PURCHASE OF LIQUOR GETS HIGHEST TEST

JUSTICE DEPARTMENT CARRIES CASE TO THE SUPREME COURT

(By Associated Press)
WASHINGTON, Mar. 12.—The department of justice today carried to the Supreme Court a test case to determine whether the purchaser of intoxicating liquor is guilty of conspiracy.

The appeal was made from the recent decision of Federal Judge Morton of Boston in which he held the purchase of liquor was not a crime.

One Case Up
The government already has pending before the court a case involving a conspiracy between a purchaser and a seller to transport intoxicating liquors.

In announcing the filing of the second case to determine whether the purchasing of intoxicating liquors for beverage purposes is of itself a violation of the prohibition act, the department said the action was taken in view of the diversity of opinion of various judges on the question.

The new test case involves the charges against James E. Farrel, who was held by Judge Morton not to have been guilty of a crime in purchasing liquor.

BYRD HAS PLANS FOR ANOTHER TRIP TO ANTARCTIC, INDICATIONS REVEAL

(By Associated Press)
DUNEDIN, N. Z., March 12.—Possibility that Rear Admiral Richard Byrd would take another expedition into the Antarctic was foreseen here today.

Admiral Byrd in an interview said, "If I were to say what I am going to do next, my remarks would cause a sensation."

Although the intrepid explorer, who returned Monday after more than a year at the bottom of the world during which he flew over the South Pole, declined to commit himself further, the trend of events here is feeling among his party indicated he hoped to return to the Antarctic to make further explorations east of the Ross Sea.

Although Norwegian and other expeditions are now working west of the sea, it was pointed out that there are still vast territories unexplored, notably between the Bay of Whales and Deception Island, the latter the base of Sir Hubert Wilkins in his Antarctic flights.

Although most members of his expedition have left Dunedin on trips for fishing or hunting, Admiral Byrd is rushed with work here in an endeavor to start for home next Wednesday or Thursday. The City of New York is on the dry dock and the steamer or Eleonor Bolling goes on tomorrow for refitting.

ATTORNEYS CONSIDER HABEAS CORPUS PROCEEDINGS

Pharr in 72nd district court in response to District Attorney Durwood Bradley's answer to a motion for continuance of the defendant's scheduled thirty trial.

Claim Witnesses Absent
The defense counsel sought the continuance on basis of the fact that 11 material witnesses are absent.

Mr. Bradley, in his answer to the motion, stated that if the defendant is insane, as his attorneys represent, that he should be confined to a hospital and not further alleged that Lester, if insane, is not capable of executing a valid bond.

The defense counsel will seek to show that the court had no power to place the defendant in jail without a complaint.

WASHINGTON, March 12 (AP)—The trial of Edward L. Doheny, below, wealthy oil operator, charged with bribing Albert B. Fall, secretary of interior in the Harding cabinet, began today after Justice Hitt overruled Doheny's plea that to put him on trial for bribery would place him in double jeopardy. Doheny and Fall were acquitted of a charge of conspiring to defraud the government of the Elk Hills oil naval reserve, and the 73-year-old defendant maintained the question of his giving \$100,000 to Fall in 1921 already had been decided by the former jury. The government charges Doheny gave Fall the bribe for a lease to the reserve.

Below is a copy of the note for a \$100,000 loan which Fall signed about the time the leases were pending in Fall's department. Doheny says it was a loan to an old friend and that it had no bearing on the leases.

WOMEN PRESENT SIDE OF PROHIBITION QUESTION TODAY
WASHINGTON, March 12 (AP)—A "political creed" of the Woman's National committee for law enforcement, outlining fourteen points in support of the eighteenth amendment and the constitution as a whole, was presented at the house judiciary committee prohibition hearing today by Mrs. Henry W. Mrs. Peabody, who was in charge of the witnesses, said the creed had been adopted only yesterday. The fifth point of the creed read:

"We believe that under the existing act the buyer is equally guilty with the seller in illicit transactions in liquor."

In addition the creed said the organization believed in "law observance for the protection of life, property, homes and human rights" and that it did not believe authority or precedent existed for submission of the constitution "as a whole or in part" to a national referendum.

Press Should Be Fair
It said the organization felt that the press, which has been in the past and should be now a moral and civic asset, ought, without regard to the personal opinions of owner and editor, to give fair representation of the views of law abiding people and the government.

The Tynmites were feeling great to ride the rolling waves. Some of their plane sped on at quite a rate, rolls of foam would ride the top of and it was heaps and heaps of fun every wave. And then 'twould drop.

"Say, this is soft," cried Copy. "Think of all the work it saves. 'We do not even have to row to make this little airplane go. It rides just like a worthy boat. 'There's naught to make us fret. 'Course we don't know what is in store, but surely we will reach some shore and it will be a place of wonderment. I'll bet."

Then Clowny spoke up. "Mercy me! Most any shore will do," said he. "I do not think I trust this plane. It may dive in the sea. 'A plane, you know, should be in air, but this one goes most anywhere. Now, what's to stop it diving down as swiftly as can be?"

