PRICE FIVE CENTS

HOUSE ADOPTS GLASS BANK BILL

Bill Legalizing Prize Fighting Signed By 'Ma'

TWINKLES
Back home, and aren't these cool nights invigorating? As for the days, however, ours have lately been about as hot as any in Texas, we discovered downstate.

We're strictly a fresh water fish—at least we found riding the surf boards in salt water breakers a whole lot like a rodeo performance. The ripples in the municipal swimming pool are tame enough, and we hear that the pool is formally open—in a big way.

The coast towns are not worried by the 3.2 per cent—the bottles are marked 4 per cent. We heard rumblings at Houston, but not at Galveston, that the drays are gaining strength and energy. Temperance is being emphasized, partly because most people seem to concede that Texas will legalize beer August 26.

Everybody native to the downstate section "plans" to visit the Panhandle as soon as they can afford to buy red woollens and overcoats. This is a great state, with a great people, but everytime we go south of Dallas we feel like an alien as we hear Texans talk ignorantly of the Panhandle.

We have a hunch that Chicagoans know more about the West Texas area than do residents of parts of Texas. Are you going to join us on the world fair special train? You'll regret it if you don't when you hear the trippers tell of the wonderful times they had.

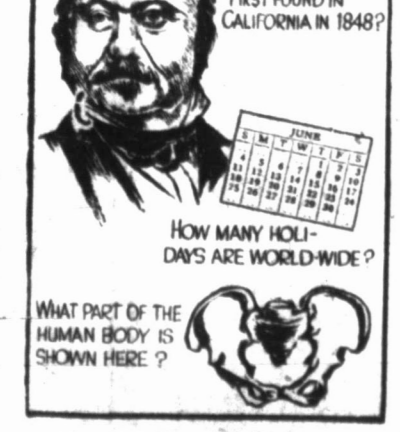

ECONOMY IS KEYNOTE
Frankly, the NEWS special train is being offered to those who wish to travel economically with comfort and who wish to choose their own sight-seeing jaunts according to their special interests. Only once in a generation comes such an opportunity. Chicago is worth a visit at any time, but with the world's fair it is super for a week's visit. If you have not seriously considered going, do so now. The total cost can be as little as \$60 with all expenses figured. The box on Page 1 shows how this can be done. What can equal for \$60 a trip such as your lifetime may never know again?

HOW IT WORKS
If you wish to give us your \$5 reservation deposit at once so the train may be made certain. As you board the train in Pampa, along with scores of other Pampans and residents of this section, you will be ushered into a clean, comfortable Tourist Pullman. It will be your home for much of the trip. Various forms of recreation can be enjoyed en route. A club car will provide food and beverage at moderate prices. There will be no annoying stops. Comfortable Pullman berths will provide sleeping comfort.

MUCH TO SEE!
Arriving in Chicago, the trippers will stop close to the World's fair grounds where the cool breezes blow off Lake Michigan. A veritable fairyland of wonders will be awaiting the West Texans. A glorious spectacle of illumination which baffles the imagination.

(See ANSWERS on Page 3)

Measure To Become Law On September 1; Dempsey Bout Promised

AUSTIN, June 13 (AP)—Governor Miriam A. Ferguson today approved a bill that legalizes prize fights in Texas.

The bill limits non-championship matches to ten rounds and championship bouts to 15 rounds.

Rep. George Butler of Bryan, author of the bill, said during debate on the proposal in the house that he had been assured Jack Dempsey would promote a championship fight in Texas as soon as the law became effective.

Promoters, boxers, and wrestlers and their managers will be licensed and will be required to pay an annual fee. The license fees for promoters vary according to the size of the city in which the promoter operates.

Strict physical examination for participants will be required and physicians licensed by the labor commissioner must attend all matches.

Mixed matches will be prohibited. A tax of three per cent of the gate receipts will be levied by the state.

The labor commissioner will have power to prescribe rules and regulations to govern matches and to suspend promoters and participants for infractions.

The bill also regulates wrestling matches. It authorizes the state commissioner of labor to administer provisions of the law. The bill will become law about September 1, 90 days after adjournment of the legislature that enacted it.

It had been unlawful to conduct prize fights in Texas since 1885, when Charles A. Culbertson, then governor, convened a special session of the legislature to outlaw boxing bouts. A prize fight had been arranged between Corbett and Fitzsimmons for Dallas, when the governor decided it should not be permitted.

Although unlawful, boxing bouts had been permitted in some localities and wrestling matches had been held in virtually every city. During the administrations of former Governors Dan Moody and R. S. Sterling, rangers were sent to stop boxing matches in several cities.

Gray Member Of Roads Group To Be Chosen Soon

Appointment of a Gray county member of the Panhandle Good Roads association will be announced soon. This county was represented at the Amarillo meeting Saturday by County Judge C. E. Cary.

Because of the huge sums to be set aside by the federal government for public works, including highways, the Panhandle organization expects to wield an influence of importance in securing paving for this section.

Coat Hanger Will Admit Children To Pool On Thursday

Children under 15 years of age will be admitted to the municipal swimming pool free of charge on Thursday from 9 to 12 o'clock if they present one wooden coat hanger each.

The city commission, in discussing the pool last night, decided to oil the road leading to the pool. There is much traffic over this road.

I HEARD—

Al Doucette won his match in the Country club golf tournament with a score of 105; also that Mrs. Charles Wooley toured the course in 72 strokes, one stroke over men's par. "We are going to check farther on that score, Mrs. Wooley."

Charley Ruddy and Ed Maszy hoping that the persons who have their glasses would return them and receive the rewards offered.

C. P. Buckler "sticking" nearly everyone he asked about the design on the Alaskan flag. "Do you know?"

Economic Conference Is In Confusion Over Debts Issue

NATIONS JOIN IN ATTACKING UNITED STATES

REPORT ENGLAND WILL PAY 10 PER CENT OF INSTALLMENT

LEWIS FLAYS PARLEY

SENATOR ADVISES U. S. SPOKESMAN TO 'WALK OUT'

WASHINGTON, June 13 (AP)—America's spokesmen at the London economic conference were advised today in the senate by Lewis of Illinois, the democratic whip, to walk out on the conference rather than permit discussion there of war debts.

LONDON, June 13 (AP)—Great Britain has decided to make a ten per cent "token" payment of the \$75,950,000 war debt installment due Thursday upon President Roosevelt's assurance that he will accept for himself alone although he cannot pledge the acceptance of congress, it was learned tonight on high authority.

LONDON, June 13 (AP)—Secretary of State Cordell Hull, who remained away from the world economic conference all day, left his hotel this afternoon after the conference session had adjourned and hurried to a secret meeting of the steering committee of the parley.

(See CONFERENCE, Page 3.)

Gas Stripping Hearing To Be Held June 26

AUSTIN, June 13 (AP)—The Texas railroad commission today set a hearing for Amarillo on June 26 to consider an application of the Texas company for a permit to extract gasoline from gas from its wells in the Panhandle district.

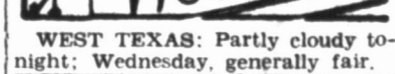

Two gas hearings will be conducted by members of the railway commission in Amarillo this month. The first hearing will be June 19. At the June 26 hearing, testimony regarding potential tests or other oil fields will be heard.

Both meetings will be held for the purpose of hearing applications for stripping permits but Oil and Gas docket No. 108 will be "thrown wide open" for discussion.

Any operator in the Panhandle field will be allowed to give testimony as long as it comes under Rule 108.

CROCKETT MAN KILLED

CROCKETT, June 13 (AP)—Grady Cook, cafe and filling station operator, was shot and killed on a downtown street today. Officers knew the identity of his assailant.

WEST TEXAS: Partly cloudy tonight; Wednesday, generally fair.

NO 'HICK' HORSES WILL RUN IN RACES AT PANHANDLE THIS WEEK

PANHANDLE, June 13 (Sp.)—No "hick" horses are expected to arrive in town for the Southwest Race meet which will begin here at 2 p. m. Friday and continue through Sunday. "Hick" horses are more or less good-natured nags with neither blood nor record. They are horses which never saw a first-class race track, but which are regarded as equine wonders by their owners who usually know little or nothing about horses and racing.

The first race meet held here was cluttered up with "hick" horses, although a few good horses of breeding and ability managed to win most

F. D. R. WANTS A SHOWDOWN

President Will Not Yield An Inch From Compromise On Vet Issue

WASHINGTON, June 13 (AP)—President Roosevelt threw down the gauntlet to congress today on the veterans issue, sending word he would not yield from the compromise he made with the house payments made to ex-soldiers.

After a conference between the president and democratic leaders at the White House, the word was spread through the senate the president would not give an inch and would veto the appropriation bill if congress went further than the compromise to which he has agreed.

The president's unyielding attitude was understood to have been expressed to Vice President Garner, Senator Robinson, democratic leader, and Senator Byrnes (D. S. C.), in charge of the independent offices appropriation bill carrying the veterans' fund.

Leaders were expected to convey the president's attitude to the senate when the conferees reported back with their disagreement later today, and bring a showdown on the issue.

Members Asked To Attend Red Cross Election

An election meeting for members of the Red Cross will be held at the city hall tonight at 8 o'clock. It is hoped that a large number of persons interested in the work will attend.

Nominations offered by a committee composed of V. E. Fatheree, W. A. Bratton, and Olin E. Hinkle will be presented. C. E. Palmer of St. Louis, field representative of the National Red Cross, will attend the session.

Mr. Palmer announced that A. T. McCue, national life saving representative, would be in Pampa July 14 and 15 to give tests to persons wishing to qualify in the life-saving program to be launched soon at the municipal pool, with Boy Scouts participating.

The local chapter has distributed much flour and made up much clothing during the last year. John I. Bradley is chairman and Mrs. W. H. Davis is executive secretary.

Publisher Will Speak At A. P. I. Meeting Tonight

Gasoline tax and tax evasion will be discussed at length by Jack Dionne, publisher of the Gulf Coast Lumberman, and other authorities on the subject at a meeting of the Panhandle chapter of the American Petroleum Institute in the Herring hotel in Amarillo tonight. The meeting will be called to order in the Crystal ball room at 8 o'clock by Jack Moyar, chairman of the chapter.

The discussions will not only be of interest to oil men but to every man and woman who operates an automobile, tractor, gasoline stove, or gasoline lamp. Many Pampans plan to make the trip.

