Cochran County Reports Gasser

PENN OIL COMPANY'S TEST ON SLAUGHTER LAND HAS GOOD SHOWING THIS MORNING; ROAR IS HEARD AS GAS STARTS HEAVY FLOW TODAY

Blowing in early today, the Penn Oil company's test on the E. Dick Slaughter holdings, three miles southwest of Lehman in Cochran county, was making a substantial flow of natural gas this morning.

With a roar that could be heard for a long distance, the gas started flowing shortly after 9 o'clock this morning. Employes of the drilling company were taken by surprise although it was known that there was gas in the hole.

Hole Deepened

Depth, according to reports, was 4,725 feet. The first gas was discovered at 4,712 feet. The hole was deepened 13 feet and then the flow started.

Location of the test is in labour 80, league 129, Carson county school land, on the Slaughter holdings.

This is the fourth oil test in Cochran county. It is also the first one to show either oil or gas in commercial quantities.

The first test was drilled in 1926. it was known as the Whieker well, on the J. C. Landon ranch, three miles southwest of Bledsoe. Drilled by the Marland Oil company, the first showing of oil, in non-paying quantities, was picked up at about 1,400 feet. Owing to financial difficulties this test was abandoned at 1,520 feet. It was known as the Marland No. 1-A Slaughter.

Marland No. 1-B Slaughter was abandoned as a dry hole at 5,539 feet. It was located five miles north and three and a half miles east of the Penn wildcat and was completed dry.

Last spring the Continental Oil company completed its No. 1 Slaughter three and a half miles east of the Penn wildcat. It had some oil showings at 4,800 feet and was abandoned dry at 5,000 feet.

Testimony Ends In Powers Case

INSTRUCTIONS BEGUN TO JURY TODAY IN MURDER TRIAL

(By The Associated Press)

CLARKSBURG, W. Va., Dec. 10.—The legal battle between a grim-faced prosecutor and a determined defense lawyer over the life of Harry F. Powers ended today as the last witness left the stage on which the alleged "mass slayer" is on trial for the killing of Mrs. Dorothy Pressler Lemke, Northboro, Mass., divorcee.

Judge John C. Southern immediately began to instruct the jury.

He defined the various degrees of murder and manslaughter and told the jurors they had the right to convict Powers on circumstantial evidence alone. He listed the five verdicts possible as:

1. Murder in the first degree.
2. Murder in the second degree.
3. Voluntary manslaughter.
4. Involuntary manslaughter.
5. Not guilty.

First degree murder carries a sentence of hanging, unless the jury recommends confinement in the penitentiary.

VICTIMS HUNG FROM POLE AND SHOT

BULLETS FIRED INTO BLACKS CHARGED IN DOUBLE SLAYING

(By The Associated Press)

LEWISBURG, W. Va., Dec. 10.—Two negroes were taken from the county jail here early today and lynched by an organized mob of about 60 men.

They were hung, almost nude, from the cross arm of a telephone pole and then, before death could come by strangulation, volley after volley of shots were fired into their bodies.

Charged In Killing

The two, Tom Jackson, 25, and George Banks, 27, had been arrested November 22 at Leslie, W. Va., in connection with the killing of Constable Joseph Myles and Jack Brown, a companion, who had gone to a negro dance at Leslie to order the dancers to be more quiet. They had left the dance hall when they were shot down with a shotgun.

The mob went to the jail in automobiles about 2 o'clock. The cars were driven quietly around the square on which the jail is located with their lights dimmed and their license plates removed. Simultaneously they pulled to the curb and parked.

Quietly, and almost with military precision, the ment got out of the automobiles and marched to the jail door. Jailer Wallace Flint was summoned and as he opened the door he was grasped by the men and his keys taken from him.

Jailer Is Guarded

While one group guarded Flint another went back into the cell block and awakened Jackson and Banks. Clad only in their underclothing the pair was taken out of the jail and placed in two of the leading automobiles.

The caravan then proceeded to the edge of the town. Occupants of the leading car selected a telephone pole and the cars stopped.

Ropes were tossed over either side of the cross arm and a group of men grasped the ends. Nooses were quickly fashioned and at a signal the group pulled Jackson and Banks up toward the cross arms.

The two negroes suspended well

MESSAGE ASKS PROPOSAL BE RATIFIED

MORATORIUM PLAN IS GIVEN TO CONGRESS BY PRESIDENT

(By The Associated Press)

WASHINGTON, Dec. 10.—President Hoover asked congress today to open the way for further war debts revision, saying it was required in the "economic emergency."

This view was embodied in a message submitting his moratorium proposal for ratification before next Tuesday when the European payments again fall due.

Congressional leaders at once said the consideration which they want to give the moratorium made such quick action impossible.

There was no prospect of the proposal being rejected, however, despite the senate fight against it by Johnson of California.

His resolution for inquiry into the amounts of foreign securities in this country was adopted without debate even while a messenger stood in the aisle bearing the president's recommendations.

Meanwhile, the state department disclosed receipt of formal notification from the French government of its position that reparations revision must be accompanied by a comparative scaling down of war debts.

At the other end of the city, White House and state department officials awaited fuller information on the proposal by Prime Minister MacDonald of Great Britain to call a general economic conference. American participation in such a meeting depends on the program.

Hoover said:

"As we approach the new year it is clear that a number of the governments indebted to us will be unable to meet further payments to us in full pending recovery in their economic life."

"Therefore it will be necessary in some cases to make still further temporary adjustments," he emphasized.

The foreign debt commission would go into the debts question in the light of "the present economic

Santa Claus Has A Narrow Escape

CHICAGO, Dec. 10 (AP)—Santa Claus almost got shot last night.

He was moving around in the basement of the Max Pander home when Sonny Pander, left alone to guard the house by his mother while she went shopping, heard a noise.

Sonny telephoned the police. Policeman George Zahora was sent to the scene. In the basement he found a figure moving behind a Christmas tree.

"Come out from behind that tree or I'll shoot," he commanded.

"Don't do it," was the reply. "I'm no burglar. I'm Max Pander just trying to smuggle in a Christmas tree so my boy, Sonny, won't hear.

Mechanic Mistaken For Robber, Slain

BEAUMONT, Dec. 10 (AP)—Fearing a holdup, T. M. Parker, Houston detective, shot at a man who hailed him near Pine Island last night.

Then he drove to Beaumont and reported the incident to police. Officers who went to the scene found the body of C. H. Larson, 38, Beaumont mechanic with a bullet wound over the heart.

Parker said he stopped his car when the man hailed him but fired when the man walked toward him and refused to obey an order to stop.

PLAINSMAN HEADS INDIAN AFFAIRS

WASHINGTON, Dec. 10 (AP)—Plainsman of the era of Buffalo Bill and Deadwood Dick is Representative Edgar Howard, 73-year-old Nebraskan, who becomes chairman of the Indian affairs committee with the house turnover.

In background and in garb Howard fits the role. His long hair, long-tailed coat, black bow tie and broad-brimmed black hat are, he says, a lifetime habit—heritage from Quaker ancestry.

But the old west way he wears them reveals a first cousin kinship to the costumes of Colonel Cody's shows. His appearance also has a faint tang of resemblance to the late William Jennings Bryan. Howard first came to Washington as Representative Bryan's secretary.

Student Is Injured In Frat Initiation

TUSCALOOSA, Ala., Dec. 10 (AP)—Fred H. Hoppe, 19-year-old University of Alabama freshman from Alton, Ill., suffered a fractured skull in a fall from a flagpole in the center of the business district which he was attempting to measure as a part of his fraternity initiation today.

Doctors said he was in a serious condition but they were hopeful of his recovery. Dean Dabney Lancaster started an investigation.

The youth was being initiated into Delta Tau Delta fraternity.

ELECTRA MAN INDICTED

WICHITA FALLS, Dec. 10 (AP)—R. H. Page of Electra was indicted on a charge of murder here as a result of the fatal injury of Miss Evelyn Patton of Electra in an automobile accident Nov. 13. Page's automobile collided with that in which Miss Patton and an escort were riding.

BRIDE IS SHOT IN HER BATH

WEST ORANGE WOMAN FATALLY WOUNDED BY SNIPER

(By The Associated Press)

WEST ORANGE, N. J., Dec. 10—Mrs. Grace Guilliano, 28, a bride of six months, was shot dead in her bath last night.

The bullet, fired from a .22 calibre rifle, came through a window pane and struck her in the back as she was preparing to draw water into the tub.

Her husband of six months, Joseph, who was downstairs reading, heard her scream. She was unconscious when he reached her side and was dead before she could be taken to a hospital.

The shot that killed her was not the first fired last night in the fashionable neighborhood in which the Guilliano home stands. As the husband, seeking help, ran from the house, he came upon a group of policemen who were investigating the circumstances of a shot fired through a window at the nearby home of J. C. Dorn. The bullet shattered the glass but did no other damage.

Sniping has occurred in West Orange at frequent intervals for several years. No trace of the rifleman ever has been found.

HITLERISM IS GIVEN BLOW

IRON RULE CLAMPED ON THE COUNTRY BY BRUENING

(By The Associated Press)

BERLIN, Dec. 10—Germany's moderate press today declared, with emphasis, that Chancellor Heinrich Bruening who clamped the iron rule of a duumvirate on the country yesterday, had given Hitlerism a decided, and, perhaps, decisive blow by his latest radio speech and decrees.

Two days of meditation, meanwhile, on the decree issued by President Von Hindenburg Tuesday night brought home to the German people the fact that two men, the chancellor and Dr. Earl Goerdeler, whom he made "price dictator," now rule the country, economically as well as politically.

All danger has not been swept out of the path of the Bruening cabinet, however. It still faces the possibility that the council of elders might adopt the communist resolution calling for convening the reichstag. The decision on this may come as early as tomorrow.

In political circles, however, belief was expressed today that if the council should call for a session before Christmas the determined scholar-chancellor would wield his dictatorial powers, with the approval of President Van Hindenburg, and dissolve the parliament.

JURY DISCHARGED

FORT WORTH, Dec. 10. (AP)—The jury in the murder trial of Carter Rollins, 19, negro, charged with killing D. L. Reed, farmer, was discharged last night. It was unable to agree.

Santa Claus To Be Here Friday

ARRANGEMENTS COMPLETED FOR BIG CHRISTMAS PAGEANT AND PARADE HERE TOMORROW; LINE OF MARCH IS ANNOUNCED THIS MORNING

The line of march of the parade in which Santa Claus and his reindeer, nursery-rhyme characters, beautiful floats, strutting bands, and uniformed marchers will appear here at 11 o'clock Friday morning was determined this morning at a meeting of a parade committee at chamber of commerce offices.

Mayor J. J. Clements has proclaimed Friday as Santa Claus day, members of a chamber of commerce public relations committee have visited other South Plains towns and invited citizens and their children to the parade and pageant, and thousands are expected if fair weather prevails. Boy Scouts will help peace officers to keep open the line of march and handle the crowds and vehicular traffic.

Riley Huie was chosen as general marshal of the parade and Howard Wester assistant marshal. Sectional marshals selected were Dr. I. E. Bass, No. 1; Richard B. Borders, No. 2; J. C. Sanders, No. 3, and O. W. McLeod, No. 4.

Committeemen will meet at 4 o'clock this afternoon to decide order in which floats, bands, and groups will appear in the parade.

Vantage points for spectators avoiding the jam of holiday crowds will be between Avenues K and Q on Broadway and Main street, members of the parade organization said.

