Red Cross Fund Drive Opens With Goal Set at $1,589

Collingsworth county's Red Cross fund drive opens Thursday, March 2, with Fred Saied as county campaign chairman. The goal this year is $1,589.

Saied this week announced workers and plans which call for the county to be covered and the drive completed by March 15.

One-third of the money collected will remain in the county, and this will finance the Collingsworth county Red Cross activities during the next 12 months, Saied pointed out.

The remainder goes to national headquarters and it is from this source that major Red Cross projects and disaster programs are financed.

Already at work is the advance gifts chairman, Mrs. Dudley McMillin.

Community, business and residential workers who have not picked up their supplies can get them at the county library from Mrs. Pete Cummings, Saied said.

"We urge that you give generously to the Red Cross. It fills a need that no other organization in our community can fill," Saied continued.

Red Cross work throughout the year is administered by Mrs. Cummings, who is home service chairman.

Community workers named by Saied are:

Bert Weaver Dies Suddenly of Heart Attack

Bert Weaver, 69, a leader in the Quail community and former county commissioner, died of a heart attack Wednesday, Feb. 22 at about 6:25 p.m. He was stricken as he stood beside his pickup, 3 miles east of Amarillo, as he and Mrs. Weaver were returning home from that city.

Driving on a farm-to-market road, Mr. Weaver had stopped to tighten the lugs on one wheel. He finished this and turned to get in the pickup, and a passer-by who had stopped was still at the scene when he was stricken.

Mr. Weaver had rounded out half a century in Collingsworth county, coming from Haskell county. He spent this time in the Quail community, where he long was recognized as a leader in farming, and in church and community affairs.

He was elected county commissioner two terms and helped secure paving of Hihway 203.

A Baptist since early in life, Mr. Weaver was a charter member of the Quail Baptist Church and was instrumental in building the new church building, constructed a few years ago. He also was a member of the Quail Masonic Lodge, and a past master. He also was an honorary member of Quail FCA.

A friendly, generous man, Mr. Weaver had those qualities of neighborliness that led him not only to help those around him, but to work with others for the building of his community.

A native of Arkansas, Mr. Weaver was born Jan. 6, 1892, and came to Texas while he was young.

He was married to Miss Frances Pierce on Feb. 23, 1916, at Lillie.

Funeral services for Mr. Weaver were conducted at the Quail Baptist Church at 10:30 a.m. Saturday, with the Rev. Joe Hawn, pastor, and the Rev. O. D. Holton of Plainview officiating. Burial was in Quail cemetery under the direction of Kelso Funeral Home.

Pall bearers were Willie Tow, Aubrey Baggett, Frank Kennedy, J. I. Morgan, Jerry DePauw and Herman Moseley. Honorary pall bearers were A. Y. Bell, Jake Tarter, Sandy Parsons Jr., J. B. King, Judge C. C. Bishop, Ira Adams, Ike Skaggs, Clarence Dollar, Clifton Dollar, Lloyd Sutton, George Creed, Granville Atkinson and Dalton Vaughan.

At C-C Banquet

Handley Honored for 39 Years Service

Wellington paused Thursday night, Feb. 23, to honor a long-time city worker and leader, city manager Bura Handley, during the annual Chamber of Commerce banquet.

A plaque, in token of the appreciation of the 39 years he has been with the City of Wellington, was presented by Mayor Hiram Cudd, and came as a complete surprise to Handley.

The banquet speaker, Jack Lacy Sr. executive vice president of the Amarillo Chamber of Commerce, praised Wellington for its recent civic accomplishments.

"You are standing tall, but you can't stop now," he warned.

"At very few places are we greeted with the warmth that we were here," he told the group of over 200. ". . . if we could turn a tap and turn this friendliness loose all over America," he mused a few minutes later.

He decried this as an "era of finger pointing."

Norwood Gym Fire Damage Estimated to Reach $10,500

Damage from fire which broke out in one corner of the large Samnorwood gymnasium Thursday, Feb. 23, will amount to around $10,500, Supt. Orville Cunningham told The Wellington Leader this week.

