

The Gay Philosopher

By J. W. S.

THURSDAY IS a special trade day at Cisco stores. There will be bargains galore for the bargain hunters. And one and all are invited to tour the stores and look over the bargains. This will be a regular feature in the future—the second and fourth Thursdays of each month.

MET UP WITH Mr. J. E. Doty the other day. He and Mrs. Doty have just moved back to Cisco to their home on 15th Street after an absence of some 10 years. They formerly lived here and when he retired from the Texas Company, they came back here to live. And Cisco is proud to have them back.

A LADY CALLS to suggest that something ought to be done about people who let their dogs run loose. She says that stray dogs have recently killed four of her chickens and they play havoc regularly with her flower beds. She doesn't believe in killing other people's dogs, but she thinks other people's dogs ought to stay home. And we believe she has a good argument.

THEY'RE GETTING set for another big family night buffet supper party at the Cisco Country Club this Thursday night. And all members are supposed to bring their families and something good to eat. After supper, there will be a game hour.

COMES A POSTCARD from Mayor G. C. Rosenthal. He was in Ontario, Canada, on July 7 and writes that it's a nice country and they're enjoying the trip. "But," he adds, "I prefer Cisco."

NEW CITIZENS in town this week will be the Robert Clintons. He's chairman of the music department and will be on a full time basis this fall. They're moving from Eastland, where they've sold their home. Understand they are buying one here.

A splendid musician, Robert has been many friends here since joining the faculty at CJC. He has been choir director at the First Methodist Church in Eastland. Having scouted his golf playing in the recent Eastland Golf Tournament, we hereby challenge him to play us and Zan Burroughs.

MR. GEORGE FEE went up yesterday to visit Ernest Sneed, the former local Lee Star production manager, and get a first-hand report on the new oil field. And George's report is that the field is of considerable magnitude. He enjoyed the tour.

DROPPED BY the Shy Osborn homestead the other night. And a more attractive flower garden he never saw. Mrs. O. has flowers of all colors, sizes and shapes—names we never heard before. And Shy keeps the lawn in splendid shape. He has a workshop any man would be proud of.

AN OSBORN hobby is making pictures of native flowers, as well as garden flowers, and having them fixed up in color slides. He showed us a bunch of them. They are beautiful. He also showed some color slides made on a trip to Colorado and the trout fishing country.

Another Osborn hobby is guns. He's a rifle club member and has a couple of fine rifles. He must have a dozen pistols of one kind or another. He takes walnut wood and makes his own gun stocks—and does a wonderful job.

Water Minimum Upped By Council

The monthly water billing minimum will be raised from 5,000 to 10,000 gallons for the period from July 15 to September 15 to allow homeowners to water their yards and gardens, according to action taken at a meeting of the City Council here Tuesday night.

The minimum billing provides 5,000 gallons for \$2 and 10,000 gallons will be billed at \$2 during the two-month period.

The council voted to do away with the practice of allowing a small discount for payment of bills before the 15th of the month.

TO LEAD ISRAEL ORCHESTRA IN U.S.—After a four-month tour of Europe, Doctor and Mrs. Serge Koussevitsky flew back to the U.S., landing at a New York airport. Dr. Koussevitsky announced that he and Leonard Bernstein will conduct the Israel Philharmonic Orchestra in most of the concerts of its American tour next winter under the sponsorship of the American Fund for Israel Institutions.

1,920 SCHOOL DISTRICTS ARE CONSOLIDATED DURING YEAR

AUSTIN, July 12 — Consolidation of 1,920 school districts the first year Texas' new education laws were in effect has resulted in larger school units and a better school program, J. W. Edgar, state commissioner of education, declared here today.

Consolidations have made possible better building equipment and facilities, teachers giving instruction in fewer subjects and a vastly broadened program of vocational agriculture, trades and industries, and home economic instruction, which means better schools for Texas children, Edgar pointed out. The total number of school districts dropped from 4,412 in 1949-50 to 2,492 operating districts last school year. A total of 1,300 of these consolidations were mandatory under new school laws.

Six hundred and twenty school districts, however, voluntarily merged with other districts, Edgar said.

Edgar also predicted that consolidations for the 1950-51 school year would total an additional 400 to bring the total number in the state down to approximately 2,000. Most of the smaller schools in the state could not afford adequate library and laboratory facilities, or equipment and teachers for vocational agriculture, trades and industries, and home economic courses, Edgar said.

"While there has been commendable increases in library and lab facilities, there has been a tremendous expansion in the vocational departments," Dr. Edgar declared.

"Vocational departments increased slightly more than 500 during the past year, making a total of 2,087 in the state," the commissioner announced. "The trend indicates that an additional 400 school districts will offer courses in agriculture, home economics and trades and industries during the 1950-51 school year."

"With Texas being an agricultural state and gaining rapidly in the world of industry, we on the state level of education certainly encourage our school districts to offer a diversity of courses to train their students to lead Texas in advances in agriculture, home building and trades and industries."

"The Navy needs additional male officers and enlisted men," the Admiral said. "Primarily it needs them for fleet and overseas duty."

The Navy requires a minimum of six months active duty from those who volunteer. Twelve months of active duty will be guaranteed to those who desire it.

Male officers should submit requests for active duty directly to the Bureau of Personnel (Section Pers. B11) Navy Dept., Washington 25, D. C. The Bureau of Personnel will issue all orders to officers. Aviation officers should include flight time and types of plane flown during the past year in their applications.

Enlisted men are to volunteer at their nearest naval recruiting station. There are 51 naval recruiting stations in these five states, 45 of these being sub-stations.

Those who volunteer at recruiting stations will be transported to Main Recruiting Stations for final determination of eligibility for active duty. All those finally accepted will be given active duty orders immediately and sent on to receiving stations for further assignment.

All enlisted applicants must be physically qualified for unlimited active duty and have at least one year remaining in their current naval reserve enlistment.

Exams Planned To Fill U. S. Jobs

Examinations were announced today by the U. S. Civil Service Commission for occupational therapist, physical therapist, and pharmacist, \$3,100 to \$4,600 a year, and warehouse examiner (cotton), \$3,100 and \$3,325 a year.

The warehouse examiner (cotton) positions are in the Production and Marketing Administration of the Department of Agriculture and are located in the cotton-producing territory throughout the U. S. All of the other positions are in hospitals and regional offices of the VA throughout the U. S. and in Puerto Rico.

To qualify for occupational therapist positions, applicants must be graduates of approved schools of occupational therapy or physical therapy. In addition for jobs paying \$3,325 and \$4,600 a year, they must have had appropriate professional experience. No written test will be given.

Applicants for pharmacist positions must have completed a 4-year course in pharmacy and have a bachelor's degree from an approved school; or they must have a master's, doctor of philosophy, or doctor of science degree with a major in pharmacy from an approved school. All applicants must be currently registered as a pharmacist in one of the states or territories of the U. S., or in the District of Columbia.

For positions paying \$4,600 a year, they must also have had two years of professional experience in pharmacy. No written test is required.

Applicants for warehouse examiner (cotton) positions must have had three or four years, depending on the level of the position for which they apply, of experience as cotton warehouse examiner in connection with the administration of the U. S. Warehousing Act or other responsible experience connected with cotton warehousing. Appropriate education above high school level may be substituted for experience at the rate of one year of education for 9 months of experience. No written test is required.

The age limits for all these positions, 18 to 62 years, will be waived for persons entitled to veteran preference.

Applications for the occupational therapist, physical therapist and pharmacist examinations must be filed with the executive secretary, Committee of Expert Examiners, Veterans Administration, Washington 25, D. C. They will be accepted until further notice. Applicants for the warehouse examiner test must be filed not later than August 8, with the U. S. Civil Service Commission, Washington 25, D. C.

Full information and application forms may be obtained from the Commission's local secretary, Sam B. King, located at the Cisco post office.

City Seeks Solution For Hatchery Water Problem

Neil Day Seeks Re-Election To County Tax Post

Neil Day, candidate for re-election as Tax Assessor and Collector, today issued the following statement in connection with his campaign:

"In announcing my candidacy for re-election to the office of Tax Assessor and Collector, I do so with the knowledge that this is one of the most important offices in Eastland County.

