S-Viets Make New Sweep West Of Da Nang

By RICHARD PYLE
Associated Press Writer

SAIGON (AP) — Nearly 5,000 South Vietnamese troops launched a major new sweep today, seeking to destroy North Vietnamese base camps in rugged jungle country west of Da Nang.

Kicking off one of the biggest operations in months in the northern provinces, waves of U.S. Marine helicopters landed the assault troops and their American advisers shortly after daylight in an area 25 to 40 miles east of the Laotian frontier. No major allied operations have taken place there in years.

Only light contact was reported in the early hours of the operation.

The attack force included three battalions of South Vietnamese marines recently withdrawn from Cambodia and two battalions of Vietnamese special forces troops, the mercenaries paid by the United States and trained and led by U.S. Green Berets.

Their primary targets were two North Vietnamese base areas west and southwest of Thuong Duc. It is the site of a Special Forces camp which was under sporadic rocket and mortar fire until about two weeks ago.

Col. Nguyen Van Thien, the commander of the operation, said his force was taking advantage of good weather to spoil potential enemy buildups for large ground attacks such as they have almost always made in August.

South Vietnamese officers also took the wraps off another operation, a three-battalion push that began Sunday west of Hiep Duc, which is 35 miles south of Da Nang. A district town, Hiep Duc has been attacked repeatedly since the first of the year and during May was partially occupied for five days by North Vietnamese troops.

No contact with the enemy was reported in this operation.

Spokesmen in Saigon reported that enemy activity across the country was the lightest in several months, with the only sharp fightings involving U.S. forces. In four contacts 2 Americans and 20 of the enemy were killed, and 13 Americans were wounded, the U.S. Command said.

South Vietnamese forces in Cambodia reported killing 27 enemy troops in a series of clashes northeast of Krek, a rubber plantation center along the border in the Fishhook area 70 miles northeast of Phnom Penh.

In Camboda, American-trained Cambodian mercenaries extended their control over most of Kiri Rom today, but dug-in Viet Cong and North Vietnamese forces held at least two strong positions in the mountain resort 50 miles west of Phnom Penh.

Two battalions of the Cambodians recruited in South Vietnam's Mekong Delta had recaptured most of the 2,000-foot mountain, a government military spokesman said, but the enemy force that overran the Cambodian army garrison Saturday held the villa of deposed Prince Norodom Sihanouk and a small factory that made ammunition clips for the army.

UAW Opens Talks

By A.F. MAHAN
Associated Press Writer

DETROIT (AP) — Wage contract bargaining between the United Auto Workers union and major industry leaders opens today and the outcome is likely to have a bearing on the prices of 1971 model cars.

Both union and industry sources have said there probably will be a strike, although the auto firms and the union have vowed they don't want one.

The UAW and General Motors Corp. start the initial negotiations at a fore noon session, followed by talks with Ford Motor Co. Thursday and Chrysler Corp. Friday.

In a statement issued as the session convened, Earl Bramblett, GM vice president in charge of personnel, urged that "serious bargaining begin immediately."

Frequently in past negotiations little progress has been made until the old contracts were on the verge of expiration.

The current three-year contracts covering some 730,000 workers at Big Three plants throughout the country expire at midnight Sept. 14.

In previous years bargaining over local issues at various plants has erupted into crippling strikes, some after national agreements had been reached.

Bramblett proposed the formation of a joint union-industry subcommittee to police the plant bargaining "to ensure that local issues are handled promptly and on a business-like basis."

Both sides took tough prebargaining stances.

UAW President Leonard Woodcock said the companies would only be "getting warm" if they offered a 14 per cent increase in wages and fringe benefits.

Company executives, confronted with sagging 1970 sales and declining profits, indicated they had no intention of yielding anywhere near such a hike.

The current average hourly wage in the auto industry is $4.02. The Big Three companies estimate that fringe benefits, such as pensions and insurance, add $1.75 hourly per worker to their labor costs.

The UAW has a strike fund of $112 million, which is expected to grow to approximately $120 million by mid-September.

Union demands include "a substantial wage increase," an unlimited cost-of-living wage escalator, and a $500 minimum monthly pension after 30 years service, regardless of age.

Today In History

By THE ASSOCIATED PRESS

Today is Wednesday, July 15 the 196th day of 1970. There are 169 days left in the year.

Today's highlight in history:

On this date in 1948, a Democratic National Convention in Philadelphia nominated President Harry Truman as the party's presidential candidate.

On this date —

In 1606, the Dutch painter, Rembrandt, was born.

In 1789, France's King Louis XVI was awakened early in the morning and told his authority had collapsed with the fall of the Bastille.

In 1912, the United States won the Olympic Games in Stockholm.

In 1918, Americans attacked German positions at Chateau-Thierry in France. Also, the second battle of the Marne began.

In 1958, President Eisenhower ordered 3,800 U. S. Marines to Lebanon following a coup in nearby Iraq.

In 1959, a general strike was started by the Steelworkers Union, halting 85 per cent of the nation's steel production.

Ten years ago, John F. Kennedy accepted the Democratic nomination for president and spoke of a "New Frontier" for America.

Five years ago, Mariner 4, the world's first probe of the planet Mars, began transmitting photos of the planet back to earth.

One year ago, Secretary of Defense Melvin Laird said the United States "turned the corner" toward peace in Vietnam.

THE WEATHER

SNYDER TEMPERATURES: High reading Tuesday, 97 degrees; low reading, 70 degrees; reading at 7 a.m. today, 70 degrees.

Northwest Texas: Clear to partly cloudy tonight and Thursday. A few afternoon and nighttime thunderstorms. A little cooler in the north portion this afternoon. High this afternoon 88 to 98. Low tonight 65 northwest to 78 southeast. High Thursday in 90s.

North Central Texas: Clear to partly cloudy tonight and Thursday. No important temperature changes. High Thursday afternoon 94 too 102. Low tonight 68 to 78.

Northeast Texas: Clear to partly cloudy tonight and Thursday. Widely scattered thundershowers in the northeast portions Thursday. No important temperature changes. High Thursday afternoon 92 to 98. Low tonight 70 to 78.

Southwest Texas: West of the Pecos: Partly cloudy and warm Thursday with scattered mostly afternoon and nighttime thundershowers. High Thursday 85 to 102. Lowest tonight 55 to 72.

Southwestern Texas, East of the Pecos: Partly cloudy and warm tonight and Thursday with widely scattered mostly afternoon and evening thundershowers. High Thursday 86 to 98. Low tonight 66 to 76.

South Central Texas: Considerable cloudiness and warm this afternoon through Thursday. Scattered showers and thundershowers more numerous near the coast. High Thursday 86 to 98. Low tonight 72 to 82.

Southeast Texas: Considerable cloudiness and warm this afternoon and Thursday with scattered showers and thundershowers. Temperatures Thursday 85 to 95. Low tonight 72 to 80.

RODEO PERFORMER — Buddy Heaton and his trained buffalo, Clyde, who will be performing each night at the Scurry County Rodeo, are pictured as they participated in the inaugural parade for President Kennedy in 1961.

Rodeo Set For Grand Opening

The 24th annual Scurry County Rodeo will open at 8:30 tonight in the Rodeo Arena on West Thirtieth Street. The Rodeo will have performances each evening through Saturday. It is sponsored by the Scurry County Rodeo Association.

The opening festivities were scheduled for 3 p.m. today with the traditional parade through the downtown business section of Snyder. Floats in the parade are competing for $150 in prize money. Also in competition in the parade are various riding groups from a large area of West Texas. They will be judged during the parade, but the announcement of the winners will come during the grand entry tonight. Trophies will be awarded to the top three riding groups.

