Council To Consider Urban Resolution

First Step Toward Election

City Council Monday night will consider a resolution setting a public hearing on the possibility of an Urban Renewal election here.

Urban renewal — a program designed for the federal government to join hands with municipalities and private business in the erasing of blighted areas — has been under study by city officials for months.

And councilmen are expected to approve the resolution, thus put into operation machinery for a public hearing.

The hearing will be for a council to decide whether or not to submit the question of Urban Renewal to the vote of the citizenship.

City officials have been studying Urban Renewal as a long range development plan for the city, not only to redevelop slum and blighted areas, but also a possibility for improving shopping and business areas.

Colorado Housing Authority, reactivated to work in conjunction with a possible Urban Renewal program, was notified this week that the Public Housing Administration in Washington had reserved 50 low-rent dwelling units for Colorado City.

Official notification of the reservation came to Leonard Henderson, former mayor and now president of the housing authority, from Charles E. Slusser, PHA commissioner in Washington.

Earlier, however, Congressman George Mahon said Senator Lyndon B. Johnson had told city officials of the housing developments.

The reservation of 50 units was made after request by the local housing authority.

Reservation of the dwelling units is expected to be followed by a preliminary allocation of money to the housing authority for developing of plans.

Usual preliminary planning allocation amounts to about \$200 per unit reserved.

City officials pointed out that the reservation of low-rent units is a first step.

The home-town newspaper is familiar to every American old enough to read. But how well do these readers understand its problems and purposes — its importance in their lives, and the life of the community, state and nation? A home-town newspaper, such as the Record, is so many things. It is similar to

and yet unlike many other businesses, professions and institutions in this community. Its services are so varied that it is part of all the others.

Community Mirror
It might be called a mirror of the community, a library of local information, a market place, a partnership in which the owners, advertisers, readers and the whole community have a common interest.

Drive Is Success

The Colorado City Record circulation campaign has now passed the midway point, and the publisher is happy to announce that results thus far have more than passed all expectations.

Merchants of the area will be interested to know that practically all of this additional circulation is in the Colorado City Trade Area served by the Colorado City Record. Readers are people who are customers of stores in the area.

There are no tricks in this campaign, the people being placed on the mailing list are paying the regular subscription price, and no subscriptions are being given away. The fine people who are candidates in this campaign are friends of the paper and friends of the people in this area. They are working hard for valuable prizes. The prizes just as they have been listed in the paper, will be given away Saturday, May 24, with no strings attached.

The first prize winner will receive \$800.00. All the other cash prizes will be paid at the same time and there will be no waiting and no guessing.

It is the desire of your newspaper to have every home in the trade area given an opportunity to renew or subscribe, and at the same time help the candidate to win the prize she is trying hard to win. By subscribing the first time a candidate calls, you can save her a lot of valuable time. Before the votes take another tremendous drop, for the benefit of your favorite candidate — subscribe — renew — or extend your subscription before it's too late.

DON'T LET YOUR FAVORITE DOWN!

It is not a food store, for it cannot feed the people of the community, but its advertising columns do nurture the food store.

Although it cannot render banking service, it is a well known fact that the newspaper is the bank's protector against the damage which misinformation or misguided interference might cause.

It does not practice medicine, but it does play a vital part in preventing disease and the spread of epidemics. It lays no claim to being a lawyer or court of law, but it stands ready to prevent or correct injustice.

Disseminate Information
Neither the publisher, editor nor members of the newspaper's staff claim a superior status in the community. They admit only that the newspaper tries to do its job. And when information regarding the community is desired the place most often visited is the office of the local newspaper.

Workers in the Record "Good Will" Subscription Campaign are making every endeavor to convert promises into votes during this period, and many folks are extending their subscriptions in order to help a favorite candidate.

The Record can better serve and better mirror this community if it has the support of an ever growing family of subscribers. Your newspaper is important — stand behind it as a friend.

LOOT RECOVERED

Man Jailed for Local Burglary

Freddie Lee Smith, 30, with a record of police arrests, was in jail here Saturday facing burglary charges.

He was in jail after failing to post \$1,000 bond.

Smith was arrested by city police and charged in Peace Justice G. C. Lemon's Court with the Thursday burglary of the Paris Yarbrough Corden Station.

Two new 12-volt batteries taken in the break-in were recovered in a vacant building near the old D. W. Wallace School.

Police Chief Leon Yeager said Smith admitted the burglary.

Police are still searching burglars who Sunday night entered Veterans of Foreign Wars Hall here and took approximately \$50 in change from a cigarette machine.

Entrance to the building was gained by removing a glass window pane on the building's north side. The cigarette machine was wrecked.

