

## WEATHER STOPS SCHOOL, WORK

# 'S No Fun Like Snow Fun

BY AMY TURNER

Look, Mom, no school! While mom and dad struggled with frozen pipes, stalled cars and snow shovels this week, the younger set took advantage of snow holidays for some good old fashioned snow fun.

The order of the day was snowball fights, snowmen and improvised sled rides.

At least one youngster took advantage of the situation for a little free enterprise.

Jimmy Hamilton, 13-year-old son of Mr. and Mrs. J. W. Hamilton, spent his time soliciting shoveling jobs.

The holiday came to an abrupt halt Wednesday morning when school resumed after two days of no classes.

Some students didn't quite make it to class on time, however.

Frantic parents battled cars that wouldn't start and faithful bus drivers fought buses that would and then stalled.

Temperature in Olton Wednesday morning was down to zero and snow and ice were still heavy in the area, making for slippery travel on highways.

Streets in town were cleared.

The storm got underway here early Sunday afternoon with a cold drizzle. Some stout-hearted golfers played right through the initial stages of the storm.

By 4:30 in the afternoon snow started to fall.

By nightfall heavy wet flakes were covering everything above ground but were melting on pavement.

Winds up to 40 miles per hour Sunday night dropped visibility to near zero and piled up deep drifts in the area.

Farmers and ranchers hailed the moisture but drivers struggled with icy roads.

Local police reported numerous stalled cars on highways but all persons so inconvenienced made it to safety.

Monday morning temperatures were down to 12 degrees and dropped to 8 degrees Tuesday morning and zero Wednesday.

Another two to three inches of snow were dumped on the area Monday night.

"We left home a little after eight o'clock Monday morning and finally got to town just before 12 noon," Mrs. T. J. Roberson reported.

Reports of numerous frozen pipes were received Monday and Tuesday.

Most meetings scheduled for Monday and Tuesday were canceled.

Weather forecasters predicted a warmup for Wednesday afternoon and more cold weather for Thursday.

The cold spell here followed unseasonable warm weather which had brought out the seed catalogs and golf clubs.

Schools in Hart were re-opened Tuesday after being closed a week due to an influenza epidemic.

Numerous cases of the disease have been reported in Dimmitt and Plainview but Olton so far has seen only a few cases.

Some people felt the cold weather might help prevent an epidemic here by keeping people at home and out of crowds.

Police reported no auto accidents in the city during the week.

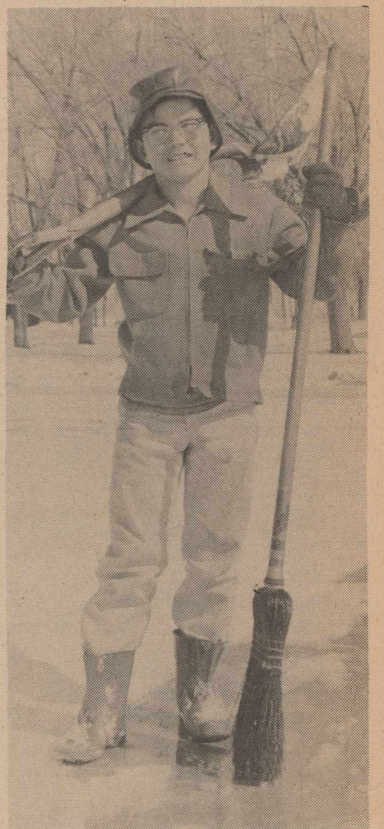

"Everyone drove real carefully," Police Chief Emmett Burrows said Wednesday.

As one man remarked:

"I guess it was just too dangerous to be dangerous."

SLEDDERS---All the Robersons took to the snow like a duck takes to water. Pictured here from front to back, are Scott Roberson, 5, and Donna Roberson, 13, children of Mr. and Mrs. Gilbert Roberson; Niece Nicholson, 2, daughter of Mr. and Mrs. Buddy Nicholson; and Becky Roberson, 10, and Danny Roberson, 15 (on tractor), children of Mr. and Mrs. T.J. Roberson. They were riding a piece of tin pulled by the tractor.

