FATHER-SON PAINFULLY BURNED EARLY SUNDAY

Following an explosion in the family home, J. T. Lamberson and son "Buddy" were seriously burned and the home destroyed as J. T. prepared to rinse his clothing, cleaned with gasoline, in the washing machine. Both are in a Pampa hospital with second degree burns, occurring on the arms, legs and backs.

The misfortune came on the Combs-Worley lease at the Wilcox Gas Camp near Pampa.

Lamberson, truck driver for the company had washed out his work clothing with gasoline in the yard, and took them to the kitchen to rinse them. As he put the clothing in the washing machine, the fumes exploded.

Flames spread rapidly through the five room home trapping the father and son in the kitchen. Mrs. Lamberson, who was preparing breakfast, and "Sonny" in the next room, are said to have escaped unharmed.

Pampa firemen arrived too late to save the home, but did save surrounding homes that were near the burning structure.

Many firms in Pampa as well as individuals, hurriedly responded with contributions to the family's needs. Among the many gifts was included a new washing machine. Other firms gave clothing, bedding and various household effects.

The injured members of the family are said to be steadily improving at this time.

The family is well known in Donley county where the family resided for years, J. T. Lamberson being a son of Mr. and Mrs. S. W. Lamberson here.

Mr. and Mrs. Charley Bairfield have returned from Los Vegas, New Mexico where they visited at the Western Life Camp.

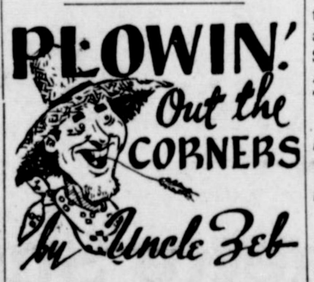
REVIVAL AT GOLDSTON TO BEGIN AUGUST 23

A revival will begin Monday August 23rd at 8 p. m. at the Goldston school house. Rev. Ernest Phillips of Lelia Lake will do the preaching. Every person in this community has a cordial invitation to attend these services.



If I ever enjoyed anything in my life, I enjoyed my trip to South Texas and the family Reunion. It was in connection with an Old Baptist Association with "Dinner all day, and preaching on the ground". I never ate so much fried chicken and all the trimmings in my life. The kin-folks were there from the forks of the creek and all over the flat country too. Anyway, I came home happy, thinking more of the people that I was kin to, and loving all the people in the world a little more. I would like to mention some of the ones that were especially nice, but it would take a whole column, and then I might leave out one and hurt some ones feelings, so, God Bless them each and every one, and may I go back and be with them again next year.

Did any of you read the ad in the Claude News last week? I hope not. It was a stab in the back, so to speak. Taking advantage of the fact that I was out of town to initiate a campaign to encourage me to move North. Anyway, I received a letter from some

LARGE CROWD ATTENDS OLD SETTLERS PICNIC

A large crowd was in attendance for the annual Old Settlers picnic at Tate Grove northeast of Hedley last Friday with numbers coming from distant points for this celebrated gathering.

A grand and glorious time with plenty to eat was the outstanding report from all attending. The varied program throughout the day under the supervision of Chas. Rains kept everything humming right along.

There were plenty of people there to debunk the old superstition connected with Friday the 13th as there was no time to think about bad luck or anything else with all the visiting going on among the old timers. It was a swell affair and everyone is already looking forward to the annual celebration next year.

ADDITIONAL RAINFALL COOLS AUGUST—HELPS CROPS

More rain over the county over the weekend helped to cool off August weather and further boosted crops in this area. The Weather Station at the Airport reported .85 inches precipitation as a total amount measured over Thursday, Friday and Saturday. The majority of the rain fell Saturday night. The rainfall was general over the county, but varied greatly in various districts.

Never before has the crop situation looked so well, agriculturists say. Barring the possibilities of hot winds or insect menaces, a bumper crop in Donley County is inevitable.

He also stated that the Council was going to erect a press and announcers box above the bleachers on the south side of the playing field which will afford a better record of the game and give the loud speaker announcer a chance to give a better play by play description of the game.

