hit into centerfield in the second that took a high bounce over Buzz Brown's head. Stevens scored ahead of Watkins who circled the bases for a homer in the park.

Manager Hack Miller walked before Stevens homered in the third. Carr opened the fourth with his first roundtrip blow, then Mize hit his after Taylor had grounded out.

Joe Gedzius was aboard following his and Hillin's doubles in the sixth to set the stage for Carr's second home run. Hillin got his in the seventh with Watkins on the paths.

Mize Leads Hitters

Brown and Del Ballinger joined the home run brigade in the fifth. Brown's blow sent Bryan to the bench and Ballinger's came off Kaliski.

Both teams erred frequently and a high wind toward the last of the game made fielding difficult.

Mize had three singles to run his total to four-for-five to lead the Hubbers at the plate. Tommy Warren, Card relief hurler, collected a double and a brace of singles in three trips and Battle had three hits in six times at the platter.

Mild Confidence Felt By Louis

By PAUL MICKELSON
Associated Press Sports Writer

NEW YORK, May 11—After 15 minutes of coaching by his handlers and sly Mike Jacobs in the promoter's front office, sleepy-eyed Joe Louis was ready for a candid interview.

Yanked out of bed at 8 a. m., four hours earlier than usual the heavyweight boxing champ yawned and stretched like a tired hound dog.

Then he invited reporters to fire away with emphasis on Max Schmeling, the man he hopes to make into a sucker when he defends his title come June 22.

Q. Is it true—as Schmeling is going around saying—that you still haven't shaken off a fear of him and his right hand?

No Fear Left

A. I had a long time to shake off them fears. It's almost two years since he done licked me and I got six more weeks to shake off scared stuff. Maybe I shake it off on him.

Q. Hear what Max is saying—that he softened up Harry Thomas for you?

A. And maybe Thomas softened up him for me, too.

Q. Joe, do you see "some zings" like Schmeling always does?

A. Yuh, I see sumpin', too. And maybe so will he.

Q. Want to name the round?

A. No, suh, but you can bets all the money you got the fight ain't a gonna last as long as the other. Either me or he will drop early. They ain't gonna be no decision. All the judges can stay home that night. My lucky round always been five and six.

Mistake Was Entering Ring

Q. What was the biggest mistake you made when you fought Max?

A. Getting in the ring with him. I trained all right and didn't do no wrong but I keep my left hand too low so he can crack me on the chin.

Q. How about Max's statement that you're not the fighter you were—that you've gone back?

A. No man, I am not going to be the fighter I was when he licks me. I gonna be much better. I gone back? Wal, I won the championship and I just guesses that's most I can do now.

Spudders Make It Two In Row Over Barnabemen, 13 To 7

WINK, May 11. (Special)—Wink made it two straight over Big Spring here tonight by winning the second game of the series 13 to 7.

Lucas, rookie lefthander, held Big Spring to five well scattered hits for 8 innings, giving way to Red Hay after retiring first batter in the ninth. Errors marred the Spudders' play and were only reason for Lucas ever getting in trouble.

Wink gathered 14 hits off Douglass Harkey. He issued nine free passes. Ernst Jupela had a perfect night at bat with a trio of singles, a double and two walks.

Hobbs Edges Clovis In 8 To 7 Game

HOBBS, N. M., May 11. (Special) Wind, rain and errors combined today to give the Hobbs Boosters an 8 to 7 win over Clovis in the West Texas-New Mexico league.

Although the Cowboys outhit the Boosters 16 to 9, five errors proved costly, especially in the fifth inning when Hobbs scored four runs on three hits, a walk and three errors to gain a lead Clovis never overcame.

Hargroves' home run with a mate aboard put the game away in the sixth, although Clovis rallied in the eighth to put over three runs.

Despite inclement weather, the game was played in an hour and thirty minutes.

Cooper Ball Club Plays At Dallas

DALLAS, May 11. (AP)—Schoolboy baseballers from all parts of Texas start here tomorrow a Texas high school tournament which sponsors hope will lead to an organized interscholastic league.

Eight picked teams, invited by the Dallas Municipal Athletic association after elimination tournaments, will compete in the three-day event.

In the first game tomorrow, Hondo meets Wilmer-Hutchins. Dallas county champions. Other games tomorrow have Cooper, Lubbock county, meeting Merit; Hillsboro vs. San Augustine and Dallas Tech vs. Pharr-San Juan.

Final game will be played Saturday afternoon. Trophies also will be awarded to the runner-up and consolation winner.

Here Are Two More Reasons For Hub Wins

Below are two of the class pitching sisters that have shoved the Lubbock Hubbers to the pinnacle of the West Texas-New Mexico league. Pope Mize, brother of the famous Johnny Mize, homered Wednesday and has been tough on hurlers all season. He is pictured above. Below is Lefty Blanchard, only leaguer member to hurl a hitless game. He probably will start against Midland this afternoon.

Andy Tremaine Pins Bob Cummings In Two Straight Falls To Capture Main Event

Andy Tremaine ended Bob Cummings' main event winning stretch at one last night by pinning the San Franciscoan in double-quick time.

It required only two falls for the former University of Arizona thunderbolt to nick Cummings. It looked for a while in each fall that Bob might take things into hand, but the lithe Tremaine saw fit to change proceedings at opportune moments.

The winner wrapped a head scissor on Cummings and slammed him all over the canvas to take the first fall in 17 minutes.

Cummings made a mistake in thinking he had addled the Arizonan in the second fall which proved disastrous. He slammed Tremaine around the ring, doused him into the resin with his Sabbath pile driver, and generally mistreated him.

Andy sidestepped as Cummings came in for another stem which was the beginning of the end. Tremaine did a little mauling on his own hook, then fell on Bob for the fall.

George Hartay fought an uphill battle to gain a draw with Dilly Davis in the semi-windup. Davis slugged and gouged and used the ropes to advantage.

Crowd Gets At Referee

The crowd got at the referee's throat throughout the match, begging a square deal for Hartay. The squatty Hungarian braved the onslaught and applied some of favorite holds but could not pin the Houston redhead.

With Davis resorting to the rough tactics the match appeared a little onesided in favor of him, but Hartay stayed all the way despite illegal practices.

The referee and Buzz Reynolds won the opening bout from Carl von Bromberg. Reynolds cuffed the Teuton around a bit, the referee fell on him, and by that time he was gone. Reynolds pinned him in 13 minutes.

