## BROWNFIELD MAN GETS THREE YEAR SENTENCE

## CATHCART FIGHT ENDS WITH VICTORY FOR TITLED VISITOR

### CAN'T EXCLUDE COUNTESS VERA JUDGE DECREES

#### ENGLISH WOMAN WINS IN "MORAL TURPITUDE" BATTLE

NEW YORK, March 5.—Vera, Countess of Cathcart is right where she would have been some weeks ago, if the department of labor hadn't raised the cry of moral turpitude and put the Countess on Ellis Island and itself into somewhat of a hole.

Admitting itself wrong, the United States has invited Countess Cathcart to remain as long as she pleases inside the six months period prescribed for all aliens. The titled visitor won her court fight.

Of course, all the hue and cry about moral turpitude and double standards and what not, hasn't hurt the chances of the countess' play for beginning of a Broadway success.

A writ of habeas corpus obtained by the Countess Cathcart after she had been detained on Ellis Island was sustained Friday by Federal Judge Bondy who declared the department of labor to be legally in error in ordering her deportation.

The department of labor tacitly admitted its mistake by surrendering completely to the contention of her lawyers that she had committed no crime involving moral turpitude, which ended the matter.

Countess Cathcart admitted committing adultery in South Africa with the Earl of Craven. For this on the ground that it involved moral turpitude, the department of labor ordered her to be sent back to England.

Judge Bondy held that adultery was not a crime in South Africa and even hinted that it wasn't one in England, and perhaps not in the United States either, which completely whitewashed the triumphant countess.

### STAMFORD QUOTA IN LUBBOCK-FORT WORTH HIGHWAY RAISED

STAMFORD, March 5.—Stamford's quota of \$300 for the Fort Worth-Lubbock Highway Association has been subscribed, it was announced today. The association will raise around \$3500 part of which will be used in issuing 50,000 guides of the route.

### SENATOR ASKS RE-ELECTION

CAINESVILLE, March 5.—Senator W. S. Moore today announced his candidacy for re-election.

### CONGRESSIONAL RECORD

#### HOUSE

Continued consideration of appropriation bills.

Representative Griffin, New York, democrat, urged repeal of the 18th amendment.

Representative Underhill, Massachusetts, republican, warned against it.

Representative of eleven middle western states presented a program of farm relief.

Assistant Secretary of the Treasury Andrews urged passage of the bill reorganizing prohibition enforcement.

SENATE

Continued consideration of Muscle Shoals resolution, agreeing to vote Monday at 3:30 o'clock.

A sub-committee of the privileges and elections committee began a count of contested ballots in Brookhart-Siee's contest.

Agricultural committee opened hearings on the Haugen bill for establishing a co-operative marketing division in the department of agriculture.

### Farm Bureau Head

Chester H. Gray is acting director of the American Farm Bureau federation.

### ASK I. C. C. TO HELP CONTROL BABY'S APPETITE

WASHINGTON, March 5.—The youngster who crawls around the floor swallows pins and frequently takes a taste of some household cleaning fluid left about carelessly, had his day at the capitol Friday.

Nationally known physicians appeared in his behalf to urge enactment of a bill requiring that caustic and corrosive solutions used by the house wife in cleaning and draining be labeled as "poison."

Nearly every home has been thrown into a temporary convulsion at some time or other when baby has taken a nip of such unsavory and dangerous solution.

In most cases the mothers themselves don't know the solutions are poisonous," Dr. Charles W. Richardson, trustee of the American Medical Association, told the senate interstate commerce committee.

Dr. Richardson also treats President Coolidge's baby for a nose affection said that 400 such cases were reported by physicians to the association. The bill was prepared by Senator Pepper, Pennsylvania republican, who introduced Dr. Richardson.

But the baby was not the only one considered at the capitol Friday. The senate interstate commerce committee took up a health bill by Senator Copeland, New York democrat, himself a physician requiring that all clinical thermometers be tested, as the postoffice committee considered a measure to safeguard the mailing of poisonous disinfectants, germicides and insecticides, presented by Senator Frazier, North Dakota, republican.

Documentary evidence in behalf of protection of the bay was laid before the interstate commerce committee by Dr. Chavalier Jackson well known surgeon of the Jefferson Medical College of Philadelphia, who dumped from a valise a pile of pictures showing the effects of eye poison on children. He also lined up a dozen or more cans of eye to show the harmfulness of their appearance.

Dr. Jackson knows somewhat of children and their acquisitive habit from a child's stomach.

He has removed many a safety such as one he showed stating that the proportion was not harmful to the finest fabric or softest skins, is "not only brutally cruel to the child but grossly unfair to the conscientious manufacturer."

H. R. Drackett, representative of eye interests told the committee that the manufacturers favored the bill.

"Not until recently did they know of the harm that was being done by the unlabeled eye," he said.

Copeland, urging his bill said that faulty clinical thermometers had resulted in unnecessary appendix operations. He said that with no test of clinical thermometers the way was left open for unscrupulous manufacturers.

Chemical manufacturers expressed their approval of the Frazier bill permitting the mailing of poisonous disinfectants through parcel post with safeguards.

DANGEROUS CONVICTS LOOSE AT BROWNSVILLE

BROWNSVILLE, March 5.—Officers on both sides of the Rio Grande were searching Thursday for who escaped Wednesday night from nine prisoners, mostly murderers, the jail at Matamoros.

### COOLIDGE SAYS "NO" TO PLANS FOR ARMY-NAVY

#### FIVE YEAR PROGRAM OF BUILDING MEETS WITH DISAPPROVAL

WASHINGTON, March 5.—President Coolidge repeated his warning of a deficit at the end of 1928 unless appropriations are cut below the point now planned by congress.

At the same time he disapproved, through the White House spokesman, the five year building program suggested for the army and navy much money.

The president's repetition of his warning of a deficit apparently was provoked by insistence of some treasury officials, who prepare the government's estimate, that the government will finish the next two fiscal years without a deficit.

The president's disapproval of the army air service building program leaves the military affairs committee practically without a basis for preparing legislation and virtually prevents any legislation for aircraft of an outstanding character.

The military affairs committee recently rejected all proposed changes in air service administration as recommended by Mm. Mitchell, Major General Patrick and others, and announced that it would proceed to draft a bill around the recommendations for a five year building program.

### METHODISTS MAY REOPEN SCHOOLS IN MEXICO

SAN ANTONIO, March 5.—Assurance that the Methodist schools recently closed in Mexico may be re-opened and that there is no religious persecution in Mexico, was the substance of an announcement made today by the Mexican government to Rev. Frank S. Onderdonk, superintendent of the Texas Mexican Methodist mission, according to Onderdonk.

The only requirement to be made of the schools in Mexico is that they do not exercise functions forbidden by the Mexican constitution, Onderdonk said.

### Strikers Would Jail Police Chief

PASSIAC, N. J., March 5.—The New Jersey textile strikers given a success from the raining clubs and other vigorous tactics of the Passiac and Clifton police, are now fighting back with every means at their command.

A warrant was obtained Friday night for Chief of Police Richard O. Zoeber of Passiac, whom the strikers charge with ruthless tactics in breaking up their demonstrations.

A British scientist claims a method of immunizing persons from small pox by inhaling a vapor, instead of vaccination.

### New Crime Carnival Sweeps Chicago As Mayor Dever Writes Thesis To Disprove Lawlessness Charge Brought By B.G.A

CHICAGO, March 5.—Outlaws worked in packs here Friday, sweeping through a series of spectacular raids which profited them more than \$100,000 and added heat to the crime controversy raging between Mayor Wm. A. Dever and the Better Government Association.

Police records at the end of the hectic day read like an excerpt from the charges of the reform organization which told the United States senate that denizens of the underworld were overwhelming the city.

Eight men smashed their way into the paymaster's cage at the Tractor Works of the International Harvester Co., and escaped in two automobiles with \$90,000 in currency while employees scrambled under their desks to escape a hail of rifle bullets.

Another payroll robbery occurred on the south side when two bandits leaped out from the steps of a church

### ANOTHER BRAND OF ILLEGAL SPIRITS

LOS ANGELES, March 5.—Clarence T. Tomson, his wife Liza and daughter, Dora, were found guilty of mediocrity fakery and obtaining money under false pretenses here Friday.

The Tomsons, who are internationally known, clairvoyants were arrested several weeks ago after a spectacular "ghost raid" during one of their seances. It developed at the hearing Friday that Mrs. Tomson and her daughter were the "spirits" Tomson employed at his spiritualist meetings.

The family will be sentenced Saturday.

### BLANTON TELLS HILL WHERE TO BUY BOOZE

WASHINGTON, March 5.—Prohibition discussion in the house now almost a daily affair—came down to cases Friday, when one of the most ardent drys, Representative Blanton, Texas democrat, told the leading wet, Representative Hill, Baltimore republican, where he could buy liquor in his own town.

The Texan declared that saloons in Baltimore were running "wide open."

"Well, you should inform the district attorney about them," Hill said.

"If you will go over to Baltimore tonight and visit Abe's Sea Food House you can get all you want to drink," Blanton said.

"How do you know?" Hill asked.

"Because I have been there," Blanton said.

Prior to this, the house ways and means committee had given its first consideration to the bill sponsored by the treasury department reorganizing prohibition administration and giving Lincoln C. Andrews, dry enforcement chief, almost absolute powers. Andrews appeared in behalf of the measure and will go before the committee again Saturday.

### Paid Zizi Enough Says Prince Carol

PARIS, March 5.—"I am not in Paris to quarrel with Mlle Lambrino," Prince Carol of Rumania said in an interview Friday night.

Carol admitted that he had received notification of the ten million francs damage suit of his former mistress and said he had placed the conduct of his defense in the hands of a Paris lawyer.

"I can only say that my marriage with her was annulled by competent authorities of my country, with no protest from her," he continued.

"Since that time she has regularly received an annual income of 110,000 francs."

### MANY NEW RESIDENCES BEING CONSTRUCTED NOW IN STAMFORD

STAMFORD, March 5.—Work will start in the next ten days on about fifteen new residences in Stamford. At present several new homes are under course of erection. This spring is expected to usher in a tremendous building boom, most of the buildings to be residences.

### and seized Miss Mary Noel, a bookkeeper, who was returning to the Artcraft Press Co., from a bank with \$700. They dragged the girl into the vestibule, bound and gagged her and fled with the money.

The heart of a north side business district was the scene of bold oriental rug store raid in which six bandits took part, one of them falling wounded while his comrade fled with rugs and tapestries valued at \$2,000.

Almost simultaneously during the midday rush hour two robbers looted the "Snappy Dress and Costume Complete" near the loop, forced two employes into a vault and leisurely selected \$2,000 worth of stock, passing it through a window to a confederate who waited in an automobile outside.

Mayor Dever spent the day with his aides preparing statistics designed to clear Chicago's good name in the eyes of the nation.

The International Harvester Co. holdup was the most daring Chicago has experienced since the Drake hotel raid last summer.

All of the three major hold ups of the day occurred at approximately the same time. Detective headquarters with flashes coming in from widely separated parts of the city and motor squads hurrying out in response to them.

These were followed by reports that the bandits had been seen fleeing through the streets of the north, west and south sides and this only added to the confusion.