The featured attraction, for the third consecutive year, will be the Saddle Bronc Riding Match between teams from Texas and South Dakota. This outstanding performance of the top saddle bronc riders of these two states has caused record breaking crowds at the rodeo here for the past two years.

Members of the Texas team will be Judd Sims of Lubbock, Steve Lisenby of New Deal, Elston Rose of Lubbock, Royce Roderick of Grapevine and Bernie Johnston, Fort Worth. The South Dakota Team will be composed of John and Tom Miller of Red Owl, Pete Longbreak of Eagle Butte, Dennis Vence of Buffalo, and Roger Lawrence of Dupree. These teams will be competing for a purse of $1500. Sloan Williams of Hungerford, Texas is the stock producer. He is furnishing the toughest stock available for the saddle bronc riding match.

Jim Miller of Rapid City, South Dakota, will be the announcer for the rodeo. He is one of the top rodeo announcers in the country. Each night during the local rodeo he will forward the results of the saddle bronc riding match back to South Dakota radio stations so that the results can be announced there.

Clowns for the Scurry County Rodeo will be top bull fighter, Lectie Harris, Collierville, Tennessee, and Buddy Heaton with his trained Buffalo "Clyde" from Hugoton, Kansas.

Heaton and Clyde won world wide acclaim when they appeared in the inauguration parade for President John F. Kennedy in 1961. They appeared in the parade, and when they came to the viewing stand, Vice President Lyndon Johnson called Heaton and Clyde back to the stand for a closer look. They were given special recognition as the mystery rider and an unusual mount.

Hoyle Nix and his band will play for the rodeo dances each night at the rodeo pavilion following the rodeo performances.

Ralph Miller is president of the Scurry County Rodeo Association and Bill Zimmerman is secretary-treasurer. Directors are J. N. Eicke, Sonny Harrell, Jerry Springer, John Ward and Sidney Johnson, who is the arena director.

All of last years performance winners are expected back this year to defend their titles. Their return, plus a number of new performers, should result in keen competition for the prize money.

Ed Workman, Mineral Wells, Texas, won the bareback riding last year with 68 points; Royce Kitchens, Cisco, Texas, was the calf-roping winner; Deborah Whitehead of Morton won the barrel race; and David Elms of Holland, Texas, was the bull riding champion.

Demand Raises Oil Allowable

AUSTIN (AP) — The Texas Railroad Commission responded to buyers' demands today by raising the statewide oil allowable for August to 62.9 per cent of potential, halting a three-month decline in the allowable.

There were reports that the increase was due to uncertainty again about the availability of oil from the Arab countries.

The August allowable will permit maximum production of 3,602,296 barrels a day next month, compared to 3,267,633 this month under a 55.5 per cent production factor.

Eight of the 14 major purchasers of Texas crude oil asked for more oil in August than this month, five sought the same amount and only one requested less oil next month than in July.

Written nominations for Texas crude totaled 3,201,532 barrels a day in August, an increase of 107,179 from July. The U.S. Bureau of Mines forecast for August that the demand for Texas crude was 3.4 million barrels daily, an increase of 50,000 from this month.

Nominations were raised an additional 18,997 barrels a day from the floor, however, as Texaco raised its request by 15,000 and Rock Island Oil Co. sent a telegram asking for 3,997 more barrels a day.

Commission chairman Ben Ramsey confirmed reports that the higher allowable was due to rising tanker rates and the need for "more cheap domestic oil."

The soaring world tanker rates reportedly were brought about partly by Libyan government orders for foreign companies in that African nation to cut production. This has forced European countries to seek oil from the Persian Gulf and shifted oil tankers from the short Libya-Europe trek to the long haul around Africa.

Refusal by Syria to permit the repair of a pipeline system from the Persian Gulf to eastern Mediterranean ports also has forced more long tanker trips around Africa and it has become a sellers market for the tanker owners.

The Arab-Israeli War also resulted three years ago in higher Texas oil production as the flow of foreign oil was interrupted.

The allowable had dipped from 68 per cent in April to 64.5 for May, 59 in June and the current 55.5 per cent factor and no upturn appeared in sight until the effects of the African situation reached here.

Nominations by major crude oil buyers in barrels per day for August with increases or decreases from July, if any, in parenthesis:

Atlantic Richfield 200,000.
Chevron 61,800 (plus 3,000).
Cities Service 91,000 (plus 3,000).
Continental 37,000.
Diamond Shamrock 34,000.
Gulf 233,000.
Humble 480,000.
Mobil 290,000 (plus 30,000).
Pan American 370,000 (plus 20,000).
Phillips 127,000 (plus 17,000).
Shell 155,000 (plus 8,500).
Sun 160,000 (plus 7,200).
Texaco 200,000 (plus 15,000).
Union of California 69,300 (minus 4,150).

Phillips noted that its increased nomination included 3,500 barrels a day for Skelly Oil Co.

A spokesman for Union Oil of California, the only company to reduce its nomination, said it was being done to get its nomination "in line with the oil we are actually receiving."

Senate Probing Bombings

WASHINGTON (AP) — Sen. John L. McClellan, opening hearings into the 5,000 bombings reported across the nation in the past 18 months, says the violence may mark the beginning of domestic guerrilla action.

"These are criminal acts," the Arkansas Democrat said in an interview. "But they are not crimes for profit. These are crimes committed out of an attitude of rebellion against society and against all constituted authority.

"They are intended to instill terror into the people and the community. And they have reached proportions requiring us to put the pattern together, to learn if they are connected to detect an organized conspiracy, and to learn if additional laws will be helpful to stop this wave of senseless violence."

Nixon Liked Governors' Plan

By BILL NEIKIRK
Associated Press Writer

LOUISVILLE, Ky. (AP) — Appalachian governors have urged President Nixon to adopt a new regional concept of funneling federal money to the states, a proposal they say will boost his chances of getting his revenue-sharing plan through Congress.

Nixon was reported impressed with the governors' plan during a private three-hour conference Tuesday, but made no commitment.

Gov. Albert Brewer of Alabama, co-chairman of the Appalachian Regional Commission, said the regional approach would complement Nixon's revenue sharing proposals now tied up in the House Ways and Means Committee.

He indicated the governors told Nixon that adopting their plan would remove some of the congressional opposition.

"In revenue-sharing, there is a question of who is going to get the funds—the city, the town or the counties," Brewer said "In the Appalachian program, there is none of that bickering."

Nixon, who capped off his day by attending major league baseball's All-Star Game at Cincinnati, told the governors he wanted to hear their views to break his administration out of what he called "the isolation booth" in Washington.

He said too often bureaucrats in the capital operate in the "rarefied atmosphere of the cabinet room" without knowing how officials throughout the country feel.

The Appalachian governors wanted Nixon to expand the concept behind their five-year-old regional commission into a nationwide network of similar agencies.

Brewer said the key advantage of the Appalachian program is its emphasis on planning and setting priorities, forcing local governments to band together to seek federal funds.

Nixon put in plugs for both his revenue-sharing and family assistance programs at the session with the governors.

Presidential adviser Patrick Moynihan said Nixon told the governors he regards the family assistance plan as the most important single piece of legislation in two generations.

Moynihan urged the governors to contact senators and congressmen in their areas who have expressed opposition to both proposals. The governors already have endorsed family assistance and revenue-sharing.