"That's right! Start worrying again. You have to do that now and then," snapped Scouty. "You're a pessimist and that is far from right. You should be cheerful like the rest 'cause that's the thing that's always best." And then he added, cheerfully, "Oh, look! Some land's in sight."

The plane then swung around real grand and headed toward a stretch of sand. In just a moment it had landed safely on the ground. The bunch jumped out and soon they saw a bath house. They looked in awe. Then Copy shouted, "Come on! To the bath house we are bound!"

He led the way and all the bunch cried out, "Hurray! We have a bunch that we can go in bathing. This is just the proper place. They

THINK OF YOUR AUTOMOBILE IN TERMS OF TOMORROW

*Ultimate cost is as important
as first cost in the purchase
of an automobile*

WHEN you purchase an automobile you are making an investment of a considerable amount of money. It is essential, therefore, that you give careful thought to the best selection and know what you are getting for your automobile dollars.

The first cost is important because it may mean an immediate, satisfactory saving. Of equal importance is the ultimate cost after thousands of miles of service. This ultimate cost is the true measure of automobile value.

THE first cost of the new Ford is unusually low not only because of economies in manufacturing, but because the same principles that inspire these savings are extended to every other step that means greater service to the public. It is easy to see that economies in production would be of little value if they were sacrificed later through high charges for distribution, selling, financing and accessories.

The Ford dealer, therefore, does business on the same low-profit margin as the Ford Motor Company. His discount or commission is twenty-five to fifty per cent lower than that of any other automobile dealer. You gain because he makes a small profit on many sales instead of a large profit on fewer sales.

The difference in selling cost, combined with the low charges for financing and accessories, amounts to at least \$50 to \$75 on each car. This is as important as economies in production in keeping down the price you pay for the new Ford.

THE low ultimate cost of the new Ford is the result of sound design, quality of material and unusual care in manufacturing. Friction and wear are reduced by the accuracy with which each part is made and assembled.

These factors combine to decrease the cost of operation and add months and years to the useful life of the car. The good performance and low yearly depreciation of the new Ford are indicative of the enduring quality built into it at the factory.

SERVICE charges are on the same fair, economical basis as the making and selling of the car and replacement parts are always available at low prices through all Ford dealers. In two, three or five years, depending on how much you drive, the saving in operating and maintaining a new Ford will amount to even more than the saving on the first cost.

Think in terms of tomorrow, therefore, when you purchase an automobile. For tomorrow will reveal its true worth.

ATTACK MADE ON RULING ON RATES

GALVESTON, March 12. (AP)—Victory of Texas interests in the long fought Galveston-New Orleans port relationship case was attacked in United States district court here today when the board of commissioners of the port of New Orleans filed a plea urging the interstate commerce commission's decision in the case set aside.

The New Orleans action was an intervention in favor of the Texas & Pacific railway, which had previously filed suit against the commission and asked for a permanent injunction against the rate order. Several days ago a separate action against the decision was filed by the Louisiana Railway & Navigation company.

In the Galveston-New Orleans port relationship case, the Texas ports were given rates to Texas, Oklahoma and Kansas territory equal or lower than those to New Orleans. The case was begun in 1922 and two decisions have been rendered by the commission, the last in January 1929.

When hearing on the Louisiana attack on the order is held at New Orleans March 20 before three district judges, the United States, the state of Texas and various Texas railways, cities and ports will come to the defense of the Interstate Commerce Commission's order.

Time In Cowntown

FORT WORTH, March 12. (AP)—Southeastern Exposition brone and must have that shook loose from their sides and tried to leap the fence kept spectators pushing their hearts back in place and yelling like wild Indians. Monday at the rodeo of the Southeastern Exposition and Pat Stock show Jack Morris of Sterling City had a narrow escape in the cowboys' brone riding event when Pine Hills, a lightning mustang, turned a complete somersault with the Texas rider in the saddle. Jack was lucky and squirmed free before the horse fell on him. He probably will be given a re-ride.

Nine lucky riders came out on Sunday morning, jumping brones in the barrel-racing contest. Three of them stayed aboard while others went flying through the air.

MELT IN IMPOSSIBLE

CLEVELAND, March 12. (AP)—Merger of the Republic Steel & Tube company with the Bethlehem Steel corporation is impossible at the present time, leading figures in the merger negotiations said today.

This Woman Was Confined To Bed Days At A Time

Wichita Falls Housewife
Suffered Eleven Years—
Gains Daily On Orga-
tone (Argotane)

I was in such a bad condition I had to stay in bed for days at a time and I guess if it had not been for Orgotone (Argotane) I never would have seen another well day. I had Mrs. George M. Bruce of 907 Adams Street, Wichita Falls, Texas, recently.

