Mainly About

People

Partisan or Patriot?—
Hughes' Black Mark—
Newberryism—
The People Rule—

CHARLES EVANS HUGHES IS called by his admirers one of the greatest living Americans. He made a splendid governor of New York. He was a distinguished associate justice of the supreme court of New York. He resigned from that position to accept a presidential nomination tendered him in 1916 by a national republican convention. He was defeated for that high office by Woodrow Wilson. He became a leader of the New York bar and handled many important cases. He was one of the legal lights retained to defend Truman H. Newberry after that multimillionaire had been convicted of violation of the corrupt practices act and senteneed to ten years penal servitude. Hughes appeared before the supreme court of the United States and pleaded the cause of the convicted multimillionaire. Newberry was saved from imprisonment by the supreme court declaring the corrupt practice act null and void.

TWO DEMOCRATIC MEMBERS of the supreme court concurred in the decision. It was not denied by the defendant or his eminent lawyers that more than $300,000 had been invested in a senatorial election in Michigan by Newberry It was not denied that a seat in the senate had been bought for by the client of the lawyers who fought valiantly to save him from a felon's cell. These eminent lawyers and jurists in their arguments to the supreme court declared that conviction was obtained by an extraordinary misapplication of the statute upon which the charge was made.

NOW CHARLES EVANS HUGHES in the closing days of the primary campaigns the country over says that Truman H. Newberry was given a clean bill of health when the supreme court declared the corrupt practices act null and void and that Newberry stands before the people as a senator duly elected by the people of the state of Michigan and entitled to a seat in the senate of the United States.

A COURT DECISION SAVED Newberry from incarceration in a state penitentiary for ten long years. This after his friends acting for him had spent more than a quarter of a million dollars to purchase a seat in the highest legislative body in the world.

TRUMAN H. NEWBERRY'S VOTE after he had been seated, gave the republicans control of the senate of the United States. His vote placed the enemies of Woodrow Wilson and the Versailles treaty in control of the senate committee on foreign affairs. His vote made the old guard triumphant.

BUT NEWBERRY IS AN ISSUE in American politics. It was an issue in Indiana. Newberryism lost. It was an issue in Pennsylvania. Pinchot won. It was an issue in Iowa. Brookhart won. It was an issue in North Dakota. Frazier won. It is an issue in New Jersey, where a progressive, George L. Record, is pitted against Senator Frelinghuysen, who voted to seat Newberry knowing that he had spent a quarter of a million dollars to debauch the electorate of Michigan, knowing that he had been indicted by a republican grand jury, knowing that the trial judge was a republican, knowing that the trial jurors to a man were republicans and that they returned a verdict of guilty on the evidence submitted by the government.

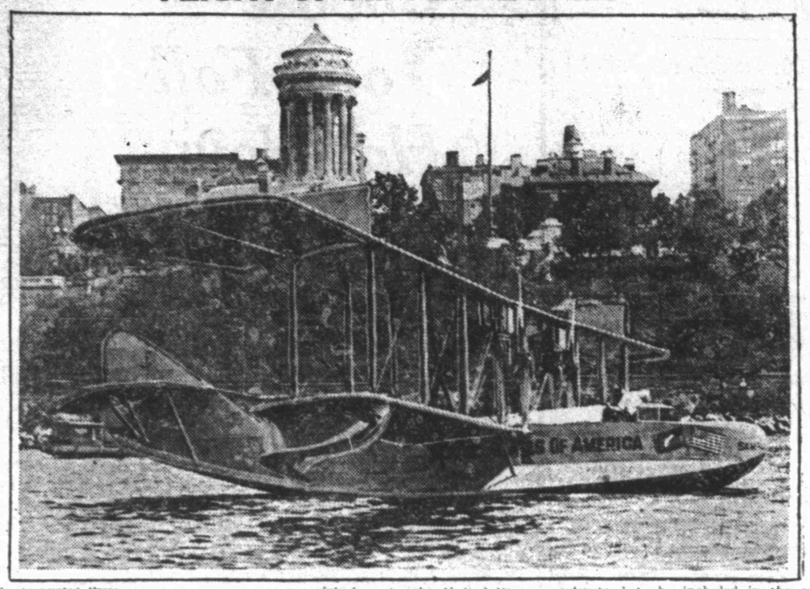

ALL THESE PROGRESSIVE republicans who have been nominated for the senate demand the reopening of the Newberry case. They are pledged to vote to unseat Newberry if a majority of the senate vote for the reopening of the famous case.

NEWBERRYISM IS AN ISSUE that will not down. There are American states controlled by coal and steel barons and lordly financiers where senatorships may be bought on the bargain counter but they are not the great producing states of middle or northwest They are not the great producing states of the south or the southwest. They are not the mountain states of the west or the golden coast or Puget Sound states.

THERE ARE AMERICANS WHO insist that the rich man's gold shall not win for him a seat in the upper house of the American congress. There are times when Charles Evans Hughes is more of a partisan that he is a patroit. He is one of the strong men of America, one of the intellectuals of America, but his defense of Newberryism in politics is a crime against organized society, a veiled attack upon the men and women of America who believe in purity in politics, an honest ballot and a fair count. For a man who has been an associate justice of the supreme court of the United States, to defend

FLIGHT OF SEAPLANE FAILS

By Associated Press

WASHINGTON, Aug. 22.—Lieutenant Hinton, pilot, and "the members of the crew" of the seaplane Sampaio Correia, which left Nassau in the Bahamas today for Haiti in its flight from New York to Brazil, weer picked up by the United States ship Denver at 7 o'clock this evening in latitude 20 north; longitude 74:38 west, according to a wireless message to the naval communications service tonight from the Guantanamo station. All those aboard the craft were understood to be included in the report that "the members of the crew" had been rescued.

According to the latitude and longitude, it was said that the seaplane must have come to grief in or near the windward passage.

VERNONITES TO BURY HATCHET

Love Feast Planned For Friday

By ERIC G. SCHOERER.

Special to The Record News.

VERNON, Texas, Aug. 22.—Wilbarger county has tired of political strife. It has sifted the issues in the primary elections, discussed them p o and con with a vim characteristic of the people in this section, and as a result there is the barest semblance of estrangement between the various faction locally. It is the same everywhere in the state.

After Friday, August 25, however, the breeder of quarrels, the politicial agitator, will be forced to pack his carpetbag and seek more fruitful fields than the Wilbarger county temper will provide. For on that day there has been heralded a love feast, a great gathering of farmers and townspeople, who will gather at the fair grounds west of town to bury all differences and indulge in a barbecue of the old fashioned variety.

"Those white collared folks in town are lining up against you farmers," has been somewhat the tenor of the propaganda spread in some of the rural districts.

"The country people say they are going to swamp your candidate," is the insidious rumor circulated in town.

As a matter of fact, there has been no real cleavage of opinion on the part of town and rural residents. Unscrupulous ones, anxious to further the causes of their respective candidates, have attempted to stir up an imaginary prejudice, but their assertions have been without foundation. The spirit of accord between farmer folk and their fellow county residents in Vernon has been a source of pride for years, and Wilbarger citizens are determined that no imaginary grievances shall destroy this common confidence.

What's the Road to Vernon.

Five thousand pounds of beef and three hundred gallons of coffee will provide part of the cheer Friday noon. Literature advertising the event has been distributed in the remotest parts of the county, and there are eager expressions of approval everywhere.

John Jones, the farmer, will tell the assembled hundreds that this business of a difference of opinion is all bosh; Tom Johnson, the merchant, will follow him on the speaker's stand to extend the fellowship and good will of the townspeople. There will be band music, good cheer and much slapping on the back—for Wilbarger values more the accord and co-ordination of its citizenship than the outcome of the tightest race in political annals.

"Work Tomorrow" Blasts Shatter Long-Standing Gloom In Mining Field

Pandemonium Reigns When Whistles Tell That Grievances Of Strikers Are Cleared

By Associated Press

WEST FRANKFORT, Ill., Aug. 22.—The gloomy shadow of anxious expectations that had settled over the homes of more than 30,000 coal miners in Williamson and Franklin counties since the beginning of the Chicago conference, turned into a radiant ray of joy that permeated the minds and homes of the miners, idle since April 1, when the whistles of the 100 or more mines in the two counties sounded their familiar 'work tomorrow" blasts this afternoon.

The hilarity of the armistice celebration four years ago, once more fluttered over West Frankfort and Herrin, where only two months ago to the day, the miners in a desperate effort to win their strike resorted to tactics that stamped ignominous shame and worldwide scorn upon the records of Illinois mining history, when 26 lives were snuffed out in a rage of lawlessness.

Peace Reigns.

The usual peaceful atmosphere of a medium-sized city hung over the town this afternoon, nothing out of the ordinary could be observed among those seen on the streets. Here and there one could see small groups, men whose clothing showed the marks of their trade—miners, who were discussing the conference at Chicago.

Then suddenly—not so far off in the distance—there came that familiar sound of the whistle—at first faint, then it grew, augmented in its resounding strength by hundreds and hundreds of blasting sirens.

"The strike is over, tomorrow we

L. & N. Trains Crash; Many Hurt

By Associated Press.

TALLADEGA, Ala., Aug 22.—At least three persons were seriously injured and 13 suffered minor injuries when the south bound L. & N. passenger train No. 85 collided with a freight train about two miles south of Talladega this afternoon about 2:30 o'clock.

Childress County Sheriff Denies Requested Arrest of State Ranger

Denying that he had requested the arrest of a ranger stationed at Childress, Sheriff J. L. Crane of Childress county yesterday issued a statement branding the report as false.

The Associated Press furnished the Record News with a story dated from Austin last week that requests had been made to the governor with view of the arrest of a member of the state force then stationed at Childress.

The statement and denial:

Childress, Tex., Aug. 19, 1922.
Wichita Falls Record News:

The reports to Governor Neff, as indicated in the Austin item, in the Wednesday issue of the Dallas Morning News, and Amarillo Daily News and in Friday's issue of the Wichita Falls Record News to the effect that I had threatened or that I wanted to arrest a state ranger here, were and are utterly false and absolutely false and without foundation, in fact the person or persons making such reports to the governor knew that they were false. Myself and my force have worked in harmony with the rangers ever since they were stationed here and we will continue to do so. I refer all persons to the rangers themselves for the verification of the truth of the things here stated, concerning conduct and attitude toward them.

(Signed) J. L. CRANE,
Sheriff of Childress County, Texas.

Conditions In Shawnee Rail Yards Grave

OKLAHOMA CITY, Aug., 22.—State troops have been requested and a score more deputy United States marshals will be sworn in immediately to assist in handling the railroad strike situation at Shawnee. Already 80 federal deputies are on duty in the strike city co-operating with county and city authorities. Three national guard units have been held in the armory at Oklahoma City since last Saturday to be rushed to Shawnee, but have received no orders to move.

United States Marshal Alva McDonald came here today to confer with Governor Robertson. He was told that the governor would see him tomorrow. "There will be no state troops sent to Shawnee," Mr. McDonald said when he left here.

"He won't see me," said the marshal, referring to Governor Robertson. "I will be in Shawnee."

Governor Robertson has stated that he did not intend to order national guardsmen to Shawnee unless it was proved the federal officers were unable to cope with the situation.

FERGUSON HAS PEACEFUL TIME

San Antonio Meeting Draws Crowd

By Associated Press.

SAN ANTONIO, Aug. 22.—Arrangements for James A. Harley, former adjutant general of Texas and one of the state senators who voted for the impeachment of James E. Ferguson as governor in 1917, to introduce the candidate for the United States senate, tonight failed because Mr. Harley left town this afternoon and was unable to return in time. He wired from Seguin that he had missed the train, but would return by automobile. The speech was delayed several minutes in the hope that he would be abale to put in his appearance, but for the reason named John H. Bicket,. Jr., acted as chairman and presented Ferguson.

Mr. Ferguson used no new material in his speech, but he bore down hard on the data he has been employing since the beginning of the run-off battle. And his auditors were as cordial and as sympathetic as he could have desired. In marked contrast with his experience at Houston the night before he was accorded close attention without a single interruption from start to finish. The heat in the hall was so intense that some of the crowd left before he closed. but they went out quietly.

He told his hearers after paying tribute to San Antonio as the city in which he found the first encouragement he met in his first in entrance into public life eight years ago and where he always had many warm friends, that he does not come whimpering or crying and that though broken in purse and all but ruined by his enemies, he is "the gamest peacock that ever walked."

HOSPITAL BOND ELECTION WINS BY 76 MARGIN

Electra Hangs Up Largest Majority For Proposal

The proposal to issue bonds to the extent of $150,000, to be matched by a like amount by Iowa Park, Electra and Burkburnett for the construction of three hospitals at these places, was voted by the taxpayers of Wichita county at the polls yesterday by a majority of 76 votes.

A total of 466 votes were cast in favor of the proposition and 390 against it.

According to an opinion given The Record News by County Attorney E. L. Fulton last night, "a simple majority" is all that is necessary for the issue to carry.

The vote outside of Wichita Falls proper was 371 for and 98 against. The vote in Wichita Falls was 202 against and 95 for.

The biggest majority in favor of the hospital was hung up by Electra.

With all three boxes consolidated, out of a total strength of 900, 226 were cast for the proposal and 31 against. A large number of women voted at Electra.

Few Vote at Burk

Only 82 votes were cast at Burkburnett, with 50 in favor of the hospital. Only seven women voted there. The voting strength at Burkburnett is 600. No election was held at Clara and reports from two other small boxes were not obtainable last night.

The following is the tabulation of the vote:

THE COUNTY VOTE

Electra box, vote 257, for 226, against 31.

Burkburnett, box No. 15, vote 60, for 34, against 26, voting strength 300

Burkburnett, box No. 16, vote 22, for 16, against 6, voting strength 295.

Iowa Park, box No. 18, vote 50, for 37, against 13, voting strength 290.

Totals, vote 469, for 371, against 98, voting strength 1,165.

VOTE IN WICHITA FALLS

City hall box, vote none.

Deatherage marble works box, vote none.

Barwise school box, vote 32, for 1, against 31, voting strength 320.

Court house box, vote 95, for 16, against 70.

High school, vote 56, for 7, against 49.

Sibley Taylor box, vote 23, for 5 against 18, voting strength 300.

Wilson store, vote 12, for 3, against 9, voting strength 300.

Buchanan fire station, vote 38, for 4, against 34, voting strength 800.

Alamo school, vote none.

Ellis drug store box, vote 60 for 14, against 46, voting strength 500.

Court house box vote 43, for 39, against 4.

North side school, vote 28, for 6, against 22, voting strength 400.

Totals, vote 387, for 95, against 292, voting strength 2,620.

Ex-Officer Guilty Of Manslaughter

By Associated Press

BIRMINGHAM, Ala., Aug. 22.—Thomas C. Dewes, former federal prohibition officer was found guilty of first degree manslaughter and sentenced to three years by a jury in federal court tonight in connection with the death of Curtis Tidmore, a Blount county farmer last September. The jury was out one hour.