1 Killed 2 Injured By Mine Tuesday

TEL AVIV (AP) — An Israeli military vehicle set off a mine Tuesday in the Sinai Desert town of El Arish, killing one Israeli soldier and wounding two, the military command announced. Curfew was clamped on the town of 30,000 and a number of suspects were rounded up.

School Board Approves New Personnel

Six new faculty members were approved by the Snyder School Board in its regular monthly meeting Tuesday night. The board also approved two transfers and two resignations.

New personnel include: Jerry Mankins, mathematics and tennis coach at Snyder High School; Lowell Marble, CVAE Coordinator at the High School; Glenn Thompson, a Snyder High School graduate, band director at Travis Junior High; Howard Sawyer, mathematics at Lamar Junior High; Miss Laura Townes, Communicative Arts, unassigned; and Miss Bernice Gonzales, Head Start.

The transfers were Miss Billie Harding, Communicative Arts teacher, who is moving from Lamar to the High School, and Bob Chapman, band director, who is transferring from Travis to Lamar.

The two resignations approved were those of Mr. and Mrs. Jerry Roe, who are moving from Snyder. Also approved was a leave of absence, for health reasons, was Lee Falls, secretary.

The board approved portions of the High School student handbook, a 7:30 physical education class, a limited open campus, a Saturday detention hall, and a dress code.

The board also renewed the contract for police-related services.

Jury Finds Indo Guilty

HOUSTON (AP) — A Houston jury has found John Lamar Indo guilty of murdering his mother in a ruling announced today.

The jury reached its verdict late Tuesday night but the decision was sealed by agreement with the lawyers for reading today.

Jurors will decide punishment in further deliberations.

Tips: Good (+) Adverse (−) Neutral 7/16

Search for marriage somewhere else!

By Abigail Van Buren

(c. 1970 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: My brother asked me to write to you to see if you can help him get any closer to marriage with his girl friend of 10 years—I'll call her "Zelda."

Zelda loves the big city and my brother likes the quiet of the countryside. Zelda doesn't come alive until 10 p. m., and at that hour my brother is ready for bed.

Even tho they live 300 miles apart, they see each other on week-ends and holidays. [My brother flies his own plane.]

Zelda is jealous of anyone who looks at him twice, but she doesn't care for sex herself. [She was in a concentration camp when she was young.] My brother would like a family, but since he is 40 and Zelda is 43 and they aren't married yet, that looks doubtful. What do you think, Abby?

HIS SISTER

DEAR SISTER: I think if your brother wants marriage, he should look for someone who likes the quiet of the countryside, sex, and won't take 10 years to make up her mind. A 40-year-old man who flies his own plane should have no trouble landing a GIRL.

DEAR ABBY: I am a middle-aged professional woman. Several months ago a person whom I considered to be a loyal friend accused me of repeating some confidential information she told me about another person. I did not repeat the information, but I know who did, and if I were to tell my friend who repeated it, she would be terribly upset.

My friend just assumes that I am the guilty one, and she refuses to believe otherwise. This has hurt me deeply.

It is impossible to communicate with someone who has a closed mind. Is there any way I can reach this friend? I want to set her straight to clear myself, but in so doing I will have to put someone else on the spot. A SINCERE FRIEND

DEAR FRIEND: Too bad your friend with the "closed mind" doesn't have a mouth to match. If she passed on "confidential information" which created trouble [which appears to be the case]—shame on her. To you, I say, in the future don't listen to that kind of "information," and for the present, don't knock yourself out trying to prove your innocence.

DEAR ABBY: I know you can't give any medical advice, but my daughter-in-law and I are so worried about my son that it is becoming a serious problem.

My son was buried in a mine cave-in about a year ago. Thank God he has recovered from his physical injuries, but we think something else may be wrong with him and we're afraid the doctors will laugh at us.

His whole personality has changed. He is so depressed, impatient and moody. No one in his family can get along with him. We are all so thankful to have him alive, but he's making everyone around him miserable, and he is miserable, too. Could it be the lack of oxygen he suffered a year ago, or is this just a coincidence? SO WORRIED

DEAR WORRIED: The shock of such an experience could easily have upset your son emotionally. Don't be ashamed to discuss this with your doctor. I promise you he won't laugh. There is no more "shame" in admitting an emotional disorder than a physical one, and treatment to correct it is equally as vital.

DEAR ABBY: An obviously misinformed correspondent recently wrote and said, "so many countries, like Samoa, have 'relaxed marital codes,'" and you let it pass as tho it were a fact.

As a native Samoan, I must protest. Margaret Mead notwithstanding, Samoan culture embodies the highest ideals of Christianity, which in all likelihood surpass those found in 1970 American society. Certainly in Samoa today one doesn't find the disintegration of the family unit found in the United States.

So please inform your untutored and misinformed correspondent, as well as your readers who may still be relying on outdated information, that modern-day Samoans are not living in a free love paradise.

MODERN ISLANDER

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Letter writing can be a breeze. For Abby's booklet, "How to Write Letters for All Occasions," send $1 to Abby, Box 69700, Los Angeles, Cal. 90069.

Judge To Rule On Union Election

HOUSTON, Tex. (AP) — A federal judge said he will rule by Thursday on whether his court has jurisdiction in a union election dispute.

U.S. Dist. Judge Ben C. Connally told the parties Tuesday after a hearing that if the case can be heard in his court he will hold hearings promptly.

Charles Edward Fitts has asked Judge Connally to halt an election of Local 450 of the International Union of Operating Engineers.

Fitts, seeking union office, claims that he has been beaten twice and that he fears ballots returned because of wrong addresses might be improperly voted.

He also claimed that while union bylaws require elections to be held in August ballots were mailed out in July.

Easley Assessed 300 Years

WICHITA FALLS (AP) — School dropout Charles Dennis Easley, convicted of murder with malice in the shooting death of an 11-year-old Denison girl, faces a 300-year prison term today.

A district court jury deliberated 1 hour Tuesday before assessing the sentence.

The nine-man, three - woman jury deliberated 2 hours and 45 minutes earlier in the day to find Easley guilty in the April slaying of Frances Laurie Stevens.

Easley, 18, showed no sign of emotion when the punishment was announced.

Prosecutors had sought the death penalty.

Defense lawyer Don Jarvis said he would file a motion for a new trial.

The teen-ager also is charged in the slaying of Donna Marie Golish, 7, of Sherman last September.

Frances Laurie disappeared while returning home from school. Her schoolbooks and purse were found near her home, and her body was found three days later in a rural area.

Investigators said the girl had been shot several times.

Jurors asked to see color slides of the area where the body was found after they were given the case Tuesday morning. Lawyers had introduced slides into testimony.

The jury also asked for a tape recorded segment of testimony to be replayed.

The jurors also heard testimony again about pistol shells found near an outbuilding where Easley resided for a time in Sherman.

Gun experts testified they were unable to link the bullets with a pistol taken from the defendant.

Charles Madden, 23, testified that Easley told him he killed the child and ran a drill bit through the pistol barrel to make ballistic comparisons impossible.

The defense rested Monday without calling any witnesses in the trial, which began July 6. The case was moved from Grayson to Wichita County on a change of venue.

H.B.Crozier Service Set

AUSTIN (AP) — Funeral services for Harry Benge Crozier, 78, veteran Texas newspaper man and former chairman of the Texas Employment Commission, were scheduled today.

Burial will follow in the official state cemetery.

Crozier died Tuesday of cancer.

Crozier first covered the state capitol for the San Antonio Express in 1913. Later he worked for the Waco Morning News, Galveston News, the Dallas Morning News and Fort Worth Record.

