

Exclusion Hearing Set for Monday

The exclusion hearing of the Collingsworth County Water Control and Improvement District will be held Monday, Nov. 15, beginning at 10 a.m., Dan Henard, water board president reminded.

It will be in the water board office in the courthouse.

Present to represent the Water Board will be their attorneys, a representative from the law firm of Small, Small and Craig and possibly a representative from Gibson, Spence and

Gibson, both attorneys at law firms at Austin. Also present will be the engineer for the water district, A. H. Woolverton of Austin.

This hearing is not only for those who have petitioned to be excluded from the district, it is also for those who want information on the proposed Salt Fork dam or who have questions about any part of it or the way it has been handled to date, Henard emphasized.

The hearing will remain in session as long as there is anyone present.

"It's a good time for anyone who wants to know about the water program to come," Henard said.

He again reminded that plans and maps of the proposed Salt Fork dam are at the Chamber of Commerce office, and anyone wanting information may look at them.

Water Board members, in addition to Henard, are W. C. Barnett, vice chairman; Temple Slay, secretary-treasurer; Louis Patterson and George Roberts, members.

STATE FARM BUREAU CONTESTANTS

These Collingsworth boys and girls will represent District 1 in contests at the annual Texas Farm Bureau Convention in Dallas, beginning Sunday, Nov. 14. Below is Judy Martindale, candidate for State Farm Bureau Queen. Above are the Talent Find contestants. From left they are Earl Lynn Feemster, Sharon Daves, Kenneth Patterson, Don Morris and John Abernathy.

Skyrocket B Meets Wheeler There Thursday

The Skyrocket B team will travel to Wheeler Thursday evening, Nov. 11 to close the 1965 season. Game time is 7:00 p.m.

The conference game with McLean B team scheduled for that time was called off by McLean after a car accident injured three players and left the team with too few reserves for the competition, Coach James Stavenhagen said.

The Wheeler team although playing in Class B, is one of the stronger teams of the Eastern Panhandle and the Mustangs will give the Rocket B as much as they can handle.

The B team has had a successful season, and fans are urged to attend this game for the boys' final appearance.

Basketball Play Opens For Wellington Nov. 15

Skyrocket athletes will hang up their football gear Friday night, then take over the basketball court Monday, Nov. 15.

But the Rockettes aren't waiting. Coach James Stavenhagen has had a number of work sessions with the girls; they have had one scrimmage with Estelline girls and will have another one Monday night, Nov. 15. This will be in the Wellington gymnasium, beginning at 6:30 p.m. with both the A and B girls teams playing.

The Estelline coach is Jimmy Don Adams. Playing in a strong Class B district, the team won the district title last year and has five girls back from that championship team.

The first scheduled game will be with the Shamrock Irish and Lassies Friday, Nov. 19. The game will be played at Shamrock.

Coach Stavenhagen has 14 girls on his varsity squad and most of them are new, replacing the eight who were lost off last year's traveling squad by graduation.

"The girls are showing a great deal of hustle. They are small but very quick," said Stavenhagen. "We will play a faster brand of basketball than we have in the past, and both forwards and guards will probably press most of the time."

Captains of the team this year are Leslie Covey and Nancy Sanford. The Rockettes are a young team, with only one senior player, Nancy. "But we feel like they will be real tough before the year is over," their coach added.

Mrs. Richardson Heads March of Dimes Campaign

Mrs. James Richardson will be the drive chairman for the annual March of Dimes campaign to be held in Collingsworth County during January, 1966, Carl Hudson, Childress-Collingsworth County chairman announced today.

Hudson also reported the financial help given during the year to children with severe birth defects.

\$383.00 was spent for a four-year-old Wellington boy who was born with defective kidneys and was considered as not having much chance to make it but after surgery in a Wichita Falls hospital it is now expected that he will have a normal life.

\$598.10 was spent to help defray the hospital expense on a six-months-old infant in Childress, who was born blind, has defective kidneys and a defective heart as the result of the

District Banquet Set

4-H Gold Star Award Winners Announced

The 4-H Gold Star Boy and Gold Star Girl for Collingsworth County in 1965 are Teddy Martin and Joye Hudspeth.

The Gold Star is the highest award given by the Texas Agricultural Extension Service, and Teddy and Joye will be honored at the annual Gold Star Banquet to be held Saturday, Nov. 13 at 6 p.m. in Amarillo.

This Panhandle-wide event is sponsored by the Electric Co-operatives serving the area, and one of these is the Greenbelt Electric Co-op, Wellington.

The others will be Deaf Smith County Electric Co-op, Hereford; Rita Blanca Electric Co-

op, Dalhart; and North Plains Electric Co-op, Perryton.

Teddy is the son of Mr. and Mrs. Wayne Martin of Wellington. He has fed beef calves for three years as his 4-H project. He is the 1965 president of the Collingsworth County 4-H Riding Club.

Joye is the granddaughter of Mr. and Mrs. J. I. Thomas of Wellington. She has been active in the 4-H foods and nutrition program and participated in the county and district 4-H dress revue.

These two, along with other 4-H members who have done outstanding work, will be honored on the county level later in the year.

Bura Handley Center Dedication Planned

The City of Wellington will honor a man who served it for nearly half a century Sunday, Nov. 14, when the community building is renamed and dedicated as Bura Handley Community Center.

The public ceremonies will begin at three o'clock in the main auditorium.

A tribute to Mr. Handley will be paid by a state figure who worked with him for many years, Steve Mathews, executive director of the Texas Municipal League of Austin. He will be the principal speaker on the brief program.

Mayor Hiram Cudd will officiate at the dedication, and the acceptance will be given by Capt. Phil Handley, USAF. Recognition will be given Mrs. Bura Handley during the ceremony.

The choir of First Baptist Church, which Bura Handley once directed, will sing; the invocation will be given by Bobo Castleberry and the benediction by Henry Sullivan. Both are members of the City Council.