MONEY - MAKER --When the snow hit Olton this week and Jimmy Hamilton, 13, got a holiday, he spent his time soliciting snow-shoveling jobs.

# Thomas First To File As City Calls Election

## Sugar Beet Acres Set

Approximately 1,000 acres of sugar beets will be grown by farmers in the High Plains Sugar Beet Association area this year.

This announcement was made this week by W. T. Hall Jr., Olton representative of the association, following a meeting with Great Western Sugar Co. in Denver last Wednesday, Thursday and Friday.

Hall said a part of the acreage is scheduled to be set aside for farmers in the immediate Olton area.

The 1,000 acre total was set aside for experimental purposes by Great Western, Hall said.

Interested growers in the Olton area were to meet Thursday morning in the PCA meeting room. A meeting of all interested growers in the area of the association is set for Monday at 2 p.m. in the Plainview Chamber of Commerce building.

About 31 farmers from the Plains met with Great Western officials in Denver last week. The group included Hall, Archie Sorley, Carroll Brown and Cloma Fancher from Olton.

## No New Filers

No new candidates had announced Wednesday for the April 6 school trustee election.

Deadline for filing is March 7.

The three incumbents, Gilbert Roberson, Owen Jones and Ed Thompson, filed Feb. 5 during the school board meeting and George Caddel, local farm store operator, announced Feb. 6.

## Real Estate Man Seeks Mayor Post

Olton's city election has been called officially, voting judges have named and the election has its first candidate.

Those facts jelled this week following a city council meeting Tuesday night.

The annual election is set for Tuesday, April 2, in the city fire station, rather than the city hall, the voting place in the past.

The first name in the pot is that of W. E. (Bill) Thomas, who is running for mayor. Thomas is a real estate dealer.

It is his first attempt to win public office, although he served as an appointive justice of the peace for this precinct for a short period in recent years.

Thomas had filed last week, but he made it official Wednesday by anteing a dollar for his filing fee.

"I don't know whether all the candidates in the past have put up their dollar when they filed," Thomas said. "But I know you're supposed to just to make it legal."

Filing deadline set up in the election order is 5 p.m. March 2, giving candidates only two more weeks in which to put their names in the hat.

As of Wednesday afternoon, Thomas was the only office-seeker, although the grapevine said several other prospects probably would file in the next few days.

Olton will elect a mayor and two councilmen this year. The terms of Mayor M. T. James Jr. and Councilman Bob Duncan will expire and a second council spot is vacant due to the recent resignation of Fred Thompson.

Both James and Duncan have indicated they will not seek reelection.

Selection of the city fire station as the voting place this year came at the suggestion of Councilman Bob Gullett. Gullett said he had heard several complaints that the voting room at the city hall is "too small."

Election judge will be W. G. Finney, with Eldon Franks as assistant judge. Naomi Hair and Faye Stone will be the election clerks.

In other activities at the council meeting, the group approved monthly bills, okayed a contract for three street lights for the school and approved a resolution to clear title on lots for Kenneth Campbell.

In another action, the council made it a policy that the city pump is not for hire. Water superintendent William Haid pointed out that he felt the pump should not be loaned out for cess pool work or that another pump should be acquired for that type work, because the present pump is needed for water line work. As a result, the council okayed the new policy.

## Practice Slated For PTA Program

Adult practice sessions for a PTA program scheduled March 5 are set here tomorrow night at 7:30 p.m. in the school auditorium.

The program, "Our Heritage in Song", is being planned as a part of Public School Week, March 4 to 8.

Approximately 500 participants with students from all parts of the school will be presented in the program.

Songs from 1492 to 1963 will be heard.

## Spring Revival Starts Feb. 24

Annual spring revival will be held at the First Baptist Church here Feb. 24 through March 3.

Preacher will be Dr. Guy Newman, president of Howard Payne College, Brownwood.

Dr. Joe Trussell, Brownwood, will lead singing. He will be accompanied by Mrs. Trussell.

Evening services will start at 7:45 p.m. and morning services at 10 a.m.

Open house at the schools will start at 6 p.m. March 5 just before the PTA program at 7:30 p.m.

Mrs. Merrill Brigrance is chairman of the committee.

