Gov. Ferguson Asks FDR To Authorize Long-Time Federal Loans On Cotton

PLAN WOULD RELIEVE MARKET AT PRESENT, GOVERNOR SAYS

(By The Associated Press)

AUSTIN, Aug. 17 — President Roosevelt has been requested by Governor Miriam A. Ferguson to ask the federal reserve board to authorize long-time loans on cotton as a means of keeping the staple off an unprofitable market.

She suggested that the reserve board ask member banks to "at once announce that loans of 90 per cent of the value of cotton will be made for 12 months at five per cent on all spot cotton offered and for the farmer to present his compress receipt and get the money."

Would Relieve Market

"To enforce this request you can announce that if the federal reserve banks will not make the loans that the government will issue currency now authorized and make the loan and take at least half the crop off the market," the governor's telegram stated.

"This will leave the cotton in the hands of the farmer and by acreage reduction next year the price can be stabilized and ruin of the cotton planter can be averted."

MONEY IS HELD IN RESERVE

TEXAS FUNDS FOR THIS MONTH BEING HELD FOR EMERGENCY

(By The Associated Press)

AUSTIN, Aug. 17 — Lawrence Westbrook, director of the Texas Rehabilitation and Relief commission, today said an effort was being made to hold in reserve as much as $2,000,000 of the federal government allotment of $2,573,820 for August to meet emergencies in event the state bond issue does not carry.

Westbrook said the federal government had given notice that should Texans, in a special election on August 26, fail to authorize issuance of $20,000,000 in bonds with which to augment funds now apportioned from Washington this state probably would not get any more relief money.

"We are conserving as much of the August allotment as possible to be in a position to cope with an emergency should the bond issue be rejected," Westbrook said.

Westbrook said that the relief rolls had picked up approximately 12,000 World war veterans whose only sustenance had been cut off when the government dropped their compensation under the new law.

"Texas contributed about 12,000 men to the tree army, but we had to take on that many when the ex-service men lost their compensation," he said.

HUTCHINSON, Kas., Aug. 17 (AP)—Emerson Carey, 70, industrial leader, died today, after an illness of two years.

CROPS DAMAGED

MEXICO, D. F., Aug. 17 (AP)—Heavy crop damage was caused today in Tampico and Panuco by floods of the Tamesi and Panuco rivers, and it was feared the waters would rise and threaten residential sections in the two cities.

PLAYERS SUSPENDED

NEW YORK, Aug. 17 (AP)—Manager Max Carey and Catcher Al Lopez of the Brooklyn Dodgers today were suspended for three days by President John Heydler of the National league for their run-in with Umpire Ted McGrew in the second game of the doubleheader with the Pittsburgh Pirates at Ebbets Field yesterday. Carey also was fined $50.

SAVE MONEY ON VISIT TO FAIR!

If any more special trains are run from the Panhandle-Plains to Chicago and the World's Fair the price will be higher or less features will be offered!

A hike of $7.10 in Pullman fares, made since The Avalanche-Journal Globe-News August 20th trip was arranged for, has already gone into effect. If future trains are run the new Pullman rates will be accordingly higher.

There is still time for other Lubbock and South Plains people to make reservations for the next tour which starts Sunday and is completed Sunday night, August 27 after almost six full days and nights in Chicago. Mrs. Lucile Smith, at The Avalanche-Journal, is accepting reservations at the price of $70, which includes round trip transportation and Pullman; tours of Chicago and the fair; accommodations at the New Palmer House in Chicago and many other events — not the least of which are Harvey meals on air-cooled diners, going to and coming back from Chicago.

Turn to Page 5 of today's Journal for complete details, then make your reservation!

RAIL MERGER IS APPROVED

CHICAGO, ROCK ISLAND AND PACIFIC UNITES OTHER LINES

(By The Associated Press)

WASHINGTON, Aug. 17.—The Interstate Commerce commission today conditionally authorized the Chicago, Rock Island and Pacific railway and eleven subsidiary corporations to merge into one corporation for ownership, management and operations.

The system, which has an aggregate milcage of more than 8,000 in 14 states, was permitted to carry out the merger on condition that it set up a proper method of accounting under the transaction upon which the commission is now working.

To Acquire Another Road

It also will be required, if the commission finds it appropriate, to acquire the Wichita Northwestern railway.

James E. Gorman, president of the system, informed the commission that bankers had advised the road unification would greatly improve the credit of the Rock Island and permit its bonds to be marketed more easily and at better prices. It also was proposed as an economy move.

GENE JOHNSON WOUNDED IN GUN BATTLE

OFFICERS RAID HIDING PLACE OF GANG IN ARKANSAS HILLS

(By The Associated Press)

BENTONVILLE, Ark., Aug. 17.—Gene Johnson, believed by officers here to be a confederate of the Wilbur Underhill gang of escaped Kansas penitentiary desperadoes, was critically wounded and his wife suffered minor gunshot wounds early today in a gunfight with a large posse of officers in the hills twenty miles southwest of Bentonville.

Johnson was taken to a hospital at Siloam Springs, Ark.

Machine Guns Used

Sheriff C. L. Maples and officers from Oklahoma and Kansas surprised a group of alleged associates of Underhill near Springtown at 2 a. m. and a fight followed in which machine guns were used on both sides.

Johnson was sought as the slayer of Patrolman Charles Bruce at McPherson, Kas., the night of May 14. Bruce was shot when he came upon four men stealing gasoline for their car.

Not Among Kansas Gang

Johnson was not among the 11 convicts who escaped from the Kansas penitentiary Memorial day under the leadership of Underhill and Harvey Bailey, held at Dallas, Tex., for the Union Station massacre in Kansas City and the kidnaping of Charles F. Urschel, Oklahoma City oil man.

Sheriff Dee Watters of Ottawa county, Oklahoma, a member of today's posse, said Glenn Wright, wanted for the murder last spring of an automobile convoy driver at Picher, Okla., was sighted and believed wounded also. Wright was captured, however.

Others Tracked

Meanwhile, the posse with bloodhounds was tracking several other men who escaped during the battle.

Sheriff Maples, who went back with the posse after bringing Johnson's wife here, said he believed some deep woods near Springtown was the hiding place of the Underhill gang.

Evidence the gang was there, Sheriff Maples said, had been received by him several days ago and after he had made reasonably certain the reports were authentic, notified Oklahoma and Kansas officers and the forces from the three

Woman Prisoner Is Sent To Hospital

AUSTIN, Aug. 17 (AP)—Governor Miriam A. Ferguson today paroled to the superintendent of the San Antonio state hospital for treatment, Bessie Sharp, under sentence of two years for murder. The woman was convicted in Pecos county.

Governor Ferguson said she had been informed the woman was feeble minded and should be treated instead of confined in prison.

Murder Stalks Nation

WOMEN FIGURE PROMINENTLY IN EVERY CASE; CURRENT PLAGUE OF CRIME COVERS U. S.

(By The Associated Press)

In the silence of the Spokane night there sounded the voice of a woman—the report of shots swiftly fired—the whir of a motorcar, its headlights dark, racing away; and on the ground, bleeding from three bullet wounds, lay a dying man.

Who killed Dr. James I. Gaines?

Silent, too, was the Virginia countryside near Grundy; silent until there came the scream of a woman—the sound of five shots fired in quick succession. Then silent once more—with three dead men in an automobile.

Who killed them?

Murdered, Like The Others

And there is a thicket near Dover, N. J.; and in that thicket was found the body of a woman who had been murdered. And a wood in New Hampshire—and the body of a woman who, too, had been murdered. And a penthouse in Pasadena, with a woman dead there—murdered, like the others.

A doctor of Greenwood, Miss., died. He said a woman put poison in his whisky and watched him as he drank death. They hold her today in a cell.

It was grape juice that carried poison death to four persons in Arkansas. Jelly was the medium a Detroit mother used to poison her two children, but they did not die because when they became ill she could not bear to see them suffer, so she called a doctor.

Mother Is Blamed

But two children in Chelsea, Vt., died from poison, and the mother who is blamed for their death still suffers—though she is expected to recover—from the same potion.

SECRETARY'S THREAT TO SUBSIDIZE EXPORTS OF WHEAT SUGGESTS GREAT FINANCIAL RESPONSIBILITY BY U. S.

BY FRANK I. WELLER

WASHINGTON, Aug. 27 (AP)—Secretary Wallace's threats to subsidize exports of wheat if necessary suggests huge financial responsibility in view of Europe's refusal to follow the upturn in domestic values.

The minimum price continuing on September wheat at Chicago on August 16, the day Wallace made the threat, was 92 1-8 cents a bushel. At that time Liverpool was quoting 66 5-8 cents on Argentine wheat for August delivery, 79 1-4 cents for Australian and 82 3-4 cents for Canadian. United States grain was not listed, the discrepancy between Chicago and Liverpool making normal trade impossible.

U. S. Price Under World Mark

Presumably, the subsidy on American exports would represent the difference between domestic and foreign prices plus the usual export charges. United States wheat is considered "on an export basis" when the domestic price ranges from 12 to 15 cents a bushel under the world price.

Supposing Chicago and Liverpool prices were equal, it would cost $12,000,000 to $15,000,000 to subsidize the export differential on 100,000,000 bushels. But it is the plan of the agricultural adjustment administration to give wheat a parity price in relation to non-farm products. That means about 88 cents a bushel minimum and perhaps as much as $1.15 if the general price level advances as much as 30 per cent.

May Involve Huge Sums

Unless world values were to soar there is possibility an export subsidy might equal 50 per cent of the domestic price of wheat—involving the use of great sums.

Such sums, however, were amply provided for by the last congress. The secretary of agriculture may call upon the federal treasury for upwards of $200,000,000 and "any additional funds necessary" to finance the foreign sale of American farm products. Wallace has said he has no intention of "raiding public funds" and intimated he never may take advantage of the law.

R. F. C. Can Make Loans

Furthermore, the Reconstruction Finance corporation is authorized to make loans to exporters entering marketing agreements with the agricultural adjustment administration.

The more popular conception — one Secretary Wallace has permitted to enlarge—is that if exports were to be subsidized at all the financing would come from processing taxes on that part of a crop consumed in this country.

Talk of an export subsidy result-

SECRETARY ANNOUNCES 400,000 RETURNED TO JOBS IN JULY

(By The Associated Press)

WASHINGTON, Aug. 17—Secretary Perkins announced today that approximately 400,000 factory workers returned to jobs in July and that the purchasing power of all workers in manufacturing plants had increased about $29,000,000 in weekly wages in July compared with March.

The labor secretary, on the basis of reports by her experts, estimated the reemployment of 1,100,000 wage earners in the manufacturing industries between March and July and figured that another 300,000 additional workers went back to their jobs in 16 non-manufacturing industries, excluding railroad and agricultural industries, in the same period.