Bura Handley's service to the city of Wellington began in 1916 when he was hired to help dig the foundation for the present water tower at \$2 per day. He was permanently employed by the city in 1922 as light plant engineer.

In 1924, he was promoted to City Manager, and when he died unexpectedly in 1964, he had served in that capacity 41 years.

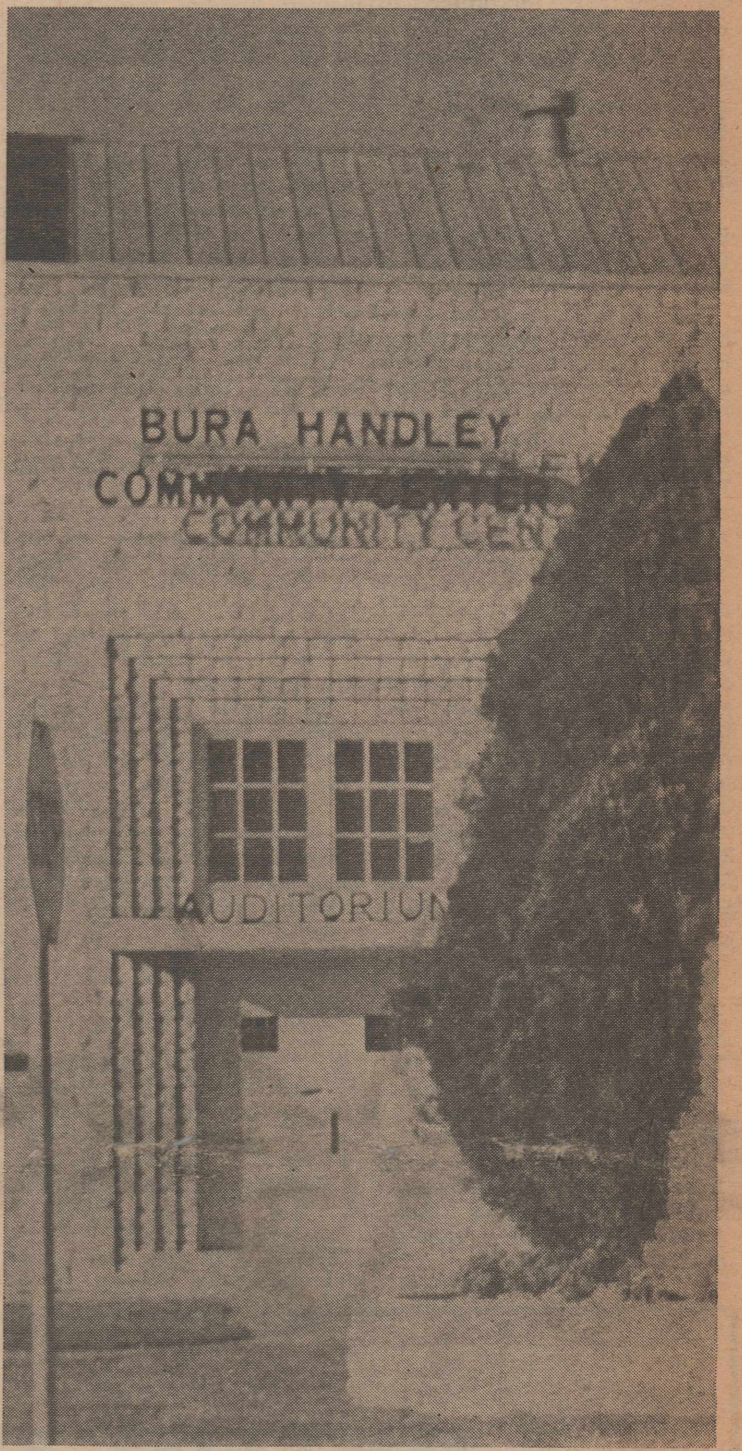

Because he was an unusual man, he filled an unusual role in his office and utilized his talents for the city in many and varied ways. He was engineer and construction superintendent of all paved streets, the present water system, the sewer and disposal plant, the swimming pool, maintenance shop, airport and community building.

He was a member of the Wellington Volunteer Fire Department 35 years and its chief during most of that time.

He was one of the organizers of the original Greenbelt Water Authority and was the first secretary of the organization and the first director from Wellington.

Organizations, both local and area, bear the mark of Bura Handley. He was instrumental in organizing the Panhandle Firemen's Association and was its first president; he helped to form the Wellington Cemetery Association and drew the plans for the cemetery improvement.

In 1962, Mr. Handley was elected secretary-treasurer of Region I of the Texas Municipal League.

HANDLEY CENTER

Dedication of the Bura O. Handley Community Center, Wellington's community building, is set for Sunday, Nov. 14, at 3 p.m. Below is Mr. Handley, who served the City of Wellington almost half a century.

Wellington Can Be Second

Skyrockets Close Season Friday Against Powerful Clarendon

The Wellington Skyrockets go calling on the Clarendon Bronchos to close out their season Friday night, Nov. 12. At best, the outcome can put Wellington in second place in District 2-A; at worst, the Skyrockets will be tied with the Bronchos for third.

This is a 7:30 p.m. game. "We will be facing the second best backfield we have faced this year. They stand second only to White Deer," declared Wellington head coach Don Beck.

The fullback is Odell Louis, 6'5" and 195 pounds, and one halfback is Archie Smith, 6'2" and about 192. The other half is Mac McClellan, 140 pounds, and the best and most dangerous running back the Bronchos have.

The quarterback is David Moring, whom Coach Beck considers one of the most outstanding athletes in the district and the best quarterback the Rockets have faced this year. He weighs 155 and both his throwing and running are excellent.

The Bronchos are a throwing ball club primarily, although their running is dangerous and powerful.

Their line is anchored down by Mike Horton, 175 pound guard, the 200 pound tackle, Gray, and Richard Thornberry, 160 pound end.

Fans looking for comparisons will find that Clarendon beat Memphis one point; Wellington beat the Cyclone 8-0; and White Deer defeated Clarendon by only 26 points, then beat Wellington by 40.