Mr. Dionne, an entertaining speaker who knows his subject thoroughly, comes to the Panhandle with a wide reputation as a speaker and authority on the tax question. He will present facts and figures that cannot be denied.

Three Women In Jail After Fight

Three local women were in the city jail this morning charged with affray following a "free-for-all" last night. They entered pleas of guilty before Judge J. H. Blythe and were fined \$13.50 each.

One of the women was beaten over the head with high-heel shoes until her face was cut and swollen and her head lacerated.

Two others were charged with being intoxicated and one for being a vagrant.

WASHINGTON, June 13 (AP)—The Washington Post, long the property of the celebrated McLean family, now belongs to Eugene Meyer, who until a month ago was governor of the federal reserve board.

SHIP FACING STRONG WIND IN MICHIGAN

THIRTY-FIVE MILE AN HOUR WIND BEATING ON AIRSHIP

MESSAGE IS RECEIVED

COAST GUARD UNABLE TO DECIPHER 2ND WIRELESS

FRANKFORT, Mich., June 13 (AP)—The coast guard station here reported today that the dirigible Macon, flying in this vicinity, reported by wireless that its rudder had been disabled and it was heading toward Sault Ste. Marie, Mich.

Later coast guard officials reported, the Macon sent out another wireless message which they were unable to decipher. Members of the coast guard said the huge dirigible passed over here and disappeared to the north, in the face of a 35-mile headwind.

The dirigible, they said, was near the Lake Michigan shoreline when sighted.

STURGEON BAY, Wis., June 13 (AP)—The dirigible Macon, headed north after noon (C. S. T.) today. A brisk north wind was expected to speed the huge dirigible on its return trip to Chicago, where it is expected later today. Sturgeon Bay is about 135 miles north of Milwaukee.

Jimmie Mattern Overdue At Nome; Storm Threatens

ST. PAUL ISLAND, Bering Sea, June 13 (AP)—Rain was falling here at 4:40 a. m. (P. S. T.) and a light southeast wind was blowing at about the time Jimmie Mattern, "round-the-world flier," was due here on his hop from Khabarovsk, Siberia. Although a watch was maintained here through the night, no word of Mattern's progress was received.

NOME, Alaska, June 13 (AP)—A dropping barometer heralded a coming storm here today as Nomites watched the western skies for a glimpse of Jimmie Mattern, globe-trotting Texas aviator.

Foggy weather and low temperatures over the ice-choked Bering sea was believed to have caused Mattern to detour from a straight course between Khabarovsk, Siberia, and Nome. No uneasiness was felt when the aviator failed to arrive on schedule.

MOSCOW, June 13 (AP)—Jimmie Mattern started for home today, braving headwinds on his takeoff from Khabarovsk, Siberia, for Nome, Alaska, one of the most arduous laps of his flight around the globe. On leaving Khabarovsk he announced he intended to fly non-stop to Nome.

The Texan wanted to cross the Sea of Okhotsk and the Bering sea without stopping, but latest weather reports were none too reassuring, and it was considered likely he would pause at Petropavlovsk on the Kamchatka peninsula northeast of Khabarovsk.

Three Women In Jail After Fight

Three local women were in the city jail this morning charged with affray following a "free-for-all" last night. They entered pleas of guilty before Judge J. H. Blythe and were fined \$13.50 each.

One of the women was beaten over the head with high-heel shoes until her face was cut and swollen and her head lacerated.

Two others were charged with being intoxicated and one for being a vagrant.

Greets World's Fair Queen

POSTMASTER General James A. Farley is shown here as greeting Lillian Anderson, winner of A Century of Progress Queen contest, in Soldier Field in Chicago.

JUDGE DECIDES BOWERS DIVORCE SUIT WILL BEGIN ON WEDNESDAY, AND DENIES CONTINUANCE PLEA

Children Are Barred From Courtroom During Trial

Judge W. R. Ewing denied the motion of the plaintiff, Mrs. Thelma Bowers, for a continuance in her divorce suit against Joe Bowers, at a night session of 31st district court last evening, but granted a postponement until 9 a. m. tomorrow.

Attorneys for both sides had heated arguments last night and yesterday afternoon over motions and cross actions.

Because of the nature of the testimony and depositions, Judge W. R. Ewing is barring from the courtroom children under 18 years of age. Large crowds have been attending the court since the preliminaries opened Monday. Mr. Bowers filed a cross action for divorce. Valuable oil property is involved.

Panhandle Banks Close Tomorrow

All banks in the Panhandle will be closed tomorrow while members of the various banks attend a general meeting of the Panhandle Bankers association in Amarillo. It will be an all-day meeting and many important matters will be discussed.

It was decided at the meeting held in Pampa last year, that one day in 1933 would be set aside for the bank staffs to attend a meeting and that all banks would be closed. Members of the First National bank here will attend the meeting.

ASK MARRIAGE LICENSE
Notice of intention to marry has been filed by Miss Oleta Oswald, 23, of Mobeetie and H. W. Golden, 28, of Wheeler.

BILLS OF SALE FOR SLAVES TO BE PLACED IN CANYON MUSEUM

DOCUMENTARY evidence of the sale of negro slaves in Texas has been given T. D. Hobart, longtime official of the Panhandle Plains Historical society, by George Berry, known that the cards might be induced to play the Harvester basketball team, some of the boys said they wouldn't play unless they could guard.

These slaves, however, were freed after the civil war which shortly followed the sales. The documents are chiefly of value because they are original copies and in a good state of preservation. Mr. Hobart will place in the historical museum at Canyon,

REFINANCING BILL SIGNED BY PRESIDENT

AGREEMENT EXPECTED IN SENATE ON BANK PLAN

APPEALS TO CREDITORS

COOPERATION ASKED BY ROOSEVELT IN STATEMENT

WASHINGTON, June 13 (AP)—The house this afternoon adopted the compromise Glass-Seagall bank reform-insurance deposit bill, sending it to the senate where quick acceptance of the conference agreement also was expected by the leaders.

That President Roosevelt will accept the revised measure is being taken for granted, in view of the interest he took in formulation of the compromise after weeks of deadlock between conferees of the two congressional branches.

Final acceptance of the bill in such a ready manner was expected in the house, but the outlook was uncertain in the senate until midday at which time proponents of more changes apparently gave in.

In the extreme effort to get adjournment last Saturday, friends of the legislation feared it would be crowded out but in the several days since, it was found possible to get together in a way to quiet both sides of the arguments.

The house vote was 191 to 6 to accept the conference report.

Just before the measure was sent to the senate, Chairman Steagall of the banking committee, told the house that "under this bill there won't be any more bank failures in front of their closed banks, so long as people are able to get money at any other place in the United States."

WASHINGTON, June 13 (AP)—President Roosevelt, in signing the home mortgage refinancing bill today, asked creditors to abstain from foreclosing proceedings until the

THE WEAKNESS IN OUR ECONOMIC STRUCTURE

As the long drama of the Morgan investigation continues in that sweltering committee room at Washington, the ordinary American begins to get a clear picture of a state of affairs which he had frequently surmised but at which he had never before got a really good look.

The financial world is a place of mystery and wonder to most of us. We have known that it was a place where vast sums of money could be made—and lost, as well—and we had a dim feeling that what went on there was ultimately of great importance even to non-investors.

Now our eyes are being opened. Security issues that go to insiders at bargain rates before they find their way into the open market; wealthy men who have found a fool-proof way of defeating the income tax by year-end sales of stock; the formation of holding companies with the public's money, devised so that clever manipulators can hold the strings to farflung industrial combines; interlocking series of loans so complex that even the man who negotiated them cannot remember how it was done without looking at his private records—all of these things brought into the open by Ferdinand Pecora's questioning—provide us with an invaluable object-lesson in the way our country gets run.

Now the general run of these operations were not wrong legally; most of them, in fact, gauged by current standards, were not even wrong morally. We had devised the kind of economic and social set-up which made it necessary for the financing of big affairs to be conducted in that way. To get indignant at the individuals directly concerned is to miss the point entirely.

For the real point of it all, of course, is that it was our whole basic system that was at fault. This has been said before, to be sure; but it cannot be said too often. America being what it was, and our standards being what they were, it was simply inevitable that a tangled web of this kind be built up over our heads.

What we face now is the job of introducing restrictions, and modifying our own viewpoints, so that the important task of financing our industries can be carried on with the public interest the main consideration.

News that Oregon fishermen are wearing tin boots to protect themselves against rattlesnake bites probably will come as a big surprise to many fishermen who have always thought that a quart of bourbon offered the best protection.

Eighty-two-year-old Kentucky woman, after visit to White House declares her only remaining aim now is to go to heaven. Republicans probably will insist she's on the wrong road.

Army cadets defeated Harvard students in higher mathematics contest. Maybe the War department can now tell the treasury how to collect an income tax from Mr. Morgan.

Quite often a bridge player gets the most kick out of the game when playing opposite his own wife.

Kentucky judge rules that a golf player "is not legally able to control either the direction or the destination of a ball driven by him." Well, this judge doesn't beat about the bush, even if a lot of golfers do.

SMOKING BANNED IN CONFERENCE BUT AMERICAN PUFFS HIS CIGAR

CONFERENCE HALL, LONDON, June 13 (AP)—More than an hour before the conference convened, the street on which the geological museum stands was lined with thousands of spectators. Almost all of them were armed with umbrellas although the sun grey skies had cleared sufficiently for patches of blue to be seen.

Squads of bobbies fringed the sidewalks, keeping the crowds to the curb and holding clear a space for the arrival of the top-hatted delegates. Through the sidewalk traffic snarls scores of vendors plied their trades, selling flowers, programs and paper streamers.

The American was the first important delegation to enter the hall, arriving nearly an hour before the opening. Senator Key Pittman was not among them. It had been said earlier that illness would keep him from attending.

All the Americans were dressed in formal morning attire. Ralph W. Morrison was smoking a big cigar. William C. Bullitt, special assistant to Secretary of State Hull, found the delegates' seats at the left side of the sixth row in the big assembly hall, and Mr. Hull and other others took seats in small armchairs at a long bench-like desk.

Every desk was plastered with a sign reading, in French and English, "do not smoke," but Mr. Morrison, busy viewing the hall, continued to puff his cigar. The tall, dark-haired Mrs. Hull, went to the chamber for distinguished visitors, the only American woman honored by admission.

Nearly a score of American delegates and experts took places on the floor although seats were not available for a half a dozen of them.

