"Starts the Day On the South Plains"

SUNRISE EDITION

LUBBOCK MORNING AVALANCHE

Twenty-sixth Year, No. 159 34 Pages Today Lubbock, Texas, Friday, June 11, 1948 Entered as Second Class Matter at the Post Office at Lubbock, Texas, under Act of March 3, 1897 Full Leased Wires: (AP) And (INS)

RECORDS EARTH TREMORS—Earthquakes in any part of the world are recorded on the seismometers on the concrete pier beside which Dr. Leroy T. Patton of the geology department at Texas Technological college is standing. The seismometers are located in a seismological observatory opened on the campus as a research project. (Staff Photo.)

Observatory Is Set Up On Tech Campus

Machines To Detect Quakes Set Up Here

By OPAL DIXON
Avalanche Staff Writer

EQUIPPED with seismometers capable of recording tremors in the earth either locally or on the opposite side of the globe, a a seismological observatory opened this week at Texas Technological college, it was announced Thursday.

If there should be a repetition of earthquakes such as have occurred at times in West Texas, the seismometers would record their force.

"One reason for my interest is that West Texas is a seismic area," Dr. Leroy T. Patton, of the geology department, who has charge of the observatory, said. He cited occurrence of earthquakes at O'Donnell, Panhandle, and Valentine, in Jeff Davis county and said he believed a tremor occurring at Amarillo in March was caused by an earthquake.

First In Southwest

The observatory, which is the only such observatory between St. Louis, Mo., and Tucson, Ariz., was built for purpose of pure research for graduate students and to give students valuable opportunity for study of seismological problems, said Dr. Patton. It has a radio connection with the National Bureau of Standards in Washington, which every minute gives the correct Greenwich Meridan time, as recorded at Greenwich, Eng., where measuring of longitude starts. The seismogram or "gram," record produced by the seismometer, shows slight openings in lines indicating every minute and longer opening for the end of an hour. The lines zig-zag in distinct fashion in event of earth disturbance.

Quake Felt Here

The equipment in the observatory went into operation Tuesday. Thomas S. Pearce, seismologist from Washington, representing the U. S. Coast and Geodetics survey, helped place the observatory in operation and told Dr. Patton that as much time had not been spent or such a thorough job done at a station in 25 years. Pearce left Lubbock Wednesday night and after return to Washington, planned to leave for Fairbanks, Alaska, to place similar equipment into operation. The survey is to send a man here each year to check apparatus in the observatory at Tech.

The observatory was established at a cost of approximately $6,000 allotted from research funds of the college.

Discussing earthquakes which have occurred in West Texas, Professor Patton said, "If the one at Valentine had occurred in New York, it would have been a big catastrophe. That quake was recorded in 1931 and was "distinctly felt in Lubbock," he said.

A shock at Panhandle was re-
See OBSERVATORY Page 10

Housing Bill Is Given New Life

WASHINGTON, June 10 (AP)—In a surprise move, a Democratic-Republican coalition rammed through the House Banking committee today all major provisions of the Senate-passed Taft-Ellender-Wagner housing bill.

The vote was 14 to 13.

It was a victory for Senator Taft (R-Ohio) and the Democrats and Republicans backing the bill, designed to encourage the construction of 15,000,000 homes in 10 years.

It was a bitter reverse for the banking committee's own chairman, Rep. Wolcott (R-Mich). He has branded public housing features of the bill as "socialistic."

Republicans Help

Wolcott had offered a bill of his own. It looked for a time today that he certainly would get it through the committee.

In a morning session Democrats tried to substitute the Taft-Ellender-Wagner bill for the Wolcott bill. They lost 14 to 12.

In the afternoon, however, with the help of the three Republicans they were successful in writing into the Wolcott bill all the main provisions of the Senate measure.

Thus the committee recommended for House action a bill containing, among other things, these controversial provisions:

Public Housing Okayed

1. Federal financing of 500,000 low rent homes to be owned by public housing agencies in the communities.
2. Subsidies for slum clearance and redevelopment of city areas.
3. Farm home building aids.

These are only parts of the bill. The main emphasis in the measure, its sponsors explain, is on encouragement of private enterprise

Packard Grants Wage Hike, Marks Up Prices On Autos

DETROIT, June 10. (INS)—The Packard Motor Car company granted its UAW-CIO employes a 13-cent hourly wage increase tonight, boosted white collar salaries and marked up prices of new cars as much as $200.

Packard President George T. Christopher said that a supplemental two-year wage agreement was concluded with the UAW and that other working conditions were written into a separate one-year contract.

Christopher said markups on new cars range from $75 to $200, an average of 5.7 per cent.

Salaried personnel receive a nine per cent increase with a minimum hike of $20 monthly.

$2,700 REWARD

Three Persons Find $239,000 On Road

(By The Associated Press)

ATLANTA, June 10—Two men and a girl who found $239,000 in cash lying along a country road were rewarded today for their honesty with $2,700 from a grateful government.

They reported their find to the College Park post office April 29. The money, contained in mail sacks, was part of a shipment from Washington to a Federal Reserve bank branch in Houston, Texas.

Officials still are unable to explain how the money dropped from a train and, apparently rolled to the nearby roadway. They have concluded, however, that a missing $1,000 was lost in a broken pouch.

Today the Federal Reserve bank gave $500 each to D. S. Simmons, his brother-in-law, H. T. Bradberry, and 15-year-old Willow Jean Wall, all of Stonewall, Ga.

In addition, postal authorities gave Simmons and Bradberry an additional $500 and Willow Jean another $200. The attractive high school student said her money would be used for education; the men plan to spend theirs for home improvements.

Two American Planes Surpass Speed Of Sound

By LEON SHLOSS
INS Staff Correspondent

WASHINGTON, June 10.—The United States disclosed today that at least two American planes have flown faster than sound to give this country apparent victory in the world race to gain this tremendous advantage in air power.

No other power has indicated success in the sound-speed quest. Other governments naturally would be loath to release detailed information for security reasons but aviation leaders believe the U. S. is the first to crack the sonic barrier.

Air Secretary Symington told a news conference the Air Force's rocket-propelled Bell XS-1 has flown faster than sound "many times" with 25-year old wartime ace Capt. Charles E. Yeager at the controls.

A spokesman for the National Advisory Committee for Aeronautics— top government aviation research agency —said an NACA XS-1 also has knifed through the barrier several times, flown by the late Howard Lilly and Herbert Hoover, NACA test pilots.

There are only two of the stub-winged XS-1 craft.

Another sonic research plane, the Douglas Skystreak, is reliably believed to have flown faster than sound also but no official confirmation has been released. The Skystreak holds the official world's record at 650 miles an hour.

Neither Symington nor the NACA would say just how fast the planes had flown.

The speed of sound is 763 miles on hour at sea level and decreases with altitude as reduced atmospheric pressure and other factors thin out the "air wall" through which planes must push.

Symington also indicated the XS-1 had established a new altitude record and qualified aeronautical experts believed the sound-speed was achieved near 50,000 feet where it is about 650 miles an hour.

The air secretary's disclosure was greeted with concern by eminent military and scientific aviation leaders. Dr. Vannevar Bush, head of the military establishment's re-

Senate Votes Two-Year Draft

Congress Gets New Shelling

By ROBERT G. NIXON
INS Staff Correspondent

OLYMPIA, Wash., June 10—President Truman declared tonight that it will be the country's own "funeral" if the people vote in November to continue the policies of the 80th Congress.

The Chief Executive's latest vitriolic blast at Congress was delivered before several thousand townspeople in Olympia after he made a major prepared speech in Seattle's half-filled Memorial stadium.

It was the climax of a succession of talks in which he leveled a drumfire of criticism at Congress to audiences at Bremerton, Tacoma and Seattle.

Congress Again Hit

Speaking to a crowd jamming the streets of Olympia to welcome him, the President said he had been "pouring it on Congress lately" in the hope that it would pass legislation to control prices and provide an adequate housing program.

Mr. Truman declared that when the presidential campaign gets under way he is really going to start telling the people what's the matter with the country. He added:

"Then, if you want to continue the policies of the 80th Congress, that's your funeral."

A half hour earlier, before nearly 10,000 persons gathered in nearby Tacoma, Mr. Truman assailed the Congress as a "special interest Congress—working for the special interests" and with the lobbyists.

The crowd howled with pleasure and the President continued:

"I hope Congress—although I haven't much hope—will take notice of the situation and do something about it, and quit listening to the lobbyists."

In Olympia, Mr. Truman drew

Lewis Rejects Wage Proposal

WASHINGTON, June 10 (INS)—John L. Lewis today rejected a proposal by the nation's soft coal operators to keep his 400,000 members at work at their current wages beyond June 30, when their contract expires.

The United Mine Workers president asserted that the miners "certainly are entitled to a wage increase."

In submitting their offer of a 1948 wage pact, the mine owners declared no wage increase could be made this year.

Lewis, who arrived at today's negotiations two hours late, told newsmen that the industry's "stay on the job" suggestion "would not be satisfactory to the men who go down into the mines to dig coal." He added:

"Time-Killing" Charged

"All it does is propose to continue work under the old wage scale.

"It would just be a boon to the operators by saving them added expenses and protecting their profits."

Lewis reiterated his offer to extend the current coal contract beyond June 30 if the operators would agree to immediate activation of the 39 million dollar 1947 welfare fund of the miners.

Lewis spent only a half-hour in the bargaining session. As he left, he told newsmen:

"The operators are obviously just killing time trying to create a crisis. I'm going back to the office and do some work."

The UMW chieftain said that the operators' contract extension proposal ignored the question of whether any 1948 contract ultimately negotiated would be made retroactive to July 1.

Charles O'Neill, spokesman for the operators, said after the three hour and 20-minute bargaining session that the owners "refuse to accept retroactivity on any new contract."

The session adjourned until noon (CST) Friday.

NAME IS WITHDRAWN

WICHITA FALLS, June 10 (AP)—Dr. James B. Boren, president of Hardin college here, has asked that his name be withdrawn from consideration as president of Texas Technological college at Lubbock.

NO RELIEF FROM HEAT SEEN

Showers, Wind Hit Sections Of South Plains Thursday Night

THUNDERSTORMS in the western part of the South Plains brought brilliant electrical displays, some strong wind and scattered showers to several towns in that section Thursday night, a survey indicated, as the Weatherman gave little promise of relief from the mid-summer like heat wave which has gripped the area for the past week.

Heaviest of the showers reported was at Morton, where the rainfall was estimated at .75 of an inch. Mrs. Anne England of The Morton Tribune, said that showers had fallen between 8 p. m. and 11 p. m. and were continuing at that time.

The wind and electrical disturbance temporarily put some of the city's lights out of order, but no heavy damage was reported.

Littlefield received about .25 of an inch between 7:30 p. m. and 9 p. m., it was reported by Charlie Duval, manager of the West Texas Gas company there.

J. M. Forbes, of the Muleshoe Journal, said that a light shower fell there shortly after dark. Heavier clouds were reported west of Muleshoe.

Levelland also reported a light shower estimated at less than one-fourth of an inch.

Lamesa had received a light

NEW TRAFFIC ORDINANCE ASKED

City Takes Action On Two Projects To Cost $1 Million

By H. I. KIEFER
Avalanche Staff Writer

ACTION expected to hasten the start of two construction projects to be built at a total cost of more than $1,000,000 were taken at the semi-monthly meeting of the city commission Thursday afternoon.

The projects are the new terminal building at Municipal airport, costing $300,000 or more, and a four-building, 94-unit apartment development in South Lubbock for which the estimate is $740,000.

Traffic Ordinance Asked

Also important in the business transacted at the meeting were instructions to City Attorney Vaughn Wilson to combine all of the city's many scattered traffic regulations into a single ordinance. The city attorney said he would try to have such a "master" ordinance ready for consideration at the commission's next regular meeting June 24.

The actual starting date for the two building projects apparently was brought nearer by the approval of architectural plans for the terminal building and by the commission's pledge of cooperation in the efforts to provide paving which must be assured before work on the apartment development can be started.

Specifications Asked

In approving the terminal building plans as prepared by O. R. Walker, architect, the commission directed that bids for construction of the structure be called as soon as detailed specifications can be made available to prospective bidders for the contract. Just when that will be was uncertain, but hopes are to get the work under way this month.

The cost of the building is to be borne equally by the city and the Civil Aeronautics authority. The city has about $159,000 out of $300,000 in bonds voted for airport improvements more than two years ago for use on the building. The CAA has allocated up to $175,000 to match, dollar for dollar, the city's contribution toward the structure.

The architectural plans, which

GIANT CARRIER OKAYED

WASHINGTON, June 10. (AP)—The Senate voted today to let the Navy build a giant 65,000-ton aircraft carrier, estimated to cost $127,000,000. Similar legislation is pending in the House.

Soviets Claimed To Have Sealed Border In Latest Move

By OMER ANDERSON
INS Staff Correspondent

BERLIN, June 10—German border reports said tonight that the Russians have sealed the entire frontier between the Anglo - American and Soviet occupation zones against passage of Germans.

The reports followed a British announcement that one American and four British coal trains with supplies for the Germans in Berlin had been halted by the Russians at the zonal checkpoint at Helmstedt.

The trains were consigned to the Allied kommandatura in Berlin.

Passengers In Panic

Both moves were regarded as the latest Soviet "cold war" maneuver aimed at forcing the Western Allies to quit Berlin.

Border reports said the Russians were using the "pretext of pass trouble" to halt the flow of German traffic.

German passengers at Marienborn in the Russian zone were forced to leave their their trains. Those from the Russiah zone were sent back to Berlin, and those from the western zones were sent back to Helmstedt, in British territory.

Brunswick dispatches said passengers aboard the last train crossing the frontier westward arrived in a state of panic. They found more than 100 other passengers from the western zone stranded at the frontier.

Atomic City's Dikes In Peril

By GEORGE L. SCOTT
INS Staff Correspondent

PORTLAND, Ore., June 10—The Columbia river, cresting the third time in two weeks, weakened dikes protecting the atomic city of Richland, Wash., tonight after overrunning Puget island 200 miles downstream.

The Army flew 100,000 sandbags from McChord field to Richland as a "precautionary" measure. Some of the sandbags surrounding Richland reportedly were torn away by the rising river, chuned by a 50-mile wind.

Richland is away from the atomic energy works at Hanford, said to be in no immediate danger of flooding.

Missing List Shrinks

Meanwhile, the dike protecting the atomic city is still two feet higher than crests predicted for Saturday and Sunday. The expected crest will be as high as the first disastrous peak that smashed Vanport, Ore.

Red Cross officials reported that the list of persons about whom it is concerned in the Vanport disaster has shrunk to 58, a reduction of 63 in the last 24 hours.

They said persons have answered missing calls from as far away as New Jersey and Arizona.

Death Toll Rises

At the same time the Red Cross emphasized that the 58 are the ones it is "most concerned about." There is yet no accurate count of Vanport dead.

Only four bodies have been taken from the wrecked buildings that housed 18,700 people.

The flood death toll rose to 32 today as the swirling water overwhelmed another dike downstream from Portland.

District engineers reported all

Local Building Program Booms

Permits for $364,738 in new building issued Thursday increased the 1948 construction total in Lubbock to $5,735,928 and accelerated the record pace which has been maintained throughout this year.

Several of the larger projects had been announced previously, although permits for them had not been obtained.

Included among them were the two-story office building at 1628 Nineteenth street to be occupied by the Stanolind Oil and Refining company. The C-V-H co., is listed as the owner and Carl Maxey as contractor. The cost, as shown on the permit, is $175,000.

Shopping Center Planned

Maxey also was listed as contractor for a six-unit shopping center structure to be erected for L. E. Davis at 107-11 College avenue at a cost of $60,000.

Accounting for $70,000 of the day's total were permits for 10 residences costing $7,000 each to be built by the Wayne Construction co. in the 2600 block of Thirtieth street.

Other larger permits included:

Joe Telford, contractor, brick and tile annex to Cumberland Presbyterian church at 1602 Tenth, $18,343; Carl Maxey, contractor, and Vernon Thompson, owner, brick and tile residence at 3201 Twenty-sixth, $17,000, and C. R. Little, frame duplex at 1605 Twenty-ninth, $16,000.

Ship Carrying 400 Passengers Sinks After Hitting Mine

(By The Associated Press)

COPENHAGEN, Denmark, June 11. (Friday)—The passenger vessel Kjoebenhavn struck a mine and sank in Danish inland waters early today, her owners announced. The ship had about 400 passengers aboard.

The Kjoebenhavn was bound from Copenhagen to Aalborg. There was no immediate announcement concerning casualties.

The D. F. D. S. D. company, which owned the Kjoebenhavn said she went down in 10 minutes four miles south of the Aalborg bay lightship in the northern part of the Kattegat. First reports received by the company said passengers jumped into the sea following the explosion.

Quiet Settles In Holy Land

(By The Associated Press)

CAIRO, June 10.—Armed quiet began settling in the Middle East today after 26 days of the Palestine war.

But a jarring approach to the Friday truce hour (1 a. m., EST) was provided by discordant notes and belated offensives on four fronts which continued at least through Wednesday night when both sides tried to improve their strategic positions.

The Lebanese government authorized the seizure of all Israel-bound shipments touching Beirut. Israel, in accepting the truce, already had declared any Arab attempt to confiscate or hold up cargoes would be regarded as a "war-like act."

Irgun Zvai Leumi, which already has threatened to disregard any truce in Jerusalem, broadcast that the Israel government's acceptance of the truce was a "great blunder." Irgun said the agreement

J. A. Phillips, 60, Is Claimed By Death

J. A. (Drew) Phillips, 60, resident of Lubbock for the past 40 years, died at 4 p. m. Thursday at his home, 1905 Broadway, after being seriously ill for about two weeks. He had been in ill health for about two years.

Funeral services will be conducted at 2 p. m. today in Broadway Church of Christ with Lawrence Smith, bursar at Abilene Christian college, officiating assisted by Carl Spain and Elder Liff Sanders of the Broadway church here.

Active pallbearers will be J. C. Sanders, F. E. Crume, Claude Tatum, A. L. Scoggin, J. C. Rigney and J. C. Davis. Honorary pallbearers will be the deacons and elders of the Broadway Church of Christ.

Phillips, who came to Lubbock county from Coleman county, was a retired real estate man and rancher, and he had been a deacon in the Broadway Church of Christ for the past 20 years.

Survivors include the widow; one son, Joe B. Phillips, Lubbock; a brother, Oscar R. Phillips of Portales, N. M.; and two sisters, Mrs. J. L. McCulloch and Mrs. H. O. Parker, sr., both of Lubbock.

J. A. PHILLIPS

House Action Is Necessary

(By International News Service)

WASHINGTON, June 10—Tired and almost talked-out, the Senate today passed a bill to draft men 19 through 25 into military service. The vote was 78 to 10.

Day and night since Monday, talking in relays, the senators had debated the bill which would:

1. Require all men 18 through 25 to register with a local draft board.
2. Permit the drafting of those 19 through 25 for two years in the armed services, here or abroad.
3. Let 18-year-olds volunteer for one year's service, thus avoiding a two-year draft when they reached 19.
4. Require a special registration for doctors and dentists up to 45 although—to avoid stripping communities of medical service—they could not be drafted without special action of their draft boards.

Military leaders figure two out of every three single, non-veterans in the 19 through 25 age group would be drafted under the Senate bill.

But this Senate passed bill is not law and won't be unless, and until, the House also approves.

The House may act next week and it seems sure to but—

There's an outside chance that, in the rush to finish the year's work by next weekend, the House may skip the draft bill altogther.

That would kill the draft for 1948 unless Congress came back after the political conventions this summer and the House acted then.

Shortly before the final vote today, the Senate turned back, 66 to 22, a renewed atempt by Sen-
See SENATE Page 10

Bond Posted In Slaying Case

Funeral services for Alvis Graves, 43, of 2102 Ave. L, who died following a gun battle at his residence Wednesday night, will be conducted at 4 p.m. Friday at the Broadway Church of Christ.

The victim was shot three times in the front yard of his home in the exchange of about eight shots with Tom Garrett, jr., 25, of 916 Thirty-second. Garrett was charged with murder with malice yesterday, and had posted bond of $5,000 set by Justice of Peace C. E. Lynn. Lynn said he would enter an inquest verdict of murder in the case.

Sanders To Officate

Officiating at the funeral will be Elder Liff Sanders, assisted by Rev. Albert F. Laing, pastor of Church of the Nazarene. Burial will be in Lubbock cemetery under the direction of Sanders Funeral home.

Survivors include his wife, three daughters, Mrs. R. B. Rodgers, Alene, and Mary Ann; two sons, Jimmie Lynn and Billy Dick, all of Lubbock; four brothers, C. W. of Lubbock, Jim of Post, O. C. of Clovis, R. A. of Wichita, Kans., and one sister, Mrs. Linnie Gregg of Lubbock.

Pallbearers will be J. J. Tipps, Dr. Allen T. Stewart, J. E. Vickers, Jack Foster, Buster Fluke, and Jimmie Whiteside.

Honorary pallbearers are Ralph Bumpus, J. O. Lynn, Dr. John W. Broome, Ben Eskridge, Clarence Whiteside, Stewart Fluke, Johnny Burns, Miley Woodward, J. C. Sanders, W. W. Campbell, Jack Knipe, O. A. Dunn and F. S. Vance.

The victim, an ex-convict, died

AUTRY'S ENTERTAINERS THRILL CROWD AT STADIUM

12,000 Fans See Fast-Moving Events At Second Night's Performance Of ABC-Boys' Club Rodeo

By BILL CLARK
Avalanche Staff Writer

FAST-MOVING events were witnessed by a crowd of 12,000 Thursday night at the second performance of the eighth annual ABC-Boys club rodeo at Jones stadium.

Gene Autry, star of screen and radio, and his entourage of professional entertainers again punctuated a thrilling performance of cowboys who vied for the rodeo's big money performance chances to be held at the semi-final at 8 o'clock tonight and at the grand final contests Saturday night.

Lightning displays formed a backdrop for the event, but failed to produce a threatened shower to dampen the ardor of the thousands of rodeo fans.

Rodeo Officials Introduced

A. B. Watkins, ABC president, introduced the rodeo officials, George Yardley of Fort Worth and Bill McGuire of Phoenix, Ariz., the rodeo queen, Miss Bonnie Jean George of Jacksboro and Autry's partner and general manager in the rodeo enterprise, Everett E. Colburn.

The night's program, as will those of tonight and Saturday, included bareback bronc riding, saddle bronc riding, calf roping, bull riding, steer wrestling and the special acts by Autry, women trick riders and others.

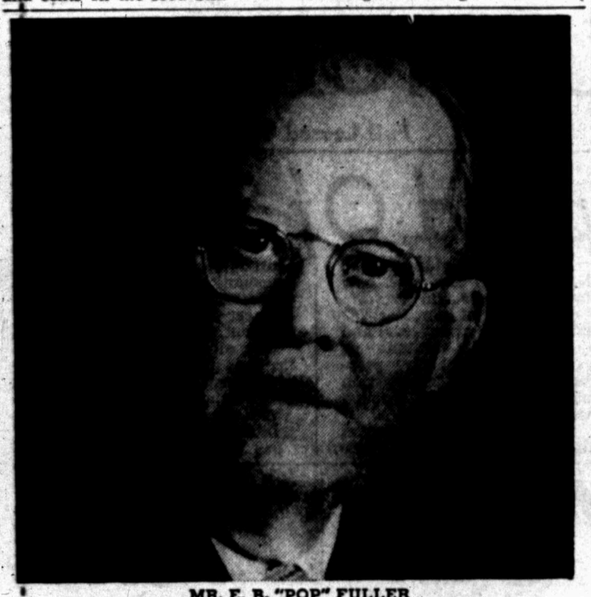

Contributing much to the crowd's enjoyment of the program was the sparkling, always humorous commentary of the master of ceremonies, Abe Lefton of Hollywood, Calif.

Performances by the clowns, George Mills of Pueblo, Colo., and Jasbo Fulkerson of Smithfield, drew cheers from the crowd.

Byron Hendricks again was one

Careful planning, wise buying and good cooking can do much to hold down food expenses. Family cooperation in overcoming food likes and dislikes can save dollars and cents on the food bill.

The first known distribution of milk in glass bottles, started 60 years ago, is claimed by Ogdensburg, N. Y., which will observe the 200th anniversary of the city's founding next August.

MR. E. B. "POP" FULLER

AIRCRAFT INSPECTOR FEELING FINE NOW, THANKS TO RETONGA

Looks So Much Better His Friends Want To Know What He Is Doing For Himself. Gives Full Credit To Retonga For His Relief

"I look so much better since I started taking Retonga that many of my friends stop me and want to know what I'm doing for myself," declares Mr. Edward B. Fuller, well-known resident of 1305 Second St., Santa Monica, Cal. Best known to his friends as "Pop", Mr. Fuller, now retired was for 15 years an inspector in a large aircraft plant. He gratefully continues:

"I felt all run-down and it seemed to me like my insides were churning all around most of the time. After eating, I'd have to let out my belt three or four inches, the gas on my stomach would cause me to bloat so much. Everything I ate seemed to disagree with me and nothing I tried in the way of medicines did much good toward relieving my distress. I had to get up four or five times a night gagging and belching, and when I went back to bed I'd roll and toss most of the night. I just didn't feel like doing anything. I felt so fagged out, and it surely did have me worried.

"I bought my first bottle of Retonga from my druggist with the understanding that if it failed to give me relief he would refund my money. Retonga was surely the thing for me, and the relief it brought me is a constant pleasure. I eat anything I want, no longer suffer those awful belching spells, and I sleep soundly 8 to 11 hours a night without getting up. I feel fine. I have recommended Retonga to a lot of people around here and I'm glad to pass my experience along to others."

The active ingredients of Retonga are purely herbal, combined with Vitamin B-1. Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline Vitamin B-1 deficiency, and constipation. Accept no substitute—insist on the original. You can get Retonga at all good drug stores, including Mark Halsey Drug Store.

Fred Astaire Puts Aside Retirement Plans To Team With Judy Garland In New Movie

By DOROTHY MANNERS
INS Staff Writer

HOLLYWOOD, June 10—Fred Astaire is back to stay and Judy Garland's got him again! With all thoughts of retirement packed in moth balls, Fred stays at MGM to team with Judy, plus Oscar Levant, for "The Barclays of Broadway."

Before she took off for foreign parts, LOP directed a personal appeal to Astaire never to leave the screen again after "Easter Parade"—that is how good he is. A few years ago he said he was quitting because his joints were creaking!

The story of "Barclays" is an original by Betty Camden and Adolph Green about a dance team that fights all the time and is held together only through the efforts of a pianist who depends on them for a livelihood. That is Oscar Levant, of course.

Arthur Freed produces and the same man who handled "Easter Parade," Charles Walter, directs.

Flynn Wants Film Job

Oh, no! Errol Flynn wants to do "Rip Van Winkle," the little man who got in the jugs and slept it off for 20 years!

Errol wants to make Gene Fowler's version which presents the leading bowler of fiction, not as an old dodo bird, but as a young man with a talent for bowling over the ladies as well as the pins.

Gene has always had Jimmy Stewart in mind as his ideal for the part, but on second thought, Errol could well be his boy.

Those clothes Madeline Carroll is knocking them cold with in Paris are part extravagance and part business. James Nasser, who made her comeback movie, "Innocent Affair," has been telephoning her about another movie in which she could wear a Paris wardrobe.

Nasser is game to foot most of the bills. Some gals get all the breaks.

First, Madeleine goes to 20th for "The Fan"—but when she is free to make the Nasser picture, she will be glad to know that Lloyd Bacon will direct her again. He, too, is being held over from "Innocent Affair."

Kysers Mark Fourth

Around town: Elizabeth Arden checked in at the Beverly Hills hotel . . . Remember Aquanetta, the actress who married wealthy Mexican producer Luciana Babchucek? She is back for a visit, showing off her 17-month-old son and saying "hello" to her friends around the Universal lot . . . The Kay Kysers have clicked off their fourth wedding anniversary and I might say there is no more popular or more admired guy in this town . . . Ed (Archie) Gardner will be met tomorrow by an old brewery wagon and four white horses to haul him up Broadway to the Strand theater in New York. It is a gag for "Duffy's Tavern," son—and not that he needs it . . . Mickey Rooney, who just can't seem to get happy these days, has taken on a beef for Tom Drake. The Mick thinks Tom should be billed above Judy Garland in "Words and Music" because Judy has only one number in the picture and Tom a top spot. . . . One of the main reasons Jean Peters backed out of "Sand" is that she faces a long session with the dentist.

Supreme Court Rules Against Rehearing Compensation Case

A motion for rehearing of an application for a writ of error in the appeal of E. J. Darling against Panhandle & Santa Fe Railway Co., from Lubbock county, was overruled by the supreme court, the Associated Press has anounced from Austin.

A judgment of Judge G. V. Pardue of the 99th district court, filed June 12, 1947, ordered that the railway company have a declaratory judgment asked, and that a Nov. 26, 1945, release executed by the parties whereby Darling received a compromise settlement of $6,800 for injuries suffered June 22, 1945, when in scope of employment as a railway fireman, was valid and complete. The judgment further said that the settlement release discharged the railway from all other claims Darling was "threatening to assert."

Terrified Boy Hides Playmate's Body After Accidental Shooting

ST. GEORGE, Kan., June 10 (U.P.)—Jimmy Brisbin, a terrified 12-year-old who hid the body of a year-younger playmate he had slain, killed Garry Morris accidentally while playfully pointing a rifle, Pottawatomie County Attorney John Brookens said today.

Brookens said "Jimmy killed his little friend by accident." He added that charges probably would be withheld.

The hiding of the body was done in terror, the county attorney said. The boy was afraid he would be put in the electric chair.

The two youths had been playing in the Brisbin home Tuesday and went upstairs to get some comic books, Brookens related. Young Brisbin picked up a .22 caliber rifle and pointed it at his chum. Loaded, it went off, inflicting a mortal wound in the abdomen.

Scared past reasoning, Jimmy had the body of 11-year-old Gary in the house until dark. Then he dragged it 150 feet into a small field.

When the Morris boy was missed, Jimmy was questioned at Westmoreland, the county seat. At first he denied knowledge of his playmate's whereabouts. After some time he asked whether people who killed other people were electrocuted. Reassured that he would not be executed, Jimmy told what had happened.

The body was found by St. George townspeople.

Man Decides To Give Workers Holiday On Wedding Anniversary

NEW YORK, June 10 (AP)—Max Sherover, veteran of 40 years of married life, said today each of his 2,500 employes could have a day off to celebrate his or her wedding anniversary.

Sherover, president of Linguaphone Institute of America, said: "A wedding anniversary should be a holiday for a married couple."

"In these days when everybody hears about divorces, I want to do my mite to play up the sancity of marriage," he said.

NOW SHE SHOPS "CASH AND CARRY"
Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Lifebuoy with its Purifying Ingredient GETS SKIN CLEANER

STOPS "B.O." as no other leading soap can!

DOCTORS PROVED with 820 scientific tests the truth of this amazing statement . . .

The cleaner you get your skin, the doctors found, the safer you are from "B.O." (body odor). Any soap will remove all the grime and perspiration you can see—yet leave *"invisible* dirt" on your skin to form a foothold for "B.O."!

Doctors compared the effects of daily baths with different soaps. The results are amazing! When you bathe with *any other* leading soap, you are simply *not as clean,* not as safe from "B.O." as you are when you bathe with Lifebuoy. After 820 scientific tests doctors say Lifebuoy's purifying ingredient makes the difference! And it is this same purifying ingredient that makes Lifebuoy *so mild.*

Use Lifebuoy daily. It is made from a special oil blend that gives you such an abundant, refreshing lather. Remember: Lifebuoy gives you cleaner skin . . . stops "B.O." as no other leading soap can!

Be popular this summer! Remember that everyone perspires more in summer heat. Take a Lifebuoy bath *daily.* It means *top* protection from "B.O."... lasting protection 24 hours a day!

