Seriously Hurt by a Horse.

Dave Caudle of near Purves was seriously injured Wednesday afternoon of last week by his horse falling with him. Mr. Caudle had started about 2 o'clock on horseback to go to Purves, a distance of about a half mile from his home and had not ridden but a few hundred yards when the animal stumbled and fell, throwing him against the ground with such force that he was rendered unconscious. Late in the evening his horse came home and a search was at once begun and he was found within three hundred yards of the house about 7 o'clock. Mr. Caudle said that he had several times during the afternoon gained consciousness and tried to stagger home, but was too weak to do so and could go but a little ways each time and then without certainty of which way he was going. He was injured about the head and neck and also internally but is now considered out of danger.

Property Values Rising.

D. P. Cline has this week sold his farm of sixty-three acres, two and a half miles north of town, to Marion Whitfield at a consideration of fifty dollars an acre, a total of $3,150 for the property. The property is worth all that Mr. Whitfield paid for it but the price of fifty dollars an acre suggests that land near Dublin is coming to be valuable.

Weir Case Settled.

Judge Meek of the federal court at Ft. Worth Wednesday handed down a decision affirming the judgment of the referee in bankruptcy in the case of R. C. Weir, bankrupt at Wilson. The controversy involved the question of whether the store house formerly owned by Mr. Weir, was the property of his estate and therefore subject to the orders of Mr. Coffin as trustee, or whether it was the property of Attorney J. E. McCarty of Dublin, to whom it was transferred at or about the time of the failure. The decision was in favor of the estate. The building is now occupied by Latham Co's. Wilson store.

COTTON JUMPING

Government Report Indicates Short Crop and the Staple Goes Up.

The census bureau at Washington Tuesday issued a bulletin placing the amount of cotton ginned to Nov. 14th at 7,498,167 bales. In 1904 the produce of the ginners up to Nov. 14th was 9,786,646 and in 1903 6,815,162 bales. The total crop of 1904 was 13,451,337 bales and of 1903 9,819,969 bales. In 1904 about 73 per cent of the cotton had been ginned to Nov. 14th and in 1903 about 69½ per cent. The production by bales for the present year by states is as follows: Alabama 942,918, Arkansas 313,164, Florida 56,612, Georgia 437,099, Indian Territory, 183,553, Kentucky 471, Louisiana 283,074 Mississippi, 664,170, Missouri 22,143, North Carolina 510,124, Oklahoma 179,839, South Carolina 914,772, Tennessee 156,393, Texas 1,822,942, Virginia 10,896.

In new Orleans the price of spot cotton jumped within two hours a little over a cent a pound and futures even one cent from the lowest margins.

The price of cotton in Dublin yesterday rangedin from 10.75 to 11.35.

Home Reduced to Ashes.

The home of A. E. Boyd at Purves was totally destroyed by fire between the hours of 10 and 11 o'clock last Tuesday night, including all of his household goods, and even the wearing apparel of the family. The fire is supposed to have originated in the dining room and when it was discovered by parties outside the house the family barely had time to escape from the flames in their night clothing.

The house was the property of J. B. Olinger and was valued at about $225, with no insurance and Mr. Boyd had no insurance on furniture or household goods. His loss is estimated at about $500.

Everything has about resumed its usual order since the excitement over the murder of J. I. Gilbreath but a deep feeling of gloom has settled over our community. Fifty years is a long time for a man to live in one locality and "Uncle Joe" will be greatly missed. No man stood higher in the estimation of those who knew him best than he, and men who have known him from boyhood will attest that he was never known to be guilty of a gross or immoral act. There were some errors in the Progress account of the killing which is thought best to correct. T. M. Robinson and C. L. Jackson were the first to arrive at the scene of the crime. Mr. Gilbreath's age would have been fifty-three Christmas. We make these corrections by request.

SOUND SLEEP

Can Easily be Secured.

"Up to two years ago," a woman writes, "I was in the habit of using both tea and coffee regularly.

"I found that my health was beginning to fail, strange nervous attacks would come suddenly upon me, making me tremble so excessively that I could not do my work while they lasted; my sleep left me and I passed long nights in restless discomfort. I was filled with a nervous dread as to the future.

"A friend suggested that possibly tea and coffee were to blame, and I decided to give them up, and in casting about for a hot table beverage, which I felt was an absolute necessity, I was led by good fortune to try Postum Food Coffee. For more than a year I have used it three times a day and expect, so much good has it done me, to continue its use the rest of my life.

He spent a life of 20 years in trying to perfect a line of medicines that would be and is appreciated by the public. The doctor and his company come well recommended by the press for responsibility and the good he has done with his medicines for suffering humanity. Dr. Blair has with him a staff of physicians to give special treatment to those chronic cases that his medicines will not reach. He has with him Dr. Cobb of Louisville, Ky., and D. E. Moorehead of Kansas City, Mo., who have had years of experience in treating chronic diseases such as cancer, eczema, scrofula, stomach and nervous diseases in all their forms, and special diseases of men. The office is equipped with large X-Ray and all electrical appliances and instruments to treat all diseases peculiar to humanity.

