STEAMER ATTACKED BY PIRATE PASSENGERS

Several of Crew of Chinese Vessel Killed and \$30,000 Stolen By Pirates

San Francisco, May 6.—The story of an attack by Chinese pirates on the Chinese steamer, Shintoo, in which several of the crew were killed and \$30,000 stolen was brought here yesterday by the Japanese steamer, Nippon Maru. The Shintoo, a Chinese owned vessel flying the British flag, sailed from Hong Kong with 17 passengers who later proved to be pirates. Three hours out of port they drew pistols and attacked the guard of the Canton government aboard the ship. They killed one soldier and wounded another. The pirates then rushed into the engine room killing the engineer. The Chinese skipper escaped by disguising himself as a cook.

British Celebrate "Accession Day"
London, May 6.—Artillery salutes were fired in St. James Park, London, at Windsor and all the big naval and military stations today, in honor of the fourth anniversary of King George's accession to the throne. Flags were flown on all government buildings, and British warships in all parts of the world "dressed ship" but these were the only official celebrations. The King and Queen, with other members of the royal family placed wreaths on the grave of the late King Edward at Windsor, and attended private memorial service at St. George's Chapel. King George celebrates his forty-ninth birthday on June 3, having been born in 1865. He succeeded his father May 6, 1910, and was crowned June 22, 1911. In 1893 he married Princess Mary of Teck, who had been engaged to his elder brother, the late Duke of Clarence, (died 1892) and by whom he has five sons and one daughter.

FRANK'S CASE WILL NOW GO TO GEORGIA SUPREME COURT

Atlanta, Ga., May 6.—Judge B. H. Hill of the county superior court today denied the extraordinary motion for a new trial for Leon M. Frank, under sentence of death for the murder of Mary Phagan. In denying the motion Judge Hill announced, it would sign a bill of exception thus allowing an appeal to the state supreme court.

Scientists Honor Langley
Washington, May 6.—Scientists and aviators today joined in doing honor to Langley, inventor of the heavier-than-air machine. Langley died practically broken hearted from ridicule about his original machine, and not until after some years afterwards did the scientific world realize that his invention was practicable. Dr. Zahn of the Langley aerodynamic laboratory under the Smithsonian Institution hoped today to have the original "aerodrome" on exhibition and he expected to demonstrate that with a proper engine it could be operated as successfully as any of the later day machines.

JOHNSON'S CHAMPIONSHIP CLAIM IS ACCEPTED

Paris, France, May 6.—The French boxing federation today accepted the claim of Jack Johnson to the world's championship. The federation heretofore had refused to recognize Johnson's claim.

URGES LEGISLATION TO AID TEXAS FARMERS

President of Bankers Stresses Importance of Improvement in Methods of Handling Cotton

Port Worth, Texas, May 6.—Pointing out the loss of millions of dollars to Texas farmers annually as the result of the damage to cotton in the country yard, Nathan Adams of Dallas, president of the Texas Bankers' Association, stressed the importance above all other things of the association using its efforts and influence to bring about an improvement in the methods used in handling the cotton crop in his annual address before the state convention at the auditorium Tuesday morning.

Adams Addresses the Feature.

President Adams' address was the feature of the two sessions of the first day's program of the thirtieth annual meeting of the State Bankers' Association, which was attended by over 700 delegates and it is expected that most of the resolutions will be based upon several important recommendations and suggestions made by Adams in his address.

While Adams discussed the federal reserve act to some extent he laid special emphasis on needed changes in the laws that will be of benefit to the farmers of Texas.

The most important change along this line earnestly advocated by Adams for the association to concentrate its efforts upon is an amendment to the warehouse law of the Thirty-third legislature to provide that private warehouse men should come under its provisions and by proper legislation be compelled to provide a yard covered by a shed for warehousing cotton stored with them and to issue a uniform receipt for such cotton, the receipt to be protected by a bond made by the warehouse man to the state treasurer.

He called attention to two amendments which he stated were apparently needed to the present laws. The first is to amend the federal reserve act so as to fix the minimum rate of interest which member banks would be permitted to pay their correspondents on daily balances. The second is for an amendment to the Texas state banking laws which will grant to those state banks which join the new system a reduction in the reserve requirements of the national banks.

Railroads Should Own Compresses.

In the opinion of Adams the compresses should be owned and operated by the railroad interests. He gave for his reason on this point, that if it was the case that the railroads would be responsible for the cotton from its point of origination until it was loaded on the ships at the ports.

He recommended the appointment of a committee of bankers to take up with the railroad commission of Texas at an early date the matter of establishing the "merit system" among the compresses.

He said that at the proper time a motion would be entertained to appoint a committee to be sent to Washington for the purpose of taking up with the comptroller the question of cotton and grain loans with the view of devising a plan which will be satisfactory both to the comptroller and to the banks.

The organization within the next twelve months of a banking association comprising the banks of the entire Eleventh federal reserve district was suggested.

He urged that every banker and business man in the state take sound and active interest in the political affairs of the state.

He declared that upon the granting of the application for a small increase in freight rates now pending before the interstate commerce commission largely depends the future growth and development of the railroad and business interests of America and advocated the granting of this increase.

Continued-persecution of the corporations within the border of the state tends only to frighten capital away, declared Adams and he said it should be frowned upon by every man who has the interests of his state at heart.

FEMALE INSPECTORS AT BORDER CROSSINGS.

El Paso, Texas, May 6.—In order to enforce the embargo on arms into Mexico the customs officials have found it necessary to install female inspectors at all crossings. The hawls of the feminine adherence of Villa and Carranza have covered enough cartridges, it is reported, to fill many a match box. All women crossing the border are now carefully searched.