L. B. Neeley Denies His Skeleton Was Found In Wyoming

AMARILLO, Aug. 17. (AP)—L. B. Neeley—not a ghost, but the real article—was in Amarillo today to deny that his skeleton was found with a pair of cowboy spurs in a shallow grave in Wyoming.

A few days ago Neeley, who is a member of a civilian conservation corps in the Palo Duro canyon, read a newspaper account of the finding of human bones on Pumpkin Butte, in Wyoming, along with a pair of expensive spurs bearing the inscription, "L. B. Neeley, Dumont, Texas."

Authorities in Wyoming traced the spurs to their maker, J. O. Bass, Tulia, Texas. Bass' records revealed that they were made for Neeley in 1913.

Neeley said his father probably sold the spurs while the son was absent from home during the World war. He has written to his father to learn the identity of the purchaser, if possible.

PRINCIPLES OF OIL CODE ARE O.K.'D TODAY

"OPEN SHOP" QUESTION IS AGREED ON BY LEADERS

BY DON J. KIRKLEY
Associated Press Staff Writer

WASHINGTON, Aug. 17.—Having reached an agreement today on the principles of the oil code at a conference with President Roosevelt, officials began writing into it strong provisions for federal supervision of prices and production for submission to representatives of the industry later in the day.

The president composed the differences between Hugh S. Johnson, the recovery administrator, and Secretary Ickes, the oil administrator, at the White House meeting and work immediately began on a final revision of the code.

To Confer At 4:30

Representatives of the industry, who conferred briefly with Johnson were told to get together again at 4:30 p. m. to receive a final revision of the petroleum trade plan.

NRA officials, who said there had been "full accord and cooperation" with the interior department in formulating the code, explained this collaboration was on sections governing prices and production.

Rewriting Sections

After Johnson had postponed his meeting with the oil men, experts of the NRA and interior department closeted themselves in the office of K. M. Simpson, deputy administrator and began rewriting the production and price sections. They were joined by James A. Moffett, former vice president of the Standard Oil company of New Jersey who is likely to head the agency that will administer the oil code.

It was expected price control would provide for a federal agency establishing minimum levels for crude oil and its products and maximum quotations for products sold at retail to the ultimate consumer with its purpose to let the oil industry keep these in order but with power for the federal government to act if necessary.

Compromise Obtained

Secretary Ickes and Johnson at first differed on how far the government should go in these two questions. But President Roosevelt was reported to have obtained a compromise.

Johnson, sources close to him said, favored a modified form of price control as opposed to a belief by Ickes that the government should go all the way.

As the plan now is understood to be it will call for vesting the federal

RULING GIVEN ON BEER

BREW TO BE ILLEGAL EVEN IF VOTED IN UNTIL SEPT. 15

(By The Associated Press)

AUSTIN, Aug. 17—Elbert Hooper, acting attorney general, in an opinion, today held that even though Texans vote on August 26 to amend their state constitution to authorize the sale of 3.2 beer, the brew cannot be legally sold or transported before September 15.

Hooper gave his opinion in response to a request from Jesse E. Martin of Fort Worth, criminal district attorney of Tarrant county.

Planned Early Delivery

Martin wrote the attorney general's department that he had been advised that "a number of out-of-state brewers, through their agents in Texas, are soliciting the wholesale and retail trade for the purchase of 3.2 beer to be delivered at various points in Texas, and ready for sale and delivery on the morning of August 27."

"Some of the wholesalers and retailers have placed such orders and the railroads have agreed to deliver it in Texas prior to September 15, and further, that the method which the railroad companies will employ to deliver this beer in Texas prior to the 15th of September will be on the pretext that the purchaser has ordered, say a carload of beer, to be delivered in Louisiana, delivery in that state being permissible now," Martin wrote the attorney general's department.

Routed Through State

"The routing will be through a central point in Texas, destined as aforesiad to some point in Louisiana. When the car of beer arrives at the given point in Texas it will be placed on a side track and held for diversion thereupon and, with the consent of the railroad and the purchaser, the car will be opened and the beer delivered in view of the foregoing, and assuming that the

"POLITICS" IN CASE TOLD BY SENATOR

HOOVER ASKED FOR HIS STATEMENT ON DAWES LOAN, HE SAYS

(By The Associated Press)

DETROIT, Aug. 17.—Senator James Couzens, (R. Mich) testifying before the Detroit bank investigating jury today, said he had been asked by President Hoover during the last political campaign to issue "for political purposes" a statement approving the loan of $90,000,000 to the Chicago bank of which Charles G. Dawes was head.

Mr. Hoover, the senator said, "wanted the statement for political purpcses." The request, he said, came in a telephone call from the White House.

Sought Opinion

"I said I would be glad to do so if he got an opinion from his attorney general that I would not be violating the law," said Couzens. "All loans had been confidential until about July 15, when a law was passed requiring the Reconstruction Finance corp. to report to congress on all loans made in secrecy."

The Michigan senator said that while his statement of approval was not formally issued, he did approve the Dawes loan.

Nation Shocked

"The nation was shocked when it leaked out from some source unknown to me that Dawes, former president of the R. F. C., had got a loan from the R. F. C. of $90,000,000," Couzens said. "Of course, the party that was out of power capitalized on that."

Couzens assented to a remark of Prosecutor Harry S. Toy, his questioner, to the effect that "This is what is called politics, is it not?" and said:

"Frankly, that scared the R. F. C. and made it more cautious. I asked

TAX THREAT IS MADE

SECRETARY SAYS MORE TAXES MAY BE LEVIED IF PRICES DECLINE

(By The Associated Press)

WASHINGTON, Aug. 17—Secretary Wallace told newspapermen today there was a prospect of additional processing taxes on wheat and cotton if the price of the products continued to decline.

The processing tax is a levy paid by the manufacturer or processor of wheat and cotton, which in turn goes to the farmer in benefit payments for his agreement to cut production.

In the case of wheat, the present tax is 30 cents a bushel and on cotton it is 4.2 cents a lint pound.

The secretary would not indicate at what point additional processing taxes would be levied on the two principal commodities in the event prices continued to sag, but said if they were applied that benefits would "eventually" get back to the farmer.

VENUS WILL GIVE JUPITER "GO-BY" TONIGHT, TECH PROFESSOR ADVISES

Venus, the solar system's brightest lady of the evening, tonight will pass that big fellow Jupiter, who has several suns of his own and is second only to Venus in brilliance.

Fair weather prevailing, Lubbock will have an opportunity to observe the astronomical phenomenon, which will not occur again until November 2, 1934.

Dr. R. S. Underwood of the mathematics department at Texas Technological college says Venus is approaching the earth, being only about 128 million miles away now, while Jupiter is about 585 million miles from our planet.

As soon as the horizon has darkened, by 8 o'clock or thereabouts, passage of Venus from west to east, nearly over Jupiter, should be visible in the western sky. The phenomenon should be manifest until well after midnight.

By February 4, 1934, Venus will be within about 25 million miles of the earth, and then she'll decide against so short a span between her and that dull fellow.

Sight the two bright stars, close together and barely above the western horizon, and you've found Venus and Jupiter, says Doctor Underwood.

RAMSHACKLE POSTOFFICE OF NIRA, IOWA, BOOMED BY SALE OF STAMPS

NIRA, Ia., Aug. 17 (AP)—Industry boomed in the ramshackle postoffice of NIRA today with first official sales here of the NIRA stamp, emblem of the National Industrial Recovery program.

In homage to its name, NIRA was first after Washington to sell the new three-cent stamp. And the population of 20, five families, was ready for the occasion.

Crowds of stamp collectors poured in, eager to buy a NIRA stamp, and attach it to a letter to be cancelled in the local postoffice.

In the past week collectors mailed thousands of packets, each containing from one to 25 envelopes to be stamped and mailed out today.

For 40 years outgoing mail has been cancelled by hand by Postmaster E. J. Yoder and his daughter. Today nearly a dozen clerks were on hand, aided by an electric cancellation machine.

To the 20 inhabitants, the stamp boom was the first major business activity since a coal mining flurry in 1892.

This Takes The Cake For A Dessert For Summer Days

By NEA Service

Have no feeling for your ice-box when the days are hot. Make it work overtime!

When summer sends the temperature skyrocketing, it's a wise hostess who studies up on short cuts and gives her ice-box the burden of preparation of all sorts of hot weather dishes.

The best time to prepare food is in the morning before the house gets unbearably hot. Try to choose recipes which can be made with a minimum of effort early in the day. Then put them in the ice-box until lunch or dinner time.

The ice-box is doubly handy when it comes to mid-summer desserts. Leave pies, cakes and things which have to be baked in the oven until the days are cooler. Your guests will appreciate your menu twice as much if they know that you aren't completely worn out with the preparation of it.

• • •

Simple desserts are your best bets. They cause you less trouble to make and, at the same time, provide ample nourishment without being hard to digest.

A raspberry ice-box cake is a favorite party treat for the family these hot days. It is extremely simple to prepare and is also very economical.

Here's the way you make a delicious raspberry ice-box dessert: Stir together one and one-third cups (one can) of sweetened condensed milk and three tablespoons of lemon juice until the mixture thickens. You can use a fork instead of a spoon to hasten the thickening, thus saving you an extra few minutes in the kitchen.

Fold in one cup of fresh raspberries. Line a mold with wax paper and then with split lady fingers, placing the round side out. Pour in the raspberry mixture and top with a layer of lady fingers. That's all you have to do. Just set the pan in the coldest part of your ice-box for several hours.

When you are ready to serve dessert, take it out of the pan, slice and garnish with whipped cream. The recipe serves eight.

You don't have to worry about the condensed milk and lemon juice thickening. The trick of using condensed milk is that the milk and sugar already have been boiled down to perfect smoothness and it will thicken with very little effort on your part.

The raspberry dessert recipe can be varied by using other seasonal fruits or berries.

ORGANIZED SYSTEM OF OPPORTUNITY SCHOOLS PROPOSED BY TEXAS BOARD

WASHINGTON, Aug. 17 (AP)—An organized system of opportunity schools has been suggested by the board of regents of the Texas state teachers colleges to take up the leisure time young men and women find on their hands as a result of shorter working hours under President Roosevelt's recovery program.

In a letter to Hugh S. Johnson, recovery administrator, the board of regents said.

"Under the special and general business code that has been adopted in harmony with the national recovery act, many thousands of young men and women will have added leisure. It seems to us to be essential that this leisure time be properly used if we are to avoid a serious deterioration of our social fabric."

It offered the facilities of the seven institutions under its direction to carry forward any program of opportunity schools that may be organized and pledged support of the president's recovery program.

Carlisle Folk Honor Newlyweds

Child Involved In Charge Is At Home

Billie Don Hope, whose disappearance early Wednesday from the home of his father, E. H. Hope, at 1206 Thirty-fourth street, resulted in a kidnaping charge against Mrs. Opal Waddell of near Oklahoma City, was safely at home here again this morning, Sheriff Tom Abel said.