The blaze started when a soot-folled vent of a stove located in the southwest corner of the building caught fire, Cunningham said. Fire damage was confined to the roof and ceiling of that part of the native stone gym, but the entire building was damaged by heat and smoke. Even the floor was damaged, he said.

The blaze was discovered about 11:15 a.m. and shortly afterward school was dismissed and the children sent home.

Rural fire fighting trucks from Wellington and Shamrock answered the alarm and Supt. Cunningham praised what he called "the wonderful job they did." A large crowd from the entire surrounding area also gathered.

Supt. Cunningham said the loss was covered by insurance, and repair work will begin as soon as the insurance adjustment is made and materials secured.

Dozier Girl Wounded Thur.

Mrs. Alma DeLeon, 17, of Dozier, is under treatment in a Shamrock hospital for gunshot wounds received Thursday, Feb. 23 about 4 p.m.

Sheriff John Rainey, who questioned the woman, said she told him the wound was self-inflicted. She was struck once in the breast by a bullet from a .22 pistol.

She and her husband, Enrique DeLeon, and their two small children, had been living at Dozier about four months, Sheriff Rainey said.

Hospital Seeks Volunteers to Raise Blood Donor List

The walking blood bank of St. Joseph's Hospital must be replenished, and March 1 through 15 has been set for an appeal to all those willing to become blood donors, Sister Mary Rupert, administrator, announced.

During that period, she is asking all men who are willing to be donors to come by the hospital to be blood typed and fill out the necessary donor cards. Men from the ages of 18 to 55 are preferred.

Since whole blood will keep only about three weeks, hospitals in communities the size of this must rely on volunteer donors to provide blood for transfusions. These are called as the need arises.

She praised the generosity of men who give blood whenever it is possible.

"We are now bleeding a few donors too often," Sister Rupert said. "We need enough men on our list so that no one will be called more than twice a year."

Donors were urged to come by to be blood typed although they may have been previously typed and listed.

"Through the years, many people have handled the blood donor cards and some have been lost," Sr. Rupert explained.

It has been almost 10 years since the last blood donor drive was held, and during that period many active donors have moved away or are now unable to give blood.

Added to this, donors frequently cannot be contacted when they are needed, or cannot give blood due to colds or other illness.

This is not a drive for the town alone, but for the entire area served by the hospital, Sister Rupert pointed out.

These men serving as blood donors volunteer their services and frequently do not know the patient to whom they give blood.

For 4-H Week

4-H Clubs to Erect Hiway Welcome Signs

Four-H Club members, both boys and girls, will meet Saturday, March 4, at the National Guard Armory to work on the highway county entrance signs they will put up.

Work will start at 9 a.m.

Plans are made for six of these signs, to be put up at the county entrance on Highways 83 and 203 and possibly two FM highway entrances.

4-H members having surplus lumber at home are asked to bring it.

Miss Kathryn Potter, home demonstration agent, and Bob Lynch, county agent, will direct the work.

This work session is one of the activities of National 4-H Club Week, which begins Saturday, March 4, and continues through March 11.

On the closing date, Saturday, March 11, a county-wide

This is Public School Week Lets Recognize Their Need

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 107 years ago. In 1854 the first law was passed establishing the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools—schools that are strong in virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public Schools Week, March 6 through March 10, 1961. Schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school—if but for a day.

Youthful Demonstrations of a Red Headache

Those the Communist rulers of East Germany call juvenile delinquents and hooligans are causing enough trouble to bring official attention to the problem. A statement by the Communist Party's politburo says that "certain sections of young people often give way to rowdy behavior, get into conflict with our way of life and sometimes—poisoned by our enemies—take up the road of crime." The statement indicated also that many of these young "delinquents" were bored and repelled by the Communist way of life.

