## Granddaughter of Mrs. Shelton Marries at Lubbocki

Miss Empress Cynthia Signor and Preston Snyder Hallman III exchanged double ring vows at 4 p. m. Saturday, August 27 in the first Methodist Church of Lubbock with Rev. Jack A. Gray minister of the Cochrell High Methodist Church in Dallas, officiating the ceremony.

The bride is the daughter of Mr. and Mrs. Charles Signor, 4514 2nd St. Hallman is the son of Mr. and Mrs. Preston S. Hallman of Fort Worth.

Given in marriage by her father, the bride wore a gown of beau D'ange accented by reembroidered Alencon lace. An empire bodice with a square neckline, matinee sleeves and A-line skirt formed a slim silhouette. Her panel train fell to chapel length and the bouffant veil of scalloped English silk illusion was attached to a bow of Alencon lace with pearl trim. She carried a cascading bouquet of stephanotis centered with phalaenopsis orchids trimmed with picot-edged satin and peals.

She wore the traditional something old, new, blue and the six pence in her shoe, her mother had worn in her shoe at her own wedding.

Mrs. David Hutson of Dallas was her sister's matron of honor. Bridesmaids were Miss Rebecca Madole of Dallas, Miss Martha Hallman of Fort Worth and Miss Nanci Oden. Mrs. Edwin Shaw of Arlington was bridesmatron.

The attendants wore floor length dresses of cordial crepe fashioned along empire lines. The dresses were designed with portrait necklines, mock jackets and slim skirts. Venise lace edged the jacket and sleeves. They wore matching lace Dior bows as headpieces and carried bouquets of rubrum lilies and pink sensation roses edged in velvet.

Best man was Kendall Weatherford. Duff Hallman of Fort Worth, Steven Radcliffe of Houston, Ty Petty of Fort Worth and John Barron of Odessa were groomsmen. Ushers were David Lee Dobbs of Ft. Worth and David Truman Hutson of Dallas.

Wedding music was provided by Mrs. Dortha Barrett

and Charles Signor, father of the bride.

The altar was backed and flanked on either side by white pillar candles. On the altar were arrangements of white Glads, roses and carnations.

A reception in the church parlor followed the ceremony. The bride's table was covered with an imported cloth of white linen and Venise lace which overlaid a floor length chiffon skirt. A silver epergne flowed with masses of butterfly roses, stock and miniature carnations with smilax foliage centering the table.

The groom's table was covered with an imported cut work ecru linen cloth and a brass and copper service was used. Flowers for this table were in yellow and gold.

When the couple left for a wedding trip to New Mexico the bride wore a flaming red suit with antique gold silk blouse and sandalwood accessories.

The bride is a graduate of Lubbock High School and attended Texas Tech. She is presently employed at the Fort Worth National Bank Trust Department.

Hallman is a graduate of Paschal High School in Fort Worth and attended the University of Texas. He is now attending Texas Christian University in Fort Worth and will be a candidate for January graduation with a B. B. A. degree in management. He is a member of Sigma Chi social fraternity.

Parents of the bridegroom were hosts for the rehearsal dinner Friday evening at the Lubbock Club.

Thirty-five attended including Mr. and Mrs. J. Walter Duff of San Angelo, grandparents of the bridegroom and Mr. and Mrs. Charles S. Signor, parents of the bride-elect.

The tables were decorated with an arrangement of butterfly roses, votive lights in silver containers.

A wedding brunch at 11:30 Saturday in the Lubbock Country Club honored Empress Cynthia Signor, Preston Snyder Hallman III, members of their families, wedding party and out of town guests. Hostesses were Mmes. Russell Bean, W. G. Hearn, W. G. McMillan and Miss Jane Edwards. The bride is granddaugh-

## 'As It Looks From Here'

Omar Burleson, M. C. 17th District, Texas

Washington, D. C. — This is the Third and last of a series of three articles in an attempt to analyze in a "down behind the garden" way something of our present economic situation and the direction of the future.

It should be pointed out again that there are all sorts of means for capturing earning assets for the Government and replacing them with paper assets as Ponzi did, who got appointed an officer of a solid conservative bank, took the had earning assets out of the bank for his own corporations and replaced them with paper that no one scrutinized very carefully.

We now have what is known as "Participation Sales Act of 1966." In essence, this provides that Government lending programs, totaling about \$33 billion over the last few years, be transferred to commercial banks. In other words, commercial banks make loans for such agencies as the Office of Education, Department of Housing and Urban Development, the Small Business Administration, Veterans Administration, Government goes on the note. These sums do not show in the President's Budget, although they are a liability of the taxpayers. It will never show as an obligation.

There Is Undoubtedly A Weakness in industry due to dependence on the Government orders which, in turn, are dependent on the value of inflated money.

