Zeppelin Beats Record Britain Must Protect John Bull—"Shylock" Farming as "Big Business"

"Around the world in eighty days" was Jules Verne's dream of what might be. The exact flying time of the Graf Zeppelin's cruise around the world was twelve days and eight minutes. To mention those figures in scientific achievement is like mentioning ten billion dollars in Wall street. No need to enlarge on the figures.

The Zeppelin frequently made less than 90 miles an hour.

At the Schneider Cup race airplanes were prepared to exceed 300 miles an hour.

They could fly from Tokyo to San Francisco in one day. Who doubts that their speed will be transferred to big bombing planes?

We need air expansion, not retrenchment.

Jews in America and other countries, worried about co-religionists in Palestine, may find comfort in the fact, as regards future events, that the British empire cannot allow Arabs to defy British authority.

Let Jerusalem riots get beyond control and the Moslem world become convinced of its ability to defy the British or convinced that the British have had all the fighting they want, and there will be trouble, serious and widespread.

The Jerusalem riots involved not merely the safety of Jews in Palestine but the safety of the British empire wherever Mohammedans are numerous.

To suppress, with a strong hand, the rioting and murdering in Jerusalem and other parts of Palestine, is not merely a matter of fulfilling obligations solemnly assumed, but of protecting the integrity of the British empire.

The Vatican was reported to be much concerned as to the safety of church shrines in Jerusalem. If Arabs were allowed to get the upper hand indefinitely, one of the first steps prompted by Mohammedan enthusiasm would be the destruction of Christian shrines and churches.

Sir Phillip Snowden, who manages Great Britain's finances, won his fight for a fairer distribution of the German spoils. And suddenly British Tories blazed forth in praise of the great Snowden.

It is amusing to see what happens when a shoe is on the other foot. In Italy, France, Belgium, Snowden was represented as a fiend incarnate, a pirate and of course a Shylock, when he asked for only part of the money due him. That must remind us of some things that were said about Uncle Sam—"Uncle Shylock" was one name.

An airplane pilot, assisted by a farmer, took off near Bellingham, Wash., and before returning seeded 3 acres in one hour and 40 minutes. The farmer scattered seeds from a sack through a door in the cockpit, using about 800 pounds of alfalfa, timothy, clover and orchard grass seeds.

When gigantic machinery plows, harrows and pulverizes the soil in one operation, when another machine harvests, stacks, bales and weighs the crop in one operation, and airplanes do the sowing, agriculture will join "big business."

Henry Ford's interesting statement that he would stop manufacturing automobiles "if boone came back again," causes unnecessary discussion.

Mr. Ford, a sincere teetotaller, probably said that hastily. He is as good now as ever. He established a reputation and that of his car, long before prohibition came.

What Henry Ford could do, with the aid of prohibition at fifty, he could do now at sixty-five. He refuses to help prohibition, that's all.

When efficient gangsters don't want witnesses to testify, they don't testify.

Somebody killed three men in New York's "Hotsy Totsy" speakeasy. Two waiters and another man saw the gunman who did the killing. Commissioner Whalen said that three would see nothing more. Ten were killed to "shut their mouths."

If you think prosperity will continue—as it will unless foolishness operates—buy your little boy a seat (some stock exchange.

He will make money as a broker, keep his seat, while he "sits" in it, and may make him rich apart from his brain work.

How you can't say that of many seats.

A stockbroker has such a "clean" business, buying and selling as agent, a profit on every transaction.

Wise brokers don't gamble.

Annual Scurry County Fair To Start Sept. 26th

Plenty Fine Cash Prizes Offered County Boosters For Exhibits

Four weeks from today the annual Scurry County Fair will get under way and the manner in which rural residents, as well as town folks in all parts of the county have been grabbing the premium lists, the 1929 meeting will stand on a par with anything that has been held heretofore.

The annual scramble for concessions and privileges is now in full swing with J. W. Scott in charge of this particular bit of work.

Included in the many enjoyable features that will be made a prominent part of each day of the fair is the entertainment features. Pat Bullock is superintedent of this part of the program, and according to the premium lists professional acrobatic performers will be on display, with parades, foot ball games and band concerts every afternoon and night. Also in the feast of good things will be the Community Stunts, Old Fiddlers and String Band contests, with a negro battle royal every day. Bicycle and relay races will be another phase of activity with various athlectic stunts thrown in for good measure. Definite announcements will be made regarding the daily entertainment features.

Community exhibits this year will total $150 for the three major prizes, an increase over last year. All communities making a creditable display and not receiving a prize will be given $10. This should insure an exhibit from every section of the county.

Premium lists are now located in every bank and drug store in the county and your copy should be secured at once.

Boost the Fair—tell your friends—and let us have the greatest fair ever held in the entire section. Boosting along with the fair is the five-cent park tax that will be voted on Oct. 1 to give Scurry county a real county park. The legal advertising the election is on page eight of this edition.

Singing Meet Opens Saturday In Fine Program

Roscoe Expects Thousands to Gather for Four-County "Sing-Song"

Saturday marks the opening of the Four-County Singing Convention at Roscoe, a semi-annual event and, according to many Scurry county members of the group, a record crowd is expected to swoop down on the Nolan county town early Saturday morning and remain through the two days' session.

The association is composed of Mitchell, Scurry, Fisher and Nolan counties and each meeting they have held has surpassed all previous gatherings.

There will be singers at Roscoe from many points in Texas and adjoining states. Different music companies are joining whole-heartedly for the meet and will have quartets there, with their new songbooks that will be used to a great extent.

Scurry county will have a full representation at Roscoe, and local officers of the association hope that several hundred will be able to attend.

"UNCLE" BILLY HOME

Uncle Billy Nelson is expected home from San Antonio this week and will remain here for about two weeks when he will return there for further surgical work on his eyes. It is understood here that San Antonio doctors hold that Uncle Billy's eyesight may eventually be restored which would be the best news that we know of for this week.

BULL'S EYE ATTRACTS MUCH ATTENTION AT LOCAL DRY GOODS STORE

Three months ago the Howard Dry Goods Co. advertised "The Bull's Eye" in the Times-Signal. For three weeks the people of Snyder wondered what the "Bull's Eye" was.

They discovered it was a painted bull's eye placed in a show window of the store on which a lady's name appears, entitling her to free merchandise.

During the past three months, twenty-five ladies have gone to the store for their free goods, only one having failed to respond. "Either that lady didn't see her name or else she didn't need the free goods," Manager Eager said yesterday.

"We consider this a good way of advertising, but don't expect to let it take the place of newspaper advertising," Mr. Eager said.

Walt Scott and W. O. Logan will leave Monday for Central Texas in search of three register of merit heifers to be given away by the merchants at the Scurry County

$21,500 Permits Issued in City For Last Month

1929 Total Lacks But Little of Exceeding August of Last Year

Lacking but $225 of meeting the 1928 August permits granted, City Council were advised Monday night in their regular session that a total of $21,500 was secured in Snyder, as against a total of $21,725 last year.

The permits last month include:

W. W. Barron, residence	$ 1,600
Burton-Lingo, lumber yard	7,000
C. E. Ferguson, repairs	2,000
Mrs. T. L. Lollar, alterations	2,000
T. H. Green, res.	3,000
Jess Sellars, res.	2,500
Laurence Jones, repairs	400
Albert Norred, res.	3,000
Grand total	$ 21,500
Previously reported	111,050
Total to Sept 1	$132,550

That the full intent of the Sanitary Milk Ordinance is being enforced was made known by City Health Officer Dr. I. A. Griffin, who told of the co-operation of Dr. J. P. Avery in placing the new Grade "A" milk cards. Both the Head and Stroud dairies can now sell Grade "A" milk. The arrival of a state inspector is expected very soon as regards inspection of meat markets, grocery stores, and cafes to meet with the state law regarding such inspections. Dr. Avery recently made a complete inspection of various health activities here, in company with a state inspector and with Dr. Griffin, the reports were quite flattering and were immensely enjoyed by the council.

Largest Water Payment

The largest month for collection of water rents was reported with a payment of $1,729.80, with 22 new water connections during the month. With sewer rent and other receipts, the Water and Sewer Department rendered a total check of $2,250.33.

With six affrays, one vagrancy and three gaming, $144.50 was collected during the month.

Marshal Woodfin was granted two men for police duty during the County Fair, and "Butch" McClinton will be continued on the city pay roll as assistant night watch.

Fire calls made during the month for which the Fire Department rendered a bill of $134.

It was also brought out at the meeting that several filling stations now located on both the east and north highway must move their stations back a number of feet to comply with the law as laid down by the State Highway Department. Council are compeled to act on this matter at once.

Dennis Doty of the Well Water Mfg. Co., Garden City, Kan., presented a proposition to Council regarding another water well for the city. The company with which Mr. Doty is identified have had fine success in drilling wells here. With a known pumping total of between 30 and 35 million gallons of water per month, of necessity the city administration must soon take cognizance of the situation and be prepared. Securing an unlimited water supply in Snyder is one of the least worries of the council and they arranged with Mr. Doty's company for another well to be drilled previous to April, 1930.

Move Offices

A proposition offered by J. W. Scott to move the council chambers to the basement room of the building formerly occupied by Shull Variety store, was accepted, and removal will be made as quickly as possible.

CHAMBER OF COMMERCE TO MOVE TO HOWELL BLDG.

The Scurry County Chamber of Commerce yesterday secured a five-year lease on the Howell building, formerly occupied by the Shull Variety Store, and Secretary Scott will move the offices of the organization to the new location October 1.

According to Mr. Scott, the Snyder Retail Merchants Association will also move its office headquarters to this building, as will the City Council.

ABILENE PRESBYTERY TO MEET IN SNYDER

With Rev. J. Wood Parker as moderator, Rev. E. C. Lambert as pastor host, and Rev. Fred S. Rogers as stated clerk, the Presbytery of Abilene will get under way at Snyder next Tuesday and Wednesday.

Principals among the speakers here for the meeting will be Rev. T. J. Bryant, Anson; Dr. E. B. Surface and R. L. Bland, Abilene; Rev. G. D. Robison, Lubbock; Rev. J. A. Owen, Albany, together with a host of widely known state and nationally known speakers.

Reciting that "The Field is the World," the meeting at Snyder promises to be one of the biggest ever held in the Presbyterian annals of West Texas.

The Jack Carnes residence fire brought out a full quota early yesterday morning. The fire department responded so readily that

VOTE FOR YOUR FAVORITE AND MAKE HER DREAMS COME TRUE

BIG VOTE OFFER CLOSES SATURDAY NIGHT AT 9 O'CLOCK; LONG TERM SUBSCRIPTIONS WILL SEAT YOU IN THE CHEVROLET CARS.

"OPPORTUNITY BECKONS!"

Saturday night at nine o'clock the greatest vote offer given during the entire subscription campaign now being conducted by the Scurry County Times-Signal will close. Never again will you have the opportunity to receive such great vote gains as will be given during the first vote period that closes Saturday night.

NAME	TOWN	VOTES
Miss Pearl Bryant	Snyder	165,000
Gertrude Caswell	Hermleigh	180,200
Manie Lee Clark	Snyder, Rt. 2	199,800
Martha Gray	Snyder	187 000
Hazel Holladay	Ira	191,800
Mrs. J. Johnston	Snyder	181,000
Faye Joyce	Snyder	169,000
Mrs. Thomas H. Lee	Snyder	185,000
Mrs. J. A. Martin	Polar	181,400
Mrs. Jim Norred	Dunn	187,400
Vera Stavely	Fluvanna	198,900
Mable Turner	Snyder, Rt. 2	57,200

These names are arranged in alphabetical order. Votes were compiled September 3rd.

Twenty-seven days more and the campaign will close, then comes the awarding of the many handsome prizes including two late model fully equipped Chevrolet cars, valued at $735 each.

The vote showing as listed in this week's Times-Signal gives you some idea as to the standing of the contestants who have reported their business to this department.

All you need do is consult your vote schedule that will convince you of the need for a few long term subscriptions if you really feel sincere in winning one of the two Chevrolet cars. Think what a ten year subscription will do if turned in by Saturday night; 175,000 votes will be given with every ten year subscription. Surely you have a few friends who, if properly approached, will gladly give you a

TODAY'S VOTE STANDING

In order that this campaign will be conducted honestly and intelligently, the rules state plainly that contestants can retain a vote reserve other than the vote published.

However today's vote standing that was compiled Tuesday gives a fair standing of the votes that have been issued to the contestants.

The vote given today is very moderate considering the handsome prizes to be given free by the Scurry County Times-Signal October 5.

With only a few weeks to go, you can better your chances of success by getting a few long term subscription orders when votes are greater.

ten-year subscription.

Surely you do not want to finish in last place, whereas, had you used just a little tact you could seat yourself in one of the two Chevrolets. The honor of winning the first grand prize must be taken into consideration to say nothing of the Chevrolet prize. Your many friends are hoping for your success and will vote for you with confidence before the contest closes October 5, 1929.

Every subscription you get before Saturday night if only for one year, will give you greater vote margins, while on the other hand the longer term subscriptions can seat you in the Chevrolet.

Today's list of contestants gives the name of Miss Pearl Bryant, a popular Miss of Snyder who has entered the campaign with the sincere purpose of winning one of the Chevrolets. There is no doubt but that Miss Bryant will add pep and enthusiasm to the campaign. She knows that it takes enthusiasm, so it might be well for other contestants to pep up. That will in turn enthuse your friends.

So far the vote showings of the contestants are what might be termed only fair. If at this time you will consult your booster friends, telling them of the long term subscription orders, I am sure you can get five ten-year subscriptions by Saturday night. The large amount of 875,000 votes will be granted on same. There is no good reason to wait for the last

OPPORTUNITY IS YOURS

With the big vote offer to close Saturday night at NINE O'CLOCK, your greatest opportunity to receive one of the Chevrolets is now at hand.

You have been reminded from time to time regarding the great vote gains to be made by getting long term subscription orders.

175,000 votes are given with every 10-year subscription. Surely your good friends will subscribe to the Times-Signal if you explain to them the value of the long term orders.

