

ARTESIA ADVOCATE

J. R. HOFFMAN, Editor and Manager

ARTESIA, NEW MEXICO, DECEMBER 16, 1921

VOLUME 20 NO. 4

STARTLING FACTS REVEALED CONCERNING ARTE- SIA MEN

MANY MEN OF MARRIAGEABLE
AGE RUNNING LOOSE ACCORD-
ING TO VALUABLE STATIS-
TICS, NOW MADE KNOWN

A complaint, made by various young ladies of Artesia concerning the shortage of young men in this country is without foundation, according to reliable statistics, which have been given to the press. These unnecessary statements concerning the young men have brought representatives of matrimonial agencies to our fair city to investigate the matter.

Some very startling information has been gained by these investigations. The supply of marriageable young men over the age of 21 exceeds the demand by a large majority. Instead of a need of more young men, an outside market is desired. Many young men are seen on the streets in great droves in the afternoon and evening hours, without any feminine companions. Scores of surplus men are considering the advisability and the necessity of seeking aid thru the channels of matrimonial magazines.

Following is a partial list of the young men of Artesia, over twenty-one years of age, according to the new compiled statistics. Girls, look 'em over. Wallace Anderson, Richard Atteberry, F. C. Adams, Lloyd Atkinson, W. R. Atkinson, Crowell Allan, S. C. Albright, John Brown, E. P. Bach, Victor Buel, Ara Buel, Fred Brainerd, H. Batton, John Boas, V. A. Bishop, Fred Cole, Lloyd Cowan, Dave Cogdall, Earl Collins, Wade Cunningham, Allan Davis, John Dunn, Judson Doss, S. Edgerton, Lincoln Feather, George Flanders, Kenneth Funkhauser, Howard Gissler, Vernon George, E. C. Higgins, Samuel Higgins, Leon Hise, Connie Horner, Arthur Horner, Ralph Hersey, Jerry Hale, Eddie Hohweiler, Marvin Jackson, Carl Jinks, Harvey Klopstein, Cleo Koger, Carl Manda, Bun Muney, Chas. Martin, Irwin Martin, P. G. McCormick, James Montgomery, Lee Myers, C. E. Newhouse, Willie Newcomb, Howard Privitt, Lloyd Privitt, J. E. Quinlan, Roscoe Knowles, John Richards, John Redmond, Paul Rogers, Max Roady, Rufus Rowan, Charles Rhinehart, Clinton Rice, John Runyan, Cris Savole, Hampton Stevens, Will Schneider, Oscar Samelson, Wortey Stevens, Ralph Terpening, Harve West, Milton West, Clifford Wilde, Willis Walker, Albert Vogel, and many others.

Editors Note.—The editor of the Advocate offers a half page add to any of the above bachelors advertising for a help-mate, provided they accept the first proposal.

BAPTIST YOUNG PEOPLE ENTER- TAINED AT HOME OF GER- TRUDE BABER

The young people of the First Baptist church were entertained at the home of Miss Gertrude Baber on last Friday evening. About thirty-five guests were present. The evening was spent in playing many games and contests. The ability of Paul Rogers to tie an apron string was startling as well as sensational. Miss Zanaida Mann and Miss Mary Lillian Rogers enjoyed new experiences. Especially did everyone enjoy the wonderful sideshow in the circus.

Delicious jello of many flavors, and cake were served by Misses Mary Alice James, Melbie Jones and Virginia Atteberry. Ben Dunn and Clint Cole were attracted to the "cats" in a large measure.

After everyone present had returned their borrowed property, the merry party was brought to a close by Fred Cole and Ira Klopstein taking their hats and leaving. After a few preliminaries, necessary to start a Ford, all was quiet again.

TURKEY DINNER

Mr. and Mrs. C. A. Sipple gave a fine turkey dinner last Wednesday evening at their home on South Rose Lawn. The dinner was given in honor of their son, Mr. Earl Sipple, of Colorado Springs, who was in Artesia a few days on a short visit and business trip. The turkey was an exceptionally fine bird, being one of a number Mr. Sipple brought from his Colorado ranch. The guests were: Mr. and Mrs. Ray Sipple, Mr. Chas. L. Ptoomey of Arlington, Colorado, Mr. Earl Sipple, and Mr. Lee Myers.

J. M. Tuttle and S. R. Beavers have formed a partnership in the shoe repairing and second hand business and have rented and moved into the Vandagriff building on Main street. Read their adv. in this issue.

Mr. and Mrs. Walter Ferriman were Roswell visitors Tuesday.

NEW ROAD CONNECTING ARTESIA AND HOPE IS NEARING COMPLETION

The federal aid highway, which is being constructed from Artesia to Hope, will soon be ready for traffic, according to a statement by one of the contractors. The dump has been completed all the way to Hope and the gravel gangs have graded the roadbed for a distance of about 15 miles. The remaining 10 miles will be graded as soon as the men can haul the material from the pits.

Work on this project was stopped a few weeks back, due to the financial affairs of some of the interested persons. However, this matter has been adjusted and work was resumed several days ago. The task will be completed by Messrs. Beale and Morris, who are experienced road builders. The negro laborers, about 25 in number are being replaced by white men.

When the remaining distance has been graded and the roadbed rolled, this will be among the best highways in the state. The farmers and stockmen of Hope will be greatly benefited by the project. This will also cause more traffic between El Paso, Texas and Pecos Valley cities and towns.—Carlsbad Argus.

BASKET - BALL PRACTICE IN FULL SWING

MANY HIGH SCHOOL LADS RE-
PORT FOR PRACTICE AND TRY-
OUTS FOR THE HIGH SCHOOL
QUINTETTE

The Artesia high school has commenced basket-ball practice after a long rest since the football season. The coach was handicapped by being unable to secure a suitable building for an indoor sport. The boys were waiting until a place could be secured.

However, practice has commenced on the outdoor court with a vim and many young agile athletes appear every afternoon for a scrimmage on the court. The candidates for the places on the quintette are doing good work and as the competition is strong, a very fast team of basket tossers is expected. Captain Bud Stoldt, Norman Clyde, Emmette Klopstein, Herman Cole, Charlie Nicky and Ralph Davis, last year's best men are back and will endeavor to "land" a berth on the quintette. About twenty other men are also candidates for the team. Among the most prominent among these are Bullock, Brown, Yeager, Welsh, Morris, Manda, Tucknett, Pollard, Jackson, and Walker.

Early season games have been postponed on account of the lack of an indoor court. However, games are being scheduled for the near future with the other high schools of the valley. Dexter, Roswell, Carlsbad, Hagerman, Lake Arthur, and Hope are included. The season was very successful last year as the locals lost only to the Roswell quintette. Roswell is not as strong this season and has already met defeat at the hands of Dexter high school boys.

The Artesia high school girls have defeated the Dexter girls, who have also defeated the Roswell lasses. Roswell high was the only team that defeated the girls last year. This placed Artesia in the foremost rank this period of the season, among three other girl teams of the valley.

ROYAL ARCH MASONS

The Artesia Chapter Royal Arch Masons turned out in mass and participated in a specially prepared supper on Tuesday evening at Syferd's Restaurant. Practically all members were present and also three candidates: Messrs. Young of Lake Arthur and T. L. Evans and B. F. Sanford, of Artesia.

After supper was over, the Chapter met and conferred the Mark Master's Degree upon Mr. T. L. Evans, after which the Past Master's Degree was conferred upon each of the three candidates and, on next Tuesday night, December 20, there is a Call Meeting of the Chapter and the Most Excellent Master's Degree will be conferred upon all three said candidates.

The Roswell Chapter has been requested to confer the Royal Arch Degree upon Artesia's class, but the time has not yet been set.

I. T. George has returned after an absence of several months and will shortly open a shoe repairing shop in the Polk building.

The Red Cross desires the names of all parties who are competent to nurse and would be willing to do so if their services were needed. The names should be reported to Mrs. Earl Bigler who will be prepared to furnish the same to persons desiring such information. Mrs. Bigler's telephone number is 233.

A PSALM OF PAVING

Hords of autos now remind us (roads)
We should pave our streets to stay,
And departing leave behind us (winds) (blow)
Kinds that rains won't wash away.
When our children "pay the mortgage"
Father made to haul their loads,
They'll not have to ask the question,
Here's the bonds, "but where's the roads?"

Concrete lasts, but dirt is fleeting
And our streets must be made strong,
So the work won't need repeating
When we hit that "trail so long";
Let us then be up and doing
For procrastination kills,
Act now then we'll not be rueing
And forever paying bills.

NOTE: The first stanza of above comes from California where they have already thousands of miles of paving; courtesy of B. H. McTadden of Los Angeles, owner of a splendid farm adjoining Artesia. Mr. Hornbaker adds the second.

LAND COMMISSIONER MAPS OUT PROPOSED PARK IN MOUNTAINS

J. T. Robison, of Austin, State Land Commissioner, was a visitor in Pecos Friday, his trip here being incidental to his inspection of the proposed State Park in the Davis Mountains.

Mr. Robison has been making an extensive study of the proposed park district, meeting the land owners therein, traveling by motor and by horseback, even into some of the canyons and over some of the rough places where men seldom travel. He made a horseback ride for thirteen miles up Madera canyon, and while in that vicinity killed a big bear of which he was very proud.

The State Commissioner's map makes Gomez peak one of the points in the north boundary of the proposed park when he draws his line to include Saw Tooth Mountain, and Mount Livermore to the South. Fort Davis to the Southeast and Balmorhea also on the North boundary. His report goes to the Park Committee appointed by the legislature.—Pecos Enterprise.

NEW YEAR'S DANCE

The local American Legion Post will give a New Year's Eve dance at the I. O. O. Hall, on December 31. Great plans are being made to make the affair the social event of the season. In addition to the dancing, there will be other novel entertainment features. Ham's Jazz Hounds will feature.

TOYAH BELL OIL MAKES HIGH GRADE GASOLINE TEST. SHOULD BRING \$4.50

Official analysis of recent samples of the oil from Toyah Bell well show it to be exceeding high grade and such as will probably command a price of \$4.50 a barrel, which price the same grade of oil is bringing where it is produced in good quantities in other sections of the country. The test shows the oil to have good gravity, showing 35 gasoline content and 40 lube.

President Ramsey said Thursday that he had been offered \$3.00 a barrel by an El Paso Company but it is believed that a much higher price can be secured from a refinery at Amarillo. He expects to get \$4.50 a barrel for the oil. The railway connection with Amarillo is satisfactory too, it is stated.