Look at the several ways the Government can bring its influence to bear on the economic activities of many segments of our American life. First, if the industries holding vast Government contracts, of which there are many, do not support the Administration, contracts can be withheld or withdrawn. Second, the Government is a stockpiler of what are considered to be "strategic" materials. If those in the industry of producing these materials are considered out of line, the Govern-

ment has a supply to throw on the market to depress prices. Third, manufacturers of most anything must compete with foreign imports. The Government has the advantage of opening up the importation of goods in competition by increasing the quotas or lowering the tariffs.

The vast majority of American institutions, including colleges and universities, receive aid in some form or other from the Federal Government. Should they be in opposition to certain policies, their grants and loans may be withheld. The public schools in several Southern States are now experiencing this treatment.

If a political decline is under way, these techniques of subsidies and other favors are a principal vehicle for it. The proponents of centralized Government seek to weld all possible voting blocs to the national Administration, until finally practically every segment of the population sees no future for itself except by dependence on Government assistance. The Federal establishment can exert a degree of political pressure with power its predecessors never enjoyed. As has been mentioned in this column before, there is a cant for Federally guaranteed income for everybody, whether he chooses to work or not, forgetting the values of initiative and self-respect. This device is supposed to instill dignity in those who lack it. The opposite is bound to be the effect.

It seems our Government should be able to take advantage of the lessons of history and, in fact, a lesson from what happened to England at the very moment. The British have been on the downward drift for the last several years, and today they are reaching close to the bottom.

The fact remains that the average Englishman has never had it so good, and seemingly can care less about his Nation's basic problems. In England, jobs are plentiful, wages have seldom gone up so fast and everyone is earning more and more by producing less and less. The British Government provides about everything and under such circumstances, it is hard to find people who are genuinely concerned about their Country's declining role in the world. Simply put,

## War On Poverty Loans Being Repaid

Over 750 families in Texas found the means to start working their way up from the poverty income level through family Economic Opportunity loans during fiscal 1966, L. J. Cappleman, Farmers Home Administration State Director, said today.

Mr. Cappleman reported on progress of a leading program administered by the USDA Farmers Home Administration for the Office of Economic Opportunity.

The past fiscal year saw 751 loans totaling \$1,258,940, made to rural families in the lowest income group to provide tools, supplies, and working space they need in order to earn a better living.

Since the program began in January, 1965, loans totaling \$2,548,120.00 have been made to over 1535 families throughout Texas.

Mr. Cappleman said the Economic Opportunity borrowers are following more than 124 different kinds of non-agricultural enterprise, in addition to farming, as a result of the helping hand extended them through the program. Loans average \$1659.00 a family, with a maximum of \$2,500.00 in effect.

"These are loans to families at the bottom of the economic ladder. Nation-wide more than half of them existing on less than \$1,500.00 a year for family living expenses," Mr. Cappleman said.

"The borrowers are rural people who have been isolated in poverty, with nowhere to look except to their own capacity for self-employment.

"Their most common handicap has been lack of money or credit to equip themselves for the more profitable work they might do if they had the tools.

"Economic Opportunity loans help them overcome

they are living on credit. Should be not take some lessons and ask ourselves if we aren't getting "too much nuthin for sumpin?"

## MATTRESSES

New or renovated and box springs quality made. Save up to 50 percent renovated. Choice size or firmness. Guaranteed by Western Mattress Co., San Angelo. Phone Landes Furniture, Rotan, WI 7-3171 and leave orders.

this obstacle. The loans stake them to the things they need for a profitable farming enterprise or to increase their income by following a trade or performing a service needed in their home communities.

"The plan is working. The rural Economic Opportunity borrowers are working their way forward, and they are paying back their loans."

Nation-wide first studies of the results realized by borrowers who have had their loans approximately 1 year showed gains in gross family income averaging \$2,800 a year for families starting non-agricultural enterprises, and \$900 a year for families using Economic Opportunity loans to improve their method of farming.

The year-old loans were being paid back, on the average, 8 percent faster than scheduled.

The Office of Economic Opportunity has delegated loan-making under the program to the Department of Agriculture's Farmers Home Administration, which has a network of 1,600 county offices throughout the United States to serve rural people lacking other sources of credit for farming, housing, and small enterprises to boost substandard family incomes.

### ROTAN HD CLUB TO MEET

Rotan Home Demonstration Club will meet with Mrs. J. W. Porter at 2:30 Friday. Demonstration will be "Making Papier Mache Pins". All members urged to attend.

### State Fair Features Teenager Groups

The big beat will come to the big fair October 8 through 23 in Dallas! A Teenage Stage will be the focal point in the Varied Industries Building during the 1966 State Fair of Texas, which will have as its theme "Exposition of Young America."

In a combined production of Melody Shops of Dallas and the State Fair of Texas, the Teenage Stage will jump with the rock'n roll beat of dozens of musical combos during the 16-day run of the fair.

Musical groups will play 30-minute programs, rotating throughout the day until the fair closes at night. Each day, a dozen different combos - big ones, middle-sized ones and little ones, professional and amateur - will keep the air filled with music.