He was an assistant to Gov. Coke Stevenson and served on the TEC from 1942 to 1953. He was TEC chairman from 1945 to 1953. Since 1959 he had been a political writer for the Long News Service in Austin.

Survivors include a sister, Mrs. Horace D. Smith, Miami, Fla.

Two Texans On Casualty List

WASHINGTON (AP)—Twenty-one servicemen killed fighting in Southeast Asia were listed Tuesday by the Defense Department, including two from Texas.

Soldiers on the list from Texas were Spec. 4 Roger L. Phillips, son of Mr. and Mrs. Lyle E. Phillips, 311 Vinsonia St., La Porte, and Pfc. Victor L. Defoor, son of Mr. and Mrs. Albert D. Lefoor, 3201 Grand St. Abilene.

Americans Find Political Recession

WASHINGTON (AP) — An antiwar group just returned from South Vietnam says it failed to find one person who supports the Thieu-Ky regime or who considers United States military presence necessary.

The 10 Americans met with antiwar groups in South Vietnam during the eight-day tour. They told a news conference Monday they found extreme political repression and said police and police agents were everywhere in the country.

Ralph Wants Big Thicket Saved

WASHINGTON (AP)—"It is imperative that we move at once if we are to save the Big Thicket," Sen. Ralph Yarborough, D-Tex., said Tuesday in a letter to Secretary of the Interior Walter J. Hickel.

Yarborough said Dr. Peter Gunter, chairman of the philosophy department at North Texas State University, hiked in the East Texas Big Thicket Wilderness along Pine Island Bayou and reported "a lot of very destructive cutting along the Bayou in the Profile unit."

Yarborough said Gunter's letter "is just more evidence that the interests opposed to the Big Thicket National Park are trying to destroy all the most beautiful tree treasures of this rare wilderness area before Congress can pass my bill."

The senator has introduced for several years bills to provide for a 100,000-acre national park in the Big Thicket. He urged Hickel to submit his views on the proposal as soon as possible so that a park bill can move ahead in time to save the area.

Yarborough said he now learns that lumbermen are cutting timber even in the rare "string of pearls" sections.

Rep. George Bush, a Republican seeking Yarborough's Senate seat, has proposed a park established essentially around the 35,000 acres of rare areas in the park, the "string of pearls," with an additional 60,000 acres or so to be saved along the Thicket's watershed.

A month ago, a Senate Interior subcommittee held hearings on Yarborough's proposal in Beaumont and in the park itself. Bush also toured the park with conservationists.

The Roman Emperor Tiberius ruled Rome from Capri during the last decade of his life (A.D. 27-37). His orders were signaled by semaphore to a lookout station on the Sorrento Peninsula, and thence from peak to peak to the capital almost 125 miles away, the National Geographic says.

Vote Set On Wheat Referendum

By DON KENDALL
AP Farm Writer

WASHINGTON (AP) — Nixon administration farm officials have spread the word that the Agriculture Department will take sides in a forthcoming wheat referendum to determine what kind of government program producers will have next year.

The mail-ballot referendum has been set for July 27-31. Farmers will vote on whether to approve tough, mandatory marketing quotas and acreage restrictions next year or settle for fewer controls and less money.

Sources say Kenneth W. Frick, administrator of the Agricultural Stabilization and Conservation Service, has told staff officials and wheat industry people that his agency will pursue a "middle ground" course and not take sides on the question.

Under older, standby law, the Agriculture Department must hold a referendum by Aug. 1 on next year's wheat program if Congress does not come up with a new law or else postpone the vote.

The last time wheat producers voted in a quota referendum was in 1963 when they failed to approve quotas by the required two-thirds majority.

At that time under then Agriculture Secretary Orville L. Freeman, who was advocating strict "supply management" programs, the ASCS was criticized by some groups, for actively campaigning for a "yes" vote.

After the 1963 referendum failed, crop control programs were modified along less-restrictive lines. Congress in 1965 enacted the programs in effect for 1970. These expire this year, thus leaving wheat farmers with the earlier, more restrictive laws.

Drivers in Rome often double park illegally on side streets, leaving their keys with self-appointed attendants who rearrange and guard the vehicles day and night.

Snyderite Named Area Director

AUSTIN — Les Francis, owner of Les Francis Chevrolet in Snyder, has been appointed to the key post of Area Director of the 1600 member Texas Automobile Dealers Association.

He will serve with the TADA Board of Directors in studying all phases of activity relating to the motor vehicle buying public in the Snyder area.

"The position of Area Director is one of the most important in our giant statewide association," said TADA President Jack McKenzie of Corpus Christi. "Mr. Francis will work closely with the TADA Board and with state and local officials toward the betterment of the automobile industry in Texas."

TADA represents the franchised new car and truck dealers in Texas.

Pilot Lands Crippled Plane

ALVORD (AP) — A Denver pilot safely guided his single engine plane containing his family to a landing three miles south of here near U.S. 287 after his motor quit at 2,000 feet about 2 p.m. Tuesday.

H. W. Harris, 44, and his wife, Donna, 28, received minor injuries when the Navion Super 260's nose gear struck a ditch near the end of the landing and flipped on its back.

Their children, Deirdre, 5, and Derek, 4, were not hurt.

The family, en route to Dallas for a vacation, was treated at Decatur hospital and released.

Harris, who said the plane was only slightly damaged, said the aircraft nearly had rolled to a stop in the field before it overturned.

LAYAWAY NOW for Fall AND CHRISTMAS

FOUR-IN-ONE WARDROBE FOR SUMMER AND FALL — It's Redbook Pattern RB700. At upper left, a slim, beautifully cut tunic and straight-legged pants in easy-care Trevira polyester double-knit black and white tweed. The soft blouse is a co-ordinated red crepe knit. The tunic owes its trim fit to shaped seaming and a front zipper. Upper right: the blouse becomes a soft, clinging dress, sewed in a slinky snake-print Banlon. Seaming from shoulder to hem, front and back, shapes the body and adds easy flare to the skirt which is cut well above the knee. The dress can be worn belted or not. Lower left is still another version of the pattern, an A-line dress, born of the tunic, with a stand-up collar shown in crisp red linen with white scroll trimming which follws the seaming and adds lively contrast. At lower right, sleeves have been added to the tunic paired with pants in a circle-in-square-patterned red, white and black polyester double knit.

Stuff Mushrooms The Italian Way

STUFFED MUSHROOMS — Salami and Parmesan cheese perk up the filling.

By CECILY BROWNSTONE
Associated Press Food Editor

When company comes there's one dish—stuffed mushrooms—that adds real interest to a main course. So here's an Italian-style version you may be interested to try. We found the recipe worked well and mushrooms were deliciously flavored.

ITALIAN-STYLE STUFFED MUSHROOMS

¾ pound (about 15) medium-size fresh mushrooms
3 teaspoons olive oil
1 tablespoon minced onion
¼ cup finely chopped salami
¼ cup finely grated Parmesan cheese
1 tablespoon catchup
2 tablespoons fine soft bread crumbs
1 teaspoon butter

Rinse mushrooms under cold water and pat dry. Remove stems; chop enough stems to make 1-3rd cup. Brush caps lightly with 2 teaspoons of the oil.

In an 8-inch skillet heat remaining 1 teaspoon oil; add chopped mushroom stems and onion; cook gently until golden. Stir in salami, Parmesan and catchup. Spoon mixture into mushroom cavities.

In the skillet melt the butter; mix in crumbs. Sprinkle over tops of mushrooms.

Arrange stuffed mushrooms in a shallow baking pan. Bake in a preheated 425-degree oven until hot through—6 to 8 minutes. Serve at once.