Mrs. Waddell is a daughter of Mr. Hope by a former marriage. Mr. Hope, who Wednesday said his daughter had taken her small half-brother with her to Oklahoma, this morning said the daughter had gone to Oklahoma but the small son had been at a house across the street, according to Sheriff Abel.

The sheriff expressed an opinion that publication of news stories of filing of the kidnaping story and other circumstances of the case had resulted in the return of the child.

Mrs. Ethel Hope, mother of the small boy, signed the kidnaping complaint. She recently sued Mr. Hope for divorce.

Period Of Decline In Pressure Is Seen

KILGORE, Aug. 17 (AP)—Gordon Griffin, chief engineer of the oil and gas division of the state railroad commission, has expressed the opinion that a period of pressure decline loomed for the East Texas oil field.

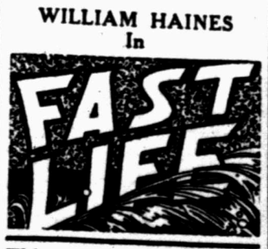

He reported, however, that pressures of the wells had climbed steadily since July 10 when the "hot oil" ban went into effect. At that time, production began falling toward limits of the field allowable and now hovers about the figures set up by the commission.

J. V. Burdett of O'Donnell is visiting his parents, Mr. and Mrs. F. Burdett, 1503 Twenty-third street. Mr. Burdett and his son visited their farm near Amherst Wednesday. They report that the crops in that section are fairly good.

THOUSANDS IN CHINA DIE

FLOODS TAKE HEAVY TOLL OF LIFE IN HONAN PROVINCE

(By The Associated Press)

HANKOW, Hupeh Province (Central China), Aug. 17—Widespread floods of the Yellow river in northern China were said today to have caused 50,000 deaths in the last few days.

Officials of the Kinkow-Hankow railway, in giving this estimate, said that many more undoubtedly had perished since dikes began breaking over a wide area early this month but that the total will never be known.

Bandits Appear

To add to the misfortunes of the destitute population, bandits have appeared in the submerged areas in Honan province north of here and are plundering towns and villages, robbing the victims of everything valuable that can be carried away.

Honan provincial authorities have sent an armored train as far north as possible and troops have been deployed along the southern edges of the flooded district with orders to shoot anyone caught looting.

Continue Rising

In Honan the river, called "China's Sorrow," was reported as having ceased rising, but in Shantung province, farther to the northeast, the waters continued to rise.

Dozens of towns and villages in western Shantung were destroyed today as the flood waters moved slowly toward the river's mouth.

Thousands were made homeless. Many clinging to treetops when the dikes broke were swept to their death.

Crops Destroyed

All crops in an area 50 miles long and 20 miles wide in western Shantung were destroyed and great hardship visited upon inhabitants, missionaries from Tsaochowfu reported.

Near Kaifeng, a city of 175,000 in Honan province, 1,000 peasants were drowned in a few minutes when dikes broke and impounded waters rushed over a large area.

One of Several Scourges

The flood of the Yellow river is considered the worst of several scourges in central and northern China this summer. Earlier this month 10,000 persons drowned in floods of the Chiang river in north central areas. Two hundred villages were destroyed.

Lesser streams, with the Chiang and Yellow, flooded 10,000 square miles.

Famine, floods, heat, cholera, rats, locusts, and other natural forces, said officials of the Nanking government, afflicted 12 of the 18 provinces of China proper, with 100,000,000 persons affected.

Fifty thousand bees were removed from the walls of a cottage in Lakewood, Ohio.

The choir of Old Trinity Church, New York, first appeared in vestments on Sunday, Oct. 14, 1860, when the services were attended by Albert Edward, Prince of Wales.

Texas Prexy Urges Students To Study For Leisure Time

WACO, Aug. 17 (AP)—Dr. H. Y. Benedict, president of the University of Texas, Wednesday urged students attending the summer classes at Baylor university to continue their studies and learning in order to keep up with the times.

"If we come to the 30-hour working week, which I believe we will, what will become of our leisure time?" asked Dr. Benedict, who is widely known for his work in the fields of mathematics and astronomy.

"Democracy, after all, is more of a stage of civilization than a form of government," he said.

PORK CHOPS, BACON AND CRACKLIN'S FOR NATION'S JOBLESS; PLAN O. K.'D

WASHINGTON Aug. 17 (AP)—Pork chops, bacon and cracklins for the jobless.

That was approved yesterday by President Roosevelt.

The hogs will be among 5,000,000 slaughtered under the agriculture department's proposal to let farmers kill the porkers they can't feed, thus increasing the value of those that are left.

The federal relief administration is making arrangements for distribution of the meat.

Finally, the farmers will be paid sums yet to be announced for the hogs they slaughtered, the money to be raised by a subsequent tax paid by those who turn live swine into marketable pork.

Secretary Wallace will discuss the program in detail in Chicago tomorrow.

Mrs. Coolidge, widow of the former president, is a member of Pi Beta Phi.

The bulbs of some daffodils exhibited at the Horticultural Hall, London, were valued at from $100 to $150 each.

Warning Given On Dumping Rubbish

All rubbish should be hauled to the City dump grounds south of the city, the sanitary department warned today.

Rubbish and manure is being dumped and scattered indiscriminately about the fringes of the corporate area and unless the practice is stopped formal investigation and prosecution will have to be effected to safeguard the public health.

The City provides a garbage hauling service. Rubbish however must be properly disposed of by individuals.

CONTRASTS SHOWN

DETROIT, Aug. 17. (AP)—Sharply contrasting policies of the federal treasury department under the Hoover and Roosevelt administrations and their effect on the general banking situation were related today by Wilson W. Mills, former chairman of the country's largest closed bank, testifying before the Detroit bank investigating grand jury. Mills also told of the refusal of Henry Ford to offer financial aid in the banking crisis unless he could have complete control.

SPYING ON SPORTS

BY COLLIER PARRIS

SHORT, SHORT STORIES—

So Texas Tech will play the University of Texas next year . . . for a certainty . . . the game has been hanging fire for some time, but the contract was not returned until yesterday . . . that's mighty fine, and we lift the lid to Double Yell Stangel and his athletic council . . . and hope that Clyde Littlefield doesn't have as good a time in September as he does in August . . . in Lubbock . . .

• • •

Pete Cawthon, Matador mentor and coach school director supreme, is busy these days paying bills and clearing the books on the late school . . . but not too busy to drop around and suggest that we don't go haywire on our predictions regarding Texas Tech's football season . . . he'll rest easier when he locates on his squad a fullback to replace Harold Crites, a quarterback to fill Speedy Moffett's shoes and a lineman to keep 'em going like Ross Ayers . . .

• • •

Coach Pete will try to cop a sneak out of town for a day or two before fall training begins . . . and he surely deserves a vacation . . . His co-workers, Dutchy Smith, is spending his vacation in a hospital . . . after which he'll be minus a couple of tonsils . . . Delicate Del Morgan is taking a much-needed rest in somebody's mountains . . . but the trout are in no immediate danger from that source . . .

• • •

Another blow was struck at Lubbock High school's football hopes the other day when Dowell, a scrapping little lineman coming up from Swede McMurry's Cowhands, sustained a fractured ankle while playing baseball in the Junior league . . . and Lubbock High could do without many blows . . . Dowell was considered a bright prospect for the center position . . . The District 1 football race may not be confined to the Big Three this year . . . because they're not looking so big at this distance . . . Amarillo is in worse shape, if such a thing is possible, than Lubbock . . . so far as loss of experienced hands is concerned . . . Borger, for the first time, may be a threat . . . Pampa is said to have the most material and to be in better shape for a championship than any other school in the loop . . .

• • •

The heavyweight fight world seems due for a disappointment . . . and the boxing game can stand just so many disappointments . . . Primo Carnera "prefers" to fight Paulino Uzcudun, whoever that is, rather than Max Baer . . . and the ringside Nell ain't bein' done right by if Primo's plans go through . . . because Nell has been reading about and looking forward to a match between Baer and Primo . . . ever since these mastodons knocked over Schmeling and Sharkey . . . the reaction seems to be that Carnera is a cheese champ who's afraid to meet Baer . . . But Carnera wants to perform before the home folks . . he wants to defend his title under the Fascist salute of Mussoliniland . . . and it's a good thing he picked out Uzcudun, who's all washed up as a title contender . . . with such a match in America, fans would stay away by the droves . . . the fight fans want to see a Carnera-Baer fight . . . because they harbor the belief that the crown belongs to the U. S. and they want to see that slam-bang guy Baer pop in there and lift it off the brow of the Ambling Alp . . .

• • •

Ellsworth Vines, who is beginning to be something of a pain to followers of the tennis game, says that he and Keith Gledh'll would make the world's best Davis Cup doubles team . . . but after Lott and Van Ryn scored the only U. S. victory against the English, we'll take George and Johnny. . .

• • •

Some good stories are told about the superstitions and idiosyncrasies of ball players . . . Jimmy Dykes, White Sox third sacker, will never speak to the bat boy when he's the next man up . . . and collects hairpins . . . he throws one away every time he gets a hit . . . Eppa Jeptha Rixey, Cincinnati hurler, breaks up a chair in the clubhouse after he loses a tough game . . . Babe Ruth carries only two bats to the plate . . . he insists that to carry three would mean three strikes . . . Ted Lyons, White Sox pitcher, places his glove, palm up, with thumb crossed over and fingers pointing to the dugout, when leaving the mound . . . Gabby Hartnett always walks between the catcher and umpire when he comes up to hit . . . and so on . .

In Moscow, if a person drops a piece of paper as small as a train ticket on the street, a policeman has the power to fine him on the spot.

Lou Gehrig Ready To Set Toughest Of All Records In Major League Baseball

YANK SLUGGER TO PLAY 1,308TH CONSECUTIVE GAME TODAY

BY HUGH S. FULLERTON, JR.
(Associated Press Sports Writer)

Lou Gehrig was ready today to tuck away the toughest of all major league baseball records in his hip pocket and go on playing baseball. But his club, the New York Yankees, faced the painful knowledge that they were 6 1-2 games behind the league leading Washington Senators and all but out of the pennant race.

For the stolid Lou, it was just a matter of playing another game and taking the honors that went with his record achievement as much in his stride as he has the 1,307 games that have gone before. Yesterday he played his 1,307th consecutive game since he broke into the Yankee lineup way back in 1925. That equalled the record set by Everett Scott, with the Boston Red Sox and the Yankees.

Led Hitters Wednesday

Gehrig led all the Yankee hitters yesterday but at that he got only two hits off his former teammate, Ed Wells, while the St. Louis Browns hammered young Charley Devens, Danny MacFayden and George Uhle for 18 hits and 13 to 3 victory.

That, happened while Washington was scoring a 5 to 1 victory over the Chicago White Sox.