The new carnival of crime is expected to give impetus to the Better Government Association plan a special prosecutor and grand to investigate outlaws here.

### MINEOLA HIT BY DISASTROUS BLAZE FRIDAY

#### NEIGHBORING TOWNS AID IN QUELLING EAST TEXAS FIRE

MINEOLA, March 5.—Fire that raged for two hours here last night, destroyed the Mineola State Bank, the S. C. Wood Dry Goods store and the W. D. Williams grocery, doing damage estimated at \$150,000.

The fire was brought under control about 1:30 Friday morning after the fire department from Tyler had arrived to assist the local fire department.

Owners said that their losses were partially covered by insurance.

### CHAINED TO BED, SHE SAYS, AND LEFT TO DIE

TULSA, Okla., March 5.—Mrs. Mary J. Kimes charges in a petition for divorce filed here today that her husband, Leonard B. Kimes, oil field worker, chained her to a bed, closed all the windows turned on the gas and locked the door, then left her to die. She was rescued however, she claims by a neighbor woman.

### FORT WORTH STOCK SHOW OPENS BRILLIANTLY

FORT WORTH, Texas, March 5.—The southwestern exposition and fast stock show opened here tonight with a brilliant pageant.

Evelyn Smith was crowned queen of the week's festivities amidst a blaze of music from the royal band—otherwise known as the Texas A. and M. band.

Thousands of admiring courtiers witnessed the spectacle, one of outstanding events in Texas society.

### LYNCH DAVIDSON WILL OPEN HEADQUARTERS MARCH 20

DALLAS, Texas, March 5.—Lynch Davidson will open his state headquarters here about March 20, according to an announcement made by A. A. Allison, his campaign manager today.

Davidson is a candidate for the governor of Texas.

### East Texas C-C to be Formed March 24

LONGVIEW, March 5.—Fifty representative East Texas men decided today to make plans for the formation of an East Texas Chamber of Commerce. A meeting will be held here March 24 to complete the organization of the civic body. A call was sent out asking every town to send a representative to the meeting.

Fifteen East Texas counties were represented today.

Few European telephone exchanges give day and night service, and many are closed during the midday lunch hour.

### SAYS BOOZE BOOM IN FLORIDA BEATS REALTY

TAMPA, Fla., March 5.—Bootlegging is more popular in Florida than the real estate business, according to Commander Philip Hamsch, acting federal prohibition enforcement chief for the state.

"As popular as the real estate business is in this state, there are more bootleggers than realtors in Florida," Commander Hamsch said Friday.

"I believe more than 50,000 persons in the state are bootleggers or are connected in one way or another with the industry," Hamsch said.

### NAB GO BETWEEN OF ALLEGED FALSE MONEY RING

EL PASO, Texas, March 5.—Clarence "Duke" Atkinson, whom police charge with being the connecting link between a well organized group of counterfeiters in Mexico City and American buyers of the spurious notes, was arrested by United States secret service operatives as he came across the international bridge here Friday afternoon.

He later was released under \$5,000 bond.

The arrest is one of a series that have taken place on this side of the border within the last few weeks and follows close on the heels of the apprehension of Fred W. Pinkerton and M. R. Todd, in Okmulgee, Okla., who are alleged to have purchased the notes from Atkinson.

According to information in the hands of the secret service, Atkinson and other go-betweens have been bringing the notes into the United States and selling them at 35 cents on the dollar to American buyers who have distributed them pretty generally through the country.

Efforts to locate the source of the supply have definitely established headquarters of the ring at Mexico City but further than that the government officers have been unable to go.

### Page Pershing; Riot In Tacna-Arica

ARICA, March 5.—Street fighting in which two Peruvians were reported seriously wounded and a score slightly hurt occurred in Tacna Friday evening when 150 Peruvians arriving from Arica by special train were greeted by several hundred of their countrymen, already in Tacna.

The Peruvians paraded toward to the residential section, carrying the national flag and led by a band. Chileans are alleged to have stoned them, whereupon ensued a free for all fight.

### A. C. Love Made Highway Engineer

AUSTIN, Texas, March 5.—A. C. Love of Beaumont was appointed state highway engineer today effective March 15, succeeding W. P. Kemper, who has been acting in that capacity since the resignation of R. J. Hank, January 15.

Hank is to be retained in the commission as assistant to Love according to Chairman Hal Moseley of the state highway commission.

### Rain Continues to Soak Entire State

DALLAS, March 5.—During the last 48 hours the entire state of Texas has been soaked with a slow falling rain except the extreme southern portion. The amount of rain varied from nearly two inches reported at Houston to a fraction of an inch at Dallas.

### Good Slow Rain Falls at Ralls

RALLS, March 5.—Rain has fallen here in the past twenty-four hours and will be a great help to the wheat crop.

### Dallas Air Mail Flight Completed

DALLAS, March 5.—Completing the pioneer flight of the Chicago-to-Dallas air mail service, two planes swooped down on Love field today at 4:45 p. m.

The aviators, E. P. Lott and R. H. Felt, left Oklahoma City shortly before noon.

Regular service is to begin May 1. Surfaced roads of the country now total about 500,000 miles.

### J. P. CROWLEY IS CONVICTED OF MANSLAUGHTER

#### JURY WAS OUT 18 HOURS NOTICE OF APPEAL IS FILED

TAHOCA, Texas, March 5.—J. P. Crowley of Brownfield was today found guilty of manslaughter by a jury here and sentenced to serve three years in the penitentiary in connection with the killing in Brownfield on the night of July 27, 1922, of A. O. Hock. Senator W. H. Bledsoe of Lubbock and V. L. Shurtluff of Breckenridge, defense attorneys, gave notice of appeal.

Hock was fatally stabbed during an altercation in front of the bulletin board where election returns from the first democratic state primary were being posted, following the hot gubernatorial race in which Felix Robertson and Miriam A. Ferguson led the ticket.

The case has been on trial all week, the jury having been sent out Thursday at 4:30 p. m., reporting in with their verdict at 11 a. m. Friday, after being out 18 hours.

Crowley had pleaded self defense. The trial was held at Tahoka because the principals were alleged to be so well known in Brownfield that an impartial trial could not be assured there.

### FRENCH CABINET QUILTS AFTER DEFEAT

PARIS, March 5.—The French cabinet resigned early Saturday morning following its defeat in the chamber of deputies on the sales tax provision of its financial program.

The official vote against the government was 274 to 221.

The resignation came just before 6:30 a. m.

The passage of the latest Briand government which was but one of a procession of cabinets to govern France in the past few years only to come to grief over the depreciating franc and other national problems, came just as Briand was preparing to go to Geneva to represent France there at the all-important conference of the League of Nations council which will take up the question of granting further permanent council seats.

Briand late Friday night promised the deputies that he would not go to Geneva were he defeated on the financial program.

### Charges Mexico With Bolshevism

SAN ANTONIO, Texas, March 5. In its expulsion of priests and religious workers the Mexican government is attempting to carry out soviet policies under the direction of Leningrad, according to the Rt. Rev. Arthur J. Drossart, Catholic bishop of the San Antonio diocese.

"The government of Mexico is trying to de-Christianize the country," the bishop declared here Friday.

### HAVE A LOOK AT LUBBOCK

The number of farms in Lubbock county more than doubled in the past five years. In 1920 there were 1,009 farms in Lubbock county. In 1925 there were 2,037.

### The Weather

WEST TEXAS: Local temperature tonight warmer southeast portion today partly cloudy; colder portion.

# SOCIETY, CHURCH and CLUB NEWS

**Mrs. Percy Spencer**  
PHONE 487  
1625 13TH STREET

## TO CONDUCT COOKING SCHOOL

Mrs. Florence Austin Chase is everything that her picture would lead you to believe, in charm of personality, keenness of perception, sweetness of disposition, and true womanliness in its highest development. She is a motherly woman, a lover of home and all that goes to make the home beautiful, and she has made it her life work to teach women the secrets of her own success in home building.

Standing before her audience in a white gown and spotless white shoes, Mrs. Chase is a living example of how dainty a woman can be in her own kitchen. Mrs. Chase is daintiness personified.

Efficiency is written in every move of her capable hands, and in every step she takes as she prepares the food for the range. There is no lost motion in her work, and she teaches women to save themselves all unnecessary steps they can by correctly arranging and equipping their kitchens.

Her manner is calm and assured.

Watching her, one feels that she knows exactly what she is about and that she has taken the shortest and most efficient way of doing it, and of telling others how to do it.

Her voice is soft, without the strident tones one usually devalues in a woman speaker's voice, yet so well modulated that not a word is lost to the listener in the farthest seat.

Her keen eye misses nothing, overlooks nothing. They have been trained to observe people, and to single out almost instantly the women who come to her to learn from those who come merely to pass an idle hour.

She is a busy woman and a purposeful one, and she has no time to waste on idlers. But to those who come to her for advice and help, she is all interest and attention, giving of her time gladly and willingly, and never tiring of repeating the essentials of her knowledge. She is a born teacher and instructor, a lover of the beautiful in all that pertains to the home and a stevedore after the ideal.

## Lubbock Girls Active In School life Of C. I. A.

DENTON, Texas, March 5.—Miss Francis Lee Garland of Lubbock, a Freshman at the College of Industrial Arts, appeared in a musical recital at the college Wednesday night, March 3rd. Miss Garland sang two numbers, "Go, Lovely Rose," by Roger Quilter, and "The Piper of Love," by Molly Cavew.

Miss Garland is the daughter of Dr. and Mrs. H. L. Garland, recently of Logansport, Louisiana, but now of Lubbock, where Dr. Garland is connected with the Lubbock Sanitarium.

Miss Garland is taking a music course at C. I. A., majoring in voice.

Misses Theresa Lemmon, Joe Hestand, Francis Wiese and Lois Merrill, Lubbock County girls who are students at the College of Industrial Arts, were present at a recent social of the Panhandle Club at the Y. W. C. A. cabin in the woods.

The Panhandle Club is an organization to further social interests of girls from the Panhandle, Lubbock, Gaines, Dawson and Hale Counties are included.

## Club Women Plan Federation And Club House

A committee formed of representatives of the women's clubs of Lubbock met Friday afternoon at the Baptist church to consider building a club house.

The problem which confronts the Lubbock clubs in regard to meeting places is a very grave one, and the question of a building of their own has long occupied the minds of the leaders in club activities.

The committee meeting Friday was called by members of the Delphin Club who wished to discuss the question of immediate action. It was brought out in the discussion that the first step toward purchasing club property would be the organization of a city federation which would be incorporated. Then lots could be bought, a loan secured and

a building planned and erected.

Mrs. Temple Ellis of the Delphin Club, presided over the meeting and those present were: Mrs. J. V. Connor, Delphin; Mrs. C. M. Ballenger, Twentieth Century; Mrs. J. P. Hankins, Athenaeum; Mrs. J. L. Cunningham, Sorosis; Mrs. Maple Wilson, Child Study; Miss Mae Murrell, Business Women; and Miss Margaret Mallard, Business Women.

Questions of how, when, where, and what were discussed but of course no definite action could be taken. Each woman present was asked to report tentative plans to her club. Another meeting will be held soon when individual clubs will make reports.