Some of the oil is being burned under the boiler at the Toyah Bell well but it is stated that it is too expensive to burn as fuel oil, since fuel oil can be bought for less than this will sell for.—Pecos Enterprise.

Word has been received from the Nickson family, temporarily located at Long Beach, California, that Jo Bob, the older boy, is seriously ill with kidney trouble, an aftermath of influenza. The climate there does not agree with Mrs. Nickson who is a victim of asthma.

John J. Kelly of Silver City, Grand Lecturer of the Masonic order of New Mexico, has been in town for a few days of this week coaching the officers of the 'Masonic lodge. Some special work was performed under his supervision last evening.

TURKEY TALK

THIS VALLEY AN IDEAL PLACE
FOR POULTRY
RAISING.

(By W. M. Todd.)

In discussing the possibilities of this valley, people look through different glasses. They are apt to be guided by their own limited experiences and intuitions rather than by a careful investigation of the experiences of others. Some think alfalfa is the only profitable crop, others can see nothing substantial outside of stock raising. Some condemn their efforts to corn raising, others to market gardening.

If one would take the time and trouble to investigate the possibilities of poultry raising, he would find by actual figures that it is one of the most profitable occupations, everything considered, that one can engage in. There is no one hereabouts, so far as we know, who follows the business of poultry raising exclusively. The turkeys, chickens, eggs, etc., that are marketed are simply a side issue. And yet the money realized from the sale of eggs and poultry in this market would astonish most people.

The firm of Wilson & Anderson deals exclusively in farm produce, chickens, turkeys, and eggs being the principal commodities that they handle. There are other local dealers who handle some of these things, and outside buyers in at intervals and buy more. But Wilson & Anderson handle the bulk of it.

This firm has received between November 1, 1920, and November 1, 1921, a little more than \$18,000 for poultry and eggs. Chickens and eggs come in a steady stream throughout the year and the most of them, practically all, are shipped to El Paso.

This firm has bought this season upwards of 1,500 turkeys. The average price paid was 22 cents per pound or \$1.50 for each turkey which would make \$2,250. The coming holiday sales will increase this fully 10 per cent.

Ralph Hersey, on the Cottonwood, raised in 78 turkeys which he sold for \$295.75, or an average of \$3.79 each.

C. W. Rowland sold a smaller number at about the same price and received therefor a little more than \$200. Other people, on a smaller scale, have done as well.

In both these cases no special care was given their flocks of turkeys and their keep cost nothing except the little expense of feed at the end of the season to fit them for market. The old turkeys mostly "stole" their nests, layed their eggs, hatched their broods and brought them up on grasshoppers and alfalfa while taking "turkeytrots" over the farm.

If small flocks of turkeys that practically raised themselves brought in the amounts named above, why would not large flocks receiving proper care and attention be profitable?

Of course, poultry is as responsible to care as hogs or other animals are; or as a crop of grain is to cultivation. Care and attention intelligently bestowed would materially increase the product. But the favorable conditions here would reduce the burden of care and expense. The warm, dry weather of spring renders the young fowls almost immune to "pips", pneumonia and other diseases common to young fowls, and almost 100 per cent of the young reach maturity.

Forty acres of land devoted to poultry raising, with enough grain to fatten the fowls for market, would bring surprising returns. And this without a heavy outlay for farm machinery and hired help.

There was a time when the price of alfalfa was low, that turkey raising was carried on extensively throughout this whole valley. One man near here drove a flock of many hundred turkeys overland to El Paso. He saved the freight but never repeated the act. When night came the turkeys made airplanes of themselves and used hogs' roofs and tall trees for hangers.

But when alfalfa began to soar in price the turkeys which trample down the alfalfa were sacrificed. The number of hogs raised was diminished also. But now that the price of alfalfa has nearly gotten back to prewar times, there appears to be no good reason why poultry raising should not return to its own.

I. O. O. F. ELECT OFFICERS

At the last regular meeting the following officers were elected to serving the coming year:

W. A. Martin, N. G.
R. L. Paris, V. G.
Luther, Rideout, Treas.
Ed, Stone, Sec.
C. Russell, Trustee.

When Sheriff George Batton, of Carlsbad, made his capture of \$8000 worth of booze last May, he also took possession of two automobiles, which were confiscated and ordered sold by the United States government. The two cars brought about \$650, the Buick roadster selling for \$450 and the Cadillac for \$200.

ALFALFA HAY

Say, listen, Old Top,
Have you heard of the crop
Of alfalfa hay that we raise,
On this broad Pecos plain
Where we make our own rain,
Thru the long sub-tropical days?

Of all things that grow
On this planet below,
Alfalfa's the king and the peer.
And our farmers induce
This plant to produce
Ten thousand odd cars every year.

Miles of emerald sheen
Go to make the "pea-green;"
Afair whirs the sickle and near,
Six times round the earth
At its tropical girth,
A swath we cut each year.

Turn the hay we have sold
Into the dollars all told,
And this startling truth I declare,—
We could pave any main street
With silver complete,
And still have some dollars to spare.

To Chicago and back
We could lay a hay track
Of bales if placed end to end.
And of years we could feed
A lone cow in her greed,
Twenty thousand complete my dear friend.

Let clover be dumb
And timothy grieve
And sad be cane and soudan,
For alfalfa hay
Is the winner today
Of all forage crops known to man.
W. R. Hornbaker.

HIGH SCHOOL NOTES

A number of students have been absent from school this week on account of severe colds.
The Manual Training and Home Economics departments have been very busy this week preparing for their sale next Saturday. The products of this department will be on sale Saturday at the Citizens' bank.

Red Cross seals will be on sale next week by the children of the grade. The money for these seals will be used for helping tubercular cases.
School trucks have been running on schedule time again. Last week a series of truck troubles made the Atoka truck late for several successive days.

A faculty meeting was held Tuesday afternoon and certain students were the invited ones.
Attendance is almost normal again in the grades. Perhaps this is caused by the strenuous efforts of our truant officer.

Coaches Newhouse and Adams have been compelled to defer a number of basket ball games because there is no available place for basket ball practice. Prospects look gloomy. We have material both for a boys' and girls' team, but outdoor practice is no longer possible. We can afford to pay a small rental but it now seems we may have no basket ball season. This is quite discouraging after the showing we made last season.
The Freshmen are planning some social activities to take place soon.

The School Board has announced that we will have one week for our Christmas vacation. School will dismiss on December 23 and open January 2.

The Commercial Class is showing great interest in their work. The book-keeping class is ahead of their schedule for the first semester. The highest speed in typing is 40 words to the minute and 60 words in shorthand. We hope this spirit will be maintained throughout the year.

ENDORSED PARK COMMITTEE.

At a meeting of the Chamber of Commerce Monday evening the action of the Eddy County delegates at the National Park meeting held at Las Cruces recently was endorsed. There were three delegates from Hope, two from Carlsbad and two from Artesia. Rev. Moon was elected chairman of the committee representing Hope and Att. J. H. Jackson and Dr. J. J. Clarke, Artesia, and Francis G. Tracy and W. F. McIlvain, Carlsbad.

Mrs. Hans Olson and daughter, Miss Ethel, visited relatives in Roswell Tuesday.

Miss Pauline Anna Weddige of Hope was in the city on a shopping tour Wednesday.

Mrs. J. Goodale spent the first days of the week in Roswell, the guest of Mrs. Sally Roberts.

Geo. Flanders, manager of the Artesia Alfalfa Growers Association, was a Roswell business visitor the first of the week.

W. N. Tolleson of Oklahoma City, representing the F. B. Collins Investment Co. of that place, is in the city looking after the real estate interests of his company about Artesia.

H. P. Larsh has closed his cotton gin for the season and will start in a few days for Arkansas where he has lumber interests and a saw mill. He expects a big crop of cotton to gin here next season.

PAVING PETITION PRESENTED CITY COUNCIL

AGREED TO ABIDE BY THE
MAJORITY ELIMINATES
ALL DOUBT AND
ARTESIA WILL SOON
HAVE PAVED
STREETS.

A delegation headed by J. H. Jackson, president of the Chamber of Commerce presented the petition to the City Council last Thursday evening. This petition calls for pavement from the Santa Fe railroad west on Main Street to the intersection on fifth street, this side of the Artesia Machine Shop.

The petition had been signed by a majority of the property owners on this street and has a considerable majority in frontage feet. There are two ways for the council to take action, by the petition or on their order of a needed improvement. There is no doubt about the needed improvement of Main street by having pavement, then there is no doubt that least ninety-five per cent of the citizens of the city want this improvement.

F. L. Hancock, at present engineer in charge of the Carlsbad paving contract, was present at this meeting, at the request of the mayor and chamber of commerce, and expressed his views regarding the costs, changing of the water pipes, width of pavement, and told of the advantages to be gained in preparation to make certain of a sale of bonds, etc. Mr. Hancock is a licensed engineer of Quincy, Ill. and his years of experience places him at the top of the list of dependable engineers.

There will be a preliminary expense of making changes in the water pipes on Main street but that expense is well worth the advantage to be gained in the growth of the town after paved streets have been put in. The city is well able to make the change in the water pipes as the money is now in the water fund in sufficient amount. In fact, Artesia is in better condition financially today than she has been in years. An official of the city says there is money in practically every city fund.

With these advantages there is now nothing in the way to prevent Artesia having paved streets and other needed improvements and becoming one of the real cities of the Pecos Valley.

MASONIC OFFICERS FOR NEW YEAR

The Masonic officers elected at their meeting Monday evening were:
L. P. Evans, S. W.
Jas. P. Bates, S. W.
R. L. Paris, J. W.
J. E. Robertson, Treas.
Ed Stone, Secy.
C. E. Mann, Tyler.

SANTA IS COMING

Santa Claus at Miss Prim's, a young folks cantata for Christmas will be conducted by the young people of the Christian Church and friends from other churches who may be pleased to help, this will be something nice in the way of a Christmas play and all people of Artesia and the community around will find a cordial welcome.
December the 25th at 7 P. M. Remember the date.

Noel L. Johnson, editor of the Hope Press, was transacting business in Artesia Monday and Tuesday of this week.

NEW MEXICO WEATHER

New Mexico has shown in the last ten days or two weeks what she can do in the matter of winter weather when she really sets herself to the task in earnest.

The skies have been cloudless, the air soft and balmy with a mid-day temperature of about 63 degrees, an utter absence of wind, and the sun has shone all day long like June. Wraps are abandoned and on the sunny side of the streets undercoats of any weight are uncomfortable. Some who have no calendar to tell them what month it is are wearing straw hats.

