Incensed Citizens Protest Pardon of Eagle Pass Man

CLEMENCY FOR FORMER SCHOOL HEAD OPPOSED

Rangers Carried Ma's Order for Release Of Convict

MASS MEETING HELD

Delegation's Visit to Jim Ferguson Is to No Avail

EAGLE PASS Oct. 24.—Citizens of Eagle Pass in a mass meeting have issued a strong protest, signed by officers representing various civic and religious organizations in the city, against the recent pardon of J. Patrick Holmes, superintendent of the Eagle Pass public schools, who has been serving a one-year sentence in the county jail here upon conviction of a statutory charge.

On Oct. 22, three state rangers traveling in an automobile appeared in Eagle Pass bearing a pardon from Governor Ferguson for the four months remaining of the one-year sentence being served by Holmes, together with a full pardon for six other jail sentences of one year each, and a $500 fine assessed in each case by the county court of Maverick county.

Rangers Took Him Away

Upon presentation of the pardon, the sheriff released the prisoner from custody and the rangers departed with him, presumably for his home in Seguin.

Prior to issuance of the pardon by Governor Ferguson, prominent citizens of Eagle Pass had protested by telegram against any possible pardon or parole for Holmes, and later a committee was sent to Austin to confer with the state executive in the matter. In the absence of Mrs. Ferguson at the capitol, the protest states, the committee was met by former Governor Ferguson, who explained that a pardon for Holmes was being considered because the punishment was falling upon innocent shoulders.

The committee then explained the serious nature of the charges against Holmes, the protest says, whereupon Mr. Ferguson is alleged to have indicated that if the fines against Holmes, totalling $3,000, were remitted, a pardon would not be considered.

Hold Mass Meeting.

The pardon was finally granted, however. The citizens in another mass meeting expressed indignation at the governor's action, and were further incensed at the use of rangers in delivering the pardon.

The protest issued gives a complete review of the case, with copies of telegrams exchanged between Austin and Eagle Pass.

WAS DEFENDANT IN SEVEN CASES

AUSTIN, Oct. 26.—J. Patrick Holmes, who was released by Governor Miriam A. Ferguson, Oct. 20, was convicted at Eagle Pass in 1923, on one statutory charge, and admitted his guilt in six other cases. In March, 1925, the court of criminal appeals denied his motion for appeal, and he was placed in jail and served eight months of a year sentence.

According to the record, Holmes was convicted in one of seven cases, being fined $1,000 in the first case, $500 in each of the six, and sentenced a year in each case. The governor remitted the fines and remainder of the jail sentences, saying in her proclamation that Holmes had been "sufficiently and abundantly punished."

RECORD NEWS OFFICE FLOODED WITH ANSWERS FOR ELEPHANT CONTEST;--MAIL YOURS TODAY

Little Better Than Two Weeks Left to Send in Total Of Figures on Back of Record News Elephant Hide

You've got just a little more than two weeks to earn $1,000. What will you do for it? We have a wonderful proposition. The Record News has an elephant with a hide full of numbers. To our readers and friends we recommend the addition of these numbers. In order to encourage you to do this adding, we have put up $1,000.

Believe me this is a knockout. Many of our readers and friends have taken advantage of this offer and we have our office stacked up with their guesses as to what the elephant weighs. We're keeping a little place for your answer so send it in as early as possible.

Turn to our elephant ad and read everything printed there before you get started. Everything is simply stated and there are absolutely no catches. You don't gamble a thing on this gold mine. Just follow the rules and on Nov. 14, the closing day of the contest you'll be from $3 to $500 richer. Take our word for it.

Those who have already answered the ad are a census in themselves. Students a vieing with teachers, little tads are working against their dads. Housewives are taking time off from their soup making to sit down and add up the elephant's numbers. Farmers find it as interesting as gathering the cotton crop. In fact everybody is taking a part in it.

You'll remember what a grasshopper said to the elephant, "Stoop down a little big boy, I can't hop over you now." He'll stoop for you too, and we'll help you to hop over him. And when you land on the other side, you'll find the pot of gold, which is doing better than the fellow who followed the rainbow.

Murderer Talks In Sleep; Gets Death

DUSSELDORF, Germany, Oct. 26.—(AP)—Talking in his sleep promises to prove fatal to a criminal named Schramm, who unconsciously betrayed himself to his cellmate. Despite Schramm's later denials in court his cellmate told of nocturnal babblings in which Schramm described tieing a rope about a man's neck and throwing him into the Rhine.

The body of such a victim was found last week, weighted as described, and the court condemned Schramm to death.

HIGHWAY BODY DEFIES ORDER OF DAN MOODY

Commission Refuses to Cancel 31 Road Contracts

CHALLENGE ACTION

Tell Attorney General To File Suits if He Desires

AUSTIN, Oct. 26.—(AP) The state highway commission today cancelled two county maintenance contracts. It informed Attorney General Dan Moody that it would not cancel thirty-one other contracts, which he recently demanded and asked the attorney general to hasten to file suite to cancel the 31 remaining contracts if that was his intention.

The bi-monthly meeting today was the quietest held for several weeks. Former Governor James E. Ferguson, who up until October usually attended the closed sessions, was not at the highway department offices today.

While the commission was in session, the attorney general was with the Travis county grand jury late today, apparently continuing his investigation into the activities of the department. Mr. Ferguson and the Governor declined to discuss Mr. Moody's alleged agreement with the American Road company over the return to Texas of $436,000, in order that it may be under the jurisdiction of the state courts.

Contract for Camp county maintenance with Cocke and Turner for 24,000 and Limestone county with Porter and Herring for $53,340 were cancelled.

New Wildcat In South of Olney

Dale and Christie Brothers No. 1, Keithley, located in block 153, TE&L survey, a little more than a mile south of Olney, was reported showing some sort of a well last night. It had bailed down and was showing considerable oil from a sand at 983 feet.

Officers Are Implicated In Big Beer Plot

CHICAGO, Oct. 26.—(AP)—Eight railroad employes questioned today by James L. McDowell, assistant United States district attorney, regarding reports that liquidation was being run into Chicago through connivance of railroad employes and police officials were reported to have confessed late today, implicating ten police captains and officials of Joliet, Aurora and Peoria. Many of those implicated will be questioned tomorrow.

Thomas Keane, city collector, was also brought into the inquiry by the eight men who were among twenty employes of the New York Central questioned at the district attorney's office.

Keane who had been questioned during the sacramental wine investigation here several months ago was taken to the district attorney's office, government officials refused to say what information they gathered from him.

The district attorney's office has indicated that it will ask indictments against several railroads and police and other officials of Chicago and a number of surburban towns, as well as against beer runners alleged to have been involved in running liquor into Chicago in carload lots.

CITY'S ACTION ON WEEKS PARK PLAN DUE SOON

Land Donor Recently Asked Council for Improvements

A definite decision with reference to the city's attitude on Fred Weeks' request for a change in paving plans in the south side park and golf grounds is expected to be made within the next day or two. Mayor Shepherd and the commissioners have already settled on what they are willing to do, it is understood, and the final agreement is being held up by a few minor points which are being worked out with Mr. Weeks.

The latter, who donated the city 200 acres of land for the creation of a park and municipal golf course, asked a short time ago that drastic revision be made in the type and size of a road the city and county propose to pave through the park. Since then, however, Mr. Weeks is understood to have modified his idea somewhat and it is believed an amicable settlement will be effected between the two in a short time.

Not Cleo Writhing From Bite of Asp; Only "Charleston"

Cleopatra might have writhed when she was poisoned by the asp, but at that, she had nothing on the youngsters of 1925 who never saw a viper. It is not a fact that the heebie jeebies have affected college students; it is not that they are warming up before the football games; the numerous contortions being exhibited in the solemn halls of Junior college are not caused from the pain of physical disabilities. It is the study and performance of new steps in the "Charleston."

PHILLEY STILL IN JAIL HERE; DENIES POISON

Officers Say He Has Admitted Authorship of Anonymous Letter

W. W. Philley, Bowie contractor who was arrested Sunday on charges of attempting to poison Judge C. M. McFarland of the county court at law here, was still in jail Monday night and no steps had been taken to secure his release on bond. He was brought here Sunday afternoon following his apprehension in Bowie on warrants sent by the local sheriff's department. These were based on a complaint filed Saturday afternoon as an outgrowth of numerous irregularities in the home of the local jurist.

Finding of strychnine in food products prepared for use in Judge McFarland's household; destruction of his barn by fire, and finally the receipt of a threatening letter led to the investigation by the officers. Philley had been doing some remodeling around the McFarland home when the poison was found.

The man admitted having knowledge of the threatening letter but denied at the time of his arrest and has since maintained that he knows nothing of the poison episodes.

MAN ARRESTED WAS RELEASED IN FT. WORTH

Was Turned Loose Before Local Deputy Got There

CLUE IN SAUL CASE

"Stool" Had Tipped Officers of Man's Part In Crime

An apparent slip on the part of the Fort Worth police department Monday robbed local officers of what they considered certain solution to the Sunday robbery of Saul's store it was reported last night when information was sent back here by Deputy Sheriff Ray Ballard that a man arrested there had been released before the arrival of the Wichita Falls officer.

Deputy Sheriffs J. W. McCormick, Ballard and others who worked unremittingly on the case Sunday night believed they had cornered at least one of the thieves who, in a daring daylight invasion of the big department store, looted three safes of over $300 in cash. The man they were seeking was arrested by the Fort Worth police department late Sunday night as he arrived in that city via a service car. Word of his arrest was sent back here and Ballard left on the first train after a return wire had been sent to Fort Worth to hold the suspect.

Suspect Disappears.

Monday, however, Ballard phoned McCormick here that the man they wanted had been released by Fort Worth police prior to his arrival and

HAS WORD FOR PASTORS.

Says Ancient Prophets Knew More About Advertising.

CHICAGO, Oct. 26.—(AP)—Ancient prophets of Israel were better advertising men than P. T. Barnum, the circus man, according to Dr. Burris A. Jenkins of Kansas City. He told the conference on church publicity today that the clergy would do well to take their cue from Barnum and the Hebrew prophets.

Dr. Jenkins advised the pastors to devote more time and thought to the selection of attractive sermon titles, which be compared to headlines.

"The prophets of Israel understood the value of publicity. One of them named his sons after the themes of his great messages."

Crime Wave Hits All Southwest, Hodgins Says

THIS CITY NOT ONLY SUFFERER, POLICE CLAIM

Numerous Robberies In Texas-Oklahoma Reported

(Continued from Page One)

that he had been unable to find a trace of him.

The arrest was effected, McCormick said, through information supplied by a "stool" in this city. This "stool," working under cover with the officers, talked with the suspect shortly after the robbery, it was said. He obtained information that gave ample proof of the suspect's complicity it was said, and immediately communicated with McCormick. In the meantime, however, the man had left the city but was caught through a prompt warning and description broadcast by the deputies.

Still Has Hope.

Despite the fact that his quarry slipped through his fingers when it seemed certain he was caught, McCormick said last night he believed the man would yet be found. He is known to the officers and a complete description of him has been sent to distant points where it is believed he may go. McCormick declared the search for him would continue, while at the same time a hunt would be extended for others believed to have been implicated in the Saul robbery. It is certain more than one thug had a part and clues are being trailed which may lead to their apprehension.

Town "Locks Up."

In the meantime, Wichita Falls went to bed Monday night under a figurative lock and key. The epidemic of safeblowing, burglary and hi-jacking that has swept the city recently left a well defined apprehensiveness that this swift series of banditry is not yet ended. Enough lawlessness had run rampant prior to Sunday to convince the city it was harboring a nest of crooks; but when the Saul store and the Federal Tire company at 809 Scott avenue was entered Sunday night and $585 taken from the safe, it began to look serious indeed.

The Federal Tire company is the heaviest loser thus far. Heavy sledges and cold chisels worked perfectly on the combination dial and mechanism of the strong box and when the yeggs had finished the cash drawers were empty. Entrance to the safe was obtained through a roof skylight. The robbers, it is thought, lowered themselves with a rope from the roof after gaining this vantage point either by an alley telephone pole or a window opening from a nearby building.

The safe was hoisted atop a pile of tires, where it was opened at leisure.

Hodgins Blames Transients.

Chief of Police George Hodgins last night blamed transient hoboes for a large part of the smaller burglaries that have occurred here during the last few weeks, although he said the big jobs were the work of thoroughly experienced professionals.

"The Saul's store safes were opened with nitro-glycerine," the chief said, "and this was the first time in the history of the police department that a safe here has been blown open with nitro. In the parlance of crime, the Saul robbery was a 'soup job' and only professional criminals with past experience, are able to use the explosive safely. The average amateur uses enough of it to bring down the building on him.

Seasonal Wave, He Says.

"The present crime wave is seasonal. Every year it comes. Wichita Falls has not been the only city in the Southwest hit by crime. Only last Saturday night four stores at Frederick, five stores at Altus, three at Devol and one at Clinton, Okla., were robbed. In addition we received a telephone call from Memphis, Texas, officers, asking us to be on the lookout for two daring robbers who entered a jewelry store there in broad daylight and got diamonds worth $2,500.

"Every year, when the criminal and hobo elements is driven out of the cold northern and eastern states by the frigid winter weather, we in the Southwest are troubled with crime.

"In addition to these criminals are those who are being turned out of the prisons," he concluded.

Don't Tempt The Criminals, Police Chief Here Warns

George Hodgins, chief of police of Wichita Falls, last night issued to citizens a plea for co-operation with the police department in checking the wave of crime which has struck this city recently in the form of a series of daring holdups and robberies.

Chief Hodgins yesterday gave the following suggestions on means of co-operation:

"In homes and business houses alike, keep doors and windows locked.

"Do not keep large amounts of money, negotiable securities or jewels on hand to attract burglars and sneak thieves. Keep silver and other articles of value out of sight.

"Do not hesitate to telephone the police department when you you see suspicious looking persons tampering with locks.

"Do not hesitate to telephone the police department when you see signs of criminal operation, or when you see businesses with doors unlocked or suspicious characters prowling around.

WICHITA MEN HEAD CHILDRESS BUILDING MOVE

Buy 35 Acres Which Will Be Subdivided And Improved

CHILDRESS, Oct. 26.—Childress, a city of 15,000 population by 1930, is the goal set by citizens as a result of a building campaign launched here.

That development is going on in the city is shown by a big deal consummated here this week when Dorrance and Batchelder of Wichita Falls bought a tract of 35 acres from O. W. and L. A. Howard, the land to be subdivided, houses built and sold to home-owners.

This land is just north and west of the city and is located in probably the highest part of the city. It is said that another subdivision is being planned south of the city. Lots have risen in price all over town and desirable building lots within walking distance of the business section cannot be found.

Mrs. Jimmy Yarbrough was hostess to a bunch of little tots Saturday afternoon, Oct. 24, honoring little Billy Jean Moore's second birthday. The children were given little horns as favors upon entering the house which was decorated with suggestions of Hallowe'en and they spent the afternoon in playing games. A special guest to the party was Billy Jean's grandmother, Mrs. Bell Moore of Bellevue. Mrs. Yarbrough served delicious refreshments of fruit salad, whipped cream and cake to Jimmy Frank Yarbrough, Kathleen Whitesides, Dorothy Corder and Minnie Tarl Williams.

Mesdames F. C. McMullen and C. W. Crow were hostesses to a birthday and Hallowe'en party Saturday afternoon from 4 to 6 at the home of Mrs. McMullen on east Bryan avenue, honoring little Francis Courtney's seventh birthday. The young lady was presented with many pretty gifts which included candy, stationery, and toys. The children were given favors of dolls and horns upon entering the house, and they played games until late in the afternoon when they were invited into the dining room where the lovely birthday cake was cut. Refreshments of cake and punch were served to the following children: Misses, Avandell and Jack Schlemeyer, Ruie Cotten, Norma McMullen, Arnelia Luffingwell, Rheba and Virginia McKinnis, Ruth Jones, Lillie Mae Williamson, Imogene and Ruth Macey, and Mary Edna Tinnin; Masters, Clois Crow, Thurman Leffingwell, P. H. Rowe and Atwood Hart. After the refreshments the children returned to the living room where little Misses Norma McMullen and Rheba McKinnis gave readings and more games were played, and all the children, still wearing their masquerade costumes were placed in a car and driven about the city and later being dellvered at their homes.

On Wednesday evening a meeting will be held of the T. G. F. club to make plans for resuming meeting. This club was organized almost three years ago wit 8 members, and is the only one of its kind in the state. Wayne Green was the first president of the club and had a great deal to do with the organization of it. This club is a sort of a council for the De Molay boys, and stands for the betterment of the city, clean athletics and for the benefit of the fellowman. The club now has 17 members with the following officers presiding: Johnnie Lebus, president; Wayne Green, vice president; and Robert Moore, reporter. All the members of the club who are not at the present time members of the De Molays will be among those initiated on Oct. 30. The motto of the club is: "Fear God, Honor the Queen; Stand Straight and Keep Clean."