Soil Conservation Tour Slated For Tuesday, Aug. 24

Many farmers and ranchers in Donley County are interested in planting of grasses and getting old land back to grass. The soil conservation district of Donley county has been very active in this work and to show the results of some of the fine work done, county agent H. M. Breedlove, advised this morning that a tour of some of the demonstrations would be held on Tuesday August 24.

The tour will start at eight thirty in the morning at the county agent's office, and it will last most of the day. Breedlove says that the demonstrations to be visited have been worked out with Mr. Carman Rhode, local district conservationist and the board of supervisors composed of J. R. Porter, chairman, Winfred Doherty, vice-chairman, Chas. Bairfield, secretary, J. A. Tollett, and T. C. D'Spain. Mr. Quentin Williams, of Pampa, district conservationist for the soil conservation service, will also be on the tour. Uncle Jay of Amarillo also plans to be on the tour. It is planned at this time to make about ten or twelve stops to look over demonstrations. Every one is invited to attend this tour regardless of whether you are a farmer or rancher or not. Remember the time the tour will start and be on time to leave with the entire group.

This tour will be very educational and show some of the work being done in Donley county, and Breedlove is asking that everyone take off this one day and look over the demonstrations and possibly you will see some things that you might want to use on your own farm or ranch. The group will eat lunch in Clarendon and assemble at the County Agent's office at 1:00 p. m. to start the afternoon part of the tour.

R. E. Drennan has advised us that the Lions Club and Chamber of Commerce will give the entire group making the tour a free hot dog dinner at the noon hour.

He was taken to a Wichita Falls hospital where surgeons report his condition as very critical. He received a broken neck and several other injuries to his spine.

It was reported that Mr. Keener was riding with another man and his son and the car sideswiped a truck and the point of contact was apparently on Mr. Keener's side of the car. Mr. Keener has been making his home at Vernon for several years after leaving Clarendon.

COMMITTEES NOW BUSY WORKING ON PLANS FOR DONLEY COUNTY FAIR

Committees are now busy working on plans for the Donley County fair to be held in Clarendon on October 1st and 2nd. The fair in Clarendon is being held just prior to the Amarillo Tri-State Fair so that county agent H. M. Breedlove can prepare the county display at that fair from the exhibits in the Donley county fair.

Mr. E. L. Grove of Hedley is superintendent of the Donley County Fair agriculture exhibits; Mr. Joe McMurtry and Harry Brumley have the horse show and Pat Slavin is in charge of the races.

Mr. C. L. Lewis, president of the show board and county agent H. M. Breedlove, manager of county shows, predict that Donley county will have the biggest two day fair ever held in the county.

The show board will meet in the next week to complete plans for the fair, horse show and races.

Remember the dates—October First and Second.

WINTER LEGUME PRACTICE ANNOUNCED

Information received in the local AAA office this week will answer the questions of several of the producers in Donley County. In answer to several letters written there has only been one that indicates a supply of winter legume seed. The Bartlett Feed Store & Hatchery at Childress have at least a limited supply of these seed. The prices quoted in their letter are: Austrian Winter Peas, $9.25 per hundred pounds; Hairy Vetch, $24.00 per 100 lbs.; and Dixie Wonder Peas, $9.75 per 100 lbs. The producer will be required to pay this price plus the freight from Childress.

The AAA payment on these seed will be: $13.80 per hundred for Hairy Vetch, and $5.50 per hundred pounds for Austrian Winter and Dixie Wonder Peas. This payment can be made to any producer who carries out the winter legume practice according to specifications. The specifications for 1949 are: the seed must be innoculated before seeding, 20% superphosphate must be applied to winter legumes at a rate of not less than 200 pounds per acre (except on land where there has been an application to some prior crop). Dixie Wonder and Austrian Winter Peas must be seeded at a rate of not less than 30 pounds per acre with a drill, and Hairy Vetch must be seeded at a rate of not less than 15 pounds per acre if drilled.

