Softball Tourney Opens Here Friday

Thirty-six hours of softball are on tap this weekend as Wellington League hosts its third annual invitational slow-pitch tournament Thursday night through Sunday evening June 8-10.

And it's all free.

A larger number of strong teams are due to play than in any previous tournament.

Twenty are entered, all that Marian Airpark facilities can accommodate. At least 10 others are on a waiting list should any of the scheduled teams drop out at the last minute, according to Wendell Smith, Wellington league president.

The first ball will be pitched at 7:00 p.m. Friday, and games will continue on the hour with the last one starting at 2:00 a.m.

Saturday will be the big tournament day. More softball will be played than Wellington has seen in a single day and night--20 continuous hours. The first game will start at 8:00 a.m. and the last at 3:00 a.m. Sunday morning.

The quarter-finals will start at 1:00 p.m. Sunday and the tournament will progress through the winners brackets with the championship game starting at 8:00 p.m., Smith said.

Trophies with a book value of \$1,000 will be awarded to first, second, third and fourth place teams. There will be individual trophies for members of the first two teams, and the tournament's most valuable player will be selected.

The largest crowds are expected Saturday night, when the third round winners bracket begin at 8:00 p.m. and continue at 9:00, 10:00 and 11:00.

Eight undefeated teams will play and these will be the stronger tournament entries.

"This will be the best time to watch," said Smith.

From 300 to 350 players will be in Wellington during the tournament.

Many will bring their families and most teams will draw boosters from their home towns.

Four teams that cannot be in Wellington Friday night have byes: Midland, which is coming farthest; and three of the strongest Panhandle

Samnorwood Farmers Lose Crops to Heavy Rain Tues.

Farmers in an area from Samnorwood north to the Wheeler county line lost cotton they have planted when heavy rains fell about 7:30 to 8:00 p.m. Tuesday, June 5.

The extent of the loss had not been determined Wednesday morning.

It included cotton that has been planted and was not yet up, as well as that which has come through the ground in the last few days.

The heavy rain, estimated at from two to three inches, washed some of the seed beds flat and some of those growers will have to list their fields before they can plant again, according to reports from the

area. Slow rain that fell off and on through Tuesday and Tuesday night measured 1.2 inches at the Weather Bureau rain gauge on the court house lawn.

The cloud that dumped this rain in the area north of Samnorwood had given the section from Quail north through Marella to Salt Fork an estimated 1.3 to 1.5 inches. Water stood on FM 1547 for about half a mile north Quail and Sheriff John Rainey and part of his staff stood by until the Highway Department employees could arrive.

Quail received 1.3 inches, but south of there only .4 was reported. Two inches was

reported at the Delbert White farm about four miles west of Quail.

At Kelley southeast of Wellington, however, half an inch fell, and only a light amount was reported in the Dodson area.

While farmers are not complaining of too much rain, the ground is saturated in most parts of the county. If the weather clears in the next two to three days, it will be an ideal time to get planted.

Most feel they can plant up to June 20 or 25 and have a good chance to make a crop. Some plant as late as July 1 but they are running the risk of losing a crop to an early frost.

Tornado Observers Class Slated June 11

A tornado observer's class will be held Monday, June 11, to alert county residents on what to look for in a storm cloud.

A discussion on setting up a Skywarn observer's network will be held during the meeting.

The class will be in Bura Handley Community Center at 7:30 p.m., sponsored by the Civil Defense Department, according to County Judge Bob Watson, CD director.

Lawrence Smith of Amarillo Weather Bureau will be the instructor.

Included in the pertinent information he will cover are the types of clouds that form tornadoes, Judge Watson said. He will supplement his discussion with slides and a motion picture.

"This school is especially for such people as those in the sheriff's department, fire department and ambulance service, but it is also open to all interested people in Collingsworth County," said the judge.

"We are especially eager for the Dodson, Samnorwood, Quail and Loco areas to be

represented.

