

## Farm Meeting Set October 24 For Vernon

Reconversion and postwar problems confronting agriculture will be principal topics for discussion by producers of this area at a meeting to be held at Vernon on Wednesday, October 24.

The meeting is sponsored by the Texas Farm Bureau Federation and is one of a series of 14 being held throughout the state. J. Walter Hammond, president of the organization, announced. Purpose of these meetings is to bring farm and ranch people firsthand information on the immediate problem of post-war prices.

"There is a growing sentiment to lower agricultural prices," Hammond said. "A collapse of farm prices, such as followed World War I, will lead to a break in the entire price structure of our economy. It will take the combined thinking of the best minds in agriculture to map a sound and practical farm program that will insure fair prices and prevent endangering the post-war economy of our nation."

The Farm Bureau strives to represent the true thinking of the producers of this state, and it is therefore necessary to call the farm and ranch people in to district conferences to give them an opportunity to express their views on these issues of such paramount importance at this particular time, in order that as an organization the Farm Bureau will know what course of action to pursue, Hammond declared.

All farmers are urged to attend this meeting and have a voice in the formulation of a program which they believe will be sound and constructive.

R. Cal McCurdy of Decatur, member of the state board of directors from this district, will preside. The meeting will start at 10:00 A. M. in the Wilbarger Hotel at Vernon.

## County Council Names Officers

The Knox County Council officers have been elected for the ensuing year. They are as follows:

Chairman—Mrs. Wesley Trainham, Vera, Texas.  
V. Chairman—Mrs. Lee Snailum, Benjamin, Texas.  
Secretary—Mrs. R. M. Almanrode, Sunset.

Treasurer—Mrs. J. C. McGe, Union Grove.  
Reporter—Mrs. J. C. Patterson, Benjamin.

Parliamentarian—Mrs. J. E. Stover, Truscott.  
The Yearbook Committee will meet Monday, October 22, at 10:00 a. m. in the home of Mrs. J. E. Stover, Truscott, for the purpose of planning the yearbooks. Those on that committee are as follows:

Mrs. J. E. Stover, Chairman, Truscott; Mrs. Sybil Simmons, Gilliland; Mrs. Geo. Weber, Hefner; Mrs. Wesley Trainham, Council Chairman, Vera; Mrs. R. M. Almanrode, Council Sec.-Treas., Sunset.

## Brushy Church To Have All Day Service Sunday

An all-day service will be held at the Brushy Baptist Church on Sunday, October 21, Rev. Oscar C. Byrd, pastor, has announced. The program will be as follows:

10:00 a. m., Sunday school; 11:00, dedication sermon by Rev. W. L. Daniels; lunch at noon; 1:30, song service conducted by Walter Hicks; scripture, Jim Cooke; quartet; "The Church Record," Plez Rowden; "What This Church Has Meant to Me," congregation; songs, east side quartet, and the service will be closed by a sermon at 2:15 by Rev. W. L. Priddy.  
Everyone is cordially invited to attend this service.

## BAPTIST LADIES TO HOLD RUMMAGE SALE

The ladies of the Baptist Church are having a rummage sale next Saturday at the city hall in Munday. All ladies who have clothing they want to contribute to the sale are urged to bring them to the city hall on Friday afternoon.

Clothing will also be sold on a commission basis, the ladies said.  
Miss Rose Brown of Abilene spent the week end with her parents, Mr. and Mrs. Anton Brown, and with other relatives.

## Knox County Hospital Notes

Patients in The Knox County Hospital, Tuesday, Oct. 16, 1945

Mrs. G. W. Lefevre, Rule.  
Mrs. La Roy Stubbs, Knox City.  
Baby Stubbs, Knox City.  
R. A. Shaver, Sr., Rochester.  
Mr. H. T. Ward, Aspermont.  
Mrs. G. D. McCarty, Knox City.  
Mrs. E. C. Thompson, Munday.  
W. F. Snody, Benjamin.  
Mrs. Neil Perdue, Knox City.  
Paul Horn, Truscott.  
Betty Humphries, Munday.  
Mrs. Olive Penrod, Rochester.  
Miss Ola Bell Kennedy, Haskell.  
Roy G. Anderson, Aspermont.  
James Davis, Munday.  
Mrs. R. A. Brown, Knox City.  
Baby Brown, Knox City.  
Miss Francis Segoe, Rochester.  
Mrs. E. C. Claburn, Knox City.  
Mrs. Alton Ward, Goree.  
Baby Ward, Goree.  
Mrs. J. S. Fahnin, Rule.  
Mrs. J. R. Vaughn, Vera.

Patients Dismissed Since Tuesday, October 9th

Mrs. D. W. Hodges, Knox City.  
Baby Hodges, Knox City.  
W. L. Caddell, Munday.  
Mrs. C. C. Coulston, Vera.  
Baby Coulston, Vera.  
Mrs. Clifford Cornett, Knox City.  
Cora Lee Vierow, Bomarton.  
Maymie, Fay Davis, Seymour.  
John L. Davis, Seymour.  
Mrs. John L. Davis, Seymour.  
Evelyn Maynar, Munday.  
Jaun Valdez, Rochester.  
Josephine Garza, Knox City.  
Baby Garza, Knox City.  
Mrs. G. L. Holmes, O'Brien.  
Baby Holmes, O'Brien.  
Mrs. Nell Hudson, Benjamin.  
Mrs. J. S. Wardlow, Munday.  
Lon Moore, Munday.  
Mrs. Paul Grinstead, Rochester.  
Baby Grinstead, Rochester.  
Mrs. Chas. Ray Cude, Munday.  
Baby Cude, Munday.  
Mrs. Allene Kidwell, Rochester.  
Isabel Villarreal, Munday.  
Baby Villarreal, Munday.  
Evegina Fanguerra, Rochester.  
Baby Fanguerra, Rochester.  
Elvira Davila, Munday.  
Baby Davila, Munday.  
Mrs. W. H. Walling, Munday.  
Mrs. John Brock, Munday.  
Hortense Baecnegra, Munday.  
Baby Salis, O'Brien.  
Nicholson, Salis, O'Brien.  
Mrs. J. O. McMahan, Munday.  
Mrs. Petra Garza, Corpus Christi.

Births:

Mr. and Mrs. R. A. Brown, Knox City, a Daughter.  
Mr. and Mrs. Alton Ward, Goree, a Son.  
Mr. and Mrs. Chas. Cude, Munday, a Son.  
Mr. and Mrs. Evania Fanguerra, Rochester, a Son.  
Mr. and Mrs. Isabel Villarreal, Munday, a Daughter.  
Mr. and Mrs. Paul Grinstead, Munday, a Daughter.  
Mr. and Mrs. G. L. Holmes, O'Brien, a Son.

## Mrs. Frances Baker Attends Conference

Area II of the homemaking department of the State of Texas held an all-day conference in Throckmorton on Saturday, October 13, and Mrs. Frances Baker, home economics instructor in the local schools attended.

Dr. Bernice Moore of the University of Texas gave a most interesting talk on post war problems in every day living. This was followed by a panel discussion.

Thirty-five homemaking teachers attended from over the district. Miss Esther Sorenson, district supervisor for this area, had charge of the meeting.

Ladies of the Throckmorton P.T.A. prepared a delicious luncheon, which was served by girls of the homemaking department.

## Griffin Drug In Goree Is Purchased By Dorse Rogers

Announcement was made this week that Dorse Rogers, who operated the Texaco Service Station here for several years, has purchased the Griffin Drug Store in Goree. He assumed management of the firm last week.

The Store had been operated in Goree for many years by Henry Griffin. Mr. Rogers is experienced in this line of work, having been employed in Drug stores at Munday and in Houston for some time.

Mr. and Mrs. Rogers and son, Bill, plan to move to Goree this week to make their home, having sold their home in Munday.

PRESIDENT GOT MODEL OF SURRENDER SHIP, U.S.S. MISSOURI  
L. to R.: Vice Admiral Randall Jacobs, President Harry S. Truman, Secretary of Navy James Forrestal, Fleet Admiral Ernest J. King.

## Moguls See Record Snap At Anson Friday

After three successive wins, the Munday Moguls saw their 11-A slate smudged up last Friday night at Anson, when the Anson Tigers romped over them to the tune of 27-0. The Moguls fought hard during all of the game but were outclassed by the Tigers, who had earlier in the season been doped to win the district crown.

The Tiger quarterback, Troy Rogers, set the pace for the winners, scoring 20 points. He marked up the first touchdown in the opening quarter with a 30-yard run with an intercepted fumble.

Rogers took the second half opening kickoff 80 yards for the next score, and Sampson passed to Neal for the extra point.

Billy Newman, left half, ran 35 yards with an intercepted pass in the third quarter, and Rogers scored again from the five yard line and kicked the extra point.

Anson led in first down, nine to four. The game was more interesting than the score indicated, fans said, with the Moguls making several threats at scoring.

Swain, back, and Haynie, end, were the mainstays for the Moguls.

## October 21st Designated As Navy Sunday

New Orleans, La., Oct. 21, which has been designated as Navy Sunday, will be a special day of tribute to the men in all the services who lost their lives at sea in the defense of the United States.

The Navy League is asking the American people everywhere to send on flowers to one of the designated ports nearest their own community in time to arrive before midnight on October 20. The League suggests that wherever possible the flower sent be either home grown or wild, and in no case should the expenditure exceed a modest sum.

In the Eighth Naval District, comprising seven southern states and the northwest portion of Florida, the ports named are Pensacola, Florida; Mobile, Alabama; and Corpus Christi, Texas.

In mailing not more than one flower to any one of these three ports they should be addressed care of the following:

Senior Chaplain, Naval Air Station, Pensacola, Florida.  
Senior Chaplain, Naval Air Training Center, Corpus Christi, Texas.

Senior Chaplain, U. S. Navy Port Director, Mobile, Alabama.  
All flowers received by these chaplains will be placed on Naval vessels, and following appropriate all-faith ceremonies at the respective dockades, a ship will proceed to sea from each port and when the vessel reaches a point beyond the sight of land the flowers will be scattered on the waters.

Mrs. Mary Porter and Mrs. Cate Robinson and daughter, Jannette, of Ephrata, Wash., spent several days here last week with their brother and sister-in-law, Mr. and Mrs. M. F. Billingsley.

## Guard Members To Hear Williams At State Meet

Of particular significance to the future of the Texas State Guard and the Texas National Guard is the appearance of Major General John Francis Williams, Chief of the U. S. War Department National Guard Bureau, on the program at the annual convention of the Texas State Guard Officers' Association that will be held in Austin on October 20 and 21.

The fifty-eight year old General was a first lieutenant in the Missouri National Guard at the outbreak of World War I, and has been identified with National Guard activities since that time. During the present war, he has directed the training programs of the various State Guards. He will be the special guest of honor at the governor's reception for Texas State Guard Officers the afternoon of Saturday, October 20th.

## Editor of Farm Journal Soon To Visit County

Knox County 4-H Club boys and girls are to be honored on November 13th, by Mrs. Beth Paschal, associate editor of Farm Journal in Philadelphia, who is coming to Texas for the purpose of learning more about the methods and procedure of education work with the farm boys and girls.

This information will be published in leading Farm Journals and the Knox County Boys and Girls feel greatly honored by being one of six counties in Texas to be visited by Mrs. Beth Paschal.

Miss Laura Lane, Extension Editor, of A. and M. College of Texas, will accompany Mrs. Beth Paschal on her tour through Texas.

The following itinerary is planned when Mrs. Paschal and Miss Lane visit Knox County 4-H Club members:

Edith and Kaye Ryder, Gilliland, Texas—10:45 a. m.; Olen Ray, Benjamin, Texas—1:00 p. m.; Fred Lewis and Buddy Crenshaw, Benjamin, Texas—1:40 p. m.; Nadyne Allen, Vera, Texas—2:45 p. m.; Johnnie Jackson, Vera, Texas—3:30 p. m.; and Joe Edd Sweatt, Munday, Texas—5:00 p. m.

These club members have done outstanding work in 4-H club activities and are the ones to be visited. Mrs. Paschal's story of Knox County 4-H Club activities will be based on the activities of these outstanding 4-H Club members.