Makes 5 or 6 servings.

Penn Bankruptcy Will Affect Market For Years

By JOHN CUNIFF
AP Business Analyst

NEW YORK (AP) — Opinions now circulating that the stock market and the economy have shaken off the shock of the Penn Central Transportation bankruptcy reorganization appear to be superficial and incredibly premature.

The first shock perhaps; but in the bowels of the economy there are secondary waves that haven't surfaced; and government and business financial specialists are keenly aware of rumblings.

Effects will turn up for years, in American whistle stop hamlets and European financial centers, on campuses dependent upon dividend checks, in banks which made loans, on other railroads which need rolling stock but may find it almost impossible to finance such purchases.

What will foreign investors now think of the stability of American corporations? Will they lose faith in other companies as well?

Money from abroad has become a significant factor in American markets, the total rising to $17.2 billion in 1970 from $13.3 billion five years earlier. Such funds are a prop under some stocks. Will they be withdrawn?

And for students of corporate management: Does the Penn Central's troubles mean that the role of the director should be re-examined? Some Penn Central directors claim they were as poorly informed as the public about finances. Whose fault is that? Whose responsibility?

Can any smart investor henceforth be impressed by a "big name" board, knowing that its members might be performing a function little more than ceremonial while actually sitting in ignorance?

What may be said for the institutions that put millions upon millions of their customers' money into this railroad's stock without knowing the quality of the investment?

Can they simply plead ignorance, while at the same time retaining their dignity as professional managers? Or was there a violation of fiduciary trust?

Was the Interstate Commerce Commission, which amasses data by the ton—literally—unable by existing methods to ascertain the financial condition of a line that carries 20 per cent of the nation's rail traffic?

If this is so, will a mere study of the situation, as the ICC has already launched, be sufficient to protect the public in the future? Or should the ICC itself be studied?

More important, are investor-owned railroads possible in this day and age, or must the federal government, as in so many countries, take over the rails and run them? Are railroads anachronisms, made so by trucks and planes and pipelines? Or are they simply mismanaged and misregulated? A bit of both?

Sheri McGlaun Gets Scholarship

Sherilyn McGlaun, a 1969 graduate of Snyder High School, has been awarded a thousand dollar scholarship by the International Association of Auditorium Managers. She is the daughter of Mr. and Mrs. Doug McGlaun, formerly of Snyder and presently of Fort Worth where he is assistant manager of Will Rogers Memorial Center.

The scholarship was one of six such awards presented at the IAAM meeting in Chicago in June. The awards were made for scholastic acheivement. Recipients of the scholarships are children of members of the IAAM.

Sherilyn is a student at Texas Tech where she made the Dean's List with a year's average of 3.72.

Abilene Gets Law Enforcement Net

Governor Preston Smith has approved a grant of $39,857 to the West Central Texas Council of Governments, Abilene, for establishing a law enforcement teletype net.

The grant was made on recommendation of the Texas Criminal Justice Council, which administers funds from the Law Enforcement Assistance Administration, U.S. Department of Justice.

Judge Joe Frazier Brown, Executive Director of the Council, said the grant would be used to create a teletype network of 41 terminals for the 19-county area comprising the West Central Texas Region. The network, he said, will significantly reduce radio traffic and expedite the flow of law enforcement information in the region.

Counties to be served by the net include Kent, Scurry, Mitchell, Stonewall, Fisher, Nolan, Knox, Haskell, Jones, Taylor, Throckmorton, Shackelford, Callahan, Coleman, Stephens, Eastland, Brown, Comanche and Runnels.

Federal authorities estimate that in 1980, Americans will go on 668 million picnics, 422 million fishing trips, 173 million campouts, and 89 million hikes.

Junior Editors Quiz on CANARIES

QUESTION: *Why do canaries sing?*

* * *

ANSWER: Most experts think of bird notes and bird singing as a means of communication. In the breeding season, a bird's song may help him win a mate and show her where he is at the time. But there is another reason. Mr. Songbird doesn't want other birds of his kind snooping around his particular territory, grabbing the caterpillars he is planning to catch and to feed his own youngsters. His burst of song says: "This is my territory — outsiders keep off!" In the Canary Islands off Africa, there is a little bird of the finch variety which has a particulary clear loud song and an ability to imitate other bird singers. Italians in the 1500s captured some of these birds and began to breed them, as did other European peoples. The best singers were selected to be bred together — and so developed the wonderful canary, with his delicate yellow coat and his extraordinary song. Perhaps a canary has been bred to sing, but he gives every evidence of enjoying it, especially if he is well cared for. Below the tame canary, we show the American Goldfinch, a yellow and black relative often called wild canary. Singing as he flies, this bright little creature is another bird who seems to sing cheerfully and joyfully because he feels that way.

Boyle Finds He's Too Different

By HAL BOYLE

NEW YORK (AP) — Everybody's different.

Americans today are thought to be a very conventional people, alike as peas in a pod, sharing the dream of making a big buck ahd spending it in the same way.

There is some truth to this caricature—but it remains a caricature.

We may be alike in many of the things we do, but we are very much unalike in what we don't do or haven't done. To find how much of an individual you are, sometime take the trouble to sit down and make a list of all the things you haven't got around to doing.

When you then reread the list, you'll be surprised to find how surprisingly different you are from anyone else you know.

For example, after nearly six decades of steady living, I find that I have never yet—

Owned a home.
Bought a share of stock.
Learned to drive an automobile or a motorcycle.
Lived in the suburbs.
Seen a movie at a drive-in theater.
Read "War and Peace," "Das Kapital," or "Alice in Wonderland."
Detected a counterfeit bill.
Turned in a fire alarm.
Yelled, "Stop thief!"
Made a citizen's arrest.
Been on a government payroll.
Won a lottery prize, a medal for bravery, or a court-martial for cowardice.
Sent away a box top for anything.
Written a letter to my congressman—or yours.
Taken the Fifth Amendment.
Grown a beard.
Held anybody in the palm of my hand or known anyone who felt like putty in my fingers.
Walked with kings.
Been asked to cast my straw in a straw vote.

On reviewing my own list of things I haven't done, I find I'm different, all right. Too darned different.

Snyderite Gets New Command

1Lt. Cecil D. Vineyard has assumed command of the 342nd Engineer Company, Texas National Guard, of Abilene. Lt. Vineyard succeeds Cpt. David Counts, of Knox City, who was appointed Medical Service Officer on the staff of Arrowhead Emergency Operation Headquarters in Abilene. Vineyard, his wife Pat and two children live in Snyder.

Vineyard first enlisted in the Army in June 1959, and served three years on active duty. He entered the Texas National Guard in January 1965, and was commissioned in 1966 after completing State OCS in Austin. Prior to his new assignment, Vineyard was Armory Commander and Platoon Leader of the Snyder National Guard unit. Vineyard commanded the Engineer detachment that served in Lubbock during the recent tornado disaster.

Vineyard was succeeded in Snyder by 1Lt. Leroy Cisco, 1509 Wishbone, Abilene.

Former Snyderite Receives Honor

The Second Platoon of the San Angelo National Guard Unit, commanded by 2nd. Lt. Eddie Phy, a 1962 graduate of Snyder High School, took top honors during the Army platoon training tests while the unit was in training at Fort Hood.

Lt. Phy is the son of Mr. and Mrs. Edwin Phy of 2314 Forty-second Street. He is a graduate of Angelo State University, and will be teaching history and coaching this coming school year at the Harry Rogers Junior High School in San Antonio.