KERN PREDICTS ADJOURNMENT OF CONGRESS BY JULY 10

Washington, May 6.—Probable adjournment of Congress by July 10 was predicted by Senator Kern, democratic leader in the Senate today after a White House conference with the president and Senators Hoke Smith and O'Gorman.

Mr. Kern said he believed the Panama Canal tolls repeal would be disposed of within two weeks.

BECKER IS DENIED CHANGE VENUE

SECOND TRIAL OF FORMER POLICE LIEUTENANT STARTED THIS MORNING

SLIGHTLY NERVOUS AT FLAT

Defendant Quickly Recovers Composure, However, He Appeared in Good Health

New York, May 6.—The second trial of Charles Becker, former New York police lieutenant for the murder of Herman Rosenthal, the gambler, in July, 1912, was begun today. At the outset the defense attacked what it characterized as District Attorney Whitman's practice talking to the newspapers to create sentiment against the defendant. For this reason the defense asked a change of venue which was denied and the selection of a jury began.

Becker apparently in good health sat with his wife at his counsel's table. He seemed slightly nervous at the start but within half an hour was exhibiting the composure which marked his demeanor at his former trial.

MEXICAN DIPLOMATS WIFE KILLED IN FALL

New York, May 6.—Mrs. Lewis Chagary, wife of Lewis Chagary, Mexican minister to Costa Rica, fell from a window on the fifth floor of an apartment house here today and was impaled on a picket fence. She was taken to a hospital where she died. Her husband is in Costa Rica.

QUADRENNIAL CONFERENCE M. E. CHURCH, SOUTH.

Oklahoma City, May 6.—Somewhat later than scheduled, the 17th quadrennial conference of the Methodist Episcopal Church, South, convened in St. Luke's Church here this morning. The conference will last three weeks. Bishop Wilson, senior member of the bishopric called the body to order.

GOV. TRAMMEL WELCOMES CONFEDERATE VETERANS.

Jacksonville, Fla., May 6.—The United Confederate Veterans and other allied organizations in their 24th annual reunion were extended a cordial welcome by Gov. Trammel today. He addressed the first official meeting of the veterans.

JEWIS AGAIN THREATENED IN THE SUBURBS OF KEIFF

Odesa, May 6.—More than five thousand Jews are threatened with expulsion owing to the incorporation of several suburbs with Keiff, the city made famous by the Mendel Beilis trial and which is outside of the Pale. The suburb of Demievka with 1,384 Jewish families, comprising 5,048 persons, and that of Shulavka with 120 families or 556 persons, were within the Pale, but as part of Keiff, Jews are no longer permitted to live there. The governor of Keiff has recommended to St. Petersburg that the residents of these suburbs be attached to the Pale district of Lukavsk, but in the meantime the police are inspecting permits of residents with a view to prosecution and expulsion.

TEXANS AMONG REFUGEES FROM WEST COAST MEXICO

Washington, May 6.—A large number of refugees from the west coast of Mexico arrived on a tramp freighter at San Diego, Cal., which arrived there from Manzanillo.

Names of the following Texas appear in the list issued by the state department: Frank Thompson, Houston; Neil Trumbull, Laredo; L. C. Groce, wife and two children, Laredo; R. F. Burdette, wife and child, Galveston; J. A. Okietree, Galveston; J. H. Kipp, Dallas; W. E. Pomeroy, El Paso.

The department also advised that a large number of people had not gotten out of the Guadaluajara district when the steamer left port, among them being mentioned Mr. Hackett and wife, who reside in San Antonio.

FAITHLESS LOVER

Vienna, May 6.—A viper which was placed by a young girl in the bed of a faithless lover is among the many interesting exhibits in the new special poison department of the Institute of Criminology at Graz. Brilliant moonshine caused the snake to crawl out from beneath the bed clothing before the intended victim had retired, and he captured it. There is also a collection of poisoned bees, and numerous varieties of poisoned food. Lectures are given on the kinds of poison used by various criminal types and the different methods of preparation and administering.

Another section of the Institute is devoted to recording the calligraphic signs by which European criminals convey warning or other information to each other.

GEN. FUNSTON AUTHORIZED TO EXTEND HIS LINES

Heavy Fortifications Will Be Thrown Up By American Forces Around Vera Cruz

MEXICANS SOLDIERS MAY DESERT HUERTA

Approach of General Zapata From The South Causes Apprehension In Federal Capital

By Associated Press.

Washington, May 6.—Orders have gone from the war department to General Funston in command at Vera Cruz authorizing him to extend his lines about Vera Cruz "as far as in his opinion is necessary." This, it was explained, gives General Funston practically a free hand at Vera Cruz, and it was said that the American line would at once be extended and heavy fortifications thrown up.

General Funston reported to the war department today that he had no definite information concerning the concentration of Mexican federal forces about Vera Cruz but that he believed from the information obtainable such concentration was only for the purpose of defending the line of railway to Mexico City in case the United States troops should advance.

Refugees at Vera Cruz reported that the tracks of the Inter-oceanic railway were being torn up.

Admiral Badger reported that Constitutional forces made a sharp attack yesterday on the federals in the northern part of the province of Vera Cruz. There was no decisive result as far as he could learn.

It was explained that changes in the placing of American troops would not include any movements in the nature of an advance from Vera Cruz.

HUERTA'S HOLD WEAKENING

Diplomatic dispatches have been received from Mexico City stating that fear of attack by the Zapata forces is causing considerable alarm. These dispatches say that Huerta's hold on his soldiers is weakening and that the possibility of opposition to Zapata has said that he would get to Mexico City before Villa. May fifth, the patriotic holiday is reported to have passed without the anticipated anti foreign demonstration.