All this intensifies the contrast of the scene when we focus our eyes on the peak of the White Mountains to the westward and see the great brilliant sunlight.

Such days are invigorating, exhilarating, animating, recuperating; and if there is anything else better than all this, they are that too. They transform gloom into cheer, discontent and mental weariness into buoyant optimism. They also act as a tonic to the system and aid digestion. They turn rancorous hate into ardent love and cause us to hand out cigars and "Hogs" cigars indiscriminately to erstwhile enemies.

When the weather of the lower Pecos valley is on its good behavior it has the climate of every other locality on this earthly sphere skinned a mile.

MC-MAHON BUYS GIBRALTER STORE

SUCCESSFUL MANAGER IS NOW THE SOLE OWNER OF FINE BUSINESS. SON OF F. A. McMAHON, ARTESIA

Mr. Grover McMahon, manager of the Gibraltar Store, having purchased it from the trustees of the Consumers Mercantile Corporation, which took the store over from Mr. P. R. Muench about a year and a half ago. The Consumers Mercantile Corporation following its organization less than two years ago had taken over a string of some twenty three stores in various communities in eastern and central Iowa. The store in this city known as the Gibraltar store, was one of the most successful managed of the entire string of stores and when the corporation got into financial troubles and was turned over to two trustees in order to conserve the interests of the creditors, announcement was made that the Gibraltar would continue to be operated. Within the week the corporation was thrown into bankruptcy, but it is said this will in no way effect the sale of the Gibraltar to Mr. McMahon who had previously completed the deal for its purchase.

The new owner of the Gibraltar is well and favorably known in this community where he has made his home for a number of years. He is thoroughly versed in the grocery business, having been employed by A. S. Norton and P. R. Muench prior to accepting the management of the Gibraltar Store. Straightforward, courteous and a hustler, Mr. McMahon has won for himself a commanding position with his patrons and he has the best wishes of all in his business venture.

Grover McMahon is well known in Artesia, having been in the grocery business here for several years. He is a son of our well known townsman, F. D. McMahon.

STROUP SEIZES MILLIONAIRE YACHT AND SOME WHISKY

Andrew B. Stroup, of Albuquerque, special agent of the national prohibition department, is one of the central figures in the sensational arrest of James Shewan, New York multi-millionaire ship builder, and the seizure of his palatial yacht and the Patricia, in the harbor of Monterey on Tuesday, December 6th, according to the San Francisco Bulletin of that date which devotes its entire front page to a red-lettered extra announcing the arrest of the New Yorker.

Mr. Stroup, according to the Bulletin's story, caused an investigation of the yacht to be made. He is said to have discovered 150 cases of high grade whiskeys, wines and liquors on board. He wired the facts to Commissioner Haynes at Washington and was instructed to act in cooperation with State Prohibition Director Mitchell of California.

The result was that the yacht was followed to Monterey where warrants were issued and the yacht seized. The boat and its owner have been released under \$100,000 bond.

Shewan, according to the Bulletin, maintains that he purchased the liquor when he purchased the yacht in May of this year. He has since sailed in it down the Atlantic coast, thru the canal and to the Pacific ports.—Albuquerque Herald.

DRIVING BRIDGE PILING

Pile driving was begun Wednesday on the bridge which is being constructed on the Pecos river, two miles east of Hagerman. Beginning of construction work on the bridge has been watched for with keen interest by a great many people in this section, and its completion will be the source of much satisfaction and prove a great convenience to the entire community.—Hagerman Messenger.

NICE POULTRY FLOCK

Mr. J. D. Edmonson, who resides about three-quarters of a mile east from this office has a flock of hens of which he is justly proud. They are Anconas, a breed of fowls that were originated and given prominence by a man by the name of Sheppard of Berea, Ohio. Mr. Edmonson's roosters came directly from the Sheppard coop and thus possess the pure Sheppard strain.

The hens are jet black with white spots and large, deep red combs. They are larger than Leghorns but not so large as Plymouth Rocks. Their peculiar merits, according to Mr. Edmonson, consist in their vigor and pep, and their wonderful persistency as layers. From 22 hens which were hatched from the eggs last March he gets 18 eggs per day and they all commenced to lay in four months and thirteen days from the time they were hatched. They lay as well in winter as in summer, and they are known as winter layers. They are small eaters and in summer forage for themselves, subsisting on bugs, grasshoppers and what they scratch out of the soil.

Mr. Edmonson, who is the chief engineer of the Electric Light Plant, finds a pleasant diversion from his duties in the care of his flock of fowls and says they are a greater source of profit than any one would suppose. He expects to increase the size of his flock next year to a hundred or more.

NOW is a good time to see about your winter coal.

Our prices delivered anywhere in town:

Best grade lump \$15.00.
Will sell you good coal \$12.00.
Price basis on lots direct from car.

FORMING GOOD READING HABITS

If parents wish their children to form good reading habits they must first form such habits themselves. And there is no better way to do this than to bring into the household a periodical that will be of interest to every member of it; that will supply the best reading for old and young; among the periodicals of this description The Youth's Companion is unique. Not only does it aim to entertain and inform boys and girls in their teens, as its name suggests, but there is not a page in it that parents can pass over with indifference.

The 52 issues of 1922 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:

1. The Youth's Companion—52 issues in 1922.
 2. All the remaining issues of 1921.
 3. The Companion Home Calendar for 1922.
 4. All for \$2.50.
 5. Or include McCall's Magazine, the monthly authority on fashions. Both publications, only \$3.00.

New Subscriptions Received at this Office.

CRUDE OIL WILL CHECK BLUE BUG

Blue bugs are so-called because of their color. This bug is a deterrent to egg production because of its method of living. The blue bug visits the fowls at night on the roosts and hides in cracks about the house in the daytime. Because of the size of these bugs, they are capable of consuming large amounts of blood, making it impossible for the hens to produce while infested with these bugs.

The cheapest and best method of controlling the blue bug is by painting the interior of the poultry house, roosts and nests with crude oil, says Prof. Bardsley, poultryman at the Agricultural College. It is desirable to mix kerosene with the crude oil to make it penetrate wood better. Care should be taken to keep the fowls closed out of the house until the oil has had an opportunity to dry. If this precaution is not followed, the eggs will become stained and perhaps tainted slightly.

Be sure to use plenty of good, clean nesting material after the use of crude oil in order to prevent the discoloration and tainting of the eggs.

One Year.....\$1.50
Positively in Advance
Names dropped as soon as delinquent

This week we notice that several boys stayed away from school with different excuses for not attending that could have been avoided. When these boys reach manhood and enter upon life's hard labors they will wish they had not missed a day.

THE TEST

There is a story to the effect that an Artesia man protested to his wife that he was not under the influence of drink and she asked him to say "Chrysanthemum." That was just like a woman. Of course he couldn't and she knew he couldn't.

BABE RUTH LEARNS HIS LESSON

The state, I am it," said Babe Ruth or substantially that, when he broke the rules and regulations of baseball and flouted the authority of commissioner K. M. Landis by playing post-season games with "bush league teams.

He relied on the nationwide popularity among millions of baseball fans to carry him thru without punishment.

Now Ruth is suspended and his share of the 1921 world series profits forfeited. There is no great clamor from the crowd in protest.

The "baseball king" learns, it may be with pained surprise, what other kings have learned through the centuries. That no man is big enough to do as he pleases, irrespective of everything, and that popular support may be unstable.

The fact is, all of us, wherever situated, in whatever condition of life, are expected to play the game according to the rules, and are subject to penalty if we don't.—El Paso Herald.

BONUS

Secretary Mellon, in his current annual report, just released, uses many pages of argument for the cutting down of the upper surtax brackets, which means the cutting down of the taxes of multi-millionaires like Mr. Mellon.

Secretary Mellon uses about a quarter of a page discussing the soldier bonus. He says this:

The Treasury's position with regard to the soldier's bonus or so-called adjusted compensation for veterans of the war, has been set forth in the Secretary's letter of July 2, 1921, to Senator Frelinghuysen in response to Senator Frelinghuysen's letter of June 24, 1921, which requested the views of the Treasury as to S. 506, "to provide adjusted compensation for veterans of the World War" with particular reference to the financial obligations it would have entailed. These letters are included here as Exhibit 33, page 228. The position of the President in regard to the soldier's bonus was subsequently stated in a special message to the Senate, dated July 12, 1921, which is set forth herein as Exhibit 34, page 232.

Conditions have not changed since the Secretary's letter and the President's message, and the Treasury's attitude remains the same. Even without any soldiers' bonus or adjusted compensation, the estimates show that the Federal Government will spend in the fiscal year 1922, & again in the fiscal year 1923, about \$450,000,000 a year for the relief of veterans of the late war.

The president avoided mention of the bonus in his address to congress. This continued opposition of the administration to any form of compensation for soldiers who served in the mud and blood of the world war for a dollar a day while Mr. Mellon was piling up his millions of war profits upon his already ample for the will come as a disappointment to those who had hoped that the administration would hasten to get right on the bonus proposition, following the action of the American Legion convention in Kansas City. It is evident that Mr. Harding's secretary of the treasury is not at all interested in what the American Legion thinks about the bonus.

It is safe to assume, however, that congress will do something about the bonus. In fact, congress almost had something done about it once. It was ready to override Mr. Mellon. Then the president himself appeared with an urgent request to shelve the bonus, and the bonus was shelved.

It is doubtful whether the president will rush to the aid of his secretary of the treasury in such a contingency again. The last time he did so his appeal was ignored. That was in the case of the compromise on surtax brackets. Mellon wanted the highest surtax on the biggest incomes (including Mr. Mellon's income) hammered down to 35 per cent. The highest had been 65 per cent. The house passed the bill at the 35 per cent figure, our own Congressman Bird being reported as voting for the bill in that form.

The senate, after hearing from home, decided on a higher level of surtaxes for the biggest incomes, and a compromise was reached at 50 per cent. The president intervened at this point with an appeal to compromise somewhere around 40 per cent, if possible. The senate and house conferees went ahead and compromised at 50 per cent, and felt they were taking a considerable risk then of incurring public disapproval because of the cut in the surtaxes made even at that figure, saving many millions of dollars to those receiving incomes around a million dollars a year.

Congress has been hearing from home rather regularly on the bonus proposition. With congressional elections looming just ahead, it is likely that some sort of bonus legislation will be passed in spite of the opposition of the administration. —Wichita Eagle.

Several couples from here have invitations to the "Balle" to be given by Will Vermillion at Lake Arthur tonight. Mr. Vermillion's dances are always delightful affairs and many from here will attend. Hagerman's five piece orchestra has been secured for the occasion.

