SLAYING NARROWLY ESCAPED DEATH IN AUTO CRASH

ANSWERING DEATH CALL IS SET BY JINX

RIES OF ACCIDENTS MAY PROVE FATAL TO TWO OF PARTY

HOUDRANT, La., Aug. 3.—Six natives racing to reach the best of Mrs. Mary Murphy, driver of a sanitarium at Monroe, were...

A. Ward was injured, it was learned today and Mrs. Laurer, 55, was seriously and possibly fatally injured, while Howey, driver of the car, and Mrs. W. Ward were painfully hurt. M. S. Vanavich of Ruston, driver of another car, was also seriously injured, one of his arms being broken in three places.

Left Breckenridge Tuesday the Texas party left Breckenridge Tuesday afternoon on receipt of a message that Mrs. Murphy, mother of J. A. Ward and a relative of the other five, was dying in a battle at Monroe.

Truck Obstructs View at Choudrant, a large truck was standing at a filling station and the automobile driver, it is reported, saw another car approaching.

On account of the position of the truck, both cars went around it the same side and as both were traveling at a rapid speed, the collision was terrific, wrecking both machines. The north bound car was also a roadster driven by Cavalaugh.

An ambulance was summoned by telephone from Monroe, but a jinx appeared to be on it, and it broke down a few miles out, preventing it reaching here. Another ambulance was summoned and it also was delayed until 8 o'clock this morning, when the injured were removed to the Monroe sanitarium.

On Both Lakes
The witness insisted she had been on both Lake Palourde and Flat Lake.
"Did you see a big light at Flat Lake?"
"I did not."
The woman said Dr. Dreher was told the meeting would be held on Lake Palourde.

"Why did your husband ask you where you wanted to go for a ride, if he already knew there was an appointment to meet the doctor?"
There was no reply after which the district attorney obtained the admission that neither the woman, Dr. Dreher or Leboeur knew where the meeting was to be held on Lake Palourde.

"Mr. Vulleumet read from Mrs. Leboeur's confession that her husband suggested that they go boat riding on the night of the alleged slaying."
"Why did he do that if he already knew he was going boat riding?"
"I made that statement, but he never said it. He said: 'Some on let's go for our ride.'"
"And you never told the doctor where you would meet him?"
"No sir."

Part of Confession

The district attorney read another part of her confession which said Dr. Dreher had written her expressing sympathy for her in her plight.
"I guess I made the statement. I would have made any statement after the promises of my brother-in-law and Sheriff Ucoot."
The witness testified that after the shooting, she asked Dr. Dreher what had been done with the body. "And after you found out that your husband was buried you had no more interest in him," the district attorney asked.
Parkerson objected but overruled. Her answer was inadmissible.
Mrs. Leboeur in her confessions said she didn't tell anyone of the

Bicycle Club To Be Organized At Session Tonight

Meeting for the purpose of organizing a bicycle club, contestants of the recent 250 mile bicycle marathon and bicycle enthusiasts of Lubbock will gather in the city hall tonight at 8 o'clock.

Alpha "Blondie" Wiggins, winner of first place in the Amarillo and return race, will tell the boys "how he did it." Walter Glasgow, Marvin Fahn, Joe Nelson, Alford Bates, Duggan, Branche and Warner Barnes, all contestants of the race, will be present tonight.
In addition to matters pertaining to organization, the distribution of prizes for winners of the marathon will be decided upon. Following the suggestion of some citizens, it is likely that some consideration in the way of prizes will be shown each boy who participated in the endurance test.
Plans are now being discussed for another race, a less difficult task this time, a speedy dash to Slaton and return. By undertaking a less grueling trip this time, the boys expect to have a larger number of entrants.

Heavy Rains Send Creek Out Of Banks

PAWHUSKA, Okla., Aug. 3 (AP)—Heavy rainfall around Pawhuska last night and today brought Bird creek out of its banks, drowning one man and threatening to inundate a part of this city. Hundreds of families in the bottoms have sought refuge in the hilly sections.

REVIVAL DRAWS LARGER CROWD EACH SERVICE

INTEREST GROWS DAILY IN MESSAGES BROUGHT BY EVANGELIST

Evangelist Hogz held his large audience at 8 o'clock last night as he delivered his message, "The Great Divide." His picture was that of the sheep and the goats, when the good shall be separated from the bad, and each shall receive their reward. When husbands shall be separated from their wife, and the parents from their children, when God shall divide the redeemed from those who have been unfaithful, intrude to Him. He brought his mighty warning of the second coming of Christ when many will be unprepared as were the foolish virgins. The fellows with the talents, etc. His message was one that brought men and women to think.

At the morning hour today he spoke to an increased audience, bringing a solemn, earnest admonition to the people who are professed Christians, to see their duty, and to be about their Masters business. The gist of his message this morning was that there is much work to do, but few that are willing to do it—still more who are not worthy to be His servants. He spoke the unvarnished truth and drove home his message to the hearts of many, who left the tabernacle resolved to do up their old church letters, clean up their lives, straighten out some of the question marks and live a better life.
Tonight at 8:15 the song service will begin, and the evangelist will bring his message, "Leprosy in High Places." This is one of his

strongest messages, and you will be wonderfully blessed to hear him. Thursday night he will deliver his sermon about Jonah and the whale.

Cottage Prayer Meetings

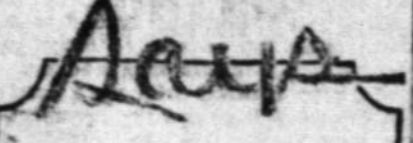

Arrangements are being worked out whereby cottage prayer meetings will be held, and announcements will be made from the pulpit where they will be held.

NOTES ON THE REVIVAL

Evangelist Hogz says he is going to give away five thousand bibles before he leaves Lubbock. The evangelist believes in spreading the gospel.
The Nazarene church, the Nineteenth Street Methodist and Baptist churches will be special guests of the evangelistic party tonight. They will occupy reserved seats in the middle of the tabernacle down toward the front, and the evangelist is going to give a bible to the church having the largest number of their membership present.

PIRATES LOSE THIRD STRAIGHT TO BOSTON AS CUBS BEAT PHILS

PIRATES LOSE TO CARDS AS REDS TAKE TWO FROM BROOKLYN

(By Associated Press)

The Boston Red Sox, who have just completed the job of winning the third game series of the National League, defeated the Pirates, 5-2, yesterday at St. Louis. The Red Sox, who were in the lead in the National League, put the Pirates' club one and one half runs out of first place.

Armen Hill, the National League's best pitcher, was shut out for a Braves victory, but poor support aided in his defeat. The Red Sox, who were in the lead in the National League, put the Pirates' club one and one half runs out of first place.

