28 Freight Cars Derailed In Ranger Wed. Morning

No Injuries Reported In Train Wreck

Twenty-eight to 96 cars of the Texas Pacific Railway were derailed in Ranger Wednesday morning shortly after midnight.

The freight was traveling east when a hot-box caused an axle on one of the cars to break into and causing the derailment.

An eye-witness said he was stopped at the crossing on Main Street when the train was moving through Ranger and noticed the wheels on one of the cars begin to buckle. The axle broke into causing several of the cars to be knocked off the track near the Hou-Tex Peanut Company east of the Main Street.

It was reported by the Ranger Police Department the train was moving through Ranger at a speed of approximately 60 miles per hour when the wreck occurred.

Shortly after the wreck a fire broke out and the Ranger Volunteer Fire Department was called to the scene and quickly extinguished the blaze. About 2:30 the fire broke out again and again the firemen were summoned to the scene.

A number of box-cars, auto transport cars and flatbed rail cars were derailed.

Fire Chief Charlie Isabell said there was enough gas in the automobiles in the wreck that could cause an explosion. Several spectators were on hand to see the train wreck and because of the large number of people the firemen were hampered in getting the fire under control.

Engineer of the train was A. B. Winder. His address was not known at the time of the accident. No one was injured in the wreck nor in the fire.

Two Mexican transits were apprehended by the Ranger Police and taken to the Ranger City Jail. They were to be picked up by Emigrant officials later Wednesday according to the Ranger Police.

A bride crew, which had been working and staying in Ranger for the past several days had left noon Tuesday for Weatherford, it was reported, and had the workmen been here the cars in which they were staying would have been in the wreck.

A crew from Ft. Worth and Weatherford were in Ranger early Wednesday clearing the wreckage. It was not known just when the tracks would be cleared for thru train service.

County Joins With Eastland In New Base Radio Station

The Eastland County Commissioners Court, meeting Monday, agreed to join with the City of Eastland in the purchase and maintenance of a modern police radio base station to replace the present which is obsolete and incapable of repair, it was announced.

Cost of the new equipment, which will increase the range and efficiency of the radio

communications system, will be about \$2,200 and the station will be installed by an Abilene firm.

The Eastland City Police and the county peace officers have been using the old equipment installed on the fifth floor of the courthouse, and which is owned by the county. The county and the City of Eastland will own and maintain the new station jointly.

The commissioners also voted to buy a new radio for one of the sheriff's department automobiles, as requested by Sheriff L. E. Sublett. The sheriff will get bids from various firms on the installation.

The commissioners discussed but took no action on proposition for putting all constables in the county on a full-time salary basis as a move toward better law enforcement.

Some of the programs are yet to be worked out, it was explained. Action on the proposal was expected to be taken about August 1.

The skirt was slightly gathered at the waist by a row of lace made of small daisies. She wore yellow gloves with shoes to match. Her headdress was a white satin bow topped with yellow daisies. The bridesmaids were identically attired except for white gloves and matching shoes. They carried a colonial bouquet of white daisies.

DRAWING TOWARD GOD

The Art and
Inspiration of
JACK HAMM

Introduction by CHARLES SCHULZ
Creator of "PEANUTS"

DRAWING TOWARD GOD is a book designed to apply scriptural truth to everyday living. By means of some 50 full-page drawings interspersed in the text, the reader is led to reflect with the artist-author on the great issues of life. Over a billion impressions of Jack Hamm's religious art have been printed in the U. S. and 17 foreign countries. For the first time he sets down his reasons behind the drawings. Winner of four national cartooning awards, Hamm contends that the nature of God and man's nature need to be, and can be, related one to the other.

"Jack Hamm has a way of using his brush, crayon, and words to cut through to some of the great theological truths that concern us all. This is a marvelous book for individual meditation, or for any group of dedicated people who wish to have a guide to promote inspirational discussions. Jack has a rich imagination and a fine sense of fundamentalism. We have been blessed in our world with many great editorial cartoonists, but I know of no other man who has been able to turn his talents to interpreting religious truths as has Jack Hamm."

From The Introduction
By CHARLES M. SCHULZ
Creator of "Peanuts"

"I like the work of Jack Hamm. He has a great gift for picturing, and therefore making simple, important truths that would be difficult to express so explicitly in words."

DR. NORMAN VINCENT PEARL

"A fine artistic portrayal... bringing the inspirational Word of God into American homes."

J. EDGAR HOOVER
Director of F. B. I.

"The most difficult task for a cartoonist is to sustain a point of view over a long period of time, even when the subject is the Word of God. Jack Hamm has kept his work in such sharp focus that it sustains the believers among his readers and most certainly gives hope to those who need it."

MILTON CANIFF
Creator of "Steve Canyon"

"Jack Hamm is helping to create a moral and spiritual atmosphere throughout the United States."

BILLY GRAHAM

"How better to reach people of all ages than with the timeless scriptures retold in timely pictures."

PAUL HARVEY

CJC Adding Equipment In Cooperative Setup

As a member of the West Central Texas Consortium, an organization of four junior colleges, Cisco JC will be able to add materially to its facilities and teaching aids during the coming year, President Leonard Willis announced Friday.

The four junior colleges — Cisco, Hill County, Ranger and Weatherford — were given a \$150,000 grant by the federal education agency for use in buying equipment and teaching aids. This amounts to \$37,500 for each school, Mr. Willis said.

Two Fined On Liquor Counts

A Moran man and a Cisco woman were fined here Monday from charges in August of last year and January of this year on illegal liquor counts.

Fined \$400 plus court fees in Judge Earl Connor's 91st District Court was Raymond Eubanks who was charged with DWI Aug. 24, 1968.