Admiral Howard reported from the west coast of Mexico today that the relations with the Mexican authorities are more cordial than could be expected under the circumstances. All ships of the American fleet have been ordered to avoid hostile acts.

CHILDREN DRUG FIENDS IN THE AMUR TERRITORY

St. Petersburg, May 6.—That whole districts in the Amur territory are morphine-mad, and that even children are dope fiends, was the statement made by Dr. Starokozitsky, lecturing before the medical society of Blagovestchensk. Children acquired the dope habit, he said, before reaching their teens, and the villages were populated by morphine-maniacs. In one jail out of every 1000 prisoners, 300 were dope fiends, and the same proportion applied to the hospital patients.

A large number of morphine clubs existed in Blagovestchensk, and it was a common sight to see morphine-maniacs making injections in the open streets. The use of cocaine also was declared to be general.

Official statistics also show that 96 per cent of the boys and 95 per cent of the girls at school in the province of the girls at school in the province ingested intoxicants. Children of seven and eight frequently become drunk, the boys preferring spirits and beer, and the girls red wine and beer. Strong measures are being taken to stamp out alcoholism among the children.

\$25,000 FIRE AT MATA GORDA LAST NIGHT.

Matagorda, May 6.—Loring Brothers wholesale fish and oyster dealers lost their building and ice factory last night by fire of unknown origin. The loss is estimated at \$25,000 with insurance of \$9,000.

27 OF COLUMBIAN'S CREW HAVE BEEN RESCUED

Search Continues For Four Boatloads of Crew of Burned British Steamer

Sable Island, Nova Scotia, May 6.—Captain McDonald and thirteen members of the crew of the British steamer, Columbian, which burned at sea were saved by the steamer Manhattan. A wireless to this effect was received from the Manhattan today. The Manhattan had been near the scene of the burning Columbian and, was known to be searching for boats containing members of the crew.

Yesterday the liner Frankonia picked up one of the Columbian's boats and thirteen of the crew and the body of the chief steward so that 27 in all have been rescued alive.

The other for which the Manhattan and other vessels are still searching contain the first and second officers and 17 men.

The Columbian caught fire at sea Sunday night. The crew got away in three boats but were not provided with clothing and provisions for the open sea. Captain McDonald's boat had been adrift more than fifty hours when found by the Manhattan.

Describing the wrecking of the Columbian a lamp trimmer's son said his father was coming forward calling when the deck blew up and his father fell back into the burning hole.

A quartermaster with Captain McDonald and several others were retreating a boat out when a big explosion occurred. It was not known whether this boat was saved or not.

The second officer got away with about twenty men. All accounts agree that the fire started about midnight Sunday. In half an hour the whole ship was aflame.

Dr. Hill Hears Views On The Mexican Situation

Dr. J. W. Hill, who returned yesterday from San Antonio, in an interview with a Times Reporter today, said:

"I had a very enjoyable trip indeed. I was splendidly entertained, but paid for it with some good, hard work. On Thursday I addressed the alumni banquet in the dining room of the San Antonio Female College, delivered the annual address on Saturday evening to the graduating class in the chapel, preached the commencement sermon at 11 o'clock on Sunday and preached again at Laurel Heights at 8 o'clock the same evening.

"San Antonio had on her spring dress, and everyone who has been there, especially at this time of the year knows what that means. What a wealth—what a profusion of shrubbery and trees and flowers! Flowers everywhere, and the very air is loaded with the fragrance. This bottle of ointment, however, was not altogether without its proverbial fly—it rained a good deal almost every day.

"The Mexican situation? Oh, yes, the matter is what almost might be called 'acute.' I met a number of refugees and talked with quite a number of leading men who live in San Antonio, and own property over in Mexico, and the way they talk differs a little from what one hears on the streets or the streets of any North Texas town. The watching and waiting policy of Mr. Wilson is severely criticised by a number of those people—especially by those who have relatives in Mexico or who own property there. One large ranchman in the state of Chihuahua, but who lives in San Antonio, in discussing the matter with me, said:

"Only those who live along the border here and those who live over in the Mexican republic are in a position to have a proper idea of the situation. We know Mexico and we know the Mexicans. If Mr. Wilson had sent Marshall Hicks of San Antonio, or some other leading man down here to do the work expected of John Lind, matters would have taken a different turn. Fact is, the first biggest mistake made was by Taft, who, instead of insisting that Mexican people respect us and our folks, advised the Americans to come out of Mexico. This followed by a number of blunders, in which the Mexicans were given a sight of the white feather, have gotten matters into the present mess. Why, do you know, the average greaser has two thoughts well fixed in his mind. First, that the Protestants are infidels and savages; and second, that we are really afraid of the Mexicans. When one remembers that eighty-five per cent of those people can't read, and have been helpless victims of church and state from the days of Cortez down to the line, their present condition and attitude toward us is not surprising.

"Speaking to another prominent man about this matter, I quoted from Dr. Asuna, who, in a recent article to the Southern Methodist Review, had blamed old General Diaz for the present trouble, because he had not fostered popular education and was even opposed to it, and asked him what he thought about Dr. Asuna's statement. Dr. Asuna, it will be remembered, was superintendent of public instruction in the state of Chihuahua, while Mr. Diaz was still in power. Now this gentleman with whom I spoke confirmed everything Dr. Asuna had said. He further remarked:

"That was the fatal mistake that Diaz made. During his thirty-five years of power, he fostered popular education. Mexico would now have a generation of intelligent, educated people. The iron hand of Diaz was needed at the time; and while that iron hand was forcing order and compelling peace, the old general had the opportunity rarely offered to a despot to have made his rule a general blessing to his people. Instead, however, he let things rock along, shooting a few people now and then who dared to oppose him, receiving big subsidies from foreign corporations, who gobbled up the wealth of the country without paying any taxes on it, and when the iron hand was removed, like a stream dammed up for the time, these millions of semi-savages burst forth in wilder and more furious rebellion than ever. The Vera Cruz and Tampico incidents would never have been necessary at any time if Diaz had improved his opportunity. As it is, as these incidents have come to pass, they ought to have come sooner. It seems now that nothing short of intervention will save either that country or the honor of our nation. A protectorate, like that of Cuba, inaugurated by the United States, is the only thing in sight that has any promise to it.