Starting in the business section,

PARKING REQUEST MADE

Lubbock citizens who ordinarily park their cars downtown are asked to park them two or three blocks away Friday morning so that there will be plenty of room for the Santa Claus parade and no damage will be done to the cars. The crowds on the streets are likely to mar and scar the cars by standing on them to get a better view of the parade.

TRUNK MURDER IS PROBED

FULLY CLOTHED BODY FOUND BY POLICE IN APARTMENT

(By The Associated Press)

NEW YORK, Dec. 10.—The trunk murder of Louis Jensen, 27, was under investigation today.

The body, fully clothed and with a bullet through the neck, was found last night jammed into a trunk in an apartment on upper Park avenue, the Bronx.

The apartment was shared jointly by Otto Jockman, a waiter, and Irwin Keller.

Actions Suspicious

Police discovered the body. Jockman had been arrested in Hoboken, N. J., yesterday morning when police saw him emerge from the building in which Jensen lived. The reason for the arrest was Jockman's actions, which seemed suspicious. He was carrying clothing that belonged to Jensen.

Police asked him where Jensen was. Jockman told them Jensen was in New York at the Park avenue apartment. Police went there but found no trace of the man.

Meanwhile, Jockman was ordered held until Jensen should appear. There was no suspicion that Jensen was dead.

After the visit to the Park avenue apartment by police, Keller made a search of the apartment. He found under the mattress a revolver from which a shot had been fired. Alarmed, he called police.

Another search of the apartment was made. They pried open the trunk lid and found Jensen's body.

MOSES CHANCE IS FADING

MAY NOT RETAIN HIS POST AS PRESIDENT PRO TEMPORE

(By The Associated Press)

WASHINGTON, Dec. 10 — Senator Moses' chances of retaining the honorary post of president pro tempore were fading today before the determined, silent stand of the western Republican independents.

These senators, when Moses once called "sons of the wild jackass," made it very clear to Republican leaders they were not going to yield in this strange senate contest in which not a word of debate over the personal issue has been uttered.

Through two days and seven ballots they forestalled any election of a president pro tem by scattering the votes of the Republican majority so as to prevent any candidate from winning.

The equally silent and determined Senator Moses holds on to the post by virtue of no election of a successor but some of his Republican comrades are getting restless at having senate organization held up.

OSLO, Norway, Dec. 10. (AP)—Jane Addams, American social worker, and Dr. Nicholas Murray Butler, president of Columbia university, New York City, were awarded the Nobel peace prize today.

POULTRY SHOW UNDER WAY

SEVERAL HUNDRED OF VISITORS INSPECT ENTRIES TODAY

SLATON, Dec. 10.—(Special)—Forty-four exhibitors were represented by about 500 chickens, turkeys, and rabbits when judging began at the second annual Panhandle-Plains Poultry show here this morning. The judges, C. Murphy of Lubbock and R. P. Galloway of Amarillo, expected to finish their work by late afternoon.

Several hundred persons visited the show Wednesday and today. The largest crowd of the expcsition, which began Wednesday and will end Friday afternoon, is expected this afternoon. Falling of entry totals short of the expected 1,000 birds was attributed partly to road conditions.

Members of the Panhandle-Plains Poultry association will gather at an annual dinner at 7 o'clock tonight at the Slaton community club house. Officers for the ensuing year will be named.

GRID TICKETS GOING FAST

TRAIN CHARTERED TO BRING FANS FROM ABILENE HERE

Reserved seat tickets to the Lubbock-Abilene High school titular football game here Saturday were selling steadily today at Bowen's Hilton pharmacy, a train chartered to bring Abilene fans to Lubbock was assured, and Texas Technological college athletic field on which the contest will be played was under canvas trucked here from Dallas.

Soaking wet when placed on the gridiron, the tarp which arrived here Wednesday consists of 11 strips 10 yards wide and 165 feet long. When dry each strip weights 1,850 pounds. The State Fair association, owner of the covering, values it at $7,000 and sent handlers and guards with it.

Abilene has received 1,000 reserved seats and 250 general admission tickets.

Workmen began Wednesday to install a new entrance at the college athletic field to prevent recurrence of congestion occurring at the Lubbock-Amarillo game.

BIG SHOTS OF BRIDGE WORLD READY TO RESUME THEIR MARATHON TONIGHT

(By The Associated Press)

NEW YORK, Dec. 10 (AP)—After a night watchman's holiday, proponents of rival systems of contract bridge will resume their marathon challenge match tonight.

Sidney S. Lenz, ace of the "official" system, card handler extraordinary golfer, bowler and what not, trained for renewal of hostilities by playing camelot and chess with Jose Capablanca and then some contract at the Knickenbocker Whist club.

His young partner, Oswald Jacoby, former Columbia football player, devoted some thought to the offensive defense he and foxy Grandpa Lenz have been displaying brilliantly. They don't hesitate to be set on hand after hand in the hope of winning a rubber eventually. And Jacoby is usually the boy who does the heavy backfield work in such situations.

Culbertson had engagements for at least four lectures on his specialty between the conclusion of the tenth rubber of the 150-rubber match early Wednesday morning and the beginning of the eleventh rubber with the 60th deal tonight.

Mrs. Culbertson devoted all her spare time to Joyce and "Jumpbid" Culbertson, the children.

Lenz and Jacoby are 2075 points in the lead, an advantage over which the Culbertsons profess not to worry in the least.

MARY WHOSE LAMB FOLLOWED HER TO SCHOOL FOLLOWS THE LAMB IN DEATH

(By The Associated Press)

LONDON, Dec. 10 — Mary Hughes, who many years ago had a little lamb that followed her to school, has followed the little lamb in death.

Mary was 90 and old and blind and lame before she passed on at her home at Worthing. But she continued to tell her story of how she was the Mary whose little lamb in the nursery rhyme became known around the world to children of three or four generations.

"Billy," the lamb, died many years ago of course. Mary, however, her friends said, continued to old age and death with a heart as young and merry as when the fleecy-white lamb followed her to school that day, over 80 years ago.

The story of the verses, as she told it, was this:

"Miss Sarah Buel, later Mrs. Horatio Hale, noted American ethonologist, wrote the verses. Miss Buel was visiting with her two sisters at Tyhiasa, in Vale Llangollen, North Wales, where my father, John Thomas, was a well known breeder of Welsh mountain sheep.

"I was always fond of lambs and when the mother sheep died sometimes my father would often give me an orphaned lamb to keep as a pet. Sometimes I had a half dozen of them and they would follow me around the farm and down the

PUNISHING CHILDREN

CY IS SIX. One evening he was coming home from the grocer's on his skooter-bike carrying a bottle of milk, when he dropped it, scattering the milk and broken glass upon the street.

The lad was crying when I saw him. He said he was afraid to go home. "My mother will whip me," he sobbed. But for seeming to be meddlesome, I had gone home with him, to plead his cause. As it was, I helped him to clear the sidewalk of the debris and urged him to go right home and tell exactly how the trouble happened. I do hope the boy was not beaten nor even scolded. Such an accident could have happened to any one. His mother surely knew that he had gone on his scooter-bike and, therefore, that carrying milk on it was an undertaking very hazardous to milk.

Came to our house a girl of seven, one day, with dress and stockings dripping wet. She was adding to her dampness by her copious tears. She begged us to let her come into the house and stay until her clothes were dry. We welcomed her, of course, but asked ourselves why any child with such punishment already met, should have to stand in dread of more of it. She had been playing by a little pool of water when she tumbled in.

* * *

Doris tears her dress at school and approaches home in dread. Ten chances to one she faces punishment. She may have been a little careless, true. But she probably was not; and no one will ever know except, perhaps, on her own testimony. If she had been very reckless with her clothes at school she had been so with them at home. Children who constantly are having their clothes torn at school need some guidance when they are att home. They may not know the meaning of carefulness. No one may have trained them.

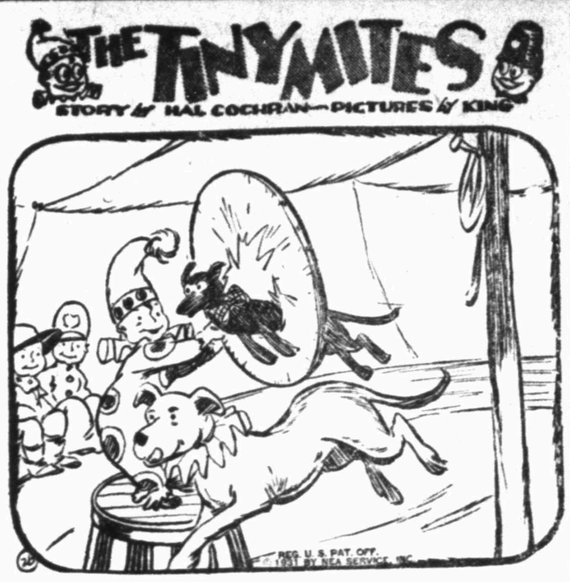

The boy of 18 has had an accident with the automobile he was allowed to drive. He is afraid of the consequences when he goes home. The accident might have come to anybody.

No sense in chastizing children for hard luck; no reason to assume that when they come home with wet or torn clothes, or broken property, to assume always that they need punishment or should be met by angry parents. How absurd to make a child feel afraid to come home!

* * *

Let us be sensible about such matters. Frequently "accidents" to clothes and other property ought to prompt us to give more constructive guidance of the child in our presence with the hope that his habits gained thereby will carry on away from home. If he knows we are unreasonable and unfair, he will surely take advantage of us, bye and bye, for his own protection. When we make ourselves ogres and detectives he will beat us, in the long run, at our own game, and we shall have lost our lofty place as parents, and reduced ourselves to the level of the sneak.

EDITOR'S NOTE: Two pamphlets by Dr. Myers may be obtained by sending 10 cents a coin, for each, and a self-addressed, stamped envelope to Dr Garry C. Myers, in care of this paper or Central Press Association 1433 East Twelfth street, Cleveland O. The pamphlets are: "Punishments and Rewards" and "Fear."

(READ THE STORY, THEN COLOR THE PICTURE)

The juggling act went over great. The dog to Clowny said, "Now wait and let me juggle all alone. Then you can try your luck. I'll toss the Indian club in the air and catch them. If it's done with care it's fine. But if I'm careless with the tossing I'll be stuck."

So Clowny stepped aside until the dog gave all the crowd a thrill. The Indian clubs looked pretty as the dog spun them around. "That is the best I ever saw," said Clowny. "They land in his paw. No matter how he spins them they are always safe and sound."

The dog then finished with his trick and Clowny stepped right out to pick a couple of Indian clubs up. "I can do it, too," thought he. "When I begin to toss them up, I'll be much better than that pup. I'm certain that the little stunt is easy as can be."

He soon found out how wrong he was. The Tinymites laughed loudly 'cause the clubs, instead of landing in his hands, flew here and there. Then Clowny stopped and said, "I guess with this act I have made a mess. But I've pleased everybody in the tent, so I don't care."

Then Clowny heard a big whip crack. One dog, upon another's back, had rushed out and was ready now to do a jumping trick. "Hey, hold the hoop," one dog cried out. "You'll soon know what it's all about." "All right," replied brave Clown. "Gee, I'll bet this will be slick."

The hoop had paper, stretched on tight. Soon Clowny shouted out, "All right! If I find that the hoop's too high, I'll very quickly stoop." The dogs came by him very fast and as the running dog went past, the one that sat upon his back jumped neatly through the hoop.

