

FIFTEEN DROWNED AS SHIP SINKS

August Primary Promises To Be Texas' Hottest

"FERGUSONISM AGAINST MOODYISM" SAID TO BE ISSUE; MRS. FERGUSON OPENS UP HER ATTACK; LEAD IS NOW 60,810 VOTES

(By Associated Press)
AUSTIN, July 29.—Almost before the smoke of Saturday's primary had died away, the factions in the Texas Democratic party were hard at it again today, boosting the rival candidates of Miriam A. Ferguson and Ross S. Sterling for the Democratic nomination for governor.

The fight was reminiscent of other years, with the Fergusonism on one side and Governor Dan Moody on the other firing the opening salvo in what promised to be one of the bitterest campaigns the state has seen.

Moody For Sterling
Moody, first to the guns, declared he would support the candidate who was in the runoff against "Fergusonism." Later, he changed this when it was certain Ross Sterling would be the runoff candidate, to say that he would offer his services in any way possible to the chairman of his state highway commission.

The issue, as defined by Governor Moody, was honest government against corruption in government.

Glad To Lump Issues
Accepting the governor's challenge Mrs. Ferguson replied last night that she was glad to lump the issues of the campaign under the general heading "Fergusonism against Moodyism."

Moodyism she defined as support of the \$350,000,000 bond issue for highways, expenditure of \$200,000,000 for a new prison system and opposition to anything proposed by the Ferguson platform. In the latter category she placed old age pensions, increased facilities for tuberculosis, condoning the drinking by public officers of the booting liquor they unlawfully seize, and likewise condoning "big banks like Mr. Sterling's which accept the people's money and then loan it out to stock gamblers of New York."

Those who want a continuation of Moodyism, she said vote for Sterling; those who want a change vote for me.

MRS. FERGUSON HAS 215,863 TOTAL NOW
DALLAS, July 29.—(P)—Mrs. Miriam A. Ferguson, Texas' first woman governor seeking to come back after her defeat for re-election in 1926, was 60,810 votes ahead of Ross Sterling of Houston, wealthy newspaper publisher, when the Texas Election Bureau announced its latest count at 9 a. m. today.

The latest totals: Ferguson 215,863; Sterling, 155,053; Small, 117,383; Love, 75,135; Young, 67,240; Mayfield, 49,969; Miller, 48,480; Moody, 4,077; Putnam, 2,549; Loven, 2,549; Walker, 1,974.

The election bureau's computation had accounted for 740,319 votes in 246 of the 252 counties, 123 complete.

Sheppard Way Ahead
United States Senator Morris Sheppard was renominated without the necessity of a runoff and without making a single speech. He received 418,553 votes to 147,627 for Henry and 33,572 for Mitchell.

Former Governor Pat M. Neff lacked 8,508 votes of a majority yesterday's general elections.

With 32 seats to be accounted for, the Canadian press recorded the election of 322 members as follows: conservative 126; liberal 77; union farmers of Alberta 9; progressive 2; liberal progressive 2; labor 2; independent 2. There are 245 seats and 124 are necessary for a majority after election of speaker.

Elect 132 Supporters
Conservative headquarters announced the party had elected 132 supporters, distributed as follows: maritime provinces 22; Quebec 25; Ontario 60; Manitoba 8; Saskatchewan 3; Alberta 4; British Columbia 6; the Yukon 1.

When MacKenzie King submits his resignation to the governor general, the prime minister will be Bennett, a lawyer who has practiced for years in Calgary and was born and educated in Nova Scotia. He has been conservative leader three years. He is 60 years old and wealthy. The time of the change is not definite as an outgoing ministry is given opportunity to adjust its affairs.

ORGANIZATION OF DISTRICTS BEGINS
First steps in the organization of the South Plains Area council, Boy Scouts, into five separate districts will be taken at a meeting of officials this afternoon at Brownfield, according to announcement this morning by D. T. Jennings, scout executive.

The Brownfield district, composed of Terry, Gaines and Yoakum counties and Roperaville in Hockley county, is to be the first district organized.

Decision to divide the council into districts was made at the annual meeting of the council in June. Since that time, however, camp activities have prevented action until the present. Plans now are to rush the organization through to completion, Mr. Jennings stated today.

With the annual summer camp of South Plains boy scouts passed, troops over the area are again seeking to work at routine activities. A week-end hike to Silver Falls lake is being planned by Slaton troop 37, under direction of R. D. Griffin, scoutmaster. The hike probably will be held within the next thirty days. An overnight hike of that troop is planned for Wednesday night to a site northeast of Slaton.

Lockhart Clings To Lead Over Thomas

LUBBOCK MAN GAINS TODAY IN TABULATION

INCOMPLETE RETURNS GIVE LOCAL MAN 330 MARGIN

With approximately 725 ballots yet unreported, G. E. Lockhart, Lubbock attorney, held a lead of 330 votes over John Thomas, of Tahoka, in their race for Democratic nomination, as representative to the legislature from the 119th district. The totals this afternoon were Lockhart, 8,011; Thomas 7,681.

After a tabulation of incomplete returns shortly after noon on Monday, Thomas was shown leading his opponent by 354 votes. Yesterday afternoon, however, the Crosby county vote was tabulated and Lockhart, with a long plurality there, forged ahead of his Lynn county opponent and has held a lead in the face of but scattering additions to the total throughout today.

Yoakum Casts 386
Yoakum county, with a total of 386 votes cast Saturday, made no tabulation on the contest and will not know its total until the votes are officially canvassed next Saturday. Cochran county, with 508 votes totaled the Lockhart-Thomas race in but one box and the result for the county-wide ballot will likewise not be known until the next canvass.

While Cochran and Yoakum counties both reported that Thomas led Lockhart, neither could estimate the extent of the Lynn county man's margin and the result of the election will not be known until district totals are announced on Sunday. Lockhart's lead of 330 votes today, however, gave the Lubbock attorney the inside track on victory in the contest to choose a successor to Carl Rountree, of Lamesa, who filled one term but did not run again.

AMARILLO MAN CALLED TO REFUGIO TO TAME FIRE

REFUGIO, July 29.—(P)—Thornton, nitro-glycerin expert and jouster extraordinary with burning oil wells, has been summoned to match his skill against a wild gasser which since Saturday has shot a 100-foot column of roaring flames.

Pit Is Filled
Heavy galvanized guards were constructed to permit Thornton and his crew to go closer to the blaze and a large pit near the 20-foot crater blasted by exploding gas was filled with water to be released in the well.

Several hundred residents have left the vicinity of the fire after three buildings were destroyed. Dr. The and other equipment have been moved away from the burning well and several nearby houses torn down.

LONDON TREATY GIVEN APPROVAL

LONDON, July 29.—(P)—The London naval treaty passed through all its stages in the house of lords this afternoon and tonight only needed the royal assent before becoming effective.

The bill already had passed the house of commons. It gives legal support to the pact entered into at the recent London naval conference. The royal signature will be affixed, it was said by officials, before parliament is proposed this week.

NO CLUES FOUND IN ROBBERY CASE

Though police intimated last night an early arrest possibly would be made in connection with robbery of the Gulf Refining company offices here Sunday night or Monday morning, a report this morning from headquarters stated that no clues as to identity of the robbers had been discovered.

A safe was taken from the oil company's offices and later abandoned near a dairy north of the city after about \$200 had been stolen from it.

Officers said they found partly burned papers near the safe, indicating an attempt had been made to destroy aids to identification of the safe.

HE'S 47 TODAY

MILAN, July 29.—(P)—The forty-seventh birthday of Benito Mussolini, below, premier of Italy, today was celebrated in this "cradle of Fascism," and in every other important center of the country by demonstrations in keeping with the nature of the Fascist.

The "Arditi," famous World war shock troops, first to wear the black shirts later adopted by the Duce and his followers, were the central figures of the celebration. The premier's anniversary falls on the thirteenth recurrence of the date when the assault divisions were formed.

Report To Be Made
At tomorrow's meeting a report will be made by each of the chairmen on the number of contracts already signed and efforts are to be made at that time to sign others. Final plans for pushing the county drive through to completion also will come in for major consideration.

"I would like to see every business man and farmer of Lubbock county present at the meeting," Mr. Sherrod stated, "and show the world that Lubbock county is fully awake to the opportunity that is presenting itself and will put forth every effort possible to organize Lubbock county farmers 100 per cent."

The government is watching very closely the reaction of the farmers and business men to the government's efforts to help organize the forces of Southern agriculture and is giving unlimited amounts of money to help in the task. It is highly important that we cooperate.

BABY BOY IN WATKINS HOME BECOMES "JOHN DOE"; HOSPITAL FACES SUITS

CHICAGO, July 29.—(P)—The baby boy in the William Watkins home today became "John Doe."

As the infant's "best friend," Mrs. Grace Dibrell, a prominent clubwoman, authorized Attorney Barratt O'Hara, counsel for the Watkins family, to file today a \$100,000 suit for "lost identity" damages against the staff of the Englewood hospital, where the Watkins and Charles Bamberger babies were born June 30.

The baby who alleges "he does not know who he is," will seek in the suit to learn if he is rightfully Charles Evans Watkins or George Edward Bamberger, the baby baptized Sunday as the Bambergers' son.

Attorney O'Hara disclosed that

another suit for \$100,000 damages for "mental anguish" would be filed soon by Mr. and Mrs. Watkins against the hospital.

In the trial of the suit, O'Hara said, the findings of the scientists and medical men summoned by Health Commissioner Arnold H. Kegel would probably be offered as evidence.