Exhibits in the Varied Industries Building will help to carry out the "Exposition of Young America" theme, with everything from jazz records to job recruiting and from musical instruments to motor bikes. Young models in modern fashion also will be spotlighted on the Teenage Stage.

And throughout the entire 1966 State Fair, entertainment exhibits will reflect the interest of youth. In other musical attractions, the big Circus, Cotton Bowl spectaculars, livestock, the Midway and many special events, there will be many things to see and do - all designed for the young at heart!

### Lunchroom Menu

Daily Lunch Menu for week of September 12 to 16 is following.

Monday - Fried Chicken, Gravy, Buttered Squash, Whipped Potatoes, Cantaloupe Wedges, Hot Rolls, Butter, Honey and Milk.

Tuesday - Ham Sandwiches, Pimiento Cheese Sandwiches, Buttered Corn, Tomato Wedges, Carrot Sticks, Cherry Cobbler and Milk.

Wednesday - Barbecue Weiners, Mashed Potatoes, Buttered Spinach, Cabbage, Apple and Celery Salad, Hot Rolls, Butter, Milk and Cinnamon Crisps.

Thursday - Pinto Beans, Potato Salad, Pickled Beets, Tomato Wedges, Crispy Cornbread, Butter, Milk and Cake Squares

Friday - Tuna Macaroni Salad, Green Beans, Sliced Tomato, Potato Chips, Hot Rolls, Butter, Ice Cream and Milk.

### Go Signal Given Soybean Growers In FDA's Report

WASHINGTON, D.C. - Soybean growers were advised today they can use toxaphene or toxaphene-DDT insecticide formulations in their insect control programs without fear of illegal residues. The announcement came as result of FDA action establishing official tolerances on both chemicals.

Toxaphene and toxaphene-DDT combinations are currently used with great success in controlling insect pests on cotton and a wide variety of other crops.

The new tolerances mean that soybean growers can treat their crops with toxaphene or toxaphene-DDT up to three weeks of harvest. Most insect pests are no longer a factor this late in the season, and controls are not usually required. The FDA order permits two applications of toxaphene-DDT formulations after pods form, using dosages as high as four pounds of toxaphene plus two pounds of DDT per acre.

This is welcome news to soybean growers who are looking for dependable, economical insect controls. Toxaphene and toxaphene-DDT formulations are highly effective against the corn earworm, the velvetbean caterpillar, the bean leaf beetle, armyworms, cutworms, and a variety of other leaf and pod-feeding insect pests.

**A NEW BIBLE ...**

**for ME!**

She really is delighted because her church is presenting her with a new Bible. She understands and appreciates this gift, because in earning it she has committed many verses to memory, and thus learned to value God's word. The churches desire that all would study and learn to love God. Plan to attend church this Sunday and share in this knowledge and joy.

**EVERYONE IN THE CHURCH**  
**THE CHURCH IN EVERYONE**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

### Ford Co. Announces New Warranty

Ray Brown, owner of Rotan Motor Co., Rotan, today announced that all purchasers of 1967 model Ford cars and light trucks will receive a 24-month or 24,000 mile basic vehicle warranty along with a 5-year or 50,000-mile warranty on the power train components, which include the engine, transmission, drive line and rear axle.

The new warranty, Mr. Brown said, is the best the industry has to offer and will be an important factor in backing up the superior performance which customers have come to expect from Ford cars and trucks.

The 24,000-mile warranty was pioneered by Ford Motor Company on the Lincoln Continental and was later extended to the entire vehicle line.

"Extension of this warranty on the power train components for 1967," Mr. Brown said, "is possible because of continued progress toward quality and reliability goals that year after year have enabled Ford dealers to be the leader in providing products requiring less and less maintenance."

Terms of the new warranty provides that for 24 months or for 24,000 miles on the entire vehicle, whichever comes first, and for 5 years or 50,000 miles on the power train, whichever comes first, free replacement, including related labor, will be made by authorized dealers of any part with a defect in workmanship or materials.

Tires and tubes are not covered by the warranty; appropriate adjustments will continue to be made by the tire people. Owners will remain responsible for normal power train and other maintenance operations, such as wheel, brake and clutch adjustments and engine tune-ups, and for routine replacement of such items as filters, spark plugs, ignition points, wiper blades, and brake and clutch linings. To maintain the power train warranty protection the owner need only present evidence to a Ford Dealer and obtain his certification, once every twelve months, that the minimum services required every six months or 6,000 miles have been performed. This means that the engine oil and oil filter have been replaced and the carburetor air cleaner and filter, crankcase oil filler breather cap, automatic transmission front intermediate band, emission control system, lubricants and engine coolant have been serviced according to the recommended maintenance schedule of the vehicle in question.

The new warranty covers both the original owner and subsequent owners during the specified mileage and time periods.

Mr. Brown said that his dealership would introduce their new 1967 models to the public on Friday, September 30.

