DAIRIES WIDE OPEN FARMER TELLS PUBLIC

Only Two Come Up to Standard Required by Law, Says Independent Who Sells Milk to People Here.

Declares Dairymen Put to Little Expense Complying With Milk Laws; Advises People to Visit Dairies.

Dairymen serving Wichita Falls, with one or two exceptions, are put to little or no expense from complying with the milk laws of Wichita Falls, according to a statement made to The Record News by a farmer selling milk here, Sunday night.

The farmer invites the milk users of the city, if they do not believe what he says, to visit his dairy and look for themselves.

"If you don't know where your fairyman's place is, ask the city inspector—he can tell you where it is, if he is not afraid for you to go there and see it," this individual declared.

"It looks to me like the dairies are running wide open," he said. He declared that only two dairies came up to the standard required by law.

He referred to a recent statement by the city health department, in which the head of the department declared that strict enforcement of the milk ordinance would bring about a milk shortage, and declares that he is for cleaner and safer milk above everything else, and advises the public to visit the dairy they partonize as often as they can.

The burden of the statement had reference to a recent declaration by a dairyman of the unfair condition the dairymen are up against with the farmers selling milk as a sideline, the dairyman declaring that the expense they are put to to comply with city laws makes it impossible to compete.

The party making the statement says that he is a farmer milking several cows and selling his product within the city.

POLICE AND REPUBLICANS STAGE FIGHT IN IRELAND

Constable Killed and Sergeant Wounded in 12-Hour Engagement Between British Military and Rebels in County Galway; 32 Postoffices Raided and Mail Confiscated.

DUBLIN, April 24.—Fighting which lasted for 12 hours is reported from the neighborhood of Maarn Cross, County Galway. Fourteen policemen went in search of a republican flying column. The republicans were found entrenched and the police took cover as best they could. A prolonged engagement ensued, in which Constable Boylan was killed and a sergeant wounded.

At 3:30 o'clock this afternoon reinforcements for the police arrived with machine guns and the rebels fled to the hills, taking their wounded with them.

According to an official statement issued from Dublin Castle, the wounded were deliberately fired upon by the rebels, but fortunately escaped injury.

In the vicinity of the fighting the police say they found arms and ammunition, beds for 40 persons and the stock and collar of a priest, which they said had been used by the leader of the rebels as a disguise. A search of two neighboring houses showed they had been used as a basis for ambuscades. These were burned to the ground by the police.

Simultaneously raids by republicans on 32 postoffices and the capture of 47 registered and 7,339 ordinary letters were reported.

Four police barracks were attacked Saturday night, one of which was destroyed.

MANY LOSSES OF FOREIGN BORN IN U. S.

Germans, Austrians, Russians and Irish Leave U. S. 2,000,000 Strong.

WASHINGTON, April 24.—Germany, Austria, Ireland and Russia, natives of which made up more than 59 percent of the country's total foreign born population ten years ago, showed heavy losses in the number of their natives in the United States during the last ten years, census bureaus statistics show. These losses aggregated almost 2,000,000 and are believed to have been due largely to the world war with its consequent exodus of belligerent nationals and the stoppage of immigration.

German born showed a loss of 1818.033, Austrian born, a loss of 600,014, Irish born a loss of 316,571 and Russian born a loss of 203,703. While Germany has the largest loss numerically, Austria's loss was relatively the largest, having been more than 50 percent.

Notwithstanding these heavy losses, the country's total foreign born population as just announced by the bureau in a preliminary statement prepared for the early use of congress, showed an increase of 358,442 or 2.6 percent, the total number of foreign born being 13,703,987. The increase is believed to have been the smallest both in number and percentage ever recorded for any decade. In the previous decade, 1900-10, the increase was 3,174,610, or 20.7 percent.

Work on Road From Graham Pushed South

Work on the Wichita Falls and Southern, south of Graham, is being pushed vigorously, laying of steel being already in progress, according to an announcement by Capt. C. M. McFarland, chief engineer of the line.

A delay of several weeks will ensue before the completion of the bridge over the Clear Fork on th Brazos between Graham and South Bend, but the rails will be laid across on the temporary structure, enabling train service into South Bend and Eliasville being instituted some time in June, the former possibly early in the month and the latter toward the end.

From Eliasville the work will be pushed with the same vigor, and train service may be started to Breckenridge in July.

The magnificent time and the difficulty under which it was made in the building south of Newcastle was appreciated by those taking the Graham excursion Friday of this week, and seeing the miles of cuts and fills necessary in making the grade between Newcastle and Breckenridge.

Miles of the cuts were made through very difficult ground, the broken rocks and empty blasting powder cans along the right-of-way testifying eloquently to the amount of work involved.

The feat is the more remarkable from its coming after months of delay on the part of the various railroad commissions, the application for a permit to build having been filed in October of last year, and not received until March of this year, while trains were running over the first 14 miles of the extension little over a month and a half later.

WALKER DENIES QUARANTINE WAS NOT ADHERED TO

An account of an alleged violation of quarantine violation on Travis street, apeparing in the Record News of Saturday was erroneous, according to Dr. Mike Walker, city health officer.

The residents of the place in question removed the two children attending school as soon as the third child's illness was pronounced to be small pox, he stated, and have since that time abided by the regulations of the department.

Furthermore, he says, he has been promptly pai dfor his professional services in waiting on the case in question.

The report was ascribed to Quarantine Officer Jackson, who says that he gave no such statement to newspaper representatives.

The Record News regrets the error which has apparently been made.

FINANCIAL JUGGLERY CHARGED

Railway Union Accuse Railroads of Dissipation of Funds.

By Associated Press.

CHICAGO, April 24.—Financial mismanagement of American railways involving the dissipation of tremendous sums in bonuses to stockholders, unnecessary cost of marketing securities, interests and dividends on excess capitalization and other losses was charged in an exhibit filed with the United States railroad labor board by the railway unions and made public today.

The exhibit took up the history of 20 roads in an effort to show that they issued fictitious capitalization durin gthe period of 1910-1919 totalling $672,000,000. During this time, it was also claimed, that they issued bonuses or stock dividends amounting to $233,559,000 and through other forms of financial mismanagement sustained losses amounting to $123,000,000. In addition, it was claimed, that 13 representative roads, during the period referred to, dissipated, through improper methods of marketing their securities, the sum of $51,456,878.

Disbursements of interest and dividends on excess capitalization, it was said, were now costing the St. Louis & San Francisco $2,242,651 annually; the Reading company, $5,350,000; New York Central, $6,848,000 and the Baltimore & Ohio, $892,230. The exhibit declared that since its organization in 1869 the New York Central had disbursed in interest and dividends on fictitious capitalization a total of $166,000,000.

Unofficially declared New Measures Offered Bring Fuller Realization of Allies' Standpoint.

By Associated Press.

BERLIN, April 24.—The German counter-proposals on reparations were presented to Ellis Loring Dresel, the American charge commissioner, this evening and were immediately transmitted to the United States

UNOFICIALLY SAID TO BE SATISFACTORY

By Associated Press.

LONDON, April 24.—The German counter-proposals, says a dispatch to the Central News from Berlin, are very long. The first part is in the nature of a protest, but in finality they are appreciably nearer a fuller realization of the allies' standpoint. The German cabinet today unanimously accepted them, the party leaders learned the text late this afternoon, and the note was presented to Mr. Dressel, the American commissioner, at 9 o'clock this evening.

SOCIALISTS DEFEATED IN INDEMNITY DEBATE

By Associated Press.

BERLIN, April 24.—Independent socialists and communists who attempted to start debate in the reichstag yesterday afternoon relative to the German cabinets 'appeal to Washington were decisively defeated. The reichstag voted to postpone discussion until the latest German proposals were in the hands of President Harding.

The two radical parties were alone in their attempt to heckle the government leaders. After listening to Chancellor Fehrenbach and Foreign Minister Simons, who spoke for the government, the reichstag adjourned until Monday afternoon. It is understood that when it convenes the government's case will be presented by Mr. Simons.

In his address, the foreign minister informed members of the house that the German proposals will be decoded and forwarded to Washington last night, and would be made public here before Monday.

Demands Debate.

In demanding an immediate opening of debate on the reparations situation, Herr Crispien, speaking for the independent socialists, severely attacked the government for "persistently failing to take the reichstack into the its confidence when foreign policies were under consideration." Communists supported their former political comrades, but they received no support from majority socialists or the bourgeois parties.

In explaining the government's inability to announce the nature of Germany's reply to President Harding, Chancellor Fehrenbach said that premature discussion of the matter might prove inimical to the present German action. Members of the foreign relations committee and leaders in the reichstag admitted they had no inkling of the nature of the proposals which Foreign Minister Simons would request President Harding to transmit to the allied governments.

GODLEY WELL FLOWING BEST TODAY

Drilled a short distance into the oil sand in 1880, the Godley Oil Company's No. 2 Graves-Dailey is flowing between 50 and 60 barrels of oil, and making around three million feet of gas, according to Saturday reports of the company from the field.

The well has been connected with the tanks, and will be allowed to produce at this depth for a time, it is said. This well is some little distance from the Godley-Furlow No. 1 Edwards-Graham, on the school house lot, which has been producing about three weeks from the 1880 foot sand. This last well was reported a 250 barrel producer when first completed. The No. 2 on the school house lease is reported drilling around 1200 feet, and the No. 3 was reported as spudding in Saturday.

On the east end of its 40 acre Graham lease, offsetting the Colquitt river bed wells, the Godley is rigging up for its No. 5. The No. 4 of this lease is due to be drilled in, in the 1800 foot sand some time this week, being reported down around 1500 feet on Saturday.

The Seaboard Oil and Gas Company's No. 3 Graham, a short distance across the river from the Panhandle's No. 7 completed last week making 700 barrels in the 2100 foot sand, is reported drilling around 1800 feet. The No. 5 spudded in Saturday, and the No. 4 is reported a rig.