Highway Board O. K's State Aid

By Associated Press

AUSTIN, Texas, Aug. 22.—Twenty federal and state aid highway projects representing a cost of $738,067.50 were approved by the state highway commission which closed its monthly session here today. The bulk of the projects approved are federal aid. The largest individual award went to Hardin county for $175,000.

KATY DEPOT IN MANGUM BURNS

$20,000 Loss Caused By Flames

Special to the Record News.

MANGUM, Okla., Aug. 22.—Fire destroyed the Katy railroad depot here late this afternoon with an estimated property of loss of about $20,000. All records and other papers in the building were destroyed.

Officials of the road were unable to advance any theory as to the cause of the blaze which swept through the brick structure with startling rapidity. The flames were first discovered under the west side of the freight platform by a passerby but before a concerted effort could be launched the entire structure was enveloped.

The station will be replaced immediately, it was intimated after the destruction of the building.

Assassinated

MICHAEL COLLINS.

By Associated Press.

BELFAST, Aug. 22.—Michael Collins was shot dead tonight at Bandon.

Several attacks have been made against the life of Michael Collins, head of the provisional government and commander-in-chief of the Irish national army. The latest attempt was a bombing outrage, when his car was ambushed last Friday afternoon on the Dublin side of Stillorgen. The official communication issued in connection with this attack did not in-

(Continued on Page Two)

STEEL WORKERS PAY INCREASED

300,000 Men Raised 20 Percent

By Associated Press.

NEW YORK, Aug. 22.—Three big steel corporations, employing normally nearly 300,000 wrokers today announced a 20 per cent wage increase for all day laborers in their manufacturing plants. The United States steel corporation took the lead, but was quickly followed by the Midvale Steel and Ordnance company and the Youngstown Sheet and Tube company.

In the absence of Charles Schwab and Eugene Grace, of the Bethlehem steel corporation, Secretary Brown said he did not know of any action that had been taken on the wage question. President Matthews, of the Crucible Steel corporation said his company had taken no action "as yet." It was generally believed in financial circles that all important independent steel firms would announce increases within a few days.

News of the increase came as a surprise to the field district, probably because wage adjustments in other industries have been generally downward. It was followed by slight recessions in the prices of steel shares.

No explanation of the increase was given by the steel corporations, however ,it is known that the immigration law has cut off the supply of unskilled laborers which formerly drifted to the iron and steel centers. Temporary relief was afforded by the employment of men thrown out of work by the coal strike.

Resumption of coal mining and the increasing demand for laborers in other industries, combined with the expected business revival this fall, is reported to have caused the fear among mill managers that higher wages elsewhere would cause sufficient desertions to hamper their operations at a time when there was every prospect for heavily increased orders.

Tariff Bill Back For Redrafting

By Associated Press.

WASHINGTON, Aug. 22.—By a vote of 198 to 69 the house sent the tariff bill to conference today for its third redrafting. The six republican conferees, three from the house and three from the senate, probably will have a prelinmary meeting tomorrow and get down to work in earnest Thursday.

The size of the task ahead of the conference committee was revealed today with the reprinting of the approved bill. The reprinting showed 2,436 changes from the original house text—a new high record—and the conferees will have to adjust differences on each of these.

Surprises Pile Up Fast On Eve Of Peace Parley

Powerful Road Executives Returning From Europe for Conference; Wages of Steel Workers Boosted; Road Chief Declares Rumors of Speedy Peace Are All "Bunk"

By The Associated Press.

NEW YORK, Aug. 22.—Four surprise factors entered into the rail strike situation today, any one of which, according to representatives of roads and brotherhoods, may vitally influence the action of the association of rail executives, when it meets tomorrow to consider peace proposals or mediation with the big five brotherhoods.

They were:

1—The announcement that presidents of three powerful eastern roads, Samuel Rea, of the Pennsylvania; E. E. Loomis of the Lehigh Valley, and Wm. Bester of the Jersey Central, were expected to arrive from Europe on the Majestic, in time to participate in the conference of the association of railway executives.

Wages Increased

2—The grant by three large steel corporations of a 20 per cent increase wage to their several hundred thousand day laborers.

3—Assertion by L. F. Loree, president of the Delaware and Hudson, chairman of the eastern presidents conference, that predictions of a strike settlement and peace in the industry were "all bunk."

4—Announcement that several brotherhood chiefs are enroute from the west with practical proposals for settlement of the shop crafts strike, which they will submit to rail executives if all other peace advances fail.

Heads of the railway executives refuse to comment on the unexpected arrival of the three eastern presidents. Their return on the same boat, and in the midst of the present crisis, was admittedly significant however, especially since their respective vice-presidents have been the nucleus of the group which, in conferences of the national association, has consistently fought against any peace plan, which included reinstatement of strikers with seniority rights unimpaired.

Strikers Gain

The decision of the steel corpotations to raise the wages of laborers, announced just 24 hours prior to the scheduled meeting of the executives, was hailed by the strikers as a point in their favor, it not only justifying their refusal to accept wage cuts fixed by the railroad labor board, they said, but was ample proof of an impending industrial boom which would put the railroads, with their thousands of bad order cars, more than ever in need of their old repair forces.

Rail heads refrained from discussing of the possible effects of the steel company's move on rail strike negotiations.

Although Mr. Loree today disclaimed any intention of putting the brakes on strike negotiations, after declaring that "this talk of peace is all bunk," other members of the eastern presidents conference, voicing similar views, indicated clearly that they will enter tomorrow's conference as a "bloc" to oppose any plan for restoration of seniority.

Labor Leaders Arrive

Meantime, labor headquarters again became active, with the arrival of officials of the 16 shop crafts units who preceded the big five leaders into the city.

Warren S. Stone, president of the brotherhood of locomotive engineers and B. M. Jewell, president of the shoperafts organization are expected to arrive.

Fire Sweeps Fort Sam Houston

By Associated Press.

SAN ANTONIO, Texas, Aug. 22—A fire at Fort Sam Houston late last night destroyed more than 2,000 army tents and poles and miscellaneous army material, according to a report which was forwarded today to the war department by headquarters 8th corps area. The loss was estimated at nearly $480,000. The equipment was stored in a frame warehouse. The origin of the fire has not been determined. A board of officers was appointed today to make an investigation.

Well Known Local Man Married

Friends of Edwin A. Bebb of this city have received announcements of his marriage to Miss Hester Ann Allyn of Greely, Colo. The young people were married Tuesday, August 15, at the home of the bride's parents in Greely.

Mr. Bebb is well known in Wichita Falls and is a popular member of the younger social set. He is also well known here as an amateur tennis star and athlete and is a prominent figure in sporting and club circles.

Following a month's wedding trip he and his bride will return to Wichita Falls and will be at home here after November 1

MORE MINES TO REOPEN TODAY

Soft Coal Productio In North States

By Associated Press

CHICAGO, Aug. 22.—Soft coal operators and miners in two more states more peace today while anthracite operators and miners representatives meeting in Philadelphia adjourned a joint conference subject to call without reaching an agreement.

Illinois and Indiana miners prepared tonight to enter the pits tomorrow, following the lead of Michigan, Iowa and Wyoming miners who yesterday concluded agreements with operators from these states. Southwestern operators and miners were holding conferences at Kansas City in an effort to bring about a settlement.

9,000,000 a Week

The peace negotiations already completed caused the department of labor to estimate the weekly bituminous coal production at 9,000,000 tons within a week.

All the agreements thus far concluded in the bitmuninus industry have been based on the settlement at Cleveland last week between John L. Lewis, president of the United Mine Workers of America, and his associates and operators from seven states. By the terms of this agreement the miners returned to work at the same wage scale and under the same working conditions as when they struck on April 1, 144 days ago. This agreement is to remain in effect until next March 31 with provision for a fact finding commission to investigate the coal industry and the selection of a sub-committee of operators and miners next fall to determine methods of negotiating future wage scales.

The agreement between Ilinois miners and operators came after five days of conferences.

CONGRESS RUSHING COAL LEGISLATION

WASHINGTON, Aug. 22.—Congress was ready tonight to rush through its first stage tomorrow a bill recommended by the president for creation for a federal commission to get all the facts relating to the coal industry and on which miners and operators would not be represented.

Two bills, slightly difefrent in essential provisions, weer reported—one to the senate and the other to the house. The Winslow measure introduced Monday will be taken up by the house tomorrow under a special rule giving it the right of way.

Chapman Rumored As Hall Successor

By Associated Press.

AUSTIN, Texas, Aug. 22.—Following a conference between J. L. Chapman, cashier of the Central State bank of McKinney and Governor Neff here this afternoon unconfirmed rumors were afloat that Chapman would be appointed state commissioner of insurance and banking to succeed Ed Hall, resigned.

Nimon to Austin

By Associated Press.

AUSTIN, Texas, Aug. 22.—Colonel Charles W. Nimon, commanding state troops at Denison, and Major E. A. Simpson also at Denison, have been summoned to come to Austin tomorrow morning for a conference with Governor Neff, Adjutant General Barton and Attorney General Keeling on the strike situation, it became known tonight.

Kicks Made On Denison Guard

By Associated Press.

AUSTIN, Texas, Aug. 22.—Numerous complaints that C. F. Miles, deputy sheriff at Denison, who was reported today to be under arrest by military authorities there, was not enforcing the law, has been presented to officials in charge of national guards stationed at Denison before Miles' arrest, Adjutant General Thomas D. Barton stated here tonight

FAST PLAY IN NET MATCHES TURNED OUT

National Doubles at Stake on Boston Courts

By Associated Press.

BOSTON, Aug. 22.—Play worthy of a championship marked the advance to the third round today of the national doubles title tournament, in which representatives of four countries are contending.

The Spanish Davis cup team of Manuel Alonzo and Count De Goma, was eliminated by the revitalized internationalists, R. Norirs Williams, II. and W. M. Washburn, in straight sets that were not entirely easy. The scores were 6-4, 6-1, 6-2.

Essaying two matches each, the Australian team of Gerald L. Patterson and Pat O'Hara Kood, and the new American combination of W. M. Johnston, and Wallace Johnson, won in straight set victories over lesser opponents.

While the match in which the oldtimers, Dwight F. Davis and Holcombe Ward, champions of nearly a quarter century ago, opposed the playing through champions, W. T. Tilden II., and Vincent Richards, drew a goodly gallery, the crowd turned quickly away when the latter won, 6-0, 6-3, 6-1, to see the fight for survival of the Kinsey brothers, Robert and Howard, Pacific coast champions.

Kinseys Play Hard

The Kinseys, the semi-finalists last year and regarded as likely to advance at least as far again were forced into five sets to win from the hard hitting combination of Willis E. Davis of San Francisco and H. C. Johnson of Boston. The latter put the Kinseys to the wall by winning the first two sets 6-3, 6-4. The third set went through 22 gruelling games, but in the end, the Kinseys broke down Davis' service, which had sparkled, for the decisive game at 12-10. The scores of the last two sets were 6-2, 6-2.

The defeat of Sam Hardy, former Davis cup champion, and S. H. Vosell of New York, by the national junior champions, W. W. Ingraham and A. W. Jones of Providence, in the second round, was an upset. The youngsters carried off the first two sets 6-2, 7-5, were stopped in a 2-6 set, but gathered momentum again to win out at 10-8. William and Washburn showed a notable recovery from the lapse which cost them success in the recent Newport tournament, in the match with the Spanish team. Alonzo and De Gomar had both the cunning of court strategy and the flashy line play which marked their recent unsuccessful match with Australia, but the Americans, by changed pace, continued to keep the visitors always on the defense. Williams was the individual star with 20 placements, almost equalling his errors.

The Australians lost only four games in six sets, both against local teams, who gave them an opportunity only to show their finesse of stroke.

ROYAL PROPAGANDA

Cities and towns throughout Germany are being flooded with picture post cards of members of the royal family. It is believed that the wide distribution of these photographs is part of the campaign to bring the Hohenzollern family back to power. The photograph above, a very recent one, shows Prince Wilhelm and Prince Louis Ferdinand, son of the former crown prince now in exile.

ASSASSINATED

CONTINUED FROM P. 1

dicate whether Mr. Collins was in the machine at the time. The driver was wounded and the car was wrecked, a bomb and more than a score of shots being fired.

Attacked Before

In Dublin, on April 17, while Mr. Collins was on his way home after having addressed a meeting at Naas, county Kildare, he was attacked by a group of men, some with rifles, whom rushed his car and opened fire.

The Collins party returned the fire on one of the assailants who was captured. Collins was not injured.

Mr. Collins, in addition to being commander-in-chief of the national army, was finance minister in the Dail Eireann cabinet. He was one of those who succeeded in obtaining a temporary injunction in New York on Monday, restraining Eamon De Valera or his agents from withdrawing funds collected for the Irish republican cause deposted in banks in New York City.

Ardent Sinn Feiner

Collins, always an ardent Sinn Feiner, was among those leaders, who while holding to the fundamentals of tradition for the freedom of Ireland, still were willing to effect a peace with Great Britain. It came necessary in view of the recent operations of the irregular forces for Collins to assume active charge of the national army in the field, and for sometime past he had abandoned the civil part of the government for the military.

Americans recently arriving in London from Dublin declared that the assassination of Collins was forecast in Ireland. It was planned to secure the removal of the sole remaining outstanding figure in the provisional government and it was said to be also in part a measure of reprisal against the shooting of Harry J. Boland, the close associate of Eamon De Valera, by free state soldiers.

35 TAKEN IN BY EVANGELIST

Elecrta Meeting Is Closed

Special to The Record News.

ELECTRA, Aug. 22.—Thirty-five new members of the Methodist church with the promise that as many more will join later and a great many converts are reported by Rev. R. B. Curry, pastor who has just closed a successful meeting here. An "oil men's" meeting and an old-fashioned love feast Sunday morning drew especially large crowds. The love feast was declared by many to be a splendid reproduction of the service common in the old-fashioned camp meetings in the days of yore.

An unusual feature of this meeting was the publication of a daily paper containing a stenographic report of the sermon of the evening before and of the work of the various departments with the several announcements. This paper was distributed early every morning with a thoroughness that made it accessible to pratically every person in Electra.

Rev. Curry who did the preaching was assisted by Rev. E. C. Huckabee, assistant pastor of the First Methodist church, in Wichita Falls, J. Marvin Edwards of Dallas and Miss Don Higginbothan of Fort Worth. Mr. Edwards will remain with the local church as financial secretary and choir director.

MAINLY ABOUT PEOPLE

(Continued From Page One.

Newberryism, with its brazen use of money, its dishonest practices and its bold contempt of public opinion is something that has been unheard of for the 147 years in the life of this republic.