"This office has the responsibility of assessing and collecting your taxes and in this manner secures the necessary money for the operation of your county government."

"For those of you who do not know me personally, I was born and reared in Eastland County. 43 years of age, married to the former Miss Jane Angstadt, am a member of the First Christian Church of Eastland, father of four girls and two boys, served with the U. S. Navy in World War II, member of American Legion Post No. 70 and V. F. W. Post No. 4136.

"Since I have been your Tax Assessor and Collector, expenses and costs of government have increased considerably, but your county tax rate of .60c per hundred dollars value has been maintained and this rate compares with the adjoining counties as follows: Erath County, .74c; Palo Pinto, .95c; Callahan, .80c; Brown, \$1.00; Stephens, \$1.10; and Comanche, .85c.

"While serving as your Tax Assessor and Collector, the tax valuation of Eastland County has been raised from approximately \$19 million to \$24 million. This has been accomplished by raising value on property carried too low, lowering value on property carried too high, and by placing value on new improvements of old property."

"I became your Tax Assessor and Collector about one year and three months after Eastland County's Junior College's Wranglers moved into top position of the Inter-City Softball League at Gustine Tuesday night when they won a 2-1 decision over that team after 11 innings of play."

This was the game the Wranglers had to have, and the fine Gustine team appeared unable to stop them. Eldon Callerman started as pitcher for the Wranglers and he did a splendid job for three innings, pitching hitless ball.

Two infield errors allowed Gustine to score their only run in the second inning — the Wranglers had already scored — and the game was tied up until the first of the 11th inning.

Lonnie Crosby relieved Callerman in the fourth and pitched the remainder of the game. Crosby pitched the eight innings with his arm in a cast, having suffered an injury in the Albany game last week.

The Wranglers collected six hits off "Sudden" Suddeth, the pride and joy of Gustine fans and team. Most of the game was just three up and three down. Howard Turner was the big gun at bat for Cisco, collecting four of the six hits.

Roy Cozart was a fielding star. His expert ball handling saved the Wranglers on several occasions, and his work on the last play of the game saved the victory. He knocked down a hot grounder and threw the man out, with

prospects for Cisco to become a packing center for No. 1 eggs were studied by directors of the Chamber of Commerce at their semi-monthly business meeting on Tuesday night.

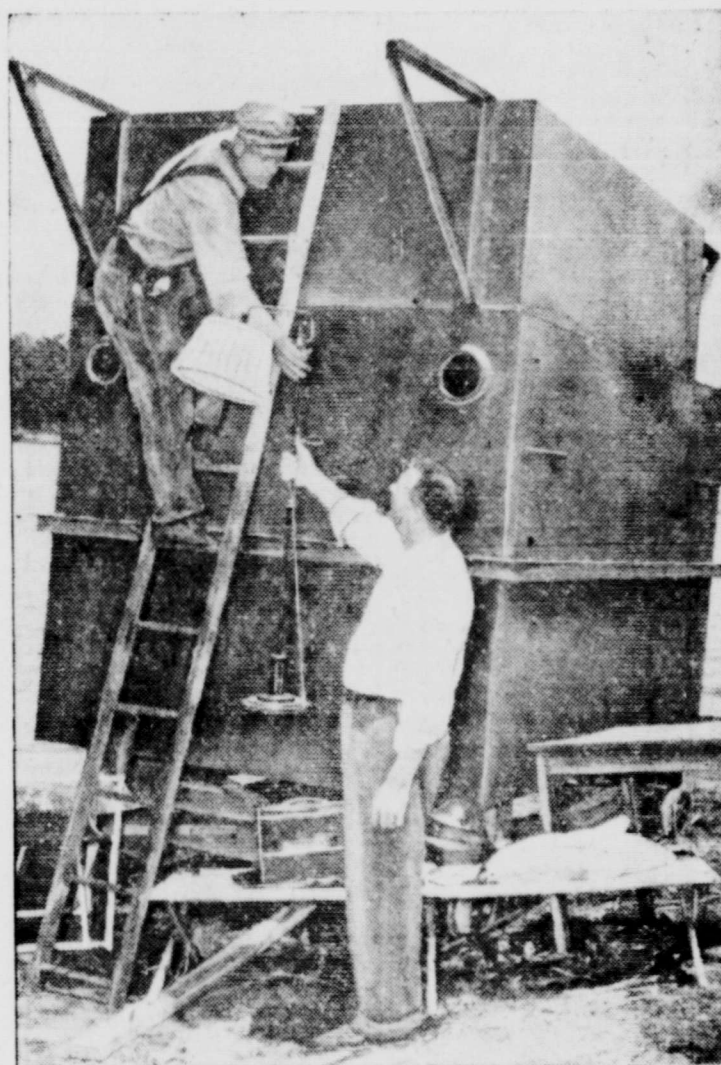

Manager B. A. Butler told the board of an offer of a large company to buy at premium prices some 500 cases of No. 1 eggs weekly in this area. He said that poultrymen have expressed considerable interest in the proposition.

The Chamber of Commerce, in helping prepare for the egg market, was studying the possibility of holding a school here for poultrymen interested in improving their flocks and taking steps to produce No. 1 eggs.

The board heard a report from Mr. Butler and J. J. Calloway who conferred with Resident Highway Engineer Leo Ellinger of Brownwood Tuesday relative to improvements for the road to the Cisco Hydrocarbon Corporation plant.

It was announced that construction is expected to begin in a month or six weeks on a modern signal device for the 6th Street railroad crossing.

Turn To Page Four

GOING HOUSEKEEPING IN THE LAKE—Paul D. Abbot, 27, veteran and father of three, has decided to take up housekeeping on the bottom of Shafer Lake, near Monticello, Ind. Abbot will stay submerged in his steel and glass tank as a protest to Congress for the removal of hidden and excise taxes. Here Abbot, on ladder, is being helped by an unidentified friend with some household furnishings in preparation for his dive.

WRANGLERS WHIP GUSTINE AND ADVANCE TO TOP OF LEAGUE

Cisco Junior College's Wranglers moved into top position of the Inter-City Softball League at Gustine Tuesday night when they won a 2-1 decision over that team after 11 innings of play.

This was the game the Wranglers had to have, and the fine Gustine team appeared unable to stop them. Eldon Callerman started as pitcher for the Wranglers and he did a splendid job for three innings, pitching hitless ball.

Two infield errors allowed Gustine to score their only run in the second inning — the Wranglers had already scored — and the game was tied up until the first of the 11th inning.

Lonnie Crosby relieved Callerman in the fourth and pitched the remainder of the game. Crosby pitched the eight innings with his arm in a cast, having suffered an injury in the Albany game last week.

The Wranglers collected six hits off "Sudden" Suddeth, the pride and joy of Gustine fans and team. Most of the game was just three up and three down. Howard Turner was the big gun at bat for Cisco, collecting four of the six hits.

Roy Cozart was a fielding star. His expert ball handling saved the Wranglers on several occasions, and his work on the last play of the game saved the victory. He knocked down a hot grounder and threw the man out, with

prospects for Cisco to become a packing center for No. 1 eggs were studied by directors of the Chamber of Commerce at their semi-monthly business meeting on Tuesday night.

Manager B. A. Butler told the board of an offer of a large company to buy at premium prices some 500 cases of No. 1 eggs weekly in this area. He said that poultrymen have expressed considerable interest in the proposition.

The Chamber of Commerce, in helping prepare for the egg market, was studying the possibility of holding a school here for poultrymen interested in improving their flocks and taking steps to produce No. 1 eggs.

The board heard a report from Mr. Butler and J. J. Calloway who conferred with Resident Highway Engineer Leo Ellinger of Brownwood Tuesday relative to improvements for the road to the Cisco Hydrocarbon Corporation plant.

It was announced that construction is expected to begin in a month or six weeks on a modern signal device for the 6th Street railroad crossing.

Resolution Says Water to Be Cut Off in 60 Days

Water lines from Lake Cisco to the State Fish Hatchery will be cut off on September 15 unless a solution to the city's water problems has been found, according to a resolution passed Tuesday night by the City Council.

At the same time, the city took steps to solve the water problem, according to Mayor Pro Tem Don Rupe, who presided at the meeting in the absence of Mayor G. C. Rosenthal.