Skywarn discussion will bring out the ways when it may be integrated into the community warning center at the sheriff's department, which has the capability of checking out tornado reports and warning the people of storm danger.

Smith will also explain how the Weather Bureau operates and its capability in predicting and reporting tornadoes.

Watson said he hopes that some type of warning system can be worked out for Dodson, and also for Quail and

Samnorwood if they want one. He said he believes such a system can be put in at Dodson without excessive cost.

In setting up a Skywarn observer network, he pointed out that Civil Defense urges

"Ring your community with observers, especially to the southwest of your location."

Watson asked anyone interested in being a rural weather observer to contact him.

Board Hires Kenneth McKay As Wellington School Supt.

Wellington School Board voted unanimously at a special meeting Thursday, May 31 to hire Kenneth L. McKay, Perryton High School principal, as superintendent of Wellington Independent School District.

McKay will begin work on July 1.

The action ended a month-long search by the Wellington board for a new superintendent after current superintendent E.W. Clement submitted on April 24 his resignation effective July 1. The board considered 15 applications and conducted 4 interviews.

The board hired McKay on a 3-year contract at state base pay plus \$134 per month travel expense. The school also will pay moving expenses from Perryton.

McKay has been high school principal at Perryton since 1975. He started his teaching career in 1955 at Stinnett as a government, history and economics teacher

in high school. Later he served as elementary and high school principal in Stinnett and high school principal in Spearman.

He holds a B.S. degree and a Master of Education degree from West Texas State University and a Master of Arts degree from Brown University. He has also done graduate study at Claremont Men's College, Oklahoma

University, University of Massachusetts, Baylor University School of Law and Appalachian State University.

He served in the U.S. Navy for two years.

In Perryton McKay has been president of the Rotary Club, a Little League baseball coach and a Sunday School superintendent at First Baptist Church.

McKay, 47, is married to the former Dorothy Groux of Boston, Massachusetts and they have four children: Susan, a college sophomore; Steve, a college freshman; Patrick, a 1979 high school graduate and James, who will be a seventh grader next year.

In other action at the special board meeting, the board voted to allow the Ex-Student's Association to use the school cafeteria for the Ex-Students Association dinner on July 28, and accepted Diane Bailey's resignation from a Title I elementary teaching position effective May 24.

Sharp thorns guard the delicate yellow beauty of the prickly pear blossom, now seen in pastures with the variety of other spring-blooming flowers. They

grew in yards of a few Wellington homes. These are beside the east steps of the court house.

Little Leaguers Sell Light Bulbs

Approximately 70 Little League players are conducting a door-to-door light bulb sale to help finance their summer program.

The sale will continue through Wednesday, June 13, according to Mrs. Benson Long, drive chairman.

The boys and girls are

taking orders at present and they will return to deliver the bulbs about two weeks after the sale ends.

The bulbs are a long life inside frost bulb, said the chairman. There is a choice of an 8-pack, 3-way package and a floodlight. They sell for \$3.75 each.

There will be prizes for the youngsters: The top salesman wins 20 silver dollars; the second place salesman 10 silver dollars; and the top salesman on each team will receive one silver dollar.

For each 12 packages delivered the player will receive an official baseball.

The top selling team will receive a hamburger and ice cream party.

Graduates in Summer School

Two members of this spring's Wellington graduating class are attending summer school.

Don Lewis, Salutatorian, has enrolled in the University of Texas at Austin. The son of Mr. and Mrs. Robert Lewis, he plans to continue his studies there in the fall.

Robby Murdock, son of Mr. and Mrs. Howard Murdock, is attending Southwestern Oklahoma State University in Weatherford. He also plans to continue studies there in the fall semester.

Fern Bounds Service Held Here June 1

Funeral services for Fern Wood Bounds, 67, of South Gate, Calif., were conducted at Kelso Chapel at 2:00 p.m. Friday, June 1, with the Rev. Elvis Pitts, pastor of Quail Baptist Church, officiating.