Mr. and Mrs. J. S. Dotson were hostess to a weiner roast on Friday evening given for the five young lady school teachers who make their home with them. The party drove to Detmer's lake twelve miles north of the city where they built a bon fire, roasted weiners and marshmellows and made coffee. Those present: Misses Gladys Massey, Mattie Swicord, Ola McClesky, Ruth Holmes, Gladys Polson, Mrs. S. J. Datson and the two Datson children, Elleanor Merle and Peggy; Messrs. E. M. Corder, Gordon Douglas, Lon Cox George McGann and Mr. Hawks. A very enjoyable time was had by all and the young people gave a yell for the "Datson's" at the conclusion of the evening.

Mesdames Frank Lebus and Homer Grizzle were hostesses to the Concordia Bridge club members and their husbands at the night meeting at the home of Mrs. Frank Lebus on north Wichita street Friday night, at which time five tables of bridge were played. Mr. and Mrs. Claud Suggs were guests of the club. Those playing were: Mr. and Mrs. E. G. Latimer, Frank Doores, W. D. Cross, H. H. Miller, Mat Williams, J. W. Gookin, George Esell, D. J. Gillis and Messrs. Lebus and Grizzle. Mrs. J. W. Gookin received the prize for the ladies which was a boudoir lamp, and Mr. Frank Doores was given a cigar holder as high score for the men. The decorations were roses, carnations and chrysanthemums, and the tally cards were carried out in the Hallowe'en motif. All the guests were given paper caps to wear during the games. A lovely salad course with coffee and cake were served.

Mr. and Mrs. J. J. Hagan have both been operated on at the St. Joseph's hospital in Fort Worth. Mr. Hagan is improving rapidly and will leave the hospital in a few days while Mrs. Hagan is not doing so well.

Miss Pauline Talliferro of Fort Thomas, Ariz., is a guest of her sister, Miss George Ann Talliferro. Miss Pauline has accepted the position of teacher in the Waggoner ward school in the absence of Miss Taylor.

Mrs. Mat Chaffie has as her guest her sister, Mrs. Ed C. Stanford and little daughter, Betty Jane of Detroit, Mich., and another sister and her husband, Mr. and Mrs. O. K. Marvel of Oklahoma City. Mrs. Stanford will remain in the city another week while Mr. and Mrs. Marvel will return to Oklahoma City Monday.

Mr. and Mrs. J. E. Martin of Waurika, Okla., are guests at the home of Mrs. Mat Chaffie on Sunday.

Virginia Bess, small daughter of Mr. and Mrs. Howard Giles is quite ill at the home of her parents.

M. C. McDowell of Houston arrived in the city on Sunday to look after Rio Bravo Oil interest.

Miss Don McDougal and Misses Mary and Margaret Smith of Fort Worth have been guests of Miss Myrtle Cooper in Electra. Misses Mary Smith and Don McDougal are deputy county clerks of Tarrant county.

Mrs. W. A. Watson and Mrs. Ella Biggs were in Electra Sunday visiting with Mrs. E. Havens.

Misses Lucy Cawlfield, Mildred Francis and Fannie Godwin motored to Vernon Monday morning where Misses Cawlfield and Francis will look after business interests.

Mrs. E. M. Francis spoke at the First Baptist church in Vernon on Sunday night. Mrs. Francis is quite prominently known as a speaker in behalf of the W. M. U.'s work.

Rev. and Mrs. C. J. Fender returned to Electra last week where they will make their home for the next year. At the recent Greenville Methodist conference Rev. Fender was returned to this district as a special missionary to the oil fields. He formerly lived at Perrin, Texas.

Mr. and Mrs. Grady Green and daughter Iris, of Wichita Falls, spent the week-end in Electra with Mrs. W. M. Brumbage.

Miss Mae Morris, a student in the Draughon's business college at Wichita Falls, spent the week-end with her parents.

Mesdames Roy Stonesifer and C. F. Beech of Walters, Okla., are guests at the home of their parents, Mr. and Mrs. R. L. Lowe, living west of the city.

Mr. and Mrs. G. J. Cornelius, went to Seymour on Sunday to be the guest of Mrs. Cornelius' mother, Mrs. Donnell.

Mr. and Mrs. John Davis and family were visiting frends in the city Saturday.

Miss Ruby Corder, who attends school in Electra, spent the week-end with her parents at Harrold.

Bruce Alexander made a business trip to Burkburnett on Sunday.

Mrs. L. J. Wood and Miss Marguerite Biard left Friday for Abilene for a few days visit and on their return they will be met in Wichita Falls by Mrs. L. J. Clayton and Miss Toby Baird.

Mrs. George Wilsoxon, mother of Mrs. D. T. Fielder of west Garrison, left at noon Saturday for San Marcus and Austin, where she will remain for several months.

Mrs. Roy Snow is quite ill at her home on east Wilbarger street.

Forrest Gossage who teaches school at Dad's Corner, has been called to the bedside of his father, who has been quite ill.

Mr. and Mrs. Roy Vanhoove and family left Sunday morning for Austin to visit with Mr. and Mrs. Claude Smith. Mrs. Vanhoove and Smith are half-sisters, and the Smiths were old residents of Electra before moving to Austin.

SHOOTS BIG PELICAN.

CHILDRESS, Oct. 26.—While hunting at Lake Childress several days ago, Tom Alexander shot a large pelican, the bird measuring eight feet and five inches from its wing tips. Its bill was 15 inches long. He is having the bird mounted.

Ducks are plentiful in the lakes around Childress, as well as cranes and other water fowls.

FAMOUS HORN PLAYER DIES AS SOLO ENDS

Grieved Orchestra Continues Concert Before Public

PARIS, Oct. 26.—(AP).—Francois Lamouret, first horn player of the famous Lamoureux Orchestra, died after playing the solo passage in Vincent D'Indy's "Saugefleurie," at a concert last evening. He slipped lifeless from his chair to the floor.

The conductor, Paul Paray, reassured the audience, telling them that Lamouret had merely fainted and the members of the orchestra had the courage to play through the remainder of the program knowing that their comrade lay dead in the anteroom. It was remarked that the last selection, Wagner's wonderful musical setting to the death of Isolde, was played with unusual fervor.

Lamouret, although comparatively young, was regarded as the finest horn player in France, and one of the finest in the world.

The Classified Columns of The Record News always appealed to me as being satisfactory.

DIZZINESS, BAD TASTE, FROM LIVER TROUBLE

"I have been using Black-Draught for about forty years—have used it so long until when I go in the drug store they usually ask me if it is Black-Draught I want, and it usually is," says Col. W. A. Roark, a retired U. S. marshal and timber land owner, in Cleveland, Texas. "I used to have very bad liver trouble," explains Col. Roark.

"I'd have dizziness, bad taste in my mouth, and I wouldn't feel like going around.

"After a few doses of Black-Draught, I would feel well and fit for any work.

"I believe Black-Draught is the best system-cleanser made. I am now 86 years old and feel like 40.

"I keep myself in shape with Black-Draught.

"If I let myself get constipated, my back aches; I get a bad, dull feeling in my head, and when I found that Black-Draught would relieve all this, I take it in time and do not suffer this trouble any more.

"I have taken it for hoarseness and colds, and found it relieved me. I take small doses and believe this is more beneficial for me.

"I gladly recommend Black-Draught to friends, and as for myself, I am absolutely satisfied that it can't be beat for indigestion, and for the liver it's the best medicine made."

Constipation, with an inactive liver, locks up poisons in the body and allows them to do their dangerous work.

Drive out these poisons with Thedford's Black-Draught, the purely vegetable liver medicine. In use over 75 years.

Taken in time, it has helped thousands of men and women to get rid of many dangerous poisons which otherwise might have caused them serious afflictions.

SOCIETY

Of interest to a large circle of friends, is the wedding of Miss Alvida Montgomery, daughter of Mrs. M. M. Montgomery to Ben W. Wrenn of Amarillo, which took place at the home of the bride, 1100 Polk street Monday at noon, with the Rev. N. F. Grefton, pastor of the First Presbyterian church officiating.

The ceremony was read before an improvised altar made of chrysanthemums and other flowers and greenery, and the wedding party entered to the strains of the Lobengrin wedding march played by Mrs. O. E. Maer.

Little Leon Trice, Jr., nephew of the bride, acted as ring bearer, and carried the wedding ring on a silver tray. The bride entered on the arm of her mother, who gave her in marriage. The bridegroom was attended by his brother, Boyd Wrenn of Fort Worth.

The ceremony was read in the presence of relatives and a few intimate friends, after which Mr. and Mrs. Wrenn left for a wedding tour and will be at home later at the Amarillo hotel temporarily.

Mrs. Wrenn was reared here and is a graduate of the local high school, while Mr. Wrenn was formerly of this place where he was at one time connected with Tipton's, the Camp, and United Drug stores.

Preceding the ceremony, the bride was the recipient of several social courtesies among them a shower given by Miss Johnnie Groves.

SUB ROSA BY MIMI

The Merry Little Snob.

Here's a true story in which the chief characters are the merry little snob and the poor but honest lad from the small town.

Janet was the little snob. She knew her stuff, and she wasn't lowering her standards by being seen with anything by the best looking, wealthiest male being in sight.

She was quite a riot at X. College, one of the biggest universities in the country and she spent every other week-end thereat.

Among those who made her popularity a sure thing was the poor but honest lad from the S. T. He always made a point of cutting in at least once every ten minutes and in the old days before Janet had become queen of the works, she was tickled to death about his attentions.

However as she rose in the esteem of the young collegiates, some of the better classes began to notice her and finally the big boy of the whole place—the man who owned a Packard and had had bids to thirteen fraternities—actually invited her to be his guest for the week-end.

After that there was no holding our Janet. She never noticed the poor but honest boy again—in fact his cutting in became rather a nuisance.

And then suddenly he had the audacity to ask her to come up to X . . . as his guest. The nerve!

Janet couldn't of course, hurt his feelings—she couldn't tell him that he was only a half-timer and didn't belong in her scheme of things at all.

She could only stall around and pretend that she had too many other dates ever to be the guest of our hero.

Well the village lad understood the situation perfectly, and the next time the merry little snob came to X . . . he ommitted to form part of her stag line—he didn't go near her all evening.

Janet was amazed to note that his not cutting in made quite a difference. He had been so persistent a suitor that he had been a very good advertisement for her popularity.

Now that he no longer cut in with machine-like regularity, lots of the other boys dropped off, for fear of being "stuck."

And then the great Shirley D. came to X with a girl much older than Janet—a girl whose admirers were legion and who had the reputation of being the most popular person in New York. Janet admired and feared her.

And the great Shirley D. came to X as the guest of the boy from the backwoods. When Janet flew to her adored Shirley for an explanation of this amazing event, that sophisticated damsel told her crisply: "Oh, goodness, you can't get anywhere in this college without that lad. He's the biggest thing here, although he isn't noisy about it. He may be poor but he's powerful. If you lose out with him, you'll lose out with all the rest."

So the merry little snob lost out at X and learned a great lesson.

And if you're wise you will profit by this great lesson and be kind to the poor but honest lad you meet.

DOROTHY DIX ADVICE

Dear Miss Dix—I married my wife when she was nothing but a schoolgirl—I am twelve years older than she is—and she has been a good and faithful wife to me. Recently, however, a boy who was a schoolboy sweetheart of hers crossed our path, and I find that she had a little flirtation with him. It amounted to nothing more than their going to a show or two together, and perhaps a kiss. She is deeply repentant, and says she loves only me. Shall I take her back and forgive her, or not?

WORRIED HUSBAND.

Answer:

Of course, you should take her back and forgive her—though forgiveness is a big word to use for such a small wrongdoing, and I wonder, oh, virtuous husband, if you are entitled to cast even a pebble at her, much less such a hefty stone as you are heaving in her direction? Since you were married, have you never cast a roving eye at any pretty girl? Have you never stolen a kiss in the dark?

Be reasonable and just, even if you are a husband. Consider this: you married a girl before she had had her fill of romance. Have you continued to be a lover to her and supplied her with her daily ration of sentiment? Have you fed her up on sweet speeches and given her all the romance she craves?

If you haven't, you haven't any right to be horrified because she was tempted to nibble a little at the sweetmeats that you deprived her of when you married her too soon. Nor can you wonder that she felt that she would like to know what a kiss was like that had the thrill of passion in it, instead of being the flabby peck of duty on her cheek that are all that most wives get from their husbands.

As for your wife's meeting again with her old bread-and-butter sweetheart, that is a cause for rejoicing rather than regret.

Nothing does more to cure either a man or woman of lingering regrets for the lost loves of their youth than to meet up with their former flames after a lapse of years. Nothing is so disenchanting.

A woman may have remembered an early sweetheart as a slim youth with curling locks, and an enchanting line of conversation. She finds him dull and stout, and knowing nothing except the grocery trade. A man remembers his first love as a fairylike creature, with soulful eyes, as fresh and innocent as a baby. He finds her a fat and frowsy and dispeptical dame, with the mind of a hysterical hen fussing over her brood of youngsters.

Nothing is more impossible to take up than an old intimacy, and not once in a thousand times can you breathe the breath of life again into a dead love.

So if your wife wants to come back to you, and loves you best after having seen the old sweetheart, be sure that she is yours for keeps, and that even the ghost that haunted her dreams of the other man has been laid. She will never even think of him again.

DOROTHY DIX.

• • • •

Dear Dorothy Dix—I am a married man, devoted to my wife, and with four children. I find that the daughter of an old friend who has always been welcome around the house as a child is blossoming into womanhood, and that she has developed a mad infatuation for me, which she takes no pains to conceal. I am greatly worried about it. What shall I do?

C. B. M.

Answer:

The only thing you can do is to go to that girl's father, and tell him all about it, and ask him to send her away from home for a while, if possible, and at any rate, to keep her away from your house.

Otherwise, she will wreck her own life and yours, also, because there is no other tidbit of scandal that Madam Grundy is fonder of rolling under her tongue than an affair between a married man and a girl young enough to be his daughter. Certainly your home is in great danger because your wife will be a marvel among women if she doesn't become jealous and suspect you of being in love with the girl, for the obsessing fear of every married woman whose youth is slipping from her is that her husband will pass her up for a flapper.

I find that married men have a morbid fascination for very young girls. There is something about the man's age and sophistication, and knowledge of life that makes a special appeal to them, and also it makes them feel that they are doing something daring and wicked and vampish in taking a woman's husband away from her. This particular girl is lucky in finding a man who is honorable enough to try to cure her of her folly, instead of taking advantage of it.

Of course, time works a cure, and girls find boys of their own age. But in the meantime they have only too often had a disillusioning experience that has hardened their hearts and soudged their name and brought much suffering and sorrow to others.

Stewart Cheers Up When Rice Loses to Club

AUSTIN, Oct. 26.—(AP).—Coach E. J. "Doc" Stewart, monitor of the University of Texas eleven, was more cheerful Monday and praised the playing of his proteges in the Rice contest Saturday.

"The Longhorns played great football Saturday, and I am mighty proud of them," Coach Stewart declared. "This Fred Thompson is a wonder; he can do everything well. My youngsters, Ed Olle and Leo Baldwin, turned in good games at end, wile Joe King played his best game at quarterback. Pfannkuche, who is one of the best centers I have ever had anywhere, backed up the line splendidly, and Johnny Estes' running was specateular.

"I hope friends of the Longhorns will realize that we have a mighty good team this year, and if the students and others will co-operate by supporting the team to the limit, the season will be a success."

ASK SAILOR'S CUSTODY

AUSTIN, Oct. 26.—(AP).—Governor Miriam A. Ferguson today issued a requisition on the secretary of the United States navy for extradition of Charles E. Hoffman, sailor aboard the U. S. S. Altair at San Diego, Calif., wanted in Harris county, Texas, on a charge of murder.

Millions Die Of Indigestion

Most Common, Yet Insidious of Fatal Diseases, Strikes Like Lightning and When Least Expected.

Protect yourself by strengthening your digestive organs with Ferraline—then eat what you please without trouble.

has proved in Ferraline a quick and sure relief for the millions who are living in constant fear of that dreaded disease—Indigestion. Ferraline is not a concoction made by man but is a strictly natural product, and contains the essential elements which Nature has provided to strengthen and tone up the weakened organs of digestion.

Indigestion and weak blood march hand-in-hand. No dyspeptic can have pure rich blood until his digestion is made perfect again. Stomach disorders always weaken the blood and weak blood causes anaema, weakness and nervousness.