The city ordered an engineering survey to determine the possibilities of building a settling basin and pumping water from Battle Creek to the Lake Cisco reservoir. County Surveyor T. H. Landor, will be in charge of the survey, and engineers for the M-K-T Railroad were asked for the use of contour maps of the area in the study.

City officials said that an engineer from the State Game, Fish and Oyster Commission was here Tuesday for conferences in connection with the water problem. It was understood that the commission, reluctant to close the hatchery because it represents a large investment, probably would cooperate in financing an engineering survey on the Battle Creek proposition.

Battle Creek, located some six miles north of the lake, has been running for three months and always runs considerable water after a rain. It has a large watershed.

The fish hatchery uses something over 1,000,000 gallons of water a day, city officials said. They pointed out that Cisco was taking the step as a water conservation measure. "We wouldn't hate to lose the hatchery and we sincerely hope something can be worked out," Mr. Rupe said.

Methodist Drive On Unified Budget Near Completion

The First Methodist board of stewards met Monday evening at the church to review progress on the unified budget drive for 1950-51. Finance Chairman Dr. E. E. Addy, Jr., lauded the stewards on their success in contacting every church member for pledges of financial support of the various church expenses. More than half the campaign goal had been achieved, he reported.

Preceding the business session of the stewards' meeting, a chicken barbecue dinner was served by Rev. E. H. Lightfoot, pastor of the church. District Superintendent Rev. Leslie Seymour was a guest at the dinner. He and Rev. Lightfoot made short talks.

The budget drive is expected to be concluded successfully when the board meets again next Monday at 8 p. m. at the church. This year's unified budget plan is a change from previous methods of raising church funds.

Formerly, a solicitation was made for each different need for funds. It is believed that the one drive for all 1950-51 financial needs will suit the church membership better than the old method, Dr. Addy said. He added that every church need is expected to be met by this means except the Christmas offering to the orphans' home.

Airport Offered For Defense Use

A resolution offering the use of the City Airport and any other facilities here in any phase of national defense was passed by the City Council at its semi-monthly meeting Tuesday night, Mayor Pro Tem Don Rupe reported today.

Copies of the resolution will be forwarded to the Secretary of Defense and to Texas congressmen.

Pence Reunion Here Brings Cousins Together for First Time in 57 Years

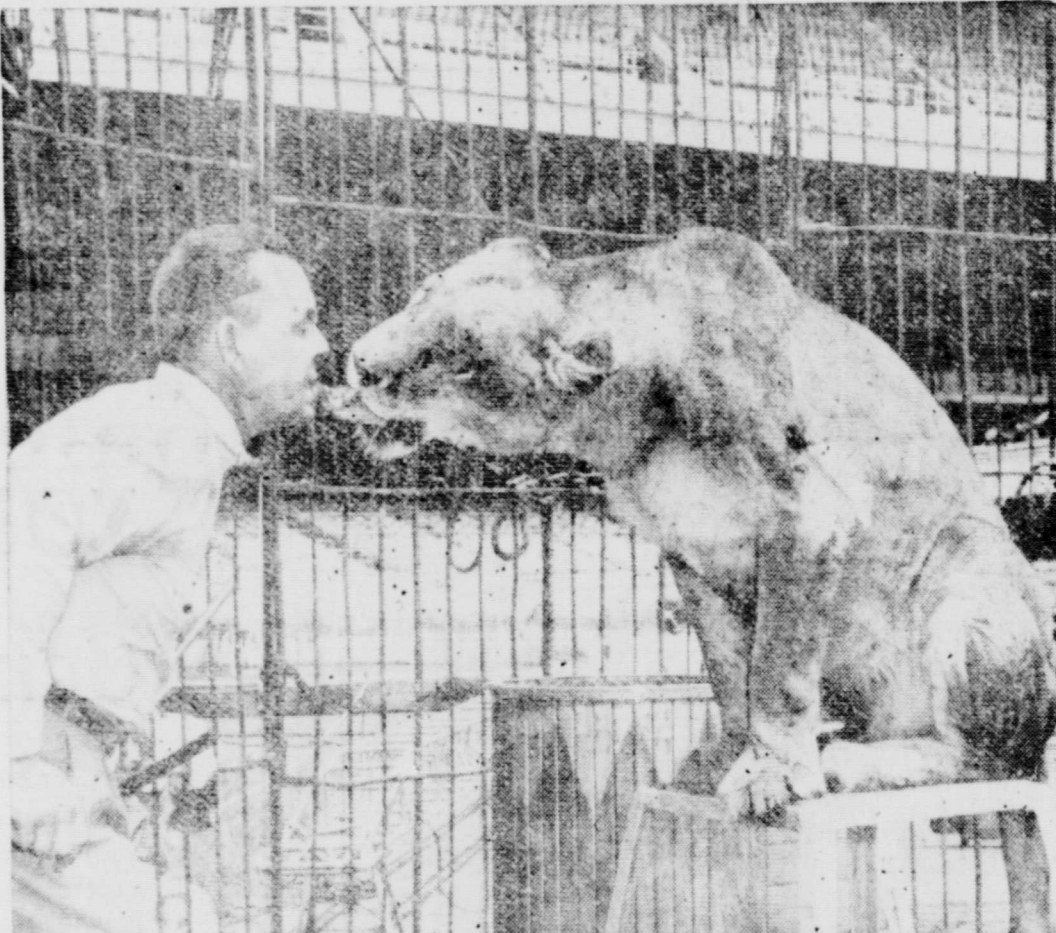

The Pence reunion held at Lake Cisco last week was a big success and it brought together first cousins who had not seen each other for 57 years.

W. L. Pence of Burleson, Tenn., is a first cousin of J. M. Pence of Cisco.

Relatives came from five states to attend. Those attending were: Mr. and Mrs. W. L. Pence, Paul Baskin and Miss Glenda Fay Baskin, all of Burleson, Tenn.; Miss Virginia Pence and Miss Peggy Nelson of Fletcher, Okla.; Mrs. Frank Laux and daughter of Indianapolis, Ind.; Mr. and Mrs. Henry Wink and Wanda of Jalisco, New Mexico.

Mrs. L. B. Miller of Midland; Mr. and Mrs. J. L. McClain, Mrs. Carl Herod, Mr. and Mrs. Roe Ranson of Snyder; Mr. and Mrs. O. C. McDermott and Alice, Colorado City; Mr. and Mrs. Cecil Barnhill of Pampa; Mr. and Mrs. C. C. McFadden of Gorman.

Mr. and Mrs. J. M. Pence, Henry Pence, Eunice Pence, Mr. and Mrs. Edgar Pence, Mr. and Mrs. Carl Pence, Carlene and Jerry, Mr. and Mrs. I. J. Pence and Jackie Earl, Mrs. Mattie Pence, Mr. and Mrs. W. T. Donham, Berta Mae, W. T. James, and Melba Jean, Mr. and Mrs. Bill Pence, Joy and Wayne, Mrs. A. R. McIntire, Mr. and Mrs. Reuben Coats and family and Mr. H. A. Coats, all of Cisco.

IT COULD BE TRAGIC—Terrell Jacobs, a lion tamer, is willing enough to enter a lion's den, and he proves it in New York. Here he feeds a 12-year-old lioness, Sheba, some meat held in his own mouth, but if Sheba suddenly got hungry for some live meat—farewell, Terrell.

SHIPMATES—Lenore Doughten, 11, of Bay Head, N.J., poses with some shipboard friends upon arrival in New York aboard the SS America. The dogs are of the Saluki breed, native to Egypt, and were brought here by a member of the crew. Lenore returned from a four-year residence in Paris.

Tillery at Fort Bliss For Camp

Joe B. Tillery, Jr., son of Mr. J. B. Tillery of Cisco, is attending the annual Fort Bliss ROTC summer camp to complete field training requirements for a commission as second lieutenant in anti-aircraft Artillery, Army Reserve Corps.

During the encampment which lasts six weeks, Tillery will receive instruction and practical training in the use of the 40-mm. and 90-mm. anti-aircraft guns, gunnery, small arms, and in leadership. In addition to their training, the cadets are participating in an extensive sports and social program.

