

and he said election there to the County a general of the County order made on and this order. April, A. D. JEE GIBBS, County, Texas.

# THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, May 24, 1928

Number 6

Miss Edna E. Christoferson, deputy sheriff of Portland, Ore., demonstrated her deadly accuracy with a revolver when she shot a score of 94 out of 100, tying the New York Police championship mark.

## NEW RAILROAD PROPOSITION UNDER ADVISEMENT

One of the best known and most successful railroad builders in Texas visited the Chamber of Commerce the past week and presented a new plan for the construction of a steam railroad through this section of the county.

The plans are being generally worked out by him and will be presented in detail to the Chamber of Commerce which meets Saturday night at the court house.

The preliminary suggestions are of a practical nature and bears the ear marks of one that might be realized on within a reasonable period of time. We have had a number of plans under advisement the past few months and it seems this section of the State is getting its share of consideration from this point of view.

Everyone is urged to be present at the meeting Saturday night, when the details of this plan will be presented.

## SENIOR B. Y. P. U. PROGRAM

May 27  
Time—7 p. m.  
Place—Baptist Church.  
Topic: D. L. Moody, Evangelist.  
Introduction—Ramsey Randolph.  
Early years—Luther McDonald.  
The Sunday School Scout—Mrs. Crabb.  
City Missions in Chicago—Ruth Lee Hoggett.  
Evangelism in England—Melba Johnson.  
Again in England—Mrs. Frank Wilson.  
Again in America—Bennett Kindrick.  
Special song, "The Ninety and Nine,"—Mrs. Luther McDonald.  
Bible Quiz—Grady Kindrick.  
Rev. J. S. Newman left Monday for Streetman, accompanied by his daughter-in-law, whom he was taking home. Rev. Newman's son, E. E. Newman, is in the Standifer Hospital recovering from an operation for appendicitis, and it is said that he is rapidly recovering.

Word was received here Tuesday night from A. W. Loeffler who is in the Houston Clinic at Houston, stating that he had undergone an operation for appendicitis, and was resting well at that time. His many friends will be glad to know that his chances for a speedy recovery are good.

Mr. Lee Lowry had the misfortune last Tuesday to get the middle finger of his right hand in too close connection with the electric meat slicer at the Junction Grocery Co. store, and lost the tip end if said finger.

The demonstration at the Borden Ice Company plant last week, was a success in many ways, according to statements made by Mr. Borden and a number of the ladies who attended.

## C. OF C. MEETS SATURDAY NIGHT, MAY 26

The regular monthly meeting of the Kimble County Chamber of Commerce will be held at the Court House Saturday night, May 26. This meeting promises to be one of the most important of any meeting yet held. We would like very much for our members from the country to attend, and we are extending an invitation to every country member to be present.

Among other things of importance will be the consideration of the proposition made us by the Texas-Mexico Airway Incorporated of San Antonio, for the construction of a first class aviation field near Junction. Mr. R. J. O'Bryan of Houston will be here and we will discuss the golf proposition from every angle.

Every member as well as every citizen who is interested in the development of Kimble County should be present at this meeting. We feel that the Chamber of Commerce deserves credit for helping to put many things over that have been and are being beneficial to each and everyone of us. What we need is the concerted effort of our entire citizenship in order to overcome the onslaught of surrounding competitive municipalities as well as the Highway organizations to the north and south of us. So come out, be genial, be sociable and work for the benefit of our community.

In addition to the above attractions we are going to serve an A-1 supper at 8:00 o'clock.

## To the People of The 86th State Representatives District:

I will not be a candidate for re-election as representative from this district, because I am financially unable to hold the office again. I reached this conclusion after much consideration on my part, for I would greatly have enjoyed holding this office again without opposition, as it has been indicated that I might, but as stated the holding of the office requires the sacrifice of time and money that I can ill afford to lose.

I desire to express my appreciation and thanks to a great number of worthy and loyal friends throughout the District to whom I am indebted for many and unusual acts of kindness and assistance. I shall always cherish the association and friendship of the good men and women of this large district, in cooperation with whom it was my pleasure to serve during my tenure of office, and which was made possible to me by reason of the kindness of the people of the District.

For more than one reason it has been a pleasure to serve the people of this district in the Legislature. No man ever had a more loyal and helpful citizenship behind him and co-operating with him than I have had during my two terms of office. What has been accomplished for the interests of this district has been accomplished more by the people than by myself.

Respectfully,  
Roscoe Runge.

## CLASS ENTERTAINED

The Efficiency Bible Class of the Methodist church were entertained last Friday afternoon at the home of Mrs. Ovie Buster with a birthday party with the following as hostesses: Mesdames Joe Ramsey, Dalton C. Jetton, G. Cavares, Wm. Taylor, Nichols, E. Lowgren, O. Baster. Sandwiches, cake and iced tea were served to the following members and guests: Mesdames Milton Hill, B. B. Ragland, Son Hodges, House, Jim Massie, Lockley, H. H. Lawler, Keyes, E. C. Jordan, H. Bierschwald, Lockrenger.

The B. B. Ragland residence being built on the lot just north of the C. W. Atchison home, is progressing nicely and will soon be completed.

## DONATIONS FOR TARTARIANIZATION OF MAIN STREET

The business people and residents of this city whose property adjoins the main street of Junction have contributed liberally for the tartarianization of this street, which we believe is one of the best marks of progress that has been made in this little town. All who adjoin main street have not as yet come into this proposition, but we feel that they will do so in a short time.