A several hour guage of the Seaboard's No. 2 Graham, the big 2500 foot well brought in March 31, showed the well still flowing at the rate of 60 barrels an hour, or around 1500 barrels daily, according to reports received Saturday evening, and the guage was made that morning.

Increased production is reported showing up in the Hamon Estate well on the Stovall, the Saturday reports giving a 300 barrel production. First reports on this new well, carried Friday morning estimated the production at 250 barrels. An offset location to this new well is reported on the Panhandle lease, across the river, to the south.

Over to the east of the town of South Bend the Seaboard has temporarily abandoned its No. 1 McBrayer, dry in the 2500 foot depth. This test also failed to get a showing at the 2100 foot level.

Shad Sour on De Love Notes, Waitress Hears

"This yer guy dey call Kiplin didn't near tell de trut wen he advised de geeks that chases de molls to tear 'em in pieces and burn 'em, moaning all dem love letters dey gets and some dey haven't sent, fur if they—them air fellers he's a talkin' abouten liven in this here metropolis of a Wichita Falls, and was rounders likeu me and you—

"Whereder' ye get that stuff, me a rounder?" and the winsome waitress drew her shapely shoulders up through the sheer crepe de chene waist she was wearing in imitation of—take a chance, compre?

"Youse fellers knowed that I was a getting of the low down on, I'se a meaning to pipe youse to the fact that if a pipe in this town's gotta a pill in the way of a chronicle from Sweetie, he'd better burn it on the same stove he surpentishuously poaches eggs on early in the morning and ain't it a 'ell of a job to poach an egg over a gas heating stove in a celluloid soap box? I've already said. Now mourn.

"Meaning just this. There's a copper at the cop house whatcher call a 'serg.' He ain't really and truly no 'serg' fer there ain't no millishi system established here, them cops year what they wanter whenever they craven, but this guy—

"Spill it, kid, spill it," said the Handsome Hasher in the same tone of voice he uses in quelling a patron known in the 'profesh' as—but here the Shad cut in on him.

"He reads 'em all, every blooming line, pictures, advertisements, inscripshuns on fotos and don't take no interest at all. Lots and lots of these here criminus are caught thru his reading; he se he hates it, that love letters and lewd pictchures ain't no more in his yung life than legs wus to the London Cabbie.

"His name—well it's a kinder funny name, Jensen and he's one peach of a fellow, didn't he lend me a quatter not long ago," sighed the Shad as he slid slipperly from his stool in the Great Untamed and staggered sligtheringly toward the door.

"Say, how abouten a quatter, and if you ain't got that," for he caught a warning glance in the Handsome Hasher's eye, 'a thin dime,' and I've got a hunch, too, Van told me not to tell, but I'll give it to youse—"

"On your way, boy,' whispered the Handsome Hasher as he began indistriously to wipe the soggy counter, for the Big Guy, the King Pin and the Green Scum on the Gold Fish Bowl entered the door.

The subject for discussion at this meeting will be "Hikes" and the following assignments have been given scoutmasters: "Kind of Hikes," C. D. Garrett; "Things to Do On Hikes," H. G. Cross; "How to Plan a Hike," Jess McLeery; "Cooking and Serving Meals," Chester Powell.

All troops met last Friday night at their regular meeting place and the following efficiency reports have been compiled by the scout executive following these meetings: Troop 1, 516 points; Troop 2, 285 points; Troop 3, 213 points; Troop 4, 445 points; Troop 5, no reports; Troop 6, 645 points; Troop 7, 612 points; Troop 8, 508 points; Troop 9, 239 points; Troop 10, 25 points; Troop 11, 65 points; Troop 12, 294 points; Troop 13, 180 points; Troop 14, no report; Troop 15, 340 points. This contest runs until July 1. The last contest was won at slightly over 1,400 points.

A meeting of the camping committee of the boy scouts will be held some time the coming week, the exact date not yet having been determined.

Memorial day will be observed by the scouts May 30.

The Drum Corps is scheduled to meet at 7:30 o'clock at the church, Tenth and Lamar streets for their first practice. Every troop is requested to select one boy and have him there for the occasion.

Troop 15 won from troop 13 by the score of 14-13 Saturday in the Scout league. C. Cassey, John Ivey, P. J. Ivey and H. Horton were the batteries for Troop 15, troop 13 made no report. Troop 4 was defeated by Troop 2; Troop 11 forfeited to Troop 6.

"Pep," official organ for the boy scouts, will be issued at the meeting Friday night. Copy of this publication must be in the hands of the scout executive Monday afternoon by 5:30 o'clock, he said Saturday.

Winners in the bird house contest of the Wichita Hardware company will be announced May 1, Mr. Taylor said. He also said that this firm is very anxious that entries in this contest be in their hands Monday and Tuesday of this week.

Two scout bands are in process of organization, one of which has 15 instruments and the other 13. These organizations are composed of scouts from various troops of the city and Mr. Taylor says the prospects for a real band from the ranks of the scouts is promising by early fall.

The Court of Honor will meet April 29 and will make awards and give out badges. This will be the first meeting since March of this year.

Trop 9 met with their new scoutmaster, W. J. Dale, for the first time last Friday night. This troop meets in a tent on the lawn of J. W. Culberson's residence and it is said that the boys greatly enjoy this diversion. This will be their regular meeting place until further announced.

Troop 11 meets next Friday night at the Floral Heights Methodist church for the first time. They have been meeting at the Floral Heights tabernacle.

A banana eating contest will feature the meeting of Tropp 1 Friday.

A meeting is called for the baseball association of the scouts Monday, at which time plans will be made for settling the contest between teams 4 and 15, which is contested.

Sees Prospects For Amending Truck Tax Law

Interest among truck dealers and operators over the state is intensely concentrated in the effort to secure amendment of the truck tax law, eliminating the mileage tax, at the special session of the legislature, according to Representative B. F. Johnson on his return from a trip in the interest of the movement.

Mr. Johnson will lead the legislative fight for the amendment of the measure at the special session.

A number of representatives and senators who opposed the bill on its regular passage are now of the opinion that something "was slipped over" on them, Mr. Johnson says, and will vote for the amendment, he says.

A Cow Kicked Over a Lantern and Chicago Burned

MRS. O'LEARY of DeKoven Street, on the west side of Chicago, on Sunday Evening, October 8, 1871, took her little coal oil lantern and went out to the barn to milk her cow.

The Cow kicked over Mrs. O'Leary's Lantern—the straw scattered about the barn floor took fire—and that was the beginning of the great conflagration that destroyed Chicago.

For two days the fire raged. It swept an area of over 2,021 acres, and destroyed 17,450 buildings. It rendered seventy-thousand people homeless. It caused a money loss of one hundred and ninety million dollars. It took a toll of two hundred lives.

That was a costly kick. It kicked Chicago into disaster. If Mrs. O'Leary's barn had been lighted by electricity the kick of her cow could not have endangered the lives and property of her neighbors.

Electric light and power spells SAFETY PLUS SERVICE. It means greater comfort and convenience, with economy of time and energy. It makes brighter, better, SAFER living and working conditions.

Your electric light and power system is active evidence of the PROGRESS that has been made in SAFETY PLUS SERVICE since that Sunday evening when Mrs. O'Leary lighted her lantern and Chicago burned.

Indians Begin Ariging for Spring Rodeo

The Indians who will take part in the buffalo hunt, Indian dances and other special features of the Round-Up which will open at the ball park Thursday afternoon began arriving at the Burnett ranch late Saturday evening and will camp there until Tuesday when they will move to the city and pitch their tepees here for the big show.

There are about seventy-five of them, all full blood reservation Indians and among them many old time red warriors and quaint characters.

The outlaw bucking horses, long horn steers and other stock for the Round-Up which has been gathered and quartered on the ranch for the past two weeks will be shipped in Tuesday also, and while it is only sixteen miles to the ranch and the freight rates high for short shipments, Tom Burnett would not listen to the offer of a group of cowboys to drive the animals in as he believes that to do so would endanger the lives of people along the route, owing to the fact that the Brahma steers are the most vicious lot ever seen in this section.

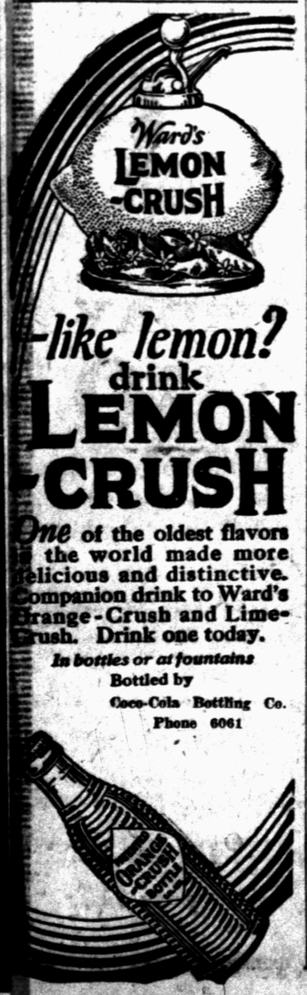

The unloading of the Brahmas and transporting them to the strong corrals at the ball park will not take place until Tuesday night about midnight, as it is believed that they can be driven at that time from the yards to the ball park without danger.

There are so many events now arranged for the Round-Up that the program is almost overloaded and many of the special features will be thrown into the night show which will take place in front of the grandstand each night. This show is designed to care for those who cannot get away from their business to attend the regular performance in the afternoon.

WIFE OF CHICAGO CONGRESSMAN WILL URGE FOCH TO MOVE NEGRO TROOPS

Mrs. Fred A. Britten.

Mrs. Fred A. Britten, wife of the Chicago congressman, has just sailed for France to present to Marshall Foch a protest against the retention of African troops in Germany. Congressman Britten has framed a resolution asking the president to use his influence to obtain the removal of these troops, but he will not present it until his wife has appealed to Foch. It is the retention of colored, semi-civilized troops in control of white Christian people to which Britten objects.