Each producer may obtain his own seed from the Bartlett Feed Store or may order it through this office. The 20% superphosphate may be obtained from Forrest Sawyer or Nolie Simmons.

POLIO CASE HERE CLARIFIED BY PAMPA NEWS

Some two weeks ago a report was published in the Pampa News and also in the Amarillo paper stating one case of polio had been reported from Donley County. No one here could account for such a report so Mayor Cap Morris got busy and wrote the Pampa News for source of their information. The name of the polio case was listed as W. A. Tacker, Jr.

The News reporter stated in a letter to Mayor Morris Monday that young Tacker and his mother were really from Cedar Valley, Texas and were visiting at Alanreed enroute moving to Clarendon. He stated further that Pampa has had their eighth case for the month of August and this was already enough for Gray and Donley County both.

The state's mass chest X-Ray unit will be ready for operation at 8 o'clock tomorrow morning in the Rundell & Estlack Machinery building and will continue until 5 o'clock both Friday and Saturday, August 20th and 21st, George Norwood, local druggist, has announced.

Every adult over the age of 15 is given this opportunity to have a freeX-Ray made, Mr. Norwood said. People in the county are urged to come to town one of the two days and take advantage of this service, he added.

It is not necessary that any clothing be removed it was explained. Removal of objects from pockets in the chest area is all that is required and it takes only 2 minutes of your time to take the X-Ray.

This is not a compulsory service, it was made clear after such a question arose, but rather a voluntary one.

TB tests were not given in the schools this year in anticipation of this program, Mr. Norwood explained. Tests will be given all students under 15 this fall, he said.

The ordinary cost of an X-ray is from $5 to $25. People taking advantage of this free service are at least saving that sum. It is free and not a charity service. Use of this machine has already been paid for by taxes and purchase of Christmas seals.

This service can mean a lot in regard to the future happiness and health of anyone showing any signs of TB, for if it shows up in the test you will have an opportunity to combat the disease before it makes too much progress.

Remember, this service is free and includes every person regardless of race or color in the county, and it's for your own benefit to go by and use the service while it is here.

Clean-up Drive Proves Great Success; To Be Repeated Friday Week

Very few people here in Clarendon need to be told that the Clean-up drive was a great success and that a wonderful job was done, but the writer along with all others concerned, wishes to pitch just one big bouquet. It was a swell job and everyone that had any part whatever from the smallest task to the lending of equipment, etc., is to be commended highly.

As usual there were a number of residents who did not cooperate in any way; there were others who were away on vacation or due to sickness which is excuseable. Almost a majority of business firms closed and men, women and children pitched in to do the best they could, where and whenever they could.

Even though several tons of trash was moved in a steady stream to the dump ground and the situation was greatly improved, there is still a great need for further work along this line, so the committees in charge, along with the city commission, have set aside Friday week as another Clean-up day with the same specifications and to be operated in the same manner as the drive last Friday. Volunteers will be needed in every department to completely finish the job this time as more time was needed during the last drive to do a thorough job.

J. W. Murphy has been named as chairman of all committees and will direct the forthcoming drive. In the meantime everyone who hasn't cleaned up is asked to get busy and do all they can so the trucks can start moving bright and early without delay.

The city commission is pointing out and stressing at this time that all residents who have toilets within 200 feet of a sewer line is required by law to connect up with the sewer line. All others farther than 200 feet away from the line should contact the city for specifications as to how the toilets should be kept as they will be inspected by the city periodically in the future.

They pointed out also that all hogs within the city must be removed immediately, and all other stock lots should be kept very clean to help prevent an outbreak of polio and other diseases.

GETS GREATER RELIEF FROM USE OF RETONGA

Gas On Stomach, Muscular Aches and Pains, Sluggish Elimination, Weakened Feeling, All Promptly Relieved, Says Mrs. Era Manning.