The Doctors will tell you your trouble; you need not tell them. Believing that you will agree that unless a doctor is able to point out your defects he is not competent to treat you. Remember consultation is free to all, both private and confidential. A golden opportunity that the people of Dublin cannot take advantage of it while it is free to all. Go and consult these men. Office in private car. Separate accomodations for white and colored.

Last winter while the cold, white snow lay thick upon the earth a number of papers over Texas were grieved—sorely grieved—over the good money which farmers had lost by holding their cotton. This winter as the prices climb up, and up, we are going to see whether those papers will be grieved—sorely grieved—over the good money which the farmers have lost by selling their cotton early. We doubt whether they will grieve a single, solitary grieve.—Farmers Journal.

There is a large element of our population that has been as silent as the grave on the subject of holding cotton for high prices. This element is composed of men—influential men, too—so situated that they could better afford to watch the game than to help play it. By personal interrogations and otherwise we have broken into this silence on several occasions recently, and to our surprise found that where opposition or indifference was expected, men have been secretly hoping that the farmers would stand pat for their eleven cents and win out. Farmers have no idea of the support that would soon come to them if they would only exhibit the necessary backbone. —Farmers Journal.

MINEOLA COURIERS.

Brave men never fear big things.

The job is all right if the man is all right.

By standing together we will be able to walk alone.

A crop mortgage means financial death to the farmer. Let's do nothing which will kill us.

It is certainly nice to travel over the country and see all the plow tools safely housed for the winter.

A large crop of cotton can be sold for eleven cents the same as a small crop if we only knew how, and we are learning.

Never be guilty of asking any other question than "is it all right." Don't you know that if it be right it can be done? Well, it can.

You cannot succeed if you doubt the justness of your cause. Have faith of the kind which moves mountains. Do this, and everything else will be added unto you.

The right will prevail. It cannot be otherwise. It has been proven all the way down the line. Much oppression there has always been, but it has and will pass away and the sun light of human liberty will shine for all.

Don't "cuss" the other fellow because he has succeeded in his business by adopting business methods. Let's adopt business methods and succeed too. Don't you know that is the sensible thing to do? Instead of doubting, let's do something.

THE FARMERS UNION IN OREGON.

We have been organizing in Oregon. How strange it does sound! H. L. Harden, a Texas boy has begun the work there, planting his first local at Sherwood, Oregon. He writes that it is no trouble to organize the farmers there into the Farmers Union. He organized a local the very first attempt, with twenty members. The farmers there are anxiously waiting to be organized. They have heard of the great work of the Farmers Union and they want it. Now, that they have a chance to organize they will do so readily. Tell the good news. We are going on and on until every state is thoroughly organized and there is a perfect understanding between the farmers of all sections. We will never let up till the great work is done.—Mineola Courier

The current pun is to the effect that a machine has been invented for milking cows, but that the "machine" for milking the people has been in full operation for some time. The pun is a good one, but loses point when we consider what a miserable failure the cow milking machines have been, while what a glowing success the men milkers have made. Still, who's to blame? If a set of hulks are a mind to drift around and run abaft sunken rocks, just let 'em sink, and if a lot of chumps are pleased to be the constant dupes of every fool scheme that comes along, what is to be done about it? So far as the farmers are concerned, they have an organization that is educational, and good common sense with a little education will fix things mighty quick, and it won't be very long till the milkers of men will go to limbo with the patent milking machines.—Cleburne Watchman.

San Angelo Doctor Arrested.

Dr. Leo Edward Knopf, formerly of Sterling City, who was married at San Angelo, Sunday night, Nov. 12th, was arrested on Monday morning following on a charge of bigamy by Sheriff J. S. McConnell at San Angelo. Knopf's bond was placed a one thousand dollars. He told Sheriff McConnell that a certain doctor in the city would sign his bond and on the pretense of such an errand, escaped and was seen no more by the officers until late Tuesday night when he was located at George Reems' residence in east San Angelo. Knopf attempted to escape but was captured after a rather exciting escapade, during which Marshal Spears shot his pistol in the air in order to persuade him to halt. Sheriff McConnell says he has evidence that Dr. Knopf's wife lived at the Knopf sanitarium in San Angelo until a few weeks ago, and that she now resides in Fort Worth. Knopf claimed that his wife had secured a divorce, but when called upon the prisoner could show no such evidence.

W. A. Purvis and J. R. Edgin, both prospectors from Erath county, were callers at the Tribune office Thursday morning. They are friends of J. J. and W. J. James, prominent farmers living west of Stamford. Both the gentlemen expressed themselves as highly pleased with our country and that it is their intention to return and make this their permanent home at an early date. We assure them of a hearty welcome by the citizens of the great Stamford country.—Stamford Tribune.

An exchange has made this discovery of perpetual motion: "Rags make paper, paper makes title deeds, title deeds make landlords, landlords collect rents, rents make poverty and poverty makes rags."

School Boy Killed at Abilene.