## Dr. Reneau To Practice Veterinary Medicine Here

Dr. John B. Reneau, Jr. who served as a captain in the U. S. Cavalry, came in last Monday from the Army and Navy Hospital at Hot Springs, Ark. He has been released from the service and placed in the inactive status.

Dr. Reneau has been under treatment since his return from the Pacific several months ago. He plans to make his home in Munday and will resume the practice of veterinary medicine in this county.

## On Program

MAJ. GEN. JOHN F. WILLIAMS

## Free Shows Are Sponsored By Gulf Oil Corporation

People of Knox County will see interesting free shows next week, through the courtesy of Gulf Oil Corporation and P. V. Williams, local Gulf distributor.

An interesting full color picture, "Tomorrow's Harvest" will be shown, in addition to Jack Lamb's superb color picture, "Views of Alaska," which shows interesting hunting and fishing scenes of Alaska.

This show will be shown at Weimert, Goree, Rhineland and Sunset. Dates for the show are carried elsewhere in this paper, in an ad sponsored by Mr. Williams and the Gulf company.

## Auction Sale Has Large Run

The Munday Livestock Commission Co. reports a big run of cattle for the weekly auction sale last Tuesday.

Canner and cutter cows sold from \$5 to \$7.50; butcher cows, \$7.75 to \$9.50; fat cows, \$10 to \$11.50; butcher bulls, \$7 to \$8.50; fat bulls, \$9 to \$11; fat yearlings, \$9.50 to \$11.75; fat yearlings, \$12 to \$13.75; rannie calves, \$7.25 to \$8.50; butcher calves, \$9 to \$11; fat calves, \$11.50 to \$13.50.

Several bunches of stocker calves sold from \$26.00 to \$47.50 per head.

## GETS PROMOTION

Mr. and Mrs. Louis Cartwright have received word that their son, Cpl. Alonzo S. Cartwright, has been promoted to sergeant. He is stationed at Foggia Area, Italy, and expects to be home sometime in February.

Another son, Kieth H. Cartwright, H. A. 1/c of the U. S. Naval Hospital Staff, is stationed in New Orleans, La.

## BIRTH ANNOUNCEMENT

Mr. and Mrs. Charles R. Cude are announcing the arrival of a son, Charles Ray, Jr., who was born on Thursday, October 11, at the Knox County hospital. Mother and little son are reported doing fine.

## Goree Chamber Of Commerce Is In Active Work

Recently the Goree Chamber of Commerce was reorganized by the election of the following officers: Barton Carl, President; W. W. Coffman, Vice President; H. D. Arnold, Secretary-Treasurer. The Board of Directors is composed of the following: H. D. Arnold, W. W. Coffman, Orb Coffman, Barton Carl, F. G. Daniell, Les Jameson, Ben B. Hunt, and Homer L. Moore.

Committees on membership, highways, streets and parks, and new business were appointed. The members meet at Ray Easley's Cafe for dinner twice a month.

A contract has been made with the West Texas Utilities Company for a new system of street lighting for the town. A committee has set to work consisting of Ben B. Hunt, Rev. S. E. Stevenson, F. G. Daniell and H. L. Moore to secure funds for the purpose of erecting a suitable memorial building to the men and women who served in World Wars I and II.

Several new businesses have been secured for the community.

## Cal Stevens Is Injured At San Antonio

Cal Stevens, well known local resident, was injured at San Antonio last Saturday night when he was struck by a passing automobile while crossing a street heavy with traffic. Thus a happy reunion with their son, "Frog" Stevens, ended in an accident which placed the father in a hospital.

Mr. and Mrs. Stevens, together with Mr. and Mrs. Clovis Stevens and little son of Palestine, Texas, had gone to San Antonio for a reunion with "Frog," who was recently released from a Japanese prison camp.

Saturday night the group had gone to a park in San Antonio. Mr. Stevens started across from the car to the park when he was struck by a car driven by an army lieutenant. He was taken to the Brooks General Hospital, where it was revealed that his left limb was broken in four places between the knee and ankle and in the ankle. He will receive treatment for several weeks before he is allowed to leave the hospital for home.

Frog's furlough started Wednesday, and he is due in Munday after visiting a few days with his brother in Palestine.

## Cotton Ginnings

With the advent of pretty weather, pulling crews have been busy in the cotton fields of Knox county, and gins over the county are swamped with cotton.

A survey of the local gins at ten o'clock Thursday morning revealed that a total of 2269 bales have been ginned in Munday from the crop of 1945. Gins are running 24 hours a day, and reports are that they are from 24 to 36 hours behind with ginning.

## HOME ON LEAVE

Everton H. Hosea, seaman first class in the Navy, is here to spend a 30-day leave with his parents, Mr. and Mrs. N. E. Hosea, and other relatives. Hosea, who spent 20 months in the Pacific, will report to Dallas for reassignment.

S/Sgt. Guy S. Hardin of Kelly Field spent the week end with his mother, Mrs. Nell Hardin, and with other relatives and friends.

## Weather Report

Weather report for the period of Oct. 11th to Oct. 17th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1945 1944	1945 1944	
Oct. 11	53 55	80 69
Oct. 12	55 35	82 73
Oct. 13	57 45	80 81
Oct. 14	59 52	76 85
Oct. 15	51 56	77 82
Oct. 16	53 47	81 82
Oct. 17	53 48	83 82

Rainfall to date this year, 20.15 inches; rainfall to this date last year, 16.78 inches; rainfall since Nov. 1, 1944, 24.15 inches.

## League Ranch Does Improving, Conservation

The League Ranch is very interested in Soil Conservation and soil improvement. The Ranch is managed by Jack Idol and under his direction a lot of conservation and soil improvement work has been done.

With the help of the Soil Conservation Service technicians, more than 20 miles of terraces have been built. These terraces were so constructed that a combine can be used across them at any angle, making harvesting a great deal easier. As soil improving crops, Mr. Idol has planted approximately 25 acres of Clover and 10 acres of hairy vetch this year. He will also plant approximately 10 acres of Austrian winter peas as soon as time permits.

In the spring, Mr. Idol plans to plant 200 lbs. of Huham Clover as a soil improving and to reduce the amount of Cotton Root Rot.

Stubble Mulch (leaving all straw and trash on the surface of the ground) is another practice being used on the ranch to increase the amount of water to be stored in the soil for next years production. Approximately 500 acres of wheat land was treated in this manner this year.

Mr. Idol has practiced conservative grazing on the majority of his range land, and has constructed 14 tanks to facilitate grazing.

In adding all factors up, Mr. Idol is working toward a coordinated soil and water conservation program, which will increase the production of the ranch to a great extent.

## Moguls Hosts To Haskell On Friday Night

The Munday Moguls will play their second conference game of the season next Friday night when they are hosts to the Haskell Indians on the local field. The game will start at 7:30 p.m.

Coach Latham and his boys have been having daily scrimmage sessions and workouts this week, and they are hoping to add another win to their side of the score card.

The Haskell team hasn't made a very strong showing this year, having suffered several defeats. Last Friday night the Indians lost to the Stamford Bulldogs by a score of 12 to 0.

Both teams will be out to avenge last week's defeats, and the game promises to be an interesting one.

## Seismograph Crew Locates In Munday

A seismograph crew representing Robert A. Ray, Inc., located in Munday the first of this week and will do seismograph work in six or seven counties in this area.

Offices for the crew are located over the First National Bank, and crew members are trying to locate living accommodations for their families.

The work in this area will require between six months and a year, it was stated.

## George D. Jones Gets Discharge

ELLINGTON FIELD.—T/Sgt. George D. Jones, Jr., husband of Mrs. Mary S. Jones of Seymour, and son of Mr. and Mrs. G. D. Jones of Goree, Texas, is leaving here today for his home after being honorably discharged from the Army Air Force.

He entered the armed services May 19, 1943 and after receiving his training in the AAF Training Command which operates a vast nationwide network of technical and flying schools, went overseas where he spent 10 months with the Eighth Air Force as an engineer gunner on a B-17.

He completed 30 missions, winning the Air Medal with 4 clusters, the ETO Ribbon with 3 battle stars.

After returning to the states, he was stationed at Bryan Army Air Field, Texas, an instrument instructors school of the AAF Central Flying Training Command which was his last duty station. Prior to entering the service he was a student.

What He Does For His Community Lives On and On."

## OPA IN FAIRYLAND

A remarkable statement has emanated from the head office OPA. The Price Administrator has announced that "cost absorption"—under which wholesalers and retail stores must absorb any increase in manufacturers' price—is the "cornerstone of price control." "Thus," as the New York Times states, "the retailer is forced to subsidize either the manufacturer or the consumer, according to how one looks at it. It is difficult to discover any principle upon which this can be justified as fair."

Discussing the position in which the pricing policy of OPA leaves retailers, the Times continues: "... Wartime earnings, before taxes, have increased less rapidly for incorporated retailers than in other industries. These wartime earnings were high because of larger sales, lower expense rates, fewer markdowns, and a decrease in the number of retailers. But these conditions are now likely to change rapidly. Ex-service men will open stores. The number of retailers will increase. Volume of sales is likely to be lower in relation to overhead expenses. The resumption of deliveries, advertising, wrapping credit and other services on a peacetime scale will also increase the cost of retailing for each individual transaction.

"Small retailers and ex-service men hoping to start new stores will be especially hard hit by the present cost-absorption policy."

The traditionally narrow margin of profit upon which the chain store operates will also be expected to carry its share of the burden of subsidizing the OPA's battle against inflation.

In the meantime, wages continue to soar with the official blessings of Washington.

The natural laws of supply and demand may be hard at times, but they make sense—and that is more than can be said of some man-made laws.

## CORRECT FOOD MAY PREVENT ANEMIA

Anemia is a condition in which the number of red blood cells or their hemoglobin content or both are below normal levels. Such a condition may develop either through loss or destruction of these blood elements, or through failure of their information.

Frequently this failure of formation is due to nutritional deficiency. Most cases of nutritional anemia are characterized by small cells of low hemoglobin content. In nutritional anemia the solution may be found in dietary reform. The production of normal blood cells is dependent directly or indirectly upon the dietary supply of at least some of the structural elements of the blood cells. As an example, iron has long been recognized as part of the hemoglobin of the red cell and must ultimately be derived from the diet.

Recent research indicates that emphasis should be placed on a completely adequate diet for the prevention of nutritional anemia. This is illustrated by a report of a test on a large number of young women living on self-chosen diets. Those consuming a diet adequate in all nutrients utilized iron efficiently. Others consuming just as much iron in their diets, but depending on an unbalanced diet, made a poor showing.

For many years milk has been regarded as being indispensable for adequate nutrition. In this connection the National Dairy Council states that milk has an important place in anti-anemia diets. With the exception of iron and copper, all of the many nutrients known to be involved in the prevention and control of anemia occur in milk in appreciable quantities.

## THIS IS THE COAL AGE

Peacetime use of atomic energy may be just around the corner, but even when that day arrives we should not underestimate the potentialities of existing resources that abound in this country. In coal alone we have a three-thousand-year supply, and competent industry to exploit it. The latter is as important as the coal itself.

Coal powers the bulk of our locomotives, supplies the energy for steel production, heats the majority of homes, and furnishes the chemicals for 200,000 useful products, including high octane gasoline, sulfur drugs, anesthetics, antiseptics, vitamins, aspirin, and insecticides.

Yes, the atom age may be just around the corner but we still live in the coal age. And probably the atom will need help from coal before its fullest benefits can be realized.

"Dere Sirs: Please send me my money back. After taking six cans of yore corn cnyrup my feet ain't no better than they wuz."—Exchange.

## THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts . . . . . Editor, Owner and Publisher  
Aaron Edgar . . . . . News Editor  
Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1919.

**NOTICE TO THE PUBLIC:** Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

## HUMAN JUDGEMENT STILL BEST WEAPON

In years to come there will be less excuse than ever for uncurbed fire waste in this country. Effective new ways of fighting fire have been developed during the war and were widely used in saving such famous naval vessels as the carriers Franklin, Bunker Hill, Saratoga, and Ticonderoga.