(The Tinymites do some tumbling acts in the next story.)

Liquor Smuggling Directed By Radio

SAN FRANCISCO, Dec. 10 (AP)—Harry Bruce Mowatt was in jail today awaiting hearing on charges growing out of alleged operation here of a powerful radio station in the direction of liquor smuggling on the Pacific coast while federal authorities sought four other men, said to be his employers, on similar charges.

The men wanted were George MacDonald, Tony Picetti and two whose names were unknown to authorities.

A search which started in February, 1930, ended yesterday when federal officials broke into a residence and seized the radio equipment. Mowatt threw the head phones from his head and dashed out. Arrested, he refused to talk.

NEGRO GRANTED STAY

AUSTIN, Dec 10 (AP)—Governor R. S. Sterling yesterday granted a stay of 30 days to Alfred Jackson, negro, sentenced to die in the electric chair December 11, for the murder of Eliza Pinson, negress, in San Antonio last April 12.

Shipments of iron ore from the Lake Superior district for 1931 are expected to be the lightest in a decade, less than 30,000,000 tons.

If you want to know what the Governor of New York said to the former Governor of New York, you'll have to do a lot of guessing. For neither Governor Franklin D. Roosevelt (left) nor former Governor Alfred E. Smith (right) would divulge the purpose of this dinner meeting in New York City.

A Shackelford county river ranch of eight thousand acres was sold recently for one hundred, forty thousand dollars.

The Truth About Rheumatism

The truth is that within 24 hours after you start taking the efficient prescription called Allenru uric acid poison starts to leave your body.

Within 48 hours pain, agony, and distress are gone—you're happy again—and back on the job.

You're simply fooling yourself when you stick to makeshift pain deadeners and relievers—unless uric acid goes—rheumatism stays with you.

Allenru is positively guaranteed by Mark Halsey Drug and druggists everywhere to do just as this notice states or money back—a generous bottle for 85 cents.—Adv.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. (adv.)

GINNINGS FOR AREA HIGH

PICKERS KEPT FROM FIELDS BECAUSE OF RAINFALL

RALLS, Dec. 10.—(Special).—Rains have kept pickers from Crosby county cotton fields most of the last two weeks and, with 23,732 bales ginned in the county to Monday, not more than 25,000 is estimated to have been ginned by today.

Ralls, Crosbyton and Lorenzo are running neck and neck in total ginnings, each with approximately 4,800 bales.

The county is expected to produce better than 30,000 bales this season. The total may run as high as 33,000, depending upon weather conditions and prices. If the price goes up, more farmers will clean out their fields. Otherwise the crop will be light.

RALLS, Dec. 10.—(Special).—Although Lamb county fell about 9,000 bales short of Lubbock county in ginnings to Monday, when season totals are announced for the two counties they will be much closer together, C. E. Dean, Ralls cotton man and gin owner, opined. Lamb and Lubbock counties are in a race for first place in cotton production on the South Plains.

Mr. Dean owns several gins in Lamb county. He has been keeping a close watch on reports from that county.

"In Lamb county the last I talked to any one, I figured that 60 per cent of the crop was picked," he said. "I think we have about 75 per cent here. Lubbock county has about the same per cent picked."

MAY USE ROBOT

NEW YORK—Eastern Air Transport has received permission to operate a robot pilot on its scheduled line between New York and Jacksonville, Fla. The plane is one of a fleet of 18 regularly flying the course and, if experiments with it prove satisfactory, it is likely that the mechanical pilot will be installed on the others.

Since increased taxes are necessary, Congress may sock the higher incomes. A sock by any other name would be unholy.

LIFE OF GEORGE WASHINGTON TO BE PRESENTED IN NEW MOTION PICTURE

ROCHESTER, N. Y., Dec. 10 (AP)—A motion picture life of George Washington, with many of the scenes filmed at the places where the original events occurred and emphasizing incidents which reveal his character and reflect the spirit and conditions of his time, is nearing completion.

Prepared under the sponsorship of the George Washington Bicentenial commission as part of the 1932 celebration of the first president's 200th birthday, the film will be released some time in January.

Historic Mt. Vernon has been opened to motion picture cameramen for the first time. Other scenes have been made at Kenmore, the home of George Washington's sister in Fredericksburg, Va., and Independence Hall in Philadelphia. The picture is destined primarily to present to children of school age an understanding of Washington through vision.

Dr. Edgar Dawson, head of the department of history at Hunter college, collaborated with the Eastman Kodak company in the preparation of the scenario.

U. S. army regulars appear in the war scenes. There are Virginia woodsmen and Indians from the Pawkunkey reservation in Virginia.

Ellsworth Woods was chosen to play the part of Washington for his striking resemblance and physical measurements.

There are four reels of "conquering the wilderness," "uniting the colonies," "winning independence" and "building the nation."

WOMEN LIKE AIR

WASHINGTON — Twenty-three per cent of the persons carried on United Air Lines' transcontinental route between New York and San Francisco were women, the company's report shows. This percentage, although high, is exceeded by the number of women making use of the line between Seattle and San Diego on the Pacific coast.

Debate Carded At Farm Bureau Meet

As the principal number on the Lubbock county Farm Bureau federation's program, a debate will be conducted Friday night at Acuff on the question: "Resolved, that the agricultural marketing act should be repealed." The debaters will be six members of the Texas Technological college agriculture school's cooperative marketing class.

N. M. Payne is chairman of the program committee.

The debate will last 50 minutes. Team members are: Affirmative, E. C. Cauble, jr., captain; Fred De Lashaw and Silas Williamson; negative, James Potts, Milton Lee Campbell and E. C. Keuble. Dr. J. O. Ellsworth is instructor of the class.

"Soil Resources" will be discussed by Sterling C. Evans, district county agent leader, and H. J. Bower, professor of agronomy at Texas Tech, will speak on "Soil Formations." George C. Cooper is president of the federation.

A modern lime kiln is to be built at Big Spring.

WIFE OF FARMER IS SHOT BY SON

PLAINVIEW, Dec. 10.—(Special)—Mrs. Ira Ratliff, wife of a farmer living three miles west of Plainview, was accidentally shot in the head and her skull fractured by the bullet from a gun in the hands of her 17 year old son Robert Lee Ratliff.

Young Ratliff was handling a 38-calibre gun he did not know was loaded. It had a 32 calibre bullet in it and the gun was discharged, the bullet striking the mother on the side of the head and fracturing the bone but not entering the bone. The fact that the bullet was of smaller calibre than the regular one for the gun and that there might have been a defect in the bullet, is assigned as the reason for the failure of the lead to penetrate the skull.

At a local hospital it was said Mrs. Ratliff had favorable chances for recovery.

How the smaller sized bullet came to be in the revolver was not known to members of the family.

PRODUCTION FALLS

WASHINGTON—Output of complete airplanes by American aircraft manufacturers during the first three quarters of 1931 fell short of the 1930 production for the same period, the Aeronautics Branch of the U. S. Department of Commerce reports. The production for 1931 totaled 2321 units, which was 400 short of those completed in 1930.

WESTERNERS SHOW GOOD SPIRIT IN WORKOUT FOR EAGLE GAME

BASEBALL PLAYER MART CONTINUES TO BE WIDE OPEN TODAY

PRACTICE FOR CLASH TO BE CONTINUED

TWO REGULARS OUT OF LUBBOCK LINEUP WITH INJURIES

The Lubbock Westerners, on the verge of their first West Texas football championship, went through a snappier workout yesterday and appeared to look considerably better than on the previous day. There is still not the spirit and enthusiasm connected with their work that was present when the club was preparing for district and bi-district conflicts. The team appears to be suffering a natural let down after a hard season.

Two more workouts face the Westerners before they meet the Abilene High school Eagles here Saturday in one of the quarter-final games of the state schoolboy race.

Will Ed Watson, regular end, and Cotton Welch, sensational little right guard, were still on the outside of things yesterday. Watson reported for practice but was unable to do much. Welch did not come to the field. He is being treated by a physician this week and has been ordered to lay off as much work as possible. Watson is troubled with a badly sprained ankle which may keep him out of the lineup Saturday.

Abbott And Brown Play

Rosser Abbott, versatile guard and tackle, was at a guard position yesterday and Gene Brown, lanky lad, was wearing Watson's jersey at left end. Both of these lads played the bulk of Saturday's game against Quanah and turned in nice cards. There is reason to believe they will be used quite extensively against Abilene.

Big Bert Williams, right tackle, was hobbling about yesterday with a charley horse. A charley horse, readers, is a kind of sore place where in a muscle becomes contracted and is obstinate about becoming straight. There are several in the ranks of the Westerners. Welch, in fact, is bothered with them. Louis Spears, the defensive hero tackle against Amarillo in the last game here, is not in the pink of condition, however he was able to do his turn yesterday and is sure to see much service Saturday. Dalton Blagg rested last Saturday and is back at right end as fit as the proverbial fiddle, if his actions mean anything. Melvin Griggs will be in shape to play at the other guard and and Captain Bob Crawford apparently is in fine fettle. It is well.

Backfield All Set

The Westerners backfield appears to be in fair condition. Britton, Merrill, Scoggin and Barnett are all okay, or they looked that way yesterday in a workout that was somewhat an improvement over Monday's drill. Particularly pleasing is the showing of Gene Barnett, plunging fullback, spinner and passer. He has not been in good condition for the last four games but seems to be practically recovered.

The team put in a good day yesterday, stopping after a period of signal practice for setting up exercises after which they drew up on defense against the first line of reserves. With Bill Davidson, Charley Crenshaw, Joe Nelson and J. D. Stovall in the opposing backfield running Abilene plays from their favored short punt formations, the regulars had about all they could do to stop the on rush and the aerial show.

There will be another good workout today and a tapering off tomorrow. Rated as the underdogs by most state critics, the Westerners undoubtedly will have their hands full to capacity with Abilene's Elephants.

SPYING ON SPORTS

BY COLLIER PARRIS

PETE W. CAWTHON, Dutchey T. Smith, Double Yell Stangel and maybe Paul Whitfield Horn will not be in town Saturday for the big blow-off on their football field. They will be in Dallas attending a meeting of coaches and authorities of the Southwest conference, Texas conference and Texas Intercollegiate Athletic association. It is the annual powwow, and the tom-toms are boom-booming. You may ask just what business the Lubbock delegation will have at the meeting. Shush! Shush! Secrecy shrouds.

• • •

The same gentlemen presented themselves at the meeting a year ago and asked for admittance into the Texas conference. They were refused. A majority of the schools in that circle agreed but the two others were "agin" it because "in a few years Texas Tech will have too good a team to play with us; it won't be no fun; they'll beat us every year."

• • •

It is being rumored and grape-vined about that the Tech authorities will seek admittance to the Southwest conference. Maybe so. We have promised our support by being silent about the matter, whatever support that may be. The old talk is up again about Tech being forced to allign itself with an athletic conference or give up its standing with the Southern Association of Colleges and Universities, which is a part of the National Association of Colleges and Universities. If Tech has to get into a conference, it would be nice if they could get into the Southwest conference, which is a pretty fair circuit.

• • •

The Southwest conference does not wish to enlarge its scope or membership. It does, however, wish to cut the thing down to six teams. On the other hand, two additional schools hope to secure a berth therein. Centenary is pretty sure to put in its annual bid for Southwest conference membership. There will be talk again of kicking Arkansas out of the group. If Tech puts in a plea, which it may or may not do, there is going to be some scuffling about, for it is not the wish of the loop to increase. The Southwest Conference could do worse than admit Tech into its restricted area. Tech could do a lot worse than get in.