Hundreds Visit Lake Resort on Opening Day

Hundreds of people visited Lake Wichita Sunday, the opening date of the season.

Practically every feature of the lake resort has undergone extensive improvement since last season, many of them, probably the swimming pool, having been completely rebuilt.

The pavilion has been extensively improved, as has the dancing floor on the second floor.

Gravel walks, with a miniature "white way" are among the improvements, as well as an enclosure where cars may be parked for a moderate sum, and may be found waiting for the owner when again required for use.

MAN ARRESTED AFTER MONTHS OF SEARCHING

E. T. Busby, said by officers to have been a fugitive from justice for several months since his indictment here for swindling and felony theft, was arrested Sunday night at Iowa Park by Sheriff Fred Smith and Deputy Sheriffs Robinson and Sansbury.

The arrest of Busby followed several weeks continuous search by the sheriff's department following information to the effect that he had returned to this vicinity from Old Mexico.

Busby is said to have swindled a resident of this county by selling property which was mortgaged and absconding with the funds. He is also alleged to have stolen cattle.

A Fund of Information That You Should Have

DISRAELI, who for six years was prime minister of England, said "It has been my observation that the most successful man in any undertaking, is the man who has the most information."

It doesn't require any particular information just to go out and buy something. But to buy the best of that something at a price that is satisfactory to you—that is a successful purchase. And to make successful purchases you must have information.

Advertising gives you just that kind of information. It tells you where to go in order to get the best of anything you want at a fair price.

That is why it is a paying proposition for the man or woman who handles a pocketbook to study the advertisements in this newspaper, **regularly, every day.**

To those who use it properly, newspaper advertising is a source of economy and satisfaction that never runs dry. It is a watch-dog of dollars—a guarantee of satisfaction.

If you would learn the facts about the things you need to make you comfortable and happy—

GODLEY WELL FLOWING BEST TODAY

Drilled a short distance into the oil sand 1880, the Godley Oil Gas Company's No. 2 Graves-Perry is flowing between 50 and 60 barrels of oil, and making around three million feet of gas, according to Saturday reports of the company from the field.

The well has been connected with the tanks, and will be allowed to produce at this depth for a time, it is said. This well is some little distance from the Godley-Furlow No. 1 Edwards-Graham, on the school house lot, which has been producing about three weeks from the 1880 foot sand. This last well was reported a 250 barrel producer when first completed. The No. 2 on the school house lease is reported drilling around 1200 feet, and the No. 3 was reported as spudding in Saturday.

On the east end of its 40 acre Graham lease, offsetting the Colquitt river bed wells, the Godley is rigging up for its No. 5. The No. 4 of this lease is due to be drilled in, in the 1800 foot sand some time this week, being reported down around 1500 feet on Saturday.

The Seaboard Oil and Gas Company's No. 3 Graham, a short distance across the river from the Panhandle's No. 7 completed last week making 700 barrels in the 2100 foot sand, is reported drilling around 1800 feet. The No. 5 spudded in Saturday, and the No. 4 is reported a rig.

A several hour guage of the Seaboard's No. 2 Graham, the big 2500 foot well brought in March 31, showed the well still flowing at the rate of 60 barrels an hour, or around 1500 barrels daily, according to reports received Saturday evening, and the guage was made that morning.

Increased production is reported showing up in the Hamon Estate well on the Stovall, the Saturday reports giving a 300 barrel production. First reports on this new well, carried Friday morning estimated the production at 250 barrels. An offset location to this new well is reported on the Panhandle's lease, across the river, to the south.

Over to the east of the town of South Bend the Seaboard has temporarily abandoned its No. 1 McBrayer, dry in the 2500 foot depth. This test also failed to get a showing at the 2100 foot level.

"Meaning just this. There's a copper at the cop house whatcher call a 'serg.' He ain't really and truly no 'serg' fer there ain't no militshi system established here, them cops year what they wanter whenever they craves, but this guy—

"Spill it, kid, spill it," said the Handsome Hasher in the same tone of voice he uses in quelling a patron known in the 'profesh' as—but here the Shad cut in on him.

"He reads 'em all, every blooming line, pictures, advertisements, inscripshuns on fotos and don't take no interest at all. Lots and lots of these here criminus are caught thru his reading; he se he hates it, that love letters and lewd pictchures ain't no more in his yung life than legs wus to the London Cabbie.

"His name—well it's a kinder funny name, Jensen and he's one peach of a fellow, didn't he lend me a quatter not long ago," sighed the Shad as he slid slipperly from his stool in the Great Untamed and staggered sligtheringly toward the door.

"Say, how abouten a quatter, and if you ain't got that," for he caught a warning glance in the Handsome Hasher's eye, 'a thin dime,' and I've got a hunch, too, Van told me not to tell, but I'll give it to youse—"

"On your way, boy,' whispered the Handsome Hasher as he began indistriously to wipe the soggy counter, for the Big Guy, the King Pin and the Green Scum on the Gold Fish Bowl entered the door.

SCOUTS WILL HAVE ACTIVE SEVEN DAYS

The coming week will be characterised by numerous meets of boy scouts and scout officials and executives, according to H. E. Taylor, scout executive. The past week Mr. Taylor says has seen improvements made in the work of the scouts and several interesting moves started, among which was the organization of a scout drum corps.

The executive board of the boy scouts will meet at scout headquarters in the basement of the Morgan building Monday morning at 10:30 o'clock. This meeting is held for the purpose of discussing the financial conditions of the scouts and discussing other matters of an executive nature. Four thousand one hundred dollars have been raised for the scouts work the coming year, according to the last reports. Three teams are yet to report. The executive board of th scouts consisting of: D. M. Perkins, C. B. Felder, J. M. Bland, Lee Clark, sr., Will Daniell, J. W. Bradley, J. W. Culbertson R. E. Shepherd C. H. Clark, W. L. Robertson, R. D. Donnell, P. A. Rogers, Myles O'Reilly, Walter Curlee, W. D. Cline.

Monday night at 7:30 o'clock scoutmasters will meet at the First Christian church. The subject for discussion at this meeting will be "Hikes" and the following assignments have been given scoutmasters: "Kind of Hikes," C. D. Garrett; "Things to Do On Hikes," H. G. Cross; "How to Plan a Hike," Jess McLeery; "Cooking and Serving Meals," Chester Powell.

All troops met last Friday night at their regular meeting place and the following efficiency reports have been compiled by the scout executive following these meetings: Troop 1, 516 points; Troop 2, 285 points; Troop 3, 213 points; Troop 4, 445 points; Troop 5, no reports; Troop 6, 645 points; Troop 7, 612 points; Troop 8, 508 points; Troop 9, 239 points; Troop 10, 25 points; Troop 11, 65 points; Troop 12, 294 points; Troop 13, 180 points; Troop 14, no report; Troop 15, 340 points. This contest runs until July 1. The last contest was won at slightly over 1,400 points.

A meeting of the camping committee of the boy scouts will be held some time the coming week, the exact date not yet having been determined.

Memorial day will be observed by the scouts May 30.

The Drum Corps is scheduled to meet at 7:30 o'clock at the church, Tenth and Lamar streets for their first practice. Every troop is requested to select one boy and have him there for the occasion.

Troop 15 won from troop 13 by the score of 14-13 Saturday in the Scout league. C. Cassey, John Ivey, P. J. Ivey and H. Horton were the batteries for Troop 15, troop 13 made no report. Troop 4 was defeated by Troop 2; Troop 11 forfeited to Troop 6.

"Pep," official organ for the boy scouts, will be issued at the meeting Friday night. Copy of this publication must be in the hands of the scout executive Monday afternoon by 5:30 o'clock, he said Saturday.

Winners in the bird house contest of the Wichita Hardware company will be announced May 1, Mr. Taylor said. He also said that this firm is very anxious that entries in this contest be in their hands Monday and Tuesday of this week.

Two scout bands are in process of organization, one of which has 15 instruments and the other 13. These organizations are composed of scouts from various troops of the city and Mr. Taylor says the prospects for a real band from the ranks of the scouts is promising by early fall.

The Court of Honor will meet April 29 and will make awards and give out badges. This will be the first meeting since March of this year.

Trop 9 met with their new scoutmaster, W. J. Dale, for the first time last Friday night. This troop meets in a tent on the lawn of J. W. Culberson's residence and it is said that the boys greatly enjoy this diversion. This will be their regular meeting place until further announced.

Troop 11 meets next Friday night at the Floral Heights Methodist church for the first time. They have been meeting at the Floral Heights tabernacle.

A banana eating contest will feature the meeting of Tropp 1 Friday.

A meeting is called for the baseball association of the scouts Monday, at which time plans will be made for settling the contest between teams 4 and 15, which is contested.

Indians Begin Ariging for Spring Rodeo

The Indians who will take part in the buffalo hunt, Indian dances and other special features of the Round-Up which will open at the ball park Thursday afternoon began arriving at the Burnett ranch late Saturday evening and will camp there until Tuesday when they will move to the city and pitch their tepees here for the big show.

There are about seventy-five of them, all full blood reservation Indians and among them many old time red warriors and quaint characters.

The outlaw bucking horses, long horn steers and other stock for the Round-Up which has been gathered and quartered on the ranch for the past two weeks will be shipped in Tuesday also, and while it is only sixteen miles to the ranch and the freight rates high for short shipments, Tom Burnett would not listen to the offer of a group of cowboys to drive the animals in as he believes that to do so would endanger the lives of people along the route, owing to the fact that the Brahma steers are the most vicious lot ever seen in this section.

The unloading of the Brahmas and transporting them to the strong corrals at the ball park will not take place until Tuesday night about midnight, as it is believed that they can be driven at that time from the yards to the ball park without danger.