The Commissioner's Court has generously agreed to accept this donation and let the contract for the tartarianization of this street.

The following business houses and residences have signed up for a liberal amount:

- Junction Hardware Co.
- Loeffler Motor Co.
- Stevenson & Baker
- Lilburn E. Standifer
- J. A. Heyman
- P. Joseph
- E. Holekamp
- Riley, Holekamp & Denman
- Cleve Stephen
- John M. Hankins
- N. C. Patterson
- H. H. Lawler
- F. S. Bissett
- Lola Jones Braley
- J. F. Burt
- Schreiner-Hodges Co.
- Junction State Bank
- Methodist Church
- Frank Baker
- Alex J. Hamer
- W. M. McDonald
- Masonic Lodge
- Dr. Jones
- H. E. Wilson
- E. A. McCoy
- C. T. Holekamp
- T. B. Phillips
- Walter G. Loeffler

## WILL HOLD GRADUATING EXERCISES FRIDAY NITE

The graduating exercises of the Charles Schreiner High School will be held at the High School Auditorium at 8:30 o'clock Friday evening on June the first, nineteen hundred and twenty-eight. Dr. Musselman, of Dallas will deliver the address. The graduates are: Flossie Boone, Willie Baker, Opal Jones, Gay Munn, Deland Montgomery, Albert Becker, Walter Schrier, Melba Burt Johnson, Ruth Bessent.

## CAMP KICKAPOO. BOY SCOUTS' OBJECTIVE

Hey, Scouts! Look who's coming to Camp Kickapoo! Scout Executive Jack Brunburg from Pecan Valley Council who was an engineer before entering scouting. He will direct the building of signal towers, council rings, totem poles and bridges across the deep San Saba.

Also Kennedy N. Clapp, from Lubbock with all his Indian programs and relics, giving expert advice on firebuilding, snakes, bugs, beetles and that long wished for expert advice and aid on Archery.

Oh yes, Listen! I almost forgot the best part of all. Here comes Marcus J. Williamson, well known star and coach from south Texas in foot ball, base ball, and basket ball, having pitched for Texas University a few years ago and has won championships with his school teams for several years.

A camp museum is being considered. The best of handicraft, bugs, beetles, butterflies, Indian relics, etc., will be displayed. There is not a boy in west Texas who cannot earn his \$6 before camp. Uniforms are not required; outdoor clothing will do, so do not worry about the uniform. The \$6 pays for everything.

You will not forget those pleasant hours spent in the "Old Swimming Hole," playing water games, learning new strokes and many other useful water activities. Also plenty new games that will prove life time memories, such as tennis, base ball, volley ball, croquet, bean bag, message carrying, ping pong, horse shoes, hare and hound, capture the flag at night and dozens of other games that have a real thrill.

"All Aboard for Camp Kickapoo," sings our Scout Executive. The big scout camp train leaves Sunday afternoon, June 3rd. Now is the time to secure a reserved seat (an assurance of attendance). If you are left behind you will miss the biggest camp of a life time and will regret it for a life time. Don't wait. Now is the time to get your application in to your scoutmaster. Over 100 registrations are already in.

## PROTRACTED MEETING

Our annual meeting will begin Sunday morning, June 3rd, and run over the second Sunday. Brother Glenn Wallace from Abilene will do the preaching.

Our night services will be held out on the lawn just west of the church and we hope to have ample accommodation for all. Each Sunday morning we will have services at the Theater auditorium. Let us meet at 10:45 and begin the song service. A very important feature of the services is the basket dinner at the Park at 12 both Sundays of the meeting.

Come and spend the day with us. A cordial invitation is extended to all. Large baskets well filled will be appreciated and smaller ones in proportion.

J. S. Newman, Minister.

## MISSIONARY SOCIETY

The Wowans' Missionary Society of the Methodist Church met at the home of Mrs. Walter Tinsley Tuesday afternoon, for the educational program. Mrs. Joe Bissett, the president, conducted the devotional exercises.

Mrs. Milton Hill led the literary program.

At the close of the meeting light refreshments of cake and lemonade were served to thirteen guests; mints in little pink baskets were plate favors.

Everyone present enjoyed very much the hospitality of Mrs. Tinsley.

Mrs. W. E. Patterson, accompanied by daughter and son, arrived this week from Denton County to join Mr. Patterson, who is an employee of the Junction Cattle Loan Co., and will have charge of the lumber yard.

## Baby Queen of the Air

Miss Joyce June Neely of Wichita, Kan., is not yet three years old and is the youngest member of the National Aeronautic Association. Little Miss Neely has made numerous air trips, recently completing the All Kansas Air Tour and is planning another long trip with her parents, Mr. and Mrs. Wilbur Neely.

## DECORATION SERVICES BY AMERICAN LEGION

Burt Fleming Post No. 237 of the American Legion, will have a Decoration Day service on May 30.

The local organization is planning a good program for the occasion. The entire morning to be taken up in a ceremony to be held on the court house lawn for placing the flag at half-mast, and concluded in the Texan Theatre.

An effort is being made to obtain from the State or National organization a good speaker to appear on the program with a speaker from this post. The band will render a concert of appropriate music throughout the day. In the afternoon it is planned to decorate the graves of all ex-service members.