"Those people down there seem to have no more confidence in Villa than they have in Huerta. As to Carranza, they regard him as a kind of second edition of Medero—well meaning but weak. One man who was in a position to know affirmed to me that all of these fine speeches we read, purporting to come from Villa, are really the product of our man Carranza down there, who is a personal friend of old Villa and who was on his staff at the battle of Torreón. They all agree that Villa is a fighter but hasn't got sense enough to know when to quit, and that most likely, even if he should overcome Huerta, he would turn his guns upon us. I asked a prominent man concerning the Mexicans who live in San Antonio, and he said that some of the wealthier Mexican citizens there had published circulars and scattered them over the town, calling upon the Mexican people to keep their mouths shut. The impression they wish to make upon us is, that while in sympathy they may be divided between Huerta and Carranza, they are nevertheless for us and our government first of all. Knowing this to be an abnormal and unnatural attitude, I asked my wife's brother, who is a leading ranchman and employs a great number of Mexicans, what he thought

about it. He has one Mexican who does nothing but attend to his lawn—a yard man, if you please, and who has been a very faithful servant for a number of years. He told me that the day they received the news of the removal of Huerta to exile the American flag, he called this Mexican to him and asked him what he thought about it, and the Mexican looked him straight in the eye and answered firmly: 'Huerta makes correct—Huerta is eminently correct. My brother-in-law asked him then if the other Mexicans there held his view, and taking up his hose and turning them on a flowerbed, he nodded his head with his face away, saying: 'Si, Señor'—Yes, sir.

"I suggested to one man that if Teddy had been in the saddle, there might have been something doing. He laughed loudly and then said:

"That fool would have had 50,000 men killed by this time, most of them our own people."

"To sum up, no one seems to have any plan well thought out, save, possibly, intervention, according to which peace is possible in our suffering sister republic. The sad part of it is—the pity is—the tragedy is—the good suffer along with the bad. We have a great number of missionaries there, as have other denominations of Christians, and hundreds of thousands of preachers and people, native to the soil, who are as true and loyal to Christ and righteousness as any of their white brethren in the United States; but like the drunkard's family, though innocent, they must suffer the consequences of unrighteousness. In the last analysis, the only hope is in the Providence of God, who is pledged in spite of men's faults and failings, to compel even the wrath of man to praise Him.

LIVESTOCK RECEIPTS IN FORT WORTH DURING APRIL

Fort Worth, Texas, May 6.—There were 238,019 head of livestock received on the Fort Worth market during April, according to a report issued by the Fort Worth Stockyards Company. Compared with the receipts for the

same month of 1913 this is a decrease of a little more than 4,000 head, which is attributed principally to the heavy rains in the various sections of the state and crippled transportation facilities caused by these precipitations. During the four months of this

year livestock receipts on the local yards have totaled 785,576 head, compared with 644,972 head for the same period of last year, which is an increase of 240,604 head of livestock. Sheep and goats were the predominant class of livestock unloaded on the market during April and 92,675 head of these animals were received here during that time. Cattle took second place with 80,949 head and hogs came third with 53,468 head. According to

the report there were 8,510 head of calves received here during last month and 1,958 head of horses and mules. Sheep, goats and hogs were the only class of livestock which showed an increase over April, 1913 figures.

Let Me Furnish Your
Meat This Summer

Warm weather is a test that a lot of meat men can't stand. Beef has to be bought very carefully and taken care of most carefully or customers get the worst of it.

I am willing to stake my reputation and hope on securing your business on what I can do in the way of supplying your summer meat. I use the utmost care in handling meat the year round and I seldom if ever have any losses and never any complaints. The prices are always the lowest as good meat service warrants. Visit my shop and let me explain to you about this in person.

BELL JACKSON NUPTIALS AT
HIGH NOON TUESDAY

An affair of more than usual interest that has been looked forward to for some time by Wichita Falls society, took place Tuesday at high noon at the First Baptist Church, when Miss Mabelle Jackson became the bride of Ben Mosley Bell, Dr. J. I. McKee performing the impressive ceremony. The church was beautifully decorated with a profusion of blossoms, ferns and potted plants the altar being a bank of green. The front pews reserved for the family of the contracting parties were marked with ropes of sunflower and ivory lace and bows of bridal tulle. Miss Anna Bell at the piano played as a prelude the "Romanian" by Chopin. Mrs. W. S. Robertson following with "Beloved." Charles J. Templeton then rendered "Humoresque" on the violin, followed by Ivan Murchison with a solo, "Because." The bridal party entered to the notes of the Lohengrin bridal chorus, sung by Mrs. Robertson and Mr. Murchison with violin obligato by Mr. Templeton.

The matron of honor, Mrs. Harry Jackson, of West, sister of the bride and the maid of honor, Miss Bernice Jackson, younger sister of the bride, entered first coming down opposite aisles to the altar. Mrs. Jackson wore an imported crepe robe, French embroidered in pink and a white lace hat with blue plume trimmings and pink roses and carried a sheaf of pampas. The maid of honor was gowned in white embroidered crepe with wide white satin girdle and carried pink bridesmaid's roses. Her hat was a garden shape affair, hat trimmed with pink roses and long ribbon streamers.

