WRECKED JAGUAR—Carl Ellis of Perryton was injured and this 1952 Jaguar coupe was a total loss in a wreck which occurred Sunday morning at the east edge of Perryton. He was not injured seriously.

Carl Ellis Injured Sunday In East Perryton Accident

Carl Ellis, First National Bank resident, was injured and his 1952 Jaguar coupe heavily damaged in a wreck which occurred at 11:15 a. m. Sunday just east of Perryton by the Ranger Drive-in Theatre.

The Ellis car was hit by an automobile owned by C. B. "Mike" Jackson, in which Jackson, Ike Kennedy and Wylie Moreland were riding.

State highway patrolmen Jack Shields and Bob Loving, who investigated the accident, said they could find no eyewitnesses to the wreck, although several people came along soon after it happened.

Their investigation revealed that the Jackson car was driving west on the dirt road which runs by the south side of the theatre. The car hit the Ellis car in the left side while Ellis was driving west into Perryton on highway 117.

The impact rolled the Jaguar over 2½ times and Ellis was thrown out of the car. He was brought to the Perryton Hospital by a Boxwell Bros. ambulance, where he was treated for severe cuts and bruises. Although his condition is not considered serious, he is expected to remain in the hospital for several more days.

None of the occupants of the Jackson car were injured.

Shields and Loving said that they took statements from the three men in the Jackson car and had not learned who was driving the car when the wreck occurred. Statements of the men revealed that Jackson said Moreland was driving and Moreland said Jackson was driving. Kennedy said he didn't remember which man was the driver.

Bands Receive Top Rating at Regional Meet

The Ranger band and the junior high school band both received top ratings at the Interscholastic League meet at Canyon on April 24.

The Ranger band was given a superior rating in marching and an excellent rating in concert. Their overall rating was third in the region, placing behind Phillips and Tulia.

Bands competing in class AA were Canyon, Tulia, Phillips, Pampa, Dumas, Dalhart, Childress, Quanah, Shamrock, Wellington and Perryton. Only Phillips, Tulia and Perryton were rated superior in marching.

A superior rating indicates the highest possible performance, while an excellent rating is interpreted as a distinguished performance.

The junior high school band was given superior in marching and excellent in concert and the band was rated second in class competition.

Phyllis Vernon and Sidney Cook were given superior ratings in twirling, while excellent ratings

Fire Alarm Marks Health Campaign

The Perryton fire alarm will sound at noon Monday, May 4, but this won't mean there is a fire. It is a signal calling attention to the statewide campaign being conducted to acquaint Texas with Mental Health problems. Fire Chief Tom Waugh announced that more than 700 fire alarms throughout the state will be rung Monday to signify the opening of the campaign, which seeks to raise $148,796 for the Mental Health Fund. Contributions may be given to any fireman or left at the city hall.

Jaycees Capture State Awards For Local Projects In 1952

The Perryton Jaycees captured second places and a third in statewide scrapbook competition at the state convention in Corpus Christi last week.

Competing against Jaycee units in towns of 10,000 population and under, Perryton entered scrapbooks in three fields of Jaycee activities and won awards with all three entries.

Second place was received for a scrapbook on agriculture, which portrayed the part of the Jaycees in promoting the annual North Plains Fair each year. The Jaycees footed the bill for the fair entertainment, taking up around $9,000 for the event and absorbing a $300 loss.

Another second place was received for a scrapbook on Christmas activities, showing how the Jaycees took two local needy families and with the aid of Perryton merchants, gave these families more than $500 in food, clothing, fuel and toys.

The third place winner was a scrapbook on public affairs, which featured the poll tax drive and get-out-the vote campaign of the Jaycees in 1952. Acting as deputy tax collectors, Jaycees boosted the county poll tax payments to an all-time high, and the club worked with other groups to bring about record votes in the primary and general elections.

Bank Deposits Show Decline

Bank deposits in Perryton dropped over a half-million dollars between Dec. 31, 1953 and the recent bank call of April 20.

Total deposits on Dec. 31 were $9,738,091.28 and had dropped to $9,046,912.07 on April 20, a decline of $691,189.21.

The First National Bank had on deposit April 20 a total of $6,520,968.20 and the Perryton National Bank had on deposit $2,525,943.87.

Loans and discounts of the two institutions rose from $2,951,013.40 on Dec. 31 to $3,276,534.63 on April 20.

Cooper Chosen For Greenbelt Football Team

Don Cooper, co-captain and tackle of the 1952 Ranger football team, has been notified of his selection to play on the West squad of the East-West Greenbelt Game to be unreeled at Childress August 14.

Cooper was chosen on the all-district and all-regional football teams for the past two seasons and was a standout for the Rangers last fall.

The three-year-letterman has signed a letter of intent with Texas Christian University and will be a candidate for the Frog freshman team this fall.

He is the son of Mr. and Mrs. J. C. Cooper.

Highway, Rail Bindweed Control Program Planned

A group of men from the Chamber of Commerce agriculture committee met Monday with officials of the State Highway Department and the Santa Fe Railway in Amarillo and secured a promise to spray bindweed along the highway and railroad this spring.

The C. of C. committee had previously met with the Ochiltree county commissioners and secured a promise to control bindweed along county roads this year.

W. H. Lance, chairman of the committee, said that Guy Lott, district highway engineer, reported the department would be glad to spray the highway right-of-way. They plan to rent or lease a sprayer for this area.

J. I. Raymond of the Santa Fe Railway also said that the Santa Fe will spray along the track to control bindweed. He told the committee that the Santa Fe has about 800 miles of right-of-way with bindweed infestation in the Panhandle.

Landowners along county roads, state highways or the railroad who want bindweed sprayed are asked to remind local offic

Cloudy Weather, But Little Rain

A series of promising clouds floated over the Perryton area during the past week, but little rain developed from them. A shower last Thursday, April 23, brought .11 inch to Perryton with reports of heavier rains to the east and northeast ranging up to an inch in portions of Beaver county. Clouds on Tuesday and Wednesday, although bringing cool weather, failed to materialize into moisture as the Herald went to press.

REA Cooperative Elects Officers At Annual Meet

Members from five counties covered by the North Plains Electric Cooperative elected officers transacted other business and heard an outstanding program by the Quail high school chorus at their annual meeting in the school auditorium Monday afternoon.

Directors were named from the following counties: Hemphill, Johnny Young; Hansford, Alan Pierce to fill the unexpired term of W. E. Davis, and R. V. Converse elected to a three-year term succeeding R. D. Tomlinson; Lipscomb, Chas. Imke, re-elected.

In the annual organization meeting, the same officers were reelected. They are W. M. Good, presidnt; Ira Harbour of Stinnett, vice president; and J. H. Kershaw, secretary.

In the annual report to the members, manager Earl Waide pointed out that the cooperative has passed through the construction stage, with lines built to all farmers and ranchers in the area who desire electric service. The

A HOLE-IN-ONE—James Pitts holds the lucky golf ball with which he made that rarest of golfer's feats Sunday—a hole-in-one. He made his ace on the No. 6 green at the local golf course, hitting with a No. 3 wood on the 210-yd., par 3 hole. The feat was witnessed by Jack M. Allen, Gordon Shackelford, Warren Cudd, Alton Boxwell and J. B. Whigham. This is the first hole-in-one at the local course in 20 years.

Event Opens Friday At Vet Building

Fun for the whole family is promised at the Spring Carnival to be held Friday and Saturday nights at the Veterans Memorial Building, sponsored by the Jaycees with a number of other civic clubs and organizations participating.

Doors open at 7:30 p. m. each evening and the admission is free.

Representatives of the organizations to have booths at the carnival will start putting their booths together today, Thursday.

There will be several commercial exhibits in addition to the club booths.

Included in the list of attractions are a turtle race, bingo, ring tossing, side show, baseball throw, putting contest, duck ringing, penny pitching and numerous other games of skill.

Organizations participating in the carnival include the Rotary Club, Jennie June Club, Huntoon HD Club, Band Parents Club, Epsilon Sigma Alpha sorority, Lone Tree HD Club, Friendly Circle HD Club, Black HD Club, 4-H Clubs, Boy Scouts, Lions Club and Jaycees.

Perryton School Paper Story Put In Congressional Record

A story carried in the El Sombrero Perryton high school newspaper, concerning the death of Larry Slaughter in Korea, has been inserted into the Congressional Record by Sen. Lyndon Johnson.

Norma Davis, El Sombrero editor, received this week a letter from Senator Johnson, along with a page from the Congressional Record on which the story was reprinted.

In the letter, Sen. Johnson said: "A friend of mine sent me the March 27th issue of your high school newspaper, and my attention was drawn to your tribute to Larry Slaughter. I was so impressed by this well-written and very moving piece that I have had it inserted into the Congressional Record in order to give it wider circulation.