Theft of tires and wheels continued here during the week. Latest to report losses were J. S. (Jay) Craddock Jr., 6-ply heavy duty 700x15 tire

Applications Taken for New Wheat

A farmer on land where no wheat was seeded for 1956-57, can apply for a "new farm" wheat acreage allotment for the 1959 winter wheat crop.

Deadline for applications is July 1, according to A. L. Young, chairman of Mitchell County Agricultural Stabilization & Conservation Committee.

Even if wheat was produced on the farm in 1958, the farm is still considered a new wheat farm if it did not have a 1958 allotment. And the farmer must apply at the county ASC office as a new producer. Young emphasized.

An important requirement in obtaining a new allotment is the filing of a written application before the July 1 deadline, according to the chairman. Application forms are available in person or by mail at the county ASC office.

ELEMENTARY GROUP IS TOPS

Hutchinson and Junior High Bands Win Regional Honors

Colorado City's youngest bands — Junior High and Hutchinson Elementary — have earned outstanding ratings in Texas Interscholastic League competition.

Junior High Band received Class II rating in concert and Class III in sight reading while competing with West

Hamlin. Dwight Tomb and Warren Thaxton, band directors for Colorado City public schools, praised the performances by the two bands.

It was the first time in history that the local Junior High Band has competed in regional competition. Other junior bands in the festival included those from Abilene, Sweetwater, Snyder and San Angelo, where junior high band

programs have been conducted for years. Colorado City's Junior High and Hutchinson bands were organized only last year.

Performance by Hutchinson Band was even more extraordinary. Not only did the band receive the highest concert rating possible (Class I) but it was earned in competition with bands composed of seventh and eighth graders. And the Hutchinson Band is composed only of fifth and sixth graders.

In fact, there are 33 sixth graders and 40 fifth graders — beginners — in the Hutchinson organization. Thaxton directed the Junior High Band in its regional performances in Abilene. However, in Hamlin the Hutchinson students were directed both by Tomb and Thaxton.

Final appearance this year for a city public school band will be when the 43-piece Colorado High Band plays at the high school commencement May 23.

The high school band, which favored a concert tour to El Paso this spring instead of entering regional competition, is also building for a finer future. Only three members — Cynthia Aycock, Helen Adams and Melvyn Berman — will be lost through graduation.

W. T. Brooks Heads Cemetery Group
W. T. Brooks heads the new officers for Westbrook Cemetery Association.

New vice president is Mrs. Charley Parrish. Re-elected secretary-treasurer is Mrs. Altis Clemmer.

The association elected the officers at a meeting last Sunday afternoon.

Date for the cemetery's spring clean-up will be May 30, according to Brooks. All interested persons are urged to participate in the all-day work project, which also will feature a basket lunch.

Arrangements for sending six deserving boys to Camp Hoblitzelle will be made by Caddell and Preston. The boys will be sent with expenses paid by the Salvation Army.

Plans were discussed also at the breakfast meeting in Ranch House for observance of Salvation Army Appreciation Day, May 22.

Certificates of appreciation will be presented during that week to four county citizens who have provided long-standing assistance for the Salvation Army program in Mitchell County.

Programs pertaining to Salvation Army work will be presented that week at the Kiwanis luncheon, May 20, and Lions Club, May 23.

Shawn, treasurer for the Salvation Army unit, announced that the committee had administered aid to more than 270 persons here in Mitchell County since Jan. 1.

AGAINST SALES TAX

Rep. Armor Issues Statement In Campaign for Re-election

L. L. Armor, in making his official announcement as a candidate for re-election as State Representative of the 91st District, emphatically stated that he would be against a general sales tax and state income tax, if re-elected in the forthcoming primaries.

Armor stated: "The state's business is big business and since I have spent all my life in business, farming and ranching I believe I fully understand the problems facing the next session of the Legislature.

"Our number one problem is still water conservation and will be until every drop of water that falls in the state is captured and held by dams. And it will not call for any further taxation to follow through on this project since the state has already voted a bond issue with which to provide the money," Armor said.

Armor also pointed out that the number two problem is taxes. He said that 94 per cent of all state funds expended go into "our school systems, highways and public welfare."

"Naturally I realize that all types of taxes are ultimately paid by the consuming public. However, a general sales tax or a state income tax, is paid 100 per cent by our own people whereas a natural gas tax would be paid 20 per cent by the people of Texas and the remaining 80 per cent would come from out of state."

L. L. ARMOR

in race again.

port a bill levying 1-cent per 1000 cubic feet on natural gas. "This would raise 55 to 60 Million dollars additional revenue," he added.

The candidate also pointed out that the natural gas exported by Texas is taking the place of 1,250,000 barrels of oil production per day. "While we still have natural resources to tax it seems to me this is the proper place to raise additional needed funds since 80 per cent of the money would come from out-of-state. There is no need for a sales tax or income tax until our natural resources are exhausted," he added.