"I have suffered so much," continued Mrs. Bruce, "during the past eleven years from nervousness and stomach trouble that I almost felt like a physical wreck at times. My stomach would fill up with gas, my heart would palpitate and my suffering was so great that I could hardly stand it. In 1918 during the influenza epidemic I took down with the flu and ever since that time, my entire system has been out of order and I was so nervous I could hardly sleep at all. I had a continual pain in the region of my heart which would often times extend clear across my chest and was so severe at times it seemed like I would go distracted. I had the best treatment and tried all kinds of medicines but in spite of it all I kept going down. I fell off in weight and was so nervous and run-down I had to stay in bed for days at a time, and for years was under the care of physicians. Nobody will ever know how Orgotone (Argotane) has helped me. I can't possibly describe it. I was advised to try this and that but nothing helped me and then I got worse and hardly knew what to try next."

"My husband had heard so much of the good results people report in taking Orgotone (Argotane), one night he brought home a bottle and I started on the treatment—and all that is left of my troubles is the memory of it. My appetite is so good I can hardly get enough to eat just anything I want without having any gas, palpitation of the heart or other bad feelings afterwards. The pains have entirely disappeared from my head, chest and side, my nerves are perfectly calm and no child could sleep better than I do. Orgotone (Argotane) seemed to set right at the cause of my trouble and I kept getting better and better until now I'm in better health than I have been in eleven years. No medicine could do more for a person than Orgotone (Argotane) has done for me and I only wish everybody could realize its value, as I do."

Genuine Argotone may be bought in Lubbock at Bowen's Drug Store.

They did not state that they would reduce their feed crops any."

Production Cost Low
"According to government figures the lower South Plains can produce cotton at the small cost of ten cents per pound as compared with seventeen cents in some sections of this state and an average of twenty-nine cents in other states," Wilson further stated.

"There are several arguments that we can give offhand which we believe will warrant our increase of acreage. Our ground is not filled with stumps and rocks and can be plowed in a very short time with tractors and double-row plows. The level surface of our farms make plowing with tractors economical."

Methods Easier
"Coupled with those facts we are not hindered by the necessity in some sections of chopping and our methods of harvesting cotton are far cheaper than almost any of the cotton states."

Wilson noted as an example for this section to produce cotton the comparison with the manufacturing industries.

"We do not believe that a factory equipped to make tractors will endeavor to manufacture airplanes, neither should our farmers drop their current means of support by decreasing their cotton production and divert their attention to other crops."

Plant Longer Staple
In line with a program being sponsored by various leading farmers in this section, farmers are being urged to plant a longer staple cotton during the 1930 season as an incentive for the market price paid for the product.

"We believe that by growing a better staple cotton for market we can solve the present low price, Wilson stated.

"Summing up three reasons for acreage increase instead of reduction we see that the lower South Plains is a leading cotton producing section it produces cotton cheaper, it is better adapted to raise that crop, it can easily increase its cotton acreage without decreasing

RAW MATERIAL FOR THRILLING STORY OF MYSTERY CONTINUES PILING UP IN NEW MEXICO FIGHT OVER BIG ESTATE

(By Associated Press)
SANTA FE, March 12.—Raw material for a thrilling mystery story continued to accumulate today with developments concerning the circumstances of the life and death of Arthur Rochford Manby, Taos recluse found decapitated in his home last July 3.

Attorneys girded themselves for a legal battle in federal court at Albuquerque today for possession of the 80-year-old Englishman's \$50,000 estate and there appeared in Santa Fe the possibility of a contest over the right of Great Britain to demand the United States intervention to solve the decapitation mystery.

Woman At Liberty
Terecita Ferguson, the woman whom Manby called in his diary "the princess of all my dreams" was at liberty under bond at Taos charged with robbing and burning the studio home of Mr. and Mrs. John Younghunter, artists of New York, and her nephew, George Ferguson, also charged with the robbery, was in jail in Taos.

Late today Sheriff Gonzales found more loot from the Younghunter home when his deputies dug up a large box which had been buried in the back yard of Terecita's home at Canon. The box, about fifteen feet from the rear door, contained a valuable collection of Indian headwork. Last night dishes silver and clothing owned by the Younghunters was found inside the Ferguson home.

Aiding Her in Grant
Tumbling upon these events too, came an announcement from J. B. Manby, a brother, in Denver, that at the time of his death A. R. Manby was helping Terecita establish a claim to \$40,000,000 worth of Missouri property on the basis of a 150-year-old Spanish land grant.

Manby was always working on gigantic deals, his private papers reveal. In September, 1916, he wrote in his diary that at that time he was owner of 745,000,000 acres of acreage in feed for the reason that there is more raw land here and it is the home of farmers who know how to raise cotton better than they do any other crop."

land in New Mexico and the southwest. This property had been gained, he recorded, through the Taos Valley Land and Irrigation company and the Colonial Bond and Security company, which he organized.

Centers on Mortgage
The suit over the Manby estate which centers at Albuquerque for the next few days involves an action by Dr. C. V. Throon of New York to recover on a \$12,000 mortgage granted to Manby. The probate court of Taos county has held that the title to his property was vested by Manby in the Colonial Bond and Security company. Dr. Throon, however, contends that he has a prior claim.