There are so many events now arranged for the Round-Up that the program is almost overloaded and many of the special features will be thrown into the night show which will take place in front of the grandstand each night. This show is designed to care for those who cannot get away from their business to attend the regular performance in the afternoon.

WIFE OF CHICAGO CONGRESSMAN WILL URGE FOCH TO MOVE NEGRO TROOPS

Mrs. Fred A. Britten.

Mrs. Fred A. Britten, wife of the Chicago congressman, has just sailed for France to present to Marshall Foch a protest against the retention of African troops in Germany. Congressman Britten has framed a resolution asking the president to use his influence to obtain the removal of these troops, but he will not present it until his wife has appealed to Foch. It is the retention of colored, semi-civilized troops in control of white Christian people to which Britten objects.

Hundreds Visit Lake Resort on Opening Day

Hundreds of people visited Lake Wichita Sunday, the opening date of the season.

Practically every feature of the lake resort has undergone extensive improvement since last season, many of them, probably the swimming pool, having been completely rebuilt.

The pavilion has been extensively improved, as has the dancing floor on the second floor.

Gravel walks, with a miniature "white way" are among the improvements, as well as an enclosure where cars may be parked for a moderate sum, and may be found waiting for the owner when again required for use.

MAN ARRESTED AFTER MONTHS OF SEARCHING

E. T. Busby, said by officers to have been a fugitive from justice for several months since his indictment here for swindling and felony theft, was arrested Sunday night at Iowa Park by Sheriff Fred Smith and Deputy Sheriffs Robinson and Sansbury.

The arrest of Busby followed several weeks continuous search by the sheriff's department following information to the effect that he had returned to this vicinity from Old Mexico.

Busby is said to have swindled a resident of this county by selling property which was mortgaged and absconding with the funds. He is also alleged to have stolen cattle.

A Fund of Information That You Should Have

DISRAELI, who for six years was prime minister of England, said "It has been my observation that the most successful man in any undertaking, is the man who has the most information."

It doesn't require any particular information just to go out and buy something. But to buy the best of that something at a price that is satisfactory to you—that is a successful purchase. And to make successful purchases you must have information.

Advertising gives you just that kind of information. It tells you where to go in order to get the best of anything you want at a fair price.

That is why it is a paying proposition for the man or woman who handles a pocketbook to study the advertisements in this newspaper, **regularly, every day.**

To those who use it properly, newspaper advertising is a source of economy and satisfaction that never runs dry. It is a watch-dog of dollars—a guarantee of satisfaction.

If you would learn the facts about the things you need to make you comfortable and happy—

ARMOND BOTH'S MISTAKE.

The inaccuracy of illustrators is a stale joke of reviewers; so often the illustrator obviously hasn't read the text for which he is drawing.

This however, was not Armond Both's difficulty in illustrating Rex Beach's "Flowing Gold," now appearing serially in Hearsts. Mr. Both's obstacle is that he has never seen Wichita Falls and that if he talked at all with Mr. Beach, who did spend a short time here in hurried apperception of local color, Mr. Beach failed to draw any distinction between Wichita Falls and cross-road shack-villages in the oil fields.

Hearsts Magazine spends, according to its own testimony, much money and care in getting the best for its readers. Every month expensive photographs appear in the magazine. In the art editor's budget, the expenses of an illustrator's trip to Wichita Falls would evidently be negligible. But if such expense were very great, it would probably be well worth while to Hearsts Magazine.

The publication can not afford to antagonize a community of 40,000, a leading center of one of the country's most essential industries.

And what Wichitan could fail to resent his community's being represented as it is in the Hearst Magazine for May?

It is true that one may see derricks in the distance from almost any high point in the city. It is true that the lights of refineries of national fame twinkle to the town at night as do those of Coney Island to Staten.

It is also true that Both wouldn't, if he were suddenly to find himself in the arcade of the City National bank of Wichita Falls have any reason to be certain he wasn't standing in the Farmers' Loan & Trust Co., 22 Williams St., New York city, nor would the office at 169 Broadway, where we have seen a picture of the Northwest field or even Burkburnett townsite show a striking difference from a similar office in Wichita Falls, where he could see similar photographs.

Our Chamber of Commerce could, without undue display of local fatuity, point out to Hearsts Magazine that a community whose bank clearings run between a half million and a million daily, could scarcely look like the one on pages 6 and 7 of its current issue.

The Chamber of Commerce would also be glad to receive Mr. Both as their guest. He could be entertained at a $1,500,000 hotel. Although our union station is scarcely a matter of civic pride, since it was built to accommodate a city of 7,000, Mr. Both might do well to note its difference from a cross-roads waiting-room.

Hearsts for June, will ere this be off the presses and it may be that July is too far forward to be halted, but as a piece of friendly advice we suggest that to Hearsts that it can well afford to send Mr. Both here before his drawings for August are used.

If further pictures of this city are to be used, Mr. Both himself will insist on making new ones, if he has to miss a summer vacation. Little inaccuracies such as Tom Parkers' plaid shirt, his strangely foreign boots, his coal-stove in a land, which burns gas and oil and the long-stemmed fuchsia flowered aspect of the little prairie grass flowers "bluebonnets" are to be expected and overlooked.

But Wichita Falls in the guise of a drilling crew's headquarters is a serious misrepresentation, which even Hearsts may hesitate to follow.

TROUBLE AHEAD FOR SMOKERS.

The smoker who has regarded the crusades against tobacco as nothing more than scattered guerilla warfare against the cigarette should rouse himself from his complacency, for the enemy has dug up another hatchet and in its council chambers has declared unceasing warfare upon nicotine in all its forms. Not so long ago the W. C. T. U. denied any intent to participate in the campaign, but some of the organization's leaders at least are openly avowing their purpose to send the fag and the perfecto to the limbo prescribed for John Barleycorn.

According to word from Chicago, the foes of nicotine will avoid drastic measures to gain their ends. They also will rely upon a more subtly publicity propaganda. Instead of merely condemning tobacco as a "filthy weed" and its use "a nasty habit," they will muster economic figures to show how many acres now used to grow tobacco could raise food products and how the money spent for smokes would supply the cottage with a talking machine, electric washer and a score of other modern conveniences. LABOR UNIONS AND CAPITAL

Editor Record News:

Having given expression to various observations on defects in both labor and capital organizations in the Olympic theater Sunday morning, and finding criticisms due largely to lack of time to harmonize general statements with application to concrete problems, in event your editorial discretion approves, the following is offered through your columns to attempt to clarify though the result may be otherwise. To begin with, premises were stated as requiring three comprehensive factors for any solution of any social or industrial problem that would meet with any general acceptance:

1. Applied Christianity principles—Golden Rule—Square Deal, Fair Play or Good Sportsmanship Qualities, whichever term may be preferred.

2. Intelligence, understanding, comprehension of problems and the various factors involved in manufacture and distribution.

3. Initiative, energy, activity—motive force to accomplish and do something. The disposition to utilize intelligence and Christian philosophy in solution of industrial ills.

Remark was made that both of the two sides generally included in industrial controversy, were lacking in at least both of the two first mentioned above, the defects involved from failures in 1 and 2 above as to leaders of capital resulted in the indefensible use (absolutely unjustified in morals, ethics and logic and philosophy as employed) of:

1. Gambling in margins, trading in futures.

2. Watered stock—stock dividends.

3. Exemption of stock issues or securities from taxation on privilege basis.

Comment was made that all of the above were utilized primarily to camouflage the public and to change results in industry much as by use of marked cards or stacked decks in Gambling. Or some phases of "jokers running wild" but always for the benefit of the non-working classes. A sort of secret control of the gambling instruments by hidden springs and magnets and other appliances not understood by the players.

Comment was also made that labor representatives generally paid too much comparative attention to all cures in way of returns to labor to "more wages." This needs as is evidenced by comments after meeting referred to, explanation. Idea intended to be conveyed (and which lack of time prevented being elaborated) was that wages are NOT a general cure for everything.

More and more industry generally is dependent in international trade. In the same ratio as ramifications in industry increase, importance of adjustments that will least interfere with foreign and local trade, increases. Many times labor agents ask for increased wages when high cost of living should be attacked by decreasing other factors. When manufacture is possible only on a cost basis that absolutely precludes trade and exchange of goods, remedy is not increased cost in higher wages, IF as is frequently the case, high cost is due to unearned returns in other directions like dividends on capital stock in amount of a million with total investment likely more nearly a $100,000. Applying in way of 8 percent dividends, that rate on $100,000 makes annual charge of $8,000 or $666.67 per month. Applying same rate to $900,000 additional water (more than that in some oil companies relatively) annual interest or dividend charge on alleged invested capital is $80,000 or $6,666.67 per month, or an added charge of $200 per day which MIGHT pay 10 percent higher on a $2,000 per day payroll.

Now should the commodity manufactured by such a concern be one affecting the cost of living (and most all things do), elimination of the water in the capital might reduce the cost of living to make less urgent any increased wages and ALSO bring manufacturing cost down to a total that might allow foreign trade. In such a case, demand for increased wages to offset the cost of living would only make a difficult matter more difficult—to cure without killing the entire industry.

That difficulty to a large extent is the trouble now with transportation. Regardless what the defenders or specialists for the Esch-Cummins bill may claim, they have brought the government to GUARANTEE a certain rate on so much water in stock (that never had and can't yet under private control "earn" dividends guaranteed) that even killing of business rates cannot increase earnings of railroads to give the returns "guaranteed" by the action of congress in underwriting capitalists and invested hot air in a way that if applied to labor returns would lead to charges of worse than bolshevism.

Organized labor's failure (as far as the rank and file and its public opinion is concerned) to study and grasp and comprehend the factors that tear up the business of transportation, and efforts to INCREASE wages when existing rates are paralyzing to all business requiring labor, is due to ignorance or indifference of their members and citizenship generally to correct solutions of problems BY SQUEEZING OUT THE WATER, even if necessary to LIQUIDATE through the bankruptcy courts. That is the remedy for other pyramided industry and its logic and philosophy applies equally to enabling the railroads to START OVER on a basis of invested capital in amount requiring to purchase through receivership or bankruptcy sales.