One of the many unique fog and foam methods developed by the Navy for wartime use was the perfection of a liquid foam, particularly effective against oil fires. Made from soybeans, fish scales and iron salts, it is nicknamed, "Navy bean soap."

Fire prevention authorities are the first to welcome innovations in fire fighting. However, regardless of the new devices that may be invented, they can never take the place of preventing a fire, and only human judgement can do that. Only human judgement can remove combustible materials to safe places; only human judgement can use caution in the use of matches, and in the construction details of homes, factories and schools; only human judgement can actually prevent fire—and that is the objective of the professional fire fighter.

So, while there is no excuse for a soaring annual fire bill and thousands of deaths by fire annually, these evils will be with us as long as the elements of human carelessness exists. Don't think that buying a fancy extinguisher eliminates the danger of fire on your property. The best course to follow is to eliminate the fire hazards and buy the fire extinguishers too!

## WHEN THE CHIPS ARE DOWN

The government has ordered all limits off any construction, including house building, as of October 15, despite the fears of OPA and other agencies that prices will skyrocket. This is in line with true American tradition. Agencies which controlled the nation's activities during the war are bound to develop a feeling that their service are indispensable in peacetime, and no matter when controls are released they can figure up a good "emergency" argument for continuing them.

As government throws off restraints, industry and individuals face the obligation of showing themselves capable of voluntary control over their own actions to prevent inflationary prices. The people now have a chance to prove that they are intelligent enough to conduct the affairs of this nation, as in the past, without government policing to prevent price gouging. It is probable that price increases in some cases will be necessary to meet increased cost of production. On the other hand, it is just as probable that mass production and distribution may in many cases hold prices at current levels or actually reduce them under the stimulus of competition.

The nation's leading retailers, including chain store systems in all lines of activity, will be a powerful brake on any tendency to unnecessarily inflate manufacturing costs. The consumer and the retailer can refuse to buy any article whose producers seek to take undue advantage of the demand for goods.

Aside from all this, when the chips are finally down it should be remembered that in the long run the authoritarian system which price control represents must be abandoned at any cost if representative government is to be preserved. We are indeed a fickle people if we let the stress of inflation destroy the free institutions of our Republic.

Their cars having collided, Jack and Pat were surveying the situation. Jack offered Pat a drink from his bottle. Pat drank and Jack returned the bottle to his pocket.

"Thank ye," said Pat. "But aren't ye going to have a bit of a nip yourself?"

"Aye," replied Jack, "but not until the police have been here."

They are slicing ham so thin nowadays that it only has one side.

## Canada Boosts Steel Production

(Above) Out of a hot sulphuric acid bath comes this steaming coil of "spaghetti." The 40 separate coils shown will be made into drills and punching instruments. (At right) A circular saw cuts through an 8-inch thick steel rod.

CANADA has recently built two of the largest blast furnaces in the British Empire. Notable expansion has occurred in connection with alloy steels and steel plates. The production capacity and output of alloy steels has been multiplied six times, making Canada practically independent in providing the types used in guns, armor plate and machine tools. Prior to the war, the Dominion Foundries and Steel, Limited, was the only maker of steel plates in Canada. In April, 1941, the new 112-inch mill of the Steel Company of Canada, Limited, came into operation just in time to provide much-needed plates for the shipbuilding program and for tanks, guns and carriers. In March, 1942, the Dominion Steel and Coal Corporation, Limited, reopened its plate mill in Nova Scotia, idle since the war of 1914-18. Output of steel plates is now nearly six times that of 1935. In addition to these larger con-

cerns, there are 33 other steel makers which use electric or open-hearth furnaces to produce steel from pig-iron and scrap. In all, there are 135 steel furnaces in Canada, including 50 open-hearth units, 82 electric units and 3 converters.

Canada's steel production in 1944 will amount to about 3,000,000 tons or nearly double the best pre-war tonnage. At the beginning of 1940 the rated capacity of steel furnaces in the Dominion was 2,300,000 net tons, but new installations have raised this potential to 3,600,000 tons as at the end of September, 1944. Canada now is the fourth greatest steel producer among the United Nations, exceeded only by the United States, Russia and Great Britain.

## Esquire Tells The Life Story Of David Crockett, Hero of The Alamo

The man who achieved immortality as Texas' hero of the Alamo—David Crockett, is much more than a legend when you look into the story of his life and his principles. And Kurt Steel reveals the real Davy Crockett in his article in the November Esquire. . . . Davy Crockett is an American epic and his life, though filled with failures, when measured by lasting human standards, was actually a lustrous success.

Davy Crockett, pioneer, Indian fighter, bear hunter, teller of tall tales, martyr of the Alamo—had politics thrust on him while he was still in his twenties. He was appointed one of the magistrates of a small pioneer Tennessee settlement. From there he was elected to the Tennessee legislature and re-elected for a second term. It was during this term that Crockett was compelled by his rawhide sense of honesty to vote against the man who had been his greatest hero, Andrew Jackson, whose name was already in nomination for the presidency was also put up party hacks for a seat in the Senate against a Senator Williams, popular candidate for re-election. Since national senators were elected by the members of the state legislature, Jackson's name, as the machine intended, easily defeated Williams. But Crockett, convinced that Williams was an able senator, voted against Old Hickory on this local issue. Jackson men threatened reprisal, but Crockett's independence pleased the voters in his district and in 1827 they elected him to Congress. As a Congressman elected on

Jackson's ticket from Jackson's own state, Davy started his Washington career trying honestly to support the President's policies. But his own rugged independence was too much for him and little by little Davy's differences with his one-time hero grew painfully acute. In 1835 Davy said good-bye to Congress with a sentence that typifies his real character. Leaving the capitol for the last time, Crockett squared his shoulders and said proudly, "I wear no man's collar." He never did.

Crockett's discouragement in Congress left him with an inevitable decision. He picked up his rifle and headed west. In Texas he found the country he sought and planned to settle a 4,000-acre homestead on the Red River and build his fortunes anew. There was seething excitement in San Antonio when Crockett arrived in January, 1836. Settlers had proclaimed the separate Republic of Texas and Santa Ana was assembling his army for open war.

Barely two months later, at the age of 49, he was killed defending the Alamo when Santa Ana's 6,000 soldiers closed murderously in on a garrison of 183 riflemen. But Davy's eagerness to serve the new Republic was not futile, for the defense of the Alamo roused Texas to a new pitch of rebellion. By the end of April Santa Ana's Army was destroyed, the dictator a prisoner and the independence of Texas assured.

For twenty years Crockett "Almanacs" were published annually from one end of the country

to the other. Davy became the first of the dime novel heroes, and by the time of the Civil War his saga had reached epic proportions. But, concludes Steel in Esquire, none of these colorful anecdotes typifies the real character of Davy Crockett as did that simple account of his farewell to Washington.

## Reception Centers For Farm Laborers Now In Operation

COLLEGE STATION — Practically all reception centers operated for the benefit of migratory farm laborers in Texas now are complete, and a number of them are in operation, the farm labor office of the A. and M. College Extension Service announced.

As workers pass immigration stations or other designated points in South Texas they are given copies of a booklet printed in both Spanish and English "Reception Centers for Migratory Farm Workers" which describe the centers. Usually they are located near strategic highways and offer parking space, sanitary facilities including showers and toilets. In some instances gas cook stoves are available for workers. Usually the centers are near cafes and grocery stores.

Currently 15,000 to 20,000 migratory workers are being placed each week by Texas county agricultural agents, according to C. Hohn, state farm labor supervisor.

Even though the cotton crop is late, pickers or pullers now are needed in practically every part of the state. Pickers are in demand in the Blacklands and Grand Prairies and in the Trans-Pecos area, including Pecos, Ward, and Reeves counties. Cotton in the Rolling

## Legal Notice

CITATION BY PUBLICATION  
THE STATE OF TEXAS

To V. Harvey, and the unknown heirs of V. Harvey, deceased, Greeting:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M., of the first Monday after the expiration of 42 days from the date of issuance of this citation, the same being Monday the 5th day of November, A. D. 1945, at or before 10 o'clock A. M., before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas.

Said plaintiff's petition was filed on the 19th day of September, 1945. The file number of said suit being No. 4400. The names of the parties in said suit are:

J. C. Borden and M. F. Billingsley, as Plaintiff's and V. Harvey and the unknown heirs of V. Harvey, deceased, as Defendants.

The nature of said suit being substantially as follows, to-wit:

Being an action in trespass to try title and damages, of and concerning the West One-half (W 1/2), of Lot Number Two (2), in Block Number One Hundred Fifty (150), of the Munday Development Company Addition to the town of Munday, in Knox County, Texas.

Issued this the 19th day of September, 1945. Given under my hand and seal of said Court, at office in Benjamin, Texas, this the 19th day of September, A. D. 1945.

(Seal) N. S. KILGORE, Clerk, 13-4tc Court Knox County, Tex.

Plains is opening, and pullers are needed as far west and south as Martin, Howard, and Crosby counties.

Centers for migratory workers are located as far South as Corpus Christi, as far East as Wharton and Navasota, as far West as San Angelo and as far North as Shamrock and Panhandle.

Some unpublished items from the Archives Collection of the University of Texas library are contained in the spring issue of the Library Chronicle, which has just been published. A letter from James F. and Emily Perry to their son, Stephen F. Perry, dated April 27, 1845, is printed in the Chronicle.

# Goree News Items

Mrs. E. B. Crites and Mrs. Lloyd Stewart received a call last week from Amherst that their sister, Mrs. Elmo Parks, was very low in a hospital there. They left soon after receiving the call and was at the bedside of their sister when she passed away on Sunday, October 6.

Mr. and Mrs. George Webber were visitors in Mineral Wells last week, where they attended a family gathering in the home of Mr. Webber's sister and family. Mr. and Mrs. Burl Temple, honoring their son, Sgt. Cecil Temple, who recently returned from the European Theater after more than three years of service.

Mr. and Mrs. Earl Coffman of Lubbock, Mrs. Etta Tillotson of Abilene and Mrs. Forrest Daniell were visitors with Mrs. Tillotson's daughter and family, Mr. and Mrs. John Downing of Magdalena, N. M., last week.

ing the reunion were I. S. Cooksey of Lawrence, Miss., Mrs. R. W. Harris and daughters, Mrs. Roy Striker and Mrs. Jack McGinnis, all of Lubbock.

Seaman Billy Joe Cunningham of San Diego, Calif., came in Sunday for a 5-day visit with his father and with other relatives.

Mrs. A. H. King of Throckmorton and Elmo Parks and son, Sid, and Mrs. Elizabeth Gregory of Dimmitt were visitors with Mrs. King's sisters, Mrs. E. B. Crites and Mrs. Lloyd Stewart, and with Mr. Park's sister and husband, Dr. and Mrs. E. P. Heard. They also visited Mrs. Gregory's aunt and uncle, Mr. and Mrs. Henry Griffin, spending several days here last week.

## LOCALS

Mr. and Mrs. Dewey H. Davis of Colorado City were visitors here last Monday.

Miss Theresia Andrae of Abilene spent the week end in the home of her parents, Mr. and Mrs. Albert Andrae of Rhineland.

Mr. and Mrs. J. M. Hoge of Throckmorton were visitors here last Sunday.

Mr. and Mrs. Bruce Burnett of Benjamin were business visitors here last Saturday.

Rev. Howard Hollowell, pastor of the Methodist Church at Spur, was here Monday night to attend the district young people's rally. Rev. Hollowell, who conducted two meetings in Munday in recent years, visited with several friends Monday afternoon, prior to the rally.

Mrs. J. O. Bowden, Mrs. J. E. Reeves, Mrs. C. N. Smith and Mrs. D. C. Swindle attended the meeting of the Haskell Baptist Association of Woman's Missionary Society at the Baptist Church in Knox City last week.

Mrs. D. C. Eiland was a business visitor in Abilene the first of this week.

Lloyd Hendrix, Jr., who is stationed at Camp Bowie, spent the week end with relatives and friends here.