This situation took on a new complication today with the announcement of J. B. Manby at Denver that relatives living in England plan to bring suit through the British foreign office to gain

HEALTH OFFICIALS ARE CONFRONTED WITH CAUSE SEARCH

(By Associated Press)
JOHNSON CITY, Tenn., March 12.—Health officers of four east control of the security company. J. B. Manby declared that his brother vested his stock in Terecita Ferguson and his property in the name of the company to avoid paying a \$12,000 breach of promise judgment to Miss Margaret Waddell of Los Angeles.

Tennessee counties and two specialists from the state board of health today combined their efforts in search for the cause of a mysterious form of paralysis that has afflicted 107 persons in this section of the state.

So far there have been no fatalities, but development of the disease at Kingsport, in Sullivan county, was reported today.

The laboratories of the Soldiers' home and the East Tennessee State Teachers' college were placed at the disposal of the physicians engaged in seeking a treatment.

Dr. S. S. Moody, health officer at Washington county, where 75 cases have been reported, was unable to throw further light on the illness today. Previously he had said it was probable that bad liquor was the cause, as 96 per cent of the cases showed a history of drinking.

Cork coffins were used to some extent by the ancient Egyptians.

Magazine Men Are Invited To Show

PLAINVIEW, March 12 (Special).—Representatives of sixty different farm and dairy magazines published in twenty different states, are being invited to attend the third annual Texas Panhandle-Plains Dairy Show in Plainview on April 7, 8, 9, and 10. The invitations are being sent by Manager Maury Hopkins.

The rapid growth of the dairy show has attracted the attention of many of the leading periodicals of the South and some attention from national publications. Last year a number of the editors of these publications indicated a desire to attend the show and a few were present. This year many of them are expected to attend.

Desserts and salads will be served. New recipe books will be given away . . .

Be sure to attend!

Here's your opportunity to find out all about the marvelous new Frigidaire Hydrator.

On Thursday, March 13th, we start a special 9-day demonstration—one of the most interesting ever held in our show room.

We will show the Hydrator in actual use—just as you would use it in your home. You will see how lettuce is made tender and brittle by the Hydrator's moist, reviving cold. You will see how celery and radishes take on added crispness—how tomatoes are improved in texture and flavor. You will see how convenient it is to keep all your vegetables in one compact compartment—how the Hydrator saves shelf space—how it simplifies marketing. And that is not all you will see.

THE FAMOUS "FRIGIDAIRE COLD CONTROL"

Fast freezing exhibition

The latest household cabinets in gleaming Porcelain-on-steel will be on display.

The famous "Frigidaire Cold Control" will also be demonstrated. You will be shown how this device freezes ice faster—how it permits you to make scores of unusual desserts that require extreme cold.

Free dessert and salad recipe books

And we'll give you an opportunity to taste the better dishes made possible by the Hydrator and the "Cold Control." A cooking expert will prepare and serve unusual salads and frozen desserts during the entire period of the demonstration. And we've arranged to distribute two souvenir recipe books.

SPECIAL OFFER UNTIL SATURDAY, MARCH 22nd

We are prepared to make a liberal special offer to all who buy Frigidaire during our 9-day demonstration. Let us tell you about this offer. Let us tell you about our easy payment plan. Come in at your first opportunity. We will be open evenings until ten o'clock every day of the demonstration.

OUTLOOK RATHER GLOOMY FOR WASHINGTON

JOHNSON OUT TO DEVELOP HITTING CLUB

MAINTAINS OF TEAM HAVE PASSED GREST OF CAREER

BY RALPH WHEATLEY
Associated Press Staff Writer
BLOOMING, Miss., March 12 (AP)—About the only bright thing around the training camp of the Washington Senators is the sun overhead.

Goose Goslin has refused to join his teammates because Clark Kirtland will not open his money pots wide enough to suit him. And if Goslin does not take his place on the team the question remains unanswered as to who can pound out the slashing hits and home runs around which a team can rally.

Mainstays Pass Crest
The mainstays of the team have passed the crest of their careers. Great in their day, but waning now, is the story of Sam Rice, Joe Judge, Oswald Bluege and Harold Ruel.

New blood of youngsters is needed to start the Senators back on the climb toward the pennant. Goose Goslin has been counted on heavily to inspire the new men to his play ball. It was felt that after his two miserable years, he was due to revive his old brilliance and set the stride for the whole team.

Developing Hitters
Manager Walter Johnson is spending most of his time trying to develop some hitters from among his thin squad of 23. Emile (Red) Barnes can field as well as Goslin ever could. Barnes is being groomed for Goslin's place. If Red should get handy with the stick the Goose could stay in his backyard without much loss to the Senators.

Ruel to Catch
On the mound, Johnson expects Fred Marberry to carry the burden with strong support from Sam Jones, Irving Hadley and Adolph Liska. He has his eye on Carlos Moore, Lloyd Brown and Bob Burke in the hope they will develop into campaigning twirlers. If he should be favored with such luck his pitchers would be over behind the bat. Ruel no doubt will be leading man with Bennett Tate first alternate.