Burial was in the family plot in Fairview Cemetery under the direction of Kelso Funeral Home.

Funeral services were conducted at South Gate, on Wednesday, May 30.

Mrs. Bounds, who had lived in California since 1960, died at her home Sunday night, May 27. Although she had been in ill health, her death was unexpected.

Stella Fern Wood Bounds was born August 9, 1911, in Wellington, the daughter of the late Mr. and Mrs. Adolphus S. Wood. She was also the granddaughter of Dr. Ed. Beck, a pioneer Collingsworth County doctor, who lived at Quail in addition to practicing medicine, operated a general merchantile store.

She attended Wellington schools, was employed in sales work at McClellan's and Harrell's Ben Franklin Store. Later she was a home economist for Greenbelt Electric Co-operative, Inc.

Survivors include a daughter, Mrs. Robert (Waytashua) Von Kuznick of South Gate; two brothers, Hoy Wood of Wichita, Kansas, and Dolphus Wood of Royce City; and three grandchildren, Mrs. Ami Nelson Parker, Mrs. Adrain (Lori) Aicard, and Nancy Nell Nelson, all of California; and one great granddaughter, Allison Courtney Aicard.

Out of town relatives here for the service were Mr. and Mrs. Hoy Wood, Mr. and Mrs. Dolphus, and a cousin, Mrs. Kay Dodge of Childress.

Dickie Johnson Graduates in Engineering

Dickie Johnson, son of Mr. and Mrs. O.V. Johnson, received his Bachelor of Science in Civil Engineering degree from the University of Texas on May 19, graduating with highest honors.

He is a member of Tau Beta Pi, Chi Epsilon, engineering honor societies.

He also served as an officer in the American Society of Civil Engineers.

In the spring of 1977 he was sergeant at arms for that session of the Texas House of Representatives.

During the final semester, Johnson was involved in a project concerning the testing of steel reinforced masonry walls under Dr. Klinger.

Under another professor, Dr. Frank, he worked on a similar project of fatigue testing of cables in bridges.

This spring semester, Johnson and a friend, Glen Barton, built and submitted for judging three balsa wood models assembled expressly for loading stress to failure or breakage. Out of approximately 100 entries, these three placed in the top 20 and first placement was third.

Johnson is working for Cooper and Woodruff Construction Co., Amarillo. He will live in Lubbock where the company has construction under way.

Going from here to the commencement were his parents, Mr. and Mrs. Johnson; Mr. and Mrs. Art Kane, Steve Kane and Mr. and Mrs. Bruce Oney. Joining them were two other Johnson sons, Barry Johnson and Mr. and Mrs. Jamie Johnson and Katie of Austin.

She belonged to First Baptist Church.

Survivors include a daughter, Mrs. Robert (Waytashua) Von Kuznick of South Gate; two brothers, Hoy Wood of Wichita, Kansas, and Dolphus Wood of Royce City; and three grandchildren, Mrs. Ami Nelson Parker, Mrs. Adrain (Lori) Aicard, and Nancy Nell Nelson, all of California; and one great granddaughter, Allison Courtney Aicard.

Although this tournament is played for fun and sportsmanship, every team that comes to Wellington is going to have a certain economic impact, on the town.

Marian Airpark Swimming Pool will be open from 2:00 to 7:00 p.m. both Saturday and Sunday.

Local umpires who are or have been association members will be used, including Richard Sims, Randall Sims, Tony Stephens, David Caison and Smith.

Six Guardsmen on Active Duty Status

Six members of the National Guard unit are now on active duty and will report during the coming week, Master Sgt. Vernon Day said this week.

All will serve 15 weeks on active duty and complete their 6-year enlistment through the National Guard.

Harrell Lowe and Kent Riley have been at Ft. Bliss, El Paso, since April 9. They will complete the training in mid-July. Both are attending the Red Eye Missile School.