Mr. and Mrs. M. D. McGaughey and Mrs. Freddie Glover of Benjamin were business visitors here last Monday.

B. Hassan of Hamlin visited with relatives and friends here over the week end.

Mr. and Mrs. Charles Paul of Knox City were here last Thursday, visiting with friends and attending to business matters.

W. R. Moore was a business visitor in Menard, Texas, over the week end.

Mr. and Mrs. Foy Bain Barnett of Dallas, Mr. and Mrs. Fay Easley of Anson, Sgt. and Mrs. Foy Hogan Easley of Fresno, Calif., and Mr. and Mrs. S. T. Easley of Munday and Mrs. Lonny Triplett were visitors with Mrs. W. O. Barnett last week.

Mrs. Maud Jones has moved to Wichita Falls and will make that city her home.

Mr. and Mrs. Cliff Moorman have returned to their home in Goree. Mr. Moorman spent three years in the service with federal communications. He will be in business in Goree.

Mr. and Mrs. R. J. Melton of Weatherford were week end visitors with Mr. Melton's parents and other relatives.

Sgt. Joe Snyder, who spent three years with the medical corps in the South Pacific, was a visitor with Mr. and Mrs. J. W. Fowler last week. He will receive his discharge soon.

W. C. Stephens, who spent 18 months in the European Theater and has been hospitalized for more than a year, came in last week for a visit with his parents, Mr. and Mrs. W. H. Stephens. He has his discharge now.

Miss Annie Mae Jones of Wichita Falls was here last week for a family gathering in the home of her grandparents, Mr. and Mrs. H. Cooksey. The gathering was in honor of two grandsons, one of whom had just returned from overseas duty. Other relatives attend-

## Records Show Building Slump In Other War

Home building, sharply curtailed in World War I as in this war, showed a pronounced recovery in the first post-Armistice year but suffered a slump in 1920 as a result of an inflationary rise in construction costs.

The uptrend was resumed in 1921 when costs, particularly those of building materials, were reduced substantially and from then on building boomed to reach a total of 937,000 non-farm dwelling units started in 1925, well over double the number of homes built in 1914 and nearly four times the total in 1920.

**Explains Government Attitude**

These facts are shown in a study of data compiled by the Federal Home Loan Bank Administration. They do much to explain the present absorption of Government circles, and particularly the Office of Price Administration, in ways and means of keeping down the costs of building materials and services without impairing incentive and interfering with the volume production needed in this field to encourage a building boom.

The World War I record, as compiled by the Federal Home Loan Bank Administration, shows that home building fell more than 50 per cent from 1914 to 1918 as a result of war production needs in that conflict. Though construction costs had risen more than 50 per cent over 1914 by the time of the Armistice, home building picked up rapidly as soon as hostilities ceased.

In 1919 a total of 405,000 non-farm dwelling units were started, more than double the 174,000 built in 1918. Increasing building activity, however, was accompanied by a further sharp rise in construction costs. The Federal Home Loan Bank Administration figures show that the cost of constructing frame residences rose to 79 percent over pre-war in 1919 and advanced to 132 percent over pre-war in 1920. At the same time, according to these figures, wholesale building material prices, which had risen to 87 percent above pre-war by the time of the Armistice, reached 119 percent above pre-war in 1919 and advanced to 185 percent above pre-war in 1920.

**Boom After Price Reduction**

These rising costs were reflected in the construction of only 247,000 non-farm dwelling units in 1920, 60 percent of the total of the previous year. When prices were reduced in 1921—construction costs as a whole declining by nearly 20 per cent from 1920 and wholesale building material prices falling by more than a third—large-scale building was resumed and picked up momentum from 1921 on.

Mrs. Annie Newsom of North Hollywood, Calif., a former resident of Munday, is visiting with relatives and friends here this week.

## Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel secretions, soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood rosette by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to save your money back. (Adv.)

## Root Rot Can Be Controlled By Crop Rotation

DALLAS. — Root Rot, which destroyed 20 per cent or more of the 1945 cotton crop in some leading Texas blackland counties, can be controlled by steps which also increase soil fertility, C. B. Spencer, agricultural director, Texas Cottonseed Crushers Association, said today in a statement released by the Cotton Production Committee of Texas.

"Experiments and experience prove that root rot can be controlled by using legumes in a crop rotation and by putting back into the soil such crop residues as green cotton and corn stalks, sorghum and small grain stubble," Spencer said.

"Unfortunately, too few farmers know this. When it is generally realized that growing and turning under legumes will reduce root rot damage 20 per cent or more, on the average, the use of legumes is expected to increase greatly."

Hairy vetch, Austrian winter peas, Hubam and other sweet clovers are the legumes best adapted for use in controlling root rot.

Only 3.8 per cent root rot damage resulted in 1943-44 at the Temple Experiment Station when cotton on Houston black clay followed Hubam clover that had been harvested for seed and the straw returned to the land, and the cotton produced 306 pounds of lint per acre. Root rot damage was 38.6 per cent when cotton followed corn, and the yield was 200 pounds per acre. Cotton planted continuously showed 63.6 per cent root rot damage.

In addition to the value in controlling root rot and improving the

## GETS DISCHARGE

Capt. Hal Pendleton, who served with the air forces overseas for several months, received his discharge last week. He and Mrs. Pendleton and daughter were here over the week end to visit with Hal's parents, Mr. and Mrs. H. A. Pendleton.

Lt. and Mrs. Bill Billingsley and little son, Gary, of Walla Walla, Wash., spent several days here last week with the air forces here. Mr. and Mrs. M. F. Billingsley, Bill left Monday on return to his air base, while his wife and son remained here for a longer visit.

J. A. Caughran was a visitor in Fort Worth and Dallas over the week end.

We still have a few more baby chicks.

## Munday Sanitary Hatchery

Carl George, Mgr. Munday, Texas

Yes, he does ride cheap!

Riding the rods or running a business, it's easy enough when you don't have to pay the freight. You simply get a free ride at somebody else's expense.

Maybe you run a store or service station or dress shop. Would you like to have a next-door competitor who has little or no rent, or taxes, or interest to pay, and who is kept in business partly by your tax money?

Yet this is what happens with government and political electric power systems. They ride free, contribute no federal taxes; often get your money from the public treasury at little or no interest and make up losses out of other departmental tax funds from pocket of taxpayers.

Meanwhile, on the average, America's business-managed government regulated electric companies help the people turn in taxes—about 25c out of every dollar collected to help support our government. And these companies—owned and operated by millions of folks like you—meet through proper management all other obligations without benefit of special government privileges and subsidies.

Today, these tax-paying, self-supporting companies supply over 80% of the tremendous amount of electric power produced in America . . . more than all the enemy countries put together ever had . . . and enough to have met the gigantic demands of war and still take care of all civilian needs without rationing.

Better yet—at a time when most things cost more—business-managed companies still deliver electricity at low pre-war prices. This record is your assurance that cheap, plentiful, dependable electric power will be yours in the post-war era ahead.

## Benjamin Club Has Its Regular Meet October 12

The Benjamin Home Demonstration Club met on October 12 in the assembly room. The club was called to order by the president, and roll call was answered by five members giving their favorite beverage.

The club voted to have a Halloween party and each member is to bring a pie. The hostesses will furnish the drinks. A motion was made and carried stating: Any responsible person can use club cookers on Saturdays or on any day that they are not being used by the school lunch room, but they must be returned immediately.

The program was turned over to the hostess, Mrs. Jim Pults, who talked on beverages. Mrs. J. W. Melton gave a very interesting talk on beverages for children, both summer and winter types, and Mrs. Pults gave a talk on beverages for adults and ways of saving tea, coffee and sugar.

On October 26, the club will begin the new club year with Miss King demonstrating how to make marshmallows. New club members are welcome and old ones are urged to be present. New officers for the club year will be elected.

The Halloween party will be held at the assembly room on Oct. 27. Members are urged to come and bring the family, and don't forget the pie and suggestions for games to be played.

## Methodist WSCS Meets Monday At Local Church

The Women's Society of Christian Service met on Monday, October 15, at the Methodist Church. The meeting was opened by singing, "Heavenly Sunshine," accompanied by Mrs. Don Davidson at the piano.

Members continued their study of the mission book, "The Cross Over Africa." Mrs. John Rice reviewed the second chapter, and Mrs. J. W. Roberts gave a short review of "This is Africa." The group was dismissed by prayer by Mrs. G. R. Elland.

Present were Meses. Lee Haymes, Joe B. Roberts, Layne Womble, H. A. Pendleton, G. R. Elland, John Rice, J. W. Roberts, M. F. Billingsley, S. E. McStay, W. T. Ford, Don Davidson, W. R. Moore and Mrs. Roden.

## Hefner H. D. Club Meets In Home of Mrs. Faris Mobley

The Hefner Home Demonstration Club ladies met on Tuesday, October 2, in the home of Mrs. Faris Mobley. A short business session was held, with the president, Mrs. Curtis Seale, in charge.

Miss Lucile King, home demonstration agent, gave a demonstration on making marshmallows. The club ladies stated they were the best marshmallows they had ever eaten.

Thirteen members and two new members were present. The meeting adjourned to meet with Mrs. Dibril Jones for the second meeting in October.

IT PAYS TO ADVERTISE

## Regional Meeting Of Delta Kappa Gamma Announced

Miss Edna Graham, mathematic professor at West Texas State College, Canyon, will be guest speaker at the Delta Kappa Gamma regional meeting on Saturday, October 20, at the Wichita Falls Country Club. The subject of her address is, "Red and Green Lights for Delta Kappa Gamma," which will include these points:

(1) Attitudes toward equal rights for women before Congress, (2) Attitudes toward returning veterans, (3) maintaining standards in the teaching profession, and (4) other "Stop and go" signals, including scholarship and philosophy.

Miss Graham has been for several years a member of the state committee on Delta Kappa Gamma scholarships. The scholarship fund at West Texas State College was named for her.

The program will begin at 3 o'clock with registration, and will continue until 2:30 in the afternoon.

## Bridal Tea Is Given To Honor Miss Doris Howell

Miss Doris Howell, daughter of Mr. and Mrs. R. H. Howell, was honored with a lovely bridal tea on Friday evening, October 12, in the home of Mrs. E. H. Nelson. Hostesses for the occasion were Mrs. Nelson, Mrs. M. H. Reeves, Mrs. Grady Beck, Mrs. J. J. Kell, Mrs. C. R. Parker, Mrs. John Bowden, Mrs. B. L. Blacklock and Mrs. Rody Griffith.

Fall colors were carried out as decorations for the entertaining rooms. The large table was covered with a lace cloth with underlining of gold satin, and bronze chrysanthemums formed the centerpiece.

In the receiving line to greet the guests were the honoree, her mother, Mrs. R. H. Howell, Mrs. Rex Howell and Mrs. Nelson.

Miss Evelyn Reeves furnished the music, and Mrs. Chan Hughes read several poems by Edgar A. Guest. Refreshments of angel cake squares, mints, hot tea, and salted pecans were served.

Around 50 guests registered. The bride-to-be received many beautiful and useful gifts, presented by the guests, while many others were sent by friends.

## Munday Study Club Meets Friday In The Club Rooms

The Munday Study Club held its second program of the year on Friday afternoon, October 12, when members met at the club house.

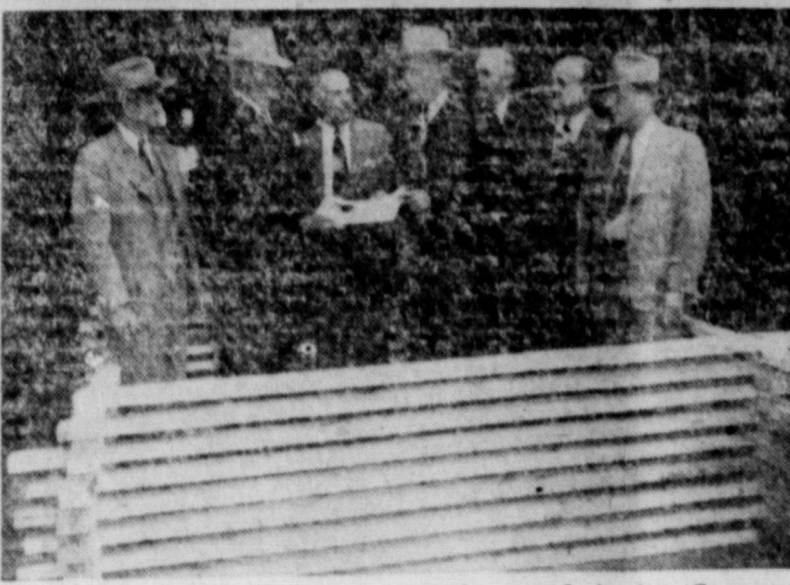

The topic of the program was "Inheritance from Hitler," which was discussed by the director, Mrs. G. R. Elland. Mrs. J. E. Reeves gave an interesting account of Hitler's life.