## CHILDREN'S MATINEE THIS MORNING

The children's matinee this morning at the Palace Theatre will be Buster Brown, in "Buster Be Good." This is an especially good one, and the kiddies will also see an Educational, Scenic, and Pathe News.

The supervisors of the show this morning will be Mrs. O. L. Peterson, Mrs. N. L. Peters, and Mrs. W. W. Nelson, members of the Lubbock Child Study Club.

## INVITATIONS OUT TO THE JOHNSON-JONES WEDDING

Invitations were received Friday to the wedding of Miss Mary Alice Johnson and Mr. Frank Jones which will take place Tuesday March 23, at 10 o'clock at the First Presbyterian church.

They will be at home at 1710 Ave. K, after the wedding.

## FIRST PRESBYTERIAN CHURCH

It is hoped that the membership of this church will make all necessary arrangements today in order that they might attend divine worship tomorrow, on the Lord's day. You will find interesting services at this church.

Sunday school begins at 9:45. A splendid corps of officers and a most efficient group of teachers insure a profitable hour to all who attend.

At the 11 o'clock hour the pastor will preach from the subject, "The Proper Estimate of Values." Miss

## LOCAL BRIEFS

Anise Owens will play a special violin number.

The time of the evening worship changes from 7:30 to 8. The pastor will preach the first of a series of sermons on timely and practical themes taking for his subject, "What Did Jesus Think About War?" Others to follow will be, "What Did Jesus Think About Politics, Marriage, Pleasures," etc. We will make an honest effort to catch the viewpoint of the Master here. Come and worship with us.

## FIRST METHODIST CHURCH

Broadway and Ave. M  
E. E. White, Pastor

Sunday should be a day when men, women and children seek out the church of their choice and spend the day in worship. The First Methodist church of this city invites you to the following services tomorrow:

Sunday School at 9:30 A. M.  
Morning Worship at 10:55. At this hour Dr. J. Fisher Simpson will preach. There will also be a service conducted by Mrs. H. W. Richardson, at this hour for the children from the ages of six to 12.

Epworth Leagues. For Juniors at 3:40 P. M. For Intermediates and Seniors at 6:45 P. M.

The evening preaching hour is 7:45. At this time the pastor will deliver the sermon. His subject will be "The Price Man Will Pay for Life." There will be special music at each service.

Sunday afternoon at 3:00 o'clock will be conducted the first class period for the Standard Training School. The school will continue throughout the week meeting at 7:15 p. m. each evening up to and including Friday. Four courses will be studied, and they are to be taught by Drs. P. W. Horn, J. Fisher Simpson, of Austin, W. H. Terry of Plainview and E. E. White of Lubbock. This is an opportunity for all those who desire to become more proficient in church work. More than a hundred have already enrolled and others are expected to enroll tomorrow. It is possible for one person to complete one course, which will give credit for one unit toward a Blue Seal or a Gold Seal Diploma. It is very important that all those who take the course be present at each lesson period.

## CUMBERLAND PRESBYTERIAN CHRISTIAN ENDEAVOR

Program to be rendered at the Amarillo Presbyterian held in Lubbock, March 6, 1926.

Topic: "The Church"

## HISTORY OF TEXAS TECH IS WRITTEN FOR PRESS

HAMILTON WRIGHT, ONCE NEWSPAPER MAN, AUTHOR

STAMFORD, March 5.—A history of the movement which brought to a realization the Texas Technological College for West Texas has been written and will be released to the press in a few days.

The history was prepared by a committee selected at a meeting of the West Texas Chamber of Commerce directors at Sweetwater two years ago. A copy will be placed in the Tech archives at Lubbock. The history was written by Hamilton Wright, former newspaperman, but now secretary of the Stamford Chamber of Commerce.

L. P. Barlow of Stamford, Conn., has invented a gasoline torpedo for use by bombing planes.

# TECH-NICAL TOPICS

## Tech to Have Representatives at W. A. A. Regional Conference at C. I. A.

At a regular meeting of the Woman's Athletic Association Thursday night the girls voted to send delegates to the regional conference of the W. A. A. of the western states, which is to be held in Denton April 8, 9 and 10. The girls voted to send at least one delegate and if funds were raised more will be sent.

A party will be given on the night of Thursday, March 25, to raise funds to send a delegate. Every college and university in the southwest will send delegates to this conference and it is important that the Tech be represented also. The Tech delegate will represent the newest school at the conference. Plans are being formulated for the party and one of the most delightful entertainments of the year will feature the opening of the spring term.

The association also voted that awards would be made at the close of the year for points made in the various divisions. Letters and sweaters will be the two distinct awards to be given. A letter will be given for 400 earned points and a sweater for 900 earned points. Several of the girls in the association are working hard for their sweater. They will bear the letter of the regular athletic teams.

### EXAMS START MARCH 20

The examinations for the winter term will begin Saturday morning, March 20, and will close Wednesday at noon, March 24. The spring term will open Thursday morning, March 25. Inquiries to the office of the registrar and the president indicate that a number of new students will enroll for the spring term.

### FACULTY CLUB TO MEET MARCH 19

The next meeting of the Faculty Club will be held at the college cafeteria on the night of March 19. Prof. Gus L. Ford of the history department will have charge of the entertainment.

### COLLEGE DAIRY OPERATING, BOTTLED MILK TO BE SOLD SOON

The college dairy is now in production and will be ready to produce bottled milk by the fifteenth of this month. Several students have been employed to do the work and milking. The dairy will use all modern means of sanitation in caring for the milk.

The students who are taking dairying this term have been making tests on the milk in the laboratory. They take the whole milk and mix it with a certain amount of acid with a certain quantity of milk. The milk is placed in small bottles and then in a centrifuge which has a centrifugal motion and the milk is heated at the same time. The percentage of the different parts of the milk are thus determined. The Babcock test is applied in the laboratory. The students have also started running individual tests on the cows in order to determine their yearly production.

All the machinery has been installed in the barn and is ready for operation. There has been considerable delay in waiting for the electricians to do the wiring. It is thought that they will complete the wiring at the barn next week.

### TECH PROFESSOR HONORED BY TEACHERS ASSOCIATION

Prof. W. A. Evans, head of the department of education, received notice from the Texas State Teachers Association that an article of his would be reprinted in the research work of the state. The article appeared in the February issue of the School Review, which is published in Chicago. The article was of educational study of Texas high schools. Prof. Evans handled the material well and presented it in an excellent form. He spent a great deal of time in this work and knows his field well.

Reprints will be made of this article and sent out to the members of the association. Prof. Evans is writing an additional article on Texas high schools which will be sent with the reprint. The copies will be mailed to the members in the next few days.

### EDUCATION CLUB TO BE FORMED

There will be a meeting in room 302 of the administration building next Tuesday night at 7:30 for the purpose of organizing an education

club. The club will meet regularly and will make a study of the problems of education in various ways. Membership is open to all students of education who intend to teach and others who are also interested in education.

Professor Evans stated that all the schools of the state had organizations of this nature and they benefited the members very much. He plans to have some interesting features for the meetings.

### QUALIA TO LECTURE TO HISTORY CLASS ON MODERN LANGUAGE TODAY

Prof. C. E. Qualia, head of the department of foreign languages, will lecture to a class in history under Miss Lala Boone today at 10 o'clock. He will lecture on "Development of the Modern Languages." The class is studying the period of history relative to this subject and the talk will be in direct line with their duty. The lecture will be of special interest to students interested in language and history. Anyone is invited to attend the lecture and seats will be prepared for them.

### TECH TO HAVE TEACHERS BUREAU

Prof. A. W. Evans, head of the education department, announced yesterday that a bureau would be established soon for students to secure positions as teachers. It will be called "teachers placement bureau." Applications for positions will be filed and others taken for teachers. The bureau will aid greatly in placing the students who desire to teach next year.

The other schools of the state have similar bureaus and they prove very successful in every case. Indications already point to a large number of applicants. Quite a number of calls have been made upon the collegelready for teachers. Blanks will be printed and the bureau will begin work in the near future.

### BLOOD AND SAND FROM EL TORO

Hah! Can you beat that? Already, this early in the season, the blankety blank examinations are beginning to assert themselves. Like the early violet proclaiming spring, or rather like the skunk-cabbage, the schedule for the outfits are being posted, and in advance.

Oh, well, let 'em come. If they can do much more damage than the recitations have done during the past three months, we pity ourselves.

One of the hardest things to bear that we are reminded of just now is a thing like what happened this morning. We were all pepped up with nowhere to go after reading a sign upon our lecture room saying that there would no lesson and then had to go to the other room and get invited to attend class there.

Finis is written on the programme of the "One Must Marry."

History class is to be interesting this morning for the ten o'clock section. As a little side-track from the regular course, there is to be given a lecture upon medieval languages, and probably their relation with present-day; Professor Qualia, of the Romance Language department is to be the speaker of the hour.

Some of our teachers are getting

Oh, yes—one grand, big concert to finish up the term with. Sponsored by the concert band of the Tech, the Austin College Glee Club and orchestra will appear here on March 23rd, 7:30 p. m.

## TO PLAN FOR FLOYD POULTRY SHOW SOON

Special to The Avalanche.  
LOCKNEY, March 5.—The Floyd County Poultry Association will hold its annual poultry show at Lockney December 11 to 13. A meeting of the association will be held at an early date and definite plans will be discussed for the holding of the show. It is expected that the association will secure many state poultry clubs to hold their annual meeting at this show. All records were broken last year when over 600 birds were cooped from 13 counties. H. P. Coleman, is president and E. S. Shoaf, secretary.

### NEW POULTRY CLUB ORGANIZED IN DEAF SMITH

HEREFORD, March 6.—County organized a Poultry Club in the Fairview community, twenty miles northeast of Hereford, and over forty members enrolled at the initial meeting. The club will foster more and better more and better poultry, and will study the problems that confront the poultry breeders of this section. A boys and girls club was also organized in the same community.

with nearly 100 per cent of the children of club age enrolled at the first meeting. These youngsters will take up some farm project during the coming year under the direct supervision of Mr. Dunkle, and will use only the latest methods of farming. Officers of the Poultry Club elect-

ed are: W. L. Davis, president; J. P. Walker, vice president, and Ada Lou Bowen, secretary-treasurer.

An improved apparatus for extracting rubber from worn-out rubber articles has been devised by a French engineer.

## MEXICO AND THE CHURCHES

Just when the United States and Mexico are at loggerheads over the Mexican land and oil laws, Mexico's nationalization of all Church property and expulsion of all foreign priests and clergy stirs up another grave protest against our Southern neighbor. The seriousness of the situation appears when it is noticed that the word "intervention" has crept into the newspapers again and that the Mexican anticlerical legislation has been brought formally to the attention of the House and Ambassador Sheffield. It is conceded that Mexico is legally within her rights in nationalizing the church in conformity with Federal statutes, but the drastic manner in which it is said the law is being enforced, after remaining so long a dead letter, provokes serious remonstrance. Officials of the Methodist Episcopal Church South have been advised by the State Department, according to a dispatch to the New York World, that property acquired in Mexico for religious purposes occupies precisely the same status as that purchased by private individuals and is entitled to the same measure of protection. At a meeting of the Knights of Columbus in Washington, Archbishop Curley of Baltimore protested against the treatment of Catholics in Mexico and urged that representation be made to President Calles. He decried acts committed against Catholic clergy in Mexico without official utterance from Washington, we read in dispatches, and declared that conditions such as exist in Mexico are the fault of "an inarticulate Catholicism." The attention of the House was drawn to the situation by Representative John J. Boylan, of New York, who has offered a resolution to direct the Secretary of State, if not incompatible with the public interest, to furnish the House with such information as he may have "in respect to the expulsion from Mexico of citizens of the United States on account of their religious belief." Commenting on his resolution, Representative Boylan said we read in the press:

"American Protestant missionaries, Catholic priests and nuns, while engaged in preaching the gospel, have recently been expelled from Mexico under a law providing that only Mexican citizens may act as clergymen and teachers.