Lifebuoy is used in the homes of 40 million considerate Americans

COMMUNISTS MAY DOUBLE GUARD OVER BENES

Former Czech President's Hopes Of Escape From Reds Dimmed By Friends' Statement

By BOB CONSIDINE
INS Staff Correspondent

NEW YORK, June 10—The passing show:

Eduard Benes' hopes of escaping from the police state that is his country were dealt a heavy blow the other day by his friends, not his enemies.

A group of the ex-president's associates in the haven of Frankfurt, Germany, predicted for publication that Benes soon would be safely with them. If that did not double his guard nothing ever will. There is reason to believe, also, that the guard already was heavy.

Benes is a generally beloved figure here but as a matter of fact he has been a disappointment to a number of top refugee officials for several years. More than one of them warned him, when he first romanced Stalin, that eventually he'd burn his fingers.

Patriots Not Protected

Their disappointment bordered on contempt last November when he failed to protect two Polish patriots—including the heroic Maria Hulewich, personal secretary to the former Polish prime minister, Stanislaw Mikolajczyk—when they were picked up in Czechoslovakia escaping the tortures of the N.K.V.D. now in power in Poland.

It is the belief of Mikolajczyk and others who managed to escape, after doing their best to live up to the promises of Yalta, that Benes waited too long to resign, and that Jan Masaryk, whom all of them loved in the early days, committed suicide not in protest over what happened to his country but in tragic penace for what he himself did to hasten his country's plight.

Ford Cars Unveiled

At the Waldorf unveilings of the 1949 Fords young Henry Ford II was as proud as a kid with a new toy. This was a moment he had been sweating out for a long time.

He regards the new model as the first real third generation Ford car, and the one for which he will be remembered as his grandfather was remembered for the model T, and his father, Edsel, for the model A.

The new one took some doing, as do all new cars.

"We started on it in 1946," he said, talking between people who were shaking his paw. "August of '46. We took on George Walker, the designer, as a consultant, after we learned that the first new model we had in mind would cost too much. He turned most of the first new drawings into the Mercury.

"Well, after a while we were set on this one," he said, looking around the room filled with new cars. "We made a few by hand—at between $25,000 and $35,000 each—and got them ready last January. Then we shipped them to Florida, took over an old air base, and took pictures of them for our summer advertising, which comes out this week.

Rich Boys Hungry

"Why did I make the decision to make such a complete change in the car? That's easy. I want Ford to be first again in its field. We lost first place in 1927, got it back briefly in the early 1930's, dropped out again and haven't been on top since 1935."

What he neglected to say was that it cost him $90,000,000 to change his models. It is his way of betting that there won't be a war for a long time to come.

In case you're interested in what very rich young men talk about when they're together, we now know. At one stage of the preview party, Ford, Nelson Rockefeller and Harvey Firestone, jr., were standing together — a concentration, in effect, of hundreds of millions of bucks, maybe billions.

"You hungry?" Ford asked his friends.

"Yeah," said Rockefeller.

"Let's get out of here and eat," Firestone said.

HE'S CARRYING A BLOWTORCH FOR HER—Demonstrator Daniel Boone aims a blowtorch at a penny in Peggy Jo Schirmer's hands. But, although the penny melted, Peggy Jo didn't feel a thing. It's all a Chicago demonstration of a new insulating building material, called vermiculite.

Interior Secretary And Party Plan Fishing Trip In Gulf

GALVESTON, June 10 (U.P.) — This Gulf port city today was getting ready for a visit Sunday by Secretary of the Interior J. A. Krug and 10 outdoor writers, hoping for the best of fishing weather during the weekend.

Krug and the battery of scribes will try their fishing luck in the waters which surround Galveston island.

The interior secretary who runs the national parks will leave President Truman's party traveling across country to join the fishing group here. He will arrive Saturday night by plane.

His host representing Texas officialdom will be Lt. Gov. Allan Shivers. Gov. Beauford Jester had made previous arrangement to attend a governor's meeting.

Sunday morning Krug will make an inspection from the air of the Texas coastal area.

At 3:30 a.m. Monday, he and his fishing companions will get underway for a boat trip to Heald bank, 40 miles out in the Gulf, where they hope to pull in Red Snapper, Bonitas and King fish.

A fish fry is optimistically planned for Monday night at Stewart Beach, using the fish caught on the Heald bank excursion.

The secretary plans to leave for Washington Tuesday morning.

Celebration For Wisconsin Family Takes Whole Month

REEDSVILLE, Wis., June 10 (U.P.)—All the residents in Reedsville call 87-year-old Mrs. John Novak "Grandma," and with good reason. Mrs. Novak has 164 grandchildren.

Descendants of the widow include 74 grandchildren, 88 great-grandchildren and two great-great-grandchildren Sixteen of 21 children of Mrs. Novak also are living.

Birthdays for Mrs. Novak on her anniversary are no one-day affair. Despite the large rambling country house she lives in, the Novak clan could not cram itself inside all at once. The celebration takes a whole month.

DOG CATCHES DOGCATCHER

BLOOMINGTON, Ind. (U.P.) — George Snively got caught by a dog the first day he took over his job as dog catcher. A large collie grabbed Snively's hand and held on. City police who came to his aid shot the collie.

The Woman's Angle
By Margaret Turner

WHEN you read of the death of a spiritual and intellectual leader, such as Dr. Joshua Loth Liebman, cut down in the prime of life at 41, your first thought might be one of profound regret that he could not have been spared to devote many more years to helping people, both of his faith and others, to find themselves. And then again you are grateful that he poured out so much of himself in those few years. You realize that he did more good in two score years than the others of us will do if we live our alloted time.

• • •

In March 1946, "Peace of Mind," from the pen of Rabbi Liebman was published. Two months later a brief condensation appeared in Reader's Digest and within three weeks it hit the best seller list, where it has remained most of the time since. In that book the Rabbi posed the question "What is life's greatest good and how attained?" and answered in beautifully expressed thought that it is that man in this confused and harassed age needs an affirmative faith.

The book came at a time when people everywhere were being possessed with a corroding pessimism. They were seeking that pearl of great price, security, or peace of mind, and Rabbi Liebman gave them the answers. And how well his book was received was indicated in the overwhelming response in 500 letters monthly from all over the world and translations of the book in eight languages.

• • •

ALONG about that time the best selling author told an Eastern interviewer that he lived on a schedule of from 18 to 19 working hours a day; that he required little sleep. He had a trick memory that enabled him to memorize a 40-minute sermon in 40 minutes and, with the aid of a dictating machine, he could dictate about fifty pages a day.

"Peace of Mind" discusses the ills of our time and formulates a reasonable, tolerant faith, a persuasive coure of action. In one of the most popular chapters of the book, Rabbi Liebman points out that when we hate ourselves we can't possibly love others. And why do we hate ourselves? For many reasons, he says. One of the most common is that we set an idealized standard for ourselves and then, when we fail to live up to it, blame ourselves bitterly. In this chapter advocating love of self as a substitute for disgust of self; Liebman challenges his reader to respect himself, to trust himself. He can set a guard over his soul and maintain high ideals and good morals in spite of the downward trends all about him.

• • •

IN the chapter that received the most response from thousands of readers, the Rabbi advocates wholesome expression of grief, pointing out that to remain stoical when a loved ones dies may cause great and prolonged emotional damage. Express as much grief as you feel, he suggests. Do not demand more of yourself than nature will permit. The function of friends is the sounding board for grief and they offer an opportunity for you to talk about the loved one you have lost.

• • •

IN his chapter on "Thou Has Enthralled Me, God," the writer does not describe the technique by which God may be found. Unless you begin by believing you will never come to understand, he says. Knowing God is not a matter of argument and reason but a great adventure in faith. Any man who will set out on the adventure can have the knowledge.

• • •

IN his book, he adequately maintains his thesis that an intelligent use of psychology and psychiatry not only supports religious belief but confirms it. These modern analyses may make it possible to be at peace with something less than perfection, but only religion tells man to act in the image of God.

Accept the truth that you are capable in some direction and limited in others, suggested this young man who spent so much time in study and consultation that he burned his physical endurance to a low ebb. Take off your dark colored glasses, assume your place as an equal in the adult world and realize that your strength is adequate to meet the problems of the world.

China's 60,000,000 farmers have only about 210,000,000 acres of land.

Afternoon Tea Is Farewell Courtesy

Mrs. J. C. Caraway, 2006-A Main, who will move to Jackson, Miss., soon, was honored with a tea given in the home of Mrs. Wayne Pharr, 2908 Thirty-sixth, Wednesday afternoon. About 100 guests called between 2 and 5 o'clock.

Recorded music formed a musical background for decorations of spring flowers and a pink and green color scheme. Punch was sevred from a crystal punch bowl on the refreshment table which was laid with a pale green cloth of pure Irish linen. Mrs. Jimmy Gunn poured and Mesdames Everett Miller and C. E. Merket assisted in serving.

In the receiving line were the honoree, and Mesdames Jimmy Russell, Ray Mangum, H. G. Howard, J. B. Haygood and Carroll Smyers. Mrs. Wayne Pharr was at the guest book, which was presented to Mrs. Caraway. It contained signatures and farewell notes of those who called.

Morton Wedding Is Announced Here

Mr. and Mrs. L. C. Woods of Morton are announcing the marriage of their daughter, Miss Christine Woods, to Rudolph Putman, son of Mr. and Mrs. G. B. Putman of Jal, N. M., which was read Saturday, May 29, at Morton Baptist church by Reverend Harris.

Atendants were Miss Marie Woods of Morton, sister of the bride, who wore a pink dress with navy accessories, and Burnard Harris of Hobbs, N. M., best man.

The bride wore white with white accessories, a rosebud corsage and carried a white Bible.

The couple is at home in Jal, N. M., where the bridegroom works for the El Paso Gas company. He attended Ropesville High school and served in the navy for two years. The bride attended high school at Whiteface.

DAR Chapter Plans Saturday Picnic

An annual picnic supper will be given by Nancy Anderson chapter, Daughters of the American Revolution, Monday night at 6:30 o'clock at the home of Mr. and Mrs. Robert J. Allen, 2408 Thirteenth, rather than on Monday, Flag day and traditional time for the social.

Hostesses with Mrs. Allen will be Mesdames Scott McGuire, F. A. McLain, L. E. Donaldson, L. E. Weathers, Sterling Crumpler and Miss Ruth E. Ford.

Members may invite guests.

CORRECTION

A Wednesday afternoon meeting of 1940 Needle club was held in the home of Mrs. Raye Peeks rather than in the home of Mrs. Clyde McCrummen as announced in Thursday morning's paper.

June Brides-Elect, Misses Stephens And Sullivan, Are Complimented At Parties

Misses Billye Jo Stephens and Betty Jean Sullivan who will marry this month are being complimented at numerous parties.

A pottery shower and coffee honoring Miss Stephens, bride-elect of Bill Carter, was held in the home of Mrs. R. S. Rodgers, 2109 Seventeenth, with Miss Bobby-Anne Tubbs, Mrs. C. A. Tubbs and Mrs. Rodgers as hostesses. Over 90 guests called between 10 and 12 o'clock Thursday morning.

In the receiving line were the honoree, Mrs. B. F. Stephens, mother of the bride-elect, Mrs. F. E. Carter, mother of the bridegroom-to-be, and Miss Tubbs. At the bride's book was Mrs. J. W. McKee.

The bride's table was centered with a floral arrangement of pastel sweetpeas and carnations from which a rainbow of net in the bride's colors, pale pink, green and yellow, arched toward a miniature bride and bridegroom. A cut work cloth covered the table. Miss Betty Loys poured and assisting in serving were Mrs. Bob Rodgers and Miss Maxine Boyd.

AT LUNCHEON IN DYKES HOME

Mrs. W. A. Dykes and Mrs. Duncan Ellison continued a series of parties honoring Miss Sullivan, bride-to-be of Robert L. Carr, when they entertained at a luncheon in the Dykes home at 2120 Broadway Wednesday.

Rosebuds were decorations at the foursome tables and a hostess gift marked the honoree's place.

Covers were laid for Mesdames A. E. Sullivan, Vincent Carr, R. E. Stroup, J. W. McKee, Waggoner Carr, Misses Carolyn Cole, Dorothy Barnett, Rickie Archer, Jean Eisenberg and Elizabeth Howard.

Luncheon Follows Class Bible Study

Following a Bible study lesson taught by Mrs. W. H. Trice for First Baptist Homemakers class Thursday at the home of Mrs. L. O. White, 2219 Thirteenth, a pot luck luncheon was served. Mrs. Trice is teacher of the class.

Members attending were Mesdames Eugene Guyer, Elmer Terry, Henry Ford, Cecil Turner, L. H. Barley, M. L. Welch, John D. Robertson, R. L. Edwards, Mack Mead, Wayne Webb, H. G. Burchett, L. J. Abbott, W. A. Banks, S. A. Hamilton and George Hay. Mrs. Bill Watson was a guest.

Home Accessories Are Discussed

Miss Clara Pratt discussed "Color, Window Treatment and Accessories for the Living Room" when Hurlwood Home Demonstration club members met with Mrs. P. C. Mitchell Tuesday afternoon.

Mrs. Milton Kirksey was received as a member. Eighteen members and the following visitors attended: Misses Elizabeth Elliott and Patsy Gibbs, Mesdames E. Y. Gibbs, B. W. Patterson and Joe Hutcheson.

Mrs. L. V. Preston will be hostess June 22.

Lubbock Guests Are From Fort Worth

Mrs. Truett L. Owen of Fort Worth is the guest of her brother, Charles R. Bacon, and Mrs. Bacon, 1632 Broadway. Mr. Owen is to arrive Sunday for a visit. Their young son, Robert, is attending Camp Stewart near Kerrville this summer.

Mrs. Owen is the former Virginia Bacon of this city.

Willett-Chisum Vows Are Read In Conroe

Mr. and Mrs. K. T. Chisum of Route 6 are announcing the marriage of their daughter, Irene, to Ed F. Willett of Harlingen which took place Monday night at the home of Rev. Bascom Merehart, pastor of the Methodist church in Conroe.

The couple will live in Lubbock following a wedding trip to Houston and other points in South Texas.

It's Calendar Day!

Club reporters are reminded that items for Sunday's Social Calendar must be called to the Society desk by 12 noon today. The meetings will be on the second Monday and third Tuesday through Saturday or June 14-19.

Deadline for Sunday's Society pictures is 6 p. m. Thursday and deadline for Sunday Society stories is 12 noon Saturday.

Today's Events

Loyalty club, 8:30 p. m., Mackenzie State park, picnic.

Friday Needle club, 1 p. m., luncheon Mrs. R. R. Holmes, 2510 Twenty-fifth.

First Baptist Ruth class, 1 p. m., Activities center, luncheon.

Bridge Is Diversion Of XYL Club Members

Mrs. W. T. Ward, 2805 First, was hostess when the XYL club met Wednesday night at 8 o'clock to play bridge.

Attending were: Mesdames Homa Reece, E. C. Pool, U. V Blake, C. C. Stailey and Bruce Craig.

Next meeting will be with Mrs. Blake, 2122 Tenth, on Wednesday at 8 p. m.

Needle Club Party Is In Landers Home

Colonial Needle club met Thursday afternoon at 2:30 o'clock in the home of Mrs. Bryan Landers, 1302 Twenty-first.

Members present were: Mesdames F. G. Treat, B. F. Foster, Jeff Graham, E. N. Evans and J. H. Mullis.

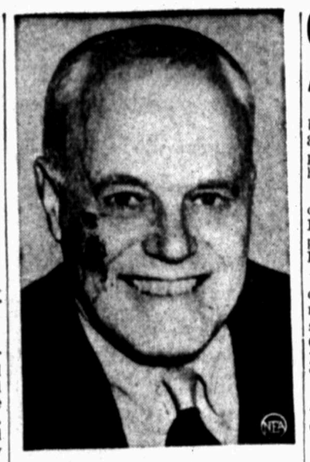

Mrs. Foster will be hostess on June 24, at 1 p. m. for a picnic to be held in Mackenzie State park.

ATTENDING COURSE

Mrs. C. C. Vance is attending a short course in poultry at A. and M. college this week. She is a member of the Shallowater Home Demonstration club.

ABILENT SAFETY NOTED

ABILENE, June 10 (AP)—Abilene completed its 365th day today without a traffic fatality. But it has one more day to go to make a year.

GETS ARMY POST— President Truman has nominated Tracy S. Voorhees of Brooklyn, N. Y., to be assistant secretary of the Army. Voorhees, a 57-year-old attorney, served as a colonel in the judge advocate general's department during World War II.

Vessel Sails On Nine Month Search For Pacific War Dead

HONOLULU, June 10 (AP)—An LST sailed today on a nine-month Pacific search for World War II dead.

The vessel will visit Phoenix island, Samoa, Figi, New Zealand, New Britain, the Solomons, New Hebrides, Ellice and the Gilbert and Marshall islands.

The expedition includes a diving detachment for checking submerged planes and landing craft for bodies.

Club Has Breakfast At Mackenzie Park

Betsy Ross Needle club held a breakfast Thursday morning at 8:30 o'clock in Mackenzie State park with Mrs. L. L. Garrett as hostess.

Guests attending were Mesdames B. J. Henry and D. O. Hartsfield of Slaton. Children present were Virginia Hartsfield, Betty Raburn and Dickie Millsap.

Members present were Mesdames Elmer Harris, C. F. Gallimore, John Mackinzie, B. P Millsap, Carl Owens, E. L. Rabun, Oscar Ragland, E. E. Rodgers, J. T Rodgers, W. G. Tarrance, C. W. Trippe and N. O. Vincent.

On Thursday, July 8, the club will meet at 3 p. m. with Mrs. Gallimore, 2120 Ninth.

Former Lubbockite Is Here For Visit

Mrs. Joseph F. Andrews of New York City, the former Miss Ruth Horn, arrived in Lubbock Thursday for a visit with Lubbock friends. She is the daughter of the late Dr. and Mrs. Paul W. Horn, her father having been first president at Texas Technological college.

When Mrs. Andrews returns East by car June 18, she will be accompanied by Mrs. R. D. Erwin, 1714 Ave. X, and Mrs. Hub Jones, 2114 Thirteenth. Mrs. Erwin will remain to study art this summer at Gloucester, Mass.

The best time of the year to use kerosene for killing trees and shrubs is when the ground is dry in the late summer or early fall. Kerosene and sodium arsenite are the two chemicals commonly used to kill mesquite.

Lubbock Accountants Attend Convention In Fort Worth

Five Lubbock accountants left here Thursday afternoon to attend the annual convention of the Texas Association of Public Accountants scheduled for today and Saturday at the Blackstone Hotel in Fort Worth.

Those scheduled to attend include C. A. White, Mary T. Hogan, C. S. Williams, Milton E. West and S. C. Simon.

White, immediate past state president of the organization, is scheduled to preside on the closing day of the convention.

Smuts Says West Must Halt Reds

CAMBRIDGE, England, June 10. (INS) — Field Marshal Jan Christiaan Smuts urged the western powers today to "call a halt' to the Russian Communist campaign of "conquest without war."

South Africa's former premier said in an address at his installation as chancellor of Cambridge university that the "hour has struck to halt this (Communist) fifth column in its advance westward and say to the great power behind it: 'Thus far and no farther.'"

Smuts said that Soviet Communism had become "intoxicated with success."

Capitalize On Fear

He said Moscow's "ruthless" new technique of "aggressive diplomacy"— he described it as a "silent horror"—had proved successful by capitalizing on the west's "fear of war, war weariness, pacifism and the wrong prospective."

Smuts added:

"As long as they think they can play this game without the risk of a real war, they will continue their technique of aggression — with results which may be as devastating to human freedom as war itself.

"Pacifism, disarmament and unpreparedness act as direct incentives to this form of aggression. They afford great temptations to the would-be aggressor."

Smuts said the great powers west of the iron curtain are anxious to avoid "the absolute madness" of another war but he emphasized:

"We live in a dangerous epoch and must live dangerously."

NEW CLASSES

Start June 7 and 14. Urgent demand for graduates at handsome incomes. Light, airy classrooms. G. I. approved. Day and night.

Family's Bright Ideas Mean Cash From Electric Company

SPRINGFIELD, Mass., June 10 (U.P.)—When it comes to money-saving ideas for a mass-production manufacturer, the La Belle family has a good batting average.

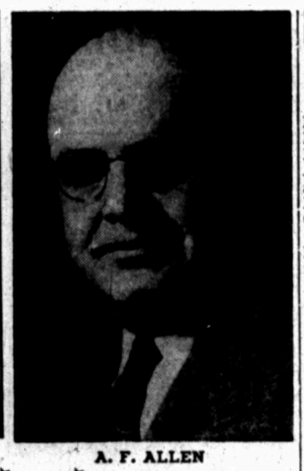

Seven of the La Belles work in various capacities for the Westinghouse Electric Corp.

Take Joe La Belle in the refrigerations specialties repartment at the local Westinghouse plant. He's netted $1,890 in cash awards for the 18 suggestions accepted of the 37 he has submitted.

His sister Ruth at the Lima, O., plant has had 30 suggestions accepted. Two of his other sisters at the local plant also have had their ideas adopted.

WM. A. BLACK

A. F. ALLEN

Insurance Firm To Give Efficiency Trophy To Lubbock Office Staff At Dinner Tonight

With the Lubbock office showing the best growth of any office in the entire state, high officials of the Texas Employers Insurance association are to gather in Lubbock tonight to present Wm. A. Black, district manager, and his staff with an efficiency trophy for 1947, the best of any of the association's class B offices.

In addition, Black will be honored for being the leading producer in the entire company over the state. The program will be held at a dinner at the Hilton hotel starting at 6:30 p.m.

Included in the officials to be here will be: A. F. Allen, president; E. E. Watts, vice-president and treasurer; C. G. Weakley, vice president and sales manager; A. H. Plyer, vice president and assistant treasurer; J. L. Davenport, regular claims supervisor; and D. E. Newton, assistant claims manager, all of Dallas; and D. D. Redman, vice president in charge of West Texas, of Fort Worth.

The trophy was won by Lubbock in competition with 14 other offices of the state. The Lubbock office has shown the best growth of any office in the company's 19 offices in the past two or three years, Redman said Thursday.

Drug Store Cowboys Called Dead Loss By Association

SPRINGFIELD, Ill., June 10 (U.P.) —Druggists no longer welcome the high school crowds who used their stores as hangouts before the war, according to the president of the Illinois Pharmaceutical Association.

Labor costs have risen so much, Harold W. Wild said, that nickel and dime soda fountain drinks show little if any profit.

Druggists discourage lingering over drinks. Some no wcharge a minimum of 15 cents per customer. Others use a more direct method. They are chasing the high school crowds out.

Wild said druggists are forced to keep a steady stream of customers to show any profit.

Wild has his own solution to the problem. He took his soda fountain out.

Prominent Lawyer Assails UN Bill Of Rights Plan

GRAND CANYON, NORTH RIM, Ariz., June 10. (INS)—A prominent lawyer warned today against a so-called international bill of rights drawn by Mrs. Franklin D. Roosevelt's United Nations committee.

Frank E. Holman, of Seattle, who will be the next President of the American Bar association, attacked Mrs. Roosevelt's plan in an address before the Utah state Bar convention at the Grand Canyon resort.

Holman deplored the committee's action at a recent meeting in Geneva for adopting "a hastily conceived convenant" and said leading members of the committee did not "know much about the true legal character or historical background of a true bill of rights . . ."

Texas Airports Will Receive Federal Funds For Repairs

WASHINGTON, June 10 (U.P.)— Four Texas points will receive federal funds for repairs to their airports damaged while in government possession under a bill proposed by Senator Brewster (R-Me).

The points, Alive, Galveston, Jefferson county, Texas, and Olney, are among those being processed by the government and will likely have their airports restored to former condition at federal expense, Secretary of Commerce Sawyer said yesterday.

Rites Slated Today For Tahoka Veteran

TAHOKA, June 10 (Special)— Funeral rites for T/5 Robert Lee Potts, son of Mr. and Mrs. Vin Potts, who was killed in Brisbane, Australia, in 1943, will be held at 2 p. m. Friday at the First Methodist church with the Rev. C. A. Holcomb, jr., officiating.

Potts came to Lynn county with his parents in 1930. He enlisted in the Army in 1941 and served with the 98th Field artillery, going overseas in December, 1942. Graveside rites will be in charge of the Tahoka Veterans of Foreign Wars post. Stanley Funeral home is in charge of arrangements.

Survivors include the parents, four brothers, Pfc. Charles Potts, Fort Warren, Wyo., Pfc. Thurmon Potts, Fort Ord, Calif., James and Otis Potts both of Tahoka, three sisters, Mrs. Helen Cash, Vinnie and Joyce Potts, all of Tahoka.

Colgate-Palmolive-Peet Co., Jersey City 2, N. J.

FAB with SUPER-WETTING ACTION

washes everything

FASTER, CLEANER, WHITER, BRIGHTER

than any soap . . . in hardest water!

New scientific washing preparation is a *fab*ulous work saver for dirtiest overalls, work clothes, children's clothes, towels, shirts . . . *everything* that's *extra dirty!*

FAB with *Super-Wetting Action* makes rich, lasting suds in hardest water!

FAB washes even grimiest overalls FASTER, CLEANER, EASIER than *any* soap! *No soap* scum to "gray" white wash. Wash is whiter, cleaner. When you wash, FAB with *Super-Wetting Action* instantly penetrates materials; *pushes* out dirt!

FAB contains a *fab*ulous new ingredient that gets white wash whiter, colors brighter. And FAB with *Super-Wetting Action* removes scum left by soap washing . . . leaves no dulling soap scum of its own!

FAB washes DISHES TWICE AS FAST as soap! Dishes and glassware gleam without wiping!

FAB WASHES CHEAPER . . . IN HARDEST WATER! Laboratory tests prove that cup for cup, in hard water, FAB washes up to twice as much family wash as soap.

Americans Restless, Bureau Says After Migration Survey

By JOHN ROSENBURG
United Press Staff Writer

NEW YORK, June 10.—Americans were more restless during the last seven years than ever before in history, according to U. S. Census Bureau figures cited by the Institute of Life Insurance.

A government study showed that 70,000,000 people, or almost half the population, moved to new homes from 1940 to 1947. Twenty-five million of them moved from one county to another or from one state to another.

The figures show that most of the migration was to the west, where there was an increase of 2,000,000 in population. The bureau said that 1,500,000, on the other hand, left southern areas.

"Job opportunities are usually the mainspring of migration, and the war and subsequent reconversion period, with their far-reaching effect on industrial production and location of new plants, accentuated this influence," the institute commented.

Veterans On Move

The study showed that most of the people who moved were between the ages of 20 and 35 and that the migration rate for veterans 18 years old and over was one-half greater than for non-veterans.

"Two of every five persons living in the west were migrants, a rate about twice as high as that for the south or north central states and three times that for the northeastern states," the report added.

The report also had this to say about migration:

More girls leave home between the ages of 18 and 24 than boys; the educational level was higher among migrants than non-migrants; among both males and females, professional and semi-professional workers moved longer distances than persons in other occupational categories.

Canned vegetables on the "plenty" list for June include peas, pumpkin, sweet potatoes, and the tomato products — juice, catsup, paste and puree.

Red Blood Cells Must Be Kept Up If You Want To Feel Alive

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Overwork, undue worry, and lack of certain foods often reduces the red-blood strength — and starved, weak, puny blood just hasn't the power to keep up your energy and drive.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

Now Many Wear
FALSE TEETH
With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug store. adv.

POOR FISH SHOCKED

JEFFERSON CITY, Mo. (U.P.) — It's shocking the way they treat the poor fish in Missouri. To catch the fish for scientific studies, the state conservation commission uses an electric seine which temporarily stuns them. To mark them for long-range experiments the commission uses an electric tatooing machine.

Russia Has Its Own Type Aristocracy, Professor Declares

SAN ANTONIO, June 10 (INS)—There is a new aristocracy in Russia — an aristocracy of Soviet bureaucrats who live luxuriously on big estates with plenty of money and limousines.

That was the picture presented recently to the Business and Professional Men's post, American Legion, in San Antonio by Dr. Don M. Castleberry, a University of Texas assistant professor.

Dr. Castleberry, who spent a year in Russia as assistant director of the Red Cross during the war, lashed out at American sympathizers of Communists.

He broke the sympathizer faction down into two groups:

Those of the idealistic, intellectual variety who believe Communism leads to Utopia.

And the opportunists who hope America may be changed to their liking.

Dr. Castleberry termed both types "dangerous."

He said the Russian is both "durable and rugged." "Any one who can live in a temperture of 11 degrees below zero for months and not complain is rugged," he declared.

Dr. Castleberry said the native Russian is 'basically friendly" toward America and wishes to learn more about our country.

"But the underlying terror of the public for the Russian secret police proves the Soviet rule is stricter than the Nazi rule over Germany before the war," he asserted.

Trial Of Texas City Blast Cases Planned

GALVESTON, June 10 (AP)—An early trial of the Texas City disaster cases was indicated here today after a conference between U. S. District Judge T. M. Kennerly and attorneys representing the majority of the plaintiffs.

Judge Kennerly estimated that the cases—235 suits against the federal government for a total of $200,000,000, might be tried by Nov. 1.

Thomas Fletcher of Houston, one of the attorneys, expressed belief that a consolidation of the cases could be worked out.

Judge Kennerly said he would like to see some sort of test case to determine whether the government is liable for damages. Once the question is settled, he said, the amount of damages, if any, could be determined in later hearings.

He said freedom of press, assembly and speech does not exist and that the only opposition to Communism is among the guerrilla bands in the Ukraine.

Cook County Plans Its First Local Celebration Since 1933

CHICAGO, June 10 (U.P.) — The most populous county in the nation is going to have a county fair.

Cook County, of which Chicago is a part, will hold a celebration Aug. 28 through Sept. 6 at Soldiers Field and park areas on Lake Michigan's shores. There hasn't been a Cook County fair since 1933.

It will be a real country affair. Competition is planned for cattle, sheep, swine, rabbits and poultry raisers with big prize money. There will be pie-making and preserve contests, too, for the ladies. And a big midway for everyone.

Political Candidates Put On Spot In Test Of Capabilities

By ALEX TROFFEY
United Press Staff Writer

PALO ALTO, Calif., June 10.—Names in big type and not-so-candid photographs on posters often are all voters know of political candidates. So the Palo Alto Mail-Dispatch decided to change the situation.

It is putting office-seekers on the spot and their careers on the table by asking them to fill out scientific questionnaires about their activities and capabilities and then publishing the results. The Mail-Dispatch claims such "career profiles" are a "first" in the nation.

So far eight candidates have agreed to bare their lives. The newspaper says "busy electioneering by candidates is a weak excuse for the 30 to 60 minutes it takes to fill out the career inventory . . . so that voters can have the democratic prerogative to examine pertinent and unbiased factual information . . . without benefit of editorial coloring."

Standard Survey Used

The surveys are the Van Allyn qualification inventories widely used by business and industry for selection and placement of personnel and by educational institutions in vocational guidance work. They make much lighter reading than the usual political statements.

They reveal a person's vocational abilities, limitations and potentialities. Measurements of character (honesty, public loyalty, etc.) and measurements of ideologies (progressiveness, conservativeness, socialism, etc.) are not included.

For instance, two board of trustee candidates, Charles P. Burgess and Donald R. Lilly, were quizzed on 35 identical subjects. Their answers were analyzed and summed up in terse paragraphs under each subject heading. Some of the deductions were not at all complimentary.

Scores ranging from "0" to "6" were given all responses, and zigzag charts carried under the photographs. Burgess and Lilly both averaged "2" on their charts, excelling with the highest score of "6" in a few subjects, getting average scores in many others, but drawing blanks in some.

Summed Up

On the subject of administration, for example, Lilly "does not care to assume full responsibility for decisions of critical importance but prefers collaboration with others. Has had courses in economics and political science in college. He had no experience in operating his own business or as a corporation officer. Will stick to his decision regardless of the opinions of others."

On the subject of people, Burgess' answers show he "finds people stimulating to him, but has had not training or experience in matters dealing with the human equation."