Paul Morgan, a lad fourteen years of age, died at Abilene Thursday of last week from the effects of a wound in the head, caused by being struck with a rock alleged to have been thrown at him while fighting on the school grounds by a boy of about the same age, Jess Bransford. The fight took place on Tuesday before, the blow causing a fracture of the skull. The physicians trepanned the skull, but all their efforts were futile. After the inquest a warrant was issued for the Bransford boy's arrest, but he voluntarily appeared, waived examination and his bond was fixed at $300 which he readily gave.

Erath county has a stream which they call "Alarm creek." That doesn't sound quite so scary as Taylor county's "Deadman creek."—Abilene Journal.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

A LITTLE NONSENSE

Judge Parker is said to tell as a favorite story the tale of a young man in Savanah named Du Bose, who invited his sweetheart to take a buggy ride with him. The young woman had a very fetching lisp. When they reached a rather lonesome bit of road the young man announced:

"This is where you have to pay toll. The toll is either a kiss or a squeeze."

"Oh, Mr. Du Both!" exclaimed his companion.

A professor of Harvard is much interested in epilepsey in its different forms. During a summer sojourn in the mountains, he heard of a woman with epilepsey who had lived to the age of seventy-nine years. Curious to know the details of so unusual a case, he interviewed the widower. Having inquired concerning different symptoms, he proceeded: "Did she grind her teeth much at night?" The old man considered for a minute and then replied: "Well, I dunno as she wore 'em at night."

After acquiring a considerable amount of money in the United States a young Manchester man returned home and decided to give his old father a treat by taking him to London to see the sights. It was a great event for the father, who had never been in a train before, and he commenced the journey with trepidation and many outspoken anticipations of dire events to follow. All went well until the train suddenly dashed into a tunnel. Bang went the old man's fist on his son's nose as he cried, "I told you something would happen you young villian! I'm struck blind!"

A southern congressman tells a story of an old negro in Alabama who, in his bargaining, is always afraid that he may get "the worst of it" On one occasion it appears, this aged darkey went after a calf that he had pastured all summer, and asked what he owed for the pasturing.

"I have a bill of ten dollars against you," said the farmer who had undertaken the care of the animal, "but, if you are willing, I'll take the calf and call it settled.

"No, sah!" promptly exclaimed the negro, "I'll do nothing like dat. But," he added, after a pause, "I'll tell you what I will do—you keep the calf two weeks longer and you can have it."

A good story is told of an old gentleman who was traveling along the highway and happened to fall in with three young men. As the young men saw the old man approaching one of them said: "Now, for a bit of fun. One of us will say, 'Good morning, Father Abraham.' another, 'Good morning, Father Isaac,' another, 'Good morning, Father Jacob.'" This program was at once agreed to and was carried out to the letter. The old man eyed the young gentlemen critically, and replied in this quaint manner: "Gentlemen, I am neither Abraham, Isaac nor Jacob, but am Saul, and was sent out on the hunt of my father's asses, and lo, I have found all three of them."

A man about town who is fond of good corn pone and honey visited a neighboring town on the "Eastern Sho" recently, and at one of the hotels he was served with some delicious corn bread and honey. He enjoyed it so much that he told his wife all about it when he got home. On his next trip to the country she accompanied him. They visited the same hotel and when the noon meal was being served he said to his wife that he hoped they had some more of that honey. It did not appear, however, and the man therefore beckoned to a waiter and said!

"Say, Sambo, where is my honey?"

He was almost paralyzed when that worthy grinned and replied:

"She don't work here no mo' boss, she done got a job at the silk mill."

The wife received a handsome new Easter dress before they returned home after making a solemn promise not to tell the story.

An Irishman one day went into the shop of a barber to get shaved. After being properly seated and the lather about half applied, the barber was called to an adjoining room, where he was detained for some time. The barber had in the shop a pet monkey, which was continually imitating its master. As soon as the latter left the room the monkey grabbed the brush and proceeded to finish lathering the Irishman's face. After doing this he took a razor from its case and strapped it, then turned to the Irishman to shave him.

"Sthop that!" cried Pat. "Ye can tuck the towel in me neck and put the soap on me face, but, begorrah, yer father's got to shave me!"

MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

Forty years ago, Dr. Pierce searched *Nature's laboratory* for a remedy with which to supplant the ignorant and vicious methods of treatment, with alcoholic stimulants, then in vogue, and still too commonly prescribed and advised for woman's peculiar ailments.

Nature abounds with most efficient remedies, and in Lady's Slipper root, Black Cohosh root, Unicorn root, Blue Cohosh root and Golden Seal root, Dr. Pierce found medicinal properties, which when extracted and preserved by the use of chemically pure glycerine, have proven most potent in making weak women strong and sick women well. It contains no alcohol; is not a "patent medicine," nor a secret one either,

"I was suffering with nervous headache, pains in the back and dizziness, so that at times I had to lie down for hours before I could raise my head," writes Mrs. Mary M. Thomas, of 321 Winston Street, Los Angeles, Cal. "After taking the first bottle of *'Favorite Prescription,'* however, I was so pleased with the results that I kept on taking it until I was restored to health and strength. I shall never be without this great medicine, and shall take a few doses when I do not feel strong."

