TWO MORE ARE READY TO GO TOMORROW

FIVE SHIPS EXPECTED TO BE IN THE AIR AT SAME TIME

(By The Associated Press)

Three airplanes were speeding toward Europe from America today—two of them on an impromptu race to Oslo, Norway—and two more stood ready to go tomorrow if weather conditions are favorable.

Thor Solberg and Carl Petersen took off before dawn from Floyd Bennett field in New York for Oslo with one stop planned at Harbor Grace, N. F. Three and half hours later they reported by radio that they were over Portsmouth, N. H. Slightly more than a half hour after that Clyde A. Lee and John Bochkon soared aloft from a field at Barre, Vt., with the same goals—Harbor Grace and Oslo.

At the takeoff of the latter the two planes were not more than a hundred miles apart.

Family Takes Off

Later in the morning George Hutchinson and his flying family—himself, his wife and two daughters—with crew of four more left Floyd Bennett field for St. John, N. B., the first stop scheduled on a 4,200 mile, easy-stage flight to London.

William Ulbrich, Dr. Leon Pisculli and Edna Newcomer planned to leave tomorrow on a non-stop flight to Rome by way of Florence—where Miss Newcomer is expected to leap out in a parachute to honor Florence Nightingale, the nurse.

J. A. Mollison, Scotch flier who completed the first solo flight from Europe to New York last Sunday, waited only favorable weather at Roosevelt field to start a return solo flight. His moth plane, termed a "flying gas tank," had been given a quick overhaul.

If both Mollison and Ulbrich start tomorrow there will be five planes going eastward over the Atlantic at the same time—the highest number since mechanical flying began.

NORWEGIANS PLAN ONLY ONE STOP

NEW YORK, Aug. 23 (AP)—Thor Solberg, a scion of the old vikings, and Carl Petersen, veteran radio expert, took off from Floyd Bennett Airport at 4:41 a. m. Eastern Standard time today on a one-stop friendship flight to Oslo, Norway. Three and a half hours later they were reported over Portsmouth, N. H.

NEW AIR QUEENS REST AFTER HOP

NEW YORK, Aug. 23 (AP)—The two new queens of the skies, Mrs. Frances Marsalis and Mrs. Louise Thaden, slept today, catching up with some sleep and rest they sacrificed to set a new endurance flight record for women.

Their record making merry-go-round over Long Island ended at Valley Stream, Long Island, yesterday at 5:06 p. m. (Eastern standard time), after they had remained aloft in their flying boudoir for eight days, four hours and five minutes.

Three Men And Two Women Are Jailed

WACO, Aug. 23 (AP)—Three men and two women were held today for questioning about the kidnaping and robbery of S. F. Moore yesterday.

Moore, manager of the Piggly Wiggly stores here, was robbed of the Saturday receipts of seven stores. He declined to name the amount believed to be large. One man kidnaped him, took the money, drove to a place near Lake Waco with Moore and was picked up by confederates.

EAST TEXAS: Partly cloudy local showers on the coast tonight and Wednesday. Light to fresh easterly to southerly winds on the coast.

OKLAHOMA: Partly cloudy, probably thundershowers in northwest portion tonight and Wednesday.

AS ROOSEVELT ADDRESSED DEMOCRATS IN OHIO

Invading the doubtful state of Ohio in the first speech of his campaign for presidency, Governor Franklin D. Roosevelt is seen addressing crowd at Columbus ball park. Below are the "big shots" who participated in all-day ceremonies in Ohio's capital city. Left to right: James A. Farley, Democratic national chairman; Newton D. Baker, former secretary of war; James M. Cox, ex-governor and former presidential candidate; Governor Roosevelt, who was Cox's running mate; Governor George White; and United States Senator Robert M. Bulkley of Ohio.

Federal Intervention Seen As Midwest Farm Strike Spreads

Ancient Car Runs Away With Actress

ALHAMBRA, Calif., Aug. 23 (AP)—A 2-cylinder motorcar of ancient vintage ran away with Ann Harding, actress, yesterday during the filming of a motion picture. Jimmy Anderson, assistant director, sped after the vehicle in a modern car, stepped from it to the careening runaway, jerked out all the wires and stopped it.

The car was cranked by one of the company who did not know it was in gear. Miss Harding couldn't stop it but managed to steer it clear of other traffic on the street.

LOAN REACTION HELD FAVORABLE

WASHINGTON, Aug. 23 (AP)—An optimistic note showed itself today in first reactions to publication of the reconstruction corporation's loans to banks and other institutions.

Where originally there had been fears that this publicity would undermine confidence in the borrowing banks, there was a disposition to point out that these banks had to be, by requirement of law, in fundamentally good condition.

From this point of view, publication of their government borrowing could be viewed as evidence of the banks' staunchness.

Doumer Assassin Is To Appeal Sentence

PARIS, Aug. 23. (AP)—Attorneys for Paul Gorguloff, assassin of President Paul Doumer, filed an appeal with the ministry of justice today stating that the Russian's mental state, never very stable, has grown worse in prison.

Gorguloff has been condemned to the guillotine.

FARMERS CONTINUE TO HALT TRAFFIC IN PRICE "WAR"

(By The Associated Press)

SIOUX CITY, Ia., Aug. 23—The attention of federal officials was turned today to the rapidly spreading strike of midwest farmers for higher prices but the agricultural "war" continued unabated despite a threat of federal intervention.

The zeal of picketing farmers in stopping trains carrying interstate commerce may be the cause of action by government authorities.

Highways Patrolled

With 300 Iowa farmers patrolling the main highways on the Iowa side of the Missouri river near Omaha in the hope of blockading that important market center, Assistant United States Attorney Ambrose C. Epperson of Omaha pointed out that the hindering, delaying or preventing of shipment could be classified as restraint of commerce—a violation of federal law. At the same time county authorities in Iowa counties near Omaha warned against any violence and were assured that there would be "peaceful picketing" only.

Midwest governors, with the exception of Gov. F. B. Olson of Minnesota, only farmer-labor state executive in the country, were inclined to await developments before taking action.

Olson yesterday expressed his wholehearted support of the strike movement, even to the point of saying he favored martial law if necessary to prevent shipment of farm goods. Gov. Charles W. Bryan of Nebraska replied particularly to the suggestion of Mayor W. O. Hayes of Sioux City that a conference of midwestern governors be called with the declaration that "as a rule conferences do not develop practical plans nor solve great problems." He added that the situation thus far was a municipal and county problem.

VETERAN ATTORNEY DIES

SAN ANTONIO, Aug. 23 (AP)—Thomas H. Franklin, 78, veteran San Antonio attorney, died here early today after an illness of ten days.

Air Racers To Be Honored At Dance

Billed as West Texas' best dance band, the 11-piece Largent-Peret orchestra will play for a dance at the Uptown Dance palace beginning at 9 o'clock tonight and continuing until after midnight. Fliers in the Cord cup race have been invited as honor guests. The fliers were to land this afternoon and will spend the night in Lubbock.

Prices are $1 for couples, $1 for stags, and 25 cents for extra women.

RANGERS AT WORK IN OIL SECTION

LONGVIEW, Aug. 23 (AP)—Texas rangers are at work again in the East Texas oil field.

A squad under Captain Tom Hickman arrested about 60 men in raids at Gladewater and Kilgore Sunday night. The rangers worked so quietly that their activities were not known generally until some of the prisoners were brought here last night. Among the men arrested were two bank robbery suspects.

Several prisoners made cash bonds and were released.

Former Minister Is Given A Life Term

OAKLAND, Calif., Aug. 23 (AP)—Harrison G. Jackson, 64, who said he was a former minister, teacher and Texas police officer, faced a life sentence in San Quentin prison today after pleading guilty to murder yesterday.

Sentence was passed after Assistant District Attorney Charles Wehr told the court there did not appear to be sufficient evidence of premeditation to justify the death penalty.

Jackson, employed as a house painter, shot and killed Thomas F. Kevan, a contractor, July 9.

COTTON GAINS TO HIT NEW TOP LEVEL

FLURRIES OF PROFIT TAKING FAIL TO HALT ADVANCE

(By The Associated Press)

NEW YORK, Aug. 23—Securities and principal commodities again pushed higher in the markets today.

Stocks ran into occasional flurries of profit taking but many issues got up $1 to as much as $5 a share, several reaching new top levels for the summer recovery.

Bonds Push Higher

The bond market again pushed higher, getting close to its 1932 peak, reached last March. Advances ranged from $10 to $30 per $1,000 bond in a number of the rails and utilities during the earlier hours of trading.

In commodities, cotton advanced slightly to register new top levels for the summer recovery. Wheat in the Chicago market got up nearly a cent a bushel in sympathy with strength of the Liverpool market. In metals, the price of lead was again advanced 1-10th of a cent to a price of 3 4-10 cents a pound at New York by the American Smelting and Refining Co.

The price of stock exchange memberships continued to advance, a transfer being arranged to $160,000, up $10,000 from the previous one, and in contrast to the low of recent years of $68,000 reached last May.

Two Recluses Are Found Dead Today

SAN ANTONIO, Aug. 23 (AP)—Mr. and Mrs. A. W. Smith, who had lived as recluses fifteen years, were found dead in their two room home here today. Officers, informed by Mrs. L. A. Adair, a neighbor, that she had not seen the couple since Friday, found the two bodies lying on the floor partly covered by old papers and rags. Justice of the Peace J. R. Shook was unable to determine the cause of death.

Libby Is Knitting For Expected Baby

CINCINNATI, Aug. 23. (AP)—Libby Holman Reynolds is in retreat in Baltimore, the Times Star said today, spending much of her time knitting clothing for the baby she expects in February.

Whether it is a boy or girl, the child will be named Smith Reynolds, in memory of her husband, for whose death she has been indicted by a North Carolina grand jury. She is at liberty under $25,000 bond.

Two Killed Today In Auto Accident

SAN ANTONIO, Aug. 23 (AP)—Virginia McCowan, 16, and George Blakey, 19, were killed early today when the automobile in which they were riding was overturned at a street corner. The fathers of both are noncommissioned officers at Fort Sam Houston.

Four companions were injured, none critically.

LUBBOCK WILL BE HOST TO AVIATORS

FOUR DOZEN SHIPS TO BEGIN LANDING AT ABOUT 4 O'CLOCK

Droning on an eastward line from Roswell, the four dozen or more fleet-winging planes in the western division of the transcontinental handicap sweepstakes Cord cup race are scheduled to begin landing at Lubbock municipal airport about 4 o'clock this afternoon. Fifty-six ships began the competitive flight Sunday from Los Angeles. Forty-seven finished late Monday at El Paso.

State highway and city motorcycle patrolmen, police patrolmen, Boy Scouts, and civilian committeemen will be posted at the municipal flying field to direct vehicular and pedestrian traffic this afternoon. Bleachers have been erected in front of the hangar. The bulk of the crowd, expected to represent virtually all sections of the South Plains as well as Panhandle and Eastern New Mexico towns, will stand or be in an automobiles west of the western fence bordering the airport proper.