The churches of the town and Cemetery Society are being requested to join with the Legion in decorating all the graves in the cemetery.

## O. E. S. ENTERTAINS PROMINENT OFFICERS

Wednesday night of this week, the local Chapter had a special meeting at the Banquet hall of the Bevans Hotel where a number of distinguished visitors were entertained.

The occasion was honored with the presence of the Worthy Grand Matron, Mrs. Lula LeFan of Greenville who made a most interesting address. District Deputy Grand Matron, Mrs. Margaret Cook of San Antonio and Grand Examiner, Mrs. Faye Stevenson of Junction were also present.

The Junction Chapter was represented at the meeting by eighteen and the Ft. McKavett Chapter by twelve. The large banquet hall was practically filled with the one hundred and fifty or more people who attended this meeting.

Frank Hartgraves, who holds the distinction of being Grand Master of the Masonic Lodge of Texas, presented each of the grand officers with a lovely box of candy. Following this and the business session, refreshments of ice cream and cake were served.

On Thursday following this meeting, Mesdames C. M. Simmons and J. D. Smith accompanied the Worthy Matron, Mrs. Cook to Junction where a luncheon was served to the visitors by the Junction Chapter at the noon hour.—Menard Messenger.

The new concrete home of Mr. and Mrs. Robert H. Loeffler is rapidly taking on the appearance of a neat residence. It is being constructed just one block north of the Methodist church.

Mrs. J. C. Ray, Miss Emma Ray and Mrs. Irvin Jarvis left Monday morning for San Antonio for a few days visit. They are expected to return today.

Miss Margaret Oliver came in Saturday from Poteet, Texas, where she has been employed in the schools. Miss Margaret will spend the summer here.

## This Week

By Arthur Brisbane

Italy's heavyweight champion is here, 22 years old, 6 feet 2 inches tall, weight 235 pounds. Boxing two and a half years, each of his ten opponents kindly became unconscious in four rounds or less.

This descendant of Roman gladiators, Umberto Torrinio, is artistic, plays several musical instruments and could lecture on Verdi. He seems to be the natural, physical and mental opponent for Tunney.

Torrino could interest local talent by offering to revive the old Roman boxing with the cestus, a glove of heavy bronze loaded with iron or bronze, making it unnecessary for the referee to count.

The McNary-Haugen bill is enthusiastically passed by the Senate. There are elections coming. The House will pass it also, many that vote for it counting on the President's veto to counteract their vote.

That the President will veto the bill is probable and that it will be passed over his veto is probable.

According to the wise men, some "best minds," far removed from farming, now approve the bill.

Anything to make the farmers more prosperous would be welcome, but the so-called "farmers bill," may surprise farmers when understood.

According to wise ones, the Government would tell packers at what price they must buy hogs, and tell flour men at what price they must buy wheat. And the Government would guarantee profits to packers and flour men. After they had sold all the American public would buy, at prices much increased, of course, packers, millers, cotton men, etc., would "dump" the balance in foreign markets at any price obtainable.

And whatever the "processers" lost by dumping, the Government would make up in hard cash taken from taxpayers. There is an equalization plan of doubtful value.

Another feature of the bill would be complicated bookkeeping and inspection, involving gigantic armies of additional public servants.

When a packer buys a pig he changes it into scores of products. He would report profits and losses to the Government, and the Government would have to investigate every detail. The prospect of Government price-fixing, with guarantees and inflation, worries some men that think.

Racing on the sand at Daytona Beach, in his Black Hawk Special speed car, going more than 200 miles an hour, Frank Lockhart blew out a rear tire. His car bounced 300 feet, "turned" several somersaults and landed upside down. Lockhart was killed.

This unfortunate death of a daring automobile racer is a warning to those that indulge in excessive speed. The air, not the ground, is the place for speeding.

President Coolidge will give medals to six fliers—three recently arrived, the Frenchmen, Costes and Lebrun, and the able Italian the Marquis de Pineto. He might add one medal for Miss Junkers, daughter of the man that made the westward flying airplane, responsible for the trip's success. Through all the excitement she has kept out of the limelight, and that deserves a medal.

A German scientist proposes "one clock for the entire scientific world." The exact time would be broadcast throughout the world by radio. It would be correct within one-one-hundred-thousandth part of a second, which seems excessive accuracy to the layman.

One "master synchronizer" would do the work for the whole world.

FOR SALE OR TRADE—Some good second-hand ice boxes and refrigerators. 6ffc W. E. Cloud.

### HOUSTON WILL COLD WATER CONVENTION

Cold water may prove a deciding factor in the selection of a Democratic nominee for the presidency in case the delegates drift into a convention deadlock and are compelled to sit through long drawn out balloting in the heat of Texas midsummer.

There being no such thing as a frost line in this latitude, water mains in Houston are laid close to the top of the ground. Drinking water taken direct from the tap has a temperature of 85 degrees—considerably too warm for the average politician. For this reason, the city of Houston has turned over the convention drinking water problem to engineers.

Automatic electric coolers, equipped with oversized Frigidaire motors will be scattered about the convention floor and set up outside the hall, for the relief of hot and thirsty delegates, many of whom will be experiencing the heat and humidity of southern Texas for the first time.