AFL All-Stars Top Nationals

In the last game of the season the American Farm League All Stars topped the National Farm League All Stars 14 to 7 last night in Towle Park.

The American All Stars took the lead in the first inning and never lost it, scoring two runs in the first, one in the second, one in the third, six in the fourth and four in the fifth inning.

The National League scored two runs in the fourth and five in the fifth.

The American All Stars collected eight hits off Mark Duke and Steve Dickenson. Mike Jones led the American hitting attack with three hits for four times at bat, clubbing singles in the first, third and fourth. Richard Caryton stroked singles in the third and fourth out of three times at bat.

Tony Rodriquez managed two hits, singles in the third and fifth. Randy Tate clubbed the only extra-bases hit, a double in the fourth.

Richard Caryton performed mound chores for the American League, getting hit three times, and was relieved by Dana Hanna in the sixth.

James Spivey stroked two of the three National League hits with a single in the second and a home run in the fifth. Roy Dicharry cracked the only other National League hit, a single, in the fifth.

Yaz Named Most Valuable Player

By GEORGE STRODE
Associated Press Sports Writer

CINCINNATI (AP) — Carl Yastrzemski, the All-Star Game's most valuable player, thinks artificial playing surfaces will be a boon for hitters and has the evidence to back his claim.

The Boston Red Sox star tied All-Star baseball record with four hits—three singles and a double—and played all 12 innings Tuesday night for the losing American League in the game won by the National League 5-4.

His four hits on Riverfront Stadium's Astroturf tied the mark belonging to Ducky Medwick and Ted Williams. Medwick rapped four hits for the NL in 1937 and Williams four for the AL in 1946.

"I think it (artificial) is great for the hitter," Yaz said. "It's got to help some guys 30 points on their batting average and a lot of others at least 15 points."

"You can't believe the speed the ball picks up when it hits the surface," he said.

The Red Sox ace looked like a kissing target of exotic dancer Morganna Roberts when she bounced onto the field in the first inning. "If she was coming for me," Yaz said, "I was going to run over to the President's box."

Yaz wound up with his first single and the 44½-23-37 Morganna faced a disorderly conduct charge today in the court after the incident.

Carl had an explanation for the AL's eighth straight loss to the NL. "We had scoring opportunities and, bang, a base hit."

Ex-National League President Warren Giles hustled into the National clubhouse, congratulated Manager Gil Hodges and said, "They'll never beat us."

Jim Hickman, whose single drove home Pete Rose with the deciding run, said, "I was just trying to hit the ball anywhere. It was a fast ball (from Clyde Wright) down."

Rose barreled into Cleveland rookie catcher Ray Fosse for the winning run and both were hurt. Rose suffered a charley horse above his left knee and Fosse an injured left shoulder.

Winning pitcher Claude Osteen worked three innings after going in as a pinch runner and was a happy southpaw.

"I've got to cut out this box score and show it to my teammates," the Los Angeles Dodgers' hurler said, referring to the pinch running and pitching stint.

"They call me 'Grand Dad.' They're always kidding me about how old I am."

Hodges wasn't particularly surprised that the AL pitchers stopped the power-laden NL batters for the eight innings.

"Here you've got the best pitchers against the best hitters and the pitchers can contain the hitters if they get the ball where they want it. That's what the AL pitchers were doing most of the night," he said.

A writer mentioned to American League Manager Earl Weaver that the Nationals had beaten the AL in extra innings for the sixth straight time.

"We just can't beat them period," he said. It took them 12 innings though and I'd call that pretty even."

Wright, the victim of three straight NL hits in the 12th, said, "They just hit the damn pitches for base hits. You hit three in a row and you get beat."

Swiss Tennis Play

GSTAAD, Switzerland(AP)— Top-seeded Rosemary Casals, San Francisco, Calif., won her opening match Tuesday in the Swiss International Tennis Championships.

She defeated Chile's Michele Rodriguez 6-2, 6-1.

The tourney's finals will be held Sunday.

Demand Up For Petro Products

HOUSTON, Tex. (AP) — Concern prompted by the nation's economy apparently has not affected the demand for petroleum products.

Even before the start of the heavy gasoline consumption months of June, July and August, requirements had climbed to their highest level in history.

Consumer demand for January-May averaged just under 15½ million barrels per day. This was a 6.3 per cent gain over the earlier's year's comparable period when demand exceeded a record just over 14½ million.

Light and heavy heating oils paced the 1970 gains, primarily because of an abnormally cold January. Demand for the heavy residual fuel the first five months was 15.6 per cent over 1969. The lighter distillant heating oils were up 5.5 per cent.

Jet age kerosene requirements were up seven per cent. A Chase Manhattan Bank monthly review says that while overall demand for the year is still exceeding expectations, the annual growth rates for both gasoline and minor products, including liquefied petroleum gases, have been a bit below normal.

Gasoline demand averaged 5,600,000 barrels daily. This was a 4.4 per cent increase, a figure somewhat below recent annual growth rates but a little higher than early year forecasts.

Daily requirements included 1,039,000 barrels of kerosene, 3,023,000 of distillant heating oils, 2,580,000 of heavy residuals and 3,247,000 of minor products.

The industry met this demand by boosting domestic crude oil production from 9,075,000 barrels a day in 1969 to 9,561,000 in 1970 and by increasing natural gas liquids production from 1,594,000 to 1,669,000 barrels a day.

The balance came from imports which had a January-May average of 3,606,000 barrels a day compared with 3,241,000 the same period earlier.

Crude oil imports were down a bit, averaging 1,352,000 barrels daily, some 8,000 barrels below 1969.

Residual imports, however, jumped 15.6 per cent and recent actions by President Nixon have authorized the receipt of even more such foreign supplies. The January-May average of 1,701,000 barrels compared with 1,371,000 barrels a day in 1969.

Miscellaneous product imports of 553,000 barrels a day compared to 510,000 a year earlier.

Domestic refiners processed an average of 15,185,000 of crude oil daily, a 6.8 per cent gain over the 14,217,000 average the first five months of 1969.

Much of the sharp increase in demand for heating and fuel oils were attributed to January having had the coldest weather in 20 years. Temperatures averaged 18.7 per cent colder than normal.

Chase Manhattan reports the domestic industry moved into the summer months with crude oil inventories of 292 million barrels, the highest level in 20 years.

Several states, including Texas and Louisiana, reduced production allowables for June and July.

Gasoline inventories were in good shape for the summer months totaling 225 million barrels, 17 million above the year earlier.

Residual fuel oil inventories totaled only 41 million barrels compared to 60 million at the start of June last year.

Chase Manhattan said that in terms of days of supply, the industry had only one half as much residual fuel oil in storage as was available at the same time in 1968 and 1969.

Aspinall Weds

GRAND JUNCTION, Colo. (AP) — Rep. Wayne N. Aspinall, D-Colo., has married the childhood sweetheart who shared his first date 59 years ago.

Aspinall, 74, and Essie Jeffers Best, a widow, 73, exchanged vows Sunday at Crossroads Methodist Church.

Starting Travel Career

Career Corner

by Joyce Lain

what job would you like to see explored in this column?

What most readers want to know about the travel industry boils down to two questions: How do I go about opening a travel agency? How can I get into the travel business?

Forget opening a travel agency until you acquire training, experience and knowledge. Here are ways:

CAMPUS PLANS: Colleges currently offering coursework in travel agency management are the U. of Hawaii and Michigan State U. (the two largest programs), and Notre Dame U. (Ind.), U. of Houston, and Niagara U (N.Y.).