PLEADS NOT GUILTY NEW YORK, June 13 (AP)—United States Senator James J. Davis, of Pennsylvania pleaded "not guilty" to a new indictment in the Moose lottery case Monday. Trial date was set tentatively for July 10.

Lewis M. Goodrich, district attorney, is here assisting the grand jury today.

L. R. Underwood was here from Miami during the week-end.

House Set To Approve Glass Banking System

WASHINGTON, June 13 (AP)—A single banking system under national regulation appeared in the making today as the Glass-Steagall bank reform bill, aided by the delay in congressional adjournment, moved towards the law books.

It was a conference agreement, reached yesterday after weeks of deadlock, which indicated probable eventual extinction of the 48 separate state banking systems, for in reaching a solution of the deposit insurance deadlock, the agents of house and senate provided that after 1936, no banks which are not members of the federal reserve system may benefit by the deposit-insuring pool which the bill will create.

Ever since the bank crisis which ushered in the Roosevelt regime, the administration has tended towards effecting a squeeze that would bring all banks into the reserve system, if not into the national chain which is under direct supervision of the treasury.

The idea is that state banks could not withstand the competition of institutions offering full insurance on deposits when they themselves could not obtain it. General admission into the reserve system still would leave them outside the national banking organization but many officials believed the final unification would follow.

Charge Surprises Former Amarilloan

AMARILLO, June 13 (AP)—Charles H. Winterhalter, 35, former city manager, was returned to Amarillo today to face charges of embezzlement from the city's funds.

Winterhalter, who was arrested in Dallas Sunday, was held in the Potter county jail while his attorneys arranged his bond, originally set at \$3,000 but later reduced to \$1,500.

An indictment was returned against Winterhalter Saturday following the annual audit of the city's books. The auditing company claimed a discrepancy of \$964.10 although the one indictment mentioned only \$78.

"This situation is one of great surprise to me," Winterhalter said. "The checks in question were issued in lieu of accumulated expense items in which under my authority as city manager I could have charged to expenses but when I severed my connection with the city I preferred to assume them myself."

BEAUTIFUL TOUR ISTANBUL (AP)—No first tires slowed the automobile journey of a cousin of President Roosevelt thru Turkey—but bouquets did.

Lella Roosevelt Denis, motoring with a woman friend from Antwerp to Singapore, was far behind her schedule when she reached Istanbul. Majors of Turkish towns, seeing the name of Roosevelt on the passport, were unable to allow the occasion to pass without welcoming speeches and farewell bouquets.

Mrs. G. E. Canady was a shopper from Skellytown Saturday.

Drowning Victim Buried On Sunday

FUNERAL SERVICES for George Lawver, 12, White Deer youth, who was drowned Saturday afternoon in a lake west of White Deer, were conducted Monday afternoon by the Rev. Thomas A. Stamp, pastor of the First Presbyterian church.

Burial followed in White Deer cemetery in charge of the G. C. Malone Funeral home.

The youth, with a companion, was wading in the lake and stepped into a drain ditch. It was two hours before the body was recovered. He was the son of the White Deer constable.

Survivors are his parents, Mr. and Mrs. R. C. Lawver, three sisters, Mrs. Mildred Jackson and Misses Ada and Geneva Lawver, and a brother, Jack Lawver.

CHERCHEZ LA CAT VINITA, Okla. (AP)—It's a mystery to County Treasurer E. M. Lendrum but he is authority for the story that one of his setting hen's eggs disappeared, four kittens appearing in the nest in their stead. The hen, Landrum says, appears satisfied with her brood.

S. A. McCathern, of LeFors was among the week-end visitors to Pampa.

By the World FORGOT A New Serial by Ruby M. Ayres

He frowned a little as he looked at her. "Well, you go first," he said. "My business will take some time." It was a definite dismissal, and without giving her a chance to reply he turned on his heel and left her.

"And that's that," Georgie told herself philosophically. "But of course he'll come and say goodbye to me," so she comforted herself, but she was wrong, for although she looked everywhere for Nicholas for the rest of the day, and again the following morning she did not see him.

And how it rained at Southampton! Georgie shivered in spite of her big tweed coat as she stood waiting to go on shore; pushed here and there by excited people, deafened by the noise and clamor all around.

"Anyone meeting you?" Nelly asked her, and Georgie shook her head. "Are you going up to London alone?" she asked.

"Yes," there was a bitter note in Nelly's voice. "My lot went off directly we got in. He said he had 'friends' to meet him, but I saw her—about as unlike me as you can imagine anything."

"We'll travel up together," Georgie said kindly. "I'm going third class," Nelly told her. "So am I."

And presently they were sitting opposite one another in a crowded compartment. Georgie hung out of the window with a fine disregard for the feelings of her fellow-travelers, but there was no sign of Nicholas Boyd, and for the first time she was conscious of a little feeling of anger against him.

"Stupid! stupid!" she accused him in her heart. "As if it could make the least difference! As if people could turn Fate away from the path in which it was destined to go."

The train moved slowly out of the station, and Georgie sat down in her corner with a sigh. The little country town seemed as if it had gone to sleep and had forgotten to wake up, Georgie thought as she drove up from the station in one of the antiluvian cabs which optimistically stood all day behind each other on the station rank.

She felt a little solitary and sad. For one thing it was twilight, the saddest hour of a summer's day, and for another she had begun to realize for the first time that she was a little lonely.

Surely no other girls of her age were quite so lonely? The old horse clattered along the dusty road, and the windows of the old cab rattled. Georgie sat stiffly erect on the edge of the hard seat, her hands clasped in her lap, her eyes staring before her at the remembered scene.

She had only been away for six weeks. It seemed now like six years, or as if she had had a long sleep and had only dreamed about New York and the skyscrapers, and the noisy streets, and the modern luxury of her mother's apartment.

She was a Cinderella, back from the ball, shorn of her short-lived splendor, princeless! The striped blinds of the rickshaw were closely drawn over the windows to keep out the last rays of the setting sun; Tr-ave, the old collier who belonged to Mrs. Spears at the Boar's Head, lay asleep on the path, and did not even open an eye or move as the cab jumbled by.

Georgie liked Trouné; she liked his name which Mrs. Spears, who fancied herself as something of a French scholar, had bestowed upon him because she had found him as a starving puppy, with a tin can tied to his wee-begone tail.

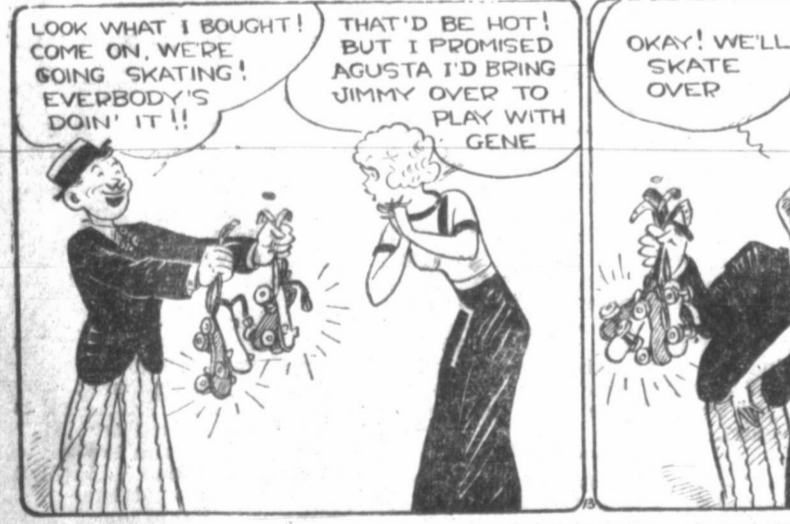

Mrs. Spears loved dogs; she always had various assorted breeds hanging about the Boar's Head. "It's all she does love, then," Mrs. Lovelock declared with a sniff.

"Mrs. Lovelock invariably alluded to the warty inlaid as 'One of those painted ones.' Mr. Scarlett's old cab lumbered past the tiny village green, past the little row of thatched cottages which were supposed to be many hundreds of years old, and sharply round to a lane where, behind a high holly hedge stood her uncle's little house, hiding its ivy-clad walls from the gaze of passers by.

(Copyright, 1933, Doubleday Doran) Georgie's homecoming, tomorrow.

Poet Edwin Markham, who wrote "the Man With the Hoe," has sued in Chicago to collect a promised annuity, explaining that he needs the money. Sounds like Mr. Markham is now "The Man With the Owe."

PREDICT EUROPE IN PLOT TO FORCE WAR DEBT SETTLEMENT

FIRST BALE COTTON
MISSION June 13 (AP)—The season's first bale of cotton, grown near Mission, reached Houston today a scant half hour ahead of one from Rio Grande City. Torilo Garcia grew it, rushed it to a gin company last night and it was started by truck from Mission just before midnight. The bale weighed 410 pounds.

QUESTION WAS FORBIDDEN IN PARLEY PLANS

AMERICANS ARE LEFT SPEECHLESS AFTER DEBT FLAREUP

LONDON, June 13. (AP)—The development of a European bloc of debtor nations to force America to settle the war debts question immediately was predicted today by close observers at the world economic conference as leading delegates took the floor to expound the views of their governments.

Sensation followed sensation in the morning session, which met in a state of excitement as a result of the war debts crisis with which the British cabinet was wrestling.

First, Secretary of State Hull who was to deliver the first speech did not appear, and Premier Daladier of France took his place.

The word from American delegation headquarters was that there had been a delay in preparing Mr. Hull's speech.

It was denied that the debt crisis had anything to do with the delay, although it was understood that the Americans did discuss the debt imbroglio, which Premier MacDonald of Great Britain, chairman of the parley, precipitated yesterday by raising the question of inter-governmental debts on the floor of the conference, against the wishes of America.

The Finance Minister Jung of Italy and General Jan Christian Smuts of the Union of South Africa took the floor and in substance reiterated MacDonald's controversy-producing remarks yesterday.

James M. Cox and Sam D. Reynolds were in their seats during the later addresses and the other American experts were all present listening attentively. No American answer was forthcoming, however.

South Africa's veteran fighting statesman went even further in his attack than any up to that time. He declared that from the Lausanne settlement financial problems were arising.

The United States, General Smuts maintained, "failed to fall in line" after the Lausanne reparations conference.

Thus, although it had been previously agreed that war debts had no place on the conference agenda, three of the first four speakers, including Chairman MacDonald himself, brought up the forbidden subject.