Army Ships Arrive

Three army planes arrived here from Brooks field at San Antonio about 11:30 o'clock this morning. They were to bring cameras for taking pictures of the air races and air-views of Lubbock.

Three ships of stunt fliers are billed to give a 90-minute show after the bulk of the racing planes have set down at the municipal field.

The Anton band, official West Texas Chamber of Commerce unit, played on the downtown streets this morning. A Lubbock band was to play in the business section this afternoon and tonight. The Largent-Peret orchestra will play at the Uptown Dance palace tonight, beginning at 1 o'clock, and the skyriders have been invited as honor guests. The fliers will be guests of the chamber of commerce at a dinner at 7 o'clock in the Lubbock hotel. Neil H. Wright will be toastmaster.

In completing local preparations for the Cord cup race, two more committees were named Monday. One was a ground committee to look after the planes, and the other a transportation committee to see that the bird men and women and race officials are transported to the city tonight and to the airport Wednesday morning.

FLOYDADA BOY BADLY HURT

VICTIM REPORTED AS STILL UNCONSCIOUS AFTER OPERATION

Suffering from a skull fracture, James Hennessee, 8-year-old son of Mr. and Mrs. V. W. Hennessee of Floydada, still was unconscious in Lubbock sanitarium this morning, following an operation at 1:15 a. m.

The boy was hit by a cap from a metal gasoline-tank at his home at about 11 o'clock Monday morning when the gasoline exploded. Cause of the explosion was undetermined. The cap hit the child just above the left eye, and crushed the skull inward at that point. The operation was performed to relieve pressure caused by the fragments driven inward.

Mansion Lambright, 20, of Lubbock suffered a crushed right cheek bone and loss of several teeth Monday afternoon when a hammer, which became caught in a rock crusher which he was feeding, was thrown outward and hit him. Lambright had stooped to extract the hammer when it was catapulted outward. The accident occurred about 12 miles southeast of here. Lambright was received at Lubbock sanitarium about 5:45 p. m.

CROSS-ROADS OF ASIA BECOMES CITY OF DEATH IN THROES OF AN EPIDEMIC

(By The Associated Press)

SIAN, Shensi Province, China, Aug. 23 — This trade cross-roads of Asia has become a city of death in the throes of a cholera epidemic that is taking an average toll of 100 lives every day.

This historic center of trade between China and Asia proper has been suffering from the summer scourge of the Orient for many weeks and her 1,000,000 inhabitants are still making every effort to conquer the emergency.

The city streets—the same ones Marco Polo looked upon centuries ago—lie under a blanket of snow-white substance. It is powdered lime, sprinkled and generously in an effort to halt the ravages of disease.

The weather is slightly cooler and it is hoped that the peak of the epidemic has been reached.

Many thousands have been inoculated against cholera but the serum supply appears to be piteously inadequate. Native and foreign mission doctors are exhausting themselves carrying on their work of mercy. Their efforts have undoubtedly saved many but appear hopeless in the wave of sickness, suffering and death.

GOOD IDEA BUT IS IT SAFE?

EVANSTON, Ill., Aug. 23. (AP)—Evanston automobile dealers think it's a fine idea to teach women to drive cars—as long as somebody else's machines are used.

They flatly refused to lend their automobiles to 58 women so they could complete a practical course in driving given by Frank Kreml, head of the bureau of accident prevention.

"I don't see why," said Kreml, "we take these women out in Niles Center where there aren't any lightposts or trees or old buildings to crash into."

GERMANS FACE THREATS OF REPRISAL

DEATH SENTENCES OF FIVE PUT NATION NEAR TO CRISIS

(By The Associated Press)

BERLIN, Aug. 23—Death sentences imposed yesterday at Beuthen upon five fascists convicted of political murder brought disturbing threats of reprisal today.

The gravity of the situation was attested in the pledge of the fascist strong man, Adolf Hitler—and that meant his powerful storm troops as well—to "battle against a government under which this (the death sentences) is possible."

Eyes On Von Papen

Thus all eyes were focused on Chancellor Franz Von Papen and his government which promulgated the emergency decree of August 9 under which the five men were tried.

All Germany discussed the case of the quintet, three of whom were Nazi followers and two affiliates. They were condemned yesterday in a court room at Beuthen, a mining city of the Polish border, for killing a communist in the village of Potempa.

The tribunal was a "speed court," established to stamp out the violence which was taking hundreds of lives before the balloting of August 31. The men were defended by the personal attorney of Hitler, and, when the sentence came, a riot ensued.

Beuthen was quiet today under the vigilance of steel-helmeted police and the rest of Germany was eager to see what the government would do in this new crisis.

Threats Are Voiced

Open threats of reprisals and worse were voiced by the Nazis as the forces of the political right marshaled all their pressure to force the government to alter the sentences.

It was generally considered unlikely the five ever would be guillotined but the chancellor was confronted with the most difficult of questions in that he must decide very soon to commute one or all the death sentences to life imprisonment or quash the verdict, as demanded by the Nazis. The government is the final judge under the speed court emergency decree, which eliminated the long delays of appeals.

COTTON GINNINGS ARE ANNOUNCED

WASHINGTON, Aug. 23 (AP)—Cotton ginned prior to August 16 from the growth of 1932 was announced today by the census bureau as having totaled 251,183 running bales, including 3,617 round bales counted as half bales and excluding linters.

To that date last year 90,608 bales, including 673 round bales, were ginned and in 1930 ginnings to that date were 572,810 bales, including 12,211 round bales.

Ginnings by states were: Alabama 776; Flordia 211; Georgia, 7,394; Louisiana, 1,342; Texas, 241,096; all other states 364.

American Negress Jailed In Belgium

BRUSSELS, Belgium, Aug. 23. (AP)—The police today arrested the American negro woman, Ada Wright, mother of one of the seven negro men under death sentence in Alabama, on charges of attacking white girls.

It was stated that the woman had addressed a communist meeting at Gilly, near Charleroi. Three Belgian women who tried to liberate the prisoner were also detained. It was expected the American woman would be asked to leave the country.

Livestock Train Is Halted By Farmers

EMERSON, Neb., Aug. 23. (AP)—Three hundred Nebraska farmers, attempting to blockade the Sioux City market, halted a livestock train here last night. They separated the cars but failed to free any of the livestock the train was carrying.

Members of the train crew escaped and proceeded to Nacora, Neb., coming back later and taking the train on to Sioux City. The farmers left soon after the crew had departed for Nacora.

FLIERS LEAVE EL PASO FOR ROSWELL

TWO QUIT RACE, ONE FORCED DOWN AND ANOTHER RETURNS

(By The Associated Press)

EL PASO, Aug. 23.—The Los Angeles to Cleveland air-derby which ends Saturday at the National Air show, was resumed today when John Hardesty of Taft, California, led the racers out of El Paso at 8:30 a. m. M. S. T. Roswell, N. M., was the noon control point and Lubbock the next overnight stopping point.

Two racers dropped from the competition today. Frank D. Bowman, Jr., Berino, N. M., failed to take off and Claron Beauchamp of Long Beach, Calif., said he would return to California today. Motor trouble delayed his plane several hours on the Tucson- El Paso lap of the flight yesterday.

William J. Powell, Los Angeles negro, had not taken off late this morning but said he expected to join the racers at Roswell later today.

Charles Spencer, jr., Douglas, Ariz., Cord Cup air derby pilot, returned to the municipal airport at 10:20 a. m. today because of motor trouble. He reported that one of the racing ships was down near the mountains 20 miles east of El Paso. He said it was turned on its nose.

Eldon Cessna of Wichita, Kans., who designs planes as well as flies them, led in the derby scoring with 492.7 points. Roy Hunt of Norman, Okla., was second to Cessna with 402 points. Gladys O'Donnell of Long Beach, Calif., was third with 325.

One Is Missing

One flier had not been located late last night. He was Harry Sham of Oakland, Calif. Boyd Grover of Peoria, Ill., flew in about midnight. Several others were down at various points, straggling behind the leaders.

CESSNA HOLDS LEAD

ROSWELL, N. M., Aug. 23 (AP)—E. L. Cessna of Wichita, Kansas, maintained his lead in the Pacific wing of the transcontinental air derby today by traveling the forenoon lap of the race from El Paso to Roswell in one hour and 18 minutes and increasing his point total to 500.7.

Roy Hunt of Norman, Okla., led the fliers into Roswell, landing here shortly before 11 a. m., Mountain Standard time.

WOODWARD IS TO TALK IN LUBBOCK

Supporters of Miriam A. Ferguson in her race for the governorship will attend tonight's appearance here of State Senator Walter Woodward of Coleman, a champion of Governor Ross Shaw Sterling in his race for re-election. Ferguson chieftains have indicated. A Ferguson rally will be conducted here Thursday night.

Garland Woodward, brother of the senator, is expected to accompany him here. Senator Woodward is to speak Wednesday at Big Spring, his brother's home.

Tonight's meeting will be immediately across Texas avenue from City hall.

Chinese Officers Executed By Army

HANKOW, China, Aug. 23 (AP)—The military authorities conducting an anti-bandit campaign in this area have executed one regimental commander, two battalion commanders and another commissioned officer for retreating during operations against outlaws.

The action illustrates the government's determination to force the army to oppose brigands and communists.

Flag Of Truce Is Hoisted In Strike

BENTON, Ill., Aug. 23. (AP)—The flag of truce had been lifted in the Franklin county coal fields today in an effort to prevent further bloodshed over the operation of mines under the new $5 wage contract.

Attempts to settle the trouble by substitution of peaceful negotiations for firearms were undertaken at a parley last night at Zeigler attended by county officers, officials of the United Mineworkers of America and representatives of the miners. The peace parley was held after one miner had been killed by shotgun fire and six others wounded in clashes yesterday.

FUND OVER-SUBSCRIBED

HOUSTON, Aug. 23 (AP)—The $10,000 fund sought by the Harris county chapter of the Red Cross for relief in the hurricane stricken of southeast Texas was over-subscribed today.

The World is Getting Well

- Prices of commodities are going up.
- The price of the base coffee of commerce has advanced approximately 40%, in Brazil, in recent weeks.
- The retail prices of coffees, of all grades, in the United States are beginning to reflect that advance.
- In Texas, the Coffee Roasters' price to the retailer has advanced 8.7% in the past ten days.
- As commodity prices go up, times get better.
- Your dollar will now buy $1.60 worth of merchandise as it was priced in 1929.
- Advertised merchandise has real value, plus the faith and reputation of the makers of that merchandise.

TRY TO ANNEX JEHOL STATE

JAPAN PLANS STRONG ACTION IN CHINESE TERRITORY

TOKYO, Aug. 23. (AP)—A statement attributed to official quarters today said it was only a question of time before strong action would be taken to make Jehol province unquestionably a part of the newly created independent state of Manchukuo.

This assertion came a few hours behind dispatches from Japanese correspondents at Chinchow, Manchuria, stating that a Japanese detachment stationed near Peipiaon Jehol had routed several hundred Chinese regulars after a sharp battle.

Offensive Denied

The war office, however, denied that the Japanese army had assumed the offensive in Jehol or contemplated at present a large scale invasion of that province that heretofore had divided China proper from Manchuria.