According to Wellington scouts, Clarendon is the second best ball club they have seen this year.

"We feel like they will be the toughest team we will play except for White Deer and possibly Memphis," Beck said. "They have an extremely talented backfield; our scouts feel they are the best backfield they have seen, but I feel they couldn't be better than White Deer, although they are bigger than White Deer."

The Bronchos have won about 50 percent of their games, losing only to three outstanding teams: White Deer, Gruber and Groom.

"We'd sure like to win this so we can say we were beat only once," the Wellington coach remarked. "That would

Beauty, Music - They Publicize Area at Farm Bureau Convention

The District 1 Farm Bureau Queen candidate, Judy Martindale, the District Talent Find contestants, and delegates from Collingsworth County leave during the week end for the 32nd annual Farm Bureau Convention in Dallas.

A queen contestant is nothing unusual for the county Farm Bureau, but this is the first year that the Talent Find team has come from this county. They represent the 19 counties that make up the district.

Members of the music and vocal group are Sharon Daves, drums; Kenneth Patterson, Don Morris and John Abernathy, guitars; and Elmer Earl Feemster, guitar and vocalist.

They will compete Sunday at 3 p.m. and if the team wins, it will participate in the entertainment at the Monday and Tuesday sessions.

Miss Martindale, along with 12 other contestants for 1965 Texas Farm Bureau Queen, will be presented Monday night.

Voting delegates start their business session Tuesday at 1 p.m. and this will continue

through Wednesday, until all resolutions have been acted upon.

Delegates from Collingsworth County are J. C. Hartman, newly elected president; and L. A. Davis, James Martindale, Elmer Feemster, Clarence Wilbur and Dee Coleman. Others going will be Mr. and Mrs. Bart Martindale, parents of the queen contestant; Dee Burba, manager of the County Farm Bureau; Mrs. Carl

Eaglettes Continue Undefeated Season

The Samnorwood Eaglettes continued their undefeated season during the last week, while the Eagles saw their record evened at 3-3. The girls won over Quitaque 57-50 and Briscoe 63-44, but the boys lost to the same schools by scores of 70-50 and 61-36.

The Eaglettes defeated Quitaque for the second time this season in a game at Quitaque, but this victory was hard-earned. Samnorwood played without the services of a starting guard, Billie Purkey, and a starting forward, Brenda Coleman, who were ill.

Reserves Karen Waters, Carol Garner, Odessa Stice, Betty Coleman, Charlotte Conner and Sherry Kindrick all played and did good jobs, according to Coach Loyd Stephens.

*Regulars, who played harder than usual to take up the slack, were Kay Purkey and Suzy Bentley, forwards, and Judy Martindale and Eunice Stice, guards.

This victory was a team effort, as all ten girls who suited up played key roles at some time in the game.

The Eaglettes took an early lead but saw it almost vanish in the first part of the fourth quarter. They managed to finish strong enough to hold onto the 7-point margin. Samnorwood scoring was led by Kay Purkey with 26 points and Suzy Bentley with 25. Quitaque scoring was headed by 6'2" Pat Brunson's 23 points.

The Briscoe girls game lived up to its promise by being the top game to date. The Eaglettes rose to the occasion and defeated the Bronchoettes with good scoring and a stout defense. After the Briscoe girls had jumped to an early 4-0 lead, the Eaglettes stormed back to lead at the end of the quarter 19-6 and at halftime 30-20. The last half saw the Eaglettes increase their lead steadily with substitutes doing

a fine job. Eaglette scoring again was led by Suzy Bentley and Kay Purkey who had 32 and 27 points respectively. The Briscoe scoring was led by Lou Meadow, 25 points, mostly long two-hand push shots.

The Eagles experienced a nightmarish week as they were rudely introduced to full court pressure defense. On Tuesday, Oct. 26, they were leading Quitaque's Panthers by 13 points in the second quarter, only to see the lead quickly vanish in the face of a full court press by halftime.

Quitaque continued the press in the second half and completely subdued the Eagles by a 70-50 score.

On Friday the Eagles were playing Briscoe, one of the stronger teams in the area, on an even basis early in the second quarter, trailing only 19-18, when the Bronchos threw the full court press at them.

The half ended with Briscoe in command 36-18. The press continued throughout the third quarter and Briscoe led 55-26 when it ended. With the safe lead and substitutes on both teams finishing up, the final score was 61-36.

These two opponents have been the Eagles' strongest to date and except for the lack of experience against the press, the Eagles have appeared capable of playing either of them at least even.

The Eagle starters so far have been Danny Tate, Augustine Zermeno, Paul Clark, Nelson Dwyer and Acie Boyd, but they are being hard pressed by J. D. Ward, Stanley Oldham and Alvin Lisle.

The Eagles' scoring in the games against Quitaque and Briscoe was led by Danny Tate with 16 and 11 points respectively. The Norwood boys are fast gaining badly needed experience and with continued hard work the future could be satisfying and profitable.

1954 Study Club Hears Student, Adult Panel on Teen-Age Drinking

By Mrs. James Richardson
Mrs. E. W. Clement was hostess to the 1954 Study Club at its meeting Thursday, October 28. The business meeting was presided over by Mrs. Paul Spillman, president. Christmas gifts are to be sent to the State Hospital at Vernon; a contribution was made to the Penny Art Fund, Musical Penny Fund, Latin American Scholarship, Endowment Funds and Maintenance Fund.
The program was a panel discussion on teen-age drinking, with Mrs. Denzil Lacy as program chairman. Alcohol is too generally a

part of life today to allow young people to encounter it with little or no preparation, Miss Carolyn Christian told the group.
Appearing as panelists with Miss Christian in a program titled "Questions Are to Answer," were Rev. A. B. Earnest and Stanley Bratton. Miss Christian was the panel moderator.
Parents who ask "What should we tell our children about drinking?" were advised by Bro. Earnest to "teach the basic values." What should we tell our children about drinking? We should tell them the