A phonographic rendition of "Tales From Vienna Woods" by Strauss, was enjoyed.

After this very instructive program, a business meeting was held, at which time plans for the silver anniversary of the club were discussed.

A bee travels over 44,000 miles in gathering a pound of honey.

## Governor Sets October 21-27 As Texas Forestry Week

Fenced in by his Texan's share of Texas-made lumber, Governor Coke Stevenson hands R. M. Eagle, president of the Texas Lumber Manufacturers Association, Lufkin, a proclamation he has just signed setting October 21 as Texas Forestry Week. Looking on are, left to right: N. D. Canterbury, president, Texas Forestry Association; Eagle; P. W. Sternenberg, past president of the Lumberman's Association of Texas; Governor Stevenson; Bronson Morgan, president, East Texas Chamber of Commerce; A. E. Cudlipp, secretary, Texas Lumber Manufacturers Association; and W. E. White, director, Texas Forest Service, A. & M. College. The pile of lumber shown represents the average annual per capita consumption in Texas, about 220 board feet.

## Truscott H. D. Club Meets October 11 In Baptist Church

A demonstration on "Cleaning, blocking, and remodeling felt hats," was given by Miss Lucile King, home demonstration agent, when the Truscott club met on October 11 in the Baptist Church basement. Each member took part in the demonstration, and some smart and stylish hats were made from old ones.

Miss King also gave instructions for fire proofing clothing, such as men's clothing, cotton pajamas, etc. Mrs. J. R. Brown, club president, was in charge of the brief business session. Members voted to let each hostess decide whether meetings should be in the church basement or in her home.

Refreshments were served to Miss King, eight members, and a visitor, Mrs. Lee Blevins.

The club will meet again Oct. 25th for the purpose of electing officers.

## Baptist W. M. S. Has Meeting In Hannah Home

Members of the Baptist Woman's Missionary Society met for their monthly business and social meeting recently in the home of Mrs. Leland Hannah. The home was very beautifully decorated with cut flowers.

Mrs. W. H. Albertson gave the scripture reading, which was the 37th Psalm. This was followed by prayer by Mrs. Clyde Nelson.

Mrs. D. C. Swindle, president, held a brief business meeting, and Mrs. Hannah, vice president, made a short talk.

The next meeting will be held in the home of Mrs. M. H. Reeves on November 19, at 3 p.m.

Miss Elmo Lowe, who is attending Texas Tech at Lubbock, spent the week end with her parents, Mr. and Mrs. E. E. Lowe.

Bobby Broach, a student in Texas Tech, Lubbock, spent the week end with his parents, Mr. and Mrs. Fred Broach.

## Activities of Colored People

The lunch room of Dunbar School is now open and will be in full swing in a few days. Canned foods are being donated to the school by the Future Farmers and patrons of the school.

Our first P.T.A. meeting was held Wednesday night, October 17. We are expecting to have a better and more successful association this school term.

Drives for the lunch room are now under way. Mrs. Alene Johnson will gladly receive any donations or personal checks for this cause. We are taking this method to thank the white Methodist Missionary Association for their weekly donation to help support the lunch room.

The drive will take place Monday night at 7:30 at the school, and we are asking the cooperation of all the colored people, as well as the white people. A short program will be rendered, and Mrs. Scott, the president of the P.T.A., will be the mistress of ceremonies.

Dunbar School is an accredited rural school and has been awarded a temporary certificate for the year 1944-45. Let us strive to maintain this standard in the years to come.

## GETS DISCHARGE

Cecil Fitzgerald, who has been serving in the Navy and stationed at San Diego, Calif., came in the latter part of last week with his discharge. He is visiting his wife and children and with friends here.

**Lydia E. Pinkham's VEGETABLE COMPOUND**

## Mincemeat From Summer Pears Is Rare Delicacy

Texas homemakers who have never made summer mincemeat from late pears, have a treat in store for them, says Miss Lucile King, County home demonstration agent.

The recipe calls for some sweetening, and either honey or corn-syrup can be substituted for sugar. Corn syrup probably would be preferable, Miss King says.

Ripe pears should be used in the mincemeat. If homemakers have hard, green pears, these may be wrapped in newspaper and stored in a cool, dark place to mellow. A cool place is especially important, Miss King says otherwise the pears may spoil quickly. Ventilated cellars or pantries would be excellent storage places.

Here is the recipe: 7½ pounds pears (peeled or cored); 1 lemon, - apple (peel and all); 1 cup grape juice or other fruit juice (not too sweet); 1 tablespoon each ground cinnamon, cloves and allspice; 1 pound seedless raisins; 6 cups sugar or 3 cups honey and 1 cup sugar or 6 cups corn syrup; 1 cup vinegar; and 1 teaspoon salt.

Grind pears, lemon and apple. Mix with all other ingredients and boil for two hours. Pack into hot jars. Seal while hot.

Another pear recipe Miss King recommends is for pear butter.

Peel and core one gallon of late ripe pears; put in kettle and add two cups water; boil slowly; when tender put through a ricer or

## NOTICE OF SELECTION OF COUNTY SERVICE OFFICER:

NOTICE IS HEREBY GIVEN, that the Commissioner's Court of Knox County, Texas, will, at their January Term A. D. 1946, select an officer to contract with, for a period of two years, a COUNTY SERVICE OFFICER, to handle the affairs of the returning service men and women.

ONLY such applicants will be considered, that have passed the required qualification tests as regulated by the Veterans' Service Officer, as provided by SENATE BILL No. 44, as passed by the 49th Legislature. THE COMMISSIONER'S COURT OF KNOX COUNTY, TEXAS.

J. C. Patterson, County Judge, Knox County, Texas

colander. To every four cups of pulp add two cups of sugar (1 cup honey and ½ cup sugar may be used or 2½ cups corn syrup). Place on stove again and cook slowly until very thick. Stir to prevent sticking. A few minutes before removing add juice of one lemon. Pack into hot sterilized jars. Leave no head space. Have lids and rubbers hot. Seal.

Miss Mildred Stengel of Fort Worth spent the week end with her father, Chas. Stengel, and other relatives and friends.

Mrs. A. B. Warren, Lewis Warren, and Mrs. Joe Duke and daughter, Jo Ann, spent last Sunday in Haskell, visiting in the home of Mr. and Mrs. Ed Hester.

## Blitspray

### The new word in Lice Control

With BLITSPRAY you simply spray the chickens after they have gone to roost. This entirely new kind of product first drives the lice to the surface of the feathers and then it kills them. It is less expensive than other products of that type.

BLITSPRAY has everything you could want for a poultry louse product. It is very effective, and convenient, and economical. It is good on livestock too.

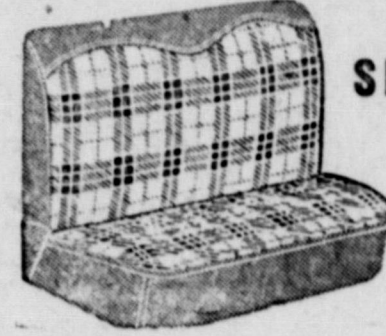

Price: Pint 75c; and Quarts \$1.25  
BLITSPRAY is made by Geo. H. Lee & Co.

# At The Churches

**BENJAMIN METHODIST CHURCH**  
**J. P. Patterson, Pastor**  
**CALENDAR**  
 Preaching Second and Fourth Sundays at 11:00 a. m.  
 Church school 10:00 a. m. each Sunday.

**METHODIST CHURCH**  
 Don R. Davidson, Pastor.

10:00 Church School: A place and a welcome for all.  
 11:00 Morning Worship: The greatest opportunity the church has to minister to you. A service in which you have a part.

6:00 Methodist Youth fellowship. A place for training in Christian living for our Youth.

6:45 Evening Preaching Service: An informal service of singing and helpful meditation directed by the pastor's message.

You are always welcome to any of our services. We do not expect anything in our services to be acceptable to everybody but we do believe every service has enough acceptable help to be a blessing to your spiritual life. Your presence is always a blessing to us.

Beginning with the winter term at the University of Texas Nov. 1, students in the School of Law will be permitted only ten cuts per semester, according to a recent ruling approved by the Faculty Council.

## HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

Preaching services were held Saturday and Sunday at the Friendship Church. Mrs. R. Guthrie of Anson came with her husband, Rev. Guthrie, on this occasion.

Mr. and Mrs. Hamp Jones and Dibriel Jones attended the golden wedding observance for Mr. and Mrs. E. W. Norris of Goree last Sunday.

Cpl. Lloyd M. Hendrix of Camp Bowie spent the week end with his uncle, Marion Jones, and family.

Dalton Jones spent the week end with home folks. He is attending Texas Tech at Lubbock.

Mrs. L. D. McElhannon of Goree spent the week end with her daughter, Mrs. A. L. Haskin.

All friends of Mrs. Epps Harris will regret to hear of her death, which occurred a few days ago at Harlingen, Texas, where her husband and children live. She made her home near Hefner for a long time.

Mr. and Mrs. Guy Trimble and children of California have returned from visiting relatives and old friends here. They also visited her mother, Mrs. Bud Owen of Seymour.

Mrs. Roy Jones of Wichita Falls and her nephew, Harding Cartwright, who returned from overseas, visited Mrs. Ed Jones and other relatives here a few days ago.

ago. Harding was reared at Hefner before enlisting.

The women's home demonstration club met at the home of Mrs. D. G. Jones on October 16, when a demonstration on making marshmallows was given by the home demonstration agent.

Since the weather has cleared up cotton pickers are busy gathering the crops of this community. Farmers are sowing wheat and oats, since we have such a fine season. The cotton gin is kept quite busy now.

## Clyde Hendrix Is Given Discharge

Sheppard Field, Texas.—Corporal Clyde R. Hendrix, Jr., son of Mr. and Mrs. C. R. Hendrix, Munday, Texas, has recently reported to this separation center from the Fifth Ferrying Group of the Ferrying Division, ATC, Love Field, Dallas, Texas, and, having been honorably separated from the AAF, will return to civilian life after active duty with the armed forces in World War II.

Cpl. Hendrix entered the service in October of 1942. He received his basic training at Sheppard Field, Texas. He went overseas as an Airplane Mechanic on B-24 Liberator in 20 months in the European Theater. Cpl. Hendrix wears the Distinguished Unit Badge, the EAME Theater Ribbon with 6 battle stars.

Before entering the service, Cpl. Hendrix was a farmer.

For quick results, use a Munday Times classified ad.

## To the People of this Community

Leave it to the nation's school children to be on top of the ball when it comes to sizing up the war financing situation. From Pearl Harbor to V-J Day they dedicated each purchase and sale of war bonds to fighting equipment.

Then the Japs quit. Schools at War instantly became Schools For Peace. The theme shifted from "Zack the Attack" to "Speed His Recovery." The new goal was set at 35,000 hospital beds, including a bed, wheel chair, X-Ray machine and surgical instruments.

Groupings could well listen to one of the millions of youngsters who are taking part in the Victory Loan. Even without a word from the young volunteer, you have one of the main reasons for buying extra Victory Bonds—the future of the "salesman" who may be your own son or daughter. Your war bonds have just helped to defeat the Nazis and Japs who would have educated your children for death. Your extra Victory Bonds will assure a brighter life for tomorrow's citizens.