Refrigerator engineers, who have been assigned to the task of chilling the convention water supply will install mechanical equipment that has been tested in the blistering heat of steel mills, where a cake of ice disappears like a slice of butter

on hot toast. Water coolers that have performed successfully in the full glare of open hearth furnaces will function for the Democratic delegates until some one gets the necessary two-thirds vote.

It is estimated that the automatic water coolers will provide the cooling equivalent of nine tons of melting ice daily, making it easier for organization leaders to hold their delegates in line in the event the convention fails to arrive at an early choice. This will give each delegate the equivalent of 15 pounds of ice daily for his drinking water as long as the convention is in progress.

#### OUR NEW FRONTIER

In the past history of Our Country there were several frontiers or imaginary lines that marked a division in the geography of the nation.

For a century the plainly understood meaning of frontier was a movable line of settlement by population extending westward from the Atlantic Ocean.

The new frontier today is a great line of industrial advance, moving steadily from the Northeast to the South and West, finally to drop into the Gulf of Mexico and the Pacific. The

advance will not stop until industry and population shall have spread uniformly from the Atlantic to the Pacific.

### Fresh Bread and Pastry

FROM OUR OVENS TO YOUR TABLE

### HOME DECORATION HINTS

The modern art movement, or L'Art Moderne, has brought with it a greater emphasis than ever on the importance of the screen as an accessory in certain phases of interior decoration. This has reached such a point that some designers are giving their entire attention to the presentation of these objects in a way which make them blend beautifully into any interior where the modern motif is uppermost. The whole spirit of the new things which are being done along these lines in interior decoration is based on the idea that this generation is trying to create something which will be characteristic of itself and not be forever borrowers from the designs and decorations of other days. Just as the early Colonials developed their own furniture and just as the various periods in other countries have been distinguished by their own art, so the designers and decorators of today are trying to put into concrete form something which will be symbolic of the age in which we live. For example, when some of the new furniture first came out, it was characterized as skyscraper furniture because the bookcases, desks and some other articles seemed to have some of the lines which distinguish the great modern buildings which are America's own contribution to the world. This name, however, was misleading because, although the new art has, it is true, something of the skyscraper about it, its distinguished notes are simplicity, straight lines, hardness, clarity, the absence of dust and dirt and an abundance of color, while, at the same time, comfort is emphasized in every part. Into this scheme the screen enters and takes its place because the designs offered are so much a part of the whole and, also, because it enhances the general effect when it is made in the clear, clean, fresh-looking lacquered materials. Some of the screens are being decorated in pyralin. This material has an unusual place in the modern art setting because it makes contrast possible and is so pleasant to the touch. Modern art aims to do away with the harshness of metals. Besides that, this plastic adds a touch of beauty, which gives it as prominent a place artistically as the old ivory had in the hands of the master craftsman of medieval days. Some of the artists of France are using ivory in certain of their decorations but the quantity of this material is so scarce that it is impossible to employ it on a large scale and the leaders in the modern art movement have found that modern materials, such as pyralin, lend themselves perhaps even better to the working out of certain motifs than other products. The screens get an added beauty because the lacquered fabric of which they are made is satin finished. This is a beautiful surface and one which makes possible a detail in the ensemble of decoration which blends most harmoniously into it.

### LOGICAL RESULT OF SCIENTIFIC EXPANSION

A feature of the electric light and power industry which is too often overlooked, is that rates for service have steadily declined below the pre-war level. Few lines of business or industry can point to such a record, although fire insurance is a neck and neck competitor for the honors.

That electric rates continue to decline is evidenced by press dispatches in the newspapers. Random reports during April show electric rate reductions from cities in California, Massachusetts, Vermont, Ohio and other States. In nearly all instances the reduced rates followed interconnection or consolidation of existing plants or the enlargement of central station equipment.

The charges that the growth of the power industry is a menace to consumer do not seem to be borne out by the facts. The whole power industry seems to be working on the principle that a reasonable rate results from maximum production. When a saving in operation costs is made through engineering improvements or enlargement of facilities, that saving, over and above a fair return, is passed on to the consumer.

This is the logical outgrowth of the customer and employee

ownership plan of financing public utilities. The stockholders naturally desire an assured fair return on their money; and, being consumers of the product of the companies they have helped finance, they are equally desirous of securing fair rates for service. This combination of consumer and investor in one person has brought about a spirit of fairness, reasonableness and efficiency in utilities management that is hard to equal.

These facts should be borne in mind when thoughtless or ill-considered attacks are made on the electric industry. Even though such attacks are groundless, they tend to frighten the investor and discourage utility companies in making extensions, improvements and consolidations, with resulting loss to the consumer.

## Why You Should Trade With HANDY-ANDY

Conveniently Arranged  
STORES

REASON No. 5: Every Handy-Andy Store is distinctive in appearance, both inside and out. The front of every Handy-Andy Store is decorated in orange, green and black—with the name Handy-Andy over the door.

Handy-Andy Fixtures are very unique; in fact entirely different from any fixtures you've ever seen.

Everything is designed for perfect sanitation and the comfort of the customer.

You may see and procure groceries without the slightest stoop or reach.

Every fixture is painted snow white and trimmed with black. Every fixture has a clean, wholesome aspect; a thing totally lacking in most food stores.

Everyone likes to trade in a neat, clean, nicely arranged store; that's why the multitude prefers Handy-Andy.

### MEMORIAL DAY

The end of May is fast approaching, and with the end of this month comes that important day known as Memorial Day.