Mrs. Bettie Wheat and daughter Miss Ether, of Pleasant Hill, Mo., arrived last Thursday and will spend the winter in this city. They are old friends of Mrs. Anna Pitts.

Miss Lora Davis of Hope was in the city Saturday.

John Eubanks was up from Carlsbad on business Saturday.

Last of Old Advocate.

When the good will and subscription list of the Advocate were purchased of A. W. Henry about two years ago he sold some of his type for old metal and shipped the balance with most of his presses and machinery to California. His Campbell press which was old enough to vote and so heavy that the floor had to be propped under it was alone left here and put in cold storage.

It was recently purchased by the Hagerman Messenger and will become a fixture in the Messenger office. Though ancient and battle scarred, and while making a noise and vibration when in operation like a procession of tractors crossing a steel bridge, it is yet capable of fair service and will probably print the Messenger as long as the latter is printed. This is the last of Mr. Henry's old Advocate equipment, and if the old press could talk it would relate weird stories of its long and varied experience.

Mr. Henry has been doing linotype work in San Francisco at good wages since he left here but intends to join his family in Long Beach the first of the New Year and get into business there.

Everyone in Artesia has a warm place for the veteran printer and will be glad to learn that he is well and prosperous in his new home.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY.

Opposite Hardwick Hotel.
Sunday service at 11 a. m.
Wednesday service at 7:30 p. m.
The public is cordially invited to attend these services.

BAPTIST

Service changes.

Evening services, 7 p. m.
Young peoples meeting, 6:15.
Prayer meeting 7 p. m.

NAZARENE CHURCH.

You are invited to attend services at the Church, Of The Nazarene Artesia, New Mexico
Sunday School at 9:45 a. m.
Preaching 10:30 a. m. and 8 p. m.
Rev. T. V. COX, Pastor
You are a stranger here but once.

Episcopal Church.

There will be services at St. Paul's Episcopal Mission every second and fourth Sunday evening of the month. Rev. F. A. Eiler of Carlsbad officiating.

On Tuesday night the young people's prayer meeting and on Thursday night general. You are invited to attend all these services. A. W. WILD, S. S. Supt. REV. T. V. COX, Pastor.
Come and you will want to come again.

Get a TURKEY at the SMOKE HOUSE. It costs you nothing except the merchandise that you buy. It is no gamble.

Dr. Loucks Says:

The most of my time is devoted to a profound study of how I may be a convenience to the public and reduce their physical and mental burdens. I yearn to do good as a kitten yearns for warm milk. Goodness is its own reward, and the satisfaction received by the consciousness of having performed a kindness is a sufficient compensation for all my humanitarian efforts. But to proceed:

The present price of gasoline is 28 cents per gallon. If one buys a gallon he must dig up three pennies to go with the twenty five cents. If he buys two gallons he must dig up one cent. Not unless he buys five gallons, or some multiple of five, can he escape that pusillanimous penny business.

I have solved the difficulty. I have a new patented measure that accurately measures out fifty cents worth or a dollar's worth or any amount from five cents up. It operates like a scale that can be set for ten cents' worth or any other amount more or less. It does its work quickly and accurately and saves the annoyance of digging up pennies by either buyer or seller.

This measuring machine cost lots of money. But I paid the price gladly, feeling as I did that it would enable me to continue my line of policy to help, aid and assist the public.

If you come and try this device you will be pleased by its operation and I will be pleased by the sale. Here is a chance for mutual pleasure.

A \$1.50 on subscription would be an appreciated Xmas gift by the printer folks

TRAIL ROUTED THRU HARPER

TRANS-CONTINENTAL TRAIL BETWEEN CHICAGO AND EL PASO WILL PASS THRU HARPER—DELEGATES HAVE LITTLE OPPOSITION

Harper delegates who attended the Southwest Trail Convention which was held at Woodward, Okla. last Thursday night for the purpose of establishing a permanent route for the Southwest Trail between Wichita and Canadian, Texas, were successful in their mission and the proposed Trail will go through Harper. There was no strong opposition and Mayor Kelly and L. L. Galloway, the delegates had everything their own way. Mayor Kelly was placed on a committee of delegates to designate the trail. The committee's report to the convention was: "that the trail should pass through Kiowa, Hazelton, Attica, Harper and connect with the Meridian road at Wellington. The committee's report was unanimously adopted by the Convention.

The marking of this Trail, which is destined to become one of the most important trans-continental trails in the United States, will be done in the near future. The trail will run from Chicago to El Paso, Texas, following as near as possible, the main line of the A. T. & S. F. Railway. The possibility of this trail in time becoming a hard surface road is not improbable. Crossing as it does all trunk lines between Chicago and Oklahoma, tourists enroute to California, especially in the winter will soon see the advantage of the southern way and it will soon become a very popular highway.

Just what this trail means to Harper will not be appreciated until the marking of the whole route is complete and tourists enroute to and from the coast begin driving through and making Harper their camping grounds. Also it will give Harper direct main traveled roads to other cities along the route.

Harper's delegates were loud in their praise to the Woodward Chamber of Commerce who entertained the guests in royal fashion. The delegates were met at the station with the Convention was called after cars and were shown places of interest in the city. At eight o'clock which music was furnished by the Woodward Orchestra, while a bounteous banquet was served the delegates.—Harper Advocate (Kans).

This road should have run thru Artesia instead of Crrrizozo.

Austin Reeves will have charge of the work from Dunken to Elk. Edgar Watts will take charge from Dunken to the Otero County line on Angal Canon, and Emery Capper will oversee the work from Otero County line on four miles to Y. O. Crossing. Hope has promised to put the road from Hope to Y. O. Crossing in good shape.

This will be a long step in completing the first step toward having good roads west of Hope, then on to El Paso via Pinon. And if better from that place to the Otero County line, we believe El Paso will take up the work from the other end, and thus make a way of traveling from the Pecos Valley and the mountain country that will attract many tourists, as well as to enable the home-folks to go to the city without saying things that only should be thought.—Hope Press.

For Job Printing Phone 7.

FALL FOR PARK IN NORTHERN PART OF STATE SAYS MECHEM

Secretary of the Interior Fall declared he felt certain the Mesclero National park, if established, would not bar Northern New Mexico from getting another and, going a step further, put himself on record in favor of one in the northern part of the state, Governor Mechem stated this week.

The governor, who is head of the Mesclero National Park association, and a committee waited upon Fall in El Paso Sunday and laid the association's proposal before him.

"The secretary," said the governor, "declared himself in favor of the park—the Mesclero national park. Very much so. He had as United States senator, introduced measures for the creation of the park, but nothing ever came of them.

The Cliff Cities movement was called to Fall's attention, the governor said, and he said he had heard it mentioned and advised those who favored the project to organize an association, which, the governor said, seemed to be the first necessary step, and asked that it be carried out. When this was done, he said, Fall said he would be glad to consider the proposal.

"So, if these people are interested in getting a national park, the thing for them to do," said the governor, "is what the people of the southern section did—get together and organize an association, decide on what they want—put their proposition into shape and submit it.

"The secretary said he was going to send out a park expert—one of the best in the service—to look over the Mesclero proposition before the bill is returned with his recommendation to congress. The bill, of course, must be approved by him before it is finally acted upon.

"I would suggest that the people here, if they want to get the park established, avail themselves of this expert. No doubt the secretary would be glad to send him up here at the same time."—New Mexican.

The Wonders of America

By T. T. MAXEY

THE "SEA-GOING" RAILROAD.

KEY WEST is nearer the eastern terminus of the Panama canal, by almost 300 miles, than any other of our gulf ports. It is separated from the main land by the Florida keys—a more or less disconnected string of islands, composed largely of coral and limestone.

To reap the benefit of its strategic position, however, direct and quick transportation with the main land was necessary. A railroad was the answer. Its construction was considered impracticable and impossible. But there are men who will undertake anything. The late Henry M. Flagler furnished the funds and the work was begun in 1905. Men from many climes, material of many kinds and new methods of construction were called into service. The winds, waves, a torrid sun, many known and unknown factors had to be grappled with and solved. Even nature had to be overcome. The construction must be storm-proof.

From Homestead, where the extension begins, to Key West, it is 128 miles. Jumping from island to island are 11 miles of concrete arch viaducts and six miles of steel bridges—one of which contains 243 spans. The construction of the line on the islands proper was comparatively simple. Joining the island by rail was the ticklish job.

Thanks to the genius, grit and untiring efforts of the engineers, one may now enjoy the heretofore unthinkable and unique experience of riding from Key West to Miami in about five hours on a train running, for the most part, over water instead of on land.

The Wonders of America

By T. T. MAXEY

ESTES-ROCKY MOUNTAIN NATIONAL PARK.

MANY years ago three Englishmen hunted big game in the Rocky mountains. They had hunted in Asia, Africa and South America, but as they stood on the continental divide in north-central Colorado and looked down into Estes park it seemed to them a very paradise on earth. One of Colorado's most satisfying outing places ever since that time Uncle Sam, in 1915, proclaimed part of Estes and the territory immediately to the west a national park.

Only 70 miles from Denver, it is the most accessible to the largest number of people of any of our great national playspots. Here, at an average elevation of 7,500 feet above sea level, is a pine-scented, snow-capped pleasure-land—a perfectly delightful refuge of peaceful grandeur, where one may be out every day from May to October in clear, bracing air, beneath a bright but scorchless sun and enjoy every night the cool, refreshing sleep that only the mountains can induce.

Long's Peak stands sentinel over the park, in which are lakes on which float ice cakes in August; masses of snow (glaciers) a mile long and hundreds of feet thick, supposed to be older than the pyramids of Egypt, always exposed to the sun, far away from their starting point, yet slower than a snail; moraines—great ridges formed by glaciers which moved through the park centuries ago; rock-walled canyons; magnificent forests of pine and aspen; numerous mountain-trout streams; broad valleys, carpeted with luxuriant wild flowers of many varieties, including the delicate columbine—the state flower of Colorado.

The Wonders of America

By T. T. MAXEY

UTAH—"THE PROMISED LAND."

FIRST settled in the summer of 1847 by Brigham Young and his little band of Mormons, numbering less than 150 souls, Utah is fast coming into its own. Utah is 7,000,000 acres larger than all of the New England states combined, and there isn't much, if indeed, there is anything—within reason—that the imagination of man can conceive or his heart wish for that the state does not yield or cannot offer.