Police raids have rounded up gangs in several East Germany industrial cities, sometimes after battles. Many have been charged with "hostile activities" against the government. In the Red vernacular, there seems to be little distinction between "hooliganism" and opposition to Communist regime. The politburo says further that "numerous youths give little thought to our socialist way of life and have taken the wrong road. Their parents and older workers had given them an insufficient and often false account of the past." In the politburo's view these youths are delinquent. They are delinquent in that they have not been brainwashed sufficiently.

Common lawlessness would not give a well-organized police state so much trouble as this. The juvenile delinquents in East Germany may be rowdy and lawless because contempt for the government would lead to lawlessness. But the East German authorities could handle the plain rowdies. What concerns the politburo is the contempt for communism.

The brainwashing of youth is one of the Communist methods of getting control of the culture, the economy and the political philosophy of a country. But this system works best in underveloped lands where ignorance and poverty are chronic. The helpless children know nothing and have no way of learning much except what their brainwashers serve them.

East Germany is different. It is part of what once was the German nation, proud, vigorous and much further advanced in civilized culture than the present teachers from Soviet Russia. The East Germans have the further advantage of two other factors. They have the lesson they learned from being duped by Adolf Hitler, and they have the Communist way of life demonstrated in their own part of the country, where they can compare it with that of the free world in West Germany.

East Germany's "juvenile delinquency" testifies to the accuracy of the recent observation of Rep. Walter Judd of Minnesota that our best allies in the cold war are the people behind the Iron Curtain.

CROSSROADS REPORT

Dear Editor:

I see where Health, Education and Welfare Secretary Ribbicoff says it's the duty of every good U.S. citizen to pay taxes to help people who are worse off than he is.

My wolf-dodging neighbor says this is a noble sentiment, but he notes that paying taxes is how a lot of people come to be needing help.

Says he sort of agrees with Mr. Ribbicoff that we are our brothers' keepers, but thinks maybe it would be cheaper if we didn't have to keep so many of them in Washington.

—

I see where a Texas legislator wants a law that school teachers can't work at their trade uless they swear that they believe in a Supreme Being.

My retired-parent neighbor says this seems like a reasonable requirement, on account of every school teacher needs Faith to give him strength enough for the job.

Says, though, this oath is likely not necessary for all public servants, because he notes the normal government expert appears already to believe not only in a Supreme Being but also that he is it.

—

I see where Mr. Walter Reuther says the projected $1.25 minimum wage law would spur industry toward greater efficiency.

My minimum laboring neighbor says that is what he is afraid will happen when this law is goosed through Congress, on account of bosses going on efficiency binges has got him fired from several good jobs in the past.

Says, in fact, when the boss mentions efficiency, he has learned to just put down his coffee cup and head for the pay window.

—

I see where as part of the Centennial Celebration of the Civil War, the South is going to get a re-match on some of the more important battles.

My Dixilated neighbor says he is glad to see this happening, as there is always the chance that his side will win this time.

Says it's not so much that he's a poor loser as the hope that a pro-Southern administration might set up a task force to hunt for some little civil right or two for white people and non-Communists.

—

I see where a National Council of Churches leader says this is an age when all too many Americans seem to want to go back to something.

My progressless neighbor says he sins thusly at times, thinking some of the old ways were best, but with big churchmen taking up Frantic Forwarditis these days, he doubts we will ever turn back the clock to worshipping God instead of Growth.

Says if folks get any more hysterical against taking a road that has ever been traveled before, we may start sneering at back-up gears in cars.

—

I see where a New Jersey community jailed and fined numerous citizens who had taken out library books and failed to return same.

My bookwormy neighbor notes that the newspaper stories on this book ruckus did not mention the type of tome mostly being hibernated by the bookkeepers.

Says likely the volumes held back were some of these modern novels by the new breed of tired writers, and the N.J. folks figured it is a public service to keep same out of circulation.

OPTOMETRY: *The Art and Science of Visual Care*

Oh, but I DO have my glasses on!

Today, this is becoming a fairly common statement. *Many* people are being fitted with CONTACT lenses, with perfect success, eliminating heavy spectacles. In many instances, much better vision is achieved with contacts.