The candidates also give their views and are rated accordingly on the subjects of tools, machines, dexterity, mathematics, records, grammar, art, foods, health, services, animals, agriculture, speech, entertainment, writing, research, selling, adventure, music, languages, religion, minerals, electricity, mechanics, meteorolgy, construction, chemistry, physics, athletics and transportation.

Brownfield Erosion Control Test Begun

BROWNFIELD, June 10 (Special)—High quality planting seed have been contributed by several West Texas firms and agencies for use at the new experiment station 11 miles west of here, and planting has been moving ahead rapidly, according to Hugh C. Porterfield, supervisor.

The station was established in January, 1948 primarily to study methods of controlling wind erosion on the lighter sandy soils of the South Plains.

Cooperating in the station are the Soil Conservation service, Texas Agricultural Experiment station, the District Board of Soil Conservation Supervisors of Cochran-Yoakum-Terry counties, and Terry county.

Porterfield said about 300 acres will be planted in various types of sorghums and cotton, with some grass and clover. Much planting has already been done following recent rains totaling 1.23 inches.

Porterfield said that in most instances seed being used at the station came direct from production sources. These included:

Cotton seed from Lockett Seed company of Vernon, West Texas Cottonoil company of Brownfield, H. A. Macha of New Home, Goodwin-Crump Gin company of Ropesville, Lubbock experiment station, Kemgas Delinting plant at Lubbock, and Von Roeder Seed company of Snyder; new type 7078 milo from Jay Barrett of Brownfield; certified sweet sudan from A. M. Muldrow Farms of Brownfield; new type Plainsman milo and early hegari from Lubbock experiment station; and corn and sweet clover from the Texas experiment station system at College Station.

CHIN RUB—An elephant shrew flown from African Sudan to help fight malaria gets chin rubbed on arrival in Washington. Tiny animal is used for testing anti-malaria drugs.

Condition Of Lubbock Wreck Victim 'Generally Improved'

The condition of Terry Young, 16, son of Mr. and Mrs. Claud Young of 2820 Maple is generally improved, but his paralysis remains unimproved, relatives here said Thursday.

Terry, who is in a Plainview hospital, was one of five Lubbock young people who were injured in an automobile accident Sunday afternoon, May 30, when the car in which they were riding went out of control in sand alongside the highway and crashed into a power line pole.

The condition of Sheilla Jondahl, 16, daughter of Mr. and Mrs. Sam Jondahl, 2511 Ninettenth, was reported as generally satisfactory Monday in St. Mary's hospital here, where she was transferred Monday from the Plainview hospital. She suffered severe cuts and bruises of the arms and legs in the accident.

VALLEY PIONEER CLAIMED

MISSION, June 10 (AP) — Peter Bentsen, 79, a pioneer citrus grower in the Rio Grande valley, died at his home here today after a long illness. He was the father of Lloyd M. Bentsen, Sr., Mission, a member of the Texas Good Neighbor commission. Bentsen, a native of Denmark, came to the U. S. at the age of 19 and moved to Mission in 1918.

Rapid Relief For Headache Or Neuralgia

Don't suffer needlessly with nerve-racking headaches, severe neuralgic pains or minor muscular aches. Do what so many others do every day to get prompt relief. Use quick-acting "BC." Get a package of "BC" Headache Powders or "BC" Headache Tablets today. Tablet or powder, you get the same famous formula — the same fast relief. Two "BC" Tablets equal one "BC" Powder. Use as directed, 10c & 25c sizes. (adv.)

BIGGER MILK CHECKS . . .
when you own Wards Cooler

Here's everything you want in a fine milk cooler

327.50 6-can size complete

You can depend on Wards electric milk cooler to cool your milk *fast* . . . and to *keep* it cool! That means *low* bacteria count—*more money* for your milk! Wards cooler does a better cooling job because it operates on the *faster, more uniform* circulating water method. And its efficient refrigerating unit (equipped with Delco motors) and strong, fiberglas-insulated cabinet will give *years* of good service. Yet, Wards cooler costs you many dollars less! See it TODAY!

WHY WARDS CIRCULATOR COOLS YOUR MILK BETTER

The cutaway view shows how the circulator in the center of the coil keeps the water in motion. This prevents a "cold" bottom and a "warm" top. And that means ALL the water (*and your milk*) cools faster . . . and uniformly! Milk is cooled from animal temperature to a safe 50° in less than an hour!

BUY ON WARDS MONTHLY PAYMENT PLAN. ONLY 10% DOWN.

Zale Regains Crown With Third Round KO

Rock Floored Three Times

By DAVIS J. WALSH
INS Sports Writer

RUPPERT STADIUM, NEWARK, N. J., June 10—Tony Zale, gallant son of Gary, Indiana, tonight reclaimed his world's middleweight championship with a third round knockout over Rocky Graziano of New York.

The end came in 1 minute and 8 seconds of the round, with the tough guy from New York's lower East Side stretched inert and wholly dead to his surroundings from a left hook to the chin.

It landed flush on the bulls-eye and the defending champion went out like a snuffed candle, while the near-capacity 25,000 crowd screamed in shrill delirum that all but the victim hears so acutely. Graziano was one champion who heard nothing, saw nothing and realized less than that.

Graziano may have suffered a slight brain concussion in the mayhem.

He lay on the table in his dressing room, his eyes glazed, and could not put together the face and name of Dr. Vincent Nardiello, New York Boxing Commission physician, who stood over him.

Finally, Dr. Nardiello told him and Graziano grasped the doctor's hands in a gesture of thankfulness for the information.

It was the rubber match of three ring meetings.

Copies Ketchell Record

The "score" showed Zale practically winning a shutout in the matter of knockdowns, by 3-0. Though staggered near the second round bell, Zale seemed in only mild danger of going down.

Zale was the first middleweight champion to regain the title since Stanley Ketchell did it against Billy Pake some 40 years ago—and a lot of fair country middleweights have tried.

Zale came out with the first bell clearly determined that nothing would deter him in his purpose. He eyed the champion narrowly while Graziano was feeling out the situation with a few lefts and rights.

Then Zale exploded with a left.

It came practically from the hip, first nailing Rocky in the stomach and then coming up to blast through Rocky's chin.

Zale Hurts Graziano

Graziano was badly hurt but got up at three.

then another left, followed by a right, snapped Rocky's head back over the top rope in his own corner and he lay there all but helpless under a fusillade of punches which ended only after Zale was forcibly pried away from his man.

This happened well after the bell, which few heard in the general excitement.

Zale was careful in the second, but again had Graziano in jeopardy midway through from a left hook that seemed to have the neck-cracking effect of a hangman's noose.

But Rocky fought his way out of that one, and even had Zale backing up toward the close of the round from free-wheeling rights to the head. It was a close round in the final summing up, but Graziano seemed to have the edge.

In the third round Tony headslipped a few of Graziano's leads. Then he stepped inside with a hard uppercut to the body.

As Graziano fell back in distress, Tony whipped a left to the chin and down went Rocky as though never to rise again.

To his eternal credit, he did rise—at seven. But it was only a grim caricature of the old swashbuckling Graziano who stood there helpless.

Then Graziano staggered anew—this time into a left swing that practically divorced him from his cranium and left him cold to the world for the full count.

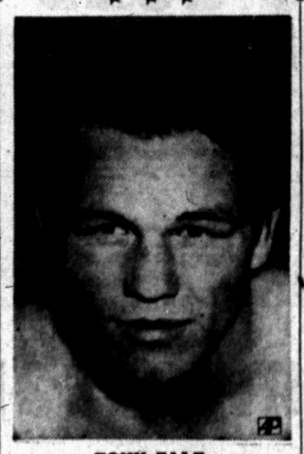

In their previous fights, both came back off early reverses to win with a punch. This time, the only things close were the weights—Zale, 158 3-4; Graziano, 158 1-2.

Moreover, if Zale's dressing room reaction to his triumph could be taken literally, this was the "case" fight of the series. There would be no fourth fight, was the sense of Zale's edict as he said to reporters:

"I'll never fight Graziano again. I gave him two shots at the title. How many does he want?"

Graziano, who said last year he "wanted to kill the guy" when he had Zale helpless in the Chicago fight, seemed dazed by the wild events of the evening and could only say that Zale's first-round left to the chin had turned the tide.

The gross receipts for the fight were announced officially as $405,-$46.

Pitching Gets Weaker, Worse

Hubbers Trampled By Lamesa, 20-8

LAMESA, June 10 (Special)—Any resemblance to a baseball team on the part of the Lubbock Hubbers tonight was purely coincidental, as they blew another lead and the Lamesa Loboes went on to trample the hapless visitors, 20-8.

It was another case of not having much ammunition on the mound, with four Hubber hurlers toiling in vain. Frank Cobo, Royce Mills, Red Ramsey and Marvin Alexander chucking without the slightest resemblance of being pitchers. The four hurlers combined to give up 15 hits, 11 bases on balls and 20 runs before Manager Jackie Sullivan took over and shut the door.

Open Game Well

It was particularly discouraging to any hopes the Hubbers have of making this a triumphant road trip, for Pampa was beaten again by Abilene.

The Hubbers opened the game as though they were going to run away with it. Jackie Wilcox, Chick Fowler and Sullivan singled in succession to chase in one run. Virgil Richardson walked to load the bases and Floyd Walker was safe on Walt Buckel's error, a run scoring. Charley Scarborough promptly hit his third homer in the last two nights and his second with the bases loaded in the same period to end the scoring.

After that Sullivan's homer in the fifth and Richardson's in the seventh were the only runs Leon Hayes allowed in chalking up his third victory of the season against four defeats.

Loboes Hit Hard

Meanwhile the Loboes were having a field day. They took advantage of four walks in the first frame, two of them forcing in two runs, to score three times on two hits.

In the second they brought down the floods on six hits and two walks. Manager George Sturdivant smacked a three-run homer off Cobo to end his stay on the mound and highlight the inning.

In the third, Sturdivant hit his tenth homer of the season and his second of the game at the expense of Ramsey. Came the third and four walks with three hits chased in seven runs, the murder sparked by I. B. Palmer's triple with the sacks loaded.

Eddie Skrabacz got his 13th homer in the sixth off Alexander and Sullivan came in to halt the slaughter completely.

Tonight it probably will be Bobby Layne for the Hubbers against Paul Cooke, who has a three and five record.

Fight Crowd Paid-In $405,646 For Bout

RUPPERT STADIUM, NEWARK, N. J., June 10 (INS)—Official figures on tonight's third Zale-Graziano fight revealed a total "take" of $405,646 for the enterprise.

This was considerably in excess of the first fight's receipts at the Yankee Stadium, because tonight's amount was bolstered by an extra $70,000 from radio and movie rights. The second fight at Chicago, meantime, topped all three.

The official returns from tonight's show were:

Gross receipts from ticket sales $335,646; Total paid attendance, 21,497; Radio fees, $45,000; Film rights, $25,000.

Total Of 19 U. S. Tennis Players Accepted For Wimbledon Tourney

LONDON, June 10 (U.P.)—Frankie Parker and Budge Patty headed the list of nine Americans accepted today for the Wimbledon tennis championships June 21. Ten U. S. women also will compete on the world-famed courts rebuilt since the war.

In addition to Parker and Patty, Tom Brown of San Francisco, E. E. Donnelly and Gardnar Mulloy of Miami, M. M. Murphy, Bill Robertson, and W. K. Young of Los Angeles and Bob Falkenburg of Hollywood will compete.

Sox Scalp Feller And Indians 15-7 For Second Win

BOSTON, June 10 (AP)—Breaking out with the highest scoring inning of the season—eight runs at the expense of Bob Feller—the Boston Red Sox today socked the Cleveland Indians 15-7 for their second decision of the year in eight meetings with the tribe.

A crowd of 17,810 paid fans and 2,758 women and other guests saw the Sox also run up their highest single game score of the season.

Joe Dobson, who coasted after the eight-run third inning, won his seventh game of the season and his second over the Indians. Each of the Sox except Vern Stephens contributed at least one hit to the victory, which was the first of the season scored at home by the Sox over Lou Boudreau's men.

CLEVELAND	000 302 100—	7	2
BOSTON	108 303 00x—15	12	2

Feller, Kennedy (3), Muncrief (4), Gromek (5), Klleman (7) and Tipton; Dobson and Tebbetts.

Homers—Doerr Bsn 3rd (2 on), Dimaggio Bsn 6th (1 on).

Losing pitcher—Feller.

A'S BLAST DETROIT

PHILADELPHIA, June 10 (AP)—The Philadelphia Athletics snapped a five game losing streak and moved into a virtual second place tie with the New York Yankees today by defeating Detroit 10 to 4. Joe Coleman gained his seventh victory against two defeats for the A's.

Pat Mullin homered in the fourth inning with one on for Detroit.

DETROIT	000 202 000—	4	10	1
PHILADELPHIA	003 700 00x—10	8	0

Trucks, White 4, Pierce 4, Gray 4, Hutchinson 6 and Swift, Reibe; Coleman and Guerra.

Homerun: Mullin Det 4th (1 on).

LP: Trucks.

NATS EDGE BROWNS

WASHINGTON, June 10 (AP)—Relief pitcher Frank Biscan walked across the winning run with the bases loaded and one out in the ninth inning here tonight as Washington edged the St. Louis Browns, 5-4.

The Senators swept the 3-game series with the Browns, who rallied for two runs to tie the score 4-4 in the ninth.

ST. LOUIS	110 000 002—	4	8	0
WASHINGTON	011 110 001—	5	11	2

Sanford, Shore (7), Biscan (9), and Moss, Partee (9); Haefner, Harrist (9), and Evans.

Winning pitcher—Harrist; Losing pitcher—Biscan.

Cubs Drop Giants Again; Bums And Cards Lose

CHICAGO, June 10. (AP)—The last place Chicago Cubs made it two out of three over the pennant contending New York Giants today, beating the New Yorkers, 6-4.

Russ Meyer, who has pitched some great ball for the Cubs, went the route, scattering seven hits to post his fifth win of the season as against the same number of setbacks.

The Cubs hammered three Giant pitchers for 12 hits but it wasn't until the seventh inning that they managed to win.

Ed Waitkus started the Cubs' winning rally with a single to left. He moved to second on a sacrifice and after Andy Pafko walked, he scored on Bill Nicholson's single. Peanuts Lowrey then singled to tally Pafko with the clinching run. Bobo Newsom, second Giant pitcher, was the victim of the rally and was charged with the defeat, his fourth as against no victories.

NEW YORK	010 120 000—	4	7	0
CHICAGO	022 000 20x—	6	12	3

Lee, Newsom (3), Janes (7) and Westrum; Meyer and Cheffing.

Losing pitcher: Newsom.

BRAVES DROP RED BIRDS

ST. LOUIS, June 10. (AP)—St. Louis Cardinal pitching again failed miserably tonight and the onrushing Boston Braves made it two in a row over the dropping Redbirds, 10 to 2. Johnny Sain had no trouble racking up his sixth victory. Stan Musial's 13th homer was the only earned run off Big John, who had eight strikeouts. Home runs by Bob Elliott and Bill Salkeld highlighted a 17-hit assault on five Bedbird pitchers. The defeat dropped the Cards to third place.

BOSTON	313 011 100—10	17	1
ST. LOUIS	010 010 000—	2	7	1

Sain and Salkeld; Dickson, Wilks (1), Burkhart (3), Pollet (3), Staley (6), and Garagiola.

Homers—Elliott Bsn 1st (1 on) Salkheld Bsn 2nd, Musial StL 5th.

LP—Dickson.

PIRATES, BEAT BUMS, 4-1

PITTSBURGH, June 10. (AP)—Big Ernie Bonham hurled a brilliant two-hitter tonight before 30,344 fans to give the Pittsburgh Pirates a 4-1 win over the Brooklyn Dodgers. The only Dodger run came on Carl Furillo's homer in the seventh.

PITTSBURGH	010 100 02x—	4	8	0
BROOKLYN	000 000 100—	1	2	0

Taylor and Hodges; Bonham and Fitzgerald.

Home runs for Brooklyn—Furillo (7).

Former Tulsa Grid Player Traded To Cleveland Browns

LONGVIEW, June 10 (U.P.)—Forest (Chubby) Grigg, one-time Lobo and Tulsa university football star and a professional player for the past two seasons, today announced that he had been traded to the Cleveland Browns of the All-American loop.

The 270-pound line star was traded to Cleveland along with Alex Agase, 1946 Illinois university All-American guard. The Browns gave Chicago four men in return. Among those sent to the Rockets was Frank Signiago, Notre Dame guard.

Grigg said he would report to the Cleveland summer camp at Bowling Green, O., later in the month.

Browns Conduct Wichita Camp

WICHITA FALLS, June 10 (Special)—The St. Louis Browns will conduct a three-day baseball tryout camp at Spudder Park here beginning next Tuesday.

The camp, one of more than 50 such camps scheduled by the Browns this season for the purpose of finding young players to man their many Minor League clubs, will be open to all boys from 17 to 23.

All prospective players planning to enter the school should bring their own baseball shoes and gloves with them. Uniforms are not essential, but those that have them should bring them along. Out of town boys must pay their own expenses, but such outlays will be refunded to players who are signed to contracts during the school.

George Staten, athletic coach of John Burroughs School of St. Louis, during the winter, and a Brownie scout in the summer, will be in charge of the tryouts.

He will be assisted by John Maher, business manager of the Spudders. Staten has supervised Brownie try-out camps throughout the country and is especially adept in spotting potential prospects from any groups of boys playing ball.

Natives of the Near East developed mechanized artillery by placing a small swivel cannon, called a zumbooruk, on the back of a camel.

Baldridge Downs Cloverlake 5-0; Bluebonnets Win

Baldridge Bakery pounded Cloverlake Diary 5-0 last night to take over third place in the South Plains Softball League standings, while in the second game of the evening, Bluebonnet - Sunbeam downed the Golden Light Coffee nine 8-1, to make it their ninth win in a row plus their 12th straight wins in the Texas Softball League, giving them a grand total of 21 consecutive victories.

In the first game, Hubbard pitched shutout ball for the Bakers, giving up only 5 hits and struck out three batters. Joe Overbeck got a double and a single to start the Baker attack.

The second tilt saw Golden Light make three double plays to highlight their end of the game with, the what apepars to be unbeatable Sunbeamer squad. Sunbeamer pitcher, Neel gave up only two hits and struck out twelve men.

The hard hitting Bluebonnet-Sunbeamers will play the Crane Oilers Saturday night in a double header at Webster Field, while Baldridge Bakery will travel to Stamford in the Texas loop on the same day.

The line scores:

BALDRIDGE	000 210 2—	5	7	0
CLOVERLAKE	000 000 0—	0	5	4

Hubbard, Griffith and Tillery; Hale, Banks (5) and V. Ray.

BLUEBONNET-SUNBEAM	002 024 x—	8	9	1
GOLDEN LIGHT COFFEE	000 001 0—	1	3	3

Carr and Dill; Neel, Clark and W. James.

Riggs, Kramer Head List In 21st National Pro Tennis Tournament

NEW YORK, June 10 (U.P.)—Bouncing Bobby Riggs of Los Angeles, the defending champion, today headed a list of 16 seeded players who will compete in the 21st National Professional tennis tournament beginning Saturday at famed Forest Hills.

Jack Kramer, who copped two straight national amateur championships, before turning professional last year, was seeded second. Kramer, also of Los Angeles, defeated Riggs in 69 out of 89 matches during a recently-concluded exhibition tour.

CHERRY LEADS GOLFERS

ABILENE, June 10. (AP)—Blond Don Cherry of Wichita Falls won medalist honors with a 67 as a field of 125 posted qualifying scores for the 20th Annual West Texas Golf association tournament.

About one of every five Nebraska veterans are enrolled in schools or job training courses under the GI Bill of Rights.

We'll Have The '49 FORD Mighty Soon!

We can hardly wait to show you "The Car of the Year!"
And we just can't wait to tell you a few of the reasons why you're going to say, "The '49 Ford is the Ford in my Future!"

Watch Our Showroom Windows!

Safe A 59% more rigid "Lifeguard" Body! Road-hugging safety, with a low "dream car" silhouette in the revolutionary NEW Ford!
Comfort The Ford's seats rival a fine sofa for comfort—they're so soft, so wide. Plenty of room for 3 BIG people! Front seat 57" ... rear seat 60" wide!

"Mid Ship" Ride in Ford's smooth-riding, new low center section ... extra-long, extra-strong "Para-Flex" Rear Springs ... "Hydra-Coil" Front Springs ... it rides like a dream on any road!
and that's just a hint of what the '49 Ford will bring you! You've got to see it to believe it! So watch our showroom windows for the announcement date. It won't be long now! You'll see "The Car of the Year" there, soon!

Hogan Tied In US Open

Shoots Under Par Rounds

LOS ANGELES, June 10. (AP)—With most of the threats already finished, Defending Champion Lew Worsham and the tournament favorite, Ben Hogan, were tied late today for the lead at the end of the first round of the United States Open Golf championship.

The two shot 67's, four under par for the Riviera Country club course and equaling the tournament record for the first 18 holes of play.

A crowd of some 7,500 fans was on hand.

Two strokes back were Sam Snead of White Sulphur Springs, W. Va., and Ken Rogers, amateur state champion of Oklahoma.

Locke, Little Threats

Still to come in at this point, and given a chance to land in the bracket of low scorers, were Bobby Locke, Lawson Little and possibly one or two others.

Hogan finished first. He put together a 31-36—67 for the par 35-36—71 test over the 7,080-yard course. But on several holes the man many believe will win the $2,000 top prize was scrambling.

Worsham, from Oakmont, Pa., who won the coveted championship at St. Louis last year in a play-off with Sam Snead, played the course to perfection. His card showed 33-34—67 for the par 35-36—71 course.

Hogan, playing with former national amateur champion Marvin "Bud" Ward and 1946 National Open kingpin Lloyd Mangrum of Niles, Ill., attracted a gallery running into the thousands. The round was played in warm sunshine.

Equals Open Record

Hogan's round equalled the lowest score ever turned in for a first round of the U. S. Open Sam Snead of White Sulphur Springs, W. Va., one of the current contestants and top choices set the 67-record in 1940 at Cleveland. Chick Harbert of Northville, Mich., also playing here today, tied the score last year, as did Henry Ransom, Ravinia, Ill., and Harry Todd, Dallas, Texas.

Par in 454 434 354—36—71
Hogan in 464 335 344—36—67

Other opening scores included:
Bill Nary Albuquerque, N. M., 36-37—73.
(A) JAMES E. GOLDMAN, LUBBOCK, Tex., 42-36—78
Iverson Martin, Graham, Tex., 36-37—73.

Sanders Motors Softball Team Triumphs Over VFW Nine, 19-9

Sanders Motor company's softball team won another victory in the Industrial League yesterday afternoon, beating the Veterans of Foreign Wars 19-9 in a free-slugging game.

Walter Bumpass was the winning pitcher, with J. O. Pierce behind the plate. The game was played at 23rd and Avenue W.

LEGION TEAM WINS

The American Legion softball team won a 20-3 victory over the Panhandle Steel company's softball team yesterday afternoon, as W. D. Broughton outhurled Mathey. The Legion nine had 18 hits and Broughton checked the losers with three. Jack Hunnicutt had four for five to top the winner's attack.

About one-quarter of the nation's wholesale business is transacted by New York State's wholesale markets.

WINNERS TO QUALIFY FOR OLYMPICS

Semi-Final, Championship Bouts End Army Boxing Tournament

CHICAGO, June 10 (INS)—Sixteen semi-final and eight championship bouts will end the first world-wide U. S. army and air corps boxing tournament at Chicago stadium tomorrow night and qualify winners for the Olympic trials at Boston June 28-29.

The 32 survivors of global battling that originally involved more than 50,000 army and air corps punchers represent 10 army commands and one air force group.

Two Hawaiians Involved

The European command has six hopefuls going into the semi-fnials.

Four each were placed by the Pacific Command and 2nd army

The Central air force, Far East Command, and Fifth and Sixth armies placed three each; two each will represent the 3rd and 4th armies, and one each the First army and the Alaska Command.

Two of the semi-finalists are Hawaii-born athletes. They are Pfc. Lee Lebang, 112-pounder from the Pacific Command, and the European Command's Pvt. Francisco Baracao.

Rocking Chair Brown To Perform Sunday

Jack "Rocking Chair" Brown, the clever, talented and entertaining catcher for the Lubbock Black Hubbers, will perform his celebrated chair act Sunday when the Black Hubbers play host to the San Angelo Sheepherders.

Brown also will perform his famed shadow ball act during the infield practice and his two specialties will highlight the pre-game antics of the home nine at Rosenthal Field.

The ball game itself promises to be a good one, with the Black Hubbers smarting under double defeats this past week end at the hands of the Sheepherders. Manager James Roy Lewis' team never could get started Sunday or Monday and went down to defeat each day.

Big John Childress or H. S. Hutchinson, both of whom have performed capably this season, will be on the mound opposing the Sheepherders. The Black Hubbers will be out to defend their good home record. The visitors are all soldiers stationed at San Angelo and play good baseball.

There will be reserved seats at Rosenthal Field for both white and colored people and tickets will go on sale at the park.

Asbury Methodist Softball Nine Defeats First Methodist, 4-0

The Asbury Methodist church's softball team turned in a an upset in the Church Softball League yesterday afternoon, turning back the First Methodist team 4-0.

It was the first whitewash job of the season and credit went to Art Pinkert, the winning hurler.

Asbury Methodist was held in check by Charley Dunham, but reached him for eight hits and enough runs to win. The losers collected only two safeties from Pinkert.

Verdell Turner caught for the winners and Adams did the catching for the losers. The game was played at West Wagner Park.

Former Steer Star Is Injured Playing For Indian Team

HOUSTON, June 10. (AP)—Chick Zomlefer, third baseman for the Oklahoma City Indians, received a "slight concussion and severe contusion" near the left temple when struck by a pitched ball here Wednesday night, Dr. Carl Young said today.

Young, team physician for the Houston Buffs, said X-rays indicate there was no fracture.

He said Zomlefer probably would rejoin the Oklahoma City club in about a week

Earlier today, spokesmen at the St. Joseph Infirmary had reported Zomlefer had had a good night's rest and is in "good spirits."

Louisiana Net Star Is Victor Over Texan

DALLAS, June 10 (AP)—Hamilton Richardson of Baton Rouge, La., toppled top-seeded Jack Turpin out of the junior singles in the Texas Sectional tennis tournament today in one of two major upsets.

Richardson, seeded first in the boys' division and ranked seventh in the United States boys division, defeated Turpin, 6-3, 6-2. Turpin, a Dallas product and now a student at Rice Institute, won the junior singles title here last year.

Kovaleski and his doubles partner, Bernard Bartzen of San Angelo, took another stride forward in men's doubles by defeating Bernard Gerhardt and Jim Peterson.

Margaret Varner of El Paso topseeded in women's singles, eliminated Patt Torti, 6-1, 6-0. Thursday to retain the favorite's role in that division.

Illegal Horse Meat Sales Said Largest In History Of Texas

HOUSTON, June 10 (AP)—J. F. Lakey, state health department official, said today illegal sales of horse meat here are the largest in the history of Texas.

The director of the bureau on food and drugs of the department has been here a month gathering what he describes as irrefutable evidence. He is cooperating with the Harris county grand jury which is investigating sales of horse meat as beef.

"We came here originally because we knew of one rendering plant that was selling horse meat to a meat wholesaler in Corpus Christi. When we got started we found the racket flourishing," Lakey said.

He said he and his men took samples from various cafes and meat stores serving the public. The samples were sent to Austin and 32 of 50 samples taken proved to be horse meat. Other samples were taken in school cafeterias.

Tennis Meet Is To Start Here July 2

Drawings in the first annual KSEL tennis tournament are scheduled to be held July 1st in the studios at 6:15 p. m., and the play itself will get underway on July 2 and run through the fourth.

Entries should be addressed to tournament chairman Cecil Roberts at 2610 Twenty-eighth street, Lubbock. The tourney is set for Tech courts and will consist of three divisions, men's singles and doubles, veterans singles and junior singles.

Among the well known entries from the Lubbock area is Bobby Curtice, Southwest Conference singles champ and national intercollegiate doubles champion.

Tournament play is scheduled to be broadcast.

Rawls Leads In Women's Golf

HOUSTON, June 10. (AP)—Betsy Rawls of Austin fired sub-par golf here today as she took a firmer grip on the favorite's role in the fifteenth annual Texas Women's Public Links golf association tournament.

The young University of Texas student won handily, 6 and 5, from Mrs. E. H. Wohlfarht, Houston, three-time state champion, in the quarter finals. Mrs. Alma Morgan, Baytown, the defending champion eliminated Mrs. Jack Watson, Harlingen, 1 up.

Miss Rawls tomorrow meets Mrs. Helen Brunner, Dallas, another pre-tournament favorite who today won from another Dallas golfer, Mrs. C. M. Burns, 5 and 3.

Mrs. Morgan's semi-final opponent will be Mrs. H. W. Tyson, Houston, winner today over Mrs. C. C. True, Dallas, 1 up.

Den One Wins City Cub Scout Tourney

Den One of Cub Scout Pack No. 1 yesterday afternoon won the city Cub Scout baseball championship by beating Den No. 9 in a free-hitting game, 11-3.

Bradford Reeves, the winning pitcher, was the star for the winners. He held the losers in check all the way and smashed out four hits in four trips, besides scoring four runs.

Reeves got himself a circuit clout, a double and two singles to lead the victors, while outpitching Arthur Miller. The 11-year-old boy showed promise of making a name for himself in baseball circles later on.

Bobby Bruckner did the receiving for Reeves, while Billy Daniels was behind the plate for the losers.

KUYKENDALL MOTORS WIN

Kuykendall Motors blasted the Dunlap Department store nine yesterday 7 to 0 in an American Legion senior league baseball game at Chapman Field. Mack Tayler, the winning pitcher, sparked the motormen. He hurled a one hitter for the five inning game.

RAIN HALTS SKEET

HOUSTON, June 10. (AP)—Rain and wind halted the opening of the Sixteenth Annual Texas State Skeet championships here today.

NORTON SIGNS CONTRACT—The former head football coach at Texas A. and M., Homer Norton, is shown above, left, as he signed a contract to take over the duties of head coach at Kirwin High school in Galveston, a parochial school. Norton, long under fire while with the Aggies, finally was ousted last fall following a not-so-good football season. He said that he declined several college offers for the Kirwin position. He plans to open a beachfront hotel in Galveston. Others in the photo include Most Rev. C. E. Byrne, bishop of the Galveston Diocese, center; Rev. J. J. Ruddy, president of Kirwin High school, right; Brother Gabriel, principal of the high school, standing, left; and Al Lopez, president of the Kirwin Athletic association, standing, right.

Citation Seen As Winner

Belmont Race Real Test For Horses

By PAT ROBINSON
INS Sports Writer

NEW YORK, June 10 — The Kentucky Derby is the race of the year to the general public. It has been built up into a colorful extravaganza through skillful publicity.

But to horsemen in general, and breeders in particular, neither the Derby nor the Preakness means much. The race that really means something to these experts is the Belmont.

Belmont True Derby

The reason is that the Belmont is run at the true classic derby distance—a mile and a half—and a horse than can win it automatically proves he has the stamina of a true stayer. For all horsemen agree that any horse which can win a big stake at a mile and a half could win at two, three or five miles, if necessary.

That's the kind o' a horse they want for their stud farms. That's the kind of a horse they expect to sire other great horses.

And that's why they are waiting until Saturday afternoon before putting their final stamp of approval on Warren Wright's great three-year-old colt, Citation.

Possible Triple Winner

Citation already has won the Kentucky Derby and the Preakness. He now needs the $100,000 Belmont to wear the triple crown. All horsemen believe he will win with ease but they want to be shown.

Other fine colts have won the Derby and Preakness only to flop when the chips were down in the Belmont.

Only seven horses have won the triple crown—Sir Barton, Gallant Fox, Omaha, War Admiral, Whirlaway, Count Fleet and Assault—and as every two-buck punter knows those were all great horses.

The Belmont has been run 79 times. In fact, it is six years older than the Preakness and eight years older than the Derby. And none but a first class horse ever won it.