Riley is the son of Buford Riley, while Lowe's parents are Mr. and Mrs. Olan Lowe. Both are graduates of Wellington High School and TSTI, Amarillo.

David Torrez and Harold McKinney left Tuesday, May 29, also under the 15-week active duty program. They will be at Ft. Jackson, South Carolina for 4.2 mortar training. Torrez is the son of Mr. and Mrs. Julian Torrez, Sr., and McKinney's parents are Mr. and Mrs. D.R. McKinney. They graduated from Wellington High School Friday, May 25.

These four men entered the Guard under the \$1,500 enlistment bonus program, which is open to any high school graduate who meets all enlistment requirements.

The bonus is given the enlistee upon successful completion of the active duty period.

Two other men, Carlos Granados and David Castillo, who enlisted under the split training option, left for Ft. Jackson, S.C. Monday,

June 4.

Under this option, they will take the first 8 weeks of training this summer, then return to Wellington and attend regular guard meetings until next summer, when they will take the remaining 7 weeks of the required training.

Both will be in Wellington High School next year.

Granados parents are Mr. and Mrs. Frank Granados and he will train with a 4.1 mortar unit.

Castillo, the son of Mr. and Mrs. Epifanio Castillo will go into Red Eye Missile training.

Sgt. Day explained that the Red Eye Missile was reorganized into this National Guard Unit only in October 1978.

It is an anti-aircraft heat-seeking missile that will not only seek an aircraft, but will track and lock onto it.

Seals Attend DNC Agriculture Committee Meet

Mr. and Mrs. Doug Seal and two members of the Democratic National Committee agricultural platform advisory committee met with Secretary of Agriculture Bob Bergland to discuss U.S. government agricultural policy during a DNC national meeting in Washington May 23 and 24.

Seal, Bill Woods of Oklahoma and Jerome Friemel of Hereford, Texas are members of the Democratic party's ag advisory committee that will help write the agricultural plank of the 1980 Democratic platform. All three have been involved in the American Agricultural Movement during the past two years.

Seal said the ag advisory group men will begin writing a draft of the agricultural plank and will meet again in September and January and then present their draft to the Democratic Executive Committee. The Executive Committee, Seal said, would review it, then present it to the Democratic convention in 1980.

Seal said that during his discussion with Bergland he suggested a plan for a national "Board of Producers" which

would be elected from the A.S.C.S. committeement in each county. Seal said he suggested that this board have input into loan levels, set aside programs and agricultural trade negotiations and other government farm policies and programs.

The bride's parents are Mr. and Mrs. Rayburn Hightower of Dodson, while the bridegroom is the son of Loys Johnson of Wellington.

Mrs. Nathan Mulder pianist, played the wedding music. Altar decorations were a white wrought iron arch, entwined with foliage, and pink and white carnations, with white satin bows and wedding bells tied at the sides. Behind this was a

matching white iron candelabra, also entwined with foliage and carnations, holding lighted tapers.

Mr. Hightower presented his daughter in marriage.

Her ivory sheer wedding gown had an elbow length ecru lace capelet gathered onto the scoop neckline. The a-line skirt was floor length. She carried a bouquet of Sweetheart roses with white carnations and baby's breath, with the traditional satin streamers tied in love-knots. Identical flowers were used in the cascade style headpiece.

Luwana Sain of Dodson was the maid of honor. Her turquoise dress was made with a square neckline and floor-length a-line skirt. She carried a nosegay of miniature pink roses with white carnations and baby's breath, mingled with lace.

The bride's table was covered with a white cloth, caught up at the corners with wedding bells. Her bouquet was the center piece, and pink roses and white carnations decorated the wedding cake. Silver appointments were used.

Solution For Aliens

A story in the Herald this week points out a solution to the oft discussed problem of illegal aliens coming into the country. It is a practical solution, but one that may be hard to understand.

The solution: Leave them alone.