THIS IS A FREE COUNTRY. Men differ and they differ honestly but there can be no difference of opinion on the issue of Newberryism which carries with it the right of a multimillionaire to buy his way to the American senate. Beveridge won without the use of money; Brookhart won without the use of money; Frazier won without the use of money; and the time is coming in this nation of ours when the man who offers to buy a seat in the halls of congress will be branded by the American people as unfit to hold any office within their gifts. Charles Evans Hughes placed one black spot on the white pages of his history when he rushed to the defense and gave a clean bill of health to Truman H. Newberry, as Newberryism will be an issue in American politics until the tribe of mammon are taught that merit and not money is recognized first of all by the people who are the masters and make and unmake their public servants.

WORK—

CONTINUED FROM P. 1

go back to work," was the gist of the shouting, the observer could draw from sounds of thousands of human voices.

Men, women, children, they all knew that familiar call. It meant joy, it meant assurance, that the wolf would be kept away from the door of thousands of homes; it meant happiness for tomorrow, the father, the brother, the grandfather, was returning to work after an enforced idleness of more than four months.

Teas of Joy

Many tears of joy were wiped away with the corner of the mothers' apron, men exchanged words of felicitation as they parted after discussing the gladsome tidings on the street. All directed their steps towards their homes, where they got out their inseparable companion, the familiar bucket, and others went for their picks, made rusty from idleness.

Finances Lwindle

Many bank accounts kept by the miners have been depleted during the long strike period. The pinch of the enforced idleness had long been felt by many a family. Only yesterday a restaurant in this city befan serving soup and crackers to the unemployed miners and members of their families. Merchants were known to have carried large credit accounts, principally grocers.

These stores were crowded nearly all afternoon and during the earlier evening hours, by men, women and children, all making purchases for the first lunch the supporter of the family was to take out in many a month.

New Well Runs 300 Barrels

NEW PRODUCER LOOKING GOOD

Second Well in 1620 Foot Sand

Three hundred barrels of oil were put into the tanks on Monday by the Hockaday and Shaw No. 1 Waggoner, Section 34, west side extension of the South Electra field. This run, the first real 24-hour test obtained on the new well, shows it an even better producer that at first estimated.

It is the second well in the new 1,620 foot sand opened up several weeks ago in Section 34, by McCallister, Grisham and Brown. It is an offset on the east to the discovery well.

The Gulf Production company's No. 1 Waggoner, a south offset to the discovery well, which got a sand around 1,540 feet last week, is pulling pipe to drill for the 1,600-foot sand. The 1,500-foot sand tested salt water.

Porter Oakes Hears Oil Company In Florida Lease Buy

Special to The Record News.

DEFUNIAK SPRINGS, Fla., Aug. 22.—Porter Oakes, of Wichita Falls, Texas, who represents large Texas interests has just closed a contract backed by an indemnity bond to drill for oil to a depth of 3,500 feet unless oil or gas is found at less depth than that. Work it is said is to be commenced within ninety days.

The contractors state they have abundant capital of their own and will not offer either stock or subleases for sale, nor do they ask financial assistance from local people.

A great many people believe that oil is to be found here and this impression is backed by the expressions of men who spent much time in the oil fields and have made themselves familiar with the geological formations in this section.

NORRIS EWING TO MAKE TRIP EAST

Norris Ewing, of the United Royalties company of this city, will leave today for a several day's vacation in Arkansas. Later Mr. Ewing will spend a brief visit with his parents in Nashville and from there he will go to New York City, Boston and other eastern points on an extended business trip in the interests of his firm.

"He May Be Your Man. But He Comes to See Me Sometimes."—The Columbia Shoppe, Ninth and Indiana.

Pure Oil Looks To Kosse for New Oil Sensations

Discovery of an important new oil pool is indicated by a wildcat drilled of the Humphreys Oil company near Kosse, Texas, and which is producing oil at a rate estimated between 5,000 and 6,000 barrels a day, according to reports from the Pure Oil company.

The location is entirely new with most important and significant since the discovery of Mexia by these same interests. The well began spraying oil at a depth of 3,750 feet and when drillers began to pull the tools, the pressure of oil blew them out of the hole with a gusher flow of oil.

The location is entirely new with no other drilling in the vicinity. Drilling was started September 1, 1921, and the first showing of oil was noticed on May 1st at a depth of 3,695 feet. On May 8th, 3,400 feet of five-inch casing dropped 300 feet and the work was held up by fishing which was not completed and the hole cleaned out until August 12th when at a depth of 3,700 feet drilling was resumed.

Pure Oil-Humphreys interests have 6,200 acres in this locality making a solid block of leaseholds and the discovery well is located on the Jones lease slightly west of the center of their holdings and a mile and a half northwest of the town of Kosse. The oil produced is clear with a gravity of 29.4 degrees and a color similar to a dark green lubricant.

Some idea of the significance of this new pool discovery is suggested by the fact that the discovery well in the Mexia pool made only 200 barrels a day initial. This production was from the Woodbine sand at 3,065 feet. As in the case of the Mexia development the Humphreys Oil company in which the Pure Oil company has a 25 per cent interest has all the advantages that accrue to the successful wild catter in the new pool near Kosse, by reason of practically uncontested choice of acreage in the area which has been mapped by the geologist as having oil possibilities.

The Mexia field is proving by long odds that it is the most remarkable oil producing areas that has been developed in recent years. This is particularly true of the Pure Oil-Humphreys interests, which are now producing an output equal to over 50 per cent of the total in the Mexia district. The producing properties of these interests have been consistently averaging considerably over 30,000 barrels daily for the last several months.

DEPUTY OIL CHIEF TO TAKE VACATION

Oil drilling activity shows very little activity at this time, according to Thos. L. Coplin, deputy supervisor under the railroad commission, and as it is the dull season, Mr. Coplin is going to take his vacation beginning Saturday.

Some other deputy supervisor will look after the office in his absence. Mr. and Mrs. Coplin will leave Saturday for Los Angeles where they will spend two weeks.

GAS STOCKS IN NATION DROP

Production Increases During June

Special to The Record News.

WASHINGTON, Aug. 22.—Gasoline stocks at refineries in the United States July 1 registered a slight decrease from the figures for the previous month, according to statistics compiled by the bureau of mines, which show 824,966,456 gallons on hand. This is a decline of approximately 32,000,000 gallons from the figures for June 1, reflecting the normal seasonal drop due to increased use of automobiles in the summer months.

Domestic consumption of gasoline for June was 507,000,000 gallons as compared with 499,000,000 gallons for May and 386,000,00 gallons for April. The May figure represents an increase of 41 per cent in consumption as compared with May a year ago, while a similar comparison for June shows a 14 per cent increase, a more nearly normal figure. Stocks for June are 10 per cent in excess of June a year ago.

Production of gasoline for June amounted to 525,940,600 gallons, an increase of 12,000,000 gallons over May and 51,000,000 gallons over April.

Figures furnished the bureau of mines by refiners for the first six months of 1922 show an increase of 9 per cent in domestic production of gasoline as compared with a similar period in 1921. The increase in domestic consumption is 6.1 per cent in excess of this amount or 16 per cent.

A daily average of 1,547,000 barrels of oil was run through the stills of the 310 refineries reported as operative during the month of June. These figures show a daily increase of 30,000 barrels in the amount of oils run and a decrease of five in the number of operating plants reporting as compared with the month of May. Plants reported during June were running an average of 88 per cent of their daily indicated capacity. In addition to the plants referred to above, it is estimated that there were probably ten plants of small total aggregate capacity, operating during June from whom no advices of any nature were received by the bureau of mines.

Imports of gasoline for June amounted to 3,986,655 gallons; exports were 52,730,889 gallons; and shipments to insular possessions were 1,872,776 gallons.

Production of kerosene for June amounted to 173,649,592 gallons, a daily average increase of 181,000 gallons. Stocks of kerosene on hand July 1 amounted to 317,574,464 gallons, a decrease of 1,300,000 gallons for the month. Exports and shipments of this product were 71,500,000 gallons.

Production of gas and fuel oils in June amounted to 903,056,578 gallons, which is a practical maintenance of the May rate of production. Stocks on hand July 1 were 1,326,939,662 gallons which is a slight increase.

The output of lubricating oil for June was 80,138,257 gallons, which indicates a daily average increased production of 95,000 gallons. The seasonal demand for lubricants reduced stocks to a figure of 226,903,812 gallons on hand July 1, a decrease during the month of 39,000,000 gallons.

O. L. D. ANNOUNCES NEW LOCATIONS

Special to The Record News.

NEW YORK, Aug. 22.—The O. L. D. Operating company, the big wildcat syndicate organized in New York recently, announces that it has made locations for its first three wells, one to be in Butler county, Kansas, another in Cowley county, Kansas, and the third in the Electra field, Wichita county, Texas.

C. A. Owens, vice-president and general manager, left New York today on an inspection trip through the states of Kansas, Oklahoma and Texas, on which he will investigate various other locations.

The drilling program of this syndicate, which includes a total of 100 wildcat wells to be drilled in the extension of old producing pools and opening of new production areas, is of great interest to the general oil business.

O. L. D. Operating company is fully financed and the results of its drilling of wells should record important history in future oil production of the country.

Ex-Governor C. N. Haskell, as well as the Middle States Oil Corporation, is prominently associated in the undertaking.

Only one President (Grant) was a graduate of West Point Military academy and none of Annapolis.

The latest type of battle plane to be used by Great Britain, weighing nine and one-half tons, will carry machine guns mounted in a kind of gallery.

A GOOD MAN GONE

NEWS dispatches from Laredo Sunday morning gave information that Robert Rumsey, river guard, had been killed below Laredo by liquor smugglers. Details of the shooting were lacking.

When Bob Rumsey was shot to death the United States government lost one of its best known and most efficient mounted inspectors. Bob was not old in point of years, being about 38, but he was old in point of service. He was born and raised at Laredo and has been an officer ever since he was old enough to use discretion and he has been one of the best officers the border ever saw. Bob's past is not checked with murders. Bob was one of the kind who believed it the duty of an officer to arrest without killing where it was possible to do so. He has faced many a gun unflinching and arrested the man behind it without using his own. He has gone places where many other men would not have gone and he has always done his duty as he saw it.

Aside from riding the river to catch smugglers Bob has done some valuable confidential work for his government the exact nature of which the public will never know, but nevertheless he has accomplished many things. We don't know which one of that bunch of Hell's hyenas down there got Bob but as one who has worked with him the writer does know that they got one of the best men Uncle Sam ever had in his service and a man who feared God and did his duty.

MUSIC FOR OUR CITY

EVERYBODY in Wichita Falls who knows music knows of Frank F. Loew. Mr. Loew is fostering the "Man Behind Music" movement here and is working hard to create a general interest in music among the people in Wcihita Falls.

Somebody has said that music, the right kind of music, is man's nearest approach to heaven on earth. And then there are those familiar lines of Shakespeare which say that the man who has not music in his soul is not worthy of trust.

Mr. Loew deserves the hearty co-operation of all public-spirited persons in trying to create a greater interest in music for this city. Without music a city cannot come to a full realization of those things that go to make a city really great. Many of the best known men and women in the city are backing Mr. Loew and the entire citizenship should help the movement to get more musical attractions for the city and if possible to get some permanent organization here to furnish public music.

Music and parks are two of the greatest assets any city can have.

COTTON SHOULD GO UP

COTTON jumped $4 a bale Saturday. Cotton men said it was due to the poor showing made by the crop now and that the latest news from the field gave the spinners the scare of their lives and sent the speculators who are short of cotton into the markets to cover their commitments.

Commissioner of Agriculture George B. Terrell is positive that the Texas cotton crop will not go beyond 2,752,920 bales and he adds there may be a further reduction on account of hot wind, the boll weevil, leaf worm and drouth. Commissioner Terrell predicts a maximum American crop of 11,000,000 bales or 2,000,000 bales short of the needs of the world. He also declared that the conditions warrant a price of 25 to 30 cents and his contention is logical. There is no great carryover; the shops and the shelves of the world are bare. There is a famine crop of cotton and unless all the figures are misleading, the shortage will be more than 2,000,000. Now just why shouldn't the growers of cotton be paid a fancy price for the fleecy staple? There is a minimum crop to supply the needs of the world. There should be a maximum price for those who own the raw cotton of the world.

IS IT POSSIBLE?

HERBERT C. HOOVER has made the interesting announcement that price agreements in coal are to be continued. Is it possible that the forces of the federal government are going to hobble the profiteers?

The senatorial campaign will soon be over in Texas. Somebody is going to have an awful job cleaning up all the mud that has been slung over the state.

THE TARIFF GETS OVER

SENATOR W. A. BORAH was the only republican to vote against the administration tariff bill which was passed Saturday after four months of debate. The vote was 48 to 25 and the measure now goes to conference. Three democrats voted for the administration measure. Senator Broussard and Senator Ransdell of Louisiana and Senator John B. Kendrick of Wyoming furnished the three votes.

Senator Kendrick is a Texan by birth. He is one of the cattle and sheep kings of Wyoming. Senator La Follette of Wisconsin and Senator George W. Norris of Nebraska would have voted against the bill had they been in their seats. This is the first republican tariff to be written in 13 years. Chairman McCumber of the finance committee says that it will yield $400,000,000 in revenue during the first year it is in operation. This is more than half a million dollars more than has been yielded by any tariff in the history of the country. Senator McCumber, who was defeated for renomination by former Gov. Lynn J. Frazier of North Dakota, says the new measure will insure employment to American labor and the payment of a living wage; permit the establishment and continuance of industries vital to the welfare of this nation; protect alike the producer of raw materials and the manufacturers; permit readjustment of rates without general tariff revision to meet changing economic conditions; require the ascertainment and submission to congress of facts effecting competitive conditions.

Senator Simmons of North Carolina and Senator David I. Walsh of Massachusetts led the fight for the democratic minority against the bill. They described the measure as one of most abnominable legislative acts of an American congress. An important feature of the bill are flexible tariff provisions giving the president broad authority to increase or decrease tariff duty within a radius of 50 per cent until July 1, 1924. Sugar is protected; raw wool is protected; cutlery is protected; lace is protected; foodstuffs are protected; petroleum products are on the free list; hides are on the free list. New England cotton and woolen manufacturers have schedules all their own.

All the manufacturers of farm machinery and farm implements are happy or should be. They own the earth. Senate and house conferees when they get together will have some job in adjusting the 2,000 odd points or items in dispute between the makers of the house bill and the makers of the senate bill.

But the agony is over, the tariff bill has been put over and the president will sign it in the twlinkling of an eye after it has been placed on his desk.

This is a republican administration. By a majority of 7,000,000 the voters of America kicked the democrats out and pushed the republicans in. Republican congressional leaders are responsible for the legislation of the Harding administration. If the tariff bill is an abomination as the democratic leaders say it is, then the people at the proper time will kick the republicans out and let the democrats or the independents in. If it is all that Senator McCumber claims for it then the republicans will be given a long lease of power. It is a historic fact that every time an administration writes a new tariff for the American people the opposition wins control of congress at the next regular election. This fall the democrats may capture the house, but the signs are not as alluring or as promising as they were earlier in the summer. In the progressive republican states reactionary republicans are being sidetracked and radical republicans are being nominated for the senate and lower house. This makes the democrats of these states a bit gloomy. They find it much easier to defeat a reactionary with a democrat than they do to defeat a progressive republican with a democrat. A year before he died, Franklin K. Lane, one of the able and farseeing democrats of America, in a letter to a friend said that the democratic party would degenerate into a party of protest and this would keep it out of power for a hundred years. Is the democratic party of today a party of protest or a party of aggressive action?