The clash described in the Chinchow dispatches was called a minor local affair but a spokesman for the foreign office intimated that favorable autumn weather probably will see a determined Japanese military action in Jehol.

The purpose of such a movement would be to end an unsatisfactory situation arising out of the capture by Jehol "bandits" of Goushiro Ishimoto, a former Japanese army officer. The Japanese also consider the allegiance of Chairman (Governor) Tang Yu-Lin of Jehol to Manchukuo as "doubtful."

Chinese Pursued

The Chinchow correspondents said the Japanese suffered two casualties and the Chinese took heavy losses in the engagement which came about after the Chinese had tried to blow up a railway bridge.

The war office said the Japanese detachment pursued the Chinese to Nanling, five miles southeast of Chaoling. Pemble railway station in eastern Jehol. Later they returned to Chaoling and were joined by Japanese troops in Jehol.

The diet convened yesterday for its third extraordinary session of the year. It was expected the main business at hand would be dealing with governmental measures from Premier Makoto Saito, Foreign Minister Yasuya Uchida and Finance Minister Korekiyo Takahashi.

The foreign minister's address will be confined chiefly to a statement of Japanese defense of her policies toward Manchuria and China. He probably will refer to the speech in New York Aug. 8 of the American secretary of state, Henry L. Stimson.

Although formal ceremonies of the diet opening in the presence of the emperor will not come until tomorrow, the legislators today voted 176,000,000 yen ($42,240,000) for projects to relieve distress among peasant fishermen and small merchants.

Total appropriations made the total for the fiscal year ending March 31, 1933 1,956,000,000 yen ($469,440,000) the largest in Japan's history. Nearly 800,000,000 yen of this amount must be raised by government loans. The two previous sessions of the diet this year voted funds for the Manchurian and Shanghai campaign.

Japanese troops entered Jehol province a month ago after Ishimoto, a Japanese representative was kidnaped allegedly by Jehol bandits. They described the entry as merely to obtain his release and not a military invasion.

The Japanese claimed however that allies of Marshal Chang Hsueh-liang deposed Manchurian war lord now in Peiping had been responsible for Ishimoto's capture.

Jehol province has not been officially allocated in the new order of things in Manchuria. Formerly it was a part of Chahar province China dominated by Peiping. Later maps show it neither as a part of China nor Manchuria.

The new Japanese maps of the recently created Manchukuo, the independent nation sponsored by Japan, show Jehol as a part of Manchukuo. None of the territory has been recognized as foreign government as independent, hence officially remains a part of China.

When Triangle Became Family Circle

Here is a unique situation where a wife, a former wife, a daughter by the former wife and the husband and father are all living harmoniously under one roof. The man is Stanley Adams, grand opera singer, of Beverly Hills, Cal., who shares his residence with his former wife, Lillian Kennedy Adams, from whom he was divorced 20 years ago, and his present wife, Mrs. Aimee Rozelle Adams. Also a member of the happy family is Claire Adams, the singer's daughter by the first wife. All are united by a common love of music. Left to right are: Claire Adams, Lillian, her mother (wife No. 1), Mrs. Aimee Adams (No. 2) and Stanley Adams.

AIRPLANE IDEA IN 1640

The airplane and submarine were thought of in the middle of the seventeenth century. This was declared by J. E. Rees, principal of the University of South Wales, in an address given at the annual meeting of the Caerleon and Monmouthshire Antiquarian Society in Caerleon, England, recently. He referred to a book written about 1640 by Lord Herbert Raglan. The title is "A Century of Invention," and the volume contains 100 suggestions among them being ideas for airplanes and submarines.

LOWER RATES DENIED

Efforts to bring down the high cost of telephoning in Britain have failed, the Government, which owns and operates the lines, declaring such a move unwise. "In view of the relatively small amount of the telephone account, I regret that a reduction in the charge to retail is at present impracticable," said Sir Kingsley Wood, the Postmaster-General. "During the last 10 years reductions in telephone rates have totaled in the aggregate over $20,000,000 a year.

ATTORNEYS TO DEFEND TRIO

THREE LAWYERS WILL REPRESENT BROWN MURDER SUSPECTS

The identity of attorneys who will defend three Lubbock men indicted for the slaying May 30 of Frank V. (Leather Hat) Brown was revealed late Monday.

Benjamin Kucera will be counsel for Hugh Walker, Jess Covington, and B. L. (Barber John) Richardson; R. J. Allen will represent Covington and Richardson, and Covington has employed W. F. Schenck, in addition. Judge Clark M. Mullican of 99th district court appointed Kucera and Allen to represent the trio.

Whether habeas corpus proceedings to set bond for the men would be instituted had not been determined, Mr. Kucera said.

Brown was fatally wounded by one of three men who stepped out of a car at the T. B. Hilton residence at Woodrow, 12 miles south of Lubbock, on the night of May 30.

Santa Fe Hospital Not To Be Closed

Clovis' Santa Fe hospital, reported to be one of several such institutions listed for closing to cut expenses, will not be closed, W. W. Nichols of Clovis, an official of a Clovis group which protested, has announced. The hospital, controlled by the Santa Fe Hospital association, is for employes of the railroad. If it were closed, employes from this area would have to go to Mulvane or Topeka, Kan., for treatment.

When reports of the proposed change were heard Santa Fe employes at Clovis formed a delegation to go to Topeka, Kas., where a protest was filed with railroad officials. Many Lubbock and Slaton railroad men have been treated at Clovis in recent years.

HAIR TURNS WHITE

When an airplane landed in a field near Wrexham, England, it frightened a racehorse, owned by the daughter of Sir Alfred McAlpine, so badly that its black mane turned completely white and there are streaks of grey in its tail. As the machine approached the ground the animal suddenly jumped in fright from behind a tree and galloped in front of the plane until it landed. Four days later the mane started to lose color.

THE DARK AND BLOODY GROUND

"Nature in the Raw"—as portrayed by N. C. Wyeth, noted painter of the American Indian...inspired by the fierce cruelty of the savages whose knives and tomahawks caused the story of the Pioneer West to be written in blood.

—and raw tobaccos have no place in cigarettes

They are *not* present in Luckies ... the *mildest* cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

QUALIFYING STAMPEDE STARTS IN WESTERN AMATEUR MEET

SPYING ON SPORTS

BY COLLIER PARRIS

A big flock of grown men, ranging from the welterweight to heavyweight divisions, played golf Sunday out at the Meadowbrook in quest of the South Plains Invitation tournament championship, but when the votes were counted it was found that a high school youngster who would place in the lightweight division had been elected.

At that, Edgar Doherty had a tough assignment when he undertook to outstroke three youngsters several years his junior and several pounds lighter. He had to shoot a 68 for the afternoon round, after a 71 in the morning.

Doherty has graduated from the caddy ranks, though he has certain specific duties in connection with running the Lubbock Country club's golf course. He learned his golf by watching men play whose bags he toted and from constant association with Professional Byrne. Mr. Byrne has taught more than one kid how to hit the pelota.

Over at the Meadowbrook are a couple of caddies just about as good as Doherty. One of them, Joe Bihl, is 16 years old. The other, Alfred Holton, is a pea-sized man of 14 years. Bi ' was three strokes behind Doherty at the end of 36 holes Sunday, good enough for second place. Holton stood the gaff fine up to the last nine but at that was good enough for a fourth place tie.

What to do with these caddies who step out in tournaments and whip the ears off paying club members? Not but one thing to do: let 'em play and try to beat 'em. They know their places when members come out for an unofficial round, but give 'em a shot at a prize and they go wild. Given the proper incentive, the proper training, including the proper dieting etc., some of the little fellows around Lubbock's golf courses could do wonders a couple or several years hence.

* * *

It is not necessary to repeat that many of the nation's outstanding professional golfers are graduates from the caddy ranks. Gene Sarazen is a noble example. Very few pros there are who have not at one time carried bags for pre-possessing and high-society club members. Not many caddies remain amateurs. They go in for golf as a business and not as a hobby. Most amateurs have something else to depend upon for livelihood.

* * *

Dexter Shelley we read this morning has signed articles with the Green Bay Packers, National professional football champions for three years, for the coming season. Shelley ripped across Southwest conference gridirons up to last year as one of the outstanding backs ever to attend the University of Texas. His all-conference position in 1930 was a cinch. He turned in pretty good records last year at Portsmouth and Providence. At least good enough to warrant a contract with the National Professional League champions of Green Bay.

* * *

It is somewhat satisfying to note that a Texas lad has made good in the big show even if it is professional football. Personally we can't get all hot and bothered about pro football. Baseball is enough. We like to think of football as a college and high school sport. However we hesitate to adopt the opinions expressed by Dr. Forrest C. (Phog) Allen when he addressed the mentors at the coaching school here in June.

* * *

Phog Allen holds no respect whatever for professional sports, and particularly for professional football. "It's a rotten racket," was the way he classified it, and you could hear murmers through the big audience of coaches as he spoke in no uncertain terms.

"It is one of the most blessed moment of retrospection I have when I reflect upon the fact," said Dr. Allen, "that no athlete I have coached, that I know of, has turned professional. Bill Hargis (football coach at Kansas) and I were talking it over the other day. Not one player to graduate from the University of Kansas under our regime has accepted a professional contract, and plenty of them have been approached."

Dr. Allen dwelt at considerable length upon the foolishness of professional sports as they concerned the individual, and gave numerous examples to illustrate his hatred. "A rotten racket, professionalism in sport and particularly in football."

But that's Dr. Allen's opinion not ours. We have the utmost respect and admiration for Allen, considering him the best basketball authority in the world. A brilliant man. Maybe he's right, maybe not.

DON MOE ONLY SAFE MAN IN GOLF TEST

CHAMP NOT REQUIRED TO QUALIFY; TEXAN IS IN RUNNING

BY PAUL MICKELSON

ROCKFORD, Ill., Aug. 23 (AP)—A stampede was on today for qualifying berths in the Western Amateur golf championship tournament.

Finding the range of the fairways and traps with almost unerring accuracy yesterday, the field was so close that it looked like a pair of 75's in the 36-hole test would be the highest limit to clinch a place among the 32 who will continue the battle for the crown now worn by Don Moe of Portland, Oregon. Moe was the only safe man in the record field of 178 starters, automatically qualifying as champion.

Harry Eichelberger, Stanford university senior, was out in front of the closely bunched field in the medalist campaign. Banging magic pitch shots, he toured the championship Rockford country club stretch in 36-34—70 to clip par by one shot. Two Chicagoans of note, George Dawson and Johnny Lehman, pressed him with 71's while six others, including shotmakers like Gus Moreland of Dallas, Texas, and Dick Martin, Chicago district champion, trailed with 72's.

A fearful eye was cast toward the twelfth hole, a long uphill stretch blossoming into a long narrow and dangerous green.

Many found their nemesis on that hole yesterday, notably Dawson who came to that spot three under par, got tangled up with the traps and wound up with a seven. Rodney Blias, Nebraska state champion, took an eight.