truth about alcohol. It should be faced with true facts. Two-thirds or 71 percent of the United States adult population drink. It is also true that two-thirds of our young people are being brought up in a home or locale where drinking is prevalent. In a survey made by Yale University Laboratory among students enrolled in 27 colleges and universities, it revealed that 80 percent of the men and 60 percent of the women had been users of alcoholic beverages before arriving on the college campus.
In a recent study, high school seniors in 13 cities gave as the reasons for drinking: "Because others do, to be sociable, to forget troubles, to escape boredom, to get a feeling of importance, to find excitement."
Acknowledging that, although most adolescents receive their first experience with alcohol and their first attitudes toward it in the home, the panelists agreed that the role of the teacher is highly important.
Stanley emphasized that accurate, unbiased and well-presented instruction about alcohol in the classroom can provide young people with a broad and sound foundation on which

to base their inevitable decisions about personal drinking practices and social responsibility. Teaching about alcohol need not be controversial. It is a question of presenting information about drinking in order to help students develop desirable attitudes; and, thereby, avoid the personal and social consequences of unwise use of alcohol, he said.
The six risks or dangers a teenager is more susceptible to if he drinks are: Adolescents are affected more quickly and more severely by alcohol than adults. Adolescents are more susceptible to psychological intoxication than adults. Adolescents more readily acquire the habit of using alcohol to hide or mask conflicts than adults. Adolescents are more likely to become ill from drinking than adults. Adolescents are more apt to be involved in accidents while driving under the influence of alcohol than are adults. Adolescents may suffer more serious psychological effects from drinking than adults. In conclusion he pointed out that education is one—although only one—of the means which man employs to solve personal and social problems. Teaching youth about alcohol will not neces-

sarily eliminate its misuse, thorough instruction about alcohol can give a better understanding of its complexity.
Carolyn pointed out that the young people in high school and college today are the businessmen, government leaders, workers and parents of tomorrow, which makes their understanding of alcoholic consumption far more important than mere background for their own decisions to drink or to abstain. Teenagers are more concerned with "now", rather than "later." Education in the home, school and community should focus on preparing young people for the present, instead of the future. If the "now" is properly taken care of, the "later" will take care of itself.
Members attending were Mrs. Sam McGill, Mrs. Cal Hurst, Mrs. L. B. Bratten, Mrs. Lynn Courtney, Mrs. Glen Warrick, Mrs. Denzil Lacy, Mrs. Glenn Taylor, Mrs. Don Lacy, Mrs. Sam Adams, Mrs. Bill Hatch, Mrs. A. J. Fires, Mrs. James Richardson, Mrs. Spillman and Mrs. Clement.

Mrs. E. F. Bartlett was hostess to the Belles Lettres Club Tuesday evening, November 2, for the Thanksgiving program.
Mrs. Coy Vaughan presided at the business session, when members voted to send a gift box to the State Hospital at Vernon and the annual contribution to Boys Ranch.
After Mrs. S. B. Owen read the collect, Mrs. J. M. Stovall presented the program, "Pilgrim's Quest for Religious Freedom."
"Today it is hard to believe or realize the hardships and perils of that voyage," she declared. The 100 travelers in the Mayflower reached Cape Cod on November 19, she continued, where Provincetown now stands.
Mrs. Stowell traced the history of the Puritans from the early 1600s, when in the north of England they met in secret to worship. They were first called separatists, as they wished to separate themselves from the Church of England. She developed her talk to tell

Sharing hostess duties with her were Mrs. Orville Vaughan, Mrs. Louis Allred, Mrs. Bob Barton, Mrs. Hugh Painter, Mrs. R. T. Jameson, Mrs. Lucille Baird and Mrs. V. E. Warrick.

Mrs. Thompson received the guests and presented them to the honor guest, Miss Aaron, and to her mother, Mrs. J. D. Aaron of Canyon, and Mrs. Fletcher Lee White, Jr., the mother of the prospective bridegroom.

Mrs. Kent Holland of Amarillo registered the guests.

The serving table was laid with a white drawnwork cloth, and the centerpiece was a contemporary arrangement of

white chrysanthemums and red carnations, with sprays of Scotch broome. A silver candleabra held lighted tapers. Appointments were silver and china.

Mrs. Dennis Cudd of Canyon and Mrs. Leo Russell served the guests.

Friends called between seven and nine in the evening.

Assembly of God Honors Pastor

The Rev. and Mrs. James Jackson, who came recently to the Assembly of God, were honored with a housewarming and grocery shower at the parsonage Monday night, November 8.

Fall flowers decorated the entertaining rooms. Rev. Jackson gave the opening prayer. Bible games were played and the group sang songs.

Members of the church were hosts and served refreshments to Mrs. G. W. Crossland, Mr. and Mrs. P. A. Crane, Mrs. Fannie Moore, Mrs. S. E. Branch, Mrs. Mary Lou Gardner, Mrs. Mollie Sasser, Mrs. Lee Campbell, Mrs. W. N. Miller, Mrs. Gene Hedger, Mrs. Ruby Havron.

Be Sure Youngsters Know Their Guns

The Texas Safety Association urges parents to make certain young hunters have a thorough working knowledge of guns before allowing them to take to the field. See that proper clothing is worn for visibility and see that youngsters have formed safe attitudes and habits in carrying and handling firearms.

Mrs. Berryman Buys Beauty Shop

Mrs. Nancy Berryman announced this week that she has bought Pauline's Beauty Shop from Mrs. Ray Uselton and is now in charge of the business. It will be operated as Nancy's Beauty Shop.

Mrs. Berryman is a graduate of Don L Beauty Academy and has had advanced work in hair styling, as well as experience in that field.

She will be an operator in the shop and other operators will be Zonell Barnett and Faye Horton, who were associated with Mrs. Uselton.

Fall Armyworms Make Appearance in Collingsworth

Reports from over Texas indicate that fall army worms are beginning to appear. So far, infestations have not been reported in Collingsworth county, according to County Agent Sam Helmers.