"A good friend personally recommended Retonga to me and I can say that she did not praise this fine medicine half strong enough," gladly states Mrs. Era Manning, respected resident of 408 Barrera St., San Antonio, Tex., and the mother of seven children. Mrs. Manning gratefully continues:

"I had no appetite and soft foods were all I could force down to keep me going. Food seemed to sour in my stomach and burn inside me like acid. I suffered so much distress from gas on my stomach and bloating that sometimes I could hardly get my breath. I felt weakened and worn-out. My shoulder and arm muscles pained and ached something awful and I had to take strong purgatives to relieve my sluggish bowels. My whole body seemed full of toxic poisons.

"Retonga gave me greater relief than all other medicines I have tried. I have a grand appetite now, eat anything I want, and no longer suffer distress from sour stomach and acid indigestion or take those harsh purgatives. I sleep good, feel refreshed when I get up, and my housework is a pleasure instead of a drag. No one can be more thankful than I am for Retonga."

Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline Vitamin B-1 deficiency, and constipation. If the first bottle fails to give you gratifying relief, your money will be refunded. You can get Retonga at Rexall Drug Store.—Adv.

Serrano, World's Best Educated Horse To Perform At Dallas State Fair, Oct. 9-24

DALLAS—Serrano, the world's best educated horse, has been signed as a feature attraction of the 1948 State Fair of Texas, Oct. 9-24.

The State Fair appearance of the psychic horse with the "college education" will be the animal's only showing in the nation this year other than in California and it will mark the first time the horse has been seen out of California.

The $100,000 horse, one-half American Saddlebred and one-half Morgan, can add, subtract, divide and multiply figures, ascertain ages by "mind reading," unscramble words through "telepathy," find objects hidden under boxes and pick objects by color. Serrano can spell any word in any language.

Jack C. Dutton and Clint Brush, owners of Serrano, have a standing offer of $5,000 for proof that audience participation in Serrano's feats are prearranged.

The horse uses lettered or numbered blocks in nearly all of his tricks. The blocks have leather loops atop them which the horse picks up in his mouth. In adding the horse works from left to right, reversing the human method.

The only horse ever to approach the mental abilities of Serrano was Muhamed, greatest of the almost lengendary Elberfield horses of Germany.

THE TEMPLE OF TRUTH

By the Apostle

FOILED.

About the time the calamity drouth howlers get started these days, it has to rain again, and again. Not so much each time maybe, but it rains. Since thinking the matter over, it always has rained.

MODERNITY.

Another advantage of the new look. It's hard to appreciate the flower of womanhood when you can't see the stems.

COMPARISON.

In these days of 5-day weeks, the following statement escaped into a kitchen of a Panhandle lady: "Come Five-Day-Week and get the supper that Seven-Day-Week has cooked for you!"

DISCOVERY.

My granddaughter of four, in gazing at my pipe cleaner hastens to inform me that "a pipe cleaner is a darning needle with long-handled underwear on."

EXPLANATION.

Gossip is the art of saying nothing in a manner that leaves nothing unsaid.

WARNING.

Hey, fellers, when she begins to call you by your first name, it's your last name she is really after.

POSITIVE.

A want-ad in a Panhandle daily recently reads: "Sleeping rooms for rent; suitable for couple; man and wife preferred."

CLEAN-UP AFFAIR.

And while we are on the subject of oddly worded want-ads, here is one that edged into an Iowa daily Thursday: "Wanted, man to wash dishes and two waitresses."

DEFINITION.

Ignorance is something you don't know anything about until after some one else does.

Stanley W. Hayne reading the vows.

Mrs. Rayburn Smith, organist, played Liesbestraum as the prelude. Mr. Clyde Hudson sang "I Love You Truly" by Carrie Jacobs Vaughn and "Ah Sweet Mystery of Life" by Reginald de Koven.

Mr. Odell Davis, brother of the groom, served as best man. Mr. Jim Palmer and Mr. Bob Parker were ushers.

Miss Johnnie Johnson attended the bride as maid of honor. She wore a yellow eyelet embroidery organdy dress with a scalloped neckline and a yellow satin sash. Her flowers were yellow carnations and sweetheart roses in the shape of a coronet.