"This expulsion has been under was at the very time the Mexican authorities were taking no steps to clean up the gambling halls and vice dens of Tijuana, in which American girls have been mistreated, as in the Petet case. It is time for the Government to take some action.

"The drive against the priests and ministers violates the deepest instincts of humanity. Even savages have permitted holy men to come among them and live unmolested while preaching the word of God.

"We should not proceed hastily, but it is time for the United States to investigate and act promptly if it should find the facts justify it."

The Mexican Constitution, we read in dispatches, requires that priests and ministers of all denominations shall be native-born Mexican citizens, prohibits any political activity whatever by clericals, forbids Church ownership of real estate of properties and declares that all such, including land and church buildings are the property of the nation. Recently the Attorney-General gave directions that the law should be put into effect and that all priests who are not natives be arrested and deported. Fourteen Spanish priests, we are told, were arrested in Mexico City while the Spanish colony and their Mexican friends were celebrating the arrival of Commander Franco, the Spanish aviator, at Buenos Aires and toasting "Madre Patria." They were taken to Vera Cruz for deportation, and with them went three Irish priests who had been in the country many years. Action was also taken against Catholic schools and asylums. Among the Catholic schools closed, it is said, are some of the most notable institutions in Mexico City. The Rev. J. L. Phillips, president of the People's Institute of Piedras Negras, and seven teachers of the college, which has been supported by the Methodist Episcopal Church South, accepted the ultimatum, and crossed the Rio Grande into Eagle Pass, Texas. It is reported that the expulsion order is to be rigidly enforced against all priests and ministers throughout the Republic, and that all Church property is to be nationalized. The drastic enforcement of the law raises in some minds the suspicion that anticlerical radicals are at work.

## THE KNACK OF CHOOSING

It is said that on one occasion, Thomas A. Edison set out to read the Detroit Public Library.

Beginning at the top shelf in the northwest corner of the room he read every book as he came to it for a space of fifteen feet. Then he discovered a great principle of life. No man can read all the books in the world. In fact, many of them are not worth reading. Certainly some of them will never contribute anything to some people.

Success in life consists in learning to make intelligent choices. No man has noone enough to belong to all the lunch clubs; nights enough to belong to all the lodges; money enough to buy all the automobile accessories; nor strength enough to dance all the latest steps.

Having a limited amount of time to spend, why not invest it in books that have demonstrated their ability to survive? Abraham Lincoln owned but five books but they were sufficient to furnish a pretty substantial education. And the interesting thing is that all but one of those books are still popular with thinking people.

Instead of chasing feverishly after the latest book, play, song, cravat or shingle-bob, why not pick out a few books that will not have to be forgotten, one or two plays that are eternally new, some songs that have warmed the hearts of struggling men for centuries. We spend too much time learning that which we must forget, acquiring habits of which we are ashamed, mastering arts for which there is no market or appreciation, circulating slanders that do no one good.

Happy is the man who has learned to choose between the temporary and the eternal, between the beautiful and the latest.

## SOUTH NEEDS MORE HOGS

The cotton-belt has been neglecting hog producing during the past few years and is not growing enough hogs at the present time to supply its own pork and cured meat requirements. A nation-wide survey of hog production, recently completed by the United States Department of Agriculture in cooperation with rural mail carriers, contains the statement that hog production in the south has declined continuously for the past five years, and is probably at the lowest point in over fifteen years. If concrete evidence were needed, it appears in the fact that the two larger meat packers of Fort Worth, Texas, purchased over 175,000 hogs in the north during the years of 1924 and 1925 and shipped these hogs to Fort Worth on direct billing, where they were slaughtered and their meat products wholesaled to the southern demand. One of these Fort Worth packers is also bringing in an average of two cars of dressed hogs daily from Huron, South Dakota, each car containing about 300 carcasses.

Pork is no less a product of the farm or plantation than cotton and most sections in the Dixie tie of states can raise hogs profitable on a commercial scale, as well as they can cotton. A review of the hog market during any period extending back to the World War days proves positively that hogs should have a prominent place on the production program of every man engaged in live stock farming, even though he may be located a long distance from the big primary northern markets. Hundreds of small meat-packing plants are scattered over the country, from coast to coast, and these plants can be depended upon to provide a regular demand for hogs throughout the year, at prices in line with those paid at the larger central markets. There is no question of a broad and urgent demand for hogs and pork products in the south, at any rate, and the advice to "raise more hogs and less cotton," is commercially sound.—The Cattleman.

## INDIVIDUAL RESPONSIBILITY

Someone has said that "If you want to put the world right, start it yourself." This is a particularly good thought for all of us to carry with us at all times. Would we have other people understand us, then let us try to understand other people. It may be more difficult than requiring that other people understand us and more difficult than wishing that other people would understand us. We can't understand other people without knowing something about them, without studying them, without trying to put ourselves in their places. How many of us are continuously or frequently making such an effort? Probably very few.

As a matter of fact, it is easier to transfer the mind from one setting of surroundings to another environment than to transfer the body. Those who have never sent their minds into other environments may scoff at this suggestion and even say that it can't be done. However, it can be done. If the body and the mind can be sent together into a different environment the development of an understanding of the influence and the pressure of that environment will be most easily reached. It is a fine thing to travel. However, if the physical body cannot travel, there still remains the opportunity for the mind to travel. In a Rotary pamphlet published ten years ago, we find the statement that Rotary provides activities for its members which will stimulate their minds to travel in unfrequented channels of thought. Locally this means to put oneself mentally in the position of men of other lines of business or professional work. Internationally, it means to put oneself in the environment, customs, habits, and attitudes of men of other nations and of other races.

## Little Avalanches

In an effort to break down the ancient Chinese custom of binding women's feet, the new military rulers have imposed a tax or fine of \$3 per month on all women under 30 whose feet are not unbound. Taxes are worse than unmarried daughters and the ancient custom may soon be abolished.

About a year ago Catholic Church authorities in Mexico openly defied the Constitution which prohibits the functioning of foreign-born priests and the operation of foreign religious schools. As a result and following a decision of the Supreme Court, many of these schools and convents are being closed, priests deported, and the terms of the constitution are being literally enforced.

## Events in the Lives of Little Men

## SO THINK WE

We think it is hardly possible to maintain a mourner's bench and a jazz band in the same church. They just won't harmonize.

We think the old fashioned parents trusted in God instead of luck.

We think it is alright to brag about ancestors provided you know what kind of ancestors you have.

We think if it was not for the installment plan there would be more suffering and discomfort than there really is since the bootleggers have to have cash, there are a few fellows who could not buy household goods or food, if it were not for the credit system, and the installment plan.

We think there are very few leading citizens who have not been broke many times, when they were scotching the hardest for the improvement of the town. They just keep hooking on however while the knocker keeps knocking.

We think the definition of a "wise crack" is where you go to an entertainment pay \$3.00 and hear an old joke that you had heard a million times before.

We think one difference between the modern doctor and the old timer is that the old doctors carried his supply of drugs with him, and the modern doctor carries a pocket full of needles and a pad of prescription blanks.

We think about the best balanced fellow we ever saw was the guy who kept his mind open and his mouth shut.

We think there certainly should be something done to clean up the entrance to the postoffice. It is very unsanitary looking place, and the only reason that germs are not there, if they are not, is because they cannot live there.

We think the old bachelor was possibly right when he said that when a fellow marries a raving beauty that he finds that the raving continues long after the beauty is gone.

We think about the only difference in the bootlegger and his customer is that the bootlegger gets good money for sorry whisky and he runs the chance of being arrested while the customer runs the risk of being poisoned.

We think that possibly wonder will never cease. A Jersey cow at San Antonio has recently given birth to triplets, and in this age of birth control too, Jersey will shock society, if she isn't very careful.

We think that Old Dollar Bill can do a lot of shopping if he will just keep circulating. One dollar in circulation is worth more than a million if locked up where it will do no one any good.

## IT IS REPORTED

That spring weather is on the way, closely followed by the ice man.

That the rains of the past few days has covered most of West Texas.

That now is the time for all good citizens to plant trees.

That ladies shoes are to have extremely high heels. We presume that this might be called another boost for the woman.

That the summer tourists are beginning to tune up the old flivver.

That Uncle Sam is going to start a census on ignorance. Possibly if he would just work on the opposite side it would not take so much time.

That old battle axe was able to get out on the sidewalks yesterday for awhile, and the sidewalks will verify the report.

That a Wisconsin woman had her bare knees frozen. Style will not keep women warm at all points of the thermometer.

That Rev. Ross is on his annual rounds counting the scholastics in the Lubbock Independent School district. Cooperate with him and have all of the kiddies listed that are of the proper age. It will mean that much more money for the Lubbock schools and we need it all.

That the Lubbock High School band made a fine showing Thursday evening in their concert. It is an organization that Lubbock should be very proud of.

That ground hog, or no ground hog, spring is here, we saw a Lubbock boy on the streets bare footed, and he was playing marbles. It is a sure sign.

That the first crime wave known was when Jonah was washed into the mouth of the whale.

That property owners on several of the important streets are going to ask for paving in the near future.

That a Galveston man has been pardoned from the penitentiary before he was ever admitted. He was sentenced for robbery, but the Governor said by the act of pardon that he shall not suffer for it.

That some of the ministers of the Amarillo are up in arms against the "big ball" that the West Texas Chamber of Commerce proposes to pull off during the convention. It seems that there will likely be a lot of what the preachers fight most over the proposition.

Silence is Golden  
 "Mother," said little Pat, "won't you give me some candy now?"  
 "Be still," cried the mother, "didn't I tell ye I'd give ye none at all if ye didn't kape still."  
 "Well, the longer ye kape still the sooner ye'll get it."

## This and That

A Modern Adam and Eve  
 "Willie," called his mother, "who gave you that apple?"  
 "Mable Smith," was the reply.  
 "And what did you say to her for it?"  
 "I told her to shut up her crying."

What's the Use  
 Barney—"Do you folks ever have family prayers before breakfast?"  
 Raymond—"No, we only say prayers when we are going to bed; we're not afraid in the daytime."

It Should Work  
 May—"I lost my doll yesterday and papa brought me a new one."  
 Bell—"Oh! how nice. I think I'll give mine and tell papa about it."

Do You Know?  
 Where you look to find a cow's pedigree?  
 In the cattle-log, of course.

When do two and two not make four?  
 When they stand for 22.

Why is sympathy like blind man's buff?  
 Because it's a fellow feeling for another.

Why is D a very useful letter?  
 Because it makes men mend.

Why is the letter "O" like the equator?  
 Because it is a circle dividing the globe into two equal parts.

