Wage, hour law studied

By Ray Mayo
Editor

Mitchell County commissioners, meeting in special session Tuesday morning, agreed that the county will operate under the Fair Labor Standards Act of 1938 as amended following discussion of new regulations that affect county governments.
Commissioner Paul Hunter and Sheriff Wendell Bryant attended a meeting in Austin last week hosted by the Texas Association of Counties which detailed the wage and hour law as it applies to local governments.
Hunter said the only exempt people from the wage and hour law are elected officials and stressed that accurate records of hours worked plus overtime must be kept for each county employee.

He said other than for law enforcement officials, county employees will be keeping time on seven-day work periods while law enforcement officials will be on a 28-day time period.
"Every week must stand on its own, excluding law enforcement personnel, regardless of pay periods," said Hunter. Presently, county employees are paid once each month. Commissioners asked county treasurer Ann Hallmark to bring back a recommendation to them at their July meeting concerning the easiest way for her to issue pay checks. Commissioners said that paying twice a month might be the best solution.
The biggest problem concerning the new rules will be with field deputies who are paid for

a 42 regular work week with 7 1/2 hours overtime weekly. Bryant was asked to study possible policy changes within his department and report to the commissioners as well at their next meeting.
In other business, the commissioners heard an update on the new telephone system being installed in the courthouse. When they approved the new system as a cost-savings measure, commissioners agreed to cut down on the number of lines used in the courthouse. Hunter said he had heard several complaints about how the new system will operate, but commissioners agreed to proceed with plans and if the new system proves not feasible, additional lines can be added at a later date.

Hospital district to borrow operating funds

By Ray Mayo
Editor

The Mitchell County Hospital District Board of Directors Tuesday voted to borrow \$180,000 from City National Bank because of a continued cash flow problem at Root Memorial Hospital.
The board, on a motion by Bob Reilly and seconded by Gus Armstrong, agreed unanimously to use the recently acquired doctor's clinic building as collateral for the loan.
The decision came after a hastily called executive session following the motion by Reilly.
Earlier in the meeting, board members, reviewing the financial reports, were told that operating expenses total more than revenue each month mainly because of decreased patient load. The May loss at the hospital was \$143,191.94.
Hospital administrator Ray Mason explained that there is some \$400,000 in claims to be paid by Medicare, but that he expects the money to "trickle in" over the next several months, rather than come in a lump sum.
"We need to make provisions to have money available," said Mason in recommending that the district borrow the \$180,000 from City National Bank which is the hospital district's depository.
Board member Jay Craddock said expenses need to be cut more and asked Mason if personnel expenses can be cut further.

Mason explained that the present policy is not to fire any personnel, but rather to shorten their work week when patient load permits it. He said the hospital is presently staffed for 15-17 patients, but that days when there are fewer than 10 patients, some staff members are sent home.
Later, board president Preston Morris appointed Craddock, Reilly and Armstrong to a committee to study the possibility of permanent layoffs after Armstrong suggested such a committee be appointed.
"We've put this off long enough," said Armstrong.
Craddock noted that expenses should be cut at Root Valley Fair Lodge as well since that facility is recording a \$10-\$11,000 loss each month.
Nursing home administrator Marsha Rickard said that expenses can be cut, however the quality of care at the facility, which is full to capacity, would suffer as well.
Mrs. Rickard reported that facility received a superior rating after a survey last week by the Texas Department of Health. She said 95 points are needed for superior status, and that Root Valley Fair received 139 points with no deficiencies. This was the third survey with no deficiencies, she said.
However, responding to questioning by the board, Mrs. Rickard said that "there are cuts that can be made, but we would

Library to show films

The Mitchell County Public Library will be showing three films on Saturday, June 29.

They include:
 -"Poky Little Puppy," a seven-minute color film made in 1974. Each day Poky's four brothers and sisters were sent to bed without dessert for digging a hole under the fence. Each day Poky escaped punishment because he came home long after the family was asleep, until one day his brothers and sisters filled in the hole and ate the

dessert—all before Poky came home. Illustrates that following directions and being on time are important.