"These findings would convince Mr. and Mrs. Bamberger, if they would study them, that they have the infant really born to Mrs. Watkins," Dr. Kegel said after declaring that Bamberger had refused to read the findings.

COMMUNISTS BURN, LOOT UNRESTRAINED

SCORES KILLED AS RED INVADERS CONTINUE ATROCITIES

SHANGHAI, July 29.—Changsha, capital of Hunan province, apparently was doomed today as communists burned and looted their way through the city.

Foreign gunboats were forced to withdraw from the city due to the lowering of the river level. Foreign property worth millions of dollars thus was left at the mercy of the reds. Burning and looting was going on unrestrained.

Foreigners Leave City
A majority of the foreigners left the city, having boarded warships in the Siang river.

Late advices said four missionaries, including W. H. Lingle of the American Presbyterian mission with headquarters in New York, and Alben Cameron of the Faith mission, with headquarters in Denver, had remained in the ravaged district.

The other two were a British woman Gertrude Rugg of the China inland mission, and an Italian Catholic priest.

Naval authorities reported they had rescued about 50 foreigners, but Lingle, Cameron and the priest had refused to leave. The priest at the last moment decided to go and attempted to reach an American gunboat but was captured by the communists. The fate of the four was not determined. All were at Changshu, a nearby village, and the woman was ill.

Changsha is a walled city with a native population of about 500,000. The communists, forming a well-disciplined force of 10,000 swarmed into the city yesterday after defeating the relatively small nationalist

"Some people are afraid I'll get sick staying up here," said Alton. "I wish the trees how cool it is. Why nothing could equal the shower baths the boys at the filling station give me with the hose and I'm careful about my diet."

OIL WELL BRINGS HARD CRAWLING

TEXARKANA, July 29.—(P)—Discovery of oil on the Red river east of here is going to make Ous Kennen, Texarkana business man, do some hard crawling.

Kennen was skeptical when efforts were made to get oil from the well and said if it will become a producer he would crawl 25 miles on his hands and knees.

The Charles W. Lens well, in which Kennen had no confidence, came in as a producer over the week-end and Kennen began preparations for his crawl which he expected to start tomorrow night. He will be equipped with heavy knee pads and mittens.

J. D. Brown, another Texarkanian, who also was skeptical, will use a cooler of ice water in a wheelbarrow behind Kennen the entire distance.

Society Mannequins Show Advance Fashions For Fall

A pageant of fashions for fall was an outstanding feature of the annual fair given by the Ladies Village Improvement Society of East Hampton, Long Island.

Society girls from Long Island smart set paraded as mannequins and the gowns displayed crystallized the high-gaits of the new mode.

Such things were illustrated as the new and dignified importance of the coat dress, the great charm of the luxurious metal brocade for dinner wear, the exotic charm of the latest off-blacks in tulle and steaming velvets for formal evening gowns and ensembles, the acceptance of the waistline for evening, afternoon and even day wear, the smart manner in which the new fashions follow the figures curves.

Left: Miss Eleanor Bronough showed a dinner gown imported from Patou of gleaming metal brocade, rosegold leaves with soft greens, against cream that suggested the draped bodice with the fitted gored skirt of ankle length. The rectangular front neckline gave a tailored smartness to the classic simplicity of the gown. Brocade one-trap slippers matched in colors.

Center: A ball would be glamorous indeed if all the guests wore gowns like the blueberry black tulle modeled by Miss Frederica Gallatin. The voluminous flaring skirt fitted snugly to the figure as far as hip-line. The newest touch was the pet little black velvet jacket that flared from a high waistline.

Right: There was new formality and softness in the black coat dress, an import from Augustabernard, worn by Miss Rufus Peckham. It had a real long bolero, with back peplum and a new feeling for drapery in the way white ermine fashioned its great collar.

Variety Of Events Planned For Day

Sewing and conversation will furnish an afternoon's diversion when members of the Just Sew club are entertained today by Mrs. James Henderson, 1411 9th street.

For Church Groups.
Perhaps the largest event of the day for local church groups will be the picnic on the lawn of First Christian church, paragonage, 1616 17th street, this evening. Recently the men redecorated and repaired the church, and it is in appreciation of their work that members of the women's class of the church are serving a picnic supper to the men's class this evening. With a lowering of interest in things golf, for a brief time last week, some of the local golf scores, and Lubbock public and-putter men are not among the last of those to retire chucking to the local links, or seek consolation at their favorite courses. There are other reasons, too, for an increase in interest and attendance by members of local clubs. It will not be long until considerable activity along the lines of drives and masie shots will be much in evidence, as there is the matter of a city championship to settle and the selection of representatives for the state tournament. The month of August raises the second curtain on golf, and for a period of some two months following the ushering in of the next month golf courses will suffer the tread and epithets of ambitious golfers.

Whether to acquire a natural tan or to have the edge on their fellow-members when tourney time arrives, several local stick-men have been resorting faithfully to the sun-burnt courses in almost daily practice, while others have kept in practice with more or less frequent trips in the late afternoon to the Lubbock links, but the majority of the city's golfers have not been working out daily through the sunny months. A city championship tournament will be held sometime in August, possibly about the middle of the month. Bob Peck, who won the title last summer, is no longer a resident of the Hub of the Plains, and the crown is without a king. With no defending champion, there should be an added interest in the city tourney.

Possibly the largest attendance observed all summer at the local park was marked Sunday when the Tahoka team invaded the Hubber stronghold. The contest was the part of the townpeople should have been celebrated by a Lubbock victory, but the summary defeat is likely to have a detrimental effect on the crowds. It should not be so, however, for Tahoka has little cause to rejoice except that the tide of battle was finally in their favor, and Lubbock fans should not be embittered because of the defeat. After the first inning, the local club held the upper hand, and under ordinary circumstances would have won the game. But the errors in as many innings for a team so experienced as the Luenbergermen, while the team collected a dozen safe blows to their opponents' nine, and the whole over-see and judged by at least one faulty umpire, is not "regular" in baseball, as played in the most aesthetic circles.

Several interesting incidents added to the entertainment out at Merrill Park Sunday. One of these could easily have been turned into a free-for-all fistfight, when players, managers, and officials engaged in a heated argument over a play at the plate. "Dirty" Waller was on the slab. The first ball went by untouched and off the back track. The next was a ball which hit Waller's bat, was knocked down and rolled down the left leg of the batsman, continuing to roll some two feet forward. Immediately it was a foul for one side, a hit for the other. The umpires disagreed also, runners left bases, fielders came in, for the ball was out, two on base, and the catcher had thrown the ball to first for the putout. Then followed a session in mid-field which had fair to turn into a contest forbidden by Governor Dan Moody. A decision was finally reached, and the runners and fielders sent to their posts. Waller responded to the indignity by slamming out a double and clearing the bases.

It was such a little thing, for anybody acquainted with the game of baseball is familiar with Rule 55 regarding the return of batsmen and basemen to bases, which says "The basemen shall return to his base (see 5) if a pitched ball at which the batsman strikes but misses through any turn of the batsman's person."

DID YOU KNOW? That Johnny Granade, who plays center field for the Lubbock Hubbers, is one of the classic outfielders out of minor leagues, he is not, however, a dependable ball player, and he is out with the Fort Worth Cats three weeks this spring. . . . he may go back to them when the player-limit rule is lifted next month. . . . that Dirty Waller thinks he is a jinx to Lubbock when the team plays at Tahoka. . . . he went in to start the game Sunday. . . . he went in the eighth and hit a two-bagger in the ninth that drove in three Hubber runs. . . . he is the smartest player on the Hubber club. . . . that Ray Waller has been dubbed Flatfoot because of an election night experience. . . . that J. O. Smith plays pee-wee golf?

IRELAND LIKES MASEFIELD

Selection of John Masefield as poet laureate of England has met with approval in Ireland. He is well known in Dublin and his work is probably better read there than that of any other English poet of the century. His "Sea Ballads" are especially popular in Ireland. "Mr. Masefield has written several delightful things about Ireland, which show his affection for the sister island," remarks one Irish critic.

BOY'S NOVEL PUBLISHED

Thing of nothing to do during his vacation eleven-year-old Maurice Withshire of London wrote a novel, and asked his grandfather to read it. Grandfather, obediently complied—and promptly sent it to a publishing firm who equally promptly accepted it. It promises to be a success. "What an awful fuss about nothing," Maurice said when congratulated on his success. "I only wrote it for fun."

WACO CLIMBS BACK TO WITHIN HALF GAME OF LEAD

SUNLIGHT IS NO PLACE FOR PRATT'S MEN

CATS ARE BEATEN IN 9TH; STEERS WIN FROM INDIANS

BY GAYLE TALBOT JR.
Associated Press Sports Writer

Like a fish getting back into its favored element after a disagreeable experience on land, the night-prowling Waco Cubs came back under the arcs last night to square their series with the Fort Worth Cats and reduce the Spudders' advantage to a half game. The Prattmen, a second-division outfit in the sunlight, have established a record of victories by floodlight that might never be equaled in the Texas league.

Another of their typical night-inning rallies skinned the Cats last night, 8 to 7. Piet drove in the tying run with a triple and old George Bischoff put the finishing touches on his ex-mates a few minutes later, when—with the bases crammed, he blazed a double against the boards. The Cub backdrop previously had connected for two singles and a home run. For a man supposed to have outlived his baseball usefulness, Bischoff is proving a lively corpse.

Branch Aids

Russell Branch and recently returned to the active list, did another swell job of relief hurling to make the Waco victory possible. After the Cats had disposed of Stein in the seventh, he went in to hold the visitors scoreless the last two innings and get credit for his third win within a week.