"It appeared in the Record for April 16th. I am enclosing the page on which it was printed.

"I want to congratulate you and your fellow-students not only on this tribute but also on the generally high quality of your paper. Sincerely, Lyndon B. Johnson."

The copy of El Sombrero was sent to Sen. Johnson by Tom Davis, county service officer.

In the Congressional Record, Sen. Johnson said:

"Mr. President, on March 15, 1953, a fine Texas boy, Larry Slaughter of Perryton died on the battlefield in Korea.

"Larry Slaughter was young. Only 4 years ago he was still a high-school student. But he was old enough and brave enough to fight and die in the cause of freedom.

"The Larry Slaughters of America—these fine young men who are this Nation's hope for the future—give us urgent cause to continue to work and pray for an end to the fighting in Korea and for a world in which freemen can live peacefully together.

"In the Perryton High School newspaper for March 27, 1953, appears a moving tribute to Larry Slaughter from those boys and girls who knew him as a fellow-student. The article in this school paper gives a graphic picture of the qualities possessed by Larry Slaughter—qualities

The physical examination call for May is for 20 men to be sent for physicals on May 14, Mrs. Phelps said. The list of registrants for this physical examination call has not yet been completed.

Sarah Mize to Be Featured With Amarillo Symphony

Sarah Mize, daughter of Mr. and Mrs. Gilbert Mize, will be a featured performer with the Amarillo Symphony Orchestra at the Spring Concert of the organization in Amarillo Sunday afternoon.

The concert, to be presented in the Amarillo high school auditorium, is an annual event which recognizes young Panhandle pianists.

Miss Mize was chosen for the honor at a Panhandle-wide contest several weeks ago. She is one of the two young pianists to receive the honor of playing with the orchestra. Mary Lou Jacquot of Perryton was named an alternate.

Bell Qualifies for State IL Meet

Don Bell, son of Mr. and Mrs. Aldon Bell, was the only winner at the Region One Interscholastic League Meet at Lubbock Saturday to qualify for the state meet next week.

Don was second in slide rule competition, turning in a score of 795, compared with the winning score of 800, made by a Ralls student who finished second at the state meet last year.

Direct Rhythm Paces to Top

Direct Rhythm, with Del Miller aboard, gets a good workout as he paces on the track before a race.

(AP Newsfeatures)

NEW YORK—If a poll were taken among harness writers regarding the pacer most likely to succeed in 1953, Direct Rhythm would win by more than a couple of lengths.

Five years old in 1953, the son of Billy Direct is the prediction of many experts to take the place of the retired Good Time. The latter was unharnessed at six after having won $318,792, top money figure in history.

Direct Rhythm, owned by William G. Reynolds, Louisville aluminum magnate, may not reach that figure in the next two years but his connections, including Trainer-Driver Del Miller, expect him to do a lot of winning.

Only two other pacers have run the mile in faster time than Direct Rhythm. They were Billy Direct and Dan Patch. Direct Rhythm covered the mile at Lexington in 1:56 1/5 during 1952.

He conquered Good Time in the $25,000 Yonkers Pacing Derby but was second when the pair met in the $25,000 National Pacing Derby at Roosevelt Raceway. Miller predicts the pacer will break Billy Direct's 1:55 time for the mile.

In 26 races in 1952, Direct Rhythm won 12, had three seconds and three thirds. He earned $58,491 during the year to run his lifetime earnings to $101,399. A son of Rhythm, a Guy Abbey mare, Direct Rhythm was bred by U. C. Steele of Glen Rock, N. J.

He is not the only star in the W. C. Reynolds stable. The nephew of the late W. N. Reynolds of Winston Salem, N. C., has three other fine pacers.

One of them, Meadow Rice, won the Little Brown Jug. Another is Meadow Chief and a fourth is Meadow Gold, a pacer that was bid in at $30,000 during the Harrisburg, Pa., Sales.

Farm Price Drop Caused by Many Factors, Experts Say

COLLEGE STATION—The less favorable price situation for agriculture currently is not a result of depressed domestic demand since the change came during a period of high employment and incomes. That was the opinion of a panel of economists before a meeting of the Agricultural Commission of the American Bankers Association at Houston recently.

The panel, composed of Harry Love, Virginia Polytechnic Institute; Tyrus R. Timm, Texas A & M College; E. C. Young, Purdue University; and O. B. Jesness, University of Minnesota, gave three major reasons for the drop in farm prices; namely: high over-all production in 1952; reduced exports because of improved agricultural production in other countries; and continued limited dollar exchange. The group attributed to increased marketings after several years of expanding numbers, the primary cause for the sharp drop in cattle prices. The classified butter and lard as special problems.

The economists pointed out that barring an expanded war, prospects are for a leveling rather than a sharp drop in defense spending. Moreover the easing supply situation indicated that production of industrial goods is catching up with demand.

Keeping the country's economy at a high level in the future they said, will require shifts of resources among farm commodities and between agriculture and business. New developments such as television and air conditioning offer opportunities. Highway construction and repairs represent a real need, as do school buildings, hospitals and the like.

Farm price supports, said the experts, is not the remedy for the present agricultural situation. But they hastened to concede, that present supports should not be abandoned quickly. Such action, they added, probably would demoralize markets, especially for wheat and cotton. Future agricultural adjustments, they said, will be more difficult to make should a major let-down in business activity and employment occur.

They believed the lower prices for meat would stimulate demand and thus help the leveling out process. Adjustments, they said, had to come for cattle numbers as production of any agricultural commodity can not be expanded indefinitely. Butter and lard are being replaced by other fats and oils and the high price support on butter appears to be pricing it out of the market. Recovery of lost markets may be difficult, if not impossible.

Price supports above market levels lead to surpluses and in turn to production controls. Price supports, over the long run according to the experts, should be reserved for periods of unusual distress situations. They hinder adjustment making and are capitalized into higher land prices and rentals.

On the whole, the panel members believed the financial position of agriculture was good. Farmers are in a pretty good position to make readjustments, but at present are more dependent upon high level employment and production in the remainder of the nation's economy than heretofore. The economists said leaders should be giving special consideration to maintaining a strong economy generally instead of to high price supports. The final objective, believe the economists, should be to improve and strengthen markets—and not to replace them.

Brown Services Held Monday At Booker

Funeral services were held Monday afternoon at the Booker Full Gospel Church for William Franklin Brown, a resident of Booker for 25 years, who died April 21 at San Pedro, Calif., while visiting his daughter, Mrs. W. J. Pottorff.

A retired carpenter, he was 83 years of age.

Rev. Bob Russell and Rev. Billy Sparks conducted the final rites.

Active pallbearers were Paul Eccles, Desley Custer, Clifford Puls, Eldon Simpson, Sylvan Hoover and Ted Getz.

TEXANS IN WASHINGTON

By TEX EASLEY

(AP) Special Washington Service

WASHINGTON (AP)—The prolonged debate on the submerged lands bill, which started in the senate April 1, brought out little on the subject that hadn't been said in committee hearings.

Highlights of the debate, therefore, came in the performance of certain senators. Probably the two most outstanding were Texas' junior Senator Price Daniel (D) and Alabama's veteran Senator Lister Hill (D), who were on opposite sides of the fence.

Daniel, backing the bill, established himself as a formidable man in the cross-fire of floor debate, and Hill showed oratorical prowess like that of the old champion of them all, retired Texas Senator Tom Connally.

Leaders of the states' ownership cause, recognizing Daniel for his background in the controversy as former Attorney General of Texas, called him up alongside their two other principal guns—Democratic Senators Holland of Florida and Long of Louisiana.

Although a freshman senator seldom plays a prominent role in a major fight, the Texan definitely was an exception. Only a dozen or so senators were on the floor at a given time during most of the debate, but a good majority was on hand when Daniel outlined the issues.

When Daniel got through Senator Humphrey (D-Minn.), an ardent advocate of federal control of the offshore lands, couldn't refrain from praising the Texan.

"The Senator from Texas has almost persuaded me," he smiled, "considering the evidence with which he has had to work. We are indeed debating with the experts."

"I believe that he has given perhaps the best presentation of the argument for the submerged lands case on the states' side that I have heard presented before the United States Senate."

Texas' Senior Senator, Lyndon B. Johnson, who occasionally throughout the debate had Daniel to sit in his chair as Senate Democratic floor leader, said:

"I do not know that I have ever heard a cause more ably and eloquently presented."

Hill denied he and other pro-federal control senators were filibustering the measure. But Long said that he, himself, had participated in filibusters and knew without a doubt that the talkathon in progress was a filibuster.

Holland went through the Congressional Record for the day in which Hill held the floor seven hours and one minute reading only the 4½ pages of a 73-page, 45,000-word prepared speech. He picked out 39 instances in which the debate wandered off the subject.