The rifts between Nations are no more. The North and South are united in a bond of union and friendship. The enmity between America and Germany has been dispelled, scattered to the winds; the recent reception in the United States to German flyers prove this beyond the possibility of a doubt. But in our memories lie those heroes who have given their lives that America might live, and to those we owe our sincere sympathy and reverence. Let us do them honor.

And let us not limit our decorations to the graves of active participants in wars. On Decoration Day we must remember all of those we have loved who are gone, and all of our national heroes and leaders. For each person in his or her own way is a soldier, battling against heavy odds, overcoming handicaps, making sacrifices for others, and helping in the growth and progress of the Nation. Let us on Memorial Day honor all those who have gone before and smoothed the way for those now living.

Make Decoration Day the occasion for a visit to the graves, not only of soldiers, but also of those whom you have loved or admired and who have departed this life. Be freshly inspired by the noble example of their lives. It will do your soul good.

FOR SALE or Trade—Improved plains land near Plainview, Texas. 5-21tp

John F. DuRose, Plainview, Texas.

### IVY ECHOES

We are having spring showers and Mother Nature has donned her most beautiful garments.

Come to our school closing program Wednesday night and our picnic Friday. You are welcome.

Miss Bernice Kane, who has been attending school at San Antonio, is home for a visit with her parents at the ranch.

Mr. Nath Walker was a pleasant caller at school Monday.

An enjoyable singing was given at the T. J. Lange home Sunday night.

Plenty of "chevon" Friday. Better come and get yours.

Chief topics of conversation among the student body: "I hope I'll pass," and "What are you going to do during vacation?"

Since school is closing, we will probably discontinue the "Ivy Echoes" until school starts again next October.

We trust that vacation time brings relaxation and rest to all the students. May you spend a summer of enjoyment and may you put into operation in your daily life such things that you learned at school as will serve you to be a better citizen of your country.

WHITE LEGHORN COCKRELS Improve your flock. Buy one of these high grade cockrels. Supply limited. At Seuchardt Ranch. 6-2tc

See us for special prices on auto tires and tubes.

Powell Motor Co.

Mrs. Sarah Corhill has returned to her home in San Antonio after a month's visit with her daughter, Mrs. John M. Hankins.

Why not enjoy your vacation to the fullest by taking along a New Brunswick Portable? They make the time pass more pleasantly. Let us demonstrate them for you, at

The Variety Store.

### LONDON LOCALS

Mr. G. T. May and the Amaon boys, George, May and Pat, spent last week with relatives at Barksdale. George, May and Pat were visiting their grandfather, Mr. Brit Stewart.

Mr. R. T. Amberson and wife and Mrs. Rebecca Chandler, their daughter, returned home from San Antonio on Monday, the 14th, and left Wednesday, the 16th for an extended trip through West Texas, New Mexico and to Phoenix, Arizona.

These good people are visiting relatives and taking a long needed rest.

Miss Selma Adams is spending the week with her sister, Mrs. Tarleton Miller, of Menard.

Miss Virginia Jones is spending a few days with her grandparents at Katemacy.

Mr. Marvin Hunter and his son of Bandera, were welcome visitors of our village on Monday. Mr. Hunter was looking over the situation with some thought of establishing a local newspaper at this place. Mr. Hunter being an old newspaper man should know whether it can be put over or not.

Mrs. Ivy Adams visited friends at Melvin last week.

Judge D. M. Slaytor and Mr. Francis Harris of Llano were shaking hands with friends here Tuesday.

We are glad to learn that Mrs. A. P. Fritz of this place who underwent a serious operation at the Standifer Hospital at Junction is doing well.

The good rains have given our people the smiles. Crops of all kind are growing fine. Weeds and grass are also growing. The farmer will spend the next few weeks strictly to business.

The R. L. McKinney concrete

building is moving forward. One of the workmen, Mr. D. L. Ake, was unfortunate to run a nail in his foot and at this writing Denman is very lame.

Mr. Robert Fritz and wife believe in Jersey cows and chickens and they are making them pay, too, from \$40 to \$60 per month. See! You can do the same if you choose to try.

Dick Weaver has built an up-to-date poultry house and is gradually entering that line of business, studying it as he goes.

That's right, Dick. If you push that line the old hens will give you plenty to eat and plenty to do, but no regret.

Mr. A. S. Adams has moved his hogs out of town and we all appreciate this move. Who will be next?

Did you know that it would be a wonderful help to you and me if we would dig as hard to find the good in our neighbor as we do to find the bad?

To find the bad and expose it does not elevate us, but to find the good and add it to our lives would be to raise us one notch higher. Now let's go, and hunt the good in the other fellow and try to plant it where the bad now grows in us.

Get your gifts for the graduation at Heyman's Drug Store.

The Variety Store.

Everybody will be at the Big Barbecue at Cedar Hill on June 13th and 14th. They will all have a good time. 6-3c

Mrs. Jean Schnabel, Mrs. Leo McKinnon, Mr. Bill Hankins and son, Terry, were weekend guests at the John M. Hankins home.

Furniture for Sale—Cheap. See or ring Mrs. Bob Ragland. 6-2p

Mrs. R. H. Loeffler is this week meeting the trade at the Junction Hardware Co., serving in place of Mrs. A. W. Loeffler, who is in Houston with her husband.