Other members are Mr. and Mrs. John Clark, Joe Turner, E. J. McKnight, Fred Gordon, E. C. Woods, Mrs. Owen Jones, and Mrs. Bob Duncan.

Elmer Moore will serve as master of ceremonies.

Governor John Connally has officially proclaimed the week as Public School Week.

During this period, parents are encouraged to visit public schools and all citizens are urged through special programs to recognize the tremendous importance of our system of education. Our goal is to make Texas public schools the finest in the Nation, and to achieve this our citizens are urged to take an active interest in the school systems and to cooperate with their school boards, superintendents, principals and teachers, the proclamation says.

## FLOODWATER RETARDING STRUCTURE

THIS DRAWING will give you an idea of what floodwater retarding structures will look like when they are built on Running Water Draw north of Olton. A series of 12 such structures will be built along the draw, from New Mexico to Plainview. The project now awaits its place on the federal government's list, and could be two or more years in the making.

FILES FOR MAYOR--First to sign up in the city election was Bill Thomas, who announced for mayor. Here he hands a one-dollar filing fee to Mrs. James Hall at the city hall.

vised disposition of property according to a "testament" of how the testator wanted his property to go.

Church courts supervised personal property (movables like armor or personal effects); land was passed on by wills which the king's court handled. Hence today we speak of "last will and testament" since English courts came to pass on both real and personal property, so that one court could handle the whole estate.

English church courts had "executors" who carried out one's testament. To die "interstate" (without a testament) was almost like dying unconfessed. Sometimes the church in the interests of a man's soul could

give some of the man's goods to others besides his family. Then, as now, some property had to be left to the surviving wife and children.

By the time of the American Colonies, the laws were well settled, and law courts, rather than church courts, administered and distributed estates here.

## Demonettes Win Tourney

Saturday Feb. 8 the Demonettes won the Levelland Invitational Tournament by defeating Levelland Girls 25 to 15 and downing an "A" school, Lamesa, by the narrow margin 34 50 32 in the last seconds of play. At one point in the game the Demonettes trailed 14 to

0. The Demonettes were held scoreless in the first quarter of play. In the second quarter the Demonettes scored 10 points while the Yellow Jackets of Lamesa scored 8. In the third quarter the Demonettes scored 10 points and held their opponents to 2 points. In the fourth quarter the Demonettes hit 14 points to Lamesa's 13.

Helen Ruth Nash, who was held scoreless during the first quarter of play, broke away in

the remaining quarters to connect with 24 points to become the leading girl scorer in tournament play, Christ L. Clayton, Alice Carter, and Dorothy Becks combined their efforts to play their best game of defense of the year. The Demonettes were also aided by their substitutes, Mary T. Nash and Josephine Springer.

The Demons had tough luck in losing to Levelland 68 to 35 and Lamesa 56 to 38.

These games marked the ending of season play for Bohner.

## It's the Law in TEXAS

Courts see that your intention or "will" as to property is carried out after you die. Before then you may revoke or change it any time.

The passing of property to heirs is one of man's oldest transactions. As far back as the Egyptian, Assyrian and Jewish civilizations, we wills written and witnessed on papyrus, clay tablets, etc. In one will an early testator left some of his property to his wife and named a guardian for his children.

The Hammurabi code (2100 B. C. ) permitted a father by deed to favor his son.

Under early Roman law the head of a house could tell the patrician assembly his wishes, but later Roman law favored a written will to keep the testator's plans secret until death. It also favored having a firm record of his wishes, not resting on memory.

By 2100 A.D. England, where we got our law of wills, was quite well advanced: The church (like our probate courts) super-

SNOWFIGHT---Mrs. Eva Smith and son Mark, 9, found time for a snow ball fight here Tuesday. Kids all over the area got a two-day holiday from school as the weather socked in the community.