One of the principal uses of Dr. Pierce's Favorite Prescription is the preparation of prospective mothers for the time of trial and danger that comes when a child is born. The "Prescription" is strengthening and invigorating and lessens pain and danger. It insures the perfect well-being and the perfect health of both mother and child. Every woman should know these things before she really needs to know them. There are many things in Dr. Pierce's Common Sense Medical Adviser, that every woman ought to know. This celebrated work reached a sale of 680,000 copies at $1.50 each. The expense of production having thus been covered, it is now being given away. A copy will be sent to any address on receipt of 21 one-cent stamps to cover cost of mailing *only*, or, in cloth binding for 31 stamps. Address Dr. R. V. Pierce, Buffalo, N.Y.

Don't Be Hoodwinked, hoodooed, hypnotized or over-persuaded into accepting a substitute for the Original Little Liver Pills, first put up by old Dr. R. V. Pierce, over 40 years ago, and called Doctor Pierce's Pleasant Pellets. They've been much imitated but never equalled. One or two are laxative, three or four cathartic.

ESSENTIAL IN BUSINESS.

Ability to Make a Clear, Straightforward Statement.

There are many qualities necessary to success in modern business life, but there is none of more importance to a man holding a position of responsibility than the power to make a plain, straightforward, businesslike statement. The quality of fluency is not so much what is required as the qualities of accuracy and clearness, definiteness and brevity, tact and judgment. If we are not clear and precise it is certain that those who listen to us will be no more clear when we have finished than we are ourselves, probably much less so. We must have no vague and misty ideas about the subject, but they must be crystallized and definite. These qualities of our thought and speech, however, cannot be left to chance. They are attained as the result of effort, of careful and independent thought on the subject for ourselves, of looking at it from many points of view, and thus satisfying ourselves and those who listen to us that we thoroughly understand what we are talking about. Having decided what to say and having properly arranged it, the last point is how to say it. The first essential is to speak distinctly, then to be natural, straightforward, lucid, neither to strive after effect nor to exaggerate, but to give the impression that we are ourselves convinced of the cogency and force of our own contention.—Technics.

A Pastor's Shooting Gallery.

Attendants of the Highland Street Church of Christ at Worcester, Mass., were greatly surprised the other day when they learned that their pastor, the Rev. Rolland A. Nichols, intended to build and conduct a shooting gallery in the rear of the parsonage, says a Worcester dispatch to the New York Herald. Dr. Nichols is an oil stock operator and a gold mine and real estate promoter. In the two years he has been pastor he has surprised his congregation many times, but never in quite so startling a manner as by teaching young men the use of firearms. He pretends to keep them out of mischief, he says.

Oklahoma Girl's Challenge.

A Brave Woman.

At all times men knew the Countess de Gramont as a plain, honest woman and ruthlessly outspoken woman. They called her the "pockmarked countess." Condemned to death by the revolutionary committee in Paris, she said to them, "You are quite right to kill me, for I hate you all." And a little later, when she was late at her own execution, and the headsman impatiently bade her hurry, she answered, "On y va, on y va, canaille!"

What He Needed.

Patient—Why are you going to operate on me? Young Doctor—Because I need the money. Patient—Oh, that's all right. I didn't know but what you was going to operate on me because you needed the experience.

Her Mean Retort.

Husband (during the quarrel)—I wish you were some place where I could never see you again. Wife—You mean in heaven, I suppose.

True Story of a White Hawk.

For two or three years John Burns has been telling his friends about a pretty, white hawk he has seen occasionally near his home in the Clio neighborhood, says the Brownwood Bulletin of last Monday. Mr. Burns' story as retold by Walter U. Early was at one time published in the Bulletin, but our readers as well as Mr. Burns' friends thought the feathered curiosity purely imaginary. That such a bird did exist was prove en quite satisfactorily on last Saturday, when Chas. Wilson of the Clio community shot and killed the hawk. The bird is of the small variety of hawks, its feathers are purwhite and from tip to tip it measured three and a half feet.

Of course the hawk never carried off young pigs and lambs, devoured whole broods of young chickens without even letting the mother hen escape, nor engaged in deadly combat with man as Mr. Burns is credited with saying, but it was a curiosity well worth seeing. Its coat is as glossy and clean looking as a pigeon and with the exception of the tip of one wing not a colored feather could be seen.

SUNDAY SCHOOL.

The Sunday school lesson for next Sunday, Nov. 26th, is a temperance lesson for the world, the theme of the lesson being "Abstaining for the sake of others, even from those things which are not harmful in and of themselves." The lesson is taken from the twenty-third to thirty-third verses of the tenth chapter of First Corinthians. Next Sunday was selected by the International Committee for a temperance lesson.

The first epistle of the Corinthians, or to the church at Corinth, in which this lesson is found, was written by Paul from Ephesus, about the year A. D. 57, being called forth by information of the state of affairs in the church that reached the apostle, and in answer to certain questions that had been asked him. Corinth was an idolatrous city, full of heathen temples and, idol worship was constantly observed on every hand. When the heathen offered as sacrifices such animals as were fit for food a part of the carcass was burnt upon the alter, a part given to the priest and on the remainder the officers feasted their friends, either in the temple or at home, and to these feasts Christians were sometimes invited and it is evident from the tenor of Paul's letters that the invitation was sometimes accepted. Those who partook knew that an idol was nothing and that meat was not affected by the fact that the animal was slain by a priest at the alter, and regarded it as common food. Some thought the partaking of such food sinful, while others, who were still somewhat influenced by their old idolatry, might be led by the example to partake of the meat as an idol sacrifice, and thus be in danger of a relapse into idolatry. This lesson gives Paul's directions on the subject.