Two Chevrolets valued at $735, fully equipped, are not to be had every day just for the asking.

week in getting your long term subscriptions, as you will be losing votes in doing so. There is at this time just a slight difference in the vote standing. The contestant behind today can be ahead tomorrow by getting a few long term subscriptions.

The office of the Times-Signal will remain open Saturday evening until nine o'clock. All contestants living in Snyder and nearby territory must report at this hour. Out of town contestants can report their business by mail. That will be in keeping with the rules and regulations.

Again I repeat, long term subscriptions, if handed in by Saturday, will be a great help in seating you in one of the two Chevrolets.

W. W. SMITH HAS NARROW ESCAPE IN COLORADO ON TRIP

W. W. Smith, the popular agent for the American Railway Express Co. here, had a narrow escape last week while on his vacation trip in Colorado, when he slipped and fell into a rushing torrent of ice cold water, was knocked unconscious and came near drowning in 25-foot water.

Mr. and Mrs. Smith and son, Wallace, Mrs. J. H. Doss and children of Weatherford and Miss Elizabeth Knox of Dallas were vacationing in Estes Park north of Boulder when the accident occurred. The party, seeing a beautiful spot on the Casam river, decided to make some kodak snaps. Mr. Smith, in an attempt to cross a small gap to a vantage spot, slipped and fell, striking his head on a rock, rendering him unconscious. The rushing water carried him over a 20-foot precipice into water said to be 25 feet deep. Evidently regaining consciousness, Mr. Smith swam out, but lapsed into unconsciousness again. He was taken to a hospital at Estes Park, where it took seven hours to restore circulation. After remaining in the hospital two days, Mr. Smith was able to resume the trip, and the party arrived in Snyder last Friday.

Truss Well Tops Salt

The Cottingham & Briscoe Truss No. 1 well, south of Fluvanna, topped the salt at 1,000 feet

LIONS MEET IN FIRST SESSION OF THE FALL SEASON

Decide to Change Name to Business Men's Luncheon Club; 15 Are Present

The Lions Club met yesterday noon at the Manhattan Hotel for the first luncheon of the fall season after having been disbanded for about three months.

Fifteen business men were present at the initial meeting. In order to be able to take in a larger number the body decided to change the name of the club to Business Men's Luncheon Club. Meetings will be held each Wednesday noon as usual, and the same officers as were elected last spring will preside in the new club.

INSTALLS NEW SEED HOPPER AT LOCAL GIN

In preparation for the cotton season that is just now opening up, the Lambeth-Ely-Arnold gin is this week making a few improvements, one of which is the installation of a new Lummus Seed Hopper between the main plant and the seed house. This will enable farmers to return to the scales after ginning and check up their turnout and then return for their seed without losing any time. The old hopper has not been removed but will be used by those who want their seed as soon as the seed cotton is taken from the wagon.

Rev. Lipscomb Bringing Great Messages Here

Local Congregation Enjoys Work of Presiding Elder in Revival

The work of Rev. L. N. Lipscomb, presiding elder of the Sweetwater District, in the revival services of the First Methodist Church here has been noteworthy. Sunday evening, with all other churches closed and joining with the Methodists, the seating capacity of the church was fully taxed, and no seats were available.

The revival services will continue for the balance of this week.

E. D. Curry, musical director of the church, is conducting the music, and special numbers are being rendered at every service.

The young people are holding meetings each evening at 7:30 immediately before the regular service which begins at 8 o'clock. The ladies meet each morning for their prayer service at 9:30.

The revival services will continue for the balance of this week.

Naming Streets, Marking Houses Now on Program

Mayor Towle and City Council Asking for Bids for Construction

According to advice from Mayor H. G. Towle and City Council, at a called meeting held last week, the naming and marking of Snyder streets was brought up by the engineer. Bids will be advertised and quick action may now be expected on a project, originally started here by the Business and Professional Womens Clubs.

The City Council has taken time by the forelock and made an exhaustive study of the problems confronting towns who have taken upon themselves the marking of streets. Permanency of markers will be emphasized here in Snyder, thanks to Mayor Towle and the council. Signs will be imbedded in concrete and bids that will be offered will be further watched for the latest improvements in iron signs.

The engineer has announced that all Snyder streets running east and west will be numbered First street, Second street and so on until 33rd street is reached at the western corporation limits. Streets that run south and north will be named as avenues, starting at A and continuing through the alphabet, ending with Z, and according to Mayor Towle there are but 26 north and south streets fully using up the complete letters of the alphabet.

But with the new improvements completed and the addition of a few paved sidewalks, Snyder will be in position to ask for free mail delivery, made possible through the pioneer efforts of the Business and Professional Womens Club, the cooperation of the citizenry in paying the $1 fee for house numbers, and the quick activity of City Council. Congratulations are due every way.

Hermleigh's Schools to Open

The '29-30 session of the Hermleigh school opened Monday morning. Superintendent Kerr is elated over the prospects for a record-breaking school this session. Everything seems to be in its place, every one is in good spirits, and school started off in a good way, said the Herald.

The faculty is as follows: Superintendent Kerr, science; Principal T. B. Hicks, mathematics; Miss Callis, English; Miss Verna Couch, history and Spanish; Mrs. E. C. Patterson, seventh grade; Miss Opal Sloan, fifth and sixth grades; Miss Faye Joyce, fourth and fifth grades; Mrs. Duncan, second and third grades; Miss Perle Martin, first and second grades.

The school board, F. A. Werner, president, has succeeded in securing for the school this year what is considered the strongest faculty in the history of the school.

SWEETWATER BANKER ARRESTED IN "SHORTAGE"

Oscar Pate, cashier of the City National Bank of Sweetwater, Saturday night was arraigned before the United States commissioner on embezzlement charges.

Pate went to Abilene unattended to appear before the commissioner, Mrs. Isa M. James. The complaint was lodged by Baylor Crawford, United States Deputy Marshal, who said he was acting on instructions from Norman A. Dodge, Federal District Attorney at Fort Worth.

E. C. Brand, vice president of the Sweetwater bank, who conferred with Pate after the latter had been taken into custody, said a check of the institution's books "revealed a shortage of approximately $70,000." The bank is covered by insurance

Rich Cattleman And Scurry Co. Pioneer Dies

EUGENE W. CLARK, OWNER OF RANCH NEAR POLAR, ANSWERS LAST CALL

Friends of many years were notified here last Thursday of the passing of Eugene W. "Shorty" Clark, 69, pioneer cattleman and capitalist at his home in Fort Worth. He had owned a ranch for many years that is located near Polar.

For approximately 26 years Mr. Clark has maintained his home in Fort Worth but during that period has spent considerable time on his West Texas ranches. He was known as a man whose wealth was the result of hard labor during the pioneer days of this state. The first few dollars which he earned, some of which were saved for his start as a cattleman, were made as a clerk in a dry goods store and as a cowboy.

Born in Denton county, Mr. Clark as a youth went into New Mexico to work as a cowboy. He was employed on the famous Chisum ranch and later on the George W. Littlefield ranch, both in New Mexico.

Interests at Midland and Post

Later he went to Midland. Then he began trading in cattle, partly from the funds he had earned as a ranch hand. As a cattle trader success crowned his efforts.

In 1901 he and W. E. Connell of Fort Worth purchased the Frank and A. J. Lang ranch near Post which was known as the O S ranch. This partnership continued for a number of years when Clark sold his interests to Connell.

Then Clark purchased a ranch in Kent and Scurry counties which he owned at the time of his death. This ranch consists of more than 10,000 acres.

Was Burk Burnett Trustee

Mr. Clark became well known as a raiser of fine cattle. During his early days as a ranchman he found the value was in rasing thoroughbreds rather than longhorns, and specialized in Herefords. At times he had as many as 1,000 registered white-faced animals on his ranch.

For about 25 years Mr. Clark was joint trustee in the estate of the late Captain Burk Burnett, valued at several millions of dollars. He was a director in both the First National Bank and the Cicero Smith Lumber Company of Fort Worth.

He is survived by his wife, two daughters, Mrs. Frank Mullins, Vernon, and Mrs. William Short, Jr., Fort Worth; two brothers, Luther Clark, Quanah, and Sidney Clark, Arlie; and a sister, Mrs. D. L Painter, Gainesville.

Battle For Life Lost By Risinger

Youthful Accident Victim Claimed By Death After Ten-Day Fight

Funeral services for Alvin P. Risinger, 20-year-old Texas Technological college student, were held Thursday afternoon at 1:30 o'clock at the First Baptist church with Dr. W. R. White, pastor, officiating. Burial was made at Snyder, former home of the youth, at 6 o'clock that evening, says the Lubbock Avalanche. Reverend Carr performed the burial service here.

Death came Wednesday afternoon culminating a ten-day battle for life following injuries received in a motorcycle accident on the night of Aug. 18.

Four Brothers Survive

Survivors are four brothers, Oscar Risinger, White Water, Wis.; Thad Risinger, Madison, Kans.; Dr. M. M. Risinger, Roscoe, and L. V. Risinger, Lubbock; and two sisters, Mrs. L. N. Shirley, Amarillo, and Mrs. W. A. Smith, Purnela.

Both the parents are buried at Snyder.

The youth sustained a crushed skull and other injuries when he fell against a curb in the 1900 block on 19th street, after his motorcycle had struck Joe Lowrimore, pedestrian.

Pallbearers were: W. L. Pearson, Seth T. Moore, Hal D. Yoder W. N. Jenkins, Arthur L. Chase, Ronald C. Tom and S. M. Bagwell. All of these came to Snyder for the burial.

Honorary—Marlin Karnes, Dewey Threadgill, Harris Boles, G. C. Hill, Ernest Sullivent, Otto Flynn, Wade Anthony, Alpha Wiggins, Emmitt Burchett, Bernard Bogan, Jone Mabrey, Ira Hendrick, Tommy Hendrick, T. G. Hendrick, C. L. Williamson, Jack Kelly, all motorcycle companions of young Risinger.

WALTER LECHNER TO DRILL NEW IRA WELL

Walter Lechner, formerly manager of the Humphries interests in this section, has announced a new drilling site for the Boyd-Lechner interests near Ira, in the center of the northeast quarter of Section 114, Block 97. The rig is already up and drilling will begin by September 15, according to the contract.

Mr. Lechner is one of the pio-

"Dad" Collier Dies Suddenly Yesterday P. M.

Hundreds of Scurry County Friends Mourn With Family in Loss

O. R. Collier, known familiarly to most every county resident, died suddenly yesterday afternoon at his home in North Snyder. He had been feeling bad all day, having gone home from the Towle jewelry store yesterday morning. Heart trouble is thought to have caused his sudden death.

Known to his closest friends as "Dad", Mr. Collier since coming here several years ago to be in the employ of H. G. Towle, had endeared himself to all with whom he came in contact. Besides the wife, three daughters and one son are left to mourn the departure of a truly sincere and lovable character.

Unless other arrangements are made pending the arrival of two sisters, the funeral for Mr. Collier will be held this afternoon at the Odom Funeral Home.

Snyder Schools To Open Next Monday A. M.

The Snyder Public Schools will open next Monday morning, Sept. 9. High school students are expected to register this Friday and Saturday. All Freshmen, along with Juniors and Seniors are to report Saturday morning.

Monday will be organization day and registration of those who were unable to report on the days specified. Books will be issued opening day with the formal opening of the school Wednesday morning in the auditorium which will be the first general assembly of the student body. Parents and patrons are urged to be present.

The complete roster of faculty and grade teachers appeared in last week's Times-Signal. The football training camp continues at the Country Club until Saturday. Announcements regarding the high school band will appear shortly.

School Ruling On 6-Year-Olds Is Explained

Information has been received in Snyder explaining the new 6-year-old ruling for the Independent School District and it is urged that all parents enter their children at once to avoid congestion.

Any child who becomes 7 years of age before Sept. 1 may enter school free. Any child who becomes 6 years of age before Sept. 1 may enter school at the beginning of the term by paying tuition at the rate of two dollars per month until the child becomes 7.

Beginners shall not be admitted into the school after the first six weeks of the first term unless home training has been sufficient to prepare the pupil to make up the work and carry on with the class. This must be determined by the supervisor of elementary grades.

Free Tuition in 1930

The new law admitting 6-year-old children to free school does not become effective until September, 1930.

Any patron wishing to enter a child not yet 7 years of age on Sept. 1, must call at the office of the secretary, and make affidavit to the child's age before entering. There is no charge made for this affidavit. The affidavit is then presented to the principal of the school where the child is to attend, and the tuition is paid there. The tuition may be paid all at once, which is preferable, or monthly, in advance.

It will be a great convenience to the patron, as well as to the secretary's office, if patrons will call at once and attend to this matter, and not wait till the last day when the office will be crowded.

TRICE GINS READY FOR THE 1929 COTTON CROP

Having recently made a thorough re-conditioning of their two gins, Jeff Trice and A. H. Trice are prepared for the cotton season. The Times-Signal recently printed a lot of gin tickets and stationery for these gin men. They have an ad in this issue of the paper.

When asked how long he had been in the gin business, A. H. Trice said: "I have been in ginning business 46 years and surely ought to know how it's done. But with the advent of new machinery and varying agricultural conditions, there is always something to learn." The Trice gins have been in Snyder six years.

Mrs. George Webb and baby daughter of Big Spring were the guests of relatives here last week.

NO permanent fortune can be built without hard work, self-denial—and systematic saving.

Congratulations to Snyder and Scurry County Schools in their opening.

THE BANK FOR EVERYBODY

A GROWING BANK

FRIENDLY

the home of Mr. and Mrs. W. D. Beggs.

Mr. and Mrs. A. M. Curry and two daughters, accompanied by L. B. Teague, returned home from Waxahachie last week. While away Brother Curry worshipped with his old Sunday school at Sardis, of which he was superintendent for 26 years.

The many friends of Mr. and Mrs. W. L. Shaw and daughter, Miss Jonnylee, will regret hearting of their removal to Canyon, but hope their residence there is happy and satisfactory and that at no late date they will again return to Snyder where a fine welcome always awaits them.

Geologists at the Truss No. 1 well, Monday, stated that in their estimation the lime formation would be struck before the 2,000-foot level. They were drilling at over 1,400 feet that day.