A graduate of Sunset High School in Dallas, Tillery is now attending Texas A&M College. He is majoring in veterinary medicine. He was discharged from the Army Air Corps in 1946.

Sergeant Peugh Will Come Home

With the Eighth Army in Eta Jima, Japan, July 10. — Sergeant Frank J. Peugh, Cisco, has received orders reassigning him to the United States Zone of the Interior for further assignment. Sergeant Peugh has been assigned to the Radio School Division of the Eta Jima School Command at Eta Jima, Japan.

Sergeant Peugh, son of Mrs. Lee Peugh of 200 West 18th St., Cisco, attended the Cisco High School and worked as a rotary driller's helper before going into the Army.

He entered the Army at Dallas in July, 1945, and received his basic training at Camp Roberts, California.

for top quality—maximum performance
in an automatic gas water heater

Which do you use most in your home—hot water or cold water? Surveys show that 80% of the average household water supply is hot water. For instance, it takes 15 to 20 gallons of hot water for a shower, 20 to 30 gallons for washing clothes, 3 to 5 gallons for dishes, 7 to 10 gallons for a bath. So, if you're planning to buy a new water heater, make sure you get one that will fit your family's needs.

LOOK for the "Court of Flame" Symbol of Quality. It's your guide to an Automatic Gas Water Heater of Top Quality and Maximum Performance, as certified and approved by the Water Heater Division of Gas Appliance Manufacturers Association.

Fishermen Pay Most of Fines Levied by State

AUSTIN, July 10. — Fishermen comprised one-third of the game and fish law offenders during June but the largest fines were paid by illegal deer hunters and stream polluters.

Total of fines and court costs was \$4,450.65 for 202 cases compared to \$3,988.30 for 133 cases for June, 1949, and \$4,024.85 for 182 cases for May, the preceding month this year.

Seventy persons were charged

under the fishing license code, with 62 Texans drawing fines for having no license. The other eight were non-residents.

The alertness of wardens in checking anglers' bait under the new law which permits persons to fish without licenses in counties adjoining their home counties, providing they do not use live or artificial bait was reflected in two cases. One San Antonio man and one Adkins man assured the investigating wardens they were using worms. When the officials checked further, they found they were using minnows. The strategy backfired so badly that both men paid fines and lost their fishing rights for one year.

The largest individual sum paid

during the month was \$219.75 in fines and costs levied against a Corpus Christi man for operating two unlicensed commercial fishing boats in coastal waters. The pollution assessments included two Rockport cases that produced \$342 in fines and costs.

Three Freer men paid \$61 each for a headlighting foray that netted them a doe and spike buck. In another case, a Freer man paid a total of \$111 when caught hunting at night. A Sour Lake man got off with a \$21 levy for killing deer out of season. Two Sabinal men paid \$113 each for killing deer at night. One was a bartender. Wardens said that after he shut off the spigots at night time, he rallied the

Methods Given To Control Aphids In Your Garden

Methods of controlling Aphids in the yard and garden were given today in an article prepared by Gail D. Jones, high school agriculture teacher and FFA sponsor.

The article follows: Aphids are small, soft-bodied insects, the largest being less than a third of an inch long, gen-

customers for outlaw raids on wild game.

erally with long legs and antennae, and are of various colors, green, black, various shades of red and brown, white and gray being the most usual ones.

Some are more or less completely concealed beneath long, white waxy threads, giving them a "woolly" appearance. This latter type is being found in great numbers on all types of plants in town. The insects are found on the stems and leaves and they all expell honeydew on the leaves and plants. These insects suck the juice from the plants.

The control of the aphid is as follows:

For flowers and ornamentals: 1. Spray with 1½ teaspoon-

fuls of Blackleaf 40 (nicotine sulphate) in 1 gal. of soapy water or dust with 8 teaspoonfuls of Blackleaf 40 in 1 lb. (roughly 1 qt.) of hydrated lime.

2. Thoroughly cover the plants with the spray or dust, especially the undersides of the leaves.

For vegetables: 1. Spray with 2 tablespoonfuls of Blackleaf 40 and 1 oz. of soap in 1 gal. of water. Apply at the rate of 1 gal. per 100 to 125 ft.

of row. On aphids damaging cabbage and peas use 3 tablespoonfuls of Blackleaf 40.

2. Or dust with 2 tablespoonfuls of the Blackleaf 40 in 1 lb. of hydrated lime. Apply at the rate of 1 lb. per 150 to 200 ft. of row. When mixing the dust do not inhale the fumes and use immediately after it is mixed.

3. Always try to get the spray or dust directly on the aphids. When the leaves are curled, the

insecticide must penetrate the curl or control will be unsatisfactory.

N. C. Huston, manager of West Texas Utilities Co. Inc. was vacationing this week. He planned to spend most of his vacation at home. Mr. Huston and family expect to visit relatives in Sulphur Springs this week.

TRYING THEM OUT—Fred Egan, left, winner of the 1949 Hambletonian at Good Time Park, Goshen, N.Y., is shown tutoring his 1950 entry, Scotch Dean, over the same track. The new horse has exceptional speed, is well-mannered and is being pointed toward the \$65,000 trotting classic in August.

The Research Congress

Some years ago, a cotton man with an intense desire to serve the industry in which both he and his father before him had lived, moved and had their being, conceived the idea of bringing together each year the best minds in the industry to inquire into its complex problems. The assembly of experts — business men, economists, scientists — would conduct a searching and incisive discussion which would give the industry a well-rounded concept of what was being done to solve cotton's problems, what remained to be done, and would serve as an inspiration and a spur to further action.

Uniquely, the plan as it was envisaged and effectuated by its author provided that those participating in this great symposium would contribute their time and effort without charge and that the collection plate would be strictly forbidden. The practical result of this vision was the Cotton Research Congress, and the man responsible for it is Burris C. Jackson.

It is only a couple of weeks until the 11th annual Research Congress will be convened in Dallas — July 27, to be exact. The Congress has grown mightily in prestige during the 10 years that have elapsed since its founding. Those participating in the sessions have included men of international renown in their respective fields.

Though the plans for this year's session, which will open on July 27 and extend through July 28, are still in the formative stage, the announcement last week by Col. Jackson that one of the principal speakers will be Dr. P. V. Cardon, head of the Agricultural Research Administration, affords sufficient promise of an unusually competent panel of speakers and

forum participants.

Hence, members of the trade had better be giving some thought to a little time off the latter part of July for the trip to Dallas.

They owe it to themselves to take advantage of the opportunity the Congress will afford them to fill themselves in on what has been going on in the world of cotton research. They owe it to their industry for what their presence at and comprehension of the discussions might contribute to keeping it strong and vigorous. And they owe it to Burris C. Jackson, whose selfless undertaking has sparked it since its inception 10 years ago and whose sole reward has been the knowledge that he has contributed his moiety to the betterment of the industry. — The Cotton Digest.

REMEMBER WHEN

Taken from the Files of The Daily Press

FIVE YEARS AGO

Only three public junior colleges in Texas are now without a local tax for its support — one of them being Cisco Junior College — it was pointed out today in connection with the election which will be held at the Cisco city hall tomorrow to determine whether a tax of 20 cents on the \$100 valuation will be levied for the support of the institution.

Ranger Junior College already has such a tax and it has been in effect for more than 10 years.

A bill which almost passed the Texas Legislature at the last session provided that no public junior college should receive any state aid unless it has a local tax, and educators are certain that such a measure will be enacted eventually. In that event the Cisco school could not continue to exist, since the state now pays \$60 per capita for all students attending the college.

The Cisco Chamber of Commerce directors will meet at 8 o'clock tonight in the new quarters at 106 West 6th St. The new home has not been thoroughly cleaned up following the building's modernization, said Manager B. A. Butler, but tonight's session will be the first there and all directors are urged to be present.

The Osborn Studio — A. L. Osborn, proprietor — has moved to the completely modernized D Ave. building that housed the Red Front Drug Store for more than 50 years. His extensive photographic equipment has been set up and is ready for business.

TEN YEARS AGO

Tonight we have one of the best programs we have had at a cheaper rate. Recreation plays Putnam in a seven-inning game following a four card program of boxing. These two teams, together with Miller-Penney, are tied for second place in this division at a .500 clip. Two of these teams will be in the upper three and tonight is a very important game on that account.