If you have had warnings of Indigestion do not delay anothe day to accept the positive guarantee that your money will be promptly and cheerfully refunded if the very first bottle of Ferraline does not give you relief. Don't be misled into believing that heart-burn, gas, bloating, constipation, billousness, sick stomach, heart and kidney pains will gradually go away. These are danger signals warning you that the dread disease Indigestion, is gradually sapping your very life. Regenerate your digestive organs at once with Ferraline, then you can eat three good meals every day without discomfort. A 10 day's treatment of Ferraline will cost you only One Dollar at your druggists.—Adv.

STANDING STILL IS MOVING BACKWARD

The conflict of the old, the existing, the continuing, with development, improvement, and reform, is always the same.

Change is CONSTANT.

All things MUST CHANGE to something new, to something strange.

EVERYTHING that is created is changed by the LAWS OF NATURE.

Yet Man, as he changes, fights change.

History teaches us that he prefers overturning things, and destroying the equilibrium of the whole world for a time, to submitting to constant, inevitable change.

As no man fording a swift stream can dip his foot twice in the same water, so no man can, with exactness, affirm of anything in the sensible world that is.

ONLY the rules of the most exact sciences are unchanging.

Order of every kind turns at last to pedantry, and to get rid of the one, people destroy the other; and so it goes for a while, until people perceive that order must be established anew.

The more we learn of the nature of things the more evident it is that what we call rest is only unperceived activity; that seeming peace is silence and strenuous battle.

"In every part, at every moment," Thomas Huxley observes, "the state of the cosmos is the expression of a transitory adjustment of contending forces; a scene of strife, in which ALL of the combatants fall in turn."

What is true of each part is true of the whole. "Natural knowledge," Huxley continues, "tends more and more to the conclusion that 'all the choir of heaven and furniture of the earth' are transitory forms of parcels of cosmic substance wending along the road of evolution."

Standing still, is after all, going backward.

If you aren't progressing, improving yourself, you are decaying.

Uncommon Sense

EMERGENCY ENERGY

A battleship, in pursuit of an enemy can, under forced draught greatly exceed its normal speed.

But the radius of action under forced draught is limited.

Soon the fuel is gone, and the ship is useless as a pursuer.

There are reserves of energy, mental and physical in every human being.

When the time comes when extra effort is required, they may be called on.

Men have been known to go many hours without sleep in war time, or in other times when great exertion was necessary, and to have been none the worse for it.

But after the crisis was over they had to restore the reserve slowly.

To continue at such speed would have been fatal.

All great effort requires an extra push to get over the top.

By keeping in good health, doing a regular amount of hard work every day, energy will be piled up and kept ready for emergency use.

But it must never be wasted, or used too long at a stretch.

And these reserves of energy, so vital to men at the important times of their lives, may be dissipated by bad habits even more rapidly than by too extended use.

The drunkard has no reserves.

Neither has the young man who sits up all night to play cards or talk, and then depend on an hour or two of sleep to put him in shape for the next day's work.

Overeating puts the digestive system out of shape, and in a constant effort to restore it, nature will soon use up the energy that ought to be stored away.

Sooner or later in every life the time comes when this extra energy is needed.

Often the fact that it is available will make the difference between success or failure in some very important activity.

It is probably that most geniuses have drawn upon it while finishing their masterpieces. Certainly nothing really great was ever accomplished with the ordinary forces that men bestow on the routine work of their lives.

This is not a top speed existence.

The deer stores up energy which he may need some day in a flight from a wolf.

He would soon fall exhausted were one wolfe to pick up the trail where another left it off.

He is capable of a magnificent burst of speed, but that will suffice to enable him to escape from only one pursuer.

The young human being stores up far more energy than he uses, if he keeps his mind and muscles in condition.

But there is a limit to reserve force. He can not store it up indefinitely as water is stored in a great dam.

Keep the reserve ready for the spurt, and when the time for the spurt comes it will be there.

Then, when the big effort is over, let it accumulate again. But do not try to use it for days at a time, or you will soon wear out, and people will say you broke down from over work, when it was merely from bad judgment in employing the forces that nature gave you.

Hugh Nugent Fitzgerald

Mr. Fitzgerald is writing a series of articles for The Record News on Port Arthur, Texas, popularly known as the place toward which all the oil flows.

By HUGH NUGENT FITZGERALD
Record News Staff

PORT ARTHUR, Oct. 26.—A wasteland 27 years ago, an unattractive picture of memory fighting for a place in the sun 15 years ago and a very vivid and pleasing recollection of the Port Arthur of today, is the reward of the writer for his return engagement to the city of a deep channel, vast ships of the sea, great refineries, modern wharves and docks and terminals and a bustling and ambitious population ever determined to win a larger place in the sun. Looking backward has its lesson. Looking forward, its joyful anticipations.

Fitzgerald

From a dream Port Arthur became a reality. From a reability it became a proud sojourner in the leading ports of the world. From a wasteland it became a great port of entry, and welcome the ships flying the flags of all the nations of the earth. Port Arthur has today these essentials and accessories which it did not have 15 years ago. Port Arthur is modern. It is a new city. Port Arthur has all the modern improvements and these include churches and schools and good society, powerful commercial organizations, modern mercantile establishments, banks of stability and large resources, civic organizations and fraternal societies of the best and an opportunity for all the children of the people to receive trained hands as well as educated brains.

Port Arthur has the best of paved streets. Port Arthur has spent its money for an adequate supply of water which is pure at all tmes and never failing. Port Arthur has fishing and hunting clubs and country clubs and golf links where the pleasures and the comforts and the joys of life are not overlooked. There are country highways of the best and with the building of a sink in an adjacent county the run from Port Arthur to Houston will be a delight to the motorist on a short run or the tourist who is crossing the state.

John W. Gates in the days when he was the barbed wire king of the southwest made the discovery that Lake Sabine was a fishing and hunting territory that made life one continuous round of pleasure for the hunter and fishermen of that period. John W. Gates was a genuine sportsman. He loved the rod and the gun. He loved horses and dogs. He loved to live close to nature in his leisure hours.

His achievements are ancient history. He began where Stilwell left off. And the monuments or munificences of the Gates family are everywhere visible to the naked eye. Mighty empire builders were the men who laid the early mud sills of this close-to-tide-water city. Port Arthur has its ships and its tankers and its steam railways and interurbans. Greatest of the steam railways is the Kansas City Southern railway. It is the great north and south line that touches this petroleum port of the world. It is going to be the arch, according to President Loree, of the premier railway system of the upper coast country and the great southwest.

If this happens, then again will the dream of Stilwell come true and be of greater significance and importance to the people of the northwest, the middlewest and the southwest.

And why shouldn't it come true? It will be only another fulfillment of a dream which must have been in sections or fragments. Then Port Arthur will be the great cotton and grain exporting port of a vast section of the country. Then the wheat of the northwest and the corn of the middlewest and Missouri river states will be conveyed by rail to Port Arthur and carried by ship to all the ports of the world.

Stilwell saw all this in his visions in the long ago, and dreamed all this in his dreams. Less than 30 years ago in his interviews with newspaper men, he forecasted that which was to be the fullness o time when his mighty dream came true. There is a Panama Canal not far removed from the tide water city of Port Arthur. There is a Pan-America, or rather a Latin America, with a population of 75,000,000, all eager for trade relations and commercial dealings with the people of the United States.

In the years to come the millions who flee from European countries to better their economic fortune are going to find homes in these Pan-American Latin republics of South America and in the republic of Mexico that is going to take its place among the nations of the earth some day. Gulf coast cities will be the important cities of that commercal civilization that is to come and unless the signs are misleading and the stars are at fault in their forecast of the future, then Port Arthur should occupy a proud place of commercial and economic and maritin importance on the map of the world.

WHAT TODAY MEANS TO YOU

By MARY BLAKE
Scorpio.

The unfavorable planetary aspects that asserted themselves yesterday afternoon continue in force during the early part of today, and the signs denote that any excursion into fields of new endeavor will not meet with that success which would probably be vouchsafed if a more propitious occasion were chosen for their initiation. In the early part of the afternoon conditions change, and, while not actively auspicious, the influences will be benign and tranquil. This will be very strongly felt in the emotions and there will be sensed a strong stirring of the better impulses. Such a condition always indicates reciprocity in love's interests and little fear of the outcome need be entertained if the "old, old story" be told and heeded.

Children born today will enjoy, according to the signs, remarkable freedoom from sickness during infancy. They will, however, be subject to a serious illness in their teens. This, if proper care be given, will not militate their attainment of physical normalcy. Tempermentally, they will be rather wayward and captious. There will, however, be such a prodigality of demonstrative affection in their makeup that these faults are likely to be overlooked, rather than corrected. These children will be very largely creatures of impulse and it behooves those responsible for their training to see that they are not left rudderless on the sea of life.

If today is your birthday, you are sympathetic and kind, a reliable friend and a faithful lover. You have no very great ambition and are easy going and content—so much so that your life is often considered by others a somewhat drab existence. Your one great weakness is lack of decision, or, what is more colloquially known as "not knowing your own mind." You are swayed too easily by the persuasions and arguments of others, and fail to exercise your God-given right to express and hold an opinion of your own. You are a pacifist and will agree with anyone on anything rather than engage in a conflict. If it were always safe to judge a person by their friends, your record would be a high one. It sometimes is more expedient to judge people by the enemies they have made, and, in this respect, no judgment of you would be possible.

Successful people born on this date are:

Whitelaw Reid, journalist and diplomat.

John D. Long, governor of Massachusetts.

Eugene A. Smith, geologist.

Kenyon Cox, artist.

Theodore Roosevelt, twenty-sixth president of the United States.

Edward M. Grout, lawyer and politician.

HOW IT STARTED

THE KISS AT THE ALTAR

"Aw, can't they wait until they get home?" is what many a little page at his big sister's wedding has said at least to himself when at the conclusion of a ceremony the happy man turned and kissed the bride. They kissed each other, of course, but it is he who turned.

No, little brother, they can't wait It is part of the game. This is a survival of a custom of ancient times, when it preceded by a longer time the ceremony which it now ends.

In the days when public betrothals or espousals were the general practice many an aspiring suitor did not have the wherewithal to endow his prospective bride with the ring which was supposed to consummate the ceremony. However, a kiss duly performed before witnesses was considered sufficiently binding.

Who will blame these ancestors of ours if they came without rings then, or having the ring, demanded, in addition, the alternative, until the official seal reverted back to nature's own?

And who will blame the modern bridegroom if, for lack of a ceremony of betrothal, he has clung to his privilege and transferred it to his wedding day?

SYNOPSIS

Connemara Moore, disguised as a nun, and young David Lacy, whom she met tonight for the first time, had just boarded a ferry to cross Long Island Sound from Connecticut, when a burly stranger approached them and announced, mysteriously, "I'm Pooch." Back in Aunt Celimena's Connecticut home is a worried company. Before midnight Connemara was to announce her engagement—to Bing Carrington or Salt Adams—or be disinherited. But, Instead, she's disappeared, leaving two very nervous suitors.

CHAPTER V—Continued

There were only a few cars ahead of them, and Lacy worked up quickly behind the green Packard. The moon was full. It was one of those rare nights which make June so popular for weddings and outdoor drinking. Ahead the road unwound in a gray, luminous band. Higher and higher rose the hum of the motors as the two cars shook off the ferry traffic and raced past the tented, nomads of Bayville.

Pooch leaned forward. "Here is th' jack," he said. "I didn't want t', give it to you on th' ferry. Never c'n tell who's nosin' round. I want t' get shook of it, though. I'll give it you, sis. You c'n stockin' it fer th' boss here. He's workin' now. Count it. There's fifty grand there. Thank God, that's gone!".

A thick roll of bills bound with an elastic band was placed in Sister Connemara's hand as they lurched around a curve with the speedometer wavering around forty-five.

Mechanically she leaned forward to the dashboard light, removed the strap, and counted the money. Fifty brand new, fluttering

"I think there's been an accident," Connemara was moved to explain.

thousand-dollar notes! Rolling them up, she hesitated a moment and then with sudden determination tucked them inside the voluminous folds of her nun's habit.

Pooch again: "That damn Pierce's comin' up. Drive up to the Packard an' I'll tell 'em t' take her out of second. That bunch ought to be hackin' for some funeral parlor."

The big Isotta leaped ahead with a warning croak—from the horn. Trees, fences, hedges, softly lit houses flashed past in crazy panorama. Rounding a corner on the wrong side of the road, they left a Ford sedan stranded in the ditch. Gradually they drew up to the Packard. Pooch cupped his hands and shouted, but the wind tore his words away. The Packard driver seemed to understand, however, for he increased his speed and took the lead once more.

Through the deserted streets of Glen Cove tore the two racing cars. A sleepy policeman leaning against the bank at the four corners roused himself sufficiently to stagger to the curb and open his mouth several times after the retreating tail lights. On past the Engineers, through Sea Cliff and up the winding hill flanking Roslyn Harbor. They were approaching Roslyn.

At the four corners where the North Hempstead turnpike joins the Sea Cliff road there was a right-angled turn. Both cars threw on all their brakes and skidded into the main street. Down the hill and through the town they tore, to the delight of the few village story-tellers assembled in front of the local Greek's Around the Corner. Behind them slid a Pierce runabout its mudguard leaving a scar on the dummy cop as its swayed past. The patrons of the local Greek cheered.

At the clock tower the Packard swung suddenly to the left into the Mineola road. Whether Lacy could not make the turn or whether he did not want to was not clear. The Isotta wavered for a fraction of a second and then went thundering up the Roslyn hill toward New York. The driver of a motor bus coming in the opposite direction stopped and, leaning from his seat, started to express his opinion of drivers who did not dim their lights. He stopped in the middle of a withering line and gazed open-mouthed at the spark-spitting black streak that swept up the long grade as if it did not exist. As he started again the lights of the following Pierce broke full in his eyes. Throwing his wheel to the right, he buried the nose of the bus in the clay bank beside the road. Two sleepy passengers picked themselves off the floor, promising to have him discharged for reckless driving.

Faster and faster, they shot on toward Manhasset. Connemara clutched the side of the car with one hand and with the other pressed hard against her cowl. Two cars appeared going in opposite directions half a mile ahead. An instant later the Isotta was between them. The lurching tonneau touched the small sedan on its right. A sound resulted as of someone striking a dishpan with his knuckles. The sedan partly overturned and came to rest against a post.

A shot sounded from the back seat. Lacy's first thought was for his tires. He glanced back. Pooch had knocked out the back window and was kneeling on the seat, a revolver pointed through the opening.

There was another report, but this time from the front of the car. The right front tire went careening along the ditch beside them. The hood leaped into the air. Lacy jammed on the brakes, but it was too late. Like a creature in its death throes, the car staggered back and forth across the road twice. There was a ripping of steel through wood.

The Pierce passed them, stopped fifty yards down the road, then backed to the wreck. Two men with drawn revolvers got out.

CHAPTER VI

Meade Minnigerode

By Meade Minnigerode

A discouraging odor — one of those odors which disengage themselves from catastrophes—or rather, a concatenation of viciously incompatible odors—arose into the tenuous June night air like a flight of very bad angels. Showers of stars, so it seemed momentarily to Connemara, sprinkled the vault of heaven with pyrotechnic splendor. There was a hissing and a sputtering, a clanking and crunching, and above the uproar the steady booming of enraged profanity. It proceeded from the overturned sedan, a man's voice complaining, bitterly and monotonously, like an intermittent foghorn.

"What the blazes did you go and do that for?" he kept inquiring, invisibly persistent.

"I think there's been an accident!" Connemara was moved to explain, but the man was not satisfied—nor, when she came to view the situation more critically, was Connemara.

And what an accident! A sedan overturned in one ditch, imprisoning a very angry gentleman who would probably have a devil of a time explaining matters afterward to his wife. The Isotta plastered like a mashed turnip against a telegraph pole in the other ditch, after having bounced Mr. Pooch out into the road on one side and Connemara herself sitting somewhat incongruously on the spokes of the right front wheel, spinning slowly around like a spent roulette ball just before it flips into the wrong compartment. And just in front the Pierce, from whose depths had come those two personages impending in the shadows with drawn revolvers, who appeared to be waiting for the whites of somebody's eyes!

Connemara made herself aware of these details in one comprehensive glance. At the same time, while she still revolved physically on her spinning wheel, she likewise did so mentally around the more saliently depressing social aspects of her present situation.

Texhoma Oldham Wildcat Shows For Oil Well of Some

SOME OIL IN HOLE; SAND AT ABOUT 1,340

Well Is Located About 2½ Miles Southeast Of Comac

Texhoma Oil and Refining company has some sort of an oil well in its No. 1, Oldham, located in the Eliza Hubble survey, about 200 feet each way from the southwest corner of the S. P. R. R. Co. survey, abstract 1287, south and east of the Comac pool, southwest Archer county. The well has topped a sand at a depth of 1,34 feet, and only a little way in is showing considerable oil .

It had been bailed down late yesterday and there was some oil reported standing in the hole although more definite information was unobtainable.