-"Naughty Owlet," an eight-minute color film made in 1970. A fully animated story about a family of baby owls who live in a hollow tree. One owl refuses to learn proper owl skills. His brothers work hard at learning to fly, but he spends his time looking at television.
 -"Horrible Honchos," a 32-minute color film made in 1977.

Hollis, a new boy, becomes the victim of a small gang of kids calling themselves the "horrible honchos," whose pact is to stick together and obey their leader, with the threat of expulsion if they fail to do so. They declare war on the newcomer without reason; they haven't tried to get to know him. Individually they come to know and like the new boy, but pressures from the gang make them conform to the party line with near disastrous results.

Immunization program should be kept up

By Lloyd Bentsen
United States Senator

Only 30 years ago, the risk of disability or death from childhood diseases was very high. Illnesses such as polio, measles, mumps, rubella, diphtheria, tetanus and whooping cough were considered an inevitable part of growing up.

Then in 1957, with the introduction of the Sabin polio vaccine, the federal government assumed increasing responsibility for immunizing our children against these diseases. Now, half of the 3.8 million children vaccinated each year are immunized through programs of the Center for Disease Control (CDC).

Appropriate administration of safe and effective vaccines continues to be one of the most cost effective ways to improve the quality of life in each and every community across this country. Tens of thousands of children are now alive and well who

would have died if our modern vaccines had not been developed and distributed.

Since 1963, measles vaccinations have prevented more than 57 million cases of measles and 19,000 cases of resulting mental retardation, with 5,700 children's lives saved.

In the United States, we have now virtually eliminated diphtheria, tetanus and poliomyelitis as childhood diseases.

While saving our children untold suffering, the immunization program has also saved us money.

Take the case of rubella, which can cause birth defects when contracted by pregnant women. From the last outbreak of rubella—prior to the development of vaccine—we have 30,000 children who will require \$2 BILLION in special care during their lifetimes.

The CDC places the benefit-cost ratio of the measles-rubella vaccine at 23 to 1, and the polio

vaccine at 10 to 1. That translates into a savings of some \$1 billion a year for polio and \$500 million a year for measles.

When the Administration proposed cutting funds for the immunization program in 1983, I fought that measure and won.

In the 1986 budget, the Administration wanted to freeze immunization funds at 1985 levels. Yet in the past year alone, the cost of measles-mumps-rubella vaccine has jumped 27 percent. Polio vaccine and diphtheria-pertussis (whooping cough)-tetanus vaccine have each gone up ten percent in cost. The Center already is running dangerously low on supplies, with only a three-month reserve of MMR and polio vaccines, and no reserve of DPT vaccine.

I won bipartisan agreement from the Senate Republican leadership to provide adequate funding for the immunization program next year. They agree with me that it would be better

to cut other items in the federal budget to make room for this important, cost-effective program.

Under my proposal, the CDC would receive an additional \$21 million to maintain the present level of immunization services, to stockpile some vaccines, and to begin immunizations with a new vaccine against bacterial meningitis.

The new H. flu vaccine, recently approved by the Food and Drug Administration, will prevent the most common cause of bacterial meningitis, something that is especially important for children attending day care and pre-school programs.

Our immunization program provides vital protection to the most precious resource this country can claim—our very future—our children.

Her husband conducted a Bible study once a week for a year in the most crime ridden area of the city."

"There are many barriers in Inner-City Ministries," she said. "One must take care, use caution, wisdom and love the people and pray much to be able to live in these conditions."

Mrs. Lynn Compton led in the Bible study taken from Hebrews, II Kings and Acts with all members taking part.

The next meeting will be at the church at 2:30 p.m. July 1st.