THE EDITOR

**Freedom**  
 By GEORGE S. BENSON  
 President of Harding College  
 Searcy, Arkansas

**Looking Ahead**

THE IDEA that certain rights are everybody's rights, and that no man can rightly deprive another man of them, is one for which the world is indebted to Christianity. Obedience to Christ is voluntary or it is not obedience at all and, being an everyday thing, Christianity lives and grows best in surroundings of personal liberty.

Opposing dictatorship, resisting infringement by a few upon the liberties of many, is a reverent act of fidelity to the source of all freedom. No government is perfect; no economic system is perfect. For that matter, no church is perfect. All are subject, more or less, to leadership by imperfect people. Nevertheless some principles are right and worthy of vigorous defense.

Jealous SAID Harry Emerson Truitt: "One of the greatest hours in history struck when mankind ran into the idea that all the people should unite in making laws, which then all the people should obey. Behind our pitifully fallible experiments with representative government stands the ideal worth everything our fathers gave for it and all that we can give—the democratic state."

One-man governments traditionally become jealous of their subjects' loyalty to God; covetous too, perhaps, of their free-will offerings, large or small. Rarely do totalitarian states begin at the church when they start

cutting off people's liberties. They get around to it in the long run, however. There are about enough exceptions on record to prove the rule.

Regulate THINKING usually start their trespasses on freedom by presuming to say who shall engage in trade. It is the natural way to commence. Never do they find a large class in commercial pursuits, so they can begin grabbing power without antagonizing a majority. The next big strategy is to dominate the news. By this method a dictator can make his people think what he pleases.

With buying and selling pinched under government's heel, one emergency follows another, accidentally or by design; either way serves the purpose. Consumers, the class most hurt by government in business, never learn the truth if press and radio are under control. Selfish rulers snatch away comforts and dole out confusion and suspicion, the chains of serfdom.

Traditionally tyrants work this way; it has happened all along through history. With business confiscated and news agencies seized, the people are poisoned with sinful malice. Americans who value their religious liberty rightly defend representative government, free enterprise, free speech and free press. They can fight on the front line and win, or wait to fight in the last trench and lose.

## Texas And Her Annexation

By Dr. E. C. Barker, Professor of American History, The University of Texas

(The first of a series of articles on the Texas Centennial of Statehood. Next week, the international aspects of the annexation of Texas will be discussed.)

Through the precise date at which the Republic of Texas was merged with the United States is of no practical importance, it is a topic of intermittent popular discussion and antiquarian interest. Puzzelement arises from the fact that the process of annexation is confused with the dramatic ceremony that accompanied the transition of the government from republic to state.

Briefly, the Congress of the United States passed the annexation resolution on March 31, 1845. President Tyler approved it and instructed Andrew Jackson Donelson, American minister in Texas, to present it to the Texan authorities and urge its prompt acceptance.

President Anson Jones called a special session of the Texas Congress to meet in June and a con-

vention of duly elected delegates to assemble at Austin on 4th of July. Both Congress and convention formally accepted the terms offered by the United States, and the convention proceeded to frame the first state constitution.

The constitution was ratified by popular vote in October, and was accepted by the Congress of the United States on December 29, 1845. By this act Texas became the 28th state of the Union.

Following the admission of Texas, it was necessary for the people to elect state officers. This being done, the legislature assembled on February 16, and on February 19, 1845, President Jones, in an impressive ceremony, delivered the government to Governor J. Pickney Henderson and declared, "The Republic of Texas is no more." Calling attention to the happy merging of the two republics, not by violence and disorder, but by the deliberate and free choice of its citizens, he closed his speech with an eloquent peroration.

"The Lone Star State of Texas," he said, "which ten years since arose amid clouds over fields of carnage, and obscurely shone for a while, has culminated, and following an inscrutable destiny has passed on and become forever in that glorious constellation which all freemen and lovers of freedom in the world most reverence and adore—the American Union.

"Blending its ray with its sister states, long may it continue to shine, and may a gracious Heaven smile upon the consummation of the wishes of the republics now joined in one. May the Union be perpetual and may it be the means of conferring benefit and blessings upon the people of all the states, in my ardent prayer."

As he ended, the Lone Star flag was lowered and the flag of the United States took its place.

### TELEVISION PLANNED

Airplanes cruising constantly six miles in the air will provide nationwide television and FM radio programs for even the remotest rural sections under the recently announced system of Stratovision developed by Westinghouse and The Glen L. Martin Company.

## Unit Citation Awarded Grandson Of A. B. Forrests

Nelson Forrest, a grandson of Mr. and Mrs. A. B. Forrest of Munday, was a member of the 569th Signal Co., 69th Infantry Division, to be awarded the unit citation for performances in the European theater. The citation read as follows:

569th Signal Company, 69th Infantry Division, United States Army, for superior performance of duty in the accomplishment of exceptionally difficult tasks from 13 December 1944 to 6 May 1945, in the United Kingdom, France, Belgium and Germany.

Throughout the division's great stride across Germany, it was never without adequate means of communication. In twenty-one days, when the Command Post made thirteen moves, the 569th Signal Company assumed numerous burdens, working day and night, installing and maintaining communication in all echelons. When over seventy miles separated regimental and divisional headquarters, the 569th Signal Company's radio teams insured vitally needed contact between these headquarters, under enemy fire and the most adverse road and weather conditions. The performance of the 569th Signal Company included the highly skillful operation of Message Center, Construction Section, and Division Signal Supply and Maintenance Sections. Their combined efforts were of the utmost importance in the success of all combat missions. The cooperation, skill, and devotion to duty of the men of the

569th Signal Company reflects the highest credit upon that organization and the armed forces of the United States.

### BUILDING PLANS AVAILABLE

COLLEGE STATION.—County governments expecting to build new courthouses or agricultural buildings may wish to consult a new publication recently issued by the U. S. Department of Agriculture. It is entitled "Agricultural Buildings for Counties," and includes plans for offices, assembly rooms, and club rooms. County Extension agents can obtain copies for local use through their district agents at the A. and M. College Extension Service.

Mrs. T. A. McCarty of San Antonio is here for a visit with her daughter, Mrs. Sebern Jones.

Lloyd L. Cooke, who resides on route two, Munday, was honorably discharged from the service last week, officials at the Fort Lewis, Wash., separation center have announced.

Mrs. S. P. Reed and Mrs. Blanch Hutton of Wichita Falls visited in the home of Mr. and Mrs. Kirby Fitzgerald over the week end.

Munday, Texas

Friday, Oct. 19th:

## Washington News Letter

By Congressman Ed Gossett

Washington, D. C., Oct. 12—For the first time in some 16 years the House of Representatives this week passed a bill reducing taxes. Under the Constitution revenue bills must originate in the House of Representatives. They are written by the Ways and Means Committee of the House and are usually presented under a "closed rule" which means they are not subject to amendment. This prevents each one of the 435 Representatives from trying to write in his own particular idea of what should be taxed in what amount.

The bill just passed would drop some 12 million low-income persons from the income tax rolls. The bill allows \$500 exemption for each person and for each dependent. In other words, a man and wife with two children would be allowed an income of \$2,000 before any taxes are paid. The bill now goes to the Senate Finance Committee of which Senator George is chairman. Senator George has expressed strong objections to the bill as passed by the House, and it may be considerably changed before finally enacted.

The House Committee on Expenditures in Executive Departments, of which I am a member, is continuing hearings on the Murray-Patman so-called "full employment" bill. While we should do everything humanly possible to see that all returning soldiers have an opportunity for suitable and useful employment, many think the government cannot possibly guarantee jobs for war workers and everyone else in the United States. We have always had some unemployed. It is generally agreed that the proposed "full employment act of 1945" is an illusion.

One of our greatest generals, who cannot be quoted, when asked about this bill said that we have just finished a war against such a system, that Hitler had full employment. One of my Congressional friends who has just returned from Russia, where he talked with Stalin, observed in conversation with me that he didn't see a smile on the face of any person in the Soviet Union. In the Communist constitution is found this language: "Citizens of the U.S.S.R. have the right to work, the right to receive guaranteed work with payment for their work in accordance with its quantity and quality."

Hitler told his followers: "We shall banish want; we shall banish fear. National Socialism is the

common man." The sawdust Caesar, Mussolini, once said, "It is only when private enterprise is inadequate that the State intervenes."

We can't create Utopias by adopting beautiful statements of hopes and principles, and seeking to guarantee them with money from the U.S. treasury. To be opposed to unemployment is like being opposed to sin, and to eliminate it completely would perhaps be almost as difficult as to eliminate wrong-doing. In the case of the full employment bill the medicine might be worse than the disease.

Military Affairs and Commerce sub-committees of the Senate are now meeting jointly to consider several proposals for the establishment of national scientific research programs. A report of Oct. 1, 1945 by the Director of War Mobilization and Reconversion recommended the establishments of a federal research institute for the following purposes:

1. To promote and support fundamental research and development projects in all matters pertaining to national defense and security.
2. To promote and support research in the basic sciences and in the social sciences.
3. To promote and support research in medicine, public health, and allied fields.
4. To provide financial assistance in the form of scholarship and grants for young men and women of proved scientific ability.
5. To coordinate and control diverse scientific activities now conducted by the several departments and agencies of the federal government.

6. To make fully, freely, and publicly available to commerce, industry, agriculture, and academic institutions the fruits of research financed by federal funds.

All will agree that the two billion dollars we spent to develop the atom bomb and the radio proximity fuse was a cheap investment in saving American lives and bringing the war to an earlier end. If by spending a like sum we could discover preventions or cures for cancer, tuberculosis, infantile paralysis, and other diseases from which we suffer even more than from war, it would certainly be a wise investment.

### Texas Trails In Egg Production

COLLEGE STATION.—At the end of August, Texas led all of the states in the number of laying hens. This state also carried the flag at the corresponding date in 1944, but this year had about 1,500,000 fewer producing birds than 12 months earlier.

The quarterly report of the U. S. Department of Agriculture's crop egg-layers at 21,868,000. Iowa was on Texas' heels with 21,478,000 and Minnesota in third place with 18,387,000. Texas' numerical leadership, however, was an empty honor because in production per hen, which means the profit on investment, the birds of this state dropped to 29th place among the states. Vermont led with a production of 1,621 eggs per hundred hens during August, while the best the Lone Star fowl could do was 1,153. But that figure was a gain of 124 eggs over August, 1944.

In total production for the first nine months of the year Texas returned to the upper bracket with 2,650,000,000 eggs and third place, while Iowa was far ahead of all states with a total of 3,355,000,000.

S. A. Moore, poultry husbandman for the A. and M. College Extension Service, sees in these figures not only a possible waste of expensive feed, but an urgent need of better producing hens in Texas flocks. He observes that Iowa, with about the same number of layers, was able to produce 700,000,000 more eggs in the nine months. Although this period included the coldest winter

## Liberalism

By GEORGE S. BENSON  
President of Harding College  
Searcy, Arkansas

BACK in America's colonial days before the Revolutionary war when everybody was underprivileged, there were only three freedoms. Everybody had a right to work hard, save as much as he could of his earnings and use his head as profitably as possible in business. If you have a taste for long words, you might call the three freedoms industry, frugality and ingenuity.

Government in those days was the English king, of course, and people who thought he ought to show more liberality called themselves liberals. The king taxed them plenty and his subsidized buying concern paid little enough for what they produced. A liberal then, was a man who wanted government to loosen up a bit in favor of the individual.

Love of AFFAIRS of the people Liberty were not changed very much by the Revolution. Colonies changed into states and new issues arose but still there was an over-all government. In this over-all government were people who had power, or else feared to trust the common people with vital decisions. Opposed to these power-hungry folk were the liberals, still plugging for personal liberty.

The liberals were right. Time has proved beyond a doubt that people act better and live better and make more progress materially and spiritually when they have more freedom. The United

States became a first-class power in record time — the world's wealthiest and happiest people, so the word "liberal" is popular here. To us, a liberal is one who wants the individual to be free.

Switch THROUGH the same Labels historic periods America has had reactionaries. These were people, in colonial days, who wanted the king to reign. After the Revolution, the same element wanted an iron-rod rule in Washington, something like a dictator. Small wonder our reactionaries have always been unpopular; people who oppose progress and try to grab power for themselves.