The well tested salt water in sand at 1,104 feet recently, and was drilled deeper. It is located about two and a half miles southeast of the Comac pool and the same distance northeast of the Waite Phillips Wolf pool.

NEWS OF THE FIELD

M-F, Talsell

Murchison and Fain Oil corporation No. 1, Halsell in Western Clay County, is reported down about 1,100 feet and drilling. The well is intended to be a 3,500-foot cable tools test.

NW Haskell County

Herbert Oil company-Harvey-Gose No. 1, McGregor, in the northwest corner of Haskell county, near Rochester, is underreaming at a depth of 2,300 feet after getting a strong gas show in a ole full of water at a depth of 2,330 feet.

The gas became ignited a day or so ago and one of the drillers was burned badly. The water in the hole has failed to kill it and estimates to quantity run as high as a million cubic feet.

Southeast Baylor

Cranfill and Petroleum Producers were down to 1,400 feet and looking the sand yesterday early in their No. 4, Mills ,a location east of the southwest corner of the north portion of their lease in block 2427, TE&LCOS survey.

White, Olds

White Brothers and Jackson No. 1, Olds, in section 25, H&TCRRCO survey, southwest Wichita county, was down 800 feet in sandy lime yesterday and drilling after completing a fshing job early yesterday.

Atlantic, Sigler

Atlantic Oil Producing company has an oil sand at a depth of 2,064 feet in its No. 2 Sigler-Waggoner, located in the center of the northwest quarter of section 51, H&TCRRCO survey, block 3, northwest of the Sigler group, southern Wilbarger county, and will lower casing to set and test. The well had dry sand at the expected depth around 2,000 feet and drilled deeper to the second pay.

Litchfield Pool

The Litchfield pool, one of the most active areas in north Texas a short while ago, shows little activity now. Murchison and Fain's No. 19-D, Campbell, located 450 feet each way from the southeast corner of the north half of section 236, T. E. & L. Co. survey, is down about 600 feet and drilling.

Barkley-Meadows Area

Barkley and Meadows are one well drilling on their southwest extension lease, nor of Archer City, this being No. 15, on the north line of their lease, down 1,050 feet.

Texhoma-Camp

Texhome Oil and Refining company and Camp Oil and Gas Company No. 1, Campbell, in block 1483, TE&ICO survey, southeast of the Litchfield pool showed 70 barrels on the pump in 24 hours. Sand is a 988-86 feet.

Consolidated, Walsh

Consolidated Oil company's No. 1 Walsh Brothers located in section 5, Hooper and Wade survey, southeast of Dundee, northwest Archer county was down 1,603 feet yesterday and drilling.

Throckmorton County

Magnolia Petroleum company had ninety feet of dry sand at a depth of 3,070-3,160 feet, and is down now to 3,200 feet, on its No. 1, M. L. V. Davis, in block 2328, T. E. & L. Co. survey, north of the Humble Stubblefield production, southeast Throckmorton county. It was at this depth that the Mag expected to pick up the first pay. It will go deeper to 3,200 feet.

Superior-Pyle, Kinder

Superior Oil Producing company and T. J. Pyle spudded yesterday and are drilling on their No. 3 Kinder, located 300 feet north of the No. 1, in block 58, Clark and Plumb subdivision, block 5, east of Archer City, east Archer county. It is the third attempt to make a well in a distance of something less than 700 feet.

M-F, Doyle

Murchison and Fain No. 1, Doyle, in the southwest corner of T. E. & L. Co. survey, block 24, in north Young county, is spudded and drilling. The well is a wildcat in the general southwest Olney area of the county.

Gypsy Well Shut In; 158 bbls. Hour

Gypsy Oil company still has the largest well in the territory adjacent to Wichita Falls. Although choked in Saturday and Sunday large numbers of visitors to the east Ryan territory in South Jefferson county, Oklahoma, were accorded the sight of a real oil well flowing regularly through two three-inch leads. When let loose for an hour Saturday the well guaged 158 barrels, a rate of 3,500 barrels a day and better.

Four Locations

Three derricks were up Sunday and building for wells to the new deep pay which is understood to lie just below 1,450 feet, and a large amount of new activity can be expected almost immediately.

The well itself is located in the heart of the old Hambro pool, a producing area of something more than a years' standing, just across the Red river in Oklahoma. Closein acreage is nearly all tied up, Humble, Carter, Prairie, Pure, Empire and Gypsy being the largest holders, with one tract of 30 acres in a very desirable spot held by Pierce et al.

The new wells starting are by Carter, which is moving the rig and derrick off of its No. 3, Oscar Seay, south of the pool, to the southeast location on its 80-acres north of the pool; by Gypsy, which has a derrick up for a twin to No. 3, located north and a few feet west of the No. 1, discovery well in the deep sand, by Humble which has a derrick up for a twin well to the south offset to the big well, and by Pierce et al with a derrick up for a test in the southwest corner of the north portion of their 30 acres.

Old Hambro Pool

As it stands now the old Hambro pool covers about 160 acres, with Carter, Humble, Gypsy and Prairie owning the production. Clark and Cowden have a small well from a 2,000-foot sand nearly five miles west and a bit north of the Hambro pool, but with this exception and the exception of the big well at 1,400 feet production is all from the 1,200-foot level, wells coming in for as good as 100 and 200 barrels from that level.

Lease Descriptions

A description of the leases and properties of companies holding acreage in and around the pool follows:

Gypsy Oil company own, the south tier of 40-acre tracts in the north half of section 33-5w-6s, and north halves of the two center forties of the north tier of the south half, in all 200 acres. They have four wells, No. 1 the big fellow, being located in the southeast corner of the southeast 40 of the northeast quarter of section 33, No. 2, a 1,200 foot producer just a location west, No. 3, also 1,200-foot, a location north, and No. 4, on the 1,200-foot sand in the northeast corner of the same 40 acres. No. 5, a twin well to No. 3, in the center of the east line of the 40 acres is a derrick, to go to the deep sand. Gypsy's big well, the No. 1, was originally a wel. at 1,200 feet until deepened.

Humble, Hambro

Humble Oil and Refining company owns in all 340 acres in the pool, this company having purchased the original holdings of the Hambro Oil company, erstwhile Hamilton-Brown Shoe company. Humble acreage consists of the north half to the northwest quarter of section 34, adjoining section 33 on the east, all of the southwest 40 acres of the same section with the exception of 10 acres in the northwest corner of the tract; 20 acres on the east side of the southeast 40 of the same tract; the southwest 40 of the northeast quarter of the section; the west half of the southeast quarter of the section; the north half of the northwest 40 of the northwest quarter of the section adjoining section 34 on the south; and the northeast 40 acres of the southeast quarter of section 33.

Humble's No. 1 well on this last tract, in the southeast corner of the 40 acres, was a junked hole, the discovery well in the pool; No. 2 is a twin to the west and a well at 1,200 feet. No. 3 a west offset to No. 2. No. 4 is a 1,200-foot well in the northeast corner of the 40 acres and No. 5 is a west offset, also a well. No. 6 is a twin to No. 4, is a derrick and will go to new pay.

On the 30-acre tract in the southwest 40 acres of the northwest quarter of section 34, No. 1 is a well at 1,200 feet in the southwest corner, No. 2 is an east offset, No. 3 a north offset, and No. 4 located in the northwest corner of the tract. Other Humble acreage here is untested.

Prairie has six wells on tis 80 acres, the north half of the southwest quarter of section 34. No. 1 is in the southwest corner of the west 40 acres, No. 2 in the southeast corner, No. 4 in the northwest corner, No. 5 a location east of that, and No. 3 an inside location near the center of the 40 acres. On the 40 adjoining Prairie to the east the company has a well in the southwest corner. All production is from 1,200 feet.

Carter, Seay

Carter's production is limited to its south 80 acres, the south half of the southwest quarter of section 34. No. 1 is in the northwest corner of the west 40, No. 2 in the northeast corner, No. 3 in the southeast corner, and No. 1, again, in the northwest corner of the southeast 40 acres. Carter Oil company is moving the rig off its No. 3, Seay, in the southeast corner of the southwest 40 acres of the southwest quarter of section 34 to the southeast corner of the northeast quarter of the northeast quarter of section 33, for a well to the deep sand. Carter also owns the 40 adjoining this last tract to the west, Jones fee.

Other Leases

Other leases include seventy acres by Pure, including the southeast 10 acres of the northeast 40 of the southwest quarter of section 33, the 10 acres adjoining this on the east, the 40 acres adjoining the two tracts on the south, and the southeast 10 acres of the southwest quarter of the section. It is untested. Empire has two tracts in the south half of section 33, one including the west 60 acres of the south half of the southwest quarter of the section, plus the southwest 10 acres of the northwest 40 of the same quarter; and the southeast 40 of the southeast quarter of the section, plus the northeast 10 acres of the southwest 40 and the southeast 10 acres of the northwest 40. This latter tract has a dry hole in its northeast corner, offsetting the discovery well to the south, but is otherwise untested.

Pierce et al have a valuable 30 acres, consisting of the west 20 acres of the southeast 40 acres of the northwest quarter of section 34, plus the northeast 10 acres of the southwest 40 of the same quarter. A derrick is up in the southwest corner of the latter portion and there is an old dry hole drilled by Clark and Cowden to a depth of 2,150 feet in the southwest corner of the south portion. Several fancy offers have been made for this tract

Dry Holes

The dry holes mentioned above, and a dry hole by Gypsy in the northwest of the northeast of the northwest of the section adjoining section 34 to the south, another in the southwest corner of the section adjoining 34 to the east, an another in the northeast of the northwest of the section adjoining 33 to the east, define the pool to the south and east. There is little definition to the north and west.

It is interesting in this connection to note that while the hole to the far southeast of the pool was a 10-barrel well at 3,100 feet and had more than 500 feet of sand between 2,000 and 3,000 feet, the Couch hole in the northeast corner of the northwest quarter of the section south of 33, is down below 2,700 feet and has had no real sand, it is reported since 1,300 feet.

The play in this territory, which should be more or less intensive now, following the big strike, judging from the display of interest there, is expected to extend across Red river into North Montague and to result in considerable other drilling for that area.

O'Donohoe-Gates, Putnam

O'Donohoe and Gates No. 1, Putnam (also Bishop) near the Roberts and Hill area, south Wichita county, L. Netherly survey, abstract 240, located 506 feet east and 150 feet south of the northwest corner of the O'Donohoe and Gates sixty acres was reaming down yesterday from 1,400 feet to set casing and test a sand encountered just below 1,700 feet.

B-M- Vernon

Barkley and Meadows No. 2, Stephens, in the southwest corner of the northwest forty acres of the northeast quarter of section 83, block 14, H&TCRRCO survey, south Vernon, has a swab in the hole. It will be fished out and the water swabbed out and an attempt made to get the well flowing again. This is the well that was producing better than 1,500 barrels oi land considerable water from pay at the depth of 2,350 feet a few weeks ago.

Nos. 3 and 4 are both in from the same pay (both wells on the south line of the forty west of No. 2) and together are making about 1,450 barrels of oil and no water a day.

No. 5, north of No. 2 is drilling at 1,541 feet N!o. 6, northwest of No. 2 is down 1,915 feet! No. 7, a twin well to the No. 1, gas well in the southwest corner, is down 583 feet.

No. 1-B, in the northwest corner of the same forty acres, discovery well for the 2,400-foot pay at South Vernon, is on the pump at last for 20 barrels of oil and considerable water.

No. 2 on the ten acres on the Bond-Hawkins-Williams in section 100 is down 1,649 feet and drilling.

Wise County

Magnolia Petroleum company's No. 1, Cassidy Southwestern Commission company, about four miles northwest of Chico, Wise county, is down below a last reported depth of 4,870 feet and drilling.

Minnich, Stewart

Bo Minnich No. 2, Stewart, in the David Dawson survey, north of Farmer, north Young county, is on the san dbelow 800 feet and setting casing. The wel lis near the No. 1, which showed for a producer but was abandoned when the casing seat failed to hold.

Consolidated, Texhoma

Consolidated Oil company and Texhoma Oil and Refining company No. 3, Netherton, located 150 feet each way from the northeast corner of the southwest quarter of block 95, A. T. N. C. L., is a dry hole and has been abandoned at a total depth of 1,600 feet.

Consolidated, Brashear

Consolidated Oil company's No. 1, Barshrear, located in the northeast corner of the west eighty acres of the southeast quarter of the SA&MGRR-CO survey, abstract 269, south of the Sirien pool, north Wihita county, is a dry hole and has been abandoned at a total depth of 1,850 feet.

MADE A NEW WOMAN OF HER

That Is What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Jenkins

Middleport, Ohio. — "I am going through the Change of Life and I am taking Lydia E. Pinkham's Vegetable Compound for the troubles that come at that time. I got so run-down I could scarcely do my work and I keep a rooming house and have a family of eight to take care of. A friend told me about the Vegetable Compound and it has made a new woman of me. I keep it in the house all the time now and won't be without it. My weight got down to 90 pounds and now it is 132½ pounds. I give the Vegetable Compound the praise and hope that women will realize the good in it." — Mrs. MYRA JENKINS, 593 North Front Street, Middleport, Ohio.

98 out of every 100 of the replies say "Yes," and because the Vegetable Compound has been helping other women it should help you. For sale by druggists everywhere.

do you get up feeling rocky?

ARE you full of "pep" and vim when you get up—hungry as a bear, spreading joy throughout your home and fairly eager to get at your work?

Or, do you feel all tired-out and aching in every bone and muscle—bad taste prevailing—not wanting any breakfast—grouchy and miserable and just driving yourself to work by main force?

When you feel this way you are hopelessly beaten before you start. And it's all because your red-blood-cells are below normal. That's why you need S. S. S.

And when you build up your blood with S. S. S. that sluggish, let-down feeling, as well as rheumatism, pimples, boils and other skin troubles disappear.

Begin taking S. S. S. today. Build up your blood. Feel the quick return of health, strength and energy. And you'll get up in the morning glad you're living. S. S. S. is sold at all good druggists. Get the larger size. It's more economical.

...NAMED SECRETARY OF M. E. DISTRICT

Oran Jones Is Re-Elected At Conference Monday

Oral Jones, local banker, was re-elected secretary-treasurer of the Wichita Falls District of the Methodrist Episcopal church in the annual meeting of the district stewards Monday at the Y. W. C. A. when Rev. Frank M. Richardson, presiding elder, presided. Plans for the year's work were outlined.

In raising the conference collections it was unanimously voted to instruct the presiding elder to have the secretary apportion the collections giving due regard to the weak and strong churches in the district. Several of the churches are undergoing a strain as the result of church building campaigns. Two of the smaller churches asked relief in the situation.

Cheerful Reports.

Encouragng reports were given concerning the manner in which the new preachers are beginning their work. The representative from Bellevue told of the reception given Rev. E. G. Hamilton when the church gave him an old fashioned "pounding."

The Stewards voted a district work assessment of $800 to take care of the immediate expenses and repairs to be made in the district.

Stewards Present.

The district stewards present included: Sam Householder, Byers; R. H. Henry, Burkburnett; C. W. Melton, Wichita Falls circuit; David Cooper, Petrolia; Coff C. Connor, Archer City; J. M. Bland, Floral Heights, city; John C. Murphree, Iowa Park, G. E. McDavid, Electra; P. C. Jones, Valley View and Stringtown; M. J. White, Bellevue; R. E. Hardegree, Megargel; Oral Jones, First Methodist church city; visitors included C. E Harding, layman of Byers; E H Coburn, Megargel; Rev. E. G. Hamilton, Bellevue; Rev. L. D. Shaver of Henrietta who represented that city

TO HEAR GOLTRA CASE

Supreme Court Grants Appeal in Barge Line Controversy.

WASHINGTON, Oct. 26.—(AP)—The celebrated controversy between the government and Edwin F. Goltra over the Mississippi barge line will be settled by the supreme court.

An appeal was granted today in the case which has been pending in the lower courts in one form or another ever since the war department in 1923 cancelled the lease by which Goltra operated 19 barges and four tow boats for it.

The federal district court at St. Louis restrained the government from seizing the equipment, but the court of appeals reversed that action.

STATE TO ASK FOR DEATH IN FOLSOM CASE

Thelma, 15 - Year - Old Daughter, Is Prosecutrix In Action

With the state preparing to insist on the death penalty, four jurors were case against Frank Folsom, under indictment on a statutory charge in which his daughter, Thelma, said to be less than 15 years of age, is the prosecutrix. The four men thus far selected are R. F. Green, R. H. Page, W. E. Holt and M. O. Moore.

Both state and defense were using extreme care in the selection of jurors and with only four of the 12 men selected, each side had used almost half of its preemptory challenges. Seven veniremen were challenged by the defense and six by the state out of the 24 examined during the afternoon. Six veniremen disqualified themselves by admitting conscientious scruples against infliction of the death penalty; and one man was excused when he asserted he held personal prejudices in this particular case.