The bride, given in marriage by her father, was attired in a white eyelet embroidery dress with scalloped neck and sleeves. Her veil was fashioned from illusion net and organdy attached with sweetheart roses. The bridal bouquet was an orchid surrounded by sweetheart roses.

The mother of the bride wore a black and white dress with white accessories. Her corsage was fashioned of red gladiolus. The groom's mother was dressed in black accented by pink accessories. Her corsage consisted of pink roses.

Misses Melba Ruth Grady, Ruth Patman, Kathleen Grady, and Elise Norwood assisted in the reception that was held immediately after the ceremony in the church parlor.

Brown-Saye Vows Read at Colorado City

*** *** *** ***

First Presbyterian Church, Colorado City, was the scene of the marriage of Lucy Caroline, daughter of Mrs. John Brown, and Tommy Carl Saye, son of Mr. and Mrs. Carl J. Saye of Clarendon, Saturday, August 14, at 5 o'clock.

Rev. H. W. Hanks, pastor of First Methodist Church, Snyder, uncle of the bride, read the double ring service. Preceding the ceremony, Bryan Mahan sang "Because" and at the close of the service he sang "The Lord's Prayer". He was accompanied by Mrs. Claude Hooks, organist, who played the traditional wedding marches for the processional and recessional.

An altar arrangement of ferns and baskets of white gladiola formed the setting for the exchange of vows.

Attending her sister as maid of honor, Miss Betty Brown wore a dress of pale green organdy fashioned with a fitted bodice and full skirt with bustle back. Her headdress was a band of yellow roses and she carried a bouquet of matching roses.

Carl M. Bennett of Clarendon was best man and serving as ushers were H. W. Hanks, Jr., cousin of the bride, and G. R. Robinson.

Given in marriage by her brother, the bride was gowned in nylon marquisette over satin, designed with a round yoke, fitted bodice and buffant skirt. Her chapel length veil was attached to a tiara of orange blossoms, and for something old she wore a sunburst broach which belonged to her paternal grandmother. She carried a bouquet of white gardenias encircled with stephonatis.

Following the ceremony the bridal party was honored at a reception at the home of the bride's mother. A tiered wedding cake and arrangements of white lillies centered the serving table.

Miss Rebecca Coles presided at the bride's book. Miss Margaret Smart, Mrs. Jack Merket, Mrs. Bob Robinson and Mrs. Reynolds Brown assisted with the serving.

For her wedding trip the bride chose an ashes-of-roses garbardine suit with gray accessories. She wore a gardenia corsage.

one in the cold, dry, hot state of New Mexico advising me to not go to South Dakota and at the same time enclosing a cash donation of one penny to defray my expenses. The letter was signed Sister Sue. She said "that the reason folks wouldn't tell me about the bad things on that country was that they were afraid that I wouldn't move up there, if I knew." What a mean dig? Anyway, she quotes from a friend that had a friend that knew some one that once lived up there that, "The wind blows all the time ninety miles per hour, and that when it is snowing and you have to do your chores you have to tie a rope to the bed-post and hold on to the other end all the time you are out side." She said the country was inhabited by Republicans, and that one lone "Fallen from Grace" Democrat wouldn't have a chance. Anyway, I didn't mind the bad things she said about me; I was all full of love after my South Texas trip and could take it, but she even let Mama have it. She suggested that if I did move up there, and did send Mama after the eggs in a snow storm, to be sure and use a stout rope, and the reasons she gave were not at all pleasing to Mama. Anyway, thanks Sister Sue for the letter, and donation, and if you ever get out of New Mexico and repent of the things you wrote, and will say you are sorry, I will return the penny.

Is it a fact that Uncle Jay has been sneaking in and out of my county, on at least two occasions? How can this Super-Salesman in Sheep's clothing do this to me, after all I've gone through because of him. I think I'll take another trip.