Boy Scouts were guests of the management.

Yankees Displace Sens In First Place; Giants Annex Their Fifth In A Row

(By The Associated Press)

WASHINGTON, May 11. — The Detroit Tigers, behind 7-hit pitching by Vernon Kennedy, chased the Senators out of first place today, winning 4 to 1.

New York moved into the league lead by defeating Cleveland.

Kennedy's fine pitching snapped Washington's winning streak of 7 straight games.

The Tiger hurler had a shut out until the ninth, when Stone doubled and scored on Myer's single.

Detroit scored all of its runs after two were out in the second inning.

Three double plays helped Kennedy.

Yanks Win Seventh In Row To Down Indians

NEW YORK, May 11. (AP)—The Yankees stretched their winning streak to seven straight today with a 4 to 1 victory over the Cleveland Indians, on the strength of their extra-base hitting power and a classy pitching performance by young Spud Chandler.

It was the first meeting between the two clubs this season. The win sent the Yankees into first place in the American league.

The Yankees connected for 10 hits, good for 19 bases to beat Mel Harder and take the decision. Young Tommy Henrich hammered his fifth homer of the year and Red Rolfe tilled his first of the season into the right field stands.

Indian Maiden Showing Way

ALBUQUERQUE, N. M., May 11 (AP)—A slender, dark-haired Albuquerque miss, just out of high school, paced a field of 62 here today in the qualifying round of the eleventh annual Southwestern women's golf tournament.

Carding an eight-over-par for 18 holes on the tricky Albuquerque Country club layout, Miss Elinor Jones, 18, came in two strokes ahead of Mrs. R. D. Roper of Phoenix, Ariz., the defending champion.

The rest of the field was spread-eagled well behind, with Mrs. J. P. Turner of El Paso, scoring an 89, the only other contestant to crack 90.

Mrs. Dean Playing

Sixteen players, with medal scores of 101 or better, qualified for the championship round and will begin 18-hole match play tomorrow. Sunday's finals will be over the 36-hole route.

Miss Jones drew Mrs. Paul Price of El Paso as her first round opponent.

Mrs. Price was bracketed with Mrs. C. L. Dean of Lubbock, Tex., and Miss Elaine Palmer of Phoenix at 101 in the qualifying round, but the latter was eliminated from the championship flight in a three-way playoff.

Mrs. Roper was paired with Mrs. Dean.

SECOND SHUTOUT HANDED

SHREVEPORT, La., May 11. (AP)—The Shreveport Sports combined long-distance hitting with good pitching and beat the Oklahoma City Indians, 4 to 0, for their second shutout victory in two days over the visitors.

Upsets Lacking In Southern Golf Play

(By The Associated Press)

BIRMINGHAM, Ala., May 10—After a day of sharpshooting over the hazardous course of the Birmingham Country club, the Women's Southern golf championship entered the quarter final round without anything resembling an upset.

Leading the parade into the third round were Miss Dorothy Kirby of Atlanta, defending champion, and her victim of a year ago, Mrs. Estelle Lawson Page, of Chapel Hill, N. C., the national title holder but never winner of her section crown.

Two Texans Left

Miss Kirby defeated Miss Joy McCann of Montgomery, Ala., 5 and 3, but Mrs. Page was carried to the 16th green before triumphing, over Mrs. Sam Israel, jr., of New Orleans, 3 and 2.

Winning by the same score was Miss Marion Miley of Kentucky, who was forced to the 16th hole by Mrs. David C. Gaut, of Memphis. Mrs. Frank Goldthwaite of Fort Worth, Texas, 1933 champion, ousted Miss Jane Cothran of Greenville, S. C., as they reached the 16th green, by the 3-2 margin.

Mrs. Mark McGarry of St. Petersburg, Fla., the 1936 victor and Miss Betty Jameson, 20-year-old San Antonio star who triumphed at the age of 15, survived the rough going.

Grimes Hasn't Let Down At Baiting Umps, He Says

CHICAGO, May 11. (AP)—The umpires—and you'll be shocked to learn it's Boiling Boily Grimes speaking—are "catching on to me."

No one would expect such a statement from the manager of the Brooklyn Dodgers, who won the national league umpire baiting championship last season by getting himself booted out of 11 games. But Burleigh, who has been kicked out of only one contest so far this season, has heard reports that he's slipping.

"When I say the umps are catching on to me I don't mean I'm any different kind of fellow than I ever was," said Boily. "What I mean is that some of those young umps who didn't know me, and the kind of ball I play, are beginning to learn that I'm out there fighting for all I can get, all the time, and not just trying to make trouble.

"When I took over this team the Dodgers had a reputation for being dumb and lacking aggressiveness. We've been building a hustling, fighting team and right now we're no setup for any club."

SOME GUY, GODEKE

Dick Godeke of KFYO team fanned 16 men Wednesday night and knocked a homerun with two on in the sixth inning to win his own game from the Good Eats club, 5-2. Bernie Howell was the receiver. Graham was on the mound for Good Eats with Harris catching.

Dedication For Yearbook Held

By FRANCES BENTSEN

Picture On Page 1

Climax of Lubbock Senior High school activities for 1938 came Wednesday at a dedication program of the Westerner, school yearbook, in the school auditorium.

E. J. Lowrey, history teacher there since 1922, was presented with the first copy of the annual after having learned only a few minutes before of its dedication to him.

Until Lowrey was named in the dedication speech by W. C. Estes, Westerner business manager, only the annual staff knew to whom the book was dedicated.

Two Brief Skits Given

The program opened with two brief skits from the junior class play, "Huckleberry Finn," to be presented Friday night. Estes and Watson Carlock, annual editor, then took charge as co-masters of ceremonies, presenting Neil Armstrong and his orchestra, with Brunette Beard singing the Westerner theme song. Senior Editor Walter Studhalter spoke briefly on the theme chosen for the new yearbook, hobbies. Estes introduced members of the staff, who were seated on the stage, and reviewed the life of the man to whom the annual was dedicated, while Neil Armstrong played background piano melodies.

After the program was concluded, students rushed to the principal's office to receive their copies of the Westerner.

Description Of Book

The 1938 Westerner is bound in pebble-surfaced brown leather, and printed in brown on cream paper, with orange borders. The cover, showing two hobby horses beneath the word Westerner printed in an orange semicircle, was designed by Junius Young, high school student. The hobby theme is stressed throughout the book, the frontispiece and section first pages showing snapshots of hands at various hobbies, such as tennis, photography, and knitting.