Fines of $25 each were assessed against seveal men sumoned on ther special venire Mouday morning and attachments were issued for them at noon by Judge H. R. Wilson of the 30th district court. When it was found several were missing from the venire the defense presented a motion to dismiss it but this was overruled by the court. A motion for continuance and one to quash the indictment were also overruled after being offered by the defense.

The Record News reserves the right to reject any solutions it believes have not been submitted under proper conditions. The Record News also reserves the right to finally decide any other questions or points which may arise and those entering the contest agree to abide by such decision.

In the event of ties on this puzzle, as many prizes will be reserved as there are contestants tied, before any prizes are awarded for a less correct solution. For instance, if five people were tied on the best solution, the first five prizes will be reserved for them, and they would be awarded the prizes in accordance with the standing of their solutions of the second puzzle. That is, the one submitting the best solution of the second puzzle would receive the first prize; the one submitting the next best, the second, and so on.

Subscriptions may be NEW or RENEWALS. Both count the same.

DECIDING TIES

In case of ties those tied for any prize will be presented with a second puzzle, which will consist of drawing a line across the face of a chart of figures, like the accompanying chart, only larger, so that the figures thus connected when added together will total the greatest sum. If necessary this chart will be used four times after which, should any ties remain, each contestant will receive full value of any prize tied for.

In case there are no ties on counting the Elephant no other puzzle, of course, will be presented.

TOURING

I know what kind of tires to buy
To keep my touring expenses down.
If short of fuel I know that I
Can find Good Gas, in every town.
I know that Ripless Overalls
Are everything the makers claim,
And that the Paint that Stays On Walls
Is—well, I guess you know the name.
But I as yet have got no thrills
From sunsets at the end of day,
That light up streams and lakes and hills—
The ads are always in the way.

I know the kind of clothes to wear
To be in the collegiate style.
I know the kind of breakfast fare
That makes all hungry children smile.
I know the Always Running Car,
That gives a man the Least Expense—
I know the very best cigar
That can be had for fifteen cents.
But I have seen no autumn hues
On vine and shrub and spreading tree,
For on the roads through which I cruise
The bill boards cut them off from me.

I know where building lots are cheap,
Where I can get The Shoes I Need.
Where blankets, from Contented Sheep
Can be obtained, and guaranteed.
I know I ought to buy more Wheat,
I know the Springs that Never Fret—
And when I need real Summer Heat,
The kind of Furnace I must get.
On every side the bill boards rise,
With vivid ruddy tints they glow—
But now and then they vex my eyes—
For what's behind them I don't know!

ONCE UPON A TIME — JACK AND THE BEAN STALK. XII — by W. J. ENRIGHT.

THE MOMENT JACK GOT TO THE GROUND HE CALLED FOR A HATCHET. ONE WAS BROUGHT DIRECTLY. JUST AT THAT MOMENT THE GIANT— WAS BEGINNING TO DESCEND

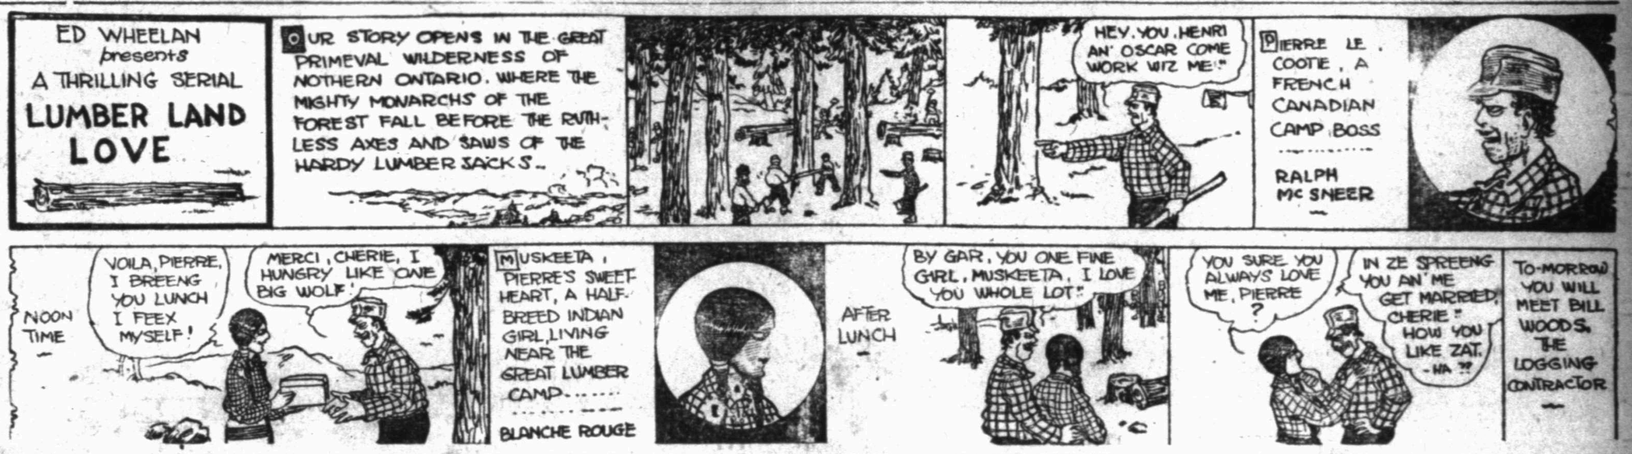

JACK WITH HIS HATCHET CUT THE BEAN STALK CLOSE OFF AT THE ROOT WHICH CAUSED THE GIANT TO FALL INTO THE GARDEN AND BREAK HIS NECK THEREBY RELEASING THE WORLD FROM A BARBAROUS ENEMY.

JACK'S MOTHER WAS DELIGHTED WHEN SHE SAW THE BEAN STALK DESTROYED. IMMEDIATELY THE GOOD FAIRY APPEARED AND CHARGED JACK TO BE DUTIFUL TO HIS MOTHER AND FOLLOW HIS FATHER'S GOOD EXAMPLE WHICH WAS THE ONLY WAY TO BE HAPPY. JACK PROMISED FAITHFULLY AND HE AND HIS MOTHER LIVED MANY YEARS AND CONTINUED TO BE ALWAYS HAPPY.

WHETHER YOU'RE A HIGH-BROW OR JUST AN ORDINARY SORT OF A FELLOW LIKE SOME OF THE REST OF US YOU OUGHT TO TAKE IN THAT MATSUDA-BROWN WRESTLING MATCH THIS EVENING AT THE MAJESTIC THEATER. WE REPEAT, HERE'S YOUR CHANCE TO OBTAIN RED-BLOODED AMUSEMENT AND YET BE DOING SO IN THE INTEREST OF CHARITY.

If you don't already know it, allow us to inform you all proceeds of the match will be turned over to the Kiwanis' day nursery fund.

The match should be a thriller, if (pardon the attempt at humor) wrestling matches really ever are such. For Jim Brown is in deadly earnest as he goes after that welter-weight title belt held by Matty Matsuda. And Jim's stronger than the Jap, although admittedly not as clever. The other bouts staged by this pair were classy exhibitions.

Matchmaker Ross, incidently, who doesn't make a penny off the match, is greatly interested in seeing the affair go over big for charity's sake. He devoted quite a bit of time in arranging the bout, and then Monday topped it off by wiring from Lawton, Okla., "Don't forget big story on charity match Tuesday."

How do I know Ross or the wrestlers don't get a cut out of the gate receipts, do you ask? Why, for the simple reason Police Commissioner Frank Queisser is the man who will be on the door and who will handle the funds. Fat chance of anybody whether they wanted to or not making a knockdown there.

The "dopesters" received another dig in the ribs the past week-end on conference football and it is quite probable they'll be on the catching end of another nasty cut this coming Saturday.

As far as your statistics go, Texas A. & M. should whitewash Baylor, but you can't locate any close conference observer who's willing to risk anything on it.

A few of the wagering lads are whispering six-point money on the Aggies, but they look at you foolishly and utter nary a word when they are asked to make it seven.

Fact of the matter is, Frank Bridges' startling Bruins are liable to do most anything. Baylor, champions of 1924, battled its way to that championship after being kicked over in a pair of minor non-conference tilts and all hopes by the dopesters had been given up for the Green and Gold cause.

MR. TUCKER SILENT.

Even that rabid young man, Jinx Tucker of Waco who is liable to utter most anything at any moment, is strangely silent on the probable outcome of the Bear fest with Dana's Aggies. Ordinarily, Jinx would grab up such comparative figures the Bears and Farmers have registered this season and immediately knock off a copious article telling who will win and why almost to the smallest detail, and his choice naturally would be A. & M. But this occasion is different. It matters not that A. & M. has performed surprisingly well and indicated itself a very dangerous menace to other conference contenders whereas Baylor has performed dismally so far this season with one exception that 20-4 victory over Howard Payne the past week. Jinx is keeping mum. There surely is a reason.

Arthur W. Stowe, however, probably will rollock forth with a story in a day or so explaining everything. He can't afford to do otherwise considering this gridiron prophet selected S. M. U. to win the title, but is now backing A. & M.

Speaking of those Coyote chances of slipping up and defeating Vernon, as has been recorded here before, where two elevens are anything like evenly matched and one is confident of defeating the other it's the determined under dog who wages the better brand of football.

THAT COYOTE CHANCE.

Vernon has the edge on Bud McCallum's team. That's granted, but is the margin so great the confident Lion crew can turn back the furious drives of the determined under dog. It is there and there only, if given the breaks the McCallum club stands its chance of victory.

Going into the game doped the favorites, confident of winning, the Vernon stands as much show of coming through as Wills has of fulfilling that engagement with Dempsey. The difference is Dempsey won't be there to fight, whereas the Vernon outfit will. There's many a team that has been routed under those conditions.

Greb Walker Return Match off, Says Tex

NEW YORK, Oct. 26.—(AP)—Because of what he characterized as excessive financial demands by Harry Greb, middle-weight champion, Tex Rickard today announced that he had called off negotiations for a return match between Greb and Mickey Walker, welter-weight title holder.

Rickard had planned this bout as one of the features of his indoor program at the new Madison Square Garden on December 18. Rickard's new match-maker, Jess McMahon, now plans to seek a return feather-weight title bout on that date between Kid Kaplan, the champion and Babe Herman, contingent upon Herman winning a bout in Boston November 4, with "Honey Boy" Finnegan.

The first important match in the new garden arena will bring together Paul Berlenbach, light heavy-weight king, and Jack Delaney, who knocked out Berlenbach in their first match a year and a half ago.

Indians Look Better As They Drill For North Texas Ag's

Stephenson Proves Real Backfield Find In Game With Quanah High Team

Coyotes Determined Crew of Youngsters As They Prepare for Clash With Vernon

Wichita Falls grid fans have a chance to see their weekly game on the home lot Saturday when Coach Bubs Mosley sends his hard hitting Junior College Indians into the game against the North Texas Aggies.

The tribe won its first contest last week from the lighter Quanah high school, which brought them little honor, but it served to show the strong points in the game.

One of the brightest points brought out in this game was discovery of young Doyle Stephenson, backfield man, who tore through the Quanah line almost at will. This young man made a very impressive showing against the Quanah club in the way of ground gaining. If Stephenson can get away on the North Texas Aggies half as well as he did with Quanah he will prove himself a large factor in the coming game.

Another man that began to flash in old time form was John Clary, Indian captain. Clary was a big man on the defense. He broke through the lighter line and pulling down runners before they were hardly started.

Skinny Crites proved to be a power also. His punting was by far the best showed by any of the local punters this year. Crites is often called back from end for kicks, passes and running. His height is very good for reaching into the air and snaring the passes. The calm manner with which he grabs on the oval as he would a baseball has made him a strong aerial threat both offensive and defensive.

Riley Rawls, husky halfback, was on the Wichita Falls end of the line chain in the Quanah game, but probably will be found in the game this week. Rawls has a bad ankle, but this is expected to be in shape.

Mosley has a strong line with which to help his backfield along. Captain John Clary at center, being the backbone. With Clary he has Box, 210-pound guard, Charles Weeth tackle, Paul Karns, Chink Whitelaw, Barker Chunn, Evan Harris, Skinny Crites, James Gonce and Willie Saunders, all of which are able to take their places and make a spectacular showing.

The Indians went through a fairly hard scrimmage session among themselves Monday.

Bud Works on Forward Wall

Bud McCallum sent his crippled Coyotes through their first preparation session Monday afternoon for the Vernon clash this week-end. It is with a determined but not over-confident me' crew McCallum hopes to repeat the district title victory of 1923. The odds admittedly are against the Wichita Falls eleven, but this sturdy little band expects to give Baggett's Lions the toughest battle of the season.

The work of Swede Wainscott, Joe Bailey Bell, Lofton Edmondson, Flip Flippin, and the rest of the line will be watched through the coming week of practice. They will be depended upon to stop the powerful plunges of Crouch, Ryan and Williams, hefty backs of the Lions.

Captain Rowdy Curtin will be back in the game after a brief absence to an injured leg, and with the fiery half in the lineup the fight of the club should be more than doubled over that which they displayed in the Grandfield game last week.

With Ed Powell at quarterback the eleven will be more than strengthened. Powell was a consistent ground gainer in the Electra tussle. It is generally believed Vernon doesn't boast the defensive team Electra has.

Dempsey Moore was somewhat stiffened in the Grandfield game but hopes to be in the Vernon battle with a rush. This youngster is a man in the offense that will be missed sorely if he is out. Moore hits the line hard both on the offense and defense.

Buck Steed is expected to prove a bullwark in the backfield. Steed last year was about the best broken field runner in this section of the state but was injured in the first play of the Coyote-Vernon game. This year Buck is expected to be in the match fighting. He is slowed up with a charley horse however, and may be out.

Monty Shifts Pups About

One bit of scoring punch that can be counted upon by the pack is the toe of Fritz Taylor, sand haired back. Fritz Taylor has been showing up in practice with place kicking some distance away from the goal. If the pack can advance the ball within a good distance of the Vernon goal Fritz should be able to boot it over for at least three points.

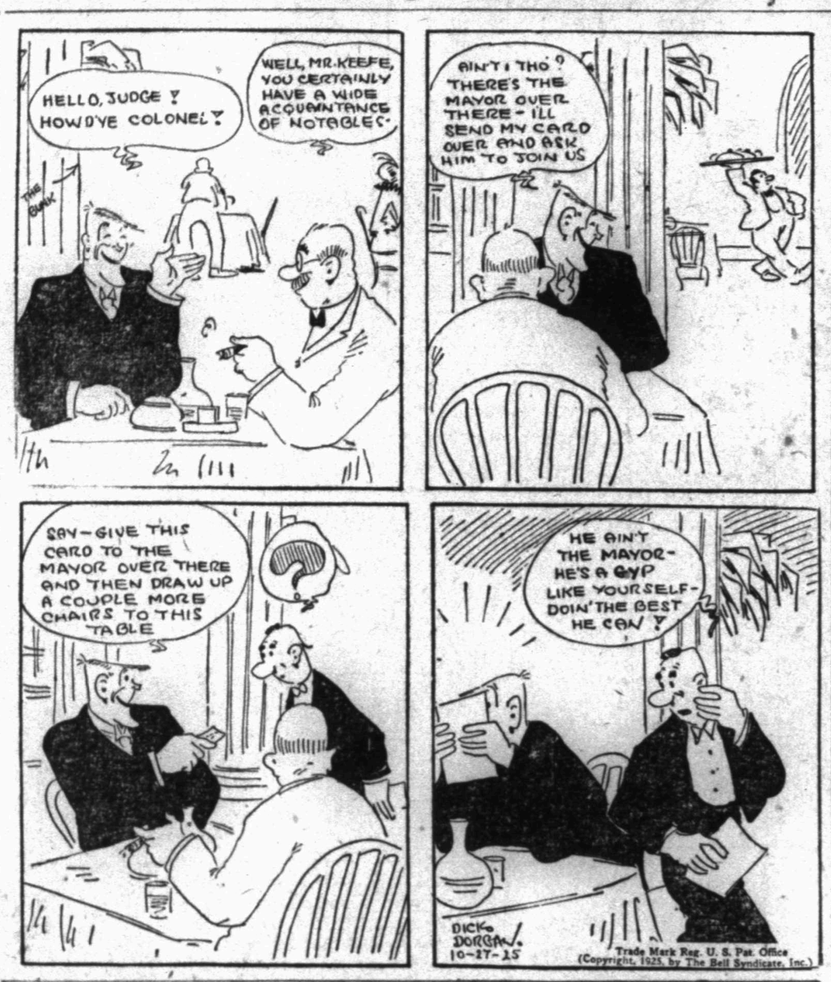

Coach Montgomery has shifted his lingup in an effort to bring additional strength to his club. Clyde Fly, triple threat man, has been changed from half to quarterback. Ray George from quarterback to half and Babe Anderson from end back to quaretr.