Progress in this field of vision care has been tremendous even in the last two years. Use of contacts now may be possible for you even if unsuccessful before.

Not all optometrists fit contact lenses. Those who do not will refer the work to those with special training.

For information, write Texas Optometric Association, Contact Lens Section, Bolm Bldg., Austin, Texas.

Now is Time to Fertilize Fruit Trees

Fruit trees should be fertilized at this time, County A/ent Bob Lynch reminded orchard owners this week.

Lynch recommended for small non-bearing trees, one pound of fertilizer for each inch in diameter the tree trunk measures. Measurement should be taken about six inches from the ground, he said.

On young trees, the fertilizer should be applied not closer than one foot from the trunk, and it should be worked in the ground in a circle around the tree. Lynch recommended 10-20-10, 12-24-12, or similar fertilizers containing the tree plant food elements of nitrogen, phosphorus and potash.

Bearing trees should receive one-half pound of fertilizer for each one-inch diameter of the tree trunk. This should be applied in a circle beneath the edge of the limbs, making a series of holes and working the fertilizer in these. This applies to all kinds of fruit trees.

Grapes should receive one-half pound of fertilizer per vine.

Elective Insurance Board Proposed

Austin.—A proposal to grant the people the right to elect the members of the Texas Insurance Board has been introduced by Rep. David Read of Big Spring.

The appointive board has been under severe criticism for several years, especially since it suddenly increased insurance rates on motorists, based on traffic violations.

The bill is patterned after the law requiring the election of the railroad commissioners. It is the sponsor's belief that the public would be given more consideration if the insurance posts were elective positions.

Water Bill Passed by House and Senate

Austin.—A bill to raise the amount the State Water Development Board can lend for local water projects in Texas gained final passage from both houses of the legislature.

It will become a law with the governor's signature. Gov. Daniel favors the bill, called it "a great step forward." Bill will allow the board to lend up to $15,000,000 for any one water project.

Another water measure under consideration would allow the state to buy conservation storage space in Texas reservoirs, saving and selling water that would otherwise run off. It is in the form of a constitutional amendment and is sponsored by Sen. George Parkhouse of Dallas.

Supporters hope to gain legislative approval in time to have it put on the ballot at the same time as the run-off in the special senatorial race.

Bill Passed to Increase School Time

Austin.—The House passed to the Senate a bill which would increase the time during which a child may be legally compelled to attend school.

Present requirement is to attend school from 7 to 16 years of age for 120 days each year. The bill would change the age limit from 6 to 16 years of age and the school year to 180 days.

At the request of Rep. Jack Woods of Waco, the House removed a provision that would have required 17-year-olds to stay in school.

CAUTION

When coming in from a hunt on a cold day, don't sit down at once to clean, oil and put away your gun.

Wait until after supper so the gun will have time to warm up to room temperature. This will prevent moisture from collecting on the cold metal, causing it to rust later.

FHA Money Available to County Farmers

Additional funds have been made available to help meet the needs of eligible farmers in Collingsworth county who need operating money to carry out their farming operations, Alton Pyburn, County Supervisor for the Farmers Home Administration announced today.

Pyburn said that a $35,000 contingency fund provided by the 1961 Agricultural Appropriations Act has just been released to the Farmers Home Administration to meet the growing demand for credit.

This move was taken by the U.S. Department of Agriculture, Pyburn said, in an effort to make certain, within the authorities and funds available, that no qualified family-type farmer will be required to give up farming because of his inability to finance his 1961 operations.

Most of the applications so far this years are for loans to buy livestock, farm machinery, and operating expenses. Some applications have been received for irrigation loans.

Job Classification Approved

Austin.—A bill to assure "like pay for like work" among state employees has moved to within one step of final House passage.

Sponsored by Rep. John A. Huebner, Sr. of Bay City, the bill enacts a job classification system and raises the salaries of workers receiving less than the standard salary for those in their category. No salary cuts would be made.

Estimated cost of the required raises under the measure is $450,000 a year.