Other colleges are also developing travel programs; when you are ready to apply you can check with the Institute of Certified Travel Agents, the certifying body in the travel agency industry.

In general, helpful subjects include geography, literature, languages, history and psychology. Since many first jobs are clerical, it's insurance to learn shorthand and typing somewhere along the line.

MAILBOX: For beginners (high school, as well as college grads), the American Society of Travel Agents (ASTA), the trade association of the travel agency business, has a newly revised correspondence course; it costs about $200 for nonmembers.

The Institute of Certified Travel Agents has published eight volumes of textbook material which is available to those enrolled in a home study program conducted by the Institute. This course costs $100 (plus certification charges if desired), and while slanted only toward the management level, may be taken concurrently with the ASTA course.

Either course could be a relatively cheap way to find out if you like the travel field before investing time and more money.

OTHER COURSES: ASTA also is enlarging a program of classwork in several large cities; evening courses are offered by some high schools and colleges; community and junior colleges may offer a curriculum in travel work; private travel schools are listed in the Yellow Pages telephone directories in larger cities.

JOBWISE: Without experience, it's not easy to obtain employment in a travel agency, but a college or high school graduate may succeed in finding a starting position, and later be promoted. Many larger agencies have their own training programs lasting from six to eight months; small agency operators may not have time to train you.

SIDE DOORS: You might also enter the travel field after experience in such related jobs and job areas as: ticket agents (airlines); auto club employees, tourist bureaus (chambers of commerce and government agencies); military transportation (travel department at a military base); travel department at large corporations (arranging travel for company employees); chain hotels and motels which employ their own travel service personnel.

MORE INFORMATION: If you'd like the addresses of travel associations and several other resources, send me a stamped, self-addressed envelope at this newspaper. Write "Travel Resources" on your outside envelope.

PRESIDENT CHEERED BY BIG CROWD — President Richard Nixon holds his arms out and tells the crowd how happy he is with such a big turnout on his arrival at the Louisville, Ky., airport Tuesday. Kentucky Gov. Louie B. Nunn is at left. The President was in Louisville to talk with governors attending the Appalachian Regional Conference. (AP Wirephoto)

Air Defense Items Head S-Korea's List

By SPENCER DAVIS
Associated Press Writer

SEOUL (AP) — Air defense items head the list of what South Korea's armed forces need to get from the United States before a third of the U.S. troops in the country can be withdrawn, Defense Minister Chung Nae-hyuk said in an interview today.

Chung said he would present the list of needed items to Deputy Defense Secretary David Packard at a meeting in Honolulu July 21.

He also said he would ask for equipment needed to ward off seaborne infiltrations.

Chung did not estimate the cost of the military buildup nor the length of time it would require, but he is expected to ask for assurances of modernization to compensate for the planned withdrawal of some 20,000 of the 60,000 American troops stationed in South Korea.

In general, Chung said, South Korea seeks three types of military modernization—more firepower, better mobility and improved communications.

Like other members of the South Korean government, the defense chief reacted strongly against the U.S. troop reduction.

He said it was "very unfortunate under the circumstances to apply the Nixon Doctrine ... It is certainly not the suitable time to implement it."

After the seizure of the U.S. intelligence ship Pueblo in 1968, the United States provided about $100 million in additional assistance for the South Korean armed forces. This included a squadron of 18 Phantom jet aircraft.

Those were "not satisfactory to cope with the Communist air force in the North," Chung said.

He estimated that South Korea has about one-third the capability of the North Korean air force. Of 900 North Korean planes, more than half are supersonic jets, including four squadrons of MIG21s, he said.

The gap between the North Korean and South Korean air forces has been filled by reinforcements of U.S. aircraft since the Pueblo incident, the defense chief stated.

"But because of budgetary reasons," he added, "the number of U.S. Air Force planes here has declined."

Chung said the Honolulu meeting with Packard would be the third annual meeting of defense officials of the two countries.

"We will renew our feeling of close ties," he said, "and at the same time I am going to present to Mr. Packard our need of strengthening and modernizing the ROK forces to cope with North Korean forces.

There is danger, Chung warned, that North Korea's leaders would have the illusion that determination as well as armed might in South Korea was being weakened with the reduction of U.S. forces.

"We want our forces at least to make a balance with the Communist forces," he said. "so that North Korea cannot dream of unification of our country by force."

92nd TAG will Be Continued

WASHINGTON (AP) — The 92nd Tactical Airlift Group at Kelly Air Force Base in San Antonio, a bilingual unit, will be continued, Sen. Ralph Yarborough, D-Tex., said Tuesday.

He said Tuesday the Air Force sent him a letter telling him the group will not be deactivated.

The only reserve group in the country with a bilingual Spanish-English capacity, it was one of five units originally to be deactivated because no replacement aircraft had been assigned to follow the C119s.

Program changes now allow for C130 aircraft to be available and the Kelly Group, along with four other reserve units, will be kept intact.

Yarborough had emphasized to Secretary of Defense Melvin Laird in March that the 922nd is "the only one of its kind in the Air Force that has a bilingual capacity."

Miss Texas Hopefuls For Preliminaries

FORT WORTH (AP) — The Miss Texas hopefuls talked of maxis, minis and midis as they prepared for the start of preliminary competition tonight in Will Rogers Auditorium.

Most agreed that a lower hemline is on its way but they don't see the fall of the short skirt in the near future.

"The maxi is attractive on some people and I think they're kind of fun to wear," said Nanci McNamara, Miss Fort Worth. But she said her favorite is the mini.

Miss McNamara, a student at Texas Christian University, doesn't like the midiskirt, but gives the lower hemline a nod of approval, especially for winter wear.

Dianne Veatch, Miss Longview prefers short skirts, as long as they aren't "micro-mini," but thinks the midi will be commonplace in a few years.

She expects longer coats to catch on this year.

Bettie Williams, Miss Farmersville, contends longer dresses are not as flattering to the legs as shorter dresses. She figures the midi trend will probably take a year or two to get started in Texas.

Longview's Dana Dowell, the reigning Miss Texas, subscribes to the stock market theory of hemlines. As the stock market goes down, she said, so does the hemline.

As people become more conservative with their money, women become more conservative with their skirt lengths, she said.

Miss Dowell, who recently announced her engagement, said her fiance "likes 'em short," but she intends to obey the fashion trends.

"I like new clothes like everybody else," she said. She noted also that the snow in Indiana, soon to be her new home, will discourage her from wearing miniskirts, although she prefers them to midis.

The dark-haired Miss Dowell will crown her successor Saturday night during the regionally-televised coronation show. The winner will represent Texas in the Miss America pageant at Atlantic City.

Tonight's competition signals the start of three evenings of preliminary judging. Winners in swimsuit and talent competition will be announced at the close of each show.

Postmen Adopt Unhatched Quails

SACRAMENTO, Calif. (AP)—Postal officials here have found themselves foster parents to a clutch of orphan quails — unhatched.

A package of quail eggs arrived recently from the F&F Quail Farm in Arlington, Tex., but was undeliverable. The address on the package doesn't exist and the quail farm didn't want the eggs back.