The American reaction to today's swift-moving developments ranged from jocular speculation as to the time when delegates would get a cablegram to return home to an expression of the belief that it was better for the difficulties to come at the start of the conference than later.

PAMPA TOPICS OF OUR CITY

(Continued From Page One)

ties description will provide the first big thrill of the fair.

DELAY IS FORTUNATE

Erdine Benton, Pampa girl now in Chicago, has written her parents that a few weeks delay in making the trip will be advisable because not all exhibits will have been placed for some time. The fair will be in the full bloom of its magnificence by the time the Pampa train arrives.

Some of those in the party will make a grand rush for the "Rocket Car," operated between towers which rise over 600 feet in the air.

Daily the trippers will rub elbows with Eastern potentates, East Indians, Arabs, Europeans, Asiatics, Africans, natives of islands of the Seven Seas—a bizarre mingling of people of the earth.

DETAILS ARE SIMPLE

Each day the Pampa trippers can be broken into small groups having in mind special trips, and tours will be made up on that basis. Thus the program will be based upon individual desires on the ground, rather than in advance. This system is being found to be most satisfactory by those who are making similar trips.

Mr. and Mrs. Jack Mason write that they have just seen the fair and that it is all claimed for it. They urge their friends to sacrifice other pleasures, if necessary, so as not to miss this opportunity of a lifetime.

Pampans Attend Amarillo Picnic

The staff of the American National Life Insurance company, Pampa branch, attended a fried chicken picnic of all branches at Elwood park in Amarillo Saturday night. A "big time" was had by all.

Members of the Pampa staff attending were Mr. and Mrs. D. Brazell and family, Mr. and Mrs. John McCall, Mr. and Mrs. A. E. Speed and family, Mr. and Mrs. Robert McClanahan, Mr. and Mrs. Ivan Ernhart and family, Miss Ruth Casey, Charles Barrett, Austin Minton and C. L. Brown.

L. C. Gardner of Tulsa was a recent business visitor.

Mrs. H. E. Scott of Skellytown was in Pampa Saturday.

ference at London and in regard to war debts was construed as Bearish. Opening at 1 1/2-1 cent decline, both wheat and corn continued to fall.

TAX BOARD TO MEET IN JULY

Wayside School District To Send All Its Pupils To Pampa in Next Term

THE board of equalization of the Pampa Independent school district will meet to consider oil assessments July 17, it was decided by the trustees in a meeting Monday afternoon.

Real estate values will be considered somewhat before and after this date. The equalization board is composed of M. K. Brown, Siler Folsom, H. with friends. Mr. Boyd, however, has told the trustees that he will likely be unable to serve.

The body of an old bus was sold to the Wayside school district, which next term will send all its pupils to school in Pampa, paying their tuition and transportation.

The board purchased seven new Royal typewriters for the commercial department.

ON EXTENDED VACATION

Mrs. W. C. Hutchinson and sons, John and Billie, of Berger, left yesterday for a motor trip to visit Mrs. Hutchinson's parents and other relatives in Lima, Ohio, stopping en route at Skiatook, Okla., and Robinson, with friends. Mr. Hutchinson will leave during August and the party will visit the World's Fair at Chicago on the return trip.

The Hutchinsons are former Pampa residents. They visited at the home of Mr. and Mrs. A. E. Speed Sunday before leaving.

OFFICERS GET WHISKY

Officers of the sheriff's and constable's department seized a quantity of whisky this morning and made one arrest. They obtained a pint bottle of whisky, a half-gallon container half full, and eleven empty pint bottles. The man held had not been arraigned this morning.

Mrs. O. V. Hunt was here from Denworth Saturday.

W. B. Bawcum was admitted to the Pampa hospital for a major operation Monday afternoon.

Jaysees Begin Planning For Frontier Days

Having successfully directed the formal opening of the municipal swimming pool, the Pampa Junior chamber of commerce today turned to plans for its second annual Frontier Days celebration of August 8, 9, and 10.

Gilmore N. Nunn spoke briefly on the Frontier Days and outlined the preliminary work already being done.

Reports on the water carnival, bathing beauty revue, and dance in connection with the opening of the municipal pool showed a profit of \$158.10 to the Jaysees.

The guest today was Leo Brewster of Fort Worth, former president of the Fort Worth Junior chamber of commerce, who told of activities of his home organization.

TICKET DEADLINE NEAR

June 15 will be the last day in which to buy season tickets at the municipal swimming pool, according to V. D. Pruitt, co-manager.

Mr. Pruitt also called attention to the fact that the pool does not open until 1 p. m. on Sundays. A number of persons have appeared earlier only to learn that the pool was closed.

CONFERENCE

(Continued from Page 1)

A battle which may do much to determine the extent of American participation in the conference proceeded behind the closed doors of the steering committee's room.

The French insisted that the chairmanship of the monetary committee should go to a gold standard country—presumably to their own finance minister, George Bonnet—and Mr. Hull was just as insistent that the original intention of naming James M. Cox, American delegate, be carried out.

LONDON, June 13. (AP)—The world economic conference today ended its second day's session. During which Secretary of State Hull and most of the American delegation absented themselves, with two

major crisis boiling up. Both involved the United States as a point of attack by other nations.

The first storm revolved about the war debts, which was precipitated into the conference by the addresses of delegates despite the fact that the subject was barred from the agenda. The other imbroglio concerned monetary matters.

Delegates and observers, as the day proceeded, voiced the view that it was obvious that European blocs were being formed to force the hand of the United States on those questions so as to get immediate settlement of the war debt problem and to bring the American monetary viewpoint around to that of Europe.

CONGRESS

(Continued from page 1)

legislation gets into operation.

"I appeal to mortgage creditors," he said, "and all others who have claims against home owners and ask them, until full opportunity has been given to make effective the refinancing provisions of the home mortgage act, that they abstain from bringing foreclosure proceedings and that they abstain from seeking to dispossess the home owners who are in debt to them."

Mr. Roosevelt signed the bill allowing owners of mortgages on homes up to \$20,000 to exchange this paper for government bonds at an interest rate of 5 per cent in the presence of the home loan bank board which will administer the act.

RACES

(Continued from page 1)

be as large as last year when over 125 horses were brought to Pampa, but the quality of the horse flesh is already much better than in any preceding year.

Up to Sunday night, 20 horses had been entered. Some of them have already raced at New Orleans, Arlington Downs, in Colorado, and in Kansas this year. They are smooth and in good condition. About 75 horses are expected to compete in the races.

The new grand stand, seating 1,000 persons will be dedicated Friday. Labor for erection of this grand stand was paid for out of R. F. C. funds. A free barbecue will be served to the crowd at noon Saturday.

W. McElroy of San Antonio who recently entered fine horses in meets at Quebec and Montreal, Canada, and New Orleans, entered the first racers, according to Supt. Davidson. Arthur Brennan is associated with McElroy. Boots Armstrong is jockey for the McElroy-Brennan string.

So Tired and Nervous

She Couldn't Sleep Well

"I was in a very nervous condition," writes Mrs. J. S. Odum, of Waycross, Ga. "I did not sleep well at night. I would get up in the mornings feeling all tired and worn out. My appetite was poor. My mother-in-law thought Cardul would help me. After I began taking it my appetite increased. I rested better at night. I kept taking Cardul until I felt well and strong. I know it did me a lot of good. It is splendid for nervousness and other troubles that young women have." Cardul is sold at drug stores here.

Reach for a Lucky
—for always
Luckies Please!

LUCKY STRIKE CIGARETTES
"IT'S TOASTED"

Mildness...fragrance...purity
how real they are in Luckies!

Have you ever happened to wonder why "Toasting" is so important to Lucky Strikes? It's really on account of you. For "Toasting" plays a bigger part than you might think in making Luckies so mild and fragrant and pure. Remember, your cigarette comes in rather close personal contact with you, and if it weren't for "Toasting's" purifying heat, even Lucky Strike's choice tobaccos could scarcely be as mild, so pure. So you see what a big part "Toasting" has in making "Luckies Please!"

—because "It's toasted"

FIRST LADY TO RECEIVE TEXAS PRODUCTS FROM CLUB WOMEN

PART OF GIFTS FROM MEMBERS OF PANHANDLE

BASKETS AND CONTENTS ARE DISTINCTIVE STATE PRODUCTS

COLLEGE STATION, June 13 (AP)—When Mrs. Franklin D. Roosevelt is presented with two huge baskets filled with a balanced meal of canned and fresh products during the national 4-H club camp in Washington, D. C., June 13-21, she will be the recipient of a general supply of Texas home canned products, and of two distinctive southwestern baskets.

All the canned stuff has been supplied by Texas 4-H club girls and home demonstration club women at the request of Washington officials. It is disclosed by Miss Bess Edwards, assistant state home demonstration agent in the extension service of the Texas A. & M. college. The basket containing the canned products is the work of the Alabama Indians on their reservation in Polk county, and the receptacle to be filled with fresh vegetables from the eastern states is a huge cotton basket manufactured at Marshall, Texas.

Canned products have been furnished by the following rural Texans: Mrs. A. M. Lefever, Edinburg, Hidalgo county; Mrs. O. A. Blankenship, Amarillo, Potter county; Nauda Pierce, Azle, Tarrant county; Mrs. Willard Ferguson, Mission, Hidalgo county; Mrs. Edwin Schmidt, Brenham, Washington county; Mrs. Tom Shelton, Rellly Springs, Hopkins county; Mrs. L. R. Murphy, LaFeria, Cameron county; Ima Pae Franklin, Bryan, Brazos county; Marge Bosworth, Pine Hill, Rusk county; Mrs. W. E. Miller, Floydada, Floyd county; Huldah Schumate, Grayson county; Merline Moon, Rusk county; Joy Lou Hardy, Hart, Castro county; Tropical Foods association, Harlingen, Willacy county; Bekter 4-H Products association, Kingsville, Kleberg county; and Comet Rice company, Beaumont, Jefferson county.

Husbands Guests Of Needlecraft Circle

Husbands of members were entertained by the Needlecraft club Monday evening, with a box supper at the home of Mr. and Mrs. Orin Colvin. Earl Phillips auctioned the boxes, and the evening was spent playing indoor and outdoor games. Those present were Mr. and Mrs. Earl Phillips and children, Mr. and Mrs. O. L. Morris and children, Mr. and Mrs. Jerry Lockard, Mrs. Mary L. Huffard, Misses Margaret Huffard and Velma Smith, Louis Hughes, and Vernie Hicks.