WATER WILL DO IT

MAYOR E. R. COCKRELL of Fort Worth knows what irrigation has done for Montana, Wyoming, Colorado, Utah and California. He knows of valley lands in these states which sold for 75 cents an acre and later sold for $90 and $100 an acre "through the voice of irrigation." There are lands in California that once sold for 75 cents an acre that are worth $1,000 an acre today. Water did it.

Rippling Rhymes

FOR OFFICE

I've never been a candidate for any public snap; let others keeps our bulwarks straight, our eagle on the map. I sometimes think I'd like to run for justice of the peace, if when the long campaign was done, the running stuff would cease. But when I contemplate my friends, who've run and lost or won, I know that running never ends, when once it is begun. At present I'm a humble bard, who for no office pants, and I provide the spuds and lard to feed my hollow aunts. I am contented in my mien, I have no vain desires, and I can buy cheap gasoline, and sometimes rubber tires. But if I once for office ran, the habit I would gain; I'd be no more a placid man, serene and safe and sane. I'd cease to thrum my tuneful lyre, I'd wear my wreath no more; I'd seek the farmer at his byre, the merchant in his store; I'd nail the roundsman on his beat, the rustic herding goats, the crossing sweeper on the street, to bone them for their votes. I'd work the same old bag of tricks until my name was Mud; the germ of office hunting sticks, when once it's in the blood.

A BOX AT THE OPERA — By Ripley

RADIO—

By EDWARD N. DAVIS
Formerly Technical Expert for U. S. Government.

Lesson No. 50
THE TELEPHONE RECEIVER

After the high frequency oscillations of electric waves, radiated from a transmitting station, have been rectified by a detector into pulsatings in one direction, the telephone receiver performs the important function of converting these uni-directional impulses into audible sounds.

The standard radio receiver consists of two high resistance electromagnets enclosed in a small circular shell, a diaphragm, and an earcap of hard rubber. It is customary to mount two of these receivers on a head band so adjusted as to cover both ears and thus eliminate external noises.

The general construction of the telephone receiver is shown in the following diagram.

The permanent magnet is made of soft iron and the small coils, mounted on the pole pieces, are wound with a great many turns of very fine wire which may be enamel insulated and of No. 40 to 44 B. & S. gauge. The resistance of the radio receiver in general use is from 1,000 to 2,000 ohms, while the receiverin the usual wire telephone has a resistance of 75 ohms. The sensitiveness of a receiver depends upon the magnetic pull on the diaphragm and is a function of the number of ampere turns, the unit known as the ampere turns being a current one ampere flowing through a single turn. As the amount of rectified radio current is considerable smaller than the current in the wire telephone circuit, a greater number of turns, with consequent higher resistances, are necessary for the radio receiver.

The majority of these receivers use a metal diaphragm of fero-type steel which is lacquered to prevent rusting. One form of receiver uses a mica diaphragm with a resultant higher degree of sensitiveness. The space between the diaphragm and the tops of the magnet coils is very finely adjusted and therefore careful handling is necessary to secure efficient operation.

The electric currents carrying the voice or music are radiated from a transmitting station and rectified by the receiving circuit detector into unidirectional pulsations. These pulsations increase and decrease the amount of current flowing through the electromagnets and cause a vibration of the diaphragm. The fluctuating vibrations of the diphragm reproduce accurately the sound waves impressed upon the microphone at the transmitting station and convert them into audible sounds.

Automobile Conrol by Radio.

An automobile guided entirely by radio waves was recently demonstrated on the stage of a New York theatre. This marvelous device opens a large field for the application of radio dynamics and it is predicted that in the near future many large forms of movable mechanical apparatus will be directed by the electric waves. Warships, airplanes, and torpedoes have been manoeuvered entirely by radio control and the recent addition of the automobile to the ranks of wireless operated units marks another step in the development of this wonderful science.

If Lenine really is losing his mind, it is only a question of time until some ribald person will refer to it as a has-been.

PASSENGER TRAFFIC ON KATY IMPROVING AGENT SMITH SAYS

Outlook Is Declared More Favorable As Men Are Put on Jobs In Local Rail Shops

"Passenger traffic and general conditions are much better on the M. K. & T. lines than they have been at any time since the strike began," a message received yesterday by H. G. Smith, divisional freight and passenger agent of the Katy, from Passenger Traffic Manager Crush of Dallas asserts.

"The general outlook," the information received by Mr. Smith continues, "is more favorable for our lines, and we are employing daily more men now than we have been."

"On account of our organizations being more perfect," Mr. Crush's communication continues, "more of our locomotives have been repaired and placed back in service, fewer bad order cars are to be found on the road today than at any time during the past six months, and there is increased loading of freight and more freight being handled now than we have handled since the inception of the walkout."

Mr. Crush says in the letter that "if it were not for the occasional delay in passenger train service, due to so many local trains having been discontinued, which requires the through trains to do the local work, we would not know there was a strike."

Shop forces on the Katy, according to Mr. Crush, are about 90 per cent of a normal, it being the assertion of the passenger traffic manager that the men employed are doing "excellent work" and "getting good results."

"If we can continue as at present for the next 30 days without interference," his message concludes, "we will consider the situation normal and be able to perform the same service with the same dispatch as prior to July 1."

Mr. Smith, whose offices are located in this city, called attention to a marked increase in service locally, and pointed out that routine work on the railroad line through Wichita Falls is "displaying more efficiency daily."

Rock-Thrower Severely Arraigned After Train Passenger Is Struck

Copies of a scathing attack on "whoever threw a rock," contained in a communication mailed to W. G. Crush, passenger traffic manager of the Katy lines, by E. A. Bending, a passenger on an M. K. & T. train, August 18, who was severely injured when a rough-edged rock maliciously hurled through a window of the train struck him in the shoulder, while the passenger was nearing Trenton, Texas, have been mailed to traffic men all over the system, ordering them to keep a close watch for the perpetrators of such deeds, with a view to punishing them.

One of the copies was received by H. G. Smith, divisional freight and passenger agent, yesterday, the letter written by Bending voicing much indignation at such an assault.

The letter in part follows:

"The writer passed through Trenton last evening in the south-bound Katy train, between the hours of 8:30 and 9:00 p. m.

"As we were leaving a jagged rock about the size of a man's hand came whizzing through the window, passed the heads of two boys and struck the writer in the shoulder.

"Aside from a slight flesh wound, a lame shoulder, outraged feelings, much profanity and a feeling of helplessness and chagrin at not being able to get at the miscreant who threw the rock, no material damage was done.

"The thought arises however, that it was no fault of the thrower that it wasn't my head or the head of some helpless babe or elderly lady, my mother or your mother, who was struck and then my blood boils and must give voice to my indignation.

"Why, when the devil spauns such abortions, can't he keep them in hell where they belong. If it was some addlepated youth, half wit, moron or defective, the sooner he is discovered and placed under restraint in some asylum the better. God help the community in which he may grow up or continue to live.

"If it was some grown person of mature years, who has been masquerading as a man, he must have the instincts of a snake, the soul of a coyote, the propensities of a gorilla and the aspirations of a buzzard, and we can only hope that somewhere a jaggered rock will pierce his brainless skull and send him where he belongs and that satan will have a nice pile of red hot boulders for him to break up in small pieces, and that 1,000 devils of his own ilk will be waiting to grab them and hurl them back on to him into eternity.

"If it was some striker, who not only denies the other man the right to work and live at a job which he has refused, but also denies the traveling public the right to pass through his town in safety, then the sooner the unions detect him and get rid of him the less can he bring them into ill repute and the above assignment for his future holds true in his case.

"I trust that you will give the matter the attention it deserves and try to detect and remove from your midst such an excrescence before someone is seriously hurt or killed, or before it becomes necessary for the Katy trainmen to announce as Trenton is near: Passengers attention, lower the curtains and sit low in your seats, we about to pass through (not stop) Trenton, Texas."

The Once Over

KEEPING OUR LITERATURE PURE.

Now for a literature censorship! Something has gotta be done to keep the American public "next to pure reading matter." Even the bookworm is beginning to turn. The American publishers are letting everything go to sexes and sevens. So say the reformers.

Many of the books being written by the modern young authors are so strong, it is charged, they'll eat the varnish off the library table. Set one half-pint 1922 model novel on top of a mahogany bookcase and it will leave a larger bare spot than a glass of present-day gin. Put a rose between the leaves of a book to press it; open the book twenty-four hours later and find a spray of poison ivy!

Place a book of smart fiction on the table beside the family album. Remove it three hours later and what will you find? All the family portraits blushing so furiously the album looks like a catalogue from the Maine lobster industry. 'Sterribul!

Too many modern books are mere pathological studies, it is claimed. The aim of the censors is to keep the reading public off the straight and narrow pathology.

A campaign to close the free public libraries may be expected at any moment. The Anti-Bookstore League is an immediate possibility.

The day when the bootlegger will take his place beside the bootlegger seems near at hand. A prescription to get a copy of the new love story by Dabney Dudd, the rising young author of the neo-nut school of fictionists, may presently be required by law.

The truth is stranger than fiction, but the law is stranger than both.

Possible conversation a few years hence between a follower of modernist fiction and bootlegger friend:

Bookworm: What have you in the suitcase?

Bootlegger, furtively: Sh-h-h-h-h! Not so loud! Step over here behind this billboard. I gotta shipment of new novels by the best authors.

Bookworm, eagerly: The real stuff?

Bootlegger, opening suitcase cautiously an inch or two: Hundred proof!—Written in bond—private stock—no foolin'!

Bookworm, suspiciously: I dunno; I'm a little afraid to take any chance. I bought six last month. They were all fake stuff.

Bootlegger: You don't needs be afraid of these. I gottem from Canade—No dilution—strong as you can get—the real kick 'nd everything.

Bookworm: How much?

Bootlegger: Oh, $120 a case of twelve books!

Most of the real reading will have to be done outside the three-mile limit. Floating libraries will be the thing. No literary person may hope to be well read unless he owns a gasoline launch. The battery off the Atlantic coast may be alive with people swimming on their backs and reading the latest fiction at the same time.

Exit the rum-runners! Enter the book-runners! The government will, of course, need a Right-Reading-Enforcement Fleet of former subchasers. Young men who went through Annapolis with the silly idea they might become admirals and die for their country will have to content themselves seizing fishing smacks full of stories like "Ursula Trent," "The Sheik," "Cytherea," "Ezie Dorne," "Ulysses," and "Brass."

Nothing will get by but "Little Red Riding Hood" and the "Story of the Three Bears."

Masked Men Flog And Tar Man

By Associated Press.

MIAMI, Okla., Aug. 22.—Leo Proutt, of Afton, former railroad switchman, was lashed and given a coat of tar and feathers near Afton early today by a group of masked and hooded men. Five automobile loads of men participated in the alleged lashing of the man.

Proutt's punishment is said to have been a result of family troubles, and followed an alleged separation of the man and his wife.

Dr. J. W. DuVal, eye, ear, nose, throat specialist, announces the removal of his office from the American National bank building to 815 Scott avenue, where he will be associated with the Faith Optical company.—adv.

DOGHILL PARAGRAFS

By GEORGE BINGHAM

The public is terrible restless. It wants to change brands of rat poison and hair tonic every few weeks.

The Tickville barber says barbers don't have as much opportunity to talk now as they used to, for listening to their customers tell how talkative barbers are.

Washington Hocks says he would like to know what goes with all the ladders that are borrowed.

Out-of-Town Guest Is Honoree at Charming Bridge Party Tuesday

Mrs. Ralph Pond and Mrs. P. S. Richardson entertained at bridge on Tuesday morning, honoring Miss Louise Bryan, their joint guest. The entertainment was given at the Pond home which was attractively decorated with zenias and tube roses.

High score prize, a hand-painted score pad, went to Mrs. T. M. Rinehart and a novelty curtain pull, the consolation for low score, went to Mrs. Gerald Pond. The guest was honored with a beautiful vanity. Mrs. James Martin Williams was fortunate in the cut, winning a charming glazed pottery vase.

Refreshments of meat and bread and butter sandwiches, pickles, olives ice tea, Russian salads and cinnamon sticks were offered the guests, who were, besides the honoree: Mesdames Harris T. George, of Fort Worth, Henry Welsh, Clarence Moore, James Martin Williams, J. L. Jackson, Jr., Wayne Hammond, Miss Thelma Kahn, Mrs. Paul Scott, Miss Louise Montgomery, Mrs. J. R. Stokes, Jr., Mrs. Joe Trigg, Mrs. T. M. Rinehart, Mrs. Harold Haynes, Miss Suda Willis, Mrs. Robert Nolen, Mrs. Charles Anderson, Miss Adelle Marcus, Mrs. Pat Jarratt, Mrs. D. L. Fritz, Miss Ruth Nolen, Mrs. Gerald Pond, Miss Cecelia Addickes, Mrs. Thomas, of Sulphur Springs, guest of Mrs. Nolen, Mrs. Jack Speagle, Mrs. H. S. Gray, Mrs. Paul Pond, Miss Josephine Mayfield, and Miss Louise Grey.

MISS MARY L. SPEER HONORED AT BRIDGE

Mrs. Ervin Bilderback honored her sister, Miss Mary Louise Speer, of Dallas, with a bridge party at the Bilderback home on Tuesday morning.

The house was gay with cut flowers and ferns and three tables of players enjoyed the morning.

Mrs. Faye Hardeman was rewarded for high score with a dainty incense burner, and the charming honoree was complimented with a delicate perfume package.

A salad course was served to Misses Leona Maricle, Edna Kay, Lurline Turner, Lillian Fain and her guest, Miss Ruth Dixon, of Fort Worth, and Mrs. Bervard Long, Mrs. Faye Hardeman, Mrs. Paul Pearson, Mrs. C. R. Redd, Mrs. W. C. Stubbs of Plainview.

BRIDGE PLAYERS MEET TUESDAY AT GOLF CLUB

At the Golf club Tuesday morning several tables of bridge players enjoyed the morning and the game.

Mrs. Ike Upchurch was the most fortunate of the players, and won an attractive bridge scorer as high score prize.

The ladies enjoyed dainty refreshments after the game which was played by Mrs. James C. Berner and her guest, Miss Rose Howard, of Fort Worth, Mrs. J. W. Duval, Mrs. George Hampshire, Mrs. W. C. Wicher, Mrs. A. I. Kendall, Mrs. G. C. Jenson, Mrs. F. S. Heiser, Mrs. F. Weldon, Mrs. Ike Upchurch, Miss Nancy Jane Harlin, Miss Margaret Kendall, Misses Laura Lee Hampshire, and Miss Frances Anne Saunders.