This year for the first time, according to Mrs. Ross Ayers, faculty sponsor, faculty members, including the superintendent and principal are shown in informal shots. The issue also includes more snapshots and individual class pictures than before, two pages for autographs, and the entire senior class role.

Annual staff members presented Wednesday were: Onita Belle Hufsteiler, assistant editor; Studhalter, senior editor; Betty Jean Jones, junior editor; Bernice Keeton, sophomore editor; Joe Jones and Robert Allen, sports editors; Shirley Parsons and Betty Burke, organizations editors; Roger Kuykendall, business manager; Jane Ann Floyd, Bud Kennedy, Eugene Gause, Mary Clare Barnett, Mable Pruett, Marian Hope Read, Sara Daviss, Marjory Sneed, Billy Power, and Junius Young.

Came Here In 1922

Lowrey, chosen for the dedication honor because of his great popularity with the student body, received his B. A. degree from Texas Christian university in the spring of 1922, and that same year began teaching in Lubbock High school, from which he had graduated four years before. He was instrumental in organizing the Athletic council in 1922 and has had an active interest in school athletics since.

The junior play will be presented in the high school auditorium at 8:15 o'clock Friday night. Cast includes Ben Alexander, Mary Webber, Jacqueline Davis, Zoe White, Sara Starnes, Joe McCraw, Roberta Ellison, Helen Jarrott, Jack McIlroy, and Emory Payne.

Take Their Own Word For It--The Famous Keys Quadruplets Are 'Just Plain Girls'

BY FUTRELLE McCLAIN

Aw, they are just four girls after all, Mary, Mona, Roberta, and Leota Keys. They, the Keys quadruplets, of Hollis, Okla., sat in the office of the Palace theater a few minutes after their arrival in Lubbock Wednesday and chatted with theater employes and a reporter. They are in a stage program at the theater Thursday.

They were human enough to forget to put a nickel in the parking meter in front of the theater. It is getting to be a habit of theirs, according to Leota. She said they got a ticket recently for such an omission.

Didn't Have To Pay

They didn't have to pay though (they laughed at that) for when they found police headquarters the judge said he just wanted to see them.

Leota was spokesman.

All reporters want to know who is the oldest. Roberta is the answer to that one. She and Mona are "identical twins", according to studies made at Baylor when they were enrolled in a genetics class.

"We were treated just like guinea pigs", Leota said.

Mary and Leota are as much dissimilar to each other as they are to the "twins".

"Just Came Along"

"We just came along with Mary and Roberta," they said.

The girls are staunch admirers of the Dionne quintuplets, whom they visited two years ago. The Texas Centennial exposition sponsored the trip to Canada, as a publicity stunt. The quads "just adored" them. They thought the quints "just normal healthy little girls."

The Keys quadruplets are like other college graduates in that they recall fun they had at Baylor.

"We are still living in the past" said Mona. They graduated from Baylor last year.

They had a "terrible time" convincing the boys at Waco that "a date with one was not a date with four."

Dress Alike Always

They dress alike, always. They don't have any more trouble "deciding what to wear than any one girl." Their difficulty comes in selecting clothes that are becoming to three types.

Their plans for next year are not definite. All have prepared to teach but apparently are lukewarm toward it. At present they are "just having fun, and working some".

They are not "much concerned with marriage." The question of finding four boys at the same time sounds a "little silly" to them. They like to sing and to play. They "don't like to go to bed or to get up." It was "pretty difficult" when Mrs. Keys got them up at 6 o'clock Wednesday to get them off on their trip to Lubbock, they said.

Junior Class Play To Be Given Friday

Left to right are Ben Alexander, Joe McCraw, Jacqueline Davis, Mary Webber, and Emory Payne, members of the cast of "Huckleberry Finn", junior class play to be presented in the Lubbock Senior High school auditorium at 8:15 o'clock Friday night.

Earnest Colquitt McCasland Charged With Forgery Here

Earnest Colquitt McCasland, 25, of Wasson, Wednesday was charged in United States district court with forgery of a United States postal money order for $7.50 at Seminole April 23.

Arrested Tuesday by C. E. Luce, U. S. deputy marshal, McCasland Wednesday was arraigned before Mrs. Olive Fluke, U. S. commissioner, and bond of $1,000 was set upon the man's plea of guilty.

McCasland was transferred to the Potter county jail at Amarillo by Luce. W. M. McMillan, postal inspector, swore to the complaint.

A 21-year-old Mexican entered a plea of guilty to a charge in corporation court of theft of a case of soap and was fined $55. He had been arrested by Roy Sanford, police patroiman.

Theft of a tire and wheel in the 600-block Sixteenth street was reported by J. E. George to police.

RITES SET TODAY

DALLAS, May 11. (AP) — Funeral services will be held at Fort Worth tomorrow for Truman Newton Edgell, 86, for many years a railway express company employe and active in Masonic circles. A former resident of Fort Worth, San Angelo and Texarkana, Edgell died today after an illness of several months.

Slaton Band Is To Present Concert Thursday Night

(Special To The Avalanche)

SLATON, May 11. — Slaton band mothers are sponsoring a concert Thursday night at the athletic stadium to raise money for a trip for the band to the state contest at Abilene May 19-21. The Tiger band recently won highest honors in its group at San Angelo.

Contest pieces and march numbers are to be played. The march numbers will be shown to give the parents and friends an idea of how the band appears in contests.

A Tiger queen is to be crowned during the program.

Clyde Rowe is director. The band has a membership of 70.

A bicycle parade is to be held during the program. Prize of $1 will be awarded the boy with the best decorated machine.

"That's why I own life insurance . . . to give my wife and children at least a measure of security, no matter what happens.

We'll Hope For The Best

WITH the nearer approach of the primary elections, people of Texas will hear in steadily swelling volume the promises by candidates that if they are elected, there will be economizing in their departments.

Those promises are nice to hear and for the moment seem a pleasing prospect. People will hope for the best even though they know from experience that the cost of government will continue to be about what it has been; that if there is any revision in cost, it will be upward and not downward. Actual economizing in government seems to be one of those tomorrows which never comes.