With these shifts Montgomery hopes to see additional power in the play of the club. With a team of green athletes at the first of the season Montgomery was forced to find which at that time seemed the best place suited to his army of players as quickly as possible.

The club went through the usual run of practice Monday afternoon with but few additions to the regular routine.

Dale Carter, Roy Brackett, Haskell Giles, Pete Powell, Fat Tandy and Humphreys were missing from the practice. Bill Stevens was back in uniform after a short absence.

Due a missing uniform Fat Tandy was forced to postpone his return to practice until this afternoon. Brackett was on the sidelines complaining of a pain in his head received Friday against Devol. Otherwise the Pups came out of the fray in fine style and with no worse injuries.

Hawks Show Fleet Set Of Hoofs To Devol Club In 27 to 4 Win At Park

Coach R. E. Brewster's Iowa Park Hawks trampled the Devol club Monday afternoon on the Howk's gridiron by the score of 24 to 7. The Parker eleven outplayed Devol from the first quarter to the last, with the Oklahoma boys showing only in the initial portion of the first period. Iowa Park scored in every quarter and rattled off gains through the Devol line almost at will.

The feature play on the opening kick-off when Paul Enloe raced through the Devol team for 63 yards and a touchdown.

Burney topped this off with a 45 yard run from the line of scrimmage. The second touchdown resulted from a pass Enloe to Wiggley for about a 25-yard heave, and Wiggley ran the remaining two yards for a touchdown.

Score With Ease.

Starting out fro mthe 55-yard line the club marched off down the field for the third touchdown. Alternating the carrying of the ball, and making from five to 15 yards at a run, the Hawks scored with ease. Cheeves made 15 yards. Beasly came back with 12 more. Burney ripped through the line for 10 yards. Then Cheeves went through left tackle for five and a touchdown.

Late in the final quarter the Hawks again crushed through for a six-pointer. On a steady march they reached to the five-yard line and crashed over with the final scoring punch. Paul Enloe again was the one to carry the ball over.

Wright was the outstanding stor of the Devol play. This backfield man was the only member of the Oklahoma squad who was showing anything at all.

Enloe And Denny Hurt.

The whole Hawk eleven worked with the smoothness of a machine and will be in the best of condition for the Wichita Falls game in Iowa Park Friday. The contest was marred by a few fumbles, but outside of these the game was smoothly played.

The Hawks have a light and fast club, and one that the Pups will find hard to tackle. However, it is feared that Danny and Fitzgerald, guards, and Enloe, star quarter, will be out of the game. Fitzgerald is ineligible by the rules of the Interscholastic League, while both Denny and Enloe are at the present time suffering from old injuries.

Score by periods:

Iowa Park	6	6	6	6	—24
Devol	7	0	0	0	—7

DOC, IRED AT CLAIMS THAT HIS TEAM IS HEAVIEST, COMES OUT WITH CERTIFIED WEIGHT LIST

AUSTIN, Oct. 26.—(AP)—Scoring sport writers and coaches who make fake reports on weights on members of football teams Coach Doc Stewart of the University of Texas, today issued a "certified statement" of the weights of members of his squad. He said that the Longhorns averaged 165 5-23 pounds after the Rice game, Baylor Bears 184 9-13 before Howard Payne game and S. M. U. Mustangs 178 2-3 before the Oklahoma university game.

Coach Stewart asserted that "individual weights of football players and team averages usually are not of much importance either to the public or coaches. Any effort to precipitate sympathy of the public or over-confidence of a rival team, through the publication of inaccurate weights, has always seemed to me to be so unethical and unnecessary that I have refused to permit weights of players on my teams to be published."

He declares that some sports editors "deliberately shrink" 20 to 30 pounds on some big husky player, often so deceives the rival players and public that the rival team never prepares either physically or mentally to meet the task ahead, thereby precipitating an upset which redounds great credit to the winning coach and team. He said a system of propaganda is assiduously carried out by some schools. He derided sport editors who called the Longhorns giants, and claimed that he has one of the lightest teams in the Southwest conference.

Coach Stewart weighed his men before Dr. D. A. Penick, president of the Southwest conference, W. J. Disch, baseball coach, and R. J. McLean, and two newspaper men after the Rice game.

The names and weights of the Longhorns follow:

Baldwin, 173; Saxon, 160; Wright 158; Stallter, 155; Allen 167. Penny, 162; Homan, 177; Terrell, 165.5; Pfannkuche, 168; Moore, 190; Neblett, 163; Coffey, 158; R. King, 171; J. King, 138; Estes, 159; Higgins, 164.5; McCullough, 161; Olle, 158; F. Thompson, 162; S. Thompson, 173; Gooch, 191; Sewell, 160; C. B. Smith, 167.

The PASSING HOUR

~ by Wm. B. Ruggles ~

THIS GAME

When the runner raises dust in sliding homewards,
And the umpire loudly waves him off the scene,
On the field the fame comes swarming in a manner most alarming
And they bounce the soda bottles off his bean.

When the halfback digs his features in the greensward
And the referee checks five yards off the route—
The fans are silent, waiting, and you do not hear debating—
For few of them know what it's all about.

The British boxer who has gone home because New York is so sinful, must have caught a glimpse of the ringside prices.

Turn about is fair play. New York usually regards a British boxing invasion as a wave of crime.

"An Old Hick" Communes

ANONYMOUS party signing himself "an old hick" takes issue with the comment evoked herein by Bill Cunningham's account of his Dartmouth career. If the stand taken, "Old Hick" says, is correct, any father sending his son to college is equally guilty. He thinks the point is drawn too far

It was George Phair who perhaps correctly defined the modern amateur as a young man with a rich father.

The point still sticks—the young man whose way is paid through college by others than his parents or guardians or other than his own efforts, can not qualify under either the letter and spirit of most conference rules. Not if he will admit it. The troubel is, he will not—while he is in college.

The whole thing simmers down to this: intercollegiate experience has shown that for every well fixed alumnus paying the way of a young man through college in all honesty to befriend the deserving, there are 99 who pay him through to help along a winning football team. It's like the transfer rule. The transfer fell into disrepute in practice, not theory.

Young man out on the coast has beaten Ruth's home run record. But you can't cash in on San Francisco like you can in New York.

And you can write newspaper stories for a good many years without convincing the two major leagues that a minor league mark is a world's record.

Ty's Mark

WHILE Grantland Rice and others are figuring whether Hornsby will be able to surpass the Georgian's 20-year batting average of .370 (the Texan runs his present figure close to .400), it would be more important to know whether the Rajah can beat Ty's 15-year average of .350. For this represents a figure far closer to a real record than the new one.

It was compiled from 1906 through 1920 and in a period when the game knew its best pitching, and, comparatively speaking, its lightest hitting. Most of Cobb's high figures were made when a .320 batting average was a wonderful feat. Hornsby came alonb in time to get advantage of these degenerate diamond days when a man can not hold a job unless he can bat .300. Cobb of course has continued to amass his 20-year record with the same advantage, but here Hornsby has the advantage of youth and of watching a human dynamo slow down.

Cobb's 15-year record is a great mark. It may never be equalled.

CONSIDERING what Paris fight audiences have stood without a murmur, the lady poetess who was egged when she tried to open proceedings with an ode must have been bad indeed.

LOTS of third rate pomes are worth more money than the championship fights they bootleg nowadays.

M'DONOGH IS WINNER OVER PETER PAOLO

Tommy Milton's Protege Wins Baltimore-Laurel Classic

LAUREL, Mo., Oct. 26.—(AP)—Bob McDonogh, youthful protege of Tommy Milton today won his first major motor classic, the 250-mile race at the Baltimore-Laurel speedway and in doing so, took sweep revenge on Peter de Paolo for the hair line decision the latter scored over him in the inaugural race in the huge wooden bowl here in July.

His time for the distance, one hour, 59 minutes, 2.71 seconds in which he averaged 126.30 miles an hour, was but a fraction behind the record of 126.85 miles an hour set by Tommy Milton at the Culver City track some time ago. McDonogh drove the distance today without a stop.

The remainder of the field of 16 entries with the sole exception of McDonogh's team mate, Tommy Milton, were never serious contenders.

TOWEL GIVES WILLS WIN IN FIRST ROUND

Johnson's Second Throws White Flag Before Fight Well Started

NEWARK, N. J., Oct. 26.—(AP) Harry Wills, negro heavyweight, scored a technical knockout over Floyd Johnson of Iowa, in the first round of a 12-round match here tonight—the sudden ending leaving 9,000 spectators stunned.

Johnson received Wills' mighty left to the body and head just as the bout started and he appeared to be worried. Then a right to the head drove him to the ropes, but he withstood the attack and ventured to the center of the ring as a white towel floated in from his corner.

Referee Harry Lewis, Wills and Johnson all gazed at the towel in seeming astonishment and the throng rose to its feet in clamor. Lewis took Johnson by the arm, led him to his corner and then informed the press representatives that he could do no other than award the fight to Wills after the towel had dropped into the arena.

As the fighters departed loud protests came from the crowd which had seen two minu s of a contest which had a championship heavyweight contender as one of its principals.

"Fate, fate" came the cry. "That's the end of boxing in New Jersey."

But as a matter of fact Johnson was not far from oblivion when the succoring towel appeared. The negro had gone at him smilingly as they tapped each other lightly when in the center of the ring. A half minute of sparring preceded the first blow of the contest, a left drive to the body by Wills. Then Wills wrestled his foe to the ropes and drove a right flush to the chin after which Johnson became cautious and bore away. Another left found Johnson's jaw and the Iowan backed to the ropes to receive a solid shower of rights and lefts to head and body.

But Johnson, known in the past as the "bull dog of the west," continued to throw his arms out before him and gradually worked out to the center of the ring as his seconds went into action.

Only Accident Can Beat Me, Avers Jim

JIM BROWN

"Only an accident can beat me!"

So radiated Jim Brown Monday evening following his final workout in preparation for his titular mill with Matty Matsuda, welterweight wrestling champion, tonight at the Wichita theatre in the interests of the day nursery building fund sponsored by the Kiwanis club.

"I feel like I'll be a new champion tomorrow night," continued the Chicagoan. "I'm in great shape, and can't see how it's possible for him to beat me.

"I appreciate the people of Wichita Falls. That's why I'm wrestling Matsuda for nothing. I want to show them I appreciate it. They've treated me right. They rooted for me in my other matches with Matsuda, and seemed to be pulling for me to win."

Brown declared himself sure of being able to make the weight at weighing time this morning so that the welterweight belt will be at stake. He wound up his training agree by taking an eight-mile run Saturday, 10 Sunday and 12 Monday.

The champion had little to say about the match other than to laugh and declare himself ready.

The bout starts at 8:30 o'clock.

Fifty cents admission fee will be charged. Every nickel goes to the nursery fund. The promotion has been free. The wrestlers are performing gratis, and the house has been donated by the Majestic management.

DUKE SLAMS IT ON ELMER IN 3RD ROUND

Trammel Cleverer by Far Than He Used to Be; Technical K. O.

Duke Trammel, Fort Worth welterweight, displaying more all-around ring technique than Wichita Falls fistic fans who have followed the youngster through his fight career to date ever imagined he could develop, completely outclassed popular Elmer McMullen, Dodge City, Kan., mittster, in the first and second rounds and then beat the Kansan down in the third frame of a scheduled 10-rounder, winning by the technical knockout route Monday night at the Majestic theatre.

Drops Him In Third.

The Trammel who dropped McMullen for a short count in the third and then mauled his opponent so unmercilessly that Referee Mickey Savage halted the proceedings, was a far different Trammel from the one the bulk of Wichita Falls glove followers are acquainted with.

Faster in every movement, uncannily clever, tying his opponent up perfectly at close quarters and outboxing him in the open, Trammel seemed another fighter entirely instead of the heavy socking youngster who in bygone days won if the man opposite him happened to get in the way of a wild swing, but who was lost when against the clever boys.

A Small Crowd.

There is one regret—but a small crowd turned out to see the rejuvenated Duke in action.

Young Murdock won a slugging victory over Red Cap Martin in a four-round semi-final bout.

Buckshot Peoples was awarded a technical kayo over Johnnie Walker in the second round of a scheduled four-round bout. It was a slugging match all the way and met with approval from the fans.

Kid Norford won the decision over Black Tough Robertson in a four-rounder.

Whirlwind Kelly won a decision over Lightning Robertson in a flea-weight curtain raiser.

Two Intersectional Games on Saturday

CHICAGO, Oct. 26.—(AP)—The mid-west has two chances next Saturday to redeem its sadly battered football prestige when the Navy eleven comes west to meet Michigan, outstanding contender for the big ten championship and Illinois goes east to battle the undefeated Pennsylvania team.

4 Eastern Teams Are Unscored On

NEW YORK, Oct. 26.—(AP)—Four eastern football elevens, two of which have proved to be scoring machines of immense power, today boast uncrossed goal lines, which have come to be a rarity in the great college sport.

Cornell and Syracuse stand out because opponents have been unable to score a single point against them, while New York university and Bucknell have kept touchdowns away.

New York university has seen a lone field goal go sailing between its posts, while Bucknell was forced into a safety on Saturday by George Owen.

Report That Bill Wambsganss Waived

CLEVELAND, Ohio, Oct. 26.—(AP)—Unconfirmed reports were in circulation here today that Bill Wambsganss, veteran second baseman and only player to make an unassisted triple play in a world's series, has been waived out of the major leagues. Waivers were asked a month ago.

1 DOZEN SHORTS

This is the week of those moral victories when the under dog drags himself haltingly from the field, perspiring soup wreathed in a murky smile: "Well, we scared 'em: durn 'em! Held 'em to a close score when they oughtta beat us bad!" And loyal studes lustily cheer, while it's the other team which moves a notch nearer the championship, and backers of that other club do not do the paying off. How come the why of a moral win, anyhow?

Two wrestlers perform tonight without realizing pecuniary recompense therefrom. Whereupon, one promoter becomes glint-eyed, claps thumbs to his dome in regulation style, waggles his hands and runs around in semi-circles making idiotic didoes. And 3,000 brother wrestlers faint dead away on hearing the news.

THE MUSTANGS WILL WALLOP TEXAS SATURDAY, SURE, ASK DOC STEWART. SO DID RICE.

Speaking of press comments on his "agreement" to box Wills in 1926, Jack Dempsey, the former pugilist, starts recent article: "Regardless of what enterprising and extreme newspaper boys say . . . ." Whoa, John. About time to erase isn't it?

"Jack Dempsey to Be Spectator at Wills Embroglio."—Headlines. And that's all he ever will be.

BRING ON PAAVO.

Jim Brown ran eight miles Saturday, ten Sunday, and 12 Monday. And here we thought, avers Goofus the cub, it was going to be a wrestling match.

Fourteen teams started Sunday night in six-day bicycle race, and yet some wisenheimers boost athletics as an aid to mental development.

Zero in amusement, also occupation would be to attend said bike event.

DOCTOR, QUICK!

"Captain Billy Fawcett, Twin Cities fight promoter, presented Malone a check for $1,000 in addition to his guaranteed purse for 'real service to the sport of boxing'," announces the A. P. Surely Associated Press has been misinformed. Fight promoters don't do such.

It would have been more in keeping with rules and habits of the match-making fraternity if the fighter had been docked that amount.

If those Longhorns keep on winning like they do, that canny Fort Worth dopester who first picked S. M. U. then A. & M. to abscond with the conference title will choke on a mess of adjectives.

OH, WHAT HAVE YOU?

"Most surprising, and it is needless to say that the surprise and heartache is universal, was the disastrous pennant hope killing licking administered by the Sooner Aggies to the Texas Christian university Horned Frogs during that beetic afternoon just passed that was known as Saturday on the calendar but 'Eureka' in the football world." And so forth until we find the Longhorns compose a team that will be the biggest stumbling block in the path of anything searching for 'bar or titles."

Cotton Market Slumps On Bearish Federal Production Estimate

Indicated Cotton Yield Is Put Half Million Bales Higher Than Two Weeks Ago; Wheat Is Higher

COTTON YIELD IS ESTIMATED AT 15,226,000

Estimate Shows Increase Of Half Million in Two Weeks

WASHINGTON, Oct. 26.—(AP)—A probable cotton production of about 15,226,000 equivalent 500-pound bales, the department of agriculture announced today, is indicated by reports as of Oct. 18 on condition, abandonment, probable yields and ginnings. A probable crop of 14,758,000 bales was indicated two weeks ago. Last year's crop totaled 13,627,936 bales.

The probable yield from Oct. 18 indications is placed at 164.7 pounds of lint cotton per harvested acre compared with 152.9 pounds on Oct. 1 this year, and 157.4 pounds, the final yield last year.

An abandonment of cotton acreage since June 25 of 4.8 per cent, leaving about 44,231,000 acres for harvest this year, is indicated by preliminary reports. That compares with an estimated abandonment from June 25 to the close of the season of 3.0 per cent in 1924 of 4.1 per cent in 1923 and a 10-year average of 3.6 per cent.