## TEXAS

By J. MARVIN NICHOLS

### Great Colonizers

The colonization of Texas began with the rise of the Mexican Republic, following her freedom from Spain. The following are among the great colonizers of that early day:  
 1—STEPHEN F. AUSTIN—In January 1821, his father, Moses Austin, received a Spanish grant to settle 300 families in Texas. He died in June of that year. His son was born in Wythe County, Virginia, November 3, 1783. He carried out his father's huge designs, and has gone down in history as the "Father of Texas." Not only upon the original Spanish grant made to his father, but upon successive contracts made with the Mexican government, he erected large colonies and controlled vast areas of country. Austin never married. Loved and honored, this first pioneer of the wilderness passed away December 27, 1836.  
 2—HAYDEN EDWARDS—A man of wealth and education, born in Virginia in 1770. In 1823, while in the City of Mexico, he arranged to colonize 800 settlers in Texas. The territory he selected had been preoccupied by Spaniards and Mexicans. The friction between them brought on what is known in Texas history as the Fredonian War. It resulted in the destruction of his contract and Edwards being driven from Texas. He died in 1848 leaving many descendants who were an honor to the state.  
 3—JOHN McMULLEN—Was born in Ireland in 1796. Was a graduate of Trinity University, Dublin. Came to Texas in 1828. Having made a contract, he and his partner, Patrick McGloin, established a large enterprise known as the Irish Colony. After the most loyal support of Texas in her struggle for freedom, McMullen became a "forty-niner" and amassed a fortune in California, where he died in 1860.  
 4—STERLING P. ROBINSON—Was born in Nashville, Tennessee, in the fall of 1785. Upon Mexico freeing herself from Spain, in 1823 Robinson turned his eye toward Texas and began the colonization of 800 families. His whole effort was set with great difficulty, brought about by the shifting attitudes of the new Mexican government, on the question of grants and the rights of the colonists. Added to this was the unrest during his effort to plan his great colony, and which headed up in the Texas Revolution. In this revolution he was in the forefront. With the exception of Austin, he colonized more settlers in Texas than any other one man. He died on his Brasos plantation in the spring of 1842.

## DEMOS JOIN G. O. P. IN BLOCKING SALE OF SHOALS

BY RAYMOND CLAPPER  
 United News Staff Correspondent  
 WASHINGTON, March 5.—The self effacement of the democratic party is further emphasized by the line up on the administration Muscle Shoals plan which will be voted on by the senate Monday under a special agreement just reached.  
 This plan would set up a special committee of senators and congressmen to receive bids with orders to report back to congress by April 1.  
 Senator Norris, republican insurgent is leading the fight against the plan, but the significant factor is the democratic line a pin favor of the administration. It includes Robinson, of Arkansas, minority leader; Underwood of Alabama, former minority leader; Caraway and Harrison, the two erstwhile hecklers of everyting republican; such solid democrats as Swanson and Glass of Virginia and numbers of others including that confessed friend of the common people, J. Thomas Heflin of Alabama.  
 Muscle Shoals offered one of the last chances of the democrats to pick up a general political issue out of this session of congress and it has been passed by just as the tax bill

the republican limitations on world court membership, coal legislation, aviation development and several other large opportunities were passed by.  
 One more issue is offered in the impending Italian debt settlement measure.  
 The willingness of the democrats to sign up with their former political opponents is one of the most curious situations in recent political history.  
 One leader high in the democratic organization told the United News a few days ago that the congressional campaign would be waged on local issues entirely. Each day's development here tend to support his judgment.

### DAYLIGHT SAVING PLUS

By United News  
 NEW YORK, March 5.—A "three clock" will be introduced to the United States shortly, Ansel Von Obelitz, its inventor, explains, this is the only way the clock can be changed by inserting coins. The money is kept locked up for a certain length of time, after which the clock automatically releases it.

Twelve invalid children of Washington School District, Hartford, Conn., receive in their homes the same course of instruction as the children in the regular grade school. A teacher visits the invalids regularly two or three times a week and each child progresses individually according to his capacity, mental and physical.

## JUST FOLKS

By EDGAR A. GUEST

### A QUESTION OF SIGHT

Two travelers along a road,  
 Each weighted with the self-same load  
 Of happiness and care,  
 Were chatting as they trudged ahead,  
 When suddenly one stopped and said:  
 "I see a farm-house there!"  
 The other, who was near-of-sight,  
 Looked to the left and to the right,  
 And said: "It can not be,  
 There is no farm-house where you say."  
 No roof or chimney down the way,  
 No smoke that I can see."  
 "Look in the distance" cried his friend,  
 "There, where the road begins to bend,

You'll catch a flash of light!"  
 "There is no farm-house there," said he.  
 "At least, not one that I can see,  
 Although you may be right."  
 "Well, never mind," his friend replied.  
 "Some day we'll reach it side by side  
 And you shall see it then."  
 "Perhaps," said he, "but as for me,  
 Nothing exists I can not see."  
 Thus quarreled two good men,  
 So with the great eternal life,  
 Beyond this vale of mortal strife,  
 Some glimpse a vision fair,  
 And some, not quite so keen of sight,  
 Peer vainly for the distant light  
 And say it isn't there.

# SPORT NEWS

## NONE BUT HARRY SHALL BATTLE JACK

BY FRANK GETTY  
United News Staff Correspondent  
NEW YORK, March 5.—Just when folks who are interested in a bout between Jack Dempsey and Gene Tunney, to the exclusion of Harry Wills, had a new bubble all nicely blown up and ready to be floated, the New York state athletic commission has come along and neatly pricked the bubble.

Pricking bubbles is one of the specialties of the commission which rules with an iron hand, the organized fistfuls of New York.

Nothing remains but thin air, and the echoes of rumors.

"So far as the state athletic commission is concerned," announced the cauliflower salons, "Harry Wills remains the logical challenger for Jack Dempsey's heavyweight title. Anyone who even suggests otherwise will be subject to our August disapproval."

Whereupon Tex Rickard, Jess McMahon, his matchmaker, and other who have been trying to slip Gene Tunney in at the rear door while guarding the front against Wills, shrugged their shoulders and went away.

There was a quite little bull market for Tunney this week. It has been stated that Gene will meet Dempsey in a title bout at Bove's Thirty Acres next August. But the action of the state athletic commission probably will silence the talk for awhile, especially as Tex Rickard had no desire to get in Dutch any quicker than is necessary. Tex is not afraid to meet the commission in open combat, but he wants to postpone the contest as long as possible for he has several lucrative bouts planned for this spring.

One of these is a match between Mickey Walker, the welterweight king and Tommy Milligan of Scotland at Madison Square Garden on May 8.

Yes, this is the same Milligan who was nearly knocked into a cocked hat by George Levine, a comparatively unknown, last Wednesday. The Scotch lad has a horsehead about him somewhere, even if it isn't in a glove.

After getting a bad break early in the year by being deprived of a bout with Walker, Milligan went out and got himself licked in two out of

## Three Fights After Levine took his measure, every one supposed the Scotch was through as a challenger, but the state athletic commission on Friday ordered the welterweight champion to meet Milligan in May.

To show it meant business, the commission asked its Pennsylvania contemporaries to call off a bout between Walker and Pete Latzo of Scranton scheduled for May 6, and has directed the title holder to get ready to meet Milligan.

This is without doubt the luckiest break a foreign contender ever received. Tommy Milligan, a game, willing, two-fisted fighter, deserves it, for he has been badly handled. But if he doesn't make a better showing than he did against Levine, he will be flattened by the champion before the fight is half over.

## Helen Wills Meets Spanish Girl Today

By United News  
MENTONE, France, March 5.—Helen Wills meets the last serious contender to her position as runner up to Suzanne Lenglen in the Mentone tournament Saturday afternoon, where she plays Senorita De Alvarez, the Spanish champion, in the finals of the women's singles.

The American girl defeated Miss E. H. Harvey of England in straight sets 6-0, 6-1 on Friday, while Senorita De Alvarez beat Miss "Didi" Vlasto 7-5, 8-6. Miss Wills will be a top heavy favorite in the finals.

## WALKS 44 MILES IN 10 HRS., 28 MINUTES; BREAK RECORD

By United News  
BOSTON, Mass., March 5.—The Providence-Boston hiking record established in December by Eleanor Sears, society sportsman, was broken Friday by John Novak, restaurant manager.

Novak covered the 44 miles in 10 hours 28 minutes, bettering Miss Sears' record by 40 minutes. The hike was made on a wager with Walter Lederer, Providence realty man.

## Six Day Bicycle Race Starts Tonight

By United News  
NEW YORK, March 5.—The six day bicycle race which to some folks is about as interesting as a lot of cockroaches running around a sink, but to others represents the very acme of sporting activity, is with us once more.

Workmen are toiling night and day to finish the huge pine saucer in Madison Square Garden in time for the sprints Saturday night, and the six day grind which started at 9 P. M. Sunday.

Sixteen teams will answer the pop of the starter's pistol Sunday evening.

Seventeen Americans and fifteen foreign riders will be in the pack and the favorites, one is told, will be Reggie McNamara and Franco Georgetti.

## WANTS TO LEARN HER PROSPECTIVE BUSINESS

By United News  
ALBANY, N. Y., March 5.—After the first of next year, under the Hughes plan of state government re-organization, the state athletic commission would be merged with the department of state, which makes Mrs. Florence E. S. Knapp, New York's secretary of state, virtually "czar" of boxing.

When Mrs. Knapp learned this she announced she was going to New York City to see a bout—her first.

"And I want to be in a good one, too," she added. "Since the Hughes report was made public, I've been deluged with demands for complimentary tickets. I never knew so many people were interested in boxing. I'm going down to see why it is."

Rutensnik starter, growing muck, laying muck, made in Lubbock, Texas, and cheap. ECONOMY MILLS, 15th and Ave. E. 125-3

An unusually mild winter has been experienced in Alaska this year.

## NEW ZEALAND SPRINTER OUT RUNS AMERICAN

By United News  
WELLINGTON, N. Z., March 5.—R. A. Rose, New Zealand mile champion Friday defeated Lloyd Hahn, star American runner for the fourth successive time in their series of one mile races. His time was 4:15 3-5 a new Australian record.

## Hydroplane Sets New Worlds Record

By United News  
TAMPA, Fla., March 5.—A new world record for 151 inch hydroplanes was set in Tampa Bay late Friday when Miss Baby Spitfire IV, flashed three times round the two mile course in 8:52 or at an average speed of 49.6 miles an hour. Miss Spitfire, owned by J. H. Rand, Jr., of Buffalo, N. Y., defeated Smiling Dan RII, owned by Dick Lowmes of California. Smiling Dan held the

## former world record for hydroplane of this class.

The California craft jumped into the lead for the first lap but was overtaken by the flashing Spitfire.

## HISTORICAL FILM POPULAR IN SWEDEN

STOCKHOLM (U-P)—While fully ninety per cent of all new films shown in Sweden are of American origin the most popular picture as yet exhibited here has been the historical drama "Charles XII," showing the country's most romantic and best beloved royal hero from his boyhood to his death in battle.