Tribe Whips A's

Down where the race is closer, the Cleveland Indians and Detroit Tigers came through with a pair of shaky victories and remained tied for fourth place. The Indians edged out the Philadelphia Athletics 5-4 on a ninth inning run produced by singles by Dick Porter, Bill Cissell and Earl Averill. Detroit beat the Boston Red Sox, 6-5 by bunching its blows off Lloyd Brown and checking Boston's late rallies.

The New York Giants increased their National league lead a bit by ringing up their 20th shutout victory of the season at the expense of the Cincinnati Reds while Pittsburgh got only an even break in a doubleheader with Brooklyn and Boston knocked off Chicago's Cubs for the second time. This put the Giants four games up on the Pirates, and 5 1-2 ahead of the Cubs and sent Boston into fourth place by a one-point margin over the St. Louis Cardinals, who divided with the Pirates.

Schumacher Wins

Hal Schumacher delivered the Giants their victory by a 5-0 score, blanking the Reds with five hits and rapping three himself. Danny Taylor and Van Mungo kept Pittsburgh from winning two games as Mungo held them to seven hits and one run in the eleven-inning opener and Taylor hit two homers to gain a 2-1 decision for Brooklyn. The Bucs lost little time in smacking Ownie Carroll and two successors for an 11-7 victory in the second clash.

Fred Frankhouse of Boston and Bud Tinning of Chicago engaged in a scoreless duel for seven innings, then the Braves cut loose and scored six runs in the eighth to win 6-1. The Phillies and Cards waged a pair of exciting struggles, St. Louis winning the first 7 to 6 in 12 innings when Jimmy Collins smacked a homer to break up the battle, and the Phils the second 2-0 as Austin (Cy) Moore got the better of Dizzy Dean in a mound duel.

SLATON JUNIORS DEFEAT LOCALS

The Lions and Kiwanians are scheduled for a Lubbock Junior baseball league game this afternoon at the Kiwanis park. It will be the last meeting of the teams this season, as the schedule ends next week.

Yesterday being an off day in the league, Manager Dutch Leuenberger's Rotarians journeyed to Slaton and came back with the small end of a 12 to 5 score following a conflict with the Slaton Juniors.

The Rotarians were off to a lead in the first with four runs. Slaton scored one in the first, another in the second and two in the third to tie the score, and took a lead in the fourth with a single run. Lubbock tied the score in the first of the eighth, and Slaton ran seven times. The Rotarians were held scoreless in the last inning.

The lineups:

Rotarians: Buckner, 3b; Sullivan, ss; Hill, ss; Campbell, c; Miller, 1b; Davidson, rf; Haney, 2b; Tyson, p; Donaldson, lf; Gantz, cf.

Slaton: Saage, cf; Henry, ss; Holland, 3b; Shaw, 2b; Taylor, lf; Felton, 1b; Mathews, c; Milliken, rf; S. Milliken, p.

Texan Beats Mark For Bulldogging

SIDNEY, Ia., Aug. 17 (AP)—Shorty Ricker of Ranger, Texas, bettered the world's record in bulldogging a steer in 3.8 seconds here Wednesday in the annual Sidney rodeo. Officials said the world record is 4 seconds flat.

SERIES IS SQUARE

TEMPLE, Aug. 17 (AP)—Botchey Koch, one-time star Baylor football player, slammed a home run over the fence yesterday in the eighth inning to give the Temple Surgeons a 2-1 victory over Rosebud and square the series of the championship of the Central Texas amateur baseball league, sponsored by the Temple Telegram.

SOUTH PLAINS GOLFERS TO VIE SUNDAY

MEADOWBROOK PLAY IS TO INCLUDE PLAYERS FROM OVER AREA

The third annual South Plains Invitation tournament, in which Edgar Doherty of Lubbock Country club will defend the championship, gives promise of attracting the largest and hottest field in the history of the joust, replies from golfing centers indicate.

W. G. McMillan, Meadowbrook manager and tournament director, reports that nearly every golfing center of the Plains will be represented by its crack players. The tournament is a one-day, 36-hole medal play event. Eighteen holes in the morning will determine into which flight the player falls for the afternoon round. An imposing list of prizes will be awarded winners of each flight and winners in special events. A prize will be awarded the four-man team shooting the lowest composite score; the youngest and oldest participant will be given prizes.

Charlie Qualls Here

Charles Qualls, golfing postmaster of Post, one-time West Texas champion, has signified that he will accompany a group of golfers from the Post country club; a delegation headed by C. N. "Shorty" Wood will come from Brownfield; Allen Ferrell, finalist in the recent Ruidoso tournament, will lead the Slaton delegation; Frank Rose and others from Lamesa are expected; Roy Cooper and Dr. Schwab will head Ralls' group of hotshots; Al Cool, Bob McCaskill, Johnson, Thrush and others from Littlefield and vicinity are expected; Frank Kimbrough and John Sears will head the Plainview group, and Fred Haile will accompany players from Spur.

Lubbock Country club and Meadowbrook will be well represented. John D. Munn, Cotton McAfee, Jo Dick Slaughter, Sid Thrash and Jess Lockhart from Country club already entered; Clinton Bussey, Manson Allen, Joe Bihl and Alfred Holton are to compete for Meadowbrook.

LONGHORNS TO PLAY HERE

GAME IN FALL OF 1934 ARRANGED BETWEEN TECH AND TEXAS

Completion of arrangements for a football game here in 1934 between Texas Tech and the University of Texas was announced yesterday by W. L. Stangel, chairman of the Tech athletic council, and Coach Pete Cawthon.

A contract, signed by both schools, was returned to Tech yesterday. It calls for Coach Clyde Littlefield to bring his Southwest conference eleven here for a game on September 22, 1934.

The game will be the first on Tech's 1934 schedule, taking the place of the Tech-Southern Methodist university game in that respect. The Mustangs, however, may play the Matadors later in the season, Stangel said. Tech completes a two-year contract with S. M. U. this fall when the Ponies come here for a night game, September 30. The Matadors defeated the Dallas rivals last year, 6 to 0.

Depending upon the success of the Matadors this year, Tech officials hope to schedule another game with an outstanding team next fall, Pete Cawthon, Tech coach said. Negotiations are under way with an unrevealed team or teams in the east regarding a game for 1934.

First Trip Here

The visit by the Longhorns next year will mark the first time, Cawthon said, that the University of Texas team ever played in this section of the state, or west of Fort Worth. The University of Texas "B" team has played Simmons university at Abilene, however.

The Texas Tech schedule for 1933 is complete except for a possible early season game September 23. The date is open and the Matadors may play away from home. Nine games are definitely scheduled, six of which are to be played at Lubbock.

Following the S. M. U. game here on September 30, the Matadors will go to Dallas on October 6 to play Dixie university, formerly Jefferson university, coached by Nick Dobbs. The next weekend finds them in Tucson playing a Border conference game with the University of Arizona.

Simmons Here Nov. 11

Louisiana Polytechnic comes to Lubbock on October 20. Tech goes to El Paso October 28 to play the Texas College of Mines. Haskell institute sends its Indians here November 4, and Armistice Day will be featured in Lubbock by an appearance of the Simmons university Cowboys. The game is designated also as the Homecoming Day game at Texas Tech.

Baylor university is here November 17, and the Kansas Aggies play here on Thanksgiving to wind up the season.

THE CHAMP WHO'S KNOWN AS LOU— BY LAUFER

One thousand three hundred and eight consecutive games! With the completion of that eighth game, the old larruper, Lou Gehrig, the big, bruising, belting first-sacker of the Yankees broke little Everett "Deacon" Scott's record . . . Scott, the frail little shortstop of the Red Sox, who started his string of 1307 games with Boston in 1916, and finished with the Yanks in 1922 . . . Boils nearly stopped Scotty's string . . . he had one on his eye one day and didn't go near the ball park . . . and it rained so hard that the game had to be called off, saving his chances . . . He played a series in Chicago with four yards of bandage around a boil on his throat . . . Waite Hoyt nearly stopped the string, too . . . heaved a wild one that caught Scott behind the head and laid him out until game time . . Missing a train in Indiana nearly cost "Deacon" his honors . . . The team was playing in Chicago and Scotty had to spend $42 for taxi fare in order to get to the ball park in time to play part of the game.

Then little Joey Sewell . . . Joe played 1102 consecutive games with Cleveland before the management, in view of an attack of tonsilitis, lumbago and ingrown toenails which threatened to ruin his career if he didn't lay off for a spell, stepped in and stopped him. . . . At that Joe set a record for consecutive games with one club. Now Gehrig . . . built in direct contrast to the two little fellows, Scott and Sewell . . . a big frame equal to the task of hectic work on the diamond.

Perhaps there's some youngster just starting out on the road to a new record for consecutive games played . . . When he passes Gehrig's mark he'll not only have set a record, but will have been one of the greatest players in baseball . . . as Lou has.

AMATEUR TENNIS PLAYERS OF SECTION TO COMPETE HERE IN TOURNAMENT STARTING MONDAY; ENTRIES CLOSE SATURDAY

* * * *

At the request of several potential title contenders, the deadline for entries in the Northwest Texas tennis tournament has been advanced to Saturday, August 19, it was announced yesterday. The tournament management requests, however, that players file entries as early as possible.

The tournament starts Monday, August 21, at the Texas Tech courts. Pairings will be announced Monday morning at the Texas Tech gymnasium and play will begin immediately. It will be necessary for all entries to be present Monday.

Littlefield Team Enters

A championship doubles team filed its entry yesterday when Bernard Lambert and Bill Wells, district interscholastic league champions in the doubles division, of Littlefield, signified their intentions of entering.

Although entries are coming in slowly, it is believed that a starting field including some of West Texas' and New Mexico's leading amateurs will be on hand. In addition to a large delegation of Lubbock participants, players from Abilene, Big Spring, San Angelo, Amarillo, Plainview, Roswell and perhaps El Paso are expected to enter the joust.

All players of the South Plains are especially invited. Abernathy is due to send a delegation; Slaton, Southland, Brownfield, Lamesa and Tahoka probably will be represented.

BUFFS STRETCH LEAD IN WIN FROM BUCS

HOUSTON TIGHTENS ITS HOLD ON FIRST PLACE IN TEXAS LEAGUE

BY BILL PARKER
Associated Press Sports Writer

The league-leading Houston Buffaloes tightened their grip on first place Wednesday with a 10 to 8 victory over the second place Galveston Buccaneers.

It was a slugfest with both clubs knocking the cover off the ball. Houston collected fourteen hits against fifteen for Galveston. Ed Ogreer and Mike Cvengros, two of Houston's aces, out-hurled Darrow, Tubbs and Moore. Credit for the victory went to Cvengros.

Keyes Paces Hitting

A six-run outburst in the third shoved Houston to the front, 6 to 3, but the Buccaneers whipped across with four runs in the fourth to command a 7 to 6 advantage. From this frame on it was a see-saw affair with the Buffaloes getting in more timely hits. Keyes paced Houston's attack with three hits, a single, double and home run that drove across three runs.