Seven Great Horses

Alex Robb, the master of beautiful Belmont, insists that no other race run in this country can produce a record to compare with seven colts which won the Belmont Stakes.

He names his big seven unbeaten Colin, Sir Barton, Man O'War, Gallant Fox, War Admiral, Whirlaway and Count Fleet.

None of these ever run unplaced as a three-year-old. They won 58 races, ran second nine times and third four times. They were the answers to a punter's dream, although all of them usually were odds-on favorites.

Colin, Man O' War, War Admiral and Count Fleet won all their races at three.

If Citation can win the Belmont, he probably will go through the year unbeaten. Like his famous predecessors, he already has scared off most of his opposition.

The milling of coins did not become a regular practice in England until 1662.

New Skeet Equipment Ready For Shooters At Lubbock Gun Club

New skeet equipment has been bought and installed at the Lubbock Gun club's range and will be available for shooting Saturday and Sunday, Manager Don French announced yesterday.

French said that the club had purchased one complete new skeet trap and that it had been installed. Shooting will be held Saturday afternoon beginning at 2 p. m. Another shoot will be held Sunday afternoon beginning at the same hour.

Sudden Death Playoffs For District Four

CHAMPAIGN, Ill., June 10. (INS)—Four top-flight Midwestern college baseball teams will launch a "sudden death" playoff at Champaign tomorrow for the right to represent District four in the N.C.A.A. Eastern finals at Winston Salem, N. C., June 15-19.

Western Michigan faces Michigan in the first game tomorrow and Illinois, which tied Michigan for the Western Conference title this season, moves in against Ohio university in the other. The winners will meet Saturday in the payoff game.

Two of the Middle West's finest collegiate pitchers, Art Dole of Michigan and Lefthander Gene Schlukebir, Western Michigan sophomore, are slated to face each other in the opener. Both own 5-1 won-and-lost records.

In the other contest Illinois will undoubtedly lead with its ace, stubby lefthander Marv Rotblatt (5-1). His Ohio U. opponent likely will be Mark Wylie (9-6).

STALIN QUOTED IN PAPERS

Hopkins' Flight To Moscow Is Claimed Among Most Valuable

NEW YORK, June 10 (INS) — Premier Stalin was quoted today in the "secret papers of Harry Hopkins" as having declared in July of 1941 that he despised Hitler Germany as a government whose treaty pledges were worthless.

The story is told by Robert E. Sherwood in his current Collier's magazine articles based on the private papers of Hopkins, when Hopkins was President Roosevelt's close adviser. Sherwood quotes Stalin as telling Hopkins at the time.

"Nations must fulfill their treaty obligations, or international society could not exist.

Minimum Standard Needed

"There must be a minimum moral standard between all nations and without such a minimum moral standard nations could not co-exist

"The Germans are a people who without a second's thought would sign a treaty today, break it tomorrow and sign a second one the following day."

Sherwood says that Hopkins' secret flight to Moscow to see Stalin was "one of the most extraordinarily important and valuable missions of the whole war."

He reports the flight was prompted by the military necessity of finding out how long Russia could hold out against Germany.

The Hopkins' papers also report that arrangements were completed in April of 1941 to send the first U. S. Marine brigade to Iceland to replace British forces, and that President Roosevelt proposed in July, 1941, that U. S. Navy units patrol the western Atlantic to relieve the British fleet.

Sherwood writes that Admiral Stark wrote to Hopkins: "there is so much potential dynamite in this order that I feel it should have his (President Roosevelt's) okay before I sign it. I realize that this is practically an act of war."

2,000 See Rodeo

(Continued From Page One)

the favorite attractions of the rodeo with his "Flying Twins," a pair of beautifully matched thoroughbreds who go through intricate peformances without the use of reins as Hendricks stands astride them.

Calf Roping Time Good

Times in events were generally about the same as at the first night's performance, with the exception of the remarkable time of 10.9 seconds chalked up by Shoat Webster in the calf roping contest.

Tickets for the rodeo are on sale at booths operated by the ABC Dames at Dunlap's, Sears Roebuck, Wylie's Drug Store and Mark Halsey Drug No. 1 and at a headquarters booth in the lobby of the Hilton hotel. Box seats are $3 and general admission seats are $2 for adults and $1 for children. Proceeds go to the Lubbock Boys club fund.

Winners in rodeo events:

Bareback bronc riding: Jim Shoulders placed first on Blue Vitrol. Jimmy Schumacher was second, Grant Marshall third, and Todd Wattley fourth.

Calf roping contest: Shoat Webster placed first with his 16.9 seconds, the best time in the first two nights of the event. Troy Fort was second with 18.1. Other times: Jack Shaw, 19.5; Sonny Edwards, 23.8; Herschel Romine, 25.6; Limey Thomas, 26.1; Tater Decker, 26.8; Rex Carpenter, 29.8; James Kenney, 27; Gayle Barland, 37.2; Earl Moore, 87.4. Leo Jones, Dick Truitt, George Wilderspin and James Bird failed to qualify.

Saddle bronc riding contest; Gene Pruett, first; Manuel Enos, second; L. E. Weeks, third.

Steer wrestling contest; Jack Favor led the field with 7.8, followed closely by Todd Wattley, 8, and three contestants who scored 10 seconds flat each. They were Lee Roberts, Dick Truett and Buck Jones. Hood Abercrombie chalked up 10.4, Dub Phillips 10.5, George Mills 15.7, Charlie Colbert 22 and Shoat Webster qualified for the semi-finals with 50.2.

U. S. Planes

(Continued From Page One)

search and development board, has said that revelation that any certain plane-type has broken through the sonic barrier would enable an enemy to abondon costly research on all other types.

Unimpeachable government sources said the jet-propelled Douglas Skyrocket, third in the series of sonic research planes of which the XS-1 was the first, soon will be the first craft to fly faster than sound at the 763 MPH sea level mark.

The XS-1 is launched from the belly of a bomber at about 30,000 feet to conserve the liquid oxygen fuel. The rocket engine has only a few seconds endurance. When the fuel is exhausted, the pilot glides the craft to earth.

The XS-1 has a wing span of 28 feet, a length of 31 feet and is 11 feet high.

Both the needle-nosed Skystreak and booberang-winged Skyrocket—developed by the Navy — have much longer range because they are jet-propelled and do not have to carry their own oxygen.

Symington also issued the details of the flying program to equip the Air Force with more planes in building up toward its 70-group strength goal with the $1,345,165,000 recently allotted the Air Force. It will:

Buy a total of 2,201 planes, including 243 bombers, 1,405 fighters, all of them jets; 353 transports, trainers and amphibian rescue planes.

Of the bombers, 162 will be long-range B-50s. This is an improved version of the B-29 which devastated Japan. Thirty other bombers will be B- 49s — the "flying wing" powered by eight jet engines..

Observatory At Tech

(Continued from Page One)

corded July 30, 1925, and according to information of its effects was estimated to be No. 6 on the Rossi-Forel scale of earthquake intensity, causing general awakening of those asleep, stopping of clocks; visible disturbance of trees and shrubs, and causing some startled persons to leave their dwellings. No. 1 on the Rossi-Forel scale is barely noticed; No. 10 is a distaster.

A previous earthquake had occurred at Panhandle in 1917, severe enough to cause schools to be dismissed.

Four or five years ago, disturbances which evidently were "slight seismic shocks" took place at O'Donnell, causing chairs to be thrown from one place to another and dislocating doors and causing rumbling. Dr. Patton estimated that to be an earthquake classified as No. 3 on the Rossi-Forel scale: "Felt by several persons at rest; strong enough for the duration or direction to be appreciable."

Doors Shaken

An Associated Press story from Amarillo March 11 reported a five-city area in the Texas Panhandle felt a slight earth tremor. No injuries were reported. The quake was felt in Amarillo, Dalhart, Borger, Clarendon, Adrian and Memphis. It rattled doors and windows and shook bars in the Potter county jail, the story stated. Jack Roberts of radio station KHUZ in Borger said Sheriff Hugh Anderson reported the tremor rattled bottles of photographic fluid in his office.

Dr. Patton expressed belief an earthquake of No. 5 intensity occurred. No. 5 is defined as: "Felt generally by everyone; disturbance of furniture and beds; ringing of some bells."

If the observatory at Tech had been in operation at tha. time, the disturbance, if an earthquake would have been recorded, he said. After the tremor in the Panhandle, it was brought out later that an explosion had occurred prior to the tremor. "I believe it was another earthquake shock," said Dr. Patton.

Severe Quake Hits

He estimated the earthquake at Valentine to have been the highest in intensity of those reported in West Texas. He defined it as of No. 8 intensity, severe enough to cause fall of chimneys and cracks in walls of buildings.

The observatory at Tech would have no direct connection with prevention of damage, simply recording the quake. However, if earthquakes should be recorded frequently, it possibly would have some effect in encouraging construction of buildings in such a manner as to withstand earthquakes. Construction can be planned specifically to guard against earthquake damage, said Dr. Patton.

Mounted On Pier

"I'm not a prophet of evil," Dr. Patton said in mentioning effects a severe earthquake would have in West Texas. "These towns are built on 200 to 400 feet of unconsolidated sediments built up by streams," he said. "It is the worst place on earth for an earthquake. Earthquake shocks are much more severe in such an environment." In San Francisco when the major earthquake occurred in 1906, the worst damage was caused on "made ground," or ground which had been filled in, said Dr. Patton.

Extremely sensitive, the seismometers in the observatory at Tech are mounted on a concrete pier 10 feet deep and based in caliche, so that movements within the structure will not disturb the floor and be recorded on the instruments. The seismometers record short period earthquakes, those occurring locally, and long period earthquakes, those occurring anywhere in the world, and vertical shocks. The time of arrival is recorded through the recording on the "grams" of minutes and hours.

Located On Campus

The records from the seismometers are removed each 24 hours, and between periods of removal the less disturbance the better, said Dr. Patton.

The building in which the observatory is located in a short distance from the southwest corner of the chemistry building.

"There are little movements of the earth all the time, due to a number of things," said Dr. Patton. The records of earthquakes are easily distinguishable to one accomplished in reading the seismograms, however.

One seismometer does not record location of an earthquake. Through consideration of time occurrence however, circles may be drawn by different observatories and distance may be calculated as the place of intersection of the circles.

Dr. Patton is author of a textbook of General Geology, a portion of which is devoted to a study of earthquakes.

Senate Approves Navy Measure Authorizing Construction Work

WASHINGTON, June 10. (AP)—The Senate passed a $209,782,903 Navy bill today, authorizing construction work at a number of points.

Senate action came on adoption by voice vote of a Senate-House conference report on the legislation. The House must still approve the report.

The legislation does not provide funds. Separate action by Congress will be required to furnish money for the construction work.

Jaycee Groups Hear National President

LEVELLAND, June 10 (Special)—Jaycees from five South Plains organizations heard John Ben Shepperd, national president, at a banquet in the American Legion hall here tonight. Approximately 150 persons were present, including members from Littlefield, Brownfield, Lubbock and Muleshoe.

Shepperd reviewed the historical highlights of the Jaycees since its organization in October of 1915 in St. Louis.

This was his second of three appearances in West Texas. He spoke at noon today to Plainview Jaycees, and is scheduled to speak at Abilene Saturday night.

Gridders Presented Trophy

John R. Potts was master of ceremonies at the banquet. Visiting groups were introduced by Ben Castles, of Plainview, region 2 vice-president.

A trophy was presented by Shepperd to E. C. Seifert and W. A. Wise of the 1947 Levelland football team. The trophy was awarded by the local Jaycees to the team for the winning of the bi-district championship in December over Tahoka.

Other numbers on the program include tap dances by Jerry Medlock and Anne Bentley, songs by Charlene Jordan, and violin numbers by Woodrow Montgomery, Sundown band director.

Invocation was given by Rev Elvis E. Morris, pastor of the Four-square Gospel church.

Gene Yeager is president of the Levelland Jaycees.

Congress Shelled

(Continued from Page One)

a picture of the nation's current prosperity. He said that he and everybody in the United States has a job, that there are more people at work this month than at any time in the history of the nation—61,000,000 jobs.

He said there hasn't been a bank failure in the country in three years, that the national income is at 200 billions—"the banks are full of money, and that money is safe, because it is guaranteed by the government of the U. S.—as a result of the policy of this administration."

Conspiracy Charged

In Seattle's Memorial stadium, which seats about 10,000, Mr Truman stood under a blazing sun to deliver a prepared speech before approximately 5,000 persons.

He charged that a virtual conspiracy exists between some members of Congress and "private power lobbyists" to block government development of low cost power, flood control and irrigation projects.

The Chief Executive told his Seattle audience that the private power lobbyists are still fighting. He said where they can't block production of public power, they are trying to block its distribution at low cost. He added:

"For example, down in California, Shasta dam has been completed and has begun to turn out power. If that power is to be used for the people's benefit, it must be moved over the transmission lines to the areas where it is needed."

The President said that Congress has blocked building of the necessary transmission lines year after year. He continued:

"This has been at the expense of the public, and to the benefit of a private company."

The President added that this was the same company that failed to furnish vitally-needed power for northern California this spring. As a result, he said, the whole area had to resort to a "brown out."

Atomic City Menaced

(Continued from Page One)

of Puget island's 3,320 dairy and farming acres submerged as the flood and high tide overwhelmed the last cross dike protecting 670 acres of island farmland.

High Mark Due Again

According to river forecaster Elmer Fisher, the Columbia will be rising to its highest mark for the second time when President Truman flies over the disaster area Friday.

Fisher predicted a flood stage of 30.2-feet at Vancouver and a 30-foot stage in the Willamette river at Portland over Saturday and Sunday. The same crest was reached by the first disastrous peak.

A. J. Anderson, 42, division engineer for the Milwaukee railroad, was the latest victim of the flood's fury. He was buried beneath one of three railroad cars toppled from a flood weakened fill near Lost Creek, Wash.

New Dam Urged

Col. Theron D. Weaver, North Pacific division engineer of the U. S. corps of engineers, recommended construction of a flood control dam, 710-feet high, at Hells canyon on the Snake river.

This dam, approximately 111 miles above Lewiston, Idaho, would cost an estimated $358,400,000 based on 1947 price levels.

Weaver said this project, in addition to generating a million kilowatts of power, would have a major effect in reducing floods like the one now ravaging the Columbia basin. Such a dam would reduce the peak stages in the Portland - Vancouver area flood by 1.2 feet.

Weaver said this project has been surveyed and reported on by the corps of Engineers and is not a "quickie" idea projected by the current flood.

WHEAT POURING IN

DALHART, June 10 (AP)—The Farmers Supply elevator at Hartley, 15 miles southeast of here, received its first load of Northwest Texas Panhandle wheat today. John Bookout, who lives near Hartley, delivered 350 bushels he said was raised on land that was summer fallowed two years ago, but was in wheat last year.

BLAST WRECKS SWANK COUNTRY CLUB—Movie Colony's swank Hillcrest Country Club burns furiously after a blast and explosion occurred in the locker rooms. Few persons were in the clubhouse at the time of the early-morning explosion and only three persons were injured. This structure was built after a fire destroyed the former club four years ago. (NEA Telephoto).

City Commission

(Continued from Page One)

previously had been approved by the city airport board, call for a building of modernistic design described as ample for Lubbock needs for many years to come. Most of it will be one story, but one portion will rise to two stories, surmounted there by a control tower and a beacon.

Plans for the apartment development were detailed by Homer Maxey, one of the associates in the undertaking. The apartment houses are part of a housing project involving a total expenditure of more than $1,000,000 announced several weeks ago. The whole project includes 10 duplexes and more than 20 single-family dwellings which already are under construction.

Paving Is Asked

Two of the apartment buildings are to be built on Thirty-third street and two on Thirty-fourth, all between Avenues U and V. Two of the buildings are to contain 27 apartments, one will contain 22 units and the other 18. Each apartment is to contain five rooms, Maxey said. Each will be equipped with a stove and electric refrigerator but otherwise will be unfurnished. Hopes are to have them ready for occupancy by early or mid-autumn.

Maxey explained that financing of the projects requires the assurance of paving of the streets on which the buildings front, with him paying the cost of the surfacing in front of the property.

Maxey emphasized he did not want the commission to put the paving he wants ahead of that which it already has programmed for this summer. Members of the commission made clear they would not approve anything which might interrupt the present paving program.

Some Regulations Obsolete

But belief was expressed that the city can provide the paving requested through private contract which might cost somewhat more than if Maxey wished to wait until the city could use its own equipment to do the work.

Officials expressed the hope that definite assurances of the paving can be given within the next few days. Work can be started speedily after this assurance is received, Maxey said.

Members of the commission concurred unanimously with the opinion expressed by Mayor W. H Rodgers that all regulations pertaining to traffic should be combined into a single ordinance. They pointed out that the regulations have been adopted from time to time over a period of many years. Some of the regulations are entirely obsolete. Some conflict with each other. The announced plan is to repeal all the old regulations as soon as those which are of value can be streamlined into a single master ordinance.

Contract Awarded

Other business transacted at the meeting included:

Award of a contract to C. N. Hallmark to make the annual independent audit of city financial records. Payment is to be on a per diem basis, ranging from $35 a day for certified public accountants employed in the work to $15 daily for junior accountants.

Approval of a renewal through 1951 of an existing contract to supply Texas Technological college with electricity.

The purchase of materials at a total cost of $32,369.06 to be used in constructing additional electric lines to serve northwest and southeast portions of the city. The successful bidders and the amounts of materials to be purchased from each were: Westinghouse Electric Co., $29,459.81; General Electric Co., $1,741.08; Line Material Co., $742.92, and Graybar Electric Co., $425.25.

Present at the meeting, additional to Mayor Rodgers and City Attorney Wilson, were Commissioners W. B. Price, John Spikes and E. K. Hufstedler, jr., City Manager Marlin R. Smith, jr., and City Secretary Lavenia Williams.

100F, Rebekahs Hold Meeting

More than 250 persons, representing 15 lodges, attended the meeting of Division 5, Independent Order of Odd Fellows and Rebekahs held here Thursday with Frank R. Rundell, of Austin, grand master of the grand lodge of Texas, and Mrs. Gene Lawless, of El Paso, president of the Rebekah assembly of Texas, attending.

The morning session was held at Fellowship hall, First Methodist church with W. J. Hodges, C. C. Jones, I. M. Sutton, Thelma Porter and Delma Benedict taking parts on the program. Grand lodge and assembly officers, district deputies, and lodge deputies were introduced.

Lubbock Groups Are Hosts

The Lubbock lodge and Rebekahs, as hosts to the meeting, served a barbecued chicken dinner to the members at noon.

Schools of instruction were held during the afternoon with Rundell in charge of the Oddfellow meeting at the 100F lodge hall, and with Mrs. Lawless in charge of the Rebekah session at Fellowship hall.

Five Rebekah degrees were conferred by the Levelland lodge, and one initiatory degree was conferred by the Andrews lodge at separate meetings of the groups.

At the general session, Rundell and Mrs. Lawless outlined their objective for the year, and gifts were presented to the grand master and the Rebekah president.

Lodges represented at the session included Andrews, Goldsmith, Morton, Needmore, Muleshoe, Plains, Plainview, Floydada, Lamesa, Brownfield, Levelland, Sundown, Denver City, Seminole and Lubbock.

Senate Passes Draft

(Continued from Page One)

ator Morse (R-Ore.) to cut the service period for draftees from two years to 18 months.

Morse's proposal was beaten last night on a voice vote. He pressed it again today and was beaten on a roll call.

Also defeated, 81 to 8 was an amendment by Senator O'Daniel (D-Tex) to delay the draft until Congress sets up a plan to "draft dollars." O'Daniel proposed a 100 per cent tax on the profits of all individuals and corporations above the average of the last three years.

The Senate then knocked down, 69 to 20, a proposal by Senator Revercomb (R-W Va.) and others to delay operation of the draft for six months while efforts are made to enlist enough men.

Under the Revercomb plan the President would have to find that there were not enough voluntary enlistments before he could order selective service started. Opponents called it an effort to "scuttle" the draft bill.

The amendment also would have required the Army to admit all volunteers who could get a grade of 59 or better on an intelligence test. The present passing grade, Revercomb said, is 80.

Housing Bill Revived

(Continued from Page One)

to do the job of home-building.

Wolcott's bill sought to eliminate all provisions for slum clearance subsidies, government-built low-rent housing, and farm housing aids.

The dramatic committee action took place behind closed doors, but committee sources said three Republicans—Hull of Wisconsin, Hardie Scott of Pennsylvania and Stratton of Illinois—joined with the 11 Democrats to ride rough shod over the remaining 13 committee Republicans, including the chairman.

Rep. Monroney (D-Okla.) predicted the bill will pass the House before adjournment "unless it hits a bottleneck in the House Rules committee." He said "I anticipate trouble in the rules committee."

North Dakota has gone into hybrid corn production on a big scale. In 1946, nearly half of the total acreage was planted to hybrids.

Congratulations

Mr. and Mrs. B. P. Pierce of Lubbock on birth of a son weighing 7 pounds 14 ounces at 11:47 a.m. Thurs., in St. Mary's hospital. The father is employed by a construction company.

Mr. and Mrs. J. W. McClure, of Lubbock, on birth of a daughter weighing 7 pounds, at 3:27 p. m. Thursday, in West Texas hospital. The father is a Tech student.

Agreement Reached On Waterways Bill

WASHINGTON, June 10. (AP)—Senate and House conferees agreed tonight on a record $573,000,000 money bill for waterways, including some $30,000,000 projects for Texas.

They slashed $67,000,000 off the $102,000,000 added by the Senate to the House figure of $538,000,000. They halved the Senate approved figures for Belton reservoir and Garza-Little Elm reservoir in Texas, giving each $500,000. The House had voted no funds for either.

They approved all Texas rivers and harbors funds voted by the Senate.

The final amount of the bill was still the highest ever to be set aside for flood control and navigation projects. The waterways program is part of a total $641,000,000 appropriation bill for civil functions of the Army for the 12 months beginning July 1.

Texas Projects Listed

Flood control projects affecting Texas include:

Texas, Louisiana, and Arkansas-Red River levees below Denison dam, $1,000,000. Oklahoma and Texas-Denison reservoir $500,000. Belton reservoir $500,000; Garza-Little Elm reservoir $500,000. Texarkana reservoir $3,350,000; Benbrook reservoir, $3,200,000; Lavon reservoir $2,800,000; Grapevine reservoir, $3,300,000; Whitney reservoir, $4,000,000; Hords Creek reservoir, $280,000; San Angelo reservoir and floodway $4,000,000; Brady creek $300,000.

Rivers and harbors projects affecting Texas include: Brazos Island harbor $325,000; Trinity river, Anahuac-Liberty $750,000; Neches and Angelina rivers, $1,818,100; Sabine-Neches waterway, $480,000; intracostal waterway, Apalachee Bay, Fla., to Mexican border section (Galveston district) $2,119,000, Houston ship channel $500,000.

General Motors To Lay Off 200,000 For Ten-Day Period

DETROIT, June 10. (AP)—General Motors Corp. announced today that it will lay off 200,000 workers for a 10-day period beginning Friday.

A spokesman, blaming the steel shortage "due to the coal walkout," said all GM automotive fabricating plants in the nation and all automotive assembly plants in Michigan would be closed.

He estimated these at between 50 and 60 plants.

Other GM assembly plants will continue to operate as long as materials are available, but are expected to be shut down by "a chain reaction," the spokesman said.

Friday the plants will go down at the close of business and remain shut until the usual starting hours Monday, June 21, the corporation announced.

TRAIN DERAILED

LAUREL, Md., June 10 (INS)—One man was killed and at least 32 persons were injured today when the crack Baltimore and Ohio train, the Diplomat, was derailed in Laurel. Police tentatively identified the dead man as John Davenport, negro, of Jersey City, N. J. Railroad officials said they believed he was a sleeping car porter

War Fronts Quiet

(Continued from Page One)

was as bad as the 1939 British white paper limiting Jewish immigration.

Secretary General Abdel Rahman Azzam Pasha of the Arab league declared the truce did not mean war would not be resumed if the Jews "insist on creation of a Zionist state."

Dispatches from Amman, the Trans-Jordan capital, said the Arab people appeared puzzled by their leaders' acceptance of the truce which they regarded as a Jewish strategem to gain time and throw the Arab military machine off-stride.

Fighting Lessens

But an Israeli army spokesman at Tel Aviv said a lull already was setting in today and only minor shooting was reported anywhere. Tel Aviv even missed its almost daily bombing.

The spokesman's statement apparently indicated the most important front in the war was quieting down without a decisive result. This was at Latrun where the battle for the road to Jerusalem has been going on with little intermission for three weeks.

An Associated Press dispatch, dated Wednesday night, from the Jewish side of the lines there said at least 6,000 Arabs and Jews were arrayed in fierce combat but that the truce was about to ring the bell on the battle.

Gorge Is Cleared

This only eyewitness account of fighting in the sector said a brigade, of about 3,000 men, of the Arab legion was on the defensive on a mountain-top position north of the road. An equal or larger force of Haganah, the dispatch said, had won the highlands south of the road and cleared bloody Bab El Wad gorge to the east in the three weeks battle. But a five-mile stretch of the highway east of the Latrun monastery was described as a no-man's-land, swept by the guns of both sides. Haganah was reported driving hard with artillery and night assault to secure the remaining link of road. But their only path to Jerusalem was a circuitous and gun-swept back-mountain trail which could be traversed only by jeep, mule or on foot.

That Israel hoped to the last to open the road before the truce was indicated by one of the "observations" made in her acceptance of the truce that there should be no interference with passage to Jerusalem to the extent it "may have been secured by the operations of Jewish forces at the time of the commencement of the cease-fire."

U. S. Officers Arrive

Active operations continued on three other points through Wednesday night at least.

County Folke Bernadotte, UN negotiator of the cease-fire, postponed his visit to Amman and Jerusalem from tomorrow, the first day of the truce, until Saturday. He planned a visit to Rhodes, the Greek island 550 miles from Palestine, where he will set up headquarters in an effort to conclude a permanent peace, and return here Tuesday."

Seven American Navy and Marine officers arrived in Cairo as the vanguard of American, French and Belgian observers and controllers who will attempt to enforce the terms of the truce on the spot. A staff of Swedish colonels already was on hand to supervise the work of the observers.

Sec. Schwellenbach Is Death Victim

WASHINGTON, June 10 (AP)—Lewis B. Schwellenbach, who had been a buck private in the infantry, a U. S. senator and, finally, secretary of labor, died today. He was 53.

Schwellenbach was more than just another department head to President Truman. He also was one of the President's best friends.

Schwellenbach died at 3:40 a. m., (EST) at Walter Reed hospital where he had been since May 28. Mrs. Schwellenbach was at his bedside when he died.

The White House, announcing the death, said it was due to "cardiac failure which complicated his recent illness."

The funeral will be held Friday at 10 a. m., (EST), at National Cathedral here with high government officials, personal friends, and labor department employes to attend.

The remains will be moved by plane from here Friday to Seattle for services at Trinity church there Saturday (1 p. m., EST) following by burial at Washelli cemetery.

Bond Posted In Slaying Case

(Continued From Page One)

in West Texas hospital soon after the shooting in the driveway of the Graves residence, in the crowded south residential area.

Seven Or Eight Shots Fired

Witnesses said seven or eight shots were fired at close range.

Young Garrett said the violence started after he slapped away a pistol which Graves pointed at him through the left car window. At the same time, Garrett said that he reached for his pistol in the glove compartment. Later five bullet holes were found in the car, three in the left door and two in the windshield.

Sentenced For Murder

Graves was sentenced March 5, 1932, by then District Judge Homer L. Pharr of the 72nd district court of Lubbock county to five to 12 years in the penitentiary for murder.

The indictment, to which Graves pleaded innocent, charged that he fatally shot Horace L. Smith with a pistol on Jan. 10, 1931.

Four other indictments growing out of the "same transaction" subsequently were dismissed on Dec. 12, 1932, upon motion of then District Attorney Durwood H. Bradley, one of them charging murder of Bob Averett, the others charging assault with intent to murder Mrs. Myrtle Hamilton, O. L. Bates, and Helen Louis Smith.

Only One Offense

The state's motion set out that by law it was forced to carve only one offense out of the same transaction, inasmuch as Graves was serving a 12-year term growing out of that transaction.

On Jan. 15, 1942, Graves was indicted by a 99th grand jury of Lubbock county, D. B. Williamson foreman, on a charge of robbery by firearms of Tom Pendergraft. Date alleged was Dec. 22, 1941. It set out he pointed a shotgun and took $1.50 from Pendergraft.

Agreed To Reduce Charge

Subsequently, on Feb. 5, 1942, defense and state counsel informed Judge E. L. Pitts, then 99th district judge, they had agreed to reduce the charge to aggravated assault. Graves pleaded guilty on that date and was fined $50 and sent to county jail 30 days.

The investigation into the slaying of Smith and Averett disclosed that Graves had gone to the E. D. Chadwick residence, then at 2107 Eighth, and fired several shots as a dance was breaking up.

He earlier had experienced trouble with Smith, who lived at 1604 Twenty-second, officials were told. Averett lived at 402 Ave. Q. Helen Smith, 8, Bates of 802 Ave. X and Mrs. Hamilton of 1922 Twentieth suffered wounds when part of the fusillade of shots went wild, officials were told.

Showers In Area

(Continued from Page One)

sprinkle early yesterday.

Thundershower conditions were expected to prevail again today over most of the Panhandle and South Plains, according to the Weather Bureau station north of Lubbock.

Not much change in temperatures was also forecast. Yesterday's maximum was 94 degrees.

Meanwhile, the U. S. Weather bureau at Dallas said no immediate relief from the state's pre-summer heat wave was in sight, the Associated Press reported.

The scorching temperatures wre expected to remain despite partly cloudy weather forecast for today.

Temperatures in most of Texas Thursday were in the upper 90's and as high as 109 at Presidio in the Big Bend country, the Associated Press reported. High readings also were reported at Austin 100, El Paso 100, Crystal City 106, Alice 104 and Victoria 106.

Some 7,000,000 tourists, an all-time high, are expected to visit New Mexico this year, according to state tourist bureau.

Berlin Deadlock Leaves Central Control Point 'Ghost' Building

BERLIN, June 10. (U.P.) — Flags of four nations flutter over the allied control building here — perhaps the only symbol of quadripartite unity still existing in Berlin and Germany.

Otherwise the luxurious building is a ghost structure of empty desks and silent halls.

Ever since the Russian military governor, Marshal Vassily Sokolovsky, marched out of the Allied Control Council meeting last March 26, hope of international good-will has faded steadily.

Here in this rambling building, Hitler once held his infamous "peoples' court" and conspirators against the Fuehrer were sentenced to death.

No Work To Do

Now a deathly silence permeates the atmosphere. Personnel employed by the four powers still report daily for work. But there is no work for them.

Only the allied kommandatura for the governing of Berlin still functions. But general feeling is that even its days are numbered.

More than eight weeks have passed since the last meeting of the control council. Allied government officials have only a faint hope that this month, when the French occupy the council chair, they may assume their traditional role of mediator and break the deadlock.

Such a move seems to be the one possible shot-in-the-arm for the dying control council. Once the rotating chairmanship has been held by all four powers, any nation would hesitate to call an end to the stalemate, fearing a loss of prestige.

Throngs of employes for the four powers used to crowd spacious dining room during rush-hour lunches. Multilingual conversations flowed at the tables. Now only a half dozen or so of the hundreds of tables are occupied, even at lunch time. Fresh-cut flowers stand bravely on each table. But the staff of waitresses are the only ones to enjoy them.

Some Write Books

Many of the newly idle are writing books on the past two years of allied occupation. One interpreter is compiling a French-English dictionary. Others are collecting their "memories" of this period. Some just play chess, gin rummy or write letters.

"This is the first time in years I owe no letters to anyone," a sleepy-eyed secretary confessed.

The old days of comradeship among the four powers have passed. No one sees or talks to the Russians any more.

"When we try to talk to the Russians," one interpreter said, "it is like a steel barrier between us."