Miss Frances Lawlis of Sweetwater is the house guest of Miss Jeanette Lollar this week.

Mr. and Mrs. Glen Sample and family retruned home Saturday from a trip to Carlsbad, N. M.

Mr. and Mrs. Jason Harris and family of Sweetwater were guests of Mrs. T. L. Lollar Sunday.

Mrs. Lee Newsom and Miss Edith Grantham were visitors in Abilene Sunday.

R. L. Lowry spent Sunday in Lubbock.

Dr. A. C. Leslie and daughter, Miss Thelma, spent Sunday and Monday in Lubbock.

Miss Charline Ely is visiting friends in Slaton this week.

Miss Gertrude Caswell of Hermleigh was in the city Monday in the interest of the subscription contest of the Times-Signal.

Get Your Fair Premium List.

H. G. Towle and W. B. Stanfield attended the funeral of E. W. Clark in Fort Worth Friday.

Mrs. J. A. Martin of Polar was in the city Monday working on the Times-Signal subscription contest.

Mr. and Mrs. J. W. Greene were advised last week that a brother of Mrs. Greene's, J. O. Walling, 58, Pasadena, Calif., had died following a short illness.

Mrs. J. W. Greene, who has been on the sick list since her return from a visit at Albuquerque, is reported greatly improved.

The editor and family were dinner guests, Sunday, of Mr. and Mrs. Glenn Sample, both of whom were celebrating a birthday. Mr. Sample owned up to 45 years, but the Mrs. was a bit more reticent. But a good time was enjoyed and what was done to the chicken is best left unsaid.

Mr. and Mrs. George Brown of Slaton, were over-Sunday guests of relatives here. George is now "ram-rodding" for the Slatonite and doing a fine job of it.

Mr. and Mrs. Sam Hamlett returned home Sunday from their vacation trip to Ruidosa, Carlsbad and other New Mexico points.

Mrs. J. O. Rucker had as her guests last week Mrs. R. D. Harris and little son, Ralph, of Wilder, Kan. They left Friday for a visit in Abilene. They will also visit in Baird, Dallas, Grand Prairie and Fort Worth before their return home.

Mrs. Z. T. Champion and H. L. Champion returned Monday from McCamey where they were guests of Mr. and Mrs. Bob Champion for several days.

Mr. and Mrs. B. N. Hull and family and Mr. and Mrs. W. J. Hull and family of Rotan, Mr. and Mrs. E. B. Hull of Sweetwater, Mr. and Mrs. Ed Abbott of Lubbock spent Sunday here with Mrs. D. J. Hull.

Clayton Teague of McCamey spent the week-end with home folks here.

H. V. Williams returned from Wichita Falls Sunday where he has been visiting his daughters, Mrs. C. P. Fore, and Mrs. Al C. Flack, also his daughter, Mrs. D. C. Edwards, of Albany, and his brother at Bowie. He was accompanied hime by Mrs. C. P. Fore, John D. and Burton Fore and his son, H. V. Williams, Jr.

Mr. and Mrs. T. H. Bean and daughter, Miss Mary Etta, returned to their home in Amarillo Monday after a week's visit with their daughter, Mrs. Jesse Sellars.

Mrs. J. F. Lawlis and daughters, Misses Ruth and Frances, left Saturday for Sweetwater where they will make their home. Miss Ruth will teach school there.

Mrs. Walter Moore, Mrs. Claude Moore, Mrs. W. P. Moore and Ely Moore of Lampasas were guests of Mr. and Mrs. Jesse Sellars last Wednesday and Thursday.

Miss Mary Lawlis left Saturday for Lampasas where she will teach school.

Mrs. Claude Blevins and little son, Goerge, of Fort Worth, are guests of Mrs. Blevin's mother, Mrs. J. B. Taylor, this week.

Mr. and Mrs. W. J. Evans and Mr. and Mrs. John Winborne of Midland were guests of Mr. and Mrs. W. M. Richard and other relatives in Seminole over the week-end.

Miss Margaret Yoder visited friends in Dallas several days last week.

Mr. and Mrs. B. A. Hull of Dallas were guests of Mrs. D. J. Hull over the week-end.

Mr. and Mrs. Horace Elland of Stanton came Thursday for a visit with relatives here. They were accompanied by Royce Cherry Elland, who has been spending the summer with relatives in Stanton.

Mrs. B. H. West and children of Vernon arrived Friday and are the guests of Mrs. West's sister, Mrs. W. W. Hull.

Mr. and Mrs. A. A. Bullock and daughter, Mary Frances, were Lubbock visitors Tuesday.

Mr. and Mrs. W. T. Baze left Thursday morning with their daughter, Mrs. J. L. Suits, for a week's visit in the latter's home at Lorenzo.

Mrs. Earl McSpadden and little daughter, Dorothy Leah, Mrs. D. W. Curry and Miss Leah Beene of Teague were week-end guests of Mr. and Mrs. W. R. Patton.

Bill Falls of Wichita Falls visits relatives in Ira this week.

E. M. Deakins and daughter, Miss Margaret, returned home Friday from a three weeks' visit at Chattanooga, Pikeville and Lookout Mountain, Tennessee. They were accompanied home by Mr. Deakins' niece, Miss Pat Henry.

NOTICE!

CONOCO

"I was glad to see your sign as I rounded that curve . . . it's a STOP sign with me!"

A FRIEND YOU'RE GLAD TO MEET the CONOCO RED TRIANGLE

TOURING! Many are its petty annoyances—but many its pleasures! Much depends upon the way your car performs. If your motor hums along softly, smoothly, sweetly—all is well! And that depends mostly on your oil. That's the reason so many motorists greet the *Conoco* Red Triangle as a real friend.

They know it is a sure guide to oil that they can trust—*Conoco* Motor Oil! This motor oil has saved motor trouble in so many emergencies where the average oil simply would not stand the gaff. Motorists who know, always feel safer with *Conoco* Motor Oil. Seek the sign of the *Conoco* Red Triangle—and be sure.

Conoco Gasoline and Conoco Motor Oil are made by the Greater Continental Oil Company (the Mariand Oil Company combined with the Continental Oil Company) and sold at stations formerly handling Mariand products and Continental products. Look for the new *Conoco* sign.

The Snyder National Bank

Nearly a Quarter Century of Complete Banking Service

classified. New books were purchased, and on Saturday afternoon, March 22, 1924, the library opened its doors to the public.

Later we moved to our present location in the Township House, which is rent free and where heat and light are furnished. This room is on the first floor and centrally located. It is open on Saturday afternoons and members of the club serve as librarians without pay.

Our circulation increased at once. At the present time it averages 115 books per day. We have 418 names registered and 2,271 books listed. We also use the Traveling Library of 100 books from the State Library, which may be changed as often as needed.

The Library reaches both young and old, in an ever-widening circle; gives aid in preparing Sunday school lessons, loans package libraries to the elementary grades in our school, and supplies pleasant home reading. Each year the club earns money to purchase new books and although our library is small and needs a great many things to make it complete, it is of real service to our community.

Fire Inspector Sounds Warning Cotton Gin Fires

City Fire Inspector F. M. Bolin has received the following warning from the offices of the Texas State Fire Insurance Commissioner:

Fires in cotton gins cause a large annual loss in the United States each year, in some seasons amounting to $1,250,000.

1. CAUSES OF COTTON-GIN FIRES—Fires during the ginning process may be due to a number of causes, such as matches in cotton, static electricity, overheated bearings, friction between the saws and cotton stuck in the ribs, and sparks struck by the passage of metal and other foreign material through the equipment.

2. STATIC ELECTRICITY THE PRINCIPAL CAUSE OF FIRES—Static electricity is the principal cause of fires during the ginning process. In seasons when the greatest number of fires have occurred electrostatic charges have been abundant and troublesome. At such times the humidity was low, and the cotton being ginned was particularly dry and dirty — conditions ideal and necessary for the formation of charges of static electricity. These three conditions—low humidity, dry cotton, and dirty cotton—are essential for high electrostatic charges in the gin.

3. HOW TO ELIMINATE STATIC ELECTRICITY—Some ginners remove static electricity by hanging wet bagging in the building, some by wetting down the plant and grounds every day, or even twice a day, and others by injecting a little steam into the suction pipe in the direction of the flow of cotton. A few ground the machinery. To the surprise of many ginners, the effective operation of any one of these methods seemed to put an end to their trouble with fire.

4. THIRTEEN (13)RULES FOR PREVENTING FIRES IN COTTON GINS—The cotton ginner can render his plant practically immune from destructive fires if he will.

a. Thoroughly ground all metal and moving parts of the gin, thus eliminating the static electricity.

b. Educate the neighboring farmers and cotton pickers to keep the cotton as free as possible from matches and other foreign material.

c. Clean the plant thoroughly at least three times a week, thus freeing the premises from lint, through which fires spread.

d. Refuse to gin wet or, even damp cotton, which tends to hang in the ribs and to produce friction.

e. Keep the huller ribs and the gin ribs as clean as possible, and the saws sharp.

f. Clean out the condenser every night and after all fires.

g. Inspect all parts of the plant after closing, lest some hot box or smoldering cotton give rise to a fire.

h. Use automatic oilers on all bearings, thus preventing hot boxes and the dripping of oil from the boxes on accumulated lint or seed cotton.

i. Store no baled cotton on the platform or less than 100 feet from any building.

j. Prohibit smoking and carrying matches about the plant.

k. Keep all machinery in proper alignment.

l. Mark and segregate fire-packed gin bales.

M. Keep ample and efficient fire-fighting apparatus easily available at all times.

5. FIRE PROTECTION — Fire protection equipment in the gin may consist of water barrels, tanks, pumps, and pails; hose and standpipe connections to a water-pressure system; chemical extinguishers; and steam jets into gin stands, lint flue, cleaner, and pneumatic distributor.

Boosting Convention

H. H. Hill and W. C. Payne, special representatives of the El Paso Times and Herald, were Saturday visitors here in connection with the forthcoming West Texas Chamber of Commerce convention. The boys were making "Whooppee" over the big meeting to be held in their city and were full of compliments as to the manner in which their city would entertain all visitors.

Announcement has been made from Wayland College at Plainview that two Snyder boys are included in their football squad, namely, Fritz Smith, weight 170 pounds, and Charles Cauble, weight 172, both of whom are after a half back position. Wayland College fans will see two real hard-working gentlemen in these boys who won their football spurs on Snyder High battlefields and who were never found wanting.

Glad She Took Friend's Advice

"I am so happy over the wonderful benefits received from Sargon that I will always be grateful to my friends and relatives who insisted that I take it.

"For many years I suffered with stomach trouble. Everything I ate caused great distress. I even thought I had heart trouble. Biliousness caused such dizzy spells at times I though I was going blind. I had awful pains in my back, legs and arms and was so nervous I hardly ever got good sound sleep. I was always taking some strong laxative for constipation, but never got any real relief.

"Finally I started Sargon and Sargon Soft Mass Pills and my relief was almost immediate. My appetite is now splendid, I never suffer with indigestion and those terrible pains have gone. The pills regulated me perfectly and relieved my biliousness and constipation.

"I could talk all day and never praise Sargon half enough."—Mrs. Julia H. Mata, 2101 Commerce St., San ntonio.

Warren Drug Co., agents.

Proffesor: "If a person in good health but who imagined himself sick, should send for you, what would you do?"

That the progressive business concerns of a city take great pleasure in giving personal service. They know that humanizing their service will be appreciated by their customers.

That they believe that to have service dominate the activities of their business, the nearer they can become to being the kind of business that is indispensable and helpful to all, the nearer they will approach the ideals of their owners.

That their businesses, being founded upon high ideals of co-operation and service, mean great progress and development for all businesses in a city, and as business develops so will the city develop and grow.

That in the full spirit of service, the merchants of a progressive city are fully prepared with the newest and finest stocks of everything that can contribute to the comfort and happiness of every citizen, and they use continuous newspaper advertising so all may know.

That they offer goods of value and service.

That thinking people who have an interest in the growth and progress of the home city always patronize these business concerns.

They know spending their money in the home city means much in the progressive march of both the commercial and civic life of their city.

ELECTRIC NAIL LIFTER SECURES ROAD DEBRIS

According to Road Foreman Austin, the recent visit of the electric nail picker to Scurry County accomplished a great deal of good. It operated over 108 miles of county roads and secured more than a ton of nails, iron, can-ware and various other sundries that cause havoc to auto tires. The machine was taken to Howard County from this point.

A great deal of interest in some of the debris picked up from county roads was shown recently when Mr. Austin came down to show the Times-Signal force what it looked like. In no time a large crowd had congregated and was glad to know that county roads are now as clean as a china plate or a dog's tooth—and that helps.

THREE MEANS OF GRACE

A negro preacher walked into the office of a newspaper in Rock Mount, North Carolina, and said "Misto Edito', they is forty-three of my congregation which subscribe fo' yo' paper. Do that entitle me to have a chu'ch notice in yo' Saddy issue?"

"Sit down and write," said the editor.

"I thank you."

And this is the notice the minister wrote: "Mount Memorial Baptist Church, Rev. John Walker, pastor. Preaching morning and evening. In the promulgation of the gospel, three books is necessary: The Bible, the hymn book and the pocket book. Come tomorrow and bring all three."—The Christian Register.

She: "Every time I come to Minnesota I have to change to my heavy undies. You know, I'm from Mississippi."

He: "That so? I'm from Missouri."

She: "Sir!!!"

COMMUNITY PROJECTS

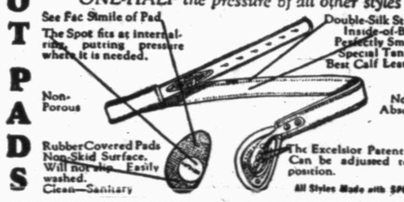

CLUB AND COMMUNITY WORK TOGETHER

For twenty-five years the members of the Alpha Club of Centerburg had been meeting the first Monday evening of each month from October to June, listening to programs, exchanging ideas and having a pleasant social time. All of this was enjoyable and profitable to the thirty members of the club, but they feit that they should do something that would help our community of 700 people, so a fund was started for a public library.