But, he added, producers and home owners should be alert for possible outbreaks. Young larvae often go unnoticed until they become rather large and by then damage can be considerable. The young worms skeletonize the leaves of food plants, leaving the veins and ribs exposed. This early damage results in the appearance of whitish areas or spots where concentrated feeding by the worms has occurred. These

whitish areas are sometimes the first indication the worms are present, explains the county agent.

Fall army worms feed chiefly on native and improved grasses, small grains, corn, alfalfa, grain sorghum, cowpeas and lawn grasses. Wet, cool weather is particularly favorable for worm activity, Helmers said.

Because of the variety of effective pesticides available for controlling the insect, the county

agent suggests that interested farmers or home owners call at his office for printed material. Two publications, "Texas Guide for Controlling Insects on Grain and Forage Crops" and "Texas Guide for Controlling Insects on Ornamentals" are available free at his office, he said.

Prompt detection and treatment of insect infestations can cut losses and prevent their spread, concludes the county agent.

**Cotton Classing
Office "Mikes"
All Samples**

Cotton classing offices began, the last week of October, to furnish micronaire readings, without additional charge, on all Smith-Doxey cotton samples submitted for classing.

This is in keeping with the USDA's announcement on Oct. 25 that micronaire (or mike) measurements of fineness will be included as an additional factor for 1965 upland cotton going under price support loan after Oct. 31.

For the last three years, USDA cotton classing offices have provided "mike" service for an extra fee. Now, however, mike readings will appear on all official cards, right along with grade and staple, under the Smith-Doxey program administered by USDA's Consumer and Marketing Service.

The question asked Sam Helmers, county agent, most is "Why do they dock us for cotton that mikes 5.1?" The answer is, your cotton is too coarse when the mike goes that high and it is too fine when it goes under 3.3 to be desirable milling cotton.

Following is the schedule of the 1965 crop mike premiums and discounts:

Micronaire Reading	Points per lb.	Discount
5.5 and above	50	Discount 50
5.2 thru 5.4	15	Discount 15
4.9 thru 5.1	Even	Even
3.6 thru 4.8	14	Premium 14
3.3 thru 3.5	Even	Even
3.0 thru 3.2	60	Discount 60
2.7 thru 2.9	165	Discount 165
2.6 and less	300	Discount 300

Agricultural Act of 1965
The Agricultural Act of 1965 will require much concentrated study for the coming year.

Close checking with the ASC office will be necessary in order to stay current on the regulations.

Quoted below for your information is some material from the newsletter of the National Cotton Council:

Beginning with 1966 crop, part of the idle land will be considered COTTON acreage for allotment purposes, except where cotton is planted in pattern with 4 or more rows skipped.

For other skip-row plantings where row width is 40 inches, not only land planted to cotton but also 32 inches (additional 12 inches over 20 inches now counted) beyond outside rows next to idle land will be charged as cotton acreage under allotment program.

Assuming cotton row width is 40 inches, following examples illustrate various skip-row patterns:

With 2 rows cotton, 1 row skipped, 66.6% is counted as cotton acreage under present rules; under revised rules 86.6% will be counted, an increase of 30%.

2 rows cotton, 2 rows skipped: 50% is now counted as cotton acreage; under revised rules, it will be counted 65%, or a 30% increase.

2 rows cotton, 4 rows skipped: counted now as 33.3% cotton acreage, and will be figured the same under revised rules.

4 rows cotton, 2 rows skipped: 66.6% counted as cotton acreage formerly; under revised rules, figure will be 76.6% or 15% increase.

4 rows cotton, 4 rows skipped: now figured as 50% cotton acreage, and the same under the revised formula.

If skipped land is not devoted to another crop, it will count as conserving. If 4 rows are skipped, it will count as conserving or diverted. For land to be counted as diverted it must not be grazed or used for hay.

New rules for measuring cotton acreage will also apply to farms which forego price sup-

port and plant "unlimited acreage."

No Cross Compliance

USDA announced this week that farmers may comply with cotton provisions of the farm program and receive price support (loan and both types of payments) whether complying with feed grain or wheat program or not.

However, in order to receive cotton price support or diversion payments on one farm, a farmer must also make at least minimum acreage reduction and meet other requirements of the cotton program on all farms owned or controlled by him. This is less restrictive than provisions of 1965 program under which farmer may not overplant his feed grain base if he plants within his domestic allotment and expects to receive payment.

Skyrockets Defeat Tigers 28 to 0 Fri.

In a fast explosive football game, the Wellington Skyrockets returned to the win column with a 28-0 victory over the McLean Tigers at Powell Field on Friday, Nov. 5.

An estimated 1500 fans witnessed some great runs by Jackie Needham and James Smith, and the fine blocks and steady playing of Jimmy Black, Neal Roberts, Andy Bell, Tommy Yarbrough, Freddy Mayhugh, Randy West and Marion Barton kept the Tigers off balance most of the night. And of course the reliable Rocket line of Steve Trapp, Danny White, Mike Smith, Johnny Maxwell, Jim Rudy, Lewis Watkins, Michael Gilmore, Rodney Kane, Gary Killian, Larry Pippins, Ronald Barr, Jimmy Barber, Fred Bobo, Don Sweat, Andy and Larry Henard, were in control of the Tiger line on both offense and defense during the whole game.

Again the Rockets had penalty troubles in this game, and a number of good drives were stopped because of them.

The Rockets started right in to dominate the game. Winning the pre-game flip of the coin, the Rockets received and put the ball in play on the Rocket 36 yard line. J. Needham, N. Roberts, J. Smith, and A. Bell moved to the Tiger 46, then J. Smith doing a great job of running, moved to the Tiger 17. J. Needham taking a handoff, and following his blockers went the 17 yards for the Rockets' first TD. The try for extra point failed. Rockets 6, Tigers 0.

The Rockets did not score again until late in the second quarter, but the Rocket fans had lots of excitement between touchdowns. J. Smith picked up a rolling Tiger punt, and ran back 50 yards to the Tiger 15, and two plays later Smith repeated with a 25 yard touchdown run, but a penalty nullified it.