## County Veterans Reaping Harvest

Former service men and women in Lamb County are reaping a \$29,600 financial harvest at this time, thanks to an out-of-the-ordinary payment of dividends on their GI insurance. The windfall represents their share of a \$327,000,000 dividend declared by the Government for holders of such insurance. Part of it they would have received anyway, in the normal course of events, upon the anniversary dates of their policies. This year, however, in line with plans announced at the White House, the entire regular dividend of \$237,000,000 together with an extra dividend of \$90,000,000, is being turned

over to the veterans now. The majority of the checks are going out this month. The rest will be sent in February. Approximately 455 of the 1,976 veterans who live in Lamb County will share in the current payment. They are among some 5,250,000 veterans in the United States, out of a total of nearly 22,500,000, who are eligible because they hold Federally-sponsored life insurance policies. Most of the money will go to those who were in World War 2 and have National Service Life Insurance coverage.

The remainder is for veterans of World War I who have U. S. Government Life Insurance. The amount going to the 455 policy-holding veterans in Lamb County is estimated at \$29,600. The volume of business that will generate in local retail stores will be several times that much, it is expected. This is what generally happens when the amount of money in circulation is increased. The Government's expressed purpose in releasing the cash at this time is to "provide a needed boost to the national economy."

in the words of President Kennedy. The Veterans Administration, is making public the prepayment plan, explained that it consists, for the most part, of a return to the policyholders of a portion of their premium payments. The money has become available because the death rate among veterans is lower than had been expected. The extra of \$90,000,000 was declared because it was felt that the insurance reserve funds had grown to a size greater than necessary.

### Bench Leveling

Does bench leveling of irrigated land with 2 and 3 percent slope pay? James C. Valiant, associate water engineer at the High Plains Research Foundation, says it does. In Research Report No. 55 issued in January 1963, it is shown that three year results on both cotton and grain sorghum planting on benched land paid off

in comparison with sloping land at the Foundation.

The returns from bench-leveling are three-fold. They are (1) increased yield; (2) decreased water usage; and (3) saving valuable soil from eroding while building up soil fertility.

The difficulties of early bench leveling were that the benches were frequently not of uniform width for equipment use, point rows were numerous and border maintenance was difficult. The benches at the Foundation were constructed parallel so that four-row equipment could be used and point rows could be eliminated. A new bench border maintainer, used for the first time in 1962, apparently solves the problem of border maintenance and border weed control. The use of these modern methods has paid for the cost of constructing and maintaining benches and farm profits have increased over a period of years.

The three year average profit in grain sorghum on benches over sloping land was \$22.69 per acre. On cotton the three year average was \$21.39 per acre. Capital loss from soil erosion on sloping land is far greater than many realize.

**Services Held For Brother Of Olton Woman**

Funeral services for Roy Lee Cruce, 38, brother of Mrs. Albert Scribner of Olton, were held Feb. 7 at 10 a.m. at the Central Church of Christ in Tulia.

Cruce, a well known Swisher County farmer, was found shot to death at noon Feb. 5 on his farm northeast of Tulia.

Mid McKnight, minister of the Highland Church of Christ in Abilene, officiated at the services.

Burial was in Rose Hill Cemetery under direction of Wallace Funeral Home, Tulia. Cruce had apparently at-

tempted to climb through a four-strand barbed wire fence with his rifle. Justice of the Peace D. J. Northcutt returned a verdict of death by accidental gunshot.

The body was found by Felipe Vellegas, an employee on the Cruce farm. It was about 10 feet from a pickup truck with the motor running and the door open. It was presumed that Cruce had intended to walk only a short distance with the rifle.

He was born Nov. 29, 1924 at Mobettie. The family later moved to Lynn County. Cruce farmed near Cotton Center and Hale Center from 1945 to 1956. He moved to Tulia in 1957. He was an active member of several farm groups in Tulia and was a Bible Class teacher and deacon at the Central Church of Christ in Tulia.

Survivors include his parents, Mr. and Mrs. I. R. Cruce, Plainview; his wife; two daughters, Margaret and Elda and two stepchildren, Louise and Dee Linn Qualls of the home; two brothers, M.T. Cruce, Tulia, and James Cruce, Kress; four sisters, Mrs. Scribner; Mrs. Escol Noblett, Plainview; Mrs. Prather Standefer, Midland; and Mrs. Charles Bacon, Lubbock.