Speaking of idolatry Dr. Chapin says "You cannot find any more gross, any more cruel, on the broad earth than within the area of a mile around this pulpit. Dark minds in which God is obscured; deluded souls whose fetish is the dice-box or the bottle; apathetic spirits, steeped in sensual abomination, unmoved by a ripple, soaking in the swamp of animal vitality; false gods, more hideous than Moloch or Baal, worshiped with shrieks, worshiped with curses, with the hearth stone for the bloody alter, and the drunken husband for the immolating priest, and women and children for victims."

Recipe for the Pen.

An exchange gives the following recipe for stocking up the penitentiary: When your boy doesn't want to go to school, let him loaf; when he gets into mischief and your neighbor reports it to you curse him in the presence of your boy; do not reprimand that boy. When he gets a little larger and purloins something of value and you find it out just laugh and let it go; when he gets into anything that calls him to the justice court and he is found guilty, pay the fine, curse the court and the jury and everyone connected with the matter, pity the boy, and you will soon have a splendid candidate for the pen.

Bird Eighty-Three Years Old.

C. S. Taylor last Monday morning found a black eagle in Will Shepherd's pasture northeast of town, says the Carrollton Chronicle of last Friday. The bird seems to have been crippled by some one shooting it and by the aid of dogs Mr. Taylor experienced comparatively no trouble in capturing it. This large bird measures eight feet from tip to tip and is claimed by those in position to know to be eighty-three years old. It is a curious sight and Carrollton people have taken quite an interest in looking at it. A strange feature of this eagle is that it has taken very little nourishment this week, and when a frying size chicken was put in the cage with it, hovered it as a hen hovers her chicks.

STEERED AWAY!

Many people think that because there is a "meat trust" every butcher is charging fabulous prices for his steaks and roasts. Don't be steered astray by common talk—judge for yourselves whether or not we are treating you fairly as to quality of meats and the prices we ask. We are not afraid of the ordeal.

R. B. Stitchter of Sherman, who holds the important position of general purchasing manager for the Dallas Securities Co., was here this week in connection with a proposition to extend the water mains over into third ward and supply two or more fire plugs in that quarter. At the monthly meeting of the city council Tuesday night the matter was taken up by the council but no decision has yet been arrived at. At the present time third ward residents are entirely without water pressure for fire protection and if the new mains are laid they will not only supply a long felt want in this respect but also be a great convenience in the way of affording water to the people in that section of town for domestic purposes.

The interest now being taken in the growing of fruit and the beautifying of homes with shrubbery, and shade trees is verey forcibly presented by the heavy sales recently reported by the nursery people. Aside from a large number of other heavy sales recently noted, J. T. Foote, representing the Texas Nursery Co. of Sherman, reports the receipt this week of a solid car of fruit trees, shrubs, etc. from his people, all of which has previously been sold to parties in and about Dublin. The shipment represents twenty thousand pounds of trees and shrubbery.

Work on the new Methodist church building was begun last Monday and the work is progressing rapidly under the efficient management of Contractor Walley. The building committee will meet again today and may be able to form some definite idea as to the date of completion. —Walnut Springs Hustler, Nov. 10th.

N. D. Strong of the Lingleville country last Saturday sold his home place near Lingleville to Higginbotham Bros. at Dublin for a cash consideration of $1,800 and has since purchased the Bruce Hancock farm of 245 acres in Comanche county, eight miles from De Leon and Mr. Strong will move to the new place as soon as he can build a house. The consideration in the last named trade was $3,500. The sale of the Lingleville place included the settlment of a controversy between Higginbotham Bros. and Mr. Strong in district court.

Morris, former editor of the Tribune at Stephenville and later editor and proprietor of the Marlin Ball. The new paper is a creditabie and prosperous looking five column quarto and from first to last page shows the capable handiwork of Mr. Morris.

Prof. Frank Stephens of Purves, who has for a number of years been correspondent for the Progress at that place, has accepted a position to take charge of the public schools at Wilson and writes that he will be absent from Purves until next May. The Progress in the meantime needs a good correspondent there and would like to hear from some one willing to act in that capacity.

A disastrous fire occurred at Star, eighteen miles east of Goldthwaite, Saturday night in which three business houses and a barber shop were totally destroyed. The fire was started about 8 o'clock by the explosion of a lamp in the barber shop. The burnt district comprises more than half of Star's business houses and the loss is deeply felt.

Fatal History of a Rug.