Big Shots—Both of 'Em

LOU GEHRIG AND BABE RUTH

Just what Babe Ruth said that caused such a smile to spread over Lou Gehrig's face is not known, but the day this photograph was taken he was trailing Columbia in home runs. Perhaps Babe is reminding the pupil for stealing his honors, and, then again, Lou might be chiding the master for falling in arrears. Their battle for home run supremacy of the majors is causing the fans to flock to the games wherever they play.

CHARLEY ROOT KEEPING CUBS IN FLAG RACE

CHICAGOAN IS BACK IN BIG SHOW PROVING HE IS RIGHT

By BILLY EVANS

One outstanding pitcher very few can keep a club in the pennant race. The Chicago Cubs have such a person in Charley Root.

During the first half of the season he registered 15 victories and perhaps saved 10 others in relief roles. He is one of the few pitchers in the majors with a chance to win 30 games, an almost unheard-of feat in these days of the animal-of-baseball.

Last season the superb pitcher of George Uhle, who scored 27 victories, made Cleveland a strong pennant contender. This season Uhle has shown a complete reversal of form and the Indians are well down in the second division. Pitching means much.

It is an interesting fact that Charley Root, like George Uhle, came from the sandlots to the big show without any previous professional experience. Unlike Uhle, it

Strike-Outs Of 'Big Barney' To Hold Some Time

WASHINGTON, Aug. 3.—More than 3,500 strike-outs!

That is one of Walter Johnson's records that is likely to be a target for major league pitchers for years and years to come and yet remain unsurpassed. Johnson is just a few shy of that mark now.

There were four years and five years in Johnson's achievement, but Washington fans, who will celebrate his debut 20 years ago in the American league, know that each year Old Barney tried his best.

Johnson struck out the greatest number of batters in one season in 1910 when 313 witnessed his offering. He hit 78 in 1926 was the lowest he recorded in one season.

During that season I pitched perhaps a half dozen games in which Root pitched from one to six innings. He showed me a corking good fast ball and a fair curve. I was surprised when the Browns parted with him in a trade with Los Angeles of the Pacific Coast league. He looked far too promising to be cast adrift in the minors.

Two big years with Los Angeles in which he won 21 and 25 games, respectively, stamped him as positively ready for the big show. He was recalled by Chicago at the close of the 1925 season.

In his debut with the Cubs he registered 18 wins, 17 defeats. An improved curve, with a good change of pace and the same old fast ball of the St. Louis Browns

White Comes Back In Tennis Doubles

SEABRIGHT, N. J., Aug. 2.—Eliminated from singles yesterday by Lewis N. White of Texas, John Doe, the youthful Californian, came back today to share in a surprising doubles victory over the inter-collegiate champions, John Van Ryn and Kenneth Appel, of Princeton. Doe's partner was Arnold W. Jones of Providence, R. I. The score was 6-3, 9-7.

The match marked the elimination of intercollegiate title holders from this tournament as Wilmer Allison of the University of Texas, single King, bowed yesterday to Francis T. Hunter.

September 15 Is Probable Date Of Serap-Rickard

(By Associated Press)

NEW YORK, Aug. 2.—The Dempsey-Tunney heavyweight championship match at Chicago, which was originally planned for September 15, after all, is being held off for a later date, that September 15 is the most desirable time for the fight, the promoter has advanced his arguments in telegrams and telephone talks with the former champion, within the last 24 hours, and expects to decide the date definitely today. It will positively be no later than September 22, he said.

Rickard conferred with Lew Pynck, Dempsey's manager, shortly after returning from New York and received the latter's assurance that either September 15 or 22 would be satisfactory.

Texas Pro Golfers Meet In September

HOUSTON, Aug. 3.—(AP)—Willie McGuire, Houston country club professional and president of the Texas Golf association, announced last night that the 1927 tournament would be held over the River Oaks country club course, Houston, September 26, 27 and 28.

McGuire stated that arrangements had been completed with the local club and that the meet would be a 72 hole event with the opening day set aside for amateur-professional play.

Erwin Bechtel, Jr., youthful Mercedes professional, is the present title holder and he will be here to defend his title in September.

TRIBUTES PAID JOHNSON, HERO OF MANY GAMES

HIS 20TH ANNIVERSARY IN MAJOR LEAGUES IS CELEBRATED

WASHINGTON, Aug. 3.—Walter Johnson, veteran pitching ace of the Washington Senators, rounded out his twentieth anniversary in major league baseball with a defeat just as in his league debut, but found the capital's fans generous with honors in appreciation of his services.

Against the same opponents of two decades ago, the Detroit Tigers, Johnson hurled a losing game, 7 to 6, yesterday before 20,000 fans packed in the Griffith stadium, but despite his defeat he set a new record for strike outs with a total of 3,455. But unlike the contest of 20 years ago Johnson was not credited with the defeat, the official scorer charging it against Garland Braxton relieved him on the mound in the ninth inning and yielded three runs to the Tiger batsmen.

The game was designated "Johnson Day" at the ball park and "Old Barney" occupied the center of the stage throughout the entire afternoon. The fans of Washington greeted him with a silver service and plan to erect a permanent memorial for him in the form of a bronze and marble sun dial at the stadium. From his team mates he received a silver water pitcher and tray, while the Washington and Detroit clubs gave him a check for \$14,746.68, representing the excess of the gate receipts for the day over the average returns for the week. From the American league came its highest award, the Distinguished Service Cross of baseball, a gold sunburst cross studded with 20 diamonds, one for each year of his service.

In the absence of President Coolidge, Secretary of State Kellogg presented the gifts.

Johnson's Feat At New York Is Yet Remembered

WASHINGTON, Aug. 3.—His three shutout victories on successive days against the New York Highlanders in 1908 stand out as one of the greatest pitching feats of Walter Johnson's 20 years on the mound for Washington.

Johnson, whose twentieth anniversary in the big leagues was observed here Tuesday, readily admits that those 27 scoreless innings gave him one of the biggest thrills in his colorful career.

Just a rookie was Johnson then, strong as an ox and possessed of blinding speed, and he eagerly jumped at the chance to rock six innings against New York when Manager Cantillon asked him to do so because of injuries to a trio of Washington pitchers.

Johnson faced Chesbro in the first game and triumphed, 3-0. He won the next day by a 6-0 score and after resting Sunday because no games were played on Sunday then he worked in the first game of Monday's double header and again registered a shutout win.

This feat might have been four straight scoreless victories had not Johnson been injured by a pitched ball. He was ready to start the fourth successive game of the series, but Manager Cantillon refused to let him go in because of his injury.

"That," says Johnson, "is the only time in my career I was ever called upon to pitch so many games during one series, and I doubt very much if I could do the same stunt again. Father Time doesn't stand for such tricks, you know."

How to Protect the Throat When Smoking

What 9651* Doctors say on this subject

The signed statements of intelligent men and women whose voices are to them what the hands of the day laborer are to him—the means indispensable to livelihood or success in life—are convincing. Actors and actresses, great singers, men conspicuous in public life, radio announcers, testify that they like LUCKY STRIKE cigarettes because of their finer flavor and because they do not irritate the throat.