The infield probably will find Bluege back at his old third rack with his crippled knee almost as good as ever. Joe Judge no doubt will be on first as usual and Meyer at second. Joe Cronin probably will be sent back to shortstop despite his 65 errors of last season because he shows promise as a hitter. Out in the outfield the two Sam's, Rye and West, probably will be waiting either for Goslin or Barnes to fill the field as first string men.

Johnson is going ahead shaping his team on the theory that one ball player, more or less, does not make or break a ball team. Under this theory, Roy Spencer, catcher, of Augusta, Ga., was suspended when he failed to report on time. One thing Johnson made clear and that was that he was through as an active ball player as much as he would like to go back.

TOLLEY REPLACED AS CUP CAPTAIN

LONDON, March 12 (AP)—Cyril Tolley's long visit in the United States has cost him the captaincy of Great Britain's Walker cup team. The Royal and Ancient club announced seven of the 10 men who will oppose Bobby Jones' American team on the sands of Sandwich May 15 and 16 and their leadership is in the hands of Roger Wethered, brother of the famous deposed and himself British amateur champion in 1923.

Named with him were Rex Hartley, Sir F. W. Holderness, J. M. Smith, J. A. Stout, Tolley and T. A. Turgence.

Three more names soon will be drawn to complete the list of 10.

Like the king, the Royal and Ancient can do no wrong in the realm of golf but comment on today's selection mainly centers on why Wethered has been named captain instead of Tolley.

The explanation in Tolley's case appears to be his presence in the United States coupled with the fact that he already has had his chance of captaining the British Walker cup team.

In Berlin, Vienna, Rome and Budapest it is not unusual to see a man enter a drawing-room and bestow as many as ten hand kisses before he sits down for a cup of tea.

IN THE REALM OF SPORTS

WITH ALLAN CARNEY
Journal Sports Editor

A letter this morning from Pete Cawthon informs us that his subordinates, from the first assistant coach to the business manager of athletics, will not be named until the latter part of April. We had previously been told by Tech authorities that the reorganization of the college athletic department would be completed immediately upon the arrival of the new Matador commander here early next month.

Cawthon will make a thorough study of the Tech department before any selections are made, recent communications indicating that neither of the two new coaches who are to assist him have been named.

"I have not and will not select my first assistant, until I have the opportunity to study the situation over and confer with the council," Cawthon writes. "This will probably be the last of April. I will not have an opportunity before that time to study the needs."

The latest communication from Cawthon comes from Austin, where he served as an official in the state basketball tournament. Ziggy Sears, Dusty Bogus and Cawthon worked the two-day series of games. John Reagan High school of Houston finished third, losing to Denton 16-14, but Cawthon believes the Houston quintet was the strongest team entered in the meet. Especially were the Baylor City lads well coached.

"Estimate was just too small for the Denton giants," says the future Tech mentor.

Tech's track season will necessarily be cut short this year because of the fact that finances are preventing the Matador speedsters from entering the Texas and S. M. U. relays. This situation arises just at a time when Coach Payne has the prospect for high-powered 440 and 880 relay teams. Two dual meets will be staged here—one with Canyon and the other with Daniel Baker. The Bison-Matador affair will start things off on April 12. Daniel Baker's tracksters are here on April 19. The annual dual meet with the Simmons Cowboys is set for April 14. On April 25 and 26, the Matadors go to Canyon to compete in the annual Great Plains meet.

The high point of the current track season will come on April 18 and 19, at which time Lubbock will be thronged with athletes from all sections of the Plains. The Westerners remain favorites in the annual event, but present indications point to a much closer battle for points this year. If Coach Lowrey can unearth a few capable middle-distance runners, the chance for the locals will be greatly enhanced. For the first time in the history of the city, Lubbock's athletes will not compete in the county meet this year, thanks to an increase in scholastic enrollment that exempts the Westerners from competition in the county.

A pair of huskies that joined Lower's track squad after the close of spring football training may help to solve the track mentors' problem in the 440 and 880. Will Ed Watson, Westerner wingman, has showed steady improvement in the quarter while Carroll McCaslin looks like a sure bet in the half. Allen McCaslin is another quarter-mile that is due to make trouble for the opposition before the district meet comes around. Big Greer Frizzell cannot be counted entirely out of the 440 picture, nor can Lee Regan be forgotten in the 880.

San Angelo High school speedsters won the invitation meet staged on their own field last Saturday by a fair margin over Odessa, but the Texas high school champions of 1929 lacked considerable of making the four-cornered contest a run away affair. We have the word of Blonds Creek that the Bobcats showed their old-time form on but two occasions. That was in the half mile run by Smokey Brothers and in the mile race by Orr, Odum, Jones and Brothers teamed to capture the relay handily. The time for the race was announced as 3:25.

Snyder officials refused to allow the San Angelo team to enter the meet Saturday on the grounds that the Bobcats were likely to hog the honors. A perusal of the records made at the Concho city indicate Blissett's lads would have had an extremely hard time in beating out Lubbock for Class A honors at Snyder. If present plans of the local Lions club go through, the San Angelo crew can rest assured the Bobcats will be invited to compete in the Texas Tech Relays.