It is stated on the authority of a London magazine that the czarina, fearing the baleful influence of a historic rug sent by the sultan of Turkey as a gift to the imperial parents on the occasion of the infant's birth, has sent the young heir to the throne to a place of hiding known only to herself and the czar. The rug sent by the sultan is said to be one known as "The Bloodstained Rug of the Tenth Century," which was taken from the walls of a Moorish palace in the twelfth century, when it was pronounced bewitched. It next appeared in Rome in the fourteenth century, but was banished from an Italian palace because of its uncanny influence and was moved from place to place during the next one hundred years, leaving death and destruction in its wake. It was lost during the sixteenth century, reappearing in the palace of the sultan at the beginning of the eighteenth, where it remained until sent to St. Petersburg, where it arrived at the beginning of the war with Japan.

It will be remembered by the readers of the Progress that several weeks ago we published a very interesting poem written by Miss Harriet Wasson on this subject, entitled "The Curse of the Sultan's Rug."

PASSING OF PORRIDGE

Makes Way for the Better Food of a Better Day.

"Porridge is no longer used for breakfast in my home," writes a royal Britain from Huntsville, Ont. This was an admission of no small significance to one 'brought up' on the time-honored stand-by.

"One month ago," she continues, "I bought a package of Grape-Nuts food for my husband, who had been an invalid for over a year. He had passed through a severe attack of pneumonia and lagrippe combined, and was left in a very bad condition when they passed away.

"I tried everything for his benefit, but nothing seemed to do him any good. Month followed month and he still remained as weak as ever. I was almost discouraged about him when I got the Grape-Nuts but the result has compensated me for my anxiety.

"In the one month that he has eaten Grape-Nuts he has gained ten pounds in weight, his strength is rapidly returning to him and he feels like a new man. Now we all eat Grape-Nuts food, and are the better for it. Our little five year old boy, who used to suffer from pains in the stomach after eating the old fashioned porridge, has no more trouble since he began to use Grape-Nuts and I have no more doctor bills to pay for him.

"We use Grape-Nuts with only sweet cream, and find it the most tasty dish in our bill of fare.

"Last Monday I ate four teaspoonfuls of Grape-Nuts and cream for breakfast, nothing else, and then set to work and got my morning's work done by nine o'clock and felt less tired, much stronger than if I had made my breakfast on meat, potatoes, etc., as I used to. I wouldn't be without Grape-Nuts in the house for any money." Name given by Postum Co., Battle Creek, Mich. There's a reason.

Prisoners Make Run on Jailer.

Brownwood Daily Bulletin, Nov. 20th.

At noon today four prisoners in the county jail made a run on Jailer Batton and tried to effect their escape. They were foiled in their purpose, however, by Jailer Batton, who refused to give up the keys, even though he was threatened with injury. Mr. Batton says he went up at noon to feed the prisoners as usual and when he came to the cage door the prisoners went into their cells and shut the doors after them as is their custom. He wanted the pans and things he had left just inside of one of the cells, and thinking the prisoners were safely locked up he opened the door and went in. Two of the prisoners, John Welsh and Henry Hennesdorn, it seems, had practiced a little deception upon the jailer and their cells were not locked. When Jailer Batton went into the cell to get the articles Welch came running up with the seat of an old stool and demanded the keys, stating that they were going to esc... Claims His Bride After Two Years.

Mr. W. H. Parks, a liveryman of San Antonio, came up from that city on last Saturday, and going to the home of Mr. and Mrs. J. E. Hennigan of the Brooksmith community, laid forth to the family a claim for his bride of two years in no less person than Miss Gertrude Hennigan, the eldest daughter of the family.

Had a sixteen-inch Japanese bombshell exploded in the midst of the family circle the surprise could not have been greater, although there was a look of complacency and satisfaction on the face of the second daughter of the family, certifying that at least one member of the household besides the bride herself was in the secret.

Two years ago the young couple agreed to join their hearts and destinies and were married by a preacher in the Indian Creek community. The license had been procured from another county, and immediately after the ceremony the groom returned to his business in San Antonio and the bride to her home and school to await until such time as they saw fit to announce their marriage and live together as man and wife.

The young couple, after spending several days of their honeymoon at the home of the bride's parents, left Wednesday for San Antonio.—Brownwood News.

Distressing Accident in Hood County.

A horrible and heartrending accident occurred at Yeager & Gilliland's saw mill near Center Mill last Thursday in which Mr. Yeager, one of the firm, lost his life.

Messrs. Yeager and Gilliland were sawing some oak lumber, Mr. Gilliland having charge of the saw and Mr. Yearger the carriage on which the log out of which the lumber is made is carried back and forth. Mr. Yeager got on the carriage in order to hold the log steady and in some way lost his balance, falling toward the saw. Mr. Gilliland endeavored to push the unfortunate man off the saw but without avail, and when he fell the saw cut off one hand and a horrible gash across his chest and penetrating to the hollow on one side.

Physicians were called, but to no purpose. A strong, healthy man in the morning becomes a mangled corpse in a short while. Mr. Yeager was in the prime of life; a strong, healthy robust man; unmarried with almost all of life before him, when he becomes the victim of the unfortunate accident.—Granbury Graphic-Truth, Nov. 17th.

A Football Name.

[A football player on the Carlisle Indian team is named Kicked-on-the-Jaw.]