The office holder cannot be blamed too much when he fails or is unable to deliver on his promises of economy. He is at fault, of course, in failing to carry out his pledges, but it is a human fault for which allowance should be made. He merely discovers, following his victory, that promises are easier to make than to keep.

When he gets in office, he discovers that the most effective economy would be by cutting payrolls and eliminating useless and duplicating jobs. But everytime he fires someone, he will do so with the realization that he is making a political enemy of someone who wouldn't be holding a job in the first place if he did not have a degree of influence. And a successful politician can't make too many enemies and remain in office.

The time may and probably will come when someone will reach high office and actually will make an honest effort to slash the costs of government. It could be done. But the man who does it will have to act without thought of his own political future.

Yes, We Are Very Fortunate

CITIZENS of this nation are inclined to take their liberties and privileges so for granted they find it difficult to imagine the realities of the existence of the peoples of less fortunate countries.

Occasionally, however, incidents occur even in our own land which tend to drive home to us that we are indeed a fortunate people. One such incident occurred a few days ago in Sacramento, Calif.

Living in and about that city is a considerable Chinese population, nearly all of them the second, third or even fourth generation in the United States. They have been permitted to provide refuge for 16 Chinese children orphaned by war.

The refugees speak no English. And strangely, many of our native Chinese can't speak Chinese. So, the other day when a formation of airplanes flew over, no one was at hand to explain to the children what was happening.

News accounts related that the young arrivals were taking no chances. They disappeared like a covey of young quail. Some were so securely hidden that hours elapsed before they were found.

Even after reassurances, the youngsters refused to be satisfied. They still are inclined to be panic stricken when planes fly overhead. They can think of airplanes only in terms of bombs, death and destruction.

Their psychology emphasizes the psychology of the average American, to whom the airplane merely is an implement of speed and progress—not one of horror. Their fears, however, serve to remind us what airplanes might do to our own nation if they were used as agencies of destruction instead of construction.

CAST OF CHARACTERS

JACKIE DUNN — heroine; she wanted to fly.

ROGER BRECKNER — hero; he wanted to test the stratosphere.

BERYL MELROSE — wealthy widow; she wanted Roger.

EVELYN LA FARGE — Jackie's mother; she wanted a son-in-law.

* * *

Yesterday: Jackie is stunned to find Roger with Beryl Melrose at the Colony Restaurant. The she realizes that Beryl is Roger's backer. Her mother warns her of difficulties.

CHAPTE VIII

Jackie knew that her mother had not meant that she ought to try to stop Roger from making his stratosphere trial flight because of the danger and risk involved. Jackie did not know anything about that. But she did understand human nature. And the danger involved when another woman came into the picture especially such an exceptionally attractive woman as Beryl Melrose.

It was Roger who phoned Jackie that next day to ask her to postpone her flying lesson once more. He told Jackie that the plans for his flight were practically "in the bag." He seemed so steamed up about this that his conversation had been almost incoherent and decidedly sketchy.

It was only afterward that Jackie realized he had not mentioned the fact that he, too, had gone into New York the day before. He had not said a word about having lunched at the Colony.

Not that she cared. Jackie told herself rather more emphatically than was necessary. Not that it was any business of hers where Roger went or with whom he lunched. Their engagement was only a farce anyway.

But he had not said when he would be able to give her her lesson or when he would see her, or anything. He had merely mumbled something about "tied up for a while—Jackie supposed that meant more lunches with Mrs. Melrose—and ended with a vague "I'll be seeing you."

Several days had passed and he had not called again. They were the longest, dreariest days Jackie had ever known. Oh, the sun was shining brightly enough. To Jackie it was. There wasn't a cloud in the sky. Perfect flying weather. Which, of course, was teh only reason why Jackie sat around the house waiting for the phone or the doorbell to ring. She supposed when Roger got time to give her another lesson the sky would start to rain cats and dogs. It was enough to make anyone feel low to have to miss the heavenly spring days that should have been spent trying one's wings instead of cramped up indoors.

* * *

Finally Jackie could not stand it any longer. She decided to drive to the field, even though Roger had not given any signs of being alive or of remembering that she was. Maybe, since she was soloing now, she could take the ship up even if he was not there. If so it would not make the slightest difference to him, whether he was or not.

Which was rather a contradiction, considering the way her heart leaped into her throat and her pulses started racing madly the moment she saw him. He was standing by the side of a plane, a silver ship that Jackie did not remember ever having seen at the field before, talking with someone. It wasn't until she was within hailing distance—and had made a "mistake" of calling his name— that Jackie realized a second later the person he was talking with was Beryl Melrose.

Jackie would have gone on into the hanger, but Roger motioned for her to join them. "I want you to know Jackie Dunn, Mrs. Melrose," he said, adding his engaging grin. "Jackie's one of my best students; she's nuts about flying. And—" his grin broadened as he gave Jackie an open and knowing wink, "incidentally Jackie and I are engaged."

"I am very glad to know you indeed," Beryl Melrose said cordially, extending her hand. She was even more attractive than at a distance. She had the most beautiful big brown eyes Jackie had ever seen. Her skin was like a gardenia petal. But what Jackie noticed and envied—most of all was her poise.

For some reason Jackie felt all tongue-tied as though she did not know what to say, or how to act. Maybe it was because of Roger's remark about their engagement. Jackie felt she could have slain him right there for making it. Certainly that wasn't at all necessary. If Mrs. Melrose had seen it, what on earth would she think?

* * *

Roger seemed to have forgotten that he had promised to see this enterprise through to the last detail and that they had agreed they must keep it before other people.

"Sorry I haven't had time to phone you," he said, making matters worse instead of better. "Haven't we been busy, Beryl?"

"Busy already! They've been spending a lot of time together. "I've been busy myself," Jackie said glibly. Busy doing nothing. Which had been the hardest thing she had ever tried to do, Jackie forget it. Roger—and in the meantime being so busy that he couldn't even phone"

was an example of beautiful [illegible] she hoped was not [illegible] Mother will expect you at the announcement party a week from next Friday."

It was the fact that Jackie had told her they could not make any definite plans until after Roger's flight Beryl had gone ahead with her plan for a big party, a dinner and dance with over a hundred guests. It would be bad enough anyway, but if Roger did not show up, it would be a farce.