Charged with the sale of beer in a dry area and possession of whiskey for purpose of sale in January of this year was Mrs. Leola Robertson of Cisco. She was fined \$100 on each count, plus about \$120 in court fees.

Cisco JC will order television cameras and monitors for classroom use along with portable tv cameras, tapes and slides for a variety of uses. This will cost some \$12,000.

Other new equipment will include machines and supplies for the expanding audio-visual department, a microfilm setup with two readers for the new library, assorted film strips, 20 tape recorders with 400 tapes, and other materials.

Mr. Willis added that the college probably will employ one audio-visual instructor for the coming fall semester as the new equipment goes into general use.

The Consortium also will arrange for a number of well known professors and consultants to spend a week each on the campus for special study projects next school year.

Each of the four colleges will use its grant funds through the Consortium as it sees fit, Mr. Willis explained.

"By cooperating with the other schools, we are obtaining some very desirable new equipment to add materially to our teaching aids and our ability to offer courses of study," Mr. Willis said. "We are always alert for opportunities to increase CJC's usefulness to the young people and the communities it serves."

Kay Hoffmann to Compete For Miss Texas FFA Sweetheart

Miss Kay Hoffmann, FFA Sweetheart from Area IV representing 24 counties, will compete for the title of Texas FFA Sweetheart in Fort Worth this week.

The contest will be part of the 41st annual state convention of the Future Farmers of America to be held Wednesday through Friday in the Tarrant County Convention Center.

Frank Claborn, area Star Farmer, will represent the 93 schools of this area in the competition for Star Chapter Farmer of Texas.

Eddy Blair and Jeff Germany will attend the convention as candidates for Lone Star Farmer Degrees.

Jeff, an Area IV vice-president, has been selected to serve on the Convention Courtesy Corp.

Miss Hoffmann, the daughter of Mr. and Mrs. W. H. Hoffmann and a junior in high

school, has previously won the title of Eastland FFA Chapter Sweetheart and Sweetheart of FFA Cross Timbers District. Last year she was also runner-up Pecan Queen and served as president of the Double-Seven Club.

She will compete for the state honor Friday against sweethearts from nine other areas of Texas.

Randy Lowrance, son of Mr. and Mrs. L. A. Lawrance, and Jeff Germany are in charge of her convention campaign for Sweetheart.

Frank, the son of Mr. and Mrs. Bill Claborn, was recently interviewed in Dallas by members of the State Checking Committee, composed of vocational agriculture teachers from throughout the state. Their selection of the Star Chapter Farmer will be announced at the con-

vention. Frank has a number of achievements to recommend him for the high honor. He was named Star Greenhand in his chapter and at district. He has received the Livestock Farming Award and the Scholarship Award.

He served as chapter president last year, served as president of the Junior Chapter-Conducting Team and vice-president of the Senior Chapter-Conducting Team which won first in district, second in area. He also served on teams for land judging, pasture and range judging and livestock judging the local county livestock contest.

He has shown sheep and cattle in various livestock shows, receiving the Showmanship Award at the local show.

His supervised project programs include 73 sheep, 36 lambs, 9 cows, 8 calves, 24 goats, 10 kids, 59 acres of oats and 15 of wheat.

As candidates for Lone Star Farmer Degrees, Eddy Blair and Jeff Germany have each submitted three years of record books which show among other important qualifications, profits in excess of the required \$500.

Their applications have been approved at the district and area levels. Should they be approved at the state level, they and others receiving the degree will be honored at a special program in the Arena of the Convention Center.

Eddy is the son of Mr. and Mrs. Bob Blair, and Jeff is the son of Mr. and Mrs. Jack Germany.

Walter Loudermilk, vocational agriculture teacher and FFA advisor, will accompany his students, and Mr. and Mrs. Hoffman will attend the convention with their daughter.

The boys will travel by Greyhound Bus, leaving Eastland at 8:15 a.m. Sunday.

Smith Promises Probe Of Car Insurance Rates In Texas

Governor Preston Smith has announced he will launch a "full-scale" investigation into the spiraling private passenger automobile insurance rates in Texas.

"The announcement that the Insurance Commission has recommended an 114 per cent increase in private auto rates borders on catastrophe and has become intolerable for many of our citizens," the Governor said.

One of the first steps the Governor plans is to call a meeting in Austin "as soon as possible" of a representative group of presidents of insurance firms in the state. He also said he is exploring the possibility of naming a small select panel of lay citizens outside the insurance industry to make a thorough study and recommendations.

"There also is pending in both the House and Senate appointment of interim study committees of Legislators to look into auto insurance rates," the Governor added.

He said he is hopeful combined efforts on all fronts can "come up with some solid recommendations and steps which the Legislature can take at its next regular session."

"We must face the fact," Smith said, "that Texas is one of the few states in the nation which still maintains a controlled rate system on auto insurance."

The vast majority of states are under a competitive system or utilize some form of the merit system which Texas

once had, the Governor said. Governor Smith pointed out Texas' controlled-rate system originally was set up to make sure insurance companies received a fair and equitable rate of return and citizens were not charged exorbitant rates.

"We are not going to 'pick on' the insurance companies," Smith said.

"We all realize the companies must make reasonable profits to stay in business, but," the Governor continued, "it is up to the elected officials of our state to do everything in our power to see that Texans are not being overcharged and that profits are not excessive to companies writing insurance."

But, the Governor stressed, "this will not be an attempt to drive insurance companies out of our state or to make it impossible to buy insurance."

The Governor continued "there has been some talk that the federal government might move into certain segments of the insurance industry."

"This would be detrimental to our society. I have never been in favor, nor am I in favor now, of federal intervention into private or states' rights," said Smith.

"But," he warned, "unless state officials assume our responsibilities now we might not have a choice late on."