• • •

If the Texas conference voted down last year for the above reasons there is every reason to believe that they will be even stronger in their denial this year. But Tech is not going to bid for Texas conference membership. That much was settled a year ago. Neither will Tech apply for T. I. A. A. membership, and it is wise. Tech next year can beat any two T. I. A. A. teams on the same afternoon, and it can beat one Texas conference team one day and clean up on any other the next day. Tech can beat at least three teams in the Southwest conference next year. It will beat one, maybe two, of the S. W. clan, anyway.

• • •

It must not be forgotten that Tech won three mythical championships this season, though not a member of any circuit. The Matadors beat the champions of the T. I. A. A., Texas conference and Far Southwest conferences.

• • •

But you can't get away from the fact that Lubbock High is going to play a state quarter-final football game here Saturday. While they have received wide recognition for their "iron man" stunts while winning the district and bi-district championship, the Westerners are rated as underdogs against Abilene. The sports writers of the state believe that Lubbock has a good team but that it is slightly over rated and over exerted. And they pin their beliefs on Abilene.

• • •

Pop Boone, one of the better state scribes, who works for the Fort Worth Press, states that he probably will come to Lubbock Saturday for the game rather than see the Corsicana game. He saw Corsicana last week and tells a lot of news about that club. He thinks Abilene and Corsicana may meet in the state finals. He saw Abilene whip Sweetwater last Friday and appears considerably impressed by the Eagles' way of doing things. We shall see, we shall see, and we hope we shall see a Lubbock victory.

PROBLEMS ARE BEING FACED AT CONFAB

HACK WILSON TRADED TO CARDINALS FOR BURLEIGH GRIMES

CHICAGO, Dec. 10. (AP)—The player market was still wide open today as the majors met jointly to discuss common problems.

The Chicago Cubs' angle of the Hack Wilson question was settled by one of baseball's biggest deals which sent the former home run champion to the St. Louis Cardinals in exchange for Burleigh Grimes, pitching hero of the last world series. However, there was more than a slight possibility that Wilson would be used as trading timber by the Cardinals. Bud Teachout, the young left handed pitcher who also went to the Cards in the transaction, was said to be slated for a job with one of the St. Louis minor league farms.

Kenesaw Mountain Landis, commissioner of baseball, was reported to have something pointed to say as he presided over the joint meeting. His theme was expected to concern actions of several clubs in connection with the option rule.

The sacrifice fly rule and the reduction of the player limit were certain to be thoroughly discussed. It was reliably reported that no change in the sacrifice rule would be made and a reduction of the player limit from 25 to 21 men, as has been suggested, was considered hardly likely.

Horton Smith Is Pacing Golfers

SAN FRANCISCO Dec. 10 (AP)—Paced by Horton Smith, tall young Missourian, some 133 surviving amateurs and professionals unlimbered their clubs today for the second round of the 36-hole qualifying tests for the $7,500 national open match play golf championship.

Smith turned in a brilliant 68, four under par for the Lake Merced course to lead nearly 200 starters in the first half of the qualifying round. Players with scores of 86 or over were automatically retired, but all outstanding performers came through.

On his game from tee to green, Smith was a favorite to win medal honors in the race for the 32 qualifying places. One stroke behind the leader was Gene Sarazen of Great Neck, L. I., one time national open champion.

Frank Walsh of Chicago started his second round in third place with a 70, while Al Espinosa of Akron, O., took up from the 71-stroke station.

Two youngsters, Sid Harmon of Salt Lake City and Willie Goggin of San Francisco, who equalled par 72 yesterday, were expected to land in the select 32.

The 73-stroke class had eleven representatives, including Walter Hagen of Detroit, former national open title holder, Wiffy Cox, of Brooklyn; Olin Dutra of Santa Monica and Abe Espinosa and Joe Kirkwood of Chicago.

Dalrymple Injury Held Not Serious

NEW ORLEANS, Dec. 10 (AP)—Further X-ray examination of Jerry Dalrymple, Tulane football captain, in a hospital here with a kidney injury, confirmed earlier reports by physicians that the injury apparently is not serious.

Dr. Edmond L. Faust in a bulletin said: "Dalrymple's condition is still further improved, the second X-ray examination also being negative. He will remain at the hospital until Friday, but will be kept completely quiet and at rest at his home three or four days after that."

A railroad line was built recently from Loving, New Mexico to the potash fields five miles distant.

HORNSBY HAS NO INTEREST IN WILSON ATTACK

CHICAGO, Dec. 10 (AP)—What Hack Wilson thinks about the managerial policies of Rogers Hornsby, pilot of the Cubs, no longer is of interest to the Rajah.

Commenting on Wilson's attack yesterday on his batting instructions, Hornsby said:

"I am not bothered about anything Wilson says, as he now is the property of another club. However, I will say that he was permitted to hit any kind of pitch, except when the count was two and nothing and three and one. Instructions on such occasions is the prerogative of a manager. For the most part, Wilson was permitted to think for himself when he was at the plate."

DENTON TEACHERS WIN TIAA TITLE

DENTON, Dec. 10 (AP)—The North Texas State Teachers college Eagles were football champions of the Texas Intercollegiate Athletic association today. They won the title by defeating the Daniel Baker college, 32 to 13, in a post-season game here yesterday. The teams were tied, 13 to 13, at the half, but Denton swept to victory in short order when play was resumed. Wright made three touchdowns for Denton.

CADETS ARE FAVORED IN TRADITIONAL CHARITY GAME

NEW YORK, Dec. 10 (AP)—Although the season's records of the Army and Navy football teams seem to give the Cadets a big margin over traditional rivals, there is every indication that the contest will be as close as Army-Navy games usually are.

In ten games each has played so far, Army's record shows seven victories and one tie against two defeats and only one of the two was a bad beating. Navy lost two games by 20-0 scores and two by closer margins while winning five and tying one.

Navy showed few signs of real strength until its last three games and then improved steadily. In the Pennsylvania game last week, "Bullet Lou" Kirn, the midshipmen's chief offensive threat, came back in better form than ever before. And Sam Moncure, new quarterback, got a "punch" into the Navy his predecessors had not been able to uncover.

Against this and Navy's strong defense, Army has the team that trounced Notre Dame 12 to 0. Ray Stecker, beat Navy last year and who performed brilliantly against Notre Dame, is the kingpin of the Cadet attack but Tom Kilday has been performing with special brilliance in practice this week and there are plenty of other good backs.

FLIGHT ANNOUNCED

Strong Abilene Line Will Be Intact For Grid Clash Here

ABILENE, Dec. 10—(Special)—That great Abilene forward wall which has bowled over everything that crossed its path in the way of high school football teams so far this season, will be intact when the Eagles go to Lubbock Saturday to meet the Westerners in the state quarter-final contest.

There may be a few replacements in the lineup, particularly in the backfield, but Coach Mayhew can afford to make replacements and still have a good ball club left. The installation of Lennon Blackmon in the fullback position to take Sam Jones' place, and Layton Airey may go in at right halfback.

Blackmon for two years has busted the tackles, and whirled his hips into the ends. There exists the suspicion, however, that he can transport the mail about as capably as any man on the ball club. He is certain of several chances this week. Mighty Pool, whose broken finger has healed again, and Frank Cogdell are other possibilities to start in the backfield.

The General Improves

Quarterback Wyatt's neck is responding nicely to treatment, and it begins to look as if he will be there directing the attack again. There's likelihood yet of Fats Allen getting to make a start at end.

From one tackle to the opposite end the Eagle line is all ship shape, and that counts a lot, or has so far. There is the warning, however, that the Elephant brigade will bump the stiffest forward opposition yet encountered. What happens when that Abilene line really meets its equal is something to create wonder among the natives.

Down in this country Stanley Smith is considered the state's best high school center. Up on the plains Bob Crawford, captain of the Westerners, is rated the best center in the state. The argument may and may not be settled by that struggle. It seems almost a certainty, however, that the two best snapperbacks of the league will be meeting, and that it's going to be one of those fur-flying scraps.

Welch Best Guard

Coach Chapman has a star guard in Cotton Welch. He has an aggressive but little wingman in Dalton Blagg, and maybe he has some more front line stars whose fame has not spread to this point.

In the backfield there are Gene Barnett, Mack Scoggin, and Cecil Merrill, the offensive aces. Barnett did not get to play against Quanah, he being injured and there being no necessity for aggravating the wound. It is supposed that Gene is booked for duty against the Eagles. Barnett incidentally, had hoped that the game would be played in Abilene, so he could spend the week-end at home, down at Melvin.

Coach Dewey Mayhew announced yesterday the Eagles will move out Friday morning by bus, taking the train from Sweetwater, and arriving at Lubbock Friday afternoon at 4:10, in time for a workout. The squad will be quartered at the Hilton hotel. The entire first squad which will probably number 27 athletes, will make the trip.

Train Plans Pending

Plans for a special train from Abilene were still incomplete. A committee composed of D. G. Barrow, L. E. Dudley and Dr. Hugh B. Tandy is in charge. Railway officials have announced the special will not be run unless a passenger list of 200 can be secured.

* * *

They've juggled the districts around quite a lot since 1920, but not enough to keep the sections now numbered 1 and 3 from meeting almost every year in championship competition. The only skips occurred in 1921 and in 1926, leaving a grand total of eight encounters.

Until last year the laugh had always been on the same side of the mouth. Then it was transferred as the Breckenridge Buckaroos went to Amarillo and before a whole park full of fans dropped a decision of 13 to 0. That makes it necessary for the Abilene club to take the game seriously. The time was that the Oil Belt champions just took the district 1 clash for granted and started practicing for the semi-finals.

Best One in 1928

Last time an Eagle eleven met up with the region now represented by Lubbock was in 1928. There was the best game on the records between these districts—Abilene leading 26 to 7 right down to the wire, and then the Messrs. Kenneth Travis and Robert Walker, who now do their stuff for S. M. U., whipping over a lot of passes to leave the final 26 to 21. Don't get the wrong impression. The Elephants were not nearly whipped, and were thundering toward the opposition's goal just before it all ended.

Just to relieve the suspension here are all the scores:

1920—Abilene 52, Amarillo 7.
1922—Abilene 33, Amarillo 0.
1923—Abilene 48, Amarillo 0.
1925—Cisco 76, Amarillo 0.
1927—Abilene 46, Amarillo 6.
1928—Abilene 26, Amarillo 21.
1929—Breckenridge 13, Amarillo 0.
1930—Breckenridge 0, Amarillo 13.
Total—Oil Belt 304, District 1 47.

Big Crowd Seen At Class B Tilt

CLARENDON TO MEET MASONIC HOME AT WICHITA FALLS

WICHITA FALLS, Dec. 10 (AP)—A crowd of 10,000 ardent class B football fans was expected here Saturday as local sponsors completed arrangements for the regional championship game between the Masonic Home eleven of Fort Worth and the Broncs of Clarendon.

The teams will be fighting for the championship of region No. 1 of the interscholastic league. The Masons are champions of districts three and four while Clarendon is monarch of districts one and two. The Masons last week crushed the Olney Cubs 47 to 6 in the bi-district game, thus ending a two-year reign of the Cubs in region 1. The Broncs beat Lamesa, 12 to 6, in the Panhandle bi-district game.