The only semblance of an upset in the first day's round was the play of Keefe Carter of Oklahoma City, former champion of the event. Carter, playing with Eichelberger, took an 80 and followed through by taking a train for home.

Seeded Teams Face Match In Tourney

BROOKLINE, Mass., Aug. 23 (AP)—The big match on today's card at the 51st national doubles title tennis tournament brought together two seeded teams, Sidney Wood and Louis Stoeffen, fifth seeded of the Americans, and J. Satoh and T. Kuwabara, the Japanese team, and seeded third among the foreign players.

Jack Tinball and Elbert Lewis, the Los Angles combination, opposed Ed Feibleman of New York and Jake Hess of Fort Worth, Texas, in another match. Feibleman and Hess provided the only upsets in yesterday's play in their defeat of the fourth foreign seeded team, J. S. Olliff and F. R. Avory of England.

Mrs. Hill Favored To Win Golf Title

PEORIA, Ill., Aug. 23 (AP)—Medalist and owner of a new course record, Mrs. Opal S. Hill of Kansas City was more than ever the favorite today to win her second straight Women's Western golf title.

Mrs. Hill led the field away in the qualifying round yesterday with 75 a stroke better than women's par and five strokes under the tournament record established by Mrs. Lee Mida of Chicago several years ago. Just back of the Kansas City star came Mrs. J. Walter Beyer of Tulsa, Okla., holder of the Oklahoma state championship, who carded a 77.

Mrs. Hill's opponent today was Marion Callahan of Madison, Wis., who qualified with an 86. Mrs. Beyer was matched against Mrs. A. W. Clapp of St. Paul, who also shot an 86.

MARKSMEN VIE FOR CROWN

EAST AND WEST WILL COMPETE FOR TEAM TROPHY TODAY

VANDALIA, O., Aug. 23 (AP)—With the class championships out of the way, marksmen from all parts of the country today vied for one of the most coveted prizes in trapshooting, the North American clay target championship for both men and women.

Included on today's program of the 33rd annual grand American tournament was the team race between the east and west. Teams will be selected from the high shooters in yesterday's class championships.

Karl Maust of Detroit, Mich., and Miss Jeanette Jay of Waverly, Iowa, winners of the North American titles last year, will defend their titles. Maust slipped badly in the class championship yesterday, breaking only 174. Miss Jay arrived late yesterday and spent her time on the practice traps.

The world trapshooting marks went by the boards yesterday in the class championships, the first when the shooters turned in perfect scores of 200 targets. The second occurred when K. M. Leach of Calgary, Alberta, one of the five perfect marksmen, captured the class B title. It was the first time competition shooting in the had been won with a perfect score.

This was the second title ever won by Leach. He captured the prize at the Banff, Alberta, carnival three years ago.

YANKEES HAVE NOT TASTED A SHUTOUT

CLUB WILL MAKE NEW RECORD IF HITTING SPREE CONTINUES

BY GAYLE TALBOT

Associated Press Sports Writer

It seems likely the Yankees, in addition to winning the American league flag in a canter, will go right on and round out the campaign without having tasted a shutout defeat.

They have scored at least one run in each of their 119 engagements to date and, with the big guns of their attack, Ruth and Gehrig, going better every day, opposing pitchers apparently face a hopeless task in trying to blank Joe McCarthy's sluggers.

Record In Sight

No big league club ever has completed a season without at least one shutout and only two, Pittsburgh of 1901 and the Yankees of 1927, have had the minimum of one white washing. The Yanks have only 36 games to go to crack the record.

Irving (Bump) Hadley, journeyman righthander of the St. Louis Browns came mighty near applying the brakes yesterday when he set the leaders down 5 to 1, on four widely scattered hits. Earle Combs saved the day for the Yanks when he tripled in the first inning and scored on an infield out. After that Hadley was invincible, even though he issued eight passes.

The next most startling performance was that of Lefty Grove in piloting the Athletics to an 8 to 1 victory over the White Sox. In addition to pitching very high class ball he belted a homerun with two aboard and scored two runs.

Sens Down Indians

Fred (Firpo) Marberry of the Washington Senators turned Cleveland back with one hit, a single by Dick Porter in the first inning, and beat the Indians 4 to 0. Only four men reached first base off the Senator star, the other three on walks.

Tom Oliver's double in the ninth inning with two on base gave the Boston Red Sox a 6 to 5 triumph over Detroit.

The Chicago Cubs went three full lengths ahead of the field in the National league by trimming the Phillies, 8 to 4, while Brooklyn was idle and Pittsburgh was splitting a pair with the Giants. Billy Herman led the Cubs attack on Rhem and Berly with three hits.

Heine Meine allowed but five hits in pitching the Pirates to a 6 to 1 win over the Giants in the first tilt and was helped along by Adam Comorosky, who hit a homerun with two on base. The Giants took the nightcap, 4 to 3, when they got to Chagnon for two runs in the sixth inning. Waite Hoyt went the route for the winners.

Boston and St. Louis likewise broke even, the Braves slugging Derringer and Haines for a 7 to 2 victory in the first and the Cardinals taking the second, 3 to 0, as Tex Carleton gained his second triumph of the series.

Brooklyn and Cincinnati were idle.

DALLAS AND BEAUMONT WIN TO LEAVE FIRST AND SECOND PLACES UNCHANGED

BY BILL PARKER

Associated Press Sports Writer

Dallas and Beaumont breezed in with victories last night to leave first and second places in the second half pennant race intact with Dallas leading Beaumont by one full game.

The Steers enjoyed a slugfest against San Antonio, getting fifteen hits for a 11 to 4 victory. The veteran Oscar Fuhr, a southpaw with a wide, sweeping curve and a hop on his fast one, won his fifth straight and his eighteenth game this season for Dallas. Oscar worked with a big lead most of the game and never tightened up. Dallas collected fifteen hits off Sackett and Tarzan Danforth. Five errors by San Antonio made the game listless after the third inning.

Win Over Cats

Smarting from their double defeat Sunday, the Beaumont Exporters bombarded Paul Gribble and Roy Appleton of Fort Worth for a 6 to 2 decision. Luke Hamlin pitched for Beaumont and stopped the Cats four-game winning streak with nine hits. Henry Greenberg, Beaumont first sacker, clouted his thirty-second home run this season.

After losing a 15-inning game Sunday, Houston returned to lose another extra inning game yesterday when Longview nosed out the Buffaloes, 4 to 3, eleven innings.

After Galveston had scored five runs in the first inning, Tyler came back to beat the Buccaneers, 9 to 6.

Sinclair's Stable Is Being Broken Up

SARATOGA, SPRINGS, N. Y., Aug. 23 (AP)—One of the greatest racing establishments in history—Harry F. Sinclair's Rancocas stable—is being broken up by a dispersal sale.

The first half of the Rancocas stock—19 yearlings and 21 Brood mares—was auctioned last night and brought $41,125, an average of $1,028. The other half will be sold tonight with the exception of the famous stallions Zev and Grey Lag, which Sinclair expects always to keep.

Sinclair's stable won 698 races and earned $2,108,461 in 10 1-2 years and a large crowd, both fashionable and expert, gathered in the auction paddock to see the stock sold.

The Greentree stable paid high price of the night, $6,700, for the famous mare Nedana, winner of 16 races and $29,535.

Well, well, well—if it isn't "Sadie Thompson," all dressed up in the 1932 model. Gone the familiar white-topped kid boots—gone the checkered coat, and the waving hat-plume from this more up-to-date costume which Alice Brady will wear in the leading part of a revival of the famous stage play, "Rain," at White Plains, N. Y. The role was created by the late Jeanne Eagles.

Attend Texas Tech This Year

■ *Youth of Lubbock and South Plains*

Don't Blind Yourself To Opportunity

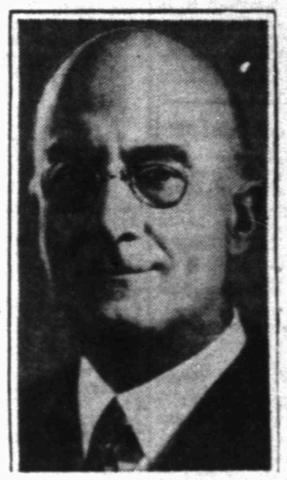

■

Thoughtful business is taking advantage of the depression to prepare for the years to come . . . and thoughtful business is taking advantage of all the savings which good business judgment offers.

If you knew an article you could buy for $150.00 you would not go several hundred miles to buy the same for $600.00. You'd not brand as very brilliant, the boy or girl who would adopt such an economy program in a year such as this.

The State of Texas has prepared for the people of the South Plains and West Texas one of the greatest institutions of learning in the South. An institution that offers almost any kind of training that may be desired by the student. Texas Tech is one of the most economical schools to attend in this part of the state and this alone should offer a great advantage. We urge all young people in West Texas, not only to go to school, but go where they can be of the most help to their parents by cutting the cost of education to the minimum.

Tech's New President

DR. BRADFORD KNAPP

TRUE education is a process of fitting one's self for life. It has many sides. On the practical side, one should be trained for some useful occupation. However, all education consists, at least in part, in the development of the personality of the individual. Work is the common heritage of Education ought to expand one's capacity to work. "Chance favors only the prepared mind". Times are difficult, jobs are scarce, but in the new day which is coming there will still be great demand for leadership, for men and women who are trained, who are broad-minded, tolerant, capable, sensible and honest.

Texas Technological College presents an opportunity for you in these difficult times to fit yourself for a worthy place in life, whether it be in the field of agriculture, engineering, manufacturing, scientific research, teaching, business, or commercial pursuits. Come and prepare yourself for worthy service in the development of this great section, the State of Texas, and our own beloved America. Now is the time to make the necessary sacrifice and the effort to prepare yourself.

—DR. BRADFORD KNAPP,
President of Texas Technological College.

1.—Texas Technological College is centrally located in West Texas, with Bus and Railroad lines radiating in all directions, making transportation to and from College most convenient.

2.—Texas Technological College is a state institution, founded by an act of the legislature in 1923, and consequently affords the student the best educational facilities without paying high tuition.

3.—Texas Technological College offers full four years of college work.

4.—Texas Technological College offers instruction in thirty-six different departments which are grouped in the several schools. Each of these schools has its own dean, its course of study, its requirements for entrance and for graduation.

5.—The rapid growth of Texas Technological College, plus its natural location for expansion in the future, assures students of an institution from which they will be proud to have been a graduate.

6.—Texas Technological College fosters various branches of intercollegiate athletics, and has provided a coaching staff, grounds, gymnasium and equipment for football, basketball, track and tennis.

7.—The bill by which the Texas Technological College was established provides that the institution shall be co-educational, a policy which admits young men and young women on an equal basis.

8.—Texas Technological College is a democratic school. In a great democracy like our own, it stands to reason that democracy of spirit among our student body makes possible the best preparation for a democratic citizenship.

Hats Off

Among American cities, Grand Rapids, Mich., seems to have a distinction for which every town in the land can envy her.

Grand Rapids has had only two traffic fatalities since the first of the year. For the last six months Grand Rapids has not had any at all. The city held a parade to commemorate the fact recently—and small wonder! In an era when autos kill 30,000 Americans annually a city which finds a way of keeping its streets from from deaths for six months has something to crow over.