The Rockets scored their second touchdown after J. Black intercepted a Tiger pass on the Rocket 45 yard line and returned the ball to the Tiger 20. Black carried to the 10 and J. Smith then carried the ball into the end zone for another Rocket touchdown. A. Bell passed to J. Needham for the 2 extra points. Rockets 14 Tigers 0 at halftime.

The Rockets scored their next touchdown early in the third quarter. After the Tigers could not move and were forced to kick, the ball stopped rolling

on the Rocket 7 yard line. Then came the run of the night. J. Needham took the handoff from A. Bell, came over the middle, outran the pursuing Tigers, and went all the way for a 93 yard touchdown jaunt. The try for extra point failed. Rockets 20 Tigers 0.

The Rockets put together a good drive late in the third quarter, after a pass interception by M. Smith. The Rockets drove to the Tiger 9 but the drive was stopped by penalties and the Tiger defense.

The last of the Rocket scoring came late in the fourth quarter. Taking over the ball on the Rocket 35, after stopping a Tiger drive, F. Mayhugh, J. Needham, N. Roberts, and J. Black behind the Rocket line, moved the ball to the Tiger 2 yard line. J. Needham went into the end zone for the Rocket TD. R. West ran for the 2 extra points. Six plays later the 1965 Rockets home season came to an end. Rockets 28 Tigers 0.

Top five ball carriers were J. Needham, 175 yards; J. Smith 113 yards; J. Black 82; N. Roberts 25, and M. Smith 21 yards on the pass interception runback.

The Rockets play their last game of the current season at Clarendon this Friday. The Broncos have a real good ball club and as usual they will be up for the Rockets. The Rockets need lots of backing on this last game, and the best they can get will be for the fans to support them, so see you at Clarendon.

CROP Drive Brings Church Youths \$262.80

Boys and girls, representing churches in the Ministerial Alliance, collected \$262.80 in their Trick or Treat for CROP campaign Monday evening, Nov. 1.

Approximately 40 boys and girls and nine adults participated in the evening, covering the town in a drive the Rev. Ellis Todd described as "very successful."

The group then returned to First Methodist Church where refreshments were served.

The boys and girls represented Lutie Baptist Church, First Baptist Church, the Nazarene Church, First Methodist Church and Trinity Methodist Church.

Trick or Treat for CROP is one means of financing work of the Christian Rural Over-

seas Program. Money raised by this program goes to buy powdered milk and surplus commodities from the federal government, Rev. Todd explained.

NEW EQUIPMENT AT ST. JOSEPH'S

Two pieces of equipment are new at St. Joseph's Hospital. At top is the electrically operated food cart with units to keep hot food hot and cold food cold. Mrs. Paul Bell Jr. left, takes a tray from the cold unit, while Ruby Thomas, prepares to remove hot food from that compartment. This is done as the tray is

taken into the patient's room. Sister Mary Adele, hospital administrator, who is at back, said the food cart was the gift from Rogers, Ark., Memorial Hospital, also operated by The Dominican Order. Below, Mrs. Thomas, left, and Vera Bishop put to use the newly-installed electric stove in the hospital kitchen.

RESCUE NEEDED

Three burglars broke into a bus depot, cracked the safe, climbed to the roof and deftly leaped to the roof of an adjoining building in Indianapolis.

But they were unable to find a way down. When they tried to retrace their steps they discovered they had locked themselves out of the depot building and firemen had to come to their rescue.

Season Ends

**Skyrocket B Loses
To Canadian Friday**

The Skyrocket B team traveled to Canadian Nov. 4 for their second meeting this season with the Wildcat B team. Wellington won the first game 28 to 18. This game proved to be a reversal of the first, the Rockets going down by a score of 18 to 0.

The Rockets played good defense in the first quarter and through most of the second. With four minutes left in the half, Canadian had the ball on their own 20 yard line. The Wildcats faked a sweep, then passed. The receiver was contested for the ball by Jimmy Neeley, but he caught the pass, slid out of the arms of Donald Wolf, and raced all the way for the first touchdown. The extra point try was no good.

Canadian kicked off to the Rockets but Wellington lost possession on a fumble, and the rest of the half was spent with the Rockets on defense.

The third period was another of tough defensive play by both teams. Neither mounted a serious scoring threat.

In the early part of the fourth quarter, Canadian hit a quick opener off-tackle, and with superior speed dashed 45 yards for another touchdown. The conversion attempt again failed.

On the following kickoff, Wesley Ward received. Behind tough blocking he burst into the open with a single safety between him and the goal. The safety could not get a good shot at Ward and grabbed his

arm instead. This caused a fumble which Canadian recovered.

On the next play the Wildcats ran the same play that they had scored on just before. They scored another touchdown, this one from 55 yards out. They did not make the extra points.

"They have a good ball club with a great deal more speed than anybody we've faced," Coach James Stavenhagen said.

"On every kickoff we were able to spring, but they caught us from behind. They were just a better team than we were that night."

This was the second loss in nine games for the B team. Speaking of the season as a

whole, Coach Stavenhagen concluded, "I feel that all the kids have done a good job, and played well. They've given a good account of themselves."

The '65 Skyrocket B team roster includes Paul Jones, Jimmy Campbell, Donald Wolf, Gary Martin, Henry Wells, Billy Neeley, Wesley Ward, Jim Henard, Jim Lindsey, Jimmy Neeley, Billy McKinney, Sandy Covey, Johnny Harris, Alfred Allred.

Ricky Brown, Chuck Wilbur, Tony Hurst, Gary Brewer, Jimmy Bohannon, Teddy Martin, Terry Hanna, Larry Kane, Joe Brock, Rufus Sosa, Harold Jones and Herman Moore.

The King, the Queen and the executioner were present. Alice and the prisoners, too, of course, but these were all. No jury, no public, no publicity.

No newspaper reporters.