Football is no joke, but we're all forced to smile
And laugh at the latest by way of Carlisle.
Though Teddy was promised mild football —oh, pshaw!
This Indian halfback's called Kicked-on-the-Jaw.
The redskins have proved that their wise to the game,
And though old Bill Shakespeare asks, "What's in a name?"
There's something that strikes one with feelings of awe
In fancy cognomens like Kicked-on-the-Jaw.
Old Pain-in-the-Face is a name that brings grins,
But how about fullbacks called Poked-in-the-Shins?
And maybe the players will all follow suit—
Just think of a quarter named Banged-on-the-Snoot!
With Thorpe out of school and the rest thinking twice,
Will Morley be thought of as Bill-on-the-Ice?
They'll all have to copy this wild Seneca—
This copper skinned warrior called Kicked-on-the-Jaw.
When the craze has increased will the pride of the "frat"
Be known to the world as old Slam-in-the-Slat?
Or will the right tackle who stands like a rock
Till ambulance time be just Biff-on-the-Block?
If gridiron stars take on titles like these,
Ted's dovie of peace can feel all at its ease.
There's quiet and peace, soft speaking and law
Implied by cognomens like Kicked-on-the-Jaw.

ENGLAND'S NEW WARSHIP.

Dreadnought Will Be the Largest Man-of-war Afloat.

The keel plate of the Dreadnought, which is to be the most powerful battleship in the world, has been laid at Portsmouth, England, says a London cable to the New York World. Her displacement will be 18,000 tons. She will be armed with ten twelve-inch guns of the latest type, each capable of throwing a 960 pound shell a distance of twenty miles, with a muzzle velocity of upward of 2,500 feet a second. Her striking power will be as great as any three battleships of ordinary type at such a range as that at which the engagement opened in the battle of Tsushima strait, for no other warship hitherto has mounted more than four twelve-inch guns, so there is nothing afloat that can stand up against her in a sea action.

About 11,000 tons of armor will be built into her hull, and the Dreadnought will be driven by turbines at twenty knots' speed. For the first time on record on a battleship the officers' quarters will be placed forward, the designer's chief difficulty being to provide accommodation for the 900 officers and men, owing to the great demands on her space made by ammunition, storage of coal, etc.

She will carry 500 tons of projectiles for her main guns, 200 tons of cordite charges, 300 tons of stores, 2,500 tons of coal and guns to a weight of 600 tons without mountings. She is designed to be a floating fortress of the most formidable type.

"ANTIKNOCKERS" CLUB.

Coal Men Organize Society to Encourage Square Deal.

President Roosevelt's principle of a square deal for all recently found expression among the coal men of the United States at the Great Northern hotel in Chicago when more than a hundred traveling salesmen representing both anthracite and bituminous branches of the industry met and organized the Order of Ko-Koal, says the Chicago Inter Ocean.

The purpose of the order is to promote good fellowship, to discourage the practice of "knocking" and to encourage a square deal between the members of the coal trade. Secretary Arthur M. Hull believes that the membership list will number 500 before Jan. 1.

Officers were elected as follows: Modoc, George M. Barclay; baron, Frank H. Collins; baronel, H. B. Dupuy; baronette, C. F. Lemmon; pictor, Arthur M. Hull; mazumer, A. F. Boos; gazook, L. Romanski; pitboss, Sam M. Stanley; acolyte, A. B. Lemmon; swatta, C. R. Shabino; spotta, J. A. Eggenberger.

The organization is designed to play the same part in the coal trade as the Hoo-Hoos in the lumber trade.

CROWN FOR AMERICAN GIRL

Newark (N. J.) Preacher, After a Foreign Trip, Makes a Prophecy.

The Rev. Dr. Daniel H. Martin of the Clinton Avenue Reformed church, Newark, N. J., who returned recently from England, says, according to the New York Times, that he believes an American girl will soon occupy one of the thrones of Europe.

"There is a sort of tremor in the average European nervous system," he declared, "over the colossal fortunes that are piling up in America. Some of the journals seem to be in dread lest a Morgan or a Carnegie buy up all their art treasures and send them to America. Already you may see in the shop windows the sign 'Made In America' or 'American Style' by way of commending the articles.

"The European aristocracy is evidently trying to forestall the American invasion by monopolizing the great American heiresses and thus making their country profit by our wealth. There are 102 American women in the aristocratic circles of England and seventy-eight in France. I am looking forward to seeing an American girl on a European throne? Why not?"

Miniature Autos on Bracelets.

Speaking of the trend of fashion in different directions word comes from abroad that one of the newest fads, which is unique in its freakishness, is the automobile bracelet, says a writer in the New York Press. It is composed of a chain made up entirely of tiny gold and jeweled motor cars. The lamps are composed of tiny diamonds, and every detail is carefully carried out. In spite of the value of the jewels and metals employed the real cost of such a bit of jewelry comes from the workmanship.

Agricultural Experiment.

The agricultural department is going to try to fool nature, says a Washington dispatch to the New York American. It is projecting a series of tests to see if cabbage and beets and garden things cannot be made to grow as well under electric light as under the influence of the sun's rays. The idea is that with the use of the electric light and the heat it will give off the bulbs may be placed under conditions as favorable for the growth of fruit and vegetables in winter as in summer.