**April 15 Set Deadline For Auto Inspection**

"With the deadline for obtaining inspection stickers drawing near, only 27 per cent of the vehicles in Lamb County have been inspected," Captain Alan Johnson, motor vehicle inspection supervisor of the Texas Department of Public Safety, said this week.

Unless the number of inspections is increased appreciably soon, long waiting lines will be forming at inspection stations when the April 15 deadline approaches. "The authorized inspection stations are ready and capable of handling the inspection of Texas registered vehicles without delay if owner will not wait until just a few days before the deadline," Johnson said.

"Any driver operating a vehicle registered in Texas, that is required to be inspected, on public roads after April 15 will be operating in violation of the law," he said.

Captain Johnson called attention to the fact that since the beginning of the inspection program, vehicles having a defect that was a causative factor in fatal accidents decreased from 13 percent to 4 percent. "The purpose of the Motor Vehicle Inspection Program is to discover any maladjustment which might become a link in a cycle of events leading to an accident and, by removing the link, prevent the accident," he pointed out.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford  
TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—Lawyers are wondering if the Texas Senate really passed a constitutional amendment resolution proposing that the voters give women equal rights.

Records show that this resolution passed the Senate 26-5. But it also shows that the Senate voted down an amendment which would have made it clear that the purpose of the proposal was to repeal all laws on the statute books which treat women differently from men.

When courts interpret the laws and the constitution, legislative intent is what they must determine. Records now show that the legislative intent of the

Senate was not to repeal all the discriminatory laws about women.

This proposal, by Sen. William T. Moore of Bryan, has been defeated in the Senate many times before.

It now goes to the House of Representatives, which has PASSED it many times before.

TEXAS SELLS ITSELF—Legislators' proposals to add such slogans as "Lone Star State" and "Texas Has Everything" to auto license plates haven't found favor with Dewitt Greer, chief engineer for the State Highway Department.

"T-E-X-A-S is the only slo-

gan this state needs," Greer told the House Appropriations Committee. He added that more wording on car tags just means additional expense.

"All law enforcement officers will tell you," Greer explained, "that the readability of the rest of the plate is lessened if you crowd in slogans."

PARKS-HIGHWAY TIE IN—Greer testified before the same committee during hearings on a bill by Rep. David Haines of Bryan to put state parks under the Highway Commission's jurisdiction.

Greer made it clear that his commission is not seek an extra job. But he stated, "If you gave us the parks to administer, we would do an outstanding job of it."

Haines' proposal is an alternative to Gov. John Connally's suggestion that the Parks Board be combined with the Game and Fish Commission.

Rep. Haines said he thought Greer's agency could and should take over the parks, and make each highway district responsible for the parks in its district.

"If the parks were improved," Haines stated, "it would increase highway travel, which would increase gas consumption. And that would increase the gas taxes to the highway commission, so they would have a high stake in doing a good job."

DEATH OF POLL TAX?—If the rest of the Senate feels like the Senate committee on constitutional amendments, the poll tax may be on its way to extinction.

Committee gave a nine-to-two approval of Laredo Sen. Abraham Kazen's bill to submit to the people a constitutional amendment that would kill the poll tax as of February 1, 1965.

The two "no" votes in committee came from Sen. George Parkhouse of Dallas and Sen. Galloway Calhoun Jr. of Tyler. "Ayes" came from Sens. Kazen, Charles Herring of Austin,

Roy Harrington of Port Arthur, Don Kennard of Fort Worth, Culp Krueger of El Campo, Walter Richter of Gonzales, Aaron Schwartz of Galveston, Franklin Spears of San Antonio and Jack Strong of Longview.

If Kazen's bill passes the full legislature, voters would make the final decision in the 1964 general election. So far, every state that has voted on the federal constitutional amendment to do away with poll taxes, except Mississippi, has voted to drop it.

'COLOR-BLIND' TAX—Rep. Howard Green of Fort Worth introduced a bill to make the poll tax "color blind."

Green called the race notation on voter registration forms useless and outdated. Further more, "It is an additional bar to full citizenship."

He believes his bill will pass with little opposition, but there are many who consider the race notation a necessary aid to voter identification.