PATRONS ARE ASKED TO HOUSE TEACHERS.

Patrons of Wichita Falls schools are asked to help house the several hundred teachers who will attend the county teacher's institute here between September 4 and September 8.

School officials have established a rate of one dollar per day for room and breakfast and are asking that school patrons accommodate the teachers at this rate.

Representatives of the Mother's counsel from each of the school districts here have been appointed to list all householders who are able to board the teachers during the institute. These representatives and their telephone numbers are:

Mrs. Barron, 6037.
Mrs. Buchanan, 6573.
Mrs. Smith, 5809.
Mrs. Sheldon, 3648.
Mrs. Horton, 2477.
Mrs. Kay, 5765.

All housekeepers who will care for teachers at the rate offered are asked to call the nearest of these representatives at once. If the 400 rooms necessary are not secured this week, a house to house canvass will be made soliciting rooms.

BAPTIST AUXILIARY STUDIES "COURAGE"

Meeting at the home of Mrs. R. C. Smith, on Tuesday morning, members of Circle No. 1 of the Auxiliary of the First Baptist church studied "Courage" with Bible readings as a foundation, the lesson being led by Mrs. Smith.

The meeting opened with a song and prayer by Mrs. W. M. Barringer.

Members present included Mrs. W. M. Reeves, Mrs. S. E. Carter, Mrs. R. W. Morgan, Mrs. G. R. Dowdy, Mrs. Ashmore, Mrs. W. M. Barringer and Mrs. R. C. Smith.

* * *

S. S. CLASS WILL GIVE PRAYER SERVICE

An especially interesting program has been planned for the Wednesday night prayer meeting service at the First Baptist church. Members of the Alathean class will have charge of the session which will include the following program numbers on "Prayer and Power," based on the Bible readings of Nehemiah 1. 1 to 11.

Leader—Mrs. C. C. Jones.

Song—Led by Mrs. Withers and accompanied on the piano by Mrs. Knight.

Devotionals. Psalm 42:1-7—Mrs. John M. Martin.

Sentence prayers closed by Mrs. L. M. Roseberry.

Introduction to lesson and Nehemiah's prayer; Mrs. A. W. Wyatt.

Ezra's Prayer—Mrs. John Musker.

Abraham's Prayer—Mrs. J. L. Gant.

Gideon's Prayer—Mrs. A. W. Everett.

Paul's Prayer—Mrs. W. S. Starnes.

Lord's Prayer—Mrs. O. B. Abritton.

General discussions.

Duet—Mrs. R. D. Sherley and Mrs. Robert McIver.

Closing Prayer—Mrs. John M. Martin.

Mrs. Martin, teacher of the class in charge of the program, has asked every member to read the Book of Nehemiah and attend the Wednesday evening service.

Gem—"Ten Nights In a Bar Room"

The white fur with black tipped tail known as "ermine" comes from the mountain weasel, an animal which lives by sucking the blood of the animal it kills.

FASHIONS

Here's a Dainty Negligee for the Very Small Person.

Even the youngest member of the family must have her boudoir garments these days, and designers of clothes for children hav brought out the most fascinating little kimonos, breakfast jackets, etc., in a wide range of fabrics and colors. The kimono sketched is made of taffeta trimmed with brier stitching on contrasting color. It is a slip-over, fastening on one shoulder, with upstanding collar and smart flared pockets, large enough to hold a comb and brush if the little miss feels inclined to tuck her toilet articles into her pockets as she flits back and forth between bathroom and dresser.

For cold weather wear some unusually good-loowing corduroy robes are being offered, both for children and grown-ups. The corduroy weaves selected are light in weight and of the softest possible texture. Practical as they are, they are also made pleasing to the eye by having front fastenings, girdles, etc., formed of padded silk flowers in contracting color. A rose-colored robe of the slip-over type, recently seen, opened a few inches at the neck in front, and was held together with a silk-covered cord looped over a silk-covered button, rather large padded silk flowers on either side, giving a decorative touch. The girdle was a cord covered with green silk caught at intervals with silk flowers in various colors. Similar trimming touches appeared on pockets and sleeves.

Among the new and lovely breakfast coats for children and grown-ups are those made of soft silks, quilted with gold or silver thread, making a fabric that has the appearance of matelasse.

The woman who wants to make a negligee for herself and desires something original and out of the ordinary can do no better than study old Japanese prints, both for design and color combination and blending.

Non-Union Men Shot From Ambush

By Associated Press.

RALEIGH, N. C., Aug. 22.—At least one man was wounded when nine non-union workers being brought to the Southern railway shops at Spencer from Winston Salem in automobiles were fired upon by a party of men hidden in ambush near the Yadkin river, six miles from here last night, according to reports reaching here early today.

Little Stories For Bedtime

HOW OLD MAN COYOTE GOT OUT OF HIS HOUSE

Old Man Coyote proved one day.
He had a will and found a way,
And as he found it so will you
When you've a task that you must do.

That old saying that where there is a will there is a way is very hard to believe sometimes. But it is true. Go ask Ol' Mistah Buzzard. He will tell you it is true and to prove it he'll tell you all about how he saw old Man Coyote get out of his house when it didn't seem possible that he could without being caught in one of the many traps Farmer Brown's Boy had set for him. Ol' Mistah Buzzard didn't actually see him get out, but he saw him just after he was out, and he actually had hard work to believe his eyes. But he had to believe them for there was no mistaking Old Man Coyote. And there he was trotting off across the Green Meadows just as if there was no such thing in the world as a trap. It was too much for Ol' Mistah Buzzard, and he flew away to his special dead tree in the Green Forest to think it over and wonder how Old Man Coyote ever succeeded in getting out.

Now, if it had been any one but Old Man Coyote he would certainly have been caught. Even Granny Fox, smart as she is, probably would have stepped into one of those traps had she been in his place. But Old Man Coyote is one of the smartest and craftiest of all the little people who wear fur. He knows all about traps and just how they are set. When he heard Farmer Brown's Boy at work outside his house he guessed right away what he was doing. He heard him first at one of the three doorways, then at another, and finally at the third. Old Man Coyote grinned.

"He's setting traps as sure as meadow mice are good eating," thought he. "He thinks that because he has put a trap in each doorway I can't get out without getting caught. One of the first things my mother taught me when I was a little cub was the danger of traps and how to avoid them. I am afraid that some one is going to be dreadfully disappointed. I believe I'll take a nap now and attend to those traps later."

He yawned lazily and curled up quite as if there were no such things as traps.

Late that afternoon when he got ready to go out Old Man Coyote very carefully crawled up one of his halls until he was almost to the doorway. He could look out and nowhere was a trap or a sign of a trap to be seen. Inch by inch he crept forward, his keen nose sniffing every bit of the ground.

"Ah, I though so," exclaimed Old Man Coyote at last and stopped. Then very carefully he began to dig down. Little by little he dug forward from this first little hole, all the time taking the very greatest care. By and by just what he expected happened. Something hard and cold dropped down. It was a trap! Old Man Coyote grinned again. "Just as I thought," said he, digging the sand out from around the trap. Then carefully he flipped it upside down, which caused the wicked looking jaws to snap together and then it was quite harmless.

Old Man Coyote promptly crawled out and pulled the trap out after him. One entrance to his home was clear, anyway. He knew that beyond a doubt Farmer Brown's Boy had set other traps about, so not once did he put a foot down until his nose told him that it was quite safe to. In a little while he knew where every trap was. At first he was tempted to dig all of them out just at that very minute that into his crafty brain an idea came. He left the traps alone and still grinning trotted away across the Green Meadows.

NEXT STORY—Old MAN COYOTE DOES A LITTLE PLANNING. "He May Be Your Man, But He Comes to See Me Sometimes."—Columbia Shoppe, Ninth and Indiana.

THINGS YOU'LL LOVE TO MAKE

A Square Shade With Batik Design.

Here is a handsome shade that you can make for your lamp. It is very different from most of those shown. Cut a square of silk, of a pale color that matches either the furniture or draperies in your room, large enough to hang down well over the edges of the frame. Have the edges picoted. With pencil, mark off a simple design similar to the one shown. With a small brush and melted paraffin paint over all but the parts indicated by the black masses. Dip the waxed silk into a cold solution of dye of any color that will look well with the original color of the silk. When dry, dip the silk into a gasoline bath. (Be careful not to do this near a fire or light.) The parts that were covered with wax will remain the original color of the silk. Wax in all but the masses indicated by the gray shadings. Dip into another color of dye. Give it another gasoline bath. Finish this stunning shade with bead fringe.

FLORA.

Man Kidnapped and Whipped More Frightened Than Injured

Otho Medlin, 22, who was seized and beaten late Monday night by a crowd of unmasked white men, was reported yesterday as "able to be up" his wounds being reported by Dr. John Fletcher, physician who attended his bedside soon after the whipping, as not of a serious nature.

The statement was made yesterday afternoon that Medlin was "more badly frightened than injured."

No complaints in connection with the reporting beating had been filed during the day, and it is not known whether any action on the matter was taken by the grand jury of the 30th district court, which is now in session.

Medlin, devoid of his clothing, his body dripping with blood from large opened whelps which had been inflicted across his back by a cat-o-nine-tails, was picked up on the Iowa Park highway early Tuesday morning and rushed to his home, where he received medical attention.

He told newspaper men who interviewed him soon after that he had been called out on his own front porch and had been ordered by several men to get in a large touring car at the point of a gun.

He said he had then been carried to a field near Iowa Park in Wichita county, and had been severely beaten with a rubber tube, which had been split especially for the act. The men, he said, were all unmasked, and were wearing new blue overalls.

He maintined a stoic silence yesterday concerning the identity of any of the crowd, and repeatedly asserted that "I don't know who any of them were."

SAN JACINTO MAY OPEN AGENCY HERE

J. F. Gilbert, agency director of the San Jacinto Life Insurance company of Beaumont, was in town yesterday in the interest of that organization.

At present there is no local agency here, but Mr. Gilbert is anxious to offer the policies of that company to the people of west Texas and will depend on a central agency here to serve the territory.

No announcement of a location was made by Mr. Gilbert before he left for Beaumont last night.

The San Jacinto, headed by Jim Hargrove, is one of the strongest companies in the south. The company is now moving into its new 14-story home, which bears its name and which was erected especially for the company. The company branched out into Louisiana several years ago, and is now spreading into other states.

Wages Increase For Mine Workers

By Associated Press

PITTSBRUGH, Aug. 22.—A general increasee in wages for miners, and coke workers in the Fayette region will become operative tomorrow, it became known here late today when independent companies said they were prepared to announce a scale which will be the same as that of 1920. Confirmation was withheld by the H. C. Frick Coke company, the most important interest, but the independents made no secret of their intentions.

"Woman's Complex Life"

Woman's complex life with its multitudinous calls is given as the the reason for many a nervous breakdown. Home work, social obligations, dressmaking and the care of children, keep the 20th century woman in a whirlwind of activity until headaches develop, backache, nervousness and oftentimes more serious ills which are peculiar to her sex alone. Such women should not despair, but be guided by the letters so often published in this paper from women who have been in just such conditions, but who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

This is a root and herb medicine that contains no drugs and can be taken in safety by any woman.—Adv.

Best Results With Gas

Best results are obtained from burning gas in radiant or incandescent appliances.

The long yellow flames so often seen in round stoves or on gas logs may add to your asthetic pleasure, but they cost you money. Gas logs are not economical at any time. Coal or wood stoves, into which gas fixtures have been put, cost more than they are worth.

Gas ranges, where the burners are set more than an inch and a half below the cooking surface, waste gas. Gas lighting devices without mantles do not give you much satisfaction in light and do make your meter go 'round.

Check up on these things in your own house. Get the best possible results from the consumption of gas.

When you do that, you will find it to be the most economical as well as the most satisfactory lighting and heating known.

LONE STAR GAS CO.
DALLAS, TEXAS

Blame mental fatigue on over-eating!

Kellogg's CORN FLAKES are the ideal summer diet!

Over-heavy foods cause more illness during the summer weather than any other thing you do! Avoid that sluggish, sleepy feeling by simplifying your diet. Men, women and children will work and play and sleep better if they'll switch-in on Kellogg's Corn Flakes and plenty of cold milk and delicious fresh fruit now in season!

Kellogg's are wonderfully refreshing—and nourishing—and always mighty crisp and delicious for any meal. For hot days, Kellogg's Corn Flakes simplify breakfast and lunch—and they're just great served as a dessert with fresh fruit and cream! Kellogg's Corn Flakes digest quickly and easily and rest the stomach.

Be certain to get Kellogg's—the original Corn Flakes in the RED and GREEN package which bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

Perdue Gets Turn at Last and Exporters Bumped Again

CALDERA HURLS NICE GAME BUT BEAUMONT ERRORS COST HIM CHANCES FOR VICTORY

Triples by Tanner and Summa Count in the Scoring; Perdue Hit Freely, But Blows Are Scattered; Allen Poles Three Over Short Two-Base Fence; Only Handful of Fans Out

Special to The Record News.

BEAUMONT, Texas, Aug. 22.—The Spudders copped the opening game of the series here today when Exporter errors put runners in position to score and hitters then came through with the necessary blows to win, 6-3.

Fedor, former member of the Browns, was charged with two miscues, but the youthful shortfielder turned in a neat game despite his bobbles.

Perdue yielded 10 hits in the eight rounds he worked until relieved for a pinch hitter in the ninth, but the veteran National league star kept the blows well distributed throughout. Pug Allen had a neat day at the plate and hit for two bases on three different occasions and received a pass on another.

The lefthanded Caldera went the full route for the Exporters and after the first inning when the Spudders counted two runs, was fairly effective but errors put him in bad places repeatedly.

The Spudders began their counting early when after Bescher was out in the first, Tanner was safe when Fedor threw wild to first on his grounder. Adams popped to first, but Summa came through with a lick for three bases into deep center and he counted himself when Miller singled to left.

The count was evened in the last half of the second when Allen opened with a double over the right field fence. Brennan poked a single to center and Allen scored. Shires singled and Brennan went to second to score a moment later when Caldera singled to right.

Not until the fifth could the Spudders take the lead, but it was again evened in the seventh.

One run in the eighth and two more in the ninth gave the visitors the necessary lead, and when Ruth replaced Perdue in the ninth, held the Exporters safe.

Only two visitors connected safely more than once. Bescher had a pair of singles and Tanner one a single and a triple.

Caldera had the "Indian sign" on Summa, league leading slugger, fanning him twice, his last two trips to the plate.

The win today made six straight for the Spudders and eight out of nine of the games played since starting the present road trip.

Contrary to expectations, only a handful of fans turned out for the game and an estimate of the paid admissions did not reach 100. The series will be played out regardless of the attendance.

TONEY OUT UNTIL NEXT SEASON

By Associated Press.