An outstanding feature of the Southwest Exposition track and field meet in Fort Worth this Saturday will be the special 100 and 200-yard sprints with Claude Bracey of Rice, Cy Leland of T. C. U. and

MONTGOMERY IS VICTIM OF AMBLING ALP

SULLY GOES DOWN IN SECOND ROUND AT HANDS OF PRIMO

(By Associated Press)
MINNEAPOLIS, March 12.—Sully Montgomery, once famous as a Centre College grinner and weighing 220 pounds, today is the newest member of the society of American fist fighters who have been knocked out by Primo Carnera, the ninth to gain admission since the Italian giant's invasion of the United States got under way.

Montgomery was willing, but his battle armor cooled early in the initial round of a bout scheduled for ten rounds last night and he corner when the bell rang ending the first round. A flurry of gloves from the 275 pound Alpine slinger in the second round sent Montgomery to the canvas twice, the second time to stay when the round was only one minute and fifteen seconds old.

DALLAS, March 12 (AP)—The Athletic High School Hornets, 1929 state and national high school basketball champions, were substituted for the Schepers Aces of Fort Worth as opponents tonight of the Perilli boys' school Tigers in the final case exhibition of the arena.

Joe Hodges of Abilene Christian college competing Bracey beat out Lealand consistently last season in the century but the former Lubbock flash came back to break the tape ahead of the Rice lads in the 220. Bracey has been working hard on the longer race this year in the hope of beating Cy in both events.

BABE TAKES INTEREST IN TRAINING

Robins Not To Be Set-Ups This Season

SOX INFILDER MAKES DOUBLE PLAYS

(By Associated Press)
NEW YORK, March 12.—Assured of \$100,000 for the next two years, Babe Ruth is devoting himself with great zest to the New York Yankees spring training exhibition games.

The Babe was an outstanding figure in the Yankees' victory over the Braves yesterday, getting a long triple, a single and two walks besides making a one-hand catch while running backward for the fielding men of the game, played at St. Petersburg, Fla.

Bill Terry and Freddie Lindstrom, big guns of the New York Giants' attack, finally have reported for work at San Antonio, but both are somewhat the worse for wear. Lindstrom, who has not yet signed a contract, finished his first workout with a blister on his throwing hand while Terry didn't even wait for his first practice to complain of a sore thumb. He had it when he came to camp.

Set-Ups For No One
The conviction grows that Wilbert Robinson's Brooklyn Robins will be set-ups for no one in the 1930 National league race. The Robins' record without an error and without out 17 hits in trouncing Detroit yesterday at Clearwater and two excellent pitching from Clark Morrison, Luque and Elliott, client Wright had a perfect day at bat with a resounding double, a single and two walks and drove in three runs.

Grover Cleveland Alexander, back with the Phillies in the role of coach and relief hurler, will be a big help to the club this year in the coaching of Manager Shotton. I went into the deal for Alex. With my eyes open, he said, I knew just what I wanted, and I got it. Confined to relief work, which is my present plan, Alex will win at least seven games for me. That is all I need. Put seven games to our standing last year and see where we would have been."

It may have no significance, but Zeke Bonura, recruit, has been assigned to play first base with the regular squad of the Cleveland Indians, at New Orleans, in the absence of the conscientious Lew Poffenberger, awkward as he is, manages to field everything coming his way and has impressed observers as a hitter worth watching. The prizebmen have been divided into the regulars and the goods and will play their first practice game Friday.

Even with Willie Kamm and Arthur Shires missing at third and first bases respectively, the White Sox infield has displayed a pleasing amount of speed to Manager Charles Combs so far. Yesterday the combination of Jeffery, Cissell, Glancy and Humfield completed five double plays, bringing their total for three games with the Giants to nine. The Sox are training at San Antonio.

The Los Angeles club of the Pacific Coast league invaded Catalina Island today to give several young and aspiring Cub pitchers, another chance to prove to Manager Joe McCarthy that they are improving. Manager McCarthy planned to send William McVie, George Bell, Bud Trout and Hank Gramp to the mound for the rubber game. In their two previous contests, the team split. Hack Wilson and Pitcher Hal Carlson, are still nursing sore feet.

The Thames river carries down into the Atlantic ocean enough mud yearly to make 24 acres of good land, six feet thick, at its mouth.

CHARLES ARTHUR FINALLY ANSWERS LETTER TO COMISKEY; NOT SIGNED

(By Associated Press)
CHICAGO, March 12.—Charles Arthur Shires, still a member of baseball's holdout union, has demonstrated to owner Charles A. Comiskey of the White Sox that he can be silent as well as garrulous.

On February 2, Comiskey wrote a letter to the fighting first baseman, enclosing two contracts and asking him to answer certain questions as to his deportment in the past and future. Having read of Shires' reputation for talking, telegrams and special delivery letters were expected.

But not until yesterday, a month and nine days later, was a reply received from the "Great Shires." All questions were answered, apparently satisfactorily, but the contracts were unsigned.