"Charles XII" is the biggest and most elaborate film ever produced in Northern Europe. It is almost a national undertaking, as all the resources of Swedish archives and museums were made available to assure historical accuracy. Professors of history and Swedish army officers have assisted as technical experts and most of the scenes have been taken on the exact historical locations, in Sweden, Denmark, Russia, Poland, Saxony, Turkey and Norway.

### LEAGUE MAY BRING BACK SPANISH GLORY

By United News  
 GENEVA, March 5.—The League of Nations (dream of an American president) seems destined to grant to Spain much of the glory that was her's before the powers, including the United States, won the Spanish colonies in warfare.

Leading members of the league already assembled here for the council meeting next Monday affirm that Spain's chance for a permanent seat on the council is so good as to be equivalent to a "new world-wide recognition of Spain's importance."

Premier Stanley Baldwin's admission that Spain has Britain's pledged word that the English delegates will back her fight for a seat on the council and the opinions expressed by officials at Berlin, Tokio, Paris and elsewhere all give emphasis to the claim that Spain holds the whip hand. It seems to be only a question of whether or not the seat will be granted next week, or at the September meeting of the league.

### HIGHWAY BOARD OPENS BIDS IN SPITE OF DAN

By United News  
 AUSTIN, Texas, March 5.—Disregarding Attorney General Moody's veiled threat of court litigation, the state highway commission today publicly opened bids on highway projects. Awards of contracts will not be made until Monday, however.

Moody yesterday in a letter to Chairman Hal Moseley of the commission, declared specifications as advertised were the same as the American Road Company's and Hoffman Construction Company's which were adjudged "unreasonable" in court.

Twelve bids were opened ranging in price from 12 cents per square yard for bituminous asphaltic resurfacing to \$1 for rock asphalt. The price in the American Road Company's contract was 3 cents per square yard.

Chairman Moseley has not made a reply to the attorney general's criticism but indicated he would later.

Former chairman, Frank V. Latham, resigned, was among those submitting bids.

### Penick Calls Meet of Highway Men For 17th of March

STAMFORD, March 5.—The Plains Short Line Highway Association directors will hold an important session at Stamford March 17, it was announced today by Col. R. L. Penick, president of the association. A director from each town between Dallas and the South Plains will be present. A luncheon will be served the visitors by the Stamford Chamber of Commerce. The entire State Highway Commission has been extended an invitation to be present.

Big run on Lubbock made feeds at ECONOMY MILLS, 15th and Ave. B 125-3

### HEREFORD WILL HAVE LARGE DELEGATION AT FORT WORTH

Special to the Avalanche.  
 HEREFORD, March 5.—Plans are being laid for Hereford to have just as large a delegation as any town in this section, at the Fort Worth Fat Stock Show and Southwestern Exposition next week. Most of the local delegation who are planning to attend the annual affair are Hereford breeders from Deaf Smith county, but a number of business men are also among those planning to make the trip.

Hereford breeders from all sections of the country will be at the Fort Worth show and with more than a million dollars worth of fine Hereford cattle in Deaf Smith county right now, the local breeders feel that they should be well represented at the big event. Nine Anxiety 4th Herefords have been entered in the Fort Worth show by local breeders.

Those expecting to go from here to the fat stock show at Fort Worth are: D. L. McDonald, John McDonald, Mrs. L. R. Bradley, Mr. and Mrs. E. B. Black, Ed East, Henry Wilkinson, Rat Jowell, Mr. and Mrs. Ray Barber, Mr. and Mrs. M. D. Womble, Mr. and Mrs. Will Womble, Mr. and Mrs. O. G. Hill, Jim Sanders, T. D. Ross, W. E. Dameron, Lan Shore, Carl Frye, Doyle Rose, R. T. Green and Barrett Sowell. Most of the group will leave here Sunday.

### KATY EXTENSION TO ROSWELL IS RUMORED

STAMFORD, March 5.—Information from a reliable source has been received here that the Missouri, Kansas and Texas railroad company is now ready to consider the extension of its line from Rotan to Roswell, N. M. A conference of representatives of the various towns between Stamford and Roswell with officials of the company is proposed in the next few weeks, according to the information received here.

A small increase in tourist fares between Chicago and the west coast will be made next summer.

### COL. PENICK WILL ATTEND I. C. C. HEARING

STAMFORD, March 5.—Col. R. L. Penick, chairman of the railway committee of the Stamford Chamber of Commerce, will represent this city at the interstate commerce commission hearing on the application of Col. R. M. Duff for a permit to make a certain extension of his line in east Texas looking to acquisition in the near future of the Texas Central branch of the Katy and its extension to Roswell, N. M.

### POLL TAX RECEIPTS AT STAMFORD ARE 834

STAMFORD, March 5.—The city of Stamford has issued a total of 834 poll tax receipts this year. The total does not include exemptions. Cities under 5,000, according to the last official census, do not issue exemptions. The total poll strength of Stamford this year will not be less than 950 or 1,000. Total poll tax receipts issued here last year were 809.

### STAMFORD SECTION BENEFITTED WITH SLOW RAINS

STAMFORD, March 5.—Approximately one fifth of an inch of rain had fallen over the Stamford country up to three o'clock Thursday afternoon with prospects of more. Drizzling rain has been falling for two days. Inestimable benefit is derived by farmers because the soil has been softened for expedition of plowing.

Pennsylvania leads in mineral production, with West Virginia second and Oklahoma third.

### "MOVIE STUDIO" RUN JUST FOR TOURISTS

HOLLYWOOD, March 5.—The sight-seeing business is highly commercialized in Southern California and while the chief lure to the many visitors is the film plants only a few of the tourists ever get inside the studios.

"Rubberneck wagons" haul the sight-seers through the elegant homesites of the stars, and past the studio gates, but never inside.

One enterprising caterer solved the problem of showing the curious tourists "how movies are made" by rigging up a fake studio, and hiring unemployed Hollywood actors to provide the desired "atmosphere." He did a flourishing business until he was stopped by the authorities.

This modern Barnum used an abandoned studio, set up a stage, with lights, camera and music. When his rubberneck trucks lumbered up to the "studio" with a crowd of tourists, action began.

The music started, klieg lights flashed on, and colorful cameramen cranked empty machines. Action was swift and furious. The villain choked the poor defenseless working girl; the hero knocked him cold with a "pulled punch," the director bawled through the largest megaphone in captivity, and tore his hair with traditional technique.

The buses would drive away, and the "actors" would be "at ease" until the next load arrived, when the performance would be repeated.

### JAPANESE PLAN COTTON PLANTATION IN BRAZIL

TOKYO, March 5.—At a general meeting of shareholders of the Kanegafuchi Spinning Company at

Osaka \$40,000 gold was voted to pay the expenses of a commission of experts to Brazil, to look into the possibilities of starting large cotton plantations with Japanese capital, in order to inaugurate a movement to make Japanese spinners independent of Egypt, India and the United States.

Establish of cotton plantations by Japanese in Brazil is expected not only to help make Japan less dependent upon the United States and British growers but also to open a new field for Japanese emigrants.

# MORE FARMERS NEEDED TO TILL VIRGIN SOIL IN SHALLOW WATER BELT OF GREAT SOUTH PLAINS

BY RAY B. McCORKLE  
Staff Correspondent

LOCKNEY, March 6.—Located in the very heart of the shallow water belt of the South Plains, surrounded by thousands and tens of thousands of acres of fertile farm land, and inhabited by a prosperous and progressive citizenship, Lockney, indeed, has a bright future just at this time.

Starting several years ago with a population of less than 100, the city has steadily grown from year to year, and today more than 2000 people reside in this fair city. Naturally there is a reason for this—there must have been some inducements offered else the town would never have made such a remarkable if not marvelous growth. And the end is not yet, for on every hand you will notice new buildings, new improvements and a general over-hauling and re-modeling. Lockney people know they have a beautiful city, but they want a better and more beautiful one. And to this end they are working.

## SNYDER SHIPS 20 CARS OF FED STEERS

Special to The Avalanche.  
SNYDER, March 5.—Winston Bros. of this city shipped 20 cars of fed 4 year olds, this week to Cuddeby Packing Company of Los Angeles, and Charles Brady of San Diego. These steers have been fed with meal and hulls and will average about 1100 pounds each. Winston Bros. started the feeding season with about 1100 head of steers. They will have 400 head of calves left.

## LEGION MEMBERSHIP HERE IS INCREASED

FLOYDADA, March 5.—Several new members were added to the McDermitt Post American Legion in a recent membership drive. The drive was closed by a banquet in the \$3009 Legion Home on Missouri and 5th street.

The following officers were elected for 1926: John Reagan, Post Commander, John Maxwell, Post Adjutant, J. C. Gilliam, Post Finance Officer, J. E. Dickay, Chaplain, and B. Nickels, Sergeant-At-Arms.

## COMMEND TEACHERS FOR GETTING CRABILL

CANYON, March 6.—The department of music of the West Texas State Teachers' College is receiving letters of congratulation from all parts of the United States over its success in securing the services of Mr. R. W. Grabill, teacher of piano, for the coming summer session. The following letter was received a few days ago by Miss Pauline Brigham, head of the piano department. The writer, Howard Boston, is head of the piano department of the University of South Dakota.

Dear Miss Brigham:  
It is with a great deal of interest that I note the forthcoming visit of Mr. Grabill to Canyon for the purpose of giving a six weeks' master course in piano. Congratulations are due the Teachers' College and particularly those who are to enjoy direct contact with Mr. Grabill's stimulating mind. As a piano pedagogue he is outstanding.

Pianists handicapped with a faulty technique will benefit tremendously through Mr. Grabill's original method of relaxation and control. Others naturally endowed, will discover themselves possessed of an added equipment.

Although Mr. Grabill's published writings have largely been along technical lines I certainly regard his leadership in an interrogative way as of equal importance. His musicianship is sound and thorough, yet vitalized by imagination and deep feeling. Moreover, his versatility is remarkable. He is no less stimulating and original in lecturing or expounding politics and economics.

I count my two years' study with Mr. Grabill as my most fruitful experience—either at home or abroad.  
Yours very truly,  
Howard Boston.

## 3000 Expected At Lockney School Contest

LOCKNEY, March 5.—The Inter-scholastic school meet for Floyd county will be held in Lockney March 26 and 27th. This will bring more than 3,000 students from the various schools together. Old time spelling matches will be held, and every kind of athletic meet will be contested. Many silver loving cups will be given.

## FAMOUS SPRINTER TO LECTURE, FLOYDADA

FLOYDADA, March 5.—Charlie Paddock, world famous sprinter, will be in Floydada the 16th, and will deliver a lecture on "Sportsmanship" in the High School Auditorium. This is the final number of the Lyceum course, being sponsored by the Senior Class, for this year and a unusually large crowd is expected to attend.

## BANKS RECEIVE GIFTS FOR CLUB MEMBERS

FLOYDADA, March 5.—Sixty bred Gifts are being shipped into Floydada, by the two banks and the Chamber of Commerce, to be sold to the farmers of this territory. These hogs were bought of a Nebraska firm and are shipped here in order to restock the county. Recent figures show that Floyd county has less than one tenth as many hogs now as in 1920. It can be seen that with the amount of feed that is grown here that every farmer should have a few hogs for meat-purposes. Several farmers expressed their desire to restock their farms with good hogs and as it was impossible to secure them here.