Women Of Christian Council Given Prize

The Women's Council of the First Christian church was given a prize of \$10 recently by the Pampa Glass and Paint company for having registered the largest number of women for the paint demonstration held at the store. The demonstration, which was given by a representative of the Pittsburgh Plate Glass company, paint division, was well attended.

SPORT SHOES of distinction

Advertisement for Carter's Men's Wear, featuring sport shoes and a long trip on a nag. Includes prices for friendly fives and fortune shoes.

Advertisement for G. C. Malone Funeral Home, featuring phone number 181 and Packard Ambulance.

'Barefoot Club' Named For Woman Cabinet Member

CHARLOTTE, N. C., June 13. (AP)—It may not have been a "shoeless south" before Secretary of Labor Perkins commented that this section of the country was an open market for shoes but if things keep going, it may be. In Sylvia, N. C., plans are going forward to forming a Frances Perkins Barefoot club with Jean Hastings Sylvia business man, already elected president. A dozen have joined the organization. The rules call for its members to go barefoot at least three days a week.

Mrs. Stark Talks At Church Meet

Mrs. G. C. Stark, president of the Central Baptist Woman's Missionary society, spoke yesterday afternoon at an all-day workers conference of the Canadian Baptist association. Her subject was the value of a first class missionary society to the local church. Others attending the meeting from Pampa were the Rev. W. O. Cooley, Mesdames Cooley, Brewer, and S. L. Anderson.

Auxiliary Is Near Membership Goal

More than 200,000 members enrolled during May placed the American Legion Auxiliary well beyond 75 per cent of its membership goal for the year by June 1st, according to a membership report received by the local Auxiliary unit from national headquarters. The report showed a total of approximately 315,000 members already enrolled for 1933. More than half of the Auxiliary's 52 departments have secured 75 per cent or more of their year's membership quotas, with the Departments of Panama, Montana, Alaska, California, Rhode Island, South Dakota, Ohio, Wisconsin, Tennessee, and Connecticut leading in the order named.

The Social CALENDAR

WEDNESDAY: Lottie Moon circle of Central Baptist Missionary Society meets with Mrs. Walter Brown. Misses Katie Dell Hill, Ann Ward, and Minnie Mae Grubbs of College Station will visit demonstrators in county home demonstration clubs, and score Opal Pinnell's bedroom for district placing. Glad Girls class of First Baptist Sunday school will hold a business meeting in their classroom at 2 p. m. Wednesday. THURSDAY: A breakfast at the home of Mrs. Roger McConnell, 9 a. m., will entertain the Tuesday Afternoon club. Regular and social meeting of American Legion Auxiliary at Legion hut, 8 p. m. Members urged to attend. Mrs. E. A. Hampton will entertain the Thursday Night club, 8:30. FRIDAY: Home Demonstration club women will observe county wardrobe achievement day with an all-day program at First Baptist church. Regular meeting with initiatory work of the Order of Eastern Star at Masonic hall, 8 p. m. Members and visiting members urged to attend. SATURDAY: Girl Scouts meet at Wilson school, 6:15 a. m. for swimming party and breakfast. Sunshine 4-H girls club meets at office of home demonstration agent.

Author Of Horse Race Bill Making Long Trip On Nag

SAN ANTONIO, June 13 (AP)—Threading his way through a maze of garbage cans in back alleys to avoid the slippery pavements, Rep. J. C. Duval left here on horseback today in a drizzling rain for Fort Worth, his home town. He is making the unique journey to fulfill an idle boast about what he would be willing to do if the state legislature passed his horse racing bill. Friends anxious to see that Duval doesn't hop any rides sent Gary Thurman, a 13-year-old San Antonio youngster, along on a second horse to set the pace. Duval hopes to complete the trip within ten days. THOUSAND ENROLL: LUBBOCK, June 13 (AP)—Enrollment at Texas Technological college for the first summer term totaled 1,961 students, President Bradford Knapp announced today. Registration closed Monday. John Nail of LeFors was in the city last night.

GIRL IS U. S. 'SECRET KEEPER' AS DELEGATION'S ARCHIVIST AT LONDON ECONOMIC MEET

By SIGRID ARNE WASHINGTON (AP)—Celeste Jedel—brown-eyed, and only 22—must be added to the list of women in foreign fields under the program of the Roosevelt administration. Miss Jedel has gone to London with the American delegation to the world economic conference, bearing the official title of "archivist." She was appointed to the delegation from her regular post in the office of Raymond Moley, assistant secretary of state. "Secret Keeper Extraordinary" Her duties in London make her "secret keeper" extraordinary in spite of the moss-covered tradition about women and secrets. She is in charge of the official papers—receiving, relaying and filing official messages between Washington and the conferees. Miss Jedel gathered in her sheepskin from Barnard college just two years ago. Armaments, war debts and trade treaties are filling the air around her now. But Miss Jedel's associates here simply look amused when suggestions are made that they constitute a rather heavy diet for a young lady. Diplomatic Urge Came Early When she attended high school in New York, where she was born, she sat down and wrote the state department for advice on how to get into the diplomatic service. She plowed doggedly through geography, history and economics. She was still floundering with her ambition when she signed for courses in the classes of Prof. Raymond Moley, then at Columbia university, now assistant secretary of state. He pointed out that she must study government. She must have done it with her mind. Now she has a Phi Beta Kappa pin, and she spent a summer at the Geneva school of international studies on a Barnard fellowship. Even before Miss Jedel had her diploma she stepped into the active field. She was made one of the research assistants that aided Moley when he took part in the Seabury investigation in New York. She was part of the staff that went with him when he was named research director of the New York state commission on the administration of justice. Then came the move to the state department. Miss Jedel was named to the staff. Three months passed and she sailed for London. In that case, says the bureau of home economics of the U. S. Department of Agriculture, why not provide at least a part of the winter's food by drying some of the fruits and vegetables now coming on? Drying is the very oldest, the simplest, and the cheapest of all methods of preserving perishable foods. It requires very little equipment, no specially made containers, and dried foods require very little storage space. Food Keeps Safely The process of drying is merely the removal of the water which forms most of the bulk of fresh fruits and vegetables. The dried foods keep because the organisms of spoilage can not grow without this water that is removed. In sunny climates, all you need in the way of equipment for drying fruits and vegetables in small quantities is something on which to spread them in the open air and sunshine. Canvas boards, a porch roof, canvas, heavy wrapping paper or sheets of paper, held in place by strips of lath along the edges—these do very well. For large quantities you need trays, but they are easy to make. Light wooden frames with lath bottoms serve the purpose. To keep out insects, cover the drying food with muslin or cheesecloth tacked over the trays. Vegetables to Dry The vegetables that can be dried most successfully are sweet corn, beans and peas, and okra; the fruits are apples, pears, peaches, and apricots. The fresh products should always be of good quality. Vegetables, after being otherwise prepared, are "blanched" or scalded, with hot water or steam. Fruits are not treated in this way, but instead may be held in salt water until ready for the drier, or they may be treated with lime—these for a short time before drying begins, to prevent discoloration and souring, and to keep off insects. The sulphuring is accomplished by placing the trays, or stacks of trays in a large covered box out of doors, the box is rammed on bricks or blocks of wood, over a pan of burning sulphur. An after-curing or conditioning process is recommended when products have been dried at the high temperatures. Pile the material while still warm upon a clean surface, on trays or in a shallow box, in a dry place protected against insects, and stir it at daily intervals for ten days or two weeks, to distribute the remaining moisture equally throughout the mass. When a given lot of material has become evenly dry, it should be stored in containers that are airtight or nearly so, and they should be kept in a dark or semi-dark place, to prevent discoloration. Tins cans with close-fitting tops are good containers.

Even before Celeste Jedel was graduated from college she wanted to enter the diplomatic service. Now, at 22, she's archivist for the American delegation to the London economic conference.

Drying Of Foods Is Cheaper Than Canning To Save

For any family that must economize, now is the time to think about food for next winter—especially the kinds of food that would cost more then. Some part of the garden crops now coming on should be stored, some should be canned. But suppose we lack the cellar space for enough potatoes, cabbage, carrots, and apples? Suppose that for all our plentiful garden, we have not the jars or the cans in which to put up enough berries and tomatoes, corn and beans to carry us through the winter? Suppose we do not have a pressure cooker for the vegetables that must be canned at very high temperatures? The cost of the tools to work with sometimes interferes with a canning program. In that case, says the bureau of home economics of the U. S. Department of Agriculture, why not provide at least a part of the winter's food by drying some of the fruits and vegetables now coming on? Drying is the very oldest, the simplest, and the cheapest of all methods of preserving perishable foods. It requires very little equipment, no specially made containers, and dried foods require very little storage space. Food Keeps Safely The process of drying is merely the removal of the water which forms most of the bulk of fresh fruits and vegetables. The dried foods keep because the organisms of spoilage can not grow without this water that is removed. In sunny climates, all you need in the way of equipment for drying fruits and vegetables in small quantities is something on which to spread them in the open air and sunshine. Canvas boards, a porch roof, canvas, heavy wrapping paper or sheets of paper, held in place by strips of lath along the edges—these do very well. For large quantities you need trays, but they are easy to make. Light wooden frames with lath bottoms serve the purpose. To keep out insects, cover the drying food with muslin or cheesecloth tacked over the trays. Vegetables to Dry The vegetables that can be dried most successfully are sweet corn, beans and peas, and okra; the fruits are apples, pears, peaches, and apricots. The fresh products should always be of good quality. Vegetables, after being otherwise prepared, are "blanched" or scalded, with hot water or steam. Fruits are not treated in this way, but instead may be held in salt water until ready for the drier, or they may be treated with lime—these for a short time before drying begins, to prevent discoloration and souring, and to keep off insects. The sulphuring is accomplished by placing the trays, or stacks of trays in a large covered box out of doors, the box is rammed on bricks or blocks of wood, over a pan of burning sulphur. An after-curing or conditioning process is recommended when products have been dried at the high temperatures. Pile the material while still warm upon a clean surface, on trays or in a shallow box, in a dry place protected against insects, and stir it at daily intervals for ten days or two weeks, to distribute the remaining moisture equally throughout the mass. When a given lot of material has become evenly dry, it should be stored in containers that are airtight or nearly so, and they should be kept in a dark or semi-dark place, to prevent discoloration. Tins cans with close-fitting tops are good containers.