Conoco has first place cinched, but the second and third places are the coveted ones now.

The boxing card reads as follows: Cotton Anderson, 103, vs. Charles Eudy, 111; Walton Taylor, 135, vs. Waymon Johnson, 128; Ray Burnside, 185, vs. Parks Bailey, 170; Billy Bob Crowell, 132, vs. Bob Latson, 135.

Nail Picker to Visit Here

Pictured is an electric nail picker which the Texas Highway Department will soon send to Eastland County. Electric magnets at the rear of the nail picker collect loose metal objects. The magnets are activated by a large generator in the bed of the truck and are strong enough to pick up manhole covers. Gathered in this pile of scrap metal are 2,000 potential punctures.

Dawson is a friend of the old people and will fight any attempt to reduce or discontinue their pensions. He feels that economy in various state departments will provide necessary revenue to meet this obligation. —Adv.

for Mileage You'll Brag About!

There'll be a smile in every mile... when you OIL-PLATE your engine with new Conoco Super Motor Oil!

Proved by 50,000-Mile Road Test! In a 50,000-mile road test, engines lubricated with Conoco Super Motor Oil showed an amazing economy of operation. Average gasoline mileage for the last 5,000 miles of the test-run was actually 99.77% as good as for the first 5,000. This means that new Conoco Super Motor Oil — with proper crankcase drains and regular care — can keep new-car gasoline mileage... new-car power and performance... year after year!

• Come in and let me tell you about "50,000 miles no wear!"

SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

Cisco W. M. U. Meets Monday For Royal Service Program

Members of East Cisco Women's Missionary Union met Monday afternoon at the church for the regular meeting and Royal Service program. The meeting was called to order by Mrs. H. H. Harrelson, president. Group singing of the hymn, "We've a Story to Tell to the Nations" followed. A short business session was conducted by the president after which

the afternoon program consisting of ten parts was presented. The topic of discussion was "What of Our First 100 Years of Baptist Missionary Work in Africa?" Mrs. Marshall Irvin was the program chairman for Monday and the devotion was given by Mrs. V. H. Bosworth, using scriptures from the First Chapter of Colossians and from Hebrews 12. The program was closed with prayer by Mrs. W. L. Lewis.

Those present were: Mrs. H. H. Harrelson, Mrs. J. O. Warren, Mrs. Marshall Irvin, Mrs. Milford Morris, Mrs. Roy Little, Mrs. R. O. Fenley, Mrs. Elmo Hodnett, Mrs. Marshall Ivie, Mrs. D. N. Busby, Mrs. B. F. Thomas, and Mrs. R. C. Smith.

Smith, Mrs. V. H. Bosworth, and Mrs. W. L. Lewis.

George Baileys Hosts To Group at Home In Cisco July Fourth

A group of relatives met at the home of Mr. and Mrs. George Bailey on July 4th for a friendly get-together and celebration of the National holiday.

A lovely dinner was served at noon in the cool back yard of the hosts. The group met again in the evening and were entertained with a movie, showing scenic pictures of places seen on various trips made in California, Arizona, Colorado, and Texas, which had been visited by the hosts.

Those enjoying the day together were: Mr. and Mrs. Bob Bailey and daughter of Pasco, Wash.; Mr.

and Mrs. Roy Lee Williams and family of Arlington; Mr. and Mrs. Harlan P. Bailey and Harlan, Jr., of San Francisco; Mr. and Mrs. Loren Parks and family of near Scranton; Mr. and Mrs. O. M. Abbott and family of Brownwood; Mr. and Mrs. W. B. Deal of Kerrville; Mr. and Mrs. Loy Williams and family, Jules Groce, Port Chicago; Mr. and Mrs. Alfred Parks and family of Route 4, Cisco; Mr. and Mrs. Guy Abbott and son, Cisco; Miss Cynthia Parks, Mr. and Mrs. Spurgeon B. Parks and small daughters, Mr. and Mrs. Roy Williams Sr., Mr. and Mrs. Gerald Parks and family of Cisco.

Miss Dixie Hansen Is Honored at Tea In C. E. Hailey Home

On Thursday, July 6, the Rainbow Girls were hostesses to a tea in the home of Mrs. C. E. Hailey honoring Miss Dixie Hansen, who was recently appointed Grand Representative to Illinois of the Grand Assembly of Texas, Order of Rainbow for Girls, which was the first such honor ever held by a Cisco girl.

Guests were met at the door by Mrs. Bernice Gorr, Mother Advisor of the Cisco Assembly, who

presented them to the honoree and her mother, Mrs. A. A. Hansen. Miss Wanda Hailey then directed them to the guest book where Miss Bobbie Reynolds was in charge of registration.

The guests were next escorted to the dining table, which was laid with a beautiful lace cloth. The centerpiece was of lovely cut flowers flanked by tall burning tapers on each side. Miss Billie Bailey served the delicious punch

and the individual cake squares which had the name "Dixie" written across each piece.

Soft music was played throughout the evening by Miss Jane Huetis and Miss Jane Flint. Miss Pat Agnew sang a popular number and Miss Nancy Cluck played a violin solo. Mrs. Gorr then presented the honoree a gift from the whole Assembly — one of the first edition plates painted by

Grandma Moses — which she can treasure through the years as it grows in value.

About 40 guests attended the nice affair.

Mr. and Mrs. Thomas Lee spent the past weekend in Fort Worth.

Mrs. A. R. Day was among the Cisco ladies at the Baptist Encampment at Lueders this week.

Now you don't need fishhooks

lining your pockets!

If you've always needed a sharp reminder not to squander your dough, borrow your wife's scissors right now.

You're not going to need fishhooks in your pockets any more after—

You sign up for U. S. Savings Bonds under your firm's Payroll Savings Plan or your bank's Bond-A-Month Plan.

Then, the temptation to blow a buck on something you don't need won't mean a thing. Your savings will be taken care of automatically and regularly.

And thanks to the magic of compound interest, every \$3 you put into this investment grows into a whopping \$4 in 10 years.

So start using those fishhooks for fishing and have yourself some fun. They're biting good!

Automatic saving is sure saving—

BRIEFLY TOLD

PHONE 37

Mrs. W. T. Hudgens of Los Angeles is here for a visit with her sisters, Miss Mayme Pelfrey and Mrs. Lola Darr, and other members of the Pelfrey family. She stated that it had been a number of years since she had made a visit to Cisco. Mrs. Hudgens is the former Miss Oral Pelfrey, the youngest of the Pelfrey family whose parents owned a farm a few miles east of Cisco.

Mr. and Mrs. John O'Bryan of Kansas City are here for a visit with her parents, Mr. and Mrs. Buck Myrick.

Mr. and Mrs. C. W. Perry and son, Patrick, of Poughkeepsie, N. Y., are here for a visit with Mrs. Perry's father, Frank Pugh, and

her brother F. D. Pugh, and, wife, her sister, Mrs. W. F. Morehart, and family of Coleman, and her brother and wife, Dr. and Mrs. D. F. Pugh of Abilene, while here. The visitors plan to remain until July 20.

Rev. Charles W. Jones, W. J. Poe, Rev. H. D. Blair, G. B. Langston, Mrs. W. V. Gardenhire, and Mrs. Cecil Adams were among the members of the local First Baptist Church attending the Workers' Conference of Cisco Baptist Association which was held in Stephens County at New Hope Church No. 3 Tuesday.

Mr. and Mrs. C. F. Potter left Tuesday for their home at Pennington, Va., after visiting her sister and husband, Mr. and Mrs. Daskam Stephens, and son, Craig, of Inglewood, California, who are guests here in the home of Mrs. Stephens' parents, Mr. and Mrs. Mack Stephens.

Mrs. D. J. Gorman and Mrs. Jim Dillon returned Monday from Sanatorium, Texas, where they visited Mrs. Gorman's daughter,

Miss Betty Gorman, over the weekend. Mrs. Gorman tells us that Betty wishes to be remembered to her Cisco friends and wants to tell them how much she enjoys getting the letters and cards from home.