"Why don't you come, too?" Jackie asked on a sudden impulse, addressing Mrs. Melrose. She would show Roger that she did not care how much time he spent with some other girl. "We would like very much to have you," she added trying to make her voice sound as though she really meant it now. "Of course I'm pleased," she made another attempt. What on earth was wrong with her? Anyone would think she didn't want Roger to have his big chance! "I think it's wonderful," she ended, but somewhat lamely.

It would have been, if for some unknown reason Beryl Melrose had not taken all the joy out of it.

Building Permits Are Issued For Residences Wednesday

Building permits for two new residences added $7.300 to new construction totals Wednesday to continue the remarkable residence building pace Lubbock has maintained for more than a year.

The permits were to F. K. Mitchell for a residence and garage costing $3.800 at 2520 Twenty-first street and to A. A. Marchant, owner, and E. R. Little, contractor, for a residence costing $3.500 at 1928 Twenty-sixth street.

New construction totals for the week were increased to $26.054, for the month to $57.595 and for the year to $818.850.

A dispute between Britain and France over the occupation by French troops of Fashoda, a town in the Egyptian Sudan, nearly provoked war between the two countries in 1898.

The News Behind The News

WASHINGTON
By Ray Tucker

AMERICAN pacifists' powerful lobby on Capitol Hill has had the effect of darkening the prospects for world peace. The well-meaning promoters are actually aiding the very nations assailed by the President as "aggressors who should be quarantined."

It was their political pressure which drove the administration to application of a neutrality embargo in Spain, thus depriving Loyalists of arms and bolstering the Franco-Hitler-Mussolini cause. The latter's eventual triumph will tend to strain European relationships despite Chamberlain-Mussolini moves to ease them. In the Far East the pacifists' program has benefited Japan. For fear of stirring up the peace groups and precipitating another Senate inquiry the dealers in death will not sell to Chinese agents in this country. The latter will pay cash on the barrel, but it's no sale. Meanwhile, Japan buys scrap, even government ships, as raw material for bullets and shells.

Chinese representatives have privately informed Washington that they need only supplies to rush the Japs into the sea. Chiang Kai-shek's man power is almost inexhaustible (he has five soldiers for every rifle in the Shantung area) but the munitions leaking in from Europe, including Germany, are not sufficient. He insists he could end that particular war in a hurry if it weren't for the professional "peace people" in America.

* * *

EFFECTS: Conscientious Congressmen scanning the political skies for signs of President Roosevelt's status with the "peepul" aren't so sure that they got their answer in the Florida primary results. Nor are the New Dealers themselves.

Though New Dealer Pepper won a smashing victory, closer scrutiny suggests that local issues affected the result more markedly than first appeared. As a Miami man, Opponent J. Mark Wilcox has always run as a rampant wet, a bitter foe of the Townsend plan. In moneyed and moonlit Miami his attitude on these subjects strengthened him. But in a statewide campaign he ran up against elderly white-ribboners by the thousands waiting for this chance to show what they thought of him. His opposition to the Florida ship canal also hurt him in the populous northern section. Meanwhile, Mr. Pepper promised to raid the Treasury if reelected.

It's these considerations which stir skepticism over the meaning of the Pepper parade. Nevertheless, the latter's tremendous vote will have a psychological, pro-Roosevelt effect in sections of the country where some of the underlying reasons for the Senator's walkaway aren't known in detail.

* * *

VACANCY: President Roosevelt's three-year delay in naming a Budget Director operated in his favor for a while. It permitted him to dominate this fiscal office through the obliging Henry Morgenthau and the latter's aide, Acting Budget Director "Dannie" Bell. But now the trick has been turned against the White House.

G-man J. Edgar Hoover has publicly charged that budget cuts in his appropriation have weakened the government's drive against criminals. Mr. Hoover even laid the blame for an agent's death at the Budget Bureau's door. That indictment has provoked caustic editorials and criticism from civic organizations. Latest to assail budgetary economy is Foreign Trade Chief A. V. Dye, a Roper assistant. He insists that Morgenthau-Bell economy blocks expansion of foreign commerce, thus drawing the fire of industrialists and exporters.

So far neither Mr. Morgenthau nor Mr. Bell have opened their lips in defense or explanation. The situation might be different had Mr. Roosevelt named a man of courage and prestige to the budget post. Government subordinates would be less ready to thumb their noses publicly at him, and if they had he would have put them in the doghouse. They didn't grouse, at least not in the headlines, when Charles G. Dawes swung the financial ax over their heads, and Calvin Coolidge backed him up.

NEW YORK
By James McMullin

JESSE JONES is going to rescue the railroads—again. That's the real story behind the Truman amendment to broaden the powers of the R.F.C. to make loans to the carriers.

For some months the government's policy toward the ailing industry has been teetering in the balance. One school of Washington thought wanted to allow economic nature to take its course—putting the roads through the reorganization wringer as fast as they proved unable to meet their obligations unaided. Another group—including Mr. Jones favored keeping them afloat with R.F.C. funds in the hope that somehow, some day, traffic will increase enough to put them back on their feet. Advocates of the latter course have now definitely won out.

This probably means no more rail receiverships for the balance of the year at least. But it doesn't bring a permanent solution of the railroad problem one inch closer. If anything, the riding over policy will have the opposite effect by increasing the mountain of debt to be faced when the inevitable day of reckoning arrives.

* * *

STRETCH: Some of the provisions of the Truman amendment to the R.F.C. Act are a bit naive. Borrowing roads must agree to spend 75 per cent of the loans to rehire employes laid off since September of last year. That's a promise they can make with an easy conscience. Rail employment always rises in the last half of the year anyway. There is no stipulation as to how long the rehired workers must be kept on the payroll. Meanwhile the real object of borrowing—to pay other obligations—is achieved by transferring funds that would normally be used for payrolls.

This round-the-mulberry-bush approach was designed to make the measure more palatable to Congress. The solons can hardly hesitate to authorize loans to stimulate reemployment, whereas they might balk at loans to postpone reorganizations. But it comes to the same thing in the end.

Also the R.F.C. is no longer required to demand "full and adequate security" in the form of collateral from a borrowing railroad. Prospective earning power that "reasonably" assures repayment will be enough. What a stretching that word "reasonable" is going to take!

* * *

RESULTS: Chrysler's excellent first-quarter showing took most Wall Streeters completely by surprise. A substantial deficit had been predicted so widely and persistently that it might be worth the S.E.C.'s while to find out if anyone cashed in on the discrepancy between the bearish rumors and the facts.