—:—

Enjoyed my little visit and ride in the country with John Gerner of Lelia Lake. He is a brother to my political observer friend Al of the same community. Thanks, Mr. Gerner, for bringing me the fine watermelon from Willard Knox, the flying garage man. And thanks to you, Willard, how did you know my favorite was the yellow meated kind? Anyway, it was the sweetest and best melon that I have eaten in a long time and the fact that you thought about sending it to me made it all the sweeter. Thanks again, and if you had invited me down in that Mercury, instead of that Ercoupe I would have been there without fail to visit the patch and the person that grew those fine melons. Extend my sympathy to the Wolford's. I was so sorry to hear that the Mrs. had been sick.

Mr. and Mrs. Tom Roof of Dallas, Mrs. E. L. Lamb, and Mrs. T. O. Kirby of Jericho visited Mrs. J. E. Hunt Thursday.

Donley County Farm News

Folks, we have some news that just can't wait a bit longer. We have here a letter from Mack L. Sims at Hedley. Mr. Sims says, and we quote from his letter—"Just a word about terraces. I terraced my farm in 1926; have had two 7 inch rains, one eight inch rain, and several three to five inch rains, and have never had a broken terrace yet." That seems like an excellent record to me. I have been considering changing the heading of this article from "Donley County Farm News" to "Can You Beat This." I am sure Mr. Sims' record would be hard to beat.

Luther Butler was in the other day and told us he was planning to kill his Johnson grass by spraying it with chemicals. They always told me the best way to get rid of Johnson grass was to sell the land it was on. If anyone has tried the chemical method of destroying Johnson grass we would like to hear from you and the results you had.

We want to tell all of you farmers how much we appreciated the compliments we have received on the News Letter we sent out last week. We are glad you liked it and there will be more of them before long. The results from this letter were good too, since that time the applications for the Stalk or Stubble practice have increased to nearly eight thousand acres.

Did we say last week that the prospects for a crop this year were good? If we did that should be changed from good to excellent. The reason for this change is a statement from Sidney Harp. Mr. Harp says that he has about 100 acres of feed that he expects to make nearly a ton to the acre. While on the subject of good crops we would like to mention that some of the office staff have been sampling Roy Blackman's corn and peas; from what they say Roy must have some good eats at his place.

A short summary of the latest work done in Donley County with AAA assistance includes new terraces for Mrs. Virginia Rodgers, Charlie Crow, and Mrs. Jennie Hill, all of whom live near Memphis. Willard McAdams of Jericho has completed construction of a new tank.

The latest Loan and Price Support information provides for a loan of $2.28 per hundred on grain sorghums, or a purchase agreement for the same amount. On Basis Middling White and Extra White 15/16 inch Cotton the loan rate for Donley County will be 30.46. There will be some one in every bank in the county as well as C. W. Bennett at Clarendon and R. A. Shaw at Hedley who will be able to make these Cotton Loans for you.

Mrs. Evalee Reed of Silverton is visiting friends in Clarendon.

Helen Louise Green of Dallas spent the weekend with her parents, Mr. and Mrs. Geo. Green. She left Tuesday for Denver where she will enjoy a weeks vacation.

Mrs. Roy Beverly and son R. A. visited with Mrs. Beverly's daughter, Mr. and Mrs. T. W. Bell and family on their ranch near Turkey the weekend.

Lila and Mary Allison of Amarillo left Friday night for Madison, Wisconsin to visit their brother, Arlis and wife. Arlis is manager of Wisconsin Central Air Lines.

Mr. and Mrs. Ted Dudley and daughter Sue of Anson, Texas were guests of Mr. and Mrs. Geo. Thompson from Monday through Tuesday.

Mrs. Austin Rhoades was called to Amarillo Saturday to be with her mother, Mrs. J. J. Henson, who is ill.

Herbert Hunt, Groom, visited his mother, Mrs. Eva Hunt, and transacted business in Clarendon Saturday.

Mrs. Claude Darden and son Ray are in Lubbock this week.

Texas Must Prepare For 150,000 More School Children

AUSTIN — Texas must adequately prepare for 150,000 more children in its schools in the next decade or lower its educational standards.

Charles H. Tennyson, director of public relations for the Texas State Teachers Association, sounded that warning here today.