**Linda Morgan Wins District**

Linda Morgan, daughter of Mr. and Mrs. Bobby Morgan of Roby won first place in District 4-H records judging with her record in Home Improvement, according to Mrs. Alice Ballenger, Fisher County Home Demonstration Agent. Records were judged in Vernon August 12.

Linda is 16 years old and has been in 4-H club 6 years. She is a member of the Fisher County Jr. Leaders 4-H club.

Linda's 4-H project this past year in Home Improvement included re-decorating and re-arranging several of the rooms in her home.

Records winning first in District judging will be sent to State in the near future for judging there.

Mr. and Mrs. Barney Bigham visited in Lufkin several days with Mr. and Mrs. Bob Bigham and attended the wedding of their granddaughter, Charlotte Bigham to Ray Carter at Tyler.

Mrs. Tillie E. Lacy of Turkey, Texas is visiting her daughter, Mrs. Buddy Burnett and family.

WOC Eugene Spivey of Cam Wolters, Mineral Wells, visited Mrs. Spivey and children last weekend. He is in pilots training.

**Herald of Truth Program Scheduled**

Abilene, Texas — Word has been received by the elders for the Highland Church of Christ, Abilene, Tex., that the Mutual Broadcasting System has scheduled a special 50-minute documentary program featuring the Herald of Truth radio and television programs.

The program — "Broadcasting A Voice for Morality" — has been scheduled for September 11, at 4:05 p.m. The network is contributing, as a public service, 25 minutes of its time, pre-empting the regular programming. The Herald of Truth is releasing the regular 25-minute time period. The broadcast will be in two parts, separated by a regularly scheduled newscast. The program will go behind the scenes of the 1966 Herald of Truth Workshop, held Aug. 17-18, and excerpts from the actual speeches will be included in the broadcast. Emphasis will be given to the need for a universal return to moral values that will strengthen the character of our nation.

When asked about this special broadcast, W. F. Cawyer, one of the elders of the Highland Church of Christ said, "The network is contributing this time and participating in this effort because they feel that the quality of our programs and the results that we have had make the Herald of Truth a logical choice for the subject of a program about religious broadcasting."

In a letter to the elders, Harold W. Wagner, director of Religious Programming for Mutual, said, "The excellence of the Herald of Truth and its producers' desire to make the program a vital force in improving our nation's moral climate are obvious. This has been a strong factor in our decision to participate in this special broadcast..."

Mr. and Mrs. Claude Thompson Jr., Glenn and Greg of Haskell and Mrs. W. C. Sargent recently returned from an eighteen day vacation. The group spent the first night in Santa Fe, N.M., then on to Ouray, Colorado, known as the "Little Switzerland of America," then on to Salt Lake City, Utah, where they took a tour of "Temple Square" the fabulous Mormon Tabernacle, also a tour of the state capitol. They then went through Idaho to Jackson Hole, Wyoming, through the Teton National Park, where they had reservations for Seven Days. While in Yellowstone, they made four tours of the complete park and one into Montana where they saw the Earthquake area of the 1959 earthquake, Glenn, the oldest son of the Thompsons, was real proud of himself for having caught the first and only speckled trout. Unlike most fishermen — Glenn said it was next to the largest in the river — not the largest. To Glenn this was the thrill of a life time. It supplied supper for that night. From Yellowstone, the group traveled to the Black Hills of South Dakota and the Mt. Rushmore National Monument. From here the group traveled through Nebraska and to Dodge City, Kansas, where they toured the Historic Old Front Street, Boot Hill, Dodge City — They came through Oklahoma and back to Haskell having toured 3,711 miles and ten states, which makes twenty-four States, they have toured in three summers.

Mr. and Mrs. George Field, Mrs. Melton Field and Leigh Ann attended a 60th wedding anniversary at Roseville Sunday honoring Mr. and Mrs. Tom Love and then went to Temple for a family reunion.

Mr. and Mrs. Charlie Lambert of Aspermont visited his sister, Mr. and Mrs. Barney Bigham Tuesday.

**Cooper-Sawyer Wedding Vows Said**

Roberta Ann Cooper, daughter of Mr. and Mrs. Chester Cooper of Huntington Beach, Calif., formerly of Rotan, became the bride of George E. Sawyer, also of Huntington Beach, Tuesday in First Baptist Church.

The Rev. Billy Hudnall officiated. The bridegroom, also formerly of Rotan, is the son of Mr. and Mrs. Frank Sawyer. Mrs. Carroll Murphree was organist and Murphree was soloist.

Craig Rowland and Sammy McClure lighted candles and seated guests. Flower girl was Joretta Sawyer and ring bearer Ernest Cooper, Jr.

The bride, given in marriage by her father, wore a gown of lance over satin with seed pearl and iridescent accents. Front of the skirt was of tiered lace ruffles.

Her veil of illusion was attached to a crown of lace petals embroidered with seed pearls. She carried gardenias and carnations on a lace fan.

Attending the bride were Janet Deen of Merkel and Ginger Sumerlin.