## STRIKE GOOD OIL SHOWING AT SNYDER

Special to The Avalanche.  
SNYDER, March 5.—Pricg No. 1 drilled by E. E. Fogelsen has struck a good showing of oil at 1778 feet. They are now drilling at 1810 with indications of good production. Newman No. 2 is now completed at a little better than 1800 feet. It looks to be good for 15 or 20 barrels. Wellborn No. 2 is drilling at 200 feet. This is to be a deep well test; but being only about 600 feet from Wellborn No. 1 it is thought that it will be much better than Wellborn No. 1, which is faking about 35 barrels.

There is some activity in lease, R. R. Tomlinson recently sold to Ira J. Ely the northwest quarter of section 113 for \$1000. Same party has bought 120 acres for \$10.00 an acre. The Marland Oil company has bought 80 acres for \$7.50 per acre and some think that bigger things are about due.

## SCURRY RE-ELECTS HOME DEMONSTRATOR

SNYDER, March 5.—Miss Laura Belle Roten has been re-elected County Demonstrator for another year, and her re-election is a well deserved recognition of the work she has done during the past year. She has done a very fine work among the girls and housewives of the county; but can do more another year, being able to build on the good foundation already laid.

## POULTRY PAYING DIVIDENDS, SAY FLOYD BREEDERS

### LOCKNEY FARMERS ARE ENLARGING FLOCKS YEAR TO YEAR

(Staff Special to The Avalanche)  
LOCKNEY, March 6.—At no time in the history of Lockney and Flody country has the poultry industry played such an important part as it is playing at this time, and at no time has there been as many birds in the county as there are just now. One man told the writer that there is not a far myard in the Lockney trade

territory here poultry will not be found. Whether this be true or not we can not say, but a drive through the rural districts will almost prove his statement.

Almost every variety of fowls will be found in large and small numbers, and most of them are the standard bred type. There are several large poultry farms where from 200 to 500 hens are kept the year around.

### SNYDER SMALL POX JUST ABOUT THROUGH

Special to The Avalanche.  
SNYDER, March 5.—D. Howell, city health officer, of Snyder reports that there are but six cases of small pox in the city and that these are ready for the quarantine to be lifted. Dr. Howell says that the situation never has been serious; but all sorts of rumors have gone out.

Telephone service has been extended to very few farms in England and continental Europe.

### Daughter of Local Physician Relates To Her Class Experiences She Has Had During Phillipine Islands Sojourn

DENTON, Mar. 5.—"Yes, they eat dog meat, Miss Theresa Lemmon of Lubbock, a Junior at the College of Industrial Arts, said in speaking of the Igrotes, a class of Filipinos. Miss Lemmon formerly lived in the Phillipine Islands, and says that a few of the more uncivilized Igrotes may be found far back in the interior among the mountains. "Sunday is dog market day," she relates. Everyone brings in his dogs whether fat or poor—they are usually poor—and the bargaining begins. When the dogs have been purchased, they are led home and fattened until the day of the dog feast. Then the whole tribe meets together to dance and feast. The dance takes place around an open fire over which the meat is simmering. The Igrotes dance to the music of a beating hollow bamboo stick."

Miss Lemmon assures one that all the Filipinos are not of this type; that the higher class are educated and have schools of their own. "I went to an American school, though, which was much like the schools here."

Miss Lemmon's parents have been missionaries in the Phillipine Islands. Her father, Dr. W. N. Lemmon, was for 12 years director of the Mary Child's Hospital in Manila, and her mother was director of the nurses. They are now at Lubbock, where Dr. Lemmon is a surgeon in the Lubbock Clinic.

Miss Lemmon is a prominent student at C. I. A. She is president of the Alice Freeman Palmer Literary Club, and of the Student Council of the First Christian church. She is a member of the Mary Schwartz Rose Club and the Panhandle club. Miss Lemmon is taking a course in Home Economics, majoring in Foods. She plans to be a hospital dietitian.

### INTEREST GROWS IN REVIVAL MEETING

Larger congregations and increasing interest characterize each service of the revival now in progress at the Baptist church. Twelve have come forward and united with the church.

Last evening the speaker delivered a most forceful and appealing message to a large and attentive audience on "The Anchored Life," calling the attention of the people to the four great anchors to which every life should be tied. Man usually seeks some substitute and comes to grief. The four great anchors shielding the life and guaranteeing its safety and happiness are the Word of God, the Cross of Christ, the risen Savior and His personal return to this earth. The one who is anchored to these unchangeable, indestructible truths has a safe retreat from the storms of life.

The ladies of the church met each afternoon for cottage prayer meetings and for personal work. The men are conducting a prayer meeting at the church each evening just before the preaching service.

### CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County—Greeting: You are hereby commanded to summon T. J. Wilson and the heirs and legal representatives of the said T. J. Wilson, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, on the 1st Monday in April, A. D. 1926, the same being the 5th day of April, A. D. 1926, then and there to answer a petition filed in said Court on the 5th day of March, A. D. 1926, in a suit, numbered on the docket of said Court, No. 2462, wherein the Citizens National Bank of Lubbock, Texas, a corporation, is Plaintiff, and T. J. Wilson and the heirs and legal representatives of said T. J. Wilson, are Defendants, and said petition alleging: Hereinbefore on September 26, 1925, H. R. Fluke and wife, Olive Fluke, made, executed and delivered to T. J. Wilson promissory note for \$700.00 payable to T. J. Wilson secured by mechanic's, materialman's laborer's, builder's and contractor's lien on property beginning at a point 190 yards east of the northwest corner of Survey 7 in Block B; Thence south 150 feet to point; Thence west 50 feet; Thence north 150 feet to point; Thence east 50 feet to the place of beginning. That T. J. Wilson transferred assigned and endorsed said note and liens securing same to plaintiff without written transfer and acknowledgment. Whereupon plaintiff prays that upon final hearing hereof, it have judgment against defendant, vesting the title to said mechanic's and materialman's lien on the above described property in plaintiff.

### CALIFORNIA MAN ENTERS REAL ESTATE BUSINESS WITH CHARLES O'NEALL

Irye L. Townsend, brother of Mrs. Chas. F. O'Neall, 1623 Broadway, has arrived in Lubbock to make his home and will be connected with Mr. O'Neall in the real estate business.

Mr. Townsend's former home was at Pasadena, California.

### CHARGE \$2,000,000 BANK FAILURE TO OIL

By United News  
WICHITA, Kan., March 5.—The trial of Phil A. Drumm drew rapidly to a close today following institution Thursday by Judge Pierpont of night session. Drumm, former cashier of the defunct American State Bank which failed in June 1923, with a loss of over \$2,000,000, is charged with conspiring to embezzle from the bank.

The prosecution have attempted to show the failure of the bank was mainly due to loans Drumm made to oil companies.

## Standard Training School For Sunday School Teachers and Church Workers Opens for Weeks Session Here Sunday

Sunday afternoon at three o'clock the Standard Training School for Sunday School and church workers will begin at the First Methodist church here when delegation from Slaton, Abernathy, Monroe, Tuhoka, Shallowater and other places in this section together with a number of local people will start work in one of the four courses that will be offered.

Already 100 have signed up to take work in one of the four courses, and attendance is expected to exceed this number, according to Rev. E. E. White, pastor of the church.

The Sunday afternoon classes are the only ones that will be conducted in the afternoon, as the remaining classes continuing through Friday of next week, will be conducted at 7:15 o'clock in the evening, Rev. White said.

It has been found that it will be more convenient for out-of-town people to attend the evening classes than would be the case if held in the afternoon.

Able instructors have been assigned work in the training school here. Dr. Paul W. Horn, president of the Texas Technological College and a contributor to The Adult Student, a quarterly that is used in class work in Sunday Schools throughout the south, will have charge of a class that will take a course in "The Principles of Religious Teaching."

Dr. J. Fisher Simpson, of Austin, will conduct a class in "Organization and Administration of Sunday School." Dr. Simpson is an able teacher and his lectures will be highly instructive and interesting.

W. H. Terry, of Plainview, conference Sunday school superintendent of the Northwest Texas Conference, will have charge of the class in Bible study, in which fundamentals of bible teaching will be a feature. Rev. E. E. White, of Lubbock, will teach the class in "Pupil Study or Child Psychology," a subject in which he has had a great deal of training and is prepared to teach with ease. That those taking work in this class will be interested throughout the school is not doubted.

It was stated yesterday that those who take work in the training school, and who attend all of the class periods, will receive credit from the general Sunday School Board on gold seal or blue seal diplomas.

## LOCKHART HOME IS DAMAGED BY BLAZE

About three thousand dollars damage was done the new home of Judge G. E. Lockhart at 1611 Broadway yesterday by fire that, according to Chief W. E. Twitty of the Lubbock fire department, originated from an overheated stove pipe.

The alarm was given the fire department to go to 1116 Broadway, Chief Twitty said, and the loss of time which resulted from the confusion of the house numbers caused the flames to make greater headway than otherwise would have been the case.

The greater part of the damage was from smoke and water, Chief Twitty said.

The home was just recently completed and was occupied two ago by Judge Lockhart and his family.

## NEW PETITION OUT ON PAVING OF AVENUE I

The second petition to have the paving on Avenue I extended from 14th to 19th street has been circulated by E. McElroy, owner of property on that street, and will be presented to the city commission after the April election, Mr. McElroy stated yesterday.

More than ninety per cent of the owners of property on the avenue have signed the petition, which included owners of more than eighty per cent of the property facing on that avenue.

Mr. McElroy stated that after the original application was presented to the commissioners some time ago to have the avenue paved, they agreed to carry out its provision, except that the avenue would not be paved its full width, which is 80 feet, whereupon the property owners decided that they would rather not have the work done until the avenue could be paved at its original width.

The property owners recommended having the full width of the street retained by paving 20 feet of each side, leaving unpaved sections in the center of each block.

## Kangaroo Glee To be Here March 23

The Austin College glee club, composed of 20 members, will be presented in concert at the Tech College judging pavilion on the evening of March 23, Prof. W. R. Wagborne has announced.

The glee club will be presented here under the auspices of the Tech College band and choral club.

Plans to have the concert well advertised are being worked out by Mr. Wagborne.

## EXPRESS COMPANY TO CHARGE STORAGE

Agent O. F. Sensabaugh, of the American Railway Express Company, announced today that the express companies plan to establish a system of charges for the storing of express shipments refused when tendered for delivery or uncalled for.

A docket outlining the proposal has been issued for the information of the public, and in due course it will be filed with the Interstate Commerce Commission as an addition to the Express Classification to become effective on or about May 1st.

The rules and charges will apply to business of this character which the local office has to store owing to the refusal of the consignee to accept it when a tender of delivery is made or which for any other reason is not the fault of the express company.

On shipments weighing more than 100 pounds this storage charge will be assessed proportionally, any fractional part of 100 pounds to be computed as 100 pounds, i. e., on shipments weighing more than 100 pounds and not more than 200 pounds the storage charge will be twice that shown above, on a 100 pound shipment. The carrier is required to give proper arrival notice to the consignee, such notice to bear the same address as appears on the shipment and to retain in its files a duplicate copy of such notice.