It is said that Utah contains enough iron ore to rebuild most of the steel structures in the country; sufficient black marble to build a column from the earth to the moon; salt enough to supply the world for 60 years; the greatest copper mine in all the world; enough coal to supply her population for 60,000 years; clay and sand enough to make the world's supply of brick for many years; 4,000,000,000 feet of lumber and sandstone and granite in quantities equal to the rebuilding of the majority of the buildings in the United States.

Gold, silver, copper, lead and zinc to the value of \$97,000,000 were mined in Utah during one recent year. Goodly quantities of agricultural products and fruit are also produced.

Utah's climate is neither hot, cold, dry or wet, but rather a happy medium with a touch of salt air added for good measure. Her fertile valleys remind one of Italy, her pointed mountains hold a touch of Alpine beauty and great painters say that her sunsets are the most beautiful in the world.

Entered at postoffice at Artesia, New Mexico, as second class mail in 1903

TERMS OF SUBSCRIPTION

One Year.....\$1.50
Positively in Advance
Names dropped as delinquent

This week we notice that several boys stayed away from school with different excuses for not attending that could have been avoided. When these boys reach manhood and enter upon life's hard labors they will wish they had not missed a day.

THE TEST

There is a story to the effect that an Artesia man protested to his wife that he was not under the influence of drink and she asked him to say "Chrysanthemum." That was just like a woman. Of course he couldn't and she knew he couldn't.

BABE RUTH LEARNS HIS LESSON

The state, I am it," said Babe Ruth or substantially that, when he broke the rules and regulations of baseball and flouted the authority of commissioner K. M. Landis by playing post-season games with 'bush league' teams.

He relied on the nationwide popularity among millions of baseball fans to carry him thru without punishment.

Now Ruth is suspended and his share of the 1921 world series profits forfeited. There is no great clamor from the crowd in protest.

The "baseball king" learns, it may be with pained surprise, what other kings have learned through the centuries. That no man is big enough to do as he pleases, irrespective of everything, and that popular support may be unstable.

The fact is, all of us, wherever situated, in whatever condition of life, are expected to play the game according to the rules, and are subject to penalty if we don't.—El Paso Herald.

BONUS

Secretary Mellon, in his current annual report, just released, uses many pages of argument for the cutting down of the upper surtax brackets, which means the cutting down of the taxes of multi-millionaires like Mr. Mellon.

Secretary Mellon uses about a quarter of a page discussing the soldier bonus. He says this:

The Treasury's position with regard to the soldier's bonus or so-called adjusted compensation for veterans of the war, has been set forth in the Secretary's letter of July 2, 1921, to Senator Frelinghuysen in response to Senator Frelinghuysen's letter of June 24, 1921, which requested the views of the Treasury as to S. 506, "to provide adjusted compensation for veterans of the World War" with particular reference to the financial obligations it would have entailed. These letters are included here as Exhibit 33, page 228. The position of the President in regard to the soldier's bonus was subsequently stated in a special message to the Senate, dated July 12, 1921, which is set forth herein as Exhibit 34, page 232.

Conditions have not changed since the Secretary's letter and the President's message, and the Treasury's attitude remains the same. Even without any soldiers' bonus or adjusted compensation, the estimates show that the Federal Government will spend in the fiscal year 1922, & again in the fiscal year 1923, about \$450,000,000 a year for the relief of veterans of the late war.

The president avoided mention of the bonus in his address to congress. This continued opposition of the administration to any form of compensation for soldiers who served in the mud and blood of the world war for a dollar a day while Mr. Mellon was piling up his millions of war profits upon his already ample fortune will come as a disappointment to those who had hoped that the administration would hasten to get right on the bonus proposition, following the action of the American Legion convention in Kansas City. It is evident that Mr. Harding's secretary of the treasury is not at all interested in what the American Legion thinks about the bonus.

It is safe to assume, however, that congress will do something about the bonus. In fact, congress almost had something done about it once. It was ready to override Mr. Mellon. Then the president himself appeared with an urgent request to shelve the bonus, and the bonus was shelved. It is doubtful whether the president will rush to the aid of his secretary of the treasury in such a contingency again. The last time he did so his appeal was ignored. That was in the case of the compromise on surtax brackets. Mellon wanted the highest surtax on the biggest incomes (including Mr. Mellon's income) hammered down to 35 per cent. The highest had been 65 per cent. The house passed the bill at the 35 per cent figure, our own Congressman Bird being reported as voting for the bill in that form. The senate, after hearing from home, decided on a higher level of surtaxes for the biggest incomes, and a compromise was reached at 50 per cent. The president intervened at this point with an appeal to compromise somewhere around 40 per cent, if possible. The senate and house conferees went ahead and compromised at 50 per cent, and felt they were taking a considerable risk then of incurring public disapproval because of the cut in the surtaxes made even at that figure, saving many millions of dollars to those receiving incomes around a million dollars a year.

Congress has been hearing from home rather regularly on the bonus proposition. With congressional elections looming just ahead, it is likely that some sort of bonus legislation will be passed in spite of the opposition of the administration.—Wichita Eagle.

Several couples from here have invitations to the "Baile" to be given by Will Vermillion at Lake Arthur tonight. Mr. Vermillion's dances are always delightful affairs and many from here will attend. Hagerman's five piece orchestra has been secured for the occasion.

Mrs. Bettie Wheat and daughter Miss Ether, of Pleasant Hill, Mo., arrived last Thursday and will spend the winter in this city. They are old friends of Mrs. Anna Pitts.

Miss Lora Davis of Hope was in the city Saturday.

John Eubanks was up from Carlsbad on business Saturday.

Last of Old Advocate.

When the good will and subscription list of the Advocate were purchased of A. W. Henry about two years ago he sold some of his type for old metal and shipped the balance with most of his presses and machinery to California. His Campbell press which was old enough to vote and so heavy that the floor had to be propped under it was alone left here and put in cold storage.

It was recently purchased by the Hagerman Messenger and will become a fixture in the Messenger office. Though ancient and battle scarred, and while making a noise and vibration when in operation like a procession of tractors crossing a steel bridge, it is yet capable of fair service and will probably print the Messenger as long as the latter is printed. This is the last of Mr. Henry's old Advocate equipment, and if the old press could talk it would relate weird stories of its long and varied experience.

Mr. Henry has been doing linotype work in San Francisco at good wages since he left here but intends to join his family in Long Beach the first of the New Year and get into business there.

Everyone in Artesia has a warm place for the veteran printer and will be glad to learn that he is well and prosperous in his new home.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY.

Opposite Hardwick Hotel.
Sunday service at 11 a. m.
Wednesday service at 7:30 p. m.
The public is cordially invited to attend these services.

BAPTIST

Service changes.

A. W. WILD, S. S. Supt.
REV. T. V. COX, Pastor.
Come and you will want to come again.

Get a TURKEY at the SMOKE HOUSE. It costs you nothing except the merchandise that you buy. It is no gamble.

Dr. Loucks Says:

The most of my time is devoted to a profound study of how I may be a convenience to the public and reduce their physical and mental burdens. I yearn to do good as a kitten yearns for warm milk. Goodness is its own reward, and the satisfaction received by the consciousness of having performed a kindness is a sufficient compensation for all my humanitarian efforts. But to proceed:

The present price of gasoline is 28 cents per gallon. If one buys a gallon he must dig up three pennies to go with the twenty five cents. If he buys two gallons he must dig up one cent. Not unless he buys five gallons, or some multiple of five, can he escape that pusillanimous penny business.

I have solved the difficulty. I have a new patented measure that accurately measures out fifty cents worth or a dollar's worth or any amount from five cents up. It operates like a scale that can be set for ten cents' worth or any other amount more or less. It does its work quickly and accurately and saves the annoyance of digging up pennies by either buyer or seller.

This measuring machine cost lots of money. But I paid the price gladly, feeling as I did that it would enable me to continue my line of policy to help, aid and assist the public.

If you come and try this device you will be pleased by its operation and I will be pleased by the sale. Here is a chance for mutual pleasure.

A \$1.50 on subscription would be an appreciated Xmas gift by the printer folks

TRAIL ROUTED THRU HARPER

TRANS-CONTINENTAL TRAIL BETWEEN CHICAGO AND EL PASO WILL PASS THRU HARPER—DELEGATES HAVE LITTLE OPPOSITION

Harper delegates who attended the Southwest Trail Convention which was held at Woodward, Okla. last Thursday night for the purpose of establishing a permanent route for the Southwest Trail between Wichita and Canadian, Texas, were successful in their mission and the proposed Trail will go through Harper. There was no strong opposition and Mayor Kelly and L. L. Galloway, the delegates had everything their own way. Mayor Kelley was placed on a committee of delegates to designate the trail. The committee's report to the convention was: "that the trail should pass through Kiowa, Hazelton, Attica, Harper and connect with the Meridian road at Wellington. The committee's report was unanimously adopted by the Convention.

The marking of this Trail, which is destined to become one of the most important trans-continental trails in the United States, will be done in the near future. The trail will run from Chicago to El Paso, Texas, following as near as possible, the main line of the A. T. & S. P. Railway. The possibility of this trail in time becoming a hard surface road is not improbable. Crossing as it does all trunk lines between Chicago and Oklahoma, tourists enroute to California, especially in the winter will soon see the advantage of the southern way and it will soon become a very popular highway.

Just what this trail means to Harper will not be appreciated until the marking of the whole route is complete and tourists enroute to and from the coast begin driving through and making Harper their camping grounds. Also it will give Harper direct main traveled roads to other cities along the route.

Harper's delegates were loud in their praise to the Woodward Chamber of Commerce who entertained the guests in royal fashion. The delegates were met at the station with the Convention was called after cars and were shown places of interest in the city. At eight o'clock which music was furnished by the Woodward Orchestra, while a bountiful banquet was served the delegates.—Harper Advocate (Kans).

This road should have run thru Artesia instead of Crrrizozo.

Austin Reeves will have charge of the work from Dunkin to Elk. Edgar Watts will take charge from Dunkin to the Otero County line on Angal Canon, and Emery Capper will oversee the work from Otero County line on four miles to Y. O. Crossing. Hope has promised to put the road from Hope to Y. O. Crossing in good shape.

This will be a long step in completing the first step toward having good roads west of Hope, then on to El Paso via Pinon. And if better from that place to the Otero County line, we believe El Paso will take up the work from the other end, and thus make a way of traveling from the Pecos Valley and the mountain country that will attract many tourists, as well as to enable the home-folks to go to the city without saying things that only should be thought.—Hope Press.

For Job Printing Phone 7.

FALL FOR PARK IN NORTHERN PART OF STATE SAYS MECHEM

Secretary of the Interior Fall declared he felt certain the Mesalero National park, if established, would not bar Northern New Mexico from getting another and, going a step further, put himself on record in favor of one in the northern part of the state. Governor Mecham stated this week.