Texas Governor Is Fifty-Eight Years Old Today

AUSTIN, June 13. (AP)—This is Governor Miriam A. Ferguson's birthday anniversary. Fifty-eight years ago she was born in Bell county. Thirty-four years ago she was married to James E. Ferguson, four years her senior and also a native of Bell county. Ferguson was elected governor twice and so was Mrs. Ferguson. She is now serving her second term after an interim of six years. Governor Ferguson did not plan any special observance of her "birthday." She expected to go about her usual tour of duty in the executive offices.

Paul Wakefield Now Living In 'Norman House'

By R.W. BARRY. AUSTIN, June 13 (AP)—Paul Wakefield, secretary to R. S. Sterling during his tenure as governor, has retired to Normandy farm. It isn't in the country, but is a fine residential section just south of the Colorado, with a panoramic view of the capital and Austin. In fact, it is a farm at all but a house of Norman architecture and characteristics, built by Wakefield. Wakefield planned the place while on the Atlantic homeward bound after a season as a newspaper correspondent in Europe. That was in 1924 and he has been gathering bricks and suitable decorations through the years. He started construction work on the house four months ago. He went to Normandy to interview an Englishman of importance and stayed three or four days in the little Norman house occupied by his host. Wakefield made up his mind that someday, when he found the proper surroundings for a little Norman house, he would reproduce the one that attracted his fancy. He has at last accomplished that. It has all the Norman touches, even to a stork's nest on the roof. Perched on the nest is a stork—of clay. Bruce Bryant has retired as first assistant attorney general. He has been succeeded by Elbert Hooper in the place of second to Attorney General James V. Alford. Bryant has been out several weeks. He left quietly and did not announce his future plans. The attorney general did not let the newspaper correspondents in on the change. One of the few times there has been an item of news in his department he did not tip off the "press boys." Bryant resigned a district judgeship with a salary in excess of the one the state job paid to be with his friend, Alford, when he came to the attorney general's office in 1931. They had been friends for many years and Bryant, much older than the attorney general, had served as his coach in state politics. oneaw AHM T. S. Skibinski of White Deer transacted business here yesterday. (Adv.)

4-H CLUB GIRL SHOWS CALLERS WINNING ROOM

OPEN HOUSE IS HELD IN IMPROVED BEDROOM

HER room, which won a county contest of 4-H club girls, is being shown to callers this afternoon by Opal Pinnell, member of the Hopkins club. She is holding open house in one of a series of county bedroom improvement achievement programs. Miss Pinnell, 15-year-old daughter of Mr. and Mrs. G. Pinnell, was recently declared winner of the girls' bedroom contest in Gray county. Her room was then entered for district honors, and will be scored tomorrow when Miss Katie Dell Hill and Miss Ann Ward of the state extension service, and Miss Minnie Mae Grubbs, district home demonstration agent, visit it. Club Members Invited All 4-H club girls and home demonstration club women were especially invited to attend the open house this afternoon. Miss Pinnell is showing them the furniture which she refinished as a major item of her improvement project, and explaining that she traded furniture to secure pieces more suited to her room, that she added a "remodeled" fire, worn-out bedroom and made an up-to-the-minute room fit for the queen of England. Her expense account was only \$1.70, and in her own words the club girls "remodeled a tired, worn-out bedroom and made an up-to-the-minute room fit for the queen of England." Her open house this afternoon ends a series of club meetings displaying improved bedrooms in the county. Each bedroom demonstration in women's demonstration clubs has been hosted at a similar event.

Chic For Sports

ROUGHLY woven white wool makes the two-piece sports suit worn here by Ruth Channing, film favorite. It has royal blue for royal touches. The skirt has deep inverted box pleats and the pull-over sweater has its cowl neckline of blue.

PERSONALS

Miss Marjorie Richardson of Canadian spent yesterday in Pampa. Harold Benton of Clinton is visiting friends here for a few days. E. D. Heehs of St. Louis, representative of the Goodyear Rubber company, was in Pampa today. O. H. Holland of Oklahoma City was a Pampa visitor yesterday. J. C. Langford of Amarillo was in Pampa this morning. Mr. and Mrs. C. A. Marris of Wichita Falls are visiting friends here. S. P. Rude of Enid is a Pampa visitor for a few days. W. J. Shea of Oklahoma City is visiting in Pampa this week. E. Berg of LeFors transacted business in Pampa yesterday. B. F. Jackson of Miami was in the city today. E. T. Ward of Wheeler made a business trip here yesterday. Little Freddie Nell Beckum was admitted to the Pampa hospital this morning for a minor operation. Walter Jones of Laketon transacted business here yesterday afternoon.

JOBLESS GIRLS SETTLING INTO CAMP ROUTINE

First Arrivals At Forest Resort Benefited

LAKE TIORATI, N. Y., June 13 (AP)—Sunburned faces and healthy appetites ruled Camp Tora today as 20 unemployed girls were settling down in this summer resort established by federal relief agencies at the instigation of Mrs. Franklin D. Roosevelt and Secretary of Labor Frances Perkins. When they arrived Saturday, the girls were listless, tired, and apparently undernourished. The travails they had undergone of months of fruitless job seeking, often with not enough to eat and no place to sleep, were etched in their drawn faces, their weary steps. But 48 hours of plentiful food, sleep and fresh air has put a new spring in their walk, an eager light in their eyes. Already they are beginning to show beneficial results of their life in this 200 acres of woods on the banks of Lake Tiorati. Their menu today consisted of: breakfast—Oatmeal and milk, toast and coffee; lunch—roast lamb, mashed potatoes, spinach, rice, pudding and milk; supper—ham, potato cakes, coffee and cake. Marian Tinker, director of the camp, says the girls will not participate in strenuous exercise until they are in better physical shape. However, most of them could not resist the lake's cooling waters and late yesterday found them swimming. Although they are not required to do any work, except nominal household duties, they will be given vocational training if desired. Most of them already have requested that they be given lessons in stenography, sewing, and cooking. GUESTS AT RECTORY The Rev. and Mrs. N. C. Smith entertained at dinner yesterday Bishop E. C. Seaman, Mrs. Seaman and son and daughter, Henry and Mary; the Rev. Mr. Foster and Mrs. Foster, all of Amarillo, the Rev. L. L. Swin, and Mrs. Swan, of Clarendon. CLASS EXECUTIVE MEETING Dorcas class of First Baptist church will hold an executive meeting at the church Wednesday afternoon at 2 o'clock. TO HONOR MOTHERS Rainbow girls will give a covered dish dinner Thursday evening at 6:30, in the Methodist church basement. Mothers of the members will be honor guests, and each girl is asked to be present with her mother. Mrs. F. W. Osborne of Miami shopped in Pampa Monday. W. E. Lowe of Kingsmill was a Pampa visitor yesterday. Miss Edith Bybee of Alanreed shopped in Pampa yesterday. M. V. Ward and E. V. Ward, accompanied by Miss Bernice Young, all of Greeley, Colo., are visiting with Mr. and Mrs. C. E. Ward. Mrs. Ekman of Goodlett is visiting in McLean this week. Texola Harlan of McLean visited in Pampa Sunday. Miss Una Sharp, nurse at the Pampa hospital, is ill today with an attack of appendicitis. Little Miss Catherine Stapp of Alanreed had her tonsils and adenoids removed at Worley hospital yesterday, and returned home last night.

NEW STUDY IS STARTED WHEN CIRCLES MEET

WOMEN OF METHODIST CHURCH LAUNCH NEW COURSE

ALL circles of the First Methodist Missionary society began the study of a new Bible course, "What the Bible Is," at meetings yesterday afternoon. Members of circle 1 were guests of circle 4 in a joint meeting at the Brotherhood classroom at the church. Mrs. W. R. Campbell presented the opening lesson of the new course, and Mrs. Tom Cook discussed the devotional topic. Circles 1 and 4 At the close of the study hour, circle 1 invited their hostesses to the basement for refreshments of angel food cake, pineapple whip, and iced tea. Visitors were Mrs. T. C. Lively and Mrs. Brazell. Members of the two groups present were Mesdames Carl Boston, Ralph Chisum, H. L. Wilder, C. R. Nelson, C. R. Price, Joe Shelton, Paul Jensen, Luther Pierson, D. C. Whittenberg, Carl Sturgeon, H. R. Thompson, James Turner, Edwin Vicars, Allen Campbell, Cook, Neal Cross, Sherman Roberts, and J. G. Stroope. Circle Two Mrs. W. Purviance was hostess to circle 2 at her home, and directed the lesson. Cookies, sandwiches, and iced tea were served during the social period to a guest, Mrs. Caughey, and the following members: Mesdames O. H. Booth, R. K. Elkins, Lee Harrah, John Hessey, Horace McBee, C. T. Nicholson, J. E. Ward, Ray Crutinger, A. A. Kelley, Robert Morris, Roger McConnell, and Purviance. Circle 3 met with Mrs. R. W. Lane with Mrs. Jim Collins as hostess. Mrs. C. A. Long introduced the new Bible study, and Mrs. M. E. DeTar told the primitive love story of Isaac. Punch and wafers were served. Mrs. Roy Bourland and Mrs. W. M. Lane were guests. Circle members present were Mesdames Joe Gordon, H. F. Barnhart, Sherman White, Harry Hoare, Jim Collins, Louis Robinson, F. M. Culberson, M. E. DeTar, C. A. Long, Howard Neece, H. O. Roberts, Neal Beaver, H. S. Beatty, and R. W. Lane. ONE THOUSAND WILL BE GIVEN JOBS 'DRESSING UP' PALO DURO

PROJECT WILL BE COMPLETED IN SIX MONTHS

NEW STATE PARK WILL BE 8 MILES LONG, AND 3 WIDE

AMARILLO, June 13 (AP)—The Palo Duro canyon which cuts a yawning chasm across the Texas plains, known to the nation over for their otherwise deceptive sameness, will become the site for camps accommodating 1,000 of Texas' 12,000 reforestation units.

Panhandle people who have dreamed of a quarter-century of a recreation park and public playground within the vast fissure which artists claim rivals the Grand canyon in riotous colors and grotesque formations, will see their dreams fulfilled as a result of the projects.

They expect within six months to be able to drive down into the canyon and camp among the craggy peaks, flat-topped mesas, steep valleys and terraced rocks—all glowing in vari-colored hues—which heretofore they have viewed mostly from a distance or after long and treacherous climbs.