Mr. and Mrs. Lloyd L. Sissell and son, Kay Sissell, of Los Angeles, arrived early today for a visit with her sister, Mrs. Berta Carmichael, and other relatives.

Mrs. Charles Roberts and her mother, Mrs. Nan Foreman, have returned from Siloam Springs, Ark., where they were called by the illness and death of their brother and son, Custus Foreman.

Wallace Cook, Cisco Junior High School student, was reported recovering nicely today in a Gorman hospital following an appendectomy Monday.

Rev. C. E. Stowe, pastor of the local Church of the Nazarene, was reported as recovering Wednesday following an appendectomy late Tuesday at Graham Hospital.

Presbyterian Women Have Fine Program At Meeting Tuesday

An unusually fine inspirational program was held at the Presby-

terian Church Tuesday afternoon at 3 o'clock.

Mrs. F. E. Harrell presided. Mrs. A. E. Jamison, secretary, read the minutes and business was enacted.

Mrs. Rudolph Kamon and Mrs. Leonard Orr gave prayers.

Mrs. Kamon, leader of the program on "Christianity at Work," talked on the importance of having our eyes, ears and hearts open to the needs of the peoples. The necessity of using our talents to correct these needs through work and prayer were discussed by Mrs. Olson, Mrs. J. J. Tableman, Miss Willie Word, Mrs. J. A. Jensen, Miss Betty Baugh, Mrs. Edith Bragg, Mrs. C. H. Fee, Mrs. B. S. Huey, Mrs. George Irvine, Mrs. Jamison and Mrs. Harrell.

Mrs. F. J. Borman suggested some things the Women of the Church could do to put Christianity to work in Cisco.

Mrs. Orr in a splendid talk told of many ways that unchurched and indifferent people could be reached, in concluding the program.

NEIL DAY — From Page One

in excellent shape. All funds have been reported and accounted for.

"In conclusion I wish to say I am asking you to re-elect me to your Tax Office on the basis of the service I have rendered you and on the record I have made while in the office.

"To those of you whom I have failed to see personally in this campaign, I sincerely hope that you will accept this as a personal solicitation of your vote and in-

DEPENDS UPON THE WEATHER—On a cold day, little Timothy Ockenden certainly wouldn't want his sister, Gillian, three, to pour water over him in their garden in Epsom, Surrey, England. But it's summer now and Timmie is probably pretending that he's some sort of flower that needs a lot of water to grow.

fluence. "I wish to thank each of you for the courtesy and cooperation you have shown me in the past, as well as in this campaign.

"After investigating my record of service in this office, if you believe I am worthy of the confidence and trust you placed in me

two years ago and if you feel I am entitled to another term I will sincerely appreciate your vote and assistance in the Democratic Primary election on July 22, and I will assure you that I will put forth every effort to render you the most honest, courteous, and efficient service possible."

YOU SKIM THROUGH THE FIELDS WITH THE GREATEST OF EASE!

You, the Farmall C with TOUCH-CONTROL and this handy two-row corn and cotton cultivator "skim through the field with the greatest of ease," killing crop-robbing weeds at the rate of 30 to 40 acres a day. This outfit gives you speed from the first cultivation on... speed that sweeps away rainy-weather weed growth... speed that gets the job done when you want it done. It's the FARMALL SYSTEM of high-speed, clean cultivation.

To mechanize your production job completely, see the Farmall C and its two-row, forward-mounted planters for cotton, corn, soybeans and other row crops. You can get a rear-mounted mower, too, and other quick-change, mounted implements for the Farmall C... all raised and lowered by fingertip Farmall Touch-Control. Come in and see the Farmall C now.

VOLUME XXX

CISCO, TEXAS, WEDNESDAY, JULY 12, 1950

Section Two

NUMBER 166

RECORD CONTRIBUTIONS GIVEN IN MARCH OF DIMES CAMPAIGN

NEW YORK, July 10 — A record of the National Foundation for Infantile Paralysis.

The comparable figure last year — also a record — was \$25,728,000. However, virtually all 1949 funds — plus \$4,000,000 raised in the National Foundation's first

emergency appeal last September — have been used to help care for 42,375 new polio patients in 1949, the largest number ever recorded in one year.

Mr. O'Connor disclosed that most of the funds spent since January 1 were for 17,000 of last year's patients who need continuing assistance for care. He said that 467 of the National Foundation's 2,822 local chapters already have spent all assets which remained at the

end of last year and all local funds contributed during the March of Dimes this year.

The number of new cases, he said, is slightly ahead of the same period in 1949 as the nation nears the season when heavy incidence of polio usually occurs.

He expressed "sincere thanks" to the American people and to the thousands of volunteers throughout the country who made the drive the most outstanding in the organization's 13-year history.

Half of the net total raised during the March of Dimes is used by national headquarters to support its research, professional education and training programs and for a national epidemic aid fund. The other half is retained by local chapters to pay for care of local patients or, in emergency, to supplement the national epidemic aid fund for speedy, effective use wherever the need dictates.

Mr. O'Connor said that emergency aid totaling \$2,666,129.70 has been advanced to chapters already this year. States which have received more than \$200,000 each from national headquarters included Arkansas, Michigan, Minnesota and Texas.

California and Illinois have received more than \$150,000 each.

The three leading states and their March of Dimes totals were New York, \$3,700,000, California, \$2,390,000, and Illinois, \$1,858,000.

Mr. O'Connor declared that although the cost of patient care has increased, "the National Foundation also has stepped up to the limit of our resources the re-

GRAIN SORGHUMS AND OTHER CROPS BEING PLANTED TO AID IN CONTROL OF SOIL EROSION

Greatly increased plantings of grain sorghums and other crops for wind erosion control on the high plains of Texas and Oklahoma have been reported to Regional Director Louis F. Merrill of the Soil Conservation Service.

The increases range from double last year's plantings in some areas to four times the 1949 acreages in protective crops in others, the reports indicate.

"These reports show that farmers are concerned over the pros-

search program to find a preventive or cure for the disease.

"The result of this research, probably the most extensive voluntary program ever levelled against a disease, is new knowledge about infantile paralysis. Scientists are more optimistic now than ever before that they are on the right track to an ultimate solution."

Mr. and Mrs. Daskam Stephens and small son from California and her sister and husband, Mr. and Mrs. C. F. Potter of Pennington Gap, Va., are in Cisco for a visit in the home of Mr. Stephens' parents, Mr. and Mrs. Mack Stephens.

pects for widespread wind erosion damage and that many of them are out to beat the threat," Merrill said. The regional SCS head gave the farmer-rancher supervisors of state-sponsored soil conservation districts much of the credit for the headway being reported in the wind erosion fight.

The planting of sorghums, sudan grass and other such field cover has been urged by the soil conservation district supervisors and Soil Conservation Service men throughout the plains area where there is insufficient stubble or mulch to help prevent soil damage such as the plains experienced in the 1930s. Drought conditions in many plains sections, leaving wide areas vulnerable to wind damage, have led SCS and soil conservation district leaders to warn that the stage is set for a repetition of the disastrous "Dust Bowl" years.

In the Dawson County Soil Conservation District, in one of the most critical wind erosion areas, sorghum plantings have jumped from 61,500 acres in 1949 to 131,200 acres this year, SCS district conservationist Jesse D. Jenkins reported. Neighboring Gaines Co. Soil Conservation District reports

an increase from 30,200 acres of sorghums and small grains last year to 72,800 acres thus far in 1950.

At Littlefield, also in an area where wind erosion has caused great concern, SCS District Conservationist John A. Perrin predicted acreage in wind erosion crops will pass the 500,000 mark by July 1 if moisture conditions are favorable. Perrin's area includes the Cochran-Yoakum-Terry, Blackwater Valley and Lamb County soil conservation districts. Sorghum plantings in 1949 totaled only about 200,000 acres, Perrin said.

In the Panhandle area of Oklahoma, District Conservationist J. F. Bailey of the SCS estimates acreage this year in grain sorghums and other erosion control crops, at 510,000, a gain of 190,000 over 1949 for the districts which cover most of the area of the three Panhandle counties.

In the Hockley County Soil Conservation District in Texas, a belief has been reported by district supervisors that two thirds of the district's cropland, about 200,000 acres, will be in grain sorghums this year.