The huge increase in the birth rate during the last few years will add to the enrollment in Texas schools by nearly 82,000 pupils four years from now and by 152,000 in 1957, Tennyson said.

"The vastly accelerated birth rate throughout the United States since 1941 has cheered business men, but it is causing great concern among educators," the TSTA official declared.

"Texas is no exception. From figures on the annual birth rate provided by the United States Bureau of Vital Statistics, we know that births increased 1,549,601 throughout the United States from 2,360,399 in 1940 to 3,910,000 in 1947.

"Enrollment started increasing throughout the country last year. In Texas it was up more than 7,000 pupils. The State Department of Education this week estimated an additional 8,000 students would enroll this fall.

"That is just the beginning. Enrollment will snowball from then on. The situation will become acute in 1953. An accurate estimate places the hike in enrollment in Texas that year at 81,568 pupils. Nine years from now we will have 152,004 additional students in our schools, or a total of 1,660,004."

Federal and state bureau and insurance company statistics show that nearly 80 percent of the children born each year reach school age. Those experience figures make accurate estimates of future enrollment possibly, Tennyson explained.

"An increase of 80,000 pupils in the short time of four years and 150,000 in nine years does not seem so tremendous until it is realized that we will need 2,719 more teachers by '52 and 5,066 classroom instructors by 1957," Tennyson declared.

"It stands to reason we will have to have that many more classrooms.

"Leaders in school districts and state government should take careful note. The situation calls for planning along practical lines in order that adequate provisions be made for education of these children.

"That is particularly necessary in more than half of the Texas schools in which children are already over-crowded.

"It will call for expenditures of large sums of money. If each of the 5,066 additional teachers was paid only the present minimum salary of $2,000 annually, that would increase expenditures by $10,132,000.

"No one can hazard a guess as to how much additional money must be spent on classrooms and equipment."

"A recent survey disclosed that about 50 percent of students in Texas schools are in over-crowded classes. Educators agree that pupils cannot be given adequate instruction when there are more than 30 or 32 pupils in a class.

Some Texas cities have already recognized the impending situation. A recent survey made by Fort Worth school officials disclosed that by 1953 the district will need 367 more teachers and additional classrooms, according to B. C. Shulkey, assistant Superintendent.

Austin this fall is adding 15 teachers to ease the over-crowded classroom situation in the capital city.

Radio Station KFDA Increases Power

Radio Station KFDA, Amarillo, Texas, last week stepped into the big league of radio, increasing its power from 250 Watts to 5000 Watts daytime—1000 Watts night. With this increase in power, KFDA is now located at 1440 on the dial.

This increase in power will enable a larger portion of communities in the Tri-State area to enjoy the fine programs presented by the American Broadcasting Company, and the many programs of local interest. KFDA is owned and operated by Mr. J. Lindsey Nunn and Gilmore Nunn, and first went on the air August 1, 1939, a little more than nine years ago. Howard Roberson is Station Manager.

Program schedules may be obtained by sending your name and address to KFDA, Amarillo, Tex.

Make these 4 comparisons before you buy *any* car

COMPARE THE VALUE

Yes, compare the features—compare the prices—compare what you *get* for what you *pay*—and you, too, will come to the conclusion that Chevrolet continues to be *first in value*, just as it continues to be first in Big-Car Quality at Lowest Cost, and just as it continues first in demand, year after year.

COMPARE THE POPULARITY

You can identify the *biggest value* in any list of products by picking out the one product which enjoys greatest popularity, year after year; and, of course, in the field of motor cars, that one product is Chevrolet—outstanding leader in popularity for the total 17-year period, 1931 to date!

COMPARE THE FEATURES

Only Chevrolet combines the Unitized Knee-Action Ride for gliding smoothness; the world's champion Valve-in-Head engine for performance and economy; Body by Fisher for tasteful beauty; and Fisher Unisteel Construction *plus* Positive-Action Hydraulic Brakes for all-round safety protection!