The reason: The government doesn't have enough money to pay their room and board while awaiting deportation back to the old country.

The problem of illegal aliens has caused concern on all levels, from President Carter on down. The number of illegal aliens, most from Mexico, has ranged up to 8 million in this country and it is apparent that there are so many here now that it is just about impossible to round all of them up and send them home.

There are a lot of problems connected with the illegal alien situation.

Not everybody agrees that these are undesirable people. Just about all of them are working, performing tasks that Americans don't like to do, and while it is true that a great many of the illegal aliens are paid less than union scale, it is also true that a great many of them are working at standard wages and liking what they get in the way of pay.

We don't have to look very far to see the problem. We have it here in the Perryton area. There are a lot of illegal Mexican aliens who are working in the oil patch, in construction jobs, on farms and ranches, and their employers generally agree that they like the kind of work they do, primarily because these people appreciate a job and work hard at it.

The Post Office in Perryton sells a lot of money orders every month to people who send funds back to Mexico and our own government admits that the Mexican aliens in this country provide an important source of foreign exchange for the government of Mexico.

It is against the law for a citizen of Mexico to come across the border and live in the United States without permission. But what was once a trickle has now become a flood of Mexican aliens, and nobody is getting too upset about it.

The Border Patrol in this community rounds up illegal aliens from time to time and trucks them back across the border. But as a practical matter, the Border Patrol activity has turned into a matter of rounding up aliens who have been arrested by other law enforcement officers for other offenses and held in the local jail for deportation.

Now, it appears that because the government doesn't have the funds to pay Ochiltree county for room and board on these aliens, this practice will be slowed and stopped.

Meanwhile, their employees are using their labor and while some people may feel sorry for these "wetbacks" and think they are being exploited, the aliens themselves are happy to be here and working.

The Perryton Herald

Not The Same

I find myself completely disgusted with so-called news analysis which likens the present gasoline shortage to World War II gasoline rationing.

The shortage during World War II was rubber. Gasoline rationing, which started late in 1942, was instituted to make the tires last. Unfortunately, the people were never told the truth of the situation. If we had been told the truth maybe it wouldn't have been so easy, all over the oil patch, to talk the ration board into allowing you more gasoline or giving you a higher priority if you needed to buy a couple of tires.

Amarillo servicemen home on leave could buy all the gasoline they wanted from any of a dozen or more stations. Truck drivers were allowed unlimited quantities of gasoline—the freight had to move to support the war effort — and they gave extra ration coupons to filling station operators by the handful which meant that the station operators always had gasoline available for servicemen.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — Besides approving a multitude of other bills on the very last day of the 66th session, the Texas Legislature also finally agreed on a state budget, a school finance plan and tax relief legislation.

Hurriedly pumping out minor bills and putting the finishing touches on major legislation on the 140th and final day of the session is the traditional way of doing things for the Texas Legislature.

The 66th session was no different.

On the way to the last 24 hours of lawmaking, legislators had been sidetracked by such nagging matters as a presidential primary, alterations to the consumer protection act and a change in the usury ceiling.

But with the presidential primary effectively killed by the flight of the "Killer Bees" in the Senate, and with changes in the consumer protection act already passed, and with the usury ceiling upped to a maximum of 12 percent, lawmakers spent the final day of the session working on the budget, agreeing on the final details of how public schools would be financed and approving legislation to implement the tax relief amendment passed by voters last November.

The state budget for 1980-81 passed by both Houses after some expected haggling over different provisions of the plan would cost \$20.7 billion. That's a 19 percent increase over the last two-year spending plan the Legislature drew up in 1977 during the 65th session.

When you consider that inflation, it appears lawmakers succeeded in keeping spending levels as low as was humanly possible.

But, the \$20.7 billion budget passed on to Gov. Bill Clements for his signature is \$1 billion higher than what he suggested to the Legislature in his budget message earlier in the session. Clements wanted to return an additional \$1 billion to taxpayers.