Interest Is Shown

Masonic leaders in virtually every northwest Texas and southern Oklahoma town are sponsoring ticket selling campaigns in their communities, and several schools in nearby towns plan to send their pep squads and bands. The local high school rooting sections will be on hand.

The championship game was brought to the neutral Wichita Falls gridiron upon invitation of the local chamber of commerce.

Noted for their excellence throughout the state, class B teams in this section annually attract wide interest in grid circles and a record crowd was expected here Saturday for the final game of the season. Class B competition stops with the regional championship game.

Stevens Rechosen Yale Grid Coach

NEW HAVEN, Conn., Dec. 9 (AP)—Mal Stevens who brought to Yale this season its first "Big Three" championship in four years, was reappointed head football coach yesterday by the Yale athletic board of control, for one year.

Benny Friedman, former Michigan passing ace, who served as a part time coach this year and as guest coach the year before, was not included in the appointments announced.

Don't Endanger The Lives Of Your Family With Doubtful TIRES

GOODRICH TIRES

58% Better

Your wife detests driving the car with faulty tires, and it is a needless affair when you can equip your car with a new set of Goodrich Tires far cheaper than ever before at the present all-time world's low price levels.

Equip your car with a new set of Goodrich Tires this Christmas and please every member of the family. It is a careless matter to subject your family to the danger of faulty tire driving.

It really doesn't pay, and to think our trade-in allowance on your old tires will many times more than pay for all the unused tire mileage that might be in the old tires.

Monkey Released On Probation

CHICAGO, Dec. 10. (AP)—"Jocko," a monkey, was on probation today.

The police permitted his return to his owner, Mrs. Anna Jans, who said she would try to train him back to honest ways.

Four boys were arrested and and admitted, police said, they had stolen the monkey from Mrs. Jans and trained him to climb over transoms and release door catches to permit their entry into apartments they wished to ransack.

The boys are to stand trial on six charges of burglary and larceny.

Confessed Slayer Escapes Execution

WOOSTER, O., Dec. 10 (AP)—Mrs. Julia Maude Lowther, 24, confessed killer of Mrs. Clara Smith of Ashtabula, escaped death in the electric chair yesterday when Common Pleas Judge George A. Starn returned a verdict of first degree murder, with mercy. The verdict requires a sentence of life imprisonment.

Judge Starn promptly sentenced Mrs. Lowther to life imprisonment in Marysville reformatory.

Mrs. Lowether was once sentenced to die in the electric chair at the state penitentiary—the first time such a penalty had ever been directed for a woman in Ohio—but the court of appeals granted her a new trial which ended yesterday.

MAKE BELIEVE WORLD IN CHICAGO'S LOOP INVADING BUSY STATE STREET

(By The Associated Press)

CHICAGO, Dec. 10.—The make believe world in Chicago's loop has crossed the boundaries of the big toy departments this Christmas and invaded busy State street itself.

From one end of the Loop to the other this great shopping center has been transformed into a street of fantasy. Seventy giant figures adorn the tall lamposts. There is not a Santa Claus in the lot but each of the carnivalesque figures is designed to stir the imagination of children.

And the anticipation of the youngsters' questions, each figure has been named and parents supplied with fables about them.

The four Laugh brothers, Hearty, Loud, Happy and Long, who were always gay, always playing jokes and who had a dog named Giggles, are shown as they were dressed in comic costumes to visit their friends on Christmas.

Big Ben and Little Leo, two strong men in the circus, are there, with Little Leo standing on Big Ben's shoulders, just as he did in the circus.

There's Crooner, the saxaphone player with his mouth open as if he were still singing soft love tunes. The legend is that he knows more Christmas carols than anyone else in the world.

Zoo skyscraper is a poor giraffe who thought he was taller than any building in the world until he was disillusioned by a little sparrow that had been places and seen things.

John Scott Harrison, who was born in 1804 at Vincennes, Ind., was the son of William Henry Harrison, ninth President of the United States and father of Benjamin Harrison, the 23rd president.

America's Oldest Twins

William and James Doyle, 85-year-old brothers, who are believed to be the oldest twins in America. Both served in the Confederate Army. William is in state politics at Austin, Texas, while James is a banker and merchant of Granbury, Texas. The twins declare that dancing, egg-noggs and playing bridge have kept them spry.

HERE'S MAN WHO SAYS BUSINESS NEVER BETTER

CHICAGO, Dec. 10 (AP)—Bank presidents, business men, financial giants and pessimists, read this and buck up.

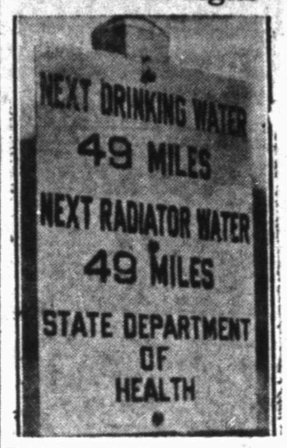

The man who says his business never was bigger or better was found today.

He is Joseph Carr, preident of the National Professional Football league.

The 1931 season, just closing, President Carr said, was a record breaker in attendance and gate receipts. Incomplete returns indicated the Chicago Bears will have a thirty per cent increase in attendance, and may lead the league in money drawn at the gate, with the New York Giants close up, or perhaps slightly ahead. The Green Bay, Wis., Packers, the champions, will show a sweet profit.

Menard county officials are now occupying the new $100,000 court house completed recently.

Believe In Signs

Even if you don't, as a general rule, believe in signs, here's one that indicates there is at least one arid spot in the U. S. One might think, in view of this particular sign, that it was meant for camels only, but such warnings often appear in Nevada as a guide to motorists. This is just another case of "bring your own."

THREE AGENTS DEALT BLOW

TWO SUSPENDED AND THIRD DISMISSED BY WOODCOCK

WASHINGTON, Dec. 10. (AP)—Three prohibition agents—two accused of racketeering in protection and the third already suspended for his connection with the death of a Colorado youth—yesterday felt the swift and heavy hand of Prohibition Director Woodcock.

To a fourth federal agent recently in trouble in court, the federal dry chief dealt out "another chance."

Woodcock suspended W. W. Shultz, Pittsburgh, and David Gould, Baltimore, immediately after a federal grand jury indicted them for extortion, in Harrisburg, Pennsylvania, on evidence brought by their federal superiors.

Promised Influence

Shultz and Gould were of a group who promised to use their influence, Woodcock explained, to get off lightly saloon-keepers and other violators.

Henry Dierks permanently was dismissed. Woodcock suspended him recently, after Milford G. Smith, young Englewood Colorado, truckman died from a wound Dierks is accused of inflicting in a scuffle over a bottle of wine. Later Woodcock investigated administration in the district, and John F. Vivian resigned as deputy administrator.

Frederick Wilson, Buffalo, New York, was the fourth agent. He was tried with two other men, for assaulting the proprietor of an alleged speakeasy. He was convicted of "third-degree" assault. The others were acquitted.

WEATHER NO BAR

Regardless of the weather, the parade will be staged starting promptly at 11 o'clock Friday morning, it was stated at the offices of the Lubbock Chamber of Commerce this morning. Santa and his expedition are used to inclement weather and have been staging parades throughout the middle west for the past three weeks in all kinds of weather. So if it's snowing, don't think Santa won't parade for that's when his reindeer prance the most.

Floats To Compete

Floats which will compete for prizes include 20 from Lubbock, two from other towns, and 17 brought here by Santa Claus. Bands marching in the parade will be from Lubbock High school, Texas Technological college, Olton and Anton, Tex., and Tatum, N. M. Visiting bands will be judged and awards made.

The following organizations will be represented by floats: The American Legion auxiliary, City Federation of Women's Clubs, Camp Fire girls, Shakespeare club, Daleth and Lu Beta Delphian clubs, Athaeneum club, Sorosis club, Technological college school of agriculture, Junior Twentieth Century club, Rotary club, home demonstration clubs, four-H clubs, South Plains Area Boy Scout council, American Association of University Women, Allen Brothers post of the American Legion, the Salvation Army, and Olton and Hurlwood. Members of a Technological college women's riding class and the college national guard unit will appear also.

Accompanying Santa Claus will be floats representing America, Queen Isabella, a sacred parrot, a peacock, a rainbow, a Chinese goddess, a Japanese jinricksha, Italy, the Prince of Love, the Star of Faith, funny heads, Mary Christmas, the three wise men, a Dutch family, clowns and an Italian family.

French Opposition Is Voiced To Plan

BASEL, Dec. 10 (AP)—The Young plan committee was faced today with the flat opposition of France to reduction of Germany's reparations obligations.

The attack was launched by Professor Charles Rist, noted French economist, who accompanied Premier Laval to Washington for his conferences with President Hoover and who is an expert of the Bank of France.

Prof. Rist declared Germany's case is invalidated by the very figures submitted by Dr. Carl Melchior, the German representative and authority on short-term credits and other financial problems facing the committee. The figures, Prof. Rist said, showed great uncertainty in Germany and justified a belief that this is not the proper time to evaluate the country's capacity to pay.

emergency," and make recommendations to congress.

Mr. Hoover ranged from Manchuria to Mexico and from the St. Lawrence waterway to Paraguay. He again urged adherence to the world court and vigorous action by the world at large to curb armaments.

The president asked legislative sanction for the moroatorium within the next five days, for it is on December 15 that the next payments from abroad fall due.

He suggested provision for payment of the installments withheld over a ten year period, beginning July 1, 1933.

His statement of last spring that "I do not approve in any remote sense of the cancellation of the debts to us," was repeated.

Other than to reiterate America's "responsibility in maintaining the integrity of China" he confined his discussion of the Manchurian situation to a review of steps taken.

Mexican Held After Liquor Raid Here

A Mexican arrested last night by police in a raid in the 900-block on Fourth street was in county jail today awaiting filing of charges of liquor law violation. Policemen H. B. Brown and Grady Harris said they found 11 half-gallon jars of whisky in a house rented by the suspect.

Omer Alexander, indicted for liquor law violation by a 99th district court grandjury Tuesday, was arrested this morning and committed to county jail.

W. F. Bader, whom the sheriff's department said was transferred here from El Paso and held for counterfeiting, was imprisoned in county jail this morning.

Damages Asked For Explosion Of Gas

Transferred from the Bailey county district court, the case of Clarence Goins vs. the West Texas Gas company, incl., for damages Goins allegedly suffered in a gas explosion at Muleshoe last March, has reached the United States district court here, a transcript of the case having been filed.

Goins seeks $25,000 damages, refund of $65 for medical bills already incurred, and payment of $500 hospital and medical bills per year for additional treatment for a period of not less than two years.

The plaintiff's petition sets out that Goins was blown through the window of a newly constructed dwelling house in Muleshoe by a gas explosion March 5 and that he suffered injuries to his lungs which have resulted in his contracting tuberculosis. Goins alleges the gas company installed equipment in the building, and turned on the gas without informing him. While he was working in the building accumulated gas exploded, the petition sets out.

Melton Is Released On Bond Wednesday

Indicted for violation of the prohibition act, S. E. ("Slick") Melton is free in bail of $1,000, posted Wednesday afternoon. Melton was arrested November 4 near Shallowater and had been at liberty on a $1,000 bond until he was taken into custody again Wednesday. City and county officers confiscated 18 gallons of whisky in an automobile allegedly driven by Melton.