The secret of Chrysler's striking success lay in cutting costs in almost exactly the same proportion as the drop in sales below the same period last year. Nothing could be done about heavy tax items, of course, nor were wage RATES marked down. But skilful handling of production schedules made a big dent in total payrolls.

Unlike General Motors, Chrysler never publicly announced the laying off of thousands of workers. But the layoffs were made—in remarkable coordination with the slackening in consumer demand. Thus Chrysler got results without adverse publicity. That's excellent management, in the New York view, but comment runs that Chrysler must not have read what President Roosevelt had to say about stockholders—not labor—taking the rap in time of depression.

* * *

BORROWERS: Jesse Jones' blast to the effect that the banks had better loosen up with credit if they don't want the government to take over their job provoked more amusement than anger in financial circles.

One banker, reflecting the sentiments of many colleagues, remarked: "Jesse knows better than that. His own National Bank of Houston has less than 20 per cent of its assets in loans. You can't lend unless somebody wants to borrow, and apparently nobody does except people who are poor credit risks.

"We wish Jesse would tell us how to make good borrowers loosen up. They're the babies he should go after."

Side Glances---By George Clark

"I'm worn to a frazzle. All morning I've had to listen to my hairdresser's domestic problems."

The Plainsman Says:

That Girl on Broadway says in Germany only married men are permitted to vote, so it's no wonder Hitler gets nothing but "yes-es" at the polls.

* * *

JOSEPH T. Mackey, president of the Linotype company which manufactures the machines that set nearly every line in every edition of the Avalanche-Journal, wrote a very sensible article for his company's magazine "Shining Lines."

It should be interesting to every business man, so we're paying it along.

* * *

"Rotifers," says Mr. Mackey, "are little things. One might almost call them things of no importance. People who know about such things tell us that a large rotifer is about the size of a pinpoint. The microscope shows it to be a complicated creature. It has forcep-like mandibles, a kidney that is in its throat, a large stomach, coiled intestines, a definite eye-spot, brain cells and complete muscular and nervous systems. Each also has distinct sex, the male being smaller than the female.

"These rotifers are sometimes called wheel animalcules. With tiny hairs in the form of a crown they beat the water rythmically, and so create a swirl about themselves. This draws to them protozoa, or still smaller rotifers. They thrive by the billions in calm waters and are virtually invisible to the naked eye. We saw a microscopic picture of one of them extracting food from the inside of a spike of moss.

* * *

"THOSE rotifers started us thinking of the billions of little things, insignificant in size, that are eating the very hearts out of many businesses. They have many names. They are unanswered correspondence, delayed shipments, errors in orders, discourtesy, smart Aleck remarks by salesmen, bad telephone manners, chilling collection letters—lengthen out this list to suit yourself.

"The big things that are so big they attract the attention of everybody are of far less importance. They call public attention to themselves. They, usually, are the ones that receive special attention from those highest up in the organization. But the things that really matter are not the occasional big things that go wrong, but the billions of little things that, like rotifers, are so small that they can eat their meals inside a spike of moss, rob many a great business organization of its strength and power."

* * *

There isn't a business man, or a professional man, or a craftsman selling his services who can't get something out of that thought of Mr. Mackey.

The Plainsman believes the above article, if taken to heart and its dictates followed, will be worth money to many a reader.

Few of us realize that it's the little things which usually make or break a man, or his business.

We'd all be better off if we watched them more closely and corrected them when we discovered them.

* * *

YOU'LL notice Mr. Mackey mentioned, among other things, "bad telephone manners."

There's a fault which is not alone found in business establishments, but in a great percentage of homes.

Although there are more telephones—and more telephones per capita—in the United States than in all the rest of the world put together, Americans probably are the worst misusers of the gadgets to be found anywhere.

The fellow who gets mad over being mistreated over the phone often will turn right around and show bad manners, himself, on the very next call he makes or receives.

The answer to the whole thing seems to be that we don't know any better. We don't know how to use the phone as we should.

* * *

THE PLAINSMAN will wager that our telephone manners can be improved 90 per cent if we will only think, before we speak and if we will only apply the same courtesy to conversations over the wire that we do to personal conversations.

Isn't that right?

* * *

Unable to resist the temptation of trotting out a couple of pet peeves regarding telephoning, The Plainsman makes this suggestion:

When you get an answer to your call, don't bawl "Who's talkin'" as soon as the party on the other end of the line says "hello." And when you answer the phone and someone asks for another person at your address, don't demand "who is this?"—because that's usually none of your business, and that's the way the caller feels about it.

WE note with interest that the Texas Department of Public Safety is arranging a series of "patrolmen exchanges" with similar departments in the United States, as well as with the Northwest Mounted police, of Canada.

Colonel Carmichael, boss of Texas' highway patrolmen and ranchers, believes the boys will learn a good deal more that way than they will attending conventions.

Aside from proving that the colonel knows his conventions, the decision is packed with sense.

State police organizations in Pennsylvania, New Jersey and New York to name a few of the leaders — will be wonderful training grounds for Texas patrolmen who are "farmed out" to them. All are older than the Texas organization and are considerably advanced in all sorts of policing and crime detection work.

* * *

The Plainsman is more interested in the Texas Department of Public Safety than he has been in any other state project for a long time.

Handicapped for funds and with a short background and no tradition, the department nevertheless is stepping out rapidly. It won't be long until Texas will rank with the best of the states in the matter of policing.

That is, if politics is kept out and a fair measure of financial support is furnished by the legislature.

* * *

SURPRISE! Surprise! By the time this reaches the reader The Plainsman will be fur, fur, away.

Worn out and "writ" out, he's long gone and will not be back on the job for the next few days.

This column, therefore, will be missing until he gets back—which will be sometime next week.

Be seein' you then!

England is the greatest apple-eating nation in the world, importing 132,000 tons more annually than Germany, which country ranks second in this respect.

TARZAN UNDER FIRE No. 4 By Edgar Rice Burroughs

"Jad-bal-ja will go with us," Tarzan said as he swung the cage door wide. "Won't he bite us?" Dick quavered. "Not unless I tell him to," the ape-man laughed. But the boys stepped back in fear as the great golden beast strode majestically from his cage.

The yellow, terrifying eyes surveyed them, and Tarzan spoke in a language the boys did not understand as Jad-bal-ja advanced, sniffing them inquiringly. "I am telling him you are my friends and that he must not harm you," Tarzan of the Apes explained.