ANTI-POLLUTION BILL—A bill to give a county health officer the power to enter and check business establishments and manufacturing plants "to discover threats to the public health" from air or water pollution was revived by Rep. Bob Eckhardt of Houston. He failed to get it passed in previous sessions.

Governor Connally is supporting the new bill.

ATTORNEY GENERAL DONATIONS OPPOSED—Contributions from oil companies to finance investigations by the attorney general to see if competitor's oil wells are slanted would be outlawed under a bill introduced by Rep. Ben Barnes of DeLeon.

Nearly \$300,000 in contributions from major—and s

Nearly \$300,000 in contributions from major—and some minor—oil companies was used by former Atty. Gen. Will Wil-

son to make such surveys in East Texas.

Atty. Gen. Waggoner Carr told Representative Barnes that the \$80,000 recently appropriated by the legislature will be sufficient for his investigations.

So Barnes filed a proposal which would make it illegal for the attorney general to accept money from anyone to investigate or prosecute anything.

PARENTAL PAY PLAN—Fifty per cent of a man's weekly wages could be attached to pay child support if Tyler Rep. Ben Jarvis' bill becomes a constitutional amendment.

COUNTY UNIT CHANGE PROPOSED—Rep. George T. Hinson of Mineola thinks it's time someone started doing something about "modernizing county government." So he has introduced a bill to require county commissioners to be elected by the county at large.

Each county precinct would have to put up resident candidates, which, Hinson explained, would assure continued local representation through pooled knowledge of each precinct's problems, and prevent the largest community from filling a commissioners court with its own residents.

Hinson believes his county-at-large election plan would get commissioners from all precincts to work at all times for the best interests of the entire county.

If his bill becomes law, Hinson sees it as a forerunner to eventual, economical pooling of the resources—capital, road machinery, manpower and equipment—of all a county's precincts into one central unit.

## Measles Can Be Serious Due To Complications

Anyone in your family ever have measles?  
If not, you're the exception. Most children encounter measles sooner or later, usually sooner. Most cases of measles aren't very serious and the young patient recovers with no after effects.

The very fact that measles is so common makes it one of the most dangerous of the childhood epidemic diseases, because most families don't take it seriously. More than 400,000 cases of measles are reported each year. The death rate is about one in each 1,100 cases.

Measles is a serious disease because of complications that sometimes result. These sometimes lead to encephalitis, pneumonia and, rarely, infections of the digestive tract. A body weakened by measles is more susceptible to streptococcus, pneumococcus, influenza virus and organisms that cause meningitis.

Measles begin like the common cold, with sneezing and red and watery eyes. These symptoms usually appear about

ten days after exposure. The eyes ache and are sensitive to light. There may be a cough and sore throat.

The classic measles rash appears three or four days after the first symptoms. The rash often starts on the face and spreads to the trunk, arms and legs.

Immune globulin may be used to lessen the severity of the attack or for prevention or modification of the disease, but this may be done only by a physician. It is effective as a preventive only when given within a week of known exposure to measles. Measles vaccines of various types have been undergoing tests and are likely to be available soon, possibly in 1963. The measles patient should be under a physician's care. Good convalescent care is important. Parents should follow carefully the physician's advice during the recovery period. When measles is first suspected, the child should be put to bed at once and the physician called.

Measles is highly contagious and thus isolation precautions to protect other children in the family and in the neighborhood are important.

Fortunately, a case of measles generally provides immunity and the child is usually safe from further attack thereafter.

## SCD Reports Draw Project Looks Good

H. H. Hysinger, SCD supervisor from Olton, said this week that everything was looking good for the Running Water Draw Project. All the Districts involved have received signed co-sponsorship agreements with counties and cities involved. The SCD's are now awaiting the State Soil Conservation Board to set a priority on the project. The State Soil Conservation Board will set a priority on an engineering planning party to survey and select site locations for the reservoirs. Construction funds will be available when the survey is completed.

There are meetings planned in the near future for the Steering Committee to plan just the type of structures to be considered in this project. The public will be urged to attend these meetings. There will be possibilities of developing multi-purpose structures for recreation and municipal uses. Aubrey Dalripple, field engineer for the State Board recently informed Mitchell that since Public Law 566 became effective in Texas in 1956, over

184 applications for assistance have been received. Twelve were received during 1962 program year. The State Soil Conservation Board is the organizational agency in Texas to receive these applications and take necessary action on them. Up to date 117 applications have been approved and of these 55 have priorities set on them.