Crowd Howls Foul

Was That Class AA Vs. Class B Friday

By Eli Wolf

In a bone jarring, spine tingling, muscle bound, short winded, obese setting, the Junior High Mothers and Dads met their Daughters and Sons in their annual basketball classic Friday night, Feb. 24.

It was never quite clear just where the term "game" entered into the melee, especially in the men's department. Where jet aircraft are continually breaking the sound barrier, the Dads went all out in doing the same to the age barrier. The gymnasium was full and all agreed that the admission price was too low for such a show as they were treated to. Peace officers met the crowd at the doors. Referees were Sheriff John Rainey and Police Chief Troy Marsh. After agreements with both sides, it was decided that they would not be required to wear sidearms while officiating.

The girls took the court first, all under their own power. It is remarkable to note that Mom, after years of nagging, complaining, putting up with tired, grouchy husbands and nerve wracking kiddos, can cream those dishpan hands, slip on a pair of slacks, tie up her hair and whistle Dixie from one end of the basketball court to the other for four full quarters. This is truly the modern age. Proving this were such players as Mag Singley, Dorothy Milner, Esta Glenn, Golda Jones, Ruth Aaron, Margaret Pendleton, Bonnie Sullivan, Ginger Holton, Keva Holley, Willie Faye Henard, Genevieve Patterson and Lenna Hurst.

Loud in color and voice on the sidelines were the animated pep squad, in their Bobby Sox, hair ribbons, pleated skirts and megaphone. These fiery youngsters were Thelma Curry, Jimmie Wilkerson, Jenna Williams, Virginia Wolf, Mary Sanford and Helen Fires. The final score in the girls game was never quite clear. There was some talk about the counter not working accurately and the clock being in a general state of disrepair.

However, to keep the youngsters' morale at a high pitch, the Mothers agreed to concede the game by a narrow margin.

Now to the game between the Dads and Sons. Some observers feel that basketball has been set back fifty years as a result of this game. New techniques in ball handling, dribbling styles and a complete new method of breathing were very much in evidence throughout the game. The score was always in doubt (as to whether the dads were going to make one). Fans will remember some of the more famous names, such as Charles Allen, Eldon Holley, Dan Henard, Jack Needham, Lynn Courtney, L. B. Bratten, Paul Spillman, Calvin Hurst, James Richardson, Morris Barton, Jack Ford, Glenn McLain, Eli Wolf, Rufus Sweat, Junior Cason and H. L. Duncan.

As in the first game, there seemed to be considerable confusion on the score. Some of the Dads complained that they were so busy trying to locate the ball, they forgot to see if they got a fair shake on the scoreboard. However, the old timers were good sports to the end (figuratively speaking), letting the youngsters take credit for the win.

All in all, it was a wonderful night and both players and fans are looking forward to 1962 when the next annual event will take place. It is hoped that the school board will not look upon these two games as average ones and try to sell the gymnasium before it is too late. 1962 will see a new crop of parents and players in this age group. See you then.

Two Cotton Deadlines Set

Cotton growers were reminded this week of two deadlines, both pertaining to the 1961 ACP program.

April 1 is the dealine for making application at the ASC county office for pre-measurement of cotton acreage. April 14 is the deadline for releasing cotton acreage that will not be used, such as those in the soil bank.

The county ASC committee approved a rate of charge for pre-measuring cotton: $3.00 for mileage up to 20 miles from the county office plus 5¢ per mile for each mile over 20; $1.50 for filing application; $1.75 for planimetering acreage in county office; $1.25 for filling out form CSS-576; 20¢ for stakes; $2.00 for each regular shaped plot; $3.00 for each irregular shaped plot, plus 2¢ per acre to be measured for straight rows, and 3¢ per acre for contoured rows.

Auto Insurance Plan Hit by Hazlewood

Austin.—Texas' merit rating plan for auto insurance came in for heavy criticism as the Senate Insurance Committee considered a measure calling for extensive changes.