They wore ice blue gowns with lace accents, and circular headaddresses with brief veils. They carried blue carnations. Best man was Weldon Sawyer of Andrews, and groomsmen were Willie Ray Sawyer of Graham, both brothers of the bridegroom.

Mrs. Leo Hofmann of Mason came Tuesday of last week and visited several days with her daughter, Mrs. Bart Strayhorn and Mr. Strayhorn.

Mr. and Mrs. Leonard Rattliff and children of Midland spent the weekend here with her parents, Mr. and Mrs. B. B. Crawford and other relatives.

Jackie Cave and children of Farmington, N.M., visited her parents Mr. and Mrs. J. C. Cave over the weekend. Mrs. Cave was unable to come.

Joan Miller of Corpus Christi spent last week here with her friend, Connie White and Mrs. White and Connie took her home Friday and visited until Sunday.

Mr. and Mrs. M. E. Worrell and Patricia of Dallas visited her mother, Mrs. E. E. Patterson last weekend.

Mr. and Mrs. Eddie Mack Allen of Spearman visited their parents, Mr. and Mrs. Earl Halcomb and Mr. and Mrs. Bill Hudnall during the holidays. They both teach in Spearman schools.

Mrs. Sam Cleveland has returned home after spending several days with her daughter, Miss Bessie Cleveland in Fort Stockton, where Miss Cleveland is a member of the school faculty.

Mr. and Mrs. J. W. Kincaid and Mr. and Mrs. J. Wendell Kincaid, Ronnie and Jan visited their daughter and sister, Mrs. Neil Hyer and family in Andrews Sunday.

Dwayne Underhill has enrolled at Southwest State College, San Marcos for the coming year.

**PARENTS OF A SON**  
Mr. and Mrs. Bobby Gruben are the proud parents of a boy, Tony Lynn, born September 3, 1966 at 12:54 a.m., weighing 8 lbs and 1 and three-fourths ounces.

Mrs. Vesta Owns of Amarillo and Mr. and Mrs. William Coppedge of Abilene visited their parents, Mr. and Mrs. Miller Coppedge last weekend. Mrs. Coppedge is able to be home after several weeks treatment in Callan Hospital, and is improving.

**Mrs. Cleveland Honored On 80th Birthday, Aug. 28**

The children and grandchildren of Mrs. W. S. Cleveland honored her on her 80th birthday with a lovely dinner August 28 at VFW building. Mrs. Cleveland received many beautiful gifts which were on display.

Mrs. Cleveland and the late W. S. Cleveland came to Fisher County in 1906 from Grayson county and settled in the Pleasant Valley community, east of Rotan, farming there for many years. They later moved to Rotan where Mrs. Cleveland still resides.

Those enjoying this happy occasion with Mrs. Cleveland were, Mr. and Mrs. J. C. Edwards, Mr. and Mrs. Walter Cleveland, Mr. and Mrs. Leonard Cleveland, John, Paul and David Wiley of Rotan.

Mr. and Mrs. W. M. Williamson, Mr. and Mrs. Freddy Williamson, Linda and Connie, Mr. and Mrs. F. O. Levens and Gaynell McGinnis of Roby.

Mr. and Mrs. H. A. McGinnis, J. Sid and Marsha of Dumas.

Mr. and Mrs. D. C. Walker and Ken, Mrs. Claudene Edwards, Vernon Edwards, Mark and Tom, Mr. and Mrs. Frank Levens, Mindy and Jeff, Mrs. Charles Cleveland, Charles II and Wayne Larry Williamson, Mr. and Mrs. Kenneth Edwards and Kenny of Abilene.

From Midland, Mr. and Mrs. David Levens and Angelia. Mr. and Mrs. Jimmy Dugan and Kay of Anson.

Mr. and Mrs. Edd Odgen of Roby.

From Rotan, Mr. and Mrs. A. C. Snapp, Mrs. Alvin Gruben, Mr. and Mrs. Danie Gruben, Mr. and Mrs. Lon Weems, Mrs. Mack Rivers, Mrs. Mattie Key.

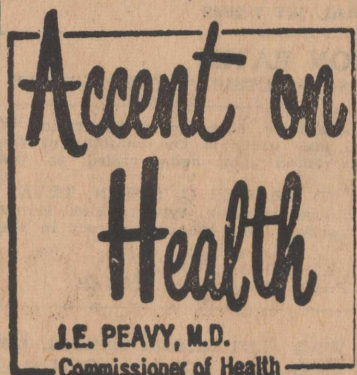

Mr. and Mrs. Bill House spent Labor Day weekend in Dallas visiting her son and family, Mr. and Mrs. C. W. Bookout Sr. and Mrs. David Bookout, Mike and Randy.

Mrs. Margaret Cooper and David of Big Spring spent last weekend here with her mother Mrs. J. V. Hellums.

Mrs. Adeline Fraser of Kerrville visited Mr. and Mrs. J. R. Strayhorn Thursday and Friday of last week.

The pinnacle of success is no place for the person who likes lots of company.