**THE METHODIST CHURCH**

Sunday School at 10 a. m. The congregation will join in the Baccalaureate service at 11 in the High School auditorium. Prayer service Wednesday evening at 8.

**NEED GLASSES?**

Dr. Jones, the Eye Man, in Dr. Luehrs office Friday, June 8. See him about your eyes, headaches and glasses. 6-2c

**LOCAL MAN INSTALLS UP-TO-DATE EQUIPMENT**

The very latest in equipment and machinery for the convenience of my customers and the public generally, is always foremost in my mind, and I wish to announce that I have this week received and installed a machine for attaching half-soles to ladies' shoes by a process entirely new in this section of the State, without the use of tacks as has heretofore been the custom. This machine combines the latest methods of half-soleing ladies' shoes with the thinnest of leather, at the same time making them as secure as was the old way when using tacks or sewing them.

We invite you to come in and inspect our new machine, and then we feel sure you will give us your shoe repair work. Thank you.

E. O. Lowgren.

Graduation gifts of all kinds at Heyman's.

**SILENT SENTINEL PROTECTS FOOD—HEALTH**

With ice "on guard" in a good refrigerator, the busy housewife never worries about foods she has placed in its keeping. Every minute, day or night, it automatically safeguards their purity, freshness and flavor.

It keeps the air in the refrigerator in constant circulation. Impurities and odors from the food are deposited on the ice cake and carried off in meltage through the outlet. The whole process is simple, safe, sure and sanitary.

Have a good refrigerator. Keep it well iced. Ice saves food, flavor and money.

You can buy a good refrigerator on the monthly payment plan.

Borden Ice Company.

Priced from—  
**\$2.00 to \$6.50**

**PHILIP JOSEPH**

### OZONA TO HOLD FAIR: \$4,000.00 IN PREMIUMS

More than \$4,000 in premiums and purses will be given during the Crockett County Fair Association's Rodeo, Race Meet and Stock Show to be held in Ozona June 27, 28 and 29, according to the premium list and program now being printed.

The Ozona fair this year will outstrip any previous effort, according to Joe Pierce, president of the association. The stock show, which is of primary interest to stockmen throughout this territory, will be bigger and better than ever before, more than \$1,200 in premiums being offered in this division. The sheep sale, to be held on the mornings of the 27th and 28th, will attract some of the best breeders in America and the sheep show will also attract entries from some of the best breeders of Texas and the northwestern states.

The rodeo and racing events will be held each afternoon of the three days, including steer breaking, bronc riding, cow milking, calf roping and steer riding contests. Purses in the rodeo events range from \$100 to \$250. There will be three races each day with purses ranging from \$75 to \$250.

In addition to all these attractions there will be a free barbecue each day at noon, carnival shows with 30 high class attractions, including five riding devices, an airplane circus each day at noon, and a big dance each night on the outdoor platform at the fair grounds. All West Texas is invited to come celebrate with Ozona.

### PRODUCING SECTION COMB HONEY

The one absolute requirement for the production of comb honey is strong colonies of bees. If you are running your apiary for a profit, remember it is a losing proposition in any place or under any conditions to try to produce comb honey except with strong colonies.

A colony must be strong at the beginning of the surplus flow, and it must be given plenty of egg room for the queen, and plenty of storage room for the workers. If a swarm comes out near or during a honey flow it will seriously affect that colony's honey crop. Every good honey location is not ideal for the production of comb honey. If you expect to produce a good grade of section comb honey you must have an intense honey flow, otherwise a large part of the section will not grade even No. 1.

Color of the honey is also a factor to be reckoned with in the production of comb honey, and it will not pay to produce section comb honey unless the nectar gathered during the surplus flow is of light color. The trade demands a comb honey light in color. I have a few customers who always select the sections filled with the darker kinds of honey—they claim it is better tasted, and I am not sure but they are right, still they buy only a small portion of my crop, and I raise the light-colored sections to suit by trade's fancy, rather than try to educate them into using the darker-colored grades. It is easy to produce honey of various shades of color if one knows the flora of his community, and the colors of honey produced by each plant.—Enos C. Pittman in Farm and Ranch.

Anything in the way of graduation gifts can be found at Heyman's.

You want your land abstracted; then you had better see E. Holekamp; he has complete index of all County lands. (adv)

### WHY BORDER RIVERS OF TEXAS ARE CROSSED

Washington, May 13.—The house in voting unanimously Saturday to bridge the Rio Grande at Weslaco, Texas, heard Representative Garner, democrat, Texas, sponsor of the bridge measure, explain why it was needed.

"Can the gentleman from Texas tell me," inquired Representative Schaffer, republican, Wisconsin, "whether this bridge will be used to bring cheap labor into this country?"

"No," the Texan replied. "I think it is to allow Americans to trade in certain articles in Mexico that cannot be bought in Texas."

Whereupon the house laughed and approved the bill.

### HINTS FOR THE HOME

(by Nancy Hart)

How much extra freshness can be given to the house in summer by the addition of a few colorful prints, chosen with special care to have them suggest all that is cool and delightful.

A Corot landscape; one of Heim's forest lanes; a wide stretch of sandy beach with whitecaps rolling in; perhaps the fountain corner of a lovely French garden, or a group of old-fashioned flower prints—Can't you see these pictures dressing up the old familiar corners until they seem like entirely different rooms?