AMBASSADOR — Henry F. Grady (above), ambassador to India, was named ambassador to Greece by President Truman.

SOUNDS GOOD ON PAPER

NEW YORK, (U.P.)—Columbia University received a gift of $6,000,000 from a member of the class of 1922. However, it was in Chinese money and amounted to $25 in American currency.

U.S.-Trained Jews Will Fly Commercial Planes In Israel

BAKERSFIELD, Cal., June 10 (U.P.) — Ten Jewish students from Israel, nearing the completion of their flying course at a Bakerfield flying school, plan to return to their native land and fly, but not against the Arabs.

The students, eight men and two women, came to the United States to study such subjects as medicine, engineering and political science in American schools. When they came to Bakersfield to take up flying, some had completed their schooling, others had just dropped out of college.

They denied that they plan to return to their native Palestine and fly against the Arabs. Said one member, "Our interest is only commercial. Palestine is rapidly becoming air-minded.

"So far as flying against the Arabs," he continued, "that would be hard to do. The Jewish people have few planes. We have our own way of fighting our war."

Some of the group came to this country on scholarships. Others served in the British army and are drawing veterans' pay.

"Old at 40,50,60?" — Man, You're Crazy

Forget your age! Thousands are peppy at 70. Try "pepping up" with Ostrex. Contains tonic for weak, rundown feeling due solely to body's lack of iron which many men and women call "old." Try Ostrex Tonic Tablets for pep, younger feeling, this very day. Now "get acquainted" size only 50c.

Former Sunday School Head Operated Stolen Car Racket

FORT WORTH, June 10 (INS) A Tarrant county farmer-carpenter, whose conscience hurt him so much he gave up as a Sunday school superintendent, operated a pretty slick stolen car system for the past two years, Fort Worth detectives found recently.

The man, who confined his activities to old model cars, bought damaged cars from wrecking yards, getting ownership papers with them, and then made serial numbers of his stolen cars conform to title certificates of the wrecked vehicles.

The method reduced considerably his chances of detection, detectives said.

The man admitted stealing more than 10 cars in the last two years, officers reported.

He told detectives he had resigned as a Sunday school superintendent recently because his conscience hurt when he drove a stolen car to church.

Window Cleaner's Luck Holds, So Does Second Safety Belt

BOSTON, June 10 (U.P.) — Mike Sobolewski, a window cleaner, is afraid his luck will run out some day.

In 1942 he fell 90 feet but recovered from his injuries.

The other day he was cleaning windows of a downtown building when the catch of his safety belt loosened, leaving him dangling 75 feet in the air. A second safety catch held him, however, until a fellow worker rescued him.

Movie Writer Returns To Work Despite Association's Order

HOLLYWOOD, June 10 (INS)—Ring Lardner Jr., one of the ten film writers indicted for contempt of Congress, went back to work in Hollywood today in defiance of an announcement that none would be given work until they have been cleared of the charges.

Lardner was placed under contract by an independent producing unit headed by Director Lewis Milestone, author John Steinbeck and actor Burgess Meredith to do the screen treatment on "Pastures Of Heaven."

The Motion Picture Association of America had announced that none of the 10 would be allowed to work until they have been cleared of the Congressional charges.

Fourth Kilgore Fire Victim Is Identified As Jacksonville Man

KILGORE, June 10 (AP)—The body of one of the four victims of the hotel fire here Sunday was identified today as that of O. R. Musick, 38, of Jacksonville, Tex.

Three other persons who lost their lives had been identified previously.

Musick's brothers, U. V. Musick of Jacksonville, made the final identification last night from dental work and a piece of shirt found in the debris of the Tulsa hotel.

Comedian's Daughter Making Way With Movie and Radio Career By Acting Herself

By RUTH BRIGHAM
INS Staff Correspondent

HOLLYWOOD, June 5 — And out of the land of glamour and spice comes 14-year-old Beverly Wills today—Hollywood's antidote for phoniness.

Beverly—with her long legs, strident voice and mouthful of braces—is making a theatrical name for herself in the most natural way in the world. By acting herself.

As she wryly puts it: "I'm always just the girl next door."

On Radio Program

Currently, the daughter of Comedian Joan Davis and writer-producer Si Wills, is the girl-next-door-and-best-friend to Judy on CBS's revived "Junior Miss" program.

Actually, Beverly ("Fluffy" on the air) and Barbara Whiting (Judy) are really the best of friends.

Beverly is as normal as the day is long with one exception—she inherits her mother's flair for comedy.

But the teen-ager doesn't want to be another Joan Davis. She says "I want to be a Beverly Wills."

However, she gives her mother and father credit for her ability. Says it must be inherited for she's never gone in for dramatic training.

What she does go in for is school (all A's except one B this year), gym, dancing, swimming, horseback riding, ping pong and "Mister," her kerry-blue dog.

She's crazy about "Mister." She also trained him. And then her mother interpolates with: "Trained? Is he trained?"

Doesn't Have Stage Fright

Joan Davis, who hails from St. Paul, has always admitted to a slight bit of stage fright. But not her daughter. Beverly just has one heck of a good time on stage.

In fact, she takes her own brand of teen-age jive talk to the studio—and it often comes out on the air.

Beverly likes boys, which again establishes her on a par with "Miss Bobby Soxer, USA."

She's going to public school this year for the first time— and likes it "twenty million times better than private school."

Beverly isn't going to let her theatrical work interfere with her education. After completing Emerson High school she intends to enter the university and major in science.

Why science?

"Well," she replied with youthful honesty, "you have to major in something."

The brown-haired girl has to be at the studio at seven o'clock on Saturday mornings for rehearsal before the 8:30 (PDT) program.

Although Beverly has been in several movies—she played the part of her mother as a child in George White's scandals—she's never had a starring role.

She's eager to see what they did with her in "Mickey", a not yet released movie starring her other best friend, Lois Butler.

Joan Davis told her daughter that she'd probably end up the face on the cutting room floor. But Beverly insists that they can't cut her out too much because "I was in so many scenes with the lead."

To which mama Joan replied: "Yeah, but they can still cut you. Believe me, I know. I've even held hands with the male star in the film. And they cut me out with finger nail scissors."

Death Claims Nationally Known Presbyterian Church Leader

CLEVELAND, June 10. (AP)—Dr. Philip Smead Bird, 61, nationally known Presbyterian church leader and organizer of the Cleveland peace committee in 1940, died early today at a hospital.

Dr. Bird, pastor of the Church of the Covenant on the Wetern Reserve university campus, led an attack on "sweatshop wages" being paid in knitting mills, garment factories and millinery shops in 1933 and later depression years.

Lubbock Couple Plans 'Delayed Honeymoon Trip' To Far West

Mr. and Mrs. J. W. Chapman of 2108 Thirteenth, accompanied by their two daughters, Nelda and June, plan to leave here Saturday for an extended "delayed honeymoon trip" to western resort spots and the Pacific Northwest. They expected to be gone about three weeks on a leisurely tour.

On the way westward they plan to visit the Grand Canyon and other tourist resorts in the area, Los Angeles, San Francisco, and if flood conditions permit, Seattle and other points in Washington and Oregon.

Returning they plan to visit Yellowstone National park and other points of interest enroute.

Lawyer Claims Air Over Home In Effort To Halt Low Flying

DALLAS, June 10 (AP)—Contending that he owns the air up to 2,000 feet above his home, Attorney C. M. Smithdeal today filed a suit here today asking that American airlines be restrained from flying its planes at lower altitudes over his residence.

Smithdeal, a Highland Park lawyer, said his home, which he said cost him $40,000 in 1925, is situated two and a half miles from Love field, municipal airport here.

He said that planes taking off and landing at the field constitute a nuisance to him and his family.

Smithdeal filed a similar suit in 1946 against Delta airlines.

Charles St. Clair Family To Hold Annual Reunion Here

A big all-day picnic at Mackenzie State park today will climax a family reunion of the Charles St. Clair family. Approximately 85 members of the family gathered in Lubbock Thursday for the first day of the annual conclave.

Included in arrivals for the reunion are 14 persons from Chattanooga, Tenn., where the reunion was staged last year. Others are from Ada, Okla., Scottsboro, Ala., California and points in Texas.

Among the visitors in David St. Clair, 7-year-old Chattanooga boy, who has received widespread publicity in Nationally distributed magazines and newspapers since his birth. He had unusual strength and could suspend himself from a bar with one hand at the age of five months.

Billed as "Little Superman," he appeared in newsreel and short subjects and vaudeville acts. His picture has appeared in Life, Pix, Look, Believe It Or Not and hundreds of newspapers in the U. S., Great Britain and Germany.

Jewish Festival Observance Scheduled To Begin Saturday

Shovuous, or Feast of Weeks, will be observed by Congregation Shaareth Israel beginning at sundown Saturday, Rabbi Julius Kerman announced Thursday.

The festival, one of the oldest in the Hebrew calendar, commemorates the harvest season in Palestine.

Services are to be conducted at 10 o'clock Sunday morning at Congregation Shaareth Israel, Twenty-third and Ave. Q, with Rabbi Kerman delivering a sermon on "The Book of Ruth."

Senate Okays Bill Authorizing Work Project On Pecos River

WASHINGTON, June 10 (AP)—The Senate passed a bill today authorizing rehabilitation of the Carlsbad, N. M. reclamation project on the Pecos river if it meets with no specific objection from the states of Texas and New Mexico.

The proposed work constitutes principally a canal to by-pass a large area of salt cedars choking up the river and causing loss of water.

The provision for a review of the plans by the states affected was written into the bill at the insistence of Texas.

The bill, introduced by Senators Hatch and Chavez, New Mexico Democrats, was sent to the House.

STUDENT IS KILLED

HUNTSVILLE, June 10 (AP)—G. W. Wren, 21, was killed instantly last night when his car crashed into a truck on a highway near here. He was a student at Sam Houston State Teachers college. His body was sent to his home in Iola for burial.

Unknown Poison Causes Death Of Fish In Houston Ship Channel

HOUSTON, June 10 (AP)— State game, fish and oyster commission representatives today were seeking the source of an unknown poison which has littered the banks of the Houston ship channel with dead fish.

The Houston Chronicle today said that millions of fish and other marine life have been killed within the past 24 hours by the unknown toxic material.

A. L. Cook, warden for the state commission, said late today "it looks like something was released from an industrial plant sewer ditch."

Annual Free Haircut Given Man On 37th Anniversary

WASHBURN, N. D., June 10 (U.P.) —Ranard Larson has just had his 37th free haircut from Henry Wahl. It started in April, 1910, when Larson walked into Wahl's barber shop and asked for the best of everything because he was going to be married.

"It's on the house and, what's more, I'll give you another one at this time next year if you'll come back," Wahl said.

Since then the best haircut in the shop has been an annual event for Larson every year except 1914, when Larson was in France.

Millions In Sunken Gold Await Treasure Seekers Along Coasts

WASHINGTON, June 10. (U.P.) There is gold in the sand.

From Nantucket to Tristan da Cunha, from Cocos to Hispaniola, from Nova Scotia to Vigo Bay, treasure is to be found.

"It is a matter of record," the National Geographic Society says, "that treasure worth countless millions lies in hundreds of sunken ships only a few fathoms down, all along the world's coasts."

The recent discovery near Sandy Hook, N. J., of gold coins two centuries old may inspire "a mild rage of beachcombing" among vacationists this summer, the society said.

It may also lead to "better-equipped salvage expeditions" and "could even produce a popular-price divining rod for shore cottagers' use."

Gives Some Tips

Forecasting that "the new look at coast resorts this summer will be the downward look," the society supplied a few tips for treasure hunters:

1. The British frigate Hussar in 1780 sank in New York's East River 30 miles north of Sandy Hook after hitting a rock. It went down with $4,000,000 — possibly much more—in pay for British Redcoats. The treasure has never been recovered.

2. Also in 1780 the British frigate Lexington, carrying gold and silver bullion from Vera Cruz, Mexico, sank in the Hell Gate passage not far from where the Hussar went down. The gold and silver are still there.

3. In 1769 the warsloop De Braak sank in a storm a mile off Lewes, Del., with $1,500,000 worth of precious metals. Repeated salvage efforts have failed.

4. In 1909 the British liner Republic foundered off Nantucket with $3,000,000 in American "gold eagles" and two years later the liner Merida went down off Cape Charles, Va., with $5,000,000 in coins, bullion and Mexican jewels.

Those, however, were "small change" losses. In 1702 British and Dutch fleets sank 16 Spanish galleons in Vigo Bay, Spain. The galleons took to the bottom an estimated $150,000,000 worth of loot they were bringing back from Caribbean raids. Only a small part has been recovered.

Nearly as much treasure was lost in 1643 when a West Indian hurricane drove 16 Spanish ships on the shoals north of Hispaniola. A small part of their cargo of gold, silver and jewels was salvaged.

In 1715 another hurricane sank 14 Spanish ships and $65,000,000 in treasure off Long Cay, Fla.

Pirates, among them Blackbeard and Captain Kidd, are supposed to have buried treasures in Nova Scotia, Cape Cod, Block Island, and Long Island.

Billy Bowlegs and Jean Lafitte cached rich loot farther south along the Atlantic coast.

The Canadian Niagara or Horseshoe Falls are about 155 feet high.

MEETING TONIGHT

LADIES of the Priscilla Sewing Circle meet tonight to honor Priscilla with annual Light Crust Biscuit Supper. Members of Light Crust committee should report early.

American Ham Bone Sent To Son In Japan By Mistake

MEMPHIS, Tenn., June 10 (U.P.)—A ham bone crossed the continent and the Pacific by mistake. Clarice Herman tells this one on her sister, who has a son stationed with the Army in Japan:

"My sister went shopping for small gifts to send overseas. She inadvertently gave the wrapper girl the bag containing the ham bone. Then she sent it on to the postoffice for mailing, not discovering her mistake until she looked for the bone to make soup."

Man Is Fined For Drunkenness On Just Two Bottles Of Beer

OMAHA, Neb., June 10 (U.P.)—A young man charged with drunkenness shook his head in bewilderment before Judge Perry Wheeler in municipal court.

"Judge," he said, "I don't know what happened. It just hit me all of a sudden. I had two bottles of beer."

"Don't kid me," the judge scoffed. "Two bottles of beer wouldn't knock out anyone."

"These were half-gallon bottles, Judge," the defendant replied.

The judge fined him $2.50.

Checkerboard School House To Be Converted Into Home

FRANKLINVILLE, N. Y. June 10 (U.P.) — Cattaraugus County's "checkered schoolhouse" soon will become a private home but it won't be checkered any more.

The schoolhouse has been famous since 1838 when for reasons time has obscured it was painted in foot-wide red and white squares.

The new purchaser, Lyle Rogers, says he will convert the building into a home, but not one painted like a checkerboard.

Scientists Say Food Stored In Open Can Okay If Cooled

SCHENECTADY, N. Y., June 10 (U.P.)—It is not necessary to transfer food from an opened can to a dish before storing it in the refrigerator, scientists of the General Electric research laboratory point out.

The U. S. Department of Agriculture says:

"It is just as safe to keep canned food in the can it comes in—if the can is cool and covered—as it is to empty the food into another container . . . . A few acid foods may dissolve a little iron from the can, but that is not harmful, nor dangerous to health.

"Cans and foods are sterilized in the processing, but the dish into which the food is emptied is far from sterile. In other words it is likely to have on it bacteria that cause food to spoil."

Now Procter & Gamble can tell the INSIDE STORY of a modern washday miracle!

IT'S TIDE
...you've never used anything like it!

The inside story of this postwar miracle begins back in the years of Procter & Gamble's wartime research. Out of the new knowledge gained in that research came Tide. Tide does *what's never been done before*—washes clothes cleaner than any soap, yet leaves colors brighter! Try Tide just once and you'll know it's entirely different! Tide's amazing suds *look* and *feel* different . . . and they billow up instantly, even in *hardest* water!

ONLY Tide DOES ALL FOUR!

1. Washes clothes cleaner!

Yes, cleaner than any soap! *Nothing's* too dirty for Tide! Even grease-stained overalls come so marvelously fresh and clean . . . *cleaner* than with any soap you've ever used, because Tide not only leaves clothes free from ordinary dirt, but *actually* removes dingy soap film as well!

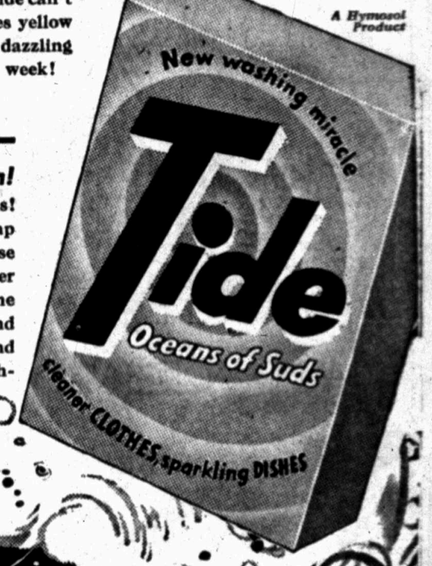

2. Actually brightens colors!

Prove it for yourself! Take that soap-dulled, faded-looking print . . . wash it in Tide's miracle suds . . . and see how much brighter it comes out! Tide is *really safe* for dainty washable colors!

3. Never "yellows" white things!

No matter how often you wash them, or how long you store them, Tide can't turn white clothes yellow . . . keeps them dazzling white, week after week!

4. Gives more suds—
Prove it in your dishpan!

Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in *hardest* water! Tide cuts grease like magic . . . washes dishes cleaner than any soap! No scum in the water! No cloudy film on dishes and glasses! That's why they rinse and dry so *sparkling clear*—even without wiping!

NO OTHER WASHING PRODUCT KNOWN CAN MAKE THIS STATEMENT
Tide
GETS CLOTHES CLEANER THAN ANY SOAP MADE
—yet actually
LEAVES COLORS BRIGHTER

GUARANTEE
Procter & Gamble guarantees that Tide will do everything claimed for it in this advertisement. If you are not completely satisfied, return the unused portion of your package to your dealer, and the purchase price will be refunded.

TIDE'S IN— DIRT'S OUT!

TIDE WORKS EXTRA MIRACLES IN HARD WATER! OCEANS OF SUDS! NO WATER SOFTENERS NEEDED!

Pedigreed Chow Smug About His Private Transportation

TALLAHASSEE, Fla., June 10 (U.P.)—Rex, a pedigreed chow, leads a dog's life, but a nice one.

He has attended the inauguration of a Florida governor, several sessions of the state legislature and a murder trial.

The high state functions, Rex takes in his stride. But he's painfully smug about his private transportation. Rex has his own sidecar seat in the family motor scooter. A pair of goggles goes with it.

His owners, Mr. and Mrs. Sherman Weiss, like to go places and Rex always goes too.

Mrs. Weiss first put the goggles on Rex for a joke. But he liked them. It keeps the wind out of his eyes.

Well Water For Cows Produces More Milk, Valley Man Says

MERCEDES, June 10 (U.P.)—Water from a well on the Rio Banco farm of Mercedes produced enough extra milk in a year to pay for digging the well, Pete Melton said.

Melton, who owns a 200 cow dairy, drilled the 165-foot well in which sweet water rises to within 15 feet of the surface.

"The cows drink so much more of the well water than they did of the Rio Grande water that they give extra milk," he explained.

Twice a day, fresh, cool water from the well is turned into a Bermuda grass-lined canal. The cows drink their fill and then browse on the lush grass.

a BETTER FLAVORED CATSUP that costs no more!

Brooks Catsup has gained its wide popularity because of its unique, delicious flavor. Have you tried it?

HAVE YOU TRIED THAT TASTY Brooks VEGETABLE SOUP?

WRECK BLOCKS UNDERPASS—The wreckage above is a part of 47 Missouri Pacific freight cars derailed near Admire, Kan. The cars crashed off the rails onto the pavement shown littered with debris in left foreground. The highway underpass in the background is hidden by the pile of wreckage. One man was killed. (AP Wirephoto).

Painting Instruction Given At Senior High School Here

Instruction and guidance in drawing, painting, crafts, and textile painting are being offered each morning in the art department at Senior High school as a part of the free summer school for students and adults. Mrs. Edith Phifer is the instructor for the first semester.

The art room at Senior High is very pleasant during the morning hours, said Miss Claudia Neeley, coordinator of art, and students of both junior and senior high schools are invited to work in the art department, room 134, on any project which interests them. Adults are especially invited to use facilities and undertake one or several projects during the semester. Students may work one hour, or even four if they wish, Miss Neeley said.

Projects which will be offered during the first semester include: general drawing and painting in pastels, oil. charcoal, pencil, and water colors; crafts; textile painting by stencil, block printing, batik, and silk screen; and design. During the second six weeks period, when Miss Mary Lu Roberson will be the teacher, a similar course will be offered, with some special instruction in leather work.

High School Students Boost Grades Following Publicity

FALLS CITY, Neb., June 10 (U.P.)—High school youngsters love publicity, Principal Ralph Andrews proved.

At the start of school last fall there were 32 youngsters on the honor roll. Andrews asked the Falls City Journal to carry their pictures.

Since then, the list of students boasting an honor roll average on four or more solid subjects for a six-weeks period has jumped to 63.

A reporter sought to learn the reason for the sudden upsurge of hitting the books. The youngsters weren't a bit reticent in admitting they were studying hard to get their pictures in the paper.

PETTICOATS IN ORDER

NEWARK, N. J. (U.P.)—John B. Keenan, public safety director, ruled that waitresses in a hotel cocktail lounge cannot wear transparent skirts unless they wear petticoats underneath. Keenan said "we have enough police problems now." The hotel management ordered petticoats.

IT'S GOOD TO KNOW

Mrs. Tucker's HOME MAKING HELPS

Tact is to personality what frosting is to cake.

©1948 M.T.F.

If you like everything about cantaloupe but its aggressiveness in taking over the ice-box . . . you'll like everything about this idea from Mrs. Edna Mae Click, Lawton, Oklahoma. $10 for this:

Cut cantaloupe in wedges for serving, then seal them into a jar before storing in refrigerator. They stay moist and attractive.

Here's a wonderful new time and labor-saving cooking help from Mrs. Earl E. Mason, Denver, Colorado, for using our favorite spread for the daily bread:

Cream together ½ cup MEADOLAKE MARGARINE and ½ cup flour, then form into small balls and keep in a covered dish in the refrigerator. Use these *thickening* balls for creaming vegetables, soups and gravies by just dropping them into the liquid and stirring as the mixture boils.

The favorite fruit, glamour girl "Peaches," has adopted the new "open-faced" look for summer, in this recipe that rings up $10 for Mrs. C. E. Bell, Houston, Texas.

SOUR CREAM PEACH PIE

- 3 cups sliced fresh peaches
- ½ cup white or brown sugar
- ¼ teaspoon cinnamon
- Dash of nutmeg
- Few grains of salt
- 1 tablespoon cornstarch
- 1 cup sour cream

Mix sugar and cornstarch, add other ingredients and mix well with sliced peaches. Place in even layers in an unbaked pastry shell and cover with cream. Bake in a hot oven (450 degrees) for 20 minutes. Serve warm or cold.

If your cream is still sweet and charming . . . add 1½ tablespoons lemon juice to 1 cup sweet cream, stir and let stand 5 minutes . . . this will just curdle it!

$10 Money flies . . . and maybe in your direction. Send recipes and home-helps to Postal Potluck, Mrs. Tucker's Homemakers' Dept., Sherman, Texas. $10, if printed.

Summer living calls for taking it easy . . . and it's deliciously so with MEADOLAKE MARGARINE. Golden-Yellow MEADOLAKE, already colored . . . or Regular MEADOLAKE that colors easily . . . the flavorful twins of nutrition.

Mrs. Tucker's Creamy SHORTENING and tasty MEADOLAKE MARGARINE

"FEATURING QUALITY FOODS"

SHARP BATTLES SHAPE UP

Many Important Dates Marked On Texas Political Calendar

By LLOYD LARABEE
United Press Staff Writer

AUSTIN, June 10 — Recuperating from a stormy state Democratic convention at Brownwood, politicians are looking forward to a number of other dates on the calendar.

The next state convention, at Fort Worth on Sept. 14, is not expected to hold a candle to the one just ended.

But before then Texas Democrats will go to the polls twice and name their public officials running from U. S. senator and governor on to sheriff. The dates are July 24 and Aug. 28.

Battle Lines Drawn

The lines for the U. S. Senate race already are well drawn between former Gov. Coke R. Stevenson, 10th district Rep. Lyndon Johnson and George Peddy. But Martin Dies, former congressman and creator of the famed un-American Activities committee which took his name, has entered the running and the picture may change.

On the local governmental level, the filing deadline for county and precinct offices, for county chairmanships and for district candidates in districts composed of only one county will be June 19.

Other Important Dates Set

Here are other significant political dates for the summer.

June 21—County executive committees meet to work out plans for the July primary election, the July precinct and county conventions.

July 4—Absentee voting begins for the first primary election, lasting until July 20.

July 24—First democratic primary election, precinct conventions.

Aug. 8—Absentee balloting begins for the runoff primary election, ending on Aug. 24.

Aug. 28—Runoff primary election.

Incumbents Hard To Beat

Several other purely procedural dates are important only to filing statements of campaign expenses and meetings to facilitate handling of election supplies.

The main work of the September state convention is consumed in writing a party platform.

Though this is a presidential election year, and a record number of persons have paid their poll taxes, the summer campaign is not expected to become as hot as the governor's race did two years ago.

For one thing, the governor, lieutenant governor and attorney general were listed as almost certainties to run for re-election. Political observers point out that incumbents are hard to beat for a second term, and a minimum amount of steam is expected to be generated from the races for the state's top three spots, compared to the 1946 campaigns.

However, that's not true in legislative races, where the turnover is assured of being almost one-third in the House of Representatives. Forty-one members of the 50th session are not running, and four unopposed candidates will be first-time members.

'Thermos Bottle' Drink To Be Used In Vending Machines

CHICAGO, June 10 (U.P.)—A new type of mobile drink vendor which keeps beverages hot or cold up to 30 hours will be on the market soon.

The device, which operates on vacuum principles, may replace the pop bottle at sporting events and other places in which crowds gather, its producer says.

The vendor was invented by Andy Frain, head of an ushering service.

Described as a "thermos bottle on rubber-tired wheels," it may "eliminate the hazards of the pop bottle at ball games and other sporting events," Frain says.

Standard Oil Executive Warns Of Oil Shortage Next Winter

CHICAGO, June 10 (U.P.)—An oil shortage of unprecedented severity may confront the nation next winter, Dr. Robert E. Wilson, board chairman of Standard Oil Company of Indiana, warns.

Only by reducing new oil burner installations to the pre-war level and adopting strict conservation measures can a shortage be averted, Wilson said.

Even so, an anticipated five per cent increase in petroleum supplies may not be enough to prevent a shortage if there are serious strikes in basic industries or a severe winter, he said.

Crash Radio Transmitter Is Designed For Downed Planes

OLYMPIA, Wash., June 10 (U.P.)—Development of a crash radio that may save one-third of the lives now lost when planes are downed in remote areas has been announced.

R. O. Ward, state patrolman at Vancouver, Wash., designed the set to aid in locating missing aircraft. The tiny transmitter, about the size of a pound of butter, is enclosed in a crash and fire-proof container. The force of a crash starts the beacon into operation. It sends out a high frequency signal which direction finders can use for bearing-shooting purposes.

Tip for today's dessert!

BANANA ICE CREAM FRUIT TREAT

A cool, refreshing dish—easy to whip together at home. Thicken canned or frozen crushed pineapple with a little cornstarch. Cool—and pour around each big serving of Swift's Banana Ice Cream. Top with sliced and sweetened strawberries. The family will love it! Swift's Banana Ice Cream is featured this month at your dealer's. And what a feature—with lots of mellow, mouth-watering bananas crushed into Swift's famously smooth, richly nourishing ice cream. Ask for Swift's Banana Ice Cream today — serve it often!

Refreshingly yours... Martha Logan *Home Economist*

Landing Craft Reconverted For Use In Gulf Coast Oil Search

By J. CULLEN BROWNING
Associated Press Staff Writer

ORANGE, June 10—The soldiers and sailors who went out against the enemy aboard LST 877 during the late conflict wouldn't recognize the old girl these days. Some of her machinery is as supersecret as was once the radar, which will keep on serving the ship in peace. Added living space now takes up much of the major portion of the vessel.

Her crew has soft beds to sleep on; china plates instead of aluminum mess kits to eat from and, shades of Father Neptune, tile-floored showers instead of helmets of sea water to bathe in.

Oil Hunt Is On

Right now S-24 is tied up in an Orange shipyard undergoing the final pangs of rebirth. In a few days, however, she will put forth into the Gulf of Mexico. There she will join several scores of her sisters, already reborn or about to be converted to the same use, in one of the most ambitious and expensive, commercial ventures ever undertaken.

Trapped around the edges of subsurface salt domes along the Texas and Louisiana gulf coasts, are an undetermined number of rich pools of oil waiting to be tapped. That will be the future occupation of S-24 and her sisters.

Nobody knows for sure just how much oil is out there. But geophysical surveys have indicated the quantity is staggering. And evidence of its existence, although only one producing well has been completed so far, is strong enough to have brought on a terrific row over whether the states or the federal government own the ocean bottom under which it lies. It also has convinced the boards of directors of major oil companies that they are justified in risking millions of dollars to hunt the oil.

New Wells Go Down

Huge tracts are under lease to oil companies along the coast of both states. Several wells already are being drilled off Louisiana. The first on the Texas side of the Sabine delta is to be started in a few weeks.

Big fleets of vessels are being assembled for the job. Humble Oil Co., for example has just purchased 14 LST's at San Francisco from the Maritime commission. These will be towed 5,000 miles by way of the Panama canal to Orange for conversion to drilling vessels similar to the S-24. Experienced shipbuilders here say the conversion job alone will cost upward of $3,000,000.

For many months geophysical crews have been laboring in the gulf, exploding tons of dynamite and translating the wavy inked lines of the subsurface echos from its detonations into terms of "highs" and "lows." A "high" in this area indicates a mountain of salt buried many thousands of feet under the gulf. Around the edges of those mountains of salt is where the oil lies. Oil is not found around all salt domes, but the odds for finding it there are excellent.

Equipment Is Secret

The High Island oil field just off the beach between Sabine pass and Galveston is an on-shore example of what the fields in the gulf will be like. The town of High Island is perched atop a hill which looks oddly out of place on the miles of coastal marshes surrounding it on three sides. The hill is there because a salt dome is underneath. Around its base in a nearly perfect circle are dozens of oil wells sucking up the valuable petroleum trapped about the edges of the subsurface mountain of salt.

Much of the machinery and most of the methods to be used in off-shore oil drilling operations still are jealously guarded trade secrets. Generally, however, this is the way it will be done:

Large clusters of long pilings will be driven deep into the ocean bottom and left extending about 25 feet above water. Atop these will be mounted the derrick, machinery and pipe storage platforms.

The drilling vessels like the S-24 will be moored to the platforms and held in place by four anchors, two off the bow, two astern. The ships will be moved as the wind changes, always keeping the nose into the wind and waves. During the hurricane season they will be ready on short notice to run for safety in port.

Once the well is brought in the problem of getting the oil ashore presents itself. From locations fairly close inshore it will be piped to storage tanks on the beach through lines buried well below the ocean bottom to keep them out of the way of shrimping nets.

Farther out most of it probably will be collected in tankers.

FOX HOLE DEAMS DIMMING

NEW YORK, (U.P.) — The New York City veterans service centers reported that there has been a decline of veterans' "foxhole dreams"—novel types of business originated by themselves. There has been a corresponding increase in the purchase and establishment of more orthodox enterprises by veterans.