Sen. Grady Hazlewood of Amarillo declared that, at present, it's not how you drive, but whether you get caught, that determines your insurance premium.

Under a revised plan sponsored by Senator Hazlewood, insurance premiums would be raised only for more serious traffic violations. No penalty points would be assigned for anything that happened before Jan. 1, 1960.

In taking apart the present plan, Senator Hazlewood said it is inequitable because, among other reasons, (1) it doesn't apply to commercial vehicles such as trucks, taxis, etc, and (2) traffic tickets aren't passed out as readily in small towns as large ones.

No one appeared to disagree with his view.

Louie Beam and Mr. and Mrs. Cameron Beam Jr. and two children, all of Dallas, were guests during the week end in the home of Mrs. Cameron Beam Sr.

UT Exes Will Meet March 3 at Childress

University of Texas ex-students will hear Beaumont Stinnett, an Amarillo rancher, presently serving as councilman-at-large on the Ex-Students' Association executive council, speak at the annual Texas Independence Day celebration which will be held in Childress Friday night, March 3. The affair will be a steak dinner at Gay's Cafe, beginning at 7 o'clock.

Prior to 1946, Mr. Stinnett worked in the oil and gas business; since that date he has been engaged in ranching in Potter and Randall counties. He was a member of the Amarillo Board of Education from 1939-1948 and served as president part of that time.

While attending the University he was a member of Phi Kappa Psi, Phi Beta Kappa, Arrowhead, Friars, Pi Sigma Alpha, and the "T" association, having lettered in track three years.

Ex-students, their families, parents of students now in the University and other friends of the University are invited to attend. Tickets are $2.50 each and are available in Wellington from Fred Saied.

Mr. and Mrs. Donald Nunnelley, her mother, Mrs. A. C. Pendergrass and Mrs. Mearle Parker were in Cheyenne, Okla., over the week end to visit in the home of their daughter and sister, Mr. and Mrs. J. B. Minyard and family.

Mr. and Mrs. W. B. Thomas and family of Amarillo were week end guests here in the home of his parents, Mr. and Mrs. W. E. Thomas. Sunday guests in the Thomas home were Mr. and Mrs. E. W. Pool of Shamrock.

Attend State Library Meet

Four members of the Library Club, accompanied by the sponsors, Mrs. Dema Justice and Miss Lahanda Mayhugh, attended the Texas Teenage Library Association state convention in San Antonio, Friday and Saturday, Feb. 24 and 25.

The four were Betty Holtzclaw, Jo Ellen Throne, Susie Romo and Don Sutton.

A tour of Witte Museum and San Jose Mission was part of the convention activities. At San Jose Mission, the group saw the famous Rose Window. A play, "Lady Precious Stream" was given at Our Lady of the Lake College and was attended by all convention delegates.

Between sessions, the group walked down the San Antonio River to the Alamo.

Supreme Court Upholds Property Owners

Austin.—Two cases involving disputes between property owners and oil and gas drillers were ruled on by the Texas Supreme Court.

In a Lubbock county case, the high court ruled that a drilling firm was responsible for damages caused by salt water pollution of an irrigation well—even though the property owners had given permission for salt water disposal on the land.

In another case, the court ruled that drillers using the sand fracturing process to open up subsurface cracks to release gas were trespassing on the rights of neighboring lease holders.

Early experimenters with internal combustion engines used gunpowder as fuel.

Sales Tax Squabble Proceeds

Austin.—Both pro- and anti-sales taxers declare they are in a better position now that Gov. Price Daniel has dropped his support of the payroll tax plan.

Pro-sales taxers say this will leave the Legislature practically no choice but to pass a general sales tax. But opponents say it clears the way to getting down to "numerous other plans."

In his message dropping the payroll tax, the governor also said that he felt neither a sales nor an income tax had a chance of passage. He recommended instead the State Finance Advisory Commission's second choice plan, extension of excise taxes.

Under this plan, new items to be taxed would include restaurant meals, gas and electric household appliances, jewelry and watches, soft drinks, building materials, business machines, home and office furnishings and boat and automobile parts.