All factors of business are so interrelated that alleging change in one as a cure for whatever evils may be alleged to exist, WITHOUT INVENTORY AND EXAMINATION of other factors for contribution to alleged evils, is necessarily superficial, and most reform cures are superficial from the existing ignorance and indifference of the public to their own problems. Another phase of ignorance and indifference is the unwarranted assumption that any new move for any purpose is necessarily free from alleged evil in originations sought to be displaced. You can't solve 20th century problems on basis of 18th century education and understanding and by ignoring new factors created by modern invention, machine and multiple manufacture.

F. G. SWANSON.

ON THE SPUR OF THE MOMENT

A LITTLE SLICE O'LIFE

Yesterday was one of those days,
One of those days when nothing
Occurs to one which is worth
Writing about. We had touched up
The Elwell case, the Stillman case,
The Panama-Costa Rica war,
Little Jackie Coogan, the circus,
The Stokes divorce case,
Street cars, the spring poets,
Young onions, China's new president,
The trouble in Ireland,
Two or three new shows,
Short skirts, scarcity of help,
The league of nations,
The new telephone line to Cuba,
Einstein's theory of relativity,
The falling price of rhubarb
And the coming of two comets,
And we mulled over a hundred
Contributions, and at 4 o'clock
There was not a ray of light,
So we decided to write about nothing,
And here it is.

A New York manager rehearsed his company to play a musical show. He sent his director after some second-hand scenery. The director came back and said all the scenery he could find was a set for "King Lear." "All right" said the manager, "we'll play 'King Lear'," and they did.

IGNORANT ESSAYS

By J. P. McEVOY

ROTUNDITIY: Fatty Arbuckle; grape fruit.

HEYGETTHAHELOUTTATHEWAY: A social phrase used as a form of greeting by motorists.

PEDESTRIANS: A species of timid game hunted by motorists.

APPROXIMATE: Any woman's age. Your net income as reported for tax. Golf scores.

INELEGANT: Pajamas, galoshes, a girl on the rear seat of a motorcycle.

JERRY: Hep.

MANNERS

JOSEPH: What is man-ners, Father?

FATHER: You mean what are man-ners, don't you? Where do you get that "is" stuff?

JOSEPH: Well, what are manners, then, if you are going to be so met-ic-u-lous-ly gram-mat-ic-al.

FATHER: Man-ners is, I mean are, what makes, I mean make, you get up and give your seat to a lady in a street car, or what prevents you from eating peas with a knife.

JOSEPH: I thought it was the ro-tund-i-ty of the pea, and its propen-si-ty for re-spond-ing in-stan-ta-ne-ous-ly and ir-re-sist-i-bly to the cosmic urge of grav-i-ta-tion-al attraction.

FATHER: Huh?

JOSEPH: You know, father, gravitional attraction which varies directly as the mass and inversely as the square of the distance.

FATHER: Oh, yes, of course, naturally. But we were discussing manners, which have nothing to do with gravitation.

JOSEPH: True for you, Father, proceed.

FATHER: Manners are what make one say "Excuse me," when one bumps into you on the sidewalk, and lack of manners is shown when the same person hits you with an automobile and yells "Heygethaheloutthatheway."

JOSEPH: I approximate from your lucid remarks, Father, that pedestrians have manners, while motorists have not.

FATHER: Your approximater is hitting on all six, my boy.

JOSEPH: It pleases me to hear you say so, Father, although if I may mention it, you phrase your thought a trifle inelegantly. But let us on with our lesson. It is a difficult task to acquire manners?

FATHER: For some it is more than difficult—it is impossible. While for others—they have nothing, else but.

JOSEPH: Return, Father.

FATHER: What?

JOSEPH: I mean, come again.

FATHER: In other words, manners are a sort of a body finish, but some are all finish and have no chassis under the polish and no engine under the hood.

JOSEPH: Your phraseology is a bit technical, Father, but I am Jeremiah.

FATHER: Huh?

JOSEPH: I mean I'm jerry. As your generation so quaintly phrases it, you are the berries, Father. And now I shall retire and con-tuse my aur-i-cu-lar organ.

FATHER: Huh?

JOSEPH: In other words, good night, Father, I am going to pound my ears. Thank you for your illuminating discourse on manners.

TO HAVE AND TO HOLD?

NOSING 'ROUND WASHINGTON

BY ROBERT CORTES HOLLIDAY

Author of "Walking-Stick Papers," "Broome Street Straws," "Men and Books and Cities."

We strolled along the driveway leading by the front entrance to the white house. The baggy looking policeman lazily sunning himself beside the portico recalled to my mind with amusing contrast the snappy redcoats who briskly pace back and forth before Buckingham palace. They are superbly haughty and disdainful beings. A charming democratic character, this policeman. "At a fierce cloud over there." he ob served to us as we passed near by.

A splendid looking army officer together with a caped naval commander emerged with springy step from the white house door, both carrying an air of high elation. A sumptuous car rolled up and halted beneath the portico roof projecting over the driveway. From it a lady leaned out extending a card. Out pranced a gleaming negro flunky to receive it with bows of elaborate courtliness. As he turned to re-enter the white house it struck me that I did not believe I had ever seen a happier looking human being. Also, in his beautiful dark blue tail coat with bright silver buttons and delicately striped light waistcoat he brought to my mind (incongruously enough) the waiters at Keen's Chop house. The lady rolled on.

A bumptious looking character mounted to the entrance and sent in a card. It was evident in his bearing that he expected within a moment to stride through the doorway. A figure in a skirt coat emerged. Bumptious being springs upon him and begins to pump his hand up and down with extraordinary verve ,straining the while toward the doorway. Skirt coat (his hand continuing to be pumped) deferentially edges bumptious character outward toward descending steps.

It had been an exceedingly hot day for early spring. Traffic policemen had stood on their little platforms at the center of the street crossings under those mammoth parasols they have to shield them from the rigors of the Washington sun. As we proceeded toward our exit from the grounds, approaching to the white house came a diminutive and decrepit figure muffled in an overcoat extending to his heels, blowed under a tall top hat, a pair of mighty earmuffs clamped over his ears.

We had that morning visited the capitol. My friend had been more interested in the guide-conducted tour of the atrocious painting of the battle of Lake Erie, and so on, expatiated on to them—parties which, he said, made him feel that he was back again at the Indiana state fair. We had sat in the visitors' gallery of the senate in the midst of a delegation of some sort of religious sect, whose beards had most decidedly the effect of false whiskers very insecurely attached. Had been much struck by the extreme politeness of a new senator who bowed deeply to each one in turn of a row of pages he passed before. Had responded within a few minutes to the command of "All out!" because of executive meeting and sympathized with the sentiment of fellow citizens likewise ejected who went forth murmuring that they hadn't "got much."

We had wandered through the noble and immaculate senate office building and been much impressed by the scarcity of spitoons there, an abundance of which articles of furniture we had since boyhood associated with all public buildings. We had sat in the outer office of our state senators and listened to one lady after another explain to his secretary in this wise: "I just made up my mind . . . I just decided to go right after it . . . I just determined . . . I just thought . . . Otherwise, of course, I shouldn't presume to ask it."

In the library of congress we had been much interested to hear an European gentleman of vast erudition connected with the library declare that "there was more intellectual life in Washington than in any other city in America—that it was an European city, in the best sense." We had been accosted on the street by a very portly and loud-voiced man who introduced himself by inquiring where we were from: who confided that his business in Washington had to do with an alcohol permit; and who asked to be directed to Corcoran gallery. We had run into an old acto r friend who was here playing, he said, "nut stuff;" and who observed that Washington was "more of a boob town than ever." We had been assured by a newspaper friend that Washington was so full of inventors and blue law fans that if you "dropped a match anywhere a nut would step on it."

We had been charmed by the vast number of elderly couples apparently on a final mellow honeymoon before the fall of the curtain. At lunch and overhead an inland matron inquire of a waitress if scallops were "nice." 'Had enjoyed hot corn bread with every meal. Had been unable to account for the appearance on the streets of so many wounded soldiers. Had made the mistake of getting up so early that in the deep Washington stillness of half past seven we were scared to run the water for our baths for fear of rousing the sleeping hotel to angry tumult. Had noted that nowhere except in London is the fashion of freshly polished shoes so much an institution. Had speculated as to why the standard model of American statesman's hat should be a blend of an expression of the personalities of W. J. Bryan, Buffalo Bill and Colonel Watterson.

DINNER STORIES

They were an extraordinarily merry party, and in the wee sma' hours they had zigzagged their way to what they took to be MacGregor's house.

After they had hammered lustily on the door for some minutes a bedroom window opened and a night-capped head appeared.

"'Scuse us," quoth the spokesman, "but you're Missish M'Gregor, aren't you? If you are, pleash come down and pick out M'Gregor, 'cause we want t' go home, an' we dunno which of ush is him!"

"Pa, what's a counter-irritant?"

"A counter-irritant, my son, is a woman who makes a dry goods clerk show her every thing on the shelves and then buys a yard of muslin."

A traveler in Ireland stopped for a drink of milk at a white cottage with a thatched roof, and, as he sipped his refreshment he noted, on a center table under a glass dome, a brick with a faded rose upon the top of it. "Why do you cherish in this way," the traveler said to his host, "that common brick and the dead rose?" "Sure, sir," was the reply, "there's certain memories attachin' to them. Do you see this big dent in my head?" "But the rose?" "The rose," said the host, "is off the grave of the man that threw the brick."

Miss Dicie Howell urges gradual elevation of the public to appreciation of the old classics by first giving them music they understand. She urges the singing of songs in English.

The hangar, nearing completion, near Juterbog, Germany.