TWO AMERICAN EVILS.

Savant Says We Have Too Many Eyeglasses and Too Long Tickets.

"Too many American people wear glasses. I take off as many pairs of glasses from my American patients as I put on them."

Professor J. Herschberger, the highest authority in the world on diseases of the eye, professor of ophthalmology at the University of Berlin, stopped long enough between a bath and a banquet to give his opinion of the American custom of wearing glasses, says the Denver correspondent of the St. Louis Post-Dispatch.

Although sixty-two years old, Professor Herschberger does not himself wear glasses.

He declares that more Americans wear them than any other nation and that he believes this is all inspired by our desire as a nation to see things clearly. The claim that the average American eyes are growing weaker because of abuse he declares to be ridiculous. "Americans read a good deal, but their eyes are just as good as those their grandfathers had, if they only knew it," said the professor.

When it comes to American combination railroad tickets the famous oculist loses his command of the English language. "Ach! But look at this!" he exclaimed, delving down into the capacious depths of a German traveling bag and fishing up triumphantly a many colored railroad ticket several yards in length. He dangled it in the air and trailed it up and down the room in his rage.

"This is what I call the American rattlesnake," said Professor Herschberger, "and I shall keep it and take it home with me to Germany to place on exhibition. I bought a ticket from New York to Portland and back to Boston. It gave me stopovers at every town in the country, and I was assured it would make traveling easy. When I got to San Francisco I locked it up in my trunk, and since then I have bought a ticket between each town. This I keep to warn my countrymen with."

Chicago Gardener Is Trying to Grow a Tricolor Chrysanthemum.

Joseph Frey, head gardener in Lincoln park, at Chicago, is seeking to give the United States a national flower in the form of a chrysanthemum plant which will grow red, white and blue blossoms, says a Chicago Dispatch. The experiment of hybridizing chrysanthemums and asters, which are closely related to the Japanese flower, has been going on in the conservatory at Lincoln park.

Frey has created many wonderful combinations in flowerdom. The success or failure of the plan will be revealed by the last of October, when the chrysanthemums and Siberian asters begin to head and

Will Run for Sheriff.

Geo. Dougherty, the pioneer apple man of the Lingleville country, was here Wednesday on business and made a brief call on the Progress to renew his subscription. We learn from him that there is truth in the report that he expects to enter the race for sheriff at the next election and Mr. Dougherty advised us that he fully thus decided and at the proper time would formally announce through the Progress. Mr. Dougherty has been an Erath citizen since 1882 and is a native Texan, having been born in Johnson county. He is one of our best citizens and the kind of a man that good peace officers are made of.

Busby Case Again.

The case of A. S. Busby for misappropriation of public funds while assistant cashier of the state penitentiary at Rusk, was tried at Crockett this week and resulted in a verdict of guilty and he was given a sentence of three years in the penitentiary. The defendant is well known in Dublin, having some years ago made this place regularly as representative of a Ft. Worth wholesale drug house.

Burned with Gasoline.

While starting a gasoline engine at his repair shop last Saturday morning Wm. H. Boyes was painfully burned on the left side of his face and on the left hand by an explosion of gasoline. The engine is one that uses a gasoline burner for igniting the gas inside the engine and in pumping a pressure on this burner a leak was sprung and the gasoline at once caught from the flame of the burner. The burns were not dangerous but were very painful.

HAMILTON.

From the Herald.

Nov. 15th.—President Geo. F. Perry has called a meeting of the Hamilton County Medical Society to convene at the court house in Hamilton at 10 a. m., Monday, Dec. 4th.

Mr. Edwin Clark of Denison was here this week in the interest of a railroad project and our citizens gave him a most cordial welcome. He addressed the people at the business club meeting Tuesday night and spoke in high terms of the wonderful resources of our county, expressing great surprise that we did not already have a railroad to the town. He said he was confident he could get one to build and a contract was entered in to that effect. It is likely the road will be built from Stephenville.

President W. G. Snell has called a meeting of the Hamilton county subdivision of the Southern Cotton Association to meet at the court house in Hamilton the second Saturday in December, the 9th day of the month. The purpose of the meeting is to elect officers for the ensuing year and select delegates to the state convention to convene at Austin the first Wednesday in January of next year.

HERE AT HOME

Dublin Citizens Gladly Testify.

It is testimony like the following that has placed "the old Quaker Remedy" so far above competitors. When people right here at home raise their voices in praise there is no room left for doubt. Read the public statement of a Dublin citizen.

William Martin, farmer of Dublin, Texas, says: "For two or three years, off and on, I was subject to a dull aching pain in my back, at times quite severe and always worse if I caught a slight cold, for it was sure to settle in my back and cause extra pain and annoyance. Doan's Kidney Pills were brought to my notice and as I was suffering considerably at the time, I procured a box at the Overton Drug Co.'s store. They suited my case, for in a short time the backache which had troubled me for so long entirely passed away."

For sale by all dealers. Price fifty cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