They were followed by Miss Genevieve Carver and Burton Stayton, Miss Bertha Mae Kemp and Jerome Stone, the bridesmaids and groomsmen. Miss Carver wore an embroidered crepe net with sash of pale blue, a Lohengrin garden hat trimmed with roses and daisies with long blue streamers, while Miss Kemp was gowned in an embroidered crepe, with pink satin girdle with a large butterfly bow. Her hat was of Lohengrin also, in garden shape, trimmed with roses and daisies and with streamers of pink. Both maids carried arm bouquets of white carnations. The bridesmaids and matron wore silver slipper buckles, the bride's gifts. Immediately following the maids and groomsmen the bride and groom came down the aisle together, the girl's blue dress being attired in a King's blue silk tulle traveling suit, with all accessories in harmonizing shades, the costume setting off her fair beauty to the very best possible advantage. She carried a bride's snowier bouquet of white roses. Throughout the ceremony was played softly by the piano, Spring Song, quickening at the close to Mendelssohn's Reconciliation. As the bride party was leaving the church, Mrs. Walter Robertson sang Gounod's beautiful and appropriate "Entr'acte Me Not To Leave Thee."

The bride is the oldest daughter of Mr. and Mrs. J. L. Jackson, one of the most prominent and influential families of the city. She has resided here since childhood, is a graduate of the Academy of Mary Immaculate and attended a select finishing school in Washington, D. C. The groom is a rising young business man of this city where he has lived for a space of several years, coming here from Mississippi. Both young people are very popular among the younger society circles and have numerous friends who rejoice with them in their new happiness. Mr. and Mrs. Bell left immediately after the ceremony for a short honeymoon to be spent in visiting Dallas, San Antonio and other points of interest in this state.

MISS STRINGER HOSTESS

THROW AWAY YOUR GLASSES.

A Free Prescription—You Can Have Filled and Use at Home. Do you wear glasses? Are you a victim of eyestrain or other eye weakness. If so, you will be glad to know that there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes, so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Opton, fill a two-ounce bottle with warm water, drop in one Opton tablet, and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should not see your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you even a little take steps to save them now before it is too late. Many thousands blind might have been saved if they had cared for their eyes in time. (Adv)

You will enjoy the whiteness and lightness of bread made with—

Cottolene

Although less Cottolene is needed than either butter or lard, yet Cottolene is so much richer that foods shortened with it are always exceptionally tender.

It makes all foods more digestible; Cottolene is more wholesome, more easily assimilated by the human system.

Bake bread as you always do, using a third less Cottolene than other shortenings, and add a pinch more of salt. You will be glad of the day you began using Cottolene.

THE H. K. FAIRBANK COMPANY
CHICAGO

J. O. P.'s most delightfully Tuesday afternoon. The usual diversions were enjoyed, sewing and conversation, the Victrola music, sandwiched in between. Late in the afternoon Mrs. Stringer, mother of the hostess, served a delightful two course luncheon, consisting of pimiento sandwiches, olives, pear salad, followed by ice cream and cake. The members present were: Misses Anna Belle King, Annette Coffield, Cora Lee Waggoner, Marion Crabtree, Tula Stokes, Carrie Roberts, Jewel Gullett, Mabel Williams, Beryl Murphy, Mrs. Hardy and the hostess.

FINAL SESSION OF ART LITERATURE CLUB TUESDAY

The final session of the Art Literature Club until the fall season was held Tuesday afternoon at the home of Mrs. G. W. Pilgo. The meeting was in the nature of a business session, a number of business matters being brought up for the consideration of the club. It was decided to organize a domestic science club, in line with the club's extension work advocated by the United Clubs. A meeting will be held on Tuesday afternoon of next week at the home of Mrs. C. W. Bean for the purpose of organizing a club of that sort with Mrs. F. J. Lechman as director. The resignation of Mrs. Harry Craven from the presidency and also membership of the club was accepted with regrets. Mrs. G. W. Pilgo will serve as president and two additional vice presidents were elected. A picnic was planned to be held at the lake two weeks hence. Before adjournment the hostess served delicious ice cream and cake to the following members: Mesdames Bean, Harris, Bolding, E. O. Pilgo, Bolding, Gebhart, Stonecup, Lechman, Blankenship, Harry Robertson, Rountree.

MISS GRACE NOLEN HOSTESS TO THE WESLEY GIRLS

Tuesday afternoon the Wesley Girls were very pleasantly entertained by Miss Grace Nolen. Sewing and conversation as usual formed the amusement features of the afternoon. Miss Allday, a guest, favored the club with a solo. A refreshing cherry ice-cream and cake was served to the following: Misses Muriel Hickman, Robinson, Humphries, Allday, Mesdames Rhea Howard, Lester Jones, Hartsook, Robison, John Chambers, Collier and the hostess, Miss Nolen.

OLD MAIDS MEET TUESDAY WITH MISS MATHIS

Miss Vivian Mathis was hostess to the Old Maids Tuesday afternoon. The program for the afternoon's diversions consisted of sewing, conversation and music as usual and the hostess served a dainty refreshment course. Two out of town guests were with the club, Miss Augusta Wadsworth and Miss Nell Thomas. Mrs. Harry May was an additional guest. The members present were: Misses Anna and Laura Bell, Eddie Carver, Carrie Nell, Mabelle Clifton, Helen Jalonick and Mrs. Brainard.