The news that Germany was building a giant hangar for a Zeppelin for the Japanese government aroused rumors of a secret military alliance between the two nations until German correspondents learned that it was being built in accordance with the reparations terms. The hangar, after it has been completed, will be shipped to Japan in sections.

"Babe" Ruth lived up to his cognomen in the ninth inning of yesday's battle with the Fort orth Panthers, winning his own me with a terrific belt to right ld that scored Kitchens with the needed to win the contest by to 5 count. The Spudders were iling the visitors by one run en the ninth rolled around and ded two counters to win, with t a half inning to play. Works t up placed the pill over Rigy's head and Kitchens scored him th a double to right. With the ne in a knot, Ruth looked one Wachtel's shoots over, then belthe pill to deep right, a hit that uld have been ordinarily a triple it was held to a single when itchen's crossed the pan with the n that spelled defeat to the anthers.

The game was a continuous seew affair with first the Spudders d then the Panthers taking the d. The locals scored two in the rd and one in the fourth, but e Panthers came back with one the fourth and two in the fifth. e sixth inning saw the Spudders ain take the lead but were forced relinquish it in the eighth when e visitors scored two. The two the ninth with none out gave e game to the locals.

Twenty-five hits were made durg the fracas but in the major of innings the hurlers tightned up or were saved by fast ible plays. Both clubs accomished a duo of two-play killings. The day was hot and the crowd, hich was by far the best in numr of attendance since opening y, took off their coats and setd down to enjoy a real ball game d a real game it was. Brilliant ps, long distance hits, seemingly impossible running catches and tight offensive work all around both clubs put the battle in a ss by itself so far as games that ve been played here. The ninth ning really sent the spectators way with that feeling that a home wn crowd likes—victory. The uddies fought hard and they deryed to win.

Darrough Starts.

Darrough started for the locals d worked through 7 and 1-3 inngs of the fray, being relieved by th the eighth when four hits d two runs had been scored by rs. Tanner scored thfuss with a double to right nter that Taylor barely got his nd again and then dropped. Tanr scored on McDonald's single right.

Both clubs counted once in the rth frame with the visitors tythe count in the fifth when r Darrough had walked Wach-, Coombs lifted the ball over left field fence.

With the same old fighting spirit t has always featured the Spudders Darrough allowed one hit that might have been called an error for McDonald had the wallop been not too hard to handle. In the eighth the visitors and many of the spectators thought the home club was doomed to do down to defeat for the Panthers making four hits, including two doubles, scored two runs which put them ahead by one counter. Darrough was yanked in this frame and Ruth sent in. "Babe" retired the side making Wachtel pop to Works and Coombs fly to Miller. Kraft's two-bagger in this inning would have been a home-run had not one of the braces that hold up the wires strung along the left field fence, intervened. The ball took a bad hop and cleared the fence but fell into the park. It might as well have been a homer for the big first sacker scored a minute later on Taylor's crack to center.

Some Dark Moments

With things looking dark for the home club Salm ordered Bischoff to bat for Ruth, the later who was due to bat third. Works singled and Kitchens doubled scoring the enlongated first sacker. Salm thought things looked brighter inasmuch as there were none out and the score was a tie, so he rescinded the Bischoff order and told the Babe to go ahead and hit. Babe followed orders for the second ball pitched he slammed it to deep right, scoring the run that won the game.

Entire Club Flashy

Not to take any of the glory away from the three that won the contest with their timely blows, it wouldn't be fair not to mention that during numerous occasions in the nine innings only the flashiest kind of fielding prevented the Panthers from running away with the game. Rothfuss robbed Phelan of a home-run in the third by jamming himself to the left field fence and making a leaping catch of what looked to be a sure over-the-fence clout. Miller made two pretty running catches and McElwee one, while the infield worked like the proverbial clock. McDonald at third had a lot to contend with during the afternoon for every one of his chances were hard hit balls that he was lucky to grab any of them. The thirdsacker did miss one or two but the official scorer decided that as the wallops were of the hit variety, the batsmen was to be favored and therefore did not check up an error.

Today Is the Last

The Spudders played a wonderful game and all the credit in the world is due them. The spirit that "never says die" is with them and the local ball club is going to spring many surprises this year. The fans are with them all the time and that alone is one good sign that they, they Spudders, are a better ball club than the standings would seem to indicate. The last game of the first home stand is due this afternoon both teams leaving for Fort Worth tonight where they play one game tomorrow. The Spudders then open with Shreveport on the Gassers home lot.

Cleveland and Pirates Clout Ball Viciously

NEW YORK, April 24.—The Cleveland world's champions who took the lead today in the American League pennant race by defeating St. Louis four straights, appear to have the edge on the other western teams. The Indians have made 72 runs on 113 hits in the ten contests they have played with St. Louis and Detroit.

Pittsburgh is outbatting the other National League clubs. The Pirates have made 69 runs on 122 hits in their 11 games with Cincinnati and Chicago, and on the form shown by St. Louis, should have little trouble in disposing of the Cardinals.

Bad weather has prevented many major teams from getting into their stride. Twenty of the 56 games scheduled last week were postponed because of cold weather, snow, rain or wet grounds.

In the American League, the reorganized White Sox have done well with Faber and Kerr on the mound, but an attemp today by Manager Gleason to try out recruit twirlers was disastrous.

WHY BABE LIKES TO HIT 'EM OVER FENCE

Ruth being tagged out at third, Welsh to Dyhas to Dugan, trying to stretch his double to a triple.

"One reason I like to slam the ball out of the lot is that nobody can throw you out at first, second, third or home," remarks Babe Ruth. Babe Ruth is no Clyde Milan or Tris Speaker or Sam Rice when it comes to running the bases. He has already fallen a victim to fast fielding while running out hits that weren't homers. The photo above, taken during the opening Yankee-Athletic series, shows what happened to him after doubling.

RUGGLES DOPES OUT STANDINGS UP TO FRIDAY

By WILLIAM B. RUGGLES
League Statistician.

Hectic hitting was a lurid feature of the first seven days of the Texas League campaign in which the batsmen were far more evidently right than the pitchers, working under the handicap of cold and wet weather. Forty-three players were batting at a clip of .300 or better in the period through Thursday's game. The real batting leader was Clark, Wichita Falls, who had smashed Dallas and Shreveport pitchers for fourteen hits in twenty-five times at bat.

The Winning Pitchers.

Twenty-two pitchers have won .500 or better of their games. Wachtel of Fort Worth leading with credit for three. With most, it has been more the luck of good batting behind them than fine mound work.

They Sure Kill Time.

Spring games as a rule so far have averaged well over two hours and the shortest game played has been reeled off in 1:45. In a 1 to 0 game at Fort Worth, it required 1:30 minutes to play five innings.

ED. NOTE: Either Burgies or the local official scorer is wrong regarding Clark making 14 hits. Clark's average not including the games of Friday and Saturday which these figures do not show should give Clark AB. 25; Hits 12; Av. .480. Rothfuss and Clark were tied in regard to batting averages. However the above is considered official even if it is wrong.

THREE ROOKIES FAIL TO STOP TY COBB MEN

CHICAGO, April 24.—Manager Gleason gave three of his recruits a trial today and Detroit batted the trio and won the final game of the series from Chicago, 7 to 2.

Score—	H.	R.	E.
Detroit	110 021 101—7	18	3
Chicago	000 010 200—3	9	2

Batteries: Daus and Bassler; Mulennan, McWhienig, Wilkinson and Schalk.

CLEVELAND, April 24.—Cleveland defeated St. Louis today, 6 to 5, making it four straight from the Browns. Sewell was spiked by Pitcher Cullop, but returned to the game when his injury was dressed.

Score—	R.	H.	E.
St. Louis	010 022 00—5	10	0
Cleveland	220 020 00x—6	12	3

Batteries: Uhle and O'Neill; Bayne Cullop, Burwell and Severeid.

Saddles Basis Of Polo Club Cowboy Dispute

The local Polo team, who have accepted the challenge of the round-up polo players for a series of games to be played at Call Field, the first of which is billed for Sunday, May 7, and the round-up team, like two champion battlers, ready for a ring engagement, have just participated in their first squabble, the cowboys entering serious objection to playing with English saddles, which they dub "pan cake" saddles.

The local team comes back at them with the assertion that if they are the riders they would have the people believe they are, that they should be able to ride with English saddles. The cowboys want to ride with real stock saddles, which the local players call "rocking chairs," and it seems that at the present time it will take some cooler heads to smooth out and adjust the matter.

CLASSIC PENN RELAYS START NEXT FRIDAY

Hundreds of athletics—the cream of schools and colleges from all parts of the country will gather at Pennsylvania university for the classic Penn relays Friday and Saturday under the auspices of the University of Pennsylvania.

Franklin field, the scene of hundreds of brilliant performances on track and field in other years, will be the stage on which the fleet and brawny stars will vie for honors, and the games are expected to attract a record attendance.

The entry of a team from France, representing the leading schools and colleges of that valiant nation, gives the 1921 relays an international flavor. The French team is led by George Andre, quarter-mile champion of France, and the relay team will include Andre, Gaston Fery, Maurice Mercery and either Maurice Delvart or Devaux. Ali-Kahn, the sensational French territorial sprinter, who won his way into the final heat of the 100-meter race at Antwerp last summer, and De Nys, one of the best long distance runners in France, are the individual entrants.

Yale, Harvard, Penn, Penn State, Princeton, Cornell, Columbia, Syracuse, Michigan, Illinois, Chicago, Virginia, Wisconsin, Minnesota, Nebraska, Kansas, Ohio State, Pittsburhg, Notre Dame Redlands Boston College, Carnegie Tech, U. S. Navy, Missouri, Dartmouth, Iowa State and hundreds of other colleges from all sections of the country will be represented by relay teams.

Changes From Last Year.

There are several new events on the program this yeear. The two-mile international takes the place of the three-mile race of last year, which was won in such brilliant fashion by Gordon Nightingale, then of Virginia, who defeated Montague, the Oxford star, by litterally running the heart out of his rival.