Motion Sickness

If there is one thing that can put a cramp in traveling plans, it is motion sickness. If you suffer from motion sickness, you can now rest your mind and your stomach. An old and effective drug is now back in an easy-to-use form. Scopalamine is packaged inside a dime-sized disk that is placed just behind the ear. The self-adhering disk should be applied approximately four hours before beginning an activity that may cause motion sickness. The drug releases at a steady rate for approximately three days and remains in place even through showers and swims. Available by prescription only, the disk is intended for use by adults.

All prescription items,

over the counter remedies, convalescent aids and a wide selection of greeting cards and gifts are available at EDDIE'S of Colorado City. Learn for yourself why your friends and neighbors already rely on us. We are located at 1001 Hickory, 728-3476. Indians survive 1st place jinx

The V.F.W. Post 9178 Indians survived the first place jinx in a Little League game against the Astros Monday night and still lead the Freshman League following their 8-6 victory.

Three other teams have held first place in the Freshman League the past few weeks but until the Indians, no team had been able to hold on to the lead.

The Astros themselves enjoyed a second but brief stay at the top after they beat the Dodgers

last Friday night. That victory left the Astros and Indians tied for first but Monday night's win gave the Indians a 7-2 record and left them alone at the top.

The loss dropped the Astros to a third place 6-3 and opened the door for the Pirates, who moved into second at 5-2 with a Friday night victory over the Rangers, now in fourth at 4-3.

In the Monday night Indians vs. Astros game, starting pitcher Rudy Melendez/left the game

after pitching four innings and with his team trailing the Astros 4-2.

Jason Lawson pitched in relief for Melendez the last two innings, but not before the Indians collected three fourth inning runs to take a 5-4 lead.

The Astros took a 1-0 lead in the first inning when an error by Indians rightfielder Chris Lynch allowed Astros shortstop Scott Gailey to score.

In the third inning, the Astros extended their lead to 4-0 on a home plate steal by Jub Stephens on a triple by Scott Gailey, that scored Ryan Gailey. S. Gailey was in turn batted in by a double hit by losing pitcher Chris Williams.

The Indians began their comeback in the bottom of the third when Melendez was thrown out at home trying to extend a triple, but not before knocking in Lawson and catcher Cade Proctor, who both reached base on balls.

Leftfielder Leo DelReal tied the game up for the Indians in the bottom of the fourth when his homerun also scored shortstop Spencer Taylor, who had singled to each base.

The Indians took a 5-4 lead when an error by Astros second baseman Cody Ridge gave centerfielder Chad Moore a triple

and scored Lynch.

The Astros jumped on reliever Lawson for three fifth inning hits and two runs to take a 6-5 lead. The inning included doubles by Ridge and Williams and a single by Todd Womack and runs scored by Ridge and R. Gailey.

The Indians retook the lead for good in the bottom of the fifth with walks by Melendez and DelReal and two errors by Astros shortstop S. Gailey that gave RBI singles to Taylor and Lawson.

Lawson struck out two of four in the Astros sixth to save the victory.

Pitching for the Astros in their 17-4 Friday night victory over the Dodgers that gave them a brief tie for first was Scott Gailey. Williams led offensively with three for four batting with a homerun. Losing pitcher was Felix Vigil.

Pitching for the now second place Pirates in their come from behind 8-5 Friday night win over the Rangers were Gabriel Salazar and Bobby Silva. Avan Ceballos took the loss after his team held a 4-0 lead.

Mark Monroe led the Pirates with four for four batting while Jesse Gonzales homered in batting two for three for the Rangers.

Farm league teams continue tight race

In Farm League action over the weekend, the Cubs remained undefeated to keep pace with the Blue Sox while the Wildcats and Mustangs also posted victories to remain close to the lead.

The Cubs, now 4-0 along with the Blue Sox, defeated the Colts 12-11 in a Saturday night game. The loss was only the second for the Colts and left them in fifth at 2-2.

In another Saturday game, the Wildcats defeated the Steers 11-7 for a 3-1 record that puts them one game behind the leaders. In fourth place are the Mustangs, who defeated the Mets 21-7 in a Monday night game.