Other subjects, Holland said, included; characteristics of the Swedish people, a story concerning mining prospector, the Jeffries-Johnson fight, Panama Canal, scalping by Indians, bald heads, television, country stores in Arkansas and Alabama, quotations from the Bible, and poetry.

Russell Gets Kansas Job

C. D. Russell, Perryton contractor, has been awarded the contract to build the high school and auditorium at Colby, Kansas. Construction is to begin about the middle of May and the job will last about a year, Russell said.

Mr. and Mrs. Tom Royston, their son, Donald, daughter-in-law Bud Zehnder and granddaughter, Carol Ann Zehnder all of Pittsburgh, Penn. visited their cousins, (members of the Whipo family) Tuesday until Friday of last week. Mrs. Royston noted many changes in Ochiltree County including the city of Perryton since her last visit which was in 1908.

Mr. and Mrs. Gilmer LaMaster and Mrs. George Parker were in Lubbock, Monday and Tuesday. Mrs. LaMaster and Mrs. Parker attended the Garden Club Clinic at Texas Tech and Mr. LaMaster transacted business.

Making Big News in Performance and Price!

The New Packard CLIPPER

There hasn't been so much real interest and genuine excitement in a medium-priced car in years

FIVE months ago Packard announced the new CLIPPER line.

Five months . . . yet wherever you go today . . . in hotels, in restaurants, on trains, at parties, in meetings . . . wherever people gather, you hear them say: "The new Packard CLIPPER is the buy of the year!"

How come? Well, there's the Packard engine, famous since the year One in automotive history. This galloping big powerhouse with a reasonable appetite can purr like a kitten and pull like an elephant.

There's the Packard ride! Smooth, luxurious . . . it will make you want to ride 'er up and head for the wide open spaces.

There's Packard's contour styling that is setting the new trend in automotive design.

There's everything you want your family car to have today. In all, around 70 *big-car* features!

In fact, if you'll go to one of the CLIPPER dealers listed below and check the big-car features of this new car, we feel that you'll say, too: "Packard Clipper! It sure is the buy of the year!"

New Packard CLIPPER

In addition to the Clipper, PACKARD is building today a car so beautiful and fine that it is applauded everywhere as "America's new choice in fine cars." Ask the man who owns one—today! And rediscover the thrill of driving a Packard!

Males Are Junkmen

OMAHA (AP)—Police Sgt. Geo. Winterson, who ought to know, says men carry more junk in their pockets than women do in their pocketbooks.

Sgt. Winterson, night desk officer, has personally searched thousands of suspects in the booking pen during 24 years on the force.

He says hoboes without a dime usually carry a silver spoon in their pockets—to dig into hobo camp slumgullion.

Loadstones appear to be Nebraskans' favorite pocket pieces.

More men carry pictures of their children in their wallets than they do of their wives or movie stars.

The oddest thing he ever found—a manicured live turtle in a woman's handbag.

LLEGE STATION, April 25 —Elmer Jones, policeman, on Police Department, has ed his certificate of com- n upon graduation from econd Texas Municipal Po- Training School sponsored e Texas Engineering Exten- Service.

Howard W. Barlow, Direct- ngineering Extension Serv- resented the certificates.

A. Thomason, Bryan City ger, will address the grad- officers at a luncheon to d in the Memorial Student on the A & M Campus, noon, April 24, 1953. His will be entitled "Police Service From the Standpoint of a City Manager."

Thomason is also on the advisory committee for the School. All advisory committee members are invited to be on hand.

Bryan has had two men enrolled in each of the first two schools. Some cities are planning to send one or two men to each of the schools until their entire department has taken the course.

Training Texas municipal officers in Texas laws and the basic fundamentals of police work is the purpose of the school.

The school is the fifth of its type in the United States. Others are located at Michigan State; Louisville, Kentucky; and Northwestern University at Chicago. The FBI Academy at Washington, D. C. also trains municipal police officers.

Instructors will include Wallace Beasley, head of the school, Texas A & M College employees, Bryan and College Station officials, and out-of-town legal officials and law officers.

Divided into four week training periods, the school operates six and one-half hours a day, five days a week. It includes 120 hours of actual class instruction. The second school began March 30, 1953 and will be completed April 24, 1953. The third school will begin training June 1, and end June 24, 1953.

Men attending the classes are selected by their own departments to attend the school. Each policeman must maintain an average of at least 70 to stay in the school.

Pilot Is College Student

EAST ORANGE, N. J. (AP) — Burt B. Budlong, a junior at Upsala College here is an airline pilot—a flight captain for Allegheny Airlines.

Budlong is 32. He spent time with both the Navy and Army Air services during World War II, and then put in a year flying in Alaska and three years for Trans-World Airlines.

He joined Allegheny in 1949 and entered Upsala in June, 1951. He's studying business administration and hopes to be graduated in June, 1954.

The most important thing to him is maintaining his status as an honor student. That way, he gets twice as many class cuts per semester as less industrious, non-honor students.

So far, he has had no trouble in keeping within the allowed number of class cuts, although he averages about three flights a week for the Newark block of Allegheny's routes.

Budlong says he hopes to go on to law school because he knows that airplane flying—like baseball playing — puts something of a premium on youth, and he can't expect it to go on forever.

71 per cent of the farmers in that section preferred to plant all of the tobacco that they could possibly raise and take their chances on the open market, thereby waiving any rights to price supports. The testimony before the Agriculture Committee reflected that the tobacco so planted is now in the barns of Maryland farmers to be sold next summer, but it appears that the price they will receive for this tobacco is not equal to the price they could have received from the Commodity Credit Corporation had they elected to come under the price support program.

Therefore, this bill was introduced for the purpose of requiring the Commodity Credit Corporation to take this crop into the loan program, even though the farmers in southern Maryland had by an almost 3 to 1 majority elected to take their chances on the open market and had a free hand to plant as much tobacco as they desired.

It reminded me of the case of the negro boy who was hailed before a court to answer a charge. The judge asked him if he wanted to plead guilty or not guilty. The negro boy told the judge that he would like to hear the evidence first. That is exactly the situation that the Maryland tobacco farmers were in. They want to wait until the crop is in and find out what the market is before they decide on the support program. If this policy should be followed on basic commodities as a general farm price support program, it would bankrupt this country in no time at all.

And if the Maryland tobacco farmers are entitled to such a program, it would be hard to argue that the farmers raising other basic commodities would not be entitled to the same treatment. This type of legislation would add more fuel to the fires of those who would destroy the basic farm price support program than any other thing I can think of. The strange thing was that most of the members of the Congress realized it, but it appeared that certain factions had determined to force this bill through the House simply because Secretary of Agriculture Ezra T. Benson had put his stamp of approval on it.

STRANGE HAPPENINGS ON THE FLOOR: I have just returned from a session of the House of Representatives in which a rather odd situation arose. The measure before the House was a bill of six lines, that read as follows: "Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That notwithstanding any other provisions of law, the 1952 crop of Maryland tobacco shall be supported at 90 per centum of the parity price effective on the date of enactment of this Act." To those not familiar with the farm program this piece of legislation might appear very innocent.

The background of it is that the tobacco farmers in southern Maryland were given an opportunity to vote in accordance with the farm price support law for the purpose of deciding whether or not they wanted to accept planting quotas and become eligible for the price supports provided by law. It developed in the debate that 71 per cent of the farmers voted against quotas and therefore against becoming eligible for price supports.

This meant that only 29 per cent were in favor of the support program prior to the time the crop was planted. In other words,

The bill was debated for two hours, or that is the proponents of the bill argued for it for 98 minutes and the opponents got to argue about 22 minutes. Then the bill was read for amendment and a motion was adopted by voice vote which limited further discussion of the bill for amendment to approximately 25 minutes.