We need to remember that exquisite color prints of the world's best pictures are within the reach of all of us today. We are quite ready to invest in new slip covers and draperies when summertime comes. Let us not forget that fresh, colorful pictures are equally important in planning enjoyable summer homes.

**Washing the Milk Glass**  
Tumblers or pitchers that have held milk should never be put directly into hot water. Rinse first with cold water to prevent cloudiness.

**Prevents Tarnish**  
If a lump of camphor is put

in the chest or drawer where silver is kept it will prevent the silver from tarnishing.

**Removes Scorch Marks**  
If you scorch garments when ironing, just remember to lay the scorched part in the strong sunlight, and the discoloration will soon disappear.

**When Locks Won't Unlock**  
Often the out-of-order lock only needs a little oil to put it in a good humor again. Instead of pouring it into the lock, however,—just dip the key in oil.

**For the Small Room**  
Hang a large mirror at one end of the very small room and you will greatly increase its feeling of size and space. This also brightens the room, for the mirror will catch and multiply each ray of light.

**ABOUT YOUR HEALTH**  
(by John Joseph Gaines, M. D.)  
**Local Applications**

The suffering man or woman is generally willing to grasp at the straw which promises even slight alleviation. It may be an inflamed and swollen joint, a throbbing, agonizing, inflamed nerve, a passing calculus, or the pain of peptic ulcer. Local applications afford a measure of relief worth going after, besides keeping the mind occupied so far as possible, on the work in

hand, and away from the suffering.

There are many forms of local medication, but there are only a few drugs that penetrate the skin and reach the affected part. One had better leave the local use of poisons to the physician. Liniments containing ether, chloroform, carbolic acid, and such like, act as local anesthetics, the two former must be carefully kept from flame, as they ignite easily. Ointments containing menthol are cooling and soothing to inflamed surfaces. The use of vaseline for the incorporation of drugs, forms an ointment that does not enter the pores as a rule.

Hot packs, either wet or dry, have their special uses. They expand the small vessels, and permit an increased flow of blood through the part; this increase of new (and purer) blood, may remove the damming up of the passages inflamed. Hot packs should be of short duration, and frequently renewed—as hot as can be borne is not too warm.

Cold packs must be used with judgment. A fevered, "pounding" headache may be relieved temporarily by cold packs, while the cause is being attended to. I have always been timid about putting cold packs about the throats of children in acute affections; in fact, I never do it. Cold drives blood away from the part, by contracting the vessels. Counter-irritants—but that is for another chapter.

There are between 200,000 and 300,000 bee hives in Texas with an annual production in honey valued at more than \$2,000,000.

**DR. FRANK CRANE SAYS—**

**War Talk**

A German leader, Dr. Paul Oestreich, declares that America and England will certainly be driven into war. They will both woo Germany for an ally, and in this way Germany will rise in the council of nations. We have had among our own people men who predict that war is certain. They say that human nature cannot be changed and that war is inevitably due to ensue.

Lloyd George says: "In every country it is part of the business of the fighting staff to work out a plan for defense against all conceivable enemies. They gloat over their efficiency and, like every inventor, yearn to put their machine to a test, until possible war soon becomes likely and a likely war gradually glides into the inevitable."

From time immemorial nations and tribes have sought to "protect" themselves by increasing their armaments. A considerable portion of the press is urging the United States greatly to increase armament on sea and

land in order to "protect" itself. There never was nation that could so protect itself. Greece tried it, and Rome and Spain and Germany and Russia, and they all fell.

The best protection for a nation is for it to form some kind of combination with other nations which public sentiment will endorse that shall abolish war as a final arbiter.

The most hopeful sign today is that people are finding out that war not only costs them money and valuable lives, but destroys property and sets back business.

It would be a good thing if every boy and girl in the country were compelled to serve two years under the tutelage of army officers in constructing great public works, such as the Boulder Dam and the Mississippi Reclamation projects.

There is no objection to universal conscription if it is universal, and if it is not primarily for the purpose of fighting. These boys and girls would be potential soldiers in case we were ever attacked, but their employment upon constructive

works would not be in the nature of a provocation of war to other nations.

Some way or other we must give up our arms and defer questions of international dispute to some other arbiter than crass nationalism.

One hopeful sign is that plans of peace are openly discussed in international councils. The late Pan-American Congress was full of peace talk.

And peace-talking brings peace, just as war talk brings war. The question after all is one of public opinion and the sooner that public opinion is turned away from causes of war and toward the efforts of peace the better will be our prospects.

There are over 138,000,000 acres of uncultivated land in Texas.

Captain Franz Romer has put out to sea on a Europe to America voyage, rowing a 20-foot boat. Maybe after the first month he'll wish he had been old fashioned and gone by air plane.

## Junction Trade Notes

Sunday, May 27, marks the official opening of the 1928 vacation and touring season throughout the United States, according to the Automobile Red Book, which estimates that approximately 250,000 cars will take to the open road; and thousands of those who are going on summer trips do not know just where they want to go, but will be on their way. Many Texans are just now coming to know about the attractions at Junction and, as they come and go, they will tell their neighbors of the good roads, running water and other delightful features of a summer vacation at Junction "On the Llano."

A delegation from Rio Grande Valley, representing Pharr-San Juan Irrigation District and headed by Chas. Starlin of San Juan, stopped overnight at the Fritz in Junction, Tuesday. They were enroute to California to investigate irrigation problems. Members of the party were delighted over their first view of Junction and the Llano, and Mr. Starlin, stopping at Gann Grocery Company to get information about summer accommodations, stated he intended bringing his family here for a late summer vacation.