Reactionaries in America today are smart. They have learned one lesson well. They are very sure of one thing: They have a bad name. They know also that the word "liberal" is an asset. Accordingly they have adopted the term "liberalism" and call themselves liberals. This is the same political group that supports more government rule and less liberty for individuals.

Now this element has begun to call people reactionaries who hold precisely to the liberal teachings of Thomas Jefferson. But government control of everything, and the destruction of individual freedom and opportunity is not the liberalism that Americans think so highly of — not liberalism at all. It is a counterfeit road sign designed to misdirect American thinking away from the ways of freedom.

### Vernon Man Urges Passage Of Rowan Bill

#### Measure Would Honor Fallen Heroes

G. W. Backus, Jr. of the Vernon Marble and Granite Works, the Monument Builders of America representative in Vernon, today urged Congressman Ed Gossett to lend his full support to the Rowan Bill as the first step toward suitably honoring America's war dead.

"America's fallen heroes must be fittingly honored when they came home to rest," Mr. Backus declared. "The Rowan Bill will provide not only adequate burial allowances, but free choice of place of burial and monument. This is the

months, Iowa produced nearly 6,000,000 more dozens of eggs than Texas poultrymen. Moore believes that in addition to continuing good management, larger production in this state should be sought through improving the breeding of the laying flocks. This could be promoted by progressive up-breeding commencing with Record of Production males and selected hens. Males from this mating would rank as "certified." A further cross of this progeny with selected hens would produce "approved" chicks which would have the best breeding of their ancestors. This system of breeding would conform to the requirements of the National Poultry Improvement Plan, and bring high quality males into general flocks. Fourteen Texas breeders are doing trapnest work and their stock is recognized as R. O. P. quality, Moore says.

least we can do both for the men who have laid down their lives for us and those who have served in the armed forces."

He pointed out that the Rowan Bill provides \$150 to apply toward a veteran's funeral expenses, \$75 for the lot, and \$75 for a monument to be selected by the family.

"Present legislation allows a veteran's family only \$100 to cover funeral expenses," he declared. "This makes it impossible for a distressed family to provide an adequate burial, select a cemetery lot and erect a monument of their own choice which memorializes the sacrifices the veteran has made."

Mr. Backus said that the Monument Builders of America, which serves as the spokesman of the monument industry, is giving its unqualified support to the Rowan Bill. He said:

"The Rowan Bill will relieve veterans' families from financial worry at the time of the veteran's death. It gives them the privilege of choosing a plot in their own family cemetery and enables them to continue the American custom of family plot burial and observance of the family's religious customs."

"The Monument Builders of America are, of course, not opposed to national cemeteries, but they believe that those already in existence are ample at present and that there is no need to create new ones at this time. There are today 375,000 unoccupied graves in seventy-seven existing national cemeteries. Obviously, there are no need for additional cemeteries in view of that."

"Instead, we advocate the passage of the Rowan Bill, which avoids all tendency toward regimentation of our veterans in death and instead gives them back to their loved ones and provides sufficient funds for services and monument befitting a man who served his country when it called him to do so."

## Still Working

... At Culling And Blood Testing Flocks of Knox County!

## Short Course Is Offered On Food Lockers

COLLEGE STATION.—Freezer locker owners, managers, and operators of Texas are invited to attend a three-day Frozen Food Locker Short Course to be held at Texas A. and M. College Oct. 24-26, according to announcement made by Roy W. Snyder, meat specialist of the Texas A. and M. College Extension Service. The Short Course is being sponsored by the college in cooperation with the Texas State Frozen Food Locker Association, of which E. G. Spencer is president.

The three-day course will be divided to give approximately a half-day each to the study of present lockers problems, refrigeration, processing of fruits, vegetables and meats for the locker, sanitation problems, and home storage units and their relation to the locker industry. Hog killing and cattle slaughtering demonstrations also are included in the schedule. The final meeting will include a panel on the contribution of educational agencies to the locker program and a discussion of the future of freezer lockers.

Specialists in the frozen locker field who will assist in carrying on demonstrations and discussions include S. T. Warrington, formerly of Farm Credit Administration and now a consultant in the locker industry; J. C. Patterson of York, Penn., chief mechanical engineer of a locker equipment manufacturer; R. A. O'Neill, Corpus Christi, engineer for a power company; Wayne Carver, editor of the house organ, "Locker-Operator," Des Moines, Ia.; and Albert Guggedahl, Des Moines, Ia., executive secretary of the national frozen food locker association.

In addition to these, specialists from Texas A. and M. College and other colleges and leaders in vocational agriculture and home-making education will present talks. Miss Mary Reed, county home demonstration agent of Bexar County, and Mrs. L. S. Keen, wife of an operator in Corsicana, also will be on the program.

## CHILDREN'S CLOTHING CAN BE FLAME-PROOFED

COLLEGE STATION.—Simple flame-proofing treatment will reduce the fire hazard of children's clothing made of cotton or rayon materials with a napped surface. Mrs. Dora R. Barnes, clothing specialist for the A. and M. College Extension Service, recommends this treatment for sweaters, night gowns and pajamas, and also for blankets and draperies.

The secret of flame-proofing is to dip the materials in a solution of borax, boric acid, and hot water. Both of these well-known chemicals can be obtained at any drug store. Recipe for the fire-proofing solution requires seven ounces of borax and three ounces of boric acid to be added to two quarts of boiling water. Stir the borax and boric acid until the solution is clear.

Best way to apply the solution is to dip the garment into it, Mrs. Barnes says. She cautions that the garment must be dry when placed in the liquid, and it must be thoroughly saturated. Wring it out and hang it on the clothes line to dry.

"When you press a fire-proofed article, use only a moderately hot iron," Mrs. Barnes says. It's better to iron a flame-proof article when it's damp rather than to let it dry and "sprinkle it down."

Unfortunately, this fire-proofing method is not permanent, since the borax-acid solution washes out of the material. Each time the article is laundered it will have to be fire-

proofed again. Therefore, it saves time to make up large quantities of the solution for frequent use.

Lee Haymes, G. B. Hammett, M. T. Chamberlain and Leroy Melton of Benjamin, Otis Simpson, Moody Johnson, Ray Holcomb and Walter Skiles attended a Masonic meeting in Crowell last Thursday night.

Mr. and Mrs. Wade T. Mahan and children, Susan and Wade Tanner, and Miss Elizabeth Turner spent the week end in Wellington, visiting with Wade's parents, Mr. and Mrs. J. A. Mahan.

Cpl. Thomas A. Cluck and Mr. and Mrs. Clifford Cluck spent the week end with relatives and friends in Lubbock.

Sebern Jones, who is serving at the Marine base near Fort Worth, spent the week end here with his wife and children and with friends.

# FARM NEWS

President Truman's reconversion message to Congress included high praise and encouragement for the Nation's farmers. He credited farmers with a magnificent production job in the war and said that no group in America labored long or harder to meet the war demands put upon them.

"The Government now must be prepared to carry out the Nation's responsibility to aid farmers in making their necessary readjustments from a war time to a peace time basis," President Truman pointed out. He asked for additional legislation "to strengthen the machinery for carrying out price support commitments, and for laying the basis for broader peace time markets for agricultural products."

The President's recommendation to Congress included: making an additional \$500,000,000 available to the Commodity Credit Corporation to safeguard farm prices, possibly through transferring lend-lease funds to the account of CCC on a continuing basis; stimulation of export of farm products, particularly through shipment of more food to war-ravaged areas; strengthening and further develop-

ment of the Federal Crop Insurance Programs, which, together with the assurance of reasonable and stable farm prices, will go a long way toward basic problems which have plagued farmers in the past, and continuation and strengthening of programs for conservation and improvement of our soil and forest resources, and also for scientific research. He reported that Secretary of Agriculture Anderson is studying existing farm programs to see if any changes are needed to meet peace time conditions and asked that Congress also consider the problem and make any adjustments which will make farm programs more effective.

J. D. Cook of the Gilliland Community was in this office Monday and requested prior approval to eliminate 29.0 acres of mesquite. D. W. Looney will do the work with a crawler type tractor and a 6 foot blade that will run under the ground about 10 inches.

Grass grown on rich land will often have in it one and a half to two or even three times as much phosphorus, calcium, potash, and nitrogen as grass grown on lean land, poor in minerals. Animals can taste the difference that man cannot see. Livestock seed the richer grasses and show the difference in their growth and yield.

Pay your insurance premium before November 1, 1945 and you will not have it to pay interest.

Approximately 65 percent of the farmers in Knox County are keeping their records of cotton and wheat production up to date by submitting their tickets to this office.

Gerald Averitt of Knox City was in this office Monday and made application for a farm tractor and equipment. He expects to get his final discharge papers next month.

Good farming produces more than good crops; it produces good children, good schools, good churches, good communities.

Another can of Austrian Winter Peas was shipped in during the past week and the peas are being issued to farmers of Knox, King, and Cottle counties.

"Changes in the general price level have made and broken more farm people financially than any other economic factor. The individual farm family can do very little about controlling fluctuations in the general price level. . . . But keeping debts at a safe level and building up a financial reserve in War Bonds will help to cushion any drop in prices that may come later." U.S.D.A.

Charlie Hamilton has reported that the Austrian Winter peas he planted are up and doing fine. He stated that he had a perfect stand and that they were outgrowing his wheat.

Mr. and Mrs. M. L. Barnard were visitors in Lubbock last Sunday.

Moulton Wiggins visited with relatives in Fort Worth over the week end and attended the Oklahoma-Texas football game in Dallas on Saturday.

## Author Receives Indian Bow

Ben Moore of O'Donnell, Texas, author of the recently published book, "Butterfield—7 Years With The Wild Indians," is shown above receiving the old Geronimo bow and quiver from Rev. Butterfield. Butterfield purchased the bow and quiver from Geronimo and his wife while employed by the government to work with the Indians at Fort Sill, Okla. The bow is said to be 100 years old.

Moore is wearing the headdress of Chief Ishati, next in command to Chief Quannah Parker. "Ishati was plenty bad Indian," Moore wrote, "but wound up on 'the white man's road' as a good friend to Rev. Butterfield after he failed to scare him out of the nation." This thrilling new book may be had for \$2.10 by mail from the author, Ben Moore, O'Donnell, Texas.

aside a section for those who go there to see and hear the picture and not for an hour's conversation. Such a section would not need to be very large.

Came across this bit of worse—I mean verse—somewhere:

Johnnie drove a Model T,  
Harold drove a limousine;  
Johnnie's girl lived 'cross the tracks,

Harold went with the campus queen;  
But Harold is now a forgotten man

While Johnnie every girl admires;  
Harold's limousine is on the rims  
And Johnnie still has four good tires.

"There's just two things the matter with that horse," the owner said to a man who was thinking about buying the animal.

"What are they?" the prospective purchaser asked.

"I'll tell you what one of them is and, if you buy him, I'll tell you the other one then," the owner replied. The prospect agreed.

"The first fault is that he's hard to catch."

"Well, I'm pretty active; I can catch him all right; here's your money; now, what's his other fault?"

The man pocketed the money and as he edged away he answered, "In the first place, as I said, he's hard to catch and, in the second place, he ain't worth a darn after you catch him."

## Legal Notice

CITATION BY PUBLICATION

THE STATE OF TEXAS

To Rudolph Andres, GREETING:

You are commanded to appear and answer the plaintiff's petition as or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 3rd day of December, A. D. 1945, at or before 10 o'clock A. M., before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas. Said plaintiff's petition was filed on the 13th day of October, 1945. The file number of said suit being No. 4404.