In Moore County Soil Conservation District sorghum acreage has gained from 20,000 last year to a 1950 total of 75,000 acres, according to A. H. Klahn, district conservationist for the SCS at Dalhart. Klahn added that approximately 40% of the cultivated lands of Dallam, Hartley, Moore and Sherman counties have been planted to erosion control crops.

Stubble mulching, and making use of the residue from crops such as grain sorghums, is one of the measures long advocated by the Soil Conservation Service and the Soil Conservation districts as effective in the fight against wind erosion. Tillage methods leave the stalks and other crop litter in or on the surface of the soil, protecting it against the wind and the destructive action of moving soil particles.

Sorghum stalks, however, must be managed properly, according to Regional SCS Director Merrill. In the first place, they must be left tall enough at harvest to provide a good cover. If sorghums or sudan are grazed, care must be taken that the animals do not take too much of the stubble. Use of sweeps or chisels is recommended in tilling to leave crop residues where they can best protect the soil.

In seeding eroded land to grass, sorghum stubble is useful. It furnishes protection for the grass until it can take hold. The practice of stubble mulching also returns organic matter to the soil, giving the soil greater productive power and making it more resistant to both wind and water action.

Merrill explains that the practice, with the other measures useful in combatting wind erosion, will mean less damage to agricultural land in the high plains next fall and winter if the dry weather cycle continues. It will mean a long step toward a safer agriculture in the wind erosion areas of Texas and Oklahoma.

For only a few nickels a day

YOU can own a Genuine FRIGIDAIRE!

Yes, for only a few nickels a day you can have for your home a genuine Frigidaire Refrigerator. Just visit or call our office. You'll be delighted with the moderate prices, the low-down payments, the variety of models, and the easy budget terms which are available.

Of course,
It's Electric!

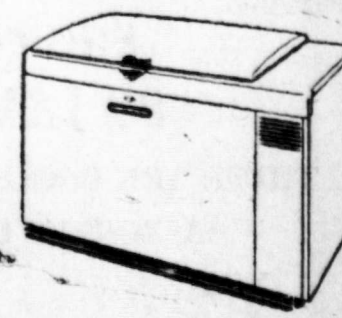

LOOK AT THIS WONDERFUL NEW FRIGIDAIRE DE LUXE!

1. New Super-Storage Design — gives you 9 cu. ft. of capacity in little more space than a 5 cu. ft. model occupied only a few years ago.
2. New Full-Width Plastic Chill Drawer — for meat, extra ice cube storage, and for quick chilling of beverages.
3. New Handy Plastic Basket-Drawer — so convenient for eggs and other small items like to keep in a separate place.
4. New Improved Cold-Wall Cooling — keeps foods fresh looking, fresh tasting, longer. A Frigidaire development.
5. New Aluminum Rust-Proof Shelves — adjustable to your needs—slide out so that you don't have to reach 'way back.
6. New Extra-Deep, Twin Porcelain Hydrators — for fruits and vegetables — can be stacked to give you room for a watermelon or turkey.

New FRIGIDAIRE FOOD FREEZER
—the only one with
the Meter-Miser!

New Frigidaire Food Freezers are now available in three different sizes — 8.8 cu. ft., 11.7 cu. ft. and 18.0 cu. ft. capacity. Quality features include cabinet top that stays open in any position — removable divider racks — automatic interior light that goes on when top is lifted — extra thick fibrous glass insulation — built-in handle locks — smooth, easy-to-clean interior. Model shown — HM-88 — holds up to 308 lbs.

There is a model to fit
your particular needs!

Why wait any longer! Trade-in your old box!

Pence Reunion Here Brings Cousins Together for First Time in 57 Years

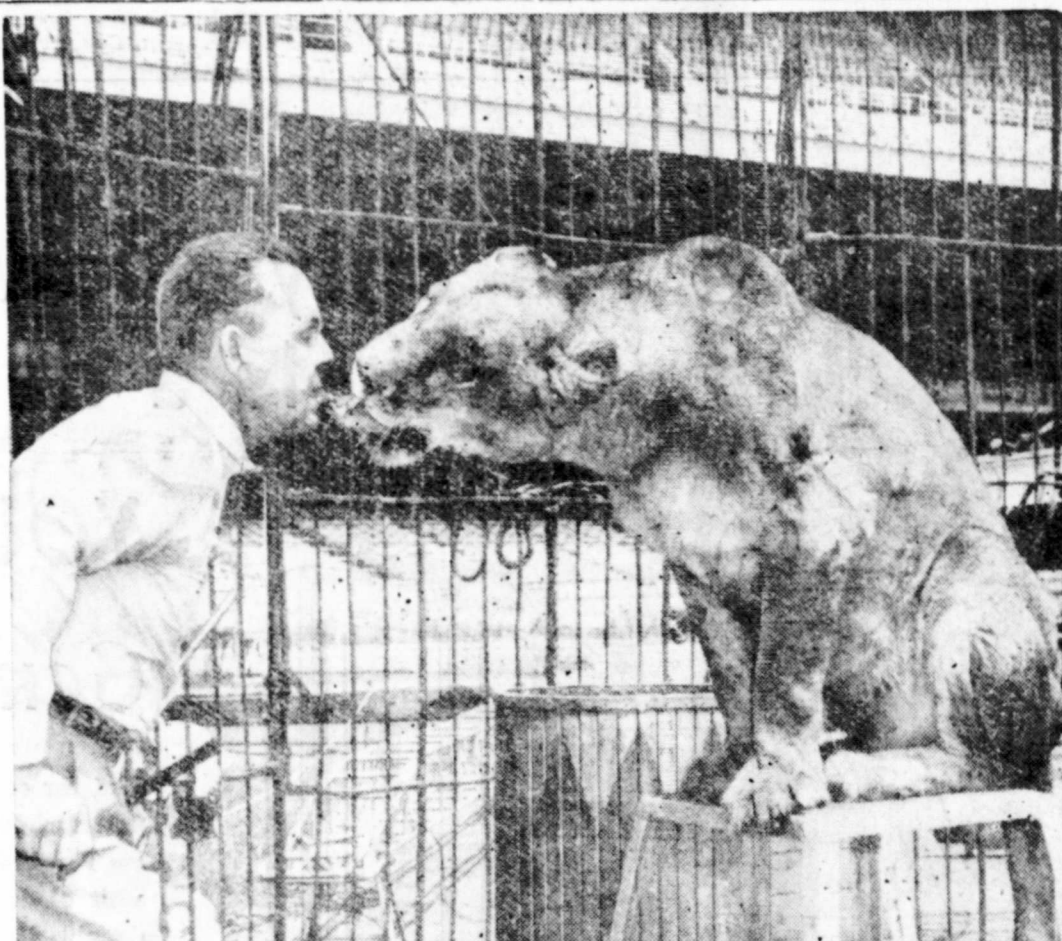

The Pence reunion held at Lake Cisco last week was a big success and it brought together first cousins who had not seen each other for 57 years.

W. L. Pence of Burleson, Tenn., is a first cousin of J. M. Pence of Cisco.

Relatives came from five states to attend. Those attending were: Mr. and Mrs. W. L. Pence, Paul Baskin and Miss Glenda Fay Baskin, all of Burleson, Tenn.; Miss Virginia Pence and Miss Peggy Nelson of Fletcher, Okla.; Mrs. Frank Laux and daughter of Indianapolis, Ind.; Mr. and Mrs. Henry Wink and Wanda of Jalisco, New Mexico.

Mrs. L. B. Miller of Midland; Mr. and Mrs. J. L. McClain, Mrs. Carl Herod, Mr. and Mrs. Roe Ranson of Snyder; Mr. and Mrs. O. C. McDermott and Alice, Colorado; Lora, Betty and Jimmy, Colorado City; Mr. and Mrs. Cecil Barnhill of Pampa; Mr. and Mrs. C. C. McFaden of Gorman.

Mr. and Mrs. J. M. Pence, Henry Pence, Eunice Pence, Mr. and

IT COULD BE TRAGIC—Terrell Jacobs, a lion tamer, is willing enough to enter a lion's den, and he proves it in New York. Here he feeds a 12-year-old lioness, Sheba, some meat held in his own mouth, but if Sheba suddenly got hungry for some live meat—farewell, Terrell.