Indications are that Clements will approve the spending plan, although some Capitol observers warn that the governor might end up approving one year of the biennial spending draft and then call lawmakers back for a special session to write another one-year budget for the last year of the biennium.

But the special session the governor has said he will call will probably deal with another of his legislative

goals—initiative and referendum. The House came close to passing "indirect" initiative and referendum rights for voters, and Clements, addressing the House on the final night of the session, warned lawmakers that he would be seeing them again sometime in the next two years in a special session on the subject.

Included in the state budget were 5.1 percent pay raises for state employees and a boost of 8.3 percent for Department of Public Safety troopers.

Teachers also got a 5.1 percent pay raise on top of automatic step increases, bringing their pay hikes to 7-10 percent.

Last session, Sen. Oscar Mauzy of Dallas, chairman of the Senate Education Committee, found the school finance plan so objectionable he talked until the clock had run out, leaving lawmakers without a plan.

This time, Mauzy said he felt the Legislature had done a better job of "getting equalization aid to the poorer districts."

In the past, Mauzy claimed that the rich school districts were simply getting richer while the poorer ones were getting poorer.

"This is not a perfect bill," Mauzy told his fellow senators, "but it's a good bill that I wholeheartedly recommend to you in good faith."

The school finance package contains \$334 million new money for teacher pay, \$152 million for equalization to school districts and almost \$100 million in additional funds for the operation and maintenance of public schools.

Inseparable from the question of school finance is the matter of tax relief legislation. House Bill 1060, the measure to implement the constitutional amendment approved by voters, is expected to cost local school districts across the state almost \$384 million.

Homestead exemptions will be granted under the tax relief legislation for the elderly and the disabled. Family cars and household goods are also exempted. And farm and ranch land will be taxed on its productivity rather than its market value.

What legislators had to agree on was a plan to reimburse local school districts for the tax dollars they would be losing. House Bill 1060 contained \$200 million for reimbursement and the school finance plan ended up containing \$184 million for the same purpose.

BASEBALL TEAM

A Wellington, Texas baseball team poses in front of the grandstand, circa 1920. Only three team members have been identified: back row, second from left, Polly O'Neil; middle row, left, "Doc" Dean; middle row, right, Henry "Coon" Cocke. Photo courtesy Texas Tech Collection, Collingsworth County Museum

But how that \$384 million set aside for reimbursement would be parceled out was another question. Lobbyist for the large metropolitan school districts — in most cases the richer districts — pushed for a minimum 45-cents per dollar reimbursement plan and got it. But, to use another example, Austin would be reimbursed 67-cents for every dollar lost because of mandated tax breaks.

Austin Sen. Lloyd Doggett said that the increased payments to the large school districts would mean a decrease in longevity pay for state employees.

And Sen. Bill Moore of Bryan labeled HB 1060 as "a fraud and a sham" because of the compromises made after heavy pressure was applied by lobbyists from Dallas and Houston.

But a representative of the Dallas school district was quick to point out that

even with the reimbursement plan plus other state aid, DISD would fall \$4.5 million shy of its revenue needs.

And Dallas was not the only school district that will be facing that same problem after tax relief legislation is put into effect.

That means of course that some programs will have to be cut back or new taxes will have to be levied. That led one Dallas school representative to say that he thought any new taxes that might have to be collected should be called the "Briscoe Tax," after former Gov. Dolph Briscoe who called a special session last summer to draw up tax relief legislation.

Critics charge that HB 1060 is not a tax relief measure but merely a shifting of the tax burden from local school districts to the state.

And those same critics point out that the average homeowner will probably only save \$40-\$50 in taxes

in each of the next two years.

Courts Speak

The Court of Criminal Appeals affirmed the death penalty conviction of a Dallas man for shooting a policeman to death.

The court also upheld death penalty convictions of two Mount Pleasant men in

a robbery-killing of a service station employee at Hooks.