The score was tied two times in the Cubs and Colts matchup Saturday and the losing Colts led at four different times.

A run scored by Colts starting pitcher Justin Zamarrilla in the top of the fifth broke a 10-10 deadlock but the Cubs answered with runs by Chris Beaty and Josh Lee to take the one run victory in their last bat.

Cubs starting pitcher Zack Findley batted last for the winning Cubs and got relief from Daniel Silva. Adrian Garcia, Laston Stephens and Tommy

Alvarez also pitched for the Colts.

Findley went four for four for the Cubs, including a triple and a double.

In the afore mentioned Saturday game that saw the Wildcats hold on to third with a victory over the Steers winning pitcher was Heath Mann, who got relief from Jerry Simon.

A run scoring double by Greg Conaway and home plate steals by Conaway, Kendrick Johnson and Jeff Hill helped the Wildcats to a 6-1 lead after three innings.

The Wildcats made it 11-1 in the top of the fourth that included an infield homerun by Mann. The Colts, who led the Farm League at one time, again made it close with six fourth inning scores. Losing pitcher Seneca Lee included a double in the late rally.

In Monday night's Farm League game, the Mustangs answered six first inning scores by the Mets with eight of their own and added seven and six runs in the second and third innings to pull away for their big victory.

Winning pitcher was Shane Jones and taking the loss for the Mets was Timmy.

UGSA action

Mitchell County United Girls Softball Association play, which concludes with two games here Thursday and Friday, continued over a busy weekend.

The last contest of the more recent Monday night games played here, saw the division II Almost Angels gain revenge with a 14-13 victory over the Bat Busters. The victory erased a 12-2 Angels loss to the same Busters last Thursday night and the two teams meet again in a regular season-ending game to be played at 5:45 p.m. Friday.

Winning pitcher was Dalia Franco and taking the loss for the Bat Busters were Christi Hulme and Jennifer Munoz.

The Angels trailed until a four run fourth inning that gave them a 10-8 lead. The Bat Busters retook the lead with three in the fifth but again the Angels came back with three of their own in the bottom of the inning.

The Busters came up empty in the sixth while the Angels Franco scored one in the bottom of the inning to offset two Bat Buster runs in the seventh.

Priscilla Rivera, Patricia Molina and Melanie Gilstrap went perfect at the plate for the Almost Angels while Franco went three for four.

Kerre and Christi Hulme went four for five for the Busters.

Prior to the loss, the Bat Busters had posted a 15-12 victory over the She Cops.

Cynthia Martinez and Christi Hulme pitched for the win while

Rosemary Rosas took the loss.

The She Cops led the entire way until the Bat Busters got seven last inning scores to change a 10-8 deficit into a 15-10 lead.

Beginning Monday's schedule was a 7-4 victory by the division I Blue Jays over the Red Wings. Winning pitcher was Jennifer Ornelas while Holly Turner took the loss.

A five run third inning by the Blue Jays erased a 4-2 Red Wings lead.

In a game played Friday at Coahoma, the Almost Angels defeated the Bob Cats 27-11. Dalia Franco and Corrie Martinez pitched for the Colorado City team.

after pitching four innings and with his team trailing the Astros 4-2.

Jason Lawson pitched in relief for Melendez the last two innings, but not before the Indians collected three fourth inning runs to take a 5-4 lead.

Rodriguez, Birmingham lead teams to victory

Joe David Rodriguez and Duane Birmingham went the entire distance in pitching their teams to Texas Junior Teenage League victories Monday night.

Rodriguez, pitching for the 7-0 V.F.W. Post 9178 White Sox, held the Colts scoreless until the final inning for a 6-1 victory while Birmingham got a 10-5 win for the Lions in a game against the Braves.

The win gave the Lions a 3-4 record and sole possessions of second place. The losses by the Colts and Braves left them tied for third at 2-5.