Before such statements by laymen were published, questions had been addressed to a number of physicians in various sections of the United States—many of them leading physicians—and some replies had been received. The following is the result of the questionnaire:

- Q1—In your judgment is the heat treatment or toasting process applied to tobaccos previously aged and cured, likely to free the cigarette from irritation to the throat?
- 9651 doctors answered this question "YES".
- Q2—Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?
- 11,105 doctors answered this question "YES".

Titta Ruffo, Noted Metropolitan Star, writes:

"Like scores of others whose everything is their voice and a clear throat, I, when I smoke, prefer the toasted cigarette—Lucky Strike."

The setting sun was in the west and all that sort of thing at Tech yesterday afternoon and the Auto-Barbers, behind the airtight surging of Stalaker, were breezing along with a 3-0 lead over the league leading bankers and then, all of a sudden something went wrong with the works. Judge Riley's shylowers came alive, coupled two walks and two hits for four runs and tightened their hold on the top rung of the league's ladder, winning 5-3.

Despite good work on the part of Stalaker, who held the heavy hitting Bankers to five hits, Moody Smith, shylower hurler, pitcher doggedly along, giving up a mere trio of safeties and hung his fifth straight win. The following is the box score:

Necessities

The vacation habit in America has become a great commercial venture.

A business running into millions is done annually by travel agencies in all large cities.

Less than a generation ago it was only the bloated plutocrat of money and story who hid him away with fishing tackle and hip boots to a place where the trout swim in shadowed pools and the canoe floated over lily buds.

But today any \$15-a-week clerk has his two weeks' vacation with pay, and, if he cannot quite manage northern Canada or the national parks of the west, he can pay his \$25 fare to the nearest "resort," strut his stuff in his \$2.95 cotton bathing suit, and come back with as good a coat of tan as his boss, who spent \$100 for his two weeks.

The younger generation takes the annual vacation as much for granted as Christmas Day and the chicken and ice cream on Sunday.

The older generation, especially the women of that generation, are apt to look upon such a vacation with scorn and derision. They have words to say about such extravagance, and they recall that "when I was a girl" money wasn't spent like that.

But "when I was a girl" anyone kind everyone, from those in the high places to those in the seats of the lowly, had the joys of a natural world about them. They had the rose of sunrise and the gold of sunset. They had cool waters in which to swim and fish and paddle. They had mellow golden moons and the fragrance of summer clover all about them. They had the breezes of open country lush and green and ripe with growing things. They had the stillness of nights in a world where the wheels and furnaces of commerce were not known.

The people of a generation ago did not need two weeks a year in which to remember that man was born to smell smoke-laden air and listen to the whirring grinding wheels of industry the year round.

Vacations have become the great national venture that they are today, not because we are a richer nation, not because of a more inflated standard of living, but because we have gone from an agricultural world into an industrial one, from a natural life into an unnatural one, and we cannot stand the gaff without at least a little breathing spell in which to return to the earth that alone enables human beings to live.

The Propeller?

The recent long distance flights have done more than cement good will and friendship between nations, which seems to be the most stressed effect, according to the analysts. They have also stimulated the latent poetry of the world into fullblown expression.

The Lindbergh flight, especially, caught the imagination of the poetic world, and the deluge came. One New York newspaper reported five bushel baskets filled with unsolicited verse. They reported a certain similarity in each of the thousands of poems received. The majority of the poets and poetesses referred to "the air Lochinvar who came out of the west" and much ink was spent, too, in the phrase "silver bird."

"We can hardly know for a few years whether any truly immortal lines have been born of these flights or not. If there have been, it is sure that in 50 or 100 years the flight will be known for these lines. History gives assurance that many men did as dramatic and important deeds on that night that Paul Revere ran his horse foamed through the countryside near Boston, but it was about Revere that the lines were written—"A hurry of hoofs in a village street."

A shape in the moonlight, a bulk in the dark, and beneath, from the pebbles, in passing, a spark struck out by a steed flying fearless and fleet."

It's safe to wager that in 2077 the best known of the many transoceanic flights of 1927 will be the one which has the most dramatic lines penned about it.

Which is mightier, the pen or the propeller?

THE PLAINSMAN

Says: Young Alpha Wiggins, whose remarkable feat of winning the Lubbock-Amarillo and return bicycle race will not be easily forgotten, forms a splendid study of American youth—at least that type of American youth which abounds in Lubbock. Applauded by hundreds, clasped to the breasts of his youthful friends and placed upon a pedestal by them in boylike enthusiasm, "Blondie," as he is known to his acquaintances, is still the same, unaffected lad that he was before the honor came to him. If anything he is more retiring, his character seemingly tempered, as fine steel, as a result of the plaudits of the crowd.

After a night's rest Alpha left his home astride the bicycle which carried him home ahead of his competitors but he didn't ride to town to collect his prize. Instead he went to the home of his friends, Walter Glazener, Jr., who finished second in the race, to inquire of Mrs. Glazener about her son's whereabouts. Upon finding that he had not been heard of "Blondie" Wiggins, tired as he was of the dusty highway, turned back up the road toward Amarillo, stopping motorists and asking them about Walter Glazener and Marvin Fann, third prize winner. It was "Blondie" Wiggins who rode back into Lubbock bringing the news that the other two boys were finishing and had escaped the mishaps that were feared when they were not heard from the night before. Sportsmanship and friendship, ten-fold were exhibited by Alpha Wiggins who through his actions, laid a line for his admirers to heed by.

It was the plan of the Avalanche-Journal to publish the picture of "Blondie" Wiggins, the winner of the triumphal return of the winner, he was told to have his photo made so it would be in the paper, the average boy's idea of heaven. Quick as a flash "Blondie" Wiggins answered the request for his picture with "Let me wait till Walter Glazener and Marvin Fann have them all taken together." What do you think of that for unselfishness? Unselfishness, added to friendship and sportsmanship, forms the third requisite for a well-rounded youth of character.

Alpha Wiggins has opened the eyes of many critics of the present-day boy. He and his buddies, Walter Glazener and Marvin Fann, have shown Lubbock that all the derogatory statements which are sometimes made concerning the rising generation are not necessarily true and, in some cases at least, are wholly false.

The Plainsman was not surprised by the victory of "Blondie" Wiggins nor by the finishing of Walter Glazener and Marvin Fann. He sees them every day, going faithfully about their duties as carrier boys of the Avalanche-Journal. Wiggins, especially, has applied that same dogged determination to his work that he did to the bicycle marathon with astonishing results. When a new system of delivery is mapped out it's "we'll try Wiggins on that" from the circulation manager. When the increases in route numbers are tabulated it's usually Alpha Wiggins who has the largest number. He is laying his foundation of life in his work and his play and if he follows his present recipe for success he'll reach the goal as sure as he's alive.