**A weekly public service feature from the Texas State Department of Health**

Austin — Hay fever is neither caused by hay nor is it associated with fever, but the 10,000,000 Americans who suffer from it know the misery of stuffed running noses, watery inflamed eyes, sneezing, wheezing and general discomfort.

Hay fever can be caused by trees, grasses, molds, weeds and even disintegrated insects' bodies. But the greatest sinner — nationwide — is the ragweed. In only five hours one ragweed plant can produce 8 million pollen grains that can be airborne over a distance of 75 miles.

In Texas some varieties of cedar trees are the principle offenders and in some areas of the State, there is no escaping drifting clouds of pollen sweeping across a city from rural areas nearby.

Of the four species of ragweed, three grow knee high, but the fourth — the giant ragweed — reaches head high. For some unknown reason, the giant ragweed's scientific name is *Ambrosia trifida*. *Ambrosia*, of course, means, "pleasing to taste or smell." No hay fever sufferer would agree with that definition.

It may seem strange, but the ragweed pollination season begins earlier in the north than in the south. In parts of Canada ragweed starts pollinating in the latter part of July, whereas in South Texas it begins about the middle of September.

Reason for this phenomenon is that pollination occurs as the amount of sunlight becomes less. Thus the farther south the plants are, the later their pollination starts.

Why some of us become allergic to cedar pollen; others to ragweed, penuts, molds or insects remains a mystery. But it is known that the allergic tendency is inherited.

Mild seasonal attacks can usually be treated effectively with simple medications prescribed by your doctor. More severe or persistent cases may require skin tests and desensitization against the

differ from person to person. If asthma or other complications occur, still other methods of treatment will be required. Your doctor can determine which treatment is best for the individual case.

There are also a number of personal measures one can take to avoid or ease the distressing symptoms. Try to keep doors and windows closed as much as possible during the susceptible period. Central air conditioning with filtration, although expensive can provide gratifying relief.

**Football Heat Deaths Preventable, Says AMA**

CHICAGO—Heat deaths among high school and college football players could be a thing of the past if coaches and players follow recommendations made at a meeting here recently.

When football practice opens in a few weeks, the first hot days could be dangerous for players unless precautions to avoid heat illness are taken now, a panel of medical and sports authorities agreed.

Heat illness last year caused the deaths of one college football player and four, possibly five, high school players. It contributed to "close calls" and injuries of many more.

The five-man panel, appearing at a meeting sponsored by the American Medical Association's Committee on the Medical Aspects of Sports, agreed that:

1. Prospective football players should get out of air-conditioned surroundings now and start getting accustomed to vigorous exercise in hot weather.

2. Coaches should abandon the old practice of withholding water from athletes during practice. Failure to replenish water and salt lost through perspiration increases the chances for heat exhaustion or heat stroke.

3. Athletes should be acclimated to hot weather by carefully graduated practice schedules. At least the first five days of practice should be devoted to non-contact workouts.

4. Both coaches and players should be alert for signs of heat illness, such as lethargy, stupor, awkwardness, or unusual fatigue.

University of Kentucky football coach Charles Bradshaw said his squad's practice sessions were improved by regular breaks for water and rest. Overworking players in hot weather only decreases their efficiency, he said.

Said Purdue University's team physician, L. W. Combs, M.D.: "Coaches used to think that if a player lost a lot of weight on the first day or so of practice, it was a good workout. Actually, all the player lost was body liquid—which is dangerous."

Allan J. Ryan, M.D., team physician at the University of Wisconsin, agreed with Dr. Combs. "Any player who loses more than three per cent of his body weight in a practice session is not getting enough salt and water," he said.

Excessive salt and water loss can result in heat stroke, an extremely dangerous condition, Dr. Ryan pointed out. Anyone can suffer heat stroke if he is active in hot weather and neglects to replace salt and water lost by perspiration. The result is a breakdown in the sweating mechanism and collapse.

If prompt measures aren't taken to get the heatstroke victim cooled immediately, the result can be death — sometimes within 15 minutes.

Approximately 850,000 boys in 14,500 U.S. high schools now play football, said Clifford B. Fagan, executive secretary of the National Federation of State High School Athletic Associations.