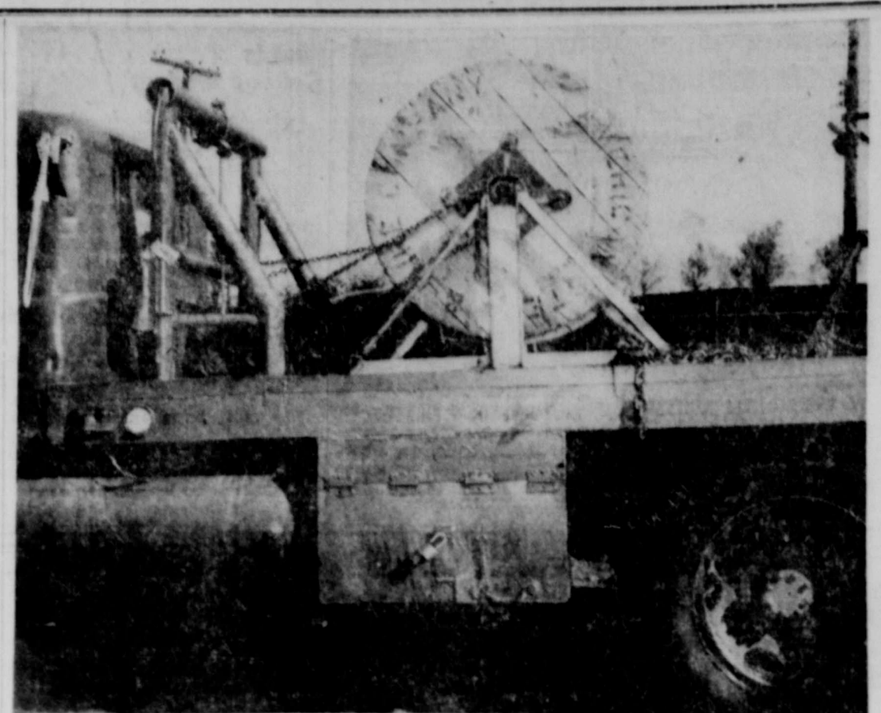

The few proposed amendments to the bill which were intended to do away with its bad features were shouted down on voice vote and soundly defeated on a teller vote, neither of which votes are recorded. Then on final passage of the bill a record vote was called for, and enough members were in favor of the record vote to insure it. On the vote on final passage of the bill it was defeated by the resounding margin of 213 to 110.

During the debate it was brought out by one of the Mississippi Congressmen who was on the Agriculture Committee that during the hearings on the bill, not one of the 71 per cent of the farmers who voted against coming under the support program appeared on behalf of the bill.

He explained this by saying that this 71 per cent was probably a bunch of Washingtonians who are farming on the side. In other words, city farmers who operate some of those farms merely for the purpose of saving some money on income taxes. They thought that they would make a killing in the tobacco market, and when they found out that they were not going to do this, they wanted the taxpayer to bail them out.

Passage of this legislation could have easily endangered the entire basic farm program for which so many of us have fought. I was somewhat amused at some who supported this bill and who have been screaming about creeping socialism. I thought they were against creeping socialism, but from the looks of this bill it appears that what they wanted to do was to speed it up.

THE DAR: The DAR convention has been in full swing in Washington for the past week. Mrs. Clyde Warwick, of Canyon, Mrs. J. A. Brannen and Miss Wilida Neely, of Amarillo attended. I had the pleasure of having lunch with them in the House Restaurant today, together with S. B. and Frances Whittenburg, of Amarillo, former Lt. Governor Walter Woodul, of Houston, my good wife, Jean, and four year-old daughter, Mary Catherine. It was a most pleasant experience, and I obtained much information about the great work that the Daughters of The American Revolution are doing. I wish we could have had more here from the Panhandle. We also had the honor of seeing Mr. and Mrs. Floyd Hubbard, of Panhandle, who were driving through Washington.

TIME SAVER in handling Community Public Service company wire is this power driven take-up reel created by Elmo Bennett, line foreman. The device is connected to the truck power winch wheel and can be used to keep proper tension on wiring jobs or in reclining power wire. Company officials are considering the device for use throughout the CPS system.

15 Carriers Aid Korea

FAR EAST NAVAL HEADQUARTERS, Yokosuka, Japan (AP)—Fifteen U. S. aircraft carriers now are veterans of the Korean war. Nine of them were in mothballs at the start of conflict in June, 1950.

Since the fall of 1950 the Navy said it has kept at least three attack carriers and one or more escort carriers in far Eastern waters. The Navy said it presently has the flattops Valley Forge, Oriskany and Philippine Sea on duty off the Korean east coast while escort and light carriers with Marine pilots operate off the west coast.

Every day more people are finding out how much time and money they can save by relying on Herald want ads.

Cough Is Symptom Of Disease, Says Health Officer

AUSTIN, Teas—A cough is just a symptom and not a disease, says Dr. Geo. W. Cox, State Health Officer. It is an indication that something is wrong in the body's respiratory tract or breathing tube.

When an object obstructs the respiratory passage a cough is nature's reflex to remove the obstruction. Such a cough is simple and transient. The same thing happens when the throat or lower passages are irritated during a cold, whooping cough, asthma, smoking, low humidity and dust.

A cough can be produced by more serious conditions such as tubreculosis or cancer. Constant coughing brings on fatigue as a person's rest is affected by the constant hacking.

A prolonged cough might indicate chronic bronchitis, a condition which in most cases is secondary to an infection elsewhere, such as the nose, throat or sinuses. Mucous draining into the throat may cause such irritation that the victim may involuntarily cough repeatedly to bring up the material.

Hoarseness is produced by persistent coughing in some persons. Hoarseness is a symptom of an inflamed larnyx. Hoarseness lasting for six weeks or more is a serious symptom suggestive of cancer and must not be disregarded.

No persistent cough should be disregarded. The nature of the infection and its location may be shown by an examination of the matreial expelled, and a thorough examination by the family physician will determine the cause and give a basis for treatment.

TV Jargon Explained

NEW YORK (AP)—One of television's newest terms, "UHF-TV," is the description of new channels now being taken over in the ultra high frequency area ranging from 470 to 890 megacycles. There is room for 70 channels.

The older TV-zone, "VHF" or very high frequencies, has 12 channels, extending intermittently from 54 to 216 megacycles.

It is believed that the cultivation of rye started comparatively late in comparison with some other cereals, possibly in the bronze age.

MORE PAY FOR TEACHERS—Rep. Lamar A. Zivley of Temple, Tex., urges the House to approve a bill that would give Texas teachers a $600 pay raise at a session at Austin. Zivley said he believes the taxpayers would be willing to pay more for the education of Texas children.

Ronald Reagan Tops Strong Action Cast

"Law and Order," starring Ronald Reagan, Dorothy Malone, Preston Foster and Alex Nicol and opening Friday at the Ellis Theatre, is a lusty, brawling story of the old West.

Action, suspense and romance are crowded into this well-acted and directed film whose story is based on the efforts of peace officers of the early-day West to curb the depredations of powerful lawless elements in the colorful towns of the frontier.

Public Cordially Invited

How to stop sinning and the suffering caused by sin is a point brought out in Sunday's Lesson-Sermon entitled "Everlasting Punishment" to be read in Christian Science churches.

The Golden Text for the Lesson is from Hebrews: "No chastening for the present seemeth to be joyous, but grievous: nevertheless afterward it yieldeth the peaceable fruit of righteousness unto them which are exercised thereby" (12:11).

The Discoverer and Founder of Christian Science, Mary Baker Eddy, has written in the Christian Science textbook: "Sin brought death, and death will disappear with the disappearance of sin. Man is immortal, and the body cannot die, because matter has no life to surrender. The human concepts named matter, death, disease, sickness, and sin are all that can be destroyed" (p. 426). This selection will be included in connection with these words from Matthew (7:17), "Every good tree bringeth forth fruit; but a corrupt tree bringeth forth evil fruit." It is emphasized that fear and sin produce mankind's enslavement, but these are destroyed by understanding the spiritual fact that God, good, is All, leaving no room for evil.

IN SUNDAY WRECK—This 1949 Chevrolet was damaged Sunday morning in a wreck at the east edge of Perryton when this car ran into a 1952 Jaguar coupe driven by Carl Ellis. Riding in the car were C. B. "Mike" Jackson, Ike Kennedy and Wylie Moreland. The car is owned by Jackson.

No. 2

Continued from Front Page

Charges of driving while intoxicated were filed in county court Monday against Jackson and Moreland and a charge of being drunk in a public place was filed against Kennedy.

All three men pleaded guilty and county judge Howard Slaughter assessed a fine of $100 and 10 days in jail against Jackson; a $100 fine against Moreland; and a $20 fine against Kennedy.

Damage to the 1949 Chevrolet owned by Jackson was estimated at $300. Damage to the Jaguar was estimated at $5,000 or total loss.

that are typical of the best in the youth of America. It is a picture that will touch a responsive chord in the heart of every father and mother.

"Mr. President, I ask unanimous consent that the article from El Sombrero, newspaper published by journalism students of the Perryton High School, be inserted into the Record."

There being no objection, the article was ordered to be printed in the Record, as follows:

"Blest be the tie that binds
Our Hearts in Christian love"

The class of 1949 stood slowly and repeated the words of this familiar hymn at Baccalaureate. Each member of the class reflected the words of the song and its special meaning to them. They thought of the connection it had with the Senior play, and how an easy-going guy had requested that the singing of this hymn become a tradition of Baccalaureate.

Yes, big, smiling Larry Slaughter initiated a custom into the halls of Perryton High School that will last as long as PHS stands. He was one of those who suggested singing "Blest Be the Tie That Binds" at Baccalaureate and "Hail Perryton Rangers" at Graduation.