Emily Hawkins, a negro woman, indicted for theft from person, and Martinez Alvarez, a Mexican, for assault to murder, also were arrested Wednesday by the sheriff's department.

KIWANIS HONORS TECH GRID TEAM

Members of the 1931 Tech football team were honor guests at the luncheon of the Lubbock Kiwanis club in Hotel Lubbock today noon. Coach Dutchey Smith was in charge of the program.

Following introduction of the boys, two freshman players, Benson and Turner, favored the club with "breakdown" selections with violin and guitar. Then Coach Smith put the boys through several formations, explaining the plays to the club. Coach Pete Cawthon told of next year's schedule, announcing six home games. "Mule" Kayser entertained with clever imitations of dogs and airplanes.

Players present were: Jack Durham, captain; Moody Faulks, Bill Teal, George Langford, Elva Benito, Clarence Young, Ross Ayres, Toby Greer, Eli Harris, Lacey Turner, Lester Tribble, Harold Crites, Lawrence France, Milton Moffett, Edgar Close, Murray Nichols and Bo Williams, manager.

Methodists Gather At Slaton Session

SLATON, Dec. 10.—(Special).—Lubbock Methodist Episcopal district representatives assembled for the first meeting of the new conference year Wednesday at Slaton. Rev. C. A. Bickley, presiding elder of Lubbock, had charge.

Pastor, district stewards and lay leaders gathered at the First Methodist church where the sessions were conducted.

Rev. Mr. Bickley made the opening talk and Rev. J. O. Haymes, pastor of the First Methodist church, Lubbock, and Rev. W. H. Wallace, pastor at Lamesa, spoke on benevolences. O. H. Cline of layman. Lunch was served at the Lubbock talked on the work of a church. Rev. J. W. Watson of Lubbock spoke to the group in the afternoon.

CHANGE STATE PATROLMEN

NEW ASSIGNMENT FOR HIGHWAY STAFF IS MADE WEDNESDAY

A change in the state highway patrol staff headquartered here will follow new assignments of members of the state patrol and addition of new patrolmen, Austin reports said.

J. L. Croft, formerly patrolman here, has been transferred to Graham and E. C. Dorris, new member of the state force, is being sent here. Jack Reaves will remain on duty here. He and Dorris are expected today from Austin, where they attended a week of training school.

Other Assignments

Abilene: Captain Martin N. Goonsman, W. M. King and W. B. Dixon, the last named a new member.

Amarillo: Sergeant R. H. Routh, T. T. Keffer and Boyce Long, who is a new patrolman.

Alpine: Joe Fletcher and J. N. Thompson, both new members.

Eastland: Morgan C. Myers and Ernest Daniel., both new men.

San Angelo: Lieut. J. B. Draper, L. Posey and G. L. Morahan, the last named being a new patrolman.

Big Spring: C. L. Schuck and W. . Logge, both new patrolmen.

Pecos: H. B. Mathews and Dan Abbott, the latter a new man

Wichita Falls: John Lowry and L. Wood, the latter a new man.

A new telephone line is being built from Olton to Littlefield in Lamb county.

Santa Suggests—

Gardenia Molded Soap

Every Christmas there are some folks to whom you must give gifts but for which you just cannot spend much money.

Novelties usually answer this problem for they have a charm that prosaic articles never possess.

Quite the most interesting new tidbit of this sort is soap made in varied forms. Brand new this year is a box of gardenia soap, four little waxy white cakes, looking exactly like a corsage spray of gardenias, packed in a box like flowers, with green leaves, stem, and a ribbon and long purple-headed pin at the end. The scent is gardenia, which makes this gift doubly nice.

BRIDGE PLAYING BUTLER TO THE ELY CULBERTSONS SAYS HIS BOSS IS BEST

(Editors Note: Charles Natchett, ged William for euphony, is the idge playing butler to the Ely lbertsons, who will resume their -rubber challenge match with ney S. Lenz and Oswald Jacoby ight. As butler he occupies at moment an enviable position the bridge world—from which, le changing ash trays and perming sundry duties, he can see they are played the hands held the bridge battle of the cen- and observe the players. With ial permission from his emers he has written the follow- story for the Associated Press.)

By Charles (William) Natchett (Copyright By Associated Press.)

NEW YORK, Dec. 10 (AP)—Not ning to be disrespectful to Mr. and Mr. Jacoby, but from I have been able to see in bridge match Mr. Culbertson far and away the best card r.

d say that even if I wasn't Culbertson butler, and I'd only it a little more discreetly was the Lenz butler. Mr. rtson takes more chances in ridge play than anybody else, yet he is always safe. He is rate and he takes every point account.

Mrs. Comes Next

t to him is Mrs. Culbertson. 's not another lady in the could stand the gaff of such match. Ordinarily I don't ribe to the view that a lady ome up to a man at cards. t. Ernest Brown—he's head of the hotel service and is g out during all this com- b—disagrees with me on that He believes a lady, and ally Mrs. Culbertson, can toe to toe with any man flip a card. I tell him time ll if a woman can keep up ff through the long period. t is considerably smaller am—I'm six feet in stocking nd he takes a different view t everything, so it isn't es- significant.

Results Whispered

ar as the hotel service is ed, the captain is the most important of all the many reporters and experts covering the match. As soon as a deal is over Ernest whispers the result to one of his waiters in the hall. The waiter takes it to the nearest bellhop and the bellhop rushes it to the elevator boy. Within a few seconds, Ernest tells me, the news is down in the boiler room.

There's one thing Ernest and I agree on perfectly. We don't believe good bridge can be played when there's any drinking going on and I'm glad to say I've never been called upon to carry a drink to a bridge table since I've been the Culbertson butler.

I rather like Mr. Jacoby as a bridge player. He is quick and he plays his cards safe, and, while I still don't want to be disrespectful to Mr. Lenz, he seems to me to be a little erratic and uncertain in the play.

Thought For Today

Now after many years I came to bring alms to my nation, and offerings.—Acts 24:17.

* * *

CHARITY is a virtue of the heart and not of the hands.—Addison.

Farm Boys

Albert H. Wiggin, chairman of the Chase National Bank of New York, declared in an interview published by World's Work magazine recently that country boys, for some reason, seem to make better bankers than city boys.

Of the men in control of New York's 18 leading banks, he points out, not one was born on Manhattan Island. Most of them came from small towns. Moreover, nearly half of them lacked a college education.

Here, surely, is material for plenty of speculation. It all lines up with one of the oldest of American traditions—that the country boys is apt to be a little sharper, a little more ambitious, a little more capable, than the boy from the city—but we never knew exactly why we thought so, and it is hard to see just why it should hold good for New York's bankers.

It used to be supposed that there were more self-denial and more discipline in the country than in the city. Certainly the average farm is a fine training school for any youngster. But self-denial and discipline are surely abundant enough in the family of a city factory hand, where half a dozen human beings have to be clothed, fed and housed on a wage of $35 or $40 a week. The poorer quarters of a big city can be training grounds quite as stringent as the farmer's acres.

Perhaps part of the secret is due to the fact that the lad who grows up in the country is assailed by fewer distractions. He has more time to figure things out for himself, more time to pick out the channel he wants to follow, more time to get his young life oriented before he punges into the workaday world.

City life hits a terrifically fast pace. It can confuse even a grown man—and does, probably, in nine cases out of ten, isn't it bound to be something of a handicap for a growing youngster?

It may be that we shall discover, sooner or later, that any large city is an unhealthful place to grow up in. The small town and the open country offer a way of life that is more wholesome. Will we, eventually, take our biggest cities apart and get over the notion that we have to huddle together in vast groups in order to make a go of things?

Housing

Most of the people who demand big expenditures by the government in order to provide work for the jobless plead for the construction of new roads. A country that goes motoring as much as this one does is bound to look favorably on such proposals; yet it is worth considering if it might not be even advantageous to launch a few large-scale housing programs in the biggest cities.

The slums of such cities as New York and Chicago are fearful places. They are breeding grounds for vice and crime, for misery and sickness. To eradicate them, and provide decent housing for peoppie of scant means, would be to make the entire nation healthier, happier and more prosperous.

If government funds are to be spent extensively in order to make jobs and stimulate industry, why is this not a good field for some of the expenditure?

Brains And Sex

Those who believe that brain power is something that does not vary greatly with sex differences will be glad to learn that University of California scientists have furnished at least a partial corroboration for their belief.

Those scientists recently used motion pictures to test the learning capacities and memories of some 400 adults. All in all, they found that there was very little appreciable difference between the sexes. In other words, women can learn things just about as readily as men and can remember what they learned just about as well.

That Girl on Broadway says most of us fool ourselves easier than we fool others.

* * *

Both Culbertson and Lenz may be right but all bridge is Work to some people.

* * *

SEVERAL days ago, when the big Culbertson-Lenz bridge war broke out and the news wires started furnishing a play-by-play account of the affair, The Plainsman knew there was trouble in the wind.

He knew it was a big news story, because it interests the many people who play bridge and others who do not play.

And at the same time, he knew it would displease some who cannot agree that the game of bridge is as harmless as a game of dominoes.

Therefore, receipt of the letter below was not surprising. The Plainsman knew it was coming long before it got here and even though he has no idea of its authorship.

The letter follows in the next paragraph.

* * *

"Dear Plainsman: I see in the papers, both morning and evening, where some card sharps are playing a 'great' bridge tournament in New York and are gambling on the outcome under the guise of giving the money to charity.

"I notice, also, that your papers, both morning and evening, are putting those articles in the most conspicuous place possible and are even printing the various 'hands'—I suppose that is what they are for I don't play bridge—for everyone to see.

"I may be wrong but it looks to me, an average reader, like your papers are trying to influence more people to play the game.

"Do you think that is the right kind of a thing to do? I am counting on your sense of fair play for an answer in your column.

"A Reader Who Is A Woman Who Does Not Approve Of Bridge."

* * *

TO the lady who wrote the letter. The Plainsman has this to say: We are running the Culbertson-Lenz bridge stories as news because they are news and because many, many of our readers are interested in bridge, in this tournament and in methods of bridge play. We are not trying to promote more, bigger or better bridge players. There are plenty of them, all ready. But if we didn't publish those stories we would be breaking faith with readers who buy our papers for the news—and, on top of that, they'd buy the Dallas News or the Ft. Worth Star-Telegram to get those stories!

* * *

It so happens that you have found an understanding soul in The Plainsman as far as bridge is concerned. Just how people can get worked up over it is more than the writer can understand—but the fact remains that they do.

The Plainsman doesn't think bridge is any worse than playing drop the handkerchief, postoffice, dominoes, lotto or what-have-you; he doesn't consider bridge a question of morals or propriety as some do.

He simply doesn't care for playing bridge—and never has. And he can't tell any more about those bridge hands the papers have been publishing than you can. It is entirely possible that he can't tell as much.

* * *

BUT where there is one person who obejcts to bridge, there are several who play it avidly. Sometimes, when The Plainsman hears his friends talking about bridge he feels like a foreigner—or at least like the dumbest man in the whole world.

Bridge is a national pastime and in some cases it can be called an addiction. That's the reason the Culbertson-Lenz tournament is news—and is news in a great, big way.

* * *

Why even people who don't know anything at all about bridge are interested in the stories of the big games in New York.

Take The Plainsman, for instance.

He doesn't know what it's all about but he's pulling for the Culbertsons to win simply because Culbertson apparently has the courage to tell the rest of the experts where to go and to stick with his own system.