OLD ROCKING CHAIR—It's a rough spot—riding in a saddle atop a bucking bronc as the picture above indicates. The animal is from Everett Colburn's Lightning C ranch rodeo stock, seen in the ABC-Boys' club rodeo at Jones stadium at Texas Tech, so fans have an opportunity to see a repitition of the scene above every night of the rodeo. Larry Finley, one of Gene Autry's troupe of riders, is trying to stay balanced on the precarious seat. He is one of approximately 100 performers here with Colburn and Autry for the big benefit rodeo. Tickets are on sale at a booth in the lobby of the Hilton hotel. Box seats are $3 and general admission $2 for adults and $1 for children. All proceeds of the rodeo after expenses go into the Lubbock Boys' club building fund.

East Texas Farmers Set To Meet Major Grasshopper Attack

TYLER, June 10 (U.P.) — The farmers in this agricultural section of Texas have declared all-out war against an enemy of mankind that once plagued the Egyptians of ancient biblical times—the grasshopper.

The farmers have good reason to go into action against the lowly 'hoppers. Reports of heavy hatchings have been received by the Smith county agent's office from all sections of the county. And some damage has been inflicted on crops in spots.

Poison Supply Short

One bottleneck, however, has been the shortage of poison. Farmers cleaned the shelves of grasshopper poison in Tyler stores and a truckload had to be shipped in from Houston.

The 'hopper damage, however, hasn't been restricted to Smith county alone. Other counties in East Texas are preparing for a possible all-out fight against the insects. They're comparatively rare in this section, incidentally.

In Cherokee county, the infestation is reported to be fully 10 times heavier this year than last and the western and northern parts of Van Zant county also report heavy hatchings.

In Wood county, E. A. Spacek, county agent, said that while the infestation is widespread and unusually heavy, it still is too early to determine how serious the grasshopper damage will be. He said that 'hoppers still were small and were concentrated around the edges of fields and along roads.

Farmers "Waiting"

Agricultural agent F. J. Burton reported that farmers in Rusk county were "watchfully waiting." Hatchings have been unusually heavy, he said, but no major damage has been reported.

Entomologists at College Station, informed of the situation in Smith county, urged that poison sprays be used in an attempt to control the insects.

They said that, because of the large amount of green vegetation in the area, poison bran broadcast in the fields is not nearly as effective as spraying of poison. The green vegetation is more tempting to the 'hoppers, the experts said.

Poison bran, however, has been used effectively in the more arid West Texas where there is usually less green vegetation.

Toxaphene is the cheapest poison, costing about $1 a pound in 100 percent strength, while chloradine costs about $2.25 a pound. A pound of either poison mixed with 100 gallons of water will cover an acre of ground.

Big Spring Girl Wins Acclaim As Juvenile Horse Trainer

BIG SPRING, June 10 (INS)—A 13-year-old Big Spring High school girl is winning acclaim as the leading juvenile horse trainer of the nation.

She is Miss Frances Weeg, who is also gaining reputation as a talented horse trader.

Frances started out five years ago with a $150 cow pony. She now has a string of quarter horses and palominos valued conservatively at $30,000. And she's accumulated this small fortune in horse flesh without outside financial help.

Her father, a railroad engineer, said when she was nine she bought a palomino stallion for $500, trained him a few months then sold him for $1,250. With the $1,250 she bought a string of quarter horses, trained and sold them.

A sophomore in high school, she's often on stock show trips with her horses, but she has time to help out at her father's 640 acre stock farm and be a first-rate student in school.

U. S. Vatican Envoy Accused By Woman In Paternity Suit

CHICAGO, June 10. (AP)—Myron C. Taylor, Presidential envoy to the Vatican, and a friend were sued for $2,000,000 today by a Chicago woman who alleges she is Taylor's illegitimate daughter.

Named defendant with Taylor, former chairman of U. S. Steel corporation, is Joseph A. Bennett The federal court suit described him as a "friend and counselor" of Taylor.

The suit was brought by Mrs. Eunice Walterman, 35, wife to a factory worker. She said she sued merely "for the sake of my children"—13-year-old twin boys.

She alleges that Taylor and Bennett connived to conceal that she is Taylor's illegitimate daughter and hindered her efforts to establish her parentage.

WEARS HER CANARY

FORT WORTH, (U.P.) — A bridcage hat is worn by Mrs. Bob McCarroll. In the combination hat-cage is her pet canary, Doodlum.

When hay is allowed to get too ripe, it becames coarse and loses a great deal of its protein food value. After it has been cut, get rid of the moisture in hay as soon as possible to prevent spoilage.

NEW EASY Whirldry WASHER

Busy women like you . . . homemakers, young mothers, business women, apartment dwellers . . . you'll find the EASY Whirldry the perfect answer for small washes, baby's clothes, undies or "extra" things. No wringer to break buttons, ruin zippers. Small size makes for easy storing.

IT'S ALL DONE IN ONE TUB washes - rinses - then dump-dries good size loads like this!

3 children's play suits . . . 4 dish towels . . . 8 hankies . . . 1 lady's wash slacks.

Iron Curtain Lifts For Envoys Distributing Food In Europe

PARIS, June 10 (U.P.)—One of few organizations in the United Nations which doesn't suffer from "iron curtain trouble" is the group which distributes food to the hungry children of Europe from headquarters here in Paris.

Officials of the U.N. International Children's Emergency Fund travel with ease across supposedly tightly closed frontiers. One day they may be in Hungary, the next in Bulgaria, the day after that in the Soviet zone of Austria.

ICEF's program of food distribution in Europe was started last November. Since then it has distributed more than $20,000,000 worth of milk, fats and meat products to 12 European countries.

With the exception of France, Italy and Greece, those countries are in the so-called "iron curtain" zone. They include Albania, Bulgaria, Czechoslovakia, Finland, Hungary, Poland, Rumania and Yugoslavia.

Cut Across Barriers

"We have no political troubles because we cut across all political barriers," an ICEF official told the United Press.

The ICEF sends inspectors to see that its food is distributed without regard to race, creed, or political party. The recipient governments must also publicize the United Nation's efforts.

"In the six months we have been operating in Europe, we have not received a single complaint of maldistribution of food or attempts to credit our efforts to a government or a political party," the official said.

Teams of ICEF workers, ranging from two to six people, work in every one of the countries concerned. The governments themselves pay an additional staff made up of its citizens.

In return for milk, fats, and meat products from the ICEF, the receiving countries contribute products of which they have enough, such as grains.

The fund is able to distribute a supplementary 500 calories to some 4,000,000 European children. It estimates that as many as 30,000,000 are undernourished, but its budget can not be spread further.

CUT 50-YEAR CAKE—Salesmen Robert H. Lee of Idalou and Dick Young of 2411 Fifth join with Manager F. W. VanDyke of National Biscuit Co. in cutting the company's 50th birthday cake. Salesmen from the Lubbock area participated in celebrating the golden anniversary of the company. In special observance of the occasion the company has prepared a special packaged "anniversary" assortment of cookies.

Senate Confirms Promotions Of High Ranking Officers

WASHINGTON, June 10 (U.P.)—The Senate today confirmed the promotions of 30 high ranking army officers to permanent star grades.

Confirmed to the permanent rank of major general were temporary tL .Gen. Lewis H. Brereton and temporary Maj. Gens. Junius W. Jones, Harold H. McClelland, Eugene L. Eubank, Frederick M. Hopkins, jr., Orvil A. Anderson, Earl E. Partridge, Lyman P. Whitten, Bob E. Nowland, Orval R. Cook, Charles T. Myers, John De Forest Barker, and Arthur W. Vanaman.

Confirmed as permanent Brigadier generals were Lt. Gen. Edwin W. Rawlings, Maj. Gens. Clayton L. Bissell, Patrick W. Timberlake, John M. Weikert, Glenn O. Barcus, Leon W. Johnson, Laurence S. Kutter, Joseph H. Atkinson, Roger M. Ramey, Samuel E. Anderson, Truman H. Landon, and Francis H. Griswold; and Brig. Gens. William E. Farthing, Richard C. Coupland, James W. Spry, Joseph Smith, and William L. Richardson.

TRIANGULAR SOLUTION

CHICAGO (U.P.)—Irving Zarfan, a delivery man for a diaper service, was robbed of $85 and his pants. He left his truck and walked to the nearest phone to call police, wearing a kilt of borrowed diapers.

Thermo-regulated roasted for uniform full flavor.

"I SAY IT'S THE BEST COFFEE IN TOWN"

TWO KINDS—DRIP AND PERCOLATOR

Fresh! The Dainty Salted Cracker

SUPREME in flavor

FLAV'R-SAV'R PACK, TRIPLE PROTECTED AGAINST AIR AND MOISTURE

CROWN CAKE (Yield: one 9" ring)

Don't worry if you've never made a cake this way. Measure exactly . . . follow directions carefully. Be sure to use Crisco, because *only* with new, improved Crisco can we promise you a lighter, richer, moister, more tender cake.

Measure into mixing bowl (All Measurements Level):

2 cups sifted cake flour • 1½ cups sugar
½ cup Crisco • 1 teaspoon salt • ⅔ cup milk

Blend by hand or mixer (medium speed) for 2 min. Stir in (yes, all by itself):

3 teaspoons baking powder*

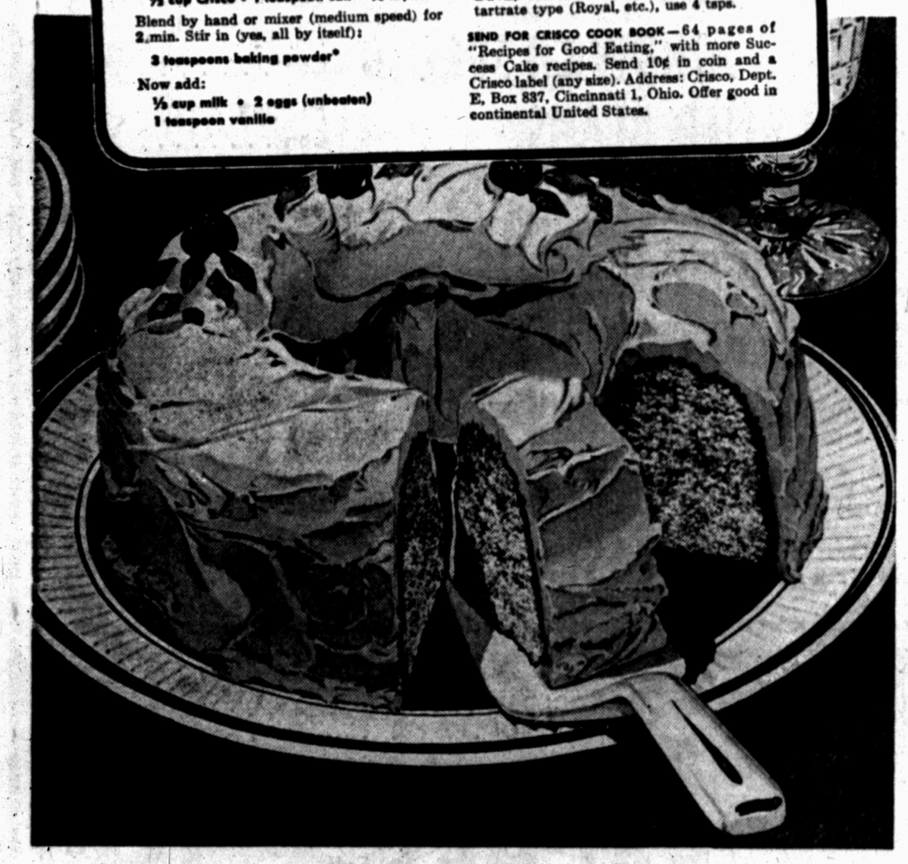

Now add:

⅔ cup milk • 2 eggs (unbeaten)
1 teaspoon vanilla

Blend by hand or mixer for 2 min. Pour into 9" ring mold 3" deep, rubbed with Crisco and lined with waxed paper along the bottom. (For smaller pans fill half full—bake cup cakes with remaining batter. *Crisco Success Cakes are lighter, rise higher than the average cakes.*) Bake in moderate oven (375°F.) 40-45 min. When cool, ice with creamy icing and decorate with gumdrops or candied fruit.

*Double-action or phosphate type (Calumet, Davis, Clabber Girl, Rumford, etc.) With tartrate type (Royal, etc.), use 4 tsps.

SEND FOR CRISCO COOK BOOK—64 pages of "Recipes for Good Eating," with more Success Cake recipes. Send 10¢ in coin and a Crisco label (any size). Address: Crisco, Dept. E, Box 837, Cincinnati 1, Ohio. Offer good in continental United States.

This Crown Cake will get a royal reception!

And it'll make you proud as a queen! When you take these light, velvety layers out of your own oven . . . when you taste their rich, moist goodness . . . you'll agree! The new Crisco Success Cakes are even better than best!

How can we be sure? Because new, improved Crisco has a *baking secret* you find in no other type of shortening. And the Crisco Success Cake recipes are *built around* that secret to give you lighter, richer, more tender cakes. Cakes that simply won't be matched with any other type of shortening, or any ordinary recipe.

It's so easy, too—and it takes only 4½ minutes to mix a gorgeous Crisco Success Cake. Naturally, pure, all-vegetable Crisco is a wonder for any cake or any recipe. But Crisco *plus* the Crisco Success Cake method gives you cakes at their delicious best!

Of course, if you're like most women, sweet, snowy Crisco will always be your standby for flaky pastry and digestible fried foods. (Yes, digestible—9 out of 10 doctors say so!) And once you've made this Crisco cake, you'll say: "It's Crisco for me for all three—pastry, fried foods and dreamy cakes!"

"Starts the Day on the South Plains"

LUBBOCK MORNING AVALANCHE 3

Lubbock, Texas, Friday, June 11, 1948

AUTRY VISITS BOOT SALE—For the first time in the nation, Gene Autry boots went on sale this week in Lubbock at Dunlap's and as a publicity angle and in order to aid the Lubbock Boys club, the store donated ten per cent of gross sales of the boots to the Boys' club. Autry is pictured above, holding one of the boots surrounded by a group of youngsters as he visited the store Thursday afternoon and signed autographed pictures for youngsters who purchased boots. He was kept busy for more than 30 minutes with the autographing, not only of the pictures but autograph books and pieces of paper. Included in the crowd at the store was a large number of adults. (Staff Photo.)

Campaign Aimed At Polio Threat

City officials Thursday primed and layed plans to fire a full-blast campaign aimed at erasure of conditions which might contribute to the spread of polio.

Two cases of polio in Lubbock and reports of the widespread prevalence of the disease in Texas and much of the nation spurred preparations for a drive which will get underway officially on Monday.

The cooperation of most of the ministers of the city in distributing polio prevention literature at church services Sunday already had been pledged, health officials said.

Actually, they added, the campaign already is underway.

DDT spraying equipment is being used now to give the entire city the heaviest dosing of the deadly fog it has received since the motorized sprayer was bought early last year.

The present fogging, which was started Monday, is the second of the season for Lubbock. The entire city should be covered by the end of the week, health officials said.

The spraying aims at the elimination of flies, mosquitoes and other insects which are believed to be polio carriers.

Also in progress now, health officials said, is a cleanup campaign in Carver Heights. Negro leaders of the city are directing activities there.

The campaign there and the city as a whole will include these objectives, according to health officials:

Enforcement of ordinances requiring garbage to be kept in tight containers where it cannot be reached by flies, other insects, rats, mice, dogs and the like.

Elimination of piles of trash, junk and other places which might service as harbors for rats, mice and other vermin.

Weed chopping in alleys, yards and vacant lots so as to eliminate these breeding places for insects of all kinds.

Thorough and regular cleaning of such places as livestock lots, chicken pens, dog runs and the like.

In conducting the campaign, health officials said, they plan to put several additional trucks into service to handle increased volume of trash and garbage.

They also plan closer inspections to make sure that ordinances governing the regular treatment of outdoor toilets with kerosene or lime are obeyed.

Officials warned that refusals to comply with ordinances designed to protect the community health will lead to the filing of charges against offenders.

Tests Scheduled For Hale Well

Bob Donnell, et al, No. 1 Carmichael, three-quarters of a mile east of the discovery for commercial production from the Pennsylvania lime reef, in southeast Hale county, at General American Oil Company No. 1-AA. F. Byrd, was bottomed at 6,055 feet in lime, and was preparing to run and cement 5½ inch casing to allow making production tests.

This project topped the reef lime at 5,855 feet. It took a drillstem test at 5,846-69 feet. The tool was open 45 minutes. Recovery was 130 feet of oil and gas cut drilling mud.

Another Test Run

Another drillstem test run at 5,870-5,995 feet. The tester was open 45 minutes. Recovery was 900 feet of heavily oil and gas cut mud. The drill pipe flowed out one head of heavily oil and gas cut drilling fluid, while it was being pulled.

The venture then cored on down to 6,005 feet, took a gamma ray survey, and started preparations to run the casing.

This well is in southwest Floyd county, and is 660 feet from south and 1,980 feet from east lines of section 18, block K, TTRR survey.

Lario Oil & Gas company No. 1 Bob Mayo, another stepout from the Byrd discovery, also in southwest Floyd county, and 660 feet from south and 1,980 feet from west lines of section 18, block K, TTRR survey, had reached 6,015 feet in shale and lime, and was making more hole. It has not yet penetrated the reef.

Drilling Ahead

H. E. Chiles, Jr., et al, No. 1 Strickler, 1,980 feet from south and each lines of section 19, block K, TTRR survey, and another flanker to the General American producer, at No. 1 Byrd, was making hole under 6,090 feet in lime.

It took a drillstem test at 6,090-37 feet. The tester was open one hour. Recovery was 550 feet of drilling mud, with no shows of oil, gas, or water.

Brown and Wheeler No. 1 Devitt, central Hockley county wildcat, two miles south of Levelland, and 440 feet from south and west lines of labor 6, league 29, Rusk county school land survey, was reported to be swabbing at the rate of about five barrels of oil per hour, from the section between 4,852 feet and the plugged back total depth at 4,871 feet.

California Woman To Assume Duties

Tech Selects New Dean Of Women

Mrs. Margarette Wible Walker of Los Angeles, Calif., will arrive at Texas Technological college July 20 for an introduction to her new duties as dean of women at the college to begin Sept. 1, Pres. W. M. Whyburn announced Thursday afternoon.

Mrs. Johnnye Gilkerson Langford, dean of women at the college since Sept. 1, 1945, requested relief from the office effective Aug. 31. Her request was submitted to the president Feb. 19, 1948, and granted by the board of directors in their May meeting. In submitting her request, Mrs. Langford asked to return to a full time position as head of the department of Physical Education for women and as professor of PE for Women.

Holds Two Degrees

The newly appointed dean of women holds two degrees in music from the University of Southern California. While enrolled in the California university, Mrs. Walker worked under Dean Mary Sinclair Crawford in the dean of women's office and took special training in guidance work. She served as head resident of the Chi Omega sorority house on the USC campus.

During World War II, Mrs. Walker was employed as interviewer and counselor for three years in the civil service commission office in Los Angeles. Mrs. Walker's early contact with educational institutions followed her graduation from Williamette university, Salem, Ore., with a diploma in music. She taught public school music in Oregon, was supervisor of music in Oregon public schools for three years and later taught music in the public schools of Los Angeles. During the time she was teaching she maintained a voice studio.

In Several Organizations

As first vice-president of Mu Phi Epsilon, honorary music sorority, Mrs. Walker visited Texas Tech in the fall of 1947, and talked with groups of music majors. She is in charge of standards and requirements for membership and eligibility of schools for chapters of Mu Phi Epsilon. She has served in this office for six years.

Mrs. Walker is also a member of Phi Lamba Theta, national education sorority, Pi Beta Phi, social sorority, Association of American University Women, a sponsor of Beta Sigma Phi, and professional women's organizations. She is also a member of the University Methodist Church, Los Angeles, the Southern California symphony association and the Alumna association of the University of Southern California.

Summer Enrollment At Tech Hits 2,748

Registration figures for the first term of the summer session at Texas Technological college climbed to the unprecedented height of 2,748 Thursday, and are expected to approach the 2,800 mark before registration is officially closed at 5 p. m. today, W. P. Clement, registrar at the college, announced Thursday afternoon.

Of the figure, more than half are veterans of World War II, which is more veterans than have ever before in the history of the college enrolled for a single summer term. The number of veterans was estimated to be 1,637 at 6 p. m. Thursday by Clement, who said that the rush of veterans to Texas Tech could probably be explained by the fact that many veterans have now completed two years work in junior colleges of the state, and are now ready for higher instruction.

The largest number of students to enroll for the first term of a summer session before this year was registered the first term of last year's summer school, which included 2,704 students. The exact number of veterans in school last summer is not known, but is estimated at 1,500.

DALLAS RESIDENTS KILLED

DALLAS, June 10 (AP) — Two residents of Dallas were killed in two separate traffic accidents here this morning. Gene Arch Stephen, 21, was killed instantly when he failed to negotiate a turn and was thrown from his motorcycle. Edwin E. Naylor, 59, received fatal injuries in a two-car collision at an Oak Cliff intersection.

District Farm Meeting Slated

Eight farmer-district agreements and soil conservation plans have been signed by the owners and operators and will be ready for study and approval of the board of supervisors, Lubbock County Soil Conservation district, at a regular meeting this afternoon. The meeting will be held at 2 p. m. in the local Soil Conservation Service office, 1605 College Ave.

Scheduled to attend the session are the following land-owner farmers who compose the Lubbock district board: E. R. Davis, chairman; Edwin Merrell, secretary; H. L. Weems and G. K. Horton, members. The fifth member of the board, C. E. Lilley, has recently moved from the district.

Several applications for soil conservation assistance are ready for the supervisors consideration for approval.

Individual farmers and soil conservation technicians include the following:

J. E. Franklin, J. R. Day, and J. O. Day, Jr., all of Petersburg; John Spikes and Robert T. Rhea, Lubbock; Samuel J. Roberts, Lubbock (Howard Hill of Lorenzo, Star Route, operator); Bartlett and Clark, Lubbock (Buster Bartlett of Route 1, Lorenzo, operator); Judge C. Smith, Slaton; and W P. Martin and Son, Route 6, Lubbock.

The board will also discuss the date for the election of a supervisor to replace C. E. Lilley in the southeast zone of the district.

Trial acreages of weeping lovegrass were planted on four of the soil conservation district cooperators farms during the past month. The plantings were made on the H. L. Weems, R. E. L. Pattillo, O. C. Southall, and J. E. Mann, Jr. farms.

Widely Known Catholic Priest At Weimar Claimed By Death

WEIMAR, June 10. (AP)—Msgr. Joseph Szymanski, 75, widely known Catholic priest, died here at 5 a. m. today.

He had been in charge of the Weimar Deanery, since 1920. Father Szymanski had been a priest here since 1906.

His body will lie in state until 9:30 a. m. Monday when the office of the dead will be chanted. The funeral mass will be said at 10 a. m. and burial will be in the Weimar Catholic cemetery.

Wheat Estimate Hiked By USDA

(By The Associated Press)

WASHINGTON, June 10.—Prospects are that this year's wheat crop will be the second largest in history, totalling 1,192,425,000 bushels, the Agriculture department said today.

This forecast came as a surprise. It is a boost of 75,000,000 bushels over a month ago, when the department said the crop was likely to be the third largest. The new estimate is considerably larger than the grain trade had expected.

Crop Larger Than Average

While the new crop would fall short of last year's record of 1,364,000,000 bushels, it would be about 15 per cent larger than the ten-year average.

The wheat estimate was given in a monthly crop report which said this crop season should be at least as productive as the average of the past ten years. The department described that period as the best decade in farm history.

No forecast was given for corn, but the report said this crop has gotten its most encouraging start in several seasons.

Also brightening future livestock production prospects was a forecast of a bumper oats crop of 1,357,000,000 bushels. Like corn, the 1947 oats crop was weather-damaged.

In another report, the department said farm income for the first half of 1948 is expected to total $12,600,000,000. This is three per cent more than in the like period last year.

Bollworm Quarantine Hits Plains Counties

WASHINGTON, June 10. (U.P.)—The 43 additional Texas counties yesterday placed under the pink bollworm quarantine, effective Friday, were:

Menard, Mason, Bexar, Burnet, Lampasas, Coryell, Mills, Hamilton, Comanche, Erath, Eastland, Callahan, Shackelford, Jones, Fisher, Kent, Stonewall, Haskell, Throckmorton, Baylor, Knox, King, Cottle, Gray, Wheeler, Donley, Collingsworth, Hall, Childress, Hardeman, Foard, Wilbarger, Wichita, Lamb, Hale, Floyd, Motley, Lubbock, Crosby, Dickens, Lynn, Garza and Reagan.

The greater part of Texas already was under quarantine. The quarantine regulates movement of cotton, cottonseed, and okra from infested areas.

The U. S. Weather Bureau is part of the Department of Agriculture and was established in 1890 to collect reports of weather conditions.

SLIGHT COMEBACK NOTED

Truman's Popularity Is Given Boost, Latest Survey Shows

BY GEORGE GALLUP, Director
American Institute of Public Opinion

PRINCETON, N. J., June 10—There are indications that President Truman's popularity with voters, in a critical tailspin since last October, may be staging another comeback.

At any rate, the latest Institute test of public reaction to the president shows that his popularity has stopped falling, and even risen a few points. Today 39 per cent of voters approve the way he is handling his job compared with 36 per cent last April.

GALLUP

Results of the new test mark a milestone in Truman's presidential career, as he began to carry his determined fight for reelection directly to the people. A similar check-up following his 10,000 mile, 18-day tour of the country will show with what success he waged battle.

Many interviews in the current poll were made as he began the first phase of the trip. Thus, the results reflect the latest possible voter opinions because the final ballots were counted only two days ago.

If Truman recaptures the confidence of voters, it will not be the first time as president that he has recouped political losses. Shortly after he took over from President Roosevelt, almost nine out of ten voters approved the way he handled his job. But from that point confidence in his administration dwindled until only 32 per cent of voters voiced approval just before the November, 1946, elections.

Then began a dramacie rise in

Seminole Sets Carnation Day

SEMINOLE, June 10 (Special)—Annual event for Seminole in the future, "Carnation Day" promises to be one of the outstanding celebrations in the State of Texas, according to reactions from surrounding cities and state newspapers.

Railroad Commissioner W. J. "Bill" Murray will be the featured speaker and will use as his text "Do Give Credit Where Credit is Due" and will also give a brief account of the petroleum future of the Seminole area, which will be of tremendous interest to residents of this general area.

Dr. Andrew S. Tomb, well known Seminole physician and surgeon and a pilot of long standing, will fly Commissioner Murray to and from Austin in his private Piper Super Cruiser.

Letter Is Received

The celebration, which is set for 7:30 p. m., Tuesday, June 15, has gained an unusual amount of publicity and it has been estimated by C-C President Reeves Cothes that 100 merchants, professional men and citizens will be entitled to the honor of having a carnation pinned on his lapel for their contributions to the progress of Seminole during the year. A vice-president of the Carnation company will also fly to Seminole to participate in the program. A letter received from the President of the Carnation company in Los Angeles, reads in part: "This is certainly a very constructive and unique project and we are most pleased that the carnation has been selected as the symbol of recognition. As you have recognized, the Carnation organization has extremely important stakes in Texas with two Evaporated Milk plants, two Fresh Milk and Ice Cream plants, five Milk Receiving Stations, and numerous sales offices throughout the state. Of interest, too, is the fact that my father, the late Elbridge A. Stuart, founder of the company, really launched his remarkable business career in 1881 with the opening of a general merchandising store in El Paso, and I, myself was born in that city."

Delegations Are Expected

"We consider it a signal honor to be privileged to furnish all of the carnations for the honorees and their ladies."

A large delegation from Abilene will attend the banquet and representatives from a large number of surrounding cities are expected.

A novel addition to the annual celebration will be the presence each year of the "Mayor" of a newly created community to be known as Carnation, named for the Carnation company and the event.

An announcement from the Seminole Chamber of Commerce, read: "In preparing the list of persons to receive carnations, it was a very pleasant surprise to note the long list and to realize that so many fine contributions had been made to our progress. This, in itself could well be considered an annual report, inasmuch as it is mute testimony that the Chamber of Commerce has accomplished desirable results, in its own way."

Tavern Owner Left At Bar As Divorcee Seeks Money Man

DAYTONA BEACH, Fla., June 10 (INS)—The well-publicized romance of Mrs. Dorothy Lawlor, husband-hunting divorcee and Daytona Beach tavern owner Danny Wicker ended abruptly today.

Mrs. Lawlor is again open for proposals—but she wants to see that $10,000 before she talks any more wedding plans.

The 28-year-old former New York hat check girl who advertised for a husband with $10,000 said Danny offered her $13,000 if he decided to marry her. Mrs. Lawlor declared she has received only $10 from Danny and added:

"I paid for our dinner one night with that." She announced firmly:

"As soon as I can get my plane fare back to New York, I'm leaving."

The blond divorcee made it clear that her next romantic venture will be preceded by cash on the line. She declared:

"What I asked for was cash on the line and until I see it I will make no more promises to anybody."

Mrs. Lawlor hinted darkly that the whole Wicker episode "looked like a publicity stunt" for the 37-year-old owner of "Danny's Musical Bar."

Fort Worth C Of C Estimates City's Population At 267,703

FORT WORTH, June 10 (U.P.)—The Chamber of Commerce said today that the city of Fort Worth has an estimated population at present of 267,703.

Metropolitan Fort Worth has an estimated 334,004 residents. A year ago the city had a population of 263,227, and the metropolitan area 326,559.

CORN PLANTING TIME—Two farmers take advantage of ideal corn planting weather to sow their seeds at Climbing Hill, near Sioux City, Ia. One operates tractor, center, which kicks up dust cloud. Other, right foreground, uses horse.

Oregon Woman Writes Father Here About Columbia Flood

Personal information direct from the Oregon flood area was received here this week by J. E. Ellison of 1923 Nineteenth in a letter from his daughter, ElLouise, of Vancouver, Wash., across the Columbia river from the flooded city of Vanport, Ore. Also residing in Vancouver is a son, Eddie, 15.

Ellison, a resident of Lubbock since 1944, showed pictures of several projects in the flood area, including a Henry Kaiser shipyard, which he had worked on, now under ten or more feet of water.

Excerpts from Miss Ellison's letter, mailed from Portland on June 4, read: "You see the reason the terrible thing became worse is that the 10 or 12 foot dike at the end of Vanport broke at about 4:30 p. m. last Sunday. They had been told there that it would not break and they were safe. It took only 15 minutes for the water to reach 15 feet over the city. Of the 18,000 population, only 7,000 have registered safe.

"Well—that was Sunday and the water began to go down for a couple of days. But this morning we heard that more water is to come from Canada, Montana and Idaho.

And it's supposed to be half a foot higher than Sunday, which will be 30.8 feet. And I'm telling you it's TERRIBLE."

The now extinct dodo was a bird, related to pigeons, which was somewhat larger than a turkey. It formerly lived on the island of Mauritius in the Indian ocean.

MEN! GET PEP.. Do you want to feel young again? Why feel old at 40, 50 or more? Enjoy youthful pleasures again. If added years have slowed down your vim and vitality, just go to your druggist and ask for Caltron stimulating tablets. Many men are obtaining remarkable results with this amazing formula. Adv.

Enlisted Reservists Urged To Apply For Duty In Lubbock

Announcement was made Thursday by Major Harold Fulghum, commanding officer of the U. S. Army and U. S. Air Force recruiting office in Lubbock, for enlisted reserve corps men to apply for extended active duty in the city of Lubbock.

Major Fulghum stated that only nine days remain for qualified enlisted reservists to apply for the openings.

Qualifications for the openings consist of possessing administrative MOS or the ability or the to do that type of work, physically and mentally qualified under current directives and applicant must agree to serve not less than nine nor more than twelve months.

Enlisted reservists interested in applying should contact Fulghum at room 203, postoffice building.

Chemists estimate that a city in Illinois of 40,000 population would waste a ton of soap daily if the natural water were used without softening.

DIES FORMALLY QUITS CONTEST

Senate Race Holds Spotlight As Candidates Hurl Charges

By DAVE CHEAVENS
Associated Press Staff Writer

Senatorial candidates who have been needling Coke Stevenson got some return jabs Thursday.

The former governor — never much given to loud talk in a political race—gave his own answers in his own indirect way in a radio speech at Abilene.