In 1949 Larry strolled down the halls of PHS as a Senior. And as he walked along, he had a smile for every one. His former friends and classmates recall his slow, easy way and sunny disposition. Says one taecher "He was the balance wheel of the Senior class."

The 1400 Club today seems a part of Perryton High. But sometimes we forget the origin of such things and by spinning back five years on the Wheel of Time, we see that it was Larry who together with Harolyn Malone was the first M. C. to greet a radio audience with "Hi ya gang! It's your 1400 Club!"

Ranger fans who followed the Regional championship team of '47 and the winning team of '48 will long remember that left tackle who in the Jersey No. 72 helped to guide the Rangers on to victory. He was the Co-Captain in 1948.

The class play Larry's Senior year was OUR TOWN. He played Dr. Gibbs and Sam Craig. As Dr. Gibbs he was named on the Regional All-Star cast. It was from the last act of this play that "Blest Be the Tie That Binds" was made dear to the heart of Larry and each member of the class.

Larry gave his life on the battlefield in Korea on March 15, 1953 that we here in America—that we here in PHS—might go on living in peace. He died so we could stand at Graduation and with a lump in our throat sing "Hail Perryton Rangers." He died so that we would be free to play football and basketball as he did; free to struggle through English and geometry, free to present a Senior play, free to play hookey, and free to go to church. Yes, he sacrificed his life for us. It is Larry and the boys like him who, to quote Francis Scott Key in our National Anthem, keep American "a land of the free and a home of the brave."

And he will ever be kept alive in the memory of those who knew and loved him. On the 1400 Club, on the gridiron, in the halls, an on the stage his memory will live.

And at Baccalaureate as the Seniors rise and sing "Blest Be the Tie That Binds," each member of the Class of 1953 will think of the words with a deeper meaning, and they will silently thank that big, smiling guy, Larry Slaughter for inaugurating a custom of singing this beloved hymn, and they will realize the sacrifice he made to enable them to be free to sing it.

Roy K. Smart and his mother, Mrs. Ethel Smart of Oklahoma City, Okla. were in Perryton, Tuesday.

Two Criminal Cases Heard in District Court

Two criminal cases were tried in district court this week as the April term moved into its second week.

J. C. Lancaster, charged with child desertion, pleaded guilty and was assessed a two year prison sentence by Judge Jack Allen. The sentence was suspended and Lancaster was placed on probation with a provision that he pay $100 per month for the support of his three minor children.

H. C. Smith, charged with swindling by worthless check, was given a not guilty verdict by the jury Monday night after a trial which lasted until after midnight. Smith was charged with having given a worthless check to the Hobbs Motor Co. in payment for an automobile.

Two civil cases, a divorce and partition of property, were heard by judge Allen during the week.

Several civil cases which will probably call for a jury will be heard next week.

Redfern Closes Used Car Lot

Garland Redfern closed the Redfern Motor used car lot at 313 S. Main and has gone to work for Johnson Pontiac and Cadillac Inc., 101 S. Main, effective today.

He will be in charge of new and used cars, J. D. Johnson said.

Redfern opened the used car lot in July, 1951. He has had more than 25 years experience in selling and as a shop foreman.

It is estimated that the matter in the sun is sufficient to make about 300,000 earths.

Cancer Goal Is Nearly Reached

A total of $107 is needed for Ochiltree county to meet the 1953 goal for the Cancer Crusade, reports Ann Suitor of the B&PW Club, sponsors of the local drive.

The club has collected $701.32 with the goal set at $808 for the county. Donations are still being received and may be sent to Mrs. Suitor, Miss Hulda Schmidt or Miss Moina Caldwell.

Need More For Nursing Class

About six more presons are needed for the Red Cross home nursing course in order to start a new class, reports Mrs. J. F. Cox, home service secretary.

Anyone wishing to enroll in the home nursing class may do so by calling the Red Cross office.

Lions and Jaycees Change Meetings

Perryton's Junior Chamber of Commerce and Lions club will chage meeting times next week so that the Lions can hear a report from district governor Milton Morris.

Lions club will meet at Hotel Perryton Harvester Room at noon Wednesday and the Jaycees will gather at noon Tuesday.

Anderson Gets Lions Club Job of Linman

Jim Anderson was named to fill the unexpired term of Andy Linman as tailtwister of the local Lions club, Sam Hergert, club president announced Tuesday.

Linman is being transferred to Harlingen, Texas.

Coaches Divide Football Squad For Third Week

The Ranger football squad, now in the third week of spring practice, has been divided into A and B squads with coaches Jim Peterson and Duane Byars taking the A squad and Ernest Kendrick and Verdell Turner taking the B squad.

The B squad is composed of boys who will be freshmen next fall, except for several moved up to the A squad. These freshmen include Dan Pearson, Hobart Buxton and Bill Jines.

A spring game against the seniors of the 1952 team is planned toward the end of spring training. Peterson said Tuesday. No date for the scrimmage game has been set but it will be before May 14, when spring training ends.

Peterson said that at the present time it looks as if the starting lineup will come from the following boys: Ends, Billy Farrington, Bill Thrasher and Raybert Williamson; tackles, Ronnie Witt, Lester Ward, Arch Brashears, Jimmy Hash, Hobart Buxton; guards, Don Hulsey, Jack Wright, Buddy Payne, Jimmy Todd, Glen Simpson; centers, Marvin Flowers, Bob Williams, Jim Phagan; backs, Bill Drake, Ed Cummings, Billy McLanahan, Gene Good, Landrum Osborne, and Lawrence Langwell.

There are 15 lettermen back for the 1953 season plus a number of boys up from the B squad and 24 freshmen.

Peterson said that the team needs a lot of work on defense and that he is short on ends right now. The spirit of the squad is good, and there have been few injuries thus far.

Bindweed and Hoppers Are Meeting Topic

Bindweed is hand to grasshoppers are going more numerous this year ed visitors at the week conference held Thursday county livestock building.

Approximately 40 people tended the meeting.

Jim Gassaway, former mist of the Amarillo Experiment Station, reported on the spraying, cultivation and sterilization at the experiment station for bindweed.

Spraying with 2-4-D esters is the most successful method of controlling bindweed still retaining use of the land said. For small plots of bindweed borascue will kill the plants also render the soil sterile several years.

Every Panhandle farmer bindweed and the weed spreading each year, he said. It will spread all over its area if left alone. The seed is scattered by many methods. Once started, it is one of the hardest pests known to man.

Fred Reese, USDA entomologist, said that there will be 15 to 60 grasshoppers per square rod in this area this year, more hoppers than any year during the past few years. The range grass so short, the number of grasshoppers will be little grass for livestock controlled, he said.

Spraying is quite effective on grasshoppers, if done when enough area, he said.

Mr. and Mrs. W. S. Tate and Mrs. George Bolan of Oklahoma City, and Mr. and Mrs. Levi Morgan of Borger were guests in the Arthur home last week end.

Couple Honored With Shower

The Notia schoolhouse was the scene of a bridal shower Friday evening, April 24, honoring Mr. and Mrs. Emmett Beck of Beaver, Okla. Mrs. Beck was Miss Margaret Latham before her recent marriage.

Hostesses for the affair were Mrs. Warren Good, Mrs. Faye Savage, Mrs. Carol Wall and Mrs. Norman Swink.

The building was attractively decorated with spring flowers. An arrangement of red roses was on the piano.

Mrs. Arnold Good played selections during the serving of refreshments.

The serving table was covered with a linen and lace cloth and centered with a tiered wedding cake. Opposite ends of the table held a crystal punch service and a silver tea service.

The guests were seated at quartet, candle-lit tables which were covered with white cloths. Pastel mints and nuts were placed at each table.

Following the serving of refreshments, the honored couple opened their gifts, which were placed on a table covered with an embroidered white organdy cloth. Games were played to conclude the entertainment.

Attending the affair were Mr. and Mrs. Sam Handly, Mr. and Mrs. Troy Andrews, Walt Latham and David, Norman Swink, Mr. and Mrs. Shirley Hale, Faye Savage, Mr. and Mrs. J. W. Moore, Jr., Paul Hale, Warren Good, Mr. and Mrs. Robert Githens, Mr. and Mrs. Ed Savage, Carol Wall.

Mr. and Mrs. George Yates, W. H. Dutcher, Mr. and Mrs. Walter Daniel, Mr. and Mrs. J. H. Calliham, Mrs. Besse Hance, Mrs. Arnold Goodf, Mrs. B. L. Hanee, Mr. and Mrs. Ralph Hale, Mrs. Freda Hale, Mr. and Mrs. Jesse Brownlee, Al Dutcher and the hostesses.