Home runs by Gene Moore and Williamson, each with a man on base, proved decisive in the Dallas Steers' 8 to 6 triumph over San Antonio. The win broke a three-game losing streak for the Herd Moore's fourth homer was the longest ever hit in the spacious Alamo orchard, clearing the scoreboard in center field. Walt Tauscher went the route for the Steers and was effective in the pinches.

Branch Rides Contest

Branch Rides, president of the parent St. Louis Cards, and some 9,000 assorted Houston fans saw Tony Kaufman, who lost his effectiveness four or five years ago and has been out of the game since, hold the Steers to four hits and blanked them for six frames after which George Payne took over the task and finished up.

The Spudders were idle, having planned a doubleheader at Beaumont Sunday.

Poole Hits 37th Home Run Monday

ATLANTA, July 29.—"Sunny Jim" Poole's 37th home run of the season in the fourth inning yesterday had given Nashville the count over Atlanta, 13 to 12.

It came during a long drawn out affair in which the Vols used five pitchers, who were hit for 21 blows. The Crackers ran in three hurriers and two catchers as the Vols pounded out 20 hits, five of which were circuit blows. Jay Partridge got two four baggers which brought his season's total to 31, only six behind Poole, who leads the Southern association in that respect. Anderson and Adams also hit homers for the Vols while Hearn starting earlier for the Crackers, obtained the only four base hit Atlanta received.

There were only two games in the league yesterday, the other being at

"IT WASN'T WORTH IT," DECLARES GERTRUDE EDERLE, IN SPEAKING OF CHANNEL SWIM; HAS LOST HER HEARING

RYE, N. Y., July 29.—She teaches swimming in a boardwalk pool, a bronzed young woman with a determined grin. Unless you raise your voice she cannot hear you and looks at you with an expression that has in it embarrassment, bewilderment, fear.

Across the back of her bathing suit is lettered: "Ederle."

Received Welcome

Four years ago this August Gertrude Ederle swam the English channel and came home to receive a Broadway welcome, congratulatory messages from President Coolidge and Governor Smith, and vaudeville offers that were said to the time to amount to nearly \$1,000,000.

Today she pushed her hair back behind her ears—a gesture that has become characteristic since she began to lose her hearing two years ago as the result of those 14 hours in the English channel—and said, a little wistfully:

"It wasn't worth it. I'm not sorry I did it. Only if I'd known how it was going to be, that I'd lose my hearing—I don't think I'd have done it. It—it wasn't worth it."

Four years ago Gertrude Ederle rode up the bay on the Macao and up Broadway in an open car while crowds cheered and ticker-tape and paper snow filled the air.