While Comiskey refuses to divulge the salary differences between the club and Shires, it is understood Shires has been offered \$3,000 with threats of severe fines if he attacks another manager. He is demanding \$10,000.

"I will study his reply today and answer it immediately," Comiskey said. He is expected to offer a new contract, and Shires, who doesn't always do the expected, is expected to sign it.

Two new pitchers were in the Indian camp at San Antonio. Leo Alder purchased from the Sally League of Augusta Ga. and Hugo Klarnier of Frederickburg. Arrival of catcher Pete Lapan and pitcher Jim Chaplin and Herman Sparks was awaited.

Donovita Missing
Also prominently among the missing was Joe Bonovita, slugger for the Fort Worth Cats and Manager Bender has let it be known—probably hoping the report will reach Bonovita's ears—that pretty soon the extra place will be removed from the training table. Bender now has only one regular fly chaser, Eddie Moore, a clinic for the center field.

Baseball Gets Boost In Dallas By Clubs

DALLAS, March 12. (P)—The Dallas Steers and Southern Methodist University Mustangs have come to the rescue of baseball devotees in Dallas high schools, by arranging benefit games between the Steers and Mustangs for March 18, 19 and 20.

The Dallas Board of Education appropriated \$1,200, all funds available for track and field sports, to the exclusion of baseball.

All receipts of the Steers-Mustangs games will be turned over to P. C. Cobb, director of athletics in Dallas high schools, to purchase baseball equipment for the six high schools. In addition, the Steers will donate one dozen baseballs to each high school and will give their teams free use of Steer Stadium for baseball whenever it is not being used by the professional team.

U. from interfering with the appearance of Stanislaw Petkiewicz, Polish distance runner, in the K. of C. games at Madison Square Garden tonight. Petkiewicz was barred from further competition in this country by the A. A. U. when it was learned he was under investigation by the International Amateur Athletic Federation.

BOBBY INSPECTS HIS BALL TEAM

DOUGLAS, Ga., March 12. (P)—The Atlanta Crackers of the Southern baseball association have just been inspected by their vice-president, Robert T. Jones, Jr., at their spring training camp at Douglas, Ga.

The Atlanta going barrister became part owner of the Crackers last fall when he and 11 other local business men bought the club. He thinks he is going to enjoy being a baseball magnate. In buying an interest in the Atlanta club he became actively connected with a game he preferred to golf as a younger of sport.

Bobby's ambition at that age was to be a great catcher.

K. C. A. C.—the Missouri-St. Louis U.-Kirkville Teachers combination in the national tournament—beat Baker University handily 36 to 18.

Training 10 to 13 at halftime and facing elimination in what would have been the first upset of the tournament, Athens A. C. of Oakland, Calif., took full advantage of its height and experience in the second half and defeated Rockhurst of Kansas City, 30 to 20.

Laurel Athletic club of Bridgeport, Conn., the last remaining entry from the Atlantic seaboard, was defeated by the Goodyears, of Akron, O., 32 to 17.

SLATON RUNNERS TO MEET LOCALS

Reserve tracksters will come into their own on the college cinder path next Tuesday when Coach Paul Wright trots out his second stringers against the Lubbock High reserves in a practice dual meet.

Coach E. J. Lowrey arranged the practice affair with the Bengal speedsters last night following the failure of the Idalou Wildcats to appear for their scheduled contest with the Westerners here.

The practice dual event will give the numerous first and second-year candidates an opportunity to show their wares under fire and at the same time will give their coaches a line on their ability. The Lubbock coach last night attempted to arrange a meet with the Slaton tracksters today, but Coach Wright set Tuesday as the earliest possible day he will be able to bring his men here for the contest.

Members of the two teams that placed in the Snyder meet Saturday will be barred from competition in the practice affair here next week, it was announced. There is a possibility that the line will be drawn even closer than this.

The scheduled meet yesterday between the Westerners and the Idalou Wildcats was postponed indefinitely when the east-side team failed to appear. Efforts by Coach Lowrey to get in touch with Coach L. P. Swinney proved futile.

Ideal weather greeted both the high school and Tech thrills Tuesday afternoon, the tracksters going through a lengthy workout. The feature of the afternoon's session was an 880-yard relay between the two teams. A strong finish enabled the Matadors to take the race.

Blue Ridge: Dublin vs. Rankin; Mingo vs. Plano; Leesburg vs. Bailey; Celeste vs. Floyd.

TWO PAIRS ENTER BEST BALL PLAY

MIAMI, Fla., March 12. (P)—Two pairs of professional golfers were semi-finalists today in the \$5,000 international four-ball matches.

Harry Hampton of Chicago and Neil McIntyre of Indianapolis, who won from Horton Smith and Ed Dudley of Wilmington, yesterday with a 12-foot putt by McIntyre on the 36th hole, were matched against Tony Manero, and Densmore Shute, Columbus, O. Manero and Shute won 3 and 3 in quarter-final play from Al Espinosa and Craig Wood.