ST. LOUIS, Aug. 22.—Fred Toney, former New York twirler, whom the St. Louis Nationals obtained by waiver from Boston a week ago, will not report to the Cardinals until next season, Branch Rickey, manager of the Cardinals, announced this afternoon on his return from Nashville, Tenn., where he conferred with the pitcher. The loss of Toney is expected to have a marked effect on the local's pennant chances.

GOLFERS GATHER FOR DETROIT MEET

By Associated Press

DETROIT, Mich., Aug. 22.—With approximately 142 golfers entered the western open golf tournament will start tomorrow over the difficult Oakland Hills Country club course with indications that the three days of play will produce some of the keenest shooting of the season, despite the fact that neither Walter Hazen, British open and western open title holder, or Gene Sarazen, American open and professional champion are among the entrants.

The entry list is made up primarily of middle-westerners and easterners, both amateurs and professionals. The south and far west virtually are unrepresented.

LOOK OUT YOU SPUDS, TINY HIT ONE

By Associated Press.

HOUSTON, Aug. 22. — Panthers won a more or less interesting game from Houston here today by the score of 7 to 0.

The feature was the hitting of Tiny Goodbred, Cat pitcher. He made what was said to be his second hit of the season and was cheated out of two others by sensational catches by Bechtol, a rookie outfielder. Score:

ABILENE PLAYERS GO TO CARDINALS

By Associated Press

ABILENE, Texas, Aug. 22.—An offer and acceptance for the services of Bill Ward, left handed pitcher, and Outfielder Brick Mason, both of the Abilene Eagles of the West Texas league, was made known here today. The offer was made by the St. Louis Cardinals and was accepted. The deal, however, has not been closed.

DODGERS LICK CUBS IN SEE-SAW TILT

By Associated Press.

CHICAGO, Aug. 22.—Brooklyn defeated Chicago 5 to 4 in the first game of the series here. The locals took the lead, but the visitors drove Aldredge off the mound in the fifth and went ahead. They added another run off Osborne in the sixth and after Chicago had tied the count in the eighth by bunching two doubles and a single, the Dodgers put over the winning run on Johnson's single and a double by R. Griffith. Vance had only two bad innings and struck out nine men. Score:

Burk Evangelist Thanked by Klan

A stole silence fell over the congregation which had gathered in the Shallow Field Christian church at Burkburnett.

Down the main aisle to the church marched 15 robed and hooded figures, garbed in the regalia of the ku klux klan. And as they marched, the silence became more stern.

When the leading figure had reached the rostrum, where Rev. A. G. Abbott, revivalist, stood watching them, he was handed an envelope the klansman bowing, turning and marching away.

This was the sight Monday night at Burkburnett which the audience and minister witnessed and when the klansmen had vanished as mysteriously as they had appeared, the minister opened the letter, took from its folds $25 in greenbacks, and read the following to the audience:

"Rev. Dr. Abbott

"Shallow Field

"Christian Church.

"We herein hand you a small contribution as a token of the esteem and appreciation in which we hold the great good that you are doing for our community. We most highly commend you for the wonderful work you are doing for OUR GOD, OUR COUNTRY and OUR HOMES. We also wish to express our appreciation for what is being done by your coworkers in this church, in building up, and helping to maintain an institution of this kind in the midst of an oil field where the work of GOD is so often forgotten.

"We want men like you to know that, WE ARE WITH YOU and WILL BACK YOU and SUPPORT you unto DEATH.

"KLAN NO. 207.

"Burkburnett."

Rev. Abbott is pastor of the Handley, Texas, Christian church, and has been conducting a revival meeting in Burkburnett for the past two weeks.

GIANTS GLUE UP FIRST PLACE

Clean Reds While Cards are Idle

By Associated Press.

CINCINNATI, Aug. 22.—The Giants increased their lead in the National league race today to four full games by beating the Reds 7 to 3 while the Cardinals were idle. McQuillan allowed nine hits but was strong in the pinches and his support was sensational. Score:

SEYMOUR LOSES TO HENRIETTA

Douglas and Alberts Stage Duel

Special to the Record News.

HENRIETTA, Texas, Aug. 22.—Alberts and Douglas battled seven bitter innings here yesterday, but Seymour weakened in the eighth and Henrietta won the hardest fought game ever witnessed here 4-3.

The victory marked the third straight win for the locals over the Seymour team.

As an added feature to the game, Quattlebaum for Seymour hit one over the fence, but Gentry found a hole in the wall and secured the ball which was returned to the diamond and the blow went for two bases, saving the game for the Henrietta team.

The winning run was pushed over then Ellis tripled and scored on a perfect squeeze play with Childs at the plate. Scire:

CREW STRIKES AS FANS ARE LACKING

By Associated Press

NEW ORLEANS, Aug. 22.—The "strike" of the crew of the British steamer, Mexican Lady, which came into port of Beaumont, Texas, late yesterday manned only by Captain Griffith, and his three officers, was caused be the lack of electric fans aboard the vessel, according to Neal M. Leach, manager of the J. H. W. Steele company, agents for the vessel.

The Mexican Lady, laden with a cargo including coal, cleared from New Orleans, last Saturday en route to Vera Cruz. According to Mr. Leach, the crew of the steamer is composed of novice navigators from London who were unaccustomed to the brilliance of the sun in the tropical latitudes and as the temperature increased so did the discontent.

"So they quit work somewhere off Beaumont and the captain and his officers had to take the ship in," Mr. Leach explained, adding that everything is all right now. "We have equipped the ship with electric fans and the crew is willing to work."

It is understood here that no charges will be lodged against the strikers.

Whistles Blow for First Time in Weeks

By Associated Press

WEST FRANKFORT, Ill., Aug. 22.—Whistles at mines in various parts of southern Illinois blew at 4 p. m. today for the men to return to work tomorrow. It was the first time the whistles have blown since the strike became effective in April. Impromptu parades formed in West Frankfort and other southern Illinois towns at the sound of the whistles. Men shouted "hurrah" and women thanked God that the strike was ended.

SENSATIONS

Colonel A. A. Sprague

Colonel A. A. Sprague of Chicago, chairman of the American Legion's national rehabilitation committee, is stirring up much controversy through his letters to Brigadier General Chas. E. Sawyer, President Harding's personal physician. Sprague charges Sawyer with obstructing the work of providing adequate hospital facilities for sick and wounded world war veterans.

Heat Records Fall

By Associated Press

KANSAS CITY, Kan., Aug. 22.—Heat records for the summer were broken today in several towns in central and southern Kansas, according to reports received here. Pittsburg reported 106 degrees and Emporia 104, both being new records for the summer. A government thermometer in a street in Wichita registered 107.

Early today showers fell at various points in Kansas and Missouri.

FIRE AT DENISON

By Associated Press

DENISON, Texas, Aug. 22.—Three persons narrowly escaped death here this morning when their home was destroyed by fire believed to be of incendiary origin.

CATTLE RAISERS TO FINISH ORGANIZATION

By Associated Press

FORT WORTH, Aug. 22.—Final plans for for the organization of the Texas cattle raisers and producers commission company were presented today to thirty stock men from over the state.

A charter has been secured and it, with tentative by-laws and a constitution, were considered by the meeting.

The commission company will be co-operative. It will be located at the Fort Worth stock yards and will charge the usual commission, or one agreed upon by the board of directors, but after overhead expenses have been paid, the surplus will be pro-rated among the membership of the company.

DEPUTY WOUNDED

By Associated Press

FORT WORTH, Aug. 22.—Lawrence Duncan, deputy United States marshal on strike duty in the railroad yards, was accidentally wounded last night when his revolver fell and was discharged. He will recover.

200-BARREL TANK STOLEN FROM HOUSE

Unidentified thieves broke into an empty house at 200 Brook street late Monday night, carrying away one 200-barrel galvanized tank.

The tank was the property of Harry Dee, room 608 American National bank building and had been stored on Brook street.

The police, who were notified soon after the theft had been discovered, reported late yesterday afternoon that no trave of the thieves has been found.

Red-haired people are said to be less subject to baldness than any other.

Morrissey Faces Johnny Stopper In Burkburnett On Next Tuesday

An entertaining boxing program, featuring Lee Morrissey, 140 pound pugilist, and Johnny Stopper of Denver, Colo., in a fast 12-round bout as the main event has been planned by the Burburnett post, American Legion, for Tuesday night, August 29, according to announcements made here yesterday concerning the card.

Five bouts in all, for the evening's card are being arranged, the announcement asserts, it being understood that several classy scrappers will be seen in action in the Burk arena Tuesday.

Morissey was the victor of a 12-round engagement at Burkburnett a week ago, when he stopped "Country Boy" Lance of Oklahoma City in the 11th round. Lance was counted out twice during the contest, but claimed a foul, and the fight was continued on the protest of fans, Morrissey flooring his opponent in the 11th round for the final count.

Johnny Stopper is probably one of the best boys Morirssey has faced in a good while, and carries a record that indicates his masterful punches. It is said of him that he carries a "haymaker" in both "mitts," and that few fighters who face him have ever gone away "croaking" that they didn't get a good, clean bout all the way.

Morrissey, the local idol of Burkburnett, has won decisions over several good fighter since his advent in this section of the country, one of his first engagements in Wichita county being with "Speedy" Sparks, who won a draw by a shade with the Burk favorite. Recently, Morrissey floored "Smiling Blondy" Cross and "Country Boy" Lance, and is now seeking bigger meat. Stopper is probably the best of the crew that has yet faced Morrissey in this section.

Spiking 'Em

By "SPIKE" COOPER

Even baseball has its touch of the classic.

Poetry of the subtle kind now gushes from the pen of one "Bill" in People's Review, Henrietta, Texas.

Copying a short editorial from that paper we have:

"Those who have more or less mildly wondered as to the attractions of professional baseball might be edified at the knowledge that there is a concealed vein of poetry in the game. The league games at Wichita Falls the past week disclosed this finer feature.

"A pitcher with slippery elm charged mouth gave the ball the soul kiss—tongue and all that—called we believe a 'spit-ball.' Then the other team, quietly and wholly without ostentation, managed to creosote the ball, and by this means indirectly creosoted the mouth and tongue of the soul kisser of the slippery elm saliva. And so the osculatory apparatus of the soul kisser was built up to the proportions libial contact with a rhinocerosess, and had a head on him which is the vulgar parlance he 'could eat oats with.'

"Yours truly, Bill, has done his best' and failed to admire the professional ball tussle and tricks out on a hot and dusty field, and here acknowledges the fact in due contrition of spirit. But it is calmly submitted that there are cases where a good, old-fashioned bat of p. elm should have its inning. However, we confess our ignorance of the game and any possible of its ethics."

"Bill," you have rehashed that circumstance which has caused far more comment on Wichita tongues than any other event of modern days.

There has been much said, both pro and con, but your poetical exegesis is the first of its kind yet discovered since the "hoax of the century," as expressed by "Gold Dust" O'Hara of Port Arthur, became the common street corner subject of Texas.

The morning mail brought the following communication:

Spike Cooper:

I was just wandering if it would not be a good idea to have a bunch of fans send Doak Roberts, president of the Texas league, night letters giving their views of the game here. No doubt the mass of evidence produced at Houston was overwhelming, making it look bad for Wichita Falls, when in reality, there is nothing sensational about it at all, especially to those who saw the game.

Of course the evidence to the other teams looked bad, especially when Beaumont stated why they voted in the affirmative, "that Wichita Falls only offered a blank denial but was not supported by any evidence."

This is my personal view of the matter, that is what I am trying to convince the outsiders, that we are not as bad as we are shown up to be by lack of evidence, etc. You know yourself that Salm and Weaver and most of the players took it as a huge joke, but it has developed otherwise.

August 21. "POG."

"Pog" stands for Chas. Pogenpohl, manager of the Western Union.

His suggestion of the night letters is not for business' sake either, as some might think.

Chas. is one of the most faithful Spudder fans, and when the team is away from home, seldom passes a day that his messages of encouragement does not go forth to the boys.

Chas. thinks we've been wronged. So does everybody else in Wichita Falls. His suggestion is likely a good one.

If the fans approve, then let's set a date and all shower down on Doak Roberts with a sluice of "yellows" that it'll take him and his secretary and stenographer all day to peruse.

What say?

"What are the wild waves saying," is a popular expression.

In Wichita Falls, however, it is slightly different. Here it is "What are the wild rumors saying?"

Some street corner artist reported that Rader and DeMaggio had been turned back to Beaumont by Dallas.

Efforts Monday night failed to substantiate the rumor, and when the Exporters took the field yesterday against the Spudders, neither of the mentioned names appeared in the line-up.

However, Pete Shields has been sent to the Beaumont club. Whether a part of the trade, or just loaned, is not known.

Anyway, the rumor failed to materialize as have most all others.

Some sport scribe writing for the New York Times broke forth Friday with an exegesis on Danny Clark, to-wit:

"This man Dan Clark may not have a large collection of medals, but he looks to the New York fans like the emperor of all pinch hitters. In the second game of the series, his double in a pinch turned the tide for the Tigers and yesterday he delivered a simlar blow which robbed Bush of a shutout."

Looks like they'd be satisfied to know he acquired his baseball education in Texas. Their own Roy Yeungs and Frank Snyder are a couple of Texas boys, and they break up lots of games for the Giants.

Nothin' strange 'atall" about Danny doin' it too.

Next year there's goin' to be other former Spudders doin' the same thing.

DENISON DEPUTY PUT UNDER ARREST

By Associated Press

DENISON, Texas, Aug. 22.—The military authorities here announced this morning that O. F. Miles, a deputy sheriff, had been placed under arrest. Other than the announcement that the deputy sheriff had been taken into custody, the militia had nothing to say regarding the county officers arrest.

The deputy is in jail here. The arrest follows the recent raids of the guardmen on rooming houses and places where it is alleged liquor was sold. It is known that the military authorities have for several days been grilling members of the sheriff's department. The Associated Press was unable to get in touch with Sheriff Boyd Craig today, his office in Sherman reporting that he had gone to Denison. He could not be located in Denison.

OPEN PORT LAW WILL BE TESTED

By Associated Press

FORT WORTH, Aug. 22.—Attorneys employed by striking Cleburne shopmen will test the Texas open port law, it was announced here today. They will attach the instrument as a whole as unconstitutional and will allege it is not in effect in Cleburne, where many arrests have been made, because the governor has never proclaimed its existence there.

CORSICANA MAN SHOT WHILE SLEEPING

By Associated Press.

CORSICANA, Texas, Aug. 22.—Arch McCarty, aged 28, was shot and instantly killed while asleep at his home here early today and his wife has been arrested formally charged with murder. Officers said a shotgun had been placed at the back of McCarty's head and discharged. The couple had quarreled, officers declared.

McCarty was at liberty under bond charged with the killing last January of John Crosser, who was shot while allegedly attempting to enter McCarty's home.

U. P. Settles All Disputes With Men

By Associated Press.

CINCINNATI, Aug. 22.—A settlement over wages and working conditions of clerks and freight handlers on the Union Pacific railroad has been effected.

Freight handlers will be increased 2 cents an hour over the old scale. Vacation and sick leave with Saturday half holiday have been restored.