Replying by inference to Lyndon Johnson, who has challenged him to state his views on many federal-state issues, the former governor said Texas voters will know how he stands on any issue, because he won't depart from his well-known views for state's rights and constitutional government.

Actual Facts Asked

Stevenson was probably talking to George Peddy as well as Johnson when he said he would support appropriations to enable the United States to remain "strong and free from fear."

"My only demand, on behalf of the people I represent, will be that the actual facts show the need for appropriations," Stevenson said.

Both Johnson and Peddy have inferred Stevenson was not sufficiently concerned with the international situation. Stevenson said "we can be realistic without becoming hysterical."

The Senate race has become an 11-man chase. Martin Dies formally withdrew, asking the Democratic executive committee to remove his name from the ballot. It had been placed there by petition. Dies also asked the committee to refund the $100 filing fee to the petitioners. The committee has had a long-standing policy not to make such refunds. Dies has said he cannot make the race "legally" because of the high cost of running for office.

Johnson States Tour

Johnson announced he will give the senatorial race a new turn as soon as possible. He will do his campaigning from town-to-town in a helicopter offered him by a group of Dallas veterans. Johnson issued a statement from his campaign headquarters in Austin saying there was just one other man in the race, whom he expected to beat "flat-footed without a run-off."

He didn't say who he was talking about, but most of his campaigning has been aimed at Stevenson.

Johnson spent the day in Corpus Christi. He will go to Houston Friday, Beaumont Saturday, and next week will start a heavy speaking schedule.

Both Stevenson and Peddy will be in Yoakum Friday for the annual tomato tom-tom celebration.

Peddy was in San Antonio Thursday for a radio talk primary advocating a strong program for conservation of underground water supplies in the West Texas and valley areas.

He called for a continuation of the reciprocal trade policy which he said "will be under attack constantly by short-sighted isolation minded people who are thinking 100 years behind the time. I think of isolation as ox-cart thinking in the atomic age."

Farm Safety Program Presented At Lubbock Kiwanis Meeting

Members of the Kiwanis club meeting for luncheon Thursday at Hotel Lubbock witnessed a program on farm safety that included a demonstration by 4-H club boys on the proper handling of a gun and other potentially dangerous equipment.

Participating in the demonstration were Wayne Hackney, Raymond Hitt, and Roy Middleton, following introductory remarks by Lee Smith, jr., who pointed out several phases of the farm safety program carried on through the boys and girls clubs.

The program was presented by Otis B. Langer, who cited it as one of a series by the agriculture committee of the club in the interest of better rural life.

George Bond was introduced as a new member. Roy Bass, club vice president, was in the chair in the absence of L. E. (Jack) Davis, who with Fred Sparks is attending the convention of Kiwanis International at Los Angeles. Invocation was by B. Sherrod.

Fish Without Scales Or Tooth Caught On California Coast

SANTA CRUZ, Cal. June 10. (U.P.)—Two bathers at the Santa Cruz beach saw a large fish in the water, made a lunge for it and caught it by the tail. They were amazed to find it had no scales, no teeth and weighed 68 pounds.

Veteran fishermen scratched their heads in perplexity. Then W. I. Follett, curator of San Francisco's Golden Gate park aquarium, came to take a look.

He said it was a ragfish—one of 12 he knows have been caught since 1876. For the record, Follett says the ragfish is known as icosteus aenigmaticus.

ONLY A ROSE—Jim Rose took Sue Elleman to the senior prom in Columbus, O. He bought her a corsage of red roses. She stuck one on the dashboard of the car—for luck, maybe. Before the evening was over Jim's car skidded into the Scioto river. Sue was drowned, Jim, attempting to save her, was injured. When the car was recovered, the rose—a rose for remembrance now—was still there.

Princess Anne And Former King Michael Are Married In Royal Ceremony In Athens

ATHENS, June 10 (INS)—Princess Anne of Bourbon-Parma, former New York shop girl, wore a half-million dollars' worth of mostly borrowed jewelry today when she was married to young Michael of Romania in a royal Athens ceremony.

Under the exiled Michael's definition, his 24-year-old Danish-French princess is now "Queen of Romonia." He himself has refused to recognize his December abdication which he said was forced by the Communist Bucharest government.

King Attends Ceremony

King Paul of Greece was "koumbaros," or best man, at the small but glittering ceremony in the Athens royal palace.

Anne's uncle, Prince Eric of Denmark, gave the bride away in the Greek Orthodox church ceremony which will not be recognized by the Roman Catholic church to which Anne belongs.

The pretty princess borrowed the $400,000 crown of the Greek royal family to wear in the ceremony, but her "something new" was a $150,000 necklace of blue-white diamonds giver her as a wedding present by the 26-year-old Michael.

The couple met last November at the London wedding of Princess Elizabeth and Prince Philip, now Duke of Edinburgh. Months of political turmoil in which Michael was exiled from his homeland complicated—but failed to impede—the romance.

Conspicuously missing from a chest-full of decorations on Michael's white Romanian army uniform today was the Soviet suvorov award given him by Premier Stalin when the young king deserted the Axis camp and joined the Allied side in World War two.

Archbishop Damaskinos, former Greek regent, officiated at the ceremony, attended by about 30 persons, including Queen Helen, mother of Michael.

Anne wore a white satin gown embroidered with old lace. Orange blossoms were in the veil. Her 11-foot train was borne by three royal pages.

The crowns worn by the bridal pair were the same as those used by Michael's mother, Princess Helen, and father, Carol, when they were married 28 years ago.

Carol, who was divorced from Queen Mother Helen, did not attend. He and his second wife the former Magda Lupescu, are living in exile at Lisbon.

A royal guard of mountain troops, in traditional gold-embroidered and skirted uniforms, lined the throne hall of the palace. Outside 300 white-skirted Evzone troops stood guard.

The ceremony took place in a tiny chapel of carved wood erected in the throne room and decorated with white and pink roses from the King's estate at Tatoi, 20 miles outside Athens.

Wheat Boom Makes Dream Come True For Oklahoma Couple

ALFALFA, Okla., June 10 (U.P.)—The home they have dreamed of since they were childhood sweethearts is now a reality for Mr. and Mrs. Roger Willis. They have five children to share it.

The hard-working young couple was able to build the $30,000 ultra-modern farm after riding prosperity on the wheat boom.

The pair, now 33, started out eight years ago with one combine. Every year Willis followed the harvest from southern Oklahoma into northern Nebraska and also farmed near Alfalfa. Now the family has seven combines.

The Willis's new ranch-style home has 12 rooms, three-and-a-half baths, servant quarters and a garage. It is air conditioned and equipped with every modern convenience, including an electric kitchen and laundry and a recreation room.

INJURIES PROVE FATAL

FORT WORTH, June 10 (AP)—Joe Benton Wilhite, 45, extra worker for the Texas & Pacific railroad, was injured fatally today when he was struck by a box car. Both legs were severed. He died shortly after being taken to a hospital.

STORE PRESIDENT QUITS

CHICAGO, June 10. (AP)—Wilbur Norton has resigned as president of Montgomery Ward and company, the company announced today. No reason was given for the resignation.

The average Swiss citizen eats about 18 pounds of cheese a year.

Hospital Financing Bill Sent To Truman

WASHINGTON, June 10 (AP)—An appropriation bill carrying cash and contract authority for $125,000,000 to speed up the national hospital construction program has been sent to President Truman by Congress.

Financing the Labor department and the Federal Security agency, the bill includes $50,000,000 cash and $75,000,000 in contract authority to back up the long-range $375,000,000 hospital program approved by Congress in 1946.

The money to be advanced by the federal government as grants to the states must be matched by state and local funds on the basis of 82 of local funds for each federal dollar. In effect, the entire program ultimately will involve $375,000,000 federal and $750,000,000 local funds.

Applications for 118 projects in 14 states already have been approved. Most of the hospitals under construction or planned are in rural areas and average 50 beds each at an average cost of $500,000.

Galveston Man Fears Report Of Inheritance Is Just Joke

GALVESTON, June 10 (AP)—Harold A. Abney, who yesterday reported he had been informed of a $185,000 inheritance, said today he isn't so sure it isn't all just a joke.

Abney said he was told by a St. Louis attorney named Walter Deuchile that an uncle had left him the estate.

"I haven't heard from my folks and it sure looks like they would have called me by now," Abney declared.

He is a native of Kankakee, Ill

Take Off Ugly Fat With Grape Fruit Juice Recipe

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy — no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of Liquid Barcentrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonsful twice a day. That's all there is to it.

If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears — how much better you feel. More alive, youthful appearing and active.

TEXAS LISTS 343 VICTIMS

Houston Asks Aid Of National Agency In Battle Against Polio

(By The Associated Press)

Houston asked help from the National Foundation for Infantile Paralysis after the 134th polio case for the year entered a Houston hospital yesterday.

Houston's city health officer Fred K. Laurentz asked the national foundation to send an expert to survey the situation "to find out if they know of anything else we can do to combat polio."

State Toll Hits 343

Polio cases in the entire state totaled 343 from Jan. 1 to June 5, the latest official check.

Laurentz said he is negotiating to secure planes for use in spraying all Houston's bayous Saturday or Sunday. He estimated the cost at $15,000. County Auditor H. L. Washburn said that over 15,000 gallons of DDT have been sprayed over Harris county in the polio fight and that probably more than eight times that amount will be used.

All over Texas, cities, towns and communities were conducting cleanup campaigns to prevent the spread of polio.

In the lower Rio Grande valley, Hidalgo county communities were told that the Navy had offered to spray the areas from the air with DDT. Thirty-eight patients were in the valley's polio ward at Grandview hospital in Edinburg Tuesday.

Clean-Up Drives Held

Entire communities were cooperating in cleanup drives around Temple. This week, one Bartlett child died of the disease, another was taken to an Austin hospital, and a Nolanville child was stricken.

Lufkin recorded its first infantile paralysis case in eight years yesterday. The patient was eight-year-old Arletta Stanalind of route 2, Lufkin.

In Corpus Christi, Dr. Gordon F. Fisher, director of the city-county health unit, said that Nueces county appeared to have passed the peak of incidence of the disease. Eight persons were in the isolation ward of the hospital there in the middle of the week. The area has recorded 43 cases for the year, 20 from surrounding counties.

Sixty-one of the polio victims treated in Houston have been residents of the city. Fourteen polio deaths have been recorded, compared with only four last year.

P. O. OFFERS STAMP BARGAIN

ELIZABETH, N. J., (U.P.)—The local post office has been doing a land office business in one-cent stamps. It has been disposing of 50,000 one-centers of 1916 vintage which philatelists' catalogues list as a four-cent value.

ILLUMINATION—Vienna's City hall is illuminated for the first time since the end of the war in celebration of first post-war Austrian Trade Union Congress.

Houston Candidate For President Is Having Tough Time

HOUSTON, June 10. (AP)—Dr. C. C. Cunningham, Houston candidate for president, still is having troubles launching his campaign.

The city council yesterday advised the retired Missouri county doctor he could use the Miller memorial theatre in Herman park for his opening rally next Saturday provided he pays a fee of $50.

Cunningham protested.

"I understood there is a charge and I think it ridiculous to charge a man who is honoring his city by running for president," he declared.

Two weeks ago the council granted him the use of the big Sam Houston coliseum—provided he paid the $500 rental fee.

His plans for opening his rally at the coliseum last Saturday fell through when bands he had planned to use in a downtown parade failed to show up.

Then he discovered skaters were holding a roller derby in the coliseum.

Cunningham said he is taking the $50 Herman park fee under advisement.

Money was first milled (stamped with raised borders and fluted or grooved edges) to prevent the fraudulent removal of metal and to protect coins from wear.

Senate Group Okays Tidelands Proposal

WASHINGTON, June 10 (AP)—The Senate Judiciary committee today approved legislation that would give the coastal states ownership of oil-rich tidelands and sent it to the full Senate by a 6 to 5 vote.

No specific time has been set for its consideration by the Senate, but the bill is on the Republican policy committee's list of "desirable" measures. It can be called up at any time.

The bill would give coastal states, such as Texas, clear cut title to the submerged land in a three-mile belt beyond the low tide line.

President Truman vetoed a similar bill passed by the last Congress, although virtually all the states support it, and Secretary of Interior Krug said the chief executive would veto the new one if it reaches him.

The Supreme court held last year that the state of California does not own the land under the marginal sea. Sponsors of the bill contend that the decision upset all previous precedents.

SURPLUS POTATOES BOUGHT

WASHINGTON, June 10 (AP)—The Agriculture department reported today it has bought upwards of 700,000 bushels of surplus 1948-crop potatoes to support prices.

Brief Bits Of Local News

Fifty-seven negro children from Booker T. Washington park vicinity and five adults visited the West Texas museum at Texas Technological college Thursday afternoon. The children were accompanied by Mrs. Gladys Sims, nature, story telling and camping specialist of the City Recreation department, and Ruby Lee Tennison, Booker T. Washington park director, Narvy Glaspie, Vermella Hall and Dale Hooper.

Rabbi Julius Kerman will speak on "Ideals to Cultivate" at the regular Sabbath Eve service at 8 o'clock tonight in Temple Shareth Israel, Twenty-third and Avenue Q.

Visiting in Lubbock Thursday for the opening of the ABC-Boys' club rodeo were Mr. and Mrs. W. J. Murray, jr., and daughter, Marsha, of Austin. Murray is a member of the Texas Railroad commission and had planned to attend the festivities in connection with the rodeo opening, but arrived too late to take in the parade. He attended the rodeo Wednesday night with his uncle and aunt, Mr. and Mrs. Frank R. Murray of 2508 Twenty-third.

A. E. Rennals, former Lubbock resident who had been making him home near Fort Worth for a number of years, died Monday in Dallas Methodist hospital, friends here have been advised.

Last rites for Rev. Luther F. Tannery, 80, who died late Tuesday night in West Texas hospital, were read Thursday afternoon in First Methodist church. Burial was in Lubbock cemetery under direction of Rix Funeral home. Rev. Tannery, a retired Methodist minister, had lived in Lubbock for the past five years with a daughter, Mrs. L. P. Simpson of 2302 Nineteenth.

Regular second Sunday community sing-song will be held this Sunday afternoon from 2 to 4 o'clock at the Central Baptist church, 1311 Eighteenth, Rev. Jeff D. Welch, pastor, announced Thursday.

Leaving Lubbock Thursday by plane for eastern South Dakota was K. O. Peterson of 2202 Fifteenth street. He is to attend funeral services for his father, Harold Peterson, 67, at Dalesburg Lutheran church Saturday. Burial will be in Vermillion cemetery. The elder Mr. Peterson, who lived here in the summer of 1946, died Tuesday morning.

Indians Leaving Reservations For Cities, Society Reports

BOSTON, June 10 (U.P.)—The Society for the Propagation of the Gospel Among the Indians and Others in North America, the oldest missionary society of American origin, has just held its 161st annual meeting.

Its field secretary, the Rev. G. E. E. Linquist, told the 50-member society he had visited 23 Indian tribes in 24 states and had addressed nearly 9,000 persons in 176 appearances.

He said Indians were leaving their reservations to work in cities at jobs they learned during World War II.

The society was organized in 1787 and held its first meeting on Dec. 7 that year at the old State House. Judge Oliver Wendell was the first president and his grandson, Oliver Wendell Holmes, late Supreme Court chief justice, was later a society member.

Prison Sentences Lack Meaning In Tennessee, Records Show

NASHVILLE, Tenn., June 10 (U.P.)—The Tennessee jury may say "99 years," "life imprisonment" or some other stiff sentence, but state prison records show that the "average Tennessee convict is free after five years.

A survey showed that only 13 prisoners had served more than 20 years and that the oldest in point of prison time had been behind bars since 1921. However, only six of the 13 had been in prison continuously since they first were admitted. The seven others had been freed but brought back either for new crimes or for parole violation.

AMAZING RESULTS WITH MERTOX TONIC

Mrs. Ben Grossman of Houston writes us as follows:

"For a long time I have had occasional billious spells. My head would hurt and I would vomit my food. My last spell was very severe and I just thought I would die. My appetite was poor and I couldn't sleep at night. I was so troubled with my limbs stiffening just before I would have a spell of gas and bloat. I would be dizzy and I would have a severe headache. My food soured and it just seemed as if everything was wrong with me. To anyone suffering like I was, I recommend Mertox highly."

This splendid medicine, containing 25 ingredients, works fast to eliminate poisonous matter from your system. Helps to build rich, red blood. Relieves constipation within a few hours and helps to create a more rhythmic bowel action. Get Mertox Compound today from any Texas druggist at the new REDUCED price.

Senate Passes Road Measure

WASHINGTON, June 10 (AP) — A two-year highway bill, authorizing expenditure of $468,500,000 a year for federal and federal aid roads, was passed today by the Senate.

The measure was substantially changed from the form approved by the House, and must now go to a conference committee.

The House-approved bill would have allowed $500,000,000 a year for federal aid highways alone for each year of a three year period, beginning July 1, 1949.

Report Is Filed

In its report on the bill, the Senate Public Works committee said that records show the average annual rate of progress for the post-war highway program, in terms of federal funds obligated, is less than $400,000,000 a year.

The Senate measure would authorize the following annual appropriations for a two year period beginning July 1, next year:

Federal aid primary, secondary and urban roads, $400,000,000.

Forest highways, $20,000,000.

Forest roads and trails, $20,000,000.

Parkways, $12,500,000.

Indian reservation roads, $6,000,000.

'Invasion' Against Field Is Underway

SELFRIDGE FIELD, Mich., June 10. (INS)—Attack units of the Army, Air Force Marine corps and Navy launched a three-pronged "invasion" against Selfridge field today in a demonstration of America's latest in weapons.

Fifteen B-29 Superfortresses lifted the curtain on the show, sweeping in for a "softening up" attack with 100-pound practice bombs.

The combined attack was staged for the benefit of some 500 representatives of industry, into whose hands the armed services are placing America's military future.

As the battle-tested B-29's carried out their bombing assignment, the jet-powered XB-46—the newest in warplane design—soared gracefully in the distance as a reminder of things to come.

In the hum of the jet bomber's engines, many observers heard the requiem of the B-29.

General Joseph T. McNarney, commander of the Air Forces Air Materiel command, had revealed two hours earlier that the Air Force will select the jet-propelled bomber as the "work-horse" of the nation's air defense within a week.

Absolutely pure water does not exist.

CHAIRMAN — Sen. Chan Gurney, South Dakota Republican, is chairman of the Senate Armed Services committee.

Fort Worth Man Killed When Streamline Train Hits Car

FORT WORTH, June 10 (AP)—Edward William Gross, 68, native of Tarrant county, was killed this afternoon when his automobile was struck broadside by a northbound Santa Fe streamline train two and one-half miles northwest of Crowley.

Charles F. Jones of Galveston, head of the railroad's air brakes department, who was aboard the train, said the car, a coupe, failed to clear the crossing in time and was struck by the onrushing streamliner.

Gross, an independent burlap bag dealer, was in the Crowley district buying bags when the accident occurred.

President Of Montgomery Ward Mail Order Setup Resigns

CHICAGO, June 10 (INS)—Reported differences in top management echelons of Montgomery Ward & Co., were climaxed today by the resignation of Wilbur H. Norton, president of the huge mail order and chain store operation.

Norton, along with a number of vice presidents of the company, submitted his resignation to Sewell L. Avery, board chairman, last month.

The resignations were withdrawn after the company amended its bylaws. The changes gave the President "general executive authority and management supervision over the entire business and affairs of the company, and over its other officers and agents."

It was not learned whether the vice presidents who had previously submitted and withdrawn their resignations with Norton resigned with him today.

Norton's resignation was accepted by the board of directors.

TELEVISION APPLICATION

WASHINGTON, June 10. (AP)—The Communications commission today announced receipt of commercial television applications from: E. C. Lawson, doing business as Wichita Falls Television Co. Wichita Falls.

U. S. Death Rate Hits New Low In 1947, Survey Shows

NEW YORK, June 10 (U.P.) — Heart disease was the leading cause of death in 1947 for holders of United States life insurance policies, according to a report by the Institute of Life Insurance.

The report however, based on figures compiled by the Life Insurance Association of America, said the death rate from all causes reached a new low last year.

The leading figures given per 100,000 ordinary and industrial life insurance policy holders were:

Heart disease, 361.5; cancer, 114.8; accidents, 45.8; tuberculosis, 26.1; pneumonia, 22.6.

TO STUDY BUDGETS

AUSTIN, June 10 (AP) — Budgets for the University of Texas and all branches except the medical branch will be studied by the board of regents here this weekend.

What Americans call "the English walnut" is not native to the British Isles, but to the Balkans, Asia Minor, Persia and a region stretching eastward to China. However, early colonists introduced it here from England.

STORM CONFUSING

Wrong Diplomas Given In Darkness

OMAK, Wash., June 10 (AP) —Omak High school seniors were graduated last night, but they were to hold one more class session today—to exchange diplomas.

As principal David Ellis reached for the diplomas, lightning struck a power line between nearby Okanogan and Brewster. In the darkness which followed, Ellis distributed the sheepskins from the wrong end of the alphabet.

Lettuce loses its flavor and food value if kept too long, even in the refrigerator. Add salad dressing just before serving in order not to wilt the leaves.

Cotton Bought Up To Profiteer On ERP, Congressman Declares

WASHINGTON, June 10 (AP)—Rep. Stefen (R-Neb) said today he has heard that 'certain interests have bought up thousands of bales of cotton" hoping for a "substantial" profit from the European recovery program.

Stefan said the House appropriations committee, which received that information, has cautioned officials of the economic cooperation administration against paying inflated prices for cotton and other commodities.

"It is estimated that over a half-billion dollars' worth of cotton will be purchased for the relief program," the Nebraskan said in a weekly newsletter to his constituents. "Since this information leaked out, the per pound price of cotton has jumped six cents.

"The committee has been told that certain interests have bought up thousands of bales of cotton, planning to sell it under ECA at a substantial increase in price."

Commutation Of Sentence Asked

AUSTIN, June 10 (U.P.)—A commutation to life of the death sentence facing George Raymond Gardner, scheduled to go to the electric chair June 13, was recommended today by the board of pardons and paroles.

The 2-1 board recommendation, with R. A. (Smoot) Schmid dissenting, was sent to Gov. Beauford H. Jester's office for action. However, the governor was in Dallas and action must wait for his return to the capitol tomorrow.

The commutation was recommended by Chairman Abner Lewis of the pardons board and member Walter C. Strong.

Gardner was sentenced on March 14, 1947 by Harris county district court to die for the pistol slaying of Arval Johnson. The offense occurred on Jan. 20, 1947.

No Objections Received

The board recommendation for commutation of the death sentence to life imprisonment stated that no objection to such action was made by Harris county District Judge L. G. King, Houston District Attorney A. C. Winborn or Sheriff Neal Polk of Houston.

Judge King said in a letter to the pardons board that he was "strongly of the opinion that Gardner was more emotionally upset, though not insane, than any man that has been tried in this court since the war."

King added that since the trial and his confinement, Gardner has "calmed down," and termed him an "ideal prisoner."

A 30-day stay of execution was granted on April 6 by Gov. Jester, moving Gardner's scheduled date with the electric chair from May 14 to June 13. Gardner's sentence was upheld by the Court of Criminal appeals Jan. 7, 1948.

Shooting Incident Described

According to the court record, Gardner while in the service learned that Johnson was "paying attention" to a girl with whom Gardner had been associated.

Judge King in his letter that apparently Gardner was "desperately" in love with the girl.

The day before the offense, Gardner visited the grocery store and beer tavern where she was employed. Johnson was there. Gardner, the record stated, remained at the store after the pair left, pocketing a pistol without the owner's permission.

Early next morning, Gardner, according to testimony, entered the store by a rear entrance and found the girl and Johnson there. He offered them whiskey from a bottle he was carrying.

Gardner, the girl testified, then lined up the pair at pistol point and told them they were to take a drink before he killed them. She pretended to be sick, the girl said at the trial, and slipped out of the store. Johnson then was shot.

EASY TO REMEMBER

FORT WORTH, (U.P.)— Mother and son in the R. N. Miller family won't have any trouble remembering each other's birthday. Robert Fred Miller arrived on the 26th birthday of his mother, Mrs. R. N. Miller.

Radioactive Wire To Enter Cancer Fight

NEW YORK, June 10 (AP)—Radioactive wire, something new for cancer, was announced today.

The announcement was made in "Science," journal of the American Association for the Advancement of Science. The wire is made in atomic ovens at Oak Ridge, Tenn.

It is made of cobalt and nickel. After fabrication, the wire is placed for a short time in an atomic pile, or oven. The wire comes out emitting rays like radium, but more powerful.

Many Advantages Cited

The announcement was made by William G. Myers, of the department of medicine, Ohio State university. He says animal studies indicate that the cobalt-nickel alloy will be useful for cancer much like radium. It will be made both as wire and in the form of needles.

The wire has advantages. It can be bent to fit places that radium does not fit so well. It can be wrapped around bone cancers, something impossible with radium. It can be pre-fabricated in shapes other than wire, to fit cancers. This pre-fabrication is done before the alloy is made radioactive.

Another advantage is freedom from danger in leaks or breaks. These mishaps with the wire make no essential difference, but with radium they are bad risks.

San Antonian Loses Money 'Fattening' Thin Chickens

SAN ANTONIO, June 10. (INS) A San Antonio man discovered a revolutionary method of fattening thin chickens. But he lost money on it.

Police said he was injecting water into dressed birds by inserting a hypodermic needle into a drumstick. Attached to the needle was a rubber hose leading to a water faucet. They said the water made the bird look nice and fat and added as much as a half pound to the weight.

The culprit paid a $25 fine with costs for falsely packing merchandising.

ADDED BASEBALL HAZARD

CHICAGO, (U.P.)—A young boy playing baseball set fire to a house, causing injury to one person and forcing 12 others to flee into the street. The youngster, seeking a ball he had batted under the porch, crawled in with a lighted match and let it drop into a can of paint.

STATE'S RIGHTS

U. S. Divorce Laws

NEARLY everyone concedes the need for closer uniformity in the divorce laws of individual states. Most people frown upon the practices of states which make divorces easy strictly for commercial purposes.

But it is difficult to see how public and human considerations would have allowed the U. S. Supreme court to render any decision other than its ruling the other day that a decree granted by a competent court in any state is valid in all other states. The decision over-ruled a Massachusetts court, which refused to recognize a divorce granted in Florida.

The right of the individual states to make their own laws regulating divorce now is undisputed. This power does not imply an equal right to refuse to recognize a decree granted in another state. To recognize a right of such refusal would be in conflict with a basic principle of our government, which establishes the complete equality with each other of the states of the Union. Equality could not be pretended if any state could infringe on the right of any other to regulate its own divorces.

But of far greater importance than that are human considerations. It is intolerable that any state should have the power to place the legal brand of adulterer upon a couple, and illegitimacy upon their children, simply because state divorce laws are at variance with each other.

The Supreme court decision does not minimize the need for uniform divorce law. But it should lessen some of the confusion which results from the almost chaotic variance in those laws. It provides a needed protection for those, especially children, who certainly are blameless for the disagreement among individual states as to what properly constitutes grounds for divorce.

Encouraging Sign

MANY Americans understandably think of most Europeans as being almost without pride in begging and accepting U. S. charity. This estimate may be correct as to many war victims. Hunger melts pride rather quickly.

But, if this be true of many Europeans, others unquestionably are humiliated by charity. Americans can judge by their own feelings that many war victims would prefer to earn their own way. It simply isn't human nature for a normal person to like the idea of becoming beholden to strangers.

Illustrating perhaps the typical European feeling was a recent comment by Siegfried Hymans, of Holland, who is touring the U. S. with a display of about 200 Dutch products which they would like to offer for sale to the world. But the Dutch lack the foreign exchange with which to buy raw materials. Hymans' mission is to try to improve that condition.

"Americans have been generous with money and gifts," he said. "But we want to earn our way. We don't like holding out our hands for charity."

Americans can believe Mr. Hymans was sincere because that is how they would feel if positions were reversed. Americans also can take some hope and comfort from such evidences that many Europeans are eager for the time when they can give value received for everything they get.

Down Memory Lane

(From the files of The Lubbock Morning Avalanche of June 11, 1928.)

Mrs. Vaughn Wilson entertained in honor of Miss Louise Magee at an announcement party. Guests included Misses Geraldine Henderson, Pearl Harrison, Evelyn Knipp, Julia Jennings, Marguerite Bennett, Frances Small, Sylva Wilson, Bill Poage, Frances Wilson, Marguerite Hussey, Billie Jones, Madeline Canova; Mesdames Conner Cole, Leslie Jennings, Pat Magee, J. H. Whiteside, L. E. Dabney of Indianapolis, J. M. Bennett; Messrs. Conner Cole, S. T. Cummings, and E. W. Provence.

• • •

Mrs. W. C. Bryan and Mrs. R. W. Heim entertained the Friday Needle club at the Bryan home, and after an afternoon of sewing, refreshments were served to Mesdames Fred Grayum, M. K. Foster, Louis Murfee, E. M. Worthy, F. K. Mitchell, W. A. Childers, J. A. Burrus, Albert Travis, Harry Hall, H. O. Waters, W. A. Clark of Corpus Christi, O. H. Westlake, R. A. Barclay, and R. W. Walker.

• • •

At Floydada Miss Audrey Mae Borum was hostess at a three-course luncheon honoring Miss Velma Deen, who was leaving to study music at Washington university, and Miss Mary Lottie Arwine, who was entering Texas Tech college. Covers were laid for Mrs. J. A. Arwine, Mrs. Clinton Duncan, Mrs. J. U. Borum, and the hostess and honor guests.

One-Minute Sermon

Let the words of my mouth, and the meditation of my heart, be acceptable in thy sight, O Lord, my strength, and my redeemer. Psalm 19:14.

Ozo Lowde, For Office

The Innocent Impostor

By RENEE SHANN
Distributed By NEA Service, Inc.

(THE STORY: Patience Mond goes to London three times a week to attend dressmaking school. It is the only freedom allowed her by the two old-fashioned aunts who have brought her up and with whom she lives in the country. On the commuting train she meets Paul Taylor, who lives in a neighboring village and who finds himself attracted to the prim young girl. They date secretly, fall in love. The aunts find out, force Patience to promise not to see Paul again. Heartbroken, she keeps her word. Charlotte, Patience's long-lost twin, turns up. She is now a stage star, soon to open in a London show. Appalled at the restricted life Patience has obviously led, Charlotte is determined to see that she gets some fun. She invites her to London for the day, dresses her smartly from her own wardrobe. Patience looks charming. Charlotte tells her they are lunching with Roger Dickson, popular actor; jokingly begs Patience not to take Roger away from her.)

• • •

XII

THE telephone bell rang at that moment. Charlotte picked up the receiver.

"Hello, who is that?"

"Miss Carlotta? Mr. Breeden's secretary here. Will you hold the line, please? Mr. Breeden wishes to speak to you."

Charlotte glanced back over her shoulder at Patience: "This is a call I've been waiting for for weeks. It's Dwight Breeden. He's head of G.R.P. You know, the big movie people. They're just starting up here in England. Hello, yes?"

"Miss Carlotta? Dwight Breeden here. We met at a cocktail party back in the States, remember?"

"Yes, of course. And you said you'd get in touch with me when I came to England."

"Sure I did. Well, I'm doing so now. Listen, I'm casting a new picture. I want a premiere danseuse. It's a big musical. How about our meeting for lunch today and talking things over?"

Charlotte hesitated. And asked herself angrily why her professional life need intrude on her private life just today of all days. Only this was a chance in a thousand. Swiftly she made up her mind.

"That'll be grand," she said. "I'd love to meet you."

"Twelve-thirty at the Savoy Grill suit you?"

"Yes, I'll be there." She replaced the receiver and swung around to Patience. "Sorry, darling, but I'm afraid you'll have to entertain Roger on your own. I'll leave a note for you to give him that'll explain things. It's fiendish bad luck, but when Dwight Breeden asks a girl to lunch, if she's any ambition at all she turns up with her boots blacked to see what's cooking."