When we had earned $100 we canvassed the town for books, magazines and money. This plan brought in quite a collection of books and $25 in cash.

An upstairs room was rented for a small sum and with the help of a member of the State Library staff, these books were sorted and

FRIENDLY

the home of Mr. and Mrs. W. D. Beggs.

Mr. and Mrs. A. M. Curry and two daughters, accompanied by L. B. Teague, returned home from Waxahachie last week. While away Brother Curry worshipped with his old Sunday school at Sartis, of which he was superintendent for 26 years.

The many friends of Mr. and Mrs. W. L. Shaw and daughter, Miss Jonnylee, will regret hearting of their removal to Canyon, but hope their residence there is happy and satisfactory and that at no late date they will again return to Snyder where a fine welcome always awaits them.

Geologists at the Truss No. 1 well, Monday, stated that in their estimation the lime formation would be struck before the 2,000-foot level. They were drilling at over 1,400 feet that day.

Miss Frances Lawlis of Sweetwater is the house guest of Miss Jeanette Lollar this week.

Mr. and Mrs. Glen Sample and family retruned home Saturday from a trip to Carlsbad, N. M.

Mr. and Mrs. Jason Harris and family of Sweetwater were guests of Mrs. T. L. Lollar Sunday.

Mrs. Lee Newsom and Miss Edith Grantham were visitors in Abilene Sunday.

R. L. Lowry spent Sunday in Lubbock.

Dr. A. C. Leslie and daughter, Miss Thelma, spent Sunday and Monday in Lubbock.

Miss Charline Ely is visiting friends in Slaton this week.

Miss Gertrude Caswell of Hermleigh was in the city Monday in the interest of the subscription contest of the Times-Signal.

Get Your Fair Premium List.

H. G. Towle and W. B. Stanfield attended the funeral of E. W. Clark in Fort Worth Friday.

Mrs. J. A. Martin of Polar was in the city Monday working on the Times-Signal subscription contest.

Mr. and Mrs. J. W. Greene were advised last week that a brother of Mrs. Greene's, J. O. Walling, 58, Pasadena, Calif., had died following a short illness.

Mrs. J. W. Greene, who has been on the sick list since her return from a visit at Albuquerque, is reported greatly improved.

The editor and family were dinner guests, Sunday, of Mr. and Mrs. Glenn Sample, both of whom were celebrating a birthday. Mr. Sample owned up to 45 years, but the Mrs. was a bit more reticent. But a good time was enjoyed and what was done to the chicken is best left unsaid.

Mr. and Mrs. George Brown of Slaton, were over-Sunday guests of relatives here. George is now "ram-rodding" for the Slatonite and doing a fine job of it.

Mr. and Mrs. Sam Hamlett returned home Sunday from their vacation trip to Ruidosa, Carlsbad and other New Mexico points.

Mrs. J. O. Rucker had as her guests last week Mrs. R. D. Harris and little son, Ralph, of Wilder, Kan. They left Friday for a visit in Abilene. They will also visit in Baird, Dallas, Grand Prairie and Fort Worth before their return home.

Mrs. Z. T. Champion and H. L. Champion returned Monday from McCamey where they were guests of Mr. and Mrs. Bob Champion for several days.

Mr. and Mrs. B. N. Hull and family and Mr. and Mrs. W. J. Hull and family of Rotan, Mr. and Mrs. E. B. Hull of Sweetwater, Mr. and Mrs. Ed Abbott of Lubbock spent Sunday here with Mrs. D. J. Hull.

Clayton Teague of McCamey spent the week-end with home folks here.

H. V. Williams returned from Wichita Falls Sunday where he has been visiting his daughters, Mrs. C. P. Fore, and Mrs. Al C. Flack, also his daughter, Mrs. D. C. Edwards, of Albany, and his brother at Bowie. He was accompanied hime by Mrs. C. P. Fore, John D. and Burton Fore and his son, H. V. Williams, Jr.

Mr. and Mrs. T. H. Bean and daughter, Miss Mary Etta, returned to their home in Amarillo Monday after a week's visit with their daughter, Mrs. Jesse Sellars.

Mrs. J. F. Lawlis and daughters, Misses Ruth and Frances, left Saturday for Sweetwater where they will make their home. Miss Ruth will teach school there.

Mrs. Walter Moore, Mrs. Claude Moore, Mrs. W. P. Moore and Ely Moore of Lampasas were guests of Mr. and Mrs. Jesse Sellars last Wednesday and Thursday.

Miss Mary Lawlis left Saturday for Lampasas where she will teach school.

Mrs. Claude Blevins and little son, Goerge, of Fort Worth are guests of Mrs. Blevin's mother, Mrs. J. B. Taylor, this week.

Mr. and Mrs. W. J. Evans and Mr. and Mrs. John Winborne of Midland were guests of Mr. and Mrs. W. M. Richard and other relatives in Seminole over the week-end.

Miss Margaret Yoder visited friends in Dallas several days last week.

Mr. and Mrs. B. A. Hull of Dallas were guests of Mrs. D. J. Hull over the week-end.

Mr. and Mrs. Horace Eiland of Stanton came Thursday for a visit with relatives here. They were accompanied by Royce Cherry Eiland, who has been spending the summer with relatives in Stanton.

Mrs. B. H. West and children of Vernon arrived Friday and are the guests of Mrs. West's sister, Mrs. W. W. Hull.

Mr. and Mrs. A. A. Bullock and daughter, Mary Frances, were Lubbock visitors Tuesday.

Mr. and Mrs. W. T. Baze left Thursday morning with their daughter, Mrs. J. L. Suits, for a week's visit in the latter's home at Lorenzo.

Mrs. Earl McSpadden and little daughter, Dorothy Leah, Mrs. D. W. Curry and Miss Leah Beene of Teague were week-end guests of Mr. and Mrs. W. R. Patton.

Bill Falls of Wichita Falls visits relatives in Ira this week.

E. M. Deakins and daughter, Miss Margaret, returned home Friday from a three weeks' visit at Chattanooga, Pikeville and Lookout Mountain, Tennessee. They were accompanied home by Mr. Deakins' niece, Miss Pat Henry.

CONOCO

A FRIEND YOU'RE GLAD TO MEET the CONOCO RED TRIANGLE

TOURING! Many are its petty annoyances—but many its pleasures! Much depends upon the way your car performs. If your motor hums along softly, smoothly, sweetly—all is well! And that depends mostly on your oil. That's the reason so many motorists greet the *Conoco* Red Triangle as a real friend.

They know it is a sure guide to oil that they can trust—*Conoco* Motor Oil! This motor oil has saved motor trouble in so many emergencies where the average oil simply would not stand the gaff. Motorists who know, always feel safer with *Conoco* Motor Oil. Seek the sign of the *Conoco* Red Triangle—and be sure.

Conoco Gasoline and Conoco Motor Oil are made by the Greater Continental Oil Company (the Mariand Oil Company combined with the Continental Oil Company) and sold at stations formerly handling Mariand products and Continental products. Look for the new Conoco sign.

classified. New books were purchased, and on Saturday afternoon, March 22, 1924, the library opened its doors to the public.

Later we moved to our present location in the Township House, which is rent free and where heat and light are furnished. This room is on the first floor and centrally located. It is open on Saturday afternoons and members of the club serve as librarians without pay.

Our circulation increased at once. At the present time it averages 115 books per day. We have 418 names registered and 2,271 books listed. We also use the Traveling Library of 100 books from the State Library, which may be changed as often as needed.

The Library reaches both young and old, in an ever-widening circle; gives aid in preparing Sunday school lessons, loans package libraries to the elementary grades in our school, and supplies pleasant home reading. Each year the club earns money to purchase new books and although our library is small and needs a great many things to make it complete, it is of real service to our community.

Fire Inspector Sounds Warning Cotton Gin Fires

City Fire Inspector F. M. Bolin has received the following warning from the offices of the Texas State Fire Insurance Commissioner:

Fires in cotton gins cause a large annual loss in the United States each year, in some seasons amounting to $1,250,000.

1. CAUSES OF COTTON-GIN FIRES—Fires during the ginning process may be due to a number of causes, such as matches in cotton, static electricity, overheated bearings, friction between the saws and cotton stuck in the ribs, and sparks struck by the passage of metal and other foreign material through the equipment.

2. STATIC ELECTRICITY THE PRINCIPAL CAUSE OF FIRES—Static electricity is the principal cause of fires during the ginning process. In seasons when the greatest number of fires have occurred electrostatic charges have been abundant and troublesome. At such times the humidity was low, and the cotton being ginned was particularly dry and dirty — conditions ideal and necessary for the formation of charges of static electricity. These three conditions—low humidity, dry cotton, and dirty cotton—are essential for high electrostatic charges in the gin.

3. HOW TO ELIMINATE STATIC ELECTRICITY— Some ginners remove static electricity by hanging wet bagging in the building, some by wetting down the plant and grounds every day, or even twice a day, and others by injecting a little steam into the suction pipe in the direction of the flow of cotton. A few ground the machinery. To the surprise of many ginners, the effective operation of any one of these methods seemed to put an end to their trouble with fire.

4. THIRTEEN (13) RULES FOR PREVENTING FIRES IN COTTON GINS—The cotton ginner can render his plant practically immune from destructive fires if he will.

a. Thoroughly ground all metal and moving parts of the gin, thus eliminating the static electricity.

b. Educate the neighboring farmers and cotton pickers to keep the cotton as free as possible from matches and other foreign material.

c. Clean the plant thoroughly at least three times a week, thus freeing the premises from lint, through which fires spread.

d. Refuse to gin wet or even damp cotton, which tends to hang in the ribs and to produce friction.

e. Keep the huller ribs and the gin ribs as clean as possible, and the saws sharp.

f. Clean out the condenser every night and after all fires.

g. Inspect all parts of the plant after closing, lest some hot box or smoldering cotton give rise to a fire.

h. Use automatic oilers on all bearings, thus preventing hot boxes and the dripping of oil from the boxes on accumulated lint or seed cotton.

i. Store no baled cotton on the platform or less than 100 feet from any building.

j. Prohibit smoking and carrying matches about the plant.

k. Keep all machinery in proper alignment.

l. Mark and segregate fire-packed gin bales.

M. Keep ample and efficient fire-fighting apparatus easily available at all times.

5. FIRE PROTECTION — Fire protection equipment in the gin may consist of water barrels, tanks, pumps, and pails; hose and standpipe connections to a water-pressure system; chemical extinguishers; and steam jets into gin stands, lint flue, cleaner, and pneumatic distributor.

Boosting Convention

H. H. Hill and W. C. Payne, special representatives of the El Paso Times and Herald, were Saturday visitors here in connection with the forthcoming West Texas Chamber of Commerce convention. The boys were making "Whooppee" over the big meeting to be held in their city and were full of compliments as to the manner in which their city would entertain all visitors.

Announcement has been made from Wayland College at Plainview that two Snyder boys are included in their football squad, namely, Fritz Smith, weight 170 pounds, and Charles Cauble, weight 172, both of whom are after a half back position. Wayland College fans will see two real hard-working gentlemen in these boys who won their football spurs on Snyder High battlefields and who were never found wanting.

Glad She Took Friend's Advice

"I am so happy over the wonderful benefits received from Sargon that I will always be grateful to my friends and relatives who insisted that I take it.

"For many years I suffered with stomach trouble. Everything I ate caused great distress. I even thought I had heart trouble. Biliousness caused such dizzy spells at times I though I was going blind. I had awful pains in my back, legs and arms and was so nervous I hardly ever got good sound sleep. I was always taking some strong laxative for constipation, but never got any real relief.

"Finally I started Sargon and Sargon Soft Mass Pills and my relief was almost immediate. My appetite is now splendid, I never suffer with indigestion and those terrible pains have gone. The pills regulated me perfectly and relieved my biliousness and constipation.

"I could talk all day and never praise Sargon half enough."—Mrs. Julia H. Mata, 2101 Commerce St., San ntonio.

Warren Drug Co., agents.

Proffesor: "If a person in good health, but who imagined himself sick, should send for you, what would you do?"

Did you ever stop to think

by EDSON S. WAITE
Shawnee, Okla.

That the progressive business concerns of a city take great pleasure in giving personal service. They know that humanizing their service will be appreciated by their customers.

That they believe that to have service dominate the activities of their business, the nearer they can become to being the kind of business that is indispensable and helpful to all, the nearer they will approach the ideals of their owners.

That their businesses, being founded upon high ideals of co-operation and service, mean great progress and development for all businesses in a city, and as business develops so will the city develop and grow.

That in the full spirit of service, the merchants of a progressive city are fully prepared with the newest and finest stocks of everything that can contribute to the comfort and happiness of every citizen, and they use continuous newspaper advertising so all may know.

That they offer goods of value and service.

That thinking people who have an interest in the growth and progress of the home city always patronize these business concerns.

They know spending their money in the home city means much in the progressive march of both the commercial and civic life of their city.

ELECTRIC NAIL LIFTER SECURES ROAD DEBRIS

According to Road Foreman Austin, the recent visit of the electric nail picker to Scurry County accomplished a great deal of good. It operated over 108 miles of county roads and secured more than a ton of nails, iron, can-ware and various other sundries that cause havoc to auto tires. The machine was taken to Howard County from this point.

A great deal of interest in some of the debris picked up from county roads was shown recently when Mr. Austin came down to show the Times-Signal force what it looked like. In no time a large crowd had congregated and was glad to know that county roads are now as clean as a china plate or a dog's tooth—and that helps.

THREE MEANS OF GRACE

A negro preacher walked into the office of a newspaper in Rock Mount, North Carolina, and said "Misto Edito', they is forty-three of my congregation which subscribe fo' yo' paper. Do that entitle me to have a chu'ch notice in yo' Saddy issue?"

"Sit down and write," said the editor.

"I thank you."

And this is the notice the minister wrote: "Mount Memorial Baptist Church, Rev. John Walker, pastor. Preaching morning and evening. In the promulgation of the gospel, three books is necessary: The Bible, the hymn book and the pocket book. Come tomorrow and bring all three."—The Christian Register.

She: "Every time I come to Minnesota I have to change to my heavy undies. You know, I'm from Mississippi."