Sending gifts, but unable to attend, were Mr. and Mrs. Harry Brummett, Mrs. Estill Carpenter, Mr. and Mrs. W. M. Good, Mrs. Etta Waggoner, Mrs. Joe Foster and Mrs. Ray McWilliams.

Wheat Prospects

Unpleasant as it may be to contemplate, it is evident that wheat crop prospects in this area are growing less day by day with the fast developing plant sapping the ground at a record rate of its minimum amount of sub-soil moisture.

Farmers are holding their fingers crossed and many conclude if a sub-soil soaking rain doesn't occur soon this year's wheat crop can be bid goodbye.

This pessimistic view has been demonstrated in past years, however, only to have Mother Nature come through with moisture which did bring about a crop after it had been given up.

With moisture, chances are still good for a wheat crop, and this particular area is more fortunate than others in the wheat belt, with growing wheat still in most every field.

Once, if and when, the 1953 wheat crop is proven lost, steps will immediately be taken to plant another crop. Farmers in these parts live the "never-give-up" slogan in their farming practices, which in itself is real reason for prosperity in the past.

We are overdue for a return to a harvest of some kind. For the past three years, local farmers have been merely "planters" with few of them realizing a return from their seed.

The Smooth Approach

A dashing "Army Major" with expensive tastes and a very smooth approach has successfully bilked merchants in Plains cities with a hot check racket. He operated in Borger and Pampa, and even got away with merchandise in Perryton in recent weeks.

A fine looking fellow, he carried fake credentials and apparently had no trouble at all in passing his worthless checks.

Proving, no doubt, that a polite manner and good looks, combined with a smooth approach, can be as valuable to a person in making a good living as hard work and thrift.

HERALD CLASSIFIEDS GET RESULTS

From the SIDELINE

with HAROLD HUDSON

Talking with a cattleman the other day, we discovered that losses in that business have been greater than we had realized. This particular cattleman said that he had lost about as much on his cattle in the past 18 months, as he had accumulated in the previous 10 years.

With cattle dropping from 40 cents to 17 cents during the 18 month period, equity in the animals has been wiped out for lots of operators, and even those with their own feed and cattle that they have raised from debt-free cows are feeling the pinch. "There's not a business in Perryton that could survive a 60 per cent drop in marchandise prices with no corresponding decrease in overhead," this cattleman said.

We don't know how general the feeling among cattlemen is, but this local man says he would like to see the government put the brakes on cattle prices. Says the Democrats would have done something about it long before now, had we not changed administrations.

The wheat crop is supposed to be a dandy in Kansas this year, according to government forecasters. But at the Beaver golf tournament Sunday we talked with some farmers from Hugoton and Plains who said their wheat was worse than that around Beaver. And the wheat around Perryton looks better than that around Beaver, so perhaps we are more fortunate than we think.

A lot of people sow wild oats all week and go to church on Sunday to pray for a crop failure.

James Pitts realized a golfer's dream Sunday afternoon when he made a hole-in-one on the No. 6 green at the local course. Most of the players never reach this green with a tee shot and it is about the hardest hole on the course to par.

As near as we can find out, this is the first hole-in-one registered locally since way before the war when J. H. Neufeld aced the old No. 2 green before the course was changed. There are some kind of tremendous odds against a hole-in-one, but we haven't been able to find out just what these odds are.

After witnessing a western picture at the drive-in Saturday night, we are beset again with an old desire regarding the fight scenes. Why doesn't a man go down when he is slugged in the face as hard as these western actors punch? You can see a cowboy absorb a punch that should take his head off his shoulders, but he is never fazed. He shakes his head, and keeps on fighting. It takes the realism out of the scene for us. Nobody could fight that hard with so little apparent effects of the fist slinging.

And if you really want to savor the full flavor of a western gun fight at the movies, take along a two-year-old boy with a toy pistol. By the time the gun fighting scene is over, you will find yourself panting with exertion trying to control a lad who shoots and hollers twice as loud and with twice as much enthusiasm as the actors on the screen.

It makes us kind of lonesome to read the oil well reports in the Sunday News-Globe each week and find nothing at all mentioned about Ochiltree county wells. Since the Lewis Welch No. 1 M. L. Brillhart was abandoned, we don't have anything drilling here. All the activity is in Roberts county. Looks like they could find something north of the Canadian river.

One thing about the Perryton Implement Co. boys—they will trade for most anything. They took in a cow and calf as a trade-in on a piece of machinery last week, allowing what they thought was a market price for the animals. Then they took the cow and calf to the sale Friday to cash in. Turned out the market had dropped between trade time and sale time and the implement men lost money on that deal. But you sure have to admire them for trying.

GI Students Drop

LOS ANGELES (AP)—The number of students attending the University of California without GI aid has increased from 25,672 to 27,203.

The total registration on five campuses were 30,575, a decrease of three per cent from last spring. Students receiving GI aid decreased from 5,719 to 3,372.

Bachelor Finds Baby

SALEM, Ore. (AP)—A mother abandoned her baby in a parked car. The car owner, an embarrassed bachelor, took it to the police station. Police are seeking the mother. They explain that if she signs a release, immediate adoption of the baby can be arranged. Otherwise adoption will have to be delayed for a year.

Wolf Creek Philosopher

Oil Level Not Important to Him

(Ed. note: The Wolf Creek Philosopher must be having oil trouble, his letter this week reveals. Bearings probably burned out.)

Dear editar:

I noticed in a newspaper the other day where some organization had taken a survey to find out what the average motorist would most like to see available for his car and found out it's a dashboard guage which would indicate the amount of oil in the engine.

I don't know where this outfit took its survey, but it wasn't around here. I have conducted a survey out here and find that what most car drivers want is an automobile that costs less to operate.

Most people used to have the notion that they were supposed to spend their lives workin to support their chilren, but the car has edged out the children in lots of cases and it seems to me the government ought to recognize tihs and allow you to take an automatic $600 income tax deduction on your car the same as any other dependent.

It would be nice I guess to have a gadget on the dashboard tellin you when you were low on oil, but most cars, after you drive em a while, you get to know pretty well and you come to know when they're gonna get need oil the same as you know about when a growing boy is gonna get hungry. They can put the gadget on if they want to, but fillin station operators are pretty shrewd and instead of askin if your oil is low, they'll switch to sayin is your oil guage workin, and still get to raise the hood and examine the oil stick anyway.

Personally, the gadget I'd like to see most on a car is not one showin whether I needed oil or not but one keeping me from needin any. I guess it's a fine system for example a bank's got for sendin you a notice when you're overdrawn, but it'd make a bigger hit with me if they perfected a way to keep that situation from developin in the first place. A gadget on your livin room wall automatically showin you how much bindweed you got growin in your fields would be an interesting thing to have around, but what I'm lookin for is a gadget to eliminate the stuff to start with.

Scientists are great people, but they're always workin on the wrong end of a problem.

Yours faithfully,
J. A.

Land Redistribution Summary

HONG KONG (AP)—A high Chinese Communist official in a summary on the Red land redistribution program reports that 300 million peasants have acquired approximately 116,670,000 acres of land.

This comes to a little more than one-third of an acre per person. Many critics of the Communist land reform say it will ultimately fail because in too many areas it merely breaks up small but sound farms into tiny, uneconomical units.

Pony Retires Too

DRUMHELLER, Canada (AP)—When miner Charles Dunn retired from the pits, he brought his 14-year-old pit pony out too. The pony proves she is still a willing worker by occasionally pulling a harrow over the acre of garden her master is cultivating.

So the People May Know

No county may legally change the salary of any public official or employee without first publishing the intention of the commissioners court to do so. Here is the state law on the subject.

"ART. 3912g. FEES OF OFFICE—NOTICE OF INTENTION OF COMMISSIONERS COURT TO MAKE CHANGE IN SALARIES OF OFFICERS AND EMPLOYEES.

"Sec. 4. Before the Commissioners Court shall be authorized to change the salary of the public officials provided for in this Act, said Court shall publish at least once a week for three (3) consecutive weeks in a newspaper in the respective county, notice of their intention to make changes of salaries of those affected.*

"So the People May Know" some of the requirements relative to the publishing of public documents and reports.

Texas publication laws were enacted by the Legislature to insure that the citizens would have the opportunity to be informed concerning the operation of their local government and the expenditure of their tax money.

Publication of governmental reports will obviously discourage corrupt practices on the part of public office holders. This newspaper casts no reflection on the reputation of any person who is working for any of our local units of government.

We do submit that strict observation of the state publication laws is a healthy practice, is in the interest of good democratic government, and should be a policy to be followed without exception.

MOBILGAS ECONOMY RUN FLASH!

FORD BEATS ALL IN ECONOMY!

MILEAGE MAKER "6" WINS SWEEPSTAKES!