• • •

PATIENCE looked at her sister in horror. She told herself she couldn't face it. Not lunch alone with some completely strange young man!

"Charlotte, I can't. Please—truly, I'd so much rather not. I'll be absolutely scared stiff."

"Don't be silly," Charlotte said briskly. "Of course you're going to lunch with Roger! And what's more, my pet, unless I'm very much mistaken, you're going to thoroughly enjoy it."

Patience swallowed hard.

"But he's expecting you to be there, too."

"That'll be all right. He'll see me this evening. We're dining together. Actually though I hope I'll be able to join up with you both at the matinee. He's got seats for the show at the Adelphi. I'll come right along there the moment Mr. Breeden has decided how much he's going to pay me."

Patience sighed. It looked as if she'd have to go through with it.

"And it's going to be quite a lot," went on Charlotte firmly, putting on a hat which Patience thought looked exactly like a bunch of flowers and arranging carefully the drift of filmy veiling. "Now I'll just write two lines to Roger."

She dashed them off at the writing-table and handed the envelope to Patience. She paused for a moment on her way to the door.

"Don't be frightened of Roger. He's quite harmless really. Don't scream for help if he tries to make a pass at you. Just tell him you're not that sort of a girl."

PATIENCE blinked. "Charlotte, he—he won't do that, surely?"

"Well, my sweet, he may try to hold your hand in the theater. That's usually his preliminary manuver."

"But if he's in love with you?" Charlotte laughed wryly.

"Darling, I very much fear that doesn't stop him making love to other girls. It's all right. Don't look so worried. Goodby for the time being. I'll see you at the theater."

She was gone, leaving a flurry of perfume behind her. Patience looked at the door and wondered whether she'd dash after her. At any rate whether she'd take the next lift down to the ground floor and walk quietly out of the hotel, never maybe to return to it. But if she did this Charlotte would think her such a little ninny. Besides she didn't really wan to. Or did she? She didn't quite know. She felt in a whirl. Life as lived by Charlotte was something quite new to her. Did a man, meeting a girl for the first time, want to hold her hand at a theatre? Supposing the girl didn't want her hand held? She certainly wasn't going to allow such a liberty.

The telephone bell rang and she almost jumped out of her skin. She picked up the receiver.

"Hello," she said.

"Hello, darling," said a man's voice. "I'm right here in the lounge waiting for you."

'I—I'll come down."

She replaced the receiver and picked up Charlotte's note and her bandbag. She walked along the corridor towards the lift wishing her knees didn't shake so absurdly.

(To Be Continued)

Looking At Life -- By Erich Brandeis

HERE is something I have never been able to understand about Americans.

Our whole history is based upon equality, disdain of class and caste differences, and the glory of the workman's dinner pail.

We paid a terrific price for freeing ourselves from kings and dukes and everything for which they stood.

Now we are free. Now the humblest street cleaner, theoretically at least, is just as good as the most high-born nobleman.

Now, here in America, "every man is a king," as Huey Long used to say, and as his brother, the new Governor of Louisiana, maintains at every picnic and clambake.

So what do we do?

We go crazy about every kind of phony nobility that comes to this country.

We make asses of ourselves over a lot of shabby ex-royalty, and we become suckers for every princeling and dukeling and countling who comes to our shores either to make propaganda for his restoration or to mooch on us, or both.

But more than that—

• • •

Did you read the interviews with the 32 Americans who were presented to the King and Queen of England at their recent party at Buckingham Palace?

Why, they were as excited as if they had won one of the grand prizes at the Irish sweepstakes or as if one of their dogs had won the "best of show" award at the Westminster Kennel show!

Most of the people presented to "Their Majesties" were intelligent people, people of achievement, of wealth, of social standing. (How ironical that sounds in a supposed-to-be democratic country!)

Yet, they curtsied and they kowtowed and they were almost speechless with delight and excitement.

"The King and Queen spoke to us," said one of the guests from America, "but I was so excited I couldn't remember what they said."

Another remarked to the reporter that, because the Queen unexpectedly shook hands with her and her daughter, she was "most impressed by the delightful informality."

How utterly ridiculous! And probably more ridiculous to the King and Queen than to anyone else.

Those two royal people are two plain, simple, rather scared human beings sitting on a shaky throne, playing their parts and playing them well.

I don't think that they are kidding themselves for a minute—and sometimes I wonder whether they don't envy all those people who curtsy to them, and wish that they were in their places.

• • •

THERE isn't really anything very serious about this American trait of royalty-worship.

It's no more serious than the tremendous interest we take in a movie star's fourth or fifth or sixth wedding to a millionaire who has also been married several times before, but who is absolutely, positively and definitely sure that this time it's for keeps.

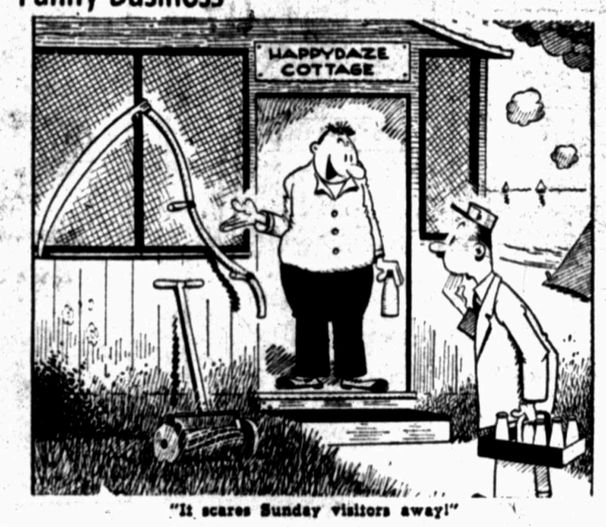

We haven't a whole lot of pomp and circumstance in our everyday lives, so all this stuff for which we fall so easily is something out of "Alice in Wonderland" or a fairy tale.

Some day, I think, we'll all grow up.

But I do hope that day is far away.

Childhood is so delightful.

Funny Business

"It scares Sunday visitors away!"

STUDY OF STALIN

War Aims Are Denied

By RAY TUCKER
Special Correspondent

WASHINGTON—A revealing study of Josef Stalin's character and his long-range program for Russia, including an analysis of his attitude toward the outcome of the capitalist-Communist clash and possible war with the United States, has been made by Rear Admiral Ellis M. Zacharias, wartime Deputy Chief of Naval Intelligence and a top expert in this field. It is almost required reading in government offices which must deal at arms' length with this "enigma inside a riddle."

Entitled "An Intelligence Report to President Truman" on "What Stalin Thinks," it appears in the current issue of the United Nations World magazine. Admiral Zacharias explains that he has tried to analyze Stalin "with the methods and techniques of the trained intelligence officer."

TUCKER

He bases his conclusions on "all the bona fide information available — biographies of both friend and foe, the subject's own writings, evidence gained from documents and interrogation of 'returning travelers'." He also consulted "several top-ranking diplomats with recent access to Stalin and the Kremlin."

His data checks accurately with other information on Stalin flowing into the White House, State, National Defense and other departments at the Capital. Inasmuch as our representatives in Russia have only rare contact with the Soviet dictator or his aides, these reports form our only guide to his immediate and future policies.

• • •

PACT: Admiral Zacharias does not believe that an immediate get-together of President Truman and Stalin would break the present impasse because tension is now too taut. But he favors an eventual personal conference with a well-prepared agenda of specific Russo-American difficulties. He also advocates a five-or-ten-year non-aggression pact, with the United Nations as the "supreme arbiter" in all disputes.

Stalin does not want or anticipate a war in the near future, according to the American intelligence officer. But he "is apprehensive of the United States today because he suspects us of aggressive intentions . . .

"Stalin tries to solve the dilemma in a manner that could bring a long stretch of peace to the world. He regards Communism as strong enough to develop in that part of the world which it has under unqualified control, and, therefore, the avoidance of war is a desirable goal as long as it does not involve a sacrifice of Russia's own vital interests . .

"Stalin will not launch aggression, if only because of his apprehension that the Soviet system might not survive another war—a fear he voiced in conversations with W. Averell Harriman."

• • •

DOOMED: Despite his great respect for the natural resources, the manpower and industrial strength the U. S. showed in World War II, he feels that western capitalism as we know it is "doomed" because of its own basic weakness. But he denies point-blank that he aims to cause or even accelerate what he regards as the "inevitable doom of the western world."

To several interviewers he described the idea that he was secretly plotting a world revolution as "cosmic, tragic, tragic-comic." To Walter Duranty he said:

"Institutions and systems are not changed by words; they are changed by natural causes."

He elaborated on this theme in a talk with Publisher Roy Howard:

"We Marxists believe that a revolution will also take place in other countries. But it will take place only when the revolutionaries in those other countries think it possible or necessary. The export of revolution is nonsense. Every country will make its own revolution if it wants to, and if it does not want to, there will be no revolution."

He earnestly believes, however, that the western capitalistic system, including our own cannot survive "one or two more wars."

• • •

OBSESSION: Stalin's "major preoccupation" today is the safety and security of Soviet territory from Berlin to Vladivostok. This haunting obsession underlies his aggressive postwar policies in Eastern Germany, Poland, Czechoslovakia, Mongolia and Korea—the very ones which have led to the present stalemate.

Poland, he recalls, has been the "historic corridor" for invasion of Russia from the west Next time, he figures, all Eastern Europe, the Balkans, the Scandinavian Peninsula or the Far East may become hostile gateways in a "pushbutton" war. So, he insists on strong buffer states sympathetic to Moscow between his homeland and possible enemies.

He compares his program in this respect to the Truman Doctrine in Turke, and Greece, and to the Marshall Plan in Western Europe. He is honest enough to admit that his territorial expansion "predated" our attempt to keep these nations out of his cluthes.

• • •

POLICIES: The need for understanding the man in the Kremlin, says Admiral Zacharias, is that "Stalin is Russia." He has no Cabinet, advisors or brain trust who decide major policies or actions for him. A former private secretary, Bayanov, is quoted to this effect:

"Stalin never takes part in a discussion until it is concluded. He is silent and listens attentively. Then, when all have spoken, he gets up and says a few words. And his view is always adopted."

• • •

SUCCESSOR: Although sixty-eight, Stalin is described as "a man of great though somewhat subdued vigor, which has not been impaired by the fatigue of the war years." He has a "slight heart ailment which his doctors diagnose as serious but by no means certain to be fatal." He takes extremely good care of his health.

He is determined to leave behind a "strong and consolidated state" and a "Communist Party firmly entrenched in domestic power and world leadership." Remembering his fierce struggle with Trotsky after Lenins death, he will probably arrange for a successor or successors who will be able to continue the Stalinist program of 'revolutionary socialism' without interruptions precipitated or necessitated by fighting first for recognition and their own personal power."

He is now writing a voluminous book as a guide to those who come after.

• • •

TREATMENT: G. H. of Charlotte, N. C., asks: "On what authority does the Naval Medical Center at Bethesda, Md., furnish Cordell Hull a suite, especially since he no longer is connected with the government?"

Answer: The President of the United States can certify a man for treatment, and in Mr. Hull's case the original certification was never withdrawn. To be technical about it, however, I imagine that the former Secretary of State could qualify as a veteran of the Spanish-American war.

The international outlook certainly keeps one on the look out.

Some of our political timber doesn't need conserving.

Modern parents must be well-informed, otherwise father couldn't answer Junior's questions.

Believe It Or Not-By Robert Ripley

LEADERS HAVE MADE MISTAKES

HST Hurt By Strife Among Demos

By THOMAS L. STOKES
Staff Correspondent

ABOAD PRESIDENT TRUMAN'S SPECIAL TRAIN—On his transcontinental tour in which President Truman is, in effect, making his first personal appearance before the people, he is somewhat like the new leading man who is making his debut under the merciless gaze of the critics.

So important for him and his political future has this journey over America been made that his every word and gesture is under closest scrutiny. It is duly described in feverishly written dispatches dropped off the train at every stop to make the next edition. In this dizzy panorama the complete picture can be lost in the fog of dots and dashes, since the incident of the moment may be overemphasized beyond its importance, including the blunders; and this trip has its quota like all such enterprises.

STOKES

It is possible now, after several days, to get some perspective.

• • •

Not Another FDR

Over-all, the impression is one of a friendly man visiting among friendly people. Everywhere along the route there has been this cordial relationship between the President and citizens of all sorts. Nowhere has anybody gone into anything like the frenzies of enthusiasm that, for instance, greeted the late Franklin D. Roosevelt at the peak of his career when he was the symbol of hope for a people suffering from depression. But the men are different and the times are different. Nobody now is looking for a deliverer, and Harry Truman would not fit such a role if they were. Being the sort of man he is, he would not even try it.

There was an incident early in the trip, widely publicized and discussed, that came at the strategically wrong time and served to color the whole adventure, and with an exaggerated dark hue. This was most dramatically exhibited by news photos showing 2,000 people huddled down in front of an auditorium at Omaha that holds 10,000 people and, in the background on the stage, the lonesome figure of the President making a speech. This was particularly disappointing to him because of the tremendous reception he had received all day long in the strongly Republican city. Explanations, some of them with substance, still did not erase the picture of such an audience for a President of the United States.

• • •

But this incident, of itself, served as a symbol and an explanation of something else that became more apparent as the trip progressed. In the Omaha incident, among other things, was political mismanagement, the failure of staff work all along the line. Filling a hall for a President of the U. S. should be elementary, no matter what the handicaps. This incident revealed initially the political ineptitude frequently displayed by the administration and, beyond that, as the facts came out, the back-biting and feuding in a local organization that is duplicated elsewhere. Like a disease, it infects the whole Democratic National organization and makes it weak and feeble, as of this time.

For Nebraska is not an isolated incident. There the party organization split involves personalities to some extent and also a conflict between progressives and conservatives. In Illinois the Chicago city machine is dissatisfied and straining at the leash. Boss Jake Arvey, Ed Kelly's successor as chairman of the Cook county Democratic committee, who is desirous of dumping President Truman as the party's nominee, apparently is still unappeased after the Truman visit and accompanying peace overtures.

In Idaho, likewise, there is a party split. This came out into the open in late April when one national committeeman, who is a Roosevelt New Dealer and was friendly with Senator Glenn Taylor, the Wallace Third-Party vice presidential candidate, was ousted to make way for a successor more pleasing to the regular organization. This feud still was at fever pitch during President Truman's visit to the state.

• • •

Local Leaders Mad

On this trip, the inter-party dissension is complicated by the insistence of the Truman contingent that this tour is "non-political." The upshot is that the state political leaders have not been given the part in making arrangements to which they think they are entitled and to which, of course, they are entitled.

This also is elementary in politics, and the White House tack here is another example of ineptness and mismanagement. Local political officials are supposed to do such things, and they take pride in doing them. It gives them a day in the sun, too.

Muddled U. S. Trade Relations May Hamper European Recovery

By J. M. ROBERTS, JR.
AP Foreign Affairs Analyst

Just as reports on spring business begin of indicate that Europe has passed 1938 production levels in the fight for economic recovery, United States trade relations have become so muddled as to threaten a general setback.

American aid and the promises of more have given European industry both the material and the confidence with which to go forward.

Trade Policy Is Uncertain

Uncertainty does not center entirely around the congressional threat to reduce the appropriation for the recovery program, nerve-wracking as that may be in European capitals.

U. S. reciprocal trade policy and the charter of the International Trade organization, which still needs congressional approval, are tied in directly with European plans for expanding exports and balancing their international payments.

One important American administrative issue which has received little attention from the standpoint of its impact on Europe is the matter of trade with the iron curtain countries.

Iron Curtain Problem

Ever since the eastern European countries became definitely identified as Russian satellites American trade with them has been drastically restricted, both for the purpose of giving priorities to our better friends and to avoid bolstering the strength of the S[illegible] the European recovery program definitely recognizes the necessity of trade between eastern and western Europe, and the policy has been going through a transition.

The Commerce department, charged with deciding what may be sold to Russia and the satellites, has been in a jam.

NEW CHURCH PLANNED

UVALDE, June 10 (AP)—The First Baptist church here voted last night to donate $10,000 for the erection of a new Baptist church in east Uvalde. The new church name will be Baptist Temple. The First church also voted to donate $100 per month for a year for the pastor's salary for the new church.

NET MENDERS—Women mend nets at Schevingen, Holland, in preparation for the departure of the herring fleet for the North Sea and eight weeks of fishing.

Elderly Baseball Coach Has Faith In Young Sluggers

RICHMOND, Va. June 10 (U.P.)—Each afternoon this baseball season the neighbors have watched an elderly gray-haired man pitch to a seven-year-old boy on the 4300 block, Old Brook Rd.

They predict that another Babe Ruth is in the making. But they feel sure, too, that practice on the lawn is nearing an end.

From dribbling grounders to pop flys to healthy whacks, the neighbors have watched the boy's batting eye improve.

One afternoon the youngster leaned into a fast one and poled a long fly that thudded against an opposite apartmen building a scant two inches beneath a window.

The neighbors with alarm overheard the elderly gentleman remark as he retrieved the ball:

"We'll get that doggone window yet."

MARKET HITS NEW HIGH

NEW YORK, June 10. (AP)—The stock market climbed to a new 21-month peak today with gains of fractions to around two points in the majority.

The market was not a one-way affair but losses were mostly fractional while gains were considerably larger.

A total of 1,700,000 shares changed hands, which compared with 1,870,000 Wednesday.

The Associated Press average of 60 stocks climbed .2 of one point to 71.7, a peak since August, 1946, and the second day in a row that a new high was established.

Numerous new highs for the year were hit although closing prices in some cases were below the day's best levels. Among them were Lockheed at 23¾, Grumman Aircraft 45⅝, Chrysler 65 (unchanged on day), Republic Steel 31⅜, Youngstown Sheet 85, Radio Corp. 13⅛, American Telephone 154⅛ (unchanged), Southern Railway 49¼, Standard Oil (NY) 87⅛, Gulf Oil 78⅝, Richfield Oil 33⅛.

Grain

CHICAGO REPORT

CHICAGO, June 10. (AP)—A pick up in domestic flour business gave support to wheat on the board of trade today. The bread cereal also was helped by mounting opposition to the House action in cutting funds for foreign relief.

Corn was mostly steady. Oats tended to lag behind other grains.

Wheat ended ⅝ lower to ½ higher, July $2.39½-⅝, corn was 1 cent lower to ⅝ higher, July $2.18⅜-½, oats were ⅛ lower to ⅛ higher, July 93½-⅝, and soybeans were unchanged, July $4.26.

FORT WORTH REPORT

FORT WORTH, June 10. (AP)—Wheat No. 1 hard 2.39½-43½.
Oats No. 2 white 1.31½-34½.
Corn No. 2 white 2.81¼-82¼.
Sorghums No. 2 yellow milo per 100 lbs. 3.80-85.

Produce

CHICAGO REPORT

CHICAGO, June 10. (U.P.)—Produce: Poultry: 23 trucks, chickens weak, hens steady, colored fryers 41, white rock fryers 45, Plymouth Rock broilers 38, White Rock broilers 38, colored broilers 38.

Butter: 674,316 pounds, the market nervous, 93 score 81, 92 score 80, 90 score 78½, carlots 90 score 77, 89 score 75½.

Eggs: (Browns and whites mixed) 29, 847 cases, the market steady. Extras 70-60 per cent A 46-47, extras 60-70 per cent A 44 to 45, standards 41 to 42½, current receipts 40, checks 36.

At A Glance

NEW YORK, June 10. (AP)—
STOCKS — Firm; rails in front.

Sheep 5000; active, spring lambs strong to 50 higher; other killing classes unchanged; good to choice truck in native spring lambs to shippers 33.00, a new all time record high; good and choice offerings 32.50-33.00; medium and good consignments 27.50-31.50; good and choice clipped lambs with No. 1 and No. 2 skins 25.50; medium and good shipments 24.00-25.00; good and choice slaughter ewes 11.00.

Fort Worth Electric Firm Asks Customers To Cut Power Use

FORT WORTH, June 10 (AP) — Unseasonably hot weather with its accompanying peak load on electric power facilities caused Texas Electric Service company to appeal today to heavy industrial power users to curtail their electricity by next Monday.

"We're not pulling any switches, except as a last resort", J. B. Thomas, president of the electric company explained, pointing out that the reduction will be entirely voluntary.

One immediate effect was the announcement by R. G. Mayer, division manager of the Consolidated Vultee plant, that it will be closed Monday and its almost 12,000 workers need not report for work. The plant normally is closed Saturday and Sunday except for special work details.

Pipeline companies in West Texas and larger air conditioning customers in Fort Worth were included in the list of those asked to restrict their power use. Texas Steel company announced a 50 per cent curtailment for Monday, affecting 250 employes.

WAS WHERE HE CAME IN

ORRS ISLAND, Me. (U.P.)—Edwin E. Chas decided to become a lobster fisherman again after 27 years in the grocery business. When he applied for a new license, the state fisheries department issued him No. 3011 — the same number he held when he stopped fishing in 1921.

TRUCE OBSERVERS LEAVE FOR PALESTINE—Headed by Capt. Solomon David Willingham, second from left front, of Portland, Ore., a group of Navy and Marine officers boards a military transport plane in Washington for Palestine to serve as truce observers with 14 other U. S. officers. In the group are: Front, left to right, Marine Maj. Roy D. Miller of Cincinnati, Capt. Willingham, Capt. Daniel Thomas Eddy, Honolulu, Hawaii; Comdr. Harold D. Huxley, San Francisco; Comdr. Carson Hawkins, Reno, Nev.; Rear, left to right, Marine Maj. Regan Fuller of Washington, and Lt. Vladimir L. Rychly of Cicero, Ill. (AP Wirephoto).

Truman In Comeback

(Continued From Page One)

popular favor, with the public registering support of his strong stand against John L. Lewis and of the Truman Doctrine to check Russian expansion. In March, 1947, 60 per cent approved his record.

In subsequent months however, another decline set in as Truman was confronted with the Palestine question and his civil rights message ruffled Southern voters. By mid-April this year the Truman popularity temperature again had declined almost to the freezing point.

The current level of Truman's popularity with the general voting public is in strong contrast to his standing among Democratic voters as the party's candidate in November. A poll earlier this month showed him far out in the lead as the favorite nominee, with three out of four rank and file party members supporting him.

Presidential popularity is based on the answers to thousands of respresentative voters to the following question:

"Do you approve or disapprove of the way Truman is handling his job as President?"

The violent fluctuations in Truman's case are shown in the following table:

	Approve	Disapprove	No opin.
July, 1945	87%	3%	10%
Oct., 1946	32	53	15
Mar., 1947	60	23	17
Oct., 1947	55	29	16
April, 1948	36	50	14
TODAY	39	47	14

Approval of the president today is strongest among manual workers, veterans and farmers. Fifty-five per cent of Democrats register approval, compared with 35 per cent of independent voters and 28 per cent of Republicans.

Geographically, his greatest strength lies in the West Central section, but in terms of the increase over last April the Southern states show the most marked improvement. The following table gives the proportion of voters in each section of the country approving Truman today compared with April:

GEOGRAPHICAL SECTIONS

	TODAY	April
N. Eng. & M. Atl.	37%	35%
East Cent.	38	33
West Cent.	44	32
South	39	30
West	38	39

Figures on presidential popularity are not a prediction of the proportion of voters who would cast their ballots for Truman if he is nominated. A great many Democratic voters who say they do not like the way he is handling the presidency probably would not desert their party in November. On that score, much would depend on the Republican nominated to oppose Truman and events between now and election day.

NOT THE SAME SMELL

PALMER, Mass. (U.P.)— A 73-year-old retired restaurant owner tried to explain away a drunken driving charge in district court by saying it was garlic and not alchol a state trooper smelled on his breath. It didn't work. He was fined $50.

Shriners May Move Headquarters Offices

ATLANTIC CITY, N. J., June 10 (AP)—The imperial council of the ancient Arabic order, nobles of the mystic Shrine today approved a resolution that would move the Shriners' headquarters from Richmond, Va., to Chicago.

The resolution was passed at the closing secret session of the Shriners' 74th annual convention. A spokesman said the council did not authorize the move from Richmond to Chicago, but by the resolution expressed approval of such a change for centralization purposes. The Shriners' headquarters has been in Richmond for 74 years.

The spokesman said the resolution set Jan. 1, 1949, as a tentative date for opening offices in Chicago.

Galloway Calhoun, Tyler, Texas, newly installed imperial potentiate, accepted an invitation from Mayor William O'Dwyer to be present for ceremonies marking the 50th anniversary of greater New York this Saturday.

The council considered a number of cities for next year's convention, but left final decision to Calhoun, the spokesman said.

A Bible printed by the Clearendon Press, Oxford, in 1717, is known as the "vinegar Bible" because Luke xxii is headed Parable of the Vinegar (Vineyard)."

Texas Industrial Area Plagued By Major School Controversies

By J. CULLEN BROWNING
Associated Press Staff Writer

ORANGE, June 10—Down in the extreme southeast corner of Texas in a triangular district roughly 25 miles on each side and cornered by the cities of Beaumont, Port Arthur and Orange an industrial empire is being created.

From a pre-war start as the nation's biggest oil refining center, the area has become through conversion of war plants and the addition of new industries ranging in size from one-man hole-in-the-wall shops to multi-million dollar chemical plants, one of the brightest spots on the nation's industrial map.

Problems Are Created

This mushroom growth has created problems aplenty but none come close to matching in magnitude or severity that of the area's public schools. There has developed in the district a continuing series of school controversies, tax problems, student strikes and trustee rows so widespread as to be termed by one of its editors in a recent radio commentary "an area-wide disease with its roots deep in the social structure."

He suggested the organization of an area-wide committee of interested parents, taxpayers and educators, to study these problems on a regional basis and work out an overall solution.

Many Incidents Cited

Behind the editor's suggestion lay these incidents over a period of a few months, all originating in a radius of 25 miles.

1. A student strike at the Bancroft school in suburban Orange which began April 23 and continued until the term ended May 14. This walkout apparently set a new record for longevity for a situation of its kind and was termed by the principal, Miss Inez Wallace, as really a strike of parents. It is slated to wind up in the courts during the summer months.

2. An intra-community controversary in the Bridge City school district, eight miles south of Orange, which came up in the district court here May 14 with a hearing on an injunction suit seeking to restrain the board of trustees from holding an election May 22 on the question of restoring the district to independent status.

Election Claimed Illegal

The injunction petition, filed by John O. Young, Orange attorney on behalf of a Citizens committee at Bridge City, contends that the election would not be legal because it comes within one year from another March 20, 1948, at which the voters decided to revert from independent to common school status.

District Judge F. W. Hustmyre declined to enjoin the election, saying it was a "political right not to be denied by injunction." Young gave notice of appeal.

3. A controversy in the Port Neches independent district, 20 miles southwest of Orange, which wound up with an unique public hearing conducted in Austin by State Superintendent L. A. Woods. This arose when members of a previous board of trustees terminated its contract with Supt. C. L. Yarbrough two years in advance of its expiration date. A short student strike ensued.

Woods Makes Ruling

Following several days of testimony at the Austin hearing, Woods ordered the Port Neches trustee and Yarbrough to resign and the superintendent paid off for the remainder of his contract. A new board was to be elected. If it rehired Yarbrough he was to return the money paid for the unused portion of his contract, otherwise the superintendent was to keep about $10,000 paid him on his resignation.

The new trustees re-employed Yarbrough, the money was paid back and outwardly the district has returned to normal.

4. An overcrowded situation in the Port Arthur independent district, 18 miles south of Orange, which is complicated by an intra-faculty squabble recently aired in a public hearing. This district late last year voted a $3,500,000 bond issue for extension of its schools. During the campaign there was some controversy as to locations which still bobs up now and then.

Faculty Row Starts

The faculty row started several weeks ago when the board of trustees honored a request by Supt. K. T. Fortescue, who had the backing of a group of patrons, not to renew the contract of John Tomlin, athletic director and football coach. Tomlin asked for a public hearing, gathered around him his supporters, and the two groups spent several hours one night airing the pros and cons of the difficulty.

In the end the board reversed itself and renewed Tomlin's contract with a raise in pay.

5. The passage recently with some opposition of a $3,000,000 school improvement bond issue in the City of Beaumont, 25 miles west of Orange, this campaign was featured by full-page ads made up mostly of pictures of fallen plaster on teachers' desks, outmoded plumbing and electrical installations, tumbledown buildings, etc., all headed "These Are Our Schools".

Consolidation Proposed

Now a movement is afoot for consolidation of the French and possibly South Park independent districts in suburban Beaumont with the city system. An election on the latter is being planned for June 30 and indications are either proposal will meet with opposition, particularly those in the smaller districts who fear they are about to be swallowed up.

6. Another controversy at Vidor, 15 miles west of Orange, where an attempt is being made to convert the district from its position as a rural high school area, largest of its kind in Texas, to independent status. This squabble threatened to reach the courts last January following an election on the question in the district. The election was held in a snow storm and the officials at one polling place failed to open the voting box because of the cold.

The proposition to convert Vidor to independent status was defeated by a margin of 14 votes and its backers protested the election because the box failed to open. Both sides got together, however, and appointed a Vidor resident, O. Woodrow Wilson, young assistant Orange county attorney, to arbitrate the dispute. He worked out a compromise whereunder a new election would be held. It was called for May 29.

Airplanes To Search For Iron Formations

MINNEAPOLIS, June 10 (U.P.)—A treasure hunt covering 10,000 square miles is under way in Minnesota.

It is an aerial search for new iron formations which may lie under glacial drift in the northern part of the state. The instrument used is an airborne magnetometer, called a "doodlebug."

University of Minnesota geologists say the magnetic approach to the problem of discovering hidden ore is not new except in type and methods of using the instruments.

The "doodlebug," a machine similar to a device used in the war to find submerged submarines, hangs on a long cable from an airplane. Even if no ore is found, the geologists say, Minnesota's nature will be much better known after the survey.

Temperatures varied 112 degrees in Nebraska during March, 1948, ranging from 32 below zero to 80 above.

SUCCESS AFTER 31 YEARS—William H. Whittemore, 50 (above), veteran of both world wars, graduates from Cornell University—31 years after he began his studies. Whittemore, displaying the V-for-victory sign, originally entered Cornell in 1917, but two wars and financial difficulties caused him to forego completion of his studies until recently. (AP Wirephoto).

WIGGLE THOSE TOES, GIRLS

CHICAGO (U.P.)—Dr. O. N Woolman, a chiropodist, says women should buy stockings a half-size larger than their foot size to prevent foot trouble. Seven out of ten women wear stockings too small for them, he finds. He said they should be able to wiggle their toes freely.

German Believes His Country To Remain Divided In Future

SANTA BARBARA, Cal. June 10, (U.P.)—Germany's future is as a divided country with one part absorbed in the Russian sphere and the other tied to the western culture.

That is the conviction of Henry Gustav Dittmar, former German writer, newspaper correspondent and a student of history, who came to America last month and is staying at Ojai near here.

Eastern Germany, he said, always has looked to the east and western Germany to the west.

Dittmar, 35, was born in Cologne, and son of a German diplomat and an American mother.

He feels that the Russians have done a far better job of rehabilitation in their zone of Germany because they have followed a carefully laid plan and have obtained good results. The Germans know how they stand with the Russians and what to expect, he said.

Dittmar thinks the shifting American policy has the Germans in that area completely confused.

Noise-Making Device Lures Fish, Carolina Man Claims

GREENWOOD, S. C., June 10 (U.P.)—The day may come when a fisherman will remark to his companion, "you'd better change the record, the bass aren't hitting that one."

If it does, the credit would go to Alex Woodie, Greenwood's fishing jeweler, who has developed a noise-making lure that has proved popular with the local fish and fishermen.

Woodie has long worked on the theory that fish were attracted by certain noises. He made experiments in which he tried to incorporate noise-making qualities into his baits.

One of his first efforts contained the works of a watch. It caught fish, but it proved too expensive and too disposed to break down.

Now he has devised a hollow metal box that amplifies the sound of turning propellors on the bait. He calls it the scooterpooper. It makes a distinct whirring sound as it is retrieved, attracting all the bass within hearing distance.