He: "That so? I'm from Missouri."

She: "Sir!!!"

COMMUNITY PROJECTS

CLUB AND COMMUNITY WORK TOGETHER

For twenty-five years the members of the Alpha Club of Centerburg had been meeting the first Monday evening of each month from October to June, listening to programs, exchanging ideas and having a pleasant social time. All of this was enjoyable and profitable to the thirty members of the club, but they felt that they should do something that would help our community of 700 people, so a fund was started for a public library.

When we had earned $100 we canvassed the town for books, magazines and money. This plan brought in quite a collection of books and $25 in cash.

An upstairs room was rented for a small sum and with the help of a member of the State Library staff, these books were sorted and

THE GOVERNOR'S RACE

Editor John L. McCarty of the Dalhart Texan in a wise editorial last week told some truths that are eminently worthy of reprint not only here but in every section of the state.

Taking his asbestos typewriter together with paper of the same make, Editor McCarty wisely said:

"With the time to elect a governor a year away, a half dozen or so of our state's persistent office seekers are beginning to thunder their candidacy for the highest office this state has to offer. All of this happening on the heels of the recent defeat of the amendment to the constitution to increase the governor's salary from $4,000 to $10,000 makes the average voter wonder what is wrong.

"Thus far Texas politics have been more or less based on hate, spite and political trivalities. Texas, being a big, slumbering giant, with a heavy per cent of its voters living on the starvation farms and towns of East and Central Texas, has never been able to give voice to its better sentiments and higher aspirations. It is to be regretted that the political prejudice and the two-bit politicians ofEast and Central Texas cannot be brought into the highlands of West Texas and given air—pure, refreshing, clean ozone that would either bring about a great improvement or eject the undesirable odor.

"Why any man in Texas big enough to hold the governor's chair would make the race for the $4,000 annual pittance and for the muck-raking abuse and mud-slinging program the candidacy calls for, is beyond the comprehension of most everyone. There must be something in the office besides the salary and glory for the average gubernatorial candidate to be bellowing his head off to stir up hate, spite and prejudice. In looking over the list of those offering for the office we find old political warhorses who have contributed to the muddle of inefficiency, graft and cumbersome laws we have.

"The more we see of politics in the heavy voting centers, the more we are in favor of splitting grand old Texas in some way so that the progressive, intelligent, forward-thinking citizens of West Texas may have an opportunity to go ahead without the burden of the dullards that feed on strife and hatred and prejudice. In other words, West Texas would not elect the kind of a man a $4,000 salary would attract. West Texas would not then continue to pay tribute to the negroes and the poor white trash of the swamps, the sandhills and the shinoak country, nor take the dictation and the yoke their illiterate vote of hate forces upon this section."

Reporter: "In what state were you born, professor?"

Professor: "Unless my recollection fails me, in the state of ignorance."

Reporter (scribbling): "Yes, to be sure. And how long have you lived there?"

There are 63,836,182 miles of telephone wire in the United States, Germany having the second largest number with 10,680,000. Paraguay has but 138 miles of wire.

THE TOWN DOCTOR
"DOCTOR OF TOWNS" SAYS

WHY DOES A MULE STICK HIS HEAD THROUGH A FENCE?

You have seen many a mule reaching for grass on the other side of the fence. He gets his ears stuck, his neck scratched and his throat cut up, when there is just as much, just as green, and just as high and luxuriant grass right under his very hoofs. Did it ever occur to you to ask the question why he does that? There is a reason—it's because he's a mule.

The same logic and reasoning applies to people in many communities who insist on buying their needs in some other town, from peddlers, or from mail order houses.

Now, do not misunderstand—this is written with only the intent of placing blame where blame is due. Not now, nor at any other time, does this writer overlook your side of the question.

There are many merchants who do not deserve your consideration—but which ones do and which ones do not? There's no law of statute or reason that even implies that you should buy anything from any merchant, if that merchant is so behind the times, or is of a disposition that he does not tell you what he has to offer and how, invite you to buy it and give you a "reason why" you should buy it from him in preference to anyone else, whether that anyone else be local, in some other town, a mail order house, or a peddler.

The only way for you to be sure of those who are deserving is to give your local merchants a chance to serve you. Then, if they do not do their part, that's different.

A merchant that does not go out of his way to get what you think you want; that does not arrange his store and his stock, train his help and create an atmosphere to please; the merchant that does not sell you the way you want to be sold, who continually cries about business and still does nothing to please, satisfy and serve you, when he has the chance—that merchant is not deserving.

You make your own money—it is yours, and you have a right to spend it where you please, with whom you please and for what you please, but stop and consider your condition if the community were taken away from you. The community can get along without you, but if the community were completely taken away from the source of your income, then what?

It is a business proposition. Every time you buy something for the same or more money, quality considered, from anyone or any place other than from your own community, it is costing you money.

Everybody laughs at a mule. So "Try The Home Folks First."

Oct. 5, Texas Christian University at Breckenridge.
Oct. 19, Daniel Baker at Brownwood.
Oct. 26, West Texas State Teachers at Amarillo.
Nov. 1, Southwestern University
Nov. 11, Trinity University at Waxahachie.
at Abilene.
Nov. 16, Austin College at Abilene.
Nov. 23, St. Edwards at Abilene.
Nov. 28, Texas Tech at Abilene.
Dec. 6, Howard Payne at Abilene.
Save this schedule for future reference.

Snyder, Texas,
Sept. 3, 1929.

To Whom Concerned:

On last Sunday evening, according to previous announcement, we made plain our position on the question of music in the church, on the plea that we desired a fair hearing and honest judgment. This could be done only by hearing our pronouncemnet from our own lips. Now, that it is all over, and many who could have come and did not, go out privily and seek to know what we said. This procedure can only work an injustice to us and an inadequate knowledge of the question which we seek to have settled upon a complete understanding of the scriptures. Such tactics will not only fail to do the scriptures justice, but will also tend to stir up discord, and we know that "God hates a maker of discord." Those who have a sincere desire to know our position, for the sake of truth unity instead of for criticism, will come to us personally. We are angry with no one, and our position will be given freely.

Yours for harmony and the truth,
THOMAS M. BROADFOOT.

DAL-PASO ROAD SHORTENS MILEAGE

According to officials of the Dal-Paso Cavern Highway Association, the recent grading and opening of the 18 miles directly west of the state line in New Mexico, has made a saving of 30 miles to the Caverns over this most direct route to the Caverns.

In addition to the tourist travel over this route for the Caverns tourist are coming over this highway as far west as Seminole for Ruidoso, Artesia, Cloudcroft, and other scenic points in New Mexico via Lovington northwest of Seminole, Texas, according to Judge R. W. Pitman, county judge of Gaines county at Seminole.

LIFE IN A SMALL TOWN

Life in a small town is wonderful. Your friends are numbered by your acquaintances. Eveyrone that lives within your town is your neighbor. They rejoice with you in your happiness, they are sympathetic when sorrow overtakes you. They are ever ready to assist you in your worthy undertakings, and help you to your feet when you stumble and start on the downward journey that leads to financial ruin, loss of friends, etc. They take a personal interest in your welfare and boost you up the ladder to success and happiness.

Life in the small town is wonderful. You know about everybody's business and everybody knows about yours, there are no secrets, the citizenship is composed of just one big family, so to speak.

Life in the city is different. You don't know who your next door neighbor is. You have no friends and very few acquaintances. They don't know when you are sick, well or dead. They take no personal interest in you whatever. You attend to your business, strictly, and they will attend to theirs. Your children play in their own back yard. Oh, yes, you can go out to the park and see the Monkeys, hear the band play, take a boat ride, etc., and pass off a few hours that way. But in the small town you can step across the street and visit a neighbor, learn all the gossip of the town, tell all you know, go down town and see what is going on, talk politics and tell yarns, talk about the crops, weather, etc., and that is a life worth living, where you can have that carefree feeling, call your friends by their first names, ask about the children, about the folks back home, etc.

CAFE BUYS EGGS LAID NEAR LUBBOCK

The Busy Bee Cafe last week bought three dozen eggs laid by Lubbock County hens. Ollie Morrow said they were no better than Scurry County eggs, but that one of his regular customers lives there and decided to bring him some eggs as he was passing through here last Saturday.

So the Lambeth-Ely Gin, which ginned and bought several bales of cotton raised in Crosby County last year, has nothing on Mr. Morrow, who claims to hold the record for buying small quantity lots of eggs from distant points.

R. B. Bryant and son, Jonnie, of Stamford were Monday guests of Manager A. V. McAdoo at the Bryant-Link store. Mr. Bryant was en route to Lamesa.

CHEVROLET

Facts *that* prove the Value of *The New* CHEVROLET SIX

The new Chevrolet Six is shattering every previous record of Chevrolet success—not only because it provides the greatest value in Chevrolet history, but because it gives you more for the dollar than any other car in the world at or near its price! Facts tell the story! Modern features afford the proof! Read the adjoining column and you will know why over a MILLION careful buyers have chosen the Chevrolet Six in less than eight months. Then come in and get a ride in this sensational six-cylinder automobile—*which actually sells in the price range of the four!*

Remarkable Six-Cylinder Engine
Chevrolet's remarkable six-cylinder engine impresses you most vividly by its sensationally smooth performance. At every speed you enjoy that silent, velvet-like flow of power which is characteristic of the truly fine automobile!

FISHER

Beautiful Fisher Bodies
With their low, graceful, sweeping lines and smart silhouette, their ample room for passengers and their sparkling color combinations and rich upholsteries—the new Fisher bodies on the Chevrolet Six represent one of Fisher's greatest achievements.

Outstanding Economy
The new Chevrolet Six is an unusually economical car to operate. Not only does it deliver *better than twenty miles to the gallon of gasoline*, but its oil economy is equal to, if not actually greater than, that of its famous four-cylinder predecessor.

Remarkable Dependability
In order to appreciate what outstanding value the Chevrolet Six represents, it is necessary to remember that it is built to the world's highest standards. In design, in materials and in workmanship—it is every inch a quality car!

Amazing Low Prices
An achievement no less remarkable than the design and quality of the Chevrolet Six is the fact that it is sold at prices so amazingly low! Furthermore, Chevrolet delivered prices include the lowest financing and handling charges available.

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Business Affairs

Our first bale of cotton for this season was put up last Wednesday by the Boren & Taylor gin. It was grown by Henry Fulford, weighed 470 pounds, brought 17¾ cents and a premium of $19.00. Although several other bales have been ginned since the one above mentioned, the crop is exceedingly short on account of the extreme dry weather.

R. L. Gray and W. R. Evans shipped a car each of beef cattle to the Fort Worth market Monday. In this connection we may mention the fact that engine No. 2 pulling these cattle scarcely got out of town when a flue bursted, compelling Engineer Williams to back up and wait for an engine from Roscoe. This caused a delay of some five hours.

The bit in the oil test well just south of Fluvanna passed the 1400 foot depth last Monday. Although there have been several hindrances lately, all was working well late Monday afternoon. Four strata of water have been encountered, the last one being salt.

County Commissioner H. C. Flournoy has recently had a much needed bridge put in on road leading south, one half mile from town. This well constructed bridge, with its elevated approaches, meets a long felt need. The fact that the work was done by W. G. Sims and Jim Mears insures a real good job.

Church Affairs

The meeting of the First Baptist Church, previously mentioned, is still in progress. Large audiences were in attendance last Sunday, especially at night.

We are authorized to announce that the Fluvanna Baptist Church will begin a meeting next Sunday, September 8. Rev. D. G. Wells is the pastor and will be assisted in the meeting by Rev. Graves Darby of Roscoe. Out of deference to these meetings the other churches are leaving off their regular services.

School Opens

On next Monday, September 8, the Fluvanna Independent School opens. Teachers are already mobilizing and getting ready for their work. The old building has been thoroughly overhauled and fitted up for a new start in educational work. New floors have been laid, new doors and windows have been put in, the walls have been replastered, and the wood work painted insomuch that the old building is almost as neat and good as if new.

It will, of course, be several months before the new building will be ready for occupancy. Such matters move slowly because of the fact that so many different people must play a part in bringing such an undertaking to its proper completion. While our board of trustees is working faithfully and harmoniously for the best interest of the school and community, nevertheless it is being paid off at frequent intervals in the coin usually incident to such occasions. Instead of grouching and criticising, it would be a lot better if all the people of this district would recognize the debt of gratitude due our trustees and go to them and express our appreciation of the services being rendered. How many stop to consider the fact that the service referred to is being rendered absolutely gratis?

Prof. Wedgeworth and Pro. McCarter, after spending the summer in further preparation for their important work, returned to Fluvanna Monday where they are being greeted by many friends.

A Birthday

Birthdays are neither strange nor infrequent, but the celebration of such occasions by the spreading of a feast and making merry is not quite so common. Such an affair, however, was the rich treat accorded Mrs. D. A. Jones the other day when sisters, sons and daughters (no doubt D. A., too) worked a ruce on the good lady of many summers (we have not been able to find out how many), got her away from home for the entire morning and then came in and took charge of the home, drew the spacious dining table to its full length and loaded it to capacity with good things to eat. Now think of the amazing surprise when the queen of that home returned at high noon and found her erstwhile locked residence wide open and literally humming with activity, laughter and merrymaking—all sorts of good wishes and congratulations ready to be heaped upon the rather bewildered recipient and the joyous "Come, for all things are now ready." This scribe is not able to further describe the occasion, but the reader will be able to imagine the rest.

Trips and Visits

Prof. W. M. Cavness and wife and daughter, Dorothy, and Nanna Bess and Virginia Egerton—the two latter of Snyder and the three former of San Marcos—were very unexpected but most welcome callers at the Tate home last Saturday afternoon. The Cavness family were residents of this county many years ago, but for the last fifteen years they have resided at San Marcos where Mr. Cavness is superintendent of the ward schools. Mr. Cavness was formerly a teacher in this county, and his wife, a daughter of G. C. and Mrs. Buchanan of Snyder, once taught the school of this community, then known as Light. That was thirty years ago. Naturally these good people—these "trail blazers"—wanted to come back, meet old friends and see something of what has been going on since they left us.