The percentage of abandonment of acreage since June 25 and the indicated production based on all available information on Oct. 18 follows:

Virginia abandonment 1.0 per cent, production 48,000 bales; North Carolina 2.0 and 1,120,000; South Carolina 2.5 and 850,000; Georgia 2.0 and 1,120,000; Florida 1.0 and 40,000; Missouri 4.0 and 230,000; Tennessee 1.5 and 475,000; Alabama 1.5 and 1,270,000; Mississippi 2.0 and 1,820,000; Louisiana 1.7 and 860,000; Texas 9.0 and 4,050,000; Oklahoma 2.0 and 1,575,000; Arkansas 2.5 and 1,470,000; New Mexico 27.0 and 60,000; Arizona 3.7 and 90,000; California 1.0 and 130,000; all other states 2.0 per cent and 18,000.

About 70,000 bales additional to California are being grown in Lower California, Mexico.

NEW ORLEANS COTTON.

NEW ORLEANS, Oct. 26.—(AP)—The cotton market was extremely active today and prices scored a decline of 127 to 144 points as a result of the government crop estimate of 15,226,000 bales which was much larger than the trade expected. The market started out easier owing to the final liquidation of the October position today having been the last notice day for that month and notice for about 3,000 bales were circulated. This caused an early break of 83 points in the current month which affected more or less liquidation by belated longs which brought prices down to a level 27 to 30 points under the early high by the time the market suspended to receive the government report.

When trading was resumed following the issue of the report first trades showed losses from the prices ruling just before the bureau of 81 to 91 points. There was a moderate rally from this early break but later on in the early afternoon December dropped to 1923 or 127 to 144 points down from the highs. In the late trading a good trade demand developed at the lower levels and there was also considerable price fixing by spinners and the market rallied 21 to 23 points from the lows finally closing steady at net losses for the day of 107 to 120 points.

The government made the yield per acre 164.7 pounds of lint and the abandonment of acreage 4.8 per cent. The Texas abandonment was nine per cent. The census buregu made the total ginnings to Oct. 18, 9,519,784 bales. Exports for the day totaled 17,155 bales.

NEW YORK COTTON.

NEW YORK, Oct. 26.—(AP)—The government's cotton report was followed by a break of more than a cent a pound in the cotton market today. January contracts sold off to 1922, or 127 points below Saturday's closing quotation closing at 19.48 or 26 points up from the lowest. The general market closed steady at net declines of 84 to 107 points.

The market opened barely steady at a decline of four to fourteen points under overnight hedge selling and liquidation of long accounts in the face of relatively steady Liverpool cables and unfavorable weather reports from the South. Rallies of a few points occurred after the call but selling continued and active months showed net losses of about 25 to 32 points before the government report was issued. The latter, pointing to a crop of 15,226,000 bales was much above the average of recent private estimates and was followed by heavy general selling when the market re-opened after the twenty-minute interval.

The first rush of offerings carried the price of December off to 19.98 and January to 19.57, net declines of about 113 to 129 points, but at these figures the break was checked by trade buying or covering by recent sellers. Late fluctuations were rather nervous and irregular and the bearish influence of the increased crop figures, brought in a goo ddeal of selling on the advances. On the whole, however, the tone was steadier in late trading and last prices showed rallies of 18 to 26 points from the lowest on most positions.

The census report showing 9,519,784 bales ginned prior to October 18, was nearly in line with recent private estimates and attention centered on the crop figures. Covering at the lowr level of prices may have been promoted by the detailed weather reports showing freezing temperatures at practically all points in Oklahoma, coupled with the official statements that the crop on Oct. 18 was not beyond possibility of damage in parts of the Southwest.

Exports for the day were 17,155 bales, making 2,055,795 so far this season. Port receipts today 55,142. U. S. port stocks 1,259,631.

Market Gossip

R. E. Floweree and company, broker, basement Staley Building, today received the following market comment from Fenner and Beane of New York, New Orleans and Chicago:

Cotton.

The cotton market was surprised and upset by another big increase in its forecast of the cotton crop by the government and prices dropped nearly $7 a bale.

Shorts taking profits caused several fair sized rallies and gave the market a fairly steady finish, with final quotations about 21 points above the lowest.

Ginnings turned out about in line with expected and were generally interpreted as bullish owing to the sharp falling off in the rate of ginnings. These figures had little effect, however, being overshadowed by the increased estimate.

Ginnings for the period totaled 2,392,000 compared with 3,088,000 in the same period last year and 2,845,000 between Sept. 16 and Oct. 1.

The government predicts a crop of 7,590,000 for Texas, Oklahoma, Arkansas and Tennessee. These states have ginned 3,895,000 so far, leaving 3,675,000 to be ginned. Many competent authorities doubt if they can gin the amount needed in view of recent rains and freezes.

Mills are reported to have withdrawn their buying orders.

Sentiment is strongly bearish and prices are likely to work lower.

Wheat—Pronounced strength in Liverpool produced sharp rialy here, strength in Liverpool due to small stocks on hand, light shipments to United Kingdom and to the dwindling crop prospects in Australia.

Considerable activity in the early market, but thereafter interest waned. For some time past the market has not had a broad speculative trade this being one of the weakening conditions. Domestic situation does not offer any grounds for lower prices, as the visible supply decreased again last week and will probably continue to do so. We do not see anything of an exciting nature in the market or in the news, but the improved export trade, together with the crop outlook in the southern hemisphere and the light movement to market in North American provide possibilities of an irregular advance.

Increase receipts of new corn find a very indifferent demand, prices today quoted two to five cents or more lower, this has been the controlling influence in today's market. Nothing has developed to provide outside interest or to suggest higher prices, in fact, the cash situation suggests a further decline.

Stocks.

Today's market opened strong with vigorous advances in most leading issues. Demand continued strong for the shares of U. S. Steel, General Motors, Chrysler and Jordan Motors.

In the rail group greatest gains were made by New York Central, Erie and St. Louis-Southwestern. Heavy profit taking, however, soon cropped out and reactions occurred in various departments with trading on extremely large scale.

Money firmed up due to some calling of loans and in the course of the day advance to five per cent. Stocks, however, soon developed firmness and recoveries took place. In this recovry Chrysler became the leader and at one time showed an advance of about 17 points, recording a new high level. It was officially reported that the company is now making 850 cars a day and that it will produce and sell at least 250,000 cars next year.

In the metal group, American Smelting was the leader, attaining its best rise since 1916.

Oil showed a tendency to advance under leadership of Pan American, and in American Woolen the shorts were roughly trequated, causing a good recovery.

EASTERN STARS MEET

SAN ANTONIO, Oct. 26.—With more than 2,000 delegates and visitors expected to attend the forty-third session of the Grand Chapter of Texas, Order of the Eastern Star, will convene in San Antonio Tuesday, sessions to continue through Thursday.

N. Y. Stocks

NEW YORK, Oct. 26.—(AP)—Heavy profit taking apparently inspired by stiffening call money rates, the sharp break in cotton futures, and commission house advices suggestion that a technical reaction was warranted, impeded, but failed to halt the upward sweep of prices in today's stock market. Total sales exceeded 2,000,000 shares for the eleventh consecutive full session.

Buying demonstrations started in the steel shares, presumably in further reflection of favorable trade reports. U. S. Steel common crossed 130 to the highest price since the war and Bethlehem moved up over two points to 49½. American metals which is expected to increase its annual dividend from $3 to $4, jumped over four points to a new high record at 57½. Gulf States and Sloss Sheffield each showed net gains of about 1½ points.

Rails were galvanized into activity when a sudden inquiry developed for the Van Sweringen issues. "Nickel Plate" soared six points to 148 and was followed into new high ground by Perre Marquette and Erie common. Bangor and Aroostock advanced three points to a new high at 53 in anticipation of an increased dividend. Rock Island, Chicago, Great Western preferred, "Soo" preferred, Norfolk and Western and New Haven also recorded substantial gains. Spectacular movements again took place in the motor group, which was featured by an advance of nearly 17 points to a new record top at 218 in Chrysler Motors. Jordan scored an extreme advance of three points at 55 and General Motors, Hudson, Mack Trucks, Moon, Stromberg Carburetor and Fisher Body all closed a point or more higher. Packard crossed 45 to a new top.

Buoyancy also developed in a number of specialities. Loose Wiles Biscuit was quickly run up 12 points to a new peak at 105 and then slipped back to 101½. Net gains of three to nearly six points were registered by American Radiator, American Zinc and Lead preferred. Byers company, Chicago Pneumatic Tool, Federal Mining and Smelting common and preferred, R. S. Schulte, Sears Roebuck, Standard Milling and United Cigar Stores.

There were a few soft spots. New York canners broke nearly six points to 67 and then rallied 69¾. Atlantic Gulf and West Indies prefgerred, Burroughs Adding Machine, Commercial Solvents "B," Continental Insurance, Famous Players, General Electric, National Distillers Products preferred, Remington Typewriter, Underwood Typewriter, United States Realty and Yellow Cab preferred showed net losses of two or more points.

Call money opened at 4½ per cent, advanced to 4¾ and thence to five, closing at the top. Time money and commercial paper rates were unchanged.

A spectacular rally in French francs which advanced 20 points to around 4.30 cents on the announcement that the French government was taking energetic moves to stem the decline through the use of a Morgan credit, overshadowed all other developments in the foreign exchange market. Demand sterling advanced ¼c to a new high on the current movement at $4.84⅝. Other European rates moved within rather narrow and irregular limits.

CHICAGO GRAIN REVIEW.

CHICAGO, Oct. 26.—(AP)—Enlarged buying of Canadian wheat for shipment to Europe had a stimulating effect on wheat values today, and so likewise did reports that a great deal of Canadian wheat would be probably left over unthreshed until spring. The wheat market closed strong, 2⅝ to 3¼c net higher, new style. December $1.46⅝@1.46¾, and May $1.43½@1.43⅝, with corn at ⅝c to 1c decline, oats shade to ¼@ c up, and provisions unchanged to 30c down.

Increasing receipts of corn here led to an all round new low price recorded for the season despite wheat strength as well as further rain in the corn belt. Offerings of oats lacked volume.

Provisions were affected by corn weakness.

FORT WORTH LIVESTOCK.

FOR TWORTH, Oct. 26.—Compared with recent Monday runs, cattle and calf receipts in Fort Worth made a big gain, around 8,800 head arriving, against 6,085 for last Monday. This is the season of the year, however, when liberal receipts are expected, and the large supply was not a surprise to traders. Buyers made slow progress on the initial rounds. Lower offerings were made on practically everything in the yards, and when sales were made they reflected uneven declines. Cows ruled mostly 25 to 50c under last Friday's closing levels, and calves opened at a decline of 25c. Beef steers were steady to a shade lower. Heifers, yearlings, and bulls cleared to relatively better advantage than cows and steers, values being mostly steady on the early market.

Fair to medium cattle made up the bulk of the receipts in the beef steer division. Trading was more active than on cows, but the market had a weak undertone. Most of the run found an outlet at $6.50@8.50.

Low priced cows were more in demand than the high costing kinds, but on all classes the market opened in slow fashion. Canners were selling around $1.75@2; with cutters moving in an indifferent manner at a range of $2.25@2.85. Those are the lowest values that have prevailed for canners and cutters within recent weeks. Fleshy cows cleared around $3.25@4.50.

Demand for heifers and yearlings was moderately broad, and receipts offered a better selection than the average. Earl trading was at fairly satisfactory rates. Most deals on the wanted kinds were around $6@7.50.

Bull holdings were meager, good heavies clearing around $3.75@4; with the fair to medium kinds making $3.25@3.65.

Buyers were not bidding a great deal lower on calves, but were trying to save here and there, and a fair quota of the supply had to go at a 25c reduction. Vealers were purchased around $8@8.50, with desirable heavies going mostly at $7@7.50.

Generally unchanged rates were paid for stockers and feeders. Steers, cows and yearlings were wanted.

Hogs were purchased early on an unevenly higher market, most of the run showing an advance of 15 to 25c. Shippers and packers made purchases at the advance. Shippers paid $11.65@11.80, but the packer top was $11.65. Most sales were around $11.55@11.80. Receipts were around 1,200 head, but took into account 550 head that came on direct packer billing.

Receipts of sheep and lambs were estimated at 1,700 head. The supply was disposed of readily, all kinds bringing fully steady rates. Shorn wethers brought $8, some lambs went at $11.50@12.50 and goats brought $3.

Cattle—Receipts 8,800, including 2,800 calves; market slow on steers, 25@50c lower on cows; 25c lower on calves; beeves $3.50@8; stockers $3.50@7.25; fat cows $3@5.25; cutters $2.25@2.85; canners $1.75@2.25; heifers $3.25@7; yearlings $3.50@8.50; bulls $2.50@4.25; calves $3@8.50.

Hogs—Receipts 1,200, including 550 direct; market uneven; heavy 10c higher; top $11.85; bulk $11.50@11.65; light $11.75@11.85; medium $11.65@11.75; heavy $11.50@11.65; mixed $11.25@11.50; common $9.50@10.50; sows $9@10.50; pigs $10@11.50.

Sheep—Receipts 1,700; market steady, lambs $12@13; feeders $11@13; yearlings $10@10.50; wethers $7@8; ewes $5@6; culls $1@2; stockers $3@5; goats $1@3.

KANSAS CITY, Oct. 26.—Cattle—Receipts 35,000, calves 7,000; market dull; grass fat cows $3.85@5.50; heifers $4.75@6.25; grain fed heifers $6; canners $3@3.15; cutters upwar dto $3.50; choice veals $11@11.50.

Hogs—Receipts 5,000; market higher; top $11.40; bulk of sales $10.65@11.35; packing sows $9.50@9.85; stock pigs $11.25@11.75.

Sheep—Receipts 8,000; market higher, top western lambs $15.05; natives $14@14.50.

CHICAGO, Oct. 26.—Hogs—Receipts 56,000; market strong; packing sows $8.50@9.80; killing pigs $11.75@12; heavy hogs $11@11.40; medium $11.15@11.45; light $10.90@11.50.

Cattle—Receipts 29,000; market steady, matured steers held above $16; vealers $12 downward.

Sheep—Receipts 16,000; market higher; native lambs $14.75@15; range wethers $9; fat native ewes $7@7.50; range yearling wethers $10.50@11.50.

MAY BUILD A FREE WOODEN RIVER BRIDGE

Construction Companies Offer to Start Work Immediately

Offers to start work immediately on a temorary wooden bridge across Red River near Burkburnett, this to serve as a free bridge for the public pending completion of the proposed new concrete or steel structure to be thrown over the stream were made to the county commissioners court Monday by two contracting firms seeking the job. A third company, while showing little enthusiasm for the matter, has not entirely abandoned its quest for the contract and a further conference in this respect is scheduled to take place today.

Callahan Offers.

The first offer to put up a temporary wooden bridge to be ready for use in a short time was made by the Callahan Construction company of Dallas, one of the original but unsuccessful bidders on the project. Representatives of the company appeared before the court and said that inasmuch as a substantial wooden bridge would be needed anyhow to carry material and equipment over the bed of the river when work starts on the permanent structure, they would build such a bridge and throw it open without charge while building operations are in progress.

This offer was met a little later by A. R. Mackey of Denver, the low bidder on the main project, who told the court he would assume the same expense and meet the Callahan offer. Mr. Mackey's bid was one of two retained for further consideration after the five submitted were opened last Friday.

Outlook Favorable.

Austin Brothers Bridge company of Dallas, second lowest bidders, declined through its representative to make any definite proposals.

Offer of the Callahan and Mackey interests to go ahead with work at once is regarded as indication thet these concerns believe the financing muddle swirling around the bridge will ultimately be straightened out.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflemed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Ceromulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga.—Adv.

FAIR WARNING

The general public is hereby notified that all well located lots in Scotland Addition will be raised in value $200 each on March 1st, 1926.

The lots we have left on the market at this time are by far the cheapest and best lots in the city for the money. While they last you have picking choice of inside lots for $400.00, corners $500.00 on terms of one-third cash or 5 per cent discount for cash.

Owing to the fact that Scotland Addition has all the modern conveniences, you absolutely know that when you own one of these lots clear, that you can get a modern home built on same on terms that you can meet. When you buy lots out in the country or in any district where there is no water, gas, electric lights, sewerage, etc., you may have to wait for years before you get them. It costs money and lots of money to put these conveniences in any addition. For instance, it cost over $300,000 to put the conveniences in Scotland Addition, including the street railway and paved highway. This is more than $400 per lot for every lot in the entire addition. You can readily see that you are getting your money's worth when you acquire one of our lots.

These modern conveniences are what makes lots come so high in restricted additions. We have all these conveniences except paved streets and in this addition you can't be located far from street car line and paved highway. We will soon have a modern brick school. It has taken years of hard work as well as lots of money to acquire all these necessities and you can readily see that we are justified in raising our values.