MELONS DROP TO LOW PRICE

Then Can be Bought For Near Song

Watermelons can be bought almost for a song on the local market now. Retail dealers were offering good sized melons for sale at 15 cents each Tuesday and they could be bought from wagons in some instances at 10 cents each. There were large melons that brought higher prices but good averages sized melons of the home grown variety were unusually cheap.

Melons were about the only kind of home grown truck offered on the local market with the exception of scattering lots of small tomatoes which brought fancy prices.

Great Strength Developed by Stocks In Late Trading

By Associated Press.

NEW YORK, Aug. 22.—The stock market today gave another remarkable demonstration of strength, overcoming an early reactionary trend, bringing several new favorites to the fore and carrying more active issues to their highest prices of the year.

Selling pressure began to exert itself as soon as the opening gong rang and it was given impetus by realizing sales on the part of recent buyers, but a sustained investment demand set in, especially in copper, domestic oil, equipment and tobacco shares, which reversed the course of the market, and steadied the whole list. The United States steel corporation announcement of an advance of 20 per cent in the wages of day laborers was generally unexpected in view of opposite readjustments in other industries. U. S. Steel common, which opened at 1.04¼ or ⅛ below last night's final quotation, sold off to 1.03 7-8 at the close, sympathetic declines taking place in the independent steels.

Several of yesterday's leaders in the rail group, notably Reading, New York Central, Norfolk and Western, Chicago and Northwestern and Lehigh Valley, yielded slightly today, but others like Northern Pacific, Lake Erie and Westen, Rock Island, Chicago Great Western and Chesapeake and Ohio moved to still higher ground. The conspicuous strength of the St. Paul issues were attributed to pool operations.

BUSINESS NEWS

AUSTIN.—Application for authority to issue $20,000,000 of first mortgage gold bonds and $17,000,000 income bonds was filed with the state railroad commission by the reorganized International & Great Northern railroad today. The bond issues are asked for paying off obligations of the former company and to put the new organization on a working basis, S. P. Dabney, of Houston, attorney for the road, who filed the application, stated.

NEW YORK.—The United States Steel corporation today announced that the wage rate of day labor at all its manufacturing plants would be increased 20 per cent September 1, and that other rates would be equitably adjusted.

DETROIT.—Owing to the coal shortage the Ford Motor company's Highland Park plant has been equipped with oil burners, it was announced today. The change was made without loss of time to any of the 42,000 employes.

DENISON, Texas.—All the property of the M., K. & T. railroad will go under the hammer September 20 and 21, according to an announcement made here, and a notice of sale carried in a local newspaper.

The Texas property of the road will be sold in Denison September 20 at 1 p. m., the announcement stated, and the property in Missouri, Kansas and Oklahoma will be sold at auction at Colbert, Okla., a small station ten miles north of Denison, September 21 at 10 a. m., the notice reads.

FOUR CHARGED WITH FLOGGING

By Associated Press.

WACO, Texas, Aug. 22—Four men have been acused by Captain E. B. McMordie and other rangers in connection with the kidnapping and flogging of W. T. Harris, an employe of the Katy railroad at Hillsboro, July 28. Complaints have been lodged against L. H. Boleman, E. E. Slayback, J. C. Whittle and A. Daily at Hillsboro. It is said Harris identified each of the men.

COTTON DROPS SPORADICALLY

Heavy Pressure in Late Trading

By Associated Press

NEW ORLEANS, August 22.—Liquidation of the long interest caused intermittent declines in the cotton market today, pressure being heaviestt in the late trading so that the close was at the lowest of the day, at net losses of 36 to 45 points. October closed at 22.15c. Considerable selling was in evidence in the early trading but the market received more or less support until after midseason when support was withdrawn and the full force of the selling out of long contracts was felt. By most brokers the decline was looked upon as the natural reaction following a prolonged advance.

Unfavorable foreign news and poor cables caused early declines of 13 to 19 points but considerable buying was stimulated for a while by a private bureau report of 57.0, as the condition of the crop, indicating a yield of but 10,500,000 bales. This carried the most active months 7 to 8 points higher and the close of yesterday to 22.67c for October which was the highest price of the day on that month. Liquidation increased and another setback resulted which put prices 32 to 38 points under yesterday's finals.

NEW YORK COTTON.

By Associated Press

NEW YORK, Aug. 22.—The cotton market was extremely nervous and irregular today but prices were generally lower under realising or up from 22.72 at the opening to 22.95. December broke to 22.60, rallied to 22.92 and broke again to 22.52, closing at the level. The general market closed easy at net declines of 37 to 44 points.

The market opened barely steady at a decline of 13 to 24 points in response to relatively easy Liverpool cables, but rallied right after the call on continued crop complaints and rumors that a southern end month report made the condition 57 and the indicated crop only 10,500,000 bales.

December sold up to 22.96 and January to 22.68. This advance on covering and commission house buying met renewed realising, possibly promoted by unconfirmed rumors of showers in west Texas. October eased off to 22.85, and January to 22.40, but the official detailed weather reports showing generally dry and hot weather in the southwest were followed by early afternoon rallies which carried prices back to about early high levels. There was some trade buying as well as covering by early sellers and commission house demand, but the support slackened as prices approached the 23 cent level and the market broke still more sharply in the late trading under renewed profittaking or selling for reaction.

October eased off to 22.53 and January to 22.32 or 40 to 43 points net lower and closing prices were at practically the lowest. Port receipts today 13,585. United States port stocks 37,072. Exports 3,197, making 117,842 so far this season.

ANNOUNCEMENT

Charles J. Templeton, violinist and teacher, will return from Colorado Springs some time this month to resume his work here. New pupils desiring to enroll should address him at 1005 Broad street, Wichita Falls, phone 6292 or 405 North Main street, Colorado Springs, Colo.

Crippled Plane Victims Land

By Associated Press.

NEW YORK, Aug. 22.—The three men who were lost 43 hours in a crippled seaplane on the ocean, landed early today in a fishing smack at Long Beach, rushed into the city and then immediately left for different parts of the country.

A statement outlining their experiences was issued after they had gone by Maj. B. L. Smith, operating heads of the company owning the lost seaplane. The rescued men were V. S. Robinson, of Pittsburgh, the passenger; W. T. Miller, Pilot and Harold Thompson, mechanician.

Robinson went to Atlantic City, Miller and Thompson went to Saratoga. They were reported to have left in one of the company's planes. The statement said that the seaplane fell into the water about two miles off Long Beach Sunday morning during a heavy blow when the engine went dead. The passenger and crew were rescued by the fishing smack.

Guards Withdrawn From Frisco Yards

By Associated Press.

MUSKOGEE, Okla., Aug. 22.—Armed guards were today withdrawn from the yards of the Frisco railroad. Trainmen state that they protested against the presence of the men and threatened to quit work unless they were withdrawn.

Guards still are maintained on the right-of-way and at the roundhouse of the road. A conference is to be held here tomorrow by the trainmen with Charles H. Baltzell, of Fort Smith, Arkansas, superintendent of the Central division when the trainmen are to detetmine the withdrawal of the guards from the roundhouse, it is said.

NEW WOMEN'S CLUB ORGANIZED

By Associated Press

AUSTIN, Aug. 22.—A new national women's organization, to be known as the "American Women," the purposes of which are furthering the "benevolent, charitable and educational" interests of women, was chartered here today. Headquarters of the corporation, which is a non-profit organization, are designated as Dallas.

Those eligible to membership in the articles of incorporation, are "white, female, gentile, protestant, American born citizens." The body also is pledged to strict law enforcement and encouragement of better citizenship. Incorporators and trustees named in the charter are Mrs. D. S. Mahon, A. B. Cloud, and D. B. George, all of Dallas.

Plane Leaves Nassau

By Associated Press.

NASSAU, Bahama, Aug. 22.—The American seaplane Sampaio Correia, piloted by Lieutenant Walter Hinton left here for Haiti at 10:40 this morning. It arrived here yesterday afternoon on the way from New York to Rio Janeiro.

WHEAT SHIPS IN WIDE RANGE

Market Strong After Weak Start

By Associated Press.

CHICAGO, Ill., Aug. 22.—Wheat fluctuated rapidly within a wide range today and while lower early, following a higher start, turned strong toward the close. December advancing more than 3 cents from the low, the finish wheat ranged from 1 1-8c to 1 7-8c net higher, with September 1.02 1-2 to 1.02 3-4 and December 1.03 5-8 to 1.03 3-4. Corn was up ⅞ to 1c; oats advanced 1-2 to 5-8c, and provisions were irregular.

Yesterday's break in Liverpool carried wheat there below parity with Chicago and readjustment today combined with short covering and continental buying made the close there higher. The market here opened firmer in sympathy with Liverpool, but after shorts had covered, it eased off quickly.

The undertone, however, was not weak and it took but little buying to make a strong rally. There was little in the news account for the upturn, but sentiment was much more bearish than has been the case for some time. Exporters were fair buyers of cash wheat in the west but the demand at the seaboard was reported as slow.

There was a broad market in corn after a small decline early. General short covering was on hand with an oversold condition and stop loss orders coming out, prices advanced sharply, with December at the top showing about 2 1-2c over the early low. Forecast for another hot wave was the main bullish influence. Orders to sell and profittaking by recent buyers checked the bulge. Damage reports were received from the southwest where it remains hot and dry.

Oats followed corn and averaged higher.

Provisions were weak, there being scattered liquidation in September lard.

Because of the food shortage in Transcaucasia the people have had to sell many rugs and the rug market thus offers alluring possibilities.

Getting Ready for Fall Business

In Wichita Falls and Northwest Texas the prospects for Fall business are exceptionally good. The main thing for the retailer is to be PREPARED.

Proper merchandising, of course, comes first. ADVERTISING comes second, with a general store-service policy always maintained. With these fundamentals worked out scientifically, the proper start toward progress is under way. To eliminate any of these fundamentals is to lose the opportunity of making proper progress and in the end allows the competitor who is more thoughtful and enterprising to take the lead.

The Record News was never so well prepared to serve its readers and advertising patrons. Never in its history has the paper been so much in favor as a NEWSPAPER and never has its circulation been so great. Therefore Record News advertising, proper merchandising and a first-class store service will be the winning hand this fall.

The advertising department of this newspaper is well equipped to help any advertiser desiring assistance in the way of proper illustrations and copy. No newspaper in Texas is better equipped in this regard. All that is necessary is a telephone to 4121.

Miss Maude White Tells How Cuticura Healed Mother

"Eczema broke out on my mother's hands in blisters. It itched and burned so badly that she scratched and irritated the affected parts, and lost her rest at night. Her hands itched terribly after taking them out of water, and she was unable to do her regular work on account of the eruptions. She had to wear gloves for a while.

"The trouble lasted about three years. She began using Cuticura Soap and Ointment which helped her, and after using two cakes of Cuticura Soap and three boxes of Cuticura Ointment she was healed." (Signed) Miss Maude White, Groveland, Georgia.

Use Cuticura Soap, Ointment and Talcum exclusively for every-day toilet purposes.

Sample Each Free by Mail. Address: "Cuticura Laboratories, Dept. R, Malden 48, Mass." Cuticura Soap shaves without mug.

RUSSIANS EAT OWN CHILDREN

Terrible Scenes in Devastated Area

(By International News Service)

LOS ANGELES, Cal., Aug. 24. — Reports that starving Russians have been eating their own children are not exaggerated, according to Captain F. Dunnet, of the steamer Orient, which has arrived in Los Angeles after completing a voyage to the Russian provinces on the Black sea with wheat for the Russian relief.

According to Captain Dunnet, who saw service as a British officer during the war, there seems to be little hope for the Russian peasant being other than hungry and starving under the present regime. From what he learned while ashore, the captain said the workers would not produce anything because it would be taken from the by government emissaries.

The producers have nothing left for their efforts and have grown hopeless and despondent, the captain said. Having nothing else to eat, he said, they are eating their own children under the most appalling conditions of starvation that could be imagined.

The greatest hope of many of the people, the officer said, was for them to get out of the country. But government officers are very watchful, and it is very difficult for them to leave, he said.

AGED WOMAN IS JAILED AS THIEF

(By International News Service)

PARIS, Aug. 22.—Seventy-seven years old, Louise Drouin was arrested on a charge of pocket picking. Police say she was caught stealing a purse containing about $1.50.

Interrogation disclosed that Madame Drouin, known in her neighborhood as a respectable aged widow, owns several Paris business buildings. Coupons of bonds worth at least $20,000 were found in her possession.

The walls of her room were found covered with empty pocketbooks. It is believed she stole for the sport of it, and that these were trophies of her chase.

WOMEN'S DRESS WORRIES CARDINAL

(By International News Service.)

MILAN, Aug. 24. — The Cardinal of the Church of San Marco has his fears of modern women and their dress.

The "Daughters of Mary" attended a special communion at the Church of San Marco. The dresses worn caught the cardinal's eye and he suspended services and inspected the girls individually, and only permitted those who were fittingly dressed to receive communion.

WACOAN DEAD IN HOTEL ROOM

By Associated Press

WACO, Texas, Aug.22.—J. E. Jarrett, 45, was found dead this morning in a local hotel. He came here from Valley Mills two or three months ago. A post mortem will be made to determine the cause of death.

OUT OF COURT AND UP TO THE ALTAR

(By International News Service.)

WICHITA, Kan., Aug. 24. —The cards were stacked for Glenn Davis of Columbia, Mo. It just couldn't be possible that his wedding day would be married by a $10 fine for speeding.

Davis appeared in police court before the judge. He admitted his car had been clipping it off at a swift pace.

"Judge, I am going to be married in 30 minutes," the swain pleaded. "Can't you grant me a parole from the $10 fine?"

Davis was dismissed with a warning.

"Put 'er there," he said to the judge. "I would like to have you attend the ceremonies."

Miss Mathilda Campbell of this city is now Mrs. Glenn Davis.

GERMAN BIRTHS EXCEED FRENCH

Latter Population Loses Steadily

(By International News Service.)

PARIS, Aug. 21.—Three Germans are born for every Frenchman, claims Gustave Herve, writing in L'Homme Libre, and basing the statement on French population figures, just published for the first three months of 1922.

According to Herve the population of France is decreasing 200,000 a year.

Out of twenty departments reported on for January, February and March, 1922, eighteen show a serious preponderance of deaths over births.

Herve points out at present basis the number of men coming into military service each year now being estimated at 250,000, the classes which will come to serve in 1931 will not exceed in number 225,000 and in 1934 140,000.

Meanwhile Germany, with a birth rate exceeding a death rate by 700,000 according to Herve, already has made up the difference in her population occasioned by the loss of Alsace-Lorraine (population 1,800,000), and is on the way to even greater than prewar numerical advantage.