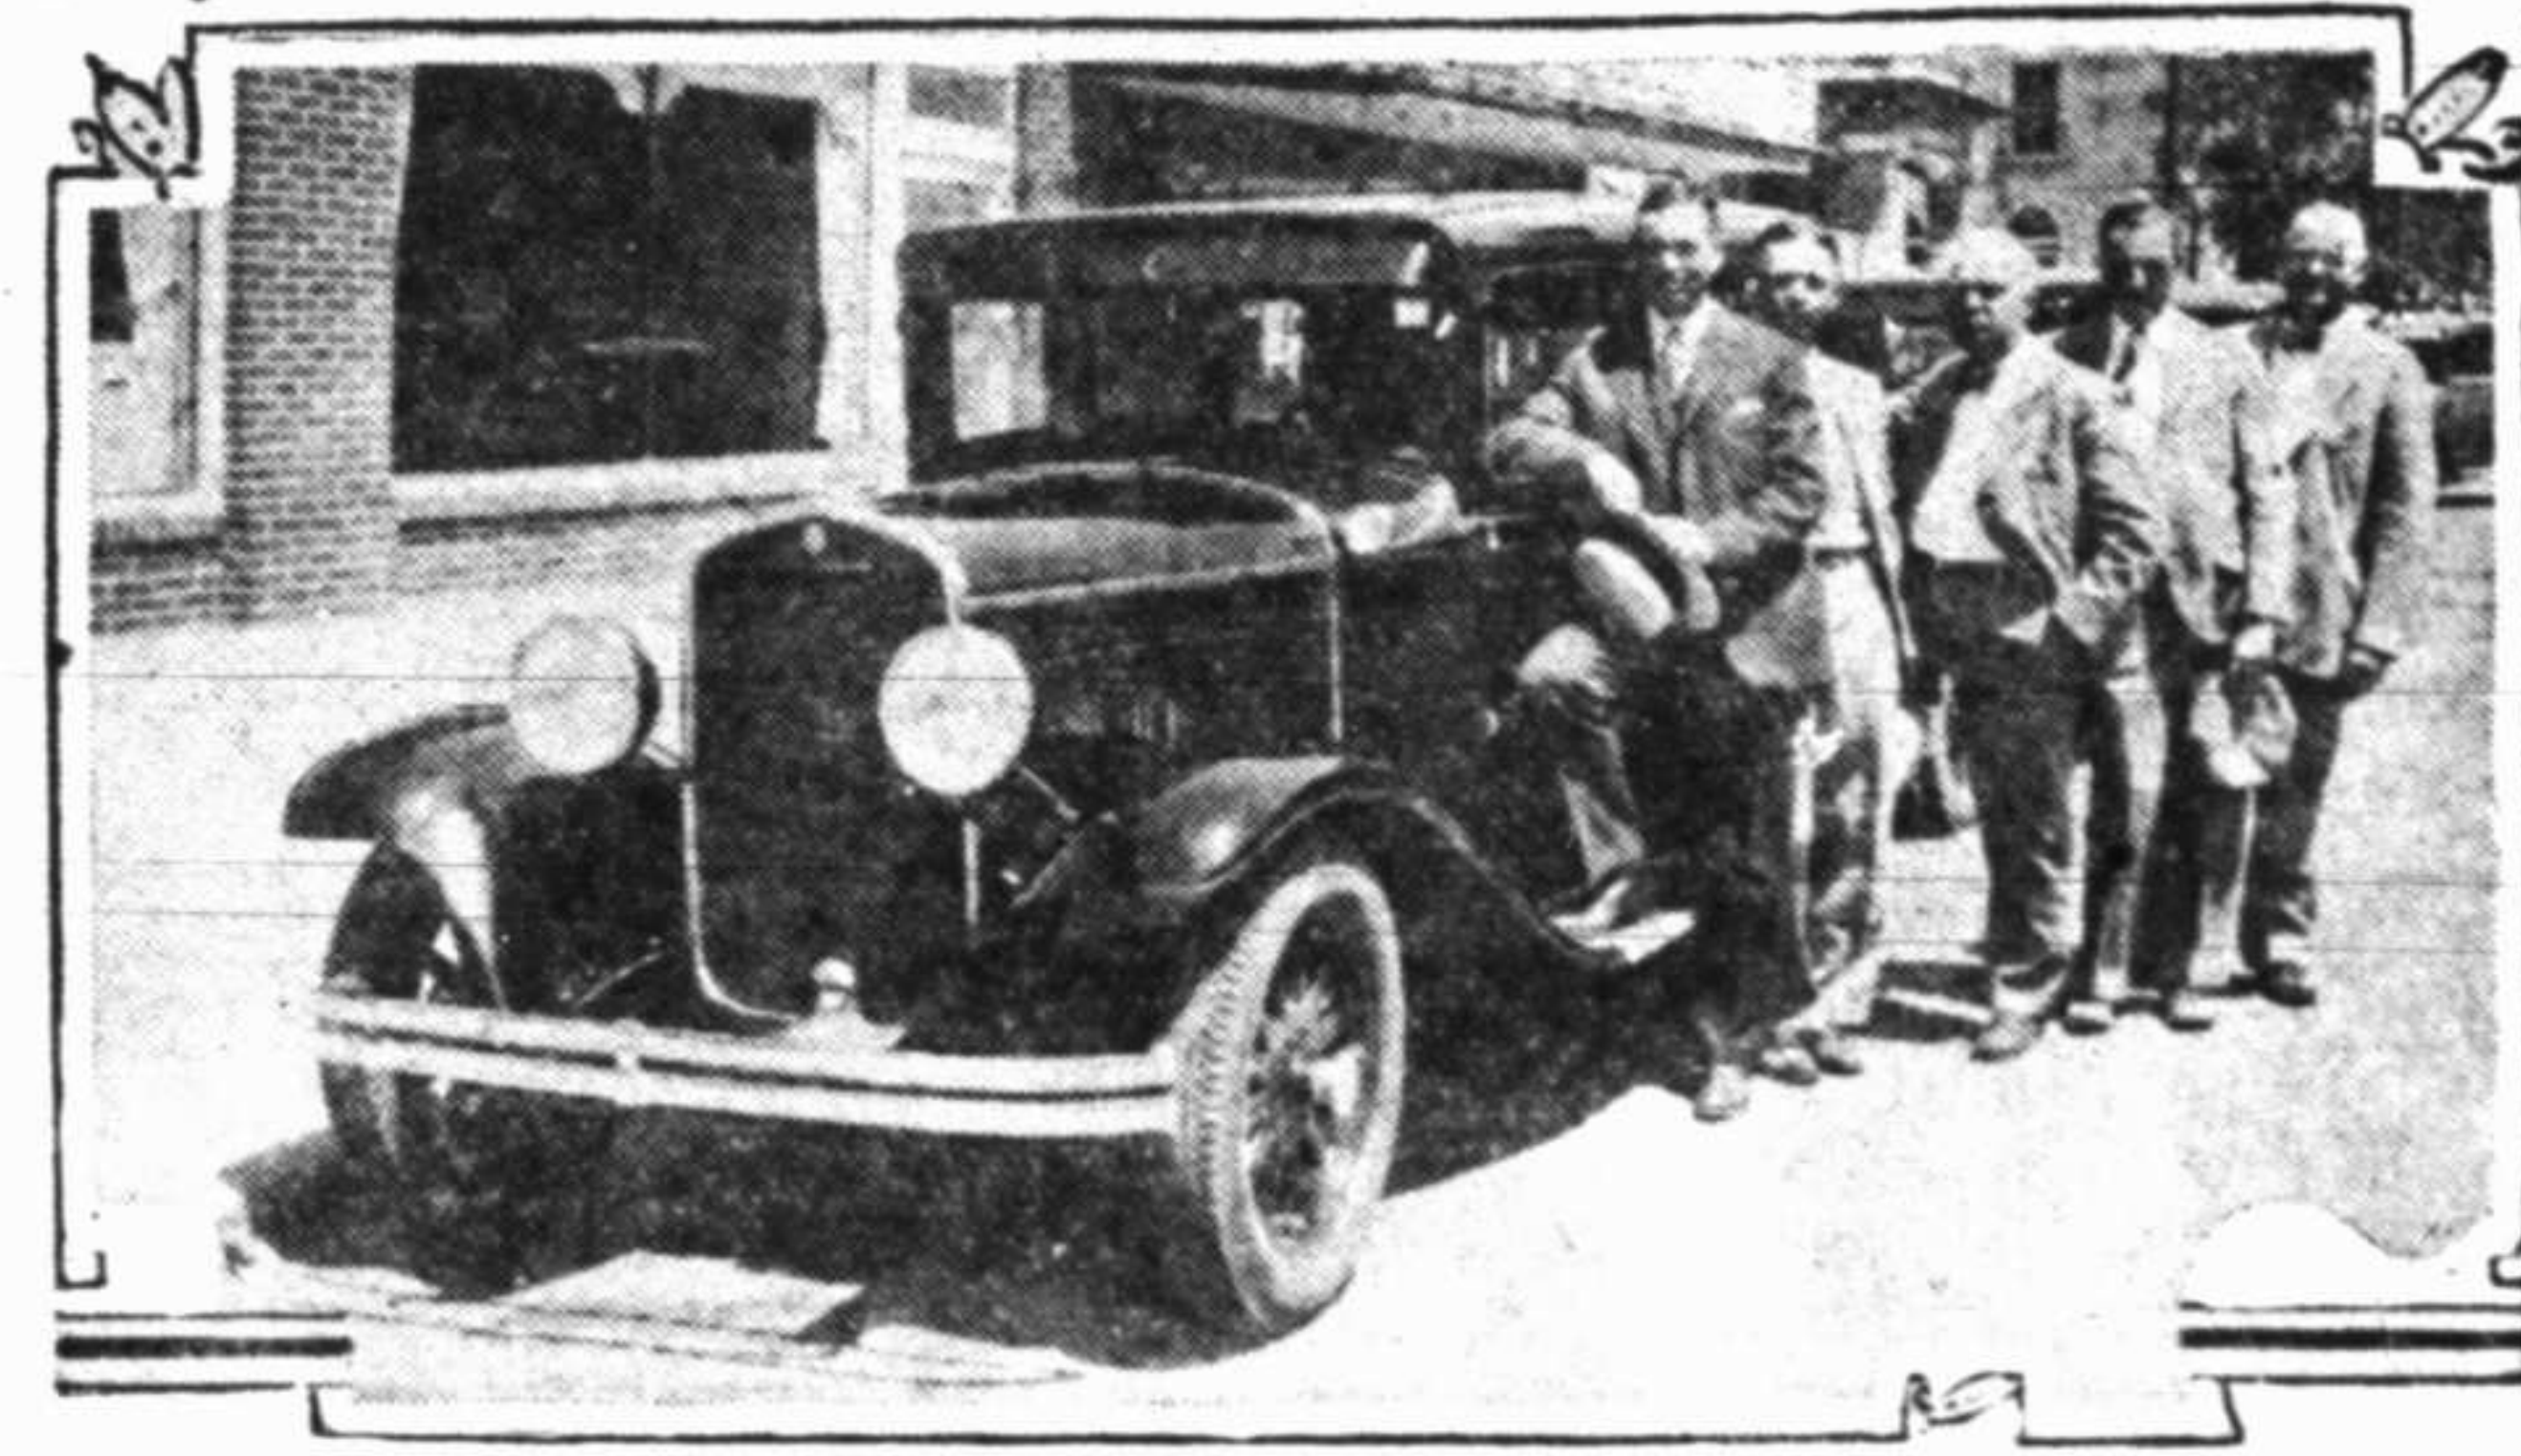

"Sometimes I kind of wonder if all that really happened to me," she said slowly.

Her song heard

"But sometimes at dances the orchestra plays 'Let Me Call You Sweetheart,' the song I kept humming while I was in the channel—the song the bands played when I came home.

"And then it all sort of comes back over me again, and I have

LUB WORK IN TERRY CLAIMS RECORD GROUP

MORE THAN 250 BOYS
AND GIRLS WORKING
IN 13 CLUBS

(By Staff Correspondent)
BROWNFIELD, July 29.—Terry
city has one of the largest 4-H
clubs in any county on the South
plains, with more than 250 boys
and girls in the 13 clubs of the
city, R. B. Davis, county agent.

The clubs have a federation with
others that meets once a year. In
this roundup this year was
ended by 236 out of the 250
members a record for percentage,
according to reports here.

Meet Every Two Weeks
The clubs meet every two weeks
at the county officers meeting.
Each club member has one or
two projects that he or she is
working on.
Besides the clubs from which of-
fers come, others are: Scoudday,
Hanson, Tokio, Hymn, Pleasant
day, Meadows, Union, Hunter,
Luman and Lahr.
Three teams, swine judging, dairy
and poultry judging, were
to the state short course this
year. In a nation about 10 or 11
boys and girls attended, making
the attendance about 20.
Some of the clubs, the Gomez
club, gave entertainments to raise
money to send six of its mem-
bers. Some are on teams and
will be club delegates.

UNITED STATES JUMPS TO SECOND PLACE IN SHIP BUILDING

WITHIN YEAR NATION
RISES FROM SEVENTH
POSITION

NEW YORK (AP)—Within a year
Uncle Sam has jumped from seventh
to second place among the
world's leading merchant shipbuilding
nations.

Only Great Britain and Ireland
now lead the United States in the
shipbuilding competition for sea trade.
Since last year America has sur-
passed Germany, long the holder
of second place, and also has moved
ahead of Japan, Holland, France,
and Russia.

A gain of virtually 100 percent
has been registered in the last year
by the United States, which had
238,163 tons of shipping under con-
struction July 1. Lloyd's Register
of Shipping shows the nation's
total on that date in 1929 was
119,988 tons.

Shipping men believe this in-
crease forecasts a day when Amer-
ica no longer will be so largely
dependent on foreign ships to car-
ry this nation's annual \$8,000,000,
000 foreign trade.

Lloyd's rating, by tonnage under
construction, of leading merchant
shipbuilding nations for the quar-
ter ending June 30 follows:
Great Britain and Ire-
land 1,392,063
United States 238,163
Germany 237,468
Holland 187,445
France 186,960
Russia 156,521
Italy 143,075
Sweden 128,980
Japan 121,607
Denmark 115,891