COMPARE THE PRICES

You'll agree with millions of other car buyers that prices—like quality—are a major consideration in these times; and just as Chevrolet's Big-Car quality is unique in its price range, so Chevrolet prices are the *lowest* in its field. Chevrolet costs less to buy, to run and to maintain!

Only Chevrolet gives BIG-CAR QUALITY AT LOWEST PRICES . . . that's why

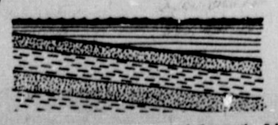
EVER SEE A King Size DOODLEBUG?

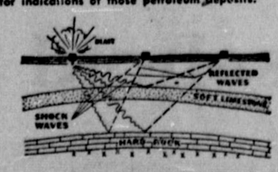
The first "doodlebugs" were forks from the willow or peach tree, whose "magic" was used to locate likely spots for water wells. In the early boom days of petroleum, the doodlebug gave way to the "divining rod," which supposedly had mystic powers for locating oil. Now, however, the doodlebug and divining rod have been replaced by seismograph crews, which have the tough and technical job of finding buried formations favorable for the presence of oil or gas.

Each year, a substantial part of our budget for construction and development is ear-marked for the acquisition of leases, for geophysical exploration and exploratory drilling. This is one of many functions of the UNITED GAS organization . . . all with the ultimate purpose of assuring a continued dependable supply of natural gas for our customers.



Ages ago, when water covered the earth, fish and vegetable matter settled to the ocean floor, building layer on layer until it was thousands of feet thick.

In some sections oil or gas collected in scattered pools far under the surface of the earth. Seismograph crews explore with scientific instruments for indications of those petroleum deposits.



Sound waves from an explosion penetrate the earth, then rebound from various strata to indicate the structures most favorable for oil or gas.

Health Notes

AUSTIN—Infant and mortality rates in Texas are at their lowest level in the history of the state, according to figures released by the Bureau of Vital Statistics of the State Health Department. Infant mortality has reached a low of 41.2 deaths for every 1000 live births.

Compared to the figures for 1940, this represents a reduction of more than 39 per cent. In that year, there were 197,023 live births and 8,635 deaths. But despite these gains, Texas still has the sixth highest infant mortality rate in the United States, with forty-two states reporting lower rates.

Dr. Geo. W. Cox, State Health Officer, attributes the reduction to the increase in public response to the educational efforts of the Texas State Department of Health.

"We have reason for pride in our reduced infant and maternal mortality when it is realized that the reduction means in excess of 5000 babies are being saved annually which would have otherwise died," Dr. Cox said. "In addition, the birth rate is higher than the 1940 figure by more than 71,000."

The comparison between the live births figures for 1940 and 1947, shows white births up 22,707; Latin American births up 7,186; and Negro births up 3,297.

The report also shows maternal mortality has been reduced over 65 per cent. In 1940, the rate was 4.6 for every 1000 live births as compared to 1.6 for 1947.

Veterans News

A limited number of internships in Veterans Administration hospitals will be offered qualified medical graduates, VA announced this week.

The internships will be limited to the 75 VA hospitals now offering residency training programs in cooperation with 59 Class "A" medical schools over the country. They will be further limited to those hospitals which have bachelor quarters available on the station grounds. A survey is in progress to determine what housing is available.

Southwestern VA hospitals where internships are available are at McKinney, Dallas and Waco, Texas, New Orleans and Gulfport, Mississippi. Negotiations are in progress between VA and Deans' Committees of Medical Schools for similar internships at Temple and Legion, Texas, Jackson and Biloxi, Miss.

Two types of internships will be available.

(1) "Straight," for surgery, general medicine and other "straight" subjects, and

(2) "Rotating," in which interns study, under a rotating schedule, surgery, general medicine and other related subjects. Arrangements will be made for affiliated training in other than VA hospitals for obstetrics and pediatrics. Such affiliated training may not involve more than 20 percent of a year. The hospital at which such affiliated training is secured must be approved for internships by the Council on Medical Education and Hospitals of the American Medical Association.