"I hope he gets it straight," Dick said seriously; "I—er—that is, I wouldn't like to have any misunderstanding about it." Tarzan smiled and signalled the boys to follow him. "Don't we need supplies for our expedition?" Doc asked. Tarzan shook his head.

"The jungle gives food and shelter to those who know how to claim it." The boys grinned delightedly. It was good to be under the protection of the mighty ape-man, to learn from him the secrets of the wilderness, which beckoned them alluringly to high adventure.

LUBBOCK AUCTION AND COMMISSION CO. SALE EVERY TUESDAY AND FRIDAY, BEGINNING AT 10:00 A. M.

Traders have come to know that they get the best prices that the market permits for their cattle when they bring them to us to sell.

We have endeavored to transact our business in a straightforward manner, and it is not surprising that our volume of business is ever increasing.

We try to treat all customers honorably and alike—doing as we would be done by, and this means that once a patron of this establishment, you are always a patron.

We believe that our auction sale is a distinct feature of the country and materially assists in making this section more progressive and more attractive from a commercial and agricultural standpoint.

Help us to continue to build up our reputation as such an asset by bringing us more cattle to sell, so we can keep the buyers constantly coming to us for their cattle requirements.

Ancient Cottage Of Father Of Angling Destroyed By Fire

STAFFORD, England, May 11. (AP)—The ancient, half-timbered cottage of Izaak Walton, the 17th century "father of angling," was destroyed by fire today while the caretaker was frying fish for lunch.

The cottage was restored eleven years ago after a previous fire and part of it was used as a museum. It stood near the river Sowe where the author of "The Compleat Angler" fished 300 years ago.

Many Walton relics were lost in the blaze, which broke out in the thatched roof.

Eyeglasses are believed to have been invented by Roger Bacon in the 13th century.

ANOTHER FORWARD PUSH

NEW YORK, May 11. (AP)—Electric utility shares furnished most of the power for another forward push in the stock market today.

Industrials, however, had difficulty keeping up with the pace set by the utilities and gains mostly were small.

The strong bull tide in the bond market, on the other hand, gathered force. Numerous rail and other corporate obligations resumed the upswing vigorously, spreading hope in the financial district for reopening of the capital market for new financing.

Stocks on the average merely recouped part of the losses suffered on the decline in the preceding session. The Associated Press composite of 60 stocks was up 3 of a point at 41.

Interest in the utility group was ascribed mainly to hopes for cooperation between federal and private utility authorities.

Fractionally to more than 2 higher were Brooklyn-Manhattan Transit, Consolidated Edison, Westinghouse, Santa Fe, Southern Pacific, International Harvester, Du Pont, Johns-Manville, Kennecott Copper and Kresge. [illegible]

International Telephone moved to a new 1938 peak after a report of a substantial [illegible] at a new top and the stock finished 9, up 1. Sheffield [illegible] 8 to 28.

Cotton . .

NEW ORLEANS REPORT

NEW ORLEANS, May 11. (AP)—Local and foreign liquidation and some hedge selling encountered fair trade demand and covering in the cotton market today and the price of the staple closed 1 to 2 points higher to 1 lower.

Influences were mostly the better weather partially offset by expectations of early congressional action on the tax and the recovery of stocks and commodities.

May closed at 8.74, July at 8.81, Oct. at 8.85, Dec. at 8.88, Jan. at 8.90 and March at 8.96.

Spot cotton closed steady. Middling closed unchanged at 8.84.

NEW YORK REPORT

NEW YORK, May 11. (AP)—Early declines in cotton today under foreign selling were recovered on trade and local buying. July futures closed from 8.62 to 8.63 and closed 8.62, with final prices 1 to 2 points net higher.

[illegible] the foreign markets were turned steadier [illegible] New Orleans traders bought on the firmness of the stock market.

AVERAGE PRICE

NEW ORLEANS, May 11. (AP)—The average price of middling 15-16 inch today at ten southern spot markets was 8.69 cents a pound; average for the past thirty market days 8.75 cents a pound.

Grains . .

CHICAGO REPORT

CHICAGO, May 11. (AP)—Wheat jumped virtually 2 cents a bushel late today. Oklahoma and Texas crop damage reports gave impetus to demand whetted by the fact that recent tumbles had carried prices down to near the season's bottom record.

At the close, Chicago wheat futures were 1⅛ to 1⅞ higher compared with yesterday's finish, May 81¼@81½, July 79¼@79¾, corn ⅜ to ⅞ up, May 58¼, July 59⅝@59½, oats ¼ to ½ advanced, rye showing ⅝ to 1⅜ bulge, and provisions unchanged to a climb of 35 cents.

FORT WORTH REPORT

FORT WORTH, May 11. (AP)—Demand was excellent for wheat and good for other grains here today. Estimated receipts were: wheat 10 cars, corn 4, oats 1, and sorghums 2.

Wheat No. 1 hard 97¾@99¾.
Barley No. 2 nom 57@59.
Sorghums No. 2 yellow milo per 100 lbs. nom. 1.00@1.05; No. 2 white kafir nom. 99@1.02.

Pythian Heads Are Selected

HOUSTON, May 11. (AP)—Knights of Pythias of the grand lodge of Texas and Pythian sisters elected officers today and chose Waco for the 1939 convention city as their annual business sessions neared a close.

Weylon C. Frasier of Waco was elected grand chancellor by the knights. He served during the past year as vice chancellor. Mrs. Jeanette Hensley of Santa Ana was named grand chief of the Pythian sisters in separate session.

Other Grand Officers

Other grand officers elected by the knights were: Frank E. Smith, Abilene, grand vice chancellor; E. Fred Meek, Tyler, grand prelate; Theo Yarbrough, Weatherford, grand keeper of records and seals; G. A. Tomlinson, Fort Worth, grand master of exchequer; Bryan D. Beck, Corpus Christi, grand master at arms; G. H. Ater, Lubbock, grand inner guard; T. C. North, Waxahachie, grand outer guard; and W. T. Bradbury, Cleburne, Pythian home director to serve for three years.