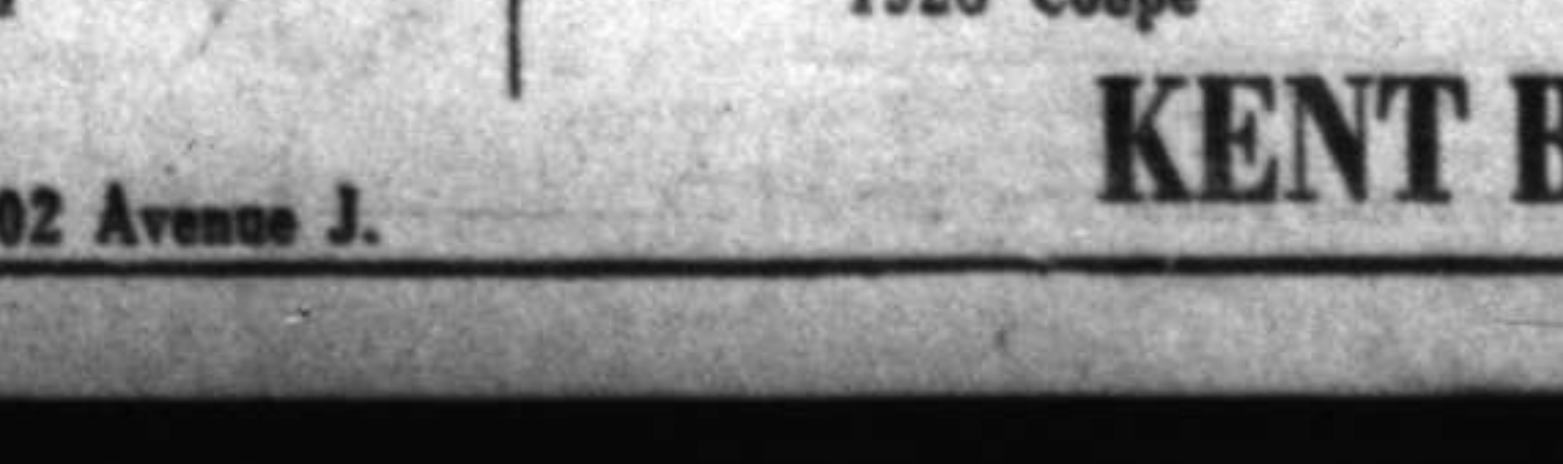

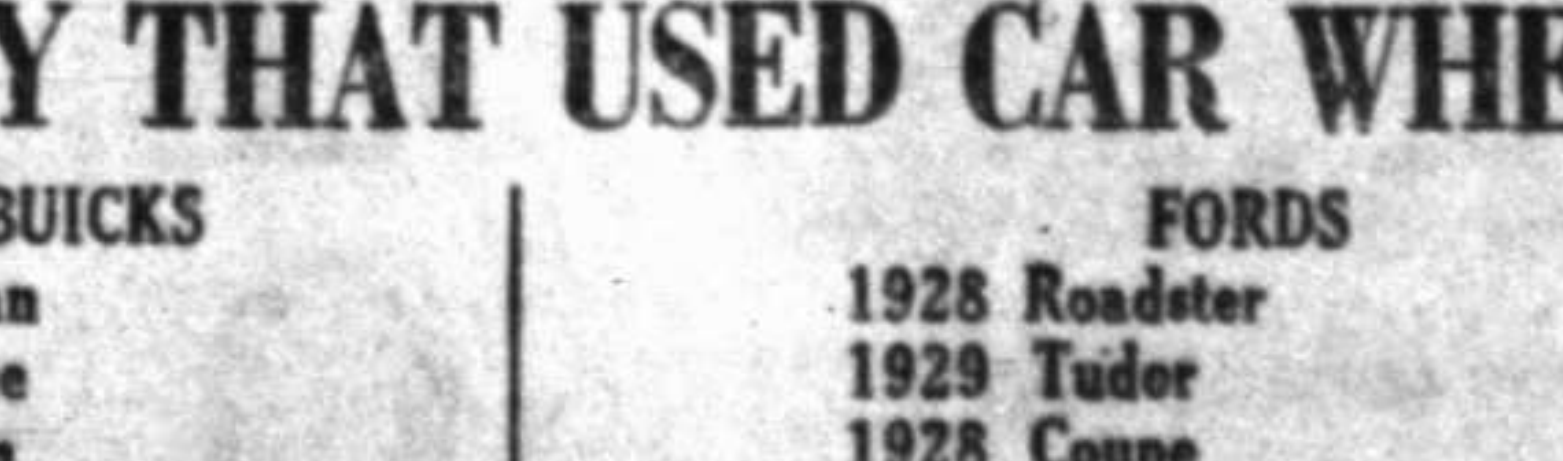

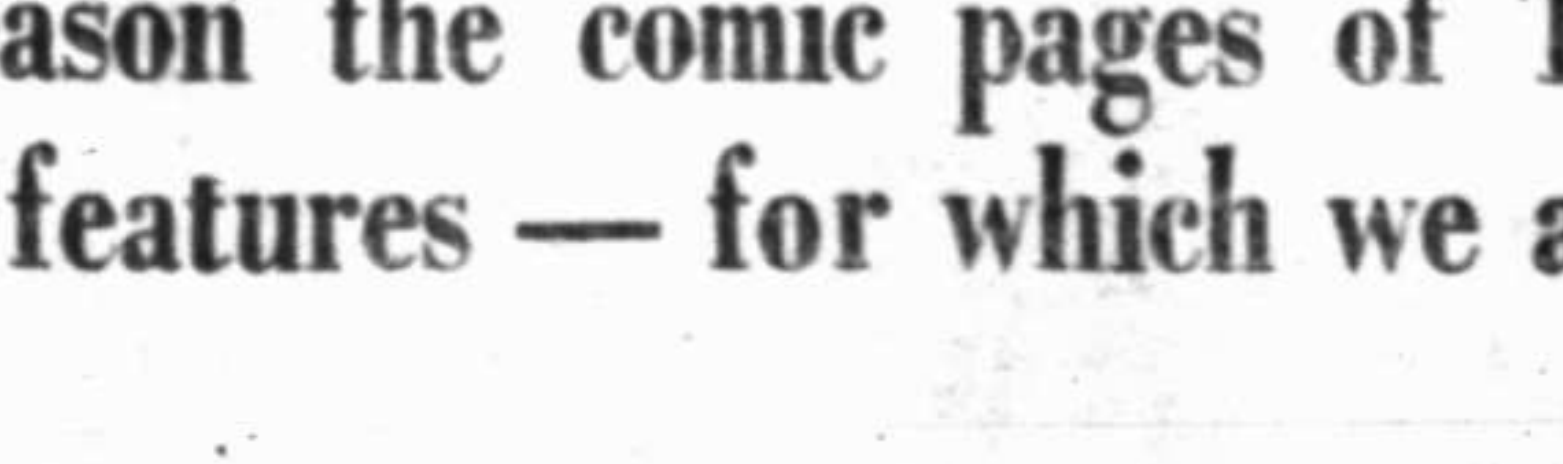

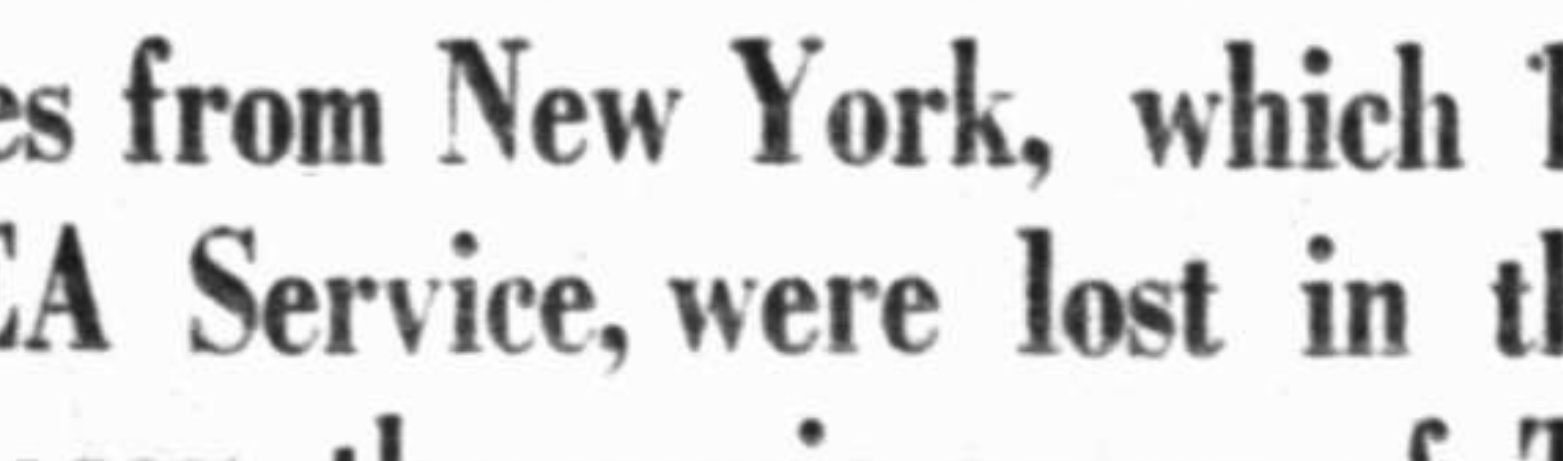

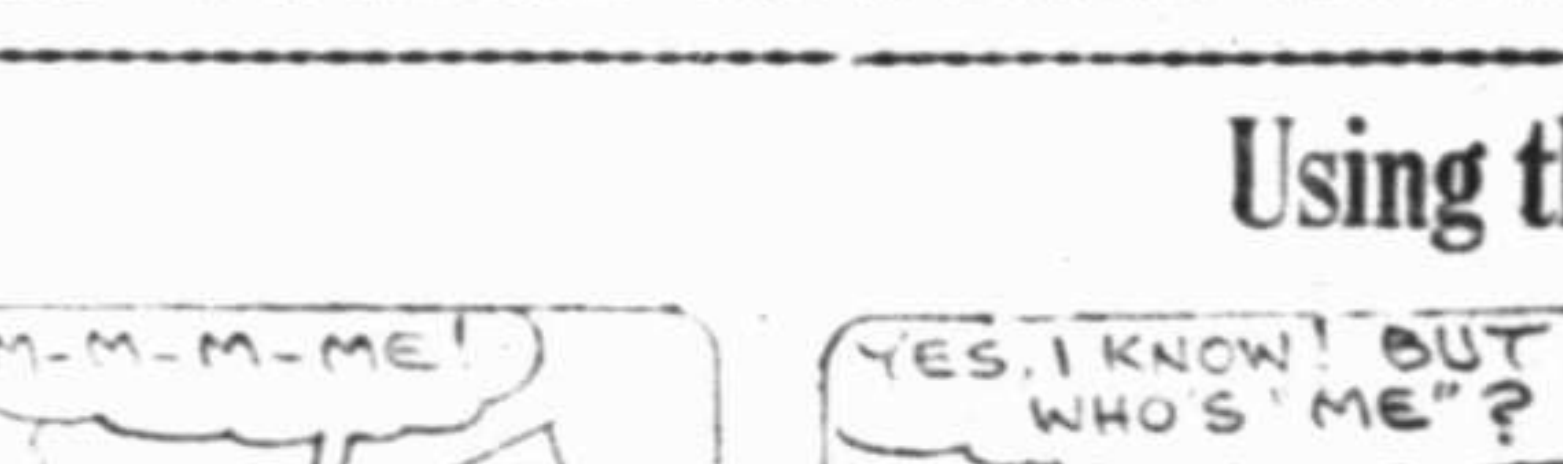

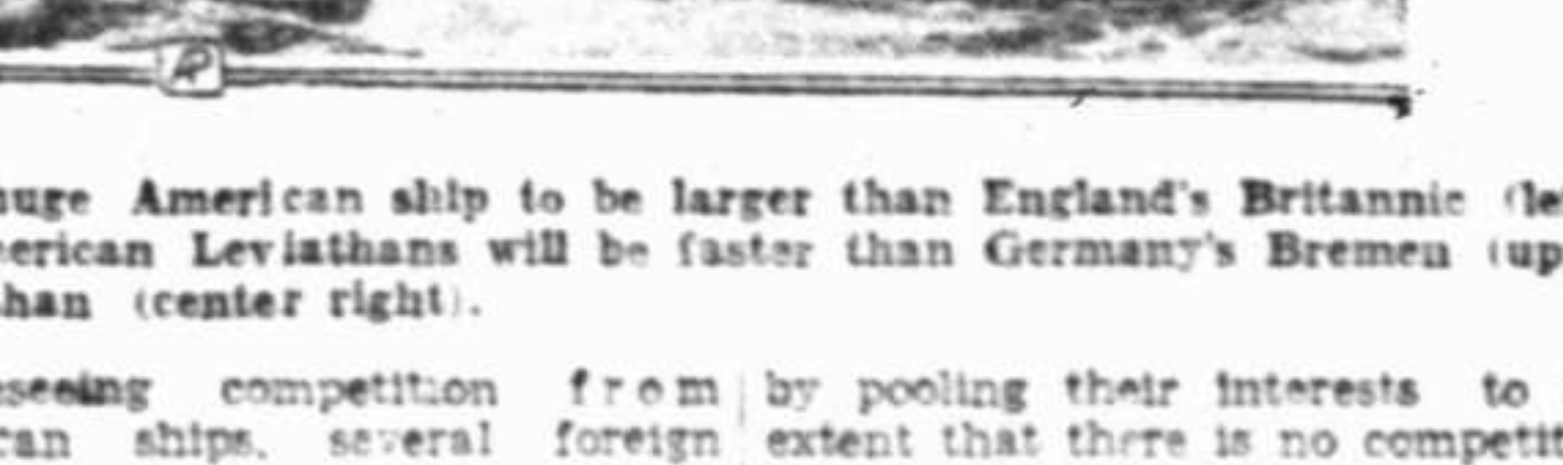

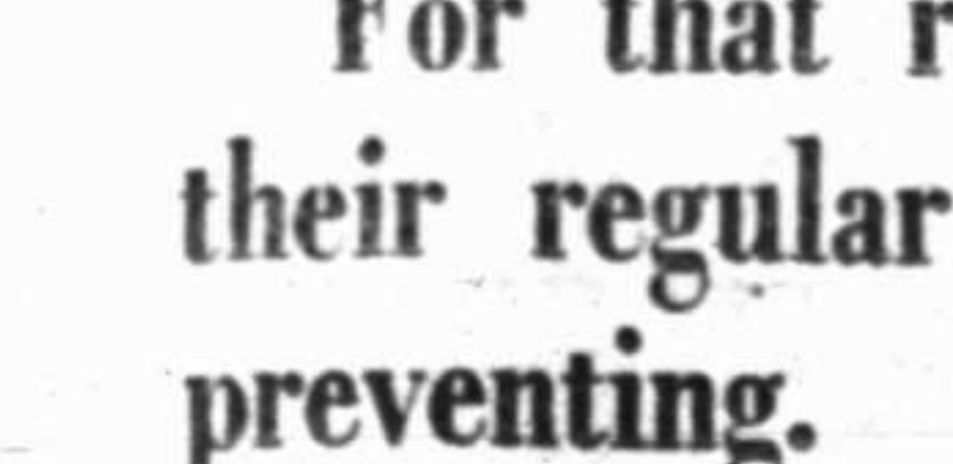

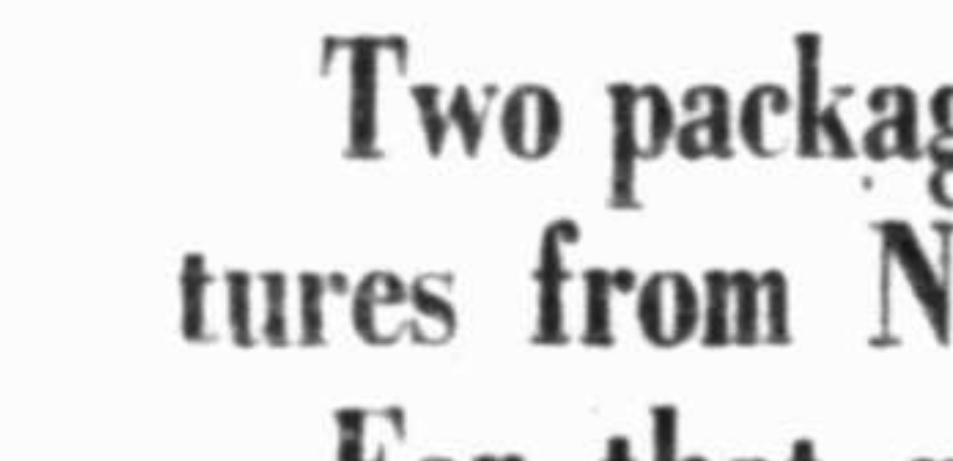

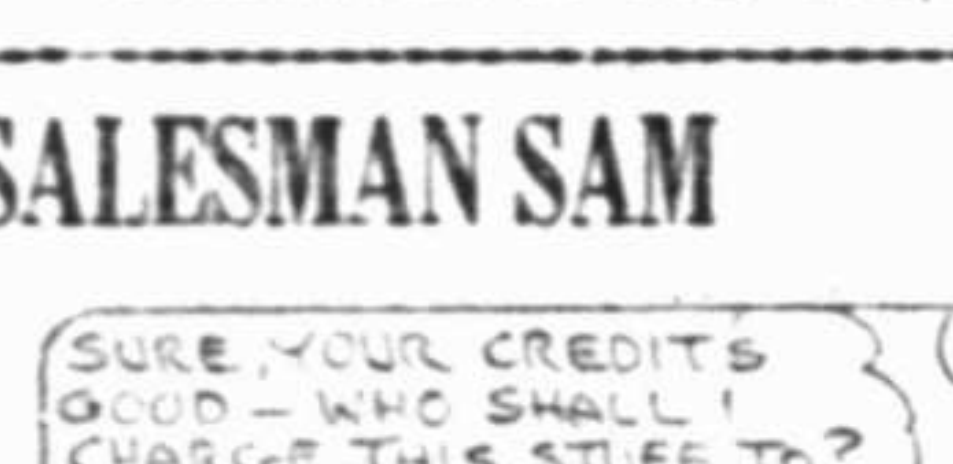

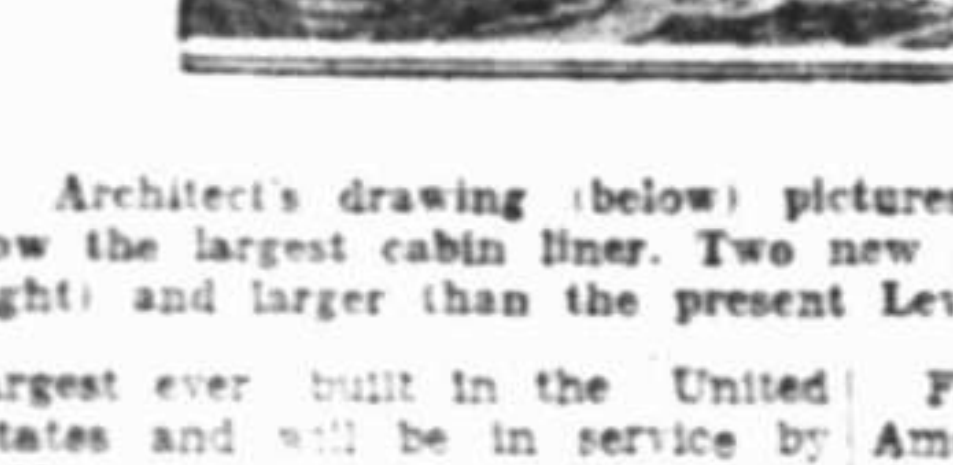

America's increase in shipbuilding
is attributed largely to the
Jones-White bill passed by con-
gress in 1923, which allows profit-
able returns to American ships for
carrying mail, and loans to ship-
builders by the government up to
75 percent of the ships' cost at low
interest rates.

Already more than \$80,000,000
has been loaned to aid in construc-
tion of 24 American vessels to cost
approximately \$125,000,000.

Included in the new program will
be two huge new liners, to be
named the Leviathan II and III,
respectively. They will be larger
than the present Leviathan, and
will have a speed of 30 knots,
faster even than the German
Bremen, present holder of the
speed record for the North Atlan-
tic crossing. The Bremen's speed
is 28 knots.

Contracts already are signed for
two other big 20-knot American
liners, each to have a tonnage of
30,000.

These ships will surpass in speed
and size the new British motor
ship Britannic recently put in ser-
vice, which now is the world's large-
st cabin liner. They will be the

Have Best System

Two sons of a Slaton minister,
John and Robert Rayburn, are the
local agents there for the Avalanche-
Journal and according to business
men they have the best delivery
system the town has known for an
out of the city newspaper. Last
year the brothers were juniors in
high school and this year they will
be seniors. "The brothers work to-
gether, study together and play to-
gether as few brothers I know of
do," says T. E. Roderick, of the Sla-
tonite. "They are always together
and I have heard a good many men
remark on their brotherly affection
one for the other." The boys are
the sons of Rev. James Rayburn,
well known minister of the Pres-
byterian church.