The canyon, where the park will be located, is about three miles wide and 1,500 feet deep. For six months striking features is that one comes upon it without warning, a drive across the level plains ending abruptly at the rim of the great gorge. Every color of the palette is found along the canyon walls, with greens and reds and browns predominating. The lowering light-house carved by nature and camel peaks are among its peculiar formations.

The new state park which will result from the reforestation camps will include 14,466 acres in one of the most scenic spots of the canyon. It will be 8 miles long and three miles wide. For six months 800 men will build roads, bridges, bridge paths, dams, lakes, and stone houses. Additional trees will be planted, those native to the canyon will be trimmed and the underbrush cleaned out.

To Cost Half Million
The state board of engineers has mapped the drainage of the canyon and sites for dams and lakes have been decided. The national park service will do the landscaping. The first of the workmen are expected by June 15 or 20.

The other 200 men allotted will be stationed on a half-section park near the head of the canyon immediately south of Amarillo. This site heretofore has been private.

Appropriations of \$90,000 were made for materials for the five camps. Much of the material will be found in the canyon. The total expenditure by the government will be in the neighborhood of half a million dollars, \$180,000 being spent for labor at a dollar a day. None of it will be repaid.

The development will give the Panhandle its first state park.

To Rebuild Camps
Panhandle history has been closely woven about the Palo Duro. The late Col. Charles Goodnight, early day cattle baron of the area; found it filled with herds of buffalo. Indian tribes formerly camped along the canyon stream where water, food and fuel were available. Marauding tribes who slipped away from the reservations in the Indian Territory in later years used the canyon as a rendezvous until United States soldiers drove them out.

Colonel Goodnight built his first home inside the canyon. His cabin will be reconstructed and a highway built through the canyon and dedicated to his memory.

HARVESTER CAGERS MAY ALSO PLAY CHAMPION GIRLS' TEAM

Durant Cardinals Play Boys Rules; Pampa Girls Are Practicing For Game

A North American girls' championship basketball team will come to Pampa Saturday night to play a game in the local gymnasium. The team will be the Cardinals from the Oklahoma Presbyterian college at Durant, Okla. The squad is en route home from Calgary where it won the right to go to England to represent North America for the international title.

An effort is being made to have half the game played against a picked girls' team and the other half against a team of Harvesters and ex-Harvesters. The Durant girls play boys' rules, that being the kind of play met in Canada. If the Cardinal coach agrees, the first half will be against the team he selects to meet first.

The girls are twice national champions and once North American champions. Eight girls made the trip to Canada with their coach and sponsor, S. F. Babb of Durant. The game will start at 7:45 o'clock. Coach Kelley will select his starting lineup from the following stars of Pampa high school, present and past:

Eura Rose, Minnie Neal, Ruby Brown, Yvonne Thomas, Louise Waistad, Mary K. Martin, Virginia Rose, Lorena Weir, Harriett Hunkapillar, Daisy Ann Shields, Alma Gregory, and De Ann Heiskell. The girls practiced at the gym before 8 o'clock this morning.

Coach Odus Mitchell would select a team from:
Miles Marbaugh, Robert Woodward, Hoot Pullingim, Jess Patton, Wayne Kelley, Leslie Sartin, J. R. Green, and others.

Fliers Land In Haiti Mud Flat

PORT AU PRINCE, Haiti, June 13 (AP)—Capt. J. Errol Boyd and two companions worked today to get their airplane out of mud flats near St. Marc, Haiti, where they were forced down after flying 2,471 miles non-stop from New York.

Capt. Boyd, Robert G. Lyon, the co-pilot, and H. P. Davis, an observer, suffered no injury when their ship, the Columbia, came down last night. The plane was not damaged.

A marine corps airplane was ready to fly to their aid and the American aviators expected to leave for Port Au Prince for an official reception. After resting today and tomorrow, they planned to fly back to New York, whence they took off Sunday on their good will journey.

Several hundred persons, including diplomats, officials, and social leaders, anxiously awaited their arrival here yesterday, but at 6 p. m. darkness and a heavy rain drove them home, disappointed. An hour later they received news of the safe landing.

UNSETTLED TUMMIES
KANSAS CITY (AP)—Charles Kuehlein, 17, and Lyle Sledge, 18, got a special thrill out of the American Air Race association meet which thrilled hundreds here yesterday. They stowed away in the huge tri-motored stunt ship of George Burrell of Chicago. Burrell, ignorant of their presence, looped, rolled and dived with vigor.

White-lipped, the boys were captured by police when they staggered from the plane as it landed. "I didn't mind the loops so much," said Sledge. "It was the barrel rolls that got me."

Dorothy Anna and Pansy Marie Forter and Raymond Sndler of Guahah are visiting in the J. J. Watt home in McLean.

GREER BEATS CATS 12 TO 4 FOR HOUSTON

BUFF HURLER DRIVES IN THREE RUNS, ONE A HOMER

By The Associated Press
Instead of jumping the team as rumor had he planned to do, Ed "Caveman" Greer, star pitcher for the Houston Buffaloes, personally beat the Fort Worth Cats Monday, 12 to 4, to help his mates retain first place.

After Greer had trimmed the Cats, George Washington Payne, who was a hold-out last spring, had the Cats trying to hold on when he stopped them with one hit for a 2 to 0 victory. The double win furnished by Greer and Payne increased the Buffaloes' pennant margin.

Greer held the cats to nine scattered hits, drove in three runs with three hits, one a home run. Eddie Hock and Manager Carey Selph aided the cause along with three hits each. A five run rally in the second settled all doubts about the game.

The second place Galveston Buccaneers made a one night stand in Dallas. It was enough time for them to bump off the Steers, 6 to 2. Galveston clouted the year old in the pinches. Moore held the Steers to five hits. Never was he in danger of losing. The victory allowed Galveston to replace San Antonio in second place, dropping the Missions to third place.

Beaumont rampaged against San Antonio for a 9 to 1 decision. Elden Auker, who has an assortment of freak side-arm curves with a mixture of submarine pitching, held the Missions in check with ten hits. The Tulsa Oilers experienced no trouble in beating the last place Oklahoma City Indians, 11 to 6.

SHOOTS FOR NINE BIRDIES
CANYON, June 13.—Shooting for nine birdies in nine consecutive holes of golf was the experience of Jimmie Gamewell, eighteen year old Canyon golfer last Sunday. He actually made six birdies, giving him a score of 30 for the nine holes, having a par 36. The record was made on the Borger, Texas course where members of the Canyon club were guests for the day.

D. G. Sims was in the city from Mobeetie Saturday.

Schmeling Will Marry Actress And Fight Again

NEW YORK, June 13. (AP)—Max Schmeling is going back to Germany to marry the girl he fell in love with just through seeing her in the moving pictures. She is Amy Ondra, blonde 23-year-old musical comedy and film star.

They will be married, Schmeling said, in July at the German heavy-weight's estate at Bad Scharow, near Berlin.

"Perhaps I will bring her here with me in September when I come back to fight again," he said. "Jack Dempsey has promised to give me another chance at Max Baer either in September here, or in Miami or Calcutta in February. I am going to keep on fighting and win back the heavyweight championship."

It was his trainer, Max Machon, who revealed that Schmeling had fallen in love with Fraulein Ondra just seeing her in motion pictures in Germany. Machon will be best man at the wedding, returning the compliment. Schmeling paid him last year when he (Machon) married a friend of Fraulein Ondra's.

Schmeling, won will sail for home tomorrow night, was a guest of honor at a dinner given by Dempsey last night. The first person to greet him was Baer, who stopped the German in 10 rounds in the Yankee stadium Thursday night.

"You're the best sportsman I ever met or hope to meet," Baer said as he grasped Schmeling's hand. "I congratulate you on your coming marriage."

Mrs. T. R. Martin and children have returned home from Dallas where they have been visiting relatives. They were met in Clarendon by Dr. Martin.

F. M. Culbertson left this morning on a business trip to Oklahoma City.

Residents Gave Fine Cooperation In Pool Opening

Pampa's municipal swimming pool was advertised throughout the Panhandle by means of the formal opening Friday and Saturday. The big opening was sponsored by the Pampa Junior chamber of commerce and they have asked THE NEWS to thank every one who in any way helped with the building and opening.

The club is proud of the unemployed men and the committee of the Reconstruction Finance corporation who worked so hard and also the city commission for its action in taking advantage of the situation and building the beautiful structure.

Merchants of Pampa responded wonderfully in giving prizes and more were offered than could be used. Prizes given were donated by: Mitchell's Store, Diamond Shop, McCarty's, Pampa Hardware, Penney's, Brownbill Shoe Store, Levine's, Hill's, Montgomery Ward, Doak's, Fatheree Drug, Carter's Mens Store, Pampa Drug No. 1.

Coach Mitchell Opens A Driving Course On Frost

A driving course, putting green and plenty of approaching ground are available at Odus Mitchell's driving course across the street from the Sam Houston school on North Frost street. Coach Mitchell "opened for business" yesterday and immediately found out that he will have to have more balls.

The coach said last night, after a busy day, that he would appreciate those who promised him balls letting him know where he can get the balls. He is also in the market for balls.

Three tee boxes have been located at the beginning of a 300 yard fairway. A target has been placed at the 200-yard mark and the driver

White Deer Beats Cabot Shops 9-3

The White Deer town team won a 9 to 3 game from the Cabot Shops at Kingsmill Sunday afternoon. The game was much closer than the score indicates, White Deer taking advantage of the breaks and a few solid hits in the pinches.

O. W. "Hootie" Harrah's junior team is scheduled to play the Roy Scout team from the Cabot plant at Kingsmill this afternoon. The game has been set for 5 o'clock. Mr. Harrah is anxious to match games with any junior team in the Panhandle. Every member of his team is a high school boy.

He also has two teams of younger boys and is anxious to get games for them. Thursday afternoon at 3 o'clock the White Deer team will meet Groom in White Deer.

CONOCO BRONZE GASOLINE

HIGH TEST

Goodbye trouble! what a day—what a car—what a gas!

THE astounding truth of the real difference between Conoco Bronze and other gasolines has made people think of its introduction as the beginning of a new day!

From every side, we hear enthusiastic recognition of Conoco Bronze claims of instant starting, lightning pick-up, improved anti-knock, extended mileage and great power.

A modern achievement—keyed to high performance—every time—everywhere!

Try a tank full today. At the Sign of the Red Triangle.