NEW BRIDGE HONORS DEPARTURE OF MEMBER

Tuesday afternoon Mrs. L. C. Hivick was tendered a pretty compliment by the New Bridge Club of which she is a member at the home of Mrs. E. P. Greenwood, the occasion of the affair being the immediate departure of the honoree for Ardmore, where she will in the future make her home. The lovely Greenwood home was decorated in a charming springtime effect with fresh garden flowers, the pleasing environment adding to the pleasure of the game, which provided entertainment for the afternoon. The club presented Mrs. Hivick a set of dainty gold finger rings as a slight remembrance. Mrs. Frank Collins won the prize for high score, a pair of white silk hose, which she in turn presented to the honoree. A dainty ice course in pink and white was served at the conclusion of the games. The invited guests were as follows: Mesdames Hivick, Dunnigan, Pines, Avis, Morris, Marcus, Abe, Marcus, Dent, Craven, Cullinan, Fenton, Griffin, Greenwood, Pounds, Roling, E. L. Smith, Parther, Smith, Terrill, R. E. Huff, Whitney, DuVal, Inge, Loeb, Moore, Weeks, Woods, Lechman, J. T. ED HOWARD, Mgr.

Gen. Villa has been invited to join his forces with that of Huerta and drive the Americans out of Vera Cruz but he politely declines. His first purpose is to capture Huerta and dispose of him. After that, he may decide to whip the United States. When he makes the attempt it will be his finish. Mexico will then be rid of both Huerta and Villa, and will most likely elect a man to govern her who can command the respect of the United States as well as other great Nations, and who will receive their support in establishing a decent government in Mexico.

During the month of April ten good roads bonds elections were held in as many counties of Texas, and of the ten elections six of them resulted in favor of issuing bonds. The total amount of good roads bonds to be issued in compliance with the elections is \$639,500. April of last year \$640,000 worth of good roads bonds were voted. Again we want to remind Wichita county land owners that one reason there are not quite so many home-seekers coming to this and adjoining counties is that the counties that have voted bonds for the building of good roads, are attracting them. The man seeking a new home is showing

a decided preference for the counties that are showing progressivism. Good roads means more taxes. No one can deny that. They also mean enhanced farm values.

Both a state senator and a representative are to be elected this year, and the people interested in the welfare of Texas should see to it that able and honest men are elected to fill the positions. The member of the State Senate to be elected will serve for a term of four years, and the district he represents is composed of forty-nine counties of which Wichita is one. The representative district is composed of Wichita and Wilbarger counties, and is the 101st. At the present time the 101st is without representation. The candidate to be elected this year will serve for two years. The membership of the next legislature should be made up largely of practical farmers and practical business men. The state has suffered enough already at the hands of the professional politician.

-SOME STRANGE BEDFELLOWS

(Conteville Record)
That "politics makes strange bedfellows" was never better illustrated than in the present gubernatorial campaign, in which are seen Colonel George W. Riddle, Cullen F. Thomas, Cyclone Davis, Judge William Poin-dexter and Will H. Mayes coddled up under the Tom Hall blanket. On the other hand, Colonel Jacob Wolters, Jonathan Lane and several other well known adherents of Joe Bailey are lying cheek by jowl with those who were arch enemies of the senator in that never-to-be-forgotten contest all now under Ferguson's "kiver." There is a lesson in this situation that should not be permitted to escape attention, and this lesson is that harsh things should not be said nor men's motives questioned in the heat of political conflict, for the issue that we differ upon in the campaign of today may be replaced by another and entirely different issue next year, and those whom we do battle with today we may in the future be lined up with as political comrades. So we repeat that it is not only wrong to lose our tempers over politics, but it is liable to prove humiliating and place us in awkward situations in campaigns of the future when confronted with bitter things said by us of others on past occasions. Keep cool and sane and you are pretty sure to keep tolerant, sweet and happy, no matter whether you are besieged by the victors or the vanquished.

The students of the Wichita Falls College of Music and Art will give a recital at the college Friday evening beginning at 8 o'clock.

"WITHIN THE LAW" A CROSS SECTION OUT OF LIFE

Bayard Veiller, author of the play "Within the Law" which comes to the Wichita Theatre Thursday night, his melodrama a cross section out of the life of a poor shop girl, who after "serving time" for a theft she didn't perpetrate, vows to "get even" which she does by marrying the son of her former employer. She is not in love or does not believe she is in love with Dick Gilder, but marries him to bring disgrace to his father, who was the real means of sending her to prison. The employer, in order to make an example and stop the petty thiev-

ery which has been going on in his department store, "takes away her name and gives her a number," so she decides that she will get even by taking his name, thus causing the public disgrace that will follow the young man's marriage with an ex-convict. Meantime, following her release from prison, she organizes a band of crooks and takes her revenge upon society by helping in various nefarious money procuring schemes that are nevertheless always "Within the Law." See even gets the aid of lawyers to protect her. Finally, Mary Turner is warned by the police to leave the city. She refuses, and a "stool pigeon" a member of the tight-fingered gentry, who will turn informer on his former comrades—calls on her and asks her in a burglary which he proposes to commit. She refuses the proposition, because she will do nothing which is not "Within the Law." One of her lieutenants, a lovable character although he is a forger, falls in with the scheme without her knowledge. The night of the burglary the police who have been informed by a stool pigeon, surround the place. It is the home of Mr. Gilder, Mary's former employer, which is about to be robbed, when Mary learns of the plan and warns the men by aid of the Morse Telegraph code sent over the phone. They refuse to make their escape without first securing the valuable tapestries, so Mary comes to them. Just as she exposes the stool

pigeon her husband comes into the room in time to see the forger, Gilder, shoot the pigeon with a revolver silenced with a Maxim Patent Mute. Although overcome by the fatality, the girl manages to allow the men to make their escape. Just as she is trying to convince her husband that he ought to leave her, so that she can make a hurried departure, the police inspector who has been awaiting the signal of his men to make the coup, walks into the darkened room. A colloquy occurs, in which the girl and her husband, who will not leave her, try to bluff out and are almost successful, when a searchlight from the Metropolitan tower sweeps through the window disclosing the stool pigeon stretched on the floor. The inspector is making an astounding arrest when the girl in a stirring, dramatic speech forbids it, proclaiming that the man was shot by her husband in the defense of his home, the murder being therefore clearly "Within the Law."