Planning facilities in Texas have been the biggest holdup for up to now there is only one State and one Federal Planning Party. There is also a State Party operating on trust funds. But at best these parties can complete only four or five projects a year.

"Something the local people can do is to attend and support the project at the hearings, showing that they are ready to get started," Hysinger said.

## Supporting Your Town

Merchants who do not advertise are invited to read the following from the American Bankers Magazine, as it might give you a new slant on business, your own business, as well as the matter of building your town.

"No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns. This does not mean you should have a whole, half or even a quarter page ad in each issue of the paper, but your name and business should be mentioned, if you do not use more than a two line space.

"A stranger picking up a newspaper should be able to tell what business is represented in town by looking at the paper. This is the best possible town advertising. The man who does not advertise his business does an injustice to himself and the town. The man who insists on sharing the business that comes to town, but refuses to advertise his own, is not a valuable addition to any town. The life of a town depends on the live wide-awake and liberal advertising business man."

1700 families read the Olton Enterprise each week.

**Ruth Dorris Leading In City Bowling Champ Race**

The Olton Woman's Bowling Association's second annual City Tournament was off to a good start over the week-end with the singles already topping the first mark set last year by Cleo Elkins by 70 pins.

The meet, being held at the Olton Bowling Center, will conclude this Friday and Saturday. Last year's city champion, Ruth Dorris, is at present leading the All-Events with 1561.

Lesters Cleaners rolled into first team spot with 2688 followed by Gray Grocery with 2684; Lois' Beauty Shop, 2644; Dorris Machinery, 2642; Hatley-Machee Insurance, 2597; Granberry Insurance, 2541; Phillips Plumbing and Ditching, 2522; Olton Bowl, 2511; Whites Auto, 2492; Olton Auto, 2383; and Grant Insurance, 2360.

Wiona Boone set the pace for the Lesters Team with 543. Teammates Vera Young had 453; Bonnie Bucheneau, 471; LaVerne George, 456; and Ruth Dorris, 535 for a 2458 series and 230 pins handicap making the top score.

Helen Locke and Ruth Dorris teamed together in the doubles with 1118, good for a tie for first place with Odessa Mitchell and Laveta Phillips. Dorris's 584 series with Locke was the high series of the week-end, Mitchell and Phillips rolling about even series of 512 and 518. Bonnie Bucheneau and Prudy Jeffery hold third spot with 1105 out of the 21 sets of doubles rolled.

Minnie Ellis, entering with a 137 average, rolled 154-155-202-511 together with 86 pins handicap to take first place in the singles with 597. Vera Young rolling consistent games, garnered 582, Mary Dennis, 566; and Marlene Stewart, 560. There were 15 singles entries rolling this week. Prizes total over \$300 for the tournament.

Entries exceeded last years first tournament and it is evident that the winning scores will be higher. Defending champions in the doubles are Wiona Boone and LaVerne George, who will roll this week. Cleo Elkins is not residing in Olton so will not defend her singles title. Team champions last year were sponsored by the Chamber of Commerce and Agriculture and Dorris Machinery.

**Bohner Teams Runners-Up In Tourney**

The Demonettes had trouble in their victory in the first half of play against Spur in the first round of tournament play. They scored only 5 points in the first quarter, 3 points in the third quarter, and 8 in the fourth quarter. The final score was 19 to 11. The leading scorer for the Demonettes, Helen Ruth Nash, was held to 10 points.

The Demonettes had little trouble in defeating Hale Center in the second round of play. The score was 39 to 12. Helen Ruth Nash led in scoring with 25 points; Carolyn Porch was second with 10 points. Mary Helen made 4 points. The guards held an almost helpless Hale Center to 12 points.

In the championship game the Demonettes were subdued by their arch rivals, Floydada, 21 to 20. This was a close contest until the final buzzer.

The Demons defeated Spur easily 60-34 in their first round of play. In this game George