In the course of business, many controversies arise, during which a consignee may prefer to refuse shipments sent to him. The carrier has no alternative but to store the goods and can not relieve itself of the shipment or of all responsibility for it until the parties involved adjust their differences. This may take several months in which the carrier is an innocent bystander having been in no wise responsible for the non-delivery.

The express companies have not heretofore made it a practice to assess storage charges on unclaimed shipments although it has long been a practice with freight and baggage. They contend that the expense and extra labor involved should be borne, not by express patrons generally, but by the owners of the goods so stored.

## HUSBAND IS ARRESTED BY WIFE'S INGENUITY

DETROIT, March 5.—"Drive on, Gilbert," declared Mrs. Elizabeth Goff when her efforts to have her husband arrested for operating an automobile while under the influence of liquor failed.

"I can fix that," she told a traffic officer who had refused to make the arrest. The patrolman protested, "we could arrest him if he were driving after the car had stopped in front of the officer."

And after Mrs. Goff did "fix it," for one block from the meticulous patrolman Gilbert was arrested. Later his license was revoked for six months, and he was placed on 15 months' probation.

## NINE DIED IN PRAGUE AS HAND GRENADES EXPLODE

PRAGUE, March 5.—Nine persons were killed and a number injured when two cases of hand grenades exploded in the street here Friday.

The munitions were being hauled in an ordinary wagon. Two soldiers and the two teamsters on the wagon were blown to atoms.

The area affected by the explosion extended to the houses on both sides of the street. All of Prague felt the shock and six buildings were demolished.

Pay cash and pay less for your foods. ECONOMY MILLS, Ave. B and 15th. 125-3

## ABERNATHY FAIR TO BE HELD IN SEPTEMBER

The Morning Avalanche yesterday received a letter from J. P. Nystel, secretary of the Abernathy Chamber of Commerce, stating that the Second Annual Community Fair at Abernathy will be held on September 24th and 25th, and that the exhibits will be moved to the South Plains Fair here to help Hale county carry home the "bacon" in the county exhibit contest that is an interesting feature of the fair here.

Abernathy has succeeded in building up a community fair that represents all of the agricultural interests of Hale county and news that that community would be represented at the fair here during the last days of September and the first

of October was received with unusual interest.

Secretary Nystel, with the hearty co-operation of the business men of Abernathy and the farmers of that vicinity is succeeding in having the merits of that part of Hale county known throughout the southwest, and that the exhibits that will be taken from the Abernathy community fair to the Dallas State Fair will receive some recognition in the belief of those familiar with the quality of the products of that community.

## AIRMAN LOOKS IN VAIN FOR LOST AUTO PARTY

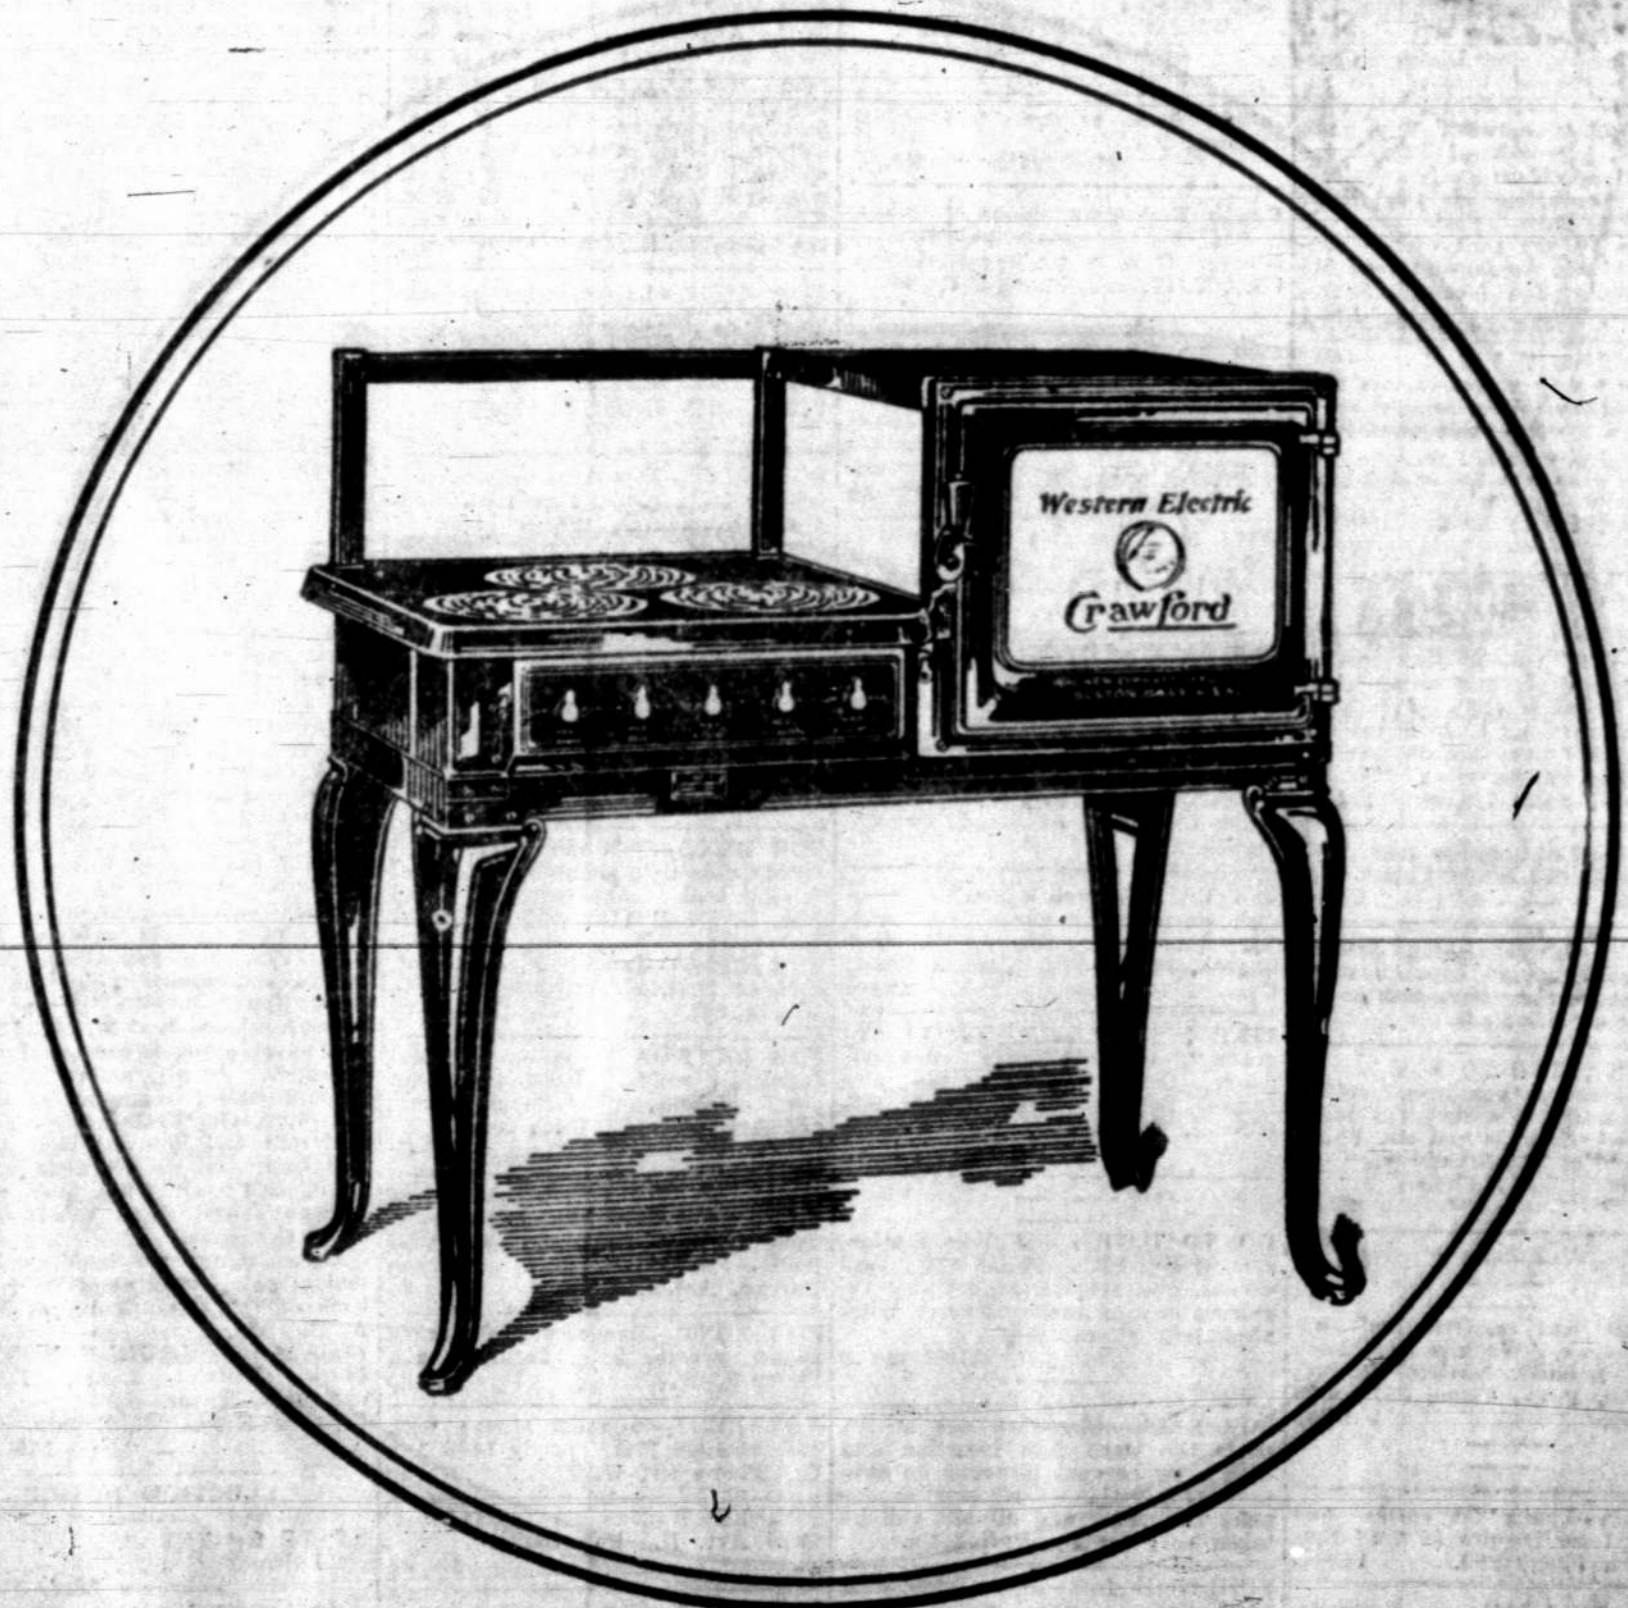

MT. CLEMONS, Mich., March 5.—Lieutenant Lawrence Elliott, Selfridge field flyer returned to his base here Friday afternoon after a flight over Lake Erie and reported sighting no trace of five members of the James Phipps family of Leamington, Ont., who are believed to have plunged through the ice in an automobile last Monday.