Nature is making oil, says a German scientist. But we'd like to ask the Dame why she makes more cans than oil.

Major crimes in Chicago have increased, says the city crime commission. Mayor Thompson says he promised to reduce crime and it has been reduced 45 per cent since he assumed office. Well, what would he be expected to say?

Standardization is a handy thing, but we sometimes wish the movies weren't so deadily in earnest about it.

In one New York town they barred a hot dog stand on the ground that "small boys do not know what is good for them." Reading about wars, divorces, murders, gang wars, mortgages and gall stones, we're beginning to think some of the large boys don't, either.

WASHINGTON LETTER

JERRY TARBOT BOBS UP IN WASHINGTON AND MAY BECOME POLITICAL ISSUE

By RODNEY DUTCHER, NEA Service Writer. WASHINGTON, Aug. 3.—Jerry Tarbot, America's unknown soldier, has dedicated the rest of his life to finding his name and obtaining Uncle Sam's recognition of his service in the war, has become a political issue again.

It seems as if everyone in the country must have heard about Jerry's strange case and seen his photograph, but Jerry, the gasped and shell-shocked veteran who lost his health and his identity at the same time, knows there is someone, somewhere, who will recognize him eventually. An old pal, a brother, a sister—or perhaps a mother.

All of which explains why Jerry is trading around the streets on what he promises will become a countrywide tour. His objectives are two:

1.—To leave photographs of himself on display in the vestibule of every Catholic church in the country.

2.—To sell copies of "Jerry Tarbot's Book," his own wondrously complete autobiography, in order to support himself and finance his quest for a name.

Sells Book for Dollar. Jerry's ambitious program of placarding the churches with his photographs in the hope that someone finally will identify him permanently and for all time has not yet begun. He is certain he is a Catholic and that he was trained in a Catholic school.

On the other hand, "Jerry Tarbot's Book" is an accomplished fact. Jerry wrote it himself and he expects to sell at least 25,000 copies. He peddles it at a dollar a copy. It consists of about 40 pages of large, closely mimeographed sheets and is cheaply bound in stiff cardboard paper.

To assume the book reviewer's role for a moment—it is considerably more interesting than most books which cost two or three times as much.

Jerry says his chief handicap is that he can't visit more than 15 or 20 prospective customers a day and he has to sit down and tell of his experiences. Unfortunately the listener then sometimes refrains from buying the book.

He's An Issue in Congress. Congressman Carter of California, Tarbot's legislative godfather, promises to take Jerry to the floor of congress during the next session and demand justice for Tarbot such as the government has given to its other maimed and incapacitated heroes.

Carter is at swords' points with Congressman Johnson of South Dakota, chairman of the house committee on world war veterans' legislation, over Tarbot. Johnson tried to brand Tarbot as a fake who remembered his past life very well. Two women were produced, one to say that she had known Tarbot in the past at Sharon, Pa., and the other that she had been married to him for a period of two weeks many years ago.

Jerry takes up all this in a lengthy appendix. Jerry had a wife once he lived in Sharon, and when letters and telegrams were sent here, the woman claimed to recall him as an old friend. Then says Jerry, he came to Sharon and stood outside the woman's house. Several times she passed him, noticing him, but obviously failing to recognize him. He says he offered to try the same stunt on the "wife," but wasn't allowed to do so. The fact seems to be that Jerry is tired of hundreds of identifications which don't seem to mean anything. The stories of the women haven't been disproved, but the "wife" told of tattoo marks on her husband that don't exist on Jerry.

Makes Plea Against War. Here is the wind-up of the 26th and last chapter of "Jerry Tarbot's Book" which follows an impassioned plea against the "hell and fury and agony" of war: "If I last long enough, I may be able to accomplish my ambition. I may be able to dissipate the glacier which is holding the stream of life frozen and immobile. Perhaps some day I shall see again toward the destiny of all human beings. Still swaying uncertainty to the rhythm of the Creator's power, lives yet in me the will to carry on and taste life anew. Perhaps I shall break through. If I don't—well: "HERE'S TO OUR CORPS WHICH WE ARE PROUD TO SERVE "Through many a strife we have fought for life "And never lost our nerve!"

COUNTY SEAT WARS

County seat election fights, which made life exciting in the old days, are not extinct in Texas by any means. Two new items on the same day showed that this old-time custom still exists.

The civil appeals court at Amarillo upheld a recent enactment of the legislature, providing that where a county seat is five miles from a railroad it is not necessary to wait five years after one county seat election before another such election is held. The case came up on appeal from Bradford county, where Spearman and two other towns are engaging in a three-cornered election fight.

Nearer home is the Eastland county case. Residents of Gorman and Carbon are said to have agreed to circulate a petition calling for removal of the county seat from Eastland to Carbon. Carbon, it is claimed, is only about one mile from the geographical center of the county, and in that case a bare majority would suffice to remove the county seat.

Eastland county recently voted \$300,000 in bonds to build a new courthouse, and the city of Eastland seems to have done most of the voting. That, we surmise, is the motivating influence behind the Carbon-Gorman coalition.

Whatever the outcome, Eastland county is in for a political upheaval comparable to the strainings and belchings of a young volcano.—Abilene Reporter-News.

A Thought

There I take pleasure in infirmities, for when I am weak, then am I strong.—2 Corinthians xii:10.

The weakness of women has been given them to call forth the virtues of men.—Madame Necker.

To recognize him. He says he offered to try the same stunt on the "wife," but wasn't allowed to do so. The fact seems to be that Jerry is tired of hundreds of identifications which don't seem to mean anything. The stories of the women haven't been disproved, but the "wife" told of tattoo marks on her husband that don't exist on Jerry.

Makes Plea Against War. Here is the wind-up of the 26th and last chapter of "Jerry Tarbot's Book" which follows an impassioned plea against the "hell and fury and agony" of war: "If I last long enough, I may be able to accomplish my ambition. I may be able to dissipate the glacier which is holding the stream of life frozen and immobile. Perhaps some day I shall see again toward the destiny of all human beings. Still swaying uncertainty to the rhythm of the Creator's power, lives yet in me the will to carry on and taste life anew. Perhaps I shall break through. If I don't—well: "HERE'S TO OUR CORPS WHICH WE ARE PROUD TO SERVE "Through many a strife we have fought for life "And never lost our nerve!"

IN NEW YORK SEE-SAWING and DOWN BROADWAY

NEW YORK, Aug. 3.—Heat waves are made to order for New York's youngsters. Whatever the suffering among the oldsters, it is the signal of the small boys to toss off their clothes and caprice all sorts of hot weather games.

Since there can be no "swimmin' hole," they utilize the public fountains and the river barges. Every form of play requires ingenuity, imagination and effort in New York. To swing in the river one must be quick at dodging tugs, barges and ferries. The rivers are not always clean. But neither are the kids. Now and then the medical board warns of germs and filth, and well, this is New York—you can't have everything!