The San Antonio Missions remained in a tie for third place by taking the Fort Worth Cats, 10 to 8. The game was a barrage of hits from both sides with an added feature in which Manager Hank Severeid and Fred Tauby of the Missions had a run-in with Umpire Eddie Palmer. The two players started to shove Palmer around but found themselves cooling the bench when Palmer gave them the "ejected thumb." They protested a close play at third base.

Sports-Steers Split

The Beaumont Exporters opened their 14-day road trip by splitting a doubleheader with the Dallas Steers, 10 to 8, and 4 to 3. Art Herring and Judge Schulz cooled the Steers in the opener when the Exporters stampeded for six runs in the seventh inning. In the nightcap, John Whitehead and Barnabe combined on the pitching mound to hold the Exporters to four hits. Zeke Bonura, league leader in homers, hit his twenty-second of the season in the first game.

Rain forced a postponement of the Oklahoma City and Tulsa game.

FIGHTS LAST NIGHT

CHICAGO—Karl Ogren, 161 1-2, Chicago, outpointed Marty Simmons, 162, Saginaw, Mich., (10.)

QUINCY, Ill.—Al Stillman, 169, St. Louis, outpointed Petro Corri, 184, New York, (10). Ellis Bradley, 147, Quincy, and Joe Redd, 143, Little Rock, Ark., drew, (8). Tony Viviano, 114, St. Louis, outpointed Les Gartner, 114, Hannibal, Mo., (8). Babe Davis, St. Louis, knocked out Tommy Walters, Kansas City, (4).

VIRGINIA BEACH—Dewey Kimrey, 203, Charlotte, N. C., scored a technical knockout in seventh over Ted Sandwina, 209, New York, (10).

WINNIPEG — Charlie Belanger, 181, won decision over Buck Everett, 177, Gary, Ind., (10).

MONTREAL—Albert Ladou, New York, 126 1-2, defeated Roger Bernard, Flint, Mich., 127 1-2, by decision, (12). Paul Junior, Lewiston, Me., 131, knocked out Harold Steart, Montreal, 131, in tenth. Frankie Fiore, Montreal, 128, and Benny Brostoff, New York, 122, drew, (6).

DONIE BUSH PICKS GIANTS TO WIN NATIONAL BUT DENIES HE IS QUITTING GAME FOR CONTRACTING; SAYS WATCH BRAVES

BY EDWARD J. NEIL
Associated Press Sports Writer

NEW YORK, Aug. 17 (AP)—As Donie Bush, the fiery little fellow who runs the Cincinnati Reds, put it, "you can't dig a street without a pick. But you can't keep a fellow from trying, either."

That happens to be Donie's attitude toward his ball club at the moment, a hard luck team that is having a terrible time in the National league cellar, and double harrassed by the fear that the Brooklyn Dodgers will fall in on top of them.

Strange Coincidence

It's a strange coincidence, too, that little Donie's reference to his ball club should be couched in terms of digging in the street, for only last night it was announced in Indianapolis that he was listed as an incorporator, and the Indiana resident of a road material company just organized there.

Perhaps that meant that Donie, who won a pennant with the Pirates in 1926, was getting a bit tired of lickings, and would like to win one for a change, if only with a pick.

Not Quitting Game

"No such thing," said Donie stoutly. "I don't know enough about that company to say what it does. Some fellows talked to me and I said 'yes' but I'm not quitting baseball, that's a cinch."

Donie is another of the National league managers who believe, now that the first shock is over, that Bill Terry's Giants are going to win a pennant.

"The Cubs will be tough if they ever get back to their home park within reaching distance," he said. "They're terrors there even if they can't win on the road. The Pirate pitching is weak. The Cards are still dangerous. But watch those Boston Braves. They might be the surprise of the bunch.

"But don't be fooled," he warns, "about the Giants not being able to hit. No one's hit much this year. And when a pitcher's got Terry, Mel Ott and Lefty O'Doul coming at him in a row he's looking at hitters. And their pitching? There's been nothing like it since the old Cubs and White Sox days."

Two Tilts Scheduled In Soft Ball Today

Two games are scheduled in the Lubbock Softball association today.

In the American league, Hilton Hotel is carded to meet Lubbock compress. The contest is to be played at the Avenue K field.

J. & J. Sporting Goods company is slated to tangle with West Texas Gas company in the National league, at the Fair Park field. All games are to start at 6:15 o'clock.

Yesterday was an off-day in both leagues, the American league game having been played Tuesday and the Avalanche-Journal team being idle.

Tomorrow, Lubbock Printers and Mitchell's Cafe play at the Avenue K park, the only game scheduled.

tournament are requested to fill in the official entry blank, carried from time to time on this page, and mail it at once to Renford Taylor, tournament manager, at 2422 9th street, or the sports department of the Avalanche-Journal Publishing company. Telephone calls also will be accepted.

Arrangements have been made to provide meals and lodging for out of town players at a remarkably low cost during the three-day tournament. Attractive prizes will be awarded winners and consolation winners.

Labor Board Will Deal With Problems

WASHINGTON, Aug. 17 (AP)—The National Labor board has decided to deal directly with company officials in cases where workers charge they have been discriminated against and discharged because of union activities.

Dr. Leo Wolman, acting chairman of the board created by President Roosevelt, said today that many complaints of this character had been received.

The first step will be to submit the charges coming in from individuals, groups and organizations, to the company with a request for information. When that has been received, Dr. Wolman said, the board will be ready to act if necessary.

Kentucky farmers sowed 4,500,000 pounds of Korean lespedeza seed this spring, or 50 per cent more than in 1932.

Thought For Today

Stand now with thine enchantments, and with the multitude of thy sorceries, wherein thou hast labored from thy youth; if so be thou shalt be able to profit, if so be thou mayest prevail.—Isaiah 47-12.

* * *

Idolatry is certainly the first-born of folly, the great and leading paradox; nay, the very abridgement and sum total of all absurdities.—South.

Voice Of The People

A man who is looking for straws to show which way the wind is blowing could do a lot worse than to study those stories about the thousands of letters President Roosevelt is receiving commending him for the NRA campaign.

These letters, mostly, are from people who don't ordinarily sit down to write to the president. Some of them are misspelled, some of them are mere scrawls on bits of wrapping paper with stub pencils, some of them are formally typewritten and some are on scented paper.

There is no uniformity. They come from everywhere and everybody. But they all agree in one thing; each is an effort by a deeply-moved American citizen to tell the president that the blue eagle campaign is crossing the land like a strong refreshing wind, and each is a heartfelt pledge of support.

And the influx of these letters is possibly the most important single symptom to be found in all the land today.

* * *

These letters, that is to say, show how deeply responsive the American people are to this stupendous, complex and puzzling campaign against the depression.

For the letters are not being written by cranks or freaks. They are coming from ordinary people, men and women who do not usually dream of sending letters to the White House. The plain people of the country, who go voiceless year in and year out, are taking the trouble to speak their minds.

Not once in two or three generations do the American people really become aroused. If an awakening is coming now—and this flood of letters can hardly mean anything else—it indicates that the nation is tossing into the scales a united force of a size and strength such as America has employed only three or four times in all her history.

* * *

No one could make a greater mistake than to underestimate the significance of this.

This is not just another political movement; it is not just another fad, just another safety valve for confused and inarticulate public emotion.

The blue eagle is the emblem of a drive which has a united country back of it; and it all makes one think of General Johnson's recent remark—

"God help the man or men who get in the way of the national recovery program."

Notre Dame opens the football season this fall at Kansas U. on Oct. 7, which happens to be Boy Scout Day. Halfbacks will be inspired to do a good turn on every spinner play.

Seattle boy who smoked black cigars at 4, has quit at 9, saying "they taste terrible." Is there no end to the disillusionment of the younger generation?

New York Stock Exchange won't let anybody buy stocks any more unless he has half enough money. Lot of the boys will have to go back to craps.

"He tried to kiss me and I got mad and shot him," reports an Illinois girl. Man's on the spot either way these days. Some girls get mad if you don't try.

The Plainsman Says:

That Girl on Broadway says the only way to explain some successes is by that natural law: the sap rises to the top.

* * *

What we need to do is make 'NRA' stand for 'Now, Right About!"

* * *

THE story comes, via grapevine telegraph, to The Plainsman that Clifford Jones, Texas-New Mexico-Louisiana public works advisor, returned home the other day after going on a short trip to Ft. Worth and found three bushel baskets of mail piled up next to his desk.

Do you suppose somebody's been writing Clifford for a job?

* * *

That's the trouble about having either a big appointment or office.

There's always a bunch of people trying to climb on the gravy train by some means or another.

And it nearly worries a man to death, especially if he is trying to do the job to which he was elected or appointed.

* * *

THE Plainsman has no idea whether Mr. Jones has any jobs to hand out or not. It may be that he doesn't need any help, or the business of securing it has been delegated to someone else.

But if he needs a thousand people, Mr. Jones knows that many, or can find that many capable people to work for him because he has many friends and acquaintances from whom he can secure help and advice.

It's an imposition to expect him to open, read and answer three bushel baskets full of mail.

* * *

The incident recalls to The Plainsman a brief chat he had with a United States Senator at the conclusion of the Democratic National convention last year in Chicago. Having known the Senator when he was an unsuccessful candidate for Congress 15 years ago while working on a paper in his district, the writer was asking the Senator what his opinion was of the Democratic party's chances in the 1932 elections.

"I don't think there's any doubt but that Roosevelt will win and a great Democratic majority will fill the House and Senate", he replied, "but in one way I dread it."

"Dread it?" was The Plainsman's surprised reply. "Why do you dread it?"

"Because", said the Senator, "It means that everybody who ever voted for me, or acted like he voted for me, or who has a friend who voted for me will expect me to get him a job!"

And he must have been just about right.

IT is always the duty of every qualified voter to cast his ballot at the polls and in the special election on August 26 it is even more important that this duty be fulfilled.

The beer and repeal features of the election demand the voice of the citizenship and it is a sorry situation, indeed, that Texas' voting strength is less than half of normal.

* * *

Persons who are not going to be in their home precincts on voting day may and should cast absentee ballots. They can be secured at the office of the county clerk now.

Seekers of absentee ballots, however, will not be able to sign an affidavit that they have paid a poll tax, as is the case on election day and on usual absentee votes in general elections.

Before they can cast an absentee ballot they must display either a poll tax receipt or a letter from the tax collector certifying that the poll tax has been paid.

* * *

BECAUSE this is an 'off year' for regular elections, thousands upon thousands of Texans, as is the customary practice, failed to pay a poll tax. Now, with the all-important prohibition question before them, both wets and drys who did not get receipts wish they had done so.

It is disconcerting to consider that less than half the qualified voters will decide a question of paramount importance to the entire citizenship, yet never-the-less, that is a fact.

* * *

Maybe the situation in regard to poll tax receipts will be "an ill wind" that finally blows somebody good.