Indeed, a record of that kind might well be the proudest boast a city could make. "Move to our town and be sure your children will be safe" ought to be a potent sort of slogan. Let's hope the Grand Rapids idea spreads far and wide.

The PLAINSMAN Says

THAT Girl on Broadway says the man of the hour is not the one who used to make a specialty of watching the clock.

★ ★ ★

Today's best joke: "Why Jim Ferguson is honest, he'll give us a better administration than Ross Sterling ever thought of."

★ ★ ★

Now you tell one!

★ ★ ★

Oh yes, Mr. Ferguson and his supporters tell the voters that if elected he will give the state the same character of administration as before. Then we had a highway scandal, work running into millions awarded to political favorites, without bid, contract or bond, highway contractors confessing, under oath, that their profits had become so big they had become ashamed to look at them, confessing judgment and paying back to the state $1,000,000. We had the people of other states making fun of us, and then the federal government withdrew federal aid, thinking we were citizens not entitled to credit and not living up to the principles of common everyday honesty.

★ ★ ★

The same character of administration as before, do you want it? Lets go back to the first one. His first official act after becoming governor in 1915 was to deposit $101,607.18 money collected on the insurance of the Canyon City Normal which had been destroyed by fire into three banks, the Temple State bank, the Heidenheimer bank and the American National bank of Austin without interest. . . . Later testimony in his impeachment revealed a personal note of his for $5,600 was paid out of this fund and was never paid back to the state until he had been impeached and vacated his office in August, 1917. . . . What about Jim's deposits in banks over the state. . . . What about the $161,000 he owed the Temple State bank in 1916, an institution he certified he didn't owe a cent a year later. . . . What about the $150,000 in currency Jim deposited in the American National bank in Austin in 1916. . . . Did he get it from the brewers as testimony in his impeachment trial showed?

★ ★ ★

OH there's oodles and oodles of questions about Jim Ferguson which still hang like a sword over his political neck.

★ ★ ★

What about the famous "skunk" move of Jim's to which leading brokers of the state subscribed stock? . . . Why did Jim have a Texas Ranger as a bodyguard during the World war. . . . Why did he veto the unlucky appropriation bills for the university medical and mechanical branches when President Woodrow Wilson had asked for universities to continue training their technical "experts." . . . Why did Jim so actively oppose Wilson's selective draft law in a speech at Dallas, go back to Austin and deposit $3,000 in cash in the American National bank there the next day, . . . where did he get the money, . . . and the other $2,000 in currency to be deposited for shipment to a Houston bank. . . . $5,000 drawn within four days after he threw his weight of vast state scandal, human misery, and the lives of American boys? . . . What about the $24,000 expense fund deposited by Jim, his partner H. P. Mansfield and the Dalton Lumber company. . . . How could Jim consent at all to be a party to and still not violate the state banking laws? . . . What about the time he tried to influence the supreme court of Texas to reverse a decision in a case and after they had ruled opposite to his wishes he vetoed a bill taking their salaries a week later?

★ ★ ★

And too, what about the "secret service" of impeachment again? . . . Have the ever been cleared up?

★ ★ ★

JIM talks about bolting the Democratic party. What about the time in 1920 when he bolted the party and announced for president on the American party ticket, an organization of his own? What about his signed statement in the Ferguson Forum, September 9, 1920, in which he said: "To Hell with the Democratic party." And again why did he asked under a signed statement in the Forum of October 7, 1920: "Why should any Texan vote the Democratic ticket?"

★ ★ ★

"Notwithstanding this, newspapers reported that he declared at San Antonio in the fall of 1924 that: "A bolter is a low-down, stinking, pusillanimous coward." This was from the same man who four years before in the Ferguson Forum of October 21, 1922, had denounced all men and women who did not bolt the Democratic ticket in the state in the following message: "The Texas politicians, all Democrats, have not got the pride of a jackass or the decency of a skunk. They stand for nothing and they are nothing."

★ ★ ★

That Man on Avenue Q says if there's no bull market, then what about all these political speeches we're hearing these days.

★ ★ ★

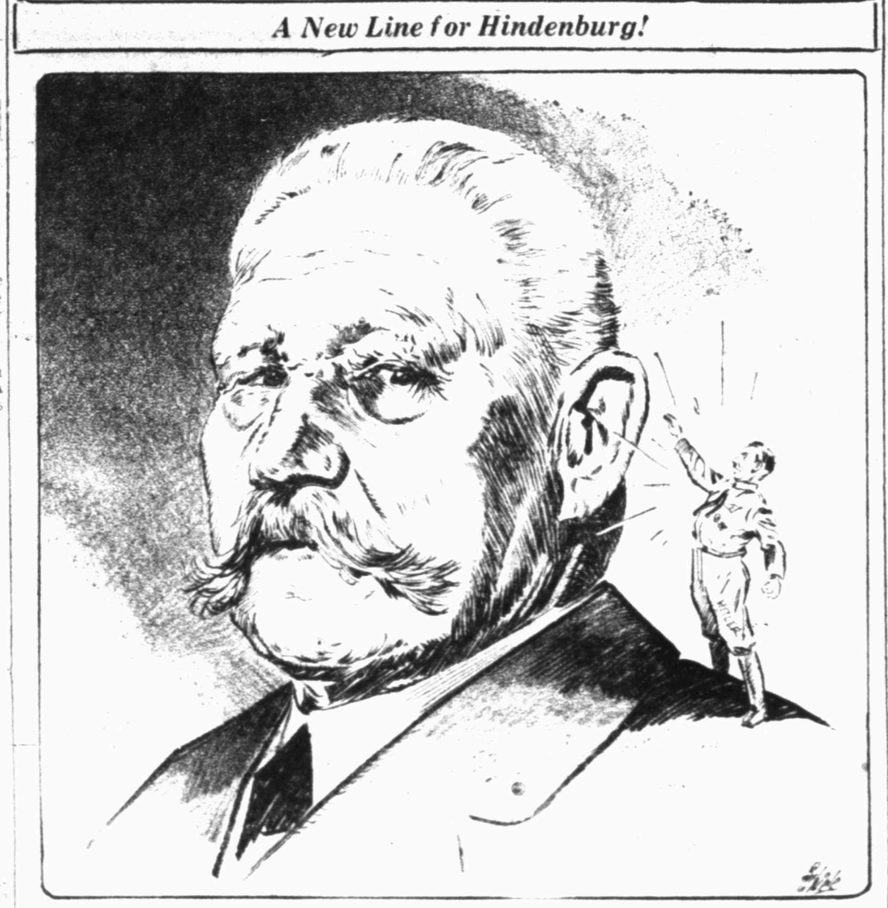

ADD Fergusonism:

And what about the "good will" edition of the Forum soon after Ma's election in 1924 when large corporations took page ads in Jim's paper? . . . What about Jim being counsel for four railroads when his wife was governor? . . . What about the highway scandal? . . . What about Ma's pardon record? . . . and on and on far into the night.

★ ★ ★

Repeat today's best joke: "Why Jim Ferguson is honest, he'll give you a better administration than Ross Sterling ever thought of".

A New Line for Hindenburg!

President Hoover and Governor Roosevelt Are Like Two Medicine Men, Striving For Patronage Of Rich Patient

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Aug. 23.—Hoover and Roosevelt are in the positions of a couple of medicine men striving for the patronage of a wealthy patient and seeking to convince the tribe that the patient can't get well under the other medicine man's ministrations.

This has to play both ends against the middle in their political sales talk, because the tribe is bitterly split up the middle on the relative merits of such medicine men as Hoover and Roosevelt.

Dutcher

One day Medicine Man Hoover and his scriptures tell thousands of the hundred and more magic remedies which he has taken from his and applied to the patient, and the tribe that the patient had a tough time surviving him through and progressing in spite of the future looks dim, there is no chance of recovery.

Here comes Medicine Man Roosevelt, a more experienced quack, . . . [illegible] both are selling [illegible] the patient.

Recalls Former Healthy State

Now Roosevelt goes to the patient's bedside to discuss with the physicians present the points that he has found to be before Hoover. Hoover to keep him well and asks the advice of Roosevelt, to have faith in a healer who lets a subject get into such good careful shape.

If he says the patient has seemed more cheerful and frisky of late, it's only because he heard good old Doc Roosevelt was coming to take care of him.

That picture does not reflect the fundamental aspect of this campaign. Either you put your trust in Doc Hoover, endorsing his methods or you want to change doctors.

Most American families, with a called and beloved member laid low, have faced, with a decision at one time or another usually in fear and doubt. After three years of taking Hoover prescriptions, they now ponder the wares of the good-looking young doctor from Albany. And as is always the case among people who are looking for cures, many of them are determined to resort to the less orthodox healing cults led by Norman Thomas and William Z. Foster.

• • •

The Hunger and Cold Angle

The Hoover acceptance speech undertook to set the president up as the prize medicine man of all time. Hardly any of the cures have had a chance to work, although they are expected to in the patient's dying gasps. But there are claims of achievement which, if the record is upheld by Doc Roosevelt, put such as the ancient Wizard of Oz to shame. Hoover provided methods and assurance that there will be no more suffering from hunger and cold.

There is one serious complaint also that Hoover is too vague as to just what dose he intends to feed the patient once he is hired. But on one point there is no doubt: Doc Roosevelt would let the poor fellow try to build up on light wines and beer just as soon as possible and follow up again as soon as possible with a few snorts of hard liquor.

There are many teetotallers in the patient's family who are horrified at the thought, but Doc Roosevelt addresses himself to the others.

• • •

"D. T.'s" Threat

Doc Hoover, meanwhile, wants to retain the support both of the teetotallers who disbelieve in the therapeutic value of alcohol and those others who think that's just what the patient needs. So he explains that there are some things the matter with the sufferer caused by taking his liquor ration away from him and other things the matter with him which would be seriously aggravated if the rations were suddenly resumed.

So he advises thought and consultation on this moot point and a few prayers, too. He admits that the patient is getting more and more liquor sneaked in to the bedside despite his own efforts to stop it, but declares that if Doc Roosevelt is allowed to prescribe the patient will be having the D. T.'s along with his other manifold miseries.

SOME MORE LETTERS ON THE GOVERNOR'S RACE

Dear Plainsman:

Texas today is one of the greatest states in the union. She has always been the grandest. Texas has taken her place among other states and she places high in her political, industrial and social life. Texas today has more natural resources than any other state and she owes it to more resources than any other state and she owes it to [illegible]

Since the above is true I think Texas should continue to lead and I believe that to do so we as Texans should do everything within our power to help make Texas a better, cleaner and nobler place to live in.

Since the above is true I believe that one of the most important things a good, clean, responsible government within the state [illegible] is to elect to its offices [illegible] men. It is important that we realize the fact because a great many people are not intending to vote for any candidate in the run-off for the governor's office.

"It is so important that each and every voter in Texas should vote for the one who shall be governor."