A Class "B" high and preparatory schoo championship will take the first class of high and prep school. The City College championship and the normal schools event are also new.

The entire list of institutions represented in the relays this year includes 413 schools and colleges, but as many of the leading schools will have more than one team in the championships there will be close to 500 teams competing.

Records are expected to fall in many events. The hurdle races, the sprints, the distance runs, the relay classics and the various field events from javelin to shotput, not to mention the pentathlon championship, should bring out the most brilliant competition ever witnessed on historic Franklin Field.

Last year the setting of a new world's record in the 440-yard hurdles by Watt, of Cornell, who ran the events in 54 1-5 seconds, the great performance of Nightingale and the winning of the pentathlon by Everett Bradley, of Kansas university, featured the final day of the meet.

Nightingale will undoubtedly be a favorite in the two-mile international event, but he will find himself up against the strongest kind of opposition. Romig, of Penn State, the intercollegiate cross-country champion; Furnass, of Purdue, the Western cross-country champion; Wharton, of Illinois, the western two-mile champion; Buker, of Bates college, the New England cross-country and two-mile champion, together with Higgins, of Columbia, are all in the event. The latter proved himself one of the best distance runners in America during the recent indoor season, as he did 4 minutes 21 seconds for the mile, 9 minutes 34 4-5 seconds for the two miles, winning the latter race handily. In addition to these there are several other fine men, any one of whom may win even against the above cracks. Watson, of Kansas State; McMahon, of M. I. T.; Hisler, of Drexel; Massey of Kansas university; Leah, of New Hampshire State, are all capable of beating 9 minutes 40 seconds for the distance. Two dark horses are found in Hayes, of Pittsburgh, and Booth of Delaware, both of whom have shown remarkable form recently. With such a fine lot of runners in the event, it would not be surprising to see the winner compelled to beat 9 minutes 30 seconds for the distance. No matter what French runner is brought over he will have to be first class to win against such fast two milers.

Glancin' 'Round The Sport World

WITH VAN

The Panthers have a strong hitting combination which is a vast improvement over last year but they will have plenty of opposition this season. The Marines look better than they ever did as do the Gassers, while the Spudders—well every local fan knows they are as dangerous with the stick as any club in the league.

Salm pulled a nice bit of baseball strategy in the seventh when he yanked Darough. "Mite" hurled a good game while he was on the found but was weakening. Ruth, who was warming up behind the stands took his place all ready to go and the Panthers never had a chance. Both Darough and Ruth will bear watching this year, for both are due to turn some classy ball games.

Clark and Tanner played their usual fast game, pulling two double plays with the flash that other clubs have failed to show. Kitchens, with his accurate throws to the keystone sacks helps to kill off numerous would-be pilfers.

Keep your ear to the ground and you'll hear something fall before long. There are several players still in the big leagues whose actions of the past are being investigated and when our old friend Judge Landis gets the proper "dope on incidents he is now investigating, several of the crooks still in the ranks of organized baseball will be given the gate. The arrow always points to the defunct Federal league when these players are investigated. My, what a fat chance the Federal league had of succeeding, infected as it was with crooks, as is now proven! Thats where all the trouble brewed and started.

FROM THE ROOF

Tanner had another batting field day, making three hits in four attempts. "Buddy" has connected safely nine times out of the last 14 trips to the plate.

"Caddy" Works looked awful bad with the stick when no one is on the bases but he comes through when a hit is needed. This time he started the rally in the ninth.

Some of the fans think McDonald should be credited with several errors in yesterday's game, but the official scorer says otherwise. Mac is out there trying all the time and goes after everything. Whenever he makes a boot he is trying, don't forget.

Many in the grandstand also think Taylor should have been given an error when he dropped Tanner's fly in the third inning. The o. s. says the chance was a hard one and gave Tanner a double.

Clark didn't hit often, but his triple to right in the sixth was enough to make up for his oversights in the other trips to the plate.

Rothfuss, Miller and McElwee are without a doubt the best outfield combination in the Texas League. Their work is a pleasure to watch. McElwee has the hardest field to play on account of the sun, but so far this season, only one ball has gotten away from him.

Kane had a good day, none of the players kicking with the exception of a few on called strikes. Harry worked the game by himself again.

THIS SPORTING LIFE

By W. A. Phelon.

SPRING-TIME LIMERICKS

A youth who came down from St. Paul,
Declared that he'd murder that ball—
After twenty-nine tries,
To his grief and surprise,
His hit-record was nothing at all!

A seeker for glory and fame
Tried to umpire a Texas League game
Now, the spot where he stood,
Shows a small slab of wood,
With the date, and the gentleman's name.

A lad with more courage than sense
Pitched George Sisler a curve. It went hence,
And a thunderous crash,
With a resonant smash,
Brought the news when it came to the fence!

The question of reparations becomes imminent—when the kid next door throws a ball through your parlor window.

THE RUBAIYAT OF LUCK

Life is a strange equation. You can chuck
The dice with Fate, and oft-times you can duck
The arrows of misfortune—yes—and yet
In the long run, your game is swayed by Luck!

You are a Boxer—and the fighting ring
Brings you the Cash, and Fame to please a King—
Then, when the Cash and Fame are all at stake,
You take the Ten-count from some crazy swing!

You are a Batsman—and another Hit
Will win a pennant. With unflinching grit,
You smash the ball—it whizzes for the fence—
A reeling fielder leaps—and gobbles it!

You've four Kings pat, and every natural law
Says you're a winner, long before the draw—
Some simp just draws five cards—and at one swoop
Four Aces tumble in his greedy paw!

WEEKLY COTTON REVIEW

NEW ORLEANS, April 24.—Prices moved within narrow limits in the cotton market last week because of the conflicting nature of the main trading features. The range from the highest to the lowest was 30 to 65 points, May trading as high as 11.98 and as low as 11.33, finally closing at 11.94.

At the highest the trading months were unchanged to 11 points up, compared with the close of the preceding week while at the lowest they were 29 to 61 points down.

In the spot department middling lost 13 points in the net results, closing at 11.25 against 41 cents a year ago.

There was much liquidation in the early sessions of the week, both in the contract and in the spot departments, but in the later sessions new buying came in and during the last two sessions, Texas spot markets reported a much better spot demand, with important interests apparently buying against forward commitments.

The highly unfavorable weather conditions of the week were a supporting influence of importance and toward the close a buying movement developed following dispatches from England that there were prospects of an early settlement of the coal strike.

This week the trade will be bound to pay much attention to the English labor situation.

It is generally considered that the settlement of the coal strike would bring about a strong buying influence. Aside from this, the main thing will be the spot demand in the interior and the weather of the belt. Further buying of spots would attract much notice.

KAISER NEEDED TRIFLE OF OUR JAZZ MUSIC

By FRANK E. MASON.

BERLIN, April 24.—Jazz music might have saved the Kaiser from his fall. "Aber, Ach! he never learned it," regrets Hans-Siemsen, the satirist, explaining jazz to Germany in the current issue of the Welt Buehne, or World Stage.

FRANK MASON

"America, so they say, has no more liquor," so writes Herr Siemsen. "But they don't need it, for now they have the jazz bands. These are orchestras which can make you drunk without alcohol. Jazz is a cross between European dance music and American negro music.

"There is a piano, a violin and perhaps a bass viol. But especially there are cymbals, triangles, and drums and a variety of nameless highly fantastic instruments which rather than producing music cause a sort of musical din.

This and That.

"The fat man who plays these instruments is the soul, the good spirit of the jazz band. He doesn't play them all at once, sometimes he uses this, sometimes that. When the table full of musical applicants doesn't suffice he grabs something from the wall. The pianist and violinist play—well, at least very uneuropean, but the fat man surpasses them all. He gurgles on a bassoon-like horn (the saxaphone is unknown to Germany) an independent base melody without bothering in the least what his comrades are playing.

"Then he decides that for the next passage of music a flute melody is more suitable and picks up a flute. Or he tinkles a triangle. He always knows exactly what is necessary and supplies the music with anything it lacks, whether a boom, a shrill cry, or a deep-toned mysterious gong. And if he hasn't anything else to do he sits down beside the pianist who for a single person is already doing pretty well in imitating a four-handed player, and plays whatever comes into his head — perhaps a comrade scale. And at the same time he sings a negro melody.

"Perhaps you think that this is ridiculous. It is comical—but it is also beautiful. Like the cubist pictures of Picasso, or the acquarels of Klee. Seemingly senseless and not harmonious, in truth in its very discord it has harmony.

"This music, this rhythm, which contradicts all common sense, is irresistible, like poison or like alcohol. Jazz music gets into your very bones, into your limbs. It sets those who really understand it into motion like marionettes. (But it must be a real jazz band. The fat man must be a musical genius. There are frightfully poor imitations. Anyone who has heard them must think me an idiot. Beware of imitations.

Fall Under Spell.

"The couple dancing to this hypnotic music are not moving of their own volition, but are controlled by the music. At least, they are in the power of the music if they dance well. They proceed slowly and clamly to the beat of the bass drum. Suddenly the shrill tone of the flute penetrates their very bones, their knees bend and they make several steps with swaying bodies until the bass drum studies them. Then comes the run on the clarionette and they turn about like a corkscrew. This music controls the dancers as if they were dolls jumping at the pulling of a string.

"It's a wonderful sensation to surrender yourself to this rhythm, with neither will nor reason. If you have a jazz band you need no brandy; you need no gin.

"But the most beautiful characteristic of jazz is its complete lack of dignity. Jazz destroys the last semblance of dignity, of stiffness and propriety. Anyone who fears to make himself ridiculous cannot dance to jazz. The German professor can't dance it; the Prussian reserve officer couldn't dance it. If only all the professor and privy councillors and ministers were compelled to dance to jazz. How human, how amiable, how comical they all would become. The humbug circle of stupidity, vanity and dignity could not exist. If the Kaiser had only danced to jazz, all this would never have taken place. Aber, ach! he never learned it. To be German Kaiser is easier than to dance to jazz.