In the White Sox vs. Colts game, losing pitcher Rene Silva walked the first three Sox batters. The first one, catcher Eddie Benitez, went on to steal home for a 1-0 Sox lead.

The second and third batters, Mark Russell and David Garcia, were advanced by a sacrifice fly by J. D. Rodriguez and singles by Ricky Arispe and Greg Rodriguez hit past Colts shortstop Victor Luera.

The White Sox made it 5-0 in the third inning with a score by Arispe on a Sam Garcia hit. Ray Rivera's sacrifice fly to center scored G. Rodriguez in the fifth for the Sox last run.

M. Gonzalez scored the Colts' lone run in the top of the sixth on

a hit by Sammy Contreras.

In the other game played Thursday, the Braves led at two times before losing following a pivotal fifth inning.

Leading 6-3, the Lions scored four fifth inning runs to pull away. The bunt of the runs came on a bases loaded hit by David "Stump" Davila that scored three runners. Davila stole home for the fourth score.

The Braves led 1-0 after one on a Beau Rees hit that scored Bo Alvarez but Davila tied it up in the top of the second by knocking in Neal Ginkinger.

Gabriel Ornelas knocked in Hadley Weaver to again give the Braves the lead at 2-1 in the bottom of the second.

The Lions got the lead back at 5-2 with an infield homerun by George Rivera in the third. Rees

knocked in Stanley Bradbury in the bottom of the third but the Lions got that run back when Joe Silva stole home for a 6-3 Lions lead.

Ken Land batted in Rees in both the sixth and seventh innings but the runs were too little after "Stump's" fifth inning bases loaded blow.

Union president stresses 'Energy and activism'

WACO—The new president of the Texas Farmers Union called for 'energy and activism' on the part of Texas farmers as the 1985 Farm Bill discussions begin to heat up in Washington, D.C.

Joe Rankin, long-time TFU vice president, and the successor to Mike Moeller, the former TFU president, spoke of the challenges facing Texas farmers as the nation's food and fiber legislation is written in Congress this year. Rankin had just returned from a meeting of Farmers Union presidents from across the nation, and farm bill talk was the dominating theme.

"Texas is the second largest state in terms of agricultural production in the Union, and we have the chairman of the powerful House Agriculture Committee, Kika de la Garza, from here in our own state," says Rankin.

"Yet farmers here in Texas aren't identifying the need to become active in writing their congressmen, or calling their senator, or even writing the president on farm issues. The legislation that is being written right now in Washington is law that might carry us on until 1999. If farmers aren't involved in the process of writing that law, then that type of 15-year farm bill ought to be scary."

"Our elected officials are going to determine for us what principals and objectives that we farmers are going to work under for at least four years, and possibly longer. The Texas Farmers Union advises farmers and ranchers to reach down and find some energy and activism, and go out and get their hands dirty in farm policy, since it is likely that that is the only way to have a say over what your future is in farming, and your children's future."

Policy positions formulated at the Denver meeting of the twenty-plus Farmers Union chiefs were:

—Adamant opposition to the so-called moving average of commodity prices to determine future farm price supports.

—Support of a proposal now being entertained in Washington to establish an Agricultural Conservation Corporation to purchase farmland and keep land prices from further bottoming out.

—Any new farm program must have as its primary focus the return of profitability to agriculture, so that farmers and ranchers can maintain their operations, pay their debts, and consequently revitalize the rural American economy.

House Bill 72

to be reviewed

by TSTA lawyers

AUSTIN—The Texas State Teachers Association and the National Education Association announced that it has retained the services of three law firms to review portions of House Bill 72 as it relates to competency testing of practicing teachers.

Representing TSTA and NEA will be the Washington D.C. firm of Bredhoff and Kaiser and the Texas firms of Schwartz, Waterman, Fickman and Van Os of Houston and Austin and Daves and Hahn of Tyler. Karen Johnson, TSTA general counsel, will coordinate the efforts between the state and national firms and Bob Chanin, NEA general counsel, will be the counsel-of-record.