The other experts invited him to pool with them. They all gave up their individual methods, put their heads together on one method and asked Mr. Culbertson in, too.

But he thought he had the best system—whatever it may be—and has the nerve to fight 'em out on it. That's the reason The Plainsman and many other non-bridge addicts are reading the stories. All the world loves to see a fighter win and to mentally cheer him when he's losing.

* * *

SO there isn't really anything much to be done about the bridge tournament stories but to run them in the paper and to play them up to their news value—or as the desk men think those news values are.

Personally, The Plainsman would rather see that space filled with stories of progress, of new buildings, new firms coming to town and old ones waxing wealthy.

But the bridge war is news—and great would be the howl if it weren't printed.

* * *

Of course some people will say that bridge stories should be eliminated "for the good of the people", but The Plainsman doesn't agree with that. In the first place, he considers bridge playing a personal prerogative and entirely harmless, when not indulged in to the extent that health, business, finances or mental outlook suffer.

And, on top of that, it has been noted a long time ago that the most successful newspapers are those which permit their readers to judge what is news—not those which decide for the reader whether the latter likes it or not!

But no hard feelings, fellow bridge hater! Thanks for the letter!

* * *

That Man on Avenue Q says now that the Democrats have control of the House, it is entirely possible that the meek will inherit the earth, even before the millenium.

SURELY THERE'S ONE IN LUBBOCK!

Can't anybody in Lubbock furnish a nice dog — a male puppy or grown dog just past the puppyhood stage—to a little boy who wants a pal?

Surely there must be someone in Lubbock who has a nice dog he would like to place in a good home.

Anyone who can fill the bill is asked to call The Plainsman between the hours of 8 a. m. and 6 p. m., at phone 13 or 14. If The Plainsman isn't in, ask for Miss Atcheson.

Congress Occupies Big Tent In Season's Capital Circus But There Will Be Plenty Doing In The Many Side Shows

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Dec. 10.—It has been many years since there was such a season of big doings in our nation's capital.

Dutcher

If you are not in the habit of reading news from Washington this is a fine time to start, because there is going to be a lot of excitement and fighting which you will want to be able to discuss intelligently when you are with company.

Here is Congress, of course, which occupies the big tent. This Congress is full of h—— and it should be much more interesting than a circus because whereas everybody always knows what the clowns, the elephants and the bareback riders are going to do nobody knows what the 531 senators and congressmen are going to do, not even they themselves. Watch the Democrats, Republicans and Progressives fight among themselves and with President Hoover!

* * *

THE side shows are also bigger and better than ever.

For the benefit of new readers of Washington news one calls attention to the pre-congressional entertainment features presented in the Joint Committee on Unemployment's conference on unemployment program for Congress, the president's conference on Home Building and Home Ownership and the biennial convention of the National Woman's Party. The unemployment conference was addressed by some of the nation's best experts on the problem and attracted wide attention because of the importance of the unemployment relief issue here. The homes conference, a huge thing, has assembled a prodigious amount of information and advice for buyers, builders, renters, financiers and furnishers of homes. The Woman's Party, still fighting grimly for equal rights, is not the largest national women's organization, but makes more protests and statements, lays more wreaths and gets more publicity than all others combined.

Just about the time Congress has us all of a twitter the winter political meetings will begin. The Republican National Committee assembles Dec. 15, the Democratic committee Jan. 9 and the Anti-Saloon League's state and district superintendents hold a national convention beginning Jan. 15.

* * *

THE Republicans will meet to choose a city for the national party convention in June. They probably will be well-ordered. Many Republicans want a new national chairman in place of Senator Fess of Ohio, but it is a party characteristic to try and behave decorously in public, so the soiled linen doubtless will be washed in private between the open sessions.

Judging by all past performances, the Democrats, already thoroughly disagreed in Congress about their legislative program, will whoop and holler at each other in connection with the prohibition issue. Chairman Raskob has grabbed that issue by the tail and is hanging on for dear life. He wants the rest of the party to grab hold, and a large section of the party doesn't want to. By January Raskob will be brandishing returns from his poll of 90,000 campaign contributors on the question of a referendum and if the Democrats meet without a terrible battle everybody will think it is the Republicans meeting again instead of the Democrats.

Anti-Saloon superintendents have been advised that 1932 will be a "critical" year and to bring detailed information and reports about the strength of presidential possibilities, congressional situations and state legislature prospects—from the dry standpoint. The convention will plan a mighty bombardment for the wets through the presidential year.

The George Washington Bicentennial celebration breaks out formally in February and the local director says this city is going to have 8,000,000 visitors in the following nine months.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE: Six pamphlets and six articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each pamphlet and 2 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1436 East Twelfth street, Cleveland, O. The pamphlets are "Reducing and Gaining," "Feminine Hygiene," "Indigestion and Constipation," "The Care of the Hair and Skin," "Infant Feeding" and "Instructions for the Treatment of Diabetes." The articles are "Normal Diet," "List of Books for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

IRRITATIONS

ONE of the pleasant features of conducting a column of this sort is the knowledge that sometimes comes to me that I have helped a person in distress.

Dr. Clendening

Apparently the largest group of this kind is of those who have had a long continued skin irritation caused and kept aggravated by some familiar article of wear or constantly used in a toilet accessory.

For instance last year I abstracted an article by Dr. Everett Lain on the skin irritation on the nose and around the ears caused by "white gold" used for the mounting of spectacles. The white gold is made by amalgamating nickel with gold, and it is the nickel which causes the skin irritation. Some people are more sensitive to it than others. Perspiration seems to form a chemical union with the nickel, resulting in a nickel salt very irritating to some skins.

About two weeks after this article was published a gentleman at my bank stopped me and asked me whether I thought the skin eruption he had could be caused by white gold. His eyeglasses were mounted in this material with ear pieces. Over the back of his ears and especially in the groove between the ear and the scalp was a crusty, ochre eruption. He also showed me his wrist where he wore a wrist watch which had a white gold buckle. Here he had a similar eruption extending half way up the forearm. I told him it would do no harm to try eliminating the white gold contacts. He put some rubber pads over the ear pieces of his spectacles and changed the strap on his wrist watch. Within a week the whole thing had disappeared and he has been without this annoyance ever since.

He had consulted several physicians, but before Dr. Lain's article called attention to the cause of the dermatitis and they had not spotted any connection between the disease and the metal.

Such situations are common—people who go on wearing some object of dress or ornament, or using some substance like a cosmetic or face powder or other accessory and trace no association between the skin condition and the cause of it.

A recent report calls attention to the skin inflammation which can be caused by hair tonics. In the patient reported, the skin of the upper eyelids was affected and the eruption had been present for six weeks. It had begun about the time of the use of hair tonic. It was always worse in the morning, probably because the hair tonic would get on the pillow and thus be rubbed on the skin of the eyelids. In 1916 the late Dr. Harvey Wiley published an analysis of this hair tonic, reporting that the remedy contained arsenic, and probably resorcin, with a trace of an alkaloidal material too small for identification.

Thirty-three speeches were made the last day of the Indian Round Table conference in London. They said, "No."

OKLAHOMA: Cloudy and unsettled, probably local rain tonight and in east portion Friday; warmer in southeast portion tonight; cooler in west portion Friday.

NEW YORK, Dec. 10—The master of ceremonies is becoming one of the most important factors in amusementdom.

Relatively, he is a new figure in the theater and a castoff of the night clubs. Actually, he is as old as the first minstrel show interlocutor.

At the moment, a master of ceremonies in metropolitan vaudeville is a gent who comes before the curtain and makes wise cracks about the members of the cast, himself and everything in general. Lou Holtz, a twisted-tongued comedian, reigns on Broadway as the ace of ceremonialists. Not so long ago, Holtz and a company of good old troupers ushered a renaissance of "variety" when their particular bill ran and ran and ran at the Palace, which happens to be the "Elysian fields" of vaudevillians.

Thereafter a certain Richard Craig, Jr., appeared with a fresh and original line of patter, much of which is said to have been born in the brain of Irving Straus, a publicity gent who steered the crowd of American mayors through Europe. Which is denied by all and sundry. Just as it is denied that young Mons. Straus supplies Ray Perkins with the wise cracks that trickle into columns.

* * *

Then there's "Nutsy" Fagan, an "original" both in name and method of introduction. None has been more suave than "Keating, the magician," who amused his audiences by causing canaries to disappear before their eyes, while carrying on an excellent spiel.

More recently, even columnists have been drawn in, partially because they are presumed to be impervious to the onslaught of audiences, partially because they produce wise cracks in their paragraphs and partially because they are well known to metropolitan audiences.

Just the other day Rian James, "Brooklyn's ambassador to Broadway," dared to appear on his native stage wearing a red tie. Had this happened in the office of the Eagle, the printers doubtless would have walked out on a strike.

* * *

Radio is not altogether blameless. Millions of persons are becoming accustomed to hearing someone introduce a broadcasting artist.

Which reminds me that at the moment radio's first libel suit pends. A certain "gossip slinger," as they are vulgarly referred to hereabouts, sent some of his column chatter over a certain tobacco hour. The novelty lies in the fact that the lawyer for the litigant is trying to figure out how many persons listened in on the program in an effort to estimate the extent of the damage alleged to have been done.

By the way, the word "pediculous" has come into common usage in these parts.

It began when Ted Husing was tossed off the Harvard gridiron for using "putrid." Husing, who has been seeking national recognition, finally achieved it. And, amusingly enough, it came from newspaper stories.

Now, to all intents and purposes, "pediculous" appears to be a perfectly proper, Harvardian word.

But the dictionary says that it means "lousy."

Hence its addition to the Manhattan slanguage. And how innocent it sounds: "The show was absolutely pediculous."

A private secretary says her boss whistles whenever she comes into the office wearing a new dress. Maybe just keeping up his courage until he gets the bill.

Gandhi and the British government have come to the parting of the ways.

SANTA SAYS:

"I'll See You In Lubbock Friday"

All the boys and girls love Santa, and Santa loves all the boys and girls—so they will have barrels of fun together Friday in Lubbock. They will laugh, they will joke, they will waive a fond farewell until Christmas Eve. Santa will know you. He has asked about you many times, and wants you to be in Lubbock December 11. Tell your mother and father about Santa coming to Lubbock—and tell them a well lighted house yard and Christmas tree are important for the real Christmas spirit.

CONSIDER NEW POWER PLANT

PLAINVIEW ASKED TO STUDY MUNICIPAL SYSTEM PLAN

PLAINVIEW, Dec. 10—(Special)—A petition bearing the names of 830 persons, 365 of whom were said to be women, was presented to the city council of Plainview asking that the city negotiate with some reputable organization or concern looking to a survey of the city to see if a municipal power plant could be operated. The petition would call for such a plant to be built out of other sources than advalorem or other taxes or a bond issue.

Those presenting the paper were: J. A. Asher, representative in this territory for the Fairbanks-Morse company, manufacturers of such type of power plants, J. A. Wallace and Harvey Smith.

Would Ask Bids

A plea is made that if such a survey discloses that a plant can be built without the expenditure of tax money, the city be authorized to ask for bids for the financing and building of a plant of that kind.

By motion council deferred consideration until some future time. Members of the city's legislative body indicated that they felt even should a plant be built by a concern dependent upon the actual income of the plant, it could not be considered as other than a lien upon city revenues.