Maybe the condition will bring about the long and sorely needed reform in poll taxes in Texas.

The Plainsman has a poll tax receipt; pays one every year to be sure he can vote if anything comes up, so there're no sour grapes here. But he is against a poll tax as unfair, unjust and entirely unnecessary.

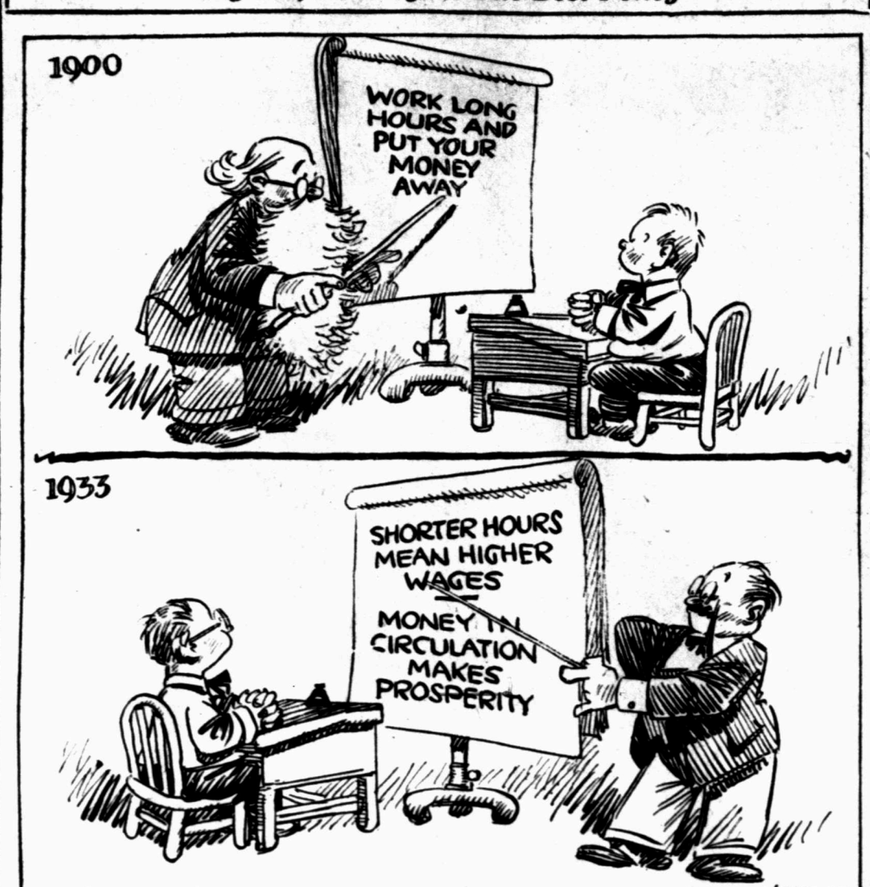

* * *

WHETHER a man has $1.75 to pay for a poll tax, or whether he hasn't, should not be the deciding factor in whether he has a right to vote or whether he hasn't.

The constitution never meant any such scourge to be put upon free men.

There's nothing right about it.

Anyhow, Honesty Is The Best Policy

Press Parleys Free And Easy In Capital Now; Roosevelt, Johnson And Others Answer Queries Without Hesitation

BY RODNEY DUTCHER
The Evening Journal's Washington Correspondent

WASHINGTON, Aug. 17.—The press conference has become one of the most important institutions in Washington.

Dutcher

It never used to amount to much. But now it is being taken with extreme seriousness by all concerned.

Hoover press conferences were relatively dull, frigid and barren. You wrote out your questions in advance and they might or might not be answered. Often the White House conferences were canceled. The whole administration took its cue from "the chief." Attendances everywhere were small.

But Roosevelt set the publicity pitch differently. On behalf of the newspaper-reading public, correspondents fire questions at will. Roosevelt answers with almost complete freedom, for publication or otherwise. Everybody laughs and has a good time.

Others Do Likewise

Cabinet members and emergency administrators followed suit. They all spill stuff "off the record," using Roosevelt's expression. Some conferences are hurly-burly, shirtsleeve affairs at which everybody yells at everybody else and matters of policy are debated.

Gen. Hugh Johnson always shows up in shirtsleeves and with his collar unbuttoned. His conferences are scheduled twice a week, but recently NRA, with an innovation strikingly demonstrating the new "freedom of the press" here, established a schedule of daily 15-minute conferences with each of 18 deputy administrators, advisors and other NRA officials.

"Big Shots" Attend

At a Department of Agriculture conference you always find a galaxy of "big shots"—Secretary Wallace, Assistant Secretary Tugwell, Administrator Peek, Co-Administrator Brand, Mordecai Ezekiel and a half dozen directors of production, finance, statistical, commodity or other branches of the Agricultural Adjustment Administration. They take turns answering questions.

Secretary of State Hull has a press conference every day. Secretary of Labor Perkins had to be persuaded, but consented to one conference a week.

This administration believes both in frankness and in propaganda.

Promoters Busy

Officials of the Public Works Administration are being subjected to an increasingly terrific pressure from promoters of projects and from jobseekers and their friends. Some of them are wildeyed and frantic.

Senators, congressmen, cabinet officers, chamber of commerce officials, lobbyists, visiting politicians, high pressure promoters and contractors make up the hordes which fill P. W. A. offices. Most of them are told: "No!" But it's hard to make them take that for an answer.

* * *

Worried by "Chiselers"

General Johnson becomes more worried daily by indications of a vast amount of "chiseling" by employers who sign the NRA blanket agreement and seek to evade its aims of spread work and more purchasing power. Asked what figures he had on the total of agreements signed, he answered, frankly enough:

"Even if I had any, it wouldn't mean anything. It all depends on how many people comply."

Secretary Dern's Lawn

The beautiful estate of Secretary of War Dern needed a grass-cutting badly. A call went from the War Department to Fort Myer and four soldiers were sent with lawn mowers. About that time Dern was making a speech in California and telling how the New Deal was providing jobs for everybody.

Somebody here squawked about that lawn-mowing and the soldiers were suddenly returned. The fort commandant explained it was all a "mistake."

Flapper Fanny

The problem nowadays is to keep from getting "round" on "three squares."

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. © 1931 C. M. Co.

With 'Whiz' BARRY Under The Capitol Dome

BY R. W. BARRY
Associated Press Staff Writer

AUSTIN, Aug. 17. (AP)—The population of the state capitol has shrunk considerably the past few weeks. There isn't as much "life" under the dome of the old red granite structure as there once was.

Completion of the new highway building was the signal for an exodus of several hundred persons from the capitol to the new structure and to the space the highway department vacated in the land office building.

Boards Move Out

The industrial accident board, board of water engineers, state reclamation department, board of health, tax commissioner's offices and several minor units which had been occupying cramped quarters for some time, moved either into the new building or the land office.

The highway department personnel is larger than any other department. Next in number of employes probably come the insurance department, the railroad commission, and the comptroller. The railroad commission and comptroller's department still are in the capitol. Part of the educational department is in the capitol and a part in the old courthouse building.

There will be renewed activity, when the legislature comes back to town soon, bringing with it the usual quota of employes.

Departments Scattered

Departments now are scattered in four buildings, all state-owned. There is some agitation for still another separate state structure to house the supreme court, the court of criminal appeals and the third court of civil appeals.

As it is now, persons who have business with several departments need roller skates or a bicycle.

When times get better, perhaps a liberal-minded legislature will finance construction of several miles of tunnels connecting all the buildings. Later on, there may be a system of torpedoes to shoot commuters to and from the buildings.

Answer to Previous Puzzle

THOUGHTS and THINGS

THE business of living, when boiled down and all the froth skimmed off, is just a matter of thinking.

Each of us is continually thinking ideas of our own and swapping them for the ideas of others. If there is a famine of outside ideas we shrivel up ourselves. Children with "nobody to play with" are unhappy and unmanageable.

From thinking with our heads to doing with our hands is but a little step and then our thoughts become things.

It is because men of America are so unfettered in their thinking and doing that this country is such a fine place to live in. It is also because these thoughts are freely radiated and spread broadcast, in the distribution of manufactured things and in the distribution of the facts about them (advertising), that this country is such a fine place to live in.

The originator of an idea is not much better off than before he originated it till he gets some one else to absorb it and enjoy it and benefit by it.

The man or woman surrounded by better thoughts and things but who pays not the slightest attention to them is not much better off than the one with "nobody to play with."

The advertisements in the papers are thoughts—telling you about the things that other men and women have created for your happiness. Read the ads. They are the voices from hundreds of thousands of looms, shops, foundries, studios, laboratories, where millions of minds are turning pleasant thoughts into worth-while things for your comfort.

HOLDUP STRING ATTRIBUTED TO MEN HERE CONTINUES TO GROW LONGER

The holdup string attributed to Hiram J. ("Happy") Weeks, alias Woodson, and Jack Kinsley, two of three men charged here with rob- bery with firearms after being ar- rested in New Mexico, continues to lengthen in the files of Sheriff Tom Abel.

L. W. Elliott, special agent of the Skelly Oil company, of Tulsa has informed Sheriff Abel that Weeks and Kinsley are accused of holding up and robbing a Skelly filling sta- tion attendant of $28.60 in Tulsa, June 30, and a Sun-Ray station there July 9. In the first holdup, the attendant was forced to accompany the bandits several blocks in an automobile.

Agent Elliott enclosed pictures of Weeks and Kinsley, who served sentences in the Oklahoma state re- formatory at Granite for burglary in Lincoln county, Okla., and said Skelly employes would identify them as the holdup men.

Woodson, Kinsley, and Fonzie Winslo Gressett, all charged with robbery of two filling stations here, are held in Lubbock county jail. All three have figured in two jail-break attempts, one by violence, here this month.

DAILY MARKETS

Cotton Market

NEW ORLEANS COTTON

NEW ORLEANS, Aug. 17 (AP)—Cotton had a somewhat firmer opening today although Liverpool came in about as due.

First trades here showed gains of 9 to 12 points and prices con- tinued to improve after the start. Oetober advancing to 8.80 and De- cember to 9.04, or 15 to 17 points above yesterday's close. Price fix- ing by the mills, covering by sat- isfied shorts and some buying by ring traders based on inflationary reports from Washington were the incentives behind the advance.

Later in the first hour the market eased off to 8.73 for October and 8.96 for December, or 7 to 8 points down from the earlier highs due to realizing. Renewed trade buying, however, carried prices up 1 to 3 points from the lows.

The market was very active all morning and scored a spectacular advance of about $3 a bale from yesterday's close. This advance was due to the over-sold condition of the market.

After dropping to 8.70 for October and 8.90 for December down 10 to 14 points from the early highs, but still 2 to 5 points above yesterday's close, prices rallied sharply, October advancing to 9.25 and December to 9.45, a recovery of 55 points on both months from the earlier lows to levels 58 to 68 points above yester- day's close.