Will Beaver and Pat Jonse spent the latter part of last week in the western part of Texas on business.

Lee Bird of Kent County and Mr. Cogden of Cottle County were here last Saturday on business.

Mrs. J. W. Jackson and children of Snyder spent last week here visiting Claud Rea, a cousin, and other relatives.

Simon Best, wife and daughter of Snyder visited the R. L. Lightfoot family here last Sunday. Mr. Best is a brother of Mrs. Lightfoot.

H. H. Haynes and daughter, Nadine, spent the first of this week at Big Spring attending a family reunion and on business.

J. F. and Mrs. Dowdy spent the week-end at Olney visiting their daughter, Mrs. H. H. Benson, and family.

John A. Stavely and family and Miss Vera Stavely went to Lubbock last Sunday on a visit to their sister, Mrs. C. F. Landrum, who is critically ill. Miss Vera remained with the patient.

Strange Things

Pete Ainsworth has discovered a method of disposing of "used cars." He tried it out at the Wenner Garage the other day when he struck a match while the tank was being filled with gas. The plan worked well and quickly, for only the shell was left. Too bad, Pete.

A chill was sent down the spinal column of many auditors recently when a minister stated that "Woodrow Wilson did the people of this country more harm than any man this government ever put in the President's chair." Just why such a statement should ever have been dreamed of, much less declared, is one of the things "hard to be understood."

JAS. H. TATE.

DRY WEATHER OR POOR SOIL?

When the weather turns dry and crops are cut short we are apt to forget the relation between soil moisture and soil fertility.

Crop yields are going to be low in many sections this year for lack of rain. But the poorest crops will be found on the thinnest soil, the best crops on the fertile soil.

Notice where the fields have washed badly; there you find crops are short or have failed. Nearby on better land that has not washed, crops will be better.

Both fields had the same rainfall. The difference in yield is due to the difference in fertility. Lack of moisture reduced the yield on both, and ruined the crop on the thin soil.

In the early days in Oklahoma we talked of moisture as the limiting factor in crop production. It still is. But soil fertility in many counties is now of equal importance as a limiting factor.

Crops will be short because of dry weather, but on most of our land they will be a whole lot shorter because of thin soil.

Many can't control the rain but he can control the fertility of the soil he farms.—Clarence Roberts in September 1 Oklahoma Farmer-Stockman.

Giles Garner Poultry Farm Going Great

English White Leghorns Are Bringing Profits to Local Fancier

Giles Garner, with the world's record in his mitts for having the largest yield of wheat per acre, is coming fine with his poultry ranch west of Snyder. Recently, Giles gave the Times-Signal editor the sole duty of naming the new poultry ranch, which we promptly proceeded to do, styling it The Gil-Gar Poultry Ranch, and the owner seemed satisfied, and Artist A. E. Harvey will soon be placing that name on the new houses that Mr. Garner has erected to keep the pullets satisfied and laying regularly.

Mr. Garner has 2,200 of the finest thoroughbred stock English White Leghorns possible to buy at his ranch, with 65 roosters of the same stock. Of 500 pullets which became five months old August 27, Mr. Garner is now securing better than 400 eggs a day. This number will increase as soon as more housing room is provided for the hens, which is being done in the way of a house 32x48 feet, in addition to the one already constructed that is 36x72. By October 1 Mr. Garner figures that his pullets will be aggregating 1,500 eggs a day.

Scurry County folks who have not visited the Garner Poultry Ranch should do so, for he has a development there that is noteworthy in the diversification program that the county is sold upon, and which is making headway in every direction.

COUNTY SUPT. BULLOCK BACK ON THE JOB AGAIN

We are extremely happy to see County Supt. A. A. Bullock back on the job after his enforced vacation at Mineral Wells for the last three weeks. Pat was quite sick when he left here, but today he looks his own self, and it is truly good to see the smile, the good disposition and his own personality back in the county superintendent's office. Scurry County is happy indeed to have a man of the calibre and professional strength of Pat on the job, for this section takes no back seat in the state for an executive to head the rural school activities of this section.

"ALL ABOUT JESUS"

Is the subject to be studied throughout the year in what is hoped to be an ALL-CHURCH MEN'S BIBLE CLASS which was begun at the City Tabernacle last Sunday. This study will be non-sectarian and non-denominational throughout. It will begin with Genesis and cover the entire Old Testament scriptures, taking only those portions which refer to Jesus through picture, type or prophecy. It is one of the richest studies that can be gotten from the Book of books, its great tendency and purpose being to spiritualize those who take it.

In this course will be found the universal nature of the Christ as revealed in many hundreds of shadows and types and in more than two thousand prophecies pointing to Him. All who take it should bring their Bibles, notebooks and pencils, if they desire to get the most out of the study. Mr. Broadfoot, pastor of the First Church of Christ, ils conducting the study. Ministers as well as others not enrolled elsewhere are cordially invited to take part.

Mrs. Lois Miller of Abilene arrived Tuesday and is the house guest of Miss Dixie Ruth Smith.

Mr. and Mrs. W. M. Ledbetter of Abilene were house guests of Mr. and Mrs. J. C. Stinson last week-end.

Mrs. Ernest Sweet and two daughters of Blackwell are house guests of Mrs. Dixie Smith this week.

Judge and Mrs. Jas. P. Stinson of Abilene were Sunday guests of Mr. and Mrs. J. C. Stinson.

Mr. and Mrs. C. M. Cope and daughter of Long Beach, Calif., Mr. and Mrs. Russell Cope and daughter of Deming, New Mexico., Mrs. Wert Cope and baby of Roscoe, Orval Cope of Roscoe and Mrs. Morgan Garrett and children of Roscoe are guests of their parents, Mr. and Mrs. L. B. Cope, and their sister, Mrs. W. O. Trigg, this week. A reunion was held Tuesday at the home of Mr. and Mrs. Cope.

"Flies have caused more deaths than all wars," says Major Ransom of the Medical Department of the United States Army. "Since the fly came into the world it has been synonymous with epidemics of pestilence and disease." But with FLY-TOX it is a very simple easy matter to rid the house of flies—to keep it fresh and clean, free of insect taint. FLY-TOX is the scientific insecticide developed at Mellon institute of Industrial Research by Rex Research Fellowship. FLY-TOX has a perfume-like fragrance, is harmless to people. Simple instructions for killing ALL household insects on blue labeled bottles. —Adv. 12

BROTHER DIES AT MT. PLEASANT TUESDAY

Dean Cochran was notified by telephone yesterday morning that his brother, J. E. Cochran, died at Mount Pleasant Tuesday night. Accompanied by Grady Wallace, Dean left by automobile yesterday morning soon after receiving the message to attend the funeral which is being held there this afternoon. They will be back Friday.

When a man takes a patent medicine and it makes him feel like another man he ought to tell who the other man is.

PONTIAC BIG SIX

PRODUCT OF GENERAL MOTORS

Although Pontiac value has been world-famous ever since the first Pontiac appeared in 1926, it has remained for the Pontiac Big Six to prove the greatest value of them all—the first to introduce the "big car" idea into the low-priced field. BIG CAR PERFORMANCE based on the greatest combination of big car features ever offered at or near $745! BIG CAR BEAUTY—achieved by modish new Fisher Bodies in a variety of colors. BIG CAR COMFORT—due to roomy interiors, adjustable driver's seat and full length springs! BIG CAR RELIABILITY—made possible by engineering advancements which definitely assure dependable performance and eliminate any necessity for frequent adjustments or repairs! In other words, BIG CAR VALUE—and yet you save in every way when you buy a Pontiac Big Six!

Pontiac Big Six, $745 to $895, f. o. b. Pontiac, Mich., plus delivery charges. Bumpers, spring covers and Lovejoy shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values . . . Oakland-Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

CHIEF OF THE SIXES

Save IN PURCHASE PRICE

Pontiac is the lowest-priced six in the world combining a 200 cubic inch L-head engine . . . the Harmonic Balancer to eliminate crankshaft vibration . . . the cross-flow radiator with automatic temperature control . . . gasoline pump in place of a vacuum system . . . two separate braking systems including noiseless, dirt-and-weather-proof internal-expanding service brakes . . . bodies by Fisher in a variety of Duco colors.

Save IN MAINTENANCE

According to the records of a large public utilities company which operated 996 automobiles of 35 different makes during 1928, Pontiac costs one cent per mile less to own and drive than any other low-priced six.

Save IN OPERATING COST

Pontiac costs less to drive because its automatic spark control assures highest engine efficiency . . . because the G-M-R cylinder head promotes high compression operation using ordinary gasoline . . . because its crankcase ventilating system maintains the quality of engine oil over longer periods . . . because the cross-flow radiator eliminates losses of alcohol in winter . . . because its special non-squeak brake linings frequently serve for more than 30,000 miles without replacement.

Save IN DEPRECIATION

Check the offerings of Used Car Dealers and you will find Pontiac resale values uniformly high. Pontiac's impressive record of performance and dependability has built a ready market for used Pontiacs.

Never before has there been a buying opportunity such as the Pontiac Big Six affords today. No other six at or near its price gives you so many big car features. Come in! Let us give you all the facts—and clinch the facts with a demonstration. Bring in your car and get our appraisal.

SOCIETY

MISS DIXIE RUTH SMITH HONOREE AT PARTY

Misses Mary Lynn Nation and Dorothy Strayhorn complimented Miss Dixie Ruth Smith, whose marriage to Wilson Hartgrove of Paint Rock will take place some time in October, with a cleverly planned shower at four o'clock Tuesday afternoon at the pretty home of Miss Nation's parents, Mr. and Mrs. C. Stinson.

Roses, dahlias and crepe myrtles gave an added attractiveness to the entertaining rooms.

Players gathered around five tables where they enjoyed a series of games. At 5:15 the Western Union delivery boy interrupted the bridge play by giving the honoree a telegram, and the telegram proved to be directions for the honoree to search for a shower of gifts that had been hidden by the hostesses.

At tea time a delicious salad course was served. Guests were: Misses Dorette Beggs, Myrtle Harrell, Clarabelle Clark, Cecile Strayhorn, Neoma Strayhorn, Alma Nell Morris, Lillie Sweet of Blackwell, Doris Buchanan, Martha Gray, Margaret Dell Prim, Mary Margaret Towle, and Mesdames R. H. Curnutte Jr., Amos Joyce, H. G. Towle, Lois Miller of Abilene, Forest Sears, Joe Strayhorn, Tom Gates. Tea guests were Mesdames Dixie Smith, Dixie Howell and Ernest Sweet of Blackwell.

The hostesses were assisted in entertaining by Mrs. J. C. Stinson.

B. Y. P. U. PARTY

The Intermediate B. Y. P. U. members held a social gathering in the basement of the Baptist Church Monday evening. After a short business session was held, guests enjoyed the play of various games.

Refreshments of sandwiches, potato chips and pickles and lemonade were served to Misses Dixie Lee Davis, Mary Nell Morton, Vernelle Bradbury, Hilda Gene Williamson, Willie Pearl Glen, Leota Glen, Jeffie D. Isaacs, Alta Bowers, El Vern McFarland, Earline Martin, Frances Faye Huestis, Maxine Shuler, Janet Smith, Ernestine Morton, Louise Bowers, Myrtle Mae Day, Mabel Shuler, Mabeth Smith, and Messrs. Layton Griffin, E. J. Bradbury, Bob Hamilton, Billy and Jack Hamilton, Leslie Kelley, Russell Shaw, W. H. Shuler; chaperones were Mrs. G. Bowers, Mr. and Mrs. W. C. Hamilton, Mrs. W. Morton, and Harvey Shuler.

MISS THOMPSON ENTERTAINS

Miss Jancye Thompson entertained at her home Thursday, Aug. 29, with a very dainty luncheon. Various games were enjoyed during the afternoon. Those enjoying this delightful affair were Misses Dorothy Egerton, Mavis Webb, Meva Doak, Allene Curry, Nell Teague, Doris Doak and Adelle Baugh.

ENTERTAIN WITH PARTY

Misses Adelle Baugh and Dorothy Egerton entertained with a party Saturday evening, Aug. 31, at the home of the latter, hnoroing Misses Claryce and Dorothy Cavness of San Marcos.

The evening was spent playing forty-two and other games.

Dainty refreshments were served to Misses Doris Doak, Mavis Webb, Allene Curry, Janyce Thompson, Meva Doak, Nana Bess Egerton, Nell Teague and the honoree.

THURSDAY NIGHT BRIDGE CLUB ENTERTAINED

The Thursday Night Bridge Club members and guests were delightfully entertained last Thursday evening by Mr. and Mrs. Wayne Boren at their home.

High score awards went to Mrs. Ivan Dodson and W. T. Raybon. Mr. and Mrs. J. M. Harris were presented with guest prizes.

Refreshments were passed to Messrs. and Mesdames J. E. Sentell, Ivan Dodson, G. B. Clark Jr., George Oldham, W. T. Raybon, J. M. Harris, W. H. Ritzenthaler and Mrs. Lee Newsom.

BUSINESS AND PROFESSIONAL WOMEN'S CLUB MEETS

A meeting of the Business and Professional Women's Club was called by the new president, Mrs. C. R. Buchanan, Tuesday evening at 6:30 at the Presbyterian church.

This was the first meeting to be held since June when the marking of the streets and numbering of the houses was instigated. Mrs. W. W. Smith gave a report on the work that had been done on this matter during the summer, and she stated that the work would be completed within sixty days.

Mrs. Melvin Blackard was named pianist and Mrs. Thomas Lee chorister of the club. Two new members, Miss Marguerite Person and Mrs. C. C. Eager, were received into the club.

Twenty-two members were present on this occasion.

SHULER & GLEN NOW AT SAUNDERS STORE

Announcement is made in this issue of the Shuler & Glen store who are moving their meat market to the Clarence Saunders store. The announcement says that four things are being brought to Snyder, first, a first class meat market; second, a place to buy fresh water and salt water fish; third, dressed chickens ready to serve, and fourth, oysters in season. They are likewise giving away free souvenirs to their customers Saturday when every lady will receive a beautiful flower, while the gentlemen will be given cigars.