The man in the governor's chair is not my first choice for governor and I am against the "rotten and irresponsible type of government." I do not approve of the fanatic prohibition ideas expressed by Wolfe or Putnam. The latter said daleau[illegible] Hunter were going to be running. I voted for Hunter and I am glad that I did.

The next best thing to voting for the best governor I was under obligation to do was to vote for Hunter and I am glad that I did.

[illegible] a chance to win, although they are expected to [illegible] the patient's dying gasps. But there are claims of achievement which, if the record is upheld by Doc Roosevelt, put such as the ancient Wizard of Oz to shame. Hoover provided methods and assurance that there will be no more suffering from hunger and cold.

There is one serious complaint also that Hoover is too vague as to just what dose he intends to feed the patient once he is hired. But on one point there is no doubt: Doc Roosevelt would let the poor fellow try to build up on light wines and beer just as soon as possible and follow up again as soon as possible with a few snorts of hard liquor.

read literature from both sides. I read letters that one Abbie Humphries and letters that one Daniel Powers wrote and I said there is the written opinions of two great southern educators. I am sure that Lubbock is really fortunate in having two such distinguished citizens. Then one of Lubbock's greatest criminal lawyers we'll call him Ikie for short came out for the proxy type of government and he accused the Sterling supporters of being bought off. He used a synonym for this bought off but there is not any use of beating the devil around the stump. At any rate, I said that if the papers and speakers for Sterling had been bought off then the masses should vote for Ferguson.

I investigated the above and I found to my surprise that old Abbie and Daniel were just ordinary beings and that they were just ordinary school teachers. I was shocked at the above findings but little did I suspect what a blow I was about to receive. Right out of a clear sky Ikie went and wrote a letter and he admitted that he had been bought off many times in court. I do not believe Will Rogers would have been any more surprised if he had seen a congressman receiving a bribe.

I came to the conclusion that if the above was true that Abbie and Daniel had not learned any more about Fergusons in the last sixteen years than any body else and that if Ikie would sell out to defeat justice, that he might be willing to carry a little wood and water. I believe that any man that will sell out will cheat, lie and vote for Ferguson.

I began to think about the past record that Sterling had made and the record that Ferguson had made. During these hard times I had about forgotten about past records and history and I said, "Lest We Forget, Lest We Forget." I heard some Ferguson supporters cussing Sterling for calling the special cotton session of the legislators, and I well remember these same persons cussing him last fall for not calling the session sooner. I remember Ferguson telling us Democrats where to head in when he ran on the American ticket and I a member of the M. E. Church of the South, get a great kick over time I see a Baptist voting for a man that called them "monkey faced Baptists." I remember that Ferguson challenged Moody to a proposition about withdrawing from a race six years ago, and Dan took him up and won. Why is the word of Ferguson not any good? I remember the clean political man that Ferguson is. I remember all the congratulations he wired his opponents that defeated him.

All that I can now say is, "Lest We Forget, Lest We Forget."

I believe that if the above statements are true, that Sterling is the man for governor with all his faults, mistakes, but improvements over Ferguson. I shall vote for Sterling. Not a vote for wonderful government, but for better government than the proxy type offers.

Yours for a better state,
A Texan for Texas.

OVERCOME BY THE FUMES

DAILY MARKETS

Cotton Market

NEW ORLEANS REPORT

NEW ORLEANS, Aug. 23 (AP)—Higher Liverpool cables than due resulted in a firmer opening in cotton today and first trades here showed gains of 7 to 8 points with trading good. This advance attracted some realizing and there was also some selling by ring traders on little rain in the belt overnight. October eased to 7.73 and December to 7.89, or 3 to 5 points down from the opening but still 4 to 5 points above yesterday's close.

As stocks opened firm and somewhat higher, prices showed a tendency to rally toward the end of the first hour and had recovered one point from the lows. The general undertone appeared firm.

The market ruled rather quiet later in the morning but prices were well sustained owing to firmness in stocks and to map indications of some further rains in the eastern belt. October traded up to 7.77 and December to 7.95, or 9 to 10 points above yesterday's close.

Near mid-session prices eased 2 to 3 points from the best on profit-taking.

As the market approached the eight-cent line, there appeared to be more hesitation by traders, accounting for the quiet tone prevailing in the market.

The census bureau reported total ginnings of this year's crop to Aug. 6 at 251,183 bales of which Texas contributed 241,000 bales. The other states showed generally smaller ginnings than last season.

NEW YORK REPORT

NEW YORK, Aug. 23 (AP)—Cotton futures opened steady, 4-7 higher on firmer Liverpool cables and active overnight buying by the trade and Wall Street. Oct. 7.75; Dec. 7.92. Jan. 7.99; March 8.16; May 8.29. July 8.39.

The advance met considerable realizing and some southern selling but offerings were readily absorbed with the price of December contracts working up to 7.95 during the early trading and with the general list selling 8 to 9 points net higher.

Continued crop complaints and the firmness of the early stock market were factors in the advance, which carried prices into new high ground for the movement. The market was steady and within a point or two of the best at the end of the first half hour.

Liverpool cables reported Bombay buying in that market, and said that while labor troubles were restricting business in cotton goods, an early settlement of the Lancashire labor trouble was expected.

The report of the census bureau showing 251,183 bales ginned prior to August 16, this year compared with 90,608 last year and 572,810 bales two years ago, was without apparent effect on the market.

Trading continued fairly active but orders were pretty well divided and fluctuations correspondingly narrow. December held around 7.90 to 7.95 with cotton for sale at the outside price and was trading at 7.92 at midday, when the general list showed net advances of 5 to 7 points.

Stock Market

WALL STREET REPORT

NEW YORK, Aug. 23 (AP)—Stocks bulged up again to the tune of million-share-an-hour trading for a time today, but industrials encountered considerable resistance around the top levels of the recovery, reached a fortnight ago.

Apparent inability of the industrials to follow rails and utilities decisively through to new high ground dampened the bullish enthusiasm some, and after many issues had got up 1 to 5 points during the morning, several receded 1 to 2 from the best around midday, as the pace of trading slackened. The list seemed to be starting up again, in the 4th hour however.

Extreme advances of 2 to 3 points appeared in such issues as Case, International Harvester, American Telephone, Santa Fe, Corn Products, American Sugar, Hershey, Liggett and Myers B, Drug, Allied Chemical, and Dupont, but these advances were mostly reduced by 1 to 2 points in the early afternoon. Extreme gains of about 5 points appeared in Western Union and Liggett and Myers common. North American rose 3, and held up fairly well. U. S. Steel lost a 1-point gain. Metals were very active, Kennecott, Anaconda, American Smelting and International Nickel advancing about a point. General Electric, General Motors and Standard of N. J. rose a point in active trading in the early afternoon.

Tyler Man Shoots Wife And Himself

TYLER, Aug. 23 (AP)—Clarence Hays, 25, killed his estranged wife yesterday and then shot himself fatally.

His wife, Mrs. Luvenia Hays, 26, had been living with relatives. She sued for divorce July 12. The shooting occurred as she was quitting work at a garment factory.

Grain Market

CHICAGO REPORT

CHICAGO, Aug. 23. (AP)—Grains borrowed strength from the stock market in early dealings today and prices averaged higher. Commission houses lined up on the buying side and found offerings light until the December delivery touched 35 cents a bushel where resting orders to sell halted the advance. Wheat started 1-2 to 1 cent higher and held around the best figures. Corn was 1-4 to 1-2 higher in sympathy with wheat and also held firm.

Slaton Gin Company Files For Damages

R. H. and F. B. Tudor, operators of the Slaton Gin, have filed suit in 99th district court asking $13,485 damages from the Murray company of Dallas.

In 1927 the two men bought $4,148.95 worth of gin machinery and in five seasons since, they claim they have lost $8,700 due to faulty machinery. Alleged losses by years cited in the suit were: $2,500 for 1927; $1,800 for 1928; $1,800 for 1929; $1,600 for 1930 and $1,000 for 1931.

Miss Eddith Moore, 808 Avenue J, left Sunday morning to visit relatives during this week in Fort Worth.

RECEIVERSHIP IS ACCOUNT SOUGHT

On the heels of a complaint by I. A. Stephens in Justice of the Peace J. S. Connell's court Monday charging R. D. Prophet of Lubbock with embezzlement of $300, Prophet this morning filed suit in 72nd district court against Stephens and W. E. Latham for a partnership account and establishment of a receivership for the Caprock Uniform and Embroidery company, which Prophet said the three took over July 26.

Examining trial of Prophet, freed in bail of $500 following his arrest late Monday by a county peace officer, was to be conducted this afternoon before Peace Justice Connell. Prophet mentioned the embezzlement complaint in his petition, pleaded innocence, alleged that ill feeling made "peaceable settlement" of the partnership business impossible, and that both he and Stephens had expressed a desire to dissolve the partnership.

The business has goods, wares, merchandise, and fixtures having an inventory value exceeding $5,000, and owes Higginbotham-Bailey-Logan Co., of Dallas $2,600, according to Prophet's petition. Prophet alleged $1,000 would be due him on settlement of the partnership business, and that Stephens and Latham now are retailing from the stock.

Judge Homer L. Pharr of 72nd court ordered the district clerk to notify Stephens and Latham to appear before the court at 1:30 p. m. August 29 to show why a receiver should not be appointed.

OCEAN FLIGHTS

(Continued from Page One)

expeditions slated to take off from the same airport for Europe within 24 hours, planned to land their huge sesquiplane at Harbor Grace, N. F., for refuelling and depart tomorrow at dawn across the Atlantic if conditions are good.

The flight is intended to cement friendly relations between the United States and Norway. It is backed by patriotic Norwegian-Americans who conceived the idea as an independence day celebration in Brooklyn, where Solberg lives.

Awaited By Bride

Solberg, a native Norwegian whose bride of a year, Ingrid, is waiting to greet him in Norway, was piloting. Petersen, also a native Norwegian and radio man for the Byrd expedition to Antarctica, planned to keep in touch with radio stations on both sides of the Atlantic. He is 35 and Solberg is 38.

The airmen took off with 650 gallons of gasoline, expecting to increase the supply to 1,000 gallons at Harbor Grace. Both of them are hearty eaters, so they took a huge packet of sandwiches, a gallon of coffee and a gallon of tea.

Their craft has a cruising speed of 90 miles an hour and a top speed of 130. They expected to reach their goal, a distance of about 3,500 miles, in about 35 hours flying time.

Eleven other persons were slated to start for Europe in two other planes. The flying Hutchinsons—George R., his wife and their daughters, 6 and 8—said they would get off today for St. John, N. B., the first stop on a proposed jaunt to Scotland via Labrador, Greenland and Iceland.

To Carry Eight

Their plane "The Flying Family" will carry eight in all, they said, a navigator, mechanic, motion picture operator and radio man in addition to the family.

The third expedition, it was announced, would get off tomorrow morning if conditions were right. It is composed of William Ulbrich, Dr. Leon M. Pisculli and Edna Newcomer who said they would go to Rome. Before the plane "American Nurse" lands there the announced plans call for Miss Newcomer to make a parachute jump over Florence, Italy, in honor of Florence Nightingale, famous nurse.