The youngsters of the public fountains are typical of the city streets—most of them newbies who have tossed their papers aside for the moment, or bootblack. On the staid steps of the custom house, where dignified domos come and go I saw three kids "chawin' beef" on a swimmer the other morning.

A dozen more were rolling around in their trunks almost at the doorway of the Cunard building waiting their turn to jump in the fountain. City Hall square is a real Mecca. Here they lounge from the statue of Civic Virtue and turn the little square into a beach. They dress and undress in the skimpy shrubbery. Thousands, on their way to Wall street, stop to watch.

Over on the East Side the youngsters follow the water carts as the children of Hamelin followed the Pied Piper. They roll in the streets when fountains turn on the water mains, and they sail little boats down the gutters.

At night there is the great adventure of sleeping on the fire escape or the roof. Tough on the old folds—yes, and on the adolescent. The signal from fire escape to boy: "The signal from roof to roof. They get cuffs and slaps and finally, as the humidity envelops them, they fall into a stupor and sleep.

There is little rest for the grown-ups. They sit all night upon the roof tops of in the streets. The tenements are emptied and the streets are a flood of people, all seeking a vagrant breath of air.

And babies! Where do they all come from, so hot and restless and ill tempered?

Many tenement dwellers flee to the battery or to the beaches. The long day beside the pushcart has been too much for them. They must get away or perish. All day long they seem caught in a kettle which fairly boils their persueant wares... old men... old women, standing in the sun... standing and sitting... bargaining and hickering. Old men long past their fourscore, standing uncomplaining, mopping their brows... While all the city steams and complains... What iron is in their veins! What infinite capacity for discomfort and resiliency! Standing throughout the day to build up their little fortunes... And the heat cloaks in, damp, hotter. GILBERT SWAN.

SLATON PAVING COMPLETED ON 35 BLOCKS

COST IS \$300,000 AND TRAFFIC SIGNALS ARE BEING INSTALLED

SLATON, Aug. 3.—The street paving program which was begun a year ago has been finished. Thirty-five blocks have been paved, 20 in the business district and 15 in the residence district.

The total cost of the project is about \$300,000, of which \$100,000 was secured through a bond issue, the other two-thirds representing the shares of expense borne by property owners along the streets paved.

System Connected The pavement now extends all around the public square, one block each way out from the public square on streets leading to the residence section, four blocks to the Santa Fe railway station, two blocks on Lynn street in the business district, seven blocks on West street to the county club house park, eight blocks out on both Tenth street to the high school building, and one block on East Tenth street between Ninth and Tenth streets.

H. Howard, paving contractor, has had the whole paving contract, and the engineering was done by Montgomery and Ward, engineers of Wichita Falls.

Since completion of the paving, officials have found it necessary to inaugurate safety measures to insure the safe travel of the city during the past few years has been rapid, a population of approximately 6,000 now being had, and the surrounding territory likewise has developed rapidly. These facts coupled with the heavy volume of traffic which has been placed at the busy corners and street intersections by ordinances regulating these matters have been published and enforcement program is now being carried out.

With the intention of protecting the public against avoidable traffic accidents, and to make traffic control more efficient, stop block signals have been placed at the busy corners and street intersections by ordinances regulating these matters have been published and enforcement program is now being carried out.

It is reported that local officials as well as residents are observing the regulations cheerfully. A few cases of trouble having been recorded so far. Chief U. L. King of the police department and Mayor S. F. King state that it is seen that the stop signals work well and benefit to the city's traffic. It is the plan of the city officials to improve the system as rapidly and as practically as possible, it was said.

IGNANT WHEN BEE GET DRUNK

CALLIPOLIS, Ohio.—A still, on his farm, has almost ruined the fine apiary of William Harper. The bees fly out every morning for their usual round of honey gathering and many of them return to the hive staggering drunk. Harper couldn't mind an occasional bee as the part of the workers, but the next-home bees won't stand for it. They set upon the inebriated and kill them.

With his hives fast being emptied, Harper has appealed to prohibition officers to seek out the still that he believes is furnishing the intoxicant. He says the bees probably died upon mash left exposed by a moonshine plant.

Frye was set free and advised to make haste to have his lacerated arms treated by a doctor. Later, Tony Arato was again put into the lock-up from which he had escaped. Jack personally delivered Widow Dearborn's little girl over to her distressed mother. Mrs. Dearborn, in her gratitude, treated Garabaldi to a loaf of bread that was heavily smeared with honey.

When the evening shadows fell again, a bright and cheerful fire illuminated the camp-site of Jack Lockwill and his friends. Tony Arato, smoking his pipe, sat on a log and told stories in his queer broken English. The bear slept on the ground nearby, Bambi, half reclining, also fell asleep, her head pillowed on the bear. "What a picture!" said Jack, looking at her. (The End.) NEXT STORY: Jack Lockwill in Summer Camp.

MANY AMUSING SITUATIONS IN TRADE MARKED

AMERICAN MADE GOODS ARE SLOWLY GAINING IN FOREIGN LANDS

HOUSTON, TEXAS, Aug. 3.—Old situations in the quest for business daily pass in review before Ernest L. Tutt, manager of the southwest district office of the Department of Commerce, whose advisers come from many parts of the world.

From China comes the hint that American flappers may be about to abandon bobbed hair styles. Exports of human hair from Canton to the United States doubled in April over a year, which suggested to Mr. Tutt that American women may be "going back to long hair." Official figures show Mr. Tutt said that April exports were 58,435 pounds valued at \$29,119 as compared with 27,996 pounds valued at \$16,557 in March.

Soda Fountains
Sweeping over into Czechoslovakia, Mr. Tutt notes that the first typical American soda fountain and "quick lunch" room ever attempted there has recently been opened in Prague and is catching on with remarkable success. During the first three months of its operation 1,000 persons were served daily with practically no advertising. Since it is the first attempt of the kind in that country to introduce American sodas and other soft drinks and sandwiches to the Czechoslovakian public, Mr. Tutt thinks it merits more than passing notice because it suggests similar opportunities in other parts of the world.

Apparently a similar situation is developed in Japan where installation of soda fountains is increasing year by year. The number in Tokyo alone is estimated at 25 or 30. The total may seem small, Mr. Tutt observed, but added that it showed a large gain in three years. Most of the soda fountains are American made.

Many Other Instances
Many other curious instances of the effect America and Americans have on people of other lands are observed in Mr. Tutt's correspondence. For instance 11,000 tourists annually visit Palestine. They usually leave about \$125,000 in the country in the form of transportation, hotel accommodations, sight seeing fees and purchases of the curious souvenirs. About 75 per cent of the tourists are Americans whose average stay in Palestine is from three to five days.