Near midsession the market quiet- ed down considerably and prices eased off 12 points from the highs on profit taking. At the midsession levels prices were still 47 to 48 points above yesterday's close.

NEW YORK COTTON

NEW YORK, Aug. 17 (AP)—Cotton opened firm, 8 to 17 points higher in response to steadier cables and on commission house buying. Oct. 8.75; Dec. 8.98; Jan. 9.13; March 9.27; May 9.47; July 9.57.

December sold up to 9.06 on the early demand but while liquidation was less active, there was more or less southern selling and offerings increased after the opening of the wheat market.

The lower opening of the stock market may also have been a factor on the decline that followed and which carried December off to 8.96, or about 10 points from the early high and within 7 points of yester- day's closing quotation.

A sharp rally in the grain market proved a signal for a sharp upturn in cotton and for a time buying orders poured into the market from prctically all directions. Part of the demand was attributed to Chicago interests thought to have sold cot- ton against holdings of grain, while there was buying from Wall Street, local and commission house sources. December contracts rose to 9.52, a gain of 63 points or more than $3.00 per bale above yesterday's closing price. Offerings increased slightly at this level while the demand became less urgent and the market later was quieter with prices at midday show- ing reactions of some 15 to 20 points from the best.

The market advanced further late in the day on higher sterling ex- change and general buying, futures closing very steady, 64-75 higher. Spot quiet; middling 9.30.

Conference Called To Discuss Airmail

WASHINGTON, Aug. 17 (AP)—The postoffice department announced late last night that it had sum- moned airmail carriers into a con- ference on August 24 to discuss the need for reducing airmail expendi- tures so as to keep them within the amount allowed by congress.

Last session, congress, after much wrangling, cut the total airmail ap- propriation from the $19,460,000 al- lowed last year to $15,000,000 for the current twelve months.

The call for the new meeting was issued by W. W. Howes, second as- sistant postmaster general in charge of airmail.

Grain Market

CHICAGO REPORT

CHICAGO, Aug. 17 (AP)—A beginning of a return to normalcy in grain dealings started today in the corn market.

Instead of the usual daily procedure of tumbling at once to the bot- tommost prices allowed under emergency rules, corn today opened at but 1 3-8 to 2 7-8 decline, and in active dealings rose quickly 1 1-2 cents from the initial minimum. Oats followed the leadership of corn. Wheat lagged at five cents setback from yesterday's finish, with sellers far too numerous to permit any immediate rally.

Jones was placed un- der $250 peace bond, County At- torney Vaughn E. Wilson said.

FIRST GROUP OF CONTRACTS LET

AUSTIN, Aug. 17 (AP)—The first group of contracts under the plan of the federal government to re- lieve unemployment through in- creased highway construction had been tentatively awarded today by the Texas Highway commission.

Work orders on seven projects, to cost $410,287, will be issued by the commission when the contracts have been approved by the federal bureau of public roads, expected within a short time.

Federal contracts were tentatively awarded in Collingsworth, Dallam, McLennan, Fayette, Mason, Kin- ney and Valverde counties.

Low bidders also were announced on state projects in Bexar, Angelina, Franklin and Red River counties. The total contract price for projects in these counties was $210,340.

BIDS INVITED

WASHINGTON, Aug. 17 (AP)—The treasury today invited bids for $60,- 000,000 of 91-day treasury bills to be sold to the highest bidder next Monday. They will be dated Aug- ust 23 and will mature November 22.

Stock Market

WALL STREET REPORT

NEW YORK, Aug. 17 (AP)—Financial markets rallied with a semblance of their recent buoyancy today but af- ter a fast 20 minutes or so, most of them dropped back to their rou- tine movements of the past several days.

A sharp turn-about of grains at Chicago, after they had slumped around their day's limit at the op- ening, touched off a sharp recovery in shares which had generally been lying dormant. In the brief up- swing many equities gained 1 to 5 or more points and the ticker tape dropped behind floor transactions. Wheat became irregular, however, and cotton, which had shown gains of about $3 a bale, also yielded some of its territory. Stock buying, consequently, slowed down and the market resumed its apathetic jog. The dollar was a bit easier in for- eign exchange dealings.

Although trading activity dwin- dled to a minimum, a number of the share favorites held their early gains. National Distillers got up around 6 points, while issues up 3 to around 5 included Case Thresh- ing, Celanese, Industrial Rayon, Western Union, U. S. Industrial Al- cohol, Du Pont, Deere, Sears Roe- buck, Montgomery Ward, Allied Chemical, American Telephone, U. S. Steel, American Commercial Al- cohol and New York Central. Santa Fe, Chrysler, Union Pacific and a number of others retained 1 or more points of their early advances.

NINETEEN-YEAR-OLDS LEAD ARRESTS IN SERIOUS OFFENSES SO FAR IN '33

(By The Associated Press)

WASHINGTON, Aug. 17—Latest tables showing that 19-year-olds topped the lists of arrests for seri- ous offenses in the first six months of 1933 brought suggested solutions today from a number of persons es- pecially alive to the problem.

The justice department's report showed that from January to June it examined 159,493 finger prints records of arrests.

Individuals aged 19 outnumbered all others.

Offenses Graver

Although 19-year-olds exceeded 18-year-olds by only 10 per cent, in total arrests, their offenses were graver. Age 19 exceeded age 18 by 74 per cent in criminal homicide; 37 per cent in carrying weapons; 34 per cent in assault; 27 per cent in robbery.

Mrs. Franklyn D. Roosevelt's analysis was that youthful crime has risen largely because the ad- ventures of criminal life have been idolized.

"The right kind of education has to come back!" was her solution.

Foolishness Cited

J. W. B. Smith, fresh from racket- eering investigations in Illinois, as aide to Joseph B. Keenan, head of the anti-racketeering drive, said if young criminals "think they can escape, all they have to do is look at the last fifteen kidnapings, and see how perfectly foolish that idea is."

He added:

"Mr. Keenan deprecated the honor bestowed on the gangster in movie films. Serious attention should be paid to that part of the problem."

Cuban Ambassador To U. S. Is Named

HAVANA, Aug. 17 (AP)—Marquez Sterling, former Cuban ambassador to Mexico, accepted appointment to- day as ambassador to the United States. Sterling, who is now in Washington, cabled his acceptance to provisional President De Ces- pedes.

RULING ON BEER

(Continued from Page One)

sale of 3.2 beer is legalized on Aug- ust 26."

Hooper pointed out that the bill licensing and regulating the sale of beer, passed by the legislature to be- come operative in event the consti- tution is amended to permit such sale, will not become effective until September 15, and "then only in event the constitution is amended."

Hooper said that until that time "it will be a clear violation of law for any person, directly or indirectly, to possess or receive for the pur- pose of sale, to manufacture, sell, transport, export, deliver, take or solicit orders for vinous, malt or any other liquors capable of produc- ing intoxication or containing al- cohol in excess of one per cent by volume."

"Under no conditions, therefore, may any of these things be done prior to September 15 and any per- son who manufactures, transports, sells, or takes orders for 3.2 beer or wine prior to that time will have committeed a felony and will be subject to punishment by a peni- tentiary term," Hooper wrote in his opinion.

Can Withdraw Licenses

Hooper pointed out that, under the regulatory law, officers charg- ed with the duty of issuing licenses for the manufacture, distribution or sale must first ascertain whether those seeking such licenses are law abiding citizens.

"If, therefore, it should be shown that the agents of brewers have solicited orders for 3.2 beer or wine, or caused the same to be delivered into this state in violation of its laws prior to September 15, they will be denied a license, either as man- ufacturers' representatives, distribu- tors or dealers," Hooper wrote.

"Existing laws apply with equal force to railroads. The agents of such carriers who accept 3.2 beer and wine for shipment into this state or who permits such ship- ments to be unlawfully diverted in this state, do so in open violation of a law which is well understood by every citizen.

Can Confiscate Car

"The officers of Texas should not permit railways, or any other car- rier, to transport any beer or wine into this state, either for the pur- pose of future delivery or sale, or for storage until September 15. In all instances where such shipments or unlawful diversions are discov- ered it is the plain duty of the peace officers to seize, without war- rant, the liquor, as well as the car containing it. Moreover, all officers and agents of any such carrier who are parties to the unlawful trans- portation or diversion should be prosecuted as provided by law.

"I am sure that every prosecuting attorney and every peace officer in this state fully understands that the liquor laws of this state are in full force and effect and that unless they are modified by the proposed amendment to the state constitution on August 28 they will continue with the same meaning and force as in the past 14 years. Moreover, the liquor laws of this state are not modified in the slightest degree by the recent act of congress legal- izing the sale of 3.2 beer and wine. The act of congress specifically protests and preserves the right of the state to enforce its own liquor laws."

AGREEMENT REACHED ON "OPEN SHOP"

WASHINGTON, Aug. 17 (AP)—An agreement between the automobile industry and the NRA upon the "open shop" provision of the in- dustry's code was reached today with spokesmen for the manufacturers ac- cepting a modification proposed by Robert W. Lea, deputy administra- tor.

The change, which officials indi- cated represented the views of Hugh S. Johnson, the administrator, was the first modification of the "col- lective bargaining" labor clause of the industrial act which has been written in cooperation with the NRA.

Provides Collective Bargaining

The law as written provided for the organization and collective bar- gaining of employes with no re- straint upon the type of represen- tation they might select.

The additional modifying provi- sion which was written in today af- ter a conference between Lea and representatives of the industry may continue the open shop policy under which the selection, retention and advancement of employes will be on the basis of individual merit with- out regard to their affiliation or non-affiliation with any labor or other organization."

Others Opposed

Two other proposed modifications of the collective bargaining clause, included in the steel and coal codes, have met the opposition of the ad- ministration.

The belief was expressed by an official of the administration that the wording of the automobile code might be substituted in other major non-union industries to point the way to a settlement of the controv- ersies over union organization.

Farm fires cause deaths of 3,500 people annually in the United States and Canada and property loss of $150,000,000, says the University of Illinois agricultural department.

BAILEY'S CASE NOW UP TO CUMMINGS

DALLAS, Aug. 17 (AP)—Depart- ment of justice agents said today that the next move in prosecution of Harvey Bailey and four members of the R. G. Shannon family in connection with the kidnaping of Charles F. Urschel, Oklahoma City oil millionaire, was up to Attorney General Homer Cummings.

They said Cummings would decide whether Bailey should be prosecuted for the kidnaping or turned over to Missouri authorities to answer for the killing of four officers and Frank Nash, escaped convict, at the Kan- sas City union station.

Defense counsel entered the case for the first time today when Grady Woodruff, state senator from De- catur, appeared to represent the Shannons. Woodruff said he was not interested in Bailey's case and so far as could be learned, no attorney had attempted to communicate with him although the justice agents said Bailey would be permitted to con- fer with counsel just as the other four defendants had been.