In Alice's Wonderland even applause was "immediately suppressed by the officers of the court."

Not so in America.

In all criminal prosecutions the accused shall enjoy the right of a public trial, says Article the Sixth of the Bill of Rights of the Constitution of the United States.

So people may know, newspapers must report these trials.

This is not freedom of the press. This is responsibility of the press.

Newspapers have no extraordinary rights.

People do.

Men have the right to a public trial and the right to know what happens in courtrooms. These are rights written into the Constitution and affirmed by the Supreme Court in 1829 when Mr. Justice Bagley wrote: "It is one of the essential qualities of a court of justice that its proceedings should be public."

If people are to know the truth the newspaper must report the news.

SUPPORT THE HOME TEAM

Deck's DIDACTICS

—By Deskins Wells

When we were in New York in the summer of 1964 attending the World's Fair there were rumblings of discontent and violence that could be observed on the streets and in the subways and the stories in the papers reflected the gravity of the existing conditions. At the time we wondered what would happen to that seething mass of people if some disaster should occur. We were thinking in terms of a bombing and mass exodus and not of a power failure; but the power failure this week did serve to provide a comparison. The preliminary reports indicate that the people be- have with commendable calm. In times of emergency or disaster people seem to be able to rise to extraordinary heights of endurance and valor in startling contrast to the pattern of everyday life.

This Thursday is Veterans Day and is a time to pay our respects to the men and women who have served this nation so well in the various branches of the Armed Services as well as those who are still risking their lives on the other side of the globe. In other centuries there was the Pax Romana and later the Pax Britannica; but the fact remains that the main effort for keeping the peace today rests with the United States of America. It is a terrible and awesome responsibility and can be met only through strength.

The slowest fall harvest in recent years is proceeding at a snail's pace. The crops are still there, but it will be two months later than usual before we will feel the full effect on the economy of our communi- ty.

I regret that reasons of health and business prevented me from attending the field day event to which F. O. Masten invited some of his friends of the banking, TV and newspaper industries. As far as I know, C. T. Hubbard and I were the only two "dignitaries" from Wellington who were invited—there may have been others of course. But according to Hub it was some blowout.

The meeting was held at his place west of Morton where he has over 3,000 acres in cotton on land he bought in 1937 for \$12.50 per acre. Now it has 51 irrigation wells and seven and a half miles of underground irrigation pipe. In addition to this one little spot there are the oil wells in another county and the 111 sections of land in Oldham County which was once part of the Matadors. It is a fantastic story of work, vision, luck and many other things. Some day we may have the space to run some part of the story of F. O. Masten. It is an incredible story but it is also true.

The Wellington Rotary Club will hold an auction on November 22 in which they will sell all manner of items, household appliances, furniture, lawn mowers, etc. You can make some money for yourself. Rotary charges 25% as a commission for selling something that is cluttering up your house, basement or garage and you get the rest. The money goes for the milk fund which the Rotarians sponsor each year. They need the listings now in order that they may be numbered and cataloged. If you have something you want to sell, phone 5848 and W. T. McAdams or Paul Guthrie will pick it up.