A COMPLETE NEWSPAPER — WICHITA FALLS RECORD NEWS — LEADS IN LOCAL NEWS

STAMPFLI COMES BACK TO WICHITA

Will Build Group of Stores Here

With the announcement that V. E. Stampfli and I. H. Roberts, are to build a group of retail stores on Eighth street, opposite the Wichita General hospital, the plan of a former Wichitan to resume his residence where he has always kept his loyalty and interests is made public. Mr. Stampfli has returned from California, where he went two years ago, and again entered business in Wichita Falls.

"I have been wanting to come back ever since I got away," said Mr. Stampfli in discussing his plans for once more being a part of the business life in "the best city anywhere."

"We are putting up these business houses on Eighth and Brook as an evidence of our faith in Wichita Falls, and we will make them a credit to any city in the country."

The plans call for a retail unit, consisting of five store buildings and a gasoline station, built back from the street, on a decorative plan. Similar plans are followed in many parts of Californias, to make store buildings in the residence section of cities attractive and in keeping with the general building plan.

In this new building project, Mr. Stampfli is again joined as partner by I. H. Roberts. The two already own a considerable amount of business property.

Oates Leaves to Inspect Clover

M. B. Oates, agricultural agent of the Fort Worth and Denver, departed yesterday for Fort Worth, where he will investigate sweet clover developments in Tarrant county during the next two days.

From Fort Worth, Mr. Oates will journey to Amarillo, and will conduct sweet clover investigations in that vicinity for several days.

The Fort Worth and Denver agent has been conducting investigations in sweet clover for several weeks, but thus far has made no report as to his discoveries.

Optical Expert Lauds Local Firm

"Wichita Falls can indeed boast of its recent acquisition of the Faith Optical company," Dr. W. B. Needles president of the Needles Institute of Optometry of Kansas City and of the Northern Illinois college of Optometry, Chicago, said yesterday during an insection tour of the city which he made while here.

Following his visit to the Faith Optical company, Dr. Needles expressed the opinion that the company is probably the best equipped and the most modern optical organization in the entire south.

The Faith Optical company is operated by Fred Goss and Dr. J. W. DuVal, both of whom have had many years of experience in this city and who are both well known Wichitans.

Baylor County to Have Fine Exhibit

Baylor county is going to put up a hot contest with Wilbarger county which has announced for first place in agricultural exhibits at the Texas-Oklahoma fair to be held here September 30 to October 4 inclusive. Wilbarger county people sent word they are going tooth and toe nail after the first prize for county exhibits.

Word was received from Seymour Tuesday that Baylor county will be hot on Wilbarger county's trail for first honors. Baylor county will have an exhibit here, it is said, that will occupy a space of 30 by 100 feet and every bit of it will be filled with agricultural products from Baylor.

FAIR SUBSCRIPTIONS MUST BE COLLECTED

A drive is to start at once for full payment of subscriptions of Texas-Oklahoma fair stock. The directors of the association met in the chamber of commerce rooms Tuesday morning and President George Keith appointed committees of two to wait on all those who have signed for stock and get them to pay up at once so that the fair management can go right ahead with the work being done. The importance of prompt payment was emphasized.

The committees appointed will work in twos and are as follows: W. P. Ferguson and George Keith; R. M. Waggoner and Frank Timberlake; H. S. Goodner and C. H. Verschoyle; T. R. Noble and W. E. Norton. In addition to these Will Young will look after Archer county subscriptions; E. M. Friend will look after those in Electra; R. M. Henry in Burkburnett and Frank Boyd in Iowa Park.

BREEZE HELPS FOLKS BEAR HOT WEATHER

Despite the fact that Tuesday to many people did not appear to be nearly so warm as Monday, the mercury went to 105 degrees at 1 o'clock in the afternoon and remained there until after 4 o'clock. The minimum temperature for the day was reached at 6:45 a. m. when the mercury was down to 85 degrees.

A good breeze prevailed throughout the day so that the heat was not felt as it was the day before in Wichita Falls and vicinity.

Crew of Ill Fated Seaplane Which Fell Tuesday

This photo was taken just before the crew of the ill-fated seaplane hopped off for New York on her journey to Brazil.

"CLOCK" VENDOR CAUGHT AT BURK

Deputy Buys "2 Cold Bottles"

"Gimme two cold bottles of beer, an' make it snappy."

A short, heavy-built man who appeared to be in a rush gave the order. A minute later a man operating a cold drink establishment in the Northwest oil fields near Burkburnett was arrested.

The cold bottles of "chock" beer appeared as if by magic on the counter in front of the short, heavy-built man, and at once two bright 50-cent pieces "decorated the mahogany."

Immediately four deputy sheriffs appeared at both ends of the building, pointing wicked-looking revolvers into the face of the "chock" vendor, who threw up his hands and surrendered his supply of contraband liquor.

Raid Well Planned.

The officers, deputy sheriffs Kinsner, Will Lay, Davis and White, the latter stationed at Burkburnett, conducted the raid in a systematic manner, deputy sheriff Davis being the "short, heavy-built" man who appeared at the counter and purchased he two bottles.

The officers stated yesterday that they located at the "joint" two large cases of "chock" beer and a large bottle of "corn" liquor, the latter being destroyed when the man arrested dashed its contents to the floor and broke the bottle. However, he pleaded guilty yesterday, and his bond was set at $750 pending the action of the federal grand jury, on charges of violating the Volstead act.

The officers, not satisfied with their raid, returned to the field later, raided another "confectionary" and returned to Burkburnett with a man and his wife, both of whom are charged with selling whisky.

HARRY JEANS WANTED

"Leading Newspaper,
"Wichita Falls.

"Please try to locate Harry A. Jeans; his son is seriously ill in Tulsa, Okla., and needs his assistance."

This is the message received yesterday afternoon by the Record News, which bore a Tulsa date, and which was signed by "R. E. Forsman."

No information concerning a "Harry A. Jeans" could be gleaned from the city police department, who intimated that they could not locate the man.

The message indicates that Jeans' son believes his father is living in Wichita Falls, or is a visitor here.

Have you seen him? If you have, or if you happen to meet him, notify R. E. Forsman at Tulsa, Okla., at once.

BURKBURNETT-CLARA PAVING TO BEGIN SOON

Pavement of the Burkburnett-Clara highway will start this morning, an announcement made yesterday at the headquarters of Potts and Prentice asserted.

Sufficient material to run the mixers for a week has been placed on the ground, a water supply furnished from the Invincible Oil company's plant for which piping was completed yesterday being the only thing that has deferred starting the work.

Wife Doing Good Work

"I have been had off with stomach and liver trouble and bloating for many years. No doctors or medicine helped me. On the advice of my druggist, I bought a bottle of Mayr's Wonderful Remedy and I don't want to miss a single dose. It has given me more benefit than all the medicine I have ever taken. I feel I am doing good to recommend it to others." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At Mack Taylor's and druggists everywhere.—adv.

Shoplifter Pays

"Let me pay off, chief, and I'll never do it again."

A woman 60 years of age, who gave the name of a prominent and well-known Wichita Falls family sobbed out these words to Chief of Police J. W. McCormick yesterday afternoon in the chief's office at the police station, 30 minutes after she had been taken into custody on a charge of shoplifting.

And the chief, after a consultation with the woman and with Manager Chenault of Kress 5 and 10 cent stores, allowed the woman to write out a check for $4.45, which was handed to the Kress manager together with the goods which she had taken from his place of business.

The woman had taken a quantity of hosiery, thread and stationery, which she carried in a large sack.

She admitted to the chief that she had stolen the articles and wept when officers questioned her.

MAYFIELD VOTE DRIVE PLANNED

Many Meetings Will Wind Up Campaign

The Mayfield campaign committee announces the following speaking program in this section in the interest of Earle B. Mayfield for United States senate:

At Electra, Wednesday at 8:30 p. m.—Chas. I. Francis, O. O. Ross, Mrs. J. C. A. Guest and local speakers.

At Vernon, Wednesday at 8:30 p. m.—W. J. Townsend.

At Iowa Park, Thursday at 8:30 p. m.—Chas. I. Francis and E. H. Gipson.

At Burkburnett, Friday at 8:30 p. m.—E. H. Gipson, W. J. Townsend, John P. Marrs and local speakers.

At Wichita Falls, Thursday at 8:30 p. m., on the Moore & Richolt lot.

Battery D to Hold Meeting Tonight

Captain John Fletcher of Battery D, 131st Field artillery, announced yesterday that the battery will meet tonight in an important conference at the court house, urging in the announcement that all members of the outfit be present.

The meeting will be held at 7:30 o'clock, he said.

The usual routine drill will be conducted during the evening, Captain Fletcher announced, while other matters of importance will be discussed by the officers.

Captain Fletcher intimated that the battery is doing excellent work, and that much interest in the organization was manifested during the two weeks' training period at Fort Sill.

It is his intention, he intimated yesterday afternoon, to make a crack outfit out of Battery D, making it a battery which Wichitans will be proud of.

"Save It With Ice"

The wise housewife knows that by taking ice this weather it saves food—health and the congeniality of the family.

KEEP THE ICE BOX FILLED

That's the only economical way of conserving ice.

BALL PARK MAY BE USED AS CAMP

Fort Sill Troops to Spend Night Here

The eighth training battery of artillery from Fort Sill, which has been in training in Fort Sam Houston, San Antonio, will probably be encamped on the ground at Athletic baseball park during their journey through Wichita Falls, if plans of Captain John Fletcher announced yesterday, are carried out.

The local chamber of commerce, which was notified Monday that the battery from Fort Sill would pass through Wichita Falls en route home on September 24, and would be encamped here one night, turned the matter of arranging for their convenience while here over to Captain John Fletcher of the local battery, the captain asserting yesterday that he will probably negotiate for the use of the baseball park.

The park grounds would not be harmed, Captain Fletcher said, the battery being able to keep their horses around the outside of the fence, while the interior could be used for sleeping purposes. Equipment at the ball diamond is so complete for such an encampment that the captain will negotiate at once for its use, he intimated yesterday.

The Fort Sill contingent, it is learned, has been training two weeks at Fort Sam Houston, and is traveling back to Oklahoma overland, thus giving the outfit more training.

Judge Marrs Hard On Law Violators

A total of $65 was collected in corporate court yesterday morning during a 30-minute session conducted by Judge John P. Marrs, only one defendent who was fined failing to pay his penalty.

A man charged with fighting was discharged upon the face of evidence submitted, while three men charged with intoxication pleaded guilty and were fined $10 each.

One traffic violator and one speeder were fined $10 each, while a second defendent charged with speeding was fined $25, charges of wreckless driving being also pending against him.

"Stolen" Car Turns Out to Be Borrowed

Soon after he had reported his car stolen, W. C. Rowe found the Ford roadster parked back in the identical place where he had left it on Monday morning.

The car, an investigation proved, had only been "borrowed" by call boys in the employ of the Fort Worth & Denver railroad, Mr. Rowe notifying the police later that the vehicle which he had previously reported to them as having been stolen, had been located and was intact.

WICHITANS FIND WEATHER WARM

Campers Have Had "Cool" Time

Return to Wichita Falls with its temperature still above 100 degrees is going to be pretty hard for some Wichitans who have been building camp fires night and morning in order to keep comfortably warm, according to the vanguard of the New Mexico campers, Mr. and Mrs. Harry May and family, who returned Monday night from Las Vegas and other New Mexico points.

The Mays left the families of Fred T. Couper and R. E. Hardwicke in Las Vegas for another week of trout fishing and cool weather. They will have some tall fish stories to tell when they return, according to Mr. May.

The trip to New Mexico was made by way of Amarillo, and the return trip by the lower route. All along both ways, Mr. May says, the countryside is showing the effects of the drouth to a considerable degree. In many places the cotton is already burned up, and other crops are gone. Stock tanks are dried up and the cattle show the effects of little water and grass.

Residents of New Mexico say that this summer has been dryer than any in thirty years. Mr. May says, though in comparison the entire section from the Texas border to Las Vegas looks fresh and green.

Southern Gets Two New Locomotives

Two new engines which the Wichita Falls and Southern had ordered 10 days prior to the disasterous fire which destroyed the W. F. & S. roundhouse arrived here yesterday and will be placed in service immediately, it is understood.

The engines came from the Baldwin Locomotive works of Pennsylvania, and have been on the road here for several days, it is reported.

They will both be put into use replacing the three crippled engines which were put out of service by the roundhouse fire, which also destroyed a coach and box car, the property of the W. F. & S.

Fair Grounds Here Compare With Best

After a trip of inspection at Call Field, recently purchased as exposition grounds for the Texas-Oklahoma fair, H. Saenger representing the Wortham shows, told directors of the fair association Tuesday morning that with the exception of the Dallas fair, the International Canadian fair and the Minnesota state fair, no other place on the continent has better fair grounds than Wichita Falls. He said the buildings are ample and well located. There is plenty of room for the midway and all other attractions.

Work at putting the grounds in condition is to start right away.

GOOD-BYE GLOOM!

CONSTANCE TALMADGE IN POLLY OF THE FOLLIES

They Buy First Thrift Tickets

C. H. VERSCHOYLE

GEORGE D. KEITH

George D. Keith was the first purchaser of Texas-Oklahoma fair thrifty tickets and C. H. Verschoyle was second purchaser. Mr. Keith is president of the fair association and Mr. Verschoyle is general secretary.

Thrift tickets were reported selling fairly well Tuesday with every cigar stand and drug store in the city having them on sale. They now are being placed on sale all over the territory of which Wichita Falls is the center.

The purpose in selling the tickets at a reduction of 20 per cent is to teach thrift, is is said, and bring in more ready cash. The tickets can not be obtained at the price they are offered for now when the fair opens. The reduction in price is good only as long as the limited number being offered lasts.

BACHELOR CLUB TO GIVE DANCE TONIGHT

The Bachelor's club has planned a dance for tonight at Lake Wichita and invited members of the Avoleh, Comus and Cypher clubs for the occasion.

Sam Beattie, chairman, announces Billie Buzzard's orchestra will furnish music for the occasion.

WILLARD COPE HERE FROM ATLANTA, GA.

Willard Cope of Atlanta, Ga., and formerly connected with the editorial department of The Record News is a visitor in this city.

Mr. Cone was seriously injured in a railroad wreck last March near Atlanta and many of his local friends will recall the Associated Press dispatch citing Mr. Cope's brave chivalry at the time of the catastrophe.

Though injured to such an extent that he was just recently released from the hospital, Cope refused proffered assistance until all the women, children and aged had been taken care of. His numerous local friends are glad to learn that he is now well along the road to complete convalescence.

An electric lamp which will burn for three years without current has been invented by an Italian engineer. The lamp is described as a self-sustaining, incadescent electric light that will burn a long time without connection with any source of electric supply other than itself. The light itself is radiated from a minute metal.

Stolen Gainsville Auto Sought Here

A Ford automobile stolen at Gainesville Monday night was the cause of a through search of this city yesterday by local policemen, who received information from Gainsville early in the morning to keep a watch for the vehicle.

Although Chief McCormick said yesterday afternoon that no trace of the car had been found here, he intimated that the officers are looking for a person described in the message from Gainsville, suspected of the theft.