The State Supreme Court turned down the appeal of an Austin psychologist (who had his license revoked last month when two women patients accused him of having sex relations with them) from an order to reveal names of others he had been involved with romantically.

1st Baptist Plans Two Bible Schools

First Baptist Church Vacation Bible School has slated the Youthiversity for junior high and high school students, along with its annual vacation Bible School for smaller children. It is the first time the older group has been included.

These will begin Monday, June 11 and continue through Friday, June 15. Bible School classes will begin at 8:30 a.m. and the Youthiversity at 7:00 p.m. Charles Hollingsworth, minister of music and youth, is overall co-ordinator.

The vacation Bible school is for children from three years to the sixth grade. It will include Bible lessons, mission lessons and memory verses.

"There will also be time for recreation and crafts. A nursery will be provided for the workers.

Mrs. Stanley Hughes is the Youthiversity director. The theme is "Live the Truth," and all youth of the city are invited.

Study titles will be "What you seek is what you get," "Acceptance: receiving and giving," "Keep giving your best," "No power shortage," and "Come into the sunlight."

The meetings, starting each night at 7:00, will close at 9:30 and will be basically round table discussions with adults as leaders. There will be one group for all ages. A fellowship time will follow.

Working with Mrs. Hughes will be Mrs. Charles Hollingsworth, and Mr. and Mrs. Alton Belew.

Alvin Hortons Attend Funeral of Niece

Mr. and Mrs. Alvin Horton returned last week from Jacksonville, where they attended the funeral of her niece, Marlene Stevens, May 30th.

Mrs. Stevens had visited here often through the years and had many friends in the area.

She is survived by her husband, Glen Stevens; one daughter, Mrs. Thomas Stenger of Longview and her mother, Mrs. John Carter of Paris.

Lowes Compete in Memorial Rodeo

Mr. and Mrs. Bill Lowe competed Saturday, June 2, in the Clayton Hill Memorial Rodeo in Canadian. This has a bottom age limit of 40. It is a two-day rodeo.

Mary Ann Lowe placed second in the barrel race Saturday and Lowe and Jim Nix of Reydon, Okla., were second in team roping, although they had teamed together or even met before the contest.

Mr. and Mrs. Lowe placed second in the ribbon roping contest. They did not return to compete in the Sunday event, which they would have had to do to be in the winners brackets.

"I am extremely proud of these exceptional students and the honor that they have received. It is a reward and should be accepted as a challenge to them to continue their course of excellence," Arthur stated.

"One of the society's guiding principles is to promote both academic and civic achievement on the high school level by recognizing students in its membership registry, The Society of Distinguished American High School Students, which is published annually and distributed nationwide," Arthur explained.

Man Wanted For Murder Taken Here

Hollis law enforcement officers took custody Tuesday, June 5, of a man held in county jail here on a charge of second degree murder, Sheriff John Rainey reported.

He identified the man as Charles Coffee, age about 26, of Hollis who formerly lived here.

Coffee is accused of killing his wife about 9:00 p.m. Tuesday, May 29, at her apartment in Hollis, according to Sheriff Rainey.

He said a search by deputies failed to locate Coffee that night. However, he and his brother, Robert Coffee, came to Sheriff Rainey's home about 7:00 a.m. the following morning and he turned himself in. He was arraigned before Mrs. Beatrice McKinney, justice of the peace, and bond was denied. He signed extradition papers Monday.

Coffee had told officers here that he and the woman were scuffling over the small calibre pistol when it discharged, the bullet striking her. He had asked to remain in Collingsworth County jail until after her funeral, according to the sheriff.

Services Here Tuesday for Mrs. A.B. Smith

Mrs. A.B. Smith, 83, retired teacher and artist, died Sunday, June 2, in a Sweeney nursing home after a long illness.

Mrs. Smith lived in Wellington many years, but also taught and gave private lessons in several Panhandle towns. She lived in Borger after she retired, then moved to Sweeney about 5 years ago.