Bailey, in solitary confinement in the county jail, said he had made no attempt to communicate with counsel.

"I will do that at the proper time," he said.

Continue Investigation

The department of justice, under the direction of Frank J. Blake, con- tinued meanwhile investigation of the kidnaping gang whose leader, Bailey, they captured on the farm of R. G. Shannon near Paradise, Tex., early Saturday. Shannon, his wife, their son Armon and Armon's wife were brought to Dallas.

They all protested vigorously yes- terday when Lee R. Smith, United States commissioner, set their bonds at $50,000 each on federal warrants from Oklahoma City charging them with kidnaping. Woodruff said he did not know whether he would seek to have the amounts lowered.

They were seized, along with Bailey, then federal agents return- ed to lie in wait for George Kelly, husband of the elder Mrs. Shan- non's daughter, Catherine. But kel- ley did not return. There had been unverified reports that he was with a gang of kidnapers who engaged a posse of 300 Chicago officers in a machine gun fight Tuesday and that he was seen driving yesterday through Nebraska toward Denver.

Officers in the Colorado capital redoubled their guard over Albert Bates, also charged in the Urschel kidnaping, who was arrested there as a bank robber suspect, then was found to have part of the Urschel ransom money in his possession.

Federal officers revealed then that the arrest of Bates and Bailey had frustrated an elaborate trap by which they hoped to capture the pair if they attempted to carry out a plot to kidnap Guy Waggoner, wealthy Fort Worth sportsman who is summering in Colorado. Waggoner was guarded by J. R. Wright, Unit- ed States marshal for the northern Texas district.

The Waggoner ancestral home at Decatur is only a few miles from Shannon's farmhouse where Urschel was held prisoner and where Bailey was captured.

FARMERS FORM ASSOCIATION

CENTRAL TEXAS GROUP HAS PROTECTIVE ASSOCIATION

(By The Associated Press)

TEMPLE, Aug. 17—Farmers from Falls, Milam, Williamson and Bell counties laid plans today for filing an application for a charter this week for the Texas Farmers' Pro- tective association, an organization of Central Texas farmers which has grown out of protests against assert- ed wide differentiation between the price charged for ginning and the price paid for cottonseed.

Plans for applying for the charter were made at an organization meeting in Flaghall community, east of Temple. Another meeting has been called for Friday night at Central, Texas. Farmers have con- sidered holding their seed from market and disposing of it through the association in large lots. Meet- ings have been held in thirty com- munities of this section during the past week to consider the situation.

ed from announcement a final ef- fort would be made at Geneva, be- ginning August 21, to effect a wheat control agreement between the United States, Canada, Argentina and Australia. Success would mean a maximum acreage reduction in this country for which the govern- ment stands ready to distribute $136,000,000 in benefits to growers.

Failure, it has been intimated, would result in minimum reduction requirements and "use of full pow- ers to protect American wheat pro- ducers."

BRAZIL'S INFANT FILM INDUSTRY IS LUSTY

GLAMOROUS BEAUTIES OF SOUTH AMERICAN FILM CAPITAL TO STAR IN NEW PORTUGUESE TALKIES; EXPANSION PROGRAM IS PLANNED

Blond Dea Silva (left), brunet Carmen Santos are two reasons why Brazilians like their national movies.

RIO DE JANEIRO, Aug. 17 (AP)—Brazil's infant movie industry, encouraged by the success of the half-dozen silent offerings it has produced, will make several Portuguese language talkies this year. An expansion program envisages ten or twelve a year in the near future.

Although the producers feel that American films will continue to hold most of the Brazilian market, they have found that Brazilians welcome a few movies about their own country, and in their own language. Portugal makes the market larger.

Dea Silva, a shining blond who got a contract after she won a beauty contest and Carmen Santos, a striking brunet from the stage, are two of the most favored women players. The casts, technical staffs and directors are all-Brazilian.

The most successful Brazilian film so far had its locale in Matto Grosso, this country's far west.

Massacre Of 300 In Iraq Reported

LONDON, Aug. 17 (AP)—The Daily Herald reported today that more than 300 Assyrian christians had been massacred in a village in northern Iraq within two miles of an Iraq army camp.

The killings were attributed to the commander of Iraq troops in northern Iraq who was said to have used Kurds to attack the Assyrians as they were returning from French Syria after recent border disturbances.

The commander also was alleged to have caused fourteen Assyrian prisoners to be summarily shot.

Suit Is Filed To Recover State Tax

AUSTIN, Aug. 17 (AP)—The Humble Oil and Refining company has been made defendant in a suit brought by the state to recover $190,502, claimed due in gross production taxes.

The petition alleged that the company had deducted two per cent from the total amount of oil produced, and paid its gross production tax and pipe line tax on a basis of 98 per cent, instead of 100 per cent as required by the laws of the state.

Early Styles Are Shown Last Night

Early fall styles in sport, street, afternoon, and evening wear, and sport and fur coats were exhibited by Jarett's Cinderella shop at the Lindsey theater last night.

Models were Misses Pauline Jarrel, Floyce Apperson, Katie Lou Allen, Johnnie Margaret Taylor, Mary Sargent, and Mrs. Virda Lee Davis. Dance numbers and orchestra music also were presented.

CONGRESS COULD MAKE UP ITS OWN NEWSPAPER STAFF

BY HERBERT PLUMMER
Associated Press Staff Writer

WASHINGTON, Aug. 17—While the membership of the senate and house probably is composed chiefly of those who are now or have been engaged actively in the practice of law, other professions have their share of representatives in the national legislature.

CARTER GLASS

One of the ranking professions is journalism.

In the present senate alone there are 11 men who are now or have been during their careers either editors or publishers, or both, of newspapers. In the house upwards of 27 have had active association with this profession.

Virginia leads by having both of her senators newspapermen. Carter Glass owns the Lynchburg Advance and the Lynchburg News. Harry Flood Byrd publishes the Winchester Star.

Capper, republican of Kansas, is editor and publisher of the Topeka Daily Capital. Vandenberg of Michigan was editor and publisher of the Grand Rapids Herald.

• • •

Sanctum To Senate

Dill of Washington was once a reporter on the Cleveland Press and Cleveland Plain Dealer. Nye of North Dakota has been publisher of four newspapers in various sections of the northwest.

Murphy of Iowa has been a reporter and editor for 20 years. Cutting of New Mexico at first was president of a publishing corporation and later publisher of the Santa Fe New Mexican and the El Nuevo Mexicano.

Bailey of North Carolina was editor of the Biblical Recorder from 1893 to 1907. Fess of Ohio has been editor of a newspaper as well as an author.

In the house, Ford of California was magazine and literary editor of the Los Angeles Times until 1929. Deen of Georgia is editor and proprietor of a weekly newspaper.

Wearin of Iowa is the author of a weekly farm service. Musselwhite of Michigan is owner, editor and publisher of the Manistee (Mich.) Advocate.

• • •

—And So On

Shoemaker of Minnesota was editor and publisher of the People's Voice in Green Bay, Wisconsin, from 1921-27, and of the Organized Farmer at Red Wing, Minn. Christianson of Minnesota is owner of the Dawson Sentinel, which he has published for 15 years.

The veteran Edgard Howard of Nebraska, who resembles William Jennings Bryan in personal appearance, publishes the Columbus Daily Telegram.

Schrugham of Nevada published the Nevada State Journal from 1927 to 1932.

Focht of Pennsylvania publishes a weekly in Lewisburg and is president of a publishing company.

Price Regulation Of Oil Up To FDR

WASHINGTON, Aug. 17. (AP)—A determination of the extent to which the federal government shall go in regulating prices and production in an oil code tonight rested with President Roosevelt, on whose desk differing views were understood authoritatively to have been laid by recovery aides.

An early decision was expected from the chief executive because of his desire to bring immediately under the encompassing wings of the NRA's Blue Eagle the hundreds of thousands employed and the billions invested in the petroleum industry.

The Easter egg custom can be traced back to very early times. Red was the color most frequently used for dyeing since it symbolized the blood of Christ. Primitives used plant juices to dye the eggs.

Approximately 13,000,000 whitefish were planted in Saginaw bay and Lake Hurn this spring by the state of Michigan.

Upsy-Daisy

Boris may be king to the Bulgarians, but to the young lady he holds in his arms in this picture he is just papa. The baby is Princess Maria Louisa, daughter of Boris and Queen, Joanna, formes Italian princess. Princess Maria is potential heir to one of the few remaining thrones in the world.

"I am so happy— the last pimple is gone"

—because pimples tend to thrive when normal resistance is lacking, your first thought should be to build up your blood structure . . . the way to do this is by increasing the red-blood-cells and their hemoglobin content . . . this will permit a greater oxygen intake—from the lungs—into the blood and tissues—including the skin . . . nourishment will be better converted into energy and tissue repair . . . body cells, which fight against micro-organisms (pimple germs) will be strengthened.

Then why not try S.S.S.—a proven tonic for decades? Proved effective by extensive scientific research and by millions of happy users. You, too, may have a clear skin. Get S.S.S. at any drug store. The big 20 oz. size is more economical and is good for a two weeks' treatment.

Dies Of Grief

PITTSBURGH — Two years ago Fire Captain Gilbert S. Westphal dropped through a burning floor in a box factory blaze. His wife, herself ill, nursed him back to comfort, if not complete recovery, from injuries. Death came to Mrs. Westphal, and less than 24 hours after her burial, Westphal died. His son says a broken heart was the cause.

No Prohibition?

SAN FRANCISCO—Joe Giordani was arrested, charged with operation of a still.

"Hah," he said to prohibition agents. "You can't arrest me for this. California repealed prohibition two months ago."

A U. S. Commissioner straightened the situation out in Giordani's mind by fixing bail at $2,000.

Sleep By Orders

WILMINGTON, Del. — Truck drivers are snoozing along Delaware's highways today, but it's due neither to the depression nor the recovery program.

State police are stopping trucks and, whenever they find the drivers or helpers have been working more than 16 hours, the troopers compel them to sleep. Confiscation of drivers'

"This certainly makes it easy to pick the best"

"Best traction— GOODYEAR"
Tests settle this point. Tests on wet pavements. Score—Goodyear stopped 10% quicker than the second best—and 77% better than the poorest. In other words, Goodyears stop quicker than ANY other tire.

"Safest plies— GOODYEAR"
You get safety in every ply of a Goodyear Tire. Every ply is built of Supertwist cord—and anybody who sells Goodyear Tires can show why Supertwist stands more punishment than any ordinary cord. More than that—every ply runs from bead to bead.

"More mileage— GOODYEAR"
One of the toughest tests of mileage is on bus fleets. And they don't guess, they know what mileage they get. Here's what they know about Goodyears—97% more mileage than 5 years ago!

"—all of which adds up to this: Goodyears give you more of EVERYTHING"

PRICES?
No more than you'll pay for other tires—and less than you paid for most Goodyears last Fall.