Then there is the matter of the Chinese egg business which is in the doldrums. Just now because of internal strife has interfered with transportation of eggs to concentration points where they are dried or frozen. In Shanghai production of dried egg products has shrunk to 15 per cent of normal and amounts to about 100 tons of yolk and 50 to 60 tons of albumen. Meanwhile China's largest frozen egg plant at Hankow, which normally employs 6,000 hands, is closed and other plants there are operating low schedules because of reported monetary restrictions.

Jazz Music Liked
American jazz music enters also into the array of things in England apparently the public likes it, including the Prince of Wales, if a considerable increase in exports of American jazz instruments can be accepted as an indicator. Within five years exports of band instruments has increased in value from \$2,514 to \$121,034 which Mr. Tutt believes is significant of the British popular demand of this type of music.

Experts, however, work the opposite way in the case of Jelutong, found only in the jungles of the East Indies and used as the basis for chewing gum and several other popular confections for which Mr. Tutt learned, there is a large demand in Texas. Jelutong, he explains, is the coagulated sap of the wild dyera tree which flourishes in the island of Borneo, British Malaya and Dutch Sumatra. Singapore is the only important market which absorbs for export approximately 7,500 tons annually, 90 per cent of which is consumed in the United States. Formerly, Mr. Tutt pointed out, is the principal growing area where Jelutong is gathered by the original "wild men of Borneo," a primitive people who alone dare the dangers of the jungle together the sap. The dyera tree usually attains a height of 100 to 150 feet and a diameter of three to six feet.

Prices Slump With Coolidge Statement

NEW YORK, Aug. 3 (AP)—A wide open break in prices took place on the New York stock exchange today as Wall Street's initial reaction to the announcement that President Coolidge did not choose to be a candidate in 1928.

Trading was unusually heavy, with blocks of 5,000 to 10,000 shares quite common in the early dealings. Initial losses in the popular issues ran from 1 to 2 1/2 points. The first sale of Atchison was a block of 5,000 shares at 193 off 5 1/2. Initial losses in some of the other popular issues were Union Pacific 5, Baldwin 4, Chrysler 3, Allied Chemical 4, Eastman Kodak 5 1/2, Reading 3 1/2, General Railway Signal 2, International Nickel 2, Hudson 3 1/2, Houston 2 1/2, Genesee Steel 2, United Drug 3, and General Asphalt 2.

Probably It Is

PHILADELPHIA.—Now the hot roting of some home town baseball fans is explained. They have mental hypertrophy, in the opinion of Dr. Thaddeus L. Bolton, professor of psychology at Temple university. A hypertrophy is a growth like bunions and boils. Mentally, the doctor sets forth, a hypertrophy is manifest in the case of the baseball fan "by a tendency toward over-ardent, hysterical devotion to one particular sport."

Other policies written by four companies are: \$15,000 on the Spirit of St. Louis if destroyed by fire; \$10,000 for property damage and \$100,000 for public liability. Any aviator may now insure his life insured for a special premium.

Evangelist Is Rotary Speaker At Meeting Here

Dr. Will Hogg turned Rotarians from uproarious laughter to demure eyes at noon today when he appeared as the principal feature of the club's regular weekly luncheon program at Hotel Lubbock. The visiting evangelist, in the few minutes that he spoke, proved to his listeners why his reputation as a speaker, a preacher and an entertainer is nation-wide and on top of his contagious good humor sent the business men back to their desks better for the hour's program.

Doctor Hogg, Rev. Sam Williams, Howard Goodpasture and Misses Mary Hogg and Beale Rice, all members of the evangelistic party now engaged in a section-wide revival campaign, were guests of the club. Mr. Goodpasture, music leader, sang a solo, "Good Night and Good Morning," accompanied by Miss Rice at the piano. For another part of the party's contribution to the program.

Prior to the numbers by the gospel party Ira Jenkins, local manager of the Western Union Telegraph company, spoke entertainingly upon his membership classification. Rev. Walter P. Jennings, president, was in the chair, while E. D. Rupe had charge of the program.

Plains Pioneers Meet Tomorrow In Big Jubilee Here

About 600 "old timers" who have watched Lubbock grow from a mere trading post to a cosmopolitan city with 20 years, will meet at the county fair park tomorrow afternoon at 3 o'clock for the third annual reunion of the Lubbock County Pioneers association. Meeting under the machinery shed of the park, there will be ample shade and ice water to cool the hundreds who will attend. During the afternoon the pioneers will talk over "other days" and part of the mid-afternoon hours will be devoted to speeches.

At 3 o'clock an old-fashioned basket dinner will be served, while coffee and ice will be furnished by local individuals. E. P. Earhart, sec. president of the association, has urged that each family bring a basket full of eats.

Following the get-together meeting a business meeting will be held in which election of officers and various other matters will be attended to.

Mitchell To Open Confectionery Soqn

In the building recently vacated by McWhorter and Roberts, main and Texas Avenue, F. K. Mitchell is making improvements today for the establishment of a drug store and confectionery.

Work on the placement of the fountain started today and within the next month Mr. Mitchell will have all equipment installed for operation.

Knee Display To Continue, Report

NEW YORK, Aug. 3 (AP)—The up-to-date Miss will continue to display half a knee beneath her fall ensemble, the annual fall fashion show of the garment retailers of America has revealed.

A pronounced revival of the flared silhouette in dresses and a maintenance of the straight, wrap-around lines in coats were indicated at the exhibit last night at the hotel Astor. Boyish models were absent.

Four new colors were sponsored. They were orange, a gold and orange shade; autumn, a brown and tan blend; bluegrain, a new drab blue, and rubique, a ruby and black combination.

NEW YORK TRADING... NEW YORK, Aug. 3 (AP)—A decline of approximately \$3 per barrel occurred in the cotton market today. Under heavy general liquidation inspired by a severe decline in the market for Egyptian cotton, at Alexandria, weakness in Liverpool, and a favorable interpretation of the weekly weather report. Some also to the unsettling effect of sentiment on President Coolidge's statement.

December contracts, after selling off to 17.57, at the start, rallied to 17.84, but weakened again, selling off to 17.45 during the early afternoon. They were trading around 17.50, at mid afternoon with the general market showing net declines of 55 to 60 points.

NEW ORLEANS TRADING... NEW ORLEANS, Aug. 3 (AP)—Weak cables, a good weather, fears of a large crop movement in August, and anticipation of a bullish government report next Monday and extensive liquidation of the weak long interest caused cotton prices to sag nearly \$2.75 a bale here today. Although the declines were followed by moderate rallies, the market, at mid afternoon was near the lows, with October at 17.55 and December at 17.57, 68 to 69 points over the day totalled 6.221 bales.