Funeral services were conducted at First United Methodist Church Tuesday at 2:00 p.m. with the Rev. Tom Thomson, pastor, officiating. Burial was in the family plot in Fairview Cemetery by Kelso Funeral Home. Grandsons were pall bearers.

Mrs. Smith began painting in 1909 and was one of a small group who supported art in Wellington through the 1920's and 1930's.

She studied at the Art Institute in Dallas and continued art studies at Texas Wesleyan University, Ft. Worth and Texas Woman's University, Denton, when it was the College of Industrial Arts.

She painted with some of the Taos, N.M. artists. Already acquiring an extensive art collection, she added the works of some of the Taos group who are now world-famous.

Her works were seen in one-man shows and she won in competition at such events as the Tri State Fair in Amarillo and State Fair of Texas in Dallas.

Mrs. Smith developed a collection of dolls which have been exhibited in Historical museums.

Born February 27, 1896, at Cuathron, Ark., she was the former Fay Porter, daughter of the late J.K. and Ida Lott Porter. Between 1900 and 1913, the family lived at Ferris, Ft. Worth and Clarendon, except for the years 1909 to 1911 in Tucumcari, N.M., Wellington was their home after 1913.

When she was only 14 years old, she took the New Mexico Territorial examination and received her third grade teaching certificate.

Mrs. Smith attended Clarendon College, then after her children had their own education, she returned to

After the chorus sings, a Bible quiz will be held with awards going to the winning church groups, according to the Rev. Enos Childs, pastor.

This is for all teenagers, or students in junior high and high school, he said.

college and received bachelor's and master's degrees from West Texas State University. She belonged to Alpha Chi, national honor society.

She taught first at Mobeetie and later at Lakeview, Canadian and Sanford. In Collingsworth County she taught at Rolla, Loco and Buck Creek, and in Wheeler County at Shamrock and Twitty.

Bailey Head Coach at Throckmorton

Wellington High School track coach Phil Bailey this week signed a contract to become head football coach and boys and girls track coach at Throckmorton.

Bailey ends a six-year career at Wellington—it was his first coaching job after he graduated from Midwestern State University in Wichita Falls.

During Bailey's first year he was assistant football coach, junior varsity boys and girls basketball coach and assistant track coach. The next year he became assistant football coach and head track coach.

During his six years at Wellington boys track teams have won fourteen track meets, including two district championships. His teams also won a regional track championship, the first time ever for Wellington, and won this year the Amarillo Relays, also a first for Wellington.

Bailey's teams included eight track meet qualifiers. In 1977 the sprint and mile relay teams, Cliff Penno in high hurdles and Robert Chambers in the 440 yard dash all finished fourth at state.

In 1978 Robert Chamber won the 400 meter state championship in Class A and Jame Thomas finished sixth at state in the long jump.

Asked what he would remember most about his six years here, Bailey said "First of all, the great kids." He had said earlier that he might never again have the opportunity to work with a group of track athletes who were as talented and hard-working as the group he coached during the past six years. "We've been blessed with some of the best athletes in Texas no matter what class school," Bailey said.

"And I'm grateful for the opportunity of getting to work with (head coach) James Williams, and for the opportunity of working with what is probably the best hooster club in the state," Bailey said.

Bailey said.

Throckmorton, 70 miles southwest of Wichita Falls, is in District 5-B.

Bailey said the athletic program was in a rebuilding period at Throckmorton. "They won big in '68-'70, but they have not won a great deal since then," Bailey said. "We're going to try to have every boy in high school out for sports this next year," Bailey said.

During his time in Wellington Bailey earned a Master of Education degree from Northwestern Oklahoma State University in Alva, Oklahoma. Before entering Midwestern, Bailey served in the U.S. Army for three years, most of that time in Germany.

Bailey is married and he and his wife, Diane, have two children Stephanie, 11 and Sharri, 8.