RUN DOWN FOR YEARS

Strength Restored By Vinol
Strength and even life itself depends upon nourishment and proper assimilation of food and unless digestion is good the whole body suffers. Mrs. C. W. Busby of Moundsville, W. Va., says: "For years I was in a weakened, run-down condition, and I could not find anything that would help me. Vinol was recommended and I tried it. Before I finished the first bottle I was better. I continued its use and am as well as ever. I have gotten several neighbors to take Vinol with the same result." We know the great power of Vinol, our delicious cod liver and iron tonic without oil, in building up all weakened, run-down persons, and for chronic coughs, colds and pulmonary trouble, and that is why we guarantee to return your money if it does not help you. IRISH LADS DEFEAT POSTOFFICE STAMPERS

Lads Score Two Runs on Error Winning 3 to 2—Game Featured by Strikeouts

In a warmly-contested, interesting game, the first game of the Twilight League Tuesday afternoon was won by the Irish Lads, who defeated the Postoffice Stampers, three to two. An error in the fourth inning led in two scores for the Lads and gave them the victory which up to that time had seemed likely to rest with the Stampers.

The game started at 6:20 and five full innings were played before it got too dark. Both pitchers seemed in good form and strike-outs were numerous. Hanks fanning ten for the Lads and Andrews striking out seven. Seventeen strike-outs in a five-inning game is an unusual showing. The Lads got three hits and the postoffice two, errors and bases on ball contributing mostly to the five scores that were made.

The disadvantages of playing on the old park grounds were so apparent that plans were started for playing at the city park hereafter and if necessary arrangements can be made, this will be done. The matter will come up at a league meeting to be held this evening when the admission of two additional clubs will also be considered. The score by innings yesterday was:

Irish Lads 001, 20—3 3 4

Stampers 110 00—2 2 4

The long bridge between Camargo and Trail went out in the high waters, losing 140 barrels. It will require about two weeks to repair the damage.

In the meantime passengers are being transferred by wagon which is possible on account of the rapid receding of the high waters after the flood. The Northwestern also suffered a washout on Beaver Creek north of Woodward.

The Canadian River has the unhappy faculty of washing out every bridge across it every time there is a heavy rain and forty-eight hours later being low enough again for a child to wade across. It has proven a veritable old man of the sea for Oklahoma railroads.

**"WINNING A SOUL" WAS REV. SANDY'S THEME**

Assistant Evangelist Addressed Large Crowd at First Christian Church Tuesday Night

"Winning a Soul" was the theme of an inspiring address by Rev. W. A. Sandy, assistant evangelist and personal worker with the Scoville party, at the First Christian Church Tuesday night. Tonight his theme will be "An Invincible Man." Dr. Scoville is expected to arrive any day but in the meantime services will be conducted nightly by Rev. Sandy.

An audience that almost filled the auditorium of the church greeted Rev. Sandy Tuesday night. He took as his text the invitation of Jesus to the fishermen: "Follow thou me, and I will make you fishers of men."

Every church had problems of finance, building, the choir, the preacher or some other matter, he said, but the problem of all problems, he declared, was the problem of bringing men and women to the Lord Jesus Christ.

"We hear much talk nowadays about church union," he said. "I tell you that when the men of the church become truly evangelistic that settles all other problems; they will find the great of all their differences in the great work of winning souls. Every church must be evangelistic or it ceases to be."

The essential thing in a pastor, he said, was that he have a divine passion to save souls. He declared that the congregation which he was addressing had such a passion and that the reason Dr. Scoville was coming here when he had other pressing engagements ahead for union meetings was that he knew this to be the case.

Rev. Sandy emphasized the fact that the fishermen were humble unlearned men. It was such men, he said, that the Lord was using in his work today. He gave many illustrations from his personal experience and history of how plain, ordinary, men, women and children had brought others to Christ.

A critic, he declared, would attack anything but a clean, pure life and a person that wasn't right with God himself couldn't expect to do effective work in saving souls.

DON'T MISTAKE THE CAUSE

Many Wichita Falls People Have Kidney Trouble and Do Not Know

Do you have backache? Are you tired and worn out? Feel dizzy, nervous and depressed? Are the kidney secretions irregular? Highly colored; contain sediment? Likely your kidneys are at fault! Weak kidneys give warning of disaster.

Heed the warning; so don't delay—Use a tested kidney remedy. Read this Henrietta testimony: V. M. Skipwith, retired farmer, Henrietta, Texas, says: "Some years ago I suffered from pains in my sides and across my back. My kidneys were weak and I had to get up frequently at night. So many people had such good results from Doan's Kidney Pills that I tried them and was completely cured. You can add my endorsement to the many you already have for Doan's Kidney Pills."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Skipwith had. Foster-Milburn Co. Props., Buffalo, N. Y.

Alaska-Canada Boundary Survey Nearly Complete

Sitka, Alaska, May 6.—Scarring a broad line across 600 miles of wilderness in the far north in order that the possessions of the United States and Canada may have a distinct separation at every point, will be completed during the coming open season. The work has been in progress since 1907 under the direction of Thos. Riggs Jr., civil engineer, representing the United States Alaskan Boundary Commission and T. D. Craig, representing a similar commission of Canada.