LEE AND BOCHKON TAKE OFF ON HOP

BARRE, Vt., Aug. 23 (AP)—Clyde A. Lee of Oshkosh, Wis., and John Bochkon of Brooklyn, N. Y., took off, for Harbor Grace, N. F., at 9:15 Eastern Standard time, today on the first leg of a projected flight to Oslo, Norway.

The fliers expected to make the 977-miles hop in approximately nine hours.

At Harbor Grace, N. F., they planned to put aboard 460 gallons of gasoline, enough for about 4,000 miles or 35 hours flying time. They figured the distance from the Newfoundland airport to Keller field Oslo, their ultimate objective, however, as only 3,150 miles and expected to cover it in 30 hours.

Lee acted as pilot-commander of the flight and Bochkon as co-pilot.

Mollison Prepares For Return Flight

NEW YORK, Aug. 23. (AP) —Captain James A. Mollison, intrepid British air ace, prepared today for an eastward crossing of the Atlantic in his little plane within the next forty-eight hours.

The only thing detaining him was the weatherman hadn't said "go."

Twice yesterday Mollison, who three weeks ago married Amy Johnson, a noted flier among her sex, spoke to his bride over the trans-Atlantic telephone.

DR. KNAPP GUEST AT LIONS LUNCH

Dr. Bradford Knapp, new president of Texas Technological college, was a guest at the luncheon of the Lubbock Lions club today noon at the Hilton hotel. Dr. Knapp was a guest of S. J. Boller. Dr. Knapp's son, Roger, also was a guest.

"We cast our lots with you by our own desire to do it and the faith we have in the future of this country," Dr. Knapp said in a brief talk. "I feel as though I know Texas pretty well, it was my fortune for ten years to travel over it in connection with my work with the United States department of agriculture. I haven't been fortunate enough to save any money but I'm a multimillionaire when it comes to friends."

He praised the spirit of the people of West Texas, declaring that he had heard less talk about the depression here than in any section he had been recently.

Miss Thelma Moss gave two vocal selections. She was accompanied by Miss Mary Dunn.

A. I. Glassman of Electra, and George Rogers of Henderson were out-of-town guests at the luncheon.

Swimmer Missing In Channel Swim

LONDON, Aug. 23 (AP)—Fritz Fisher, the German swimmer, who left Cape Griz Nez yesterday in an attempt to swim the English channel, had not arrived early today either at Dover or Folkstone, and the belief prevailed that he had returned to France in an escorting boat.

Fisher entered the water at 10:50 a. m. yesterday and was last reported as six miles from Folkstone at 10 p. m. (4 p. m. Eastern Standard time).

Gandhi's Follower Sentenced To Jail

BOMBAY, Aug. 23. (AP) — Madeline Slade, follower of Mahatma Gandhi, the Indian nationalist and civil disobedience leader, was sentenced to one year's simple imprisonment today.

Miss Slade, the daughter on an Englishman naval officer, was arrested on arrival here August 8 in defiance of government ban against her appearance in the city.

Littlefield Man Is Injured By A Mule

The thumb of E. P. Hutchins, 52, Littlefield blacksmith, may be saved, although when he reached the Lubbock sanitarium the member was hanging by a little flesh and some skin.

While shoeing a mule, Mr. Hutchins Monday had the animal's foot tied. In unfastening it the animal kicked and the rope caught the man's thumb almost tearing it off. Doctors believe it is possible to save the thumb.

Boy Scouts have been substituted for imported Mexican laborers for thining operations in South Dakota sugar beet fields this summer.

Baptists Meet In Annual Gathering

Eleven churches were represented at an annual meeting of the Women's Missionary union of the Lubbock Baptist association at Calvary Baptist church this morning.

The meeting was opened with a devotional led by Mrs. Tom Campbell, president of First Baptist W. M. S. Mrs. Lynn Lumsden of Brownfield made the main talk this morning.

A representative from Wayland college at Plainview is to speak this afternoon. Reports of monthly meetings and of officers and special committees are to be features of a business session which will conclude the program.

Midland Visitor Is Honoree At Picnic

Miss Juanita Cox of Midland was guest of honor when Misses Ernestine and Estaline Herring entertained with a swimming party and picnic Monday night. Guests met at the Herring home, 606 Avenue R, and went from there to City pool for a swim. Later they went to Shannon park for a picnic supper.

Guests were Misses Gertrude Graham, Elizabeth Ann Garner of Commerce, Lorena Odom, Marguerite Power, Elva Laura Hall, Rachel Simpson, Lucille Peak, Dorothy Fortenberry, Genevieve McGehee, Dorothy West, Joyce Porter, Ilowayne Terrell, Jane Akers, Evelyn Rayburn, Eva Eaton, Jack Terrell and Mrs. W. A. Terrell.

Six Students Take Flying At Electra

ELECTRA, Aug. 23 (AP)—A class of six students have passed physical examinations and have been accepted for instruction in the recently organized Electra flying school. An instructor has been employed and a plane purchased and brought to the hangar at the airport where actual class work will start soon. Electra is one of the few small towns boasting of a flying school. It is expected to enroll several other students before September 1 and at least one more plane will be added to the fleet owned by local air enthusiasts.

Funeral Set Today For Dr. O. H. Cooper

ABILENE, Aug. 23 (AP)—Funeral services were arranged today for Dr. Oscar Henry Cooper, formerly president of Baylor university, later of Simmons college here and author of the bill establishing the University of Texas.

Dr. Cooper died at his home here yesterday. He was 79.

Christians Gather For Unit Meetings

Meeting in circles, members of the First Christian Ladies Aid society heard Bible lessons Monday afternoon.

Mrs. J. A. Hodges, 1320 14th street, was hostess to members of Circle 4 at her home. Mrs. W. B. Smith was co-hostess.

Mrs. D. W. Robertson conducted the Bible lesson. She was assisted by Mesdames Paul Barrier and W. R. Blake.

Others present were Mesdames W. R. McCarroll, J. H. Hackfield, J. D. Walker, L. S. Mast, L. E. Grimes, A. T. Biggers, Mary F. Hinton, C. O. Marquart, W. L. Harbison, Homer Pharr and F. O. Kelly.

A business meeting followed a devotional conducted by Mrs. J. T. Baisden at a meeting of Circle 1 with Mrs. R. R. Stuard, 2407 34th street.

Mrs. R. P. Johnson was a visitor. Members attending were Mesdames M. C. Kinser, Herbert Carlock, R. J. Keller, J. E. Cozby, C. A. Nowlin, E. O. Bagenstos and Baisden.

Mrs. Arthur L. Brown led the program for Circle 2 in meeting at the home of Mrs. D. N. Leaverton, 1812 13th street. She conducted the devotional lesson also. There were 11 members and 2 visitors present.

Members of Circle 3 in the society met at the home of Mrs. G. W. Sears, 1601 34th street. Mrs. O. A. Terry led a devotional topic and Mrs. R. F. Mays read.

Mesdames George Brewer, Fred Rea and J. T. Bowen were visitors. Members attending were Mesdames J. H. Ashmore, R. D. Allen, Fred Childress, Jewel M. Hall, Paul Morgan, J. H. Brock, Mays, Terry, E. L. Pitts and G. O. Walker, jr.

TECH ALUMNI TO HONOR DR. KNAPP

Dr. Bradford Knapp, new president of Texas Tech, and the August graduating class, will be honored by the Texas Tech Alumni association at a banquet at 6:30 at Hilton hotel, W. E. Street, president, said last night.

Former students, faculty members, alumni and graduates are invited to attend. Several Lubbock citizens also will be present.

More than 70 tickets had been sold up to this morning, it was reported.

ACUFF SCHOOL OPENS

Miss Mae Murfee, county superintendent of schools, announced the Acuff school opened Monday with a satisfactory attendance.

E. P. Reeves is principal. There are six teachers this year. Following the exercises, at which Miss Murfee spoke, women of the community organized a Parent-Teacher association.

HOOVER SUPPORT DENIED BY MOODY

HOUSTON, Aug. 23 (AP)—Former Dan Moody issued a statement Monday denying assertions of James E. Ferguson that Moody and Governor R. S. Sterling had voted for President Hoover in 1928. Mr. Moody is stumping in behalf of Mr. Sterling's campaign for renomination in Saturday's Democratic runoff primary election.

The Moody statement said reports of Mr. Ferguson's Groesbeck speech of last Saturday night had quoted the speaker, who is campaigning in behalf of his wife's candidacy for the gubernatorial nomination, as having said that "Governor Sterling and I voted for president Hoover in 1928."

"This illustrates how utterly irresponsible Ferguson is in his public utterances and his total indifference to the truth," Moody said.

"Governor Sterling personally supported the Democratic ticket in 1928, and through the columns of his (then) paper, the Houston Post, advocated the cause of the Democratic party. As Ferguson well knows, I repeatedly stated my support of the Democratic nominees in that campaign."

Seventy-Eight To Graduate At WTSTC

CANYON, Aug. 23 (AP)—Seventy-eight young men and women will receive the bachelor's degree at the West Texas State Teachers college at the summer commencement, August 24.

Dr. J. A. Hill, president of the college, will deliver the commencement address to the class, having as his subject "The Rising Tide of Freedom."

Several master's degrees will be conferred on this occasion, these being the first higher degrees granted by this college.

Tulia Legion Post Will Plant Wheat

TULIA, Aug. 23. (AP)—Three hundred acres of land west of Tulia have been secured by Swisher county post No. 214 of the American Legion and will be seeded to wheat in September.

Wade Smith and Clyde Cox, legionnaires, with tractors, are getting the ground in shape for planting. Labor, wheat, and all necessary expense will be met by members of the post.

Post officials are working on a plan to raise money enough to build a new home here. Proceeds from wheat will be applied to this purpose.

BURNED TO DEATH

DENTON, Aug. 23 (AP)—Rufus E. Denson was burned to death and A. O. Wetherman was injured severely Monday afternoon when the truck in which they rode caught fire after overturning on the highway southeast of Denton. Both lived at Houston.

Dr. J. W. Hunt, president of McMurry college at Abilene, and his son, Julian, spent Monday night at the home of Dr. Hunt's sister, Mrs. George R. Bean, 1614 19th street.

STATE BONUSES FOR HAVING CHILDREN OF GOOD HEREDITY ARE PROPOSED AT INTERNATIONAL EUGENICS CONGRESS

BY HOWARD W. BLAKESLEE

NEW YORK, Aug. 23.—State paid bonuses for having children of good heredity were advocated at the third international congress of eugenics which opened here today.

Failure of contraceptives to limit births of inferior children was asserted. Protection against immigrant genes even more dangerous to a nation than disease germs was suggested through laws permitting deportation of first generation children of newcomers in any country.

"Equivalence" of women instead of "equality" with men, clothing better suited to motherhood, a tendency in Europe for higher classes to have more children and sterilization of the unfit were mentioned.

The keynote of what the geneticists are fighting was struck in a statement by Theodore Russell Robie, M. D., that the "greatest single cause of mental deficiency (50 to 65 per cent) is poor heredity."