TSTA President Becky Brooks said she anticipates suits to be filed this summer in both state and federal courts challenging the decertification provisions in the current law. Teachers are scheduled to be tested the week of March 10, 1986.

Brooks said that should the lawsuits fail to eliminate the testing or if a decision from the courts is not made in time, TSTA is preparing to offer free test preparation workshops to its members throughout the state. Approximately 250 trainers are being secured to conduct the workshops.

Kitchen energy-saving steps could lead to lower utilities

During the summer months when the demand for energy rises with the temperature, there are steps that can be taken in the kitchen to conserve energy.

Appliances are the third largest consumer of energy in the house. They account for about 13 percent of residential energy consumption. Appliances for cooking consume a substantial part of this energy and provide us an opportunity to conserve.

More and more hot meals are being prepared today in the microwave oven, and in much less time than it takes to prepare a meal in a standard oven. There's not only a savings of time involved but also a savings of energy. According to Texas Electric Service Company's home economist, microwave cooking can result in an energy savings of up to 75 percent over conventional cooking.

Although some homemakers may not have acquired a microwave oven for their kitchens, they still can take energy-saving steps by using small kitchen appliances when preparing small meals. When used correctly, toasters, waffle irons, electric skillets and bean pots usually require less energy than the range. Toasting bread in the oven, for instance, requires three times as much energy as in a pop-up toaster.

Many portable appliances also can double as serving dishes. This will cut down on the number of dishes to be washed and reduce hot water and electricity consumption.

Another added benefit to more frequent use of the microwave or portable appliance is that the kitchen does not get as hot as when the conventional oven is used. Therefore, the air conditioner doesn't have to work as hard.

If you must use a standard oven, organize your meal preparations so that any cooking you must do is completed during the cooler part of the day.

Schedule your oven for multiple uses and fill unoccupied space. Two or three dishes can be baked with little more energy than one.

NOTICE OF INTENT TO IMPLEMENT RATES

General Telephone Company of the Southwest in accordance with the Public Utility Regulatory Act and the Rules of the Public Utility Commission of Texas gives notice of its intent to implement new exchange access rates for the provision of shared tenant and tenant resale services.

These proposed rates are applicable to customers of General Telephone Company of the Southwest, excluding hotel/motel customers, who provide local exchange telephone service of General Telephone Company of the Southwest to their tenants or patrons on a resale or shared use basis. This resale or sharing arrangement is normally provided utilizing a customer-provided PABX or other similar stored control switch capable of common control processing or other features commonly associated with a PABX "Smart" switch.

These proposed rates are designed to recover costs on a usage basis for local exchange telephone service access and are identical to General Telephone's "Optional Measured Service" rates. The monthly access rate will be \$28.95 per trunk line and the usage rates are as follows:

Over	Up To and Including	Band	Set Up	Full Rate Period Each Minute
0	7 miles	A	\$.025	\$.015
7	14 miles	B	.035	.021
14	21 miles	C	.050	.030
21	28 miles	D	.070	.042
28		E	.090	.054

As this is a new service offering, we are unable to determine the number of customers who may be affected. Currently, there are no known prospective customers. Until a customer utilizes this new offering, there will be no effect on the revenues of the telephone company, and in any event, the telephone company does not expect revenues to be affected by more than 2 1/2 percent. These proposed rates, where applicable, will provide tariffed local exchange access to customers who then will provide shared or resale services to tenants.

These proposed rates have been suspended by the Public Utility Commission of Texas and will become effective as proposed or modified by order of the Commission on a date to be determined by the commission.

The proposed rate schedule is on file with the Commission for public inspection and is also available at any business office of General Telephone Company of the Southwest. Persons who wish to intervene or otherwise participate in these proceedings should notify the commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumers Affairs Division at (512)458-0223 or (512)458-0227, or (512)458-0221 teletypewriter for the deaf.