The governor, who is head of the Mesalero National Park association, and a committee waited upon Fall in El Paso Sunday and laid the association's proposal before him.

"The secretary," said the governor, "declared himself in favor of the park—the Mesalero national park. Very much so. He had as United States senator, introduced measures for the creation of the park, but nothing ever came of them.

The Cliff Cities movement was called to Fall's attention, the governor said, and he said he had heard it mentioned and advised those who favored the project to organize an association, which, the governor said, seemed to be the first necessary step, and asked that it be carried out. When this was done, he said, Fall said he would be glad to consider the proposal.

"So, if these people are interested in getting a national park, the thing for them to do," said the governor, "is what the people of the southern section did—get together and organize an association, decide on what they want—put their proposition into shape and submit it.

"The secretary said he was going to send out a park expert—one of the best in the service—to look over the Mesalero proposition before the bill is returned with his recommendation to congress. The bill, of course, must be approved by him before it is finally acted upon.

"I would suggest that the people here, if they want to get the park established, avail themselves of this expert. No doubt the secretary would be glad to send him up here at the same time."—New Mexican.

The Wonders of America

By T. T. MAXEY

THE "SEA-GOING" RAILROAD.

KEY WEST is nearer the eastern terminus of the Panama canal, by almost 300 miles, than any other of our gulf ports. It is separated from the main land by the Florida keys—a more or less disconnected string of islands, composed largely of coral and limestone.

To reap the benefit of its strategic position, however, direct and quick transportation with the main land was necessary. A railroad was the answer. Its construction was considered impracticable and impossible. But there are men who will undertake anything. The late Henry M. Flagler furnished the funds and the work was begun in 1905. Men from many climes, material of many kinds and new methods of construction were called into service. The winds, waves, a torrid sun, many known and unknown factors had to be grappled with and solved. Even nature had to be overcome. The construction must be storm-proof.

From Homestead, where the extension begins, to Key West, it is 123 miles. Jumping from island to island are 11 miles of concrete arch viaducts and six miles of steel bridges—one of which contains 243 spans. The construction of the line on the islands proper was comparatively simple. Joining the island by rail was the ticklish job.

Thanks to the genius, grit and untiring efforts of the engineers, one may now enjoy the heretofore unthinkable and unique experience of riding from Key West to Miami in about five hours on a train running, for the most part, over water instead of on land.

The Wonders of America

By T. T. MAXEY

ESTES-ROCKY MOUNTAIN NATIONAL PARK.

MANY years ago three Englishmen hunted big game in the Rocky mountains. They had hunted in Asia, Africa and South America, but as they stood on the continental divide in north-central Colorado and looked down into Estes park it seemed to them a very paradise on earth. One of Colorado's most satisfying outing places ever since that time Uncle Sam, in 1915, proclaimed part of Estes and the territory immediately to the west a national park.

Only 70 miles from Denver, it is the most accessible to the largest number of people of any of our great national playspots. Here, at an average elevation of 7,500 feet above sea level, is a pine-scented, snow-capped pleasure-land—a perfectly delightful refuge of peaceful grandeur, where one may be out every day from May to October in clear, bracing air, beneath a bright but scorchless sun and enjoy every night the cool, refreshing sleep that only the mountains can induce.

Long's Peak stands sentinel over the park, in which are lakes on which float ice cakes in August; masses of snow (glaciers) a mile long and hundreds of feet thick, supposed to be older than the pyramids of Egypt, always exposed to the sun, far away from their starting point, yet slower than a snail; moraines—great ridges formed by glaciers which moved through the park centuries ago; rock-walled canyons; magnificent forests of pine and aspen; numerous mountain-trout streams; broad valleys, carpeted with luxuriant wild flowers of many varieties, including the delicate columbine—the state flower of Colorado.

The Wonders of America

By T. T. MAXEY

UTAH—"THE PROMISED LAND."

FIRST settled in the summer of 1847 by Brigham Young and his little band of Mormons, numbering less than 150 souls, Utah is fast coming into its own. Utah is 7,000,000 acres larger than all of the New England states combined, and there isn't much, if, indeed, there is anything—within reason—that the imagination of man can conceive or his heart wish for that the state does not yield or cannot offer.

"It is said that Utah contains enough iron ore to rebuild most of the steel structures in the country; sufficient black marble to build a column from the earth to the moon; salt enough to supply the world for 60 years; the greatest copper mine in all the world; enough coal to supply her population for 60,000 years; clay and sand enough to make the world's supply of brick for many years; 4,000,000,000 feet of lumber and sandstone and granite in quantities equal to the rebuilding of the majority of the buildings in the United States.

Gold, silver, copper, lead and zinc to the value of \$97,000,000 were mined in Utah during one recent year. Goodly quantities of agricultural products and fruit are also produced.

Utah's climate is neither hot, cold, dry or wet, but rather a happy medium with a touch of salt air added for good measure. Her fertile valleys remind one of Italy, her pointed mountains hold a touch of Alpine beauty and great painters say that her sunsets are the most beautiful in the world.

Owing to the scarcity of money, it has been almost impossible to get cash buyers for land or city property of any kind.

During the past 30 days we have made several good exchanges in both farms and residence property.

If You desire to exchange your farm or city residence, come in and submit us your proposition and we will try to match you.

There is no reason why you cannot get just as good values and still be as well satisfied as in cash deals. Do not inflate your values no more than you would expect the other fellow to inflate his values.

COME IN AND SEE US. WE SOLICIT YOUR BUSINESS

Death of Mrs. Harvey.

Mrs. Alice Harvey who had been ill for some time, went last week to Carlsbad, where she was operated upon Sunday morning for gall stones. Her system, which was badly run down from the effects of the disease, was unable to rally from the shock and she passed away Monday night.

Her little daughter, Alphare, and Miss Emma Clark had gone down and were present when the end came. Her brother at Lake Arthur was ill and was unable to be there. The remains were shipped to her old home at Sibley, Iowa, for burial.

Mrs. Harvey was a woman of fine character and was held in high esteem by all who knew her. She was a member of the Methodist church. In accordance with her will the little girl, Alphare, will remain here until the close of the school year, where she will make her home with Mrs. Harveys brother and wife at Sibley.

Worn Clothing Wanted.

Clothing for boys of 5, 7, 9 and 11 years of age and for girls of 2, 4 and 13 years is badly needed. Any one having such clothing to spare may leave same at Citizens State Bank or notify A. C. Keimath, who will call for it and see that it reaches its destination. Bedding would also be acceptable.

Friends of the Selby family at Lake Arthur will be sorry to learn that the next to the youngest boy, Galloway, was thrown from a horse on Wednesday morning, sustaining a bad break of the thigh.

Mrs. Laura Kelley, after a weeks' visit here, left Sunday for Carlsbad en route to Lovington. She came over from the plains to see her sister, Miss Minnie Drake, who came here from Des Moines, Iowa, to prove up on her claim. Francis Kelley was also here from Carlsbad last week.

When Buying Xmas Presents

Remember Music Makes Home Sweet Home. The spirit of Christmas is the Spirit which provides for the lasting pleasures of All.

BIG REDUCTIONS ON PHONOGRAPHS:

A more pleasing present to the family could not be made. It costs no more than the ordinary machine. No changing of needles. We handle Pathe records—the Pathe will play any kind of record. Can furnish electric or spring motor. REMEMBER—with every cabinet machine sold we give \$25.00 worth of records. Purchaser of machine have privilege of selecting records to their liking.

The Hoover Electric Cleaner

would be a most gratifying Christmas present. The Hoover lifts the rug off the floor. It beats as it sweeps as it cleans.

Other Christmas presents that would make Xmas day more pleasurable are Congoleum gold seal art rugs, rocking chairs, dinning tables, cedar chests. A HOOSIER kitchen cabinet would save the lady of the house much time and labor. Come look us over for useful Christmas presents.

The Wonders of America

By T. T. MAXEY

MESA VERDE NATIONAL PARK.

IN 1888 there was discovered in Montezuma county, southwestern Colorado, the greatest prehistoric ruins in this country. A thorough examination of the canyon of the Mancos river disclosed the fact that it contained extensive examples of the mysterious remains of an extinct race. Uncle Sam decided to preserve and set aside nearly 50,000 acres as a national park—Mesa (Spanish for high table-land) and Verda (meaning green, from the cedar trees).

Many narrow canyons with high, sheer walls open into the valley. In their sides are many of the best-preserved specimens of cliff dwellings known. A large human population lived in these cave-huts on the sides of these sandstone cliffs. They believed that they were dependent upon the gods to make the rainfall so their crops would grow and worshiped the sun as the father of all and the earth as the mother who brought all material blessings. Apparently they possessed no written language and recorded their thoughts only by means of symbols.

Cliff Palace, the largest dwelling—a community house—had over 200 dwelling rooms. In addition to many sacred rooms called kivas. Sun Temple, a mysterious ruin, shaped like a letter D, is over 120 feet long and 64 feet wide.

As the population of this community increased the floor of the caves was covered with rooms, and finally they emerged from the caves altogether and builded pueblos on top of the mesas in the open country.

A visit to these ruins is much like going back into another world.

The Wonders of America

By T. T. MAXEY

YELLOWSTONE NATIONAL PARK.

YELLOWSTONE, our oldest and largest national park, is considerably larger than the state of Delaware. Its altitude ranges from 6,000 to 11,000 feet above sea level. It contains such a large collection of weird and freak natural phenomena that the visitor gains the impression the Great Creator of all things must have roamed over the world, collecting all the odd things he saw, dumping them here in one great disordered heap.

There are more geysers than in all the rest of the world put together. They range from tiny openings, spouting water but a few feet, at intervals of a few minutes, to the great giant, larger than a well, projecting a column of water 250 to 300 feet high, for a period of several minutes at intervals of several days. There are numerous waterfalls, the great fall of the Yellowstone river in the gorgeously colored, 20-mile-long Grand canyon, being 308 feet high. There are many hot springs and small lakes, also the largest lake—Yellowstone—at its height in North America. There are several paint pots—great cauldrons of bubbling, hissing mud; many steam vents and boiling pools, a natural bridge, a roaring mountain, a mountain of volcanic glass, petrified trees and wedded trees.

At Norris basin is said to be the thinnest known portion of the earth's crust. Standing there, the visitor needs no assurance that his satanic majesty resides near by.

Yellowstone, known far and wide for its wild flowers, is also the largest wild game preserve in the world.