Mayor J. B. Cardwell said that the city had not yet given up hopes of securing a more favorable rate from the Texas Utilities company, holders of the local franchise. Council has had negotiations under way with Judge I. R. Kelso, St. Louis, president of the company. Definite refusal of the utility company to the city's request has not been made. Judge Kelso has yet to answer the city's plea in the matter.

In reply to a query from the board of city development about rate making authority, the attorney general advised that it was up to the state railroad commission to consider rates. That body, while investigating utility rates, claims it has no authority to set them but that the city has. Attorneys say that there is doubt of the advisability of attempting to fix rates by ordinance at this time, because of possible long legal actions and heavy costs.

DAILY MARKETS

Cotton Market

NEW ORLEANS REPORT

NEW ORLEANS, Dec. 10. (AP)—The cotton market opened today practically unchanged as cables were about as due. There was a one point improvement right after the start on the execution of a few covering orders but the market soon eased off with a weak opening of the stock market. January dropped to 5.90, March to 6.07 and May to 6.25, or 2 to 3 points down from yesterday's close.

Near the end of the first hour the market was quiet and at the lows.

The market was very quiet all morning, fluctuating narrowly within a few points. Owing to stocks weakness prices eased off slightly further, Jan. dropping to 5.89, March to 6.05 and May to 6.24, down 3 to 4 points from yesterday's close.

Near noon recovery of 1 to 3 points was shown on a little short covering but the undertone continued very quiet.

NEW YORK REPORT

NEW YORK, Dec. 10 (AP)—Cotton opened steady today at an advance of 2 to 3 points on trade buying and covering which was promoted by relatively steadier Liverpool cables. January sold up to 5.91.

An idea that the technical position of the market may have been strengthened by the recent declines may also have had some influence, but the initial demand was supplied by renewed liquidation or selling on the lower opening of the stock market. A little southern selling of the later months was reported here but there seemed to be a considerable demand for May at the 6 1-4 cents level and the market at the end of the first half hour was fairly steady at about yesterday's closing quotations.

Liverpool cables reported foreign buying supplied by liquidation on the steadier ruling of sterling in that market and said there were fair cloth sales to Egypt.

The buying which developed around 6.25 for May proved sufficient to steady the market later in the morning and trading was quiet with fluctuations narrow. At midday January was selling around 5.90 and the general market was holding within a point or two either way of yesterday's closing quotations.

NEW ORLEANS OPEN

NEW ORLEANS, Dec. 10 (AP)—Cotton futures opened steady today: Dec. 5.88; Jan. 5.92; March 6.09; May 6.27; July 6.43; Oct. 6.68.

NEW YORK OPEN

NEW YORK, Dec. 10 (AP)—Cotton futures opened steady today: Dec. 5.88; Jan. 5.90; March 6.10; May 6.29; July 6.44; Oct. 6.71.

Stock Market

WALL STREET REPORT

NEW YORK, Dec. 10 (AP)—The stock market dug deeper into new low ground today, although declines generally were moderate.

Railroad shares were weak. Union Pacific losing 4 and the preferred more than 3. Santa Fe yielded a couple of points, while smaller declines appeared in New York Central, Baltimore & Ohio and New Haven. Merchandise stocks turned reactionary, with Macy, Woolworth and First National stores down 2 or more.

U. S. Steel sold under 47 1-2 for a net loss of about 2 points. North American Biscuit, Consolidated Gas, American Telephone, Eastman and North America had similar losses.

Call money renewed at 2 1-2 per cent.

Grain Market

CHICAGO REPORT

CHICAGO, Dec. 10. (AP)—Grain prices averaged lower early today, influenced by stock market weakness. Unfavorable weather for the Argentine wheat harvest acted, however, as a handicap to bears, and so did flood reports from Australia. Opening unchanged to 3-8 lower, wheat afterward rallied. Corn started 1-8 to 1-2 off but later scored slight gains.

road when I went to meet the postman.

"One day, when I was 8, my oldest pet, Billy, followed me to the village school where he romped about, jumping over the desk and refusing to behave. He disturbed the school so much the teacher, Miss Coward, turned him out the door.

"Miss Sarah wrote the verses there and then. Later, she married Mr. Hale and after she died her son wrote to an American newspaper in 1810 saying she was author of the verses. I have no quarrel with my American friends, but the incident happened as I have described and not, as some Americans claim, in America."

A one hundred thousand dollar plant for the extraction of sulphur from gas in Reagan county is planned to be built at Texon.

GASSER

(Continued from Page One)

A showing was had at 4,670 feet and also at 4,784 feet. The core at 4,813 feet and also at 4,827 feet, showed oil.

Scores of Lubbock people are interested in land in Cochran county near the tests. Among those holding acreages are: Neil H. Wright, Morton J. Smith, W. S. Posey, O. L. Slaton, W. O. Stevens, Tom Duggan, Ed Green, R. A. Sanders, Roscoe Wilson and others.

LEHMAN, Dec. 10—(Special)—A gasser was blown in this morning at 8 o'clock in the "Scrapeout" pasture of the Slaughter estate three miles south and west of this place.

Great excitement prevailed and scores of people began coming in as soon as the news spread.

The bit first hit the gas at 4,712 feet. The drillers then deepened the hole to 4,725 feet and the gas came in with a roar.

Attempts are being made to cap the hole. The drilling was done by cable tools and the well was shut down several weeks ago to cement in the 6 5-8 inch casing.

No report of an oil showing was given. Well officials refuse to talk.

LYNCHING

(Continued from Page One)

above the ground, the men tied the free ends of the ropes and stepped back.

At another signal dozens of the men produced guns and their grim work was completed.

The shots aroused the town but before the townspeople could get to the scene in any great numbers the lynchers had driven away in their automobiles.

Damages Are Given Rent Farmer Here

Damages totaling $500 were awarded T. H. Pierce, a rent-farmer, by a 72nd district court jury late Wednesday after it had heard his case against Fritz Braun, from whom he said he had rented tracts of 220 and 140 acres in Lubbock county on shares.

Pierce charge Braun with breach of contract to furnish teams, tools, feed, and seed, and to provide employment. Pierce asked $4,670 as his part on cotton, cotton seed, maize, and corn which would have been grown, and as moneys he would have received for labor, if the alleged breach had not occurred.

Magician Will Give Band Benefit Affair

Mysterio, the master magician, and his company are to appear in program at the Lubbock High school auditorium on the evening of December 15 and proceeds are to go toward benefitting the high school band.

The feats of the magician and his helpers consist of various mental tests, some of which are said to border on the supernatural.

The program promises to introduce new and incomparable features in the realm of the mysterious.

ANTELOPE HERD IN LAMB COUNTY

AMHERST, Dec. 10.—There is at least one small herd of wild antelope in Lamb county and if it had not been for people killing the little animals, it is probable that the herd would have numbered several score by this time.

A year or so ago Ernest Hoffman, then foreman of the Mashed-O ranch of W. E. Halsell and sons, found about 15 or 20 wild antelope in the big pasture of the ranch. He tried to protect the animals as much as he could, but they were wild and it was hard to get close to them.

Cowboys working under Mr. Hoffman and under his successor, L. D. Gaither, have on several occasions found evidences of antelope being shot. Not long ago one of the men found a handsome buck in an out of the way place, shot. He evidently had been fatally wounded by some one and had fled, but died after a vain attempt to get aid.

"I dont think there are over five or six antelope now in the pasture," Frank Rogers, in charge of the sale of Halsell lands, said in discussing the herd. "When the ranch was fenced in some years ago there were no doubt a number of animals that were in the pasture. I suppose that the fences were finished before they could get out.

"We find that in spite of the law, there are people who kill antelope. The ranch has been fenced for a long time and it was some time before we found that we had these animals. As far as I know they are the only ones in the county."

SANTA CLAUS IS COMING

Indulge The Kiddies As Usual—Choose Practical Gifts For Others On Your List

Every child has an unquestionable right to the thrills of Santa Claus and the toys, candies and knick-nacks he typifies at Christmas time. By all means indulge him—see to it that he is among those present when Santa arrives Friday, for it will be an event that he will long remember.

However, in planning gifts for others, consider especially this season the sensible practical gifts—the gift that will be useful—the gift that even fills an apparent need. Such gifts are decidedly in order this Christmas, for regardless of station or circumstances such items will seem much more appropriate—much more in order, by all who receive them.

What Could Be More Appropriate Than Fine Wool Blankets

Pretty warm wool blankets are a delight to any woman—a gift that brings joy for years and years. Prices are decidedly in your favor too, this season, for make no mistake about it, manufacturers and distributors alike have been forced to make decided concessions this abnormal year.

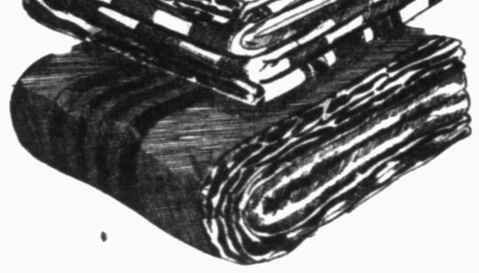

Oregon City, Kenwood and Pendleton Wool Blankets

COLE IS HELD ON CHARGES

FORMER MINISTER IS ARRESTED AGAIN AT ABILENE

Twice in less than five months, J. W. Cole, who described himself as an evangelist when arrested here in July, has been arrested in Abilene to be tried for disposal of mortgaged property. Cole walked out of Lubbock police headquarters at City hall last July 21 after conferring with an attorney. The next day, he was arrested at Abilene. The former minister then was wanted in Potter county.

Trades Automobile

Cole now is under a suspended sentence imposed in the Potter county case, it was reported at Abilene. Testimony was presented at an examining trial for the former minister Tuesday at Abilene to show that he had traded a mortgaged automobile. A man holding a $25 mortgage on the car said Cole disposed of it without his consent.

Following the episode here, Cole said he had worked in the Northwest Texas Methodist Episcopal conference but never had been assigned a pastorate.

Arrangements Made For Charity Party

Completion of arrangements for the American Business club's charity forty-two, bridge and dance party Friday night in the Hilton hotel ballroom has been reported, and club members have charge of advance ticket sales.

Funds from the affair will be used to purchase Christmas baskets of food and necessities for indigent Lubbock families. Distribution of the baskets is an annual event for the club. Prizes will be received by women making high scores both in bridge and forty-two.

The charity program will begin at 9 p. m. Friday and music will be provided by Frank Stone. Admission will be $1.50 per couple and that sum entitles the couple to participate in the three divisions of the entertainment. Clinton Lackey is chairman of the dance committee; and J. Ray Dickey of the bridge and forty-two committee.

Lubbock Woman Is Hurt In Car Crash

A minor head injury, a lacerated nose, and severe shock were suffered by Mrs. A. W. Evans, 2309 Sixteenth street, when a coupe she was driving westward on Sixteenth street was struck by a sedan occupied by three school boys Wednesday afternoon. The accident occurred at Avenue T and Sixteenth street.

Clifton Caraway was driving the sedan. With him were Billy Barkham and Emmett Burch, police said. The trio was not injured. Mrs. Evans was treated last night at Lubbock sanitarium from which she later was dismissed. Mr. Evans is head of the education department of Texas Technological college.

ABERNATHY MAN HURT

Following treatment of injuries to his right hand, O. D. Shadden of Abernathy was dismissed from Lubbock sanitarium late Wednesday. His right thumb was torn off and his right forefinger lacerated severely when his hand became caught in a machine belt.

A new high school building is under construction at Seminole costing fifty thousand dollars.