Is Great Aid

The new "inside filling station" at
Woodrow, ten miles due south of
Lubbock, is proving to be an aid to
tired travelers. The station, a soft
drink and sandwich stand, is lo-
cated at the bottom of the "way" where
the road branches one to Lamesa and
the other to Slaton. The stand does
a good business with tourists and
transients.

New Costume

Several farm boys in the south
part of Lubbock county have taken
to boy scout methods when it comes
to farm work. These youths now
wear only overalls when the work
in the fields. The result is a beau-
tiful coat of tan or red or whatever
color the particular color the skin
of the victim takes from a burning
hot sun. Sometimes the entire group
working in the cotton field will use

the new costume.

Enjoying Boon

Not long ago Rex Reagan, cham-
ber of commerce secretary at Sea-
graves and also chief of the fire de-
partment there, came over to Lub-
bock to see his brother C. L., one of
the North Plains drivers. Most of
the bus drivers knew the fire chief
and they tried to get him to go down
to the fire department so they could
rattle him a bit. But Rex was onto
the ways of the local group and said
he "preferred to get lost in Lubbock
alone." Seagraves, he reports, is en-
joying even more of a boom from
the Hobbs field than before. "Our
crops are good—as good as I have
ever seen and we hope for a bumper
crop in feeds this fall," he added.
"Business is good and we are looking
for the best year we have ever had.
We hope to be able to do some pay-
ing as soon as we can. Also, we are
trying to get our highway designat-
ed and paved."

Mesquite Captured

Down at Lamesa, in the court-
house lawn, is said to be the only
mesquite tree in "captivity" on the
South Plains. The tree is about
25 feet high, an unusual height for
such a type of tree, and has quite a
history. It seems that when the
first court house for Dawson coun-
ty was being erected about twenty
years ago, some of the citizens of
Lamesa persuaded the workers not
to disturb a lone mesquite that they
had forgotten somehow to grub out
along with the others, in clearing off
the square. When the present struc-
ture was built, about 1916, the tree
was left standing. It has had a
steady growth ever since.

Proud of Record

M. D. Lacy, Ralls Inn proprietor,
is proud of the record of a nephew
of his by the same name, who has
been chosen as the outstanding ath-
lete at Texas A. and M. "My broth-
er named his boy for me and we
are all very proud of the record he
has made in athletics," Mr. Lacy
said.

Oldtimers around Tahoka, O'Don-

nell and Lamesa are speculating as
to how long the big lake between
O'Donnell and Tahoka will keep
traffic off the highway between
those two points. The lake was
formed by the big cloudburst in May
and it is estimated to be around ten
or twelve feet deep and to cover sev-
eral hundred acres. It crossed the
highway twice when it first formed,
but the south section now has gone
down enough to permit the road to
be worked. Back in '24 the lake
went over the road and they were
two years getting back onto it," says
Johnnie, veteran bus driver. "They
built the road several feet and this
lake is as many feet deeper. I would
not be surprised to see the lake last
longer than the other one. We built
a detour about it and this new lake
has covered up the detour."

Plane Service For Resort Is Planned

DALLAS, July 29.—(AP)—Twice daily
airplane passenger service from Dal-
las to Mineral Wells will begin
Thursday, M. M. Kay, one of the
backers of the line, said today. Two
round trips daily will be made on
the line, with planes leaving here
early in the morning and late in
the afternoon.

NAIL BREAKS BONE

LOCKNEY, July 29.—(Special)—
T. F. Walker, Jr., who some time
ago stuck a nail in his knee and
which failed to heal properly, had
the knee examined by an X-ray in a
Lubbock hospital. The picture
showed the bone was broken and it
was necessary to have the bone re-
set. He will be able to walk with-
out crutches in several weeks, doc-
tors say.