Taxes on these items would be increased: motor vehicles, gasoline, air conditioners (to include central systems), cosmetics, beer, liquor, wine, and boats and motors.

ALERT FOR SNAKES

Watch out for snakes when in the field, or wear snake-proof boots. Don't think that there are not snakes about just because of the calendar. A warm sun on a cold day often brings out the reptiles.

Also, remember that rattlers don't always rattle before they strike. So don't depend on your ears.

Look for moccasins around water and in damp places. Rattlers usually inhabit rocky or timbered country.

Always carry a snake-bite kit, to be on the safe side.

Miss Wilson to Play at National Meeting

Judith Ann Wilson

Judith Ann Wilson, freshman in West Texas State College, has been invited to appear on the program of the annual convention of the National Federation of Music Clubs in Kansas City April 24. This is the time at which the Quail Chorus will sing, and Miss Wilson is their accompanist.

At the request of the convention program chairman, Miss Wilson will play two accordion solos, "Texas, Our Texas" and "Oklahoma.", to honor the state presidents of those states. She also will play incidental music as the crowd gathers for this session.

Miss Wilson is a former pupil of Mrs. Lowell Wells, director of the Quail Chorus, and she is widely known through the state as an accordionist. She is the daughter of Mr. and Mrs. Woodrow Wilson and is majoring in music at WTSC.

Students Lose Friday Holiday

Wellington students will miss their traditional one-day vacation given for teachers to attend the Panhandle meeting of the Texas State Teachers Association to be held Friday, March 10 in Amarillo.

Supt. J. L. Harper said that the two days lost because of snow must be made up and the tight end of school schedule makes it impossible to lengthen the school term by that period.

"Seniors have their trip reservations at Bandera, some of them are leaving for summer school and some of the boys are to report for National Guard duty," he pointed out.

Persia officially adopted the name Iran in 1935.

Wheat Plowup Date May 10

Millard Brown, ASC office manager, has reminded wheat growers of two spring deadlines.

May 10 is the final date for destroying excess wheat; and March 31 is the date on which 1960 wheat and grain sorghum loans mature.

Mr. and Mrs. W. A. Morrow visited during the week end in Claude with a daughter and son-in-law, Mr. and Mrs. L. R. King and Gary and in Amarillo in the home of their son, Mr. and Mrs. Harold Morrow and Janice and also with her brother, Mr. and Mrs. A. C. Black.

Min. and Mrs. Grandol Forehand attended the annual lectureship at Abilene Christian College during part of last week.

MARIAN AIRPARK Flight Notes

Activity at Marian Airpark is picking up, with more transient traffic and more local activity than at any time in several years, Clifton Hartman reported this week.

Ten planes are based at the park permanently.

Hartman operates an agricultural spraying service, and also teaches flying. He reports six new students: Glenn Ketchum, Jerry Nix, Charles Caison and Min. J. R. Patterson, who are enrolled for the first time and working toward student licenses. They will take 8 hours of dual instruction. Caison will use his flying in carrying on his various business enterprises.

Two men with student licenses are working toward private licenses, which requires 40 hours instruction, including 15 hours solo flying. These are Cecil Elbert, who will work flying in with custom combine work, and Louis Allred who will use flying in connection with his farming operations here. One student, Mr. Tindall, flies over from Shamrock for lessons.

Hartman has six planes at the Airpark; the Cessna 172 which he uses for teaching, and five spray planes including two Starman biplanes and three J3 Piper Cubs.

Hartman also reported transient activity during the week. Some planes have stopped from Lawton, two boys came down from Amarillo Thursday, and again Saturday.

Pete Melton flew in from Dalhart to visit his family, Mr. and Mrs. Pete Melton Sr., and the Rev. Mr. Stephens, pastor of an Assembly of God Church, comes down once or twice a month to visit a patient at Smith Rest Home, Hartman said.

Hershel Francis, who has been in Tulsa this winter taking a course that will lead to his aviation mechanics license, came in during the week end, it was reported.