Score a blazing victory for Ford's dollar-saving gas economy! Ford's high-compression Mileage Maker "6" with Overdrive beat every car entered in this year's Mobilgas Economy Run, regardless of size or weight, to sweep the sweepstakes! Ford's winning average was 56.70 ton-miles per gallon.* And Ford's high-compression 110-h.p. Strato-Star V-8 with Overdrive was right up there in economy, too, with a record of 48.55 ton-miles per gallon!

The winning Ford was a regular production car, just like thousands of other '53 Fords you see on the road every day. This 1,206-mile trip from Los Angeles to Sun Valley covered all types of driving conditions. The route threaded through city traffic, where stop-and-go driving tests an engine's fuel economy under the toughest conditions . . . and out along the highways of four western states.

The Ford Mileage Maker "6" took all this in stride, maintaining a speed above the required 44.25 m.p.h. minimum, to finish 1st in the sweepstakes! What better proof is there that Ford is the thriftiest car of all? What better way to show why Ford is worth more when you buy it . . . worth more when you sell it!

TON-MILES PER GALLON*

Ford is the first car in its weight class . . . in the history of the Economy Run . . . to win top honors in ton-miles per gallon over all other cars regardless of size or weight.

* The AAA Contest Board determines the winner by a "ton-mile per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons of gasoline consumed.

It might take half an hour—or 40 minutes—to name the winner of a mile race. At least there will be no complaints from television fans. None of the track meets in New York will be telecast.

"We had too many empty seats," says Fred Schmertz, director of the Millrose games. "And I couldn't blame the people who stayed away because track meets show up wonderfully on television."

This is the way Don Gehrmann, running for Wisconsin, and Fred Wilt looked as they came down the stretch in the Baxter Mile in Madison Square Garden last February. It's almost impossible to tell who won. Yet the judges at the New York A. C. games agreed Gehrmann won. Now look at the picture below.

Italian Film Pay Revealed

ROME (AP)—Salaries of Italian movie stars are modest by Hollywood standards, but they compare pretty well after taxes. Italy's two greatest draws—Anna Magnani and Gina Lollobrigida—receive $64,000 a picture. That's one third what a top U. S. star could draw.

Salary figures, a closely guarded secret in Hollywood, were released by the Italian Films Export board—much to the displeasure of the Italian stars and their agents.

Italian stars pay few taxes. A good guess is an Italian star pays about 15 per cent to the government. A top American star woul be giving Uncle Sam five times that much.

Wheat Market Change Seen for Nation's Farmers

Texas wheat farmers today faced a warning that the Nation's wheat producers accept a multiple-price system or be unable to compete in the world market.

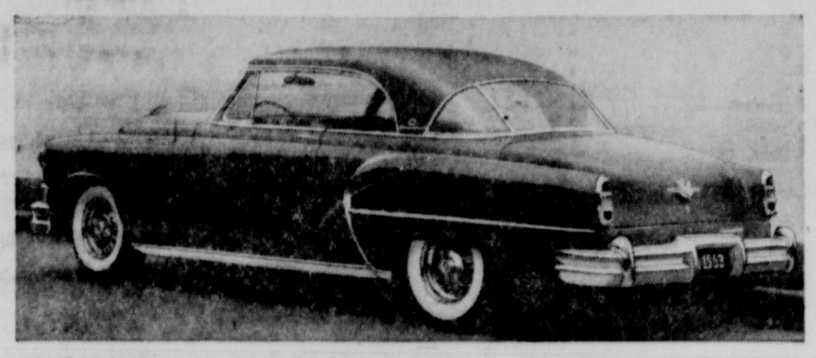

Roy F. Hendrickson, Executive Secretary, National Federation of Grain Cooperatives, writes in the May issue of Country Gentleman that Canada, Australia, Argentina, Turkey and Russia have wheat programs that give them a bargaining power the U. S. does not have.

Stating the case for the multiple-price idea, Hendrickson says:

"For the wheat required in domestic consumption as food, farmers would be assured of parity prices, based on a fair parity formula. That price would be fair to U. S. consumers and their supply would be secure. For the wheat goes into our International Wheat Agreement quota, U. S. producers—not the U. S. Treasury—might well bear the discount under the domestic price, if any discount is necessary. Beyond that, we should be able to export wheat at prices that would meet competition anywhere. And flour should share with wheat in these programs. The program would be self-financing.

"The wheat farmer's returns under a multiple-price system would be from a 'blended price'—something new to wheat producers but a very old device among milk producers. The plan may be called a certificate plan, a debenture or any other name. That is immaterial. What is important is that we should agree in the wheat industry on principles and policies and over-all mechanics. Then a legislative charter and administrative machinery must be provided. Only then can we become competitive once more in world trade without sacrificing the home market, and on a self-financing basis."

CHALLENGE TO THE INDUSTRY
-the new GMC 400-27 that outpowers and outclasses its field

GMC's new 18,000 GVW hauler not only dwarfs trucks of 16,000 and 17,000 GVW, but overshadows—and underprices—those rated at 19,000.

In fact, the GMC 400-27 is designed to outhaul any truck up to 19,500 GVW.

Its new engine of progressive design is stripped of excess weight, yet built stronger to absorb the stress of really high compression. It gives you brisker response, more power and mileage from regular gas.

It includes, as standard equipment, many features that are optional at extra cost on other trucks.

As a tractor—or as a truck—it can increase your hauling ability, give you impressively better equipment—and save you both purchase and operating money to boot.

130 GROSS HORSEPOWER—on moneysaving single carburetion. Valve-in-head engine, 270 cubic inch displacement, 7.5 to 1 compression ratio.

2-SPEED ELECTRIC SHIFT REAR AXLE—15,000 pounds capacity, is coupled with a 4-speed Synchro-Mesh transmission, putting 8 forward speeds at the driver's command. (Single-speed axle available at a saving; 5-speed transmission optional at extra cost.)

30,000 GCW—137" or 149" wheelbase in tractors; 161", 179" or 197" wheelbase in trucks (9- and 12-foot platform or stake bodies optional).

ALSO STANDARD EQUIPMENT: 4,500 pound capacity front axle—Hydrovac-actuated brakes—Moraine M-400 main *and* connecting rod bearings—Tocco-hardened crankshaft.

Disease Gets Noted Elm

LENOX, Mass. (AP)—The Dutch Elm Disease has destroyed one of America's oldest and largest elms which was growing in Massachusetts' Berkshire Hills when it was populated only by Indians.

The 111-foot tree, estimated to have been 306 years old, had towered above Elm Court, a mansion built in 1887 by W. D. Sloane, New York millionnaire. It was believed locally to have been the first American tree protected by lightning rods. Fuses in grounded circuits in the lightning rod system were blown out three times by lightning during the 21 years they wese in place.

Eight feet in diameter at base, the old tree had a spread of 164 feet in its hey-day.

Inspector Ladd Too Quick for Postal Thieves

"Appointment With Danger," which comes Sunday-Tuesday to the Ranger Theatre, is a drama of a million-dollar mail robbery. With Alan Ladd starring as a rugged, quick-thinking postal inspector, the picture is a tribute to the men who guard the U. S. Mails.

Based on actual episodes in the secret files of the Post Office Department, "Appointment With Danger" combines a startling brand of realism with suspense, violence and brisk dialogue. Here is Ladd at his best as the hard-bitten, cynical postal detective who likes his trouble in big doses. And he is given superb assistance by Phyllis Calvert, sultry Jan Sterling, Paul Stewart and a host of other supporting players who bring an excellently crafted screenplay very much to life.

The story opens explosively with the murder of a postal agent whose body is dumped into an alley. The only witness to the crime is a nun. Ladd takes over the case and with the nun's assistance traces the killers to a seedy hotel where he soon discovers that they are members of a gang planning a mammoth mail robbery.

Posing as a corrupt inspector who wants a part of the haul, he wins the confidence of the gunmen and induces them to let him take part in the big job. In the course of his plotting with—and against—the gang, he is almost murdered on several occasions and becomes dangerously involved with the leader's girl.

Cuts in the scalp often bleed more freely than cuts in other parts of the body.

"Small Town Girl"

Meet the new dancing man, Bobby Van. Here's the new tippity-top musical from M-G-M. Joyous Jane tames big-city worlf Farley Granger with tingling tunes. Your heart will sing, your eyes will dance.

Jane Powell Is Star of New Musical Hit

Jane Powell and Farley Granger appear together for the first time in the new Technicolor musical, "Small Town Girl," which will be shown starting Tuesday at the Ellis Theatre.

It's the latest tuner from the hands of Producer Joe Pasternak, who has given you such past hits as "Because You're Mine," "The Merry Widow," "Skirts Ahoy!" and "The Great Caruso."