WALL STREET TRADING... NEW YORK, Aug. 3 (AP)—Stock prices broke 2 to nearly 10 points off at the opening of today's market on a wild outburst of selling presumably inspired by President Coolidge's announcement that he did not choose to be a candidate in 1928. Large blocks of stock were thrown into the market by professional traders who have been hoarding the recent advance. Houston Oil collapsed \$5 points on the first sale. General Motors 4, Eastman Kodak 3/4, Union Pacific 1/2 and scores of others including U. S. Steel common, Baltimore and Ohio, Baldwin Locomotive, United Drug and Reading showed initial losses of 3 to 4 points. Commercial Solvents B broke 1 1/2 points on the first sale. Strong buying support was quickly forthcoming in the general market, the largest loss being recorded on initial sales in many instances. Rallying tendencies were quite pronounced in some of the recognized leaders. General Motors rallied from a low of 22 1/2 to 22 3/4 before the end of the first half hour. Westinghouse Electric rallied five points, Baltimore and Ohio 4 and many others, including U. S. Steel common, from 1 to 3 points. Foreign exchanges opened steady with demand sterling quoted at 4.87 1/2 and French francs at 3.91 3/8 cents. The recuperative power which the market showed caused a wild scramble by the shorts to get stuck with the result that the early declines were reduced to fractional proportions in many cases and several leaders reached new peaks. Dupont which started 15 1/2 points lower at 2:30, soared to 29, a record price. Timken roller bearing advanced back from 132 to 142, also a new high figure. Hasty profit taking took the edge off the rally around midday when U. S. Steel, Baldwin, General Motors and other influential issues were 2 points or so below the best price on the recovery.

FOREIGN EXCHANGE... NEW YORK, Aug. 3 (AP)—Foreign exchanges steady; Great Britain demand 4.85 1/2; cables 4.87 1/2; sixty day bills on banks 4.81 1/2. France demand 2.91 3/8; cables 2.91 1/2. Italy demand 5.13 1/2; Belgium 12.89; Germany 23.78 1/2; Tokyo 47.90; Montreal 95.84 3/8.

CHICAGO TRADING... CHICAGO, Aug. 3 (AP)—In the face of price breaks in stocks and cotton, grain markets displayed unusual steadiness early today. President Coolidge's announcement had no apparent effect on cereals or provisions, all the pits presenting a hand-trim appearance, with price changes only fractional. Opening unchanged to 3/8 cent off, wheat showed a slight rally. Corn was firm, starting 1/2 cent off to 1/4 cent up, and later showing

small general advance. Oats sagged a little. Provisions were easy.

Garageman Would Be Custodian of Auto Headlights... (By Associated Press) ALSTIN, Texas, Aug. 3.—The garageman would be made the ultimate guardian of the public's automobile headlights under a safety plan announced here today by W. B. Schultz, engineer of the state highway division.

Schultz appealed to garage and filling station operators over the state to notify their motorist customers immediately of any defect in the latter's auto lights. He suggested that the operators ask the driver of the car which stops at their place of business to switch the lights on a moment. Tell him immediately if any of the three lights does not burn. Most persons will thank you for this courtesy and will be the best way to get in touch with them—when they came for battery service or gasoline.

This plan will save many lives if we can get cooperation. Schultz disclaimed any desire to "make arrests" and said "intelligent people," if told of lighting defects, "can see the safety in displaying the proper lights."

He suggested that those who observe a faulty light should report it to the headlight division where "the cases will receive attention."

WASHINGTON, Aug. 3 (AP)—The suggestion that President Coolidge's statement as to his candidacy might be connected with the Geneva naval conference has been waved aside at the state department. There could be no possible significance attached to the president's statement in so far as its bearing on the conference deadlock was concerned, it was stated.

NEW INSURANCE FIRM... H. W. Weldon, representative of the firm of Moore and Beville, insurance agents of Wichita Falls, is in Lubbock to establish a local office of the firm. The insurance agency will be located in the Leader building.

In 1922 it is said there will be a serious shortage of boys, due to the lower birth rate during the World War years.

NEWS AND VIEWS OF OIL OPERATIONS ON THE SOUTH PLAINS

EDITED BY EARL THOMPSON, PHONES 13 OR 14

SECOND KANSAS CITY GAS LINE FROM PANHANDLE Contract for a second gas line in Kansas City and intermediate points from the field north of Amarillo was announced Saturday by the Knorr Pipe Line company of Amarillo.

A thirty year franchise from Kansas City for industrial gas has been secured, according to J. L. Knorr, president of the company, announced on his return from Kansas City Saturday, and a line capable of carrying 152,000,000 feet of gas daily will be built, he said.

Under terms of his contract with Kansas City the fuel will be furnished for 25 cents per 1,000 cubic feet. Work will begin on the line within 90 days, Knorr said. The project will cost upwards of \$20,000,000 he estimates. Gas rights have been secured from Mayor Burtens, J. T. Street, Terry Thompson and J. M. Stanford all landowners in Potter, Moore and Hutchinson counties.

Work is already under way for the Empire Gas and Fuel company's line from the Panhandle to Kansas City.

OIL MAN RETURNS Jack Cooldige, of the founding and Phillips oil company, who is headquartered at the Hotel Lubbock, returned to Lubbock this morning from a fishing and hunting trip in South Texas.

DECLINE OF 2,345 BARRELS IN WEST TEXAS SHOWN

Steady gain in the daily average crude oil production of West Texas for a whole during a period of several weeks was halted last week when a decline of 2,345 barrels was recorded. The daily average was 40,480 barrels.

The significant feature was the failure of the Crane county production to gain, despite the completion of quite a few new wells, and the fact that the Crane county field held its own. It has been producing steadily for several months.

Sharp declines in the production of the older fields in the University pool leads to the belief by some that the field has "passed the mark" despite the fact that it might be contributed to in the offset of producing of the pipe line runs.

The bulk of the decline came from the Panhandle, which was off slightly over 3,000 barrels. The Central West Texas was slightly up due to gains in Brown county, and the Ranger district and also gains in Callahan county. The latter was due to new production in the West Cross Plains pool and to production from the Empire Gas and Fuel's deep wildcat on the Johnson farm 15 miles west of Crane Plains.

Young county also showed a substantial gain due to the completion of the Panhandle's No. 7 McCluskey at South Bend for another production from the Stovall (Bend Line) deep pay. The effect of its production which has now increased to 2,000 barrels, is not reflected in a full week's period.

Harkey Reports Full Attendance At Scout Camp

L. S. Harkey, president of the Lubbock council of Boy Scouts, returned from a scout encampment at Post yesterday afternoon.

Mr. Harkey reports a full attendance in camp with practically all towns of the South Plains having a good representation. The number which has gone beyond the 100 mark, has somewhat crowded the capacities of the camp.

Monday was a busy day for the boys who were active in pitching tents and getting in preparedness for the actual scout work which started yesterday. Much pleasure has been exhibited by the boys with the announcement that A. H. Watts, former executive of the South Plains area, will attend the camp later in the period. Mr. Watts is now regional executive of the Dallas office of Boy Scout of America.