If you purchase one of these cheap lots now you do so with the assurance that your lot will be worth $200 more on the first day of March. This is a 50 per cent advance in four months; what better could you ask. Should you not have the money to buy one of these lots you should go borrow it, for there will never be another close in industrial addition with all these conveniences placed on the market.

Scotland Addition is in the city limits. If you are proud of our city you will want to live in the city limits where you can assert your American right to vote and take part in its development by paying taxes rather than trying to shirk them.

First come, first served, and remember our best lots will soon be sold. I mean every word of this advertisement.

JUDGE FLAYS TACTICS OF U.S. NARCOTIC MEN

Method of Securing Evidence Severely Criticised

AMARILLO, Oct. 26.—(AP).—The methods of securing evidence employed by U. S. Narcotic agents in Fort Worth were severely criticized by Judge James C. Wilson in U. S. district court here today, after hearing the plight of Frank Kilkrease on a charge of having narcotics in his possession.

Kilkrease told a story of marrying a woman he said was an addict, and acquired the drug habit himself. He said he finally left the woman and determined to quit drugs. She pursued him, he testified, and finally in sympathy for her, accepted money she gave him and bought a narcotic for her.

The bills proved to be marked, Kilkrease testified and his arrest followed. Judge Wilson gave Kilkrease a suspended sentence of a year and a day. It was the second time Kilkrease had been before Judge Wilson.

PEW UPHOLDS OIL FORECAST OF COMMITTEE

American Petroleum Institute Head Slams Back At Doherty

DALLAS, Oct. 26.—J. Edgar Pew of Dallas, president of the American Petroleum Institute, takes issue with Henry L. Doherty, president of the Henry L. Doherty company, New York, over the potential supply of petroleum in the United States, in a statement issued here today. The sharp controversy that has been waged quietly for several months between officials of the institute and Mr. Doherty, one of its prominent members, Mr. Pew was shown a press dispatch carrying extracts from Mr. Doherty's address before the American Gas Society at Atlantic City, October 13.

Mr. Doherty's address picturing the situation relative to the future supply of crude oil as "truly alarming."

"The daily press," said Mr. Pew, "quotes Mr. Doherty as saying at Atlantic City that 'Contrary to the report of the committee of eleven, the condition of the nation's oil supply is truly alarming,' and also that 'a committee of the directors of the Petroleum institute started out with the avowed intention of proving that we have an ample supply of natural petroleum oil.'

"I am sorry that Mr. Doherty has seen fit to question the integrity of these men. I claim that this committee did a good work and one that would have been impossible excepting by and through the co-operation of practically the entire oil industry.

"These gentlemen did a splendid and unselfish work. I am fully in accord with their conclusion, Mr. Doherty to the contrary notwithstanding."

City Makes First Move To Establish Finger Print Bureau

COUNCIL HIRES O.T. VINSON TO AID CRIME WAR

Local Man Will Begin Work At Once on Department

IS WELL QUALIFIED

Has Made Special Study Of Bertillion and Criminology

First steps toward establishment of a finger print bureau and bureau of identification in Wichita Falls have been taken by the city police department with the retention of O. T. Vinson as finger print officer. At the request of Police Commissioner Frank Queisser, the city council has authorized the engaging of Mr. Vinson and the purchase of a special camera designed to take finger print photographs.

Vinson, a local man who has made a special study of finger printing and has just completed an exhaustive course in criminology, is qualified to take photographs of finger prints, classify and catalogue them. His work, Mr. Queisser believes, will be of great assistance to the police in learning and knowing who crooks are and when they are in town.

He will begin his work at once.

Wichita Falls To Get New $10,000 Iron Works Soon

Ray Sheet Metal Company To Start on New Plant In 10 Days

Wichita Falls is to have a new $100,000 sheet metal plant, erection of which will begin witnin the next ten days. The new plant will manufacture water tanks, water softeners, tanks, boilers steel barrels, lubricating oil dispensing tanks and other steel products.

The Ray Sheet Metal works of which F. A. Ray is head will build the new plant to be located north of the Henrietta highway between the Fort Worth and Denver and the Missouri-Kansas-Texas railroad tracks on the property recently purchased from the Cline Oil company. The new plant is the first of its kind to be established in this section of the state.

The sheet metal plant will be connected with the Bennett Pump company of Muskegon, Mich., and as a branch office will be able to save freight expenses on products. By manufacturing the tanks here a saving of $4 for each oil dispensing pump will be brought about.

The Wichita Falls chamber of commerce has had a great part in the establishment of the new plant in this city. Another city was bidding, when the local chamber of commerce was able to secure a chance in the classification of the shipping of products affecting a reduction in charges of freight handling, and extension of the switching areas of railroads in Wichita Falls.

It is believed that the new sheet metal works will be the first of a series of industries to open in Wichita Falls.

$30,000 BONDS SOLD.

Need Only $20,000 More to Finance Proposed Hospital.

Reports were made to the special committee of the chamber of commerce Monday at noon at the meeting held at the Kemp Hotel that more than $30,000 worth of the proposed $50,000 worth of six per cent first mortgage bonds for the Dr. Frank White sanitarium have been sold. The meeting was called by J. C. Mytinger, chairman of the committee.

The sale of bonds will continue, and a meeting will be held this afternoon at the chamber of commerce at 4 o'clock for a further report.

Teacher May Get Carnegie Award

AUSTIN, Oct. 26.—(AP).—Miss Katy Lacy, teacher who, though bitten held a mad dog in order that scores of children in the state orphan home at Corsicana, could escape, is being considered for Carnegie hero fund award, and Liberty Weekly Heroism award.

Miss Lacy and 21 orphans who were bitten by the dog are here taking treatment and she is conducting classes for them at the Pasteur Institute.

Upon request of the Carnegie hero fund commission, the board of control of the state, is sending that body information on Miss Lacy's act. Other persons are submitting a report on her act to the magazine.

George Creel, Noted Humorist, Lecturer and Author to Come To Wichita Falls November 19

Will be One of Famed Speakers Brought to This City By Teachers Association, President Presson Announces After Meeting

George Creel of New York, lecturer, humorist, and author, the man who, during the world war sold $10,000,000 worth of liberty bonds in ten minutes, will be one of the speakers brought to this city by the Wichita Falls Teachers association, according to announcement by A. K. Presson, president of the organization. At the first meeting held last night at the Junior high school. The speaker will be here Nov. 19.

Dr. Wilfred T. Grenfall, the man who knows more about Labrador than probably any other person, and who did a great part during the epidemic of diphtheria in Alaska last winter, will be brought here by the association March 1, Mr. Presson announced.

Tell of Plans.

In his talk on "Plans for the Year," he told how the organization of the 200 teachers in the city are endeavoring to co-operate with the administration in school activities.

H. A. Glass, principal of the Junior high school, talked on "Professional Plans for the Year." He told of the new library which is being secured for the Junior high school and of the developing of a habit of outside reading of good literature among the students.

Singsong.

The meeting was opened with a singsong led by Miss Erma Nala Voss music supervisor. Miss Minnie P. Baker of Junior high school, entertained with a number of vocal solos.

A story written by Miss Juanita Kinsey, head of the ublic speaking department of Junior college, called the "Teacher's Directory" was one of the entertaining get-acquainted features of the evening. Dr. J. W. Cantwell, superintendent of city schools, won the prize for remembering the greatest number of names, checking correctly 50 out of 53. One hundred and twenty-five teachers were present last night.

Club Is Young.

The Teachers Association was formed last year as a study club where teachers might exchange ideas and make plans to bring educational speakers to the city.

The officers are: A. K. Presson, registrar of Junior college, president. Prof. H. A. Glass, vice president; Miss Mary Dixon, secretary-treasurer. Miss Beatrice Morgan, reporter.

All About Junior College

College instructors in all classes announced Monday that the whole student body is expected to turn out for the first conference game ever participated in the the Junior college next Saturday. Mr. and Mrs. Jack Otto of Denver, Colo., accompanied by Mrs. Maurine Elmer and Willie Mae McGee of this city visited relatives of Mrs. Elmer in Manitou and Frederick, Okla., Sunday. Mr. and Mrs. Otto are the house guests of Mr. and Mrs. Elmer at 1709 Giddings street. Mrs. Otto and Mrs. Elmer are sisters.

Misses Jewel Roe Akin and Margaret Hines spent the week-end in Dallas, enjoying the fair and football games. They visited Miss Margaret Akin and other former Junior college students, who are attending S. M. U.

Plans have been perfected whereby members of the college pep squad will appear before various luncheon clubs during this week and make pep talks for the big ball game Friday. They will sell tickets and plead for the support of the business men for the college team in its first conference year.

The HI-Y club met Monday evening at the First Methodist church and conferred the second degree on their full class of candidates.

Announcement has been made that a big bonfire rally and downtown snake dance will be staged Friday night by the Junior college and high school students combined. Several prominent business men are to deliver pep talks at the fire on the campus.

Bootleggers' Cows Basis for Complaint

Bootleggers' cows give milk with no more kick than animals owned by less prosperous gentry and they are just as troublesome when they get into neighboring cotton patches and garden spots. Therefore they constitute a nuisance and something really ought to be done about it.

Testimony to this effect was offered before the city council Monday nightby a local citizen who said he had the good fortune of living within hailing distance of one of the community's most successful boottleggers. He claimed that cattle owned by his convicial neighbor were doing considerable damage to his property and the milk he took from them once or twice failed to give adequate compensation for his loss.

The council thought he had a meritorious complaint and asked Police Commissioner Queisser to take corrective measures.

READY FOR MAIL ORDERS.

Can Reserve Seats Now for Will Rogers and Troupe.

Mail order reservations may be made now for Will Rogers and the De Reszke singers who will appear in Wichita Falls at the Junior college auditorium Nov. 16. The letters will be opened Nov. 2, and in the order in which they are received, according to an announcement last night by the Musician's club which is bringing the artists to this city.

Envelopes are to be addressed to the Musician's club, ticket department, Box 133.

CHURCHES MAY HAVE TO PAY SEWER RENTAL

City Council Learns of Non-Payment Practice With Surprise

Wichita Falsl churches which have heretofore enjoyed a sort of diplomatic immunity in the payment of sewer rentals, may be required to meet such assessments in the future.

Heretofore no church has paid rent on its sewer connections. This information came as a surprise to the city council Monday night when it was asked by the Assembly of God congregation to withdraw a bill sent by the tax collector. A litti inquiry developed the fact that no church here has been paying rent and until a decision is reached, the Assembly of God bill will be withdrawn.

It seemed to be the opinion o fthe commissioners that the churches ought to pay this service charge just as any other enterprise and it was indicated that they might be asked to do this in the future.

DR. CANTWELL URGES RURAL SCHOOL AID

Not Giving Children a Chance, City Superintendent Says

"Rural schools in this country are in the worst of condition," Dr. J. W. Cantwell, superintendent of city schools, told the Kiwanis club at the Kemp hotel Monday noon. He spoke on "National Education."

"We are not doing for the rural school children what ought to be done. In the names of 'Who's Who of America,' there are 233 per million whose names appear who were born in the country; there are 1,550 per million who were born in the city.

"This shows that the boy or girl born in the city has six times the chance to become distinguished that the rural child has. There is no reason other than that the town schools offer an advantage that country schools do not."

Cites Increase Here.

"In Wichita Falls our population has grown rapidly and the student enrollment has increased. Last year there was an increase of 1,300 scholastics, and now there are 700 more enrolled in the schools than at this period last year."

Dr. Cantwell said two times more money is spent each year in America on automobiles than on education; as much is spent on soft drinks, chewing gum and candies; amusements, opera shows and entertainment half as much. We are able to do that, because wealth is increasing rapidly, and earning and saving is increasing also, he said.

Plan Benefits.

Announcement was made of the wrestling match for Tuesday night when proceeds will go to the Day Nursery which the Kiwanis club is fostering. Announcement was also made of the recital to be given at the First Baptist church by Misses Jeul and Alelle Ray with Mrs. E. R. (Kiwanis) Collard accompanying.

Miss Ella Merle Mathis, reader, entertained with two readings; a story, "Where Ignorance Is Bliss," and a "Hindu's Paradise."

MORE PAVING IS APPROVED BY COUNCIL

Contracts Awarded on 12½ Blocks; New Petitions Presented

Paving matters again demanded much time from the city council Monday night and when the dust had cleared from a mass of bid proposals and improvement petitions, contracts had bee nawarded for paving 13 and one-half blocks while petitions were presented asking for improvement of nine and one-half additional blocks.

The work involved is scattered over the entire city, although a considerable portion of it lies in Sibley-Taylor.

New Work

New work, petitions on which were received and bids called for, include Ozark street from Hays to Grant; Wilson from Grace to Holliday; Clark from Twelfth to the alley between Thirteenth and Fourteenth; Buchanan from Avenue M to Avenue O; Bluff from Burnett to Eighteenth; Twenty-first from Broad to Bluff. The project lengths for the above named streets in order are one, one, one and one-half, two, three and one blocks.

Contracts Let.

Contracts totaling nine and one-half blocks were awarded the Plains Paving company as follows: Avenue J from Taft to Jones, one block; Jones from Avenue J to Avenue M, three blocks; Polk from Avenue J to Avenue M, three blocks; Filmore from Avenue L to Avenue M, one block; Seventh from Polk to the west property line of lot 12, block 19, Floral Heights addition, one and one-half blocks.

The L. E. Whitham company was awarded contracts for paving Galveston from Mill to Virginia, two blocks; Park from Barwise to the Katy railroad, one block; Burnett, Mississippi to Park, one block.

PENWOMEN HOLD MEETING

Read Three Chapters of Composite Novel Being Worked Out By Club.

Three chapters for the composite novel which the members of the Penwomen's club is writing this winter, were accepted at the meeting Monday afternoon at the Kemp public library. They were written by Mrs. W. A. Hindman, Mrs. W. A. McGee and Mrs. W. H. Sanford.

The meeting was opened by Mrs. H. F. Weldon who precided. She read several original poems. Mrs. Marie Engle Johnson read a chapter of her story, "Mamie." Mrs. Claude Williamson read an original monologue, "Rooms for Rent."

Those present were Mesdames Weldon, M. E. Johnson, W. H. Sanford, W. A. McGee, Claude Williamson, E. A. Skalinder, Sam Krueger, W. A. Hindman and Miss Lucile Sherrod.

BUSINESS MEN OF CITY FORM ATHLETIC CLUB

P. B. Curd Is President; C. C. Frazee Is Instructor

Organization of the business men's athletic club was effected Monday night at a meeting of the constituents who elected P. B. Curd as president; Oral Jones as vice president and W. E. McBroom as secretary-treasurer. C. C. Frazee, physical training instructor of the junior college, was named as "teacher."

The club now has 22 active members and it was voted to limit its full membership to 25. The organization started last summer with a few prominent business men here who, under Frazee's tutelage, began systematic physical exercises in the college gymnasium. It proved so popular that others joined in and now it numbers some of the most active business and professional leaders in the city on its roster.

It meets three evenings a week in the gymnasium for calesthenics, drills, setting-up exercises, volley ball and other games.

Buckner's Home In Dallas Given Aid

Twelve boxes were packed for the Buckner's Orphans' home at Dallas Monday afternoon when the 12 circles of the First Baptist church met at the church in a joint session. A large cash offering was also made to the home.

One hundred and thirty-five women were present for the study on "Challenge to America" by Rev. J. F. Love, secretary of the home mission board. Teachers for the afternoon included Mesdames Eichenberger, Farris, Lory, Guinn, Reeves, Hines, Mimms, McGregor, Fuller, Peters, Miller, Maxwell.

Hostesses for the meeting were: Mesdames A. W. Eichemberger, L. C. Cole, E. W. Napier, Logan Morgan, H. G. Gilbert, O. D. McCoy, W. C. Snoddy, Peeler, Fred Carter, O. M. Smith, R. A. King, F. Hoover.

If You Park Your Flivver in Alley, She May Go Astray

"If you leave your car in an alley at night you may find it in front of the city hall the next morning with a $5 fine as the only key to its release."

This is the warning sounded yesterday by Chief of Police George H. Hodgins who said considerable trouble was being occasioned the street cleaning department by cars left in alleys and in the path of the sweeper. All machines must be moved before the sweeper can work and this causes a heavy expense.

Police Look For Memphis Thieves

Police of Wichita Falls have been asked by the police department of Memphis to be on the lookout for robbers who took diamonds valued at $2,500 from the R. H. Wherry Jewelry story in a daylight robbery at Memphis Sunday evening.

Fourteen rings set with diamonds ranging from one-sixteenth to one and one-quarter karats and a one and one-half karat diamond stud were taken from the tray in which the window display was made, and the empty tray left near the window.

Police are working on the case.