Supporting the stars in the lilting story of a small town girl who sweeps a big city boy off his feet (but she has to get him out of jail to do it) are Ann Miller as a Broadway musical headliner, veteran comedian S. Z. Sakall, Robert Keith, singing Nat King Cole, Billie Burke, Fay Wray, and M-G-M's talented newcomer Bobby Van.

Miss Powell, who hasn't been seen on the screen since her appearance in "Rich, Young and Pretty," is given her best singing opportunity in the Nicholas Brodszky - Leo Robin musical score with such songs as "Fine, Fine, Fine," "The Fellow I'd Follow" and "Small Towns Are Smile Towns." Bobby Van has a specialty dance in "Take Me to Broadway." Ann Miller has two numbers, a Gaucho dance and the spectacular production number, "I've Gotta Hear That Beat," and Nat King Cole scores with "My Flaming Heart."

Whittler Cuts Comedy Caper

In "Dear Brat," the uproarious new comedy which opens on May 6-7 at the Ranger Theatre, co-star Lyle Bettger has one scene which is right up his alley. Cast as a paroled convict with homicidal tendencies, Lyle terrorizes banker Billy De Wolfe by whittling down his tie with a mammoth pair of shears.

Bettger is, in fact, a highly accomplished whittler. His hobby is scale-model making, and his home workroom is stocked with hundreds of fine cutting tools. The 30-inch steamboat model on the mantel of the living room set used in the film was made by Lyle, then given to admiring co-star Edward Arnold at the completion of shooting.

"Dear Brat," which continues the hilarious adventures that got under way with "Dear Ruth" and "Dear Wife," co-stars Mona Freeman with Bettger, DeWolfe and Arnold.

Circus Flight Theme of New Picture Thriller

"Man on a Tightrope," the story about the escape of a European circus troupe from behind the iron curtain, comes Sunday and Monday to the Ellis Theatre.

The star-studded cast is headed by Frederic March.

March is seen as the owner of the famed European Cernik Circus, and he lays plans to escape with his troupe to Austria from Czechoslovakia.

The picture concerns the troubles of the circus people as they try to outwit the Russian border guards in the flight to freedom.

Greatest Indian Fighter Appears

The story of the greatest Indian fighter of them all is told in "The Pathfinder," opening Friday-Saturday at the Ranger Theatre with George Montgomery in the title role. Filmed in color by Technicolor, "The Pathfinder" pictures the flame and fury of the French and Indian War. Helena Carter is featured in the principal supporting role. Robert E. Kent penned the screen play which is based on the James Fenimore Cooper characters.

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD

AUSTIN, Texas — The legislative spotlight centered this week on the question of whether or not public school teachers are going to get an increase in pay.

The teachers won an advantage when the Senate passed a bill giving them an increase of $600 a year.

Senator A. M. Aikin Jr. of Paris sponsored the bill, which has the support of the Texas State Teachers Association.

In passing the bill, the senators heard a warning that it will force a tax increase of about $30 million a year.

In the House, meanwhile, the teacher pay bill bogged down last week in a mass of technicalities.

Representative Lamar Zivley of Temple, sponsoring the bill in the House, ran into trouble from the economy-minded members every time he tried to make progress with it.

For example, when Zivley attempted to get the bill transferred from the house appropriations committee to another committee which he considers more friendly, Representative Joe Kilgore of McAllen brought up the point of order that no such transfer may be made without first giving six day's notice.

Speaker Reuben Senterfitt sustained the point of order.

Zively could not muster enough votes to suspend the rule. Nor could he get a motion passed instructing the committee to report immediately on his bill.

Representative Max C. Smith of San Marcos, chairman of the House appropriations committee rose to deny that his group is unfriendly to the teachers bill.

"I know from talking to some of the members that they are willing to vote out some kind of teacher pay raise bill," Smith said. "I don't know which one. It is possible that we could vote out a bill that wouldn't require [illegible] tax."

Zivley's bill, said Smith, was delayed pending certification by the state comptroller that the money will be available for the general appropriation of $166 million for the next two years.

Shortly thereafter, Comptroller Robert S. Calvert said the appropriations bill is within anticipated state revenue.

Smith, mentioning a bare possibility that teachers could be given a raise without an increase in taxes, said it might be done by passing Representative Kilgore's bill, which reallocates some taxes and puts a greater burden of school cost on the local districts.

Governor Allan Shivers had recommended a plan of this nature. But after last week's legislative skirmishing on the measure, the governor commented that a teacher pay increase bill without new taxes would look "like an empty gesture." The only other recourse apparently is settlement of the pending gas tax suit in favor of the state. This would provide $45 million dollars, Shivers' stand is definitely against any new taxes.

The governor, however, said that this legislature is, so far, "one of accomplishment." He expressed hope for passage of these measures:

1. Seven propositions dealing with water conservation.
2. A judicial redistricting bill.
3. Submission of Senator Geo. Moffett's constitutional amendment to use the Confederate Pension fund surplus for new state buildings.
4. Co-ordination of higher education.
5. Action on a toll road program.
6. Classification of state jobs, and provision of higher pay for professional and technical employees.

Before the House went a judicial redistricting plan, aimed at the political organization of George Parr of Duval County.

The house judiciary committee approved a bill for redistricting without a dissenting vote.

The bill would reshuffle the strife-weary, four-county 79th judicial district of South Texas.

Affected in the changes would be Duval, Webb, Starr, Zapata, Jim Hogg, Jim Wells, Nueces, and Brooks counties.

Charges against Judge C. Woodrow Laughlin of the 79th District were aired in the Senate.

Judge Laughlin, a friend of Parr, was summoned on a resolution by Senator William H. Shireman of Corpus Christi. The resolution calls for an investigation of Judge Laughlin's conduct in office.

The judge had previously appeared before a House committee on the redistricting bill, and before a State Bar Association committee which was probing charges seeking to remove the judge from office.

A bar committee member reported "a very nice hearing."

The judge commented: "Now I know how an innocent man feels when he goes to trial."

A House bill by Representative Bert Hall would increase the permit fees of beer and liquor dealers and set up a fund to fight alcoholism.

The bill has the support of the Texas Committee on Alcoholism.

Half a dozen witnesses appeared for the bill at a session of the house committee on revenue and taxation.

Art Stein, director of the New Mexico Commission on Alcoholism, testified that his state is providing clinical treatment for alcoholics at a cost of $140 per patient, and is effecting cures or rehabilitation in 80 per cent of incipient cases.

Former Speaker Homer Leonard, representing the beer industry, raised the objection that the tax would fall on wet counties, while much of the state is legally dry.

In the House is a bill that would bring about changes in the election code passed by the Legislature two years ago.

Passed by committee was the bill, which would repeal cross filing, remove the requirement that candidates file their expense accounts, and provide for polls to remain open until 8 p. m.

Visitors at the capitol the other day were the Perricone quadruplets of Beaumont, the only male quads in the world.

The 23-year-old brothers, Anthony, Bernard, Carl, and Donald (ABCD) are on duty with the Air Force Reserve. They have just completed a tour of duty in Korea.

SHORT SNORTS: The Senate has a bill, already passed by the House, that would cut off salaries of state employees refusing to testify about their communist connections on the grounds that such testimony might incriminate them . . . Dual control of state hospitals — administrative and medical—is provided for by these salaries in the appropriation bill: executive director, $15,000 a year; mental hospital director, $12,500; tuberculosis hospital director, $12,500; administrator, $8,700; educational director, $7,500; and design engineer, $7,500 . . . Texas is going to have an official duck-calling champion, to be selected at Beaumont during the South Texas Fair. Making it official is a proclamation by the governor.

Q. My daughter and I are receiving VA compensation payments because of the death of my husband, a World War I veteran. My daughter is past 18 years of age, but she is attending a school approved by VA. Will the compensation payments go on during her summer vacation? She intends to continue school in the fall.

A. Yes, the payments may continue throughout the summer, so long as your daughter resumes her studies after the vacation period has ended.

Q. My wife and I are both World War II veterans. Is it possible for us to combine our GI loan benefits to buy a house?

A. Yes. However, the total amount that VA will guarantee is 60 percent of the loan. Also, the maximum guaranty may not exceed $15,000 — which represents the combined maximum guarantees you and your wife would be entitled to, individually.

Q. I am a paralyzed veteran, eligible for a $10,000 VA grant for the construction of a "wheelchair home." Do I have to buy plans and specifications for the house?

A. No. These may be furnished without cost to veterans eligible for the VA grant, but they must meet the approval of VA.

Q. I am a disabled World War II veteran, training under Public Law 16. I suffered an injury in training that has aggravated the disability for which I draw VA compensation. Is it possible to have my compensation rate increased, because of it?

A. Yes, but VA, of course, would have to adjudicate your new claim for increased compensation.