EAST TEXAS WELLS TO BE ON PUMP IN 60 DAYS, SAYS EXPERT

NEW ORDER TO BE ISSUED IN MINIMUM TIME

ALLOWABLE LIKELY TO BE 400,000 TO 600,000

AUSTIN, June 13. (AP)—Testimony on which a new order regulating production in the East, Texas oil field will be based was studied today by the Texas railroad commission. The commission indicated the new order would be issued with a minimum of delay.

It was probable that a top field allowable of 600,000 barrels daily or less would be set, since no testimony was presented at a hearing yesterday to show the daily allowable should be in excess of this amount. A majority of the operators urged the commission to set the maximum field allowable at from 400,000 to 500,000 barrels daily.

Gordon Griffin, chief of the commission's petroleum engineering staff in East Texas, testified the bottom hole pressure decline was "alarming." Under present conditions, Griffin said, a majority of the wells will be forced to go on the pump within sixty days.

The existing order provides for field production of approximately 220,000 barrels daily. The field allowable is apportioned among wells on a potential basis, each well being allowed to produce 15 per cent of its potential as determined by tests of key wells.

Griffin said there would be "a substantial improvement in bottom hole pressures if the allowable was decreased to ten per cent of the potential production." This would lower production to around 600,000 barrels daily.

Griffin reported an average daily decline of 2.4 pounds in bottom hole pressure at present withdrawals, as compared to .71 pounds per 1,000-600 barrels production prior to April 6, when the field was closed down to permit taking of potential tests.

Griffin's testimony was not contradicted, operators saying that their engineers had reached "substantially the same conclusions."

BUS KAUFMAN ADVANCES IN GOLF TOURNEY

BEATS GRAHAM 4 AND 2 TO ENTER THE QUARTER FINALS

Bus Kaufman reached the quarter-finals in the Country club golf tournament yesterday afternoon in the only match played. Kaufman won from Mack Graham, 4 and 2, in a hard fought game that saw Graham only one hole down at the end of the first nine holes.

Play in the quarter-final and semi-final rounds will be finished before next Sunday, when the finals will be played. The finalists in the first or championship flight will play 36 holes. Other finalists will play 18 holes.

The winner and runner-up in each flight will receive prizes secured by the tournament committee. Low match scorer will also receive a prize. Bus Kaufman has low score so far with his 67 Sunday.

The tournament committee urges players to get together as soon as possible and get their matches played in case rain or wind handicaps them in later play.

DALLAS SPORTSMAN PLANS TO HOLD 6-DAY BICYCLE RACES

Construction of Track Has Been Started Inside The Fair Park Stadium.

By BILL PARKER, Associated Press Sports Writer. SOMETHING NEW

Six-day bicycle races may soon be seen in Texas. Charlie Maxvill, Dallas sportsman and former part owner of the Dallas baseball club, is preparing to offer something different he believes will prove of interest to thousands of Texans.

Maxvill has started construction of a motorcycle and bicycle racing track inside the huge fair park football stadium. The track is being built on the outer boundary lines of the football field. It will be slightly banked and wide enough for a starting field of one hundred or more.

The fair park stadium will seat 45,000 people and Maxvill is confident that his motorcycle and bicycle racing will draw good crowds. All races will be held at night under flood lights and entries will be accepted from any city in the United States. The races will be held under auspices of the American Motorcycle Racing association and the American Bicycle Riding association. Prizes will be awarded.

Maxvill knows it is something new—this organized racing on motorcycles and bicycles for Texans but believes his undertaking will flourish and that before long tracks will be built in other principal Texas cities.

Another Victim Of Gold Search In Sea Is Dead

By W. J. EADS.

NEW YORK, June 13 (AP)—A tragic episode in the search for gold aboard the sunken British cruiser Hampshire developed today with the news of the death of Samuel Mansfield, one of three men injured at the bottom of the sea beside the ship about two months ago.

In accordance with his last wishes, his body was cremated and the ashes were scattered on the sea over the spot where the Hampshire lay.

Mansfield, a wrecking engineer whose home was reported to be in Virginia, suffered a head injury in the same accident that caused the hair of Charles Courtney, New York locksmith, to turn several shades whiter.

Little Joyce Gilbert underwent a tonsillectomy at Worley hospital Sunday.

DESTINATION REACHED

PORT-AU-PRINCE, Haiti, June 13 (AP)—Captain J. Errol Boyd and two companions landed safely today in Port-Au-Prince from St. Marc, Haiti, where they were forced down last night after flying 2,471 miles non-stop from New York.

Shortly after they had descended in search of more treasure, a powerful current pinioned them to the side of the wreck and held them fast for 40 minutes or more. When the current subsided they were pulled slowly to surface. When it was found that all three were injured, anchors were weighed hurriedly and a dash made for Germany.

Mrs. Roosevelt Aids Son's Wife

WASHINGTON, June 13 (AP)—Returning to Washington from a trip to the west coast and to New York, Mrs. Franklin D. Roosevelt today gave a sketchy outline of her summer plans.

They include helping Mrs. Elliott Roosevelt get settled in the Roosevelt summer home at Campobello, New Brunswick, about July 15. Elliott Roosevelt is now at Lake Tahoe, Nevada, establishing residence so that his wife may get a divorce.

Mrs. Roosevelt said she had received no intimation that Mrs. Elliott Roosevelt was en route to Washington today, as had been rumored, but she said that if she did arrive at the White House she would be very glad to see her.

Griffin's testimony was not contradicted, operators saying that their engineers had reached "substantially the same conclusions."

Police Hunting Murder Mob For Triple Slaying

NEW YORK, June 13. (AP)—The trail of a murder mob hunted for a dozen recent homicides was freshly red today with the blood of a triple slaying.

The bodies were found last night in a \$6-a-week flat of an East 65th street tenement. Each had been stabbed in the chest. The death weapon was an ice pick. Part of it was found, broken off in the temple of one of the victims.

Identifications were made by fingerprint records. The dead men, known to police as petty racketeers, were Charles Cabrese, Salvaor Tumello and Louis Sully.

All three were expensively and flashily dressed, in sharp contrast to the plainness of the flat. They had been dead probably since Saturday. They must have been murdered, police said, not many hours after the slaying of three other gangsters last Friday. The manner of their death was similar in some respects to several others of recent weeks.

Each had been trussed and gagged. Adhesive tape sealed shut their mouths and eyes. It was thus—gagged, trussed and blindfolded—that they met death, unable to see the arms lifted against them, and unable to defend themselves even if they had.

The three bodies were found in the bedroom of the flat. One body was on the bed, another on a couch and the third was on the floor. The janitor of the building came upon the bodies last night while investigating a strange odor of which other tenants had complained.

There was a theory that the triple murders were a sequel to the Decoration day "massacre" in the First Street cafe when six men were lined up against a wall by four killers and shot down. Two men were killed in that attack, the others escaping with wounds.

Clark Parallel Is Accepted As Border Boundary

OKLAHOMA CITY, June 13 (AP)—Texas and Oklahoma legislative delegations today agreed to accept a United States survey locating the Clark parallel as the official boundary between the Panhandle districts of the two states.

The northern boundary of Texas was established along parallel 36-30 by John H. Clark, United States commissioner, in 1890. The line, known as the Clark parallel, is one of the surveys involved in the boundary dispute.

Six legislators from each state met here and voted to accept a federal designation of the Clark parallel as the boundary if property rights of citizens of both states are protected. Senator Clint Small, Amarillo, headed the Texas delegation, and Rep. Julius W. Cox, Cimarron county, the Oklahoma group.

Three members of the Texas delegation included B. L. Rogers, Farnsworth, and H. K. Stanfield, Amarillo. Senator Ed Reed, Elk City, and Rep. Charles Williams, Texas county, were others on the Oklahoma delegation.

The disputed strip ranges from 324 to 423 feet on the south boundary of Cimarron county; from 149 to 474 feet on the south boundary of Texas county and up to 149 feet on the south boundary of Beaver county, Oklahoma.

Red Michael To Wrestle Curtis

Red Michael, Pampa boy, is scheduled to wrestle the main event of the Tarrant County Athletic association card in Fort Worth Thursday night. The Pampa boy will meet Jack Curtis of San Antonio in a finish bout, two best falls out of three.

The Pampa redhead has been going strong since he left Pampa three months ago. He has been wrestling in Houston, San Antonio, Dallas, Fort Worth, and other large cities of the south. He met Curtis in a time-limit match last week with the outcome a draw.

Eddie Brock of Amarillo, but well known here, is also in Fort Worth and will make his initial appearance this week.

Larry Spicer of Kingsmill was a Pampa visitor last night.

Mrs. J. G. Messer was dismissed Sunday from Worley hospital.

THE PAMPA DAILY NEWS SPECIAL TRAIN TO THE WORLD'S FAIR IN CHICAGO

Make your reservation now on the finest, lowest-priced, complete-in-every-detail special train being run from the Panhandle of Texas to the Century of Progress Exposition! The Pampa Daily News World Fair Special offers not only the most economical means of attending this international spectacle, but promises every service desirable, including a club car on the train where trappers may lounge, read, play cards, and have buffet lunches and afternoon tea.

ROUND TRIP FARES AS LOW AS \$25.25

The Pampa Daily News is proposing this trip for the benefit of Panhandle citizens who desire to attend the Exposition at the lowest possible cost, with the highest possible service and convenience, CONSEQUENTLY this excursion is being planned on a STRICTLY NON-PROFIT BASIS.

Although the NEWS is not running this as a personally-conducted tour, any person desiring that details connected with outside trips be attended to, the representatives from the NEWS in charge of the excursion will be glad to handle such matters. Because, however, all side trips may be easily arranged for at one time at any of the many centralized agencies, most people have expressed the wish to have only transportation details attended to, leaving the choice of activities, and division of time, entirely up to the individual after arriving in Chicago.

Early returns from publicity put out on this trip have been so tremendous that the trip is virtually assured already. However 100 reservations must be obtained before June 30th, so in order to finish all plans immediately the NEWS would appreciate your sending in reservations without delay.

Reservations may be obtained by filling out and mailing the attached coupon, writing or wiring the NEWS, or by seeing any of the personal Pampa Daily News representatives in the following towns:

Borger—Mrs. Gertrude Webb
Panhandle—Miss Corrie Slagle
Canadian—Miss Yvonne Halsey
Miami—Miss Ann Hopkins
McLean—(To be Announced)

The special train will leave Pampa July 15 and return July 22—You may return on a train other than the special if you wish to stay a few extra days.