The names of the parties in said suit are: C. J. Stengel, Bertha Roy and husband Francis Roy, Clarence Stengel, a minor, Mildred Stengel, a minor, by C. J. Stengel, their father and next friend, Ethel Stengel, a single woman, Anna Loran and husband, A. J. Loran, Ella Hall and husband, J. P. Hall, Bertha Balhorn and husband, W. W. Balhorn, Mary Loran, a widow, J. C. Andres, Clara Andres Pierce and husband, Mike Pierce, and Caroline Andres, a single woman, as plaintiffs, and Rudolph Andres, as defendant. The nature of said suit being substantially as follows, to-wit:

Being a suit for partition between the above named plaintiffs and the defendant of the following described land:

First Tract; situated in Knox County, Texas, being the North 120 acres out of the East half of Section 82, Block 2 D. & W. Ry. Co. Survey.

Second Tract; Situated in Lamb County, Texas, to wit: Being all of Labor Number Six (6), in State Capitol League No. 681, containing 189.8 acres of land.

Third tract: Being also in Lamb County, Texas, and being all of Labor Number Ten (10), in State Capitol League Number 680 and containing 177.1 acres of land.

Plaintiff's alleging that said property is owned jointly by plaintiffs and the defendant, the first five parties owning jointly a 1/5 interest and all other parties and defendants owning each a 1/9 interest therein.

Issued this the 15th day of October, 1945.

Given under my hand and seal of said Court, at office in Benjamin, Texas, this the 15th day of October, A. D. 1945.

## Shotgun Shells Made Available For Sportsmen

Duck, pheasant and other small game hunters will have plenty of 12-gauge shotgun shells on hand this fall for their favorite sport, according to an announcement just issued in Washington by the Office of Surplus Property, Department of Commerce.

Over forty million rounds of twelve-gauge shells, frozen for military use since the start of the war, will be sold this month to dealers through out the eleven United States Regional Office of the Office of Surplus Property.

The sale started on October 13, 1945.

Supplies of shotgun shells for civilian use have been extremely short and return of this ammunition to dealers shelves in time for the hunting seasons will be welcomed by sportsmen the country over. The shells will also be useful to farmers and ranchers for crop and livestock protection.

The ammunition being sold is of the standard commercial type used by hunters and includes both "Bird Shot" and "Buckshot."

The major quantity of the shells are loaded with "Birdshot," or 1-1/8 ounce No. 8 chilled shot, with a standard powder load of three drams. The remainder are loaded with 00 Buckshot—9 pellets long-range powder load of 3 3/4 drams.

OPA Retail ceiling \$55.20 per 1000 shells or \$1.38 per box of 25 shells.

To effect equitable distribution, minimum and maximum quantities which may be purchased have been established.

Dealers can obtain full information on details of this offering by

## Collections At Texas Museum Is Increasing Steadily

Austin, Texas.—Funds for carrying on extensive field collecting for the Texas Memorial Museum on the University of Texas campus will be sought during the coming year, according to approval granted by the Board of Agents in their meeting.

During the seven years which the Museum has been operating, it has steadily increased its collections. Information has been assembled on localities from which desirable collections, both in history and natural history, may be made by field expeditions, Dr. E. H. Sellards, director, reports.

"The collecting expeditions contemplated will include fossils, minerals, and historical objects. Ultimate collections will be made from each of the 254 counties in the state," he said.

"The Museum has now a record of more than 350 localities from which such collections could be made, but funds now available are insufficient to carry out extensive collecting."

## Howard A. Layne Is Home From Pacific

Mrs. Addie Layne received word last week that her son, Howard A. Layne, chief missionary steward, U.S.N.R., had arrived safely in the states and was due to reach his home in Corpus Christi in a few days.

His wife has been employed in the assembly and repair department at the Corpus Christi Naval Air Base during the two years Chief Layne has served in the Pacific area.

Layne is receiving his point discharge, and is expected to visit his mother and grandmother, Mrs. A. U. Hathaway, in the near future.

## RECEIVES DISCHARGE

Mrs. Francis Redder, who recently returned home from the European Theater, has received his discharge. He spent eighteen months in Europe and was awarded six battle stars for participating in as many battles against the Germans.

contracting the Regional OSP Office, 609 Neil P. Anderson Building, Fort Worth, Texas.

## De-Icer for "Elsie"

"Elsie the Cow" won't have to wait for the ice to be broken in her favorite barnyard drinking tub this winter, as the General Electric "Stock Tank De-Icer" will be taking over the chore the farmer had to do each morning. Constructed like an oversized pancake, the de-icer floats at the top of the tank and does not heat the water but keeps it from freezing solid. Estimated to operate at six cents per day, the electrical device heats only to temperature slightly above the human body and can keep "Elsie's" nose warm while she drinks.

## Poultry Growers Should Guard Against Turkey Disease

Texas poultry growers should guard their turkey and chicken flocks against a disease called botulism, or limberneck, which often causes losses at this time of year. According to R. O. Dunkle, County Agent, limberneck is caused by a toxic-forming germ and is most likely to occur in late summer and early fall. The disease seems to appear whenever poultry eat decayed matter or drink stale water from pools.

The common name, limberneck, rather aptly describes the leading symptoms of the disease. Dunkle says it is accompanied by leg weakness, drooping wings and stupor. Death often occurs within one day.

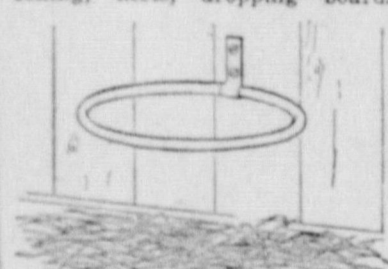

The best protection is to keep flocks away from dead carcasses, decaying plants and similar materials. Fresh, clean, range is one of the safest places for the birds.

Jack Orb Coffman, who is a student in Texas University at Austin, was a recent visitor with his parents, Mr. and Mrs. Orb Coffman and with his grandmother, Mrs. Sarah Coffman and other relatives in and near Gorce.

## Fixing Up the Farm by BURTON WILLIAMS

**Poultry Sanitation**  
POULTRYMEN are striving constantly for ways and means of making their laying houses and brooders more sanitary. They find that it pays off in more and healthier hens and in more and cleaner eggs.

Sanitary practices must be carried out in every step of poultry production, so serious is the disease problem. Once healthy hens are placed in the laying house, they must be provided with clean, warm quarters. Runways, floor, walls and ceiling, nests, dropping boards,

feed racks and other equipment must be kept clean. Poultrymen have found that asbestos cement board interiors can play a very important part in maintaining sanitation because the surface is so easy to scrape and wash.

To further guard against disease, feed pans should not be placed on the floor where chickens can contaminate them. Instead, they should be held off the floor by a ring of three-eighths inch iron. The ring is welded to a short piece of one-inch by one-quarter-inch iron, so it can be fastened to the wall about 12 inches above the floor.

## Mrs. Elmo Parks Dies October 18 At Dimmett

Mrs. Leta Allen Parks was born to Mr. and Mrs. Mark Allen at Throckmorton, January 11, 1885, where she lived until her mother, after her father's decease, moved to Gorce, in 1907.

She was converted at an early age and united with the Baptist Church at Throckmorton. She was married to Eck Smith, November 17, 1907 and to their home were born two children. Her husband passed away April 13, 1913 and later she was married to Elmo Parks. One son was born to this union.

Mrs. Parks passed away October 18, 1945, after more than a year of battle against death. Her youngest son, Syd Parks, who was home on a furlough from the Navy, was a great joy and comfort to her in her last illness, as well as her daughter and other members of her family, all of whom were present at the passing.

The presence of so many lovely friends and neighbors showed they wanted to take her hand and tell her how they sympathized and wanted to help.

Our prayer is one of thanksgiving for all the years we have known her, as daughter, sister, wife, mother and friend. Her prayer was that she might love not only those who loved her, but all the world, and most of all those who most need help.—Contributed.

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox  
M. D., State Health Officer  
of Texas

Austin, Texas.—Contrary to popular belief, rabies is more prevalent in winter than in the so-called "dog-days" of summer.

In a statement released this week by Dr. Geo. W. Cox, State Health Officer, it was disclosed that in the mid-winter month of February last year the State Laboratory examined 312 animals brains for the presence of rabies, over thirty-seven per cent of which tested positive, whereas in August only 155 brains were examined, thirty per cent of which were positive.

"If all stray dogs were destroyed, and all pets vaccinated for rabies, it would go far toward stamping out this justly feared fatal disease," Dr. Cox said.

The doctor stressed that dogs suspected of having rabies should not be killed immediately, but should instead be confined ten days for observation to see if the disease develops. If a dog sickens and dies during the observation period, the head should be packed in ice and sent to the State Health Department for examination. Freezing the brain, or killing the dog prematurely, or in such a manner as to injure the brain may make correct laboratory findings uncertain, if not impossible.

Dr. Cox declared that after a dog is confined ten days and then killed, there is still ample time for a victim of his bite to be treated for rabies prevention, but he cautioned that if the disease is found to be present in the dog, the victim should then begin treatment without further delay.

## Army Pigeons Are Being Sold To Civilians

Thousands of Army homing pigeons, veteran "G I" message carriers of good breeding stock, are now being offered for direct sale to civilians, according to the Office of Surplus Property of the Department of Commerce.

The war birds, all Army banded and bred for message carrying and other military purposes, may be purchased in 5 pair lots at \$25.00 a lot by any person on application to the Department in Washington, D. C. The pigeons are from one to five years of age.

Bird fanciers, 4-H Club members and breeders on the lookout for exceptional stock are invited to write to the Office of Surplus Property, General Products Section, for full information.

Of exceptional lineage, the birds are descendants of some of the country's finest homing pigeon breeding stock and were presented to the Government at the start of the war by pigeon fanciers to aid in rapid formation of large flocks of message carriers. Buyers of the lots of five pairs of pigeons will receive certificates of service from the army for each bird. This will provide evidence of ownership of the birds which wear Army leg bands. The Government does not furnish information, however, regarding strain, sire, dam, or racing records because of the work involved.

Although pedigrees are not provided, many prospective buyers may be attracted by the chance that because of the exceptional breeding of the birds, a lot of five may contain one or more birds with championship potentialities.

The story of bravery, courage and reliability behind the "Doves" of World War II is well known. Many amazing and amusing anecdotes of their achievements have already been published of their dramatic service in rescue work, in apprehending enemy agents, in indicating locations of disabled craft, in conveying warnings and getting other vital communications through with dispatch when human and mechanical methods fail.

Like the K-9 dogs of war, Army homers were put through special training. Some were taught to fly at night, overcoming their urge to perch at sunset.

Certified check, cashiers check, bank draft or money order made out to the United States covering

the amount of the purchase should be addressed direct to the Office of Surplus Property, Department of Commerce, General Products Section, Washington, D. C. All shipments are made in the buyers crates by Railway Express, collect.

J. C. Campbell and Miss Dolores Campbell visited with relatives in Abilene last Sunday.

Lewis Warren and Mrs. Joe Duke were business visitors in Wichita Falls last Tuesday.

Mr. and Mrs. Earl Claburn came in several days ago from Marysville, Calif., and Shorty has accepted a position at the local Piggly Wiggly store. Shorty spent several years in the army, and has received his discharge.

**GROCERIES**

J'EVER SEE A MAN TOTE SO MANY SACKS OF FLOUR!

NO WONDER!—IT'S GLADIOLA FLOUR! AND TH' FLUFFY, FLAKY GLADIOLA BISCUITS IT MAKES ARE SUCH MIGHTY ENERGY-BUILDERS!

EVERY SATURDAY ALL OF MY NEIGHBORS WANT ME TO BRING 'EM MORE GLADIOLA FLOUR!

HURRY UP, PA! WE'N HARDLY WAIT FER THAT GLADIOLA CAKE M'AS BAKIN' FER SUPPER!!

GOSH! I HOPE I GET THERE BEFORE TH' SUPPLY OF GLADIOLA FLOUR RUNS OUT!

TO BRIGHTEN EVERY BAKING HOUR JUST BRACE WITH GLADIOLA FLOUR!

**GLADIOLA FLOUR**  
FIRST MILLING COMPANY  
SHEWAN, TEXAS

I'D RATHER HAVE A SACK OF GLADIOLA FLOUR THAN A NEW HAT!

I ALWAYS BUY MY GLADIOLA FLOUR FIRST. THE OTHER ITEMS ON MY SHOPPING LIST ARE INCIDENTAL.