State payment of $50 monthly to parents of good heredity when their third child reaches its fifth birthday and $10 or more for each child in addition was advocated by Dr. Renato Kehl of Rio de Janeiro. Deaths of children would end payment. He favored also high inheritance taxes for families with few children, with reductions for large families.

Income tax rebates to cover substantial portions of a child's education were suggested by Dr. J. Sanders of Rotterdam.

These state allowances, however desirable, would almost certainly be too small to encourage the really gifted to have more children, said Sir Bernard Mallet of London. Spread of eugenic knowledge he held as the "real hope."

"The serious fall in the birth rate, due undoubtedly to the spread of the knowledge of contraceptive devices," he said, is perhaps the most momentuous social and biological phenomenon of our time, and it is impossible to contemplate without alarm the effect of its probable development on the future of the race.

Whatever objection may be felt to birth control on religious and social grounds, it cannot but be deplored that, from the nature of the case, the classes in which the use of contraceptive methods would be eminently desirable (the mentally unfit) are incapable of apply any means yet devised.

The insidious human genes known by immigration were described by Dr. D. F. Ramos of Havana. Genes are living particles, controlling heredity. They are so much smaller than germs that scientists estimate a single teaspoonful of genes might contain all the human differences in heredity man has ever known.

Some genes are dominant; others recessive. These latter constitute the peril, containing both talents and taints which sometimes show not the slightest trace in immigrants but crop out in their children. Bad recessives, Dr. Ramos said, can carry "almost fatal consequences," hence the need for deportation of immigrant offspring.

ROBIE POINTS OUT AMERICAN PROBLEM

NEW YORK, Aug. 22 (AP)—Two notorious feeble-minded American families whose relief ultimately cost the government $2,000,000 annually could have been sterilized at the beginning for $150.

Thus Theodore Russell Robie, M. D., of the Essex County Mental Hygiene clinic, pointed out an American problem today to the third international congress of eugenics.

There are 1,000,000 to 2,000,000 mentally deficient in the United States," he said, "and 14,000,000 mentally below average intelligence.

"The seemingly insignificant two per cent mental deficients will multiply three and one-half times while superior population goes backward in reproduction.

"The female intelligentsia marrying have only one-third as many children as other classes and thus we are figuratively sterilizing the fittest."

He suggested that if research were possible it would be found that social inadequacy and mental defectiveness figure in the unemployment problem and that some of the "mental defectives might have been spared the misery they are now facing if they had never been born."

SLASH SOUGHT IN BUDGET

RECOMMENDATIONS TO COMMISSIONERS ARE MADE BY GROUP

The four members of the county commissioners court and the chairman, Judge E. L. Pitts, are considering recommendations for a reduction of the county budget for the new year, made to the court by a committee of the Lubbock County Taxpayers association Monday.

One of the committee yesterday read the recommendations to the court. There were a number of persons present.

"It was reported by members of the association present, that they represented 1,800 Lubbock county citizens," Judge Pitts said. "They said the report had been adopted by the executive committee of the association. The original was filed with the commissioners court in open meeting."

The report covers five pages of typewritten matter. The committee made an exhaustive study of county of county finances, income and expenses. The court was given considerable praise for its work in reducing costs for taxpayers, by savings, valuation reductions, tax slashes and other economies.

The committee reported finding the county had two principal sources of income; the levy of taxes against property over which the county commissioner's court "has authority within the constitutional limits and the income from automobile license fees, with distribution controlled by state law. The former amounts to around $165,000 annually and the latter $65,000 to $70,000.

Court Is Praised

"Before making specific recommendations as to economies which we believe can be affected, we wish to say that in our opinion the commissioner's court has done a great deal to save money to the county," the report said. "We find that many more economies can be affected by legislation than can be by any act of the commissioner's court.

"We find that there are a great many inequalities in the income of various county officers which cannot be corrected except by legislation and we further find that the income of those county officers over whose income the commissioners court has control, is much lower proportionally than some of those over which the court has no control. The court has reduced salaries in every department over which it has control.

Inequalities Cited

Reference is made to the fee system and how it operates and the fact that it is controlled by the legislature. Inequalities are cited.

In pointing to some salary reductions which it supports, the committee admits that these will "result in a difference in the tax rate of only one cent or less on the $100.

Recommendations are:

Recommendations Made

"First: A 25 per cent reduction in salaries of all employes connected with the county library, the elimination of one assistant if possible, since the maintenance of a library is not an indispensable part of any county's business and since it costs the county approximately $5,000 per year. We believe that the number of books to be purchased could be cut in two, which would result in a saving of $500.

"Second: the committee recommends the discontinuance of a farm agent and assistant during these strenuous times.

Would Cut Assistant

"Third: the committee favors the discontinuance of the assistant county auditor, as the county clerk can assist the auditor in preparation of vouchers and the county treasurer can assist the auditor in some of his work that is practically duplication of the county treasurer's.

"Fourth: the committee thinks that the salary of the district and county clerks could be cut in half, a substantial reduction made in the salary of the home demonstration agent, that the matron of the rest room could be eliminated and that the janitor's salary could be reduced."

Others Are Shown

Reductions that "cannot be put into effect this year but can during the year 1933," were mentioned. They include valuation reductions toto as much as 30 per cent, which will automatically reduce salaries of the auditor, members of the commissioner's court, assessor and collector, all based on valuation or monies collected.

Support of the proposed constitutional amendment to consolidate the offices of county assessor and collector, is urged. Also legislation to combine the office of treasurer and auditor or to abolish one of them and vest the duties with the other.

Saving Described

"It is the recommendation of the committee that at least one tractor crew be eliminated in each commissioner's precinct, less work be done on the county roads and that part of the income of the county from automobile license fees be used to pay interest and maturing bonds on the county road bonds instead of using the entire $68,000 or $70,000 derived from license fees upon the construction and maintenance of county roads. This would mean a saving to the county of some $25,000 annually."

The report urges every county official to "do all the work he can without assistance and to save the county every dollar he can. Purchase of gasoline and oil and other supplies through competitive bids for a yearly contract, is urged.

Robert H. Bean, L. B. Wright and J. H. Hankins signed the report as the committee.

New Life-Saver for Aerial Travelers

The risks of air travel may be said to be virtually eliminated if, and when, this device is universally adopted. That is the claim of the inventor, Harvey P. Trusty of Los Angeles. The device operates thusly: each passenger is strapped into his, or her, seat which is attached to a 28-foot parachute packed outside the fuselage of the plane. In an emergency the pilot pulls a lever; a sliding door opens and the seats and their occupants are thrown clear of the plane, the parachutes opening automatically. Above at left are two fair passengers testing the device. At right the new aerial life-saver is shown in operation in the air. The parachutes have not yet come into view. Happy Landings, ladies!

JOBLESS BODY WILL MEET

TWENTY-FIVE SENT TO JOBS MONDAY BY COUNCIL HERE

Lubbock unemployed men and women are invited to attend a meeting of the Lubbock Unemployed council at its hall, 708 1-2 Thirteenth street, Friday night, W. B. Price, secretary-treasurer, has announced.

A message of importance for all the unemployed will be given, he said.

Monday 25 men were sent to jobs. More men were expected to be placed today.

Last week the council sent 145 men out to work, including a number that will keep the holders busy for several months. There were six families that went out on all fall jobs.

"Right now we have places for five or six large families to gather crops, and head maize," Mr. Price said. "We also have five or six places for women as housekeepers, several who will take women with a family.

"We have some people who are willing to take in pail maize, cotton or other crops.

Some mechanics are being placed now, painters, paperhangers and other lines.

Calls have come to the office from a number of surrounding towns. Two women went to Levelland on jobs that will last until December 1. There have been calls for workers for Littlefield, Robs, Levelland, Brownfield, Ralls, Abernathy, Shallowater and many other towns, Mr. Price added.

Several men last week were given jobs with pay on the basis of one third of the maize and one fourth of the cotton they gathered.

Calls were made on the council for women to do quilting. They now have three women who are willing to quilt, either with the workers or the other furnishing material.

BONUS MARCHERS PLEAD NOT GUILTY

WASHINGTON, Aug. 23 (AP)—Three former bonus army members pleaded not guilty when arraigned yesterday on charges of felonious assault growing out of the clashes between veterans and police July 28, in which two ex-service men were fatally wounded.

One of the men is John O. Olson, Valparaiso, Neb., carpenter who holds the distinguished service cross for gallantry in action.

His companions were Broadus Faulkner, negro, Paint Lick, Ky., and Bernard McCoy, Chicago, who also was indicted on a charge of assault with intent to kill.

Justice Stephens in the District of Columbia supreme court granted attorneys for the two until September 8 to plead to the indictments or change their pleas.

Delinquent Taxes Being Transferred

Transfer of delinquent taxes from the rolls to the delinquent rolls is under way at the office of the tax collector, W. H. Carpenter, chief deputy, reports. About 14 per cent of the 1931 roll was uncollected on June 30, close of the collection year.

Many people believe the legislature will remit penalties and interest when the special session meets August 30, Mr. Carpenter said.

He received a letter yesterday from Paul Williams, secretary of the state association of collectors, who gives that as his belief. The special session, called by Governor Sterling, also may transfer one cent of the gasoline tax money from the highway fund to a fund for refunding of county road bond issues.

RAP FERGUSON ROAD CHARGE

CLAIMED SHORTAGE OF $100,000,000 HELD ABSURD BY ELY

RANGER, Aug. 23.—(Special)—James E. Ferguson's frequently repeated assertion that the state highway fund is short one hundred million dollars is branded as "typically Fergusonian and too absurd for public credence" by Judge W. R. Ely, chairman of the highway commission, in a public address delivered here.

If Jim Ferguson is sincere in his preposterous assertion that the state highway fund is short one hundred million dollars," Judge Ely said, "why hasn't he gone to Attorney-General James V. Allred with his charge? Allred, quick to enforce the laws of the state, would be the first to investigate any such a situation if there were one iota of suspicion attached to the highway department".

Raps Jim's Record

Judge Ely then turned to attack Ferguson upon the highway department record made by Ferguson's highway commission during the administration of his wife, "The Ferguson commission paid more than two dollars per square yard for concrete highway construction, while the Sterling administration builds concrete roads for as low as ninety-two cents a square yard," Judge Ely said.

Maintenance under Fergusonism cost thirty cents a square yard, the highest ever paid in the state, while under Sterling's administration maintenance cost was dropped as low as seven cents a square yard. You voters will recall the scandal that attached to the Ferguson highway commission through the American Road company and the Hoffman Construction company contract. Favoritism and high prices practiced by the Ferguson commission cost the people of Texas millions of dollars tossed into the pockets of a few of Ferguson's friends, who were likewise friendly to Ferguson. Dan Moody, as attorney-general was able through his suit against the American Road company to compel it to disgorge $600,000 of excess profit, but he was unable to stop the great flood of fortunes that the Fergusons passed out as patronage and boodle.

Judge Ely challenged the Fergusons to demand of Allred an investigation of the highway department at this time and declared that for every penny which could be shown to have been misused or misappropriated, he would match it with a dollar of his own and donate it to the Ferguson campaign fund.