MOVES TO GROOM

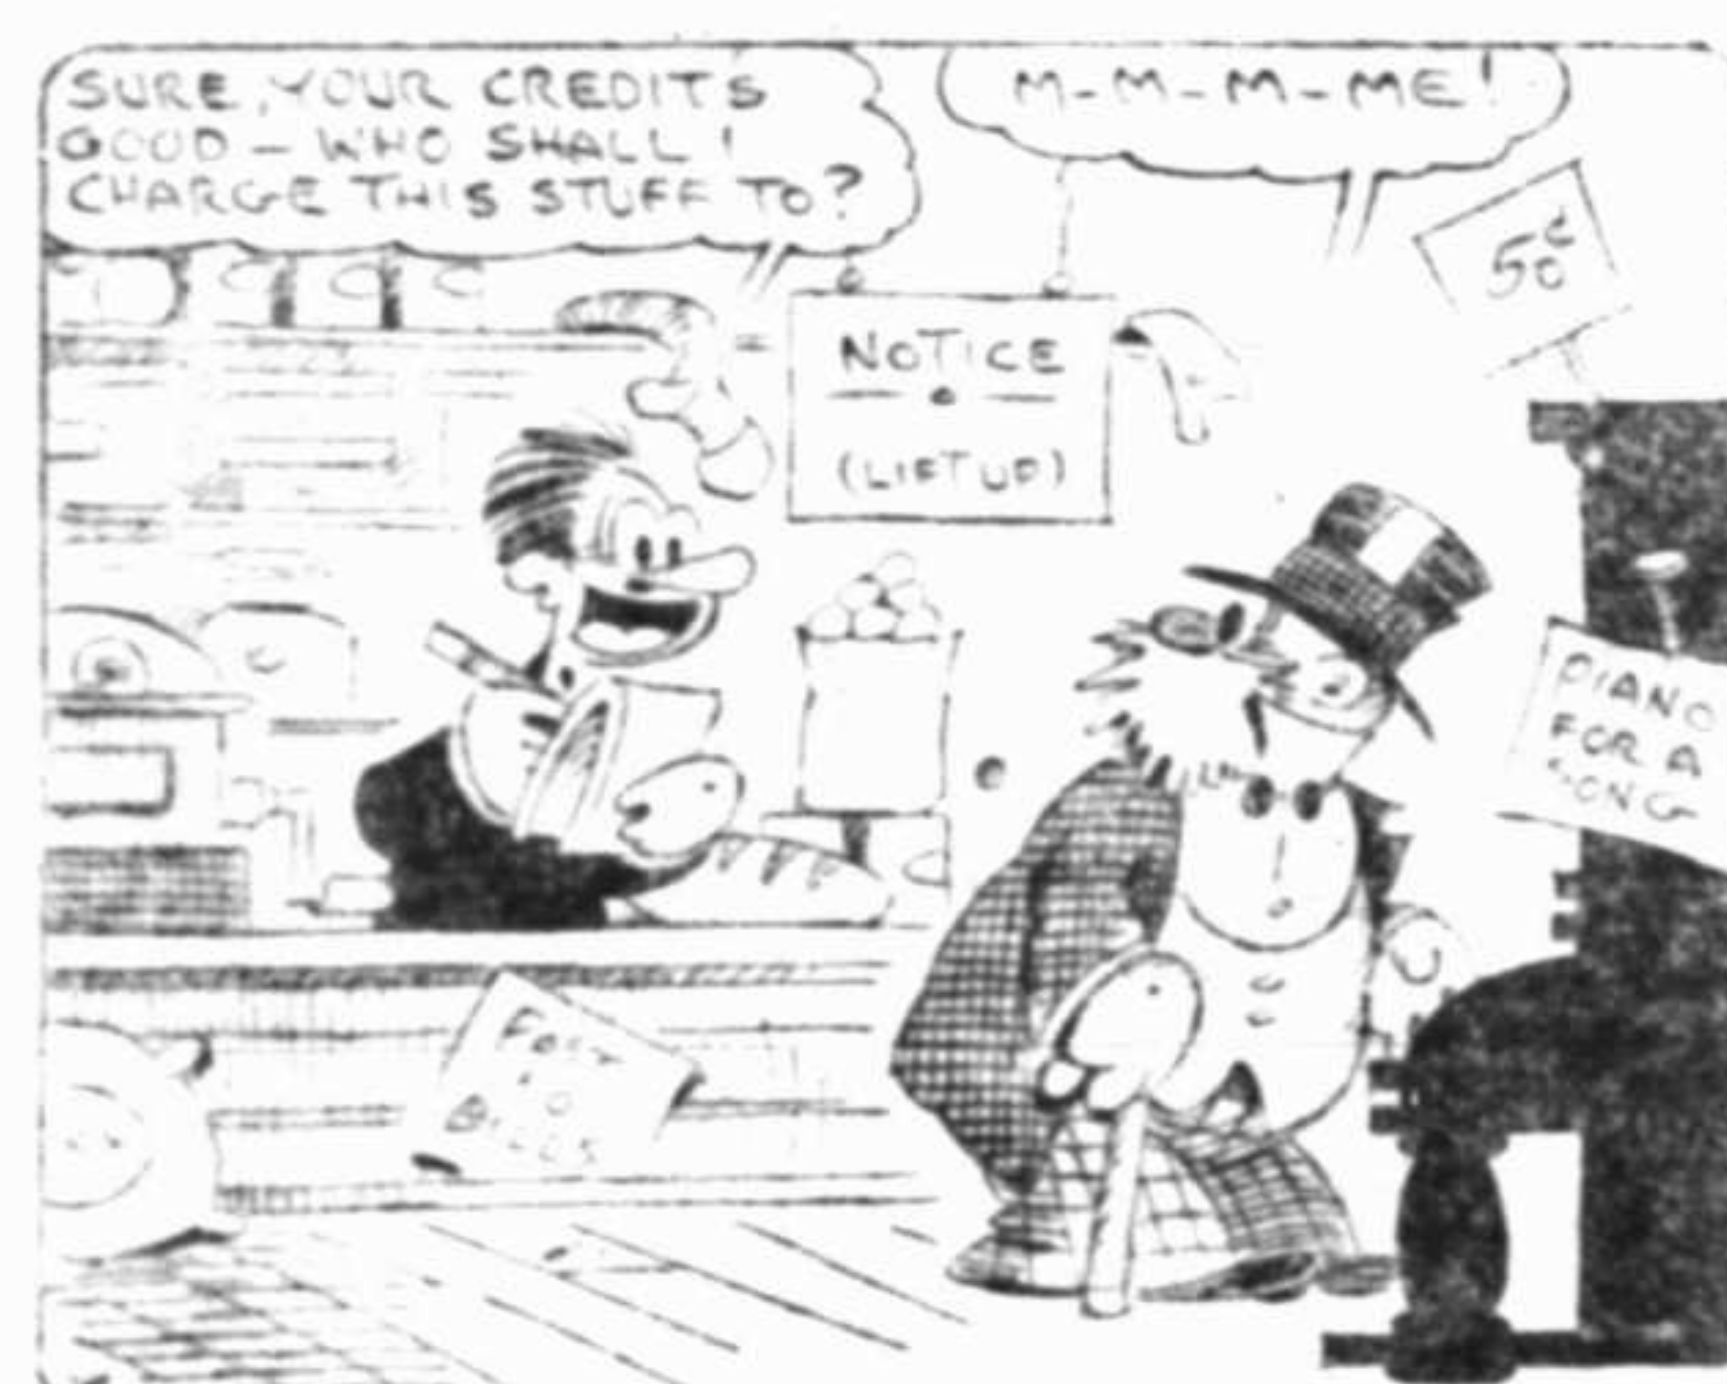

FLOYDADA, July 29.—(Special)—
Harper Scroggins, principal of
Floydada high school the past three
years and here for six years, has
moved to Groom where he will be
superintendent. Mrs. Scroggins and
family moved also. She has con-
ducted a private affiliated kinder-
garten here.

preventing.

REVIEW OF THE WEEK'S FOREIGN NEWS

By The Associated Press

(By Associated Press) The sympathy of the whole world went out the past week to the people of southeastern Italy, where the worst earthquake since Messina was all but obliterated in 1908 occurred. The official record of more than 2,000 dead and over 4,000 injured was admittedly incomplete, for the work of rescuing victims from the debris of crumpled houses brought to light additional tragedies hourly.

To intensify the terror of the population, the first shocks were followed by a hurricane the second day, and with additional shocks the third day. The quake area extended from the Tyrrhenian sea to the Adriatic, with Mefti, Potenza, Rionero, Benevento and Villanova hit hardest.

England Has Flood In two other parts of the world the elements wrought serious havoc. In North Yorkshire, England, the valley of the Esk river was the scene of a flood which marooned citizens of a number of villages. Coast guards were rushed inland from Whitby with a life boat and life saving apparatus. No lives were lost, but the material damage was heavy.

Karachi, a city of about 100,000 inhabitants was cut off from the rest of India when rainfalls of more than six inches within 24 hours inundated it. Breaches in the embankments of the river Indus and canals connected with it caused heavy damage. Shirapur and Khanpur, near Karachi, had to be evacuated. Property losses estimated at more than \$1,000,000 were caused. Huge stocks of grain, sugar and cotton were wiped out.

Tour Has Tragedy The triumphal tour of President Von Hindenburg through the liberated Rhineland came to an abrupt close by a tragedy. As the citizens of Coblenz were viewing the illumination centering about the fortress of Ehrenbreitstein, a pontoon bridge over an estuary of the Moselle river collapsed. Thirty-five persons, including an American boy, Raymond Lawler, were drowned.

Once dictator and front-page news in the world's press, now sent into exile—such is the fate of Professor Augustus Waldemar, former premier of Lithuania. He has been banished for a year to Korktingen, a large estate owned by the nation. The Lithuanian government had considered to indict him on charges of treason, but preferred to an-

nounce that it considered him physically abnormal.

Figure In League Waldemar became a world figure as the "enfant terrible" of the League of Nations. In session after session he insisted upon bringing up the question of Vilna, the border city of the Lithuanians. His disquisitions were so lengthy, however, that many delegates to the League meetings became exasperated.

In September, 1929, the Lithuanian nation failed to give Waldemar a majority in the general elections. He then resigned.

Ratification of the naval agreement by the United States senate was followed by ratification on the part of the British House of Commons. The measure then went to the house of lords, where, however, its passage is considered uncertain. The Japanese privy council has also begun consideration of the agreement.

Riots in Cairo, Port Said and Suez showed that the political situation in Egypt is by no means stabilized. Four persons were killed, 100 injured, 500 arrested in disturbances in Cairo, where the Walidists protested against suspension of parliament and the dictatorial measures adopted by the Sikiy Pasha government. At Port Said twenty rioters and 16 police were injured.

A sort of truce has been obtained in India during the past week between the British government and the followers of Mahatma Gandhi. Both sides were obviously anxious not to interfere with the negotiations started by Sir Tej Bahadur Sapru and M. Jayakar, liberal leaders, with Gandhi, whom they visited in his jail at Poona. Both sides maintained strictest silence about the outcome of their parleys.

Anti-semitic movements and demonstrations have kept the political pot boiling in Rumania. King Carol has served notice that martial law would be decreed if the anti-semitic disturbances, centering chiefly in the province of Bukovina, did not cease.

FLASHES OF LIFE

As Brought Over Associated Press Wires Today

Dry Celebration

HEIDELBERG.—Some building workers have been congratulating themselves on their diplomacy. When the framework of a structure is completed it is the custom for workers to raise a flag, cheer and await the appreciation of the owner in the form of a keg or something other than nails. Men waited in vain after raising the German flag on America Hall at the university. The hall was built with funds raised by former Ambassador Jacob Gould Schurman. After three days workmen hauled down the German colors and hoisted an American flag. Students promptly took the hint that the hall would be subject to the constitution of the United States and raised a fund for a celebration in the usual form.

Tom Is Worker

SIDNEY, Australia.—Tom Tucker is a little cockney who knows how to keep the coal fires burning. On the last trip of the liner Orvelte from England it was so hot in the Red Sea that stokers at work were sprayed with a hose. One by one collapsed except Tom, and he was the smallest aboard.

Coolidge In Again

NEW YORK.—Richard Coolidge Murdock of Ossining, N. Y., who is related to the Beacon Hill Coolidges and to Calvin Coolidge, is the winner of the Prix de Rome annual award in landscape architecture which has a cash value of \$8,000. The award was for the designing of a country estate.

Couldn't Prove It

BERLIN.—Debarred from proving that a friend is the greatest idiot in Europe, Walter Teichmann, a dentist, is out \$750. He and Hans Martens, a teacher, had a wordy row at a bowling match. Prosecution for slander ensued. The defendant pleaded his remarks were true. The court held proof was impossible and imposed a fine.

Acts In Time

COLUMBUS, G.—B. H. Base is a street car motorman with presence of mind and fleetness of foot. His car came upon baby Ellen Rowe, playing on the tracks. The brakes made the car skid on slippery rails. Base jumped, ran ahead of the car and saved Baby Ellen.

General business conditions in Norway are improving and an era of prosperity is predicted.

New Throne For Ex-King Manuel

Ex-King Manuel of Portugal found himself perched on a queer throne when he officiated as umpire at the tennis party given by Lady Waverley at her London home. The king looks fairly happy despite the fact that he is an exile from the country over which he once ruled.

CURE FOR TREE-SITTING IS FOUND IN MUSTY OLD STATUTES; PARENTS LIABLE

(By Associated Press) CHICAGO, July 29.—The old reliable statutes, which may be depended upon to provide a "don't" for almost everything that anyone might want to do, have finally provided a cure for tree-sitting. Careful search of the law has uncovered no specific ruling against tree sitters, but it has found a rule striking at fathers and mothers of tree sitters, which amounts to the same thing. Parents Are Liable. The only tree sitter who views the threatened police invasion with alarm was Steve Makowski, who is 19 years old and therefore outside the authority of the juvenile court. Besides, he has an attorney all ready to get a writ of injunction.

HOOVER IS CHARGED WITH JUGGLING APPROPRIATION FIGURES FOR PARTY

WASHINGTON, July 29.—Charges that President Hoover had juggled figures in the appropriations made by congress for the fiscal year were made today in a statement by Representative James C. McCreary, Tennessee, through the Democratic national committee.

As ranking majority member of the house appropriations committee, McCreary said the statement recently issued in the White House relative to appropriations and expenditures was "an act of evasion of juggling with figures, such as has been repeatedly done with reference to unemployment and economic conditions existing over the country in an attempt to cover up the real facts."

HOOVER RETURNS WASHINGTON, July 29.—President Hoover arrived at the White House early today refreshed after his week end stay at his Virginia mountain lodge.

Romperers Are Latest In Weather Costumes

CHICAGO, July 29. (AP)—Romperers are the latest in hot weather costumes to be adopted by young women students of Lane technical high school where a summer session is being held.

On recent hot days many of the girls appeared for classes in bathing suits, with Principal Grant Beebe's approval. He declared pupils suffering from heat are more likely to concentrate on their discomfort than their algebra.

Today, when the temperature rose above 90 again, dozens of the girls arrived in the rompers—chiefs of scanty creations in green, blue, salmon pink and orchid hues. They wore fluffy hair ribbons and short socks to match—some thought even socks unnecessary.