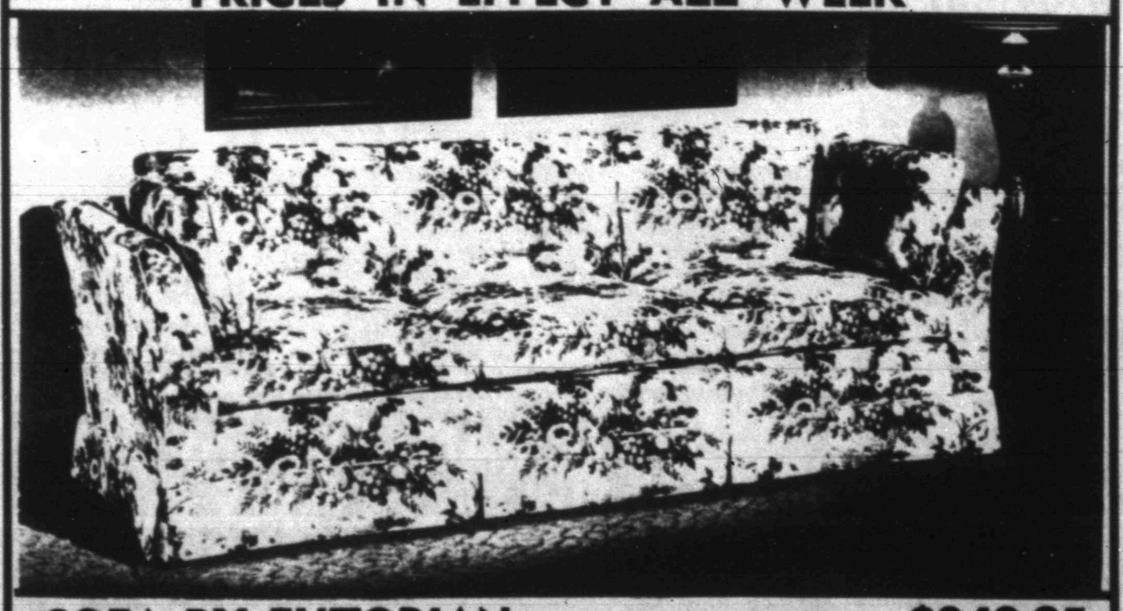

So the eggs have been turned over to the local zoo for hatching.

"This story will probably have a happy ending for everyone except the addressee," says Fred L. Schroeder, chief of administrative services for the post office. "Any further delay would render the eggs useless for hatching, so we've done the humane thing."

"We couldn't have very well hatched them at the post office," he added.

Zoo officials have promised to notify Schroeder when the eggs hatch and postal employes keep popping their heads into his office, asking: "Any news on the eggs yet?"

Cool air at cut-rate prices.

We think everyone should own gas air conditioning. So we're making it easier to own:

If you buy it now, you can enjoy special low gas rates all summer — on top of regular gas economy.

Gas air conditioning also has a reputation for long life with few repairs.

In short, gas air conditioning gives you more than cool air: A good deal more.

Lone Star Gas
Gas living makes sense

MASONIC OFFICERS — Scurry Lodge Number 706 held the installation of officers for the year 1970-71 June 25th. First row, left to right, are E. Loyd Arnold, Treasurer; John C. Cline, Senior Warden; W. H. Baldwin, Worshipful Master; Wendell Rehm, Junior Warden; and G. P. Proctor, Secretary. Not pictured is Les Francis, Junior Steward.

Extension Granted On Car Exhaust Standards

By G. C. THELEN Jr.
Associated Press Writer

WASHINGTON (AP) — Auto manufacturers have been granted an additional two years to meet a weakened version of federal exhaust standards because government certification tests failed to measure half of the tailpipe pollutants.

John T. Middleton, administrator of the National Air Pollution Control Administration, Tuesday announced the extension with evident embarrassment. But he promised improved testing of 1972 cars.

Because present tests measure only half of the hydrocarbon and carbon monoxide emissions, he said, all 1970 model autos fall significantly short of required federal exhaust reduction standards.

New cars are now certified by the government as meeting emission limits of 2.2 grams of hydrocarbons per mile and 23 grams of carbon monoxide.

But the actual figures, determined by more accurate testing procedures, are 4.6 grams of hydrocarbon and 47 grams of carbon monoxide, Middleton said.

Middleton weakened the current standards 60 per cent for carbon monoxide and 10 per cent for hydrocarbons and gave auto manufacturers until 1972 to meet them.

"Despite the higher figures, the actual quantity of pollutants emitted by cars complying with the proposed 1972 regulations will be less than some 1970 cars that comply with current regulations," he said.

"This results because the much-improved measurement capabilities of the proposed 1972 procedures produces considerably higher readings for given quantities of emissions," Middleton explained.

The tightened test procedure includes direct measurement of all emissions rather than the present system of partial measurement.

The new procedure also calls for improved detectors for hydrocarbons, and new driving patterns with stop-and-go stresses and cold start ups that better reflect normal, city auto use.

Middleton said automakers will not be prosecuted for falling short of 1970 regulations because the standard was framed in terms of the faulty test procedure. Technology necessary for the new testing procedure was not available until this year, he contended.

In addition, Middleton said the government will stand by its previously announced plan to enforce more stringent standards for carbon monoxide and hydrocarbons for 1975 cars.

He conceded the testing defects compound the existing problem of one-time government certification of finely-tuned prototype cars rather than periodic checks of production line models.

"It may take a little gut-busting" by manufacturers to pass the new tests, Middleton said. But he said consumers should not have to pay more than $10 for the necessary modifications.

No CO Movement In Texas

By THE ASSOCIATED PRESS

There seems no great movement in Texas to claim exemption from military service because the draftee objects to war on moral, political or philosophical grounds, since the U.S. Supreme Court June 15 decision made this permissible.

New guidelines permitting young men to avoid the draft have caused a marked increase in applications in Dallas and some increase in Fort Worth, a survey of key points in the state shows.

Mrs. Johnnie Edmundson, chief secretary of the Dallas County Selective Service boards, said 67 conscientious objector applications were filed in June. "Normally," she said, "we average six to ten a month."

But Mrs. Marie Merritt in Houston said there has been no apparent increase in the 11 boards with which she deals. Each averages three to four objectors a month.

Mrs. Elizabeth Fisher, Selective Service director for the San Antonio area, also failed to observe any notable increase.

"Previously the board received three or four objector applications a month," she said, and it's just about the same."

A Selective Service spokesman at Fort Worth said: "I don't know how we could figure the percentages, but I would say we have received more applications." The June applications for objector status reflected an increase of about 50 per cent at one of the boards, he said.

In Brownsville, a spokesman for the local draft board said there had been no increase.

"We've had probably two such requests (since the Supreme Court ruling)," he said. "This is about normal."

Draft Director Curtis Tarr, who sent guidelines to all local boards, said the draft registrant had to show his beliefs have "directed his life" and that his application to escape the draft was not based on "expediency."

MacArthur Weds Melanie Patterson

LIHUE, Kauai, Hawaii (AP) — Actor James MacArthur, costar of television's "Hawaii Five-O," has married actress Melanie Patterson.

The weekend ceremony at the Fern Grotto was attended by MacArthur's mother, actress Helen Hayes, and about 25 members of the cast and production staff of the TV series.

It was the second marriage for MacArthur, 31, and the first for his 21-year-old bride.

Stroube Graduates At 70

ARLINGTON, Tex. (AP) — During his three years at the University of Texas at Arlington, Esthel Stroube pledged a national fraternity and was elected "Johnny Reb," the university's mascot.

As Johnny Reb, Stroube performed outstandingly at football halftimes, galloping around the field on horseback in his rebel uniform.

Stroube, 70, was graduated from the university Tuesday.

A retired Army colonel who started his college career 53 years ago, Stroube received a bachelor of arts in German.

His studies were interrupted after one year by World War I. Stroube remained in the Army 32 years, serving in World War II and the Korean War.

University president Dr. Frank Harrison said Stroube was the oldest person to graduate from UT-Arlington.