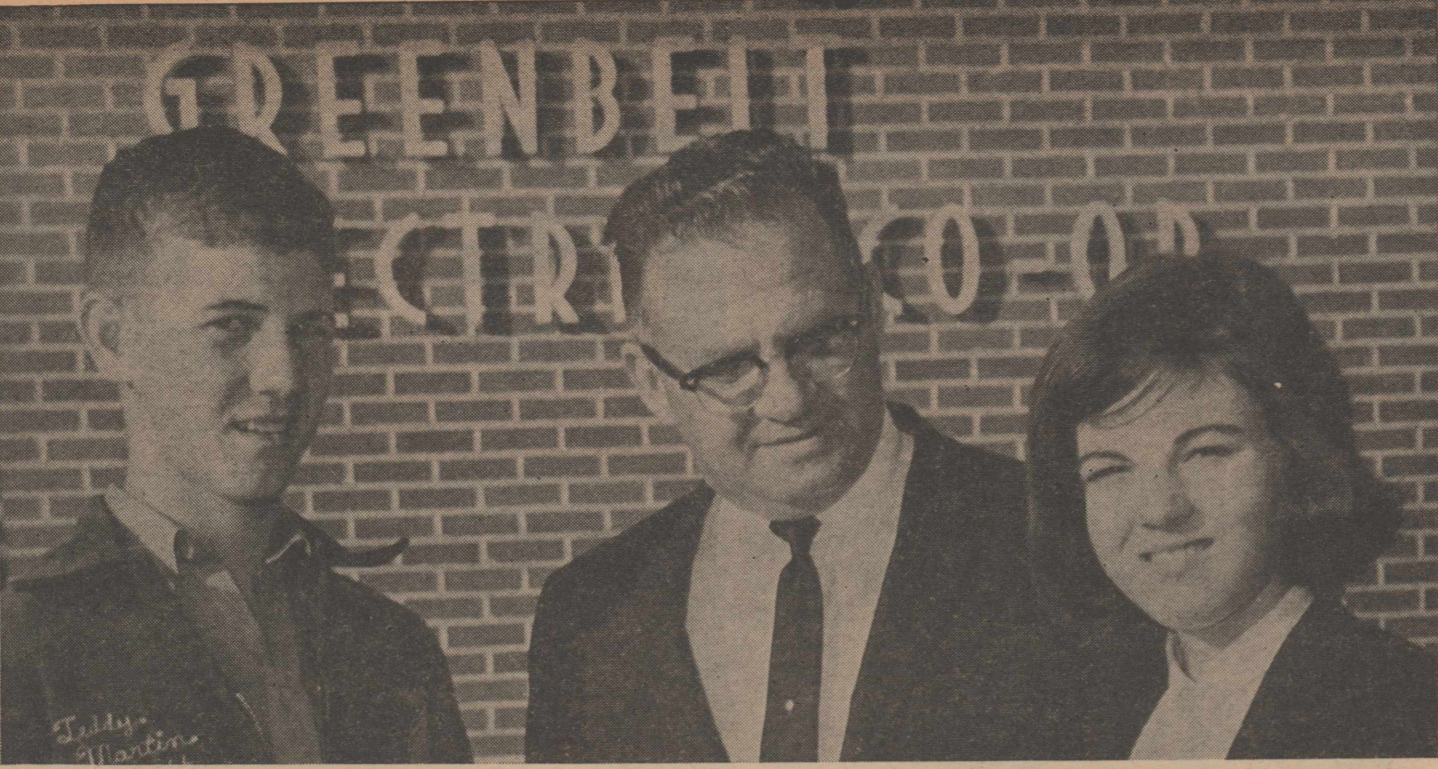

The auction will be held in the building Robert Lewis bought recently from the Bevers estate and is located just north of the Ritz Theatre. There will be two auctioneers to spell each other and the shindig will last from 7:00 a.m. until the last item is sold. It should be a lively affair and you might pick up a bargain or dispose of some unneeded property. Remember they want the listings early.

Mrs. Grant Wooldridge says she used the Alma Crawley recipe for uncooked chow chow and it turned out to be the best her family had ever tasted. Husbands need not believe this necessarily — they can believe it is the easiest way of making chow chow.

If you want to be sure of voting in 1966, pay your poll tax now.

MSC Scientists Study Meteorite Found Here

HOUSTON.— Meteorite finds in Texas are increasing, according to Dr. Elbert King of the Manned Spacecraft Center in Houston.

King, an expert in the composition and origin of extraterrestrial objects, who works in the Geology and Geochemistry Section at MSC, said that he has received four meteorites from various areas in Texas during the current year. All the specimens were either donated or loaned to MSC for analysis.

"Normally, four or five new meteorites are the total find for the world in one year," King said.

The largest meteorite was a 30-pound stoney variety from Collingsworth County. Two meteorites of three and four pounds were found near Conroe by a lady who observed the fall in 1955. The fourth meteorite was a seven-pound iron specimen found near Del Rio and received about a month ago through the efforts of Dr. George Edwards of the Shell Research Company.

Although meteorites are comparatively rare, they are valuable mainly for scientific information they contain rather than any monetary worth. If meteorites can be examined soon after they fall, much can be learned about cosmic radiation in space.

MSC geologists are also interested in the space rocks as a key to determining the composition of lunar rocks and possibly the evolution of the solar system. Meteorites are accepted here for examination in co-operation with the U.S. National Museum. All meteorites donated here will eventu-

ally go to the National Museum.

King said that most meteorites are discovered because they are heavier than rocks of comparable size and have an unusual shape due to entry heating. Meteorites are also commonly found in areas that are free from other rocks.

Anyone who suspects he has discovered a meteorite should first send only a small sample of the rock for analysis. If the sample is meteoritic, the entire specimen should be sent.

Missionaries to Visit Sunday

The Rev. and Mrs. Jerry D. Holder of Prewitt, N.M., will be at the First Assembly of God Sunday morning, Nov. 14.

Plans for their visit were announced this week by the Rev. James Jackson, pastor. Part of these plans call for a church-wide basket lunch, to be served following the Sunday morning service, at Ellison Park. The public is invited to attend, Rev. Jackson said.

Should the weather be too disagreeable for an outdoor event, the lunch will be held at the church.

The Women's Missionary Council of the Wellington Church has sponsored Carla Holder, small daughter of the missionary couple, for four years, and a birthday and Christmas celebration is planned for her during the visit here.

Carla will celebrate her 6th birthday only a few days after the visit. Her cake and gifts will be displayed.

Black, Wlwon Black and C. A. Crawford.

The accident which took Dr. Wattam's life occurred as he and his wife were en route to Broken Bow, Okla., to visit his sister. The car left the road and overturned.

Dr. Wattam had practiced medicine here 24 years, coming here from Brady in 1941. He carried a heavy load of work, which gave little indication of his 77 years. To his practice of medicine he devoted his full time and the energies and skill of his mind.

He was a member of First Methodist Church.

Dr. Wattam was born July 26, 1888. He was a graduate of the University of Texas School of Medicine, and he practiced for a number of years in Brady and Gainesville before coming here.

In 1941 he was married to Miss Jewel Black at Seymour.

Surviving Dr. Wattam are his wife; one son, James M. Wattam, Jr., of Washington, D.C.; a brother and two sisters, William Wattam of San Antonio, Mrs. Marvin Cox of Broken Bow, Okla., and Mrs. Claude Bryant of Stephenville.

St. Augustine, Fla., the oldest town in the U.S., was founded Sept. 7, 1565.

Former County Man Dies in Guatamala Crash

Eddie M. McQueen, owner of Alas Agrícolas de Guatamalas, an ag spraying service at Rancho Florido, Masagua, Ecuintla, Guatamala, was killed Sunday, Oct. 31, when his plane crashed.

Mr. McQueen was the brother of Mrs. Robert Hightower and visited her in early September. The purpose of his trip was to buy an ag plane—the one he was flying when he crashed.

His home was in Guatemala City, where funeral services were conducted Monday, Nov. 1. He was buried in that city.

A native of Collingsworth County, Mr. McQueen was born March 31, 1920, the son of the late Mr. and Mrs. E. M. McQueen. He attended school here and at Hedley. During World War II he served in the Air Force and, at the end of the war, he entered the agricultural spraying business at Hollis.

Later he moved to McAllen. He worked in Guatemala several years before moving there and establishing his business six years ago.

He is survived by his wife and small daughter, Gretchen, of Guatemala City, and a son, Larry, a student in the University of California at Los Angeles; three brothers and four sisters: Willard McQueen of Fort Worth; C. L. McQueen of Studio City, Calif.; Paul McQueen of Penole, Calif.; Mrs. L. C. Youree of Richmond, Calif.; Mrs. B. H. Stotts and Mrs. Winfred Middleton of Amarillo; and Mrs. Hightower.