COOLIDGE

(Continued From Page 1) jority of them expressed no comment awaiting further elucidation of its portent. Of Mr. Coolidge's official family three cabinet members, Secretaries Hoover, Kellogg and Attorney General Hoover were silent, while Vice President Duggan and Secy. War expressed regret.

Two of the leading views which did not accept the statement that Mr. Coolidge has signified his withdrawal were those of Senator Smoot of Utah, an administration leader, and William M. Butler, republican national committee chairman and a close friend of the president. Senator Smoot said he construed the meaning of the statement as Mr. Coolidge would run if the republicans decided to nominate him but that he personally preferred not to run, while Mr. Butler of New York, declared he was "not convinced he will not run if nominated."

From the democratic leaders there was little expression of opinion. None of three democratic candidates, Governor Smith of New York and Governor Ritchie of Maryland and Senator Reed of Missouri, made any comment on the announcement, while Clem Shaver, democratic national committee chairman at Fairmount, W. Va., said he was "not surprised" and the statement "makes the political situation doubly interesting."

An interesting viewpoint was the belief that the support of the president will be thrown to Secretary Hoover expressed by former Senator Harold of Oklahoma, at Oklahoma City, who also said he had learned that Mr. Coolidge had been offered the presidency of Amherst college. A supporter of former Governor Lowden's candidacy, Governor McMullen of Nebraska, at Lincoln, on the other hand interpreted the announcement as an opportunity for the agricultural states to support some one in sympathy with the problems of agriculture.

The New York world (democratic)—"By his voluntary refusal the president has added great weight to the great principle (the anti third term tradition) which his less thoughtful supporters were leaning ready to abandon... we believe the president has spoken without reservation of any kind and that he has done a great service in the preservation of the essential spirit of the American constitutional system."

The Kansas City Star—There is, however, no other party leader sufficiently outstanding to be Mr. Coolidge's logical successor. The country in general has confidence in his ability and his sincerity. The Star believes the public sentiment will insist that, in spite of his personal preference, the republican party will re-nominate him in 1923.

The Kansas City Journal—Mr. Coolidge's announcement immediately strengthens him with the coming campaign, his motives will be beyond question and his increased popularity will insure large support in such measures as he espouses or opposes. Mr. Coolidge serves both his country and his own fame in making his decision.

The Nebraska State Journal (Lincoln)—There are few who are not surprised by the President's announcement. The veto of the McNary-Haugen bill and refusal to call a special session of congress for flood relief have formed a sentiment against him strong enough to make the possibility of Mr. Coolidge changing his mind very slight.

Prices Break On New York Market NEW YORK, Aug. 3.—The stock market broke three to nearly sixteen points on the first onslaught of selling which followed President Coolidge's statement that he did not choose to be a candidate in 1923 and immediately staked a remarkable recovery which substantially reduced, or wiped out, most of the early losses and carried a few issues to record high levels.

Cotton futures broke about \$2.50 a bale at the opening, following a sensational decline in the Liverpool market which had an earlier outlook A. I. E. L. It's Good Advice

None Of Winners In Bicycle Race Is Tobacco User

Of interest to youthful aspirants of athletic achievements, it is the fact that neither the winners of first, second and third places in the 250 mile bicycle marathon smokes any form of tobacco.

"Blonde" Wiggin, well developed lad who won first place in the race and displayed an unusual faculty for endurance, says he has never used tobacco and never intends to. It is believed that the trip which "Blonde" made in 27 hours and 42 minutes time is a record, considering age and the distance of the marathon.

Friends of young Wiggin say the conquering chap takes considerable interest in physical training. The light haired, red complexioned, hardened boy is looking forward with much interest to participation in college athletics.

Only 15 years old, the victor is a senior in Lubbock high school this year. He has an ambition to get an appointment to West Point, he says. Walter Glazner and Marvin Pann, winners of second and third places, respectively, say they will continue to have an interest in developing their bodies to stand similar tests to that in which they were entered. They will never smoke tobacco, they assert.

opportunity because of the difference of time to discount, the Coolidge statement.

Sugar futures showed little change in the early trading. Rubber futures dropped 20 to 44 points but met good support at the lower levels.

Hoover Boomed For President

CONCORD, N. H., Aug. 3 (AP)—Governor Huntley H. Spaulding of New Hampshire last night proposed the name of Secretary Hoover as the logical republican nominee for president in 1923 in view of President Coolidge's announcement that he did not choose to run again.

Former Senator Hoover Follower

OKLAHOMA CITY, Okla., Aug. 3 (AP)—The support of the president would be thrown to Herbert C. Hoover, secretary of commerce for president was the belief expressed here last night by J. W. Harrell, former republican United States senator from Oklahoma.

Keen Interest Is Shown In Mexico

MEXICO CITY, Aug. 3 (AP)—Keen interest was shown in both Mexican and American circles over President Coolidge's announcement that he was not desirous of becoming a candidate in next year's elections, but officials avoided formal comment.

British Press Is Much Perturbed

LONDON, Aug. 3 (AP)—British official circles gave almost as much attention today to President Coolidge's announcement that he does not choose to run in 1923 as they did to the hurriedly convened cabinet meeting to consider the Geneva naval conference.

The president's bald statement was generally interpreted as having some relation to the Geneva impasse, but British officials with experience in American affairs discounted the connection. One official who has had considerable experience in the United States, expressed the opinion that the announcement was more the result of the domestic situation than any thing that happened at Geneva.

The Star, liberal paper, editorially remarks that the president's announcement has bewildered "the New York experts," and that consequently it is not surprising that London finds it "very difficult to read the riddle of this Yankee sphinx."

Fall Over Virtues "It seems," the paper continued, "that America's presidents fall because of their virtues and not their vices. Roosevelt, when he became the trust buster, was not re-elected. Wilson fell because he was not able to carry the country and the senate was here today enroute to Big Spring and points in the West Texas oil fields. He says the oil business is very quiet in the Panhandle fields.

Two Men Killed In Explosion At Gin

BEEVILLE, Texas, Aug. 3 (AP)—Two men were killed and another was probably fatally injured in an explosion of a gin at Mikeoka, in Live Oak county yesterday. The dead are Earl Frazier and Ernest McCumber, and injured man, James J. Gallagher, is here in a hospital. The gin, owned by J. S. Hill of Beeville, was wrecked. The cause was undetermined.

Hoover Regrets Coolidge Action

FALO ALTO, Calif., Aug. 3 (AP)—Herbert Hoover, secretary of commerce, commenting today on President Coolidge's announcement that he did not choose to be a candidate for re-election in 1923, declared:

"I regret the suggestion in the president's statement. However, I still believe as I stated in Chicago two weeks ago, that President Coolidge should be renominated and re-elected."

Japan To Permit Landing Of Birdmen

TOKYO, Aug. 3 (AP)—The Japanese government has granted informal permission for the landing on Japanese soil of Captain William P. Erwin, American army aviator, who is now planning a trans-Pacific flight. The permission was granted through the American embassy at the request of the department of state.