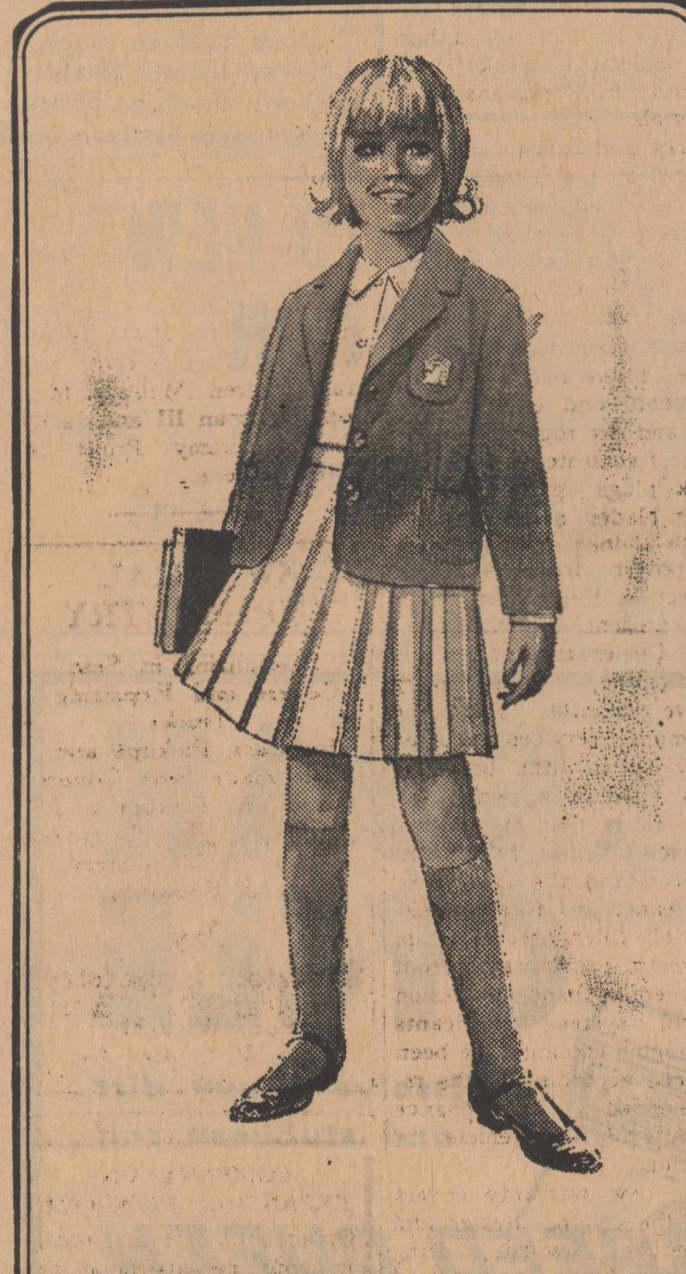

"The few deaths that occur in football can probably never be completely eliminated," Fagan said.

"but we can eliminate deaths due to heat illness—they are preventable."

Coaches can avoid trouble by keeping a close watch on their players for the first signs of heat illness, said William E. Newell, athletic trainer, at Purdue University and executive secretary of the National Athletic Trainers Association.

Parents can help protect their athlete-sons by watching for signs of fatigue and emotional strain, such as loss of appetite and poor sleep habits, Newell said.

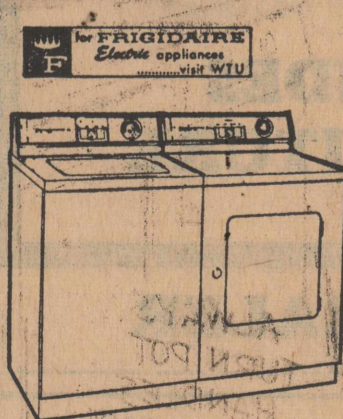

Fred Hein, Ph.D., director of the AMA Department of Health Education and secretary of the AMA's Committee on the Medical Aspects of Sports, was panel moderator. Dr. Ryan is a member of the AMA Committee on Exercise and Physical Fitness, and is a past president of the American College of Sports Medicine.

## Jimmy Wright Is Named County 'Star Young Farmer'

Jimmy Frank Wright, 31 years of age, was recently named "Star Young Farmer" of the Fisher County Young Farmers Chapter. This honor was achieved through outstanding farming ability, leadership, and community interest.

Wright lives 4 miles South of Roby in a new 3 bedroom home, the family moved into last March. He farms 500 acres of land with cotton his principal crop, and leases 45 acres of pasture land where he runs around 10 head of cattle and a few horses. During his spare time he is the DeKalb seed dealer for the Roby area.

Jimmy Wright went into the farming business at an early age. When he was only eight years of age his dad (Floyd Wright of the Busby community) bought him his first tractor. This same year he made his first money of his own plowing for a neighbor.

Wright graduated from Sweetwater High School

with Agricultural honors. He attended Abilene Christian College for two years where he was president of the Aggie and Rodeo Clubs.

In 1955 he married the former La June Hollis at Sweetwater, and went into partnership with his father in the farming and dairy business. In 1960 Wright received much publicity on his mighty electric mill that would grind, mix, and deliver feed automatically to his dairy cattle.

After seven years in partnership with his dad Jimmy Wright went into farming on his own.

This past year Wright made 170 bales of cotton on 190 row acres. He states he has about \$16,000 dollars in farming equipment, cattle and other items around the farm that he has purchased the past 3 years, he has been on his own. He has his own welding shop where he repairs his own equipment when in need.

Wright is a active member of the Roby Church of Christ, School Board, Executive Vice-President of the Fisher County Young Farmers Chapter.