SHIPMATES—Lenore Doughten, 11, of Bay Head, N.J., poses with some shipboard friends upon arrival in New York aboard the SS America. The dogs are of the Saluki breed, native to Egypt, and were brought here by a member of the crew. Lenore returned from a four-year residence in Paris.

Tillery at Fort Bliss For Camp

Joe B. Tillery, Jr., son of Mr. J. B. Tillery of Cisco, is attending the annual Fort Bliss ROTC summer camp to complete field training requirements for a commission as second lieutenant in anti-aircraft artillery, Army Reserve Corps.

During the encampment which lasts six weeks, Tillery will receive instruction and practical training in the use of the 40-mm. and 90-mm. anti-aircraft guns, gunnery, small arms, and in leadership. In addition to their training, the cadets are participating in an extensive sports and social program.

A graduate of Sunset High School in Dallas, Tillery is now attending Texas A&M College. He is majoring in veterinary medicine. He was discharged from the Army Air Corps in 1946.

Sergeant Peugh Will Come Home

With the Eighth Army in Eta Jima, Japan, July 10, — Sergeant Frank J. Peugh, Cisco, has received orders reassigning him to the United States Zone of the Interior for further assignment. Sergeant Peugh has been assigned to the Radio School Division of the Eta Jima School Command at Eta Jima, Japan.

Sergeant Peugh, son of Mrs. Lee Peugh of 209 West 18th St., Cisco, attended the Cisco High School and worked as a rotary driller's helper before going into the Army.

He entered the Army at Dallas in July, 1945, and received his basic training at Camp Roberts, California.

Mrs. Edgar Pence, Mr. and Mrs. Carl Pence, Carlene and Jerry, Mr. and Mrs. J. J. Pence and Jackie Earl, Mrs. Mattie Pence, Mr. and Mrs. W. T. Donham, Berta Mae, W. T. James, and Melba Jean, Mr. and Mrs. Bill Pence, Joy and Wayne, Mrs. A. R. McIntire, Mr. and Mrs. Reuben Coats and family and Mr. H. A. Coats, all of Cisco.

Mrs. Henry Bridges, who has always been present, was unable to attend since she has been ill for some time.

FOR

All the hot water you want

LOOK
for this symbol

for top quality—maximum performance
in an automatic gas water heater

Which do you use most in your home—hot water or cold water? Surveys show that 80% of the average household water supply is hot water. For instance, it takes 15 to 20 gallons of hot water for a shower, 20 to 30 gallons for washing clothes, 3 to 5 gallons for dishes, 7 to 10 gallons for a bath. So, if you're planning to buy a new water heater, make sure you get one that will fit your family's needs.

LOOK for the "Court of Flame" Symbol of Quality. It's your guide to an Automatic Gas Water Heater of Top Quality and Maximum Performance, as certified and approved by the Water Heater Division of Gas Appliance Manufacturers Association.

Health Talks

YOU'LL SWEAT LESS IF YOU'LL
JUST GO TO BED AND STAY PUT

By State Medical Association

The most widespread exercise of perspiring brows. You mop these July days is the mopping first one, the the other. Is that

LARGEST TO DATE—Japan's largest post-war tanker, the San Pedro Maru, is launched at the Yokohama dockyards. The 18,000-ton vessel, capable of carrying over 71,000 cubic feet of liquid, will travel at 14 knots per hour.

MUSIC IN THE AIR—Famed violinist Jascha Heifetz is shown with his wife arriving at New York's Idlewild Airport. Heifetz has just completed a 10-concert engagement with the Israel Philharmonic Orchestra which will be brought to the U.S. early next year.

a habit or is there sense to it? There's plenty of sense in mopping up one side and then the other because you normally perspire symmetrically.

Sweat helps regulate the temperature of the body and is actually an evaporative cooler. When the temperature starts getting too warm, the face is usually the first spot to start dripping, and then the folds of the body surface add their bit. The extremities of the body are the last resorts of perspiration when the cause is heat, but if the sweat is worked up by intellectual strain or emotion, the palms of the hands don't wait until late in the game to produce a moisture of their own.

Where does sweating start?

The Tulane University School of Medicine tested 11 people in a hospital, quiet and comfortably gownned, to find out at what temperature and relative humidity they would start sweating. The normal man resting in bed, they discovered, starts sweating when the temperature is around 94 and a relative humidity of about 50 per cent. Exercise and individual capacity for increased heat production will induce the sweat at lower temperatures, of course. But if you've had enough of sweating, you might get in bed and lower the temperature, regulate the humidity, and stop mopping the drip.

Mr. and Mrs. Lawrence Davis left Saturday for Colorado Springs, Colo., where they will spend a vacation.

Mr. and Mrs. Homer Lee Hensley have gone to Midland where he has been transferred by the T&P Railway.

Fishermen Pay Most of Fines Levied by State

AUSTIN, July 10. — Fishermen comprised one-third of the game and fish law offenders during June but the largest fines were paid by illegal deer hunters and stream polluters.

Total of fines and court costs was \$4,450.65 for 202 cases compared to \$3,988.30 for 133 cases for June, 1949, and \$4,024.85 for 182 cases for May, the preceding month this year.

Seventy persons were charged

under the fishing license code, with 62 Texans drawing fines for having no license. The other eight were non-residents.

The alertness of wardens in checking anglers' bait under the new law which permits persons to fish without licenses in counties adjoining their home counties, providing they do not use live or artificial bait was reflected in two cases. One San Antonio man and one Adkins man assured the investigating wardens they were using worms. When the officials checked further, they found they were using minnows. The strategy backfired so badly that both men paid fines and lost their fishing rights for one year.

The largest individual sum paid

during the month was \$219.75 in fines and costs levied against a Corpus Christi man for operating two unlicensed commercial fishing boats in coastal waters. The pollution assessments included two Rockport cases that produced \$342 in fines and costs.

Three Freer men paid \$61 each for a headlighting foray that netted them a doe and spike buck. In another case, a Freer man paid a total of \$111 when caught hunting at night. A Sour Lake man got off with a \$21 levy for killing deer out of season. Two Sabinal men paid \$113 each for killing deer at night. One was a bartender. Wardens said that after he shut off the spigots at night time, he rallied the

Methods Given To Control Aphids In Your Garden

Methods of controlling Aphids in the yard and garden were given today in an article prepared by Gail D. Jones, high school agriculture teacher and FFA sponsor.

The article follows: Aphids are small, soft-bodied insects, the largest being less than a third of an inch long, gen-

erally with long legs and antennae, and are of various colors, green, black, various shades of red and brown, white and gray being the most usual ones.

Some are more or less completely concealed beneath long, white waxy threads, giving them a "woolly" appearance. This latter type is being found in great numbers on all types of plants in town. The insects are found on the stems and leaves and they all expell honeydew on the leaves and plants. These insects suck the juice from the plants.

The control of the aphid is as follows: For flowers and ornamentals: 1. Spray with 1½ teaspoon-

fuls of Blackleaf 40 (nicotine sulphate) in 1 gal. of soapy water or dust with 8 teaspoonfuls of Blackleaf 40 in 1 lb. (roughly 1 qt.) of hydrated lime.

2. Thoroughly cover the plants with the spray or dust, especially the undersides of the leaves.

For vegetables: 1. Spray with 2 tablespoonfuls of Blackleaf 40 and 1 oz. of soap in 1 gal. of water. Apply at the rate of 1 gal. per 100 to 125 ft.

of row. On aphids damaging cabbage and peas use 3 table-spoonfuls of Blackleaf 40.

2. Or dust with 2 tablespoonfuls of the Blackleaf 40 in 1 lb. of hydrated lime. Apply at the rate of 1 lb. per 150 to 200 ft. of row. When mixing the dust do not inhale the fumes and use immediately after it is mixed.

3. Always try to get the spray or dust directly on the aphids. When the leaves are curled, the

insecticide must penetrate the curl or control will be unsatisfactory.

N. C. Huston, manager of West Texas Utilities Co. he was vacationing this week, planned to spend most of vacation at home. Mr. Huston and family expect to visit relatives in Sulphur Springs next week.