Mr. and Mrs. Ernest Nunnelley returned home over the week end from a 10-day fishing trip to Corpus Christi.

WTU Magazine Gets Freedom Award Recently

West Texas Utilities Company and Jimmie Martin, editor of the Electric Times, employee monthly publication, have been awarded the George Washington Honor Medals, along with 28 other Texans. Winners of the annual Freedoms Foundation awards were announced on Feb. 22 from Valley Forge, Pa.

A total of 773 medals were awarded in 1961 to American citizens, organizations and schools who won prizes for things they said, did or wrote. WTU's two medals were awarded for editorials, feature articles and stories which appeared in the Electric Times during 1960, and were judged as being "an outstanding achievement in helping to bring about a better understanding of the American Way of Life."

Early last November a panel of judges began examining and judging several tons of material which had been submitted and was housed in four wings of the Valley Forge Army Hospital.

This is the second time that the Electric Times has been the recipient of the Freedoms Foundation award. In 1951 the George Washington Honor Award was presented to West Texas Utilities Company and the editor of its magazine.

Cal Young, WTU president, and Martin will receive the awards at a special ceremony, the time and place to be announced later.

Martin, who has served as a WTU industrial editor for the past 15 years, is a member of a pioneer West Texas newspaper family. Before joining WTU, he owned and operated newspapers in Brady, Childress, Snyder and McCamey.

He is a graduate of Hardin Simmons University where he had an active part on student publications and served as editor of The Broncho, HSU year book, during his senior year.

New Range Conservation Stamp

Conservation Stamp Available at Post Office

Conservation leaders here are interested in the issuance of the world's first range conservation postage stamp by the post office department, Fred Squyres, work unit conservationist of Soil Conservation Service said this week.

The stamp is on sale at the Wellington post office.

The commemorative 4-cent stamp, printed in three colors, is in two parts. One is a reproduction of the famous drawing "Trail Boss" by Charles Russell, distinguished artist of western life. The other part shows a modern range conservation scene.

The new stamp, Squyres said, symbolizes the development of range conservation from the pioneer days of the open range to today's scientific management technique.

Mr. and Mrs. Roy Brinson and Beverly were here from Borger over the week end visiting her mother, Mrs. J. L. Burt and in the home of her sister, Mr. and Mrs. Jack Ford.

LETTERS from the People

Dear Mr. Wells:

Just a note to thank you for all the fine advertising of National FFA Week. John was slow getting anything in the paper so we do appreciate what you are doing for the FFA.

Surely is nice being back in this county once again, meeting old friends and making new ones. Once again, "Thanks."

Sincerely yours,
Mrs. John E. Dwyer

Eatontown, N. J.

Dear Deskins:

I hope my subscription hasn't expired. I got the dog sled all ready when "summer" hit for two days, and now our driveway is like a river from melting snow from Dec. 4 on. This has been two or three winters in one, but last summer and fall were so perfect I hate to complain now.

Mr. Pickering is still in the Signal Corps Lab and I am still teaching. Sue Ann is in her first year in the new Christian College at Villanova, Pa. The two boys are not that far along yet.

A salesman from the Rand McNally Map Co., told me his friend married a Texas Girl. I asked the town, naturally, and he was sure I had never heard of the place —it was Matador. I called her and the accent sounded great. Her dad has retired as postmaster there and bought a farm here in New Jersey recently.

We were fortunate enough to get tickets to hear Van Cliburn play recently — Texas ought to create some high honor for him. He is such a genius and has maintained his Texas friendliness.

If we travel west in '61 we will see you and Mrs. Bird's other friends, I hope.

I enjoy the paper—D. E. Scott and your column. When yours is missing I always feel slightly gypped.

Regards,
Eunice Bird Pickering.

Mr. and Mrs. David Baumgardner and sons, Joe and David, and his mother, Mrs. Joe Baumgardner, visited in Hereford Sunday with Mr. and Mrs. Lefty Thomas.