Another item of prime importance to all West Texans is the fact an all-out effort is being made by the big cities to do away with the state's farm-to-market road program.

"I am definitely in favor of continuing the present rural road building program and believe this fund should be increased," Armor said.

Mr. Armor stated that he is a member of the Farm Bureau and has been for a number of years and, "I heartily agree with their policies." He also pointed out that all his farms are serviced by the REA, both electrically and by telephones. Naturally, I will not be a party to anything which would harm this program," he stated.

The 91st Legislative District is composed of Nolan, Mitchell, and Fisher Counties.

"I am seeking the votes and influence of all voters in these counties on the basis that I will continue looking after the interests of all the people in my district by promoting and fostering good economical government," Armor stated in closing.

WITH HOMERS

Windham's Team Edges Sun, 5-4

A four-run rally in the fifth inning gave the Windham Pipeliners a 5-4 victory over the Sun Oil Co. softball team Friday night in Silver.

Sun held a 4-1 lead until the fifth when the Pipeliners rallied.

H. L. Jones started the rally with a single, followed by Bud Windham's single. Second sacker Dwayne Thompson rapped a single to score Jones.

Then catcher Tommy Teakill hit a home run, scoring Windham and Thompson ahead of him.

Sun tried a comeback in the final inning when their pitcher Flowers singled and advanced to second.

But Windham's pitcher, Gene Parham, got the next

three men on strikeouts and groundouts.

Parham, who pitched the final four innings, received credit for the win-giving up only one hit.

Marvin Healy hurled the first three innings for the Pipeliners.

Sun Oil started fast, scoring two runs each in the first and second innings.

A double by Robert Henderson in the first scored McKinney and Lisby for the initial Sun runs.

A single by Clendennen, another by Wilkes and a triple by Johnny Stewart accounted for the Sun tallies in the second frame.

The Pipeliners' initial run came in the second when Yank Robinson socked a home run.

Then came the Pipeliner rally in the fifth that sacked away the victory.

Flowers went the distance for Sun, giving up seven hits and striking out 10.

The Pipeliners, sponsored by Windham Pipeline and Welding Co., will play the Cosden team Tuesday in Big Spring's City Park. Thursday night, they have a return match with Sun Oil at Silver.

COUNCIL—

Continued from page 1

It was emphasized also by City Manager Rollin K. Sneath that the city is viewing the housing units as a means for aiding the urban renewal program by providing low-rent housing for certain hard-ship cases that will be misplaced by Urban Renewal slum clearance and redevelopment.

SKUNK

(Continued from Pg 1)

Less than four weeks ago a four-year-old boy, Donnie Hartsfield, was bit by a rabid skunk that ran into his home.

Dr. J. D. Williams, veterinarian, has urged all citizens—especially in the area north of the city—to be on the alert for an evidence of rabies.

Residents in the area also have been advised to keep their pets under observation for 40 days as a special safeguard.

WORKERS—

Continued from page 1

The new boiler for the fifth unit will be taller than any other part of the plant, in fact it will be as tall as a 16-story building.

The supporting steel around the boiler will weigh 1,000 tons.

Bates said construction has begun on the new Champion Creek Lake, seven miles southeast of Colorado City.

Construction on that project is expected to be completed by next year.

The new lake will cover 1,800 acres when full and will impound from 35,000 to 50,000 acre feet of water, larger than Lake Colorado City.

Contractors on the Champion Creek dam project—which is tied in with the Morgan Creek expansion—are expected to have a crew of 50 workers busy during the next few days.

More than 20 Negro workers will be included in the crew.

Crusade Over Top With \$2,215 Fund

Mitchell County's 1958 Cancer Crusade has gone "over the top" in its fund raising goal.

Latest count Friday revealed a total of \$2,215 in contributions—\$415 more than the original goal of \$1,800.

And the crusade has not been completed in some rural areas of the county, according to Miss Sallie Tharp of Mitchell County Unit, American Cancer Society.

Response for the crusade has been fine in all areas of the county, Miss Tharp reported.

Largest collection, of course,

was in Colorado City during the house-to-house campaign last week. But \$155 has been collected to date at Westbrook, \$290.90 in Loraine, plus good amounts from other areas.

Negro citizens and Latin-Americans also have carried out successful work for the crusade in their areas.

Mrs. A. L. McSpadden led all block captains in the crusade, as she turned in a total of \$198.50.

The local crusade was led off with a \$10 contribution from Dick Simpson of Big Spring, an executive director in the American Cancer Society's state organization.

Work Brigade for Loraine Cemetery

Loraine citizens plan a hoe and rake brigade Monday.