O. E. S.

The regular meeting of the Order of Eastern Star, Snyder Chapter No. 450, will be held Thursday night, Sept. 12.

SWEETWATER PASTOR PRESENTS RESIGNATION

Rev. Chas. T. Whaley, pastor of the First Baptist Church of Sweetwater for the past four years, has resigned his pastorate, effective October 1. He announced the resignation from his pulpit Sunday, giving ill health as his reason for the change. Rev. Whaley is well known in Snyder.

Mrs. L. E. Trigg and daughter, Miss Loree, and Elmer Peairs of Venice, Calif., accompanied Herman Trigg to Kerrville Wednesday where he will attend school.

Mr. and Mrs. Warren Dodson left Tuesday for Fort Worth where they will visit with Mrs. Dodson's parents. They will return home Friday and will be accompanied by Miss Maurine Stokes.

Mrs. J. B. Taylor, Mrs. Claude Blevins of Fort Worth and Mrs. Horace Eiland of Stanton spent Saturday and Sunday in Quanah as guests of relatives.

Plan to attend the County Fair.

Mrs. Jesse Sellars was badly burned on the right arm last Thursday when she started to light the oven of her gas stove. She is reported to be getting along nicely.

Mrs. J. A. Hood and daughter, Miss Alma, left Tuesday for Kerrville where they will visit with relatives.

Dr. and Mrs. H. E. Rosser and daughter, Miss Marian, went to Galveston Sunday to meet Misses Elaine and Marilu, who were returning home from New York City. They returned home Monday night. The Misses Rosser expect to teach their piano and expression classes again this season.

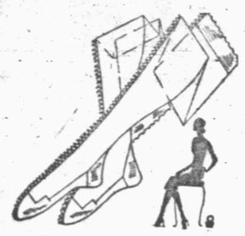

Mr. and Mrs. O. P. Thrane attended the funeral of E. W. Clark in Fort Worth Friday.

There are many specials advertised in this issue. Read the ads.

Two Good Gins

Ready For the Cotton Ginning Season

NICHOLS & TRICE GIN

JEFF TRICE, Manager

This gin is practically new. It has ginned only 380 bales since all new machinery was installed last year. In fact, it is just well broken in and ready for first class work. If you snap your cotton, try our

HART BOLLIE MACHINES

Along with the three new cleaners, two in air and one outside air.

Trice Gin Co.

A. H. TRICE, Manager and Owner

This gin was cmpletely equipped with new machinery last year at a cost of $6,300 and has ginned only 1,600 bales. Everything has been recently overhauled, and our

HARDWICK & ETTER BOLLIE MACHINES AND CLEANERS

will turn out a sample you will be proud of.

Forty-six years in the ginning business.

WE KNOW HOW

Both Gins on West Bridge Street

SICK AT HIS STOMACH

"I WAS suffering from stomach trouble, in 1917," says Mr. C. K. Nelson, a railroad engineer living in Pulaski, Va. "I had a tightness in my chest, a shortness of breath. There seemed to be a heavy weight in the pit of my stomach, and quite a bit of nausea, yet I couldn't vomit. I tried different remedies, yet suffered on just the same. When in West Virginia on a work train, I was in such a condition that I just gave up and came home. I could not stand to work, in my condition. Some one told me about Black-Draught. I started taking it in small doses after meals. It helped me, and I went back to work."

WELL KNOWN SNYDER RESIDENT UNEARTHS OLD COLLEGE PAPER

E. C. Ralston, well know local resident, while taking a special course at Sam Houston Teachers College in 1925, wrote the following theme on "The Causes of the Revolutionary War" which will be of great interest to a large number of our readers. Mr. Ralston received a B-plus grade with a teacher's notation at the end of the paper that stated "Excellent as far as it goes but incomplete."

Verbatim, the article reads:

Outline

1. Sectional Jealouses and Prejudices.
2. Economical and Social Changes.
3. Political Changes.
4. Religious Changes.
5. Military Changes.
6. New Growth of American Colonies.
7. A National Spirit of Democracy.

The Causes of the Revolutionary War

In 1763, the colonies were still divided by sectional jealouses and prejudices to a degree almost inconceivable. Common danger, however, had already done something to bring them together politically.

The situation created by the intercolonial wars lead promptly to three attempts at taxation, — the writs of assistance to enforce old laws; ;the sugar act of 1764; and the Stamp Act. These acts were designed not so much to raise revenue as to vindicate previous policy and assert authority.

In 1755 they began to use general search warrants, known as writs of asisstance. This form of warrant was a recent abuse in English government, first sanctionde by law in the evil times of Charles II. It also provided machinery more efficient than ever before, to enforce the laws. But its most offensive feature was its absolute prohibition of trade with the French colonies. The commercial colonies were greatly excited. They believed with reason that enforcement of the new law meant, not merely a new and heavy tax on their trade, but its utter ruin, so that they would no longer be able to pay for the imports they needed from England. They had never feared French conquest as they feared the loss of French trade. With every mail from America, a storm of protests assailed the ministry, while for several months little noise was made about the Stamp Act.

Indeed the Sugar Act was more dangerous. It, too, was taxation without representation. But it was more than a revenue measure. As a tax, it was more severe, though less direct, than the Stamp Act; and, in other respects, it exercised a kind of power much more likely to be abused than the power of direct taxation. Dr. Howard says, "The economic grievance of this law lies at the bottom of the revolutionary contest."

From 1765, the colonists contended, not against actual oppression suffered, but against a principal which might lead to oppression. The colonies took their stand, not against tyranny inflicted, but against tyranny anticipated. The Americans loved self-government; were ready for freedom, and were willing to wage a revolution for the principles of national liberty.

It will be well to understand certain underlying causes and conditions. America was a nation, and she had grown away from the mother country. Separation was hastened by two causes, — the incompetence of the British King and Ministry, also a movement for greater democracy.

The American Revolution is seen imperfectly, if it is looked upon solely as a struggle between England and America. It was a strife of principles. It was a part of a thousand-year-long contest between the English speaking people and their kings for more and more political liberty.

One incident in the turmoil of the period deserves special attention. Two regiments had been sent to Boston, in the fall of 1768, to overcome the community.

Sam Adams was the first political boss. He organized committees and town meetings. He has been called "the wedge that split England and America."

In every controversy between aristocracy and democracy, the ministers found an interpretation of some Biblical passage which would support aristocracy and the people were forced to have a democratic champion among her ministers.

A sort of ecclesiastical union preceded the idea of political union. This was made clear when Hooker of Connecticut was present at Boston, in the synod of elders which had been called to condemn Mrs. Hutchinson, and it was at this time that the proposal was made. The colonies had been partly democratic but they became oligarchic. Discontent was chronic in the servant class, and the small planters were restless. They were practically unrepresented and they felt that they had been overtaxed.

In the darkest of the revolutionary days Thomas Paine thrilled the people with the phamplet, "The Crisis." Pages of it were on men's tongues and one passage has passed into a byword. "These are the times that try men's souls."

"Excellent so far as it goes but incomplete.

So much has been heard lately about Nicaragua that I thought I would interview an American business man who could tell something about the new proposed canal. So I asked Wilbur B. Foshay, president o the W. B. Foshay Company, who own the water works, the ice plant and the electric light system in Managua, Nicaragua, as to the value of the new canal to the central states, for I knew his company had investigated before they invested. Mr. Foshay said:

"As you know, there was a law passed by the 70th Congress authorizing the president to cause to be made under the direction of the Secretary of War and supervision of the Chief of Engineers a full and complete investigation to serve for the purpose of ascertaining the practicability and the approximate cost of construction and maintaining (1) such additional locks and additional facilities at the Panama Canal as may be necessary to provide for future needs of inter-oceanic shipping, and (2) any other routes for a ship canal between the Atlantic and Pacific oceans. The survey will include, of course, the Nicaraguan route, the cost of additional locks at Panama, and the cost of digging the Panama Canal to sea level.

"You can see that it would be premature to form any opinion about the canals in question or their relative effects on shipping because of the many unknown factors that enter into consideration of the effects of these proposed canals. It is my understanding that it will be some years before sufficient data has been secured for a reasonably intelligent decision to be arrived at.

"So far as the northwest is concerned, or for that matter any part of the country that is tributary to the Mississippi river, it would seem to me that with the completion of this canal and with the completion of a deep channel on the Mississippi river, barges could take agricultural supplies or manufactured articles from as far north as Minneapolis and St. Paul down to New Orleans where it can be transferred to boats and taken through the Nicaraguan Canal, saving many hundreds of miles travel and then up the Pacific coast to San Francisco or down the Pacific coast to points along Central and South America.

"It seems to me that it will add greatly to the value of the Mississippi river and will increase the importance of New Orleans as a port and should in many ways help the central states to better water communications with the outside world."

ANOTHER HIGHWAY OFF THE DAL-PASO

Work was accomplished at O'Donnell last week when about 50 men representing chambers of commerce and county commissioners of the counties of Lynn, Gaines, Borden and Lubbock met to discuss road matters and later to motor over the proposed route of another state highway that will lead north from No. 83.

The projected state highway now exists as several units of several county roads, ungraded and unkept, but leading towards Lubbock from Gail, Borden County, for a saving of some 35 or 30 miles over present designated highways.

As proposed, the new highway would lead from Gail, for eight miles west over Highway No. 83, running northward up over the cap rock through the community of Tredway, Borden County, and Draw, Lynn County, continuing straight northward through the eastern part of Lynn to intersect Highway No. 7 at a point between Slaton and Southland.

Another branch of this highway is proposed to be routed west from the one outlined above to O'Donnell and to continue westward to Seagraves in order to connect eventually with the route to Lovington, N. M., and the Carlsbad Cavern route.

Assistance was promised citizens of Borden County in financing the building of the road from Gail to the Lynn County line, the remainder of the routes being promised by the Lynn County commissioners. Agitation was started for either action by the Borden County commissioners, or the holding of a road district bond issue election in the northwestern part of that county. The road through Borden and of country some fifty miles wide not having a good highway. The only improved road in Borden County is 83, running east and west from Snyder to Lamesa.

FREE SOUVENIRS—To the Ladies—Flowers; to the Gentlemen—Cigars. Call and get yours Saturday, Sept. 7th.

Messrs. Shuler & Glen

Now With Clarence Saunders at Southwest Corner Public Square

AGRICULTURAL SUPT. CITES NEEDS

Joe A. Merritt, superintendent of the Agricultural Department of the Scurry County Fair, has prepared the following letter for Times-Signal readers, emphasizing several important things as regards exhibits.

Mr. Merritt says:

To the Exhibitors of our County Fair:

Now is the time to be selecting your exhibit. You can, by calling on either of the banks, drug stores or county agent, procure a premium list or catalogue, then look it over and enter your exhibit accordingly. If it reads 10 head or 10 ears do not try to enter five because there will not be any premium paid on five. This rule will apply to everything. Do not put anything anywhere that the catalogue does not call for. Be sure and have your exhibit in the hands of the management not later than 10 o'clock, Sept. 26. Would be better if you could get your stuff in on the 25th, which will be on Wednesday. Now, as superintendent of agriculture, will state we have secured , I think, a very competent judge to pass on all exhibits, so that will insure all a square deal. I am very anxious that every citizen will feel this is a county fair and help to present an A-1 exhibit.

J. A. MERRITT,
Superintendent of Agriculture.

315 SCHOOL TRANSFERS

According to records in the offices of County Superintendent Bullock, there have been a total of 315 transfers in Scurry county for the coming school terms, the schools affected and the number of transfers each school will receive are:

Schools	Pupils Gained
Camp Springs	4
Canyon	10
Bethel	6
Pleasant Hill	1
Plainview	8
Dermott	9
Crowder	1
Bell	19
Gannaway	3
Grayborn	3
Martin	4
Sixie Creek	1
Lone Wolf	6
Sulphur	5
Woodward	19
German	4
Pyron	7
Ira	23
Hermleigh	16
Hobbs	20
Dunn	35
Wastella	32
Vincent	3
Snyder	75
Fluvanna	1

The low transfers shown at Fluvanna is because of consolidations there reduced the number coming from other schools.

Hermleigh and Bison schools opened Monday, the former with Supt. E. E. Kerr in charge and J. H. Duck at Bison.

Dunn, with W. C. Hooks in charge, opens next Monday, the first time as an affiliated high school. Fluvanna with E. Wedgeworth will likewise open Sept. 9, along with the local public schools. The new consolidations at Fluvanna made it necessary to purchase three Chevrolet busses which have already been received.

Scurry county now has a total of 3,439 scholastics, which is not as large as the 1928 census.

COTTON VS. DIVERSIFIED FARMING

Cotton has been the money crop for the Scurry county territory for many years. It will continue to be the main crop but the people of this territory must realize by this time that it will not do to depend entirely upon it. The past two or three years should have shown us conclusively that it is a dangerous practice to depend upon one crop.

Farmers must have realized by this time that diversified farming is the only safe plan. Farmers who have been practicing it are in good shape. Their chickens, eggs and cream have furnished them with money for a living. They have not had to borrow much money to make their crop and if they do not make a good crop they will still be in condition to keep going.

Farmers who have depended upon cotton alone to keep him going has found it very hard sledding. He is in debt for making his crop—he has had no income. The crop last year proved to be a money loser instead of a money maker. This year's crop if we do not get rain in the next few days, will be the same. If we get plenty of rain it willturn out very well; if we do not get the rain many a farmer will be in hard circumstances.

Folks, we are going to have to do more diversified farming. It is the only thing that will save our country from ruin. More cows, more chickens, more hogs, and more turkeys on every farm in this section will mean the salvation of the country. We are face to face with the problem and we might as well meet it with a determination to win. The banks cannot continue to finance a losing proposition and they are not going to attempt it. Go and talk to your banker along these lines and see what he will tell you.

Roscoe merchants working with their Lions Club have evolved an unique plan whereby a registered Jersey cow is sold once each month for $1. This is a matter that the Scurry County Chamber of Commerce and the Lions Club could work out for Snyder—and there is no better time to start it than right now. Snyder and Scurry County is home to all of us, and what improves our home likewise makes it a better and finer place for all of us to live and be one together.