MAYOR SPEAKS AT COMMUNITY SERVICE

"The three fundamentals of good citizenship are found in the church, the home and the free schools," declared Mayor Cline in a brief address at the community service of the Church of the Good Shepherd held Sunday night at the Palace theater.

"And not of these fundamentals are receiving the attention they need in Wichita Falls."

The address was heard by the usual packed house that attends the Sunday night services of the Episcopal church.

The mayor spoke briefly of each of the three fundamentals enumerated and their relative importance to the civic and moral development of any community. Stating that he claimed no intimate knowledge of the scriptures, the speaker during the course of his address referred to several verses in the twelfth chapter of Komaur with practical application to present every-day life.

"Until you have done your part, until you have accepted the responsibility that properly belongs to you, you have no right to criticise the man who is doing his best,' declared the speaker in emphasizing the importance of individual responsibility as related to good citizenship.

"When every one accepts his full responsibility then we will be able to accomplish more quickly those things which we desire the most in the continued development of our own city."

HIKING FROM NEW YORK TO LOS ANGELES

Having completed 4,460 miles of a 6,000-mile walking trip from New York City to Los Angeles, California, T. F. Toomey arrived here Sunday from Fort Worth. Toomey who claims to be an ex-service man in the aviation branch of the service is making the trip on a $2,000 wager with New York friends.

He says that he left New York City on October 18 and has until June 30th to complete his trip to Los Angeles. According to the terms of the wager, Toomey must pay his entire expenses from the sale of picture post cards. He will stay in this city two days awaiting mail and will then start to Amarillo. Toomey wears army shoes and claims to have worn out four pairs of soles.

Swimmin' Hole Attracts Boys For Many Days

"The bathing season in Wichita Falls might have opened officially in Wichita Falls Sunday, but that's not the opening of the season," said L. C. Chandler of 1015 Tyler street Sunday afternoon as he noticed a group of young people starting for the Lake via street cars and busses, "for the boys of my neighborhood have been going in this lake out on the Denver tracks for the past two weeks and they tell me," he added in a sort of wistful sigh, "that the water's awfully cold, but it's fine after you hit it.

"The kids, even the littlest of them wear bathing suits," said Mr. Chandler, "but when I was a boy, playing around Turtle Creek in Dallas before it was a fine residence section of the city, great big boys swam the only way God intended them to, in natures skin—naked! Does that shock you? Why I had to learn to swin in water so shallow that I learned to float before I swam and swam on my back before I could swim dog-fashion.

"But these kids, thunder, they're all togged out in little colored suits and look right nice, but I bet you they never dived into the old Blue Hole at Denton nor tried to swim in the Condon Springs at Vernon, nor yet bit old Sandy when high, nor Big Elm when out of banks nor swam naked in the Aube when the old Thirty-sixth was stationed in that area—that was where the girls used to—cook stewes, oh! such stews for us boys.

"No, said Mr. Chandler, "I don't believe they enjoy it, but I'm an old man, darn near twenty-seven, and I have a right to be retrospective."

FIRST AIR MAIL AGAIN USED AT WILSON COLLEGE

Miss Marion Hunt, attired as "Aunt Sally" Wilson, "holding the air mail."

At recent exercises held at Wilson college in Chambersburg, Pa., Miss Marion Hunt, one of the students, took the part of "Aunt Sally" Wilson, the pioneer founder of the college. She is shown here about to start a carrier pigeon from the campus with a nineteenth century air mail letter of cheer to distant alumnae.

FEMINIST MOVEMENT GROWING IN CHINA

PARIS, April 24.—The feminist movement in China has been making tremendous strides since the war, according to Miss Fume-tcheng, who has just arrived here in charge of twenty young Chinese women sent to France by the Pekin government for study purposes. Most of them have entered the students' roll at Sorbonne university.

Miss Fume-tcheng has been for years the leader of the woman suffrage movement in China. Though the scion of an old aristocratic family, she was one of the leading figures in the overthrow of the monarchy, risking her life in supplying ammunition to the rebels. As a seventeen-year-old girl she startled all China by refusing to accept the man whom her family wanted her to marry.

STOCKS SUSCEPTIBLE TO CONFLICTING INFLUENCES

NEW YORK, April 24.—The stock market this week was more than ordinarily susceptible to conflicting influences. This was seen in the activity and strength of a few industrials and specialties and the heaviness frequently manifest by rails, steels and other issues of less definite description.

Much of the favorable sentiment created in the previous week by the decision of the railroad labor board to cancel wage agreements seemed to have been dispelled, while steels and the various railways equipment shares were under the cloud of further trade depression.

Collectively oils far outdistanced all other issues of the week. According to popular opinion, however, the movement in that quarter might have carried greater conviction and force had the junior or speculative shares been less prominent.

There were occasional signs of an easier, or relaxed trend in the money market but the first indications of a substantial demand for funds restored the demand loan rate to recent high quotations. The attitude of the local federal reserve bank was not in line with the New England branch, which in the previous week reduced its rediscounts from 7 to 6 percent.

Economic developments at home were viewed with greater encouragement, especially in their relation to labor conditions. Bankers with influential London connections intimated that a settlement of British industrial disturbances would pave the way to a lowering of the British bank rate. In other well informed international quarters, however, such action was regarded as highly improbable until the whole question of German indemnities and reparations assumes a more definite stage.

The success attending the flotation of the new Goodyear Tire and Rubber securities war accepted by financial interests as proof that large amounts of investment money are seeking new channels of outlet. This belief is likely to be put to a severe test in the proposed offerings of new Chicago, Burlington and Quincy railroad refunding bonds.

Minstrel for Athletic Funds Opens Tonight

"The best combination minstrel and vaudeville which has ever been put on by any local organization" is what members of the University club promises for their show for the benefit of the athletic funds of the local schools, which opens for a two-day engagement tonight at the Wichita theater.

The full of the ambitious program which has been mapped out will be presented at all three performances, the night performances Monday and Tuesday, and the Tuesday matinee.

The backers of the show, the University club, are confiden ha a least 5,000 people will see the three performances, attracted not only by the reputation as entertained by the members of the cast, all local people, but by the object to which the proceeds will be devoted—provision of funds to further the physical development of the boys and girls in the junior and senior high schools.

The first number on the program is a shot of jazz music, furnished by the Doc Ross Jazz band, composed of Doc Ross, Walter Botts, James Chase, Howard Wynne and Don Ayers.

Old-time songs, including the "Old Folks at Home," "Smilin' Through" and "Believe Me," by Mrs. Lucile Henderson Albright will be the second number, followed by a comedy pianologue by Prof. F. F. Loew as the third.

Fourth, will come the sketch with a cast of students from the high school, featuring Miss Marguerite Fisher as the chaperon, Mrs. Jack Hubbard.

Members of the supporting cast include Miss Dorothy Eargle, Gwendolin Walers, Louise Scott, Ethel Owen, Marjorie Dulin, Oneita Deems and Carl Sparks. This number is directed by Miss Juanita Kipsey.

The fifth number will bring George H. Hodgins and "Happy" Roy Thomas in "Just Nonsense."

"In Song Land" will follow, with Mrs. Paul Larkin, Paul Larkin and Cullen Massie.

In the minstrel which will follow, Norris Ewing will act as interlocutor, with Ben Neal and Roy Thomas as end men. The minstrel cast will include an octette with R. J. Crow and Han Hansen, first tenors; George Jehle and Paul Von Allmen, second tenors; Dell Brasher and Roy Thomas, baritones; Grover Bullington and Ben Neal, basses.

Solos will include "Mammy," by George Jehle; "Ohio," Roy Thomas; "Annabelle Lee, Paul Von Allmen, and "Wonderful Kid From Madrid," Ben Neal.

Commissioners Will Meet With City Officials

The disposal of the remaining million and half county road bonds and the employment of a county agriculture agent are two of the important matters that will come up for action today before the county commissioners court. In addition the court will hold a joint meeting with the city council at which it is expected definite action will be taken regarding the type of building to be constructed in the General Hospital addition.

Following several weeks of advertising in leading financial journals bids for the road bonds will again be submitted and it is hoped by county officials that satisfactory offers will be submitted so that there will be no delay in the carrying out of the county's several improved road projects. Numerous inquiries have been received recently concerning the bonds and several representatives of bond houses are here to submit bids today.

The matter of employing a county agent will again be brought to the attention of the commissioners court. It is understood that a petition signed by representative farmers of the county will be presented to the court today requesting the employment of an agent. It is known that members of the court are not opposed to the employment of a county agent if satisfied that a majority of the farmers of the county desire his services. Members of the court have declined to take a definite stand in the matter until brought before the court.

ARREST ALLEGED FRIEND OF LATE MAYOR MACSWINEY

Because he claimed to be personally acquainted with the late Terrence MacSwiney, and because he choose to deliver his oration from the top of an oil derrick, Thomas Dalton is lodged in the county jail. Doubt is expressed as to Dalton's sanity and Dalton himself has told the officers that he rather doubts it himself.

Dalton was arrested in the oil fields near Burkburnett Sunday by Sheriff Smith and Deputy Sheriff Robinson after reports had come to the sheriff's office regarding his oratorical endeavors. Based on his own statements it is believed by officers that Dalton recently came to this country from Ireland and wandered to the oil fields near here.

"Is there a show in town, that is not too—one, I mean, fit for an innocent young girl to see?"

"There may be, but if there is I don't know how you're going to persuade an innocent young girl to go and see it."

BANKING THAT ROUNDS OUT THE SUCCESSFUL BUSINESS

The right sort of banking adds to the efficiency and the prestige of the business that is successful in itself. It rounds out and makes complete the business that partakes of it in liberal measure. That is the sort of banking we endeavor to practice here.