The grand temple of the Pythian sisters elected officers as follows: Mrs. Mittie Phillips, Tyler, grand senior chief; Mrs. Frances Redies, Abilene, grand junior; Mrs. Erko Ferrell, Beaumont, grand manager; Mrs. Polly Gage, Freeport, grand mistress of records and correspondence; Mrs. Nell Archbell, Marshall, grand mistress of finance; Mrs. Lella Schlafi, Seguin, grand protector; Mrs. Maude Sneed, Fort Worth, grand guardian; Mrs. Mabel Cavander, Houston, state press correspondent; Mrs. Mable Brown, Houston, Mrs. Elsie Moore, Port Arthur and Mrs. Pearl Ludwick, Palestine, were elected trustees; Mrs. Sue Wellman, Beaumont, Mrs. Lula Johnson, Santa Ana, and Mrs. Fannie Gordon, Dallas, were named to the state Pythian home board.

To Retain Cup

Mrs. Frieda Buehrig of Cuero won for the second time the Ada Belle Ion medal for proficiency in the secret work of the Pythian sisters. She now retains the cup permanently.

Invitation to hold the next joint convention in Waco was extended by George V. Jones, mayor of that city. The ballot was close, however, Mineral Wells, running a close second after its mayor, John Miller, gave the invitation.

The conventions of both grand lodges close this afternoon with a public installation of Pythian sisters.

George W. Dupree Will Speak At Seagraves C Of C Banquet

Seagraves Chamber of Commerce officials plan a banquet there tonight in the high school gymnasium with George W. Dupree, Lubbock attorney, as the main speaker. The group recently was reorganized and a new secretary is expected to begin work soon.

Lubbock Chamber of Commerce will be represented by Charles A. Whitacre, chairman of the Lubbock goodwill committee.

Pamphlets Outlining Rules Of Garbage Collections Offered

Pamphlets outlining the garbage collection rules in city ordinance 349 Wednesday were distributed throughout Lubbock as the highlight of the day's program in connection with the cleanup-paintup campaign now in progress.

The pamphlets were distributed through the schools, were printed in the bulletin published weekly by the Retail Merchants association, and were distributed by the fire prevention committee for the cleanup-paintup campaign, according to information from chamber of commerce headquarters Wednesday.

"If Lubbock is to remain 'The Cleanest City In Texas,' the carrying out of this ordinance to the fullest degree will be necessary," officials said.

Ten rules were listed relative to garbage collection.

A radio program in connection with the campaign was broadcast over KFYO at 8:30 o'clock Wednesday night. The program was by a swing band and chorus of Sanders school. Mrs. Lula F. Trigg, principal, directed the program.

T. C. Root, professor of economics and business administration, will be speaker at 8:30 o'clock tonight, campaign officials announced.

NINE ARE CRUSHED

ROTTERDAM, Netherlands, May 11. (AP)—Nine persons were crushed to death today when an ancient house on the Hoogstraat collapsed and caught them in the debris.

A woman, her baby and seven men were killed. The Hoogstraat is the city's busiest street and was jammed by rush-hour crowds.

Oil Exposition To Be Opened

By ALFRED WALL
Associated Press Staff Writer

TULSA, May 11. — The weighty problem of fitting the petroleum industry to depressed markets and faltering prices put sober faces on oil men who began arriving by the hundreds today for their biennial international petroleum exposition.

Every indication was that preliminary meetings of various associations would be concerned not so much with expansion and improvement of producing and refining but rather with the charting of a profitable course through a stiff recession.

Prices Are Cut

Entirely too clear on the horizon were such disturbing developments as Kanotex's 25-cent crude price reduction yesterday, other price cuts in Rocky mountain crude, prices of gasoline so low as to make refining unprofitable and necessity of further drastic curtailment of production in the mid-continent.

Leaders foregathering for the greatly expanded show counselled, however, that there were elements of optimism in the general picture.

"This industry itself is basically sound," said William G. Skelly, oil company president and president of the exposition. "It is suffering from the recession in other lines of business.

"There is a carryover of about 10,000,000 barrels in excess gasoline inventories which if taken care of by orderly liquidation will work out satisfactorily."

The Kanotex reduction, affecting only a relatively small daily purchase of about 5,000 barrels, caused nervousness in inverse proportion. It was the first big cut since mid-continent oil hit a dollar a barrel in 1933. It brought quick reaction from many oilmen that the trouble was not a high price for crude but instead the entirely too low price for gasoline.

W. J. Hammond Resigns Post As Mayor Of Fort Worth

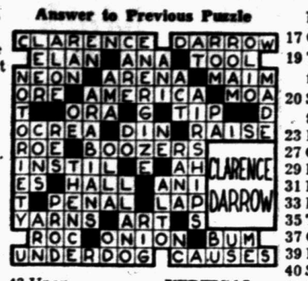

FORT WORTH, May 11. (AP)—W. J. Hammond resigned as mayor of Fort Worth this afternoon, but remained on the city council. Councilman R. H. W. Drechael was named mayor. Hammond announced he would not be a candidate for re-election to the council next year. He has been mayor since the present council took office in April, 1937.

BROOKS OPENS DRIVE

PORT ARTHUR, May 11. (AP)—Pierce Brooks of Dallas, candidate for lieutenant governor of Texas, opened his South Texas campaign here Tuesday, proposing to save the state $5,000,000 per year by abolishing the state liquor control board, by localizing the administration of old-age assistance and by abolishing the auto license tax.

Reward Of $1,000 Is Posted After Lamesa Cotton Fires

LAMESA, (Special)—At a mass meeting Tuesday night of aroused Lamesa residents "for information leading to arrest and conviction of the party or parties who burned one of four cotton warehouses recently in Lamesa," a reward of $1,000 was subscribed.

Approximately 50 business men and James Byrnes, arson investigator for the state fire commission, and E. L. Mitchell, state agent for the National Fire Underwriters commission, of Dallas and New Orleans, attended.

The session, conducted in the district court room, was conducted "so Lamesa might face the facts," as one spokesman said.

Insurance cancellation is feared unless something is done to apprehend those believed responsible for the heavy loss.

Truett Smith, district attorney, recently promised grand jury investigation of the fires, origin of which had not been determined.

Parking Meter Receipts Since May 1 Are Averaging Higher

Parking meter receipts since May 1 have averaged higher than at any time since the Christmas holidays. City officials frankly were puzzled as to the reason when they made the report Wednesday.

Collections for the three days ending Monday totaled $297, an average of $99 per day. Average for the month thus far has been approximately $95, as compared with $81.50 daily through April when receipts were reduced by unfavorable weather.

Revenue from the meters during the holiday period approximated $110 daily.