Although the United States and Canada have been neighbors in the far north for over a half century, the exact dividing line between their possessions, especially as to the northern portion, was previous to this survey, indefinite and conflicting. Many disputes arising, the two governments decided, finally, through their commissions, that an absolute survey, clearly established and marked for all time, should be made along the one hundred and forty-first meridian from the Mt. St. Elias Alps on the Pacific to the Arctic Ocean, a distance of approximately 600 miles.

The United States surveying party consisted of from 60 to 80 men each season since the work was undertaken. Chief Engineer Riggs, himself a young college man, selected his aids from the hardest, classes—cowboys, forest rangers, prospectors, timber cruisers and frontiersmen, with a liberal sprinkling of engineers. New expeditions were organized each spring, although many of the men who started at the beginning have remained in the service up to the present time. It was the custom, too, to leave a few men in the north each winter to care for equipment and supplies.

The actual visible results of the six or seven years of efforts a 20 foot vista cut, like a gigantic avenue, or lane, through all timber and brush districts, together with monuments set at intervals of points, from three to four miles apart.

The monuments erected are of two types, depending upon the importance of the locality. At prominent stream crossings and main points of travel the line marker consists of a 5 foot aluminum bronze shaft, weighing 800 pounds, set in 2,000 pounds of concrete. At less important points the

ANOTHER 10 CENT CUT IN CRUDE OIL PRICES

Seventy-Five Cents Now Quotation Here—35 Cents Reduction Within Five Weeks

True to the predictions of local oil men, another ten cent drop in oil prices was recorded in the Northwest Tuesday night. The price of the local oil companies' pooled seventy-five cents as the prevailing price for the crude product. This is thirty cents below the figures of five weeks ago making one of the worst periods of price depression the business has ever known.

After the two previous declines and the drop in Oklahoma prices, local oil men predicted that another dime would be slashed from balances here and this cheerful forecast proved only too accurate.

Prices here are now on a parity with those in the Oklahoma field, except Healdton where 65 cents is being paid. The prices here have kept pace with those in Oklahoma during the steady decline of the latter.

The drop served to accentuate the feelings of local independent operators, who take some comfort from the fact that their brothers in Oklahoma are no better off to say the least.

WEALTH OF HAIR

Parisian Sage Makes Thin Lifeless Hair Soft and Abundant

Beautiful hair, thick, soft, fluffy, lustrous and free from dandruff, is one of woman's greatest charms, yet so many have streaked, thin and lifeless hair and think there is no remedy. Pretty hair is largely a matter of care.

Frequent applications of Parisian Sage well rubbed into the scalp is all that is needed—it acts like magic. Try it tonight—you will really be surprised with the result. Not only will the hair become soft, fluffy, radiant with life and really doubly beautiful, but all dandruff disappears, falling hair and itching scalp cease—your head feels fine.

All druggists sell a large bottle of Parisian Sage for fifty cents. Get it from Fosshee & Lynch and they will refund the money if you are not satisfied.

Byers Notes.

Byers, Texas, May 6.—Wheat in the Byers country promises the largest yield ever known in this section. It will mature a big yield without more rain. Some had felt Sunday but not enough to cause any damage.

Rev. E. C. Pennington of Fort Worth, came here Saturday and filled his regular appointment at the Baptist Church Sunday.

John Grundy, editor of the Byers Herald, was with the National Editors at Wichita Falls Saturday. He remained over Sunday and reports a most enjoyable time.

Mrs. A. B. Bayette has returned to her home at Frederick, Okla., after visiting relatives here.

Mrs. W. S. Reasor went to Petrolia last week to visit friends.

Dora Winfrey who is taking music in Wichita Falls, spent a few days with home folks last week.

C. L. Monsinger went to Wichita Falls on business Monday.

H. L. Earl, the ice man, was a business visitor to Wichita Tuesday.

Carl Dawlen was a visitor to Byers recently.

Mrs. Ruth Watson, who has been visiting relatives in Newcastle, has returned home.

The Worst Boy in School

can often be made a model student through the use of glasses.

Before you scold and worry about your child, be sure that it is not bad eyesight rather than just "bad boy."

If you suspect that his vision is not perfect, bring him to us. Our examination will tell, without use of drugs, whether glasses will help.

ONE OF THE GREATEST PHYSICIANS

in the United States once said: "The effectiveness of a prescription does not depend alone on the physician who prescribes it but also on the knowledge and honesty of the pharmacist who dispenses it. Many people blame the physician when patients do not recover as rapidly as it seems they should. They do not for a moment consider that there is another man who is responsible for the welfare of patients along with the physician. The physician may do all that can be done but if a crooked druggist is gambling the patient's life against a few cents difference in the cost of what the doctor prescribed and what the druggist substituted the patient has a slim chance and the doctor gets the blame. Substitution is the meanest, cheapest crime that a hypocrite ever committed. The substitutor is afraid to crack a safe or rob a train and take a bag of gold but will steal thirty cents from a sick child that is fighting for its life. Bring us your prescriptions if we can't fill them exactly as written we can hand them back to you but we can't substitute."

WHY IS IT

That we are called upon to execute the best work either in building or monumental? We are doing right now the best marble and tile work in the homes of our citizens and in the finest buildings. Even out of town contractors recognize our ability owing to our superior equipment, to do a better class job than the average dealer. Our work will pass inspection from the most critical. Now then, why is it some people will be fooled into getting this class of work out of town? We are here to stay. Give us a trial.