DERMOTT NEWS

We are still having some hot dry weather. People of this community have been gathering their feed. There has been no cotton picked yet.

Had a good attendance at Sunday school Sunday morning. There will be preaching Sunday at 11 o'clock by Bro. Sanders.

Our singing school has been progressing nicely. There have been quite a few visitors from other communities.

We wish to correct the mistake in our report of the additions to the churches. There were eighteen who joined the Baptist Church and three to join the Methodist Church by baptism.

Several of the people of our community have been attending the Baptist revival at Fluvanna the past week.

Mrs. S. H. Lebow and children spent Sunday with Mrs. Patrick.

Mr. and Mrs. Davis and daughter spent Sunday afternoon with Mr. and Mrs. Bob Browning.

Ira Burroughs is painting his house white this week.

There were four cars of cattle shipped from the Hart Ranch last week.

Mr. and Mrs. Woods from Oklahoma and Mr. and Mrs. Abb Cargile of Polar spent Friday visiting in the Gene Sanders home.

Mrs. C. A. Rankin and children left Sunday for Tatum, N. M.

Burton Mooar loaded several cars of cattle at Dermott last week.

Miss N. E. Browning and John Browning visited with relatives in Abilene last week.

Zeke Rhea of Tahoka spent Saturday night with homefolks.

Grandma Page of Fluvanna visited in the Jim Dowdy home last week-end.

Gene Sanders, Fatty Boss, W. T. Rhea and W. F. West went fishing Monday afternoon, caught several fish and had a good time.

Mr. and Mrs. Fonzon Smith and children spent last week-end visiting in the Gene Sanders home.

BUSINESS CHANGES

The business front of the public square is being changed somewhat this, and in succeeding weeks, that is genuine news.

As noted in previous issues of the Times-Signal, the Shull Variety store have already moved to their new location on the west side of the square. L. O. Smith and Dean Cochran, forming a grocery store and meat market partnership are now located in the room formerly occupied by Shull.

The Smith Meat Market location has been leased by the Snyder Hardware and Implement Company and Messrs. Northcutt, Oldham & McCarty will get nicely located by Oct. 1.

The vacancy in the Snyder Hardware former location has been leased from H. G. Towle by Claude and C. W. Tatum of Lubbock, who will move here Oct. 1 and in addition to opening a first class feed store will also install a first-class hatchery in the rear of the present building.

Shuler & Glen expect to get their meat market located in the Clarence Saunders store some time this week, as they have been awaiting shipment of new store fixtures.

Editor and Mrs. J. L. Martin of Brady, were over-Sunday guests here, shaking hands with their many Snyder friends. Mr. Martin has been enjoying a fine run of business in the Heart O' Texas News and likes Brady very much, but was mighty happy to come back to Snyder if only for a day to see the many warm friends they have living here.

Texas produced 99,162,000 bushels of corn and 35,751,000 bushels of oats in 1928.

ELBERT SMITH NEW EDITOR OF LAMESA NEWSPAPER

Announcement has been made of the sale of the Lamesa Reporter to a group of Amarillo newspaper men with Elbert Smith, a member of the Amarillo News staff, as the new editor at Lamesa. Mr. Smith was formerly manager of the Hereford Brand and has had a wide experience on a number of dailies throughout the country. He is a graduate of the University of Kansas.

The Times-Signal wants to join in a wholesome welcome to the newcomer as he will find at Lamesa a united citizenship who have been achieving results in their efforts to go ahead in Dawson County. Folks will soon commence to say that a Smith Manufacturing Company is located somewhere in West Texas, as in addition to the Lamesa Smith there is a Snyder Smyth and a Snyder Smith, as well as other Smiths ted at various newspaper plants in West Texas. They're a hard family to keep down it seems.

Plan to attend the County Fair.

DAL-PASO ROUTE SAFE ALL THE WAY

The Dal-Paso Cavern Highway is at this time receiving the largest tourist travel in its history. This has been brought about because the route is now recognized by the people who live on it as the straightest and shortest highway to the Carlsbad Cavern, known as the "Eighth Wonder of the World," and other scenic points in New Mexico and the mountains of the Southwest.

The highway is now open all the way to Carlsbad, New Mexico, and it is safe to route tourists over it. There is only one bad stretch on the whole route, and that is 18 miles immediately west of the state line in New Mexico, and this can be driven in 40 minutes with safeguarding to car and tires. The rest of the highway from the east end to Carlsbad is in the very best possible condition.

The officials of this highway are calling on the citizens of each town on this route to tell their friends and acquaintances about this wonderful straight line to the Caverns. If this is done the route will receive a greater amount of travel and consequently those who are located on this highway will realize more business.

At Seminole, Texas, if tourists desire to go to Roswell, Ruidoso, Cloudcroft, Artesia or other mountain points, a good route may be had northwest from Seminole to Lovington, New Mexico. We should keep these points in mind and so advise our tourists.

Do not forget if this highway is a good way to travel to the Caverns from the East, it is also a good route to travel from the West to the East. You are also called on to send people over this highway from the west to Fort Worth, Dallas, Terrell, Wills Point, Grand Saline, Longview, Marshall and Shreveport, La. This highway is as straight as an arrow and will save your friends much time if you send them over it.

COUNTY FEDERATION OF WOMEN'S CLUBS

We will have our first meeting of the County Federation Saturday, September 14, 3 p. m. in the county court room.

We are exceedingly anxious to have a good attendance of both town and rural women, for at this time we hope to launch our plans for the year's work.

These plans, if carried out, will cement the bond of friendship between the women of Scurry County.

After all, I believe that is the object of our organization—to establish a closer feeling of friendship between the town and rural women.

Now, women, this is a worthy object and merits our best efforts. We need to know each other better, for in that knowledge will come a better understanding of our needs which will result in a friendly spirit and a desire for better service.

Come, let us join hands in this organization and in so doing work to the good of our county, our town, our families and ourselves.

MRS. W. W. HAMILTON.

VOICE CULTURE

Mrs. J. E. Sentell will open her class in voice culture at her home in West Snyder Monday, Sept. 9th. Those desiring appointments please call in person or phone 184.

IF You Want Real Express SERVICE Call 164

YOU ARE CORDIALLY INVITED TO ATTEND
The Formal Opening of

Abilene's New Shopping Center
CYPRESS STREET

In Addition to the Well Established Stores Already on Cypress Street

Five New Stores Will Hold Their Formal Opening

Monday afternoon and night, Sept. 9th—from 3 to 6 and from 7:30 to 10:30.

On Cypress Street You Will Find

West Texas Smartest and Finest Shops and Stores

And we invite you to come to Abilene Monday, Sept. 9th and help us celebrate a growth that seldom is experienced by any town or any section of a town in such a short time.

Music Will be Furnished by Simmons Cowboy Band

The new stores will hold open house from 3:00 to 6:00 P. M. and 7:30 to 10:30 P. M.—No goods will be sold after six o'clock.

Then when the opening is over we want you to shop with us—You will find the newest fall merchandise both in the stores already established on Cypress street and in the new ones just opening.

You will find ready-to-wear, millinery, shoes, hose, dry goods, notions, men's furnishings, furniture, drapery, carpets, drugs, confectionery, cafes, beauty parlors, hotels, barber shops, storage garages, automobile companies, plumbing companies, variety store, hardware, newspaper office, electric company, telegraph company, printing and stationery company, tailors, dry cleaners, shine parlors, theaters, jewelry shops, dressmakers, novelties, cotton exchange, telephone head office, and modern office for every profession.

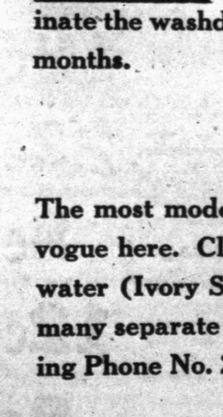

The following firms are located on Cypress Street:

And scores of offices.

You Eliminate Worries Here!

HELLO! Is this 211? Well, send your man right over and have him pick up a bundle of soiled clothes. We intend to do this every week and eliminate the washday worries that have been aching us for months.

The most modern methods of handling clothes are in vogue here. Clothes are gently rinsed through sudsy water (Ivory Soap used exclusively) and then given many separate rinsings. Save time and money by calling Phone No. 211.

ORDER AND NOTICE OF PARK TAX ELECTION

THE STATE OF TEXAS,
COUNTY OF SCURRY:

On the 17th day of August, 1929, the Commissioners' Court of Scurry County, Texas, was convened in regular session at the regular meeting place thereof in the Court House at Snyder, Texas, with all the members of said Court present, viz.:

Horace Holley, County Judge;
John C. Day, Commissioner Precinct No. 1;
H. C. Flournoy, Commissioner Precinct No. 2;
Lee Grant, Commissioner Precinct No. 3;
W. A. Johnston, Commissioner Precinct No. 4;
Mabel Y. German, County Clerk;

when there came on to be considered the petition of Sherman Blakely and 103 other property tax paying voters of said County praying for an election to be held within and for said Scurry County, Texas, upon the question of authorizing the Commissioners' Court of said Scurry County to levy a tax upon all the taxable property in said County, for the purchase and improvement of lands for use as County parks, which shall consist of not more than one hundred acres and shall not exceed more than four parks, at the rate of not exceeding five cents on the one hundred dollars valuation of all taxable property in said County?

Said election shall be held under the provisions of the general election laws of the State as far as applicable.

All persons who are legally qualified voters of this State and of this County and who are resident property tax payers in this County shall be entitled to vote at said election, and all voters desiring to support the proposition to issue such bonds shall have written or printed on their ballots the words: "For park tax," and those opposed thereto shall have written or printed on their ballots the words "Against park tax."

The polling places and presiding officers of said election shall be respectively as follows:

At County Court room building in Snyder, in Voting Precinct No. 1, with S. T. Elza as presiding officer.

At School House building in Cottonwood Flat, in Voting Precinct No. 2, with Campbell Helms as presiding officer.

At School House building in Ennis Creek, in Voting Precinct No. 3, with J. G. Galyean as presiding officer.

At School House building in Dermott, in Voting Precinct No. 4, with C. H. West as presiding officer.

At J. P. Office building in Fluvanna, in Voting Precinct No. 5, with Ed Lemmon as presiding officer.

At Turner School House, in Voting Precinct No. 6, with Geo. Brumley as presiding officer.

At Bison School House, in Voting Precinct No. 7, with Walker Huddleston as presiding officer.

At Sharon School House, in Voting Precinct No. 8, with J. A. Thompson as presiding officer.

At School House building in Ira, in Voting Precinct No. 9, with Tom Hailey as presiding officer.

At Bethel School House, in Voting Precinct No. 10, with Holly Shuler as presiding officer.

At School House building in Dunn, in Voting Precinct No. 11, with W. A. Taylor as presiding officer.

At Lonewolf School House in Voting Precinct No. 12, with J. M. Pagan as presiding officer.

At School House in Pyron, in Voting Precinct No. 13, with J. H. Jean as presiding officer.

At Justice of Peace office in Hermleigh, in Voting Precinct No. 14, with J. I. Chorn as presiding officer.

At School House in Camp Springs, in Voting Precinct No. 15, with M. W. Bavousett as presiding officer.

At Canyon School House in Voting Precinct No. 16, with R. E. Adams as presiding officer.

At Lloyd Mountain School House, in Voting Precinct No. 17, with J. R. Dabbs as presiding officer.

At Arah School House, in Voting Precinct No. 18, with Bruce Ramsour as presiding officer.

At County Superintendent's office in Snyder, in Voting Precinct No. 19, with P. M. Bolin as presiding officer.

At Countyline School House, in Voting Precinct No. 20, with R. A. Hardee as presiding officer.

At Commissioners' Court Room in Snyder, in Voting Precinct No. 21, with A. M. Curry as presiding officer.

At J. P. Office in Snyder, in Voting Precinct No. 22, with A. Rhoades as presiding officer.

At Crowder School building, in Voting Precinct No. 23, with J. T. Biggs as presiding officer.

A copy of this order shall constitute proper notice of said election, and notice thereof shall be given by publication of such notice in a newspaper published in said County for four successive weeks, the first publication being thirty full days before the date of said election, and in addition thereto, for four weeks prior to said election, notice shall be posted by the County Clerk at four public places in the County, one of which shall be at the Court House door of said County.

The County Clerk of this County is hereby directed to post such notices and to cause the same to be published as herein provided, and further orders are reserved until returns of said election shall have been made to this Court.

HORACE HOLLEY,
County Judge.
JOHN C. DAY,
Commissioner Precinct No. 1.
LEE GRANT,
H. C. FLOURNOY,
Commissioner Precinct No. 2.
Commissioner Precinct No. 3.

(Seal) W. A. JOHNSTON,
Commissioner Precinct No. 4.
ATTEST:
MABEL Y. GERMAN,
County Clerk. 11-5tc

He—You wouldn't marry me for my money, would you?
She—Why, no, you silly boy! I wouldn't marry you for anything.

HOWARD COUNTY PLANS HUGE ROAD PROGRAM

An election to determine whether Howard County will issue bonds for a million dollars or more for permanent improvements to State Highways Nos. 1 and 9 will be held this fall if action of the Big Spring Chamber of Commerce board of directors is ratified. The board Friday voted unanimously in favor of circulating petitions asking that the election be called during this autumn.

There was a time when a fool was a man who didn't know anything. Nowadays a fool is a man who knows it all.

ARE YOU A GUN-MAN?

We mean, are you the sort of man who likes to take his gun and a beltful of cartridges and spend a glorious morning grabbing his dinner out of the sky?

AT Snyder Hardware & Implement Co. you'll find every item for the well-equipped hunter. We have a good line of guns, Winchester, Remington and other well known makes, and can get you any model gun you might want if we should not happen to carry it in stock. Our stock of ammunition is complete. Use the kind best suited to the game you are hunting—quail loads, dove loads, rabbit loads, and others. The dove season, now open beckons to the sportsman. Bag the limit at your next opportunity.

RENT GUNS

IF YOU DO NOT CARE TO BUY A GUN, USE ONE OF OUR RENT GUNS——THE KIND THAT SHOOT ON THE DEADLINE FOR LONG DISTANCES.