The Wonders of America

By T. T. MAXEY

MOUNT RAINIER NATIONAL PARK

"THE mountain that was God," wrote John D. Williams. "Mount Big Snow," said the Indian. At any rate, the most wonderful mountain in the United States—its hoary-headed peak piercing the blue sky to a height of almost three miles, while its base covers a hundred square miles of territory. Its isolation, standing alone as it does instead of in a range, makes its mightiness all the more impressive.

Uncle Sam created a national park around it and thus preserved it as one of our greatest sights, so we can all go and see it and wonder for ourselves.

Like all volcanoes, Rainier built up its cone from the material thrown out from its interior. But a terrific explosion destroyed its conelike top and greatly reduced its height. It has not been in eruption for nearly 50 years, though steam jets sometimes melt the snow at its summit and hot springs flow from its base.

Twenty-eight glaciers, born from the snow which covers the mountain, radiate from its peak and form one of the largest known glacial systems. From these great ice fields there naturally lead off numerous streams and rivers which find their way, through beautiful canyons, to the lower altitudes. Below the glaciers, in an open space which circles the mountain, grow millions of gorgeous wild flowers, presenting a beautiful spectacle as well as a marvelous contrast to the snow above. Below the flowers are dense and immense forests of fir, spruce and cedar.

FOUR IN FAMILY OF CONVICT HAVE DIED BY VIOLENCE

William E. Murrah, sentenced to
hang for the poisoning of his brother
and whose sentence was commuted
by the governor to life imprisonment,
was brought to the penitentiary to-
day by Sheriff Patton of Eddy County,
accompanied by F. E. Wilson, as-
sistant district attorney, and W. T.
Reed, of the Carlsbad Argus. A
check artist named Bell, was also
brought to the prison. Murrah's
father and three brothers have all
met violent deaths in the past few
years and the family probably holds
a record for figuring in murder trials
—Santa Fe New Mexican.

SANTA FE MAN HERE

W. E. Goodloe, division freight and
passenger agent, of Amarillo, Tex.,
as, was in Hagerman Tuesday. He
was accompanied by M. W. Evans, of
Lake Arthur, and they were here in-
vestigating the prospects of develop-
ing the dairy industry in this vicin-
ity. A well developed movement is
on to put in a condenser at Lake
Arthur, the establishment of the en-
terprise depending very largely upon
the extent to which the farmers of
this and other communities adjacent
to Lake Arthur would take hold of
dairying as one of the primary in-
dustries. Mr. Goodloe stated that the
Santa Fe would assist in every way
possible in fostering such an indus-
try in the Pecos Valley.—Hagerman
Messenger.

NO DOUBT

Dickson had been absent from his
office for several days and on his
return a friend insisted on knowing
where he had been.

"Out to see a friend of mine who
has a still," confessed Dickson.
"And did you sample his stuff?"
the friend demanded.
"I guess I must have," he sighed,
"there are still two days I can't ac-
count for."

Cleaning and pressing, hat work.

GET MAIL 14 YEARS OLD

Hutchinson, Kan., Dec. 2.—The lit-
tle obscure town of Ford, near here,
was all "hot up" tonight. Mail was
being distributed—sacks of it—big
piles of it—for it had been accumu-
lating in the little postoffice for four-
teen years.

The old postmaster, George T.
Herzer, who had officiated for the
past seventeen years, died recently.
When the postal inspectors visited
the office to check up, money trans-
actions balanced to a cent, but a
mass of undelivered mail was found
which fairly staggered them.

Poked away in niches and corners,
stored away in old boxes and piled
up in cupboard were thousands of
letters, some posted over fourteen
years ago. They had not been called
for and the aged postmaster, making
no further attempt to deliver them
had hidden them away.

Many to whom the mail was ad-
dressed are now dead or have moved
from the town. But to those who
remain the distributing tonight was
proving an exciting—and to some,
an embarrassing event.

Sedate matrons with good sized
families received love letters from
swains of a decade ago. Settled mar-
ried men who had always led their
wives to believe they had never had
another girl, were receiving epistles
filled with "sweet nothings," sweet-
hearts fourteen years back.

A business firm of this city received
an order mailed seven years ago
by a writer who had been dead two
years. One woman was delighted to
receive her graduation announcement
of the spring of 1917.

Country folks for miles around
were flocking in to see it they shared
in the distribution, while the new
postmaster, rummaging over the dusty
piles of faded letters, had his own
idea of his new job, which would
not look well in print.—Santa Fe
New Mexican.

NOTICE OF FORECLOSURE SALE.

IN THE DISTRICT COURT, EDDY
COUNTY, NEW MEXICO.

No. 3428.

W. A. Steelman, Plaintiff,

vs.

Barney Currie and Mae Currie,
Defendants.

Notice is hereby given that pur-
suant to a decree of foreclosure,
made in the above entitled cause on
the 30th day of September, 1921,
in which the amount awarded to
plaintiff, together with interest to
the date of sale, is Thirty-Five Hun-
dred, Thirty-Eight and 25/100
(\$3538.25) Dollars and costs, and
for the foreclosure of a certain
mortgage described therein upon cer-
tain real estate and water right here-
after described, and ordering said
real estate and said water right sold
to satisfy said judgment, I, the un-
dersigned special master, appointed
under said decree, will sell at pub-
lic vendue to the highest and best
bidder for cash at ten o'clock A. M.,
on January 1st, 1922, at the front
door of the First National Bank at
Artesia, Eddy county, New Mexico,
the following described real estate
and water right situate in Eddy
County, New Mexico, to-wit: The

NW¼ of the SE¼, the NE¼ of
the SW¼ and the SE¼ of the SE¼
of Section Twenty (20); W½ of the
SW¼ and SW¼ of the NW¼ of
Section Twenty-One (21) and the
NE¼ of the SE¼ of Section twenty
(20) all in Township Seventeen
(17), South, Range Twenty-Three
(23) East, N. M. P. M., containing
280 acres, and one six-hour water
right in the Hope community ditch,
said right being No. 98, as shown
by the books of said Hope Commu-
nity Ditch, to satisfy said judgment,
costs and costs of sale.

Dated December 1, 1921.

J. B. ATKESON,
Special Master.

NOTICE

STATE ENGINEER'S OFFICE

Number of Application 1474.

Santa Fe, N. M., November 28,
1921.—Notice is hereby given that
on the 28th day of November, 1921,
in accordance with Section 26, Chap-
ter 49, Irrigation Laws of 1907, T.
J. Terry of Artesia, County of Eddy,
State of New Mexico, made formal
application to the State Engineer of
New Mexico for a permit to appro-
priate the Public Waters of the State
of New Mexico.

Such appropriation is to be made
from Cottonwood Creek at a point
which bears N. 43 degrees 45 min-
utes W, 1470 feet distant from the
S 1-4 corner of Sec. 2, T. 16 S., of
R. 25 E., N. M. P. M., being in the
SE 1-4 SW 1-4 of said Sec. 2, by
means of earth diversion dam and
960 acre feet is to be conveyed to
NE 1-4 Sec. 13 T. 16, S. of R. 25
E., N. M. P. M., and NW 1-4 of
Sec. 18, T. 16, S. of R. 26 E., N. M.
P. M. by means of main canal and
laterals and there use for the irri-
gation of above described 320 acres
and domestic purposes.

Any person, firm, association or
corporation deeming that the grant-
ing of the above application would
be truly detrimental to their rights
in the water of said stream system
shall file a complete statement of
their objections substantiated by
affidavits with the State Engineer
and serve a copy on applicant on or
before the 25th day of February,
1922, the date set for the Engineer
to take this application up for final
consideration unless protested. In
case of protested applications all par-
ties will be given a reasonable length
of time in which to submit their evi-
dence in detail or arrange a date
convenient for a hearing or appoint
a referee satisfactory to all to take
testimony. Appearance is not
necessary unless advised officially by
letter from the State Engineer.
CHAS. A. MAY,
State Engineer.

Christmas Gift.

DEAR MR. MOTORIST:

A serviceable Xmas gift for you and a chance to replace that
bad tire with those other good ones. Beginning December 19th
until the night of December 24th, we will give FREE a new tube
with every new tire bought. A can of cold patch with every tube
bought. You have the following tires to pick from: Gates, Fisk
Firestone and Oldfield. These tires are all first-class with
the serial number. Guaranteed 5 to 6 thousand miles.

The tube and cold patch is a Xmas gift to you.

30x3 1-2 tires: Gates \$14.90; Fisk \$14.75; Firestone
\$11.65; Oldfield \$9.99. We stand behind every tire we sell.

Thanking you for past patronage and soliciting your future
business. We wish you a Merry Xmas and a Happy and Prosperous
New Year.

Yours for better tire service,

B. F. PIOR TIRE COMPANY.

Artesia, New Mexico.

Dallas, Tex., Dec. 8.—Highly com-
plimenting the First National Bank
of Artesia on its cooperation in the
Savings Movement with the United
States Government Savings Division,
Dinsmore W. Hume, Federal Direc-
tor, has addressed a special letter to
all the 1800-odd banks in the Eleventh
Federal Reserve District.

The local bank has been very ac-
tive in acquainting Artesia people
with the merits of the \$25, \$100,
and \$1000 Registered Treasury Sav-
ings Certificates, and encouraging in-
vestment in Government securities.

Excellent work is also being done
by the Artesia postmaster, Mr. Hume
said.

11 HANGED AFTER BEING CONVICTED

Washington, Dec. 8.—Eleven mem-
bers of the American Expeditionary
Forces were hanged in France after
conviction by military court martial.
Colonel Walter E. Bethel, assistant
judge advocate of the army, testified
today before the senate committee,
which is investigating the charges of
Senator Watson that American sol-
diers were hanged without trial in
France.

NOTICE!

Appointment of receivership for the
Lawton Gas & Electric Company at
Lawton, Okla., in no way effects our
plant in Artesia. The Lawton Gas &
Electric Co. at Lawton is not a subsidi-
ary of the Southwestern Cities Electric
Company, but a subsidiary of the Keys
Corporation and the subsidiary of the
Keys Corporation alone are affected by
this receivership. Therefore all electric
bills of the Pecos Valley Gas & Electric
Co. are now due and payable at the
office of the company. Consumers who
fail to pay accounts by the fifteenth of
December will as usual be discontinued.
Your compliance with our request will
aid us materially in rendering you good
service. Can we not count on your
co-operation? Signed,

Pecos Valley Gas & Elec. Co.

The Wonders of America

By T. T. MAXEY

THE LIBRARY OF CONGRESS.