Junction house-keepers who have tried black-eye peas in cans, say it is as palatable as fresh peas. Ready to serve, two cans for 25c, and Baby Lima beans same price, at Gann Grocery Company.

Mr. and Mrs. Robert Loeffler have under construction a new concrete home on Walnut street, one block north of Methodist Church.

Wheat Bradford, ranchman from the Divide, southwestern part of Kimble County, transacted business in Junction Tuesday. He reported ranch conditions ideal now.

Mr. and Mrs. E. T. Brown of London community were in

Junction again Tuesday marketing the superior country butter from their ranch dairy.

"Economy" mixed cow feed is probably the cheapest dairy feed obtainable at this time, Gann Grocery Company. Analysis of the "Economy" feed shows 22% wheat bran, 15% cottonseed meal, 13% alfalfa meal, 15% ground ear corn, 29% ground screenings of wheat, corn, kafir, 1% ground limestone, 10% blackstrap molasses.

Camp Allison, up the North Llano from Junction, has arranged to hold a two-days barbecue June 13 and 14, with all the trimmings and attractions that tend to complete a West Texas barbecue.

Lee Lowry, veteran grocerman of Junction, Tuesday clipped the end of his middle right finger in a meat slicer. And bacon is not up in price, either.

"Albatross" Flour, made from the highest quality of Missouri soft wheat, "makes better biscuits." Gann Grocery Company, exclusive distributors in Junction. "Meyer's Best," made from hard wheat, is the flour recommended for baking, and "Our Pride" is a blend of soft and hard wheat.

Mrs. W. E. Patterson, daughter and son, recently of Denton, county, arrived in Junction last week to join Mr. Patterson in their new home. Mr. Patterson has a position with the Junction Wool Warehouse Company. They will occupy the residence of Mrs. Sandherr after June 1st.

"Certo" for making jams and jellies contains only the natural jelling substances of fruit, and can be used with any fruit to insure just the proper jelly texture without changing the natural color or flavor of the fresh fruit. The Certo method is quick, economical, and without previous experience anyone can make the most delicious jams and jellies by following the recipes attached to each bottle. Gann Grocery Company.

James W. Shaw, head of State

Banking Department and Judge John W. Goodwin, chief legal counsel of the department, stopped in Junction Friday for a brief visit with acquaintances. Mrs. Shaw and Mrs. Goodwin accompanied them. They are prospective summer vacationists in Junction and expressed themselves as being delighted with the natural grandeur of the Hill Country and the Llano.

### SOUTH LLANO NEWS

We are very thankful for the refreshing showers that have visited our community the past week, that we were so much in need of.

The Evergreen school closed Friday. Saturday night we were entertained with a very interesting program. Some very good home talent was displayed. Messrs. E. Scarborough and McSmith furnished splendid music which was very much enjoyed by all. Judge Randolph favored us with a very interesting talk on education, also complimenting our school and the efficient teacher, Miss Gussie Burris, who is spending a few days with Mrs. Monnie Hagen and Mrs. Burney on their ranch near Evergreen.

Mr. and Mrs. Alton Davis and Mr. and Mrs. Barbee were visitors in the London community Saturday.

Lane Hodges of Eldorado visited home folks Sunday night, returning Monday.

Miss Ruth Howard of Brady is a guest of her sister, Mrs. Troy Fleming.

Mr. and Mrs. Orth were business visitors in Junction Monday. Also F. M. and Jim R. Hodges.

Mr. Bourland of Abilene was in our midst Sunday, having brought to this school house a Star piano which the community will purchase and place in the school for that and church purposes, also entertainments.

If you have a wreck or are in trouble, day or night, phone day 51, night 140.

Powell Motor Co.

### CHURCH OF CHRIST

Preaching at 11 a. m. next Sunday morning is called in so that all may attend the services at the school auditorium at that hour.

We are making a special request that all classes and members meet early so that we can have our classes and communion services in time to go to the commencement.

Night service at the usual hour, 8 p. m.

J. S. Newman,  
Minister.

See our Sport Suits. None better.

# SAVE-A-LIFE Campaign

of the State of Texas

**May 19th to June 9th**

In accordance with the Proclamation of Governor Dan Moody designating May 19 to June 9 as a MOTOR VEHICLE INSPECTION PERIOD—

The following official Inspection Stations are glad to contribute their service to the SAVE-A-LIFE Cause sponsored and endorsed by the Highway Department, Chambers of Commerce, Civic and Motor Clubs, Automotive Trade Associations and Safety Councils of the State, in the statewide Campaign to offset one of the principal CAUSES of automobile accidents and loss of life.

## Drive in for FREE Test

We will Test the Brakes, Lights, Horn and Steering Mechanism of your Motor Car or Truck FREE—While you wait.

## Display the "Safety" Emblem

Every Motor Car or Truck that travels the streets and Highways of the State should display the official Certificate of Inspection.

The following Garages, with their official number have been officially designated by the Highway Department, to inspect your car or truck FREE during this campaign:

**LOEFFLER MOTOR COMPANY,**  
Number 2342

**POWELL MOTOR COMPANY,**  
Number 2527

**WAHL BROS. & SCHRAUB,**  
Number 2524