This past year the Fisher County Young Farmers under his leadership were named the outstanding new Young Farmer Chapter in Area II and one of the outstanding new chapters in the State.

Wright made a trip to Washington D.C. with a group from Fisher County in 1965 to appear in the Skip Row hearings. This group spent 3 days in Washington visiting with Government and Agriculture leaders trying to save the skip row farming for Fisher County where it is needed so.

Jimmy and La June Wright have 3 children, Judy Lynn 8, Jan Louise 4, and Jill Luann 3.

Jimmy Wright will compete with other outstanding farmers at the Area II convention at Snyder September 17th. The winner there will compete for State honors later in the year at Corpus Christi.

Midwest Electric Cooperative at Roby will present him with a trophy at the Fisher County Young Farmers Banquet in October.

## Medicare Should Be Before Age 65

Every month, 120,000 Americans reach the age of 65. The soon-to-be-65's are asking these days, "When is the best time for me to sign up for medicare?"

The answer, according to R. R. Tuley, Jr., Abilene social security district manager, is that they should sign up two or three months before they reach 65.

If they wait until the month they reach 65 or the following 3 months, their hospital insurance protection under medicare begins right away, but their coverage under the voluntary doctor bill insurance will not start until 1 to 3 months after they sign up for it.

Tuley explained that the medicare law provides a 7-month initial enrollment period for the voluntary doctor bill insurance part of the program. This period begins with the 3rd month before the person is 65, includes the month in which he reaches 65, and ends with the 3rd month thereafter.

"The best time to enroll," he said, "is in one of the 3 months before you reach 65. If you do so, your protection starts with the month of your 65th birthday. Waiting until that month to sign up will mean the coverage can't start until the following month. And enrollment in one of 3 months after the month you are 65 can mean a delay of up to 3 months in the start of your protection."

He further explained that failure to sign up during the 7-month initial enrollment period may mean that the individual will have to wait until the next general enrollment period. This is always the last three months of add-numbered years. But even then the older person will have to wait until the following July for the protection to start, and the premium payments will be 10 percent higher.

"This matter of a delayed start in protection could have serious consequences if the individual had high medical expenses meanwhile," he pointed out. The voluntary medical insurance part of medicare covers doctor bills for home, office, and hospital visits, surgeons' fees, and a wide variety of other medical expenses in and out of the hospital.

Hospital insurance coverage begins with the month a person reaches 65, providing he applies to establish his eligibility no later than 12 months following that month, Tuley said. Like social security cash benefits, hospital insurance payments are retroactive for up to 12 months. There is no such retroactive payment under the medical insurance part of medicare, he emphasized.

For people who were 65 or over before March 1, 1966, the medicare law set a general enrollment period that began September 1, 1965, and ended May 31, 1966, during which they could sign up for voluntary doctor bill insurance to supplement their basic hospital insurance under medicare. Over nine out of ten elderly people enrolled for this supplementary protection.

Since May 31, Tuley said, almost 40 percent of those applying to enroll in the medical insurance applied too late to have their coverage start with the month they reach 65.

About 8 percent had waited until the month of their 65th birthday; 24 percent until one of the 3 months following that month — but still within the 7-month enrollment period. Five percent did not apply until after the end of their enrollment period and fill not have another chance to enroll until the next general enrollment period, October 1, to December 31, 1967.

## Health & Safety Tips

The fall school term is here for millions of American youngsters and their parents once again are reminding themselves that there are some things that must be done to get the children ready.

The American Medical Association recommends a medical examination for the child who is starting to school for the first time. Your doctor will know what to do. His examination will cover all essential aspects of your child's health. It is better if this examination can be made, and booster immunizations given, a few weeks before school starts. Some school systems require a medical exam for beginning students. Many schools also require certain immunizations against infectious diseases. Your doctor will know the regulations in your neighborhood.

Most doctors now feel that four or five examinations during the elementary and high school years are sufficient for most children. These usually are spaced at the start of the first school year, about the fourth grade, about the seventh grade, at the ninth or tenth grade and upon graduation from high school. And, of course, if any untoward symptoms arise at any time, a visit to the doctor is in order.

A special examination also is important if your child is participating in school athletics.

In the excitement of the first few days of school, the small child may forget all of the safety warnings you've been teaching him. Each parent should be sure the child knows how to cross intersections en route to and from school. He should know about proper deportment on the school bus. He should know the rules of bicycle safety.

Give careful thought to your child's entire schedule during the school year. Does he have plenty of time to play? That is, play at things he selects, and not something that you or a teacher select for him. Does he have time to just sit and dream, if he wants to?

Or, are you lining up a fall and winter that includes daily rounds of music lessons, dancing, after-school athletics, social affairs, family affairs in which the child must participate whether he wishes or not?

Cooperation between the home and school and the guidance of the physician can prevent an overload.

If you're a teacher, try to remember that yours is not the child's only class, and try not to overload him with too much homework and outside assignments. Remember that other teachers also are giving assignments, and that there are limits to how much young minds and bodies can absorb.