A LIBRARY for congress was an unquestioned necessity. Consequently, the congressional library was founded about the same time the government was first established, or in 1800. It was entirely destroyed by fire in the war of 1812 and also suffered seriously from fire at a later date. So, congress authorized the construction of a building that could not be burned. Result, the present structure, completed in 1897, said to be the most perfectly adapted for the convenient use and storage of books of any large library in the world, likewise the largest, costliest and safest.

It consists of three stories, a basement and a dome, covers almost three and one-half acres and has a total floor space of about eight acres. You can better grasp the magnitude of this building, when I tell you that it contains 22,000,000 brick, to say nothing of the other materials, and has 69,200 shelves with a total length of about forty miles.

It now houses considerably more than one million books and pamphlets, which is the largest single collection on the western hemisphere. Its estimated total capacity is about 1,900,000 publications. Its more than 2,000 windows render it the best lighted library in the world.

The colorings of the reading room are soft, quiet, rich and warm, being conducive to the greatest comfort. The walls carry many helpful and inspiring inscriptions. Its conspicuous beauty or charm, however, is in the wonderful mural decorative scheme, it being unquestionably the most gorgeously decorated public building in America.

B. F. Sanford received word yesterday from Peabody, Kansas, that his father had died on that day. He leaves tonight for that Peabody to attend the funeral.

Rev. Moon of Hope was here on business Monday.

Mrs. Abe Burnett was over from Hope Wednesday.

An appropriate Xmas present. A pair of glasses. Ask Edward Stone.

Miss Bess Boyd came from Dallas this week to spend a fortnight with her sister, Mrs. C. E. Mann and family.

THE WOMANS' CLUB.

The romance of the "Big Bend" country of southwestern Texas, as given by Mrs. Lowery at the club meeting of Wednesday afternoon brought out a new phase of the Southwest. The book was written by Carlys Graham Roht, and gives the history as well as well as romance of the Big Bend section.

"The Blood of the Conquerors" the scene of which is laid at Albuquerque, was reviewed by Mrs. Corbin. This fascinating tale was written by Harvey Ferguson, a native of New Mexico, who deals with the local conditions and the descendants of the old Spanish conquistadores with an understanding heart. Many phases of life peculiar to this section are woven into this typical tale of New Mexico.

The club will take a holiday vacation, the next annual business meeting being held on January 11. The program on that day will be upon Thrift.

The Art Exhibit, which the Club had on display for ten days, was viewed by a large number of people, many dropping in several times to see these gems by the artists who paint at Santa Fe. The kindness of Mr. McClay in loaning his store room for the purpose made the exhibit easily accessible to the public.

ACCLIMATED TREES
Fruit Trees, Shade Trees and Ornamentals. Order Now. Catalogue free.

ALBUQUERQUE NURSERIES,
Box 216, Albuquerque, N. M.

There will be preaching at the first Christian Church Sunday, December 18th. The subject for discussion at the morning service will be "The Seven Helpers." The subject for the evening service is "Conversion of a Nobleman."

Come at 11 o'clock in the morning and at 7 o'clock for the evening service. You will hear God's word spoken in a worthwhile way.

A MESSAGE FROM SANTA CLAUS

My dear, dear children, how happy I was to see you last Saturday in Roswell. It did my heart good to look into your faces and see what dear children you are. Your Santa loves you and will come again on Christmas, but this time it will be when all are tucked in bed fast asleep and all is still as a mouse.

Now, kiddies, be sure and write your letters to me and drop them in the Big Red Chimney at the Roswell Hardware Company. Write your name and address very plainly, as I expect to answer every letter I find in the Big Red Chimney.

SANTA CLAUS.

Santa Claus

On his preliminary Inspection trip, will visit

**Artesia Saturday
December 17, 2 o'clock**

Will arrive at The First National Bank corner at the hour stated and will expect to see every child in this whole country present. **A THOUSAND LITTLE GIFTS** for distribution.

All parents requested to be present to see Santa. Remember the date.

Signed,

Happy Holiday
Secretary to Santa Claus

Say!

NEGLECT of your town paper came very near driving it from your city. Now, since the greater number of citizens have rallied to the paper with a guarantee of advertising, each month, it will remain in your city as long as we can live and the town grows. There are still a few business men in the city who have not helped, and if we have not approached you, and you will volunteer to place an advertisement each week we will keep this paper going for our interest and your town interests. Will you do it? Others have given their guarantee. Do you think as much of your town paper? \$1.50 for a years subscription, now, will help maintain the paper.

Ford
THE UNIVERSAL CAR

Pride of Ownership

THE Ford Touring Car has brought to the farm homes of the country more real pleasure, comfort and convenience than perhaps any other one thing.

It has enabled the farmer and his family to mingle with friends, attend church, neighborhood functions, and enjoy the many pleasures that abound in country life.

Truly the Ford car with its low cost of operation and maintenance, its usefulness and efficiency, has been a boon to the American farmer.

Your order should be placed at once if you wish to avoid delay in delivery.

A New Years Resolution TRADE AT Harves' Garage

Linen Shower for Miss Boyd.

Mrs. J. R. Atterberry was hostess to a large number of ladies at her home on Monday afternoon, in honor of Miss Bessie Boyd, who is to be married soon to Theodore Russel of Dallas, Texas.

Many useful and beautiful articles were presented to the honor guest by the other ladies present. A parcel containing the gifts, was delivered to Miss Boyd by a special messenger. This unique method of presentation was very amusing to all present.

Delicious refreshments, consisting of cake and fruit jelly with whipped cream were served by Miss Virginia Atterberry.

The following ladies were present: Misses Jenna Mae Atterberry and Jeanette Williamson, and Mesdames James, Young, Jessie, Recer, White, Solomon Mann and the honor guest.

Mrs. C. E. Mann entertained on Tuesday afternoon with a delightful "Thimble Party" in honor of her sister, Miss Bessie Boyd, who is visiting from Dallas, Tex. A large number of ladies were present at this joyful occasion at the beautiful home of Mrs. Mann on South Roselawn.

A varied and interesting program was rendered by some of the guests. Mesdames Martin Yates, Dayton Recer and R. G. White favored the group with musical numbers. Mrs. Boyd also sang a solo. Refreshments consisting of marshmallow pudding tipped with whipped cream and cherries, cake and coconut macaroons were served.

The following ladies were present: Miss Bessie Boyd, the honor guest, Nell Frances, Jenna Mae Atterberry and Jeanette Williamson and Mesdames Frisch, White, Stroup, Knoedler, James, Gates, Wheatley, Jessie, Recer, Corbin, Yates, Young, Osie Brown and the hostess.

The Wonders of America

THE AMERICAN DEAD SEA.

IF YOU can imagine a lake 100 miles long, 25 miles wide, with an average depth of 20 feet—80 feet is the greatest depth recorded—almost 1,000 miles inland and 4,250 feet above sea level, you can form some conception of this world marvel—Great Salt Lake.

Its waters are six times as salty as the ocean. Put five bucketfuls in a tank, let it evaporate and one bucketful of pure salt will be left. A bath in its buoyant waters is both delightful and exhilarating. Saltair—an immense, crescent-shaped, domed and towered bathing pavilion—has been built out into the lake 2,000 feet from shore.

The lake contains eight islands. Four rivers empty fresh water into it, but its surface neither rises nor falls. Having no outlet, it gets rid of the excess water by evaporation.

Scientists figure that the lake contains more than 8,000,000,000 tons of salt and almost 800,000,000 tons of sulphate of soda. Allowing 60 tons to a carload, that would be 133,333,333 cars of salt and 13,333,333 cars of soda. Assuming 40 feet as the average length of a freight car and you have a train of salt 1,010,101 miles long and a train of soda 101,010 miles long. The average speed of a freight train is about 20 miles an hour. Running at this speed, day and night, it would take the two trains over six years to pass a given point. The value of these cargoes would be probably \$10,000,000,000.

Holiday Hospitality

CLOSELY associated with the holiday spirit is a wish for the things which tend to add to the festivities of the home.

The modern drug store is the best place to buy quality goods and this applies just as surely to Candies and Cigars and other things as it does to drugs.

In selecting things to supplant the Christmas Dinner—Don't overlook the Little Folks.

Select what you
need now.

A Christmas Eve Dance.

At the Odd Fellows hall the entertainment committee of the Clarence Kepple Post, American Legion, will give a Christmas Eve dance Saturday evening December 24. The ball room will be appropriately and artistically decorated in keeping with the holiday season. Ham's Jazz Houns have been engaged to furnish music for the occasion.

The Wonders of America

By T. T. MAXEY

THE MOUNTAIN KINGDOM OF COLORADO.

AMONG all the mountain kingdoms, Colorado — "the Perpendicular state"—stands easily first in physical adornment. In Colorado 100,000 square miles contain 155 mountain peaks that are more than 13,000 feet high. Colorado contains 108,925 square miles. Of this vast area, as big as all New England with Indiana added, two-thirds is mountainous.

The state is traversed by the main chain of the Rocky mountains, the oft-quoted "backbone of the continent," the huge roof-tree of our republic. Prolific mother of rivers, this great watershed gives rise to the Rio Grande, the two Platte, the Arkansas, many "lesser lights" and the Colorado, that, in Arizona, passes for 200 miles between those sheer red walls that constitute one of the scenic wonders of the world, and flows at last into foreign seas. There are about 6,000 miles of running water, born of snow and filled with fish; 500 lakes, large and small, some distinguished with a famous name, others still asleep in mountain hollows, almost unknown.

It is a strange country. The very name is a memento of the passing race that, first of Europeans, saw these serene, reddish-brown peaks leaning against the sky. The name means red, light brown, ruddy, florid and may even be a synonym for joyousness. Life is more than an existence in Colorado. Nature seems ever beckoning one to come and romp with her. The sun shines with almost the same regularity as the dawn appears. Colorado is one of the greatest heritages of the American people.

FORMING GOOD READING HABITS

If parents wish their children to form good reading habits they must first form such habits themselves. And there is no better way to do this than to bring into the household a periodical that will be of interest to every member of it; that will supply the best reading for old and young. Among the periodicals of this description The Youth's Companion is unique. Not only does it aim to entertain and inform boys and girls in their teens, as its name suggests, but there is not a page in it that parents can pass over with indifference.

The 52 issues of 1922 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:

1. The Youth's Companion—52 issues in 1922.
2. All the remaining issues of 1921.
3. The Companion Home Calendar for 1922.
4. Or include McCall's Magazine, the monthly authority on fashions. Both publications, only \$3.00.

THE YOUTH'S COMPANION, Commonwealth Ave. & St. Paul St., Boston, Mass.