The other pair, Gene Sarazen, and Johnny Farrell, winners of the tournament in 1928, were matched against Cyril Walker and Clarence Gamber, of Boca Raton, Sarazen and Farrell advanced by defeating Frank Walsh and Al Watrous, while Walker and Gamber downed Jock Collins, Dayton, O., and Eddie Williams, of Cleveland.

The matches are 36-hole best ball.

Fats And Leans To Play In Shallowwater

A regulation baseball game between the "Fats" and the "Leans" of Shallowwater will be the outstanding event of an all-day chamber of commerce celebration in that city Saturday, it was announced here yesterday by Fred Fite, secretary of the Shallowwater chamber.

"Bruno bustin'" and goat roping will also come in for its share of attention, with outsiders invited to compete.

The ball game is scheduled to start at 3:30 Saturday afternoon.

The Netherlands, more than half the size of England and Wales, is really French and German soil carried down by the Meuse and Rhine rivers.

WISCONSIN SECRETARY IS DISMISSED

PURCHASE OF LANDS IN TEXAS IS BLAMED FOR ACTION

(By Associated Press)
MILWAUKEE, Wis., March 12—John L. Newman, secretary of the Wisconsin Real Estate Board, who purchased land in the Rio Grande valley of Texas while on an official "good will" mission to that state, was discharged today by the board because of that purchase.

The realty group had banned Texas land salesmen in Wisconsin because of their methods and financial conditions of their companies. Newman was sent on the third annual state good will tour, and was instructed to clarify the understanding of the southerners regarding the Wisconsin board's position.

Buys Citrus Fruit Land
Upon his return today he revealed that he had purchased 10 acres of citrus fruit land near Lufkin, Texas. "To show Texas people that the Wisconsin board doesn't object to Wisconsin residents buying Texas lands after a personal inspection and under proper conditions, but had refused permits to sell such lands in this state because of the methods used by the companies which applied for permits."

The board, however, asked for his resignation on the grounds that "by such purchase in the opinion of the board he was disqualified himself to act in an impartial manner upon applications to sell land in the lower Rio Grande valley now pending before the board and now in litigation."

SNAPSHOTS OF TAFT FUNERAL

(By Associated Press)
WASHINGTON, March 12 (AP)—Snapshots of the funeral of William Howard Taft:

Soldiers and sailors slowly removed the flag-draped casket from the home to a cavalry caisson while a bugle sounded and cavalrymen sat astride their mounts with sabres at salute and guidons fluttering.

Stand In Rain

Thousands stood with heads bared to drenching rain while the funeral cortege moved through the streets to the staccato of clicking boots and rumble of caisson wheels, past the White House to the capitol.

More than 60,000 persons, some in formal dress, filed through the huge funeral banked rounds of the capitol, looking for the last time at the pale, careworn face of the former president, who was clad once more in the black robes of his chief justiceship.

Services Conducted

The casket, recently was borne into the white interior of the All Souls' Unitarian church, which was filled with the highest representatives of the nation; and simple services were conducted; and a bell which has rung of the passing of presidents for a century past tolled.

Automobiles extending over five blocks accompanied the body through the streets of the capital moving silently across the Potomac and into the Virginia hills where a beaming of sun echoed.

MAX COLEMAN, LOCAL LAWYER, PENS ARTICLE ON EXODUS OF COWBOYS OF EARLY TIMES IN "THE CATTLEMAN"

MAX COLEMAN, local attorney, is author of a brief history of Texas cowboys in a late issue of "The Cattleman," periodical published monthly by the Texas and Southwestern Cattle Raisers' association in the interest of cattlemen.

In his article Mr. Coleman gives an insight into the brush country where the cattle industry of America began and where a character with an individual technique arose. According to the author the first cowboys were not the romantic figure who is known to the public through the rigging that is now affected. From necessity they wore buckskin clothes, their feet being shod in moccasins. Their being the old-style with broad wooden stirrups, low fork and large horn.

Originated In Texas

The cowboy originated in Texas, according to Mr. Coleman, where the climate is particularly suited to outdoor life, and in the earlier history was in the heyday of his existence. This was the time of range kings and queens and in the era when Billy the Kid was captured and the famous Chisholm trail was established.

"In Indian fighting," writes Mr. Coleman, "the cowboys seemed to shine but since the cowboy was accepted as a matter of course it is only by delving into obscure points in history that we are able to learn of his bravery."

Go On Strike

An event occurred in the spring of 1893 which tended to plaster the Texas cowboys all over the United States and that was a strike. Eastern owners of many of the ranches looked on the cow business only as a dividend stream to be tapped when they were forced to ask for their positions again they found them refused. As a consequence there was an exodus to Wyoming, the Dakotas, Oregon and Canada. The last stand of the old-time cowboy under open range was in Wyoming in the latter nineties. From 1900 to 1916 marked the passing of the last noted cattle rustlers these being known as a wild bunch and led by Dutch Cassidy. It is a burlesque on the desperate lives led

wing chaps and jingling spurs be expressed by a stanza from the famous cowboy song from "Old Montana":
"In the land of diamond hitches
Hopes and guns and cartridge belts,
When the men wore chaps for britches,
Flannel shirts and blouses felt."
